\$1.50 A YEAR

CELEBRATION FOR SOLDIERS NOV. 11

Arrangements are now being planned by some of the leading citizens of Crowell for a celebration of the signing of the armistice, the occasion to be one honoring the soldier boys who went from Foard County and engaged in the great war. The date of the celebration is set for November 11.

A suitable program will be rendered, and will consist of appropriate music, some speeches and delivery of medals of honor to each boy who went from Foard County. All arrangements are being made to that end and nothing is likely to happen to seriously interfere with these plans, because there is a sentiment so strong in favor of it. It is to be an occasion for the people of the county to express their appreciation of the services of the boys by giving their presence and joining in the celebration.

The medals have not yet been selected, but something of what they will be is known. They will be made of bronze and will have suitable inscriptions on both sides. On one side they will have something like these words: "Presented by the people of Foard County in recognition of services rendered during the World War." They will bear the Seal of Texas.

J. G. Witherspoon is now sending out blanks to each returned soldier to be filled out and returned to him, which itself will constitute a complete record of the service of that individual soldier. With these he is also enclosing a letter relative to the celebration for November 11, and it is hoped that every soldier boy will be present at that time.

These are all the facts the News can give relative to the occasion at this time. We are expecting at the proper time to have facts upon which definite announcements can be made as to what the celebration will be. It might be said here that those who are working on the matter are planning to make the day a great one for all who will attend. They are enthusiastic over the matter and are working hard to make it an enjoyable one and worth your while to attend.

FLOYD BOST INJURED

Floyd Bost, one of the Covina fire fighters, returned Wednesday with an injured knee and wrist. He went out early Tuesday in charge of a squad of fifteen Covina and Pomona men to Mesquite canyon, which connects the San Gabriel and Dalton canyons. He was detailed with his men on a certain beat to keep back the sparks. From Tuesday morning until Wednesday night he had no hour's sleep. The food at the camp, he said, was good whenever they could get it. He says that the fire in that district seemed to be pretty well under control late Wednesday, but that the flames were threatening Camp Baldy.

After he was injured he had to walk or slide most of the ten miles before he was picked up by a truck and brought back to the valley. Coming down the San Gabriel valley they found themselves penned in by fire and had to drive through flames and smoke to get out. Several deer, a fox and two mountain lions were caught near where he was working. These animals were burned and scarred. Birds were seen with their feet burned off and quantities of snakes on the ground were burned to death. While the work is hard and disagreeable, Bost says he is going back as soon as the swelling leaves his knee.—Covina (Cal.) Argus.

VOLUNTEER PHYSICIANS WANTED TO ENLIST

In order that every possible contingency may be provided for in the event of a recurrence of influenza in epidemic form, I am now calling upon the medical profession for 100 volunteer physicians who are willing, in case the necessity arises, to serve as acting assistant surgeons of the United States Public Health Service, cooperating with the State Board of Health, at a salary of \$200 per month, \$100 per diem for subsistence, together with railroad fare.

It is the desire of the United States Public Health Service and the State Board of Health to enlist 100 physicians who are willing to go to any designated point in the State and do relief work during a possible epidemic of influenza and without any charges for their services other than that above indicated.

Physicians desiring to enlist in this volunteer corps may do so by filing their applications in writing with me. All applications received will be duly recorded and given careful consideration in the order in which they are received.

C. W. GODDARD, M. D., State Health Officer.

MARRIED TUESDAY NIGHT

Mr. Albert Magee and Miss Lottie Bain were quietly married Tuesday evening at the home of the bride's parents, Mr. and Mrs. G. C. Bain, in the north part of the city. Rev. J. H. Hamblen performed the ceremony.

Miss Bain is the second daughter of Mr. and Mrs. G. C. Bain and since graduating from high school has been teaching music and is teaching piano in the high school this term.

Mr. Magee is the youngest son of Mrs. R. M. Magee and is a member of the Magee Toggery gents furnishing firm and is a popular and worthy young man.

May the union of these young people be a happy one is the wish of their many friends.

FARMER SAYS "ENCOURAGE ADVERTISING"

Several years ago we remember to have added to our subscription list a farmer who advised us that we need not print the ads in his copy of the News, that he did not read them now, and that we might as well save ourselves the trouble of printing the ads. We replied that as far as he was concerned they were free and that he would have to take them with the reading matter or else let the whole thing alone. He happened to see a Sears & Roebuck catalogue under his arm at the time and of course he did not want to read the ads in the home paper, because he belonged to Rose and Seabuck.

That class of ad readers are scarcer now than ever before in history and ad readers are coming to realize the fact that advertising is worth as much to the buyer as to the seller, and so the reading public read ads as much or more than they do other kinds of matter. As a matter of fact, ads are intended to be read, and they are read by the free people who believe in healthy competition, and who do not belong to stock outfits at Rose and Seabuck. One farmer remarked to us this week that he wished we would encourage people to use the columns of the Foard County News more when they have anything to sell or when they want to buy anything. He said, "I have found it to be a great help to me. Only this week I saw here a man had a certain second hand farm implement for sale and I went right straight and bought it. It was just what I wanted, and had the man not advertised it I would never have known he had it and he never would have known I wanted it."

That is the principle in advertising in a few words. It is the most efficient means of bringing buyer and seller together. It is then up to them to effect the deal. That is as far as the paper can go.

The people are watching the columns of this paper each week to see what is offered for sale or who wants to buy something. That applies to merchant, farmer, or anyone else, it matters not who he may be or in what vocation he is engaged. It is becoming a 20th century habit with the progressive element of all communities and the man who does not advertise is being constantly passed by the live business men of the world's real commercial arm.

APPRECIATED SERVICE

The community correspondents have enabled us to give the people of the county pretty general for the past year, and this has been very much appreciated by people abroad. For the encouragement of our correspondents we might repeat what was told us this week. It is this: U. C. Rader has recently made a trip to the Thalia among relatives, some of whom are getting the News. He said it was the items of Foard City that interested those most, because they have relatives in that community. The Foard City correspondent has the opportunity that will be appreciated by those who are thus interested. The same is true with the Thalia correspondent. We know of many people who once lived at Thalia and who are now in other portions of the country who will read with keen interest all the Thalia items. There are those abroad who regard the Margaret News as worth more than the price of a year's subscription. Then there are others at distant points who scan the columns of the paper for interesting items from Plainview. All these correspondents furnish the News with a splendid budget of news each week, and they are therefore disseminators of information that interests many readers abroad as well as at home. This is a co-operative plan of giving a real live paper and an advertising medium of value.

So, if you are a correspondent of this paper, remember that what you send us is greatly appreciated, if not by everyone, by some and you are helping to make the world a happier by reason of what may seem to you an insignificant service.

ONE AMENDMENT TO BE VOTED ON IS VITAL: GALVESTON INTERESTS

Galveston, Texas, Sept. 25, 1919. To the People of Texas:

One of the amendments to be voted on in the coming November election is that authorizing the City of Galveston and County of Galveston to issue bonds not to exceed five million dollars for raising the grade and to provide other storm protective works, and to levy and collect the necessary taxes to meet the interest and sinking funds, provided that no such bonds shall be issued unless authorized by a majority of all the qualified tax-paying voters of the city, if issued by the city, or of the county outside the city if issued by the county.

Of the five million of bonds, the city seeks authority to issue four million and the county one million.

This is an amendment that embodies the principle of local self-government. It simply authorizes the taxpayers of the City or County of Galveston upon a majority vote to issue storm protection bonds and tax themselves to meet the interest and sinking funds necessary to care for same.

The adoption of this amendment will not cost the people of Texas outside of Galveston one dollar either directly or indirectly.

There is no sound reason for any one voting against this amendment. We, therefore, respectfully and earnestly ask the qualified voters of our State to vote for the adoption of said amendment, and thus make it possible for our city to complete its protective works.

GALVESTON COMMERCIAL ASSOCIATION.

FOARD HAS BIGGEST RAIN IN ITS HISTORY

After the big rain Saturday night, amounting to about 2 inches, it looked like we would have some fair weather. Sunday the sun came out several times and the clouds broke, but they thickened again Sunday night, when the rain really just commenced. Monday, Tuesday and Wednesday were rainy, and with the first signs of a probable clearing up the gauge at the First State Bank showed a fall of 7.20 inches, including the rain Saturday night. So about five inches fell Monday, Tuesday and Wednesday.

This is a record breaker. The writer has been here 15 years and never saw as much rain fall within the same time as this one has fallen. It is almost as much as we had during the whole of 1918.

That there has been some damage done is a practical certainty. Pease River is said to have been on a rampage, such as has never been seen before. The roads have undoubtedly been washed considerably and no telling how much damage has been done to the cotton. Besides, there is some wheat not yet threshed. It has been estimated that something like 800 acres still stands in the shock, an amount that will approximate 20,000 bushels. It is almost ruined, if not entirely.

A number of the farmers have quite an acreage already sown to wheat, but generally they are behind with their sowing, which has been unavoidable on account of the immense crop they have had to gather.

CAMPAIGN PROGRESSING

Dallas, Texas, Oct. 8.—Reports coming into state headquarters at Dallas, show that the Southern Baptist \$75,000,000 plus campaign is going forward on a steadily rising tide in Texas.

There is a resolute spirit on the part of the people to win says Dr. F. S. Groner, state director of the campaign, "and they are going to win a great and glorious victory during the week of Nov. 30-Dec. 7. The people are praying as well as working for the achievement of the gigantic task, and the spirit of sacrificial giving and the call for personal service have laid hold of them."

The unprecedented campaign has entered upon its fourth month with virtually all its working forces and units thoroughly organized, equipped and instructed in their various duties. Tons of helpful and instructive literature are going from headquarters to the churches and the individuals in every nook and corner of the state. Persistent effort is being made to enlist thousands of missionaries and the last Baptist. The newspapers of Texas are doing a most commendable service in giving wide publicity to the great enterprise and its humanitarian, uplifting, saving purposes.

October is enrollment month, during which thousands of missionaries and more the islands of ministers are to be recruited to meet the Baptist program of enlarged service in both home and foreign fields. Enrollment extends to the prayer service, teaching service and training services; also the doubling up of the membership of the Sunday schools and B. Y. P. U. In its broader sense, enrollment means putting the people to work for the advancement of the Master's Kingdom.

The Four-Minute speakers began talking in the Methodist church and in many parts of the state last Sunday, and they will continue their appeals until Nov. 30, omitting no opportunity. There are to be from 3,000 to 5,000 of them in Texas, many of them women. The booster teams with a personal and physical disability that entitles him to this help from the Government. He went to Dallas last week and appeared before the district board for Federal Vocational Education for examination, who sent in a recommendation to Washington for eight months aid in procuring business training, and instead of receiving eight months he was granted twelve. So he will take advantage of it. A ten per cent disability entitles a soldier to this aid. The help comes in the form of free tuition and free books and a cash payment of \$80 per month.

For a long time Alton hesitated about asking for this help, but finally through the insistence of friends consented.

The Government wants to show its appreciation in this way of the sacrifices the boys made in the war and they should gladly accept it.

ALTON ANDREWS WILL TAKE BUSINESS COURSE

At the expense of the Government Alton Andrews will leave next week for Dallas where he will enter Metropolitan Business College for a thorough business course.

Alton received a wound while at the front in France which brought on him a physical disability that entitles him to this help from the Government. He went to Dallas last week and appeared before the district board for Federal Vocational Education for examination, who sent in a recommendation to Washington for eight months aid in procuring business training, and instead of receiving eight months he was granted twelve. So he will take advantage of it. A ten per cent disability entitles a soldier to this aid. The help comes in the form of free tuition and free books and a cash payment of \$80 per month.

For a long time Alton hesitated about asking for this help, but finally through the insistence of friends consented.

CHILD DIES WITH DYPTHERIA

Anna Lou, the three-year-old daughter of Mr. and Mrs. P. S. Lovelady, died Tuesday of diphtheria. The child took sick Saturday and became very serious by Sunday, dying Tuesday morning. Interment took place in Crowell cemetery Tuesday afternoon.

ORR TAKES PRIZES AT VERNON FAIR

When J. L. Orr of Margaret went to the Wilbarger Fair last week with an exhibit of Poland China hogs he expected to win something, and according to the judges decisions he was not disappointed. Mr. Orr took ten prizes on his hogs, nearly all of them being first prizes. According to the information furnished us he won the following:

First prize on boar 12 months and under 18.....	\$ 5.00
Second on boar 18 months and under 24.....	3.40
First on sow 6 months and under 12.....	5.00
First on young herd.....	5.00
First on breeder's young herd.....	5.00
First on junior champion boar.....	7.50
First on grand champion boar.....	10.00
First on grand champion sow.....	10.00
Second on sow 2 yrs. and over.....	3.00

The grand champion boar that won first was only a few days over 6 months old. Neither was the grand champion sow but a few days over 6 months, and Mr. Orr says she is not for sale at any price.

We think this is a good record for Mr. Orr. He had expressed the hope that Foard County might be put on the map as a hog raising county, and one must say that he has already come a long way towards accomplishing that end in his first exhibit. He is very much elated over his success and will be one of the hardest competitors in adjoining county fairs in the years to come for premiums. His friends are glad that he has won this deserved distinction. It will mean much for Foard County as well as for Mr. Orr.

We might say in this connection that there are others in the county who will in the years to come be Mr. Orr's competitors, too, for they are now preparing for it. For instance J. E. Bell is coming along with a fine lot of Big Bone Poland Chinas. He is giving his attention now to a herd that will be among the best next year. Ferguson Bros. are turning their attention to the hog business that will cause people to sit up and take notice. R. Allee has made a small beginning, but one can never tell what may come of small beginnings. Time will only tell. He did not pay a fancy price for a thoroughbred pig last week just for the name of it. There are others scattered over the county who are giving this matter attention and they will make a showing some time not far distant that will show great possibilities along this line.

STARTLING ROAD FACTS

Texas State taxes are less than \$20,000,000 a year.

Texas pays \$30,000,000 a year more for new automobiles because of bad roads than would be paid if all roads were good roads.

Texas pays \$20,000,000 more for gasoline than the same mileage would require if all roads were good roads.

Texas pays between \$2,000,000 and \$25,000,000 more for repairs on cars due to bad roads than would be paid if all roads were good roads.

Texas pays \$40,000,000 more a year for tires because of bad roads than would be paid if all roads were good roads.

Texas pays \$5,000,000 more for wagons and buggies because of bad roads than would be paid if all roads were good roads.

Texas pays more than \$100,000,000 a year as a tax on bad roads.

Texas pays five times as much tax for bad roads as is collected by the State for all purposes.

Time isn't it, to pay taxes for good roads and stop the taxes for bad roads.

Good roads are cheaper than bad roads.

Vote for the Constitutional Road Amendment.

SANDERS HUNTER

On last Thursday evening at 9 o'clock at the home of Mr. and Mrs. John S. Ray, Mr. Allan R. Sanders and Miss Edna Hunter were united in marriage. Rev. J. H. Hamblen officiating. Only a few of the most intimate friends were present.

Mr. and Mrs. Sanders were practically reared in Crowell and are two of our most excellent young people, and have many friends who join in hearty congratulations and best wishes, as was evidenced by the large selection of beautiful and useful gifts they received.

The young couple will live in the Hunter home in the north part of town.

CHILD DRINKS CARBOLIC ACID

The fourteen-month-old child of Mr. and Mrs. Dave Adams of near Crowell, came near dying as a result of drinking some carbolic acid in Quantal. The parents were not visiting relatives and while they were at the fair Saturday afternoon the child got hold of a bottle of the acid and drank part of the contents. It was seriously burned and for some time it was thought that death would result, however, the child is now entirely out of danger.—Quantal Observer.

TEXAS REGISTERED AUTOS

The first eight months of 1919 show a registration of automobiles in Texas amounting to 297,123. Dallas County leads with 19,111, while Harris County is second with 15,308. Of the adjoining counties to Foard, Wilbarger leads with 1241, while Hardeman comes second with 755. Knox is third with 418 and Foard fourth with one short of 400. Cottle County shows 237. Willacy and Winkler tie with the smallest number, each having registered 15 cars.

WITH OUR READERS

J. D. Unpaugh of Blue Bell, Texas, sends in subscription for the News. He does not state in what particular he is interested in Foard County, but it is enough to say that he is interested to that extent in the possibilities of the county that he wants to keep in touch with it. For the benefit of those who are looking this way we want to say that an invitation is extended to everyone who wants to engage in any legitimate business here. We have scarcely broken the dirt yet for great development. That does not mean that we are not doing anything in this way, but it is true in comparison with what can be done and what will be done in the immediate years. It is no mistake to invest in Foard County. It is no mistake to come to Foard County if you want to make your home in one of the best countries on earth.

Ray Pyle wants to continue to be a reader of the News. Mr. Pyle long ago decided he had rather make his home in this county than in the McLean country and has again chosen to remain indefinitely with us. He is one of the busy employees at M. S. Henry & Co.'s hardware and implement establishment.

The News begins its weekly visits this week to Miss Vivian Huffacker, who is now at the College of Industrial Arts, Denton, Texas.

J. P. Thomas used to let on like he did not care much for the News, but of late he will not allow his time to expire. We are therefore warranted in the belief that he has found it to be one of his best friends and a welcome visitor each week. He makes sure that if he does not get it another year at least it will not be his fault.

R. B. Hoskins writes from Lamoni, Iowa, to J. G. Ford asking him to have the News sent to his address. Mr. Hoskins has real estate interests near town and wants to keep up with developments in this county.

C. W. Critz of route one does not want the News to stop, so he shoves up his time and says he will come again when he gets his cotton out.

A. Brian has the News sent to his daughter, Miss Jode, who is at the Normal at Canyon, Texas.

Mrs. C. A. McLaughlin wants the News for another year, and this is an acknowledgement of subscription for the paper.

BETTER PAY FOR TEACHERS

The question of obtaining experienced teachers is serious. Most any teacher can make more money by quitting. The salaries are too low to attract newcomers, and unless something is done the state may yet wonder why it is so very foolish in this matter.

We think that the state should license teachers for work in the public schools, but not enough to create an over supply. A teacher who taught a required number of years should be assured of work at all times, and of a pension, and a competency in case of physical disability and old age. Naturally, a probation period would have to be endured before a teacher could acquire such a right. If there were more applicants for teachers' certificates than the state could use it would be so much the better for the state schools, as the best could be selected.

There would do much to remove teaching from the ranks of harrowing employment, and stop to a large extent its unflinching success as a marriage bureau. We do not blame any teacher of this day for quitting as soon as possible, either for matrimony or business. A teacher who taught have no more interest in their schools than to allow such poor salaries to be paid, they deserve the punishment, which it will inevitably entail upon their children.

These are cold hard facts which will remain as they are until teachers are paid a decent salary. The only possible way to change the situation is to pay the teachers more money for their services. If the fault is in the state management of the public school system, to suppose it is changed by the state, if the fault is at the door of the public because of a lack of sentiment strong enough to put our schools on a substantial basis, then it is a reflection on the people. They can and usually do have what they want. They themselves are the law. They are the government after all.

But this one thing might as well be put down: The cause of education will suffer so long as the financial side of it is crippled.

ARRIVES HOME TUESDAY

Julius Wright arrived home Tuesday from Dallas where he received his discharge from the Navy. About the time Julius was to receive his discharge from the Navy he got one foot injured in a truck accident and was placed in the hospital. After getting unable to leave the hospital instead of being discharged he was placed on the sub chaser 306 on the Pacific coast and failed to get discharged as soon as he expected.

Julius is probably the last one of our boys to return from the navy or army and we are mighty glad to have him back.

SENATE PASSES AMENDED DRY ENFORCEMENT

Washington, Oct. 8.—The bill for enforcement of wartime and constitutional prohibition was agreed to in conference adopted today by the Senate without discussion. It now goes to the House for final action.

Absence of debate on the measure occasioned much surprise.

Senator Sterling, Republican, South Dakota, called up the conference agreement and after a pause to learn if any discussion was desired, Vice President Marshall put the motion on adoption and it was carried viva voce without an audible vote.

STOCKMAN WILL EXHIBIT NEXT YEAR

J. E. Bell attended the Wilbarger County Fair last week and says it was splendid all the way through. He was glad to see J. L. Orr of Margaret come out with several blue ribbons on his Poland China hogs and indicated that he himself would be a competitor for honors another year. He prefers, however, that Foard County have its own county fair, and let our stuff be exhibited at home. But whether we have one or not, he expects to put on exhibition some of the finest Poland Chinas in West Texas in some near-by county fair.

Mr. Bell has just started in the breeding of Poland Chinas, having paid a fancy price some months ago for some of the best of that type of hogs to be procured, and by another year he will be in position to make a good showing. He thinks he will also be in position to make a good exhibit of fine Hereford cattle. He has a start of these, all registered.

Like Mr. Bell, the News is in favor of Foard County having its own fair, and it can do it if enough men will get in behind the proposition and make it go. That is what it takes. Somebody must take the lead in the matter, and then all must co-operate to make it a success. We could have had a fair this fall which would have been worth thousands of dollars to the county, not only to the farming and stock raising interests, but to all interests. We could have made a showing of farm products and stock that would have reflected high credit on our county and that would have advertised it as nothing else could do. It is great to develop oil, but it is greater to develop the agricultural and stock raising resources of the county.

We have lost the opportunity this year but we can begin now to make preparations for another year, and instead of advertising our stuff away from home alone, we can also advertise it at home. It is good to let outsiders know what we have—that is what we want to do—but we want our people at home to know what we have. So let us make it possible for our thoroughbred Poland Chinas, Durcos, Herefords, Holsteins, Leghorns, Orpingtons, etc., with the finest wheat, maize and kaffir grown in the State, to be put before the people of Foard County so that we can appreciate the more what we have.

ADELPHIAN CLUB REPORT

The Adelpian Club was entertained at the home of Mrs. A. D. Campbell Wednesday afternoon, October 1st.

There were only three active members absent and almost without exception each member responded with an interesting current event.

Mrs. M. S. Henry in a very thorough and efficient manner brought out the important points in the lesson in Julius Caesar. A wide awake interest is being taken in the subject and many lively discussions were the result of different impressions as to the author's meaning in some of the passages.

After the club had adjourned a refreshing ice course was served by the hostess.

PRESS REPORTER.

MARGARET GIRL MARRIES

At VERNON WEDDING

Jerry B. Withers and Miss Melita Pauline Ayers were married at the home of Dr. M. O. Parrish on West Paradise street at 10:45 o'clock Sunday morning by Rev. W. T. Rouse, pastor of the First Baptist Church. The ceremony was performed before immediate friends and relatives of the parties.

Immediately following the marriage Dr. Parrish honored Mr. and Mrs. Withers with a dinner and they left on the noon train for Fort Worth and Dallas, being accompanied by Mr. and Mrs. J. T. Abbott and Owen Withers as far as Wichita Falls. They will make their home in Electra, where Mr. Withers is engaged at the carpenter's trade.

The groom has lived in Vernon practically all of his life and is well and favorably known in Wilbarger county. He recently received his discharge after several months' service overseas.

Mrs. Withers is a daughter of Mr. and Mrs. J. H. Ayers of Margaret and was one of the most popular young ladies in that community. Her parents were in Kentucky visiting relatives and were unable to return for the wedding on account of sickness.

The record joins numerous friends of Mr. and Mrs. Withers in congratulations and best wishes for many years of happiness.—Vernon Record.

READY TO START NEW CHURCH

All things are ready for the letting of the contract for the new Methodist church as soon as the blue print is in hand. This has been expected for several days but has not arrived yet. While all the funds necessary to complete and furnish the building have not been pledged, a sufficient amount has been pledged and paid to make the financial part of the proposition a certainty. So that the work will be commenced just as soon as the contract is let.

THE LYCEUM COURSE

The Filion Concert Party will be the first number of the Lyceum Course for this season. There are four other numbers as follows: The Liberty Belles, three young lady entertainers; Francis Hendry, entertainer; The Columbia Sextette, lady orchestra; and Lincoln McDonald, L.L. D. lecturer. These all promise the very best entertainment and we predict a very successful year for the Lyceum.

You Can't Afford
 Not to specify Herring-Showers' **QUALITY LUMBER** in the building of that new home.

We've been in the lumber business a long time and many of the best homes in the country have been built of our material, and the constant repeat orders we receive are our best testimonials.

ZEKE BELL

FOARD CITY ITEMS
 (By Special Correspondent)

Sunday School every Sunday.

Mr. McLain has moved to the John Welsh farm.

U. C. Rader and C. C. Fox were in Crowell Monday.

Gracie Meason of Crowell was in our community Monday.

Hartley Easley of Vivian was in our community Monday.

Riley Harner came in this week to visit the Lefevre family.

Barney Lefevre was in Crowell Saturday night and Sunday.

Sad Callaway of Cottonwood was visiting at the school Monday.

Miller Rader was visiting in his home Saturday night and Sunday.

Otis McLain left last week for Oklahoma where he will visit relatives.

The school at Cottonwood has started,

ed, the teacher having about six pupils enrolled.

It came a young flood Monday and Tuesday nights and looks as though it had set in for the year.

A fine rain fell Saturday night and Sunday. This will help the farmers a great deal in sowing wheat.

Mrs. Claude Barry and little son have been sick for the past few days, but are reported better at this writing.

J. M. Glover has been plowing all over the country. He is afraid his bundle feed will start to growing again.

We have a case of dyptheria in our community. The child is getting along nicely and we hope the disease doesn't spread.

Foard City has all kinds of supplies, such as tobacco and chewing gum, but if it keeps raining we are afraid the supply will get low.

G. G. Mills came in Sunday from New Mexico. Mr. Mills was called

there a few weeks ago on account of the serious illness of his daughter.

It seems as though we are going to have a regular Methodist preacher next year. We feel sure our people will raise enough money to get one as crops of all kinds have been extra good.

The I. O. O. F. lodge of our city wants some business man or farmer to erect a new business house with a hall. Our community needs a store. Any one who wants a good business see the I. O. O. F. people.

Jim Welsh is visiting his brother, Frank Welsh. Jim recently came from France. He was in the service over five years and was in Germany 24 weeks. He says he likes army life fine, and has enlisted for three more years.

U. C. Rader came in Sunday. He visited Morris and Okmulgee, Okla., and attended the fair at Muskogee. He saw all kinds of fat stock and other interesting things. He came home by the way of Tulsa. U. C. said he saw all kinds of good crops but didn't see anything that could beat Foard County. He says there is no place like home.

PLAINVIEW POINTERS
 (By Special Correspondent)

Mrs. J. M. Adkins who has been very ill is slowly improving.

Pearlie Davis of Thalia spent the week-end with Jewel Davis.

Several from our community attended the fair at Vernon last week.

Mr. Miller and wife from Electra are picking cotton for Willie Morris.

Mrs. Frank Lambert has been on the sick list this week with a severe cold.

Kebe Short and family have been picking cotton for Mr. Leslie at Thalia the past week.

Burnice Long who is attending school at Crowell spent the week-end with homefolks.

Miss Vivian Coffman left last week for Canyon, Texas, where she will attend school this fall and winter.

Mrs. Owens, the plainview School teacher, and husband spent from Friday until Sunday with relatives at Crowell.

Wallace Scales and family, Charlie Wood and wife, Elbert Scales, and Myrtle Huntley were callers in the Cap Adkins home Sunday.

Owing to the recent rains the cotton is slow about opening up, while the farmers haven't gotten any hands yet to gather the crops with, but we hope some will soon come in.

Tucker Matthews and family from Grayson County are visiting his brother, Frank, and family. Tucker was once a resident of our community and he has many friends who will be glad to see him.

MARGARET MUSINGS
 (By Special Correspondent)

Everything is favorable for another wheat crop provided we get a chance to prepare the land, or we might sow without preparation as we did last year.

On Saturday night we had a three-inch rain. It washed away every evidence of the protracted meeting and Bro. Davis who assisted is here water-bound.

On Monday night we had another three-inch rain and is still raining at 11 A. M. on Tuesday. Cotton and feed crops that were ungathered are badly damaged.

We have swunk up until our last winter's clothes are too large and we can get enough of surplus material to mend the holes.

The high cost of living still continues and we are threatened with a sugar famine, a coal famine and worst of all, a clothes famine.

Some of our farmers refused to pay \$2.00 per hundred for cotton pickers and sent off for a brigade of negroes to pick their crop. They now have their crop damaged far more than it would have cost and no "niggers." "Niggers" won't work when they can steal watermelons and grabble sweet potatoes.

Mrs. Odum who has been our agent at the depot, has resigned, and Miss Boyd, a former agent came to relieve her. She was checked in late in the evening and after church that night was checked into matrimony and is now Mrs. Thomas, having married our section boss. This is economy. They can now live at home, save their board bill. Have no rent to pay, no fuel to buy. Miss Boyd and Mr. Thomas are fine young people and we are proud to have them as neighbors and citizens of our town.

The cost of labor is worse than the cost of living. Our ladies cultivated a patch of cotton to help towards building a new parsonage and on Saturday they had picked a bale ready for the gin. They found a young man to haul it to the gin and he only charged them eight dollars for three hours work, hauling the cotton one half mile. Of course he would have charged more if it had been anyone else but on account of it being for church purposes he made a reduction. Such deeds of kindness should be remembered.

NATIONAL RAILWAY PROBLEMS
 The United States is not the only country worried over a railway deficit. Both Great Britain and France have similar problems. Why should this be?

From the beginning of the war until the end of 1918 the British government lost \$119,000,000 operating the railroads and with peace, and higher wages, it is estimated that it will lose \$370,000,000 during the year 1919.

France has five principal systems of railroads, and three of these have had to secure national advances every year since 1914 to meet dividends and interest. In 1918 the government ad-

LINOLEUM

Do you intend placing Linoleum on your floor? If so, do you realize that unless you put it down while the weather is favorable you will likely regret it?

Linoleum is made of ground cork, linseed oil and burlap. Its nature is soft, pliant like good leather when warm and is very easily laid and remains that way. But when it gets cold it can scarcely be handled without danger of breaking and never fits snug and close to the floor like it does when laid when warm.

We have Linoleum	12 ft. wide	\$1.75 sq. yd.
" " "	" " "	1.50 " "
" " "	7 1-2 "	1.50 " "
" " "	6 ft. "	1.25 " "
" " "	6 " "	.90 " "
" " imitation	6 " "	.75 " "

Buy it now. It won't be cheaper. Lay it now and you will be pleased. If you wait you may regret it

W. R. WOMACK
 FURNITURE AND UNDERTAKER

valued 240,000,000 francs, or about \$48,000,000 in the normal rate of exchange, but much more at this time.

Late figures upon railroad earnings in this country indicate only 2 1/2 per cent upon the investment, or less than half of what the Interstate Commerce Commission considered adequate in 1917, even after the big increases in freight and passenger rates.

People who ride should pay what it costs, but the administration should reduce the cost as far as economy makes it possible. The continual outpouring of public money for railways may be necessary but the constant aim should be to make the business of transportation profitable and paying.

REVOLUTION IN GREAT BRITAIN
 The aim of the strike in Great Britain is that of the German u-boat, to starve a nation into submission. The purpose of the strikers in Great Britain is to rule Great Britain, just as was the purpose of the Kaiser.

Lloyd George and his government face a distinct peril, not only to Great Britain, but to the world at large. As France stood on the firing line before the German army, with the fate of history in her hands, today Great Britain is on the firing line, with the fate of civilization in her hands.

There can be little sympathy with the labor leaders of Great Britain's strike in this country, except from the Irish agitators who are ready to pawn humanity to embarrass Lloyd George. The fighting Welshman has a new crisis on his hands; give him the power to deal with it as it should be handled, to show strikers in his country, and others, that governments are intended to rule, and will rule.

It may be necessary in Great Britain to use soldiers against the strikers. If it comes to that there, as it may come to it here, let there be no hesitant governmental policy. If the majority of the people of any democratic country are not ready to fight for the principles upon which their liberty has rested when assailed from any quarter, the sooner the governments of the liberal countries know it, the quicker can the rule of the world be turned over to the labor element, who will have the support of all anarchists, thugs and cut-throats generally.

We would regret very much to see a clash between any labor group in the United States and the governments of the country. If there should come a time, when the public must choose between the starvation of helpless people in huge cities, compulsory acquiescence in unfair demands, or a test of strength with radicals, measured by the standard of armies, let no one hesitate as to the action.

THE PENALTY OF WAR
 One of the penalties of war is higher prices. When billions of dollars are expended for purposes of destruction, with no permanent economic return therefor, inflation becomes necessary and the swollen currency becomes less valuable. High prices result.

As Governor Harding of the Federal

DEPUTY U. S. MARSHAL RESIGNS HIS OFFICE
Wichita Falls, Oct. 6.—Robert C. Goodfellow, for three years Deputy United States Marshal at Wichita Falls, has tendered his resignation, assigning inadequacy of the salary as the reason. Goodfellow was an appointee of the late Captain Bill McDonald while the latter was marshal in the Northern district, and was the first Deputy Marshal of the Wichita Falls division. For the past two months he has been in active charge of the Wichita Falls Police Department as Assistant Police Commissioner, and will devote his whole time to the local Police Department in the future.

Picture show at air dome every Tuesday, Friday and Saturday nights. Starts promptly at 9 o'clock.—Bell Opera House.

GROCERY STORES TO CLOSE AT 7 O'CLOCK

JOHN C. ROBERTS, Vernon, Tex.

For Sale — Pure Mediterranean (soft) wheat for seed, native raised.
—J. E. Bell.

THE DAY OF STRIKES

"Might makes right" is the dangerous slogan with which some laborers wish to displace the serviceable and justifiable doctrine of striking only when working conditions demand it.

Radical labor leaders want private capital confiscated for the benefit of laborers, but the folly of this is apparent when we realize that fifty years later they would have to confiscate again to remove the accumulations of thrift and enterprise within their own ranks.

Policemen in a large city have gone on a strike, firemen have thrown down their weapons, and hundreds of thousands of people have been deserted by men sworn to defend them. Thugs and criminals have run riot and the dread of fire without any organized fighters to oppose has brought fear into the minds of loyal citizens.

Not only do these men strike and quit work, but they resent the action of others in asking the jobs they reject. Not only do they repudiate lawful government, but they advocate general strike action to cut off supplies of light, water, and even food to a city and thereby force either death or submission! Might makes right!

But, the general public outnumbers the radical elements of labor. The honest, thinking workmen reject their unjust methods, and favor resort to arbitration and negotiation rather than industrial warfare. There is no more justification for economic warfare than for military warfare, and an outraged people will not tolerate it.

EXCHANGE NEWS

Discharged soldiers met at Vernon and organized an American Legion Post. The Post is named the "Albert E. Robinson Post," in honor of Sgt. Robinson who was killed in action.

A drilling company, known as the Wilbarger Drilling Co., has been organized at Vernon and capitalized at \$100,000. It will drill four wells.

The Wilbarger sheriff kindly points the professional beggars, who are now invading the country, to the depot and tells them to hunt other places.

Speaking of the cleanup in Clarendon the Clarendon News says the town treated itself to a close shave. We wonder if Crowell will pass the winter without a shave.

The Quanah Observer says only one person was drunk at the Quanah Fair, and that was caused by some kind of patent medicine having "kick" in it.

A regular express train is being put on by the Katy from Waco to Stamford. It will leave Waco with 7 express cars and one passenger coach. This is reported necessary to enable the regular passenger trains to make their schedules.

Makes Your Breakfast Taste Better

YOUR breakfast tastes better after you use Klenzo. Get a tube to try today.

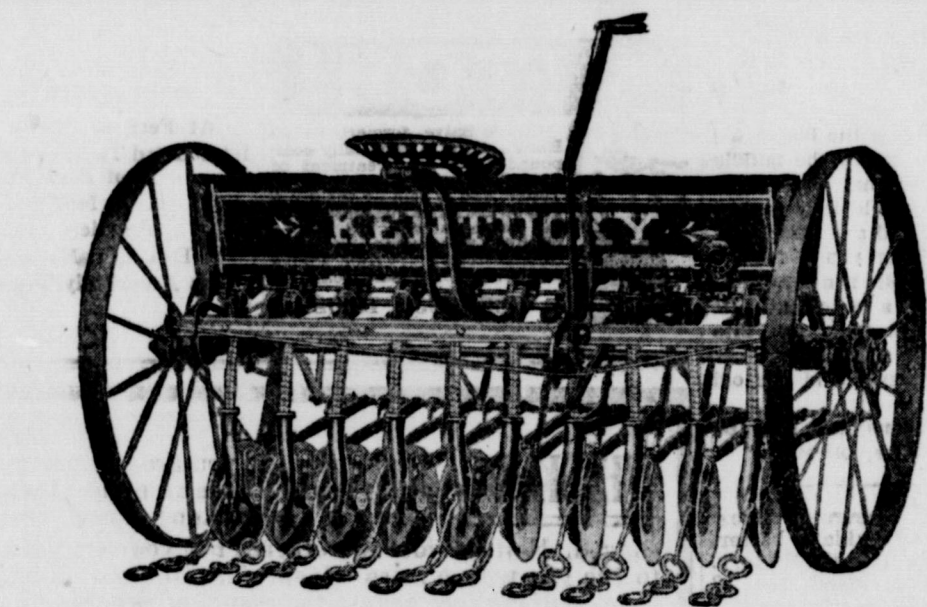

There is a new sensation awaiting you—the Cool, Clean Klenzo Feeling on your teeth and tongue. It isn't merely a taste. It's a testimony of cleanliness—cleanness that is imparted to the tiny, little taste nerves, freeing them of stale secretions that make your mouth feel hot and sticky.

A Good Grain Drill Will Pay Big Dividends

The advantages of drill seeding over broadcasting are fast becoming admitted. No matter what kind of seed is to be sowed, the drill shows by far the larger returns. Broadcasting is wasteful and subject to failure from the start.

In recent tests made at various experiment stations throughout the country the drill-sowed field showed an average increase of from four to six bushels per acre over the field sowed broadcast. In some instances where weather and soil conditions were unfavorable, the field sowed by drill yielded as high as ten bushels more per acre.

And farmers experienced with drills say that there is nearly as much difference in results obtained with different types of drills as there is between drilling and broadcasting.

Kentucky drills have the various types of furrow openers necessary to do the right kind of work in any kind of soil, and feeds that can be regulated for just the correct amount of seed per acre. They can be had in any size you desire from a five to twenty-four marker.

Bag a few more bushels from each acre of grain this year. A Kentucky drill will help you do it.

MONKEY CHAIN CALLED MYTH

Recent Travelers in South America Explain Probable Origin of Story Once Implicitly Believed.

An interesting article by Prof. E. W. Gudger, in a recent issue of Natural History, deals with the time-honored story on which most of us were brought up that South American monkeys are in the habit of crossing alligator-infested streams by linking their tails and legs to form a living bridge. Pictures of this feat once figured extensively in the school geographies, and Professor Gudger reproduced such a picture from a Fourth reader published as late as 1897. The story was first told, so far as known, by the Jesuit priest Padre Jose Acosta in a work published in 1580. Several later writers have repeated the tale. The first person to dispute its veracity was Baron Humboldt. Recently explorers of South America, when they mention the story at all, express skepticism. Finally, Messrs. Leo E. Miller and George K. Cherrie of the American Museum of Natural History, who have done so much traveling and collecting in South America, have suggested to Professor Gudger a plausible origin for such tales. They think that the story of the "monkey bridge" has come about through observation of a procession of monkeys crossing a ravine or stream on a pendent liana.—Scientific American.

Grade your seed wheat—increase your yield. See that grader at M. S. LOCAL HOTEL MAN GETS MUCH ADVICE

A. L. Johnson Receives Many Suggestions from Patrons

Meeting so many people in his hotel and in his store, A. L. Johnson gets many good pointers. He has a wider source of information, on almost every subject, than most of us enjoy. When he feels poorly he knows what remedy has helped the most people. Mr. Johnson tells us what he found best for kidney complaint. He says: "My back and kidneys caused me a great deal of trouble and I really didn't know the cause. However, my back ached and pained most of the time right through the small of it, and when I bent over a sharp, stinging pain would catch me. I could hardly sleep at night because of that and mornings was so lame and stiff I could hardly get around. My kidneys I knew were weak and the way they acted troubled me at night. I decided to try Doan's Kidney Pills and they helped me right at the start. I was soon getting great results. Altogether I used eight boxes of Doan's and they cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Johnson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BRINGS WONDERFUL PRESCRIPTION TO ALL ECZEMA SUFFERERS

Zemerine, the latest scientific prescription for the treatment of eczema, itch, and similar skin diseases, is now sold in leading drug stores. Until recently it was the guarded formula of a great physician, and men have paid a higher price for the treatment, but now it is within the reach of every sufferer.

It's time to say goodbye to inflamed and burning skin! Farewell to irritating and unpleasant sores, spots, and blots which mar your face and make you so uncomfortable. Zemerine can give you relief as it has others. Give it a trial under our guarantee, your money back if it fails to benefit you.

Simple directions accompany each bottle. Sold in two sizes, 50 cents and \$1. Start today and learn what relief means. If your druggist can't supply you, the Zemerine Chemical Co., Orangeburg, S. C., will send you a bottle prepaid upon receipt of the price.

LESSEN

your grocery bill by taking the advice of someone who knows that we sell the best buyable Groceries in town.

Just ask anyone who has sampled our treatment and whose front door smiles every time she comes home with an arm load of our food—because it knows there will be no slams when the family files out after breakfast, dinner and supper.

It is down to you—the price of our best. It is up to you—take advantage of it.

Try a sack of
ORIOLE FLOUR

And you'll say its biscuits are good enough for a king. And it's always the same high-grade flour.

TRADING WITH GERMANY

While the war was in progress there were many movements designed to boycott Germany commercially after peace should be restored. Most famous was the Paris agreement among the European allies to favor one another by tariffs and to discriminate against the Germans for a long term of years.

No doubt the dislike and distrust of the Germans, the ill will toward them, and the repugnance to associating with them in any way are as strong as ever. Americans feel much as the British and the French feel, but not so strongly. We suffered less from German atrocities and therefore thirst less for revenge.

Although the hostility exists and will die but slowly, it is not likely that it will long keep the nations from trading with Germany. Taking the broadest view of what is right and expedient, it should not. We are hoping for a long era of peace, and cannot expect it if we adopt a course that fosters in ourselves a spirit that conduces to war, and that tends to war still more certainly by prolonging the exasperation with which the Germans resent the consequences of their defeat. We need not be such hypocrites as to tell them that we love them; but we shall certainly be preparing for another world catastrophe if we continue both to shout and to show our hatred of them.

For merely material reasons, too, it would be bad policy. We—and that

includes Great Britain and France—wish to sell our products in German markets, and we cannot do it unless we admit German goods, some of which we need, on fairly equal terms. Moreover, general prosperity throughout the world—even prosperity in this country—is out of the question so long as a great nation like Germany is condemned to isolation and misery. Preferential tariffs and other friendly arrangements between the Allies there may be, if they are not too harsh, but excessive severity will react against those who exercise it.

There are, no doubt, higher reasons, based on religious principles, for taking the same view of what is expedient; but the motive in presenting them might be misunderstood. Worldly wisdom furnishes an ample argument and is pretty sure to prevail.—*Youth's Companion*.

The Foard County News tells of a Foard County farmer who brought to that town a butter bean that weighed five and one half pounds. A butter bean, nothing! That farmer just made a mistake and brought in a whole creamery.—*Boysie City News-Times*.

Since we came to think about it maybe you're correct. It's something rather large and may prove to be a dairy with the cows inside. Foard County does nothing worth while on a small scale.

According to statistics during the fiscal year of 1919 the United States

exported \$7,000,000,000 worth of goods. We exported less manufactures than in former years, but a third more cotton and two-thirds more food. One of the great exports was rye. Whether rye goes to make liquor over there or not we do not know, but more than likely it leaves this country in quantities increased by reason of the absence of many breweries.

A recent analysis of the waters of the River Jordan is said to have revealed the presence of so many germs of skin diseases that the local authorities have restricted bathing in it. Is it not funny that it has taken thousands of years to find that out? Anybody ought to know better than to bathe in the creek where Naaman washed off his leprosy.

Although Gen. Pershing was not presented with a golden sword by his own country, he was made a present of one by the city of London. It bears on one side the figure of Britannia and on the other that of Liberty, together with the arms both of London and the United States.

A counterfeit \$20 bill is in circulation and the authorities at Washington are hunting it. In order to assist them in running it down we are offering our personal check of \$20 for its delivery at this office.

Five thousand English women are coming to America for husbands, according to war workers just returned. No protest has come from the bachelor's union for a decrease of immigration.

It has about gotten to where the only way to keep from losing your auto by some thief stealing it is to own one that nobody else would have.

When you succeed in pleasing everybody, you will kindly lead us into the secret of the how.

Pipe Built Like a Cornet.

A tobacco pipe of unusual design has been invented by Warren Murray Baechtel of Hagerstown, Md. Every pipe smoker knows that the longer the stem of his pipe the cooler will be the smoke. Pipes with stems a few feet long have been in use in different countries for many years, but their awkward length precluded their use outside of the house. The inventor of the pipe circumvented the difficulty by coiling the stem of the pipe like the tube of a cornet or signal horn. The coils are connected at their lower end to form a dripping chamber for receiving the saliva which accumulates in the stem. Each coil has an independent opening into the dripping chamber and a screw cap at the bottom gives access to it for the removal of the accumulated saliva. The smoke, in passing through the coils of the stem, is drained several times of saliva and nicotine.

Why Take Chances

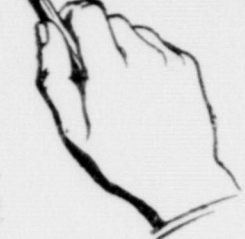

OF a family quarrel, besides a severe test of your patience and religion in trying to use an old stove and a lot of old, bent, rusty pipe? You can probably save money, too, by getting a new stove now, and you're sure to save a lot of muss and dirt and trouble. And besides, think of the happiness and satisfaction that comes from nice new equipment.

We have a full line of Heating and Cook Stoves. Let us put one up for you today

Then, too, there is the saving in fuel—an important item. Keep the family warm and they won't eat so much. Heat is food in the winter time.

M. S. Henry & Company

CALOMEL

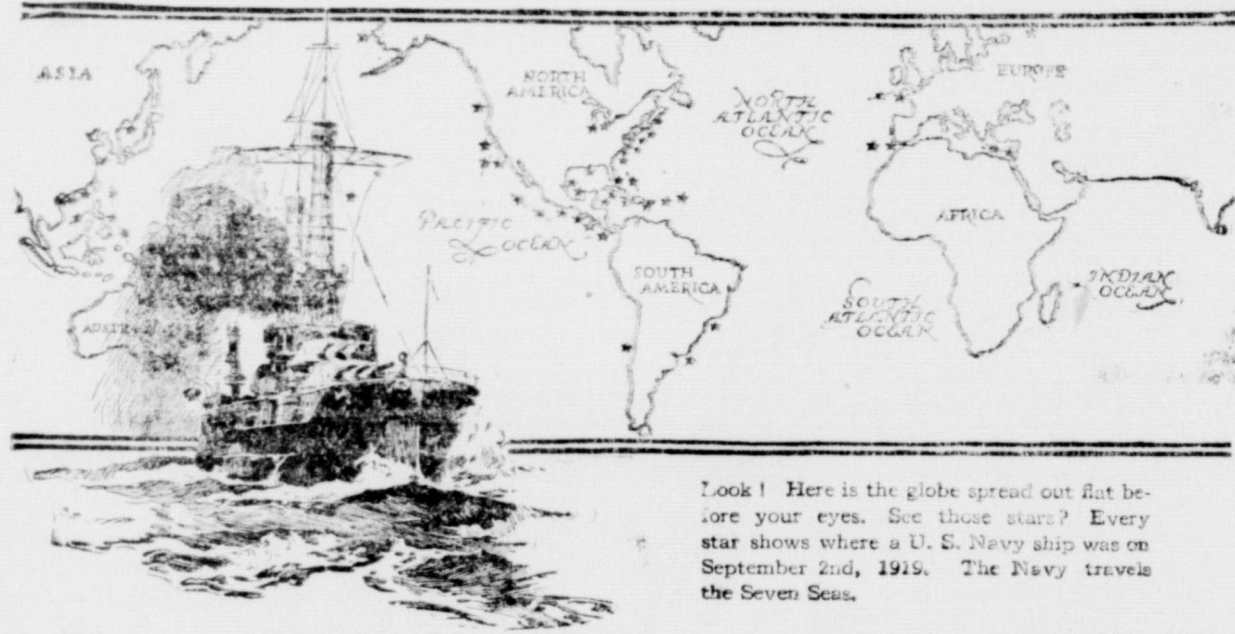

Calomel is a dangerous drug. It is mercury—quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go

back to the store and get your money. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't sialivate, so let them eat anything afterwards.

Look! Here is the globe spread out flat before your eyes. See those stars? Every star shows where a U. S. Navy ship was on September 2nd, 1919. The Navy travels the Seven Seas.

Don't you want to see the World?

ROMANCE is calling to you! Strange and smiling foreign lands are beckoning to you. Shove off and see the world!

Learn to "parley-voo" in gay Paree. See the bull-fights in Panama. See surf-riding on the beach of Waikiki.

Learn the lure that comes with the swish and swirl of the good salt sea. Eat well—free; dress well—free; sleep clean—free; and look 'em all straight in the eye—British, French, Chinese, Japanese, Spaniards, Egyptians, Algerians and all manner of people.

Come! Be a real man of the world. See the world. See it with

the red-blooded, hard-working, hard-playing men of the U. S. Navy.

Pay begins the day you join. On board ship a man is always learning. Trade schools develop skill, industry and business ability. Thirty days care-free holiday each year with full pay. The food is good. First uniform outfit is furnished free. Promotion is unlimited for men of brains. You can enlist for two years and come out broader, stronger and abler.

Shove off—Join the U. S. Navy. If you're between 17 and 35 go to the nearest recruiting station for all the details. If you don't know where it is ask your postmaster.

Shove off! - Join the U. S. Navy

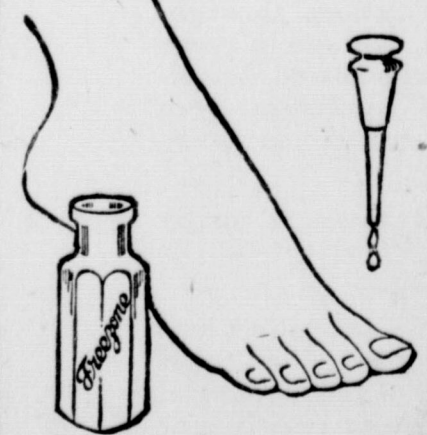

Liquid Accident.
Secretary Elmer Thompson of the Automobile Club of America said in New York the other day:
"The automobile gets the blame for everything. A man lay in the middle of the road one evening, surrounded by a large crowd. An old lady pushed her way into the crowd and said:
"Poor fellow! Poor young fellow! I suppose an automobile run into him."
"No, ma'am," said a policeman. "It wasn't an automobile that ran into him this time."
"What was it, then?" said the old lady.
"It was a keg, or maybe a keg and a half of beer," said the policeman."

Dodge, Maxwell, Chevrolet, Overland, Hupmobile and Oakland batteries in stock. Fresh from the factory. The Eveready; guaranteed for 18 months. We can fit nearly any car from stock. Let me tell you about them.—D. P. Yoder.

The farmers of Childress County met and fixed the price of cotton picking at \$1.50 per hundred.

LIF: OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magis!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the caluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

ITCH!

Bunt's Itch Cure, formerly called Bunt's Cure is especially compounded for the treatment of Itch, Eczema, Ring worm, and Tetter, and is sold by the drug gists on the strict guarantee that promptly refunded to any dissatisfied customer. Try Bunt's Itch Cure at our risk. For sale locally by

W. B. McCormick and D. P. Yoder made a trip to Snyder last Thursday returning Saturday. They were accompanied home by Mr. McCormick's niece, Little Brenz Anderson.
Mrs. Ora Hunter and daughter, Miss Gladys, were here last Thursday night from Paducah to attend the wedding of Mr. Allan Sanders and Miss Edna Hunter. They came in a car with Jess Earp and Miss Marie Gordon.
I have a piano at Mrs. Claude McLaughlin's, a piano I bought from Mr. Will Duke, that I will sell at a sacrifice. This is a \$450 piano and is in first class condition and comparatively new. Write me Lockney, Texas, for price and terms.—J. W. Boyle. 21
MISSIONARY SOCIETY
The Woman's Missionary Society of the M. E. Church met at 4 o'clock Monday afternoon, Oct. 6 in the regular business session.
Scripture lesson was taken from 28 chapter of Genesis. The lesson brought to our thoughts our work of today; our strength and failures in the Master's vineyard, and I do believe the consecrated leadership of our president, Mrs. Hines Clark, was felt to be the key that would unlock the door of indifference. I only wish more could have been present, however, considering the muddy roads and threatening weather we had a good crowd.
After the Scripture lesson song, "I Need Thee Every Hour," and prayer by Mrs. Allee.
Some of the officers were unavoidably kept away, yet were mindful enough to send in their report of which the president was glad.
Mrs. Sam Bell gave a full report of her work as treasurer. Under order of new business a motion carried to have a candy sale Saturday, Oct. 18th.
We were then dismissed by repeating Lord's Prayer in concert.

COULD HARDLY STAND ALONE
Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days. I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go. I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me.
One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle. I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. E 74

Americans Eat Little Mutton.
In Great Britain about 22 per cent of all meat consumed is mutton. In France it is about 11 per cent. In Canada it is not quite 7, and in the United States is only about 3 1/2 per cent. Last year (1918) the consumption of dressed meat (lard excluded) in the United States averaged 150 pounds per person, of which only 5 were mutton and lamb.
The British, the Canadians, and the French—all similar types of people and having habits of life similar to Americans—use less meat than Americans do, but a much larger proportion comes from sheep. The United States gets its meat principally from cattle and hogs. Pork consumption is about 14 times, and beef consumption about 13 times, as great as our use of mutton and lamb. These are the annual averages for last year.

Bag Changes into a Float.
A British invention for the relief of aeronauts making voyages over extensive stretches of water consists of a more or less circular gas bag in the center of which is stretched a "floor" of heavy fabric. Ordinarily, the raft is carried by the airship in the deflated state; but in the event of accident it can be inflated in a few minutes to form a most serviceable raft. The bag is really a series of bags, each being inflated through a separate air valve. Simple oar locks and a pair of oars are provided for propulsion purposes.

Chinese College Girls.
The most picturesque school in Nanking is Giming college, a recently opened institution, operated by five boards, presided over by a faculty of eight and including 18 girls. As this is only the second year of operation, 18 is a goodly number. Last year there were hardly enough girls to go around. The college is housed for the present in a charming old "kung swan" or official residence belonging to the estate of Li Hung Chang and once occupied by one of his relatives. For Chinese women to come into such an inheritance, even by renting it, is enough to make anyone enthusiastic. Only two years of college work are done at present, but a year's work is being added over autumn, so that it will soon tax the eight teachers to keep the class work up to the high standard that has been decided upon.—Christian Herald.

THIRD RED CROSS ROLL CALL
November 2 to 11, 1919
Time to Re-Join

AROUND THE WORLD WITH THE AMERICAN RED CROSS. Junior Red Cross.

Early in the participation of the United States in the world war, the American Red Cross perceived the value of mobilizing the school children of the country and the Junior Red Cross was organized. Before the war ended nine million children were enrolled and helped in the war fund and membership campaigns, in chapter production of relief supplies and manufacturing furniture for the refugees whose homes and household goods were destroyed.
Children everywhere in the United States responded to the call to service sounded by President Wilson as head of the American Red Cross. This photograph is that of an enthusiastic young Japanese member of the Junior Red Cross of Spokane, Wash., starting out on the ambitious undertaking of collecting "a mile of pennies" for war relief. A comprehensive peace program is now being worked out for the Junior Red Cross, which is being held intact.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Serbia.

As far back as the first winter of the war, the Red Cross sent to Serbia a sanitary commission that effectively checked the scourge of typhus, but after the United States entered the conflict, the Red Cross was able, in August, 1917, to send a full commission that carried on extensive relief operations among the suffering refugees of the tortured nation. Hospitals were established, the refugees fed, clothed and given medical attention, the army supplied with much needed dental treatment, farm machinery, and seeds provided to help the Serbs redeem their land to productivity, and, not least, measures undertaken for the support of the children. The terrible condition into which these helpless victims of the war had fallen is well portrayed by this photograph of a little Serbian girl wearing the rags and expression of hopeless dismay that were all she possessed when the Red Cross came.

THIRD RED CROSS ROLL CALL
November 2 to 11, 1919
Time to Re-Join

13 MILLION WHITE PEOPLE NOT SAVED

THIS IS ONE OF THE PRESSING STATE MISSION PROBLEMS IN THE SOUTHLAND.
THE SITUATION IS OUTLINED
Baptist 75 Million Campaign Has Apportioned \$11,000,000 To Be Employed During the Next Five Years in Meeting Need.

Within the eighteen states comprising the territory of the Southern Baptist convention are 13,000,000 white people who are not only not identified with any church, but who do not claim to be Christians according to information gathered by the Baptist 75 Million Campaign. To try and reach these people with the gospel is one of the aims of the campaign and to meet the problem the state mission organization in the various states will set themselves. To help these organizations in meeting that problem the sum of \$11,000,000 has been apportioned from the total of \$75,000,000 that is sought for all purposes, and during the next five years the state mission forces will seek to reach these millions of people right here at home with the gospel and enlist them in some phase of Christian work.

According to this same source of information, it is learned that there are 2,391 towns and villages in the South with a population of 200 or more in which there are no Baptist church organizations or no Baptist houses of worship. Inasmuch as these towns in business more or less the surrounding territory an effort will be made to reach them and the territory surrounding them during the five-year program of the Baptists, it is announced.

There are seventy-four county seats in the South without a single Baptist church or meeting house, it has been ascertained by the campaign headquarters. By reason of the large number of public officials residing there, and the large number of people who go there from every section of the county to attend the sessions of the various courts, pay their taxes and the like it is regarded that the county-seat towns are of especial importance and it is hoped that before the next five years have passed there will be an active Baptist church in every county-seat in the South.

Engaged in the work of state missions at present are 1524 missionaries, and while this may seem like a reasonable number, when the vast territory to be served is considered it has been found that fully 1,000 extra men and women are needed at once, for in addition to reaching the people who are not Christians there are many weak, struggling churches which need assistance and whose members need development. In the several states of the Southern Baptist convention, for instance, there are 9,000 churches with a membership of many thousand which give but very little to any interest of the denomination and which are doing but very small things for the uplift of their communities.

In addition to these very weak churches, many of which have no pastor, there are in the various states a total of 19,588 churches which have preaching services only once a month, 3,000 churches which have services only once a month, and only about 2,200 full-time churches. Part of the \$11,000,000 apportioned for state missions will go to the strengthening of the weak churches and the bringing of them to full-time pastorates where possible.

Leaders in the campaign have sought to care for every interest of the denomination in the \$75,000,000 that is asked in cash and five-year pledges during Victory Week, November 30-December 7, when the final drive will be made, but they recognize that the future development of the church depends in a great measure upon the development of the churches at home which is the peculiar task of state missions.

How a ring got a wounded soldier a new occupation in life is told by the federal board for vocational education, which is helping the handicapped men of the army, navy and marine corps get back into the work-a-day world.

A veteran of Belleau wood called upon the board. His left leg gong, he appeared listless and without hope. He sat talking to the adviser, now and then slowly turning a ring on his finger. The adviser, to get the man's confidence, asked to see the ring.

The man suddenly became animated. "I made that," he said. "Hammered it out of silver myself, and engraved those figures on the outside. Nothing but some playing of mine," he added. The adviser looked at the ring, noted the engraving, and said: "How would you like to learn engraving?"

"Doing this?" said the soldier, fingering his ring. "Say, this ain't work—it's just play."

"Let's have a try at it," replied the adviser.
The federal board sent the man to learn engraving, and in a few months he qualified for a good job in a jewelry store.

RELIABLE REPAIRING
Expert Workmanship and a square deal—that's what you get when you let us do your repairing.
We know how to get at all kinds of motor troubles, and we know what to do when we find them.
Prices Always Reasonable
Good workmen waste the least time, and time is what you pay for in automobile repairing.

This Building Is a Farm Warehouse

Designed for Storage of Cotton and Farm Implements

Farmers lose \$30,000,000 annually on cotton by leaving it out in the weather.

Farm implements and wagons depreciate 20 per cent annually by not being put in out of the weather. This is a very heavy loss when present prices are considered. Implements and wagons protected under a shed will last twice as long as when left exposed.

This farm house will hold 50 bales cotton. Or 40 bales, 2 farm wagons, 2 cultivators, 1 stalk cutter, 1 mowing machine. It is 50 ft. long 20 ft. wide, with 9 ft. walls and corrugated iron roof.

It would mean a saving of \$2.50 per bale on cotton alone if stored. Add that to the saving that would be effected on wagons and implements and it will soon pay for itself.

We have the completed bill of material already figured out, and we will furnish the plans, specifications and blue prints free to every farmer who purchases the material from us.

AT AGE OF SEVENTY SHE GAINS 25 POUNDS

Since Taking Tandia Mrs. Rollins Feels Better Than in Twenty Years

"I am seventy years old and have been in poor health for a good many years, but since taking Tandia I feel better in every way than I have in twenty years," said Mrs. M. B. Rollins, of 110 West 39th street, Seattle, Wash., recently.

"For twelve years," she continued, "I suffered constantly from stomach trouble and what I ate caused me so much misery that I dreaded meal time to come. I suffered terribly from rheumatism and sometimes my feet and legs were so badly swollen that I couldn't walk and my arms would get so stiff and sore that I couldn't use them at all. My nerves were in such an awful condition that the slightest noise would upset me and I could never get a good night's sleep. I became so weak and run-down that I gave up and went to bed where I lay for five long weeks.

"I heard so much about Tandia that I asked my son to get me a bottle and after taking a course of the medicine I am perfectly well again. I feel twenty years younger and am strong enough to do all my housework without any trouble. My appetite is fine, I eat anything that is good and never suffer any pain afterwards. The rheumatism has entirely gone, my nerves are all right and I sleep like a baby every night. The way Tandia has overcome my trouble and built me up is like a miracle and any medicine that will do that for a person of my age is worth its weight in gold."

Tandia is sold by all druggists.

MASSACRE OF WHITES PLANNED BY NEGROES

Helena, Ark., Oct. 5.—Bands of negroes in Southern Phillips County, of which this city is the seat of government, had planned a general slaughter of white people in this locality to morrow, according to members of the committee of seven appointed by civil authorities with the sanction of Governor Charles Brough, who announced today that confessions made by some of the captured negroes and other information indicated a widespread plot.

According to these authorities, the plot included a widespread uprising in the event certain demands were not met. With Oct. 6 set as the day for the uprising, negro prisoners are said to have confessed, each member of the organization at specified places was to pick a bale of cotton by that date, take the cotton to certain prominent land owners, plantation managers and merchants and "demand a settlement."

The confessions, as announced, made it appear to the investigators that without further ado following this demand the blacks were to shoot down all whites in sight. A list of twenty-one names, admitted to represent the men to whom the demand would be presented, is in the hands of the investigating committee.

Killing of these twenty-one, the prisoners said, was to be the signal for all members of the organization to attack the white population. An extensive courier system was explained in the evidence, providing for messengers known to the negroes as "Paul Revere." These couriers had been daily appointed to ride into all parts of the territory, according to the testimony, and summon members to arms. The organization concerned was declared to be the local lodge of the Progressive Farmers and Household Union of America, confidential literature of which designates Washington, D. C., as national headquarters, with State offices at Winchester, Ark.

50,000 Rounds of Ammunition "We've just begun," was the pass word of the uprising, the negroes told the investigators. This pass word and the "Paul Revere" couriers were confessed to have been employed last Tuesday night and Wednesday morning in summoning blacks to Hoop Spur, eighteen miles south of Helena, after W. A. Adkins, special agent of the Missouri Pacific Railroad, had been killed and Charles Pratt, Deputy Sheriff, had been wounded.

The confessions were taken to explain the rapidity with which armed blacks were assembled at Hoop Spur and the neighboring town of Elaine following the incident. The statements added that at the time Adkins was killed there were 150 armed negroes in the church at the scene of the shooting. Some of these were women, it is said, carrying automatic revolvers in their stockings.

Questioned about their supply of shotguns, rifles and ammunition, negroes declared they often had been advised by speakers to "keep their racks full" and "if your rack ain't full, fill it now."

Fifty thousand rounds of ammunition were discovered last night in the branch normal school at Pine Bluff, Ark., according to a telephone message received here today from Mayor Hollis of that city. The institution is a negro school maintained by the State. This report and evidence found locally lead authorities here to believe the contemplated uprising was of more than a local nature, possibly planned for the entire South.

Members of the investigating committee declared there is every evidence that mercenary individuals have been inciting the negroes in the name of the Federal Government. Among other things, it is said, they were led to believe a part of the Government at Washington upheld them in arming and organizing against the whites, that a large temple and armories were to be erected at Washington for the convening of their "congress" and for Federal training of 3,000 soldiers to protect them in their uprising.

May Implicate Whites Much of the investigation is known to be directed in an effort to establish conclusively connection of white men with the agitation, and there is said to be strong indications of such a relation. Only two whites were in custody here today following last week's disorders. A man named Fuller was brought in from Postville last night and placed in the county jail. O. S. Brattor of a Little Rock, Ark.,

United States Tires are Good Tires,

Most Economical

Wear—life—service—mileage—safety—comfort. These are the things that count in a tire.

values means greater economy—less cost of maintenance—less repairs and depreciation.

These are exactly what you get in United States Tires,—general all-round tire satisfaction.

Car owners who do their own thinking prefer United States Tires. Their merit is recognized everywhere.

This greater total of tire

We have them—a type and size for every car.

F. H. PROPPS, Benjamin, Texas

Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil.)

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

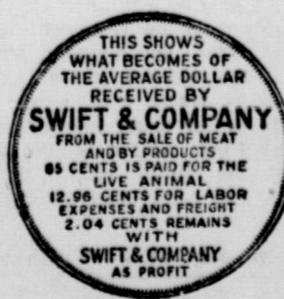

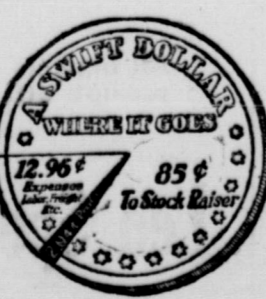

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.

Let us send you a "Swift Dollar." It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

THE SIMMONS MORTGAGE COMPANY

Vernon, Texas

Office Over First Guaranty State Bank

Office Phone 621 Residence Phone 616

law firm has been in custody several days pending investigation.

Pending investigation, thirteen alleged leaders of the negro organization have been brought to the local jail from Elaine since yesterday. A drive through the Lake View territory, south of this city, was to be made late tonight and early tomorrow morning in an effort to round up other prime movers. The authorities have announced that they still are seeking Robert L. Hill of Winchester, represented on the union literature variously as "Government agent," "employed in the United States service," and "United States and foreign detective."

Another alleged leader said to be at large was Ed Ware, whom negroes declared to have been their "secretary." E. E. Powell, "councilor" for the union was brought to Helena last night from Arkansas City and jailed.

While the citizens committee and the military authorities continue their investigations in meetings here and at Elaine, where the latter have headquarters, patrols of troops are maintaining a continuous search of localities thought to be hiding places of negro bands. Special attention is being given, it was announced, to the cane brake regions neighboring Old Town and Modoc. Fallen cane, dense vines and undergrowth add to the difficulties of the dragnet process, veterans of the Meuse-Argonne campaign in the war asserting the Mississippi lowlands are more inaccessible even than the Argonne forest.

Examining trials of the negroes are scheduled to begin tomorrow before Judge J. G. Burke and the first session of the grand jury is set for next Monday.

The authorities stated today that Frank Hicks, a negro taken near Elaine several days ago, is charged with the murder of Clinton Lee of this city, who was killed in the fighting Wednesday morning. In a confession today, the officials said, Hicks stated he was unloading cotton at a gin when a "Paul Revere" summoned him to battle.

THE COLUMBIAN CLUB

The Columbian Club met in the home of Mrs. Frank Crews and had a very interesting lesson on the natural wonders of America, with Mrs. O'Connell as leader. Mrs. Kincaid gave a very instructive and interesting article on the destruction wrought by volcanic eruptions and earthquakes in the Republic of Central America. Some interesting shells and copper specimens from the western coast of Chili were shown and the desert conditions of this region discussed.

The current events were instructive and covered a wide range of thought. Guests for the afternoon were Mrs. Chas. Smith and Miss Mamie Allen. Letters from Mrs. Waldrop and Mrs. J. W. Fields of Haskell, were read which complimented our year books.

Come in and give us a look.

Cecil & Company, Inc.

URGES HOLDING COTTON
Dallas, Texas, Oct. 7, 1919.—With spot cotton slowly creeping upward in price, officials of the Texas Division of the American Cotton Association are urging the farmers to hold their crops, or to market it very slowly. Although the recommended minimum price at the New Orleans meeting was only thirty-six cents, it begins to appear that even a better price will be secured, and brokers in the East are predicting publicly fifty cent cotton.

The ability to borrow from banks on cotton protected from country damage and warehoused is showing to the farmers throughout the cotton belt that one phase of the solution of securing a better price for their cotton lies in the development of a system

of warehouses. The attitude of the consumer with reference to cotton prices may be gathered from the discussion of the World's Cotton Conference to be held in New Orleans in the near future.

Although the American Cotton Association is only partially organized, its officers are confident that its activities will result in immeasurable benefits when it has been extended into every cotton growing county of Texas as it has been extended in Georgia, South Carolina, North Carolina and other states. Growing out of the cotton acreage reduction organization which caused cotton to take a boost over thirty cents which price it has almost consistently held, the American Cotton Association proposes to develop in the South an or-

ganization as fully capable of protecting the interests of the cotton grower as the spinners, manufacturers and others have been protected for years at the cost of the producer.

The Texas Division will be organized soon. Preliminary work necessary, as to the printing of pamphlets, etc., is being completed. From all over Texas have come requests to organize at once and with the State headquarters in Dallas, under direction of Nathan Adams, Chairman, and endorsed by the Texas Bankers' Ass'n., the Texas Cotton Seed Crushers' Ass'n., and the Texas Ginners' Ass'n., as well as the Texas Industrial Congress and the Texas Farmers' Union, the officers feel that the answer to low cotton prices lies with the growers themselves and in perfecting an

organization that will be absolutely non-political, but working only to the interests of the growers of the South, that millions of dollars now going into the pockets of speculators will accrue to cotton growers of Texas.

Texas headquarters are located at 515 Slaughter Building, Dallas. All persons interested in the movement can secure further information by addressing the office.

DON'T SCOLD, MOTHER!
THE CROSS CHILD IS
BILIOUS, FEVERISH
Look at Tongue! If Coated, Clean
Little Stomach, Liver,
Bowels

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counter-faits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

Special 'Big 4' Offer Limited TO FORD OWNERS

—announcing the greatest money-saving offer ever made to Ford Owners on Essenkay, The Tire Filler, which rides like air, and has cut tire costs in two for over 100,000 users. You will get the details of this extraordinary proposition in the mail. If you don't receive yours, write for it. Use the coupon below.

Essenkay NO PUNCTURES
THE TIRE FILLER NO BLOWOUTS

First Cost - Last Cost **Doubles Tire Mileage**
Essenkay — an investment, not an expense — may be transferred from old worn-out casings to new ones. The use of Essenkay is a proved economy—10,000 to 20,000 miles is the rule, not the exception.

of the pleasures usually taken up by young men if he means to make his life of the highest possible use to the world, he would set his foot on the pathway to accomplish something worth while.

There is no harm in billiards or pool or in dancing, baseball or card-playing, or any one of the scores of different diversions and recreations open to young men. The natural inclination usually is to devote a large part of the leisure hours of young manhood to such pleasures. But the youth who is really earnest in his ambition to do something worth while will discipline himself to resist such temptations during his early, formative years, for the whole fate of a man is largely determined by how he utilizes his plastic years. He may be restricted by circumstances, by environment, by family ties in his selection of his daily work, but every young man, particularly nowadays, has many hours that he can call his own, and it is how he chooses to use these hours that counts most and tells most.—Forbes Magazine.

THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO TRACK WAGON

Which Wagon?—

The One that Fits the Road—or the One that Rides the Ridge

Recommended by the Government. The standardized wagon fits the prevailing track made by automobiles and is the wagon you will want to buy.

This Wagon is Out of Date. This 60" wide track wagon no longer fits the roads when they are muddy and soft.

WOULDN'T you rather buy the style of wagon recommended by your Government, especially when it is designed to pull easier, ride smoother, and last longer—the wagon that fits the roads and does not ride the ridge?

The Standardized Weber "Auto-track" Wagon saves wear on itself, other wagons, automobiles, and rubber tires.

The Weber fifth wheel and swivel coupling wagon is either sold at a price much too low or most other wagons are sold at prices much too high, quality considered. Compare and draw your own conclusion.

To date the leading wagon manufacturers of America have sold at the most conservative estimate 100,000 standardized auto-track wagons. From this introduction it is but a step to universal use of this type of wagon. Wouldn't you rather be identified with progress and recognized as an up-to-date farmer by doing your hauling with such a wagon than to be classed as an unprogressive "back number" by buying a 60-inch wide-track wagon, thereby helping some manufacturer and dealer to "unload" an obsolete type? Think it over—and then come and see us about a standardized auto-track Weber.
