### HONORING MISS CAMPBELL

On Wednesday morning of last week the beautiful home of Mrs. M. S. Henry in northeast Crowell was thrown open to her many friends, honoring Miss Beulah Campbell of Oakville, Texas. Miss Campbell and her mother. Mrs. J. S. Campbell, have been guests in the homes of J. A. Johnson and J. H. Olds for the past week.

Mrs. Johnson assisted Mrs. Henry in receiving her guests. In the re ception suite tables were set for "42" and "Authors." The pleasant morning hours, electric fans and delicious punch sped the time away too quickly and made the occasion a pleasing one indeed. At eleven o'clock a dainty two-course luncheon was served. Beautiful Shasta Daisies were favors for each guest, and sparkling cutglass souvenirs were presented the honoree and each out of town guest. The visiting ladies were: Mesdames J. S. Campbell, Oakville; W. O. Brown, Dallas; Johnnie Long, Cleburne; A. S. Hart, Rockwood; Howell, Houston; and Misses Beulah Campbell, Oakville,

and Miss Josie Kincaid, Eastland. Thanks to our hostess for the delightful morning spent in her home and good wishes to her honor guest.

A GOOD RAIN SUNDAY Last Sunday afternoon a splendid rain fell at Crowell, which has helped the row crops considerably. There was not much wind with the rain at this place, but at Vernon considerable wind and lightning is reported. According to the Vernon Record 150 telephones were put out of commission, many of the fruit trees were stripped of their fruit and a lot of poultry killed. Some damage was caused to roofs in Vernon and one house was struck by lightning, one the cars in which they were riding threatened to turn over. One is reported to have turned over after its occupants had alighted.

When the matter of ordering army groceries from Fort Sam Houston by parcel post was first looked into it appeared that the expense of shipping them to Crowell would be too great

the point of distribution. So that army groceries will cost no one any more than another. Of course this adjustment of the rates would nec-essarily have to be made in order to put the groceries within the reach of The Fighting Yanks----Concert closest to the points of distribution would be benefitted.

> CONDITIONS IN PHILIPPINES A letter written by Fred Reavis, who is in the Philippines to his niece, Miss Inez Reavis, dated June 29, tell of very ugly condition of af-

fairs in those islands. It will be remembered that Mr. Reavis came back to the States last winter and spent several months vis-iting relatives, and while in the States Florence E. Besley Lecture visited his brother, D. L. Reavis, at "The Red Cross—A Record and a Crowell. When he went back to the islands in the spring he found conditions very much changed from what

they were when he left.
The prospect of the Filipino obtaining independence had given rise to all sorts of crime. Bolshevism in its most stalwart form had asserted itself and innocent people were frequently the victims of assassins. Even the street cars in the city of Manila had to be operated under guards. Natives had quit work, and added to all this, the most fatal diseases had

broken out and were raging, taking a heavy toll of the population. Mr. Reavis has been in the Philippines about 20 years and has always liked the country. The country he says is still all right, but for the bol-shevistic tendencies of its people.

> WALKS NEED REPAIRING The News has been asked to call attention to the bad condition of the lank walk leading north to the school building. These are in very poor conition, a good many of the planks are loose at the ends and have curled up, making them not only inconvenient to travel over but really dangerous. Then, besides, the weeds have grown up in generous quantity along the walks, which, in wet weather, will be worse than the streets to drabble the children's feet. That, of course, will not only make them uncomfortable, but will be unhealthful.

> It is our understanding that these walks were placed in order that the children could get to the school without wading the mud, but their present condition is worse than no walks at all.

HISTORY BEING REVEALED In an advertisement of Scribner's Magazine there is much about some articles to be printed about the late Col. Theodore Roosevelt. It is ex-

pected that these will reveal some interesting historical facts about the popular and picturesque ex-President.

After participants of great worldstirring events die, the whole truth starts to reach the public. An example is that for the first time the Roosevelt letters about to be printed will reveal that Japan asked our President to initiate peace negotiations with Russia.

One characteristic utterance is quoted in the advertisement mentioned. Roosevelt wrote, "The more I see of Czar, the Kaiser, and the Mikado, the better I am content with democracy."

## POSTAL RATES ON ARMY GROCERIES SAME TO ALL BELL MILL MAKING THE BEST FLOUR

The Bell Grain Company is one of the enterprises that Crowell should be proud of. This is said because it is one that has been established for real service. It is owned and operated by home people who have as much interest in the development of Foard County and Crowell as any people in the county. They know and the public knows that upon the service they render must depend their success. Consequently they have spared no effective they have spared no effective the country of the count forts to make that service second to facts: none. And in a very large measure they have always rendered such ser-Generally speaking the Bell Grain Company has put out as good products as any mill in the country. There was one time, however, when

they got hold of some wheat that was not good and consequently the flour of that wheat was not the best. That was when they used some of the last of the 1918 crop. They got hold of two cars of wheat that did not make the very best of flour. The choicest of the crop had been sold and firstclass wheat at that time was not available. The same thing may hap-

pen with any mill. The mill is now putting out flour as good as any you will find in Texas, or any other state, as for that matter. They are in position to buy the very best wheat to be had, and nothing but the best is being used. Con-

MAKES TRIP PAY Henry Gribble decided several days ago that he would take a trip to Colorado. He went to the bank and drew out about \$80 with which to pay his expenses and left in his "jitney" for the mountains. About a week later he returned, after rambling over the mountains and spending the nights at the best hotels, and got back with \$10 more than he started with. He says he did not rob anybody nor beat his hotel bills but went and came a gentleman of the highest order. When he sees evidence of doubt play over the face of his inquirer about how he did it honestly he said he made his "Elizabeth" pay the expenses carrying passengers from one town to another on the route.

But even if plowing is late, the farmers are going at it with a determination to rush it along as rapidly as possible. Some are buying tractors, others are using their horses. They say it is about as expensive to plow with tractors as with horses, but the hot weather never knocks out a tractor, and the matter of time counts big. So, a few extra dollars put into a machine of that kind is not counted n expense when it will mean a saving

SHOE DEALERS DENY THEY ARE GUILTY OF PROFITEERING Philidelphia, Pa., Aug. 9.—Charges that shoe retailers are profiteers as made in a report of the Federal Trade Commission were denied today in a statement by A. H. Geuting, president of the National Shoe Retailers' Association. The bulk of next fall's shoes will be sold at from \$8 to \$12 a pair instead of higher prices, he said.

The statement further said that it is unfair to hold up one line of mer-chandise as a "horrible example" when in reality the profit is not more than 6 per cent.

BOSTS LEFT FOR CALIFORNIA Mr. and Mrs. J. V. Bost left Saturday for San Pedro, Cal., where they will make their home in the future. They had been here a few months from California looking after their wheat crop. Fourteen States, containing a majority of the people of this country, already indorsed the Federal amendment. Eleven of the Legislatures were controlled by a Republican majority, three Governors and five Republicans have called special sessions for ratification. ANDREW CARNEGIE

The two most conspicuous men of wealth in the United States were Andrew Carnegie and John D. Rockefeller. The former has passed beyond. It is interesting to recall that in 1901, Mr. Carnegie became convinced that it would be disgraceful for a man to die with as much money as he then possessed. That year he began his giving, and by the time of his death about \$300,000,000 of his money had been presented to the world.

John D. Rockefeller is the richest

man ailve, according to reports. He has shown a generous turn in mind. The Rockefeller foundation has done much to make sickness scarcer. has helped the public, in his latter days. The fact that Carnegie and Rockefeller began at the bottom and remember as that both of them, when n the top, looking to the future life, remembered their fellow men, and began the distribution of immense sums. It is good for a country when her rich men put their wealth to public and perpetual uses when they die.

IF YOU HAD A MILLION

Human beings delight to dwell upon the possibility of great wealth. Most of us, when we are young enough, think of the advent of fortune as if it were liable to become an accomplished fact shortly. Few of ever stop to measure our character by considering just what we would do if we had a million dollars.

If you had a million dollars would you enjoy it to yourself, spending what you liked while you were living and leaving the balance to your heirs? If you would you are of the common, ordinary type of human being. Most men can make money; often the size of the pile of wealth surrender of character. The money god is a jealous savior. Put your trust in and you will soon come to worship him more truly, more fully, more fully than the pagans of old worshipped

their graven images. Of course, you haven't a million but if you had that much money would you leave your church a little, or give some of it while you breathed? Think the matter over, reader, and see if you can't decide that money is responsibility, both to God and man, and that you would give freely of your wealth, if-there the rub! The man who won't give liberally today with what he has, will never give tomorrow, no matter luck. The man who is ready to give, when he gets the million, rarely gets that much because he gives now.

CARTER MAKES 7,000 BUSHELS Although his crop was struck by the hail in several places and consid-erable damage done to it, J. H. Carter comes out pretty well after all. On about 300 acres he made 7,000

Some of this Mr. Carter says was the best wheat he ever saw, a portion of that which was struck by the hail he thinks would have made between 35 and 40 bushels to the acre. He had insurance on his wheat and therefore is to the good several thousand dollars where he would have sustained a complete loss otherwise. He thinks it is the wise thing to do to take out insurance.

PRICES AT HOME E. A. Peden, Federal Food Administrator, is sending out circular let-ters to all former County Food Administrators requesting their voluntary aid in assisting to determine the cause of high prices for groceries, boots, shoes, clothing, etc. A price investigating committee will be appointed in each county to make investigations and report to the proper authorities.

WILL PREACH AT PRESBY-TERIAN CHURCH SUN, AT 11 Rev. M. P. Patterson, pastor of the

ager of the West Texas Chamber of Commerce, will have charge of the large and carefully selected West Texas agricultural exhibits to be shown at the great national exposi-tions in the Middle West this fall. These exhibits represent not only sta-ple crops such as the grains and cotton, but fruits, melens and other perishables, and a comprehensive oil and mineral exhibit. The exhibit will be renewed from week to week and kept up to the highest standards for each great fair.

In addition to the exhibits Mr. Crowell takes with him a large assortment of photographs, some of which are fourteen feet long, showing scenes in West Texas. These will be part of the exhibit. He also takes several reels of motion pictures showing harvest scenes, cities and towns, and some of the oil fields. It is expected that these will prove very popular on account of the national interest in the West Texas oil development.

The exhibits will be shown first at the Indiana State Fair in Indianapolis Sept 1-6. This fair has an attendance of 600,000, and is held in an interurban center, accessible to thousands of in New York, 135 per cent in Philadel-

IS PROFITEERING HONEST

The idea that a business man is justified in charging whatever he can force his customers to pay has gained a number of adherents during the war. Profiteering in its worse form went to the ton is not as important to is a by-product of our recent struggle 49. -the beginning prosperity found buyers ready to get the best; when it wasn't available they didn't mind paying well for what they got.

The cycle of raised wages and high-

er prices is obvious. The problem is lower prices. The merchant who is now demanding exorbitant profit will have himself to blame if the theory of governmental distribution of necessities takes his business from him. We are certain that never before has there existed such a sentiment for the government to step in and regulate

the merchants. Coming, however, to a vital question, is it religiously right that this profiteering continue? Can a mer-chant who professes Christianity maintain the doctrine of the "most possible profit" with a clean conscience? Of course, Americans were generous during the war, but we think that too many individuals have taken this very generosity as an excuse for higher profits. The record profit per dollar is a source of pride to merchants now.

FORCING PRICES DOWN The campaign being waged by the federal government to lower the cost of living is energetic, and will probably secure results. The people of each community will have to help the government if material aid is to be

expected. The newspapers tell of the con viction of a grocer in the east with fine of \$500 for selling sugar at fifteen cents a pound. If the people in that town fail to look sharp the convicted grocer will get it back along

The publication of wholesale prices will do much to focus attention upon the profits of the retailers. The government intends to use a license system for wholesalers, limiting the profit per unit. If citizens generally remain alert, report hoarding and note the prices they are charged much can be accomplished.

The repeal of the law which now takes its place among the very few which have been passed over a Presidential veto, becomes effective after the clocks are turned back to normal in October.

It will go down in legislative history as one of the very few measures which have twice been vetoed by a President and became a law after all by the vote of more than two-thirds in both Houses of Congress.

# A BIG CAR OF FURNITURE

Just unloaded now makes our stock very complete. In fact, we have the best selection from which to pick we have ever had at this time of the year.

It is not a question of price so much as a question of delivering the goods. We bought 4 months ago and were forced to accept all advances until day of shipment or lose completely out, and not get goods at any price. Therefore, we can deliver the goods and as cheaply as any one who has bought within the past four months.

We have bedroom suits from \$106.85 in oak, \$137.-50 in walnut, \$260.00 ivory, \$262.50 mahogany, \$216.90 walnut. Odd dressers \$20.00 to \$85.00; chiffoniers \$18 to \$40; metal and wood beds \$9.00 to \$27.50. Kitchen cabinets from \$27.50, \$36.50 to \$60.00, a large selection. Buffets \$35.00 to \$80.00. Dining room suites in walnut 8 pieces, \$216.90. Dining tables, square tops, legs, \$13.-50 to \$25.00. Round tops, pedestals, \$20.00 to \$60.00. Library tables, \$13.50 to \$40.00. # A FAMILY

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Head-asks Malaria Chille Re-

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's the original and genuine. E 79

A Kentucky congressional district has recently reversed its politics of a generation to elect a candidate, a soldier, who advocated six months pay for every man who served in the army, navy or mawho served in the army, navy or ma-rine corps. This would take an enorrine corps. This would take an enormous sum, but it would merely start a long-drawned-out raid upon the treasury, eventually exceeding the trouble in a short time. They put my kidneys in fine conditreasury, eventually exceeding the pension list of the civil war.

This sporadic raiding for gift money is a species of soldierly begging not to be confounded with the wise plan of Secretary Lane to provide home-steads for the returned soldiers who desire assistance to enter the fields of agriculture. Under this scheme the soldiers would be paid to reclaim waste lands, then allowed to buy it on long terms, extended credit for operation and aided to become producers. The country has need of more farmers but it is not sane to expect the taxpayers to give six months' pay to every officer and en-listed man of the entire fighting

ON FATHER'S FARM

Kept Going Down Hul-Takes Tanlac And Begins to Pick

"I never saw anyone pick up so fast as my son John has since he started taking Tanlac," said A. Mc-Grew, a prominent and successful farmer of Dawson, Okla., ercently.
"He suffered awfully from indigestion and a general rundown condition of his system for the past six months," continued Mr. McGrew, "and his kidneys seemed to give him a good deal of trouble and he was going down hill all the time. He had a healthy appetite but right after eating his food would feel like a lump of lead in his stomach and it gave him so much trouble that he got so he would hardly taste a thing on the table. He looked pale and sickly all the time and got thin as a rail and was so weak he just had to quit working on the farm. He just moped around all the time and couldn't get up energy to do a thing. He worried a lot about his kidneys and complained of having severe pains in his side

and back and sometimes his back would hurt so bad he could hardly get up out of a chair. "I read so much in the papers about the good Tanlac was doing so many people that I got some for him and started him on it. He is still on his second bottle, but it has done him a world of good and he is looking much better than he has for a long time. His kidneys don't trouble him anymore and he hasn't had a pain in his side or back in sometime. He has gained in weight and is stronger too, and is able to get around and do any-thing he wants. The indigestion don't trouble him any more and he can eat a good square meal without any pain afterward. Tanlac is the only medicine I have bought that has been of any benefit to my son and he is so pleased with what it has done for him that he is telling all his friends about it."

Tanlac is sold by leading druggists everywhere.

Carl Humann, a civil engineer, who had traveled in Asia Minor, induced the Berlin museum to fit out an expedition to excavate for the hidden treasures of ancient Pergamum. In 1886, at the close of the third campaign, Humann and a friend named Conze unearthed the great altar and the site of the library. Subsequent expeditions uncovered many treasures. The great altar was shipped, piece by piece, to Berlin and re-erected in

the Kaiser Friedrich museum. A few parts of it are in Constantinople. However, the central and main portion of Satan's throne is in Berlin. With the throne of Satan in Berlin it is not difficult to understand the military ambitions and actions of the German government.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco-truly "ageing in the wood." Out Velvet comes-cool, calm and generous-the tobacco Nature made good, kept good and made better.

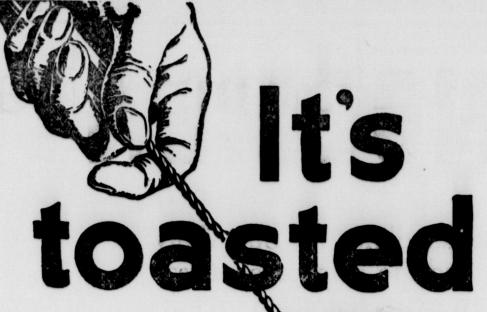

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

STATES TO ACT AGAINST PROFITEERS

Washington, Aug. 17 .- The Government's fight to reduce the cost of living is expected to result in action in many States this week to force hoarded food on the market, while Congress is debating legislation dealing with

Reports to Attorney General Palmer have indicated that instructions to District Attorneys to proceed vigor-ously in the enforcement of the food control law were being obeyed literally. Instances of the seizure of food-stuffs in St. Louis, Chicago, Kansas City, San Diego and the South, officials here believe will be multiplied in the next few days. Mr. Palmer, directing the campaign from Washington, will go to New York tomorrow to confer with the fair price board for that city.

Senate and House agriculture committees probably will report this week—the latter committee probably tomorrow-on amendments to the food control law giving a criminal penal-ty, which hitherto has been lacking and expanding the law to cover clothing. Cold storage legislation also may be acted on by the House Interstate

Commerce Committee.
Consideration of requests by several departments for appropriations to carry on work in reduction of living costs will be inaugerated tomorrow by the House Appropriations Com-mittee. The Senate District of Columbia subcommittee will continue its hearing with a view to framing "model" legislation for regulation of prices. Closely akin to the consideration of the living cost question will be hearings to be started tomorrow by the Senate Interstate Commerce Commit-tee on the Kenyon-Kendrick bills to license meat packers. W. S. Colver, member of the Federal Trade Commission which has investigated ex-tensively the packing industry, will be the first witness. Leaders in the industry are expected to be heard next

A statue of "Xochipilli," Aztec god liam Nivan, an American archeologist who has been in Mexico recently. The statue, the representation of the god known to have been discovered in virtually a perfect state of preservation in modern times, was dug up at Atzcapotzalco, a suburb of the capital, and which, prior to the coming of Cortez, was the seat of a powerful Indian nation, but which, at the time of the conquest, was the great slave mart of the inhabitants of Tenoxtitlan, home of the Aztecs and the site of the modern city of Mexico. In addition to its slave trade. Atzcapotzalco was noted for its expert jewelers and wonderfully cultivated gardens. "Xochipilli" is supposed to have presided over one of these ancient gardens.

The number of proposed underses tunnels is increasing every day. Already to that under the Straits of Dover has been added the suggestion for one under the Irish channel. And now comes Colonel Rubio y Bellve, who has obtained permission from the Spanish government to carry out the preliminary soundings with a view to connecting Spain with Morocco by tunneling the Straits of Gibraltar. The proposal is that the new tunnel should sink west of Tarifa and come to the surface again east of Tangier. This would make it, roughly, some twenty miles long, which is within three miles of the greatest breadth of the straits, a breadth which varies from eight and a half to twenty-three miles.

Swallow Is Enemy of Mosquito. If you want to free the neighbor hood of mosquitoes encourage swallows to make themselves at home, says the American Forestry association. These birds feed almost entirely upon obnoxious insects and they will do much toward protecting orchards and other trees from insect pests. No better investment can be made, therefore, than some houses set out for martins or other swallows. Of the blue swallows the purple martin is the largest, the male being entirely blue above with a gray breast. Swallows are highly migratory, most of them spending the winter in South America.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful emon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

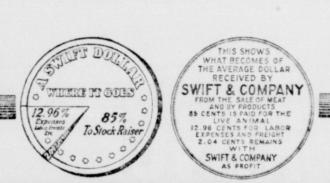

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life - long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?
