Mr. and Mrs. L. P. Glover Observe 40th Anniversary

Mr. and Mrs. L. P. Glover were honored Sunday, February 5, on their fortieth wedding anniversary with a surprise dinner. It was given at the L. M. Glover home by the children of the honored couple: Mr. and Mrs. Roy Payne and children, Mr. and Mrs. L. M. Glover and family, Mr. and Mrs. Fred Glover and son, and Mr. and Mrs. Joe Glover and daughter.

All the children were present with the exception of Mr. and Mrs. Paul Glover and daughter of Odessa, and a grandson, Roy Don Payne of San Marcos. Pictures were taken of the honorees cutting their beautiful anniversary cake.

Infant Buried at Thalia Thursday

Holly Lynn Dockins, infant daughter of Mr. and Mrs. Hollis Dockins of Wellington, died Feb. 1 and interment was in the Thalia Cemetery.

Funeral services were conducted at Womack's Funeral Home in Crowell with Rev. W. B. Fitzgerald in charge. Out of town relatives attending were Mrs. Eva May Wood of Vernon, great grandmother of the infant; aunts and uncles, Mr. and Mrs. Gene Mote and daughter, Kathy Jean, Mrs. Dockins, Leon and L'Roy Dockins, and Mrs. A. S. Dockins of Wellington; Mrs. Katherine Humphreys of Shamrock and Rosemary Hammontree of Amarillo.

Mr. and Mrs. G. A. Shultz of Thalia were the baby's maternal grandparents.

Trouble with All This Credit

"American Farm Bureau Federation's secretary, Roger Fleming, says: 'The trouble with all this credit, and the putting off of the day of payment is that we may get to be like the drunk who didn't like hang-overs, so he solved his problem by staying drunk all the time.'"—Washington, Iowa, Journal.

BILLY WALKER JR.

17-Year-Old Opens Revival Here Sunday

Delivering one daily sermon or more is nothing new to a 17-year-old boy who opens a revival Sunday at the Free Will Baptist Church in Crowell—he's been doing it for ten years.

In fact, Billy Walker Jr. has preached as many as seven sermons in one day. Billy will be preaching nightly at 7:30 at the church through Sunday, February 19.

The youth has preached from coast to coast and traveled in Cuba and Mexico. Along the way he received numerous honors and audiences have crowded to hear him.

Billy began his preaching when he was seven years old. His first sermon was in his father's church at Birmingham, Ala. In 1952, he preached 854 times, on both radio and television. When he was eight years old, he was ordained by Baptists in Birmingham, Ala. In 1952 he was made ambassador of goodwill for Oklahoma City. In 1955 he was presented a gold key to the city of Key West, Florida.

Now as well as preaching at numerous revivals, he also gives weekly sermons over Radio XEG in Monterrey, Mexico, a station that reaches most of the southwestern states.

When he has free time for himself, he likes to go home to Montgomery, Ala., where his family now lives. His father is pastor of the Montgomery Baptist Revival Center.

Eastern Star Official to Visit Here Feb. 14

Mrs. Ama Powers of Seymour, deputy grand matron of District 2, Section 6, Order of the Eastern Star, has re-scheduled her official visit to the local chapter for the stated meeting on Feb. 14. This visit was postponed from Jan. 24 due to icy roads.

Plans are made for a covered dish dinner at 6 p. m. The formal stated meeting will open at 7 p. m. Past matrons and past patrons will also be honored.

Mrs. Verda Bell, worthy matron, and S. H. Gentry, worthy patron, will preside.

Mild Winter in Montana

A letter from Mrs. E. S. Flesher of Billings, Mont., enclosing check for renewal of her paper, states that they still enjoy hearing of Foard County people by reading the News, although there are a lot of new names since they lived here.

Mrs. Flesher states: "Our winter has been very mild, very little snow so far. We need moisture. The temperature did lower to around the zero mark a few times, but have had open grazing for livestock all winter."

Rotary Club Meets

The program for the Rotary Club Wednesday at noon, Feb. 1, was a film showing the discovery, manufacture and distribution of antibiotic drugs. Name of the film was "And the Earth Shall Give Back Life" and was presented by Dr. Walter Stapp.

Visitors at the meeting were Rotarian Roy Sansom of Quanah and Roy Hoffman of Vernon. A special guest for this meeting was Miss Nettie Black, fiancée of the club president, James Herring. A

Schools Closed Monday and Tuesday As Snowstorm Blankets Foard County

This section of the State experienced the worst cold spell of the season during the early part of the week.

Rain which fell all day Saturday amounted to one inch; and it turned to sleet and snow during the night. The snow continued until early Tuesday morning, leaving the ground covered with about

six inches. The temperature was below the freezing point throughout the three days. The lowest reading was 22 degrees Wednesday morning.

Travel in this area remained open but was extremely dangerous. Melting began Tuesday afternoon, however, a hard freeze Tuesday night left a glaze of ice Wednesday morning.

Several schools in this section including Crowell and Thalia, were closed Monday and Tuesday. Other schools in this area that closed were Childress, Paducah, Munday, Quanah, Lockett and Chillicothe.

High and low temperature readings of the past week follow:

Thursday: high 59, low 34.

Friday: high 40, low 22.

Saturday: high 40, low 30.

Sunday: high 32, low 27.

Monday: high 29, low 24.

Tuesday: high 36, low 23.

Wednesday: low 22.

F. F. A. Boys Attend Fat Stock Show

Marvin Myers, Vocational Agriculture teacher of Crowell High School, and sixteen of the boys in his department attended the Fat Stock Show at Fort Worth last Friday and Saturday. Superintendent Grady Graves and Jack Welch also accompanied the group.

Ralph Bell Died Early Wednesday in Local Hospital

Ralph Bell, life-long resident of Foard County, died in the Crowell hospital early Wednesday following a long illness.

Funeral services will be held Thursday morning at 10 o'clock at Womack Funeral Home conducted by Rev. John Fitzgerald.

Mr. Bell was a brother of Mrs. M. L. Hughton and Fred Bell, both of Crowell.

New Producer in Rasberry Field

Twenty-four hour pumping potential of 113.2 barrels of 39.1 gravity oil was reported by Texaco Inc. for the No. 1 W. B. Johnson in Foard County's Rasberry (6100 Caddo) Field.

Pay was perforated with four shots per foot at 6088-93 feet. The 4 1/2-inch casing was set at 6205 feet and hole was plugged back to 6135 feet after being bottomed at 6250 feet. Gas-oil ratio was 340-1. Pay was treated with 250 gallons of acid.

The well is seven miles north-west of Crowell in section 10, block 4, SPRR survey.

gift, a beautiful bedspread, was presented to Miss Black and Mr. Herring by the Rotary Club. The presentation was made by Grady Halbert.

Plans have been completed for the Twenty-Fourth Annual F. F. A. and 4-H Club Project Show which will be held starting Friday evening, February 10, at 5 p. m., and will run all day Saturday, February 11, in the new Vocational Agriculture building at the Crowell School.

Entries in the show to date include 5 fat steers, 58 fat lambs, 12 head of breeding sheep, 16 head of swine, 22 pens of poultry and rabbits, and 97 entries in the food show.

The fat steers, fat lambs, and breeding sheep will be judged beginning at 10 a. m. Saturday, Feb. 11, by Kenneth Killian, manager of the Modders Hereford Ranch of Wichita Falls.

The poultry and rabbits will be judged at 10 a. m. by Walker Todd of Quanah, and the swine will be judged at the same time by Kenneth Halbert of Foard County.

All entries will be brought in Friday between 4 p. m. and 6 p. m. The show will be open to the public Friday night and all day Saturday.

Auction sale is to be held Saturday at 2 p. m. Tony Dowlin of Amarillo will auction off the fat steers and fat lambs at that time.

Joe Burkett, County Agent, said this week, "Since this will be one of the largest auctions we have ever held, we encourage all the friends of F. F. A. and 4-H who can, to be there and take a part in it. If you buy a calf or lamb and don't want to keep it, you can turn it back to the floor and pay only the amount you bid above the floor."

There will be pens available to keep the animals in for those who buy them and can't move them for a few days.

The boys and girls wish to express their appreciation to all those who have contributed and worked so hard to make this year's show a success.

500 Poll Taxes Paid in County

Five hundred Foard County residents qualified themselves to vote in this year's election by paying their poll tax before the deadline on January 31. Deputy R. R. Magee said this week.

In addition to the special senatorial election in April, school trustee and city elections are also coming up. Any residents who are contemplating running for a place on the school board or the city council should be making their formal application and announcement soon.

Papers Needed to Buy 1961 Car Tags, Says Tax Collector

Motorists will save considerable time and confusion if they will bring their car titles and receipts for last year's license plates when they come to buy their 1961 license plates, according to Deputy Tax Collector R. R. Magee.

The law provides that these papers should be presented when buying license plates, Mr. Magee stated.

Mr. Magee says that new tag sales have been brisk since the 1961 plates went on sale Wednesday of last week.

PRESS HONORED—The George Washington Medal for accomplishment in the field of advertising dedicated to preserving the American Way of Life, was presented the Texas Press Association at its January convention in San Antonio by Associate Justice Meade Griffin of the Texas Supreme Court. Judge Griffin presented the plaque, pictured above, on behalf of Freedoms Foundation of Valley Forge, Pa. Receiving the national award for TPA, on behalf of the daily and weekly newspapers of Texas, was L. B. Smith, publisher of the Bady Standard-Herald, president of the press group.

1960 Deaths in Texas Show Substantial Gain

Texas deaths during 1960 showed the most substantial increase in 25 years, according to provisional estimates compiled by the State Health Department's Record and Statistics Section.

Deaths for 1960 were seven per cent above the 1959 figures with comparative death rates of 821.2 per 100,000 population for 1960; and 782.9 deaths per 100,000 for 1959.

Over two-thirds of the increase in Texas deaths occurred during the first three months of 1960. This was during the peak period of last year's influenza outbreak.

Health Department statisticians point out that during the first three months last year, there were significant increases in the number of deaths from influenza, pneumonia, and heart diseases over the corresponding period during the previous year.

Because of the rapidly increasing number of elders in the state population, Texas authorities were not alarmed at the sharp rise in Texas deaths reflecting the overall trend for the entire United States during 1960, including the startling increases experienced during the early months.

Still the number one killer, heart diseases accounted for 26,000 of the total 79,000 deaths in Texas during 1960. In second place on the 1960 statistical sheets, was malignant neoplasms (cancer), which claimed over 11,000 Texas lives.

On the credit side was the noticeable drop in the motor vehicle accident death rate from 26.9 per 100,000 in 1959 to 24.5 per 100,000 population in 1960. All other

Savings Bonds Have A Birthday

Retiring Treasury Secretary Robert B. Anderson (left) and the new Secretary of the Treasury, C. Douglas Dillon, joined in ringing a replica of the Liberty Bell to signal the 20th anniversary of the U. S. Savings Bond program. The recent ceremonies took place on the west steps of the Treasury Building, opposite the east entrance to the White House. Americans now own over \$43 billion in series E and H Savings Bonds. This is an all-time record high.

The Liberty Bell replica in the Nation's capital has counterparts in every state, donated by leading American companies as a feature of the Independence Savings Bond drive in 1950. State governors, as honorary bond chairmen, will rally their volunteer forces with similar bell-ringing ceremonies this spring.

accidents showed a slight rise in the death rate over the preceding year.

While the total number of live births for a single year was the second highest in history, the birth rate continued its slight decline over the past few years.

There were nearly 2,190,000 live births in 1960. However, there were 7,200 infant and 4,200 fetal deaths during the same period. (A weekly feature from Public Health Education Division, Texas State Department of Health.)

Difficult to Understand

"It is sometimes difficult for Americans to understand the power that a man such as Fidel Castro can wield over illiterate and unthinking people. Yet we must not forget that more than once in our own history, and not so very long ago, considerable numbers of Americans gave ear to demagogues. . . . To prevent the

Castros and their kind from rising to the top it is necessary to treat the very serious and deep-seated problems which permit them to flourish." — Clarksdale, Miss., Register.

Highly Desirable

"Running the paper to please one's self is highly desirable. But most editors can't even do that. Every issue of their sheet is full of boneheads that only God knows how they got there. Moreover, editors truckle first to finicky subscribers, second to employee demands and third to Uncle Sam, who is always around with outstretched hand whether the place makes any money or not.

"As we say, if one can overcome those irresistible forces in the making of a newspaper, and please only himself, he should be credited with pulling the nearest trick of the year—any year." — El Dorado, Kansas, Times.

Story with a Moral from the Internal Revenue Service

Here is a story with a moral from the Internal Revenue Service. The tax folks say that this is a sad but true story that will apply to thousands of innocent householders throughout the country.

Mr. Stetson B. Texann was sitting on his front porch rocking and meditating one day last spring. Now Stetson B. is a good law-abiding, taxpaying citizen. He pays his income tax and he even stops for caution lights. He attends church on Sunday morning

and he wants to do what is right. Stetson B. noticed this gentleman with a briefcase coming up his walk. The young man introduced himself as Bob Smith, a Social Security examiner.

Mr. Smith explained to Mr. Texann that he wanted to ask him a few questions. Mr. Texann, always willing to cooperate with the government in any way, told the young man from the Social Security Department that he would be delighted to help him out.

The Social Security man asked Mr. Texann, "Do you know Melinda Jones?" "Certainly," replied Mr. Texann, "Melinda worked for us for years as our maid and retired last January 1."

The story developed like this. Melinda Jones objected to Mr. Texann withholding social security on her \$20 a week wages as a maid when the Social Security laws on maids went into effect January 1, 1951. Melinda explained that she didn't want no tax reports going to the Government to get her into trouble with the income tax folks. Mr. Texann tried to explain to Melinda that she would not owe any income tax because of her dependent situation and that she should still file a tax returned as required by law.

Melinda had threatened to quit. Mr. Texann had given in. Mr. Smith explained to Mr. Texann that Melinda Jones had filed a claim with the Social Security claiming credit under the Social

Security Act from January 1, 1951, based on her employment with Mr. Texann. After the Social Security investigator got all the papers necessary for the Social Security Administration to pay Melinda Jones her social security, he explained to Mr. Texann that Internal Revenue would figure up the tax, the penalty, and the interest that he would owe for not filing quarterly returns and paying tax on Melinda Jones as a household employee.

To make a long story short, Stetson B. Texann, being a good, taxpaying citizen, sent his check this week to the Internal Revenue Service for his household taxes on Melinda Jones. Instead of paying \$192.50 in taxes for the period from January 1, 1951, through

December 31, 1959, the time Melinda Jones retired, Mr. Texann also had to pay Melinda Jones' share of the taxes since he was responsible for withholding these taxes. This made \$385 in taxes. The penalty amounted to \$96.24. The interest amounted to \$104.34. This cost Stetson B. Texann, a law-abiding, taxpaying citizen, \$585.58, more than three times as much as he should have paid.

Internal Revenue explained to Mr. Texann that it would have had to collect the taxes with penalty and interest on his maid even if she had worked 40 years before she retired. Failure to file keeps the tax year open forever.

Internal Revenue Service has available a publication called Circular H, which explains employer's liability for social security taxes on household employees. You can write to Internal Revenue Service, Box 456, Wichita Falls, for this publication.

THIS WEEK -In Washington

With Clinton Davidson

The question we have been asked most frequently since early this year is: "What will Orville Freeman do about the farm situation?"

The man best qualified to answer that question is, of course, Mr. Freeman, a former Governor of Minnesota and the new Secretary of Agriculture. So we asked him, "The first thing I want to do is get all the facts I can on the situation in all parts of the country," he said. "I want to talk with as many people with as many viewpoints as I can."

"When I have done that I want to develop a program which I think would help farmers get a fair income. I will then ask Congress to give me the legislative authority to put that program into effect."

Income Priority
Secretary Freeman has some rather definite ideas on how he would like to go about raising farmers' income, but he is cautious on expressing them in terms of specific programs until, as he says, "I get my feet on the ground firmly."

The first thing to be done, he has told farm leaders with whom he has conferred, is to reduce burdensome surpluses. Next he will try to get production adjusted to demand so that surpluses will not again be accumulated.

The first step, he hopes, toward reducing surpluses will be distribution of foods to the needy and unemployed in this country, particularly in the economically distressed areas where unemployment is now high.

The next move will be expansion of shipment of surplus foods to nations where the food supply is low. "I can't defend our hoarding huge quantities of foods in this country while there are hungry people in other parts of the world," he said.

Supply Management
Secretary Freeman has said he does not regard the entire \$10 billion worth of farm commodities held by the government as being surplus. At least half of that, he thinks, should be set aside as an emergency reserve.

An even tougher problem facing Mr. Freeman will be that of "adjusting" production to halt the build-up in excess supplies. Farmers for several years have been producing from 5 to 7 per cent more than the markets will absorb. That excess has gone toward building up surpluses from under \$2 billion to more than \$10 billion.

One way to reduce production, he has suggested, might be for the government to "rent" approximately 60 million acres of cropland and put it into a soil conservation program. That, it is figured, might cost about \$1 billion a year.

But, as he has emphasized in talks with Congressmen and farm leaders, if such a program were effective the cost would be only a fraction of the nearly \$7 billion spent on farm programs last year.

Many regard Secretary Freeman's job as one of the toughest in Washington. "But," he commented recently, "I can be tough, too." With the farm organizations divided, as they have been for years, it will take more than just being tough to get the job done.

To Discontinue Passenger Service

The Milwaukee Railroad proposes to discontinue its passenger train service west of Minneapolis, effective January 8. The Miles City, Montana, Star, said, "Perhaps it is a sign of the times. The Milwaukee is only one of many railroads serving a vast area and must spend more than it takes in if the service is to be continued. Deficit spending may be the modern trend as far as government is concerned, but certainly private business cannot long endure such procedures."

One of every 6 persons in West Berlin is over 65, due largely to the many East German refugees too old to be moved to jobs in West Germany. As part of its Food Crusade, CARE needs funds to deliver 100,000 packages, at \$1 each, in the free city. The gifts mean monthly help for 25,000 elderly refugees and other needy.

Social Security Information

"If you had gross income from your farm of \$600 or more, you can get social security credits even if you had a loss in 1960," Erton F. Tate, district manager of the Wichita Falls social security office, said this week. This means farmers can build up social security protection for themselves and their families.

Farm self-employed tax returns are due by February 15 for those farmers whose tax year starts on January 1. However, farm operators who file an estimate of their tax and pay that amount by Jan. 15 have until April 15 to file their returns and pay any balance due. Keeping accurate and complete records of all income and expenses is just good business all the time, but it is particularly important when it is time to file income tax returns. Maintaining good records now and filing tax returns on time means quicker processing of your claim when you become eligible for benefits or, in the event of your death, when your survivors apply for benefits. The amount of your benefit depends on your earnings you report. The tax on 1960 earnings is 4 1/2 per cent of your net earnings up to \$4,800.00.

If you are going to apply for social security benefits this year, Mr. Tate suggests you have an extra copy of your 1960 Federal Income Tax return and Schedule F made up for social security and bring it with you so you can get credit for all your earnings under social security.

All tax returns are filed with Internal Revenue Service. More detailed information may be obtained from the Internal Revenue office or the social security office at 421 Post Office Building, Wichita Falls, Texas.

Big Freight Carriers

The railroads may have to discontinue a few of their runs for lack of patronage but as the Association of American Railroads said, "American railroads continue to serve 50,000 communities over 218,000 miles of railway, carrying almost as much freight as all other forms of transportation combined."

February-March Is Renewal Period for License Plates

Austin, Tex., Feb. 1—February-March is the renewal period for motor vehicle license plates in Texas, announced State Highway Engineer D. C. Greer today.

Texans will notice a newly designed license plate for 1961. A different style of letters and numerals have been used to make the plate more readable from a distance. Black letters and numerals on a white background is the color scheme for 1961.

A new numbering system will be used for some classifications such as trailers, truck tractors and buses. These classifications will have a one-letter prefix with from two-to-five digit numerals. For example: A trailer number could be A-10 or A-12345. The numbering system for other classifications will remain the same as 1960. The change in the system was brought about by the ever increasing number of registered vehicles in Texas.

The Texas Highway Department estimated that vehicle registration in Texas for 1960 will total 4,800,000. This places Texas third in the nation in registered vehicles following California and New York.

"Texas should reach the seven-million mark by the end of this decade," Greer said. "There are more vehicles in Texas today than there were in 1920 and the percent of increase in motor vehicles in Texas in the last four decades is twenty times the percent of increase in population. There are two Texans for every Texas-registered motor vehicle."

Greer stressed the importance of registering all automobiles and trucks in the county of the vehicle owner's residence.

"Do not ask the county tax collector to violate the law. He is required to demand to see your certificate of title and 1960 license receipt before he can issue your 1961 plates."

The penalty for operating a vehicle without home-county license plates is the same as operating a vehicle with no plates at all. Court fine can be as much as \$200, plus being required to register in the home county with a 20 per cent penalty of the annual fee. Refunds cannot be granted for the illegal plates.

Owners registering illegally in 1961 can expect to face court charges.

"Don't risk an illegal registration," Greer urged. "Remember, too, that a portion of all registration fees stays in your home county to benefit your local community."

TAX REFERENDUM PUSHED—Two bills have been introduced to allow voters to express their tax likes and dislikes directly in a referendum at the April 4 senatorial election.

Rep. Wesley Roberts of Lamesa introduced a measure which would allow voters to make a choice between a sales tax, income tax or payroll tax. Rep. Henry Fletcher of Luling introduced a similar bill with the additional choice of selective sales taxes.

Meanwhile, these have been added to the money-raising measures introduced in the House: A 2 per cent general sales tax.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin, Tex.—Organized, but in some quarters, highly disgruntled, the Texas House of Representatives is down to business.

Speaker James Turman did what comes naturally. He gave committee chairmanships, down the line, to those who supported him in his race for speaker. Key committees have a solid majority of Turman men.

Supporters of Turman's opponent, Rep. Wade Spilman of McAllen, are not happy with their assignments. Mostly experienced legislative hands, they can be expected to do some land mining along the path of the slim Turman majority.

Among chairmen of major house committees are these: Revenue and Taxation, Rep. Charles Ballman of Borger; Appropriations, Rep. James M. Cotten of Weatherford; State Affairs, Rep. Bill Hollowell of Grand Saline; Constitutional Amendments, Rep. Charles Sandahl Jr. of Austin; Education, Rep. Malcolm McGregor of El Paso; Agriculture, Rep. Grainger McIlhenny of Wheeler; Livestock and Stock Raising, Rep. Steve Burgess of Nacogdoches; Insurance, Rep. Murray Watson Jr. of Mart; Congressional and Legislative Districts, Rep. C. W. Peary of Temple; Highways and Roads, Rep. Alonzo Jamison of Denton; Judiciary, Rep. L. DeWitt Hale of Corpus Christi; Banks and Banking, Rep. Ben Lewis of Dallas; Game and Fisheries, Rep. D. Roy Harrington of Port Arthur.

Lt. Gov. Ben Ramsey of San Augustino had named his Senate committees several weeks ago.

Sen. Wardlow Lane of Center heads the Senate's State Affairs Committee. It's a post he held four years ago for the 55th Legislature.

This is the committee that will consider new tax bills after they have passed the House. Money raising measures must originate in the House.

Appropriations, the other half of the money raising-money spending puzzle, will be handled in the Senate by the Finance Committee, headed by Sen. Ray Roberts of McKinney.

Other Senate committee chairmen are: Sen. George Moffett of Chillicothe, Agriculture and Livestock; Sen. Robert W. Baker of Houston, Banking; Sen. Charles Herring of Austin, Claims; Sen. Louis Crump of San Saba, Constitutional Amendments; Sen. Crawford Martin of Hillsboro, Contingent Expenses; Sen. A. M. Aikin Jr. of Paris, Counties, Cities and Towns; Sen. Andy Rogers of Childress, Education; Sen. Culp Krueger of El Campo, Game and Fish; Sen. Bruce Reagan of Corpus Christi, Insurance; Sen. Preston Smith of Lubbock, Interstate Cooperation; Sen. Dorsey Hardeman of San Angelo, Jurisprudence; Sen. David Ratliff of Stamford, Labor and Management Relations; Sen. Abraham Kazen Jr. of Laredo, Legislative, Congressional and Judicial Districts.

CROWDED CALENDAR AHEAD—Hundreds of bills on almost every conceivable subject have been launched on the legislative waters.

Some never will be heard of again. Some may change your way of living. Among these are proposals to: Up minimum retirement pay for teachers with 20 years' experience to \$1,800 a year; Remove the constitutional ceiling on state payments for the needy aged and increase the ceiling for payments to the disabled; Abolish the requirement for a wife's separate acknowledgement on property transactions; Allow a woman owning property before marriage to continue to manage it without her husband's consent after marriage; Set penalties for giving false testimony under oath to legislative committees; Set a state minimum wage of 75 cents an hour.

Card of Thanks

We want to take this opportunity to thank everyone who were so kind and thoughtful of us during the time of our bereavement. Especially do we want to thank Mrs. Womack and Recie, Dr. Stapp and the staff of nurses of the Foard County Hospital for their kind and tender services.

Wardens Featured in February Issue of Game Magazine

The February issue of Texas Game and Fish is chock full of interesting articles and helpful information, according to T. D. Carrell, director of information and education for the Texas Game and Fish Commission. "One of the most important features of the magazine is that it contains names, addresses and photographs of nearly every game warden in the state," reports Carrell. "You'll surely want to know who your warden is and where you can contact him if and when you need him."

Other interesting features in the magazine include one called "Gobbler Gamble" by Smokey Boyle. If you have ever attempted to talk turkeys in with an artificial call, this one will be humorous to you. "I opened the proceedings with a 12 gauge remark directed at a big tom," writes Boyle. "He and a load of No. 2 shot arrived at the same time, and the poor folks were eating again." This was a perfect finish until Boyle's friend wanted to call the others back with his call for another shot. Then the unexpected happened.

Ken Jurgens, aquatic biologist, encourages chumming for carp in his article, "To Bait or Not to Bait." "Lots of folks, it seems, feel there is something dishonest about using bait to attract fish to a pier. The truth of the matter is, baiting, or chumming as some call it, not only is legal, it is good conservation, in many places, and should be encouraged."

Other articles in the magazine concern the orphan hunt, a Texas elk hunt, the mule deer hunt, the striped transplant, and a report on the reorganization plan for the Commission.

SPEAKERSHIP PLAN PROPOSED—New ground rules are being pushed for one of the hardest-fought, most trouble-causing races in Texas politics.

A proposed constitutional amendment would allow newly elected House members to meet and elect their speaker at least a month before the regular session opening day. Reps. W. T. Dungan of McKinney and Ben Lewis of Dallas are sponsors.

This plan would give the winning speaker time to name committees and be ready to begin work on an organized basis at the start of the session.

Proposed amendment would also limit a presiding officer to one term, bar campaigning in the House and require monthly reports on campaign contributions.

Also proposed is that the post be an elective one the same as the Lt. Governor's office. That would let the people decide and settle the matter early in November.

LOSING OUR MARKETS

Most of us would say that the sewing machine, the typewriter, the bicycle and the automobile are typical American products. They once were. What is happening to them concerns all of us.

For many years our sewing machines monopolized world markets, but last year this country sold only 20,000 abroad and imported more than two million. We sold only 55,000 typewriters in other countries and bought 370,000 from them. Last year we imported nearly 600,000 bicycles and exported virtually none.

As for the automobile, in 1952 we imported only 29,500, last year 688,070, and they are coming in faster every day.

The hard truth is that we have priced ourselves not only out of the world market but out of a large proportion of our own market as well. We are not only losing our markets but losing our shirts as well. This is closing our manufacturing plants, or forcing them to move overseas, creating unemployment, and draining our country of its wealth.

The only way we can regain these markets is to make a better product that we can sell at the same price as our competitors. Yet there are those who want to raise wages and reduce working hours. What for? To close more factories and create more unemployment?—Scandal Sheet, Graham.

Profits, Ugh!

About fifty years ago, a good many men were going into the business of making automobiles, not to benefit humanity but to make money for themselves. "Terrible," cried the reformers.

Most of these men lost every cent they had. A few made money. A very few made millions, became extremely rich, built huge corporations out of the profits. "Terrible," said the reformers.

Today these huge corporations and the companies they support create more than 8 million jobs, jobs that pay about the highest wages in the world. Those 8 million jobs would never exist if it had not been possible to make and keep profits in the past. Profits like that cannot be made today and, even if made, could not be kept. The reformers have had their way.

But the millions of jobs we'll need tomorrow are not being born. That's the terrible price for "reform" that our children will have to pay.—Abilene, Tex., Rotator.

All Seasons Ended

All major game hunting seasons on wild game in Texas are now closed, according to the Game and Fish Commission. There can be no more hunting on deer, turkey, dove, quail, ducks or geese until new seasons are set. Squirrel and javalina hunting is still legal in a few counties, but you'd better check with your game warden.

Bass Running

Good white bass runs are being reported in most of the larger impoundments of Texas, according to reports of fishery biologists of the Game and Fish Commission. The Texas limit on white bass (sandies) is 25 per day.

Night Hunters Pay Big Fines; Lose Licenses

Night hunters fared roughly in the courts during December, according to the regular monthly arrest report of the law enforcement division of the Game and Fish Commission.

During the month 124 hunters were arrested for hunting deer with headlights. Most of them paid fines ranging from \$50 to \$200 and quite a few of them had their hunting licenses suspended for a year.

During the month, there were 576 arrests. Fines were paid totaling \$21,339.94 plus \$966 in costs for a grand total of \$22,306.94.

A number of other persons also were arrested and fined for hunting from automobiles. Generally, violations came for exceeding bag limits or shooting game out of season. There were 140 persons also who paid fines for either hunting or fishing without a license.

For Every Giveaway, There Is a Take-Away

"Remember this: The Federal government, or anyone else, cannot give anything to anybody without taking it from someone. Who are the 'someones'?

For many years our sewing machines monopolized world markets, but last year this country sold only 20,000 abroad and imported more than two million. We sold only 55,000 typewriters in other countries and bought 370,000 from them. Last year we imported nearly 600,000 bicycles and exported virtually none.

Fight for Federal Aid to Education Goes On

"The fight for federal aid (to education) still goes on, but the crisis that was supposed to justify it is withering away . . . Those who have said the job could be done without federal aid have been proved right. Those who persist in seeking a federal solution,

however, still have a chance of getting their way. This could happen because many Americans, deceived by a propaganda din for federal aid, may not yet realize that the crisis is passing."—International Falls, Minn., Journal.

By Vera Sanford

A fellow told us quite some time ago that the happiest day in his life was the day he bought a boat.

Then he added "... and the next happiest day was the day I sold it."

Of course he said that in jest. But we later learned that he meant it.

However, that was back in the days when there were few boats as large as his and not a great deal of interest in water sports. Boat building itself did not get the wide attention then that it does now. And the motor—man, they were clumsy looking things, heavy and noisy.

Today's boats are streamlined as today's automobiles. Motors are quiet, easy to start, and smooth running. A great change has taken place, especially during the past few years.

Frankly, our happiest Christmas ever... was the December 25th, several years ago, when Santa slid a boat under our Christmas tree. Actually the jolly old fellow just left us a note to the effect that awaiting our pleasure at Billy Ditch's Marine Service was a brand new 18-foot, Whitehouse fiber-glass runabout and two 25 hp Buccanier motors.

That rig made a beautiful job. It provided fun for the entire family, and boating, skiing and fishing pleasure for friends and business associates for months and months to come. All of us will remember that Christmas forever.

Fact of the matter, we were so happy that we printed "Free Boat Ride" cards and distributed them wherever we went. Men and women were entitled to a 30 minute ride, children one hour, and grandchildren all day.

We had fun with that boat. Used it a lot in business entertainment too. When our kids married and left, we sold the boat with much regret... and settled for one of Whitehouse's 14-foot fiberglass fishing boats. It has provided worlds of fun, too. And food. You know fishing is one hobby that allows you to "have your fun and eat it too."

Last December, Old Santa left us a 3 hp. outboard motor. The little 32 pound, one cylinder Buccanier is small enough for trolling and light enough to lift easily in and out of the water. We keep the motor in the trunk of our car, ready for a jaunt to the lake any time.

Nowadays when a fellow can rent a fishing boat for \$1 or \$2 a day, on most Texas lakes, it is mighty nice to own a small, easy-to-carry motor that you can store in the car until that moment when you're ready to head for the happy

How Federal Aid Will Simplify Administration

Robert E. Wilson, Association Professor, Education Adm., Temple University, Philadelphia

During the current rage over the advisability of federal aid to education there has been overlooked its potential for simplifying the problems of administering public schools. Assuming that the federal government shares the major burden of financing schools in the future, and also shares the concomitant responsibility for operating the schools, by the year A. D. 2000 a superintendent of schools could handle these common administrative problems in the simplified manner in the following manner:

Parent: I want my child's teacher changed.
Superintendent: I only work here; see your senator.
Citizen: My school taxes are too high.
Superintendent: See your congressman; finance bills originate in the lower house.

Teacher: Our arithmetic books are worn out; can we order new ones?
Superintendent: This is election year; no additional expenses this year.

Citizen: Kids are cutting across my lawn on the way home from school and have damaged my petunias.
Superintendent: Don't bother me. File your list of damages with the United States regional court of claims.

Parent New to the District: What school will my child attend?
Superintendent: The U. S. office of education does not distribute its building and pupil allocation until August.

Teacher: When can we start teaching that new unit which we developed for eighth grade history some time ago?
Superintendent: Let's see, we submitted our recommendations for that unit in 1922. They're working on it last I heard.

Janitor: I want a raise.
Superintendent: See your congressman; finance bills originate in the lower house.

High School Student: But why can't we have a pep rally?
Superintendent: This is an election year. White House directive dated January 4 forbids all rallies that might detract from nominating convention rallies.

Parent: How many days will we get for Christmas vacation this year?
Superintendent: Maybe I don't have to answer that question, did you vote in the last national election?

Parent: That teacher kept my child after school just for throwing a paper wad!
Superintendent: Detention for paper-wad throwing upheld by United States Supreme Court, *Alt-haus vs. Union School District*, Ga., 11 T. 381, 1976.

Columbian Club

On Wednesday, Feb. 1, the members of the Columbian Club were guests of Mrs. Edgar Jones, whose home is west of Truscott. The weather was unseasonably warm and everyone enjoyed the delightful drive into the country. Guests present for the afternoon's program were Mrs. Bill Owens and Miss Nettie Black.

A brief business session under the direction of the president was followed by the lesson with Mrs. Roy Ayers as leader. "The One Hundredth Anniversary of the Civil War" was the theme for the afternoon's study.

An interesting note was brought out in Mrs. N. J. Roberts' section of the program when she read an excerpt from a Foard County News of more than 50 years ago of a social honoring veterans of the Civil War, both of the Blue and the Gray. Each member and guest was given the opportunity to tell how her life had been affected by Civil War stories or events as related by parents and grandparents. During the refreshment hour many interesting accounts were told concerning the hardships and trials of Civil War days.

Mrs. Roberts will be hostess on Feb. 15 instead of the scheduled meeting place.

Grants for Science Teaching

In mid-December the Esso Education Foundation announced grants totaling \$485,000 to stimulate and improve science teaching at all educational levels. Fifty-four colleges and universities and six special projects in 25 states are recipients. These grants are part of a special science program established in 1957, and are in addition to other programs of the Foundation which has distributed almost \$8 million, primarily to liberal arts institutions, since it was founded in 1955.

CARE's Food Crusade won the unanimous vote of Mrs. Dwight D. Eisenhower, Mrs. John F. Kennedy and Mrs. Richard M. Nixon. They co-sponsored Washington's main fund drive for the program.

Big Tax Demands

"Big budgets mean big tax demands, and yet, everyone knows that taxes already are too high. So, in Washington, they're talking about closing the 'loopholes.' But, it turns out that the biggest beneficiaries of the loopholes are the small taxpayers and that the middle bracket folks have fewest loopholes. There aren't enough big taxpayers around to matter much. So it looks like the only hope the citizens have is to tell their Congressmen that they want cheaper government." — Duluth, Minn., Publicity.

Buckeye is the popular name for a species of chestnut abundant in Ohio.

Investigators Not Investigating

Unanimity: Newsweek said, "In Washington, everybody agrees, the need for investigating, the need monitoring, and the need new sets of themselves. In short, as is called for in the Federal laboratory agencies that have a full influence over most economy."

National Electrical Week

February 5-11, 1961

MAKE
Electricity
WORK FOR YOU

ELECTRICITY, probably more than any other source of energy, has been responsible for the high standards of living enjoyed by millions of Americans today. The nation is more productive, healthier, wealthier, and more secure—thanks in large part to the number of tasks electricity performs.

Today's people live longer because electricity accomplishes the labor that formerly drained their strength and impaired their health. Mass production would be impossible without electricity. At the touch of a button or switch, electricity goes to work in factories, homes, on farms, on the land, in the air, and under the sea—doing the work of millions of people and enabling millions more to enjoy more ease and convenience than ever before. In medicine and in science, electricity enables man to study areas as yet unexplored. Today's children can look forward to a future in which electricity will make even greater contributions to their health, comfort and security.

Electricity stands ready to do even more in the way of improving the world in which we live, whether it is the world of business, science, medicine, research, entertainment. Electricity is ready to create more jobs and whole new industries. It is ready to take on increased tasks on the job, in homes, on farms and in factories. Electricity and its abilities are boundless—they need only to be called upon to serve. This is the electrical industry's message during National Electrical Week, a message to its own employees and to the public: MAKE ELECTRICITY WORK FOR YOU.

HOW TO MAKE \$18.75 A WEEK GROW INTO \$10,000

\$10,000 is a small fortune. But it can be yours if you buy a \$25 U.S. Savings Bond every week. After 7 years, 9 months you'll have Bonds worth \$10,000 at maturity—and they will have cost you only \$7,500.

The U.S. Government and your employer will help you. Just sign up with the Payroll Savings Plan at work. This way you can't forget to save.

By saving only 63¢ a day, you can own Bonds worth \$1,000 at maturity in just 40 months. Why not start now?

More advantages to think about
You now get 3 1/2% interest, at maturity. This new rate went into effect June 1, 1959. Series E Bonds now mature 14 months earlier—in just 7 years, 9 months. Your old Bonds earn an extra 1/2% from June 1, 1959 too.

You can get your money, with interest, anytime you want it. But it pays to keep your Bonds.

Your money is guaranteed by the U.S. Government. The cash value of your Bond can't drop—it can only grow.

Your money can't be lost or stolen. The Treasury will replace your Bonds, free, if anything happens to them.

You save more than money. You help save the peace with every Bond.

Here's how you can reach your savings goal with U.S. Savings Bonds in just 7 years, 9 months.

If you want about \$2,500 \$5,000 \$10,000 each week save \$5.45 \$10.85 \$21.70

Sympathy for Yourself

"Feel sorry for two men in the nation and in business for the many decisions they must make?" "Then keep a little of that sympathy for yourself if you are a motorist," advises Jack Tutwiler of the Darke County Automobile Club.

"The local AAA official points to a recent study of the U. S. Bureau of Public Roads, showing that a motorist in typical city traffic must make a decision and take some action in an average of three times a minute.

"And many of these are life-saving decisions," the automobile club leader points out.—Vernon, Ohio, Policy.

Control of Vernon Recruiting Station Moved to Abilene

Sfc. Maurice A. Wilson, local army recruiter, announced this week that effective February 1, the local recruiting station, located at 1809 Wilbarger St., Vernon, has been placed under the control of the recruiting main station located at Abilene. All accepted applicants will be processed for enlistment at Abilene. The area canvassed by Sfc. Wilson has not been changed. He will continue to cover Wilbarger, Foard, Cottle, Childress and Hardeaman Counties.

Sfc. Wilson also stated that his itinerary will continue to be the same as always. For further information on this change and any other information desired on the U. S. Army, Sfc. Wilson may be contacted by calling collect, Vernon LI2-6782 or 2-4543.

The term, ballot, meaning "little ball," stems from classical Greek jury practice. White balls meant acquittal, black balls, banishment.

From the News THIRTY YEARS AGO

News items below were taken from the Friday, February 6, 1931, issue of The Foard County News:

Foard County was the scene of two airplane accidents Monday which resulted in the complete loss of one plane by fire and almost total destruction of another in a crash; however, no one was badly hurt in either accident. Both flights were from Kelly Field in San Antonio.

Playing in the best form they have shown this year, the Crowell Wildcats completely overwhelmed the Wayland College quintet of Plainview and defeated that team in basketball here Wednesday night by the score of 47 to 8.

Paul Shirley had the honor of sitting on the stage at the Will Rogers program in Wichita Falls last Friday afternoon. He is a personal friend of the humorist.

Extensions for the payment of county, school and city taxes have been granted and no penalty will be charged if the taxes are paid within the extension limit, however, ten per cent interest will be charged.

Word was received that D. P. Sink, 82, former Crowell photographer, died Jan. 29 in South Gate, Calif.

F. L. and Clark Rennels of Crowell were guests of Mr. and Mrs. Bailey Rennels of West Rayland Sunday night.

H. K. Edwards and Mrs. J. C. Self are in Dallas to purchase goods for R. B. Edwards Co.

Mr. and Mrs. Claude Brooks returned to Crowell Thursday last week from Abilene where they had lived for several months.

J. W. Carroll, 59, former resident of Foard County, died at his home in Brownfield on January 23.

Loyd Fox of Knox City visited friends in Thalia Sunday.

Two members of the Vivian 4-H Club, Misses Ruth Rasberry and Doris Lewis, were the principal entertainers at the luncheon of the Rotary Club Wednesday.

The Foard City League held its regular business meeting and social at the home of Mr. and Mrs. W. R. Ferguson Friday night with Floyd and Cora Belle as host and hostess. Attending were Lina Weatherall, Catherine Weatherall, Gladys Owens, Pauline Blevins, Cora Belle Ferguson, Frank Weatherall, Wellington Owens, Clyde Owens, Rowland Lefevre, Marlin Thompson, Jack Welch, Richard Sparks, Marcus Mills, Floyd Ferguson, John Rader, Norman Dollar, Howard Ferguson, Mr. and Mrs. R. E. Sparks and Mr. and Mrs. W. R. Ferguson.

Resort Bird Shooting Open Until March 31

If you failed to get your quail during the open season on wild game birds, you still have an opportunity to get in plenty of shooting at numerous resort areas throughout the state, according to Howard Dodgen, executive secretary of the Game and Fish Commission.

Under the law, quail, pheasant and hen raised mallard ducks may be shot at these resorts until March 31.

Quite a few of these shooting resorts operate as clubs. Others, however, take hunters on either a daily or a per bird basis. You can take your own dogs, or dogs and trainers are available at additional fees.

A list of the Texas shooting resorts and their addresses can be obtained from Joe Davidson, Box 661, Tyler, local representative of the Sporting Arms Institute.

188 Dry Holes

"When most of us think of a Texan we're inclined to think of a man with a big hat, a bigger roll of greenbacks, and well-to-do carpeting. This business of drilling for oil, however, is not all peaches and cream.

"During a period of 15 years, a Texan drilled 188 dry holes at a cost of close to \$2½ million."—Ojai, Calif., News.

Local Girls Officers in Wilbarger-Foard GA Organization

The first meeting of the Wilbarger-Foard Associational G. A. was called to order by the associational WMU president, Mrs. Preston Manley, in the First Baptist Church in Vernon Saturday of last week.

Miss Joy Phillips, state G. A. director, conducted the installation service entitled, "Candles for the Lord." Officers installed were president, Scherry Goodwin, Crowell; vice president, Ella Ann Cates, Crowell; secretary, Jan Kidwell, Lockett; pianist, Karen Shook, Lockett; chorister, Julie Waller, Vernon; program chairman, Lenora Miller, Odell; forward step chairman, Brenda Daniel, Vernon; prayer chairman, Ann Parker, Farf; mission study chairman, Nelda Chappel, Crowell; community mission chairman, Julianne Locklar, Vernon; and stewardship chairman, Nell Parker, Fargo.

Union Welfare Fund Has Twice the Amount of Social Security

"Over \$42 billion is in the various funds of AFL-CIO unions. Some of it—about \$2 billion—is in strike funds, general funds and the like. And \$40 billion is in welfare funds—an amount about double the reserve fund of the national social security system."—Nogales, Ariz., Herald.

Over 20 million people in the United States, or 1 out of 9 persons, get farm surplus through relief and school lunch programs. After these needs are met, CARE and other foreign-aid agencies get Government allocations. Every \$1 sent to the CARE Food Crusade, New York 16, N. Y., delivers a package of this abundance to the hungry in other lands, as personal food-for-peace gifts from Americans.
