Miss Fern Miles of Guthrie, Okla., Singer in the Revival

PRESBYTERIANS CONDUCT REVIVAL

A revival conducted by the pastor of the Presbyterian church of this place commenced last Sunday. The preaching is being done by Evangelist Whitwell of Norman, Okla., and the singing is conducted by Miss Miles of Guthrie, Okla. A great deal of interest is being manifested by the people generally and the attendance is very good, considering the busy season of the year. The plan is to secure the co-operation of all the denominations of the town and make the meeting one of general benefit to all. The speaker is a very fine talker and the singer is one of the best we have ever had the pleasure of listening to.

With the hearty co-operation of all the churches, there is no reason why Crowell should not have a genuine revival. The Presbyterian folks are extending a hearty invitation to all the people of the town to assist them and lend their presence in co-operating with them.

Mike J. Frierson

Mike J. Frierson was born January 25, 1888, and died June 12, 1917. It was more than a year ago that Mr. Frierson's health began to fail, and the aid of the local physicians was sought, and also change of location was made in the hope that his health might return. And apparently it did return for a short time. When the first signs of failing health came he was in the employ of the Haskell Telephone Co., and of course he was forced to give up his work. But when he seemed to be improving he accepted a position with the Pioneer Telephone Company of Oklahoma, but within a short time again suffered a complete breakdown.

The remains were shipped to Crowell, arriving Thursday morning, where interment took place at 4 P. M. Thursday. Mr. Frierson is survived by his wife and mother, Mrs. J. M. Frierson of Albany, and two sisters, Mesdames T. A. Ward and Joe Pate, both of Albany, and two brothers, Lawrence Frierson of Albany and Edgar Frierson of Quanah.

The News extends sympathy to the greatly bereaved relatives in this their sad loss of a loved one.

Missionary Society

On last Friday afternoon a large crowd gathered at Mrs. Mark Henry's to hear reports from our annual meeting, Chillicothe. It was a real spiritual meeting. Devotional service was led by Mrs. Majors. She made such a good talk on the scripture lesson. The sermons of Rev. Hotchkiss was given by Mrs. Henry. It made us feel like we were back in Chillicothe again. Miss Purcell gave a report of the children's work and Miss Shelton's work in China. Mrs. Hughston gave Council report and also Miss Smith's work in Ft. Worth.

We had a reading by Mrs. M. P. Rogers. Then we were invited to drink some more punch which we enjoyed.

Who attended the meeting at Chillicothe will never forget the kindness of those people. They did everything possible to make us feel welcome. We are looking forward to the time when we will meet at Chillicothe again.—Reporter.

Quite a crowd of Crowell citizens went to Vernon Thursday afternoon to hear Frank Kell of Wichita Falls, speak on the food and feed production question. Mr. Kell is regarded as authority on such questions and what he will say will be of interest and worth to the people of this section.

A more extensive report of this speaking will appear in the next issue of the News.

HAPPENINGS AT TRAINING CAMP

Camp Funston, Leon Springs, Texas.—June 5, 1917.

Editor of Foard County News:

In response to your acceptance of my offer to contribute a weekly letter to the News dealing with the life and events in the Training Camp here, I submit the following as an introductory story. I will say in the beginning, however, that since I wrote you, a shortage in the number of instructors detailed here has made necessary the elimination of a large number of the 2700 men who were certified for the course. A number of excellent men have been dismissed from my company already, more are going this week, and I may not be here when the time for another contribution rolls around. But as long as I am here I shall be glad to give you a story each week.

There are eighteen companies of about 150 men each in training. Regular army offices including Colonels, Majors, Captains, and Lieutenants are detailed here as instructors. A detachment of the National Guard is on guard duty thus leaving students free to devote their entire time to the course offered.

Long barn-like shacks afford good barracks for the men and similarly constructed mess halls serve their purpose equally as well. The living accommodations including those necessary for eating and sleeping are excellent. (I shall speak of them more fully later).

A program for every day of each week is made out and issued to each camp from the Department at Washington. All of the time other than that designated as intermissions, rest, or holidays is provided for in the schedule. And we have learned a new meaning for the word "all" in this connection.

The day usually includes physical exercises; drill in marching and military formations, conference and recitation periods, in which regulations, manuals and tactics are studied and recited upon; practice in two forms of signaling with flags, "semaphore" and "Wig-Wag." Practice in giving commands and making strategic moves and formations; and two hours of study.

It may be said that the herculean task of acquainting a man with practically every phase of modern infantry warfare in the short period of three months is being attempted. And I believe that, if it is possible for any nation or select part of a nation to accomplish this result, it will certainly be realized here. For some of the best men of every profession and trade in the country are here, and are working harder than they ever did in their lives before to master the problems set before them.

The football coaches of several Universities are lined up with criminal lawyers of our largest cities. Men who have never known heavy manual labor in their lives are rolling, crawling and hiking over the rock ragged hills which have no mercy on elbows or knees; men who have seen the rough side of life in all its phases are bending eagerly over the little pamphlet of drill regulations with all the energy they can command, and alike are slaving in the hot sun from early morning till late at night every day in the week—and

Evangelist O. E. Whitwell of Norman, Okla.

Our Linotype Erected

The News linotype arrived last week and we have had it erected this week ready for work. The first part of the week was consumed in putting the machine in readiness for service, so that only a portion of the paper was set up by the machine this week. We hoped to get it into operation the first of the week so that we could give the News an entirely new dress, but we shall be forced to wait until next week, and perhaps later. We are new to the machine and it is new to us, so we must get acquainted before we can work in perfect harmony.

The linotype is a great piece of machinery and if operated well is a great time saver. Of course we must learn the machine before we can make it produce its best service, but this we hope to do within a short time. The Mergenthaler machine is a standard and thousands of them are used by the larger papers as well as by the smaller ones all over the country. The fact is they have become an indispensable piece of machinery to the country office where a great quantity of type setting has to be done. This is what has forced the News to install a machine. You are invited to come in and see the machine in operation.

W. W. Small and family left Monday headed for the Plains. Mr. Small had some fifty head of cattle for which he wants to find grazing land. The family started overland, but we have learned that one of their horses got sick and died at Sloan Springs, from which place they had not gone Thursday morning.

What is more remarkable—they are all working for one common purpose; and that is to support our commander-in-chief in his efforts to establish right and liberty in the world.

All of the camp are studying and training on the same tactics now. This will continue until the first five weeks are up. Then those certified for cavalry, artillery, infantry and the other divisions will be separated and grouped so that instruction in the phases peculiar to their instruction in phases peculiar to individual departments can be given.

Next week I shall give some flash lights on the life as it looks to the boys who live it.

Yours truly,
ED JOHNSON.

Drilling Stopped for Few Days

Drilling on the oil well has been held up for a few days on account of water. The water that has been used thus far seems to have ruined the engine boiler on account of the large quantity of gip in the water. Instead of using water from the Raggedy creek, as they have been doing, the company is now laying pipe from the Duane Springs, which will be the source of supply hereafter. This is said to be very much better water than that from Raggedy. The company will likely be ready for further drilling the last of the week.

Automobile Accessories

H. T. Cross and Albert Schooley have built a nice petition in the front of the post-office building where they are arranging to put in a line of automobile accessories. They will also put in a filling station as soon as their pump shall have arrived.

Mr. Yoder will use a portion of this apartment for an office room. This will be a splendid location for the boys with their business as well as for Mr. Yoder for his office.

Self Building Nearing Completion

The large brick building of J. H. Self & Sons is now nearing completion. The walls were finished last week and the finishing touches are being put on the top. This will be an elegant building and will furnish splendid quarters for Self & Sons' Fords. Primarily it will be a home for the Ford car.

Other buildings had been contemplated for this summer, but on account of the dry weather and the uncertainty of crop conditions, this will be postponed until in the fall at least.

A Small Cyclone

In the neighborhood of Jim Bell's last Thursday afternoon a small cyclone struck, overturning a wheat header and causing one man to get pretty badly hurt. Other damage of minor nature was done in the same locality, such as unroofing small houses and barns. So far as we have learned, no other damage was done in the county. There was considerable wind, however, in several places over the county. No rain to amount to anything.

Says He Has Good Oats

Jim Bell was in town Tuesday, and he said that he was heading his wheat as fast as available forces could gather it. He says he has some good wheat and some that is sorry. He says he has the best oats he has seen. The fact of the business is that there are very few oats in the country. But Mr. Bell thinks his oats will make 25 to 40 bushels to the acre. He thinks the people generally miss it on the oat business by sowing too early. Mr. Bell's experience is that when they are sowed early they soon run their course and play out before harvest time. He sows not earlier than the latter part of November and says that he seldom makes a failure.

Speaking with the reference to growing of oats, W. N. Warren of the Margaret country says he never fails to grow oats, and he sows about the last of February. Mr. Warren now has a crop of fine oats.

Active Man at 78 Years

Z. I. Williams of San Angelo is here this week visiting his nephew, R. B. Edwards. Mr. Williams is 78 years of age and is a strong, active man for his age. He is a veteran of the Civil War, went through four years of the war and received only a few minor wounds. He is an enthusiastic supporter of the proposition to send an army to Europe to help the allies.

Mr. Edwards had not seen his uncle for 37 years until last summer when he went down to San Angelo, where he saw him. Mr. Williams is enjoying his visit out here, and Mr. Edwards plans to go with him on an automobile drive to the Plains country to visit other relatives within a short time.

Our Weekly Letter

The News is pleased to state to its readers that we have secured the services of J. E. Johnson, who is in training at Leon Springs, in furnishing us with a weekly letter from that place relative to developments in the training camp. Mr. Johnson is a Foard County boy, his home being at Thalia. His first letter appears in this issue of the News and will be continued as long as Mr. Johnson can furnish them. He writes an interesting letter and these will be a source of valuable information to our readers.

Volunteer Comp'y for Crowell

Clyde B. Graham of Margaret, and Jim Bomar, manager of the Herring-Johnson ranch, were called to Houston Monday to receive instructions as to the organization of a Company of Infantry for the Texas National Guard, with headquarters at Crowell.

Recruiting will start at once, and every man in Foard county or surrounding counties, between the ages of 18 and 45, will have a chance to volunteer their services to our country. Any person who is in the selective draft age may also volunteer.

One thing that helped Crowell get this Company was the reputation made by our boys, while old "Company F" was in existence, as being the champion marksman of the State, and many members of the old company will join the new organization.

Graham and Bomar will be at home today, and will begin organization immediately, and will be glad to have anyone who wishes to enlist come in and talk it over with them.

The following officers and non-commissioned officers will be required, and will be selected from the enlisted men: Second Lieutenant, 11 Sergeants, 17 corporals, 2 mechanics, 2 trumpeters, and 3 cooks, and all men will have chance of promotion and will be selected as to their men will not be required to quit their jobs, or leave here until some time in July, but must enlist immediately if they wish to qualify as officers or non-commissioned officers.

The motto of this company will be: "Be able to say in after life, 'I was not SENT to serve my country—I WENT'".

A Delightful Reception

Honoring her guests, Mesdames Sherill and Norwood of Vernon, Mrs. Hines Clark opened her beautiful home for a reception on Tuesday afternoon from 4 to 6 o'clock.

The honored ladies were one-time Crowell girls and known to many of the afternoon guests, and knowing the west, were not surprised when so many responded to the invitation in the face of a very hot wind on a very hot June day. Nine tables were set for forty two and six spirited games were enjoyed.

Out-of-town guests were, Mesdames Majors of Memphis and Beaty of Margaret, and Miss Gibson of Paducah and Miss Huddleston of Maybank.

Late in the afternoon tempting cream and wafers were served to about 45 women.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces

of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothe rough, red hands. 96.

War Review

After an interlude of more than two weeks, the British in France and Belgium returned to the attack Wednesday night, after an artillery bombardment said to have surpassed in intensity the tremendous overture at Arras. In addition to the work of the artillery, a series of mines under German positions in Belgium, in process of construction for more than two years, was touched off, with a detonation that was heard in London, one hundred and thirty miles away. The German forward positions along a nine mile front were blown up or blasted away, after which the British infantry emerged from their trenches and took possession of the newly-won ground. How deeply they have penetrated the German line is not definitely known at this time, at this distance, but three or more villages were captured and heavy guns, trench mortars and machine guns were taken. The battle is still in progress, with new gains claimed by London. At the other end of the line, the Germans have been aggressive against the French all week, and Berlin reports some successes in taking French entrenchments. There appears to be no very heavy fighting in that region, however, and the French are believed to be making ready for another aggressive campaign. On the Austro-Italian line the Austrians back-fired this week and captured, according to Vienna, ten thousand Italians. The Italians on their part deny that they have lost any important ground recently captured by them. The Austrians still have the advantage of position on the Carso Plateau, and the route to Trieste remains a long and toilsome one for the Italians, notwithstanding that city is only ten miles away. Nothing is coming from the Balkan or Asiatic fronts. The situation in Russia remains confused, but hopeful. Disorder appears to be subsiding, and Minister of War Kerensky seems to be imparting a modicum of his own enthusiasm to the army. At the best, however, hardly anything can be hoped from Russia this year except that it will retain its military position, thereby holding numerous divisions of Teutonic troops to the east front. These Teutons are the second and third-class effectives, however, the best of the Germans and Austrians, with their heaviest artillery, having been withdrawn for service on the west front. The battles that will rage all summer and autumn in France and Belgium will be vastly destructive for both sides, and there is no doubt that by the time American armies come into the fray in considerable number the weariness of all the older belligerents will be obvious to all observers. This is the only hope for an early peace. The Socialist conventions at Stockholm, the first to be under the auspices of German Socialists and the other, later, to be countenanced by the entente allies, are certainly strewing the European mind with peace seeds, but no one can safely say what the fruition will be. The submarine menace seems subsident. Our own preparations for entering the conflict are going forward rapidly, but their impressiveness is concealed under their secrecy.—Dallas News.

M. Power and unknown owner and placed in my hands for service, I, L. D. Campbell as sheriff of Foard County, Texas, did, on the 21st day of May 1917, levy on certain Real Estate, situated in Foard County, Texas, described as follows to-wit: Sub-survey No. Twenty-eight (28) as shown by Dedication Deed dated May 1, 1911, executed by the Crowell Realty Company, incorporated, recorded in the office of County Clerk of Foard County, to which reference is made for further description and being ten acres of land out of the Abb Luce Sr. Survey. For the foreclosure of a lien created, established and continued on and against the heretofore described land, by reason of a levy and assessment of taxes on and against the same for the years 1913 and 1914, and levied upon as the property of C. M. Power and unknown owner, and that on the first Tuesday in July 1917, the same being the 3rd day of said month, at the Court House door, of Foard County in the city of Crowell, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said C. M. Power and unknown owner.

An in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Foard County News, a newspaper published in Foard County.
Witness my hand, this 21st day of May 1917.
L. D. CAMPBELL,
Sheriff Foard County, Texas.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

Avery Kerosene Tractor Plowing Demonstration

JUNE 18th to 19th

We have arranged to give a plowing demonstration with a 12-25 H. P. Kerosene Tractor and "Self-Lift" Plow on the afternoons of June 18th and 19th, inclusive.

This demonstration will take place on J. W. Allison's farm 3 miles east of Crowell.

Everyone is invited. Come and see this outfit in actual operation. It will pay you to investigate farming with a tractor. Avery tractors save expense, save hard work and save time, also raise bigger crops by enabling you to do your work in the right way at just the right time.

There are six sizes of Avery Tractors from a small two plow outfit to a big eight and ten plow outfit—a size to fit any size farm. The five larger Avery Tractors have the same design and construction. Are equipped with renewable inner cylinder walls and have numerous other exclusive features.

Don't Fail to Attend This Demonstration

NOTICE TO THE PUBLIC—Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publishers.

With The News Paragapher

Owing to the contracted dry weather and the hot winds of the last few days the spring crops of Foard county are not doing so well as they promised a few weeks ago. But there is good time yet for feed.

We are proud of the fact that there were no slackers in Foard County on the day of registration. Our young men responded to the demands of their country in a manner most commendable, and they deserve the praise of everyone.

It is remarkable how one can economize when he has to. And then stuff naturally tastes better when it costs more. These biscuits we ate the other day at the home of a friend, made of \$4.00 flour were the best we have eaten in many a day.

Owing to the spirit of patriotism characteristic of our citizens, the American flag floats proudly above the tree-tops in the court house yard. There is no flag in the world that means so much for the freedom of mankind as the American flag. Every boy should be taught to honor it and to love it.

Of course the war will be a burden to our people at home, but that will not be so bad as the bloodshed at the front. What we need is a united people ready and willing to bear their share of the burdens of this war. That would mean a more hasty conclusion of the conflict.

The submarine menace seems to be growing less powerful in the face of combating forces. The kaiser will likely decide pretty soon to set up the time when England shall be brought to her knees by means of this very effective German weapon, until sometime in the early winter.

The American people should not wait to see what Germany is going to do. They may be counted on to fight so long as they can pull a trigger. They do not know much else, and in their solidarity as a people fighting for their country lies their strength. If they are ever whipped to the satisfaction of the entire civilized world it will have to be nothing less than a complete crushing.

William H. Taft says we must put into the war millions of men and billions of money. Mr. Taft has been a strong advocate of thorough preparedness all the while, and thinks the job of whipping the Germans should be done up in the nicest kind of way so that lasting peace may be the result. That same sentiment is getting to be popular at last, and as time passes will become more so. Mr. Taft is right.

According to reports the continued success of the allies is a most encouraging indication that they are slowly but surely winning out in the struggle. No one can predict when the great war shall end, it may be months or even years, but the odds seem to be unmistakably in favor of the allies. It is reasonably certain that a large American army at the front would have the effect to encourage the allies and to weaken the spirit of the Germans.

There are hundreds of dogs in the country, and the owners of every single one of them could worry along without them, and then have more money to pay for feed for the pigs, chickens or cows. The kiddies also in some cases might have more to eat. In all candor, friends, when feed and food are likely to become scarce, it would not be a bad idea for everybody to kill their dogs. It would save rations and doctor bills.

Dr. Gross Spoke Wednesday

As was announced last week, Dr. Gross spoke here Wednesday afternoon and at night. A large congregation greeted him at the air dome at the evening service. His work as Enlistment Secretary is better understood when one has heard him speak. His work is to try to awaken dead and dying church members and get them to enlist in the service in which they profess to be engaged. He said that in his travel over the country he had found that only about 25 percent of the members of the churches contributed any service to the organization. That they did not even attend the services.

The talk was well received by the audience and was of a nature to stimulate considerable activity among the membership of the various churches here. Dr. Gross is not a great pulpit orator, but he is an interesting speaker and is practical in his ideas.

The splendid home of I. A. McKibben of Paducah was destroyed by fire Monday of last week. Nothing was saved.

Ben Clark, age 50, was shot and killed at Kirkland, Childress county, Texas, Monday night at 10:30 o'clock by Constable Walter Russell.

D. W. Roberts of near Burkburnett received a fracture of the arm Wednesday of last week while he was at work in the oil fields of that place.

The barn of W. V. Yates of near Burkburnett was burned one night last week, causing the death of four horses. Origin of the fire is unknown.

Clark was convicted in the Federal Court at Amarillo two years ago for bootlegging and had just finished his time at Leavenworth. It is said that he had sworn vengeance on the Kirkland officers. — Memphis Democrat.

Last Saturday morning about 10 o'clock while Ira Bohner and Jess Earp were working in the pasture of the latter, the horse Ira was riding in some way became unmanageable and ran over Jess, striking him in the back and cutting a gash over the right eye. He also received some bruises on the left cheek. — Paducah Post.

A fire broke out one night last week at Childress in a hotel. The building was completely destroyed and many of the occupants were forced out with but little of their belongings. One young man, a banker, was burned so badly that death resulted within a few hours after the fire. The cause of the fire was supposed to be a burning cigarette.

Curious Death Custom In Fiji.

The Fijians believe that in case a marriageable youth or maiden dies without having gone through with the elaborate nuptial knot tying ceremony of the islands his or her soul is doomed to wander about forever in an intermediate region between heaven and hell.

When any one dies—man, woman or child—a white's tooth is placed in the hand of the corpse, the missile to be thrown at the tree which stands as a guidepost to point out the road that leads to heaven and the one that leads to hell.—London Mail.

Congressional "Pairs."

The custom of legislative "pairing" is the practice of members of legislative bodies by which two members of opposing parties agree to refrain from voting on a prescribed subject or to be absent during a certain time. It was first used in the United States house of representatives in 1839.

MRS. CHAS. PEDEN GAINS 27 POUNDS

Twice Examined and Each Time Told Operation Was Only Hope

"I have just finished my third bottle of Tanlac and have gained twenty-seven pounds," was truly remarkable statement made by Mrs. Chas. Peden, residing at 550 Mill street, Huntsville, Ala. Mrs. Peden is one of the best known and highly respected women of that thriving little city, where she has made her home for a number of years.

"When I commenced taking the medicine," she continued, "I only weighed ninety-eight pounds, now I weigh 125 pounds and never felt better in my life. For years I have suffered with a bad form of stomach trouble, constipation and pains in my side and back. At times the pains took the form of torture and I was twice examined and each time I was told that I had appendicitis and that an operation would be my only hope. I had fallen o until I only weighed ninety-eight pounds and was so weak I could hardly get around.

"I had no appetite at all scarcely, and what little I did eat would cause gas to form in my stomach, which gave me palpitation of the heart, sick headaches and a dizzy feeling about the head. When the spells came on I would get awfully nervous. I worried about myself until I could rest and sleep but little.

"I had fallen off until I was almost skin and bones and my strength and energy were slowly leaving me. I had a dread of the future and could see nothing but the operating table and the knife. I had a perfect horror of the operation, but had made up my mind that it was either life or death and prepared to submit to it. I had made all preparations for the operation and called on my sister to tell her goodbye, as I did not know whether I would live to see her again or not. My sister begged and plead with me not to allow them to cut on me and told me wait and try a good tonic for a while. The next day, as I returned from the consultation room I thought of what she said and as I had heard so much about Tanlac I decided to try it as a last resort and stopped at Gilbert's Drug store and bought a bottle. Of course I had lost heart and had no faith in the medicine, but to please my sister I made up my mind to take it and oh, what a happy day that was for me!

"I never returned for the operation, but just kept taking the Tanlac. Right from the start I began to feel better. The medicine seemed to take hold right at once. It had a soothing effect and in a few days I felt no pain at all. I was so happy over the wonderful improvement in my condition that I sent and got another bottle of Tanlac, and have just finished taking my third bottle and feel like I have been made over again into a new woman.

"As I have said before, I now weigh 125 pounds, and my improvement has been so rapid that none of my clothes are big enough for me. I will have to make them all over again. I now have a ravenous appetite, and my husband says I am simply eating him out of house and home. I have even gone back to my coffee, which I was told not to touch. Those terrible pains in my back and head have all disappeared and I sleep like a child. I am no longer nervous, and when I get up mornings I feel refreshed, cheerful and bright. I am now able to attend to my household duties, and I feel as if I had started life all over again. My husband is highly delighted, and my recovery is the talk of the neighborhood. I do nothing but rejoice all day long over the recovery of my health and praise Tanlac to everybody.

"I feel so grateful for my escape from the operating table and the knife that you may publish what I have said. You may, if you will, tell other women suffering as I was to come and see me and I will be glad to tell them all about my case." Tanlac is sold in Crowell by the Owl Drug Co.

THE STORE WITH THE GOODS

AND ITS PURPOSE

Like every other business the retail store must justify its existence by service to the public. Today the popular conception of the retail merchant is that of a "middle-man" who exacts a wide margin of profit from its customers. The basis of this view is the malpractice of a "few" who look upon their business as a means to quicker gains. Price is the foundation on which they operate. The results for them are disappointing for customers literally are forced to visit other stores or buy out of town. On the other hand the merchant who holds in high regard his responsibility to his customers renders a valuable service to his community. Years of experience have made him a better judge of values than his customers. What he offers has the stamp of his approval. They can rely upon him for quality. We carry a wide assortment of goods, where customers can personally select their wants, note the texture of the cloth, observe its colorings or try it for fit. On getting the goods home they can be returned quickly if they are unsatisfactory and the money will be refunded cheerfully. Our unswerving standards demand that merchandise be made up to a quality, not down to a price.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone cost very little at any drug store, but will positively take off every hard corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

Airdome Specials

The revival at the air dome continues with growing interest. The church people of all the churches are attending and co-operating. The big combination choir under the efficient direction of Miss Fern Miles is doing great work, and it is a treat to feel the enthusiasm with which the singing is done.

Crowell will rarely have an opportunity to enjoy such splendid singing and preaching as is being done each night except Saturday.

Sunday at 11 a. m. the evangelist will preach on "Honesty." 3:00 p. m. will be a special service for all the young people under a hundred years old. This will be a special illustrated service and chalk talk. Sunday night "Sin" will be the subject. Monday night the evangelist will deliver what his friends call his best sermon, subject, "The Divine Christ." The meeting will continue all next week.

Sheriff's Sale

The State of Texas, County of Foard

Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Foard County, of the 1 day of May 1917, by Jno. C. Roberts, Clerk of said Court, for the sum of seven and ninety-seven one hundredth Dollars and a further sum of ten and seventy-five one hundredth dollars as judgment, in favor of The State of Texas, in a certain cause in said Court, No. 1112 and styled The State of Texas vs Mrs. L. L. Scearce, and unknown owner, and placed in my hands for service, I, L. D. Campbell as Sheriff of Foard County, Texas, did, on the 21 day of May 1917, levy on certain Real Estate, situated in Foard County, Texas, described as follows, to-wit: Sub-survey No. one hundred four (104) as shown by Dedication Deed dated May 1, 1911, executed by the Crowell Realty Company incorporated, said sub-survey being part of the Abb. Luce Sr. Survey and containing 10 acres of land. For the foreclosure of a lien created, established and continued on and against the heretofore described land, by reason of a levy and assessment of Taxes, on and against the same for the year 1913 and 1914 and levied upon as the property of Mrs. L. L. Scearce, and unknown owner, and that on the first Tuesday in July 1917, the same being the 3 day of said month, at the Court House door, of Foard County, in the City of Crowell, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Mrs. L. L. Scearce, and unknown owner.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Foard County News, a newspaper published in Foard County.

A Real Fish Story

W. B. McCorimck has the best fish story to tell which we have heard lately, and it is true, because we have "Mack's" word for it. He went down to the Bomar lake one afternoon recently and thought he would catch some fish. He baited his hook, dropped it into the water, rolled a cigarette and reached into his pocket for a match, thinking that he would enjoy a quite smoke while the cork bobbed, occasionally responding to the nibble of a turtle. But that did not happen with him. According to his own story he never did get that match struck, but one after another he flung bass from the limpid waters of that lake until he had seven, each weighing three pounds. This was all done within 40 minutes

from the time "Mack" started to light his cigarette. The sport was simply the finest kind and the meat was better.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days. I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go. I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me.

One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle. I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. B 78

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Determined to Go

VERNON Texas, June 9.—"Sorry, young fellow, but you have no chance to get into the army with that eye," the examining surgeon said, indicating the left eye of Albert Robinson, cadet major in Vernon High School cadet corps. The optic was a bit "crossed."

Young Robinson went directly to the railroad station. There he bought a ticket for Wichita Falls.

Two days later he reappeared in Vernon. His left eye was shielded by a heavy bandage. The defect had been remedied.

Back to the physician's office he went.

"What about it now doctor?" he queried.

"You'll do, young fellow," remarked the doctor gruffly—and he blew his nose right hard. "Yes sir, you'll do." There were tears in the surgeon's eyes this time.

Young Robinson is the son of

A. J. Robinson, city engineer of Vernon. He made a splendid record here this year as cadet major in the Vernon High School cadet corps. He expects to follow an army career.

A WOMAN'S HEAD is loved and her judgment good when she puts her faith in Dr. Pierce's Favorite Prescription. There is no beauty without good health. Nobody expects to become really beautiful from the use of complexion beautifiers. Bright eyes, clear skin, and rosy cheeks, follow the use of the "Prescription."

All women require a tonic and nerve at some period of their lives. Whether suffering from nervousness, dizziness, faintness, displacement, catarrhal inflammation, bearing-down sensations, or general debility, the "Prescription" is sure to benefit. Mrs. JULIA A. Doss, of Paris, Texas, says: "I was in bad health, was suffering from weak and nervous spells, and tried several kinds of medicines but got no relief until I took Favorite Prescription. I found that it did me more good than anything I ever took. It cured me."

Do You Practice Thrift? The art of acquiring means consists mainly of thrift. It is in every person's power to practice this art. To try to recount the values of thrift would be to try to enumerate the results of many virtues.

The best start in life that parents can give their children is to teach them thrift.

Thrift makes strength. The strong men in any community are men of thrift.

Thrift begins to be acquired when one distinguishes between luxuries and necessities and schools himself to do without luxuries.

Wasting a cent a day wastes \$3.65 a year. This would buy the use of almost \$50 at 8 per cent interest.

The thrifty man does not have to haunt the free employment bureau or feed his family on mush and milk.

Thriftiness with money means independence of the pawnbroker and the loan shark. Thrift of time enables a man, if he so wishes, to acquire a liberal education.

Policemen in the Spot Light. At certain street intersections in St. Louis, where traffic officers have frequently been struck by passing automobiles in dark and foggy weather because of their low visibility, they are now protected by searchlights installed

on nearby buildings, which clearly reveal their presence to approaching motorists. The lights are of the nitrogen tungsten variety, high powered and mounted in reflectors. Placed at the second or third story of a corner building, they flood with a bright white light the spot where the officer stands. At one street corner in the west end the light is mounted at the top of a seven story hotel. The spot lights were adopted after several other methods had failed.—Popular Mechanics.

Coffee Adamson Makes. "Adamson of Georgia," a Washington news item says, "is best known because of his eight hour bill." Most widely perhaps, but not best. William Charles Adamson is best known because of the coffee he brews in his private office adjoining his committee room.

No newfangled percolator or drip contraption for him. Coffee boiled in a tin pot, poured into a drinking glass over a lump of sugar, tempered and mellowed with rich cream, served by his smiling "boy," a white haired negro—it is that which makes Bill Adamson best known.—New York Sun.

A Lesson From Joy. He took Joy home with him, and Joy said, "Where's your fire?" And he told him, "The wind came in and the fire went out." And then Joy said,

"Carry sunshine enough about you to warm your heart and hands." And Joy asked him for a fiddle, but he said that it had only one string. But that was enough for Joy, who made the rafters ring with music. And then Joy said: "The fiddle ain't all. If you'll just keep some music in your soul life'll be hallelujah come down all the days of your life."—Atlanta Constitution.

Business Instinct. Mr. A.—So the Tompkins-Chorkins match is broken off, is it?

Mr. B.—Yes. The Tompkins objected to Chorkins being so economical.

Mr. A.—You astonish me.

Mr. B.—Yes. You know he is a contractor himself and so sent circulars to all the ministers in town asking for their lowest estimates for performing the ceremony.—Pittsburgh Chronicle-Telegraph.

Motor Driving at Night.

Every automobile owner should cooperate in solving the most difficult problem of night driving—glaring headlights. They are more than objectionable; they are a source of constant danger. To meet another car at night with its dazzling, brilliant lights shining straight in your eyes is a very trying ordeal. It absolutely blinds you and forces you either to slow up until he passes you or risk either a collision or going into a ditch. That many laws have been passed in various parts of the country regulating the kind of lights that may be used indicates that thoughtful motorists are united in their efforts to eliminate every condition that tends to create discomfort and danger to the automobiling public.

Brilliant, glaring lights are not necessary. Several lamps are available that have practically solved this problem, each in its own way, and every car owner should do his part in making the glaring light only a memory to the great motoring public.—C. P. Christopher in Southern Woman's Magazine.

Paper For Shoes.

For shoes what will come after leather? Cloth of suitable kinds may be used, and rubber or similar material may enter into the product, but manufacturers seem to look most hopefully upon paper as the basic substance. Paper leather of attractive appearance, adapted for many purposes as well as the natural leather, is, in fact, said to be satisfactorily made already. In a German process paper of long fiber is converted into pulp, suitably colored, made flexible with glycerin and nondrying oils and waterproof with shellac solution, given the grain of morocco or other leather by pressing in a matrix and finished with lacquer. The matrix is formed by taking an impression of the natural leather in shellac.
