## COURT PASSES PETITION AT MEET MONDAY

### To Match WPA Funds For Construction of Hospital

A \$12,500.00 bond election for Saturday, October 29, was ordered by the Commissioners' Court at a regular meeting Monday, Sept. 26, for the purpose of raising Foard County's share of a \$30,000.00 WPA project calling for the construction of a new and modern hospital in Crowell.

At the meeting last Monday, a petition, carrying the names of 211 resident property tax payers, was presented and passed by the Commissioners' Court. This number of signatures was more than the statutes required.

The election was called for the purpose of giving qualified voters of the county an opportunity to vote on the question of issuing \$12,500.00 worth of bonds to build and equip a county hospital.

If the bond election results in favor of issuing this amount of bonds the hospital building will be constructed under a WPA program with the Government furnishing \$22,000, or about 70 per cent of the total cost of \$30,000. Bond money to the amount of \$8,000 will be used in the erection of the building and the balance would be used to buy modern equipment and to supply proper lighting and heat for the building.

It is the plan of the Commissioners' Court to build a two-story hospital on the same location of the present hospital and the building will be constructed of native rock. It will be modern and complete in every respect and will furnish hospitalization for a maximum of fifteen patients.

It is estimated that this project would furnish employment for about 80 men for approximately eight months.

Plans for the county hospital have been drawn by Ben Roberts, architectural student in the University of Texas in Austin, and have been submitted to the WPA office in San Antonio for approval.

### Foard County Ranks High in Applications for Crop Protection

Foard County was listed among the highest ten counties of Texas for leading in the good showing of applications for protection under the Federal Crop Insurance Corporation, as announced by State Crop Insurance Supervisor, E. R. Duke, this week. J. D. Miller is the supervisor for Foard County.

"These ten counties," Mr. Duke said today in a press release from Amarillo, "have furnished about 44 per cent of the Texas applications. Now we are watching them and the workers who made this good preliminary showing in the campaign to stabilize and protect wheat production in Texas. If they can hold something like the same high rank in the payment of premium notices, we will feel that just the right people for this job have been selected."

### Meeting at Dalhart

Starting Wednesday Texas "follow up" on an important meeting held in Dalhart, Saturday, to consider a program for guarding wheat growers against loss of the protection for which they have applied under the Federal Crop Insurance Corporation.

It was a "dust bowl" meeting, made up chiefly of County Farm Agents, and Crop Insurance Supervisors of Northwestern counties. Several from Oklahoma in the same work attended from the Panhandle counties, as did also acting state supervisor, Royce Banks, from New Mexico.

## OUR PRESIDENTS

All classes seem to prefer boys to girls for their presidents this year. Girls don't feel slighted because next year maybe some class will loosen up on the nice looking boys. The red haired boy who fills the place of Senior president is none other than the Sam Russell who likes spinach very much. H. C. Brown, the dignified Junior's president does not take to people who are cry babies. A. Y. Olds, who the soda-skeet, snooty mannered boy is the Sophomores' president.

### The Mata-Mata Turtle

The Mata-Mata turtle, a native of South America in lakes, rivers, resembles a floating log, to which an enormous leaf has been attached as head. A fisherman for his livelihood, the Mata-Mata seldom leaves the water in his native haunts. From his snout extends a small periscope, through which he breathes on land.

Hold fast the form of sound words, which thou hast heard of me, in faith and love which is in Christ Jesus.

Asked by reporters for a statement about world conditions on his return from Europe, J. P. Morgan parried with "You never get into trouble until you volunteer statements."

session of the ball on the Paducah 47-yard line with a pass interception. Bernice Fitzgerald then shot a short pass to Orr, who made his second long and brilliant run this season.

After kicking off to Paducah, Joy intercepted a Dragon pass on the first play and carried the ball to the Paducah 12-yard marker with a thrilling run which netted about 40 yards.

Following Owens' touchdown, Crowell kicked off to Paducah and Wildcat tacklers jarred the Dragon ball carrier hard enough to cause him to fumble and Ed Gafford recovered the ball for the Wildcats on the Paducah 39.

The Wildcats kicked off to the Dragons and held them for downs. On the fourth down Paducah punted and the Crowell lads took the ball on their own 38-yard line.

At this point, Coach Grady Graves placed his entire second string on the field. Paducah took the kick off and staged an aerial attack that carried them to the Crowell 30 as the half ended.

Crowell opened the second half with a kick off to Paducah. The Dragons advanced from their 30 to the 45 yard line where Murphy Sollis, Wildcat guard, intercepted a pass.

The Crowell first stringers went back into the game during the between-period intermission. Owens returned the Dragon punt from the 50-yard line to the Paducah 30, but Crowell lost the ball on downs on the 25, Paducah was forced to kick after a Dragon was dropped for a 13-yard loss by Jack Fitzgerald.

The Wildcat stringers went back into the game late in the final period and again the Dragons staged an aerial attack that gave them their only scoring threat.

Formal Opening of New Magnolia Station To Be Held Saturday

The formal opening of the new Magnolia service station one-half block east of the square on Highway 28 will be observed Saturday, according to Munson Welch, manager.

Mr. Welch stated that during Saturday a grease job will be given free to anyone who purchases ten or more gallons of gas or has the oil changed in a car at the station.

The new and modern station was recently completed by George Hinds and leased to the Magnolia Company. Cars will be serviced with gasoline from three new computing pumps on the spacious concrete driveway.

One section of the station is occupied by the greasing and washing department, which is equipped with the newest and most efficient hydraulic lift, grease guns and other equipment.

**15 Years Ago**

The items below were taken in whole or in part from the issue of The Foard County News of Sept. 28, 1923.

**Couple Married Two Months**

The fact of the marriage of Mr. George Cates to Miss Mildred McLaughlin was not generally known until Sunday, Sept. 23. Aside from the preacher, Rev. J. E. Billington, who married the young couple just east of town near the railroad at 1 o'clock on August 6, only two persons are known to have been aware of the wedding, and those two persons were Mr. and Mrs. Sylvan Haney.

**County Fair and Rodeo**

You are not likely to forget it, but let us remind you that next Friday and Saturday are the days set for the Foard County Fair and Rodeo.

A good bunch of prizes are being offered and everyone who has interest enough to bring some farm products will stand a chance of winning a cash prize.

**Auto Laws at Austin**

Austin, Texas, Sept. 26.—The statute providing that motor cars in passing each other on the highways shall slow down their speed to fifteen miles an hour is construed in an opinion by Assistant Attorney General Bruce W. Bryant to apply only to motor vehicles when meeting each other from going at such rate of speed as to endanger the lives of the occupants of the vehicles.

In another opinion, it was held that persons operating their own cars in the business of transporting passengers or freight for hire are required to have chauffeur's licenses.

**Left For Denton**

Henry Black and his sister, Miss Florence, left Monday for Denton where they will attend the State Normal at that place. Henry will be there this fall only, while Miss Florence will attend this fall and next summer. They both expect to teach. Miss Black was employed in the Crowell schools for two successive terms and proved to be one of the best teachers Crowell had for those two years.

**School Ground Equipment**

A box supper is to be given at the opera house Monday night by the pupils of the Crowell school for the purpose of raising funds with which to purchase equipment for the grounds at the school building providing amusement and recreation for the pupils during the recess periods.

In view of the fact that there is now nothing of the kind on the grounds, and since this recreation is very essential to the health of both body and mind, it is very important that the school be supported by the people generally in this undertaking. It is estimated that \$200 or \$300 could be very profitably used in this way, and a hearty co-operation on the part of the public will be appreciated and be of much help to the school in this particular.

**Editorial**

We are all glad to see the farmer getting 30 cents a pound for his cotton, and yet we know that it means higher priced dry goods in the end. But it has always been found that when the farmer gets big prices for his stuff, business is stimulated and we all get by some way. Let cotton advance in

**PURCHASES CAFE**

"Perry's Cafe" on the west side of the square was purchased from Perry Holder of Quannah by Jimmie Plunkett of this city last week. Since that time the cafe has been closed and is undergoing repairs and remodeling. Mr. Plunkett will reopen the cafe in the near future as the "Club Cafe."

Mr. Plunkett recently sold his cafe on the north side of the square, which he had owned and operated for nearly three years, to Fred Dennis.

It means more money to spend.

**Mussolini's Muss**

Mussolini is becoming the bogey man of Europe.

Since his spectacular capture of Italy without a fight and his self-elevation to a dictatorship in that country consternation and dread have been spreading throughout the republican governments of Europe, and what few kings that are left are spending sleepless nights. They fear that the ease with which he assumed supreme power will inspire others to attempt a like course, with the result dictatorships will replace the established forms of government.

Mussolini has certainly mused things up to his own taste.

Mussolini has captured Italy by the use of his tongue and now rules with a rod of iron.

Eight Spanish generals and one admiral have tired of the rule of their cabinet ministers and have kicked them ineffectually into the gutter without firing a shot, although the king is graciously permitted to remain as long as he continues a good Indian. He can sympathize with his brother monarch of Italy, who is under the Mussolini thumb.

In every direction we see crowns either tottering or kicked into the discard — governments show a decided side without so much as a by your leave.

And no fight, no loss of life, no destruction of property — just a polite "Get out" from one party and a hasty getting out by the other.

Perhaps the next time this country gets into a scrap we will be able to win our point by unmuzzling the congressional mouth and bidding it roar.

It's a great world when nobody loses a leg.

**National Letter Writing Week Set for October 2-8**

An effort to increase postal business in a campaign carried on by the Postoffice Department during the month of September, setting forth the advantages and uses of first-class mail and its related services, will be climaxed by designating Oct. 2-8 as National Letter Writing Week. During this period people of the nation are urged to answer correspondence promptly and overcome the fault common to all to put off writing the letter that has been promised or is long overdue.

This campaign is being put on with the hope of increasing postal business during the period.

Meet Richard Denning who plays the part of Michael Anders, the young movie star, in "Star in My Kitchen." The Motion Picture Cooking School to be conducted by this newspaper. Richard is one of the coming young stars of Hollywood, and when you see the cooking school picture you will soon realize why one of the major studios recently placed him under a long term contract.

The whole family is assembled at the surprise birthday dinner which Dedee Abot prepares for Mike Anders in "Star in My Kitchen." These people will provide many interesting moments for the visitors at our cooking school.

Phoebe Abernethy is showing Dedee Abot, in "Star in My Kitchen," how a lemon meringue pie should look. Every woman who sees this entertaining and instructive picture will be interested in this, as well as the many other cookery demonstrations.

Dedee Abot learns many interesting cookery tricks from Auntie Bella, the humorous colored maid who presides over Mike Anders' kitchen in "Star in My Kitchen."

## "Do It the Easy Way"

C. Richardson, Secretary Breeder-Feeder Ass'n.  
Full litter of pigs is the semi-annual dividend the pig raiser gets. By the time the piglets are weaned they will weigh the average two-year-old pig, which amounts to the pig's own weight in six months. It is common for litters of a ton at six months of age. Two litters a year equivalent to multiplying the pig's weight 12 to 15 times.  
This does not always mean the best management. In fact it is the result of a purpose which is achieved through the exercise of good judgment and care.  
Usually speaking a fall litter of pigs in the Southwest as a rule, requires little more than after the critical farrowing period is over and the piglets are weaned, than does a litter in the spring, if the piglet is a "big" piglet. Pastures, water, and dry quarters are provided. The piglets are as well as food to the health of the pig. In the North, where the piglets are raised in houses with glass windows, there is much to be done in the way of healthful care. We are so accustomed to pigs out of doors that we appreciate the great advantage of the Southwest where the laborious and expensive method of the northern breeder cannot escape. The time of year the pastures are green, and there are no rains which pigs will get. Many a corn or grain
