Foard County Mill Cinches Tie Little League Championship

Week Foard County Mill Farmers Elevator each won two games of July 4 and 7, clinching for Foard County the tie for the league championship. Should Farmers Elevator win its games of this week, Foard County Mill wins the tie between the two clubs. Foard County Mill wins two of its games this week, the tie will be the 1961 champion.

Results of last week's games: Monday night, July 4, 6 p. m.: game was short a man or two, but it was a fair game with Foard County Mill winning 19-6 defeat on VFW's bats. Only hit of the game was Jimmy Hammett's second hit of the season, which drove across three runs. The Fish hit three-for-three in the Cardinals, and Gary Tole went for two.

In the eight o'clock game, Farmers Elevator whipped out Rotary 7-1 count in a well-played game. Yankee pitchers Buddy

Myers and Ronnie Eavenson kept five hits well scattered, with Pete Matthews, Lynn Rader, Lannie Hubble, Bob Barrera and James Welch getting one each. Farmers Elevator garnered only five hits also, but four of them came in a big first inning wherein the Yankees scored four runs. Ronnie Eavenson, Buddy Myers, Ronnie Eavenson and Don Ray Borchardt hit in succession in that first inning.

Friday, July 7, 6 p. m.: Houston Adkins and the Rotary Braves quite possibly should be awarded the Sportsmanship Award of the year on this game. Had they pulled some sort of 30 second stall, they would have won this game by an 11-10 score, with the curfew time catching them in the lead. They played a quick, 3 minute half-inning instead, started another inning, and Farmers Elevator forged ahead to win 14-11. This was one of the most interesting games of the current season, with the lead changing five times. Pete Matthews pitched two shutout late innings for Rotary, and Lynn Rader hit the Yankee pitching like he owned it (four-for-five) as he drove in seven runs (one hit for a three-run home run), but it all wound up for naught in the sixth as four Yankees scampered across the plate for the winning runs.

Bob Barrera (with two hits), Joe Ray Burkett, Lannie Hubble and Davis Barrera kept the Braves attack rolling with their hitting. Yankee hitting total was only six hits, with Ronnie Eavenson getting two of them, and Buddy Myers, Don Ray Borchardt, Danny Gobin and Daniel Santos picking up one each.

Friday night, July 11, 9 p. m.: Foard County Mill batted around twice in the first inning, scored 13 runs, and coasted to a 21-7 victory over VFW. The Vets could only manage for three hits off Danny Walling and Joe Mike Fish, with Bob Bird getting two and Randy Simmons one. Gary Tole and Lee for the Cardinals, and Raymond Quintero hit his first home run of the season—a three-run homer in the second count. Danny Walling and Randy Smith got the only other two hits for the Mill Crew, as their hits only totaled five, but they received 20 free passes to first base, and several errors helped run up the score.

In the PeeWee game of Monday night, July 3, Terry Crews and Lee Whitely came through with their usual sterling pitching performances, and the game ended in a 5-5 tie.

Cemetery Association Holds Annual Meeting

The Crowell Cemetery Association held its annual meeting in the Down Town Bible Class Room Friday afternoon at 4 o'clock with the president, Mrs. N. J. Roberts, in charge.

Reports of the condition of the association were made by Mrs. Roberts and Mrs. C. C. McLaughlin, secretary. According to her reports, the association is in good shape.

Isn't Americanism?

"Freedom of choice should apply to labor unions the same as to anything else. If a man is FORCED to join a union in order to get a job, then allow deduction of union dues from his pay envelope in order to keep his job—THAT ISN'T AMERICANISM!" —Dallas, Tex., News.

Foard County News Enters Its Seventy-First Year

The Foard County News, established in 1891, enters on its 71st year of publication with this issue. The paper was established by the late J. L. Harper of Collin County immediately following the organization of Crowell and Foard County and was printed in an upstairs room of the late Dr. and Mrs. W. H. Adams in about the same location as the business today on the east side of the square.

Publishing a paper during these many years has had its ups and downs. For many years the type was set by hand and printed by hand until 1908 when the present newspaper press and a gasoline engine to power it were purchased. This press, although more than 52 years old, is still giving good service. The first Linotype machine was added to the equipment in 1918 and it was later exchanged for a more versatile model.

What success has been achieved in printing a weekly newspaper down through the years is due to the patronage of the advertisers and the hearty cooperation of the people of this community and surrounding area.

65 New Laws Have Been Passed on Fish and Game

The recently completed regular session of the 57th Legislature saw the introduction of 108 bills pertaining to fish and game, of which 65 became laws.

Among the new laws of statewide interest is one permitting certain incapacitated persons to hunt from a vehicle (except from public roads), provided their incapacity is authenticated, in writing, by a licensed physician; a law requiring deer tags to bear the date and piece of kill; one prohibiting the possession or transportation of live coyup (nutria) without written permission of the Game and Fish Commission, and a law classifying the sandhill crane as a game bird.

Washington County was removed from the list of counties under Regulatory Authority, but 16 counties were added to the 105 still participating in the program, to bring the net total to 121. In addition, Precinct 4 of Tyler County was placed under Regulatory Authority, as was that portion of Lake Texoma lying in Cooke and Grayson Counties, and the northeast portion of Matagorda Island. Also, the commission was given regulatory responsibility over deer in San Saba County.

A digest summarizing the general game and fish laws is being prepared for distribution early this fall.

"Of each automobile owning and operating dollar, Mr. Average Motorist spends 88 cents for his vehicle and 12 cents for the road in the form of state and federal gasoline taxes, registration fees and all other automotive taxes." —Aurvasse, Mo., Review.

Heavy Rain Falls South of Crowell Saturday Afternoon

A heavy overcast sky, which blanketed this area most of the week end, brought up to three inches of rain to parts of Foard County.

Reports from just south of town and continuing for some distance, a heavy downpour occurred Saturday afternoon and up to three inches was reported. Crowell received only a light shower—not enough to measure.

A report from the Vivian community stated that from one inch to 1 1/2 inches fell in that area Saturday and Sunday.

Crowell received about .2 inch of rain Tuesday night, and from the location of the cloud, it appeared that a heavy rain fell to the north and northwest of town and also east.

High and low temperature readings for the past week follow:

Thursday: high 99, low 74.
Friday: high 92, low 76.
Saturday: high 90, low 73.
Sunday: high 81, low 70.
Monday: high 87, low 65.
Tuesday: high 88, low 66.
Wednesday: low 67.

Government Aid Is a Delusion and a Snare

"It is not yet too late to save the Republic if citizens heed the clear signs of disaster ahead and reverse their stampee into socialism and the welfare state. This means a return to self dependence and a realization of the truth that 'God helps those who help themselves.'"

"Government aid is a delusion and a snare." —Tonasket, Wash., Tribune.

The benefits of the recent bumper wheat crop are reflected this week with the statement of the Crowell State Bank in this week's issue showing bank deposits of \$1,314,987.70. This is the highest amount of deposits ever reported in a statement of the local bank. Previous high was on June 15, 1960, when deposits were \$4,211,060.65.

A check of the records shows the following amounts of total deposits published in a bank statement here since December, 1959, when the deposits were \$3,027,709.63. On March 15, 1960, they were \$2,818,902.72, and on June 15, 1960, the total was \$4,211,060.65. On October 3, last year, the local bank had \$3,119,590.74 deposit and on the last day last year, the deposits totaled \$3,293,930.00.

Deposits were up nearly \$1,200,000 over the statement of April 12, this year, when they were \$3,138,393.20.

Excessive Power of Governments

"Any government with the power to give you anything that you want, is strong enough to take everything you have." —West Concord, Minn., Enterprise.

Definitions of 'Isms'

"If you want your father to take care of you, that's PATERNALISM.
"If you want your mother to take care of you, that's MATERNALISM.
"If you want Uncle Sam to take care of you, that's SOCIALISM.
"If you want your comrades to take care of you, that's COMMUNISM.
"BUT—if you want to take care of yourself, that's AMERICANISM!" —Tenino, Washington, Independent.

Protest Launched

"We would like to launch a vigorous protest against a ruling by the U. S. Internal Revenue Service which will not permit a privately owned business—corporation, partnership or individually owned—to charge off as an expense any advertising which attempts to sell the opinions of its owners if these opinions are contrary to those held or a policy set by the Federal government." —Corvallis, Ore., Gazette Times.

Carolyn Bell Wins Scholarship

Houston Chapter of the American Red Cross has awarded Carolyn Bell, daughter of Mr. and Mrs. Alton Bell, the scholarship for study toward her Master's degree in social work. She will enter Simmons College, Boston, Massachusetts, in September for study in Medical Sociology.

New Drink by Coca-Cola Co., Being Produced Here

A new soft drink with a tart taste, goes on sale in Crowell and its trading area, being bottled and distributed by Vernon Coca-Cola Bottling Company, the same company which distributes the famous Coca-Cola. Robert Lee Wilson, manager of the company, said the new product is packaged in king-size 10-ounce bottles.

The Sprite bottle is considered one of the most distinctive packages to be introduced in the soft drink market in recent years. It is bright green with refreshing stripes decorating its surface. The drink is also marketed in its specially-designed carton.

Before its introduction here, it was test-marketed in Lansing, Michigan and Sandusky, Ohio. In these areas, it received excellent consumer reception.

In adding Sprite to our product line," Mr. Wilson said, "our company is in a position to serve another segment of the consumer beverage needs. Studies have shown that a big percentage of the market for flavored soft drinks is the citrus flavor that has developed for Sprite." He said Sprite will be produced under the same exacting quality control standards maintained for Coca-Cola.

Gasoline Five Times as Great As Diamonds

One of the best bits of advertising these days is the one dealing with the gasoline tax situation which, briefly stated, is that 10 cents of this vital commodity costs the state and federal governments \$1, or five times as much as the impost on diamonds. No wonder diamonds are the girls' best friend, and that mink coats are a close second. Isn't it queer that a formula that assesses a necessity much higher than a luxury?" —Huntington, N. Y., Times.

Prophetic Warning by Thomas Jefferson

"We may well ponder the prophetic warning voiced by Thomas Jefferson, long ago, when he said: 'When all government, domestic and foreign, in little or great things, shall be drawn to Washington as the center of all power, will render powerless the checks and balance of one government on another. And will become as venereal and oppressive as the government from which we separated.'" —Norfolk, Va., The Time Advocate.

FARM BUREAU Insurance News!

MR. FARMER . . . As vacation time approaches, here are safety suggestions to insure a worry-free trip. First, notify the law enforcement agency, or a neighbor that you will be gone and request they keep an eye on your home during your absence.

CHECK to see that unneeded gas and electrical appliances are disconnected.

STOP all delivery of newspapers and other materals that might indicate your home is vacant.

CHECK with your FARM BUREAU AGENT to see that you are adequately protected during your trip. If you are eligible, a Texas Homeowners Policy will provide protection against all risk on your home and personal property, even on the personal property you take with you.

High School Bands Invited to Attend State Fair of Texas

Every high school band in the state is being invited to attend the State Fair of Texas and participate in the Fair's big 1964 "position of Music."

The State Fair is endeavoring to make the 1964 exposition truly musical sixteen days of memorable experience for bands who are able to take part in the "position of Music."

Bands that attend the Fair have concerts scheduled for the days they are present. They will be invited to march in the "Parade of Music" which takes place on the fairgrounds every evening at 6:45 p. m.

All members of the band participating in the "Exposition of Music" will be admitted to the fairgrounds free.

High school bands throughout the state have been selected to attend the Fair by H. Stewart, executive vice president and general manager of the fair, who has not received either their director or school superintendents are to contact the State Fair.

So that there will be a high number of bands attending the Fair each day, bands are requested to specify a three-day period that they would attend. Dates of the 1964 Fair are Oct. 7-22.

Many bands from throughout the state will participate in an annual Texas Music Festival sponsored by the Fair and Texas Music Educators Association in the Cotton Bowl on Oct. 10.

A folder listing highlights of the 1964 State Fair "Exposition of Music" is now available. Copies can be obtained by the Publicity Department, State of Texas, Dallas 26.

Discriminatory Law

"Senator Mansfield, Democrat from Montana and the majority leader in the U. S. Senate, suggests that a law should be enacted providing for one million dollars to each of the two parties to be spent during presidential campaign . . . relating that the money be paid only to the Democrats and the Republicans, would on the face of it be unconstitutional, as it is a discriminatory law. To be sure, we believe that every party should have a presidential candidate and demand an equal contribution, including the Socialists." —Orelah, Wn., Independent.

Related to 'Experience'

"In the past, the tax an employer paid was directly related to 'experience.' That is, the employer who hired and fired or laid off workers freely paid a much higher tax than one who stabilized his employment. "Now, all employers would be treated alike. The incentive to stabilize employment—itself a costly process—will be impaired. "So, to extend benefits for half a million unemployed, the jobs of 60 million are to be made less secure, now and hereafter. "There must be a better way." —Anaheim, Calif., Bulletin.

Must Demonstrate Leadership

Dr. E. Vincent Askey, president of the American Medical Association, says: "It is not enough that a doctor upgrade his knowledge,

sharpen his skill, work endless hours in behalf of his patients, and provide leadership in the broad and technical field of medical practice. He must also demonstrate leadership in helping to retain the freedom of individual opportunity, the voluntary system of medical care and the high standards of that care which he has helped to build and to which he is dedicated to protect."

The President Says:

Following the Soviet achievement in putting an astronaut into space, President Kennedy, speaking at a press conference, said: "I do not regard the first man in space as a sign of the weakening of the free world, but I do regard the total mobilization of men and things for the service of the Communist bloc over the last years as a source of great danger to us, and I would say we are going to have to live with that danger through much of the rest of this century. . . . Our job is to maintain our strength until our great qualities can be brought more effectively to bear."

STATE CAPITAL

Highlights

AND

Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin, Tex.—Within a few weeks the tourists and school children who flock to Austin will be able to get a lesson in Texas history by visiting the most beautiful of all the new buildings on the state capital grounds.

It is the State Library and Archives Building, now nearing completion on a site directly east of the Capitol.

For many years history-minded Texans decried the fact that the priceless early documents of the state had no real home. Finally, these documents were moved from a mouldy basement to a Quonset hut. There many feared for their safety.

Now, the new edifice provides the state's historic documents with a magnificent home. In addition, there are quarters for the State Library and the General Land Office.

More interesting to the visitor will be the way in which Texas history is dramatized in the architectural decor of the building. On each side of the entrance are six large flag poles. From them will fly the flags of the nations which have ruled Texas—France, Spain, Mexico, the Republic of Texas, the Confederate States of America and the United States.

Embedded in the stone of the front are bright-colored mosaic shields. These also represent the same six nations. Smaller bronze emblems decorate the heavy metal doors at the front. Across the back of the structure, even larger shields, bearing the six nations' seals in colored ceramics, are mounted on the face of the building.

Pink granite, the "official" stone for state buildings, is used for the entire exterior. Carved in the granite across the left front are these words:

"The People of Texas do now constitute a free, sovereign and independent republic and . . . we fearlessly and confidently commit the issue to the decision of the Supreme Arbitrator of the destinies of nations." (Texas Declaration of Independence, 1836).

On the right front side is carved: "All political power is inherent in the people and all free governments are founded on their authority and instituted for their benefit" (First Constitution of Texas, 1945).

Although the building has four floors, there are seven "stack floors" where the building is divided for storage of books and documents.

One end of the main floor will be devoted to the library. There you will find a charge desk and a large reading room.

Another large room will house the archives. In it there will be a large work room where researchers may look at old papers.

Land Office, to be on the third and fourth floors, will have a separate entrance at the south end of the building. (Building faces west.)

First floor lobby, like the Capitol rotunda, will be a Texas showcase. In its terrazzo floor is the familiar wreath and star emblem of Texas. Main walls are polished granite and upper wall is sandstone. Above the center of the area is a huge, spectacular oval light fixture of red, white and blue colored glass in a sunburst design with a border of 50 stars.

Museum cases, recessed and lighted, are built into the walls around the lobby. Opposite the lobby entrance is a large bronze screen with 15 blocks on which are wrought designs that present a panorama of Texas development. There's an Indian with tomahawk, branding irons, dueling pistols, the first Capitol (a small frame house), an early locomotive, and a windmill on the prairie. Last block shows a gushing oil well.

Building of the State Library and Archives Building was authorized by the Legislature in 1957 with an appropriation of \$2,500,000. Project has been carried through by the State Building Commission for which E. E. McAdams is chairman and Gov. Price Daniel and Atty. Gen. Will Wilson are members.

Admiral H. R. Neiman is director of the Building Commission.

State Archives Building is the fourth of the new edifices erected since the building program began

in 1957. It is neither the largest nor the most expensive, but because of the historical designs, it is attracting the most attention. Those who have had an advance peek believe that it will, as intended, be a fitting residence for the heritage of Texas' 125 years.

TOLEDO BEND DAM STUDIED—Texas Water Development Board has given tentative approval to a \$15,000,000 state loan for the building of a \$60,000,000 Toledo Bend Dam on the Sabine River.

The dam will create the largest man-made lake in the south and supply water and power for residents of both Southeast Texas and Louisiana.

One of the first obstacles to be faced is obtaining a permit from the State Board of Water Engineers. In this, the Sabine River Authority is opposed by the owners of timberland which would be flooded by the reservoir.

Louisiana will be a partner in the project, if it materializes. Louisiana voters already have approved a \$15,000,000 loan to meet its share of the cost.

END OF AN ERA—One of the most colorful and controversial names in 20th century Texas politics passed from the scene with the death of Mrs. Miriam A. Ferguson.

Though she preferred house-keeping and flower raising, Mrs. Ferguson was the first (and only) woman governor of Texas. Also one of the only two women governors ever to be elected in the nation.

Beginning of the "Ferguson era" was in 1914 when her husband, Jim Ferguson, was elected governor, as the champion of the Texas tenant farmer. He was re-elected in 1916 but impeached in 1917.

In 1924 Mrs. Ferguson ran for governor, with the announced purpose of clearing her husband's name. She was elected in 1924, defeated for re-election in 1926, but won another term in 1932.

With her to the last was the nickname she disliked—"Ma." Her husband (who died in 1944) was known as "Pa" or "Farmer Jim."

RATE INCREASE EXPLAINED—Texans who are irked at the prospect of an auto insurance rate increase should take note that they've had a year's reprieve since the increase was indicated, says the Insurance Board chairman.

Claim costs indicated that a rate increase was justified last year, says Chairman Tom Ferguson, but the Board postponed making it because the safe driving plan had just gone into effect.

In that 12-month interval, said Ferguson, drivers actually have paid \$20,000,000 less in insurance premiums than cost figures show they should have. As a consequence, he said, companies absorbed a \$20,000,000 deficit.

LAST ROUND — Legislators waxed both heated and hopeful in the last round of public hearings before the committee appointed by Governor Daniel to study all tax plans and suggest a compromise.

Committee, mostly made up of board chairmen of state agencies, is to select ideas or merge them into a recommendation to be offered at its final meeting July 6 and 7. Special session to enact a tax plan begins July 10.

Rep. Reed Quilliam of Lubbock said he felt the people should see clearly what their choices are—a sales tax, income tax or sharp reduction in state services.

Reps. Charles N. Wilson of Trinity and Maco Stewart of Galveston suggested a plan that would combine a 2 per cent general sales tax, with exemptions, and a 6 per cent corporation profits tax.

Sen. Grady Hazlewood of Amarillo apparently favored a sales tax. He told the committee he thought the governor had been asleep, Rip Van Winkle fashion, since 1939 when Governor Daniel, then a House member, was one of the "Immortal 56" who blocked a sales tax. Hazlewood pointed out that the state has had a population explosion and an 800 per cent increase in cost of government since then.

BUS INQUIRY POSTPONED—An Austin court of inquiry into the prices being paid by the state for school busses has been postponed until July 10.

Atty. Gen. Will Wilson called for the inquiry, noting that Texas paid from 10 to 25 per cent more for busses than some other states.

Judge granted the postponement on the defendants' statement that they had not had the required 10-day interval between the issuance of the subpoenas and convening of the inquiry.

GUARDS NEEDED—O. B. Ellis, general manager of the Texas Department of Corrections, reports that the prison system is in urgent need of officers.

Physically fit men 21 to 55 years of age are desired. They must have a 10th grade education at the minimum.

J. N. Crawford Jr. at the Huntsville prison, is in charge of hiring.

TASTE ITS TINGLING TARTNESS

Here's Sprite... the spring-a-ling, spark-a-ling new soft drink in the bright green bottle with bubbles. On its own, Sprite is light and icy. As a mixer, clear and nicey. From the same company that bottles Coca-Cola.

Mrs. Allene Williams and Mrs. Orie Pearl Bolibruch went to Snyder Sunday where they met their brother, W. R. Thompson, and family and Kathleen Thompson of Odessa and Jeanette Bolibruch. Jeanette and Kathleen returned to Crowell with them.

Progress Being Made in the Brucellosis Eradication Program

Considerable progress is being made throughout Texas in the Brucellosis Eradication Program. To date, seventy-three counties have been declared Modified Certified Control Areas, 15 are being tested at present and four have petitioned for testing to begin, according to Joe Burkett, county agent.

In this area, Cottle, King, Childress, Haskell and Baylor counties are designated as type 2 control areas and are being tested for a testing program and will be tested soon. Knox County has petitioned for testing but does not have enough signatures yet. And Stone, Throckmorton and Young counties are already modified certified areas.

Brucellosis infected cattle suffer a 20 per cent reduction in milk production. They calve on average of once every year and-a-half rather than once a year. In addition, the resulting abortions, sterility and difficult breeders increase replacement needs by 20 per cent.

Whether you are a producer of milk or beef, these losses apply to you. A beef cow that loses 20 per cent of her milk production will mean a calf 10 per cent lighter than normal.

What is brucellosis? Brucellosis is a contagious disease of animals and man caused by a bacterial agent. In cattle, it has been called Bang's disease and contagious abortion. In swine it is also referred to as contagious abortion. It sometimes is referred to as undulant fever in man.

On a nation scale, brucellosis control is moving at a rapid and accelerating rate.

At last count, 53 per cent of the counties in the United States are either certified, or in area control programs. The Texas Brucellosis Law was enacted in 1959 to help rid Texas of the disease. The program is voluntary in the respect that 75 per cent of the cattle owners owning at least 51 per cent of the cattle as shown by the tax rolls must petition to designate a county as a control area. When the Texas animal health commission receives a petition it will issue a proclamation describing the area and stating the type of area plus date the regulation becomes effective. This date cannot be less than 90 days from the issuing of the proclamation.

A hearing will be held on each applying area at least 30 days after the proclamation. An area will be certified when not more than 1 per cent of the herds are found infected.

The law provides penalties for anyone moving cattle into or within a control area without permit, except an owner can move cattle to contiguous pastures if not quarantined.

Owner must submit cattle for test, vaccination, or identification

Surest Way to Freedom

"According to a report released by the Federal Bureau of Investigation today, 'The nine-month period, January through September, 1960, recorded an eleven per cent increase in serious crime in the United States over the same period in 1959...'

"It's a job not for law enforcement officers alone; it is a task, we think, for all Americans who believe that government by the law is the surest way to freedom and that violations should be speedily and effectively punished."—Dublin, Ga., Courier-Herald.

Ultimate Goal Is A Free World

"Communism uses poverty, illiteracy and illness to conquer nations, as in Cuba to establish a base for new aggressions. Reduce poverty, illiteracy and illness and you reduce opportunities for communism to spread and overwhelm us. But we must never lose sight of the fact that the ultimate goal is a free world."—Corvallis, Ore., Gazette-Times.

Federal Intervention in Our Personal Lives Comes in Sneaky Way

"One of the most dangerous aspects of growing Federal intervention in the personal lives of all of us is the quiet, sneaky, way it comes about. The most powerful power in getting city fathers, all of the nation, to get on the Federal aid program is a simple one. It is something others are using. It would be foolish to pass up money and these advantages. The facts are simple. Just remember them. Government does not create wealth. It takes nothing. It takes the fruits of labor and production in the form of taxes. And we pay and turn around and beg for a return of our own money."—Patagonia is at the southern end of South America.

Magazine Tells How Bow Hunter Got Two Deer

Hunting Indian style is described in an article in the June issue of Texas Game and Fish magazine, telling how Dr. Curtis LeDoux, Fort Worth dentist, got his deer with a bow and arrow. The article was written by Mary K. Sloan of Breckenridge.

Dr. LeDoux, wearing a camouflage suit, perched high in the top of an oak tree to get a good view of his hunting range. When two deer approached, he drew down on the 15-point buck. The shaft went through the kidney section and the deer only ran 25 yards before falling.

Would It Be Proper to Send Condolence Cards to Teamsters?

Writing in the magazine Quest, J. C. Furnas says: 'The American Trucking Associations are now attempting to convince the Interstate Commerce Commission that the railroads, by setting low rates for products competitively carried by trucks, are deliberately losing money on piggyback operations in order to hurt trucking. This the railroads hotly deny. . . . On such progress the trucking companies and the Teamsters cast a jaundiced eye. When Hoffa recently spoke of the truckers who might lose their jobs because of piggybacking, the Brotherhood of Railroad Engineers retorted, "Would it be in order for the 450,000 rail employees who have lost their jobs because of the trucking industry to send condolence cards?"'

LITTLE LEAGUE NEWS

By Marion Crowell

Well, by the time you read this column, this year's championship may be decided, for, should Foard County Mill win either of the games of July 11-14, they will be champs in the wildest, wooliest, dog-eat-doggiest year of Foard County Little League history. But, quite conceivably, tomorrow night's game (Friday) just might be required to crown a champion, as Rotary looked mighty potent last Friday night. I watched some L. L. play in Marshall on June 30. How did it compare with our league play? Just about the same. That's the good part of Little League. It's just about the same all over the world.

This week's "thank you" to: Houston Adkins, Billy Joe Halenck, Larry Henry, Jack Turner, Baylor Weathered, Gordon Wood Bell, Domingo Martinez, Dan Mike Bird, Wesley Cummings, Ronnie Bradford and Floyd Thomas for their unpinning. To Bud McLain and Chuck Setliff for their announcing the week before. . . . To Lee Ellen Simmons and Christine Nichols, Mrs. Robert Hammonds and Virginia Bird for passing the hat. . . . and for just EVERYONE who helped Little League along in the week I was out of town!

DON'T YOU THINK Rudy Magee and Pete Matthews look like fine prospects as 10-year-old pitchers? That some interesting strengths and weaknesses were disclosed by the "top-twenty" scrimmage last Saturday night? (Did you know that every man on the "Hometown" roster hit safely at least once in that scrimmage? And that Lee Looney hit four-for-five, including a home run, driving across 8 runs?)

You will probably know, by the time you read this column, who the 14 boys are who'll represent Crowell as this year's All-Star squad. As this is being written, however, we can be sure of only eight, since they are unanimous choices: Don Ray Borchardt, Joe Mike Fish, Gary Tole, Randy Smith, Danny Walling, Steve Weathered, Bob Bird and Joe Ray Burkett. Wonder who the other six will be? I'll wager I could guess about five out of the six!

Government Money Can't Buy Excellence in Learning

The government's money can't buy excellence in learning. And federal aid to education would lead to control by Uncle Sam—defeating and distorting the educational process. —Agnew, Wash., Indiana Post.

From the News THIRTY YEARS AGO

News items below were taken from the Friday, July 10, 1931, issue of The Foard County News:

Rain amounting to one-half inch fell at Crowell Wednesday night and Thursday.

On Thursday, July 23, Crowell and Thalia will play a baseball game which is expected to be the most interesting of the year. The entire receipts from this game will go to the statue fund. The American Legion is still in need of around 500 dollars to pay out the sailor statue.

The acreage of all land in farms in Foard County for 1930 was 447,563 acres.

The activities of the gospel team of the Crowell Christian Church have gained nationwide publicity. For the past two weeks the Christian Standard, published in Cincinnati, Ohio, has carried two long articles concerning the work, written by Rev. C. V. Allen, pastor of the church. Members of the gospel team are John Long, Joe Ward, Claude Dodd, A. T. Schooley, Leslie Moore and Rev. Allen.

Public Habits of Apathy Are Happy Hunting Ground

Ralph T. Moore writes in the Oregon Voter: "It is said that to be successful in American politics one must learn to shun logic and to acquire, instead, a consummate skill in sloganizing and posturing. This is because of the American weakness for, and resort to, the catch-word or phrase that seems to sum up the issue in a neat and attractive package. Just about every public issue is inevitably so characterized that the individual can grasp the meaning without much, if any, mental effort. But, to the thinking person, this trait all too obviously lends itself to gross imposition and deception since no slogan or catch-phrase can possibly be devised to tell the whole story honestly and completely. The enemies of freedom find a happy hunting ground in our public habits of apathy and superficiality."

Opening Areas for Public Recreation

Surveys made by the Chamber of Commerce of the United States and the American Forest Products Industries show that more than 180 firms in the mining, water and power, forest products, petroleum and other resource-based industries have opened much of their lands to the general public for recreational use; that about 50 such firms are adding new recreational facilities in the near future; that upwards of 70 million acres of company-owned scenic land and waterways are now open to public use, and that millions of Americans are taking advantage of the opportunity to enjoy these areas.
