A LETTER FROM THE MAGNOLIA PETROLIUM COMPANY--

Fort Worth, Texas, January 27, 1919.

Texas Motor Car Association, Fort Worth, Texas, Gentlemen--

You will find attached our purchase order Nos. N. W. 1134, 1135, 1136 for three 1 1/2 ton trucks with special body equipment and draw bar attachments, painting and lettering to be the same as specifications used on our other trucks.

Several months ago we purchased three of these trucks placing them at our distributing stations in competition with several makes of the same tonnage class, considerably more in price.

By carefully watching the performance of same, we have found by actual test that they are more economical to operate from every standpoint, and carry their full capacity load over roads that several of the other trucks failed.

The fact that we have re-ordered these trucks should substantiate our belief in the Texan.—Yours truly, R. R. Danah, Manager.

DEVELOPMENT
The Mississippi valley is the most fertile in the world, and the system of natural waterways which it contains is unique. If it had been otherwise we would probably have developed the valley's natural advantages more completely. We would have felt the need of supplementing nature's generosity by constructing navigable canals and providing artificial irrigation. It is only when men feel handicapped that they make the most of what they have.

By using their rivers and connecting them with waterways 400,000,000 Chinese have managed to do without railroads. By canal systems the Europeans have made the very most of the Rhine, Danube, Rhone and Loire. We were more blessed by nature than they, and for that very reason we did not feel so great an impulse to enhance by our own efforts the affluence of opportunity and resource which we found waiting for us.

This is not a plea to the citizens to light lanterns and prod about with microscopes looking for a chance to change or enlarge something. But it is a fact that the very opulence of stupendous natural resource often acts as a soporific, rather than as a tonic. And at this time, when work for dis-banded armies is vital not only to our prosperity, but to the stability of civic institutions, we have less excuse than ever for permitting anywhere a rock to remain a rock, if it can be made into a garden.

PARIS "ALL RIGHT"

"Doughboy" Fairly in Love With the French Capital.

Politeness of the Men and Pleasant Manners of the Women Impressed American Soldier--Saw Little Gloom in City.

I know you are crazy to hear what I thought about Paris, it ain't the first time I ever seen it. Well, Joe, all I can say is that Paris reminds me of Philadelphia with a bun on! The streets is all called "rues" and the main one is the Rue de la Paix. It's a whole lot like Broadway would be without the electric lights, theaters, hotels and enablers. Every other place is a restaurant, and the ones in between is cafes.

The people here are so stuck on their home town that they won't even go indoors to eat, but sit right out on the pavement at little tables for all their meals, so's they can keep right on lookin' at dear Paris all the time, not to say the dames which parades up and down.

The girls is pretty near all knock-outs, and none of them is too stuck up to give a guy a pleasant smile and pass the time of day. I must say that anybody which gets lonesome here ain't got no one but hisself to blame, Joe! The men is all in uneyform and great little guys. I think us doughboys is mixin' with the French better than anybody else. They go out of their way to make things nice for us and don't luff at us when we try to speak French and call eggs "woofs" instead of whatever it is.

Joe, a Frenchman is the politest guy on earth. If you go into a place of business here and ask a guy how to get to a certain street and number, he closes his desk, calls a taxi, stops on the way to buy you a shot of vin ordinaire and delivers you personally, right outside the door, the while beggin' your pardon for not gettin' you there sooner! Can you imagine anything like that in New York? You go up to a guy on Broadway and ask him how to get somewhere, and what does he do? He says: "I never heard tell of it; I'm a stranger here myself." Am I right, Joe?

I heard a lot of talk about Paris bein' up against it on account of the war, the people all downhearted, and

BACK BAD TODAY?

Backache is usually kidney-ache and makes you dull, nervous and tired. Use Doan's Kidney Pills for weak kidneys--the remedy recommended by your friends and neighbors.

Mrs. G. F. L. Nash, Crowell, says: "My back was in pretty bad shape. All through the small of my back and up into my shoulders was a steady ache all the time. Nights it would hurt me so I could hardly sleep, and when I got up I was so lame and stiff I could hardly straighten my back. Sometimes I would become dizzy and I had spells of headache. My kidneys were weak. I bought Doan's Kidney Pills at Ferguson's Drug Store and three boxes cured me of the attack. They put me in fine shape."

food bein' as scarce as heat prostrations in Iceland. Joe, that is all the bunk! They is plenty of food here for everybody, and I put away some of the finest steaks I ever seen. If the people is downhearted, then I'm vice president of Egypt! Joe, they are the gamest nation on earth, and we are proud to be in the lineup over here with 'em. They've had a tough time for four years, and they know that ain't gloomed 'em a little bit. They're as full of pep as a steam drill, and pretty near everything that was runnin' before the war here is still doin' business at the old stand. Why, Joe, one of these French guys could kid the kaiser to death, on the level! --H. C. Wiltner in Collier's Weekly.

HOW TEACHERS ARE PAID

Two advertisements appeared lately in a New York newspaper—one of them calling for a teacher of mathematics, history and psychology, at a salary of \$65 a month. The other one called for a colored barber at \$30 a week.

There is no particular reason why the barber should not get \$30 a week. Milk wagon drivers are getting \$35, and they don't need to know more about driving than any farm boy knows. A quick, light-fingered barber needs as much dexterity as a milk wagon driver, and deserves as good a salary.

But we are sorry for the teacher of mathematics and history. \$65 each calendar month means \$15 a week. The barber who gets \$30 for pruning whiskers may be glad he knows nothing about mathematics or history. In Washington a teacher has to work 25 weeks before qualifying for a wage of \$1300 a year. In Chicago a teacher cannot get \$1,000 a year before putting in 17 years in the profession. In 23 states the teachers average less than \$400 a year.

And in Illinois a high school teacher who tried to persuade one of his pupils to stay and finish his education was met with an irrefutable argument. "I have a job in a mine," said the boy. "I am making more money without an education than you are making with one."

We are told sometimes that teachers deserve no more than they get. If this is true, it does not improve the situation; it only makes it worse. If the type of education that young America is getting is worth more than is paid for it, so much the better for young America. We may sympathize with the teachers, but we may realize that young America is receiving a high standard of educational opportunity. If, however, the education received is worthless, why not offer a prize that will buy an education worth having?

At the present moment, the development of the rising generation marks America's greatest crisis. Unrestricted immigration has made this country an ethnological freak show. By offering salaries which will attract teachers whose personality and attainments will be a really uplifting force we may guarantee to the America of the immediate future the perpetuation of the ideals and standards which are at present in danger of passing to the discard.

Demand for real estate is what makes it valuable. Demand is created by reason of its productivity and location. Location is effected by community enterprise. Then every dollar you put into good schools is just that much put into the increased value of real estate.

RETURNS FROM MISSOURI

S. T. Crews, Sr., returned Saturday from a trip of a few days to Missouri where he formerly resided. Mr. Crews says crop conditions up there are fine, but corn seems to be rather backward. They have had a great deal of rain all through that country, and in Kansas where the country is very flat, the wet weather seems to have hurt the crops some. Mr. Crews says he saw no wheat crops that look as good as those in Foard County.

U. S. FORCES ON BORDER

As a precautionary measure to meet any emergency that may arise by reason of disturbed conditions in Mexico, the United States now has on the Mexican border 18,000 troops, consisting of 6,000 cavalry, 8,000 infantry and 4,000 artillery, besides three aviation units. All these are stationed along the border where they will take care of any outbreaks that may occur.

CUSTER VETERAN NOW WITH Y. M. C. A.

Survivor of "Battle of Big Horn" Touring Southern Department Telling Experiences.

Col. Theo. W. Goldin, a veteran of Custer's famous Seventh Cavalry, has for many months been devoting all of his time to war work with the Army Young Men's Christian association. He is now on a tour visiting all military camps in the six states of the Southern Military department entertaining the soldiers with stories of the great West of the long ago.

Colonel Goldin has had an unusual and picturesque career on the frontier as soldier, government scout and quartermaster clerk, having participated in several Indian campaigns, among them the "Battle of the Big Horn," where Custer and some five hundred veterans went down before ten times their number of Indians. He has been in the Army Y. M. C. A. work since November, 1917, serving first at Fort Bliss and later at Presidio. He has been booked by the educational bureau of the Southern Department Army Y. M. C. A. for a speaking tour in Southern department camps.

Colonel Goldin owes his life to the fact that during the battle of the Big Horn he was serving as regimental clerk, and in that capacity was doing duty as mounted orderly. He was sent to Major Reno, some three miles away, with dispatches; but even then, during most of the ride, he was a target for a number of long-range shots taken at him by the Indians. He was with Major Reno during the remainder of the fight, which lasted two days.

COL. THEO. W. GOLDIN.

Among other campaigns he took part in was what was known as the "Big Horn and Yellowstone Expedition," which was probably the largest single expedition ever sent out against hostile Indians. As government scout and courier, he served under Gen. Nelson A. Miles at the Tongue River cantonment and later with his old regiment at Fort Meade. In 1876 he was in Arizona with different regiments at war with the Apaches. Later he carried dispatches for a time between old Fort Bliss, near El Paso, to the various posts as far down the border as Eagle Pass.

As Y. M. C. A. man, he worked with the Kansas City association, and among colleges and universities in Oklahoma, Missouri and Kansas. For several months he served at Oklahoma City in the boy scout work. Colonel Goldin was awarded the Congressional Medal of Honor for his services in 1876 during the Custer campaign.

Gen. Henry T. Allen Says Red Triangle Men Went "Over the Top."

MaJ. Gen. Henry T. Allen, commander of the Ninetieth division, composed almost wholly of Texas and Oklahoma troops, has written J. W. Nixon, division secretary of the Army Y. M. C. A., as follows:

"Dear Mr. Nixon: "By reason of the excellent work shown by the Y. M. C. A. assigned to the Ninetieth division throughout the period September 12-19, I ask that in behalf of this division you express to all members concerned my sincerest thanks for the highly important services rendered by them. Through these trying days, from your headquarters at Griseourt, where a canteen, warehouse and dormitory were established, your valuable activities were at all times in evidence up to the assaulting battalions and back from those advanced elements with the wounded through the various medical stations to the field hospitals.

"Nine secretaries were with the infantry battalion, and two secretaries (F. A. Daves and B. F. Ford) actually went over the top with the assaulting battalions and carried on their work in the midst of the severest losses. I specially desire to commend the zeal and fortitude of these two gentlemen, and to thank the Y. M. C. A. for having sent such excellent representatives to us.

"Very truly yours, (Signed) HENRY T. ALLEN, Major General."

GREAT SUM SPENT FOR BOYS ON RHINE

Y. M. C. A. Turns Loose More Than \$200,000 for Athletic Equipment.

More than \$200,000 worth of athletic equipment has been distributed throughout the Third army in the Rhineland by the Y. M. C. A. athletic department in six weeks for use either in games for recreation or training leading up to championship competitions.

The "Y" also has assigned 40 athletic directors to duty with this army. Footballs, baseball material, track and field equipment and a great quantity of suits have been supplied.

In addition to this the Y. M. C. A. has distributed 1,200 sets of boxing gloves in the Third army and is co-operating with the army officials in the A. E. F. championship contests. Boxing bouts have become almost as popular as theatrical entertainments in the Rhine forces. About 24,000 men attend the six bouts staged weekly by the "Y" at Coblenz and 9,000 the six bouts staged weekly at Neuwied.

Harvest Groceries

You will need lots of groceries through harvest times, and it will be well for you to consider two other things besides quantity when you go to buy them—quality and price. We allow no competitive store to outstrip us on quality, and it is a well-recognized fact that we sell for less. You are therefore assured a saving on the orders you give us. The aggregate saving, of course depends on the size of the order.

Pennies saved soon amount to dollars saved, and in this day of price soaring it is wise to effect a saving wherever it is possible.

Come in and let us sell you your supplies. The saving will be worth while.

WATER MAKES HIM FAT.

While hundreds of men in the army in Camp Travis are anxious to get out of service and back into civilian life, Cecil Rooms of Raton, N. M., is happy because he got in.

He rushed into a Y. M. C. A. building, threw his hat toward the ceiling and danced around. The attention of the "Y" secretaries was directed toward him by his antics and they inquired the cause of his glee.

It was then that the story was told. During the war Cecil could not get into the army on account of his age. He became eighteen years old not long ago and enlisted.

After his preliminary examination he was accepted although he was just heavy enough to pass the mark set by the regulations. When he was examined at Camp Travis it was found that he was two pounds under weight. Then he was in the midst of gloom.

"What did you do?" someone asked.

"I drank a whole lot of water just before I was weighed again and gained three pounds, one pound more than was necessary," answered the cheerful Cecil.

Progress of Banking

There has been great advancement in every line of endeavor, and the banking business has been no exception. In fact it would not have been possible to have the advancement in other lines of industry without the banks keeping pace in the march of progress.

With the development of modern business, it has become possible for a bank to be of more service to its patrons than in former years. This does not mean that it is possible for a bank to make money grow, or to help a lazy man get along without work, but it can help the man who deserves it, and can make our resources more liquid.

But all the money that is ever borrowed has to be paid back some time. Prospects are good for the entire year and it should be the purpose of every one to do all that is possible to realize on these prospects.

We solicit your banking business. It shall have our best attention, and we will do all that is possible for us to do in the advancement of your interests.

Weekly Health Talks What Doctor Pierce Has Done For Humanity!

BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloe, root of jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constive. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

Upheld Traditions of His Corps.

Fighting on his own hook or helping out when it is somebody else's fight, a United States marine is pretty likely to be on the job. Private Garrell Mabe, a marine attached to the Boston navy yard was ill at the United States naval hospital at Chelsea, Mass. There was not much fight left in him. Near by, in the same hospital, was another patient, desperately ill, who could not make his fight alone. He had to have a transfusion of blood. Private Mabe volunteered, and his blood saved the day. He risked his life as cheerfully for a fellow servant of the flag as he would have done for the flag itself, and the commanding officer of the hospital in his report warmly praised him for volunteering this dangerous and trying service. The marine proved that there is as much opportunity for heroism on a sick bed as on a battlefield, and has been personally commended by Major General Barnett for his self-sacrifice and heroic act. Private Mabe enlisted with the marines at Winston-Salem, N. C. in November, 1916.

Doctor in Wooden Shoes.

A great Dutch daily publishes information which throws a peculiar light on the condition of public life in occupied Belgium. "De Malines," says the correspondent of this Netherlands paper, "the rich are more and more setting the example of wearing sabots, since the shortage of shoes has grown so acute. Mr. Gillis, physician and alderman, can regularly be seen going around in sabots. He is dressed as was formerly his habit, not forgetting his high hat, but instead of wearing the usual shoes he wears black sabots. He is setting a good example in overcoming false pride also. A number of ladies are already following his example."

DID HER A WORLD OF GOOD, SHE SAYS

Mrs. Moore Was So Weak She Could Hardly Get Up—Health Restored By Tanlac

"I feel so well now that I can hardly realize the awful condition I was in before I took Tanlac," said Mrs. E. L. Moore, of 943 S. Wellington street, Memphis, Tenn. "I had been in a rundown condition for two years," she continued, "and was so weak I could hardly keep going. I had to force myself to eat, but nothing agreed with me and I got so lifeless and no account that I could hardly get up when I was sitting or lying down, or even do my housework. I suffered with splitting headaches that would almost drive me distracted. My appetite picked up on my first bottle of Tanlac and I am now eating three hearty meals a day, those awful headaches are gone and I am feeling just fine. I have gained ten pounds and am strong enough to do all my housework with ease. Tanlac did me a world of good—more than all the other medicines I have taken put together."

Tanlac is sold by leading druggists everywhere.

THE WISH THAT FATH—FRED A THOUGHT

There are those who express a fear that the trend of international events is leading to friction between America and British Empire. Those who express this fear do not really feel it. They are really afraid that there will not be friction. When they mention it in tones of assumed apprehension, they are really suggesting it, trying to foment it. It is simply the latest form of pro-Germanism.

It is not fear. It is a dying hope. There is too much that is Anglo-Saxon among the fundamentals in this country for such an aspiration to materialize.

The very khaki that our soldiers wear follows the color adopted for the uniform of the British army. The whole system of jurisprudence that guides our legal institutions is founded on Blackstone.

The Salvation Army was founded in London, and has its headquarters there. The Y. M. C. A. came to birth in the same city, and is directed therefrom throughout the world. And as for the S. P. C. A.—what other civilization ever rose to the height of

It suffered temporary setbacks—in England under the German king George III. But the principle was vital, and could not die. It lives today in equal vigor on both hemispheres.

SOLDIER BOY KICKS AGAINST Y.M.C.A.

Serves It on Toast With a Garnish of Scotch Blessings, but the Captain "Stumps" Him.

"If every kick and knock against the Y. M. C. A. service overseas could have been handled as an American captain I know treated one case in his company there would be more in the air of what the 'Y' did and less of what they failed to do," said John M. Currie of Melrose, Mass., who is just home from operating Red Triangle butts in the Calais and Ypres sectors.

The censor one evening came across a letter from a boy to his folks back home, in which the "Y" was panned and served on toast with a garnish of all the Scotch blessings and reverse English the boy had on hand. Now the censor is a pretty tired man, and I should not have blamed him if he had let that letter go. But there was an extra strong touch of exaggeration in it that roused the censor's sense of justice.

So he sent the letter to the captain of the boy's company and the captain called the boy in. This is the conversation that followed:

"Did you write this letter?"

"Yes, sir."

"Read it over—is there anything there you'd like to change before it is sent?"

"No, sir."

Then there was a short pause, in which the captain studied the boy and the boy set his jaw stubbornly. Finally:

"Where did you get this letter?"

"The 'Y,' sir."

"Who gave you the paper?"

"The 'Y,' sir."

"It's warm and cozy, and something like home there, isn't it?"

"Yes, sir."

"Where do you get your cigarettes, candy, etc.?"

"The 'Y,' sir."

"You're always sure of finding what you want there?"

"Yes, sir."

"You go to the movies and a real show occasionally?"

"Yes, sir."

"Who runs them?"

"The 'Y,' sir."

"Doesn't cost you a cent, does it?"

"No, sir."

There was another pause, and the boy's face was redder and his expression softer. Then:

"If you don't mind, sir, I'd like to see that letter again."

Without a word he took it from the officer's hand, tore it once across, and dropping it into the basket made his salute, turned on his heel and walked out.

A FEAST—OR A FAST?

Looking back on the way in which Memorial Day was spent throughout the country, we feel that its significance and purpose are being forgotten. We have made it a day for junk-eting—a Fourth of July epidemic in miller form.

Gloomy solemnities have little value. Crepe hanging is a function in which no one wants to specialize. But the day has now acquired a new meaning—particularly to gold star mothers.

It originated in the self dedication of between two and three million men, of whom nearly one-half paid the supreme price, that certain ideals might live. For their sake, and for the

sake of those youngsters whose graves are less than a year old, we should insure the permanence of all that is implied in the observance of this anniversary.

MEXICO Before the great war our most troublesome foreign complications seemed certain to arise out of the conflict of parties in Mexico; and now that the fighting in Europe is over, there are excellent reasons for believing that we shall have once more to turn anxious eyes to the southward. Carranza occupies the presidential chair in Mexico today chiefly because our government thought him the most promising of all the aspirants to that

office. He was more of a democrat than Huerta, more of a gentleman than Villa or Zapata, more of a man than the other vague persons who from time to time were mentioned for the chief magistracy of the republic. Without our support, he could hardly have ousted Huerta or defeated Villa. He has had four years in which to demonstrate his capacity. What is the result?

Internally, Mexico is, or has been until recently, comparatively quiet. Zapata and Blanquet are gone; Felix Diaz and Villa have made little trouble for the government. Yet Carranza has not taken advantage of his opportunity to extend his real authority and to improve his administration. Lower California, the Tampico district, Oaxaca and perhaps other parts of the country are really under the control of local governments, which do not trouble Carranza so long as he refrains from troubling them. The

financial affairs of the republic are in disorder. There is an annual deficit of an uncertain number of millions. Mexico has defaulted or failed to pay most of the interest on its obligations held in other countries. It is today virtually bankrupt. Villa is again in active revolt. It is doubtful whether he can get together resources enough to overrun the whole country; but he can throw northern Mexico into continual disorder and narrow still further the field of Carranza's authority. In foreign affairs Carranza has been, if not actively pro-German, at least obstinately anti-Ally. He has gone out of his way to make irritating and hampering laws directed against British or American or French property interests in Mexico; he has shielded German agents in his capital and behaved so offensively toward the Peace Conference that neither France nor Italy would receive his representatives. It is perhaps the inflexible pride of a Spanish hidalgos, the determination to assert his independence even in the face of a union of all the great powers of the world, that moves him; but the fruit of his obstinacy and tactlessness is that his government has no real friend anywhere.

His term of office expires in 1921, and he says he is not a candidate for re-election. Unfortunately, there is no public man in sight in Mexico who seems to have the force and the ability to put the country once more upon its feet, to restore order and responsibility and prosperity. The present regime gives no promise of permanence; what is to follow we cannot tell. But we may be sure that Mexico is to furnish fresh and perplexing problems for American statesmanship to deal with.—Youth's Companion.

FORTY-THREE MEN, TEN WOMEN, DIE IN "Y" SERVICE OVERSEAS

Sacrifice Proportionately One-Quarter as Great as That of Army—Sixty-Three Decorated.

The Y. M. C. A. carried the Red Triangle into the camps and trenches abroad at a cost of fifty-three lives, a sacrifice proportionately one-quarter as great as that of the American army, according to a statement issued today by the National War Work Council of the Y. M. C. A. Of those fatalities thirty-five were due to disease, and the remainder to shell-fire, bombs, gas-fever, drowning and wounds. Ten of these were women, one of whom was killed by shell fire and the other in a German air raid.

There were also fifty-five non-fatal casualties. These were due principally to machine gun fire, gas, shell fire, and motor transport accidents. Numerous cases of slight wounds and gassings which were attended at dressing stations, but were not reported to headquarters, are not included.

These casualties occurred in a force which at no time exceeded 9000 workers, of whom it is reckoned that more than one-half were never sent to the front, being employed in the hundreds of huts maintained throughout the training areas and the "leave areas." Sixty-three "Y" workers were decorated, while in all more than 152 received official recognition or distinguished services. Thirteen of these were decorated with the Croix de Guerre, while forty-eight received other decorations. Of these three received the Distinguished Service Cross, three the Order of St. Stanislaus; five the Italian Cavaliere del Corona; thirty-eight the Italian War Cross, and one the French decoration of the Corps d'Armee. Seven were cited for the Croix de Guerre, and seven for other decorations, six commended for meritorious conduct, and twenty-nine received honorable mention in dispatches. Several units were cited in their entirety, those serving with the Third division being cited twice. More than a score more reported decorations have not yet been confirmed.

Not one of these men under thirty was fit for military duty, but the citations show that they carried on with the same courage and spirit that identified Americans throughout the war. These records show that they went over the top with the assaulting waves, that they exposed themselves under machine gun and shell fire to minister to the wounded, that they worked indefatigably as stretcher bearers, and that they drove ambulances into the midst of battle to rescue the wounded.

Others were sacrificed in the less heroic but no less necessary work behind the lines. Among these stands out Miss Winona Martin of Rockville Center, L. I., a Y. M. C. A. secretary, who was the first American woman killed in the war. She was killed by a bomb during a German air raid, and her death made a deep impression on American minds.

Miss Martin had been in Paris only a month, but had already done valuable work in stimulating an interest among the soldiers in the Y. M. C. A. in Paris.

Miss Marion G. Crandell of Alameda, Cal., killed by shell fire near Chalons March 26, 1918, was another of the women sacrificed in helping the soldiers.

Officials were quick to see and appreciate meritorious work, on the part of the secretaries and prompt to recognize it officially. Major General Dickman of the Third division gave a particularly strong citation of the units attached to that division, consisting of thirty-four men and six women.

A later commendation of the same units was ordered by Major General Heuse.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Nineteenth division in a letter to the Divisional Y. M. C. A. secretary said: "Two secretaries, F. A. Dawes and B. F. Fogd, actually went over the top with the assaulting battalions and carried on their work in the midst of the severest losses."

The Y. M. C. A. honor roll of those who gave up their lives while helping the soldiers win the war, and of those who distinguished themselves in this work, contains the names of the following men from the Southern Military Department: Dr. John H. Clifford, Tucson, Ariz., awarded Croix de Guerre; Thomas Neil Jefferson, Eden, Tex., awarded Italian Croix de Guerre; William Alsa Miller, Austin, Tex., awarded Italian Croix de Guerre.

Yes, brother, "every kick is a boost." The more we howl at high prices the higher they climb.

THE PRIVILEGED OBJECTOR

Returning American soldiers are inclined to be critical about the position with which so-called conscientious objectors are being treated. And their attitude seems to be, in a measure, justified.

They have heard and read abundantly about the appreciation with which America has viewed their heroism in the face of hardships too heavy for blasphemy and dangers too appalling for description. And now they are beginning to look for the proofs of it.

And when they learn that 135 objectors have been released from Camp Funston with an honorable discharge, they begin to suspect that some one has been kidding them.

The Germans style the conditions of the peace treaty "ruinous." We wonder how they would describe the condition in which they left Belgium and northern France.

FIFTY THOUSAND SIGN FOR LAND

Soldiers in Camps Organizing Farmers' Forums Are Being Aided by Army Y. M. C. A.

Farmers' forums composed of soldiers desiring to establish homes and farms on land provided by the government are being organized in the military camps of the Southern department, comprising Texas, Oklahoma, Louisiana, Arkansas, New Mexico and Arizona by the educational department of the Army and Navy Y. M. C. A. Groups of soldiers comprising the forums meet regularly in the Y. M. C. A. buildings and discuss the questions involved in their efforts to get lands in various states and the ways and means of developing the lands

after they get them. Literature from the department of the interior and the agricultural departments of the states being studied is obtained and a digest of it given to the groups by different members.

S. N. Craig, representing the department of the interior, has been largely instrumental in formulating the plan of operation followed by the soldier farmers and farmers-to-be. A series of addresses was given by him in the camps of the Southern department in the "Y" buildings, during which he outlined the course to be pursued by the government in assisting soldiers to locate on unused government lands in various states.

More than 50,000 soldiers have signed the applications for the government land which will be available after congress has passed the bill containing the recommendations of Secretary of the Interior Lane, according to Mr. Craig.

"It is gratifying that so many of

the soldiers have indicated their desire to take advantage of the opportunities to be provided under the provisions of the new law," said Mr. Craig. "The ultimate success of the plan depends upon the follow-up work that will be done by the farmers' forums in the various camps being organized with the aid of the Y. M. C. A. leaders."

Camp Travis, San Antonio, Tex., organized the first farmers' forum.

Still Working at Ninety-Five.

Maine has come to the front with a young fellow of ninety-five, who has gone to work as a sawyer for a lumber company. Last spring he retired and went to live with a son, but a rest so improved his health that he has gone back to work at active labor," says Capper's Weekly. This husky veteran has one son, known as the baby of the family, that he is very partial to. The "baby" recently celebrated his seventy-second birthday.

DEMobilIZATION OF "Y" MEN NOW AT A STANDSTILL

Only 400 Remain in Southern Department—Activity on Mexican Border.

San Antonio, Tex.—Demobilization of Army Young Men's Christian association secretaries in the Southern Military department has about reached a standstill for the present, according to J. H. Eckford, departmental supervisor of personnel. About four hundred wearers of the Red Triangle remain in the six states composing this department, more than six hundred having been released since the signing of the armistice. It is believed that, with the numerous camps in the department

demobilized down to practically the smallest possible working force, coupled with the demands of the regular army men and the returning soldiers from overseas, there will be a need for at least four hundred secretaries for at least several weeks.

Seventy secretaries are serving the towns and outposts along the Mexican border, this phase of Y. M. C. A. activity having been materially enlarged since the armistice. Apparently 2,000 miles of border territory is now being covered, the greater part of it by itinerants in light delivery cars, in which the secretaries carry a full supply of books, stationery, portable motion picture machines, athletic equipment. In a number of the isolated villages where troops are stationed the Y. M. C. A. but is the only entertainment feature and the soldiers share their privileges with the civilian populations. Every border outpost is now being reached by the "Y" men, and the work will continue as long as there are soldiers to serve.

Sam Bell, T. P. Reeder, W. B. McCormick, S. C. Auld and Albert Schooley went to Vernon last night to attend the Knights Templar lodge, Messrs. Auld and Schooley being candidates for the degrees.

Fraternal Orders Strong For Saving

Fraternal orders should take an active interest in the 1919 Savings Campaign in the opinion of Pat M. Neff of Waco, Grand Chancellor of the Texas Grand Lodge, Knights of Pythias. Another enthusiast over the Savings Campaign is J. W. Chancellor of Bowie, Grand Master of the Texas Grand Lodge, Independent Order of Odd Fellows.

"In the Savings Campaign," Mr. Neff said recently, "the Government has placed the stamp of its approval on the fraternal idea. War Savings Societies are not lodges, strictly speaking, but they are next thing to it.

Many of the most successful Savings Societies are in the lodges and the Knights of Pythias are doing their share."

"Texas Odd Fellows had a number of strong War Savings Societies last year," Mr. Chancellor said, "and most of them made excellent records. Wherever possible, it would be a fine idea for the members of the lodge to form themselves into a Savings Society again this year, if they have not already done so."

Numerous lodges of various orders over the Eleventh Federal District not only have Savings Societies but are securing sinking funds by investing in War Savings Stamps as a lodge. The members of these lodges are also buying W. S. S. individually.

Has your lodge been organized?

"Moonlighter" Introduced.

A new type of garden laborer, known as the "moonlighter," has appeared in London (Eng.) suburban country districts, owing to the shortage of general laborers. The moonlighter is a workman who is employed all day, but who is willing to earn a little extra money by working during the moonlight nights in the gardens and allotments. His is the only sort of labor that the suburbanite can now employ in the digging and sowing of the vegetable plot which every suburban householder regards as an essential part of his household.

GIRLS! LEMON JUICE IS SKIN WHITENER

How to make a creamy beauty lotion for a few cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.
