AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, FRIDAY, MARCH 29, 1929

12 PAGES \$2.00 A YEAR

## One Dollar Rain Received in Foard County This Week

### Rain of Three Days Amounted to 2.35 Inches Thursday

Best rain that has been received in many months started falling and by Thursday morning 2.35 inches of rain was recorded. The rain of Thursday morning prospects Thursday afternoon that conditions were not for more rain. The rain over this section and all of Foard County report from 1.5 to 2.5 inches.

For a million dollar rain for Foard County, said T. L. Hughston, county agent, said that the rain and close crop conditions in this part of the county was never in the shape in which this one fell. It was beneficial. With two or three inches of rain, it would make a fine crop and we are to make some wheat if no rain comes. Wheat is better than it has been in four years.

## Range Conditions Helped

Russell stated that the average rainfall in this section of Foard County as there are miles of cattle on the ranges and the rain to the grass is beneficial. He stated that the rain to the grass is beneficial. He stated that the rain to the grass is beneficial. He stated that the rain to the grass is beneficial.

## Foard's Terracing Program Is Larger Than Ever Before

According to estimates of J. C. Thompson, local agent for the Federal Land Bank at Houston, and County Agent Fred Rennels, around 15,000 acres of land in Foard County have been terraced this year. Mr. Thompson stated that more terracing has been completed and is still under way for this year than at any time in the history of this section.

Mr. Thompson said that practically all farms that have loans from the Federal Land Bank have been terraced and officials of that institution in Houston were exceptionally well pleased with the rapid progress of this work in Foard County. At terracing school was recently conducted here by A. K. Short, soil and conservation agent of the bank, and M. R. Bentley, soil expert, of A. & M. College, and was well attended by farmers from all parts of the county.

## Election Will Be Held on Tuesday

### In Council Race and Two Each for Mayor and City Marshal

A larger list of candidates is slated for the Crowell City election this year than usual and a heavy vote is expected when the polls open at the all Tuesday. Three aldermen will be elected from eight candidates.

## Wichita Acknowledges Crowell Appreciation

The Wichita Falls Record-News last week carried an article about the appreciation shown by Crowell and Foard County people to that city for the treatment it gave the Foard delegates on the recent auto caravan to that city.

The Record-News commented that the appreciation shown through letters to the Wichita Falls Chamber of Commerce was unusual. The names of those from Crowell and Foard County that sent courtesy letters were published in the article.

## West Part Crowell To Have New Lights

Eight new street lights have been received by the City of Crowell and will be distributed in the west part of Crowell as soon as a crew from the West Texas Utilities Company arrive to install them.

The lights are just like those in other parts of Crowell and will be put up in the same manner.

## Miss Lizzie Sloan Returned to Crowell Thursday After a Visit of Two Weeks in Fort Worth and Lingville.

Miss Lizzie Sloan returned to Crowell Thursday after a visit of two weeks in Fort Worth and Lingville.

## HERIFF MILLER IN BED

Miller, Foard County sheriff, was in bed Sunday Tuesday with a case of flu. It was necessary for him to go to bed on request from Federal Court at Wichita Falls. He was in bed for a few days following a severe attack of appendicitis while riding with Thomas, city marshal, last Tuesday.

## Frisco Officials Here Wednesday for Lunch

### General Attorney, Traffic Manager and Comptroller of St. Louis Among Visitors Here

Seven officials of the Frisco Railway were here Wednesday at noon while on their way from Seymour to Paducah and J. W. Bell and Mack Boswell conferred with them at that time.

The Frisco has made application to the Interstate Commerce Commission for a permit to build a line from Seymour to Paducah and was making the trip relative to that matter. The hearing on this matter will be held some time in May at Fort Worth before H. C. Davis of the I. C. C., according to M. J. Roberts, general attorney of the Frisco system.

Those in the party stopping here were M. J. Roberts of St. Louis, general attorney; B. H. Stange of St. Louis, traffic manager; H. W. Press, assistant comptroller, St. Louis; W. L. English of Springfield, Mo., supervisor of agriculture; G. L. Oliver of Fort Worth, traffic manager for St. Louis, San Francisco & Texas Railway Co.; J. D. Dickson of Seymour, Frisco attorney; and J. D. Montgomery of Seymour, agent for the Gulf, Texas and Western Railway.

The men showed an interest in this section and promised to visit it again. At their request, they were given briefs and literature concerning Crowell and Foard County.

Due to the rain they were unable to continue to Paducah and caught a bus for Quannah shortly after lunch for their return to St. Louis.

## Scout Campaign For Funds Meeting With Success Here

### Campaign Follows Breakfast of Workers Tuesday When Plans Discussed

Up to noon Thursday, about \$500 had been pledged by Crowell citizens for the Boy Scout movement being sponsored in this city. Of this amount, about \$300 had already been paid in and several of the committees working on the matter have not yet completed their work.

The drive for funds started Tuesday morning following a breakfast meeting of 18 citizens at the De Luxe Cafe when J. Ben Parrish of Quannah, scout executive for this district, explained the work and answered questions concerning it. Names of citizens of the town were divided and every man took a list and started calling on his men after the breakfast.

## Local Workers

Local men attending the breakfast that have faithfully worked on the movement are Leo Spencer, local chairman; M. S. Henry, R. G. Gribble, J. E. Beverly, Irving Fisch, Herbert Edwards, Bryan O'Connell, Paul Crews, Floyd Thomas, J. E. Harwell, L. A. Beverly, F. W. Mabe, C. V. Allen, Sam Rosenthal, T. B. Richmond, Eli Smith, W. F. Kirkpatrick and John Rasor.

To noon Thursday, those that have contributed to the Boy Scout work are Paul Crews, Allen Chevrolet Co., O'Connell and Son, W. F. Kirkpatrick, Rialto Theatre, M. S. Henry & Co., Blaw and Rosenthal, Gordon Gribble, Irving Fisch, J. E. Harwell, E. Swain, M. N. Kenner, Mike Brown, Claude Brooks, A. L. Johnson, Alton Bell, R. J. Roberts, H. Schindler, Sidney Miller, J. W. McDaniel, W. B. Tysinger, H. Bryan Ray, Z. W. Smith, O. O. Hollingsworth, H. E. Fox, Granville Lanier, E. S. Moore, Howard Pursey, John Long, R. B. Edwards, Sam Russell, Glyn Shults, Brown Franklin, F. W. Mabe, J. H. Olds, J. K. Beverly, Ferguson Brothers, C. E. McGowan, H. Kinsey, T. P. Reeder, B. F. Ellis, Hines Clark, Leo Spencer, B. F. Ivie, George Burress, Mack Boswell, Guy Housouer, T. B. Kelper and J. A. Ward.

It has been impossible for the committee to see some citizens of Crowell, however, it is hoped that those who have not been seen who wished to be contributors to this great movement will get in touch with any of the local workers mentioned in this article and make their contributions to them.

After raising of funds has been completed, the next step in the work will be to have a meeting of all who have contributed to the movement or rather the "stockholders" and plans for carrying out a program of boy scout work will be outlined. After this Mr. Parrish will conduct a training school for local men to instruct them in boy scout work and from this training school masters, assistants and committeemen will be selected.

## Fisch Resigned

Irving Fisch who faithfully acted as scout master in the past and practically shouldered the entire responsibility of the work himself, resigned from his position a few months ago and a complete new staff of officers must be selected.

Crowell is now fully affiliated with the Quannah Parker Area Boy Scout Council which includes the following counties: Hardeman, Foard, Childress, Cottle, King and Knox. Mr. Parrish thinks that two troops of scouts can be organized in Crowell with a possibility of four later on. Through the area council plan, local scoutmasters donate their time to the movement and a number of local committees and assistants work with the troops. The district executive is the only salaried man in the work and he makes regular visits to all of the towns, working with the troops, conducting training schools for local men along with all kinds of other work. The council plan has been working in other parts of the nation for many years and has proven an outstanding success.

## Magee Toggery Opens In Kenner Building

D. R. Magee has sold his interest in the Allen Chevrolet Company to C. V. Allen and has opened a cleaning and pressing plant in the Kenner building on the east side of the square.

Mr. Magee spent a few days in Dallas last week where he purchased the most modern cleaning and pressing equipment available and now has it installed in his shop. The activities of the new firm will be confined to cleaning and pressing.

Until about two and one-half years ago, Mr. Magee conducted the Magee Toggery in the Rialto Theatre building. At that time he handled men's furnishings in connection with his tailor business.

Dovle Kenner, an employee of the old Magee Toggery for about five years and who has also been in the tailor business for himself, will be in charge of cleaning and pressing for the new firm.

## ERTH

Born to Mr. and Mrs. Charlie Campbell, a baby boy, Dan Larry.

## Final Plans for Clean-Up Week Being Completed

### Mayor Appoints Precinct Heads and Asks Cooperation of Citizenship

Final plans for clean-up week, beginning Monday, are being made the week and with proper cooperation of the entire citizenship of Crowell, this city should be one of the cleanest and most attractive in West Texas by the end of next week. Many citizens are already making plans for cleaning their premises, re-painting their property, whitewashing of trees and other improvements, while some are not waiting until Monday and have already started their own clean-up and paint-up campaigns.

Practically all of the clubs of the town have appointed special committees to work in promoting the campaign that has been officially proclaimed by the mayor. These committees have met with city officials and plans for the week have been discussed. Mayor C. T. Schlager stated that the city is to start at once on the job of grubbing mesquite on some of the city streets. City officials also state that next Friday will be general pick-up day and it is hoped that all will have their trash in neat piles so that it can be easily and quickly picked up. Mr. Schlager stated that the city force is bound to be rushed and urges all that can to please haul their own trash to the dump ground, but if anyone is unable to do this, the city will take care of that work.

## Appoints Captains

In promoting the campaign, the city has divided into the regular county voting precincts and the following captains have been appointed by Mayor Schlager: Precinct 1—Mrs. W. W. Griffith, chairman; Mrs. A. D. Campbell, vice chairman; Elmer Reese, Ed Adams and Mrs. Jim Weaver; Precinct 2—N. J. Roberts, chairman; Mrs. B. W. Self, vice chairman; Mrs. H. D. Poland, John Esser, O. O. Hollingsworth, J. E. Harwell, Tom Bell, H. E. Ferguson, Tom Hincheston, Clarence Self, Mrs. R. B. Edwards and Mrs. M. O'Connell; Precinct 3—Albert Schooley, chairman; Mrs. Duke Wallace, vice chairman; Mrs. G. R. Webster, Wiley Jones and Mrs. Joe Ward; Precinct 4—Mrs. R. L. Kincaid, chairman; W. A. Cogdell, vice chairman; Mrs. G. W. Walball, Mrs. Clyde McKown, Glyn Shults, Frank Thomson, Charles Lloyd and D. F. Briscoe.

These captains have been urged to appoint assistants and through their work it is hoped to have at least one person to push the clean-up movement in every block of the town. Some of the group leaders have already called meetings of their captains to work out plans for the promotion of clean-up and paint-up week.

The cleaning of vacant lots and alleys is being strongly urged for this campaign and it is hoped that every person in town will take care of his own premises and help in any other way possible to make clean-up and paint-up week an outstanding success.

## Salvation Army Making Annual Crowell Appeal

The Salvation Army is making its annual appeal for funds to carry on its work in this part of the country and the southwestern Texas division. The quota for Foard County is \$150. The campaign is under the supervision of the County advisory board with M. S. Henry as president and T. L. Hughston, treasurer. W. F. Kirkpatrick and Que Miller are members of this board.

The Salvation Army belongs to the people and the good work it does appeals to all who are interested in the poor and suffering.

The Salvation Army maintains throughout this division protective homes for girls, maternity homes, industrial homes for men etc., not for the inhabitants of the city, where for centralized convenience, they may be located, but to serve those requiring such facilities no matter how what town or hamlet they may come.

W. D. Pedigo, campaign representative, states that it is the purpose of the Salvation Army to make only one appeal each year and that any other solicitation supposedly for them, taborine or otherwise, will be without authority from the organization. The erowing need of the Salvation Army every day in the year makes it necessary that the public contribute as liberally as it can, so that the organization can do its very essential work with the greatest degree of success and assist those who are down but not out.

## BACK FROM CALIFORNIA

Mrs. J. F. Long and son, James Everett, returned last week from Coalinga, Cal., where they have been for several months. Mrs. Long's health is greatly improved. The Longs will again occupy their residence that is having many improvements added, including two rooms and a large basement.

Almost 2,000.00 girls under twenty years old work for a living in the United States.

## Play Tournament Here Tonight and Saturday

### High School Auditorium to Be Scene of One-Act Plays for District 14 Schools

All is in readiness for one of the most interesting events that has ever been held in Crowell when various schools of this section of Texas will present their one-act plays at the high school auditorium in competition for District 14 honors. A small charge will be made to take care of tournament expenses.

Friday night Knox City, Roaring Springs and Lelia Lake will present their plays. Crowell and Memphis will compete Saturday morning at 9 a. m., and Saturday afternoon at 1 o'clock. Chillicothe, Flomot and Lakeview will compete. The three winners of these contests will present their plays in a final contest Saturday night.

Mrs. Ben G. O'Neal of Wichita Falls, one of the outstanding drama authorities in Texas, will be judge of the plays. She is a member of Women's Federated Clubs on the fine arts department and for the past two years she has been president of the Woman's Forum at Wichita Falls. She has written numbers of plays and last year her paper won a movie contest against 14 others. She is now compiling a book of one-act plays.

I. T. Graves, manager of the tournament, is very pleased with the liberal response of local citizens in furnishing rooms for the visitors that will be here, stating that 18 have offered rooms in their homes.

## Callaway Reviews Progress of Dairy Cows and Poultry

Possibly no man in Foard County is in closer touch with the general development of Foard County than Claude Callaway who is serving his second term as tax assessor of Foard County and a recent interview with this man reveals very interesting facts concerning the progress of the cow and hen in Foard County during the past five years.

Mr. Callaway was one of the four men that took the U. S. Agriculture Census for Foard County in 1925 for the Department of Agriculture, Bureau of the Census, and through taking such a census one is placed in the closest possible manner to the agricultural situation of a county as this report that is made every five years, covers every subject of all the farms from the number of chickens to the amount of products raised, value of the farm equipment and various other items.

Few Chickens in 1925

In commenting upon the situation about five years ago, Mr. Callaway stated that one farm in ten did not have a chicken on it and one farm out of every five did not produce enough eggs and butter for the family table use. Most farms that had chickens kept from twenty to thirty hens, a few had as many as fifty and only a very few had as many as eighty to 100 hens according to Mr. Callaway.

## Negro Shot at Vernon Man Near Foard City

### Wichita County Officer Happened to Pick up Negro Following Shot Sunday

E. S. Lacy of Vernon, salesman of the Waples-Platter Grocery Company was shot at by a negro Sunday night at about 9:30 o'clock on the highway south of Foard City. Tommy Nelson, 17 year old negro of Knox City, is in Foard County jail charged with the shooting.

Mr. Lacy stated that he passed the negro near a bridge just south of Foard City. The negro was standing in the middle of the road and as the car passed by him, the negro fired, the bullet going through the hood of the car, according to Lacy.

## C. B. Graham Injures Hand in Car Accident

C. P. Graham sustained a painful injury to his right hand last week when his car turned over as he was rounding a turn near Austin. The fingers on the hand were severely bruised along with other slight injuries to it, however, Mr. Graham was not hurt otherwise and he was able to drive the car home, as it suffered little damage.

Mr. Graham had just completed a visit to Corpus Christi and was returning to Crowell when the accident happened.

"After I have asked a few questions, I get in my jitney and drive out by the barn, and there I see two or three, and many times four and five well bred and well fed Jersey cows with their udders so full of milk that they can hardly walk. After I have looked over all of this, on various farms, and drive off, there is something within me that says, 'the it ever so I think, that surely must be a home sweet home.'"

## Foard County 4-H Clubs Have Large Enrollment for '29

### Seven Clubs With Enrollment of Over 130 Have Been Organized

With the reorganization of boys' 4-H clubs for the year by Fred Rennels, county agent, Foard County now has one of the strongest lists of club members of any county in this section of the state. Over 130 boys are already enrolled in the seven clubs of the county and others are being enrolled each day.

Thalia has the largest club in the county with 38 boys and Margaret is next with 25. Officers of the Thalia club are Raymond Phillips, president; Willie Cato, vice-president; and Charlie Wisdom, secretary. Earl Orr is president of the Margaret club which is known as the Mule Creek Club. Walter Hysinger is vice-president and Cecil Ray Moore, secretary.

The West Rayland club has a membership of 13 with Paschal Belew, president; Lloyd Whitten, vice-president; and Stanley Whitten, secretary. Lowell Tamplin is president of the Aversville club which has 14 members. Roy Ellison is vice-president of this club and Glenn Holder is secretary. The Antelope club has 12 members with Carl Lawson, president; Hubert Abston, vice-president; and Emmet Martin, secretary. Foard City has 18 enrolled with Daniel Callaway, president; Wendell Jackson, vice-president; and Norman Dollar, secretary. Twelve are enrolled in the Gambelville club of which Race Higgs is president; Elton Carroll, vice-president; and Edward Vadon, secretary.

## Callaway Reviews Progress of Dairy Cows and Poultry

Possibly no man in Foard County is in closer touch with the general development of Foard County than Claude Callaway who is serving his second term as tax assessor of Foard County and a recent interview with this man reveals very interesting facts concerning the progress of the cow and hen in Foard County during the past five years.

Mr. Callaway was one of the four men that took the U. S. Agriculture Census for Foard County in 1925 for the Department of Agriculture, Bureau of the Census, and through taking such a census one is placed in the closest possible manner to the agricultural situation of a county as this report that is made every five years, covers every subject of all the farms from the number of chickens to the amount of products raised, value of the farm equipment and various other items.

Few Chickens in 1925

In commenting upon the situation about five years ago, Mr. Callaway stated that one farm in ten did not have a chicken on it and one farm out of every five did not produce enough eggs and butter for the family table use. Most farms that had chickens kept from twenty to thirty hens, a few had as many as fifty and only a very few had as many as eighty to 100 hens according to Mr. Callaway.

## Much Progress

"There are very few farms with as little as 20 to 30 hens in Foard County. Many farms have 75 to 100 and it is a common thing to see 150 to 200 hens in various flocks. There are a few flocks of 300 hens and one farm that keeps as high as 800 hens. The people are not only increasing the quantity but are also improving the quality for they are paying more attention to scientific feeding and housing than ever before. In fact there are many farms in Foard County that remind you more of a poultry plant than they do a hen yard.

"It is also a pleasure to know that the class and number of our dairy cows have increased right along with our chickens. In practically every community I find a registered Jersey bull and many registered Jersey cows and young heifers. Practically all of these have high ancestry records behind their certificates of registration. These high class bulls have increased the class of our grade cows wonderfully, for we see many cows that are not registered that are beautiful and are well cared for and that are producing much milk and butter.

"As I go to and fro across our little county in my work of assessing taxes, I find that several times a day I drive up to a farm home where I see beautiful flocks of well bred hens, all of one color, feeding around or near a scientifically designed poultry house. Then as I go around the house to the back yard to see the man that lives there, I run on to a little neat, well kept brooder house that has in and around it, from one to three hundred baby chicks, all of one kind and color. It is surprising how intelligent these little chicks are cared for on most of the farms.

GAMBLEVILLE (By Special Correspondent)

Mr. Henry Campbell had as his dinner guests Sunday the following families: Dave Sallis and family, Vernon Pyle and family, Charlie Carroll, Jim Bailey, Felix Jonas, John Hargrave and their families, Mr. and Mrs. Greenleaf, Mrs. Mollie Free, Herman Whatley, and Bert Walden. Every one enjoyed the good dinner and the day together.

The Community Club met Monday afternoon with Mrs. Will Derrington, fifteen members being present. The club will meet Thursday week with Mrs. Alfred Derrington.

Mr. and Mrs. Dave Shultz were visitors in Vernon Saturday.

Mr. and Mrs. Blakemore of Foard City visited Ed Paeck and wife

Sunday. R. L. Pyle and family of Vernon visited Mr. and Mrs. Burrow Sunday afternoon, also Mr. and Mrs. Dunnagan of Crowell visited them.

C. D. Haney and family of Talmadge, Mr. and Mrs. D. M. Shultz took dinner Sunday with A. C. Johnson and family.

Mr. and Mrs. M. F. Meadow of Crowell on their return from several weeks stay in Dallas, stopped Thursday afternoon with their daughter, Mrs. Vernon Pyle, and family.

Mr. and Mrs. Claude Carroll visited C. D. Hall and family of the Black Community Sunday. Mrs. Carroll is a daughter of Mrs. Hall.

W. B. Shultz, wife, and little daughter, Hazel, spent Sunday afternoon with the former's parents.

Mr. and Mrs. Dave Shultz took dinner Sunday with Mr. and Mrs. Cato

of Thalia. Royce Cato of Stamford, a brother of Mrs. Shultz, also was there. He is employed as bookkeeper for the Hampton Chev. Co. of Stamford.

Take a look at our model brooder coop. You can't beat it.—Wm. Cameron Co.

RAYLAND (By Special Correspondent)

Mrs. M. E. Bushon of Childress returned home Saturday after a weeks visit with Mrs. Martha German and other relatives.

Rev. W. A. Reed of Baker filled his regular appointment at the Baptist church Sunday. Large crowds attended both services.

The associational B. Y. P. U. meeting will be at Lockett Sunday.

Pete Gobin returned home Friday from Beaumont where he had been attending grand lodge since Saturday.

Mrs. Bessie Jordan, Mr. and Mrs. Fred Duffy and children of Vernon, Mr. and Mrs. Will Gamble of Crowell, Chism Price, Myrtle Roberts, Walter Greenhouse, Oscar Colley and Carl Mears of Chillicothe enjoyed a picnic dinner at Mrs. F. T. Mears Sunday.

The following Easter program will be rendered at the Baptist church Sunday morning beginning at 10:15 o'clock:

Easter by Anna Joe Beazley, J. Edwards, Norma Younger, Kathalene Gordon and Maurine Abston.

Easter Eggs—Davis Edwards. The Legend of the Lily—Thelma Young.

Song, Lily of the Spring—Group of primary girls. The first Easter morning—Naomi Baker.

Easter—Robert Dewey German. Little Red Hen and the Easter Egg—Margaret Gregg.

Song, Hallelujah, Praise His Name—Intermediates. All little ones love Easter—Mary Joe Below.

The Lily—Dorothy Gregg. Easter—Earline Edwards. Song, O, Happy Bells—Seniors. Till Easter Comes—Martha Joe Caldwell.

Immediately after Sunday School the members of the Baptist Sunday School will take their lunch and Easter eggs and drive to a good place for an Easter egg hunt.

Misses Gusie and Zelma Russell visited Miss Pearl Ward of Thalia Sunday afternoon.

Stock holders of the Farmers Cooperative Gin met for a business meeting Thursday night.

Mrs. Bill Barrett and baby of Thalia spent from Wednesday until Saturday with her parents, J. C. Davis, and family.

Raymond Jordan of Vernon spent Saturday night and Sunday with Joe Wesley Miller.

Mr. and Mrs. Bud Clark and Luther Ward and wife returned Thursday night from San Marcus and San Angelo where they have been visiting relatives the past week.

E. W. Crisp made a business trip to Oklaunion Saturday.

J. W. Creager has been ill the past week.

Miss Hattie Lura Prescott of Elliott spent the week-end with Grace and Bonnie Crisp.

Horace Lambert made a business trip to Hale Center last Monday.

Mrs. A. C. Crisp and Mrs. Buck Clark visited Mrs. Bertha Richter of West Rayland Thursday afternoon.

C. L. Adkins and family, Johnnie Gamble and family, Mrs. George Johnson, Mr. and Mrs. Eric Wheeler all of Thalia attended church services here Sunday night.

Several from this community attended the interscholastic meet at Vernon Friday. Students that won from the Antelope school were, Mattie Funk and Ola Haynes, Senior girls spelling; Evelyn Beazley and Margie Davis, second place in Junior spelling; Luther Caldwell and Robert Dewey German won third place in Sub-Junior spelling; Emmitt Martin and Delu Caldwell, third place in arithmetic; and Laura Nell Price won second in declamation.

Dr. R. E. Maine was called Friday to see Mrs. F. H. Corzine who was very ill due to high blood pressure.

Juanita Mansel is ill with diphtheria. Buck Clark and family spent Sunday with Mr. and Mrs. Joe Jordan.

Miss Eula Mae Gregg of West Rayland spent Friday with Mrs. A. C. Crisp.

Miss Laura Nell Price spent the week-end with Mr. and Mrs. Buster Kincheole of Vernon.

Mr. and Mrs. Erzell W. Brooks of Vernon spent Saturday night and Sunday with Ira V. Younger and wife.

C. A. Glona is building a grocery store for Jim Gray, near the highway on Bill Clark's farm.

Mr. and Mrs. G. T. German spent the week-end visiting relatives at Childress.

Erzell W. Brooks, county superintendent, held a consolidation meeting at the Antelope school house Friday night.

Rev. W. A. Reed and family of Baker were guests of Mr. and Mrs. Devitt Edwards Sunday.

See our plans for modern poultry house. Approved by A. & M. College.—Wm. Cameron Co.

Two Girls Live on Hot Water and Rice

Due to stomach trouble, Miss A. H. and sister lived on hot water and rice. Now they eat anything and feel fine, they say, since taking Adlerika.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—Ferguson Bros., Drugists. A-6.

A Japanese tradition says that earthquakes are caused by a giant sleeping under the land.

Phonographs—Records Late Song Hits in Sheet Music Ambulance Service We Order Cut Flowers

The following letter was written to S. H. Ross, local Pierce Pet. Corp. Agent, by C. C. Fredericks, director of sales of the company, and is self explanatory:

"Service Since 1855"

"What does this mean to you and to your Customer? "Since 1855" means that your Corporation has been in the Petroleum Industry for 74 years—

"It means your Corporation is the oldest oil company, by many years—

"It means PIERCE blazed the trail, and the fact that we are larger today than ever before indicates that our 74 years spent in faithful, honest production, have been successful and appreciated by the buying public—

"It means your corporation has an honest heritage enjoyed by no other maker and marketer of motor oils, gasoline and greases. Be proud of this heritage—talk it to yourself, your customers and your prospective customers 365 days in each year—

"It means a Customer Confidence and a Customer Prestige that no national advertising campaign can build. Pages upon pages of copy—millions upon millions of dollars spent in advertising can never supplant the Prestige of Satisfied Customer Contact for more than 74 years.

"Dealing with PIERCE and using PIERCE PENNANT Products is not an experiment, but a tradition; men and women of four (4) generations have used your products and have used them to their entire satisfaction.

"Prestige—Confidence—Commercial Integrity—vast resources of experience—and the dependability of products, are the factors which the public knows and appreciates—a prestige that no copy can replace or create.

"What a foundation for your sales efforts for 1929. What a tried and tested base upon which to build your Quota.

"The users of industrial lubricants, motor oils, greases and gasoline in your territory know and appreciate these facts.

"Understand and take advantage of what "Since 1855" MEANS TO YOU AND TO YOUR CUSTOMER.

"C. C. FREDERICKS, Director of Sales."

It Did Rain

We knew it was going to rain and it did. So everybody is feeling good. The prospects for business and renewed farm activities are becoming brighter.

For the benefit of those who would like to buy gallon canned goods we wish to say that we have bought a shipment of apples and peaches which we are expecting to arrive the last of this week. We hope to have them Saturday and we can make a very attractive price on these goods when they arrive. Come in and see about them, or phone us.

We still have some of those seed potatoes which we are selling at cost. There is time yet to plant and this is your opportunity to get real bargains in prices of seed potatoes.

We keep fresh vegetables all the time. The supply is increased for Saturday's trade but we suggest that you place your orders early on Saturday for our vegetables go fast.

We can always take on one more good customer. Will you be that one, if you are not already? We want you to associate phone number 172 with your grocery needs and we will look after the balance.

# CLEAN-UP PAINT-UP

Clean-Up, Paint-Up Week! That means a brighter, better-looking town to live in. Let everybody get behind this campaign and do his share toward making it a success. Clean up the home premises—the yard, the garage, the fence, the home! Clean up your business premises! Repair! Re-paint! The merchants whose advertisements appear on this page are ready to cooperate with you in putting this Clean-Up, Paint-Up campaign across.

## FREE!

One room of wall paper to some lucky lady registering at our firm before April 1st. Not necessary to buy, just register and you may be the one to secure a full room of paper.

Free Souvenir also to be given every lady visiting our store. Don't miss our display of wall paper.

### Clean-Up and Paint-Up

And beautify your home and premises. Remember that we can supply your needs for paints, varnishes, wall paper and other items necessary to make the clean-up and paint-up week an outstanding success.

Wm. Cameron  
Co., Inc.

## When You Paint Paint to Last

You can do this by using only the best paint and you can find no better paint than SHERWIN-WILLIAMS, known throughout the world for its quality.

### Don't Be Fooled

Cheap paint is the most expensive in the world. Why? It costs just as much to spread poor paint as it does good paint; cheap paint will not spread so far and will not last so long. Be economical and paint to last with SHERWIN-WILLIAMS.

Let's make Crowell the most attractive town in West Texas. Do your part in the clean-up week, April 1-6.

CREWS-LONG HARDWARE CO.

## CLEAN UP ON ALL

Printed Silk Dresses. Starts FRI-  
DAY and lasts all next week.

## LET US HELP YOU WITH YOUR Spring Cleaning

Take down your curtains and let us clean them. And before putting away your drapes for the summer it is best to have them cleaned. They will be moth free and will be ready for hanging the day you want them. Our process is odorless and harmless.

Lighten your burdens of spring housecleaning by calling 292 for assistance. We will please you.

Help make clean-up week a success, not only for yourself but also for Crowell.

Crowell Laundry and Dry Cleaners

## B P S BEST PAINT SOLD

All together for clean-up and paint-up week. Use B. P. S. in this campaign and it will be an outstanding success for you and will help beautify your town.

### OUR CLAIM

We claim, and are in position to prove that B. P. S. combines the greatest wearing qualities, the greatest covering capacity and the finest finish of any paint manufactured.

CICERO SMITH LUMBER CO.

## Devoe Lacquer---So Quick, So Easy

### This Amazing New Way of Painting

No woman who has not tried it can imagine how completely different it is from all her old ideas of painting.

Here, at her finger-tips, is the whole range of modern color at its loveliest! The brilliance that Paris admires; the smartness that captured New York—are blended in the DEVOE LACQUER. With it, anyone can produce decorative effects never before possible.

Paint up the furniture and other items of the home along with clean-up and paint-up week.

### Don't Forget

That we can supply your needs in painting, whether it is paint for your furniture or for your home. Always remember that no better paint is made than "DEVOE'S."

FERGESON BROTHERS

Some Original Ideas of American Builders

While siding and shingle exterior coverings for houses did not strictly originate in this country, being largely modifications of existing methods brought over by the early settlers...

Houses covered with rough hewn siding boards, or clapboards, and crudely split shakes, or shingles, directly succeeded the first log cabins of the early colonists in this country.

Cedar and pine and other durable native woods are used in modern manufacture of shingles and siding, which are frequently stained to enhance their appearance and resistance to weather.

Wedding "Gifts" Once Held Legal Obligation

By a wedding custom common in the British Isles until the early part of the Nineteenth century, the couple sent out invitations in which presents were solicited from those who accepted the bidding.

Darwin might have been right in his day, but now it is only the quiet thinkers who manage to survive.

Uses of Education

Bees cut their several sweets from this flower and that blossom, here and there where they find them, but themselves afterwards make the honey, which is all and purely their own...

That Wouldn't Do

Wesley Williams was on the point of securing a new job—or, rather, his wife had secured it—and Wesley Williams was in imminent danger of setting down to it.

His account of the past few months spent in drawing unemployment benefits had not impressed his prospective employer, but the latter decided to give him a chance.

"Very well, you can have the job," Williams was told, "and you'll be paid just what you're worth."

"What I'm worth, governor?" he repeated. "That won't do at all! The wife told me to get a livin' wage!"

All the Difference

The clock had just struck twelve when Hoppeck inserted his latchkey and let himself into his suburban villa.

"Where have you been, I'd like to know!" she snapped.

"I—er—er—" began Hoppeck hesitatingly, when he was interrupted.

"Yes, yes, oh, I suppose you'll tell me you've been to see a sick friend—holding his hand all the evening?"

"Oh, no, my dear," replied the erring husband sadly. "If I'd been holding his hand, I would have made some money."—Pittsburgh Sun Telegraph.

Home Manufacture

A radio-loving family has been greatly annoyed lately by a man in the neighborhood who has an electric work shop, saw table and so on. He was running it full-blown one evening when one of the family, crying up the radio in despair, complained: "I wonder what on earth he's making." Then up spoke five-year-old Bobby. "I know," he asserted, "he's making static!"

There are millions of good people in this world, but the bad ones seem to have a way of making themselves heard.

Nature Provided for "Cold Storage" Pussy

One day the local carpenter, who had taken a job in the city, came to see me. He had under his arm one of the oddest little kittens I've ever seen. Apparently a long-haired white, it didn't look like a Persian. It didn't look like anything I'd ever seen before.

"What kind of a cat is this?" I asked him.

"This here is a cold storage cat." "A what?" I cried, thinking of frozen eggs and defunct chickens. Cold storage was in its somewhat sickly infancy then.

"A year or so ago," he explained, "the cold storage warehouse I'm workin' for took in a lot o' cats to kill rats. What with the damp an' the dark an' the cold, only a few of 'em lived, but the ones that did grew longer and longer hair, and this kitten is the fourth generation. I've got seven of 'em."

I watched the various generations of these kittens around the neighborhood, and was amused to see them revert to common short-haired—Mara Evans in the Saturday Evening Post.

First Book on Fishing Credited to a Woman

The first book that was published about fishing in England was written by the prioress of St. Alban's about the time the Cabots were busy making their American discoveries, and the fundamentals of angling have changed but very little since outlined by the authoress, Thomas W. Jull, champion fly-caster of Ontario, said recently. According to "Fishing Julie," as the authoress is commonly known, "the sport is to be followed for his own sake and not for mercenary gain."

Of the thirteen flies described in her book, twelve are in common use today, Mr. Jull said.

Walton's Compleat Angler, "the only classic that has ever been written on any sport," was written in 1653. An original copy at the time of publication was worth about 17 pence and now realizes a price around \$2,500.

Crime news that is printed is believed to make more criminals, but why don't printing recipes make better cooks.

The annual report about the peach crop being ruined is due almost any day now.

Despite the chilly name of Iceland, the temperature at its capital, Reykjavik, rarely goes below freezing.

Norse Names Common in Parts of Scotland

Professor Brogger, of Oslo university, in a lecture at Edinburgh university, commented on the striking fact that the majority of the place names in the Shetlands and Orkneys were of Norse character. A scrutiny of the old Norse farm names revealed certain types of names which had been most used in the Shetlands, Orkneys, Caithness and the Hebrides.

This proved to have been the southwestern coasts of Norway (Agder, Rogaland, and the northwestern (More). In the Agder coast districts in recent years a number of farm sites which had been examined proved to have belonged to an older Iron Age, and seemed to have been deserted in the Seventy-eighth centuries. They were usually situated in districts which were no longer cultivated. In all probability a number of these remains were relics of the emigrants.

Small Boy Had Found Perfectly Safe Place

It was the evening rush hour. An intensive throng, regardless of everything but their desire to get home as soon and as best they could, stormed the various entrances in the subway elevated trains as they poured into the central city stations.

The smaller was standing in the vestibule of the last car of the train. All seats, aisles and corners were jammed with humanity, a swishing mass. At Eighth Street the door opened to permit a few more to crowd in. A transit employee halted by shouting them along.

"Get that pushin'! There's a little boy here. Ain't you got any better sense?" This from an irate father, who was trying to shield his boy from the straggling mass.

The child, undismayed by all this anxiety and turbulence, smiled at his parent.

"Don't worry, daddy; they can't hurt me." He had crawled under the overflow of his father's stomach.—Philadelphia Public Ledger.

The members of a Himalayan tribe have not been ill for nine years. Their diet consists of eggs, fowl, fruit and grain.

The Age of Power

It is frequently and familiarly stated that the age in which we live is a "machine age." This is only partially correct. Actually, the present age is a POWER AGE.

Its tempo, its achievements, its prosperity—emanate to a very great degree from the abundance of cheap electrical power available in this country.

And West Texas realizes this fact as much, if not more, than any other part of the country. The growth and expansion of this section of the state within the past few years has been almost miraculous.

It is the happy privilege of the West Texas Utilities Company to contribute its part to the prosperity of West Texas. Its great metallic highways are carrying a new civilization to isolated villages, towns and hamlets. With 70,000 available horsepower of electrical energy from three big generating stations and 15 auxiliary plants this company provides uninterrupted service 24 hours a day, 365 days a year.

West Texas Utilities Company

NEW FORD 109,450 Miles Will They Stand Up? READ THIS LETTER SELF MOTOR CO. Authorized Ford Dealer Phone 224

HUBB DIGGS COMPANY FORT WORTH, TEXAS Ford Motor Co. February 2nd, 1929. Dallas, Texas. Attention: Mr. W. C. Proctor. Gentlemen: We are mailing you today under separate cover, photograph of the Montgomery Ward car which they are using for testing Riverside Tires. At the time this picture was taken, the car had been 105,000 miles and is still in the best of running condition and appears to be good for more than another 100,000 miles. The morning the picture was made, we washed the car for the first time since delivery; to look at it, drive it and hear the motor run, you would think it had been no more than 15,000 miles. It was purchased in Mansfield, Ohio, during May, 1928. The driver states that he is using on an average of about two quarts of oil each 500 miles, the car being driven 500 miles each day. It is driven 250 miles during the day by one driver and the same distance at night by another. They are using the second battery however. The manager of these test-cars states that the switch was left on over night, which he thinks is possibly the reason for having to purchase a new battery. They are changing oil every 1,000 miles; the same fan belt is being used and doesn't look worn. They have given the car a general greasing every 1750 miles and up to the first 100,000 miles had spent a little less than \$150 on repairs, etc. The rear axle has never been down; they have used two sets of brake linings, one set of pistons and rings, replaced clutch once, and have only used one extra hose connection. The original speedometer was replaced by us yesterday, as it had registered 109,450 miles. It was reset correctly at the end of 100,000 miles but later began to skip or lose from twenty to twenty-five miles each day. The car has been driven at an average of forty miles an hour. The wheels are still tight and running true, and bearings have never been replaced. We have been unable to secure information as to how many miles the tires have been averaging. We have permission from the Riverside Tire Company to use the picture and also the above information as an advertising feature, if so desired. Yours very truly, HUBB DIGGS COMPANY By: D. V. Brooks, Manager. DVB:GM

Solve Your Baking Problem for That Easter Dinner

Let us take the baking trouble off of your hands. Cakes, pies, bread, buns, or whatever you need in the baking line, can be supplied by us. Our service to you is so convenient and economical. Why not let us serve you? You will benefit as well as we.

TASTY BREAD

Our reputation for the finest bread to be secured is rapidly increasing. Its tastiness, fine grain and general good quality is making it the leading bread in this section.

ORR'S BAKERY

Costly Machines

Yes, our machines for repairing and overhauling are very costly, but they are the most modern and accurate to be secured and we are glad to invest in such machinery so that all of our work will be correct to one-thousandth of an inch.

Although our equipment is the best, our overhauling and repairing prices are exceptionally economical. ACCURACY and ECONOMY, that's the type of service you receive here.

CARROLL'S GARAGE

WOMANLESS WEDDING

Monday morning for chapel exercises the Senior boys presented a womanless wedding. Charles Ferguson, as pianist, played Lohengrin's Wedding March (?) as Preacher Price Lovelady took his place. "Hiram" Swain and "Sarah" Bursey, the country kin, with their family (Dan Hines Clark, Juana Fay Beidleman, little Jo Anna Gentry, Charley Boy Thompson, Henderson Coffman, Lillie Mae Brown) were ushered in by Preston Pettig. The bride's mother, Ernest Johnson, followed with the groom's guest, Homer Johnson.

The groom's party, made up of Jim Alice Hart, the groom, William Gaffard, best man, and Morris Bell, ring-bearer, entered from the west door of the auditorium. From the center door the flower girls, Jack Lankford and Charlie Harper, walked gracefully in, strewn cabbage leaves. The bride's maids, Jack Welch and Bill Bell, next entered. They were tastefully dressed in pink and rose evening gowns and wore picture hats in harmonizing shades.

The bride, "Miss" Moco Cogdell, next entered on the strong arm of her father, Herman Bell. The bride wore a beautiful white voile gown offset with a lonely train of white mosquito netting. The train bearer, Marcus Mills, was also dressed in becoming white.

After "Miss" Cogdell had said "I do" in a feminine voice, she lifted the groom to give the proper seal. The bridal procession then went to Robertson Studio to have a picture taken and then boarded the Orient to go to Europe on a honeymoon.

In contrast to the burlesque the Senior boys gave, the Senior girls will entertain next Monday morning in chapel with a serious program of readings, piano selections, and songs. Quite a few parents and patrons were present last Monday. The high school pupils and teachers are always glad to see these visitors and cordially invite them to come often.—Contributed.

PICNIC TIME

Twice during the past week, Mr. and Mrs. Silvan Haney and Mr. and Mrs. Faye Beidleman have chaperoned a group of the younger set on picnics to Sloan Springs. The weather and moonlight nights have been very favorable for these outings and both were greatly enjoyed.

Those attending were Misses Mattie Russell, Viola Taylor, Elizabeth West, Autie Anthony, Eva Todd, Bernice Webb, Louise Thomas, Edith Jones, Mary Sam Crews, Marion Cheek, Jessie Del Ricks, and Wilma Ball; Messers Merle Kincaid, J. B. Raspberry, Jessie Brown, Thomas Bursey, Jack and Floyd Thomas, Doyle Kenner, Gordon Gribble, Glen Offield, Lynn Easley, Richard Lovelady.

Claytonville Home Demonstration

The Claytonville Home Demonstration Club met at Mrs. Godwins Friday, March 22.

All members were present, and seven visitors were at the meeting. Four members were received into the club.

After the meeting was called to order by Mrs. Grace Davis, our president, we sang two songs, "The Eyes of Texas" and "My Old Kentucky Home." The minutes were read, after which we stood and repeated the Lord's prayer.

Miss Freeman then took charge of the meeting and gave us a short talk. After this the purpose of the meeting was carried out, each member having a dress pattern fitted.

Ice cream and cake were served by Mrs. Godwin to all those present. We will meet at Mrs. W. M. Howell's on Friday, April 5. Anyone who wishes to join has a cordial invitation to meet with us.—Reporter.

Every town in South Dakota with a population of 1,400 or more and 14 of 27 towns with a population of 1,000 to 1,400 have public libraries. Of the 68 town libraries in the state, 46 are supported by taxation and 22 are privately supported.

Announcing

The opening of a new firm under an old name, THE MAGEE TOGGERY. A new firm with the newest and most modern cleaning and pressing equipment to be found. Doyle Kenner, an employe of the old Magee Toggery, who also has been in the tailoring business himself, will be in charge of the cleaning and pressing for this firm.

Call 345

You may now secure the finest cleaning and pressing service that Crowell has ever known by calling us. We have spared no expense in securing the latest and best in all cleaning and pressing equipment.

**Poultry House Blue Prints Received Here**

J. R. Beverly is in receipt of a set of blue prints that he recently purchased for the type of poultry house used on the Week's poultry farms in California and Wichita Falls. The blue prints are very interesting and Mr. Beverly stated that anyone contemplating the construction of a poultry house may look over his plans.

After 25 years of continual experimentation and handling of poultry for eggs on a large scale, Mr. Weeks has found this type of poultry house to be the best and those who have seen the houses are of the opinion that they represent the limit of scientific arrangement.

Mr. Beverly's plans are for a house 24 by 72 feet, containing three sections and capable of housing 600 hens. Plans for trap nest, brooder, water fountain, special type roosts and other features are included in the plans. Convenience and ventilation are the outstanding features of the house.

Perfect ventilation is provided by a unique arrangement at the front. More cold and disease is caused by poor ventilation in poultry houses than any other cause. Where the poultry houses are deep, eliminating the rays of the sun to many feet in the house the air is very foul and changes very slowly.

Novel arrangements for cleanliness, time saving and numbers of other improvements are provided in the plans for this type of poultry house.

**PROTECTED BY INSURANCE**

At this season when fires are more frequent, due to extreme weather, we often read in the newspaper account of the fire "fully covered by insurance," or "partially covered by insurance."

It's a myth, says a well known man who has made an extensive study of insurance. And what he says is doubtless true.

Insurance never covers the entire loss on the factory, the home or the store. It never replaces the lost job, the loss of business, the valuable records or keepsakes of the home, nor can it compensate in any way for the tragedies that may be blamed on fire.

Yet our conscience is quieted by the old phrase, "fully covered by insurance."

When inclined to grow careless about fire, just remember that if you are insured to the limit, the face of the policy will not take the place of the many valuable things that would be destroyed.

A question, "When Should a Man Marry?" is asked in a column directed to the person who answers all such questions to the love-sick. We might suggest, just off-hand, without knowing the man, that he should marry early and seldom.

**Interscholastic Meet Attract Many Entrants**

The county interscholastic meet held last Friday and Saturday attracted good crowds and many entrants from the various schools of the county in the many events. The meet was handled smoothly and much credit must be given the officials for the manner in which it was handled.

Crowell was winner in both athletic and literary events. Oscar Mints of Thalia was individual high point man of the track meet, with Ernest Spears of Crowell, a close second. Other winners are listed below.

Primary chorus—first, Margaret; second, Crowell; third, Thalia; fourth, Vivian.

**"ORGATONE HAS PUT ME IN FRONT RANK AGAIN," SAYS WICHITA FALLS MAN**

Had Suffered Nearly All His Life Without Relief But Master Medicine Restores Him

"When I tell you that Orgatone has relieved me of years and years suffering, you can readily understand why I am so strong for this new medicine," was the remarkable statement made by A. F. Elliott of 417 Wichita Street, Wichita Falls, Texas.

"I had a number of troubles and it's the first time in several years I have been rid of them. Before I began taking Orgatone I had gas forming on my stomach and I would bloat up until I was miserable for hours afterward after eating. Several years ago my liver began to enlarge and the doctors couldn't do anything for me. I took every kind of medicine I heard of but nothing ever did me any real good. I was very badly constipated and was nervous and restless and wasn't able to get any rest at night.

"Some of my friends told me to take Orgatone and I had been keeping up with the papers and so I purchased a bottle. I want to say right here and now that Orgatone has proven several times its worth to me. I eat anything I want now, food does not sour on my stomach, my kidneys and liver seem to be functioning properly and, in fact, I just feel fine all around. Orgatone has done for me and I am glad to say what for it, in order that other people profit by my experience. I continue taking Orgatone as it helps me."

Genuine Orgatone may be had in Crowell at the Reeder Drug Store.

around. Orgatone has done for me and I am glad to say what for it, in order that other people profit by my experience. I continue taking Orgatone as it helps me."

Genuine Orgatone may be had in Crowell at the Reeder Drug Store.

ODDS ARE AGAINST YOU

Is there a person living who never ventured in buying some of stock that almost guaranteed to go over night?

The chances were that five or every one hundred the odds against you, as an expert in the stock market has stated the ratio is five out of every one hundred ever realize anything from investment.

This is not a casual estimate a calculation carefully arrived through a study of brokers' reports by Fred C. Kelly, financial expert who has analyzed the current breaking market operations.

Of the estimated 12,000,000 Americans, most of the newcomers speculation, who are "playing the market," the five per cent of who is made up almost entirely of uneducated, experienced speculators have plentiful capital. The rest of uninitiated outsiders who made money at the end of a year or a year of market dabbling most infinitesimal.

But a handful of outsiders tumble into easy money, and it's tales of their quick success rather than the recital of the failures, that draw new money into the stock market flame.

COUNTY FEDERATION

The Foard County Federation of clubs met at Foard City, March 21. With a splendid attendance the women of the county enjoyed the day with the Foard City women as hostesses. Promptly at ten-thirty the president, Mrs. M. S. Henry, called the meeting to order. After routine business officers for the year were elected as follows, president, Mrs. John S. Ray; secretary and treasurer, Mrs. Roy Steel; vice-president, Mrs. Claude Callaway; executive board Mesdames M. S. Henry and R. L. Kincaid.

The question of forming a nucleus for a county library was discussed and it was decided that at the May meeting each member would donate a book and thus make a beginning. The foundation for a public library would be a worthy accomplishment for the year.

The program for the day was conducted by Mrs. B. W. Self. Every member on program responded with carefully prepared talks and papers. The subjects ably discussed were:

Value of Home Demonstration Clubs, by Mrs. Will Erwin; Problems of the Farm Women, Mrs. Jim Cates; Early Spring Flowers and When to Plant, Mrs. Lee Ribble; Labor Saving Machinery for the Home, Mrs. Sparks; Interior arrangement of the Home, Miss Freeman; Home Demonstration Agent; and Clean Up Time, Mrs. N. A. Roberts. Each talk or paper was instructive and practical. Miss Victoria McDaniel gave a clever reading, "Home" by Edgar A. Guest, and Madams Callaway and Ferguson favored with a vocal duet. At the noon hour a bountiful table was spread and we enjoyed all the good things to eat and the pleasant contact of friend with friend.

We were glad to have present Madams Gordon and Allison of Crowell and Mrs. Crawford of Win-

terset, Iowa.

At the close of the meeting a vote of thanks was given Foard City women for their generous hospitality, and long will be remembered March 21 as a day well spent.

The next meeting of the Federation will be in May. The date and place to be announced later.—Reporter.

COMMUNITY CLUB

The club met March 20, with Mrs. Pete Bell. Mrs. Roy Todd led the lesson on "Home Improvement." The kitchen was discussed with much zest and Mrs. Jim Moody gave important ideas for its improvements.

Miss Freeman gave demonstrations of salads, the versatile mayonnaise and other salad dressings.

We don't have spring fever but a springing club spirit is manifesting itself, maybe we will equal Foard City yet. Who is going to have the liveliest Home Demonstration club in Foard County? We are going to try. That good old spirit of friendly competition, "ain't a bad thing for our rural clubs is it?"

Say, you should have been down to the school house last Friday night. All the men folks shaved off their growth of beard and looked right nice for the party. We were real proud of our community and showed it by making several talks.

After all the speeches were said our hostesses, Mrs. Bel and Mrs. Cates, served what they called refreshments, though it tasted like liver and onions. Pete and Jim said that's what it was, but it had some of the demonstrator's fancy salad dressin mixed up in it. It sure was a nice party, we just wish you could have been there.—Reporter.

Today they are probably called skirts only as a matter of courtesy.

Churches

Baptist Church News

Last Sunday marked another day of progress for Crowell Baptists. The Sunday School showed marked signs of growth and efficiency. Large crowds were in evidence at both preaching hours. Sunday morning the pastor spoke on the power of the Holy Spirit. He came on the people with great power and demonstration in so much that many said, "it is good to be here." At the evening hour Bro. Stephens from Chillicothe united with the church by letter.

The B. Y. P. U.'s were well attended. Signs of new life were manifested by the fact that our young people are planning some socials and a special training school soon.

Next Sunday the pastor will speak on "The Resurrection." The evening service will be given over to our Presbyterian friends on account of their revival. We trust all our people will attend this evening service, at 2 p. m. a committee from each of the churches of Crowell will meet to take a religious census of the town. The cards to be assorted and given to each of the churches according to the information received in the census. We trust that the entire town will cooperate with this move to bring greater blessings to each home and person in our midst. The various churches are to furnish a given number of workers to meet at the Presbyterian church at two p. m. for a short devotion and instruction and go out to cover the town, gleanin all possible information that will help the churches to help each person to a better life.

This plan was agreed upon by the pastors in the regular Pastors Association last Monday. We trust as your servants and pastors, that this move will meet with full cooperation on the part of all citizens of our town. God has blessed us with a fine rain, which is a sign of His cooperation. May each one show his gratitude to Him by lending your best assistance to this move.

A fine crowd of our people motored over to Mt. Zion Tuesday to attend the Workers Council. We found plenty of mud, a good rain, but the saints in that section were either asleep or gone from home. Nevertheless, we had a good time and enjoyed the mud. It certainly is good to get muddied up occasionally. Those who made the trip were: Mr. and Mrs. A. G. Bell, Mrs. Rucker, Mrs. Dunagan, Mrs. Agnes McLaughlin, Mrs. McBurnett, Mrs. Graves, Mrs. Fowler, Rev. Stephens and Pastor Woodie W. Smith.

W. M. S. met Monday at 3 p. m. in joint session and enjoyed a great study in "Royal Service."

At The Christian Church

Eighty-two in attendance at Sunday School last Sunday. Our goal for next Sunday is 100 and the Young People are responsible for attendance. Also the young folk are to have charge of the evening service.

The teacher's Conference was well attended Sunday afternoon and plans for more effective work were made. There will be a tendency to "let up" after Easter but we cannot afford to do this and our plans are such that we expect to hold our splendid gains. Everyone must help.

Bro. Powers delivered two very fine old fashioned gospel sermons last Sunday. If you did not hear them you missed something worth while.

Remember, Sunday School every Sunday and Decision Day Services next Sunday. Speak to that friend who should make a decision for Christ or should decide to place their membership with us.

C. V. ALLEN, Reporter.

Methodist Church

Plans are being made for a big day Sunday at the Methodist church.

The resurrection of the Lord Jesus from the dead is the foundation of our hope of immortal life. The coming of Easter brings most of our hearts turn to praise and worship of Him who is our resurrection and our life. Surely all our people will want to attend worship Easter Sunday.

We are extending a special invitation to all our people to attend Easter services Sunday at the Methodist church. Appropriate music and sermon at the 11 o'clock hour.

Sunday school at 10 o'clock. Junior church service at 11 o'clock. Senior Epworth League at 5:30 p. m. Woman's Missionary Society meets Monday afternoon at 2 o'clock.

The Crowell Pastors Association is making plans for taking the "religious census" of Crowell Sunday afternoon from 2 to 4 o'clock and they are asking all our people to cooperate with them by staying at their homes during these designated hours Sunday afternoon.

W. R. McCARTER

Presbyterian Church

The revival at the Presbyterian Church is getting along nicely and Rev. E. C. Cargil in bringing some splendid Gospel messages to the people. If you do not hear him, you will miss something worth while.

All of the pastors of the town are cooperating wonderfully in the meeting. The Pastor's Association held their session Monday morning at the Methodist pastor's study and several hours were spent in profitable planning for the future of the churches of the town. The association voted to take the religious census of the town next Sunday afternoon.

Come on and get your share of the good out of the meeting and be sure to put something into the meeting. Bring some one that is unsaved and pray for that friend that may be saved.

Special Easter services will be held at the Presbyterian Church Sunday evening and you are cordially urged to come.

J. T. BRYANT, Pastor.

Christian Science Services Sunday, 11 A. M. Subject for Sunday, March 21, "Reality." Sunday School 9:30. Wednesday evening service 8:00. The public is cordially invited.

EPWORTH LEAGUES TO MEET AT CHILICOTHE NEXT WEEK

Every Epworth Leaguer and every Methodist pastor should, and is cordially invited, to attend a district meeting to be held at Chillicothe April 6th and 7th.

Vernon District has an equal chance with all other districts in the N. W. T. Conference to win the loving cup. Let's get it! We will talk it over at the district meeting. Tell your friends and come.

EDWARD HUFFMAN District Secretary.

Gambleville Community Club

The Gambleville Community Club met at 1:30 p. m. March 25 at the home of Mrs. Will Derrington, with Mrs. Dave Sollis, the president, presiding.

There were seventeen present, 12 members, three new members, one visitor and the Home Demonstration Agent, Miss Freeman.

Dress pattern fitting was the demonstration for the day.

The next meeting will be held at Mrs. Alfred Derrington's home with a demonstration on colors and designs.—Reporter.

ORGANIZE FOARD CITY W. M. S.

The Missionary Society of the Thalia Baptist Church met with the ladies of Foard City Monday afternoon and helped them organize a W. M. S. at that place and also rendered a "Royal Service" program on the negro of today at the close of the meeting. The ladies of Foard City served a refreshment plate of angel food cake and hot chocolate.—Reporter.

Gifts of remembrance for our loved ones! The custom of exchanging gifts at Easter time is a charming one, and is growing with each succeeding year. The sentiment of this beautiful season is best expressed by the giving of gifts to those we love.

Don't let the wife, or husband, or sweetheart think that you didn't remember them on this day. Drop by and let us help you select an appropriate gift, it will mean a lot of happiness for both you and the recipient at just a small expenditure.

Blaw & Rosenthal

PROTECTION OF WILD LIFE TAUGHT IN SCHOOLS

Texas, March 13.—To the protection of wild game the object of a pamphlet now printed by the Game, Fish and Commission, which will be distributed to schools upon application by teachers or pupils. The pamphlet describes the game laws of the State and a few of the more interesting birds and mammals and supplementary reading material. It contains a brief account of what the Game Department is doing and a short drama illustrating the enforcement of the law by a court trial. A conservation program, which includes the suggestion for one day the week of May when the fishing has just opened. The entire program can be handled in forty minutes.

WORKING PLANS FOR FEED

cannot be repeated too often livestock farming must be based on production of feed. The feed is first; the stock comes second. The man who regards his livestock as the means of marketing his crops will never go far wrong. He is going to insist on efficient feed in order to get the most from the crops he raises. The feed isn't raised, feed must be bought, or the stock sold, or the feed on short rations. In either the owner loses money. Down in the southwest country grain is scarce and stock is being shipped in. This means grain sells at a price which adds freight haul, and one or more freight charges, to the price that power in some other state gets when we go to sell the stock which that grain is fed, it is sold at a price which is less than the cost of the feed. We buy feed. We make plans to grow feed we can keep in mind that it is the excess from which the livestock gets his profit. The feed is used to maintain the livestock overhead charge; it is an expense cannot be avoided. The profit is from the feed over and above maintenance ration, which feed is used into milk and meat and wool. A few short weeks all the crops are planted. Have you planned fully for feed for all the livestock and made some allowance for weather? Let's not forget that in the bin is worth more than any in the bank when feed must be shipped in.

CURRENCY ON THE WAY

age earners who are paid in money will receive smaller bills in the next few months, as the government is now preparing to call all of the bills and replace them with smaller ones. This does not mean that the wage earner will not get as much pay as formerly, the new bills will still retain the face value. The new bill will be six and five-eighths inches long and two and six-sixteenths wide. The present currency is seven and one-fourth by one and one-eighth inches. While the new money will have the same value as at present, Uncle Sam will save thousands of dollars annually through the reduction in size. With the present dimensions of the dollar bill it is possible to print only one on one sheet. The reduction in size will make possible twelve to fifteen on a sheet. By this alteration the time necessary for printing, the labor cost, will be cut approximately one-third. Although the government uses a special paper—limited to the treasury department—and fortifies it with a resin and glue compound, the cost of the average dollar bill is only a few cents. Dollars, naturally, are harder than the larger bills. The ancient prejudice against the one-dollar bill still exists and many persons refuse them on the theory that they bring bad luck. The general use of paper dollars is fairly recent. Not many years ago the man with money jingled silver dollars in his pocket, and loved to stack them in piles. A paper dollar was rarely seen then, and in the west the silver dollar was much preferred to paper currency. Now paper dollars are seldom seen. Paper dollars have increased by the million because of the great demand for them the government had to reduce their size or increase its facilities. The reduction obviates the necessity for more room and more printing machinery. It is expected that the new dollar will be in circulation about July first.

Famous Educator

William Holmes McGuffey was an American educator, born in Washington county, Pa., in 1800; graduated at Washington college, Pa., in 1825. He was a professor of ancient languages and later of moral philosophy in Miami university in 1830-33; president of the Ohio university in 1830-43; professor of moral philosophy in the University of Virginia from 1845 until his death in 1873. He compiled the so-called "Eclectic Series" and other school books.

No Atmosphere on Moon

The absence of atmosphere on the moon is proved by the fact that at the time of an eclipse of the sun the moon's limb is perfectly dark and sharp, with no apparent distortion of shape, with no apparent refraction. Similarly, when a star is occulted by the moon it disappears suddenly and not some what gradually as it would if its light were being more and more extinguished by an atmosphere. There are other indications which lead to the same conclusions.

Birdhouse in Prison

Sing Sing prison has so many tamed birds that an imprisoned architect is now supervising the construction of a circular birdhouse of stucco and wood to care for 100 pets. The birds belong to the institution and there are a good many singers and there are a good many among them. There are several parrots. The birdhouse is nearly forty feet in diameter and provision will be made to accommodate 1,000 birds.

Bodily Strength Not of Importance Today

The body of man is not what it used to be. The big-boned, muscular, prognathic, hairy, sturdy ape man has given way to the smooth-skinned, bald, slightly corpulent, spindly legged and thin-armed mental dynamo. For the sharp-nosed, keen-eyed savage with quick vision, sensitive touch, and rapid response, substitute the alert brained, heavily bespectacled, false-toothed director behind a desk. From his sanctum lead the tentacles of electric transmission and intensification of voice bidding to action. For weakened vision modern man prescribes telescopes, periscopes and microscopes as well as optical lenses. For the ears there are radio tubes, microphones and addition devices. For the sense of touch are provided callipers and other instruments of measurement more fine than the fingers of Jimmy Valentine.

And though the sense of smell is not added mechanically, the smells themselves are intensified to the point where they are obnoxious and overpowering. One wonders, indeed, how men tolerate now the oily, irritating, suffocating vapors resulting from the combinations of thousands of motor car exhausts and the evaporation of the covering of oiled roads. Muscles—except those of the heart and internal organs—are a well-nigh unnecessary attribute for modern man; the power of the machines makes brute strength merely a matter for exhibition and dramatic show.—Morris Fishbein in the Yale Review.

Family Keeps Sword of Patriot Ancestor

The great two-handed sword with which Robert the Bruce fought at Bannockburn has been handed down from generation to generation of the Bruce family who possessed Clackmannan tower. The last survivor of this branch was Mrs. Catherine Bruce, a lady of remarkable character and strong Jacobite convictions, who was convinced that her possession of the royal sword of Scotland gave her the prerogative of conferring the honor of knighthood. She thus honored many visitors to Clackmannan tower, among them Bobbie Burns, who visited her when she was a nonagenarian. As Burns rose to his feet he gallantly kissed the old lady's hand. "What ails thee at my lips, Robin?" the ancient dame is said to have asked.

Just Her Way

All in one evening, while dancing with me, she said: "The hall is so hot, I'm cooked." "I'm crazy about dancing." "I was petrified, when I saw him." "That light is so glaring it makes me blind." "Can't you shut the window? I'm frozen stiff." "You make me sick." "I nearly had a fit when he told me about that joke." "The last partner I had drives me insane." "I simply died laughing." "I was perfectly dumb." "I'm so tired, I'm just dead." Then when I looked at her she seemed as alive and healthy as ever.

Of Course

In a plea for more careful use of English, Professor Jordan said: "A great many American expressions are directly contrary to what we really mean, and the real reason why the English are sometimes so perplexed when an American tries to say something. The story of how we say 'lookout' when we mean 'look in,' is a sample. 'The other day, on the beach, I heard a young girl ask: 'If I were drowning, would you help me?' 'No,' said the young man, 'evidently an Englishman, I'll endeavor to prevent you.'"

England's Oldest House

Minster abbey, in the Isle of Thanet, is said to be the oldest house in England. It is in the market by order of the trustees of the late Lord Conyngham, the fifth marquis. It is said to be a fine example of an Eleventh century Norman manor house, renovated about 1413, the house being built on the site of Edburga's monastery of Saints Peter and Paul, founded early in the Eighth century and destroyed in the Ninth by the Danes. The building is specifically described in Domesday book as Thanet manor, and is said to have been the only manor in the island in Saxon times.

Tomatoes

Diet, which is one of the favorite obsessions in these days of discontent, has given us many a laugh at the expense of the calorie hounds, but one cannot feel feeble a wee bit sorry for the lad who wrote to the Times medical department the other day. He said: "My muzzer says I am a blue blood. She is on a diet for something I can't spell. She says diet will cure anything. What diet will I use so as not to be a blue blood but have it nice and red like the rest of the boys?"—Los Angeles Times.

Not So Much Interest

I have observed in reading that it is frequently said of the hero that he "knows books," and is able to talk about them. This being admitted it is at once concluded he is a man of education and character, and worthy of all confidence. The most interesting people I know do not talk much about books, or mention them; I have never been in a bookish atmosphere except when occasionally in company with publishers or writers.—E. W. Howe's Monthly.

Gems From Dr. Johnsing

Garrick having a law action coming on to be heard, the Great Lexicographer advised him to get some married witnesses. Garrick—Sir, what is the difference? Doctor Johnsing—Why, sir, a married man is used to cross-examination.

Poisonous Insects in Jungles of Bolivia

In the jungles along the River Beni, in Bolivia, are found some of the most malignant blood-sucking insects in the world. Here lives the apasana, a bird-eating spider, attaining a length of from 8 to 10 inches, whose poisonous bite is sometimes fatal. It has a body resembling a ball of wool, with black hairs on its body and red ones on its legs. Its eyes are black and quick moving, with a most malevolent expression. It is very active and jumps about two feet at a single bound. The palo santo ant, a fire ant, which lives in hollow-stemmed trees, is common here. A touch on this tree brings down a shower of the ants, whose bites feel like red-hot coals, the sting lasting for hours. Other plagues are the zaputana, an almost invisible insect which lies in the grass, bites the legs of men and causes an almost intolerable itching; the guanaco, a bug which lives in the sand and whose bite is usually fatal; the baregal, a sand fly with a painful sting; sweat bees, which suck the perspiration from the hair; the anopheles or malaria-carrying mosquito, and wasps, ticks and jiggers.—New York Times.

Recalling Old Times and the Stereopticon

"What has become of the stereopticon lecturer," asked an old Washingtonian the other day. "I remember when they used to be popular here in the city and crowds turned out to listen to them and to look at the slides. "When he wanted a slide changed he would push a buzzer, clearly audible to the audience. Sometimes the operator of the machine would either be asleep or talking and failed to hear it. "This necessitated a number of extra sharp buzzes on the button. We were patient with him, though, even if occasionally he was describing the Leaning Tower of Pisa while a picture of the ruins of the Coliseum was being shown on the screen. "Then there was the era of illustrated songs, when a sour tenor sang maudlin songs about some girl who lived in a village by the sea. They were foolishly sentimental things, but we managed to get a kick out of it. Of course we didn't have the diversions in those days that occupy us now. Imagine our young generation attending a stereopticon performance." We can't.—Washington Star.

Young Financier

Don't dismiss this as a made-up story, for it happens to be based upon an actual happening. A boy in a town not far away called at a store to say he had come to pay a bill owed by his father. "No hurry about it," said the merchant. "I will send him a statement." The boy insisted he was there to settle the account, so it was figured up and the money paid. "Now give me the 2 cents it would have cost you to mail the bill," suggested the lad, who would seem to have in him the making of a shrewd financier. He got the 2 cents and went away satisfied.—Brookton (Mass.) Enterprise.

CHEVROLET MOTOR COMPANY INCREASING OUTPUT OF CARS

The manufacturing facilities of Chevrolet Motor Company, numbering 16 great manufacturing plants in this country, are rapidly approaching the volume of output necessary to meet this year's revised annual quota which calls for the manufacture of 1,350,000 passenger car and truck units. This was signified last week when W. S. Knudsen, president of the company, announced that March production would reach 140,000 units, an amazing output when it is considered that active production on the new six cylinder cars has been underway less than three months. Although no definite figures were issued it can readily be assumed that April's schedule will call for an even larger production, and that mid-summer will witness a quantity output in all of Chevrolet's assembly plants never before equalled by a manufacturer of six cylinder automobiles. Mr. Knudsen related that February production amounted to 121,249 units. With only 22 working days in the month, daily production for the period averaged better than 5,500 a day.

These figures lend further emphasis to the outstanding achievement of the company last fall in changing over from production of fours to sixes with only a six weeks interim to effect necessary alterations. Upon his return to Detroit a few days ago from a six weeks trip which took him across the northern part of the country and into the far west, R. H. Grant, Chevrolet vice-president in charge of sales, spoke with marked optimism of the present demand for the new six cylinder cars. Nearly everywhere, he declared, "dealers indicated to him that they had found increased market for the new product. The cars, he said, are being delivered to owners as fast as they can be distributed.

Examination of a punctured tire in a Pendleton (Ore.) garage revealed the fact that the tire had been bitten by a set of false teeth. The bite was as clean-cut as if human jaws had manipulated the trick.

A new paper fabric to replace leather in shoe upper is said to be washable.

In ancient Egypt, glass was used almost entirely as a semi-precious stone for ornaments.

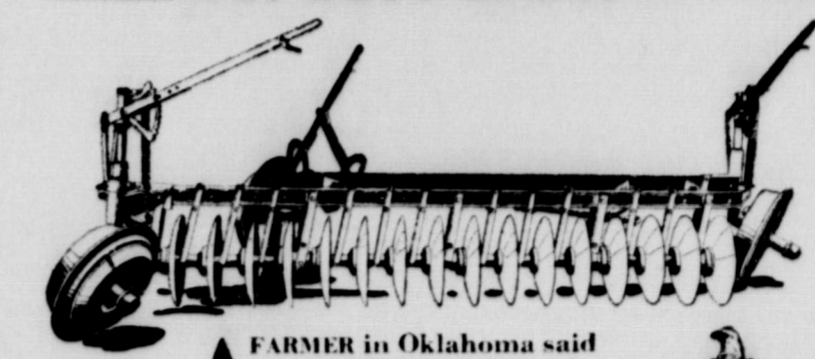

Unlike X-rays, ultra-violet rays penetrate the skin only about one-sixteenth of an inch.

Marshal Foch recently said that no new strategy of war fare has developed since the days of Hannibal.

The average age attained by the twenty-seven Presidents of the United States who have died was sixty-eight years.

There are about 6,000 weather stations in the United States.

He Made Good On His Boast

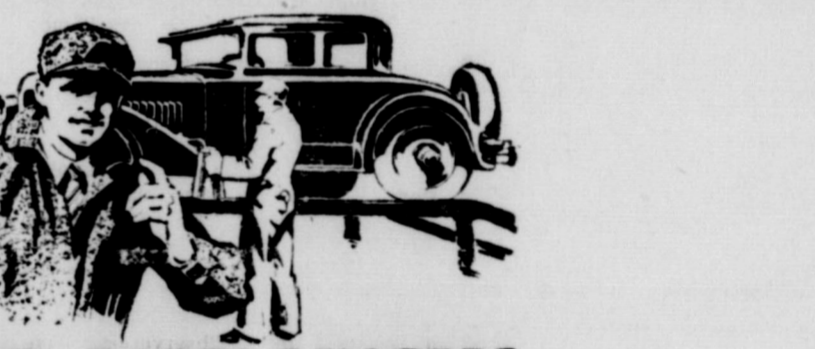

A FARMER in Oklahoma said he could drive along the road and pick out the fields fitted with the Case-Grand Detour Wheatland Disk Plow just by noting the better condition of the crop. And what's more, he succeeded in doing it in a good many cases. This Wheatland is a real plow—don't get it confused with a disk harrow. You can get down 6 inches deep if you like and very often the field is left in prime condition for seeding without another lick of work. Saves time and money—increases the yield. It fits any condition of soil or power because width (and consequently draft) is easily adjustable by removal of sections and proper angling. Even though disks are in separate sections, all the blades turn as one—an exclusive Case feature—which carries the plow through trash without clogging. See the Case Wheatland Disk Plow. Let us point out to you its many desirable features. Come in anytime.

M. S. HENRY & CO. Phone 75

CASE Full line now includes E-B OSBORNE GRAND DETOUR

Denmark is planning a bridge almost a mile long across the narrow strait between Jutland and the Island of Funen. It is estimated that a person who "toes out" instead of walking with feet parallel loses one step in every five. An abandoned cement mine is used by a New York state farmer as an underground mushroom farm.

DO YOU KNOW WHAT YOU'RE GETTING when you buy OIL?

CARELESSNESS is a very expensive habit—especially when it is associated with motor car lubrication.

Unless you insist upon a reputable brand of oil—and are sure that you get it—you are certainly heading your car for the scrap heap by the shortest possible route.

You know what you are getting when you stick to the unsurpassed brands marketed by the Continental Oil Company. These are oils which have passed every test. They have a reputation to maintain—and they do it by providing a thorough lubricating job under all conditions of motor operation. Look for the signs shown below—at service stations and garages.

CONOCO MOTOR OIL insures protection. It seals compression—saves gasoline—fights friction. Flows freely at low temperatures. Stands up under most intense cylinder heat. In short, does a complete lubricating job in all kinds of weather. Ask for the grade made especially for your car.

CONTINENTAL OIL COMPANY

Producers, Refiners and Marketers of high grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming.

## THE FAMOUS

"Crowell's Busiest Store"

### EASTER—A HAPPY SEASON

Easter comes at a glad season of the year. The festival itself, is both commemorative of the resurrection of Jesus Christ and as a memorial to the atonement wrought by the death of the Master upon the Cross.

It is hailed with great acclaim in all the Christian churches of the world. In Greek and Latin and in the languages derived from them, Easter was known as "Pascha," "Pasche," "Pasqua," "Pasqua," "Pasques," etc., from the Chaldee word, "Pascha," the equivalent of the Hebrew "Pesach." The "Destroying Angel's" act is recalled by the last name in "passing over" the households of the Hebrews when he smote the Egyptians, as disclosed in the twelfth chapter of Exodus.

This year Easter will fall on the last day of March. The way by which Easter is determined is that the first Sunday after the Paschal full moon—the fourteenth day of the calendar moon, or next after March 21; and if the full moon happens on a Sunday, then Easter is the first Sunday following.

As usual Crowell churches will observe Easter with elaborate programs. It is an event that the children and grown-ups have learned to look forward to with much pleasurable anticipation; it is an event all should remember with some beautiful thought for the day.

### GARRETT SAYS WICHITA REAL AIRPLANE CENTER

G. W. Garrett of Wichita, Kansas, claim agent for the Orient, was in Crowell last week on special business. Mr. Garrett was also here about a year ago when a special train of Orient officials visited this city and at that time, he made a short talk to the student body of Crowell High School.

In commenting on Wichita, Kansas, he stated that seven airplane factories were now located in that city and that several of those represented the largest plane factories in America, and that Wichita produced about 60 per cent of the nation's airplanes. "Several years ago a person could have secured stock in some of the major factories at \$25.00 a share, but now the stock of these same companies is not even on the market and shares are worth over one thousand dollars each," he said. Garrett says that a visit to the factories is very interesting and worth anybody's time. "Just hop on the Orient and come up some time," he said.

Only three states were entirely free from small-pox last year: Connecticut, Vermont and New Hampshire.

Spermaceti, used in lipsticks, cold cream and other cosmetics, come from the oil in the sperm whale.

The United States is now Germany's third best export market, following Great Britain and the Netherlands.

Inheritance taxes may be increased but this at least doesn't concern us.

### Fair Warning

When Viola Lawrence, Golden film editor, was first learning to drive her nifty coupe, she lost herself to the great open roads around Beverly. Crawling up one of these, she was horrified to see a turtle directly in her path. It was a hundred-foot boulevard, but Vi didn't want to take any chances so she stopped the car, picked up the turtle and carried it across the road.

Next day, in about the same place, she saw the turtle again crossing the road, but in the opposite direction. "Turtle," she cried, feeling more confident of her steering ability, "you take your own chances, I'm not going out today."—Los Angeles Times.

### Solar System's Movement

The solar system is traveling at the rate of about 1,000,000 miles a day in the general direction of the constellation Hercules, or, more exactly, the boundary between Hercules and Lyra. The stars in these constellations are not all at the same distance from the solar system, and no fixed point can be set at which the sun will arrive at a specified time. Observations have not been continued over a long enough period to determine whether the sun is moving through space in a straight line or along a curved line.

### Diet for Cats

Milk is not the best food for grown cats. It takes a great quantity to nourish them, and this distends the stomach, causes various sicknesses, and is wholly unnatural. The diet of a milk-fed cat should not be instantly changed to a meat diet. A sudden change of this sort may cause fits, because a cat fed on milk, grain and vegetables probably has worms, and these rebel at a meat diet. A change of diet should be gradual, and follow a thorough treatment for worms. It is not the meat that causes fits, but worms.

### Underground Wonders

The quantity of water underground beneath the crust of the earth's surface is nearly one-third the total volume of the oceanic waters, says a scientist who has just concluded investigations of buried rivers and caves.

The earth's ground water has been accumulating for countless ages, and extends to great depths, perhaps six miles, and percolates slowly through the porous and jointed rocks, to form a great system of underground drainage.

### Matters of Weight

Elderly persons live longer, according to some authorities, if they are thin. It is believed that young people will do better if they are slightly overweight. This gives a reserve of internal food to draw on for extreme exertions which are more frequent in the young. National health would benefit if young people were willing to be plump and old people determined to be thin.

Adding machine paper at the News.

### POULTRY COLUMN

(By F. W. Kazmier)

#### Sunlight is Better Than Cod Liver Oil

The past few years, much information has been put out for public assimilation, featuring the wonderful value of cod liver oil in poultry feeds. Some writers appear to think it is a cure for all ills. As a matter of fact, cod liver oil in poultry feeds has only a very limited value. Experiments only recently have again proven that even winter sunshine, furnished by opening the windows of the poultry house on all sunny days, or better still letting the hens run out doors, where possible, is at least as good, if not superior and certainly much cheaper, than either cod liver oil or to quartz mercury lamp. Cod liver oil has its value, no doubt about that. As a medicine for weak chicks, during the short winter days it has some value. It should always be used as a medicine rather than a feed. We are still of the opinion that direct sunshine and green food are superior and certainly much cheaper than cod liver oil. If you are in the poultry business to make money, better not spend too much money for cod liver oil, patent medicine and other contraptions made chiefly to sell. As long as sunshine is free let us take advantage of it. The things that are free, and there are indeed very few, only too often are overlooked and expensive means substituted.

#### Must Increase Lay for Profit

Breeding is the first requirement of pullets that are to mature early, lay good eggs and continue to produce steadily thru the fall and winter months. Careful breeding is the only means of increasing the lay of your flock. With the general increase in feed prices, the only way we can make a profit is by breeding up our flock a notch higher. Instead of getting flock averages of 140 and 150, improved breeding methods will step this up 10 or 20 eggs and more per hen per year. Remember eggs must first be bred into the hen before they can be fed out. Now is the time to make your plans for getting a good fall and winter egg-production from your flock. If you wait until fall, you will be too late.

#### Raise Pullets

A flock of old hens are money losers instead of money makers. A profitable flock should consist of not less than 50 per cent pullets. Pullets will produce eggs more economically the first year than hens.

#### Best Time To Hatch Leghorns

Our experience has clearly demonstrated that April and May are the best months in which to hatch Leghorns and other small breeds for the most profitable egg-producers. If hatched before April, the pullets frequently go into a partial or neck moult and stop laying for a few weeks, right at a time when egg prices are the best.

### VIVIAN 4-H CLUB

The 4-H Club boys and girls gave a pie supper Thursday night, March 21, in order to raise money for the club. About twenty dollars was made from the sales. Lynn Easley was presented with a bar of Lux Toilet soap for being the ugliest boy in the Vivian community. He won over his opponent, John Marr, by one vote.—Reporter.

The human race is funny. Yoy can't stand still and win it.

### Electric Lamps Lure

#### Moths to Their Death

Finding that from 30 to 50 per cent of the tomato crops in a certain district were ruined by grubs at the center of the fruit, a professor of the Entomological Institute in Switzerland had the happy thought of seeing whether the moths laying the eggs from which these larvae were hatched could be destroyed by electricity.

He installed eight electric lamps, varying from 80 to 200 watts, about three feet from the ground. The lamps were furnished with reflectors directed toward the soil, and underneath the lamps were placed basins filled with water on the top of which was poured a little petrol.

The plan proved highly successful. The moths, attracted and bewildered by the lights, were drowned by thousands in the basins beneath the lamps, and as a result 80 acres yielded perfect fruit, while neighboring lots of land not so protected lost from 30 to 60 per cent of their crops.

The same method has been tried with equal success in connection with melon culture, and the fruit has been free from worms and graded as perfect.

### Picture Depicts the First Forms of Life

Scientists generally agree that the first forms of life originated in water and an effort to illustrate this has been made in an oil painting by Charles R. Knight of New York, which has been placed in the hall of historical geology of the Field Museum of Natural History. The painting is a present by a patron of the institution. The artist gave a great deal of time to scientific investigation before making the painting. In it he has portrayed these earliest known forms of life as appearing in a group of pools. Within the waters of these pools algae of a blue-green hue are shown in such quantities as to tint the liquid with their colors. They also have built up a series of stony basins. In other pools cushion-shaped forms of pink algae are shown. Other portions of the deposits are seen to be tinged brown or orange by algae of the colors. The adjoining rocks are represented as being bare and naked, no other life being in existence at this time. The rocks are mostly of black lava, but some areas of a reddish color are shown to indicate the great iron-bearing deposits which were also formed at this time.

### True Wife a Servant

A true wife in her husband's house is his servant; it is in his heart that she is queen. Whatever of best he can conceive, it is her part to be; whatever of highest he can hope, it is hers to promise; all that is dark in him she must purge into purity; all that is failing in him she must strengthen into truth; from her, through all the world's clamor, he must win his praise; in her, through all the world's warfare, he must find his peace.—Buskin.

### MILLIONS FOR CHARITY

During the last year more than a million dollars was expended by the commonwealth fund of New York, in efforts to promote and protect the physical and mental health of American children.

Large sums were turned over to hospitals and many educational and child welfare activities.

In all nearly \$2,000,000 was given away. The Commonwealth fund was established about twelve years ago by Mrs. Stephen Harkness, of New York, heir to a great fortune amassed in Standard Oil. Mrs. Harkness was a life-long lover of children, and so she made an initial gift of \$10,000,000, which became the nucleus of an enormously beneficial force for the betterment of American childhood.

Prior to her death, her gifts to the fund had totaled \$38,000,000 providing an income of more than \$3,000,000 annually, and with at least that much assured for each year to come.

Mrs. Harkness left a large estate, but it comprised but a small amount of jewelry and only two cars—both cheap.

Plainly she avoided the superfluous frivolties of life, as society too often knows life, for the larger and more important enterprise of providing assistance for the unfortunate, helpless and the unprivileged.

### ADJUSTMENT OF EXPENSE ON PINK BOLL WORM

Stamford (WTCC)—Manager Mer D. Wade, of the West Texas Chamber of Commerce has advised M. Del Curto, state entomologist, the interest of the regional organization in the adjustment of the litigation expense incurred under legal order of the state and field department of agriculture. This allowed a conference of one of his departments with Mr. Van Roeder, the Pink Boll Worm Commission.

Indian summer is not a season; it is simply a name for any spell warm autumn weather following cold snap.

A flyover hit a train the other day which reminds us that it is about time to swat house flies.

Their Lives In Your Hands

SO MUCH depends upon the care you give them. Now... when they're so helpless and dependent on you to keep them alive... now, when their whole future depends on the feed you choose... is the time to feed Purina Chick Startena and Purina Baby Chick Chow.

They'll repay you for it many times in the months to come. Purina has all the proteins, minerals and vitamins it takes to strengthen and develop their tiny frames and start them on the way to early and profitable maturity.

Chicks' lives are in your hands. Feed them the best and safest feed that science can produce. Feed them Purina.

We are indeed proud of the Athle- tic record made by the girls at the Interscholastic League meet. They placed in every event entered but one. Lela Barker won second place in the 50 yard dash, first in broad jump, third in basket ball throw for distance, and tied with Crowell in the potato race. Oleta Thompson surprised us by hitting the bull's eye and winning the base ball throw for accuracy. Oleta also won second in the basket ball throw. In the 110 relay they easily won first place. Cara Belle Ferguson gave such a lead at the start that Irena McLain, Melba Connell and Lela Barker easily carried the stick on in. John Roder, Senior boy representa- tive at the Interscholastic meet, came out with two first places, running broad jump and the discus throw. John will go to the district meet. In the literary events Zelma Odle won first in Tiny Tot Story Telling, Edith Marie Gover first in Sub-Junior declamation, Clinton McLain second in Sub-Junior declamation, George Thompson and Melton Con- nell first in arithmetic, Foye Calla- way and Melba Connell third in Junior spelling and Clinton McLain and J. P. Lilly tied for third in Sub-Junior spelling. The Thalia W. M. U. women came to Foard City and organized the Foard City women Monday after- noon, March 25th. They gave a very interesting program. The officers of the Foard City organization are, Mrs. E. V. Halbert, president; Mrs. J. L. Farrar, vice-president; and Mrs. Ed Thompson, secretary and treasur- er. The next meeting will be April 8th, and all the Foard City ladies are invited to attend. Mr. and Mrs. J. L. Farrar spent Sunday with L. D. Fox of Crowell.

THALIA

(By Special Correspondent)

Rev. and Mrs. W. E. Lyon of Abilene held a Sunday school institute at the Methodist church here last Thursday night. Several from here, also several from Margaret attended as this was a joint institute for the two Sunday schools. Mr. and Mrs. T. M. Haney and daughter, Miss Frankie, accompanied by their daughter, Mrs. John Rasor, and son of Crowell visited Mr. and Mrs. O. L. Maynard in Olney from Friday till Sunday of last week. Mr. and Mrs. C. C. Wheeler, Mr. and Mrs. O'Neal Johnson and son, and Miss Katharin Wheeler visited Mr. Wheeler's sister, Mrs. Ruckman, and family near Vernon one day last week. Miss Geneva Jo Wood visited her aunt, Mrs. Emily Wood, and children in Crowell Saturday night and Sunday. Mrs. John Rasor and son, John Thomas, of Crowell visited her par- ents, Mr. and Mrs. T. M. Haney, here a part of last week. Mrs. Donia Wheeler and sons, Dixie and D. C., and wife of Vernon vis- ited in the C. J. Fox home here Sun- day. Eugene Pigg visited his sister, Mrs. Ray Carmichael, in Anson last week- end. Mrs. H. W. Gray was hostess Mon- day afternoon to a joint meeting of the Margaret and Thalia M. E. Mis- sionary Societies. A very interest- ing program was rendered by the Margaret ladies, after which several enjoyable games, suggestive of East- er, were participated in by all pres- ent. Mrs. Gray, assisted by an able committee served tempting refresh- ments, also bearing the Easter motif. All reported it a most enjoyable afternoon. Carey Alger and Miss Mable Sam- uels of Vernon were Thalia visitors Sunday afternoon. Rev. O. B. Annis of Margaret preached at the Methodist church here Sunday morning and night. Mr. and Mrs. Dave Shultz and Lewis Pyle of Aversville community were dinner guests of Mr. and Mrs. E. V. Cato here Sunday. E. R. Pyle left Saturday for south Texas where he will be located with his brother for a while. Mr. and Mrs. Luther Ward return- ed Sunday from a two week's visit with their daughter, Miss Lena, in San Angelo. They also visited relatives in other points of south Texas. Mrs. J. A. Stovall entertained the Idle Hour Club at her new home here Thursday afternoon of last week. A very pleasant social hour was spent, after which delightful refreshments were served to the following mem- bers: Mesdames C. H. Wood, C. W. Roberts, F. A. Brown, B. F. Hogan, J. Y. Lindsay, H. W. Gray, C. C. Lindsay, G. W. Seales, J. D. Miller, T. M. Haney, J. R. Morris, C. B. Morris and the hostess, Mrs. Stovall. Troy Achen of Lybbock and Miss Shaw of Crowell visited with Mr. and Mrs. W. C. Jones here Sunday af- ternoon. H. R. Hartman was a business vis- itor in Wichita Falls Monday after- noon. Mesdames John Sims and G. C. Phillips visited their daughter and sister, Mrs. G. F. L. Nash, in Quan- ah Saturday. "Parlor Matches," the play for the basket ball teams was presented at Lockett Thursday night of last week, by the cast under the direction of Mrs. W. C. Jones and Miss Mattye Russell. Specialties between acts were well received by the large crowd present. Mr. and Mrs. Dave Shultz and Mrs. C. D. Haney were Vernon visitors Saturday. They were accompanied by the children of Ray Pyle. Other Vernon visitors from here Saturday were, E. G. Grimsley, Bob Huntley, Mrs. J. C. Taylor, Mr. and Mrs. Joe Johnson, Mrs. Mack Edens, Misses Mary Grace Shultz and Pauline Grimsley and M. C. Adkins and fam- ily. Claude Baker, who has been work- ing in Quanah, returned to his home here Sunday. Mr. and Mrs. S. E. Scales of Crow- ell visited in the A. Oliver home Sunday afternoon. Ladies of the Baptist W. M. S. went to Foard City Monday after- noon and helped the ladies there or- ganize a society. Refreshments were served by the Foard City ladies fol- lowing a very interesting program rendered by the ladies from Thalia. Royce Cato of Stamford spent last week-end with his parent, Mr. and Mrs. E. V. Cato, here. M. S. Henry of Crowell visited in the M. C. Adkins home here Sunday afternoon. Bud Tarver and family of Wichita Falls were visitors in the W. S. Tarver home here Saturday night and Sunday. Misses Mildred and Anna Mark Adkins spent last week-end with their uncle, M. S. Henry, and wife in Crowell. Mrs. T. J. Wood is visiting rela- tives in Denton this week. She went with her niece, Mrs. Hunter, of Ver- non last Saturday. J. A. Stovall is attending Federal Court in Wichita Falls this week. He was accompanied to Wichita Sunday afternoon by Mrs. J. A. Stovall and daughter, Modena, Royce Cato and Misses Louise Stovall and Katherine Wheeler. Mrs. W. C. Jones and Misses Lorene and Lucille Shultz were shop- ping in Vernon Saturday morning. Our community was visited by a nice little shower of rain Tuesday and Wednesday. Frank Wood is visiting relatives in Fargo this week. Mr. and Mrs. George Reid and Mrs. Lara Johnson and daughter, Mary Louise, of Lybbock visited their mother, Mrs. A. W. Reid, and other relatives here Saturday and Sunday. Lee Ryan and family of Talmage visited Mrs. Reid and daughter, Miss Mattye, here Saturday night and Sunday. Several from Crowell and Marg- aret attended Masonic Lodge here Saturday night. Eskimo pies and cakes were served as refreshments. Mr. and Mrs. Tom Johnson of Crowell visited in the George Doty home here Sunday. W. F. Wood and W. C. Gardener

TEXON TALES

Tell a woman her hat sure does look nice and she will say, "Oh! I am just ashamed of it." Tell her she has wonderful complexion and she will invariably say her complexion is awful and just worries her so much. If you think they look nice they try to impress you that they are not near normal but usually look better. A country guy out here married a city girl and started right in to teach her how to milk. Well the cows looked so big to her she was scared so she says, "John, let's start in and learn on the calves." A pessimist says only a man with a "pull" ever gets ahead. An optimist says only a man with a "head" ever gets a "pull." A deaf man tried very hard and finally got arrested. He said he would get his hearing tomorrow. We had an awful hot day here, and a guy sat down on the curb and took off his shoes and socks, turned his sox inside-out and put them back on again. He said he was just so hot he had to turn the sox on hisself. Well, at the time of this writing it is very dry in Foard County. Its been dry there long enough. We are predicting rain for you. If this doesn't give relief let us know and we will resort to more extreme mea- sures.

BLACK

Mr. and Mrs. John Clifford of San Antonio spent the week-end with Mr. Clifford's brother, Paul, and family. Gandmother Boman of Margaret is spending the week with her daughter, Mrs. C. O. Nichols. Mr. and Mrs. E. G. Boman and children of Wilbarger County spent Sunday with Mrs. Boman's mother, Mrs. G. W. McKown. Bonnie Boren of Vivian spent Sat- urday night and Sunday with Maurine Bostic. Little Miss Oleta Sparks of Crow- ell spent Friday night with her brother, Bill, and family. J. W. Gipson of Jameson spent Saturday night with Lynn McKown. Mr. and Mrs. Claudius Carroll of Gambleville spent Sunday with Mrs. Carroll's mother, Mrs. C. D. Hall. Mr. and Mrs. Edward Brock were also visitors in the Hall home. Mr. Meredith returned Monday of last week from Fort Worth where he had been visiting relatives and at- tending the Fat Stock Show. The following pupils of the Black school were entered in the music memory contest held in Crowell Sat- urday: Primary team, Clara Mae Martin Wayne and Kathleen McDaniel, and Annie Mae Bostic intermediate team, Valla Meredith, Paul Ford, Oscar Nichols and Noland Martin. Mr. and Mrs. F. D. Culberth are new comers in our community. Mr. and Mrs. J. M. Bostic have re- turned after spending a few days in Athens and Dallas. They were accompanied home by Mr. Bostic's mother, Mrs. M. E. Bostic.

The Chevrolet Six Has a Three Main-Bearing Crankshaft Here Is Why: Because—It is better, when used with an extra heavy crankshaft, large bearing, short piston stroke and a slow speed motor. Because—It is the simplest possible construction, which is always desired so long as the expected results are obtained. It has the minimum of parts and is the easiest type to service. Because—Of Chevrolet's short piston stroke, which gives the least possible strain on the crankshaft bearings and the minimum of piston travel per turnover of the motor, thus reducing friction to the very least. Because—A given bearing surface, other things being equal, is more efficient when distributed in three bearings than when distributed with more. Because—With a slow speed motor the strain, friction and wear on the whole motor is reduced to the very minimum and on General Motors Proving Ground and in the hands of many satisfied users the Chevrolet Six, which has the lowest speed motor (Rated 2200 R. P. M.) of any Six on the market, has stood up under the most gruelling tests without a single bearing failure. Other manufacturers of Automobiles, who use more than three main-bearings find it necessary to do so because their motor has a long stroke, long piston travel per turnover, and a rear axle gear ration which makes their motor a fast speed motor. Chevrolet's heavy crankshaft (46lbs.); large bearings; short piston stroke; low motor turnover; wonderful oiling system; etc., gives you a motor with the very least possible friction and wear per mile of travel; gives you long motor life; insures you a high resale value; gives you lowest repair possibility; gives you a motor of the simplest construction and therefore easy to service; in fact it gives you the very best in proven motor construction. Compare Chevrolet's Motor Construction With That of Other Motors Allen Chevrolet Co. Crowell, Texas

### BRIGHT AUTO LIGHTS

Automobile headlights offer a big field for improvement, especially in this day when night traffic jams the highways. There are probably more motor accidents resulting from glaring headlights, and no headlights at all, than from any other reason. Dimmers are an essential part of every automobile, but there are too many careless drivers, who never use them. No one likes to meet a pair of glaring headlights on the high-

way. It is one of the most aggravating as well as one of the most dangerous experiences of night driving. The majority of the motorist have some regard for the other man, but something should be done to curb the recklessness of the careless minority. Reckless drivers should not be tolerated on the roads, and the sooner they are eliminated the better it will be for everybody concerned.

Family night Friday night. You may go for 40c a bunch.

## SOCIETY

### "42" PARTY

Mesdames Gordon and Alton Bell entertained with a "42" party at the home of the latter Friday afternoon. Honor guests were Mrs. Crawford of Iowa and Mrs. White of Houston.

Four tables were arranged and a potted Shasta daisy decorated the center of each. These were given as cut prizes. Several games were played and high score was won by Mrs. M. L. Hughton, the prize being a beautiful potted Easter lily.

Dainty guest prizes were also presented to Mesdames Crawford and White. Easter suggestions were carried out in the refreshments of angel food cake and pink ice cream in the form of a rabbit.

The guest list included Mesdames J. R. Beverly, S. T. Crews, B. W. Self, Joe Johnson, Baxter Johnson, S. S. Bell, M. S. Henry, Lawrence Kimsey, H. Schindler, Hines Clark, T. N. Bell, N. J. Roberts, M. L. Hughton, A. Y. Beverly and Miss Lottie Woods.—Contributed.

### PARTY AT BELL HOME

A lovely party was enjoyed at the home of Mr. and Mrs. S. S. Bell Thursday evening when Mrs. H. Schindler and Mrs. Bell entertained with a "42" party honoring Mrs. A. W. Crawford, a guest in the home of Mrs. T. N. Bell.

Nine tables were tastefully arranged in the reception suite and a number of games were enjoyed but a sign of protest was heard when the last game was called as no one wanted to consider going home.

Dainty refreshments were served to the following guests: Mesdames Crawford, Joe Johnson, W. B. Johnson; Mesdames and Messrs. T. N. Bell, N. J. Roberts, J. R. Beverly, M. S. Henry, S. J. Ferguson, T. L. Hughton, M. L. Hughton, Gordon Bell, John Ray, B. W. Self, H. K. Edwards, L. A. Andrews, L. Kimsey, A. Y. Beverly, Thomas Hughton and George Self.—Contributed.

### METHODIST W. M. S.

The Missionary Society of the M. E. Church met in social meeting at the home of Mrs. M. S. Henry on March 25th, with Mesdames Henry, Magee and Allen as hostesses.

Mrs. Clark, having charge of the program, read part of the fourth chapter of John for the devotional. Sister McCarter led in a very earnest prayer after which Mrs. Crews gave a piano solo.

"Daughters" was the topic for the afternoon. The individual problems of six girls were given as examples and very ably discussed by Mesdames Johnson, Pierce, Crews, Ringgold and Ferguson.

Before beginning her part Mrs. Johnson gave three very impressive readings.

The most important point brought out was that mothers, and fathers too, do not understand the problems of the twentieth century girls. So many tragedies occur because the parents do not cultivate a confidential spirit with their daughters and help them to solve the problems of today and not thirty years ago. Mothers are not always at fault, neither are daughters always right but we can't help but feel the serious lack of mutual understandings and confidence between many girls and those who are more experienced and to whom, naturally, girls look for guidance.

At the close of the program Mrs. Crews gave "Home Sweet Home" on the harmonica. Altogether it was an afternoon well spent and enjoyed by all.

We were glad to have the Young Peoples' Society meet with us and to have Mesdames Bell, Davenport and Vanorman as new members, also very glad to have as guests Mrs. A. W. Crawford of Winterset, Iowa, and Mrs. J. S. Williamson of Fort Worth.

Mrs. Beverly insisted on as many as can go to make the trip to the Zone Meeting at Wesley Chapel next Saturday, March 29th.

Refreshments were served to twenty-six members and guests. Let's encourage our president by attending the business meeting next Monday at the church.—Reporter.

### BRIDGETTES

On Monday, March 25, the Bridgettes met with Miss Lottie Russell as hostess. After several enjoyable games of bridge a short business session was held, perfecting the organization of the club.

Delicious refreshments were served to the following members: Eva Blakenore, Gussie Todd, Louise Thomas, Mary M. Todd, Dannie Gaves, Cornelia Beidleman, Florence Griffith, Gusta Mae Davis, Jessie Dell Ricks and the hostess, also two guests, Miss Zell Saunders, and Gracie Russell.—Reporter.

## Fashionette's

NOTES OF FASHION and Store News

A note for men only! (Don't forget to drop by and let us help you select a gift for the best girl—she is expecting an Easter remembrance.)

Ladies start here! In line with the tendency in ready-to-wear to a more fitting silhouette, the molding of the natural figure becomes most important in corsetry. The Gossard manufacturers very subtly undertake to build garments that will emphasize the natural figure lines. No matter how beautiful your dress is, you cannot expect to look your best if your figure is not molded in one of these foundation garments. That is the first thing to consider when buying a dress.

From "Nelly Don" we have received a new shipment of ensembles—piques, ginghams and linen. Just the thing for sports and daytime wear. One number in particular is a large checked gingham dress with a white linen coat with gingham trimmings. A very striking and original combination.

A silk mesh hose just in is very new. It comes in the sun tan beige and promises to be very popular.

The prettiest and newest things in men's shirts we have seen are a combination of rayon and broadcloth from "Imperial." They feature a satin stripe and come in tan, blue and green. The new laundered collars are taking big, too and many men are preferring them.

Our children's and infant's department is one of the most complete in the store. Infants dresses from the Philippines are the most exquisite wisps imaginable. And dainty organdies, prints and piques in one piece and ensembles for the little girl from 2 to 14.

Opportunity day is almost here. Come out for this first one and see if you are not pleasantly surprised at many of the things you find here.

Opportunity Day, the 29th of March.

Blaw and Rosenthal  
CROWELL, TEXAS

### Wichita Booster Train Coming April 26th

When the booster train of the Wichita Chamber of Commerce visits Crowell April 26th, it will be accompanied by a musical organization that is known from coast to coast and has the distinction of being the best organization of its kind in the entire United States.

The Wichita American Legion band holds that distinction by virtue of having been awarded first prize last October in the national Legion band contest held in conjunction with the national convention at San Antonio, Texas. With the award, came appointment as the official band of the national Legion for the present year.

The Wichita band was organized in 1922 and the following year made its first trip with the Wichita boosters. So popular did the organization prove to be that it has been considered a necessary feature of the trips every year since.

The band also has always attracted more than usual attention at the national conventions of the Legion, and several times, prior to last fall, placed high in the competition, twice being awarded second place. In winning the first prize at San Antonio, the band nosed out the Sioux City organization which has held the honor for five years and which far outnumbered the Wichita boys.

The band is directed by Duff Middleton, one of Wichita's most successful musicians and well known throughout the Southwest.

This will be the twenty-fifth good will trip of the Chamber of Commerce of Wichita and has been designated as the Silver Anniversary Trade Trip. At every stop along the route, silver bells will be given away by the boosters as souvenirs indicative of the occasion.

Mrs. Tom Ferguson underwent an operation at the Crowell Hospital Monday. She is getting along nicely.

Fox News, Mondays, Tuesdays and Saturdays.

## WHAT'S DOING IN WEST TEXAS

(By West Texas Cham. of Com.)

Llano is looking for a man financially able to furnish and lease the new up-to-date, 36 room modern Llano Community Hotel. This building will be completed April 15 at a cost of \$85,000. It has steam heat, fans, phones, and hot and cold water.

Word comes from Del Rio of a new dam to be built on Devil's River to have a storage capacity of 8,460 feet. Permission to use water to the extent of 550 cubic feet per second for generation of hydro-electric power goes with the permit. The other dam is completed and has been in use for some time.

Ariona is experiencing a building boom. Many new residences are going up, and three permanent store buildings are being constructed on main street. Many of the residences are brick or stucco.

Two miles of gravel base of the Highway No. 7 have been laid near Sweetwater. Work has started at the Coke County line and the crews are working northward. A gravel base 1 inches deep has been rolled to about 8 inches.

Eastland is to have an exhibit at the Western States Exposition which is to be held in connection with the 75th anniversary of the California State Fair at Sacramento. An expressive display of western products and resources has been planned.

A prize winning pen of ringlet Barred Rock chickens has been purchased by a Dalhart poultryman. The pen cost \$85.00 and won first honors at the Madison Square Poultry Show in New York. The formation of a poultry show in Dalhart recently has aroused considerable interest in poultry raising.

The first shipment of certified seed which is being purchased through the efforts of the Canyon Chamber of Commerce, has arrived and been sold to farmers at cost. Dwarf maize, Texas Blackhull kaffir, and redtop semac was included in the shipment.

An ornamental lighting system is being installed along the main thoroughfare of Brady's residence streets. All important streets in North and South Brady will share in the new system of illumination which is being done by the Brady

## Water and Light Works.

Forty blocks of paving of streets will be started in beginning April 1. The work was let for this several weeks ago. The work will be done of concrete.

Donley county cream plants continue to increase. At Clayton 214 ten gallon cans, worth about \$2500, were recently brought to the plant. Some cream is shipped out to nearby creameries.

Plainview is building up. The Hilton Hotel will bring the town from four stories to eight. Montgomery Ward, J. C. Penney and well known companies are in the town, and permanent buildings are being erected for the handle Plains Second Annual Show.

### MOVED TO BYERS

Claude Barry and family moved to a farm, six miles west of Byers in Clay County, and will plan to engage in farming and trading.

A scientist is a man who can cover a fragment of a molar tooth, and tell you just how large an animal was.

The old slogan that a fool and his money are soon parted, also goes that a fool and his money are married.

The quickest automobile turns are not always made in the rooms, but along a steep embankment.

It is a wise young undertaker settles down near a railroad track.

Many a person in these days knocked cold while taking a nap to warm him up.

A survey of doctors in towns 1,000 people or less in the United States showed that almost one of these towns that had doctors in 1914 had none at all in 1925.

Recent investigations indicate more than 60 percent of the trouble of young people is a result of some form of rheumatism.

## CICERO SMITH LUMBER CO.

"THE HOME OF SPLINTERS"

R. J. ROBERTS, Local Manager

March 29, 1929.

Dear Friends:

The recent rains have been of much value to our county and with a few more good rains we should reap a fair harvest. Our friend, Jim Grizzle, is very optimistic as to the prospects for a wheat crop, so we have a good chance to make a fair crop. Tom Bursey came in Wednesday to apologize for missing his prediction for rain by one day. Last September Tom came in to tell us that we would not have any rain, to sneak of, until March 25th, he is very sorry he missed it so far. At the time he told us, last September, about the rain we did not put a great deal of confidence in Mr. Bursey's ability to forecast what we would get in the way of moisture but he has convinced us that he does know.

We are in position to help you with your poultry housing problems. Proper housing goes a long way toward solving the disease and parasite problem and for this reason may be reckoned as one of the major factors in the poultry success trinity: good stock, good feeding, and good management. Our housing plans are recommended for Texas and furnished us by Texas A. & M. College.

When in the market for wall paper do not fail to see our stock. It is all brand new and many beautiful patterns to select from.

Make the old car look like a new one, with auto enamel the dried dust free in three hours—we have it.

Yours truly,

SPLINTERS.
