Francis Era Wolford

Francis Era Wolford died Monday March 27, at the age of 19 years, 8 months and 4 days. The funeral services were held at the Christian Church Tuesday afternoon at 4 o'clock conducted by Rev. S. J. Holmes of Vernon, after which she was laid to rest in the Crowell Cemetery.

She was taken down with typhoid fever about six months ago in the city of Dallas but after some time was strong enough to be moved to Crowell in hopes that the change would be for the better and her former health restored. But not so, the fever settled on her lungs and she gradually grew worse until death claimed her.

Miss Frankie, as she was generally called, was a good christian girl and bore her long suffering with much patience. She leaves a mother, two sisters and three brothers, and other relatives and many friends to mourn her death.

The bereaved ones have the deepest sympathy of the people of Crowell.

Investigation of Orient

Austin, Texas, March 25.—The report of W. E. Fitzgerald, auditor of the Railroad Commission, which was filed today after Mr. Fitzgerald had visited Sweetwater, the headquarters of the Kansas City, Mexico and Orient Railroad Company in Texas,

shows a condition prevailing which will be investigated by the commission and possibly result in a suit for forfeiture of charter, or at least a demand that the company comply with the law requiring that railroads operating in Texas shall maintain general offices in the State and direct the operation of the property by officials who shall actually reside in Texas.

Auditor Fitzgerald has attached to his report numerous copies of letters, orders and other documents on file at Sweetwater, which indicate conclusively, according to Railroad Commissioner Williams that the principal affairs of the road are really directed by executive officials whose headquarters are at Kansas City, Mo.

According to Commissioner Williams, the only serious discovery made by Auditor Fitzgerald is that which he says shows about \$800,000 of stock unpaid, heretofore represented as paid up.

The report has not as yet been given consideration by the commission as a whole, but doubtless will be taken up during the ensuing week.

District Court Changed

Permit me to say through your paper that a bill was passed by the legislature changing the dates of holding District court in your county, but which bill had not received the Governor's approval when the legislature adjourned, and has not yet so far as I have learned, but it being a local bill will be approved, undoubtedly, and having passed with the emergency clause and the necessary two-thirds in each House, will become a law as soon as it receives the Governor's approval.

The dates remain the same in Wilbarger and Hardeman as they have heretofore been, but in the other counties are fixed by the new law as follows:

In the county of Foard on the eighth Mondays after the first Mondays in February and September. (April 3, and Oct. 30, 1911.)

In the county of Collingsworth on the tenth Mondays after the first Mondays in February and September. (17th of April and 13th of November, 1911.)

In the county of Childress on the twelfth Mondays after the first Mondays in February and September. (1st day of May and 27th day of November, 1911.)

In the county of Hall on the seventeenth Mondays after the first Mondays in February and September. (5th day of June, 1911, and 1st day of January, 1912.)

The length of terms in each county is the same as under the present law. One week intervenes between the end of Childress terms and the beginning of Hall terms so as to accommodate Christmas week, but there is no court anywhere that week.

I shall notify all papers when the bill has been approved.

Respectfully,
G. E. HAMILTON.

Progress on Orient

San Angelo, Tex., March 25.—Roach & Stansell of this city have been awarded the contract for grading twenty miles of the Kansas City, Mexico and Orient Railroad right of way between Mertzon and Fort Stocton on the main line. The grade is completed fifty miles west of Mertzon and twenty-five miles north of Fort Stocton, leaving a gap of fifty-six miles to be put in shape for the track. Material for the continuation of the line west of Mertzon, to which track has just been laid, is en route. The Orient expects to reach Fort Stocton within twelve months. Grading is now in progress between Eldorado and Sonora on the Del Rio or southern extension of the Orient. The grade to Eldorado, forty-five miles south of here, is finished and track laying on this extension of the line begins soon.

Methodist Church

Services Sunday, April 2, 9:45 a. m. — Sunday School. 11 a. m. — Preaching. 3 p. m. — Junior League. 4 p. m. — Senior League. 8 p. m. — Preaching.

Rev. G. J. Irvin, the new pastor will occupy the pulpit at both hours. The retiring pastor speaks for Bro. Irvin the support and co-operation of all those who have so loyally and faithfully stood by and supported him in his work for the good of the Church and for the fatherance of God's cause. As long as we wear the name Methodist let us be Methodist and "be subject to the discipline of the Church, attend upon its ordinances and support its institutions."

I am sorry that I could not be a better pastor and preacher than I have been, but I have labored during sixteen months against great odds and severe handicaps. I feel that under the circumstances I have done my best. I am ready to meet the record and answer for it at the judgment bar of God. I feel that I have many friends in Crowell—members of my own and other communions and many who are not members of any church. These I part from with genuine regret. I am proud of the friends I have made, and I am equally proud of the enemies I have made, for I have made in the same way—by steadfastly pursuing the path of duty, which is the only thing a true man can do. I hope that both friends and enemies will live right and get to heaven at last, though I have some serious doubts and misgivings on this point.

"Farewell my friends,
Farewell my foes;
My peace to these,
My love to those."

Quick Meal Gasoline Stoves

There are a great many different kinds of gasoline stoves on the market but the Quick Meal gasoline stove is the most satisfactory gasoline stove that money can buy. The manufacturers have spent the best years of their life in perfecting this stove. It is so constructed that it practically eliminates the danger from explosion. It bakes as well as any stove made and is absolutely guaranteed to give entire satisfaction. We would like to place one of these stoves in your kitchen and demonstrate their efficiency to you. We will tell you more about this stove next week.

The HOME CIRCLE Column

A cheerful word or smile will fill your fireside with pleasantness, rekindle the fires of love in your wife's bosom and brighten the hopes and aspirations of your children. Cheerfulness is better than doctor's medicine, and a cheerful home is an earthly heaven.

Let the sunshine into the gloomy rooms, have a couch to lie on; in fact, a home to live in; and wherein a sense of hospitality and good cheer exudes from the very table and chairs, instead of a mausoleum of gloomy elegance, wherein everything is for show and nothing to be used.

The gleeful life of happy children is the best home music and the graceful figures of childhood are the best statuary. We are kings and queens in the cradle! It is like a lantern without a candle; a garden and no flowers; a vine and no grapes; a brook and no water gurgling and rushing in its channel.

Home should be just one blaze of sunshine. But it cannot be while some member of the family circle is snarling and fault-finding and selfish. Do people ever go more deliberately and insanely at work to make themselves miserable than they do when they deliberately cloud the lights of the only place on earth where they have any reason to expect anything like perfect quiet and happiness?

Cultivate a cheerful disposition. Do not wrap up all your interest, all your thoughts and ambition in self. Seek to please those with whom you associate, and above all strive to lighten

the burdens and hours of the ones at home who call you husband, father, or brother. Whatever be your disappointment, or how heavy the cross you bear, do not go over the threshold of your home with a sullen, cheerless countenance.

Who but woman—when Judas betrayed, and Peter denied, and the weary slept, and the fearful fled—could summon energy to linger around the spot, to mingle the ears of pity with the blood of suffering? Who but a woman, when man turned coward, and his trust grew faint, could stand until the last by the dying Savior, and then go to trim the lamp of her devotion at the door of the sepulchre?

Kind words bring memories that echo through the years long after the lips that uttered them crumbled to dust. Children carry the memory of words of appreciation with them through childhood and often recall them in old age when enveloped in the shadows of life. They are like the perfume of the violet that lifts its head above the spring snows and whispers to them of the sunshine. Money cannot buy, intellect cannot create so rare a gem as true kindness. It is a heart product and needs the tenderest of culture. It is killed by indifference and enfeebled by neglect.

We feel animated to struggle more manfully in great battles of life when we remember our mother's holy counsel to us in childhoods early dawn, and in the slippery paths of youth. Ah! those of tenderness—those pious and above all strive to lighten

love"—too much unheeded then, and disregarded—live now, brightened in memory, and constitute our sweetest recollections. Her prayers for us in childhood—her sparkling crystal tears, made an impression on our young minds as durable as time and even now they bid us walk in the paths of rectitude.

That there is a God all nature declares in a language too plain to be misapprehended. It is written over the face of the whole creation. You see it in the tender blade just starting from the earth in the early spring and in the sturdy oak that has withstood the blasts of four score winters. The purling riverlet meandering through downy meadows and verdant glens and Niagara's tremendous torrent leaping over its awful chasm unite in telling us of a God. Show these beautiful arched heavens to your children and explain to them these poets while their young minds are so tender and easily impressed.

A woman who is capable of filling her home in every sense of the word is worthy of more true applause than if she possessed many accomplishments. We are often very much impressed by the woman who is doing a great and grand work for humanity, but the one who retains our respect is the true wife and mother, who presides over her home and children with a heart and head, demonstrating kindness and ability, which puts the blush on the public life. Let the parents, the father as well as the mother, impress upon their young daughters, whether they are in the country school house or college, that the true woman's sphere is in the home, and the great business and educational worlds that have thrown wide open the doors for woman does not detract one iota from the importance of her sphere.

CITY ANNOUNCEMENTS

For Mayor—
C. T. SCHLAGHL
TOM M. BEVERLY
For Marshal—
S. MOORE
H. L. HANKINS

In San Antonio labor union is an issue in the city election. Candidates have to pledge themselves to support the unions and favor the union label in order to get the vote of the union men.

A Harvard professor has figured out that a man of 155 pounds weight can live on 10 cents a day. Still people go right on eating three times that amount and pay no attention to this professor's figures.

If you are in favor of state-wide prohibition you should line up for the fight. The antis are doing everything in their power to defeat the movement and it is very necessary that the pros be active in this campaign.

There is not much difference between the man who does not farm and who at the same time tells how it ought to be done and the man who knows nothing of the printer's trade and tells how the paper ought to be run.

It is no exaggeration to say that the wheat crop in Foard county is more promising than

it has been in many years. No more beautiful spectacle can be found than a three-hundred acre wheat field, like scores that surround our little city.

Farming is becoming a science in Texas. It is being conducted on a business basis for the purpose of making money, not purely for scratching from the soil a bare existence. As a result the percentage of agricultural failures are becoming less and the proportion of success is taking rank with other lines of industry.

Paducah has had another big fire, this time costing the city about \$30,000. If our neighboring town happens to such luck many more times she may decide after a while that it is cheaper to put up a system of water works at any cost. Paducah has already lost enough in big fires to have put down two or three deep wells.

The Federal Bureau of Statistics has announced its report on the average wages paid farm hands in the various states. The average price paid farm laborers is \$18 per month with board and \$24.50 per month without board. This shows an increase of \$5 per month during the past ten years and indicates that the farm laborer is getting a share of the increased price of farm products.

The cry of "Back to the Soil" has not been in vain. Its echo reverberates against sky scrapers; it startles the banker, the merchant, the clerk and the laborer; it is permeating the very core of our municipal life, inviting the buffeted and careworn to the bosom of nature. Rural possibilities have awakened in our citizenship new hope and inspiration and the farm is taking back some of its very best and that too, after they have been

refined and finished in business experience.

A bill has been introduced in the Illinois Legislature which provides for a prize of \$100 for every baby born in the state; \$200 for twins and \$300 for triplets. The State of Illinois pays a heavy tribute in population to Texas through immigration every year and the method employed by the statesman of the Sucker state in offsetting the work of the foreign immigration agent, by encouraging the work of the stork is to be commended. If this bill passes, Illinois will be the first state in the Union to put a premium on baby raising, the practically every state in the Union offers prizes for every other line of industry.

We'll Work Till July Comes

Texas is a great old state.
And sin is running high.
Strong drink is raging much we see.
But soon we'll vote it dry.

CHORUS

We'll work till July comes,
We'll work till July comes,
We'll work till July comes,
And then we'll all vote right.
This State is full of sin and woe,
Where'er rum is sold,
The men who sell the stuff must go;
And quit their work of old.
Yes, July is the time we know,
For each man to vote right,
And if the Christmas do their part
Our State will all be white.
"On with the Battle" is our cry,
"Till prohibition wins,
And ride the cities of our State
Of all the liquor dens.
True Christians comes, go vote that day—
To free your State from 'rum,
And all will share the blessings here
Before we are gathered home.
The above song will be used throughout the campaign and you should cut it out and preserve it. Tune—"We'll wait 'til Jesus comes.

ICE! ICE!

We have plenty of ice and our wagon will start on its rounds on April 1.

We will appreciate your orders. Prompt service and good weight guaranteed.

THE
Day of Cheap Cotton is Over

Every month in the year cotton and cotton seed products are finding new markets. There is only a comparatively small portion of the earth's surface that will grow cotton. So the man who invests his money in land that will grow cotton will never see the time when his investment will depreciate in value. Mining enterprises and city property may be changed conditions lose their value. Not so with a cotton farm. We have a large lot of land specially adapted to cotton growing. Come and see us.
