FOARD COUNTY WELL OVER TOP

Foard County's quota in the Fourth Liberty Loan was \$88,000 and \$42,850 has just been subscribed, thus putting the county over the top by nearly \$5,000.

One thing especially we wish to say about Foard County's raising her quota, and that is that it was done without any campaign whatever. In view of the drought situation it was thought best not to make a campaign but to leave it up to the people of the county to do just what they felt was their duty and what was within their reach. This they have done, and done well. The following names with the amounts opposite represent the offering of our people. Of course, everybody's name is not on this list. Some bought in the other loans which were not in shape to buy this time and they, together with practically everybody in the county, have their hearts in the work and regret very much that they cannot buy. Following are the names of buyers:

SOLDIERS TELL EXPERIENCE

The people of Crowell had an opportunity Monday of hearing the story of how the Germans were turned back from their advance towards Paris, by two soldier boys who had seen service. These boys were Privates, Rape of Childress County, Texas, and Pelton of Boston, Mass. They had been in the U. S. Marine Corps and both were in the thickest of the fight when the tide was turned in favor of the Allies. Both were wounded and were at home for a rest. They said they were anxious to get on their feet again so that they could return to the front.

It was interesting to hear these boys narrate their experience and tell of the hardships through which they had gone, yet they seemed to have really enjoyed it in a measure.

They made an appeal to our people to stand behind the boys over there and help win the war, and at the close of their talks subscriptions were called for and the amount of \$2700 was subscribed within a few minutes, which was about sufficient to put the county over the top.

W. H. Huggins of Vernon accompanied these young men and introduced them to the crowd, and also at the close of their talks made some complimentary remarks about how the people of the West were coming up with their quotas. They went from here to Benjamin.

A fund of \$33.20 was made up and given to the boys to help defray their traveling expenses.

An Appeal from Mr. Hoopes

Dallas, Texas, 5:07 p. m., 16, 1918.
Foard County News, Crowell, Texas.

Will you be good enough to give the widest publicity of the following message and feature it?

Your city and your county have gone over the top with the Liberty Loan and I congratulate you sincerely. It may be that an impression exists that no further action is necessary. The Loan is about 60 per cent subscribed. The need for patriotic men and women to come forward and volunteer to buy Bonds was never so great. I appeal most earnestly to every citizen in your city and county to reconsider his Liberty Loan Subscription and if it is within the bounds of possibility, go to the bank and buy more Bonds. The situation is indeed grave and the man or woman in your community who will come forward and help at this time is doing the most truly patriotic act that it is possible for any one to do at this time. I appeal to you once more to buy more Bonds, for it would break the hearts of our boys in France if the Loan failed.

J. W. HOOPES, Federal Reserve Bank.

ABOUT OUR SOLDIER BOYS

Henry Hays received a card from his son, Jim, recently saying that he had been at Uruguay, but at the time of writing was at Key West. He is enjoying the life of seaman.

A card was received recently telling of the arrival of Archie McMillan overseas.

Mrs. Logan called at the office Monday and said her son, Paul, had arrived safely overseas. This is the third son of this good mother to arrive "over there," Edgar and Earl having preceded Paul.

A letter from Clint White to his parents says, "We are in about one hundred miles of where they are having the fun. Boys all well."

Mrs. R. C. Bell has received news that her brother, Ben Hogan, has arrived safely on the other side.

Mrs. H. E. Rector had a letter from her son, Floyd C. Rector, this week which was written while he was on the ocean. They received news recently that he had arrived safely. He is at Base Hospital No. 84, American Ex. Forces. Among other things he says: "I can tell you one thing, Uncle Sam is leaving nothing undone, as far as I have seen, for the protection and care of his men. I have enjoyed my trip from the day we left Camp Bowie. There are so many new experiences and sights as to make every mile of the trip interesting. Of course we had to go through a spell of seasickness that was anything but pleasant. Some were sick several days, but I was sick only one day. It will be a trip that will broaden the minds of many an American boy. I am thankful that I have had the advantage of an education before making it. But the more I see the more I appreciate Texas. Texas is behind in a great many things, but Texas' possibilities are her redeeming feature. That makes Texas the place for a young man. Texas will be my home."

In a letter to his mother, Glenn Roberts says: "Am feeling fine and gaining in weight every day since I came here. There are a few cases of influenza in Demming, but have not heard of any deaths. They spray us in the nose and throat every day to keep us from taking it and we are just four in a tent now and occupy only every other tent. We sleep with the sides of our tents up, and they gave us what they call a shelter half the other day and we have to put them up between our cots every night, and they make us furl our tents every morning at 7 and keep them furled until 5 in the afternoon. We march through the mess hall get our chucks and then go out of doors and sit on the ground to eat where we will get plenty of fresh air. We are under quarantine now, but the doctors hope to keep the disease down by being careful."

A letter from Brudge Andrews to his parents, Mr. and Mrs. L. G. Andrews, received last week says they are getting along fine and that they are having lots of rain. He also says that he and one of the other boys had the privilege of dining at the home of a couple of old French ladies who once lived in this country. He says they certainly enjoyed it and the ladies were very good to them.

A card received here yesterday from Oscar Gentry says he is somewhere in England.

A letter from Boyce Cannon, Camp Mabry, to his father and mother, Mr. and Mrs. A. F. Cannon, says he is alright with the exception of a bad cold. J. C. Davis has received a safe arrival card from his son, C. A. Davis.

We received a card from Mrs. J. D. Halsell Wednesday saying she had re-

CONDITIONS GOOD FOR WHEAT

Since the two-inch rain last week the wheat that had been sown is now coming up and looking good. The week or two prior to the rain witnessed the sowing of many hundred acres, the finest condition of the ground and the very best weather the farmers could wish for, and then the rains followed to bring it up in good condition. This early sowing will soon furnish pasturage for the stock that so much needs it and will relieve the situation for those who were expecting to have to ship to other pastures or sacrifice at a greatly reduced price.

In some sections of the county the rain was almost a water spout and really did some damage to land in that it was greatly packed, but in such cases the farmers will likely break the crust with harrows and allow the wheat to come up alright.

The next few weeks will see much more wheat sown, for the acreage is sure to be almost doubled this year, according to what the farmers say.

R. L. McCORMICK DEAD

R. L. McCormick died at his home in Crowell last Thursday evening at 8 o'clock, after having been afflicted with paralysis for a number of years. He had not walked for two years and had been confined to his bed since last June.

Mr. McCormick was born in Mobile, Ala., February 19, 1851, and moved to Kernes, Texas, where he lived practically all his life. He had been a consistent member of the Methodist church for twenty years and was a good, Christian man. He moved to Crowell about three years ago.

Mr. McCormick is survived by his wife and one brother, W. J. McCormick, of Rio Hondo, Texas, one son, W. B. McCormick, of this city, and one daughter, Mrs. E. J. Anderson, of Snyder, Texas.

The funeral services were held at the residence Friday afternoon at 4 o'clock. After a short talk by Bro. Hamblen, the Masonic brethren took charge of the remains and the burial services, and interment took place at the Crowell cemetery under the auspices of the Masonic Lodge of Crowell, after which the grave was covered with a very beautiful floral offering.

The bereaved family have the sympathy of the entire community in this sad hour.

UNLOADING WHEAT

To give our readers some idea as to what the farmers are doing in the way of sowing wheat, two cars were unloaded Monday and the third one started on. Wagons from the country came early in the morning and were crowded around the cars until late in the night. There has never been so much wheat sown as is going in this fall. Conditions are good for sowing and the outlook is hopeful at this time for a crop. Of course it is a long time yet until the harvest, but the fall seasons have always been the best and safest indications of what the crop is to be. But whether we have enough moisture later in the year to make wheat, the farmers can hardly lose by sowing, since it will almost certainly come with the present supply of moisture to make good pasturage. And this itself will be worth an inestimable amount to them for grazing. So there is not much chance to lose. The country is becoming transformed from a barren state a few weeks ago into one of great and green fields of wheat.

ceived a card stating that her son, Burnace, had arrived safely overseas.

FROM EARL A. BOYCE

Camp Lee, Va., October 14, 1918.
To the Foard County News:

Having been raised in Foard county and leaving there in the year of 1916 for Abilene where I lived previous to the first of August this year. Being sent to the camp here in Virginia I must say that we have a very nice camp here, one of the largest in the U. S. I am enjoying camp life and having a fine time. Most every state in these United States is represented here.

Our camp is now under quarantine for Spanish influenza. There are from ten to fifty deaths daily here.

We soldiers are living in tents now as we had to give up our barracks for hospitals, although we were willing.

We are drilling hard every day now as we go overseas about the first of November. We are very anxious to go over to find out what is going on over there. We have approximately eighty-seven thousand soldiers here who are overseas men and very proud that we are as the domestic men are catching what Sherman said war was. We are in about seventy-five miles of New Port News and I have made one trip down there since I have been here and we had the pleasure of taking a trip to New York by water which we enjoyed very much. Coming back by Philadelphia and Washington, D. C. We visited the White House in Washington and there had the pleasure of meeting our dear old President Wilson. We left there and came to Richmond and from there to Camp Lee and was put under quarantine and there is no assurance as to when we will get out any more till we go to France. There we will have the pleasure of chasing the dirty Huns.

But, of course, that will be easy for you yanks as we fear nothing and nothing can stop us when we start as you all know what kind of material a yank consists of. I would be very glad to hear from my old friends back there and remember "we're going over."

HIGHWAY CONTRACT LET

The contract for the construction of the Highway from the Wichita River to the Cottle County line was let Tuesday to Baldwin & Stovall of Aspermont, they being the lowest bidders. These contractors are just finishing the construction of a highway in Dickens county.

The contract, of course, is made subject to the approval of the State Highway Department, and must go before that department for approval before a contract can be signed up. This will likely require some two weeks, so that construction is expected to begin by about the first of November.

It has taken a long time to get this matter to its present stage, but it seems to be in a fair way now to become an actuality rather than a something dreamed of.

MRS. ELIZABETH ROSS DEAD

After a few days illness from a severe attack of influenza, Mrs. Elizabeth Ross died at the home of her daughter, Mrs. M. O'Connell, in this city Wednesday evening.

Funeral services were held at the Crowell Methodist church yesterday 5 o'clock p. m., after which the remains were laid to rest in the city cemetery.

Mrs. Ross' home was at Margaret, but she was here in the home of her daughter assisting her with several cases of the same disease when she contracted it.

Condolence is extended the bereaved family in their sad hour.

ATTENEION PARENTS

The Lyceum course will render its first entertainment October 23.

Your children need some entertainment and you will find the Lyceum course high-class. You can get your child a season ticket for \$1.25, which is half price. All school children have this privilege—take advantage of it. It is a bargain for you and will help the club ladies who have no other plan in mind only to bring our people some amusement that is worth while. You can buy these tickets at Ferguson Bros. Drug Store or from Messdames Jack Roberts and M. S. Henry. See the announcement of the first attraction on page 2.

Miss Bess Harris left Sunday for Clarendon where she has accepted a position with T. L. Hughston.

PRESIDENT POSITIVE WITH GERMANY

Washington, Oct. 14—The text of President Wilson's reply to Germany follows:

From the Secretary of State to the Charge d'Affaires of Switzerland, ad interim in charge of German interests in the United States, Oct. 14, 1918:

Sir: In reply to the communication of the German Government dated the 12th instant, which you handed me today, I have the honor to request you to transmit the following answer:

The unqualified acceptance by the present German Government and by a large majority of the German Reichstag of the terms laid down by the President of the United States on the 8th of January, 1918, and in his subsequent addresses, justifies the President in making a frank and direct statement of his decision with regard to the communications of the German Government of the 8th and 12th of October, 1918.

It must be clearly understood that the process of evacuation and the conditions of an armistice are matters which must be left to the judgment and advice of the military advisors of the Government of the United States and the Allied Governments and the President feels it his duty to say that no arrangement can be accepted by the Government of the United States which does not provide absolutely satisfactory safeguards and guarantees of the maintenance of the present military supremacy of the armies of the United States and of the Allies in the field. He feels confident that he can safely assume that this will also be the judgment and decision of the Allied Governments.

The President feels that it is also his duty to add that neither the Government of the United States nor, he is quite sure, the Governments with which the Government of the United States is associated as belligerents, will consent to consider an armistice so long as the armed forces of Germany continue the illegal and inhumane practices which they will persist in. At the very time that the German Government approaches the Government of the United States with proposals of peace, its submarines are engaged in sinking passenger ships at sea, and not the ships alone, but the very boats in which their passengers and crews seek to make their way to safety; and in their present enforced withdrawal from Flanders and France the German armies are pursuing a course of wanton destruction which has always been regarded as a direct violation of the rules and practices of civilized warfare. Cities and villages, if not destroyed, are being stripped of all they contain not only, but often of their very inhabitants. The nations associated against Germany cannot be expected to agree to a cessation of arms while acts of inhumanity, spoliation and desolation are being continued which they justly look upon with horror and with burning hearts.

It is necessary, also, in order that there may be no possibility of misunderstanding, that the President should very solemnly call the attention of the Government of Germany to the language and plain intent of one of the terms of peace which the German Government has now accepted. It is contained in the address of the President at Mount Vernon on the Fourth of July, last. It is as follows:

"The destruction of every arbitrary power anywhere that can separately, secretly and of its single choice disturb the peace of the world; or if it cannot be presently destroyed, at least its reduction to virtual impotence."

The power which has hitherto controlled the German nation is of the sort here described. It is within the choice of the German nation to alter it. The President's words just quoted naturally constitute a condition precedent to peace, if peace is to come by the action of the German people themselves. The President feels bound to say that the whole process of peace will, in his judgment, depend upon the character of the guarantee which can be given in this fundamental matter. It is indispensable that the Governments associated against Germany should know beyond a peradventure with whom they are dealing.

The President will make a separate reply to the Royal and Imperial Government of Austria-Hungary.

Accept, sir, the renewed assurances of my high consideration.

(Signed) ROBERT LANSING.

C. E. Hutchison came in Wednesday night from Electra.

We have just received a nice lot of Serge and Silk Dresses. It would be worth your while to see them. They have an individuality about them you don't find in ordinary lines. Also a pretty line of coats and suits for ladies, and a pretty assortment of children's and Misses' coats. Our store is full of new, seasonable merchandise at the lowest cash prices.

GERMAN PROPAGANDA

To forestall a repetition of the enemy propaganda which last winter was aimed at the discouragement of Red Cross workers who supply soldiers with knitted sweaters and other cold weather comforts, Brig. Gen. Geo. M. Estes, commanding officer at Camp Travis, has issued orders that wearing apparel sent to camp by the Red Cross and other charitable institutions should be distributed like government clothing.

Last winter reports were spread that the soldiers were selling for ridiculously low prices the sweaters and comforts knitted for them by loving hands. An investigation proved these stories to be absolutely untrue but were put out by German agents to discourage those who were toiling to keep the boys warm, comfortable and healthy.

CARD OF THANKS

We wish to express our thanks to the good people of Crowell who rendered assistance during the recent sickness and death of husband and father, and for the floral offering. Mrs. R. L. McCormick, Mr. and Mrs. W. B. McCormick, Mrs. E. J. Anderson.

Cole's Original Hot Blast

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

SANITATION AT CAMP TRAVIS

Camp Travis, Texas, October 15. Because the epidemic, influenza, has appeared in Camp Travis, "the folks back home" need not worry for fear their boys in this camp are needlessly exposed to dangers or can lack for care. Every precaution is taken to isolate influenza cases the instant they develop and those who have been taken ill are receiving even better care than they could get at home for they are in the care of the best specialists the government can secure.

Two things have contributed materially to the remarkable success of the fight on influenza at Camp Travis. In the first place, Camp Travis is one of the most sanitary camps in the entire United States; and sanitation is the first prerequisite in war on disease. In the second place, forewarned by experiences of the eastern army camps and knowing that the appearance of the epidemic here was inevitable, the camp officials forearmed themselves for the time when they would be called upon to face the music. Days before a single case of Spanish influenza had appeared, this cantonment was ready for it. A

warning had been sounded to every soldier in camp to keep himself in the best possible physical condition, clean inside and out, with special attention to the nostrils. Every one was made acquainted with the nature of the disease, how it is spread and how best to combat it. At the same time the mammoth base hospital at Camp Travis was being made ready and all kinds of supplies, nurses and other attendants mobilized. When the epidemic struck, they jumped on it with both feet, so to speak, and as a result, while deaths from the disease were occurring by the hundreds in the east, not a fatality was recorded at Camp Travis during the first week of the fight and pneumonia developments have been held at a minimum.

To county Agents and Home Demonstration Agents:

Mr. Pou and I are leaving the State to purchase several car loads of Holstein and Guernsey cattle for the farmers in various parts of the State, as per announcement in a circular letter sent out some time ago. We will be in the North about five weeks.

If it develops in the meantime that any of your farmers wish to avail themselves of this service, will you please notify Mr. W. B. Lanham, at this office? If you wish to purchase any considerable number it will be better to send a man to attend to the financial end of it, as we are only supposed to select the cattle. However, if you wish to purchase only a few cattle, this expense would not be justified, and we can attend to the actual closing of the deal.

At the time you notify Mr. Lanham, also send a statement from the bank to the effect that a draft will be honored for the cattle we have to purchase. This is very necessary as your farmers naturally will have no banking connections in the North and we can assume no financial obligations.

Your instructions will be forwarded to us from this office and we will be glad to render you any service possible.

Yours very truly,

For that Stubborn Cold

Prompt treatment of a cold may prevent the development of chronic catarrh or a chronic cough; may guard the individual from being overcome by bacteria of influenza, pneumonia or consumption.

Rexall

Cold Tablets

will be found excellent for the relief of a heavy cold. Frequently they serve to check such a condition, clearing the head, easing the tight feeling, relieving hoarseness and difficult breathing, inflammation of the nasal passages, throat, and bronchial tubes.

We recommend these Tablets in the treatment of Coryza, Hay Fever, Rose Cold and Rhinitis, which are all practically due to the same general cause—germ irritation, leading to intense inflammation of the lining of the nasal cavities.

In treating a cold which has, as is generally termed, "settled on the lungs," Rexall Cold Tablets are advisable as an emergency remedy until competent medical advice may be obtained. Such a condition is serious, and usually medical advice is not only advisable but necessary.—25 cents.

J. H. SELF & SON

THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon G. A. Moore, J. P. Moore, E. P. Moore and Bettie Ferrell and her husband, Dick Ferrell, and Lillie E. Goforth and her husband, W. V. Goforth by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; to appear at the next regular term of the District Court of Foard County, Texas, to be held at the Court House thereof in Crowell, on the eighth Monday after the first Monday in September, A. D. 1918, the same being the 28th day of October, A. D. 1918, and there to answer a petition filed in said Court on the 24th day of September, A. D. 1918, in a suit numbered on the docket of said court, No. 1063, wherein H. L. Kimsey is plaintiff and Laura Arnold and her husband, W. E. Arnold, Clara McCord and her husband, McCord, Lillie E. Goforth and her husband, W. V. Goforth, Bettie Ferrell and her husband, Dick Ferrell, G. A. Moore, J. P. Moore and E. P. Moore are defendants, and the cause of action being alleged as follows:

That on the first day of January, 1918, plaintiff was and now is lawfully seized and possessed of the tract of land hereinafter described, situated in said County of Foard, holding the same in fee simple; that on the day and year last aforesaid defendants, and each of them, entered upon said premises and ejected plaintiff therefrom, and unlawfully withheld from plaintiff the possession thereof, to his damage one thousand dollars; that the premises so entered upon and unlawfully withheld from plaintiff are known and described as follows: A part of the original town of Crowell, in Foard County, Texas, and known and described as Lots Numbers Three, Four, Five, Six, Seven, Eight, Nine, Ten, Eleven and Twelve, in Block Number One Hundred Thirty-eight, and also the street between Blocks Nos. 138 and 161 of said town of Crowell.

Plaintiff alleges that he has good and perfect title to said lands and premises because he says that he, and those whose estate he has, claiming the same under deeds duly registered, has had peaceable, continuous and adverse possession of lands and tenements above described, cultivating, using and enjoying the same, and paying all taxes due thereon, for a period of more than five years after defendants claim to said lands and their cause of action for same, if any, accrued, and before the commencement of this suit.

Plaintiff further says that he has good and perfect right and title to the lands and tenements above described because he says that claiming to have good and perfect right

and title to all of said land above described, he and those whose title he has, have had and held peaceable and adverse possession thereof by actual enclosure, cultivating, using and enjoying the same for a period of more than ten years after defendants claims and cause of action thereof, if any, accrued and before the commencement of this suit.

Wherefore plaintiff prays that citation issued as provided by law and that the defendants and each of them be cited to answer this petition and upon hearing hereof plaintiff have judgment against the defendants and each of them for the above described lands and tenements, and that all right, title and interest in same be divested out of the defendants and each of them, and invested in plaintiff, and that plaintiff be quieted in his title and possession for said property, for his damages, costs of suit and general relief, both legal and equitable, and plaintiff will ever pray, etc.

Herein Fail Not, but have you before said Court on said first day of next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Crowell, Texas, this 24th day of September, A. D. 1918.

Clerk District Court,
Foard County, Texas.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasing and safe to give to children; they like it.

CROWELL, TEXAS, OCTOBER 18, 1918

NO PEACE YET

It may be that we shall learn after a while that peace is not so close as some would have us believe. Of course we all want the war to end, but it cannot end right until Germany is whipped a plenty. And inasmuch as Germany is not yet whipped to that extent it is no time to quit, neither is it time to talk peace, and it is far from time to celebrate. If there is any one thing Germany would like to see the American people do just now it is to begin to talk peace. Of course people sometimes do that thoughtlessly, but its effect will be just what Germany wants—to divide sentiment in this country and consequently weaken the Allies. This is characteristic of Germany, it has always been her greatest method of warfare, and if she could, by making any kind of a peace proposition, or by accepting a peace proposition that would make our people think and say, "Well, after all, Germany is not so bad as she has been reported to be"—if she could by this means build up sentiment in her favor, Germany would be making fine progress towards a German peace.

Let us put it down once for all that she will not do to handle with any degree of leniency or favorable consideration whatever. We had just as well face the fact that we have the devil to contend with, and tenderness and sentiment in his favor is always out of place. Germany must be whipped to her knees and stripped of her military power, and it must be done so well that all the world will know it and that Germany will never forget it.

Our boys are doing the job up just like it ought to be done, and if we will stay with them on the job and not get to thinking that Germany is a pretty respectable country the job will be finished according to plans and specifications, but a few more guns celebrating reported peace at home will hurt the work already done.

Another thing. When the Allies have said it is finished it will be time to throw hats into the air and proclaim the advent of peace, but not until then. Germany already has enough of the thing to satisfy her for the present, but she has not had enough to satisfy the Allies. They don't think a peace made with her at this time would be worth a cent to any body but to Germany herself.

Whatever may be the opinion of some in regard to the matter of closing places of gathering until the influenza is stamped out, the fact remains that we have a dangerous disease among us. That is the fact in the case and there is no way getting around it. In many of the cities and towns the schools and churches are being closed, as well as all other places of public gathering. The News does not pretend to say what is best for Crowell, but one thing we feel certain of is that if the Spanish influenza does not soon run its course and play out we are going to have to battle with it for months to come. If it can be stamped out by closing places of meeting for a week or so, it would be time saved in the long run, and possibly would mean the saving of some lives.

Bob Johnson, editor of the Motley County News, died Monday of influenza.

enza. He had been editor of that paper for several years and was well known among the fraternity. One thing about him that makes him different from the majority of newspaper men was his frank and outspoken writings. He seemed always to speak his honest convictions whether he himself or others suffered therefrom, and as a consequence, likely he made enemies. But whatever criticism may be spoken against him, this one commends his courage to the serious thinking public.

Every one will admit that Foard County has done well in that it has gone over the top on the Fourth Liberty Loan campaign. Our quota was \$38,000 and the amount raised is \$43,000, or \$5,000 more than the amount assigned our county. It looked like awhile that under the drought conditions that have prevailed for two years this county could do nothing. But the spirit of doing what is expected of us, and more, is characteristic of West Texas people. These people are making real sacrifices.

It is not improbable that the political rulers of Germany are ready for peace, but if the military directors are the real rulers of the country, then Germany will have to await their time for such a move. If they are not ready now, it is only a question of time until they will be. All they need is a little more of General Foch's medicine, and he will be generous enough to measure it out to them in sufficient doses to do the work.

It is up to those who have been financing the war in Germany to get the best peace possible before that country is forced to pay the heavy indemnities which the civilized world believes would be just to the countries wronged. But they have gone too far. Whatever calamity is visited upon Germany will be the fruits of her own folly.

Whether Germany shall be able to pay the indemnities she must pay France in order to right the wrongs in some measure she has committed against that country, is questionable, but if not, then France may do the next best thing by taking charge of Germany and converting it into a potash mine.

Great fires have been raging in Northern Minnesota, and the death list is estimated to be more than 800, and possibly more. Several towns have been wiped out.

It will be interesting to watch developments for the next few weeks. Unless all signs fail Germany is already in the hole and now being smoked out.

PRIVATE JOHN T. SIMONS WRITES HIS GRANDFATHER
T. T. Kuykendall had a letter from his grandson, Pvt. John T. Simons who is with the Sales Commissary No. 10, A. E. F. John lived here with his grandfather and went to school several years ago and will be remembered by many. His letter follows:
Dear Grandpa:

I am really ashamed for not writing more often to you but you know that this is a tough war and we haven't

got time to write as often as we would like to. I don't write to anybody much. I try to write to Aunt Belle every week to let you know that I am all O. K.

How is every thing around Crowell? That is, if you are still at Crowell. The last letter I had from Aunt Belle she said you were talking of leaving there.

I am now with a traveling sales commissary. We are attached to a certain division. We go everywhere the Division goes. So far we haven't staid many days in the same place. It just suits me, because I would rather move once in a while and see a little action than to be back in one place all the time.

At present we are stationed not many miles behind some front in France and by the time you get this I don't think it will be the quietest front by any means.

We deliver the cigarettes, candy, etc., to the boys at the front or wherever they happen to be. So you see we get to see a little action even if we are in the Q. M. Corps. But it suits me. Nine chances out of ten I'll go back to the States whole. I would rather take a chance rather than stay back in the service of supply for the duration of the war and go back home without hearing a gun fire.

What battery of what regiment is the National Guards from Crowell? I saw the name of one of the Campbell boys of that place in the casualty list, but I don't remember a Campbell boy old enough to be in the army.

I am with a good bunch of fellows. There are 14 different states represented in our little detachment of about 20 men. I have not seen but one man from New Mexico since I have been in France. That is, except the two boys I enlisted with and I haven't seen but one of them since we separated and didn't spend many hours with him.

Well, I'll close for this time, as this is all I know to write.

Answer soon,
JOHN T. SIMONS,
Sales Commissary No. 10,
A. P. O. No. 709, A. E. F. France.

MOTHER HAD REASONED WELL

Decision That Combined Strict Justice and a Knowledge of the Child Character.

My child and my sister's two children were playing in the room next to where my sister and I were talking. Presently her older boy came in and said that the others were bothering him. He was building a railroad and they took his things; would mother please make them stop? To my surprise, she said surely she would; it was too bad they bothered him, and she called them in with us, and when she had started them playing there she quietly closed the door between the two rooms. In a moment it opened, and the young railroad builder said he did not care about having the door shut, he only did not want to be bothered. But the mother answered that she could not keep the little folks happy if they saw him with all the things; the door would have to stay shut. Every little while, for half an hour or so, on one excuse or another, that door came open, and just as surely a reason was given why it must be kept shut. Then the law of the Kingdom, the Spirit in Man, worked; every one knows what would happen. The boy came where we were, and leaning against his mother, had a treble in his voice as he said: "I'd rather stay in here; it's lonesome in there and I don't care about the things."

She had not told him he was wrong, but it was just as the inventor said: "If you understand the case and the law governing it, any one can tell what will happen. Certain things always work certain ways."—Eleanor Scott Sharples, in the Philadelphia Ledger.

Adolph Dumkopff had made a killing at poker, says the Detroit Free Press.

"Oh, Adolph, how lovely!" scuggled his wife. "You must have had wonderful hands, Adolph. What did you have—Jacks down, or a full kind, or something?"

"How about a little celebration?" said Mr. Dumkopff, jovially. "How about a little theater party, and then a little something to eat at Snoozemacher's?"

"Now, Adolph," remonstrated Mrs. Dumkopff, "what's the good of squandering it right away? Now that you've got it, you may as well keep it for a rainy day. We'll celebrate reasonably, that's what we'll do."

And after supper they went to the movies to see the beautiful Snoozles Wonderful in "Loozing the Loop" in five parts, after which they each had a pickle sandwich in Childish's.

"Now, wasn't that a reasonable celebration?" said Mrs. Dumkopff, when they had returned home. "Only eighty-five cents altogether."

"Cheap at half the price," agreed her husband, as he dropped off to sleep. Half an hour later Mrs. Dumkopff carefully removed his trousers from the chair by his head, extracted his roll from the right-hand pocket, divided it with scrupulous fairness into two equal parts, kept the six tens and replaced the six fives in her husband's trousers.

"I'll buy something for the house with this, such as the prizes for my card party next week," thought Mrs. Dumkopff, as she tucked the bills into her back hair and slipped into bed to sleep the sleep of the foxy.

EXPECTING TO SAIL
In a letter to his uncle, S. E. Tate, Robert E. Manard says they are expecting to sail any day from Camp Dix to France. He asks his folks not

to worry about him, for he trusts a higher power to take care of him and bring him back home.

Robert says nothing about the epidemic, influenza, so it is presumed that conditions are improving there, especially since they have been given to think that they may soon be called to France.

He says he received a copy of the Foard County News recently and to say that he enjoyed it immensely is putting it very mild. He read every line and every ad.

He insists on his folks not worrying

about him, and asks them not to do so, since knowing that they may do so, will have a tendency to depress him in spirit.

It is to be observed that the boys are going into the war with a deep realization of what it means, and many of them have given evidence that they are relying upon Him who can bring things out alright in the end. That is the proper spirit, and it is that which makes them infinitely superior to their foes, who are depending upon Bill and Ludendorff and the other war lords.

Miss Rebecca Welch, trained nurse, is here on a vacation visiting her parents, Mr. and Mrs. M. E. Welch.

Gordon Witherspoon is here from Seymour visiting his father and mother, Mr. and Mrs. J. G. Witherspoon.

I will be in town tomorrow with some thoroughbred Brown Leghorn cockerels for sale at \$1.50 each. See me or Judge G. L. Burk.—R. W. Bell.

Mrs. E. J. Anderson and little daughter, Brentz, have returned to their home in Snyder. They were accompanied by Mrs. Anderson's mother, Mrs. R. L. McCormick.

Miss Leona Young came in from Dallas yesterday morning where she has been attending the Metropolitan Business College. She became ill on the train Wednesday night and probably has an attack of influenza.

For Sale—Two wagons, four good work horses seven years old, and good harness, and one mule five years old. Will either sell or trade. Will take good milk cow, or will buy cow straight.—E. J. Glover, at Hall-sell ranch.

Mr. and Mrs. E. J. Anderson came in last Friday from Snyder, Texas, to attend the funeral of Mrs. Anderson's father, R. L. McCormick. Mr. Anderson returned home Sunday while Mrs. Anderson and little daughter, Brentz, remained over several days.

Mrs. J. C. Self received a card Monday that Miss Nell Melton, Red Cross nurse, had arrived safely overseas. Miss Melton has visited the Self families here many times and has many friends in Crowell who will be glad to hear of her safe arrival.

Mrs. S. J. Ferguson was called to Chilton, Texas, Saturday to attend the funeral of her nephew, Gordon Gaither, who died at Camp Pike, Ark., of pneumonia. He visited Mrs. Ferguson here two summers ago and made many friends while in Crowell. He had been in training only a short time.

E. J. Smith is here this week from Colorado Springs, Colo. It has been about a year since Mr. Smith was here, and he is delighted with the way things are looking after such a long dry spell. He is going to have some wheat planted while here. He says things are fine in Colorado and he is well pleased with it as a cattle country.

WARWICK COLE DEAD

As we went to press last week we stated that Judge Cole had received a message that his son, Warwick, was desperately ill with pneumonia at Pennington, Va. Friday the Judge received another message stating that Warwick had died Thursday at 3 o'clock, but the message was twenty hours in reaching here after being sent. The Judge sent another message asking that they send the body home for burial, but it is supposed that this message was also delayed and when they received it Warwick had already been buried, as another message was received saying that they had buried him there.

Warwick's death was indeed a shock to the people here as he was a strong, healthy young man. He had many friends in Crowell who are deeply sorrowed at his untimely fate and sympathize with the bereaved relatives.

He is survived by his father, Judge Robert Cole, two sisters, Lottie who is at home and Mrs. Joe Couch of Knox City, and three brothers, Grover of this place, and Crutcher and Kinloch who are with the American Expeditionary Forces in France.

Warwick was very anxious to get into the service but had failed on account of a slight disability, and had gone to Virginia to work and await his call in the draft.

Mr. and Mrs. Frank Young returned Sunday afternoon from Hurley, Texas, where they have been visiting the family of R. L. Hightower. Mrs. Young had also visited her granddaughter at Miami, Ariz. Mr. Young said they spent one night with S. R. Wilson at Clovis, N. M. and that Mr. Wilson has a fine crop. Mr. Wilson recently moved from Foard County to his farm near Clovis.

Sam Scales was in town yesterday and said he had some fine late feed which will make good if it doesn't frost too early. He has some late corn already made and some in the roasting ear stage.

J. R. Coffman was here yesterday from near Thalia and says he has 50 acres of corn in the roasting ear stage and will make fine if the frost will stay off long enough. He also has 200 acres of late feed that will make fine if it has time before frost. He has several tons of maize already gathered. Here's hoping, Mr. Coffman, the frost don't come too soon.

Influenza

Spanish Influenza is causing as much talk among the American people at present as the German "Peace Note," and just about as dangerous. MEN NEEDED FOR WAR WORK

Approximately 20,000 men are needed for the Motor Transport Corps—a few for duty at home and the balance for overseas duty—all for enlistment and induction.

This district, of which Texas is a part, is responsible for about one-fourth of the above quota. Recruiting will cease October 25, 1918, unless otherwise ordered, therefore immediate action is required by all branches of the U. S. Employment Service and U. S. Public Service Reserve.

Texas must do its part—every non-war work industry must be combed and demands made upon employers for men who can qualify for any of the following occupations. Publicity of every character should be resorted to, newspapers, mass meetings, bulletins, pulpit appeals, etc.

Accountant-general; Clerk, General

office; Clerk-Postal; Clerk, Production and Routing; Purchasing Agent; Stenographer; Stockkeeper-Checker; Stockkeeper-Packer; Stockkeeper-Shop-Supply; Storekeeper; Typist; Blacksmith; Blacksmith-General; Blacksmith-Tool Dra.; Blacksmith-Spring Mkr.; Blacksmith-Wheelwright; Carpenter; Draftsman-Mech.; Drill Press Opr.; Electrician-Factory; Engineers-Sta.; Firemen-Sta. Operator; Mill Fitter; Molder; Paint Electro; Pipe Fitter; Plater; Road Tester; Screw Mch.-Hand; Steel Metal Worker; Welder; Wheelwright; Auto Repairman; Auto Repair-Gen. Exp't; Axle and Trans. Assembler; Batteryman; Body Worker; Carburetor-Auto Repair; Chauffeur-Light car; Chassis-Auto Repairer; Electrician-Mag-

and Ign.; Electrician-Storage Batt.; Engine Assembler; Grinder Crank Shaft; Grinder-Cyl. Operator; Grinder-Universal Operator; Grinding Machine Operator; Helper-Auto Mechanic; Inspector-Auto Repair; Inspector-Engine; Inspector-Motor Vehicle; Motorcycle Repairer; Motorcycle Rider; Radiator Repairman; Tire Repairer; Rubber; Truck Body Repairer; Truck Driver; Trouble Shooter; Trimmer, etc.

Application for introduction, known as form 201-H.T.M.R., can be obtained from any branch of the U. S. Employment Office, County Labor Board, Enrollment Officers located in all the larger cities of Texas. Others may make application direct to the U. S. Employment Service, Box 1928, San Antonio, Texas.

A letter should accompany the application, stating age, height, weight, disqualifications, if any, and give a short statement of the experience they have had in the different occupations listed above, also stating in which occupations they are most expert.

General Information.—Men between the ages of 18 and 45 may be inducted. Men between the ages of 46 and 56 may enlist if especially qualified in any of the above occupations. Men will be immediately inducted into service at army pay. Exceptional opportunities for advancement. Immediate commissions and non-commission grades given to those qualified. Transportation paid to concentration point from application's home. Men in all classes of the draft will be accepted, even those qualified for limited military service only. Those physically disqualified will be accepted, provided it does not interfere with the duties of assignment. Married men will be given family allotment in addition to their pay.

All applications must be mailed to the undersigned immediately upon completion. Please give this matter preferred attention.

TO AVOID INFLUENZA

As a rule people think little about an epidemic until it has gotten such headway that it becomes a big job to stamp it out. That seems to be true with Spanish influenza. But since it is abroad in the land and is claiming its victims by the thousands, it becomes the duty of every one to practice such rules of sanitation as will improve the general health of the people and fortify them against this disease. Believing that it might be well to observe such rules we are here printing 13 of these as given by F. G. PERNOLD, Medical Advisor Southwestern Division American Red Cross. Here they are:

1. Keep in mind that like most contagious diseases influenza is spread by contact, that is, by the transfer of the poison from one person to another. It is spread by sneezing, coughing and spitting at which times the discharges from the nose and throat are scattered in the air.
2. Avoid crowds as much as possible, including moving picture places, theatres and other assembly halls. When feasible avoid crowded street cars.
3. When sneezing or coughing, place your handkerchief before your nose and mouth.
4. Make sure that you are properly clothed, in accordance with varying changes in temperature, prevalent at this time of the year.
5. Fresh air is always good. Keep your bed room windows wide open, and secure as much sleep as possible.
6. Keep the digestive organs in good condition.
7. Drink water freely.
8. Avoid common drinking cups, common towels and similar utensils.
9. Wash your hands frequently.
10. Use a mild antiseptic as a nose spray or as a mouth gargle, especially if your throat is sore or there is tendency to sneezing.
11. If you have a "cold" use utensils for your personal use exclusively, or if you are in contact with one so affected be careful not to handle utensils used by them.
12. Consult family physician at first onset of symptoms suggestive of influenza.
13. Spread this information as much as possible in newspapers, moving picture shows, school houses, churches, etc.

ANOTHER OLD-TIMER RETURNS

The fact of D. M. Ferebee's return to Foard County to reside is not news to most of our people, for it has already been mentioned in these columns, but since two of the old-timers have returned almost at the same time, we are beginning to think it means that something is going to happen. At least Mr. Ferebee himself says so. He says that since he and Glover have both come back we may look for the good old times like what we used to have in the long ago. He indicates that all things will get right. Glover said we would have rain, and he hit it, and now we hope that Mr. Ferebee will be as good a prophet as Mr. Glover. Mr. Ferebee's family is expected to arrive this week. He will work his farm in the Margaret country.

Are You a Builder?

There are only two classes of people—builders and destroyers. Builders are always watching the corners to detect the first appearance of deteriorating forces. The builder is quick to arrest its work by making needed repairs in time to save the structure. The destroyer, while he may not actually direct destructive forces, sometimes permits them to get in their work, and in that way unconsciously becomes a destroyer. Y.M.C.A. WORK AT CAMP TRAVIS

Growth of interest in the work of the Y. M. C. A. at Camp Travis is strikingly illustrated by the report of the secretary for the month of September. While only 263 meetings were held as compared to 305 for the month of August, the attendance was 62,000 compared to 37,00 for the previous month. Sixty-three Bible classes were organized with an average membership of thirty. A corps of ninety

teachers is employed in Bible class work in the cantonment. Bibles to the number of 4,598 and other pieces of religious literature were distributed. Visits to the sick numbered 15,999. More than one hundred speakers addressed soldier gatherings, including six from a distance and twenty-five from the city of San Antonio.

M. E. Moore was here from Thalia Monday and set his News up a year.

PRESIDENT WILSON'S PROGRAM FOR PEACE

Washington, Oct. 13.—President Wilson's program of world peace stated in fourteen terms in his address to Congress last January 8 is as follows:

1. Open covenants of peace, openly arrived at, after which there shall be no private international understanding of any kind, but diplomacy shall proceed always frankly and in the public view.
2. A freedom of navigation upon the seas, outside territorial waters alike in peace and in war, except as the seas may be closed in whole or in part by international action for the enforcement of international covenants.
3. The removal, so far as possible, of all economic barriers and the establishment of an equality of trade conditions among all nations consenting to the peace and associating themselves for its maintenance.
4. Adequate guarantees given and taken that national armaments will be reduced to the lowest point consistent with domestic safety.
5. A free, open-minded and absolutely impartial adjustment of all colonial claims, based upon a strict observance of the principle that in determining all such questions of sovereignty the interests of the populations concerned must have equal weight with the equitable claims of the Government whose title is to be determined.
6. The evacuation of all Russian territory and such a settlement of all questions affecting Russia as will secure the best and freest co-operation of the other nations of the world in obtaining for her an unhampered and unembarrassed opportunity for the independent determination of her own political development and national policy and assure her of a sincere welcome into the society of free nations under institutions of her own choosing; and, more than a welcome assistance also of every kind that she may need and may herself desire. The treatment accorded Russia by her sister nations in the months to come will be the acid test of their good will, of their comprehension of their needs as distinguished from their own interests and of their intelligent and un-

selfish sympathy.

7. Belgium, the whole world will agree, must be evacuated and restored without any attempt to limit the sovereignty which she enjoys in common with all other free nations. No other single act will serve as this will serve to restore confidence among the nations in the laws which they themselves have set and determined for the Government of their relations with one another. Without this healing act, the whole structure and validity of international law is forever impaired.
8. All French territory should be freed and the invaded portions restored and the wrong done to France by Prussia in 1871 in the matter of Alsace-Lorraine, which has unsettled the peace of the world for nearly fifty years, should be righted, in order that peace may once more be made secure in the interest of all.
9. A readjustment of the frontiers of Italy should be effected along clearly recognized lines of nationality.
10. The peoples of Austria-Hungary whose place among nations we wish to see safeguarded and assured, should be accorded the freest opportunity of autonomous development.
11. Rumania, Serbia and Montenegro should be evacuated; occupied territories restored; Serbia accorded free and secure access to the sea, and the relations of the several States to be entered into.
12. The Turkish portion of the present Ottoman Empire should be assured a secure sovereignty, but the other nationalities which are now under Turkish rule should be assured an undoubted security of life and an absolute unmolested opportunity of autonomous development, and the Dardanelles should be permanently opened as a free passage to the ships and commerce of all nations under international guarantees.
13. Erection of an independent Polish State, including the territories inhabited by indisputably Polish populations, with free access to the sea.

and with political and economic independence and territorial integrity internationally guaranteed.

14. The formation of a general association of nations under specific covenants for the purpose of affording mutual guarantee of political independence and territorial integrity to great and small states alike.

In his speech of February 12, the President said:

"After all, the test of whether it is possible for either Government to go any further into this comparison of views is simple and obvious. The principles to be applied are these:

- "1. That each part of the final settlement must be based upon the essential justice of that particular cause and upon such adjustments as are most likely to bring a peace that will be permanent.
 - "2. That peoples and provinces are not to be bartered about from sovereignty to sovereignty, as if they were mere chattels and pawns in a game, even the great game, now forever discredited, of the balance of power; but that
 - "3. Every territorial settlement involved in this war must be made in the interest and for the benefit of the population concerned, and not as a part of any mere adjustment or compromise of claims among rival States; and
 - "4. That all well-defined national aspirations shall be accorded the utmost satisfaction that can be accorded them, without introducing new or perpetuating old elements of discord and antagonism that would be likely, in time, to break the peace of Europe and consequently of the world.
- "A general peace erected on such foundations can be discussed. Until such a peace can be secured we have no choice but to go on. So far as we can judge those principles that we regard as fundamental are already everywhere accepted as imperative except among the spokesmen of the military and annexationist party in Germany. If they have anywhere else been rejected, the objectors have not been sufficiently numerous to make their voices audible. The tragical circumstance is that this one party in Germany is apparently willing and able to send millions of men to their death to prevent what all the world now sees to be just."

ENTERTAINMENTS IN CAMP

Realizing that all work and no play makes Jack a dull boy and knowing that the army is no place for dull boys, Brig. Gen. Estes has recommended that every unit in the Cactus Division at Camp Travis adopt a standard plan of entertainment. A keen spirit of rivalry is expected to develop by the program suggested. Every Wednesday afternoon will be given over to various kinds of competitions and amusements. Regimental field days, competition between companies and batteries on the appearance of barracks and grounds and regimental entertainments are suggestions made by the commanding general. Regimental clubs, ladies night on Wednesday at officers' messes with entertainments are suggested for the officers. Officers and enlisted men are urged, under normal conditions, to leave camp Saturday afternoons and Sundays and forget for the moment their work.

C. E. Hutchison was here Saturday night and Sunday from Electra.

There was never a time when the sacrifices and the help of women were more appreciated than at the present time. Women should learn war-nursing and nursing at home. There is no better way than to study the new edition of "Common Sense Medical Adviser"—with chapters on First Aid, Bandaging, Anatomy, Hygiene, care of the Sick, Diseases of Women, Mother and Babe, the Marriage Relation—to be had at some drug-stores or send 50c. to Publisher, 654 Washington Street, Buffalo, N. WONDERFUL STUFF! LIFT OUT YOUR CORNS

Apply a few drops then lift corns or calluses off with fingers—no pain

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezezone is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezezone doesn't cut out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezezone have him order it for you.

FOR SAKE OF THE SICK

The News has been asked by some of those who have sick folks in town to say to those who are inclined to outbursts of patriotism when the Germans throw up their hands, to make as little noise as is consistent with their patriotism, in order that the sick may be spared at home. It is nerve-racking to one who is in bed with a high fever to listen to these shots and yells and not be able to join the crowds.

Their Medicine Chest For 20 Years

IT is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as **Nature's Remedy**, which I truly believe goes further

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of **Nature's Remedy** as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in **Nature's Remedy** from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used **Nature's Remedy** for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a consoling thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a **Nature's Remedy** (NR) tablet and will be better, healthier, happier people for it. I hope you will be one of them.

SPANISH INFLUENZA RAPIDLY SPREADING

Persons Weak and Run-down Easy Victims—Fortify Yourself Against It by Taking Tanlac.

According to late reports issued by State and Federal authorities the Spanish Influenza epidemic is rapidly spreading to all parts of the country, and it now seems that practically every state in the Union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to the public health but unless checked, it is apt to seriously affect before it runs its work in all its various departments. Already the Shipping Board has announced that ten per cent of its workers had been affected.

The disease has made its greatest progress in the East where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming; and both civil and military authorities have warned the public to take every precaution to prevent its further spread. In cities schools, churches and theatres have been closed and public gatherings of all kinds forbidden.

Medical authorities agree that people who are weak and run-down are the earliest victims of the influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run-down condition, or if you catch cold easily this warning should be heeded promptly. You are in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are weak and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words to use the old adage, "An ounce of prevention is worth a pound of cure." And if you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this, nothing on earth will strengthen you and build you like Tanlac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all Tanlac begins its action by correcting a good healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and strength in a natural way.

Tanlac is also the ideal strengthening tonic for persons who are suffering from the after effects of influenza, grippe or bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment, it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac. It is also important that the every-day rules of hygiene be observed; that is

CARDUI

The Woman's Tonic

Mrs. N. E. Varner, of Hixson, Tenn., writes: "I was passing through the . . . My back and sides were terrible, and my suffering indescribable. I can't tell just how and where I hurt, about all over, I think. I began Cardui, and my pains grew less and less, until I was cured. I am remarkably strong for a woman 64 years of age. I do all my housework." Try Cardui, today. E-76

UNDERGOES OPERATION

Mr. and Mrs. Edgar Kimsey returned the first of the week from Wichita Falls, where Mrs. Kimsey underwent a surgical operation for osteoma. For some time the growth of a bone-like formation on her breast had been watched with suspicion, and when it began to pain her somewhat it was thought best to seek the advice of a specialist. Apparently she is doing well and will no doubt soon be herself again.

DIED OF PNEUMONIA
Dewey L. Honeycutt of the 14th Inf., Co. G, a former Crowell boy, but whose father, W. R. Honeycutt, now lives at Truscott, was given in Tuesday's casualty list as having died with pneumonia. In talking with Mr. Honeycutt Wednesday he told us that he received the message telling of his son's death Saturday, October 5th.

THE CROSS CHILD IS BILIOUS, FEVERISH

Look at tongue! If coated, clean little stomach, liver, bowels

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counter-fetts sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup. 51
