TEXAS INSTITUTIONS WILL GET BIG PART OF BAPTIST FUNDS

The News always gives space to matters of religious interest, and since there has been little said through these columns in regard to the Baptist Seventy-Five Million Campaign, we are using a little space this week, as the big drive commences Nov. 30, and this is the last opportunity of calling attention to it before the drive. All that has been said up to this time through the religious press and on the platform has been propaganda. But now the drive is on and lasts until Dec. 7.

There are a good many Baptists in Foard County, and these can not read too much about this great movement of the denomination. Those who are not Baptists may find it of interest to learn something of the matter, as doubtless they have already done, and while they may not feel the special interest that Baptists do, yet liberal enough to give it their moral support, for in reality all denominational efforts to evangelize the world and to carry truth to the millions of earth should and does have the moral support of those who can leave themselves out of themselves and grant other denominations the liberty they themselves ask.

This \$75,000,000 is to be pledged by the Baptists of the South and is to be apportioned to the following interests: Christian education, Foreign missions, home missions, state missions, of ministers' relief, sanitaria, and orphans' homes. Texas quota of the \$75,000,000 is \$16,000,000, and that of the Red Fork Association is \$1,000,750. Coming home, Crowell's quota is \$20,000. This is to be raised by pledges, and the payments cover a period of five years.

This immense fund is to be applied as follows:

Christian Education	\$21,175,000
Foreign Missions	20,000,000
Home Missions	12,000,000
State Missions	11,000,000
Ministerial Relief	3,000,000
Orphanage	4,700,000
Hospital	2,125,000

The expenditures to be made in Texas, enumerated by Rev. W. T. Rouse, in the Vernon Record of last week are as follows:

Improve Educational Institutions	\$1,000,000
Southwestern Theological Seminary, Fort Worth, \$700,000 for endowment, \$500,000 of which comes from the Texas	\$16,000,000
Baylor University, Waco, \$1,000,000 for endowment, \$600,000 new buildings, including boys' dormitory and girls' dormitory and enlargement of steam plant, \$400,000.	
Baylor Medical College, Dallas, \$500,000 for endowment.	
Simmons College, Abilene, \$500,000; administration building, \$150,000; boys' dormitory, \$50,000; library, \$75,000; faculty expansion, \$100,000; additional equipment, \$100,000.	
Baylor College, Belton, \$750,000; dormitories, \$300,000; education building, \$100,000; science building, \$100,000; power and heating plant, \$50,000; fine arts building, \$100,000; library, \$100,000.	
Howard Payne College, Brownwood, \$300,000 for buildings, including administration building and other permanent improvements.	
College of Marshal, \$100,000; boys' dormitory, \$50,000; kitchen and dining hall, \$25,000; enlargement of heating plant, \$25,000; beautification of property, \$10,000.	
Decatur College, Decatur, \$100,000; additional land, \$20,000; to complete administration building, \$40,000; girls' dormitory, \$20,000; equipment, furniture, \$20,000.	
Wayland College, Plainview, \$100,000; heating plant, \$25,000; completion of administration building, \$25,000; new dormitory, \$50,000.	
Rusk Junior College, Rusk, \$100,000; addition to girls' dormitory, \$30,000; addition to boys' dormitory, \$30,000; improvements on administration building, \$150,000; laboratory and library equipment, \$10,000; improvement of girls' self-help club, \$5,000; ministerial aid, \$5,000; equipment and improving 240-acre college ground, \$85,000.	
San Marcos Academy, San Marcos, \$100,000, which is to be used for a new administration building.	
Hospitals to Be Added	
Southwest Texas Baptist Hospital, San Antonio, now in the making, \$150,000; for liquidation of debt on lots, \$20,000; erection and equipment of first building, \$130,000.	
Central Texas Baptist Sanitarium, Waco, \$250,000; for additional unit to present building, \$150,000; equipment, \$35,000; to liquidate debt, \$65,000.	
Texas Baptist Memorial Sanitarium, Dallas, \$600,000; additional land, \$5,000; surgical building with 200 private rooms, \$400,000; equipment for this, \$75,000; light and heating plant, \$60,000; steam laundry with equipment, \$10,000; morgue and laboratory, \$10,000; artesian well, \$15,000; isolation building, \$25,000.	
Houston Baptist Sanitarium, Houston, \$475,000; additional ground, \$85,000; hospital building and equipment, \$200,000; surgical building, \$100,000; negro building, \$10,000; liquidation of debt, \$80,000.	
Proposed Baptist Sanitarium at Abilene and Brownsville, \$100,000 and \$25,000, respectively.	

Million Three-Quarters for Missions
For Texas state missions \$1,750,000 has been apportioned, all of which is to be expended in the State.

Buckner Orphans' Home, Dallas, \$300,000 for new buildings and equipment. The sum of \$319,000 is to be used in the next five years in carrying on the work among the Mexican population of Texas, now estimated at 600,000. The points included are San An-

WILL WINTER AT RANCH

Mr. and Mrs. John L. Kilworth of Lawrence, Kansas, arrived at Crowell Monday on their way to their ranch near Gilliland where they will spend the winter. While they were in Crowell they dropped into the address of their paper changed to the ranch.

Mr. and Mrs. Kilworth spent last winter on the ranch and they find it an outing and a rest for them worth much to them in point of health. "There will seldom be a day," said Mr. Kilworth, "when we will not be in the saddle." And Mr. Kilworth is not by himself, for his wife rides her pony and enjoys going over the big ranch of thousands of acres as well as does her husband. Last winter was her first visit and stay here and she says she enjoyed it very much, and during the several months there says she came to town but once.

Mr. Kilworth was once engaged in banking, but since he broke loose from that confinement finds himself now enjoying such freedom as he once thought little of, but regards it now of too much value to abandon.

RETURNS TO FOARD COUNTY

D. W. Pyle came into the News office Saturday and said: "You may change my address to Crowell, as I am making this county my home now."

Mr. Pyle was a resident of this county for a long time until about two years ago, when he bought land near McLean and moved away. He recently sold his property there and has come back to Foard County, and for the present he will make his home here, and we hope that he will make it permanent. He has always said there are no better people than those of Foard County, and since that is true, and since we have as good country as there is in the State, we really believe that Mr. Pyle can do no better than to make his permanent home in this county. Whether he needs us or not, we can say with a certainty that we need him as one of our citizens.

12 BALES TO 30 ACRES

J. G. Ford came in Saturday and ordered the News sent to his brother-in-law, D. W. Jackson, Boggy Depot, Okla., and in giving report of his success farming this year said that he did not have a very large acreage to cotton, but that his 30 acres would yield him about 12 bales of cotton. He made a small wheat crop. But this 30 acres is making a very fine yield, as you can see, for half a bale and around that is good.

We might say just here that Mr. Ford at one time made an investment in land in a neighboring county, and it was a good investment, too, but he evidently did not regard it so good as land investments in Foard County, for only a short time back he sold it and now invests in 200 acres in this county. He bought what is known as the Judge Walthall place southwest of town, and there is no better land in the West.

COTTON PRICES

Resulting from decreased acreage, bad season, insect pests, lack of labor and world demand for cotton coupled with sane holding and slow marketing, the price of cotton is good and likely to go higher.

The only danger is with any fall in quotations forced by sales on the gambling exchanges of future contracts (they have no cotton) causing farmers to stampede to sell as they have done in former years.

So we frankly say to the farmers that the bankers, the merchants, and all good citizens are ready to back us in our effort to get value for our cotton, and if there is a failure it will be our fault. Therefore we earnestly urge you to refuse absolutely to sell a pound of your cotton on a declining market, and if you do this the price will rise again and we shall win the fight for right and justice.

FRED W. DAVIS,
Commissioner of Agriculture, Austin.
W. B. YEARY,
Austin, Texas.
CHAS. E. METCALF,
Farmer-collector grower, San Angelo.

SPEEDING, MUFFLING, AND LIGHTING OF CARS

The City Marshal asks the News to call attention to the fact that there is among some people a careless observance of the laws relative to auto speeding, muffling and lighting in Crowell. It is not necessary for us to speak definitely as to these laws, every auto driver either knows or can find out about them by going to the proper authorities. There is no threat on the part of the City Authorities in regard to the matter. What they have to say is merely a reminder, and they hope that it will not be necessary to take unpleasant steps in regard to these. Yet, they want it understood that these laws must be more carefully observed.

tonio, Del Rio, Uvalde, Brownsville, Corpus Christi, Mercedes, San Angelo, Laredo, Bastrop, Austin, San Marcos, Kerrville, Rockport, Bryan, Waco, Ft. Worth and Dallas. Included in the Mexican building program is the expenditure of \$150,000 for a church and schools at San Antonio, \$104,000 for church and schools at El Paso, a \$10,000 church and school building at Laredo, a \$10,000 church and school building at Austin, a \$10,000 church and school building at Brownsville, a \$5,000 church and school building at Corpus Christi, and similar buildings at Waco, Fort Worth and Dallas.

The tuberculosis sanitarium at El Paso receives \$500,000 for buildings and equipment and \$500,000 for endowment.

Negro missions in the state are to receive \$6,000 and Houston College \$40,000.

FINISHED SOWING WHEAT

Lucky is the man who has finished sowing wheat in Foard County, but we have heard of only one, that is Sam Russell. He feels himself lucky, too, and says he thinks he is the only man in the county who has finished.

Mr. Russell took advantage of early thawing by putting all his teams to plowing, and not being satisfied with the progress they were making, bought a tractor and put it to work, and he says by such strenuous work only was he able to finally get his crop sowed. His wheat acreage will amount about the same it did last year—800 acres, or thereabouts. By early plowing he got most of his land prepared before the rains and got in one solid week of sowing. The rains then came and interfered and he finished last week just before the last shower, so that his whole crop is now in fine shape. The early sowing he says is looking fine and with a little more sunshine and dry weather it will do to graze.

Mr. Russell returned from Fort Worth Saturday and says he saw very little acreage sown where he went. He saw to be true from here to Fort Worth is true very largely all over the wheat belt. Reports come from Kansas and Oklahoma, as well as from other sections of the wheat belt, that the farmers are very badly behind with their plowing, so that it is a foregone conclusion that nothing like the wheat acreage will be put in that was put in last fall, and if very much depends upon the American wheat crop next year that means high prices for wheat. Therefore the man who is getting in a good wheat crop in Foard County, in all probability, will realize big profits next year.

SOCIAL CLUB ENTERTAINED BY MR. AND MRS. COUCH

Knox City, Texas, Nov. 22, 1919.—The most artistic party of the season was given by the Social Club when Mr. and Mrs. Joe Couch entertained for the last time, as they are moving to Crowell next week.

The Couchs' modern home is well suited for entertaining and it was made especially beautiful Friday night by the Thanksgiving decorations. The lights were subdued by yellow crepe paper shades entwined with autumn grape vines. On each side of the colonnade and in the corners of the rooms were placed large bunches of dried maize and corn stalks loaded with ears of corn. Big Thanksgiving pumpkins rested on top of the colonnade and piano. The pictures on the wall and the windows were framed in bright colored grape vines. Turkey score cards were passed and soon seven tables of "forty-two" were being enjoyed. On each table was a crepe basket held grapes to tempt the guests to eat while they played.

A perfect feast was served as refreshments. The first course consisted of turkey sandwiches, hot dressing, cranberries, fruit salad and celery hearts. The second course was chicken pie, coffee and whipped cream. With this course were tiny hand-made suit cases for each guest, filled with bonbons and salted nuts, and inscribed with a verse inviting the owner to pack their suit case and visit the Couchs in Crowell.

Music during the evening left nothing to be desired by the appreciative guests.

The Couchs were the honor guests at a club party at Mrs. O. E. Jamison's Thursday night, Nov. 20th. Many were expressed that the young couple were leaving Knox City, and many wishes extended for success and happiness in Crowell.

COTTON BETTER CROP THAN WHEAT

Bert Bell is one of Foard County's most enterprising young farmers. He had a wheat crop of 280 acres and made about \$6,000 worth of wheat, which after the expenses were all paid left him a margin of profit, but he will beat that on cotton. On far less than a third of that acreage he will make 35 bales of cotton, which will net him about \$6,000. So he is finding cotton a much better paying crop than wheat was at around \$2.00 per bushel.

"The cheapest thing raised today," he said, "is wheat, and to have given up wheat for profits other crops are making he ought to have had at least \$3.00 per bushel."

Mr. Bell does not expect to get in so much to wheat another year, but will plant a big cotton crop.

DEPORTING RADICALS

The general public will hear with pleasure any news of deportations of radicals. Foreigners who come to this country for the purpose of inciting trouble between the government and the people are dangerous, and should be sent away. The danger does not lie in their professed belief in radical rule, but in their willful misrepresentation to the ignorant.

That the United States has for years permitted such undesirables to land on its shores is explained by the hope that our system of government would assimilate them, but the felony lies in the fact that no government can assimilate a professional radical, an enemy of all order and an advocate of chaos.

SUGAR SHORTAGE TO END SOON

THINKS QUOTA WILL BE RAISED
Rev. J. B. Henderson was here from Margaret Wednesday. He says the Seventy-Five Million Campaign is going splendidly in his field and he feels confident the quota for his churches will be raised.

He is very pleasantly located in his new field and is happy in the work. He says Mrs. Henderson's health, which for the past several months has been poor, is now much improved.

WITH OUR READERS

H. Speck of the Good Creek country renews for the Foard County News and the Star-Telegram. A great many of our rural readers are taking a daily and our clubbing proposition is very attractive.

J. G. Ford sends the News to his brother-in-law, D. W. Jackson, Boggy Depot, Okla. Mr. Jackson was once in this country, but it seems that at that time was not favorably impressed with it. The fact that other people like some other country better than they do Foard County is the reason that other country has people in it. Some people like and some do not. That is the way the world is made, and it is right, and every one is in his right place if he is contented.

R. Bell takes the News and the Star-Telegram for a year, taking advantage of our splendid clubbing offer. He is another one of the boys who keeps up with general news by taking the county paper and a daily, although he lives on a rural route.

A. C. Peckack begins his newly married life right by taking the home paper and the Star-Telegram. By so means is this to be compared in importance with that of his marriage. There are three great things that happen in the lives of most men who come to manhood. The first is being born. The second is getting married, and the third is subscribing for the home paper. Mr. Peckack has swept the whole range.

C. W. Roberts of Thalia does not want the News discontinued and therefore renews. Mr. Roberts said he had a splendid cotton crop, having gathered about 8 bales. He sold the remainder of his crop in the field. He has recently bought a section of land in New Mexico but says he likes Foard County too well to say that he is going to move soon. He contemplates making another cotton crop here.

J. L. Ferrell of Cross Plains sends subscription to the News. He is one of our recently added new subscribers.

G. E. Mapp of near Margaret handed us the cash for a year's subscription to the News Saturday. He said who he was in town he did not have to take the paper, as he learned most everything that happened, but since he went to the farm near Margaret, he felt that he would have to have the paper. He is on the Sam Crews' farm and will have a pretty good acreage sown to wheat, but will also have a good large acreage for cotton another year.

T. E. Turner hailed a News representative on the streets Saturday and sent me the News. Mr. Turner lives in the Vinton community and is one of the old-timers and a good citizen.

H. R. Randolph of Thalia is another to take advantage of our clubbing offer on the News and Star-Telegram.

Mrs. J. M. Clifford paid for her paper for a year and also for her daughter, Miss Veda, who is attending school at Clarendon. Although quite a little ways out of town, she thinks she will take advantage of one of our clubbing offers, perhaps taking a daily. Dailies are becoming a part of the reading of those in the rural districts more and more as the years go by. Mrs. Clifford has recently returned a two weeks' visit with an uncle in Callahan County.

M. J. Phillips came in Monday to see about his subscription to the News. Mr. Phillips shoved a ten dollar bill under our nose for us to change, but of course we could not change it. The idea of a ten dollar bill for a newspaper he replied that it was, but that he had borrowed it with which to help pay his pickers. When Mr. Phillips gets his cotton all gathered and ginned he will have money to loan, as he will make not less than 23 bales, and that much cotton represents nearly enough money to start a bank on.

Miss Myrtle Huddleston of Mabank, Texas, sister of Mrs. J. R. Beverly, will get the News away down in Port Neches, where she is teaching school.

Howard Williams renews for the News and the Dallas Semi-Weekly News. For several years he has kept up this combination and never forgets when the time expires.

J. C. Coffey renews for the News and takes the Star-Telegram. John says he will get in another big wheat crop. He owns the Best place and already has most of it sown.

B. K. Harrison came in Wednesday and ordered the News sent to his brother, C. D. Harrison, Madill, Okla. He says he has been trying to get his brother to move down here and thinks the News will save him the trouble of giving him some good information relative to the country.

Troy Ervin was in the office Wednesday and renewed for the News. He not only takes the News but has us put him down for the Star-Telegram for a year.

Ann Ribble is a new subscriber to the News, commencing with this issue. She said she had been wanting the paper for a long time, but had not had the opportunity of coming in to see about it.

G. W. Critz has been trying the Foard County News long enough to feel that he might as well tie himself to it for a year. So he renews and takes the Dallas News in connection. Mr. Critz has already picked ten bales of cotton and will get some more. Ten bales of cotton is equal in value to a big roll of currency.

THINKS QUOTA WILL BE RAISED
Rev. J. B. Henderson was here from Margaret Wednesday. He says the Seventy-Five Million Campaign is going splendidly in his field and he feels confident the quota for his churches will be raised.

He is very pleasantly located in his new field and is happy in the work. He says Mrs. Henderson's health, which for the past several months has been poor, is now much improved.

ENCOURAGE THE BOYS

Here is a little matter that ought to be of interest to every farmer who has a boy. Bert Bell has two boys, Weldon, 11 years of age, and Hoke, 9 years. To these he gave a patch of sod amounting to about 4 acres to be planted in cotton. Now the harvest has come and the boys will get two bales of cotton from the land. The gross receipts will be around \$600. And to show the good business judgment of the boys he asked them what they wanted to do with the money. The oldest one replied that he wanted a thoroughbred pig for one thing. So Mr. Bell ordered them a registered Duroc Jersey pig, paying for it the sum of \$300.

This property will belong to the boys and they will get the increase. Starting out quite young to be business men, but not too young. They will grow up with the feeling that more for is no reason why they should not grow up with a knowledge of how to save as well as how to spend. Give them something to encourage the expenditure of effort. Let them build for themselves a bank account and make for them habits in early life that make for thrift, and consequently they will be more youths, become an asset rather than a responsibility.

ATTENTION FARMERS
Having recently called your attention to the fact that cotton seed for next year's planting are going to be very scarce, we wish to emphasize that fact by telling you that we are getting three times as many listings to buy seed as we are to sell them. Do not sell good seed suitable for planting to gins or mills, but store them away as you are likely to get more for it than at the same time render your fellow farmer a valuable service by selling him your good seed for planting purposes.

How to Proceed to Sell Your Cotton Seed:
First, put them in a dry barn or house. Second, write to T. S. Minter, Director of the Bureau of Markets, Austin, and ask him to list them free in the Market Journal and repeat this request monthly till all your seed are sold. He does not handle the money nor the seed, but simply finds you a buyer, and his services are free.

The press has very kindly given publication to our former letter and you should take advantage of the opportunity of getting more for your good planting seed and at the same time render other farmers good service by selling them your cotton seed for planting purposes.

Yours truly,
T. S. MINTER,
Director of Markets,
J. W. NEILL,
Director of Institutes,
State Department of Agriculture,
Austin, Texas

SCHOOL NEWS

At last the school has taken an interest in the long needed athletics. All of the students are manifesting an interest in the different sports. A number of basket ball teams and a tennis club have been organized and all have been playing when the weather permitted.

The girls' basket ball teams are showing the right spirit. Several interesting games have been played after school hours. There was a match game between the Juniors and Sophomores on last Friday afternoon, the final score being 18 to 6 in favor of the Sophomores.

A basket ball team composed of the seventh and eight grade boys has been organized with Tom Beverly, Jr. as its captain. Although it is a fast team Captain Beverly says "there is room for improvement."

The Senior team has not played any match games this week and as yet none has been scheduled.

BOTH GINS USING OIL BURNERS
The Terry gin installed an oil burner this week and are now prepared to run in spite of the coal shortage, provided oil can be gotten. The difficulty experienced in that particular has been due to delay in transportation. Early in the week the gin men stated that a car of oil had been shipped for ten days and had not reached Crowell at that time. So the expense of running with the oil available was very great.

This difficulty eliminated, the two gins can handle the ginning very nicely, and the gin men are hoping that they will soon get straightened out. When they once get things shaped so that they can run uninterruptedly they can gin more than 100 bales a day.

The casualties of the Battle of the Marne in 1914 totalled almost three quarters of a million. The Germans still insist there was no battle. Just what the casualties would have been if there had been a battle is problematical.

FOARD CO. BOYS BREAK OWN COTTON PICKING RECORD

From Turkey, Texas, comes a letter from R. E. Young about cotton picking. In the letter he says: "I am sending you an account of a pretty good day's cotton picking that four Foard County boys did last Friday, Nov. 21. Men may have beaten this, but they will have to be full grown. The names and weights are as follows:

Earnest Crosnoe	709
Elmer Crosnoe	751
Eldon Crosnoe	720
Barney Lefevre	646

Total.....2,886
At \$3.00 per hundred pounds the day's receipts were \$85.58.

This is the same crew, with the exception of one man, which the News mentioned in its last issue, as having picked 2600 pounds in one day. In that crew it was four Crosnoe boys, all the above named, and Wilmer, 13, whose place in this instance is taken by Barney Lefevre, a grown man.

But the fact still remains that this is a Foard County bunch of cotton pickers, and our challenge is renewed to any four men in the State to beat it.

A STRIKE WITHOUT LEADERS
The coal strike is being maintained under unusual difficulties. In fact, its hardship makes it practically certain of defeat.

The government, through no less a person than President Wilson, warned the miners that the strike would be regarded as an unlawful conspiracy against the nation, and that the government would be taken to prevent wholesale suffering as far as possible.

The legal machinery employed was the injunction, by which order the heads of the striking miners were enjoined from any leadership, the giving of orders, or in any way encouraging and fostering the strike. The orders for the strike were out, and the strike occurred, but now there is a scarcity of leadership—the men don't know what to do.

Some leaders feel that the miners are in the lurch, and that their only recourse is to drive the best bargain possible. Before the strike the government sought to have it averted, but was rebuffed. The government has now demonstrated that it is not to be treated with such careless consideration.

BLOCK UP LAND FOR DEVELOPING COMPANIES
The quickest way to have all development in Foard County is for the people who own the land to get together and put it in large blocks so it can be leased by reliable developing companies. There are many reliable companies, who, if they can get a large acreage leased in one block, would develop oil or make a thorough test.

Don't lease your land in small tracts to speculators. What we want in Foard County is development of the oil resources. If there be any, and the way to do it is to get people who have the financial backing to drill wells, and the way to get them to come is to put the land in blocks and lease it to them.

20 ABOVE ZERO
The cloudy, misty weather Tuesday and Wednesday finally grew into a little blizzard and brought the mercury down to 20 above zero yesterday morning. This is about ten degrees colder than the first cold snap we had a short time ago.

Ordinarily we would hardly notice a cold snap like this, but the coal situation causes great anxiety among our people. There is still no coal to be had and no one knows when there will be. The same condition seems to exist in all parts of the country, and the only way out as we see it is for people to put in oil burners.

RECENTLY CALLED PREACHER
VISITED CROWELL SUNDAY
Rev. J. E. Billingham of Waco came up Sunday afternoon and preached at the Baptist church Sunday night and Monday night. He left Tuesday for Waco.

When he left for his home he had not decided as to whether or not he would accept the pastorate of the church here, and up to the present time no further information regarding the matter has reached us.

REAL ESTATE TRANSFERS
C. P. Sandifer negotiated the following real estate deals within the last few days:

W. F. and Gordie Gafford to Mrs. T. M. Greening the T. M. Gafford home.

Mrs. R. E. Zeibig, a house south of the Christian church, to Claude A. Adams.

D. P. Yoder and wife, home place, to Miss Lena and John Raser.

R. M. Pyle farm to Joe Drabek.

J. D. Johnson 200-acre farm to J. G. Ford.

AT THE PRESBYTERIAN CHURCH
Rev. L. R. Litchfield of Houston will occupy the pulpit at the Presbyterian church next Sunday at 11 a. m., and also at the evening service. Everybody invited to attend.

J. W. Boyle was over from Plainview last Saturday. Mr. Boyle was once a resident of Knox City, but moved from that place to Floydada a year or more ago. He recently moved to Plainview. He sold a piano here which he had advertised in the News. What he had said about the ad was, "It sure did the work."

You Can't Afford

Not to specify Herring-Showers' **QUALITY LUMBER** in the building of that new home.

We've been in the lumber business a long time and many of the best homes in the country have been built of our material, and the constant repeat orders we receive are our best testimonials.

MARGARET MUSINGS (By Special Correspondent)

We have had two little showers that have impeded the cotton picking but the gin is forty bales behind, so there has been no damage except a little delay. Our gin is a relic of the dark ages, and should go to the junk pile. It breaks down several times a day which is very unpleasant for those who are waiting for their turn. There never was a better time for the farmers to build a gin of their own. There will always be a large amount of cotton raised in this vicinity and a good gin would be a paying investment. If farmers could organize like coal diggers they would be the Lords of creation.

Our school has closed so the teachers may have an outing and it is just as well for they will have to close for lack of fuel in a few days.

There is much said about hoarding and profiteering and they are getting after the little fellow who happens to give short weight, but the big fellows higher up are immune and do as they please. I just paid the Bank of Crowell for a car of coal that was gobbled up one month ago, and is being hoarded while our people are suffering for fuel. My son-in-law writes me that there are five hundred cars of coal at his station which have been hoarded since the 1st, and they can't buy a pound of coal in that town.

Mr. and Mrs. Munroe who were married last week have gone on a wedding tour. When they married fifty years ago there was no transportation except a yoke of steers and a slide, but now the Orient trains try to run tri-weekly and there is no danger of being left.

Town lots are selling rapidly in Margaret. There is no oil boom nor building enterprise on hand but land is getting so valuable that they are buying lots for investment.

Ed. and Luther Taylor had some land grubbed last spring, giving the first crop for the work, about three or four dollars per acre. The parties who did the work have cleared over \$100 per acre and are still picking cotton.

John Ray came to us and asked for a small pocket piece of coal. He just wanted it to show to his children and explain what we once used for fuel.

I tried to persuade our people to lay in their winter's coal while it was plentiful and cheap, and now they threaten to deport me for not having it on hand.

Frank Dunn and family motored from New Mexico to be with home-folks for Thanksgiving.

R. D. Pierce and family have returned to their home in Margaret.

J. W. Evans who went to Arkansas to look has returned. He says there is no place like home.

Mrs. Perry and H. A. Wesley have bought lots adjoining and we are looking for the P. O. and the milliner business to consolidate. She will get her stamps free and his cigars and cold drinks will not cost him anything. We can see that this is a good scheme.

We motored to town last Monday with a charming young lady and upon our return we found our good wife packing her belongings. She informed us that she was about to take a little trip herself. We bade her a tearful goodbye on Tuesday and we are desolate. Just for a little thing like that.

POINTED PARAGRAPHS
The railroads need funds for the next three years; so do we.

There has been no strike in the glue factories. Even the workers stick.

Review of wholesale prices shows the smallest net increase since 1913. This is encouraging!

The recent race riot in Chicago cost that city \$160,000, according to the bill presented in the city council.

Idaho farmers are fighting the rabbit. One county recently killed 203,000 in an organized drive.

A Michigan jury recently gave a man \$5000 heart balm when he only asked \$5000. How is that for justice?

An editor in a neighboring state has bought stock in an oil well. This takes him from the ranks of the pants patchers.

With a population of 400,000,000 China has one insane asylum. We'd better send some of our people for a sojourn there.

A doctor of New York City charged a woman patient \$99,568, but as he had to sue for it, the jury only gave him \$5,000.

Japan's naval plans call for 208 warships in eight years at a cost of \$284,000,000. This is a nice peaceful omen for the Pacific.

The coal miners would freeze us and the railroad workers would paralyze us so if the farmers will starve us everything will be complete.

While his tenants were attending a funeral an enterprising landlord of Spokane, Wash., leased their apartment and their wedding presents.

King George has been presented with a golden sword from Arabia 250 years old. As far as fighting goes the King will never need a steel sword.

An Iowa man sold his house for \$1,950 and laid the money on the table. His five year old son laid them in the stove and the fire did the rest.

By a vote of 171 to 84 the British House of Commons gave women the right to sit and vote in Parliament. Where's the old conservative Englishman?

Luis Abitia says man can live 400 years by living on raw vegetables, honey and olive oil, but who wants to live that long on raw vegetables, honey and olive oil?

The government will formally open the Panama Canal to the commerce of the world early in December. The formal ceremony was postponed on account of the war.

Rugs and Linoleum

We have at last received a shipment of rugs. If you want a rug now is your time to get it.

Imperial Axminster, 11-3x12	\$72.50
Imperial Axminster, 9x12	\$59.75
Alpine Axminster, 9x12	\$48.50
Liberty Axminster, 9x12	\$48.50
Jasper Axminster, 9x12	\$50.00
Manor Tapestry, 9x12	\$30.00
Empire Tapestry, 9x12	\$40.00
Gotham Velvet, 9x12	\$37.50
Rockton Tapestry, 9x12	\$25.00
Crex Grass, 9x12	\$24.00
Deltex Grass, 9x12	\$18.50
Willow Grass, 9x12	\$15.00
Linoleum Rugs, 9x12	\$22.50
Congoleum Rugs, 9x12	\$18.85
Linoleum, 6 feet wide, per square yard	\$1.25
Linoleum, 7 1-2 ft. wide, per sq. yd.	\$1.50
Linoleum, 12 ft. wide, per square yd.	\$1.50
Linoleum, 12 ft wide, blue tile, per sq yd	\$1.75
Congoleum, 6 ft. wide, per square yd.	85c

If you want rugs buy now. If you want linoleum lay it on floor before it gets too cold.

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-twofisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Tippy red bags, tidy red tins, handsome pound and half-pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moisture top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter . . . suffered terribly. She could not turn in bed . . . the doctors gave her up, and we brought her home to die. She had suffered so much at . . . time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at . . . Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year. Killing of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too."
E-77
Cardui.

PATIENCE AND MEXICO

The United States does not want to intervene in Mexico. We are more willing for our southern neighbor to manage her own affairs. Our government has manifested its patience many times and it may never have to change its conduct, but the longer Mexico remains a source of turmoil and danger the harder the strain upon our nerves.

Mexico knows that we are naturally opposed to intervention, and capitalizes on this attitude. Lately, it has been stated that great quantities of arms and ammunition have been ordered from European countries, and that Central and South American nations have been questioned as to their attitude in case of war with the United States. Mexico is clearly portrayed as keeping a chip on her own shoulder.

The Mexican problem is beclouded by the fact that in that country are large petroleum and mining interests owned by foreign capital. The policy of the Mexican government is suspected as being directed towards the nationalization of all this mineral wealth, and the subsequent seizing of the interests of these foreigners. Naturally, the foreigners oppose this, but we do not believe the common people of America would want a war to back up capital in Mexico.

The latest phase of the Mexican question comes with charges that it is the fermenting hot for radicalism in our country, that foreign radicals make their way over our southern border. The Mexican consul general at New York wrote a Mexican senator that in the United States "steps are at present being taken by the working classes, radical socialists, honest intellectuals, etc., with a view not only to nationalizing natural resources but to socializing industries in general."

WOULD JUST SIT AND CRY, SHE SAYS

Mrs. R. L. Moore Was on Verge of Nervous Prostration—Gains Twenty Pounds

"Before taking Tanlac," said Mrs. R. L. Moore of 1615 Timwood street, Kansas City, Mo., in a statement, recently, "I was so nervous, miserable and despondent that I would just sit and cry."

"My appetite left me nearly two years ago," she explained, "and my stomach got in such a bad fix that I could not eat anything but what would ferment, causing gas and intense pain. I was constipated all the time and my head ached so bad that I had to use ice on it to relieve the pain. My condition was so bad for months before I began using Tanlac that I was unable to be up, much less do my housework, and I believe I was right on the verge of nervous prostration. I could hardly sleep and no one will ever know how miserable I did feel, because I just can't fully describe it."

"A friend of mine got after me to try Tanlac, but I refused at first, because I had tried everything else and had lost nearly all hope of ever getting well. But she insisted until I made up my mind to try it and before finishing the first bottle I was so much better that I got another and kept on taking it with perfectly wonderful results. I can eat just anything now without the least trouble afterwards and I have actually gained twenty pounds in weight. I have been entirely relieved of headaches, nervousness and everything and can sleep every night as sound as when I was a child. They work in my seven room house is easy for me now, for while I am feeling just fine. Now this is just what four bottles of Tanlac did for me and I certainly do think it is the grandest medicine in the world."

Tanlac is sold by all druggists.

ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylic acid.

THANKSGIVING

The annual day for Thanksgiving will soon be here.

Usually, for the most of us, it is a holiday, an occasion to stage some festival, or to have a good outing.

But, its deeper significance should not be lost sight of. Its primary purpose is to awaken in the minds of our people a sense of the favor enjoyed during the year, and to remind them of the duty their prosperity and contentment should bring.

If you have enjoyed a prosperous and healthy twelve months, don't you owe something to help alleviate the condition of those who met misfortune, who faced disaster, who stand now discouraged and doubtful? Why should you be satisfied and others hungry and wanting? What have you done to deserve immunity from life's hardships?

Thanksgiving Day is a beautiful ideal of prayerful joy over past goodness, and an occasion of dedication for future service to mankind. Do you feel that way about it? Or, is it merely a holiday from a day's usual working.

I am always in the market for wheat, corn, oats and milo maize.—T. L. Hughton.

EXTENDING HUMAN LIFE

Dr. Mayo's statement that it is the duty of the present age to extend the average period of life ten or fifteen years meets with hearty response from laymen. But as often happens, doctors disagree. Dr. William H. Porter, a distinguished New Yorker, disagrees with emphasis, holding that the chief source of decreased mortality is the increased knowledge concerning the hygiene and care of infants.

Dr. Porter does not believe that the Rockefeller Institute for Medical Research, to which we recently called attention, will devote much of its time or of its money, to an effort to discover a cure for tuberculosis and pneumonia, or cancer, holding that the medical fraternity has never been able to secure a specific for these diseases, for the reason that anything powerful enough to kill the germ may be equally destructive to the patient.

We know little about the learned dispute at issue, but we recall the successful fight waged on yellow fever. The long battle began in 1900 when Dr. Walter Reed gave up his life as the price of finding the germ. Others

Don't let your stock lose their summer gain through November neglect. Your animals are now going on dry feed—hay and grain.

It's a big change from succulent nutritious grasses of summer pastures which supply the needed laxatives and tonics.

Give them Dr. Hess Stock Tonic

DO NOT NEGLECT YOUR HENS

Now that eggs are scarce and the price is high see that they get proper attention. Dr. Hess Poultry Pan-ce-a will start your pullets and moulting hens to laying.

We have one of these buggies on the floor now—come in and look them over—they are dandies.

J. H. SELF & SON

took up the struggle, and step by step the dread disease has been driven from one section after another. Headed by Dr. Gorgas the army of plague fighters finally forced the disease back into one or two isolated regions of South America. The war interrupted the attack, but with peace the fight was renewed and now Dr. Gorgas announces that the last plague spot, Guayaquil, Ecuador, has been cleaned up, with the eradication of the last traces of the disease.

This is a scientific victory no less renowned than the battles of the war. In its face few would care to say that no cure can be expected for pneumonia, cancer, or tuberculosis, or that the age of average men will not be materially lengthened. A few centuries ago there can be no doubt that average life was shorter. Today it is around fifty years. Tomorrow it may be seventy-five. Who knows?

MAMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons from Liver and Bowels at Once

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs," for children's use; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "Fruit Laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

MISSION STUDY CLASS

Mrs. Hines Carik was hostess to the Mission Study Class of the Methodist Church Monday, Nov. 17, 1919. The lesson for the afternoon, "The situation in China today," led by our faithful and efficient leader, Mrs. Yoder, was both interesting and instructive. We were favored with special music by Miss Ragland and Mrs. C. W. Thompson. All went away feeling that they were benefitted for having attended the meeting.—Reporter.

Crowell, Texas, November 28, 1919

MARVIN JONES ON ESCH BILL

Washington, Nov. 18.—Confidence that the Esch bill for the return of the railroads would be improved by both the Senate and the conferees of Senate and House was expressed today by Congressman Marvin Jones of the Eighteenth Texas district.

Mr. Jones, who added to the laurels he has recently gained in the House, by his fight against provisions of the bill which would retard the development of the great northwestern section of Texas, declared that while the fight he made had modified the bill, he is still far from satisfied with all of its provisions.

So vicious was the attack of Congressman Jones against certain sections of the bill, that immediately after the Texas Congressman concluded, Congressman Esch of Wisconsin, its author arose, and in a speech sought to rally the Republican majority, which was wavering.

Congressman Jones especially attacked the provisions giving the Interstate Commerce Commission charge of all cars in the United States and also clothing that body with power to forbid the extension of any railroad or the building of a new road.

Calling the attention of the House to the fact that cars were not furnished this year to move the big Panhandle wheat crop, Mr. Jones said the Interstate Commerce Commission cannot be expected to do any better work than did the Railroad Administration.

"I have in my district 53 counties, a district larger than the State of Ohio," Mr. Jones said. "If they need a car to load wheat in each one of those 53 counties and over in Ohio if they have one town that needs 53 cars, if you have the Interstate Commerce Commission passing on where the cars shall go the man or the town in Ohio will get them all, because that man or that town can make a showing, but not a single county in my district

can afford to make the showing, and go to the expense of making it. The far, outlying sections are an integral part of our great nation. They furnish the bread of the nation. The building of a new country involves hardships enough without the additional burden of a trip to Washington for every constructive move with reference to transportation."

Mr. Jones said that formerly a stockman in his district could go to a railroad and demand cars on a certain date and if the roads failed to furnish them they were liable to damage unless they could not get them. "But if you pass this car service bill," continued Congressman Jones, "let a stockman or a wheat man order cars, and if they fail to come, I do not care whether the railroad made any effort to get those cars or not, the railway company will come in with the plea that the Interstate Commerce Commission, in order to relieve a congested center somewhere, ordered the cars to be delivered elsewhere, and the railroads will go scot free."

Mr. Jones told how he had been to the Railroad Administration day after day pleading for cars, and said that he had found out that the job of routing cars is too big a one for any Washington governmental Department.

"Right here I want to pay tribute to my good friends, Frank R. Johnston, secretary of the Panhandle-Plains Chamber of Commerce, and to L. C. McMurry, president of the Panhandle Grain Dealers' Association. But for the fine efforts of these men, we in my district would not have had the measure of relief we have had," Mr. Jones told members of Congress.

Congressman Vaile, Republican of Colorado, admitted that the conditions Mr. Jones described would continue to exist under the terms of the bill as originally drawn. Congressman Knutson, Republican of Minnesota, asked

Mr. Jones if he is satisfied with the control of the Railway Administration.

"No sir; I want the roads returned to private ownership, but I want the law of liability as it was before government control so we can hold railroads responsible for their negligent acts," Mr. Jones replied.

"Again, the proposed section also provides that before a railway can be extended one mile, and before a single yard of new railway may be constructed, the consent of the Interstate Commerce Commission must be secured. A company may have the money to build. The community may need it. But a delegation must get on the train and come to Washington to get permission before they can lay a rail or drive a spike. And if they refuse consent that community must continue to use wagons. Where is all of this foolishness going to end? Since when has it become wise to require the business men to come East to get permission to spend their own money? Gentlemen, this is a national question, but the Nation is interested in protecting the just rights of every locality. The finest way to do that is to leave business and different sections as untrampled as possible. The people of my country know better than any far-off commission when they need and want to build a new transportation line or extend an old one. I have county seats that are 40 miles from the railroad. I love that country and its people, and it is one of my dreams to see new lines of railway throughout that great scope of country. But if this section of the bill remains unmodified I fear that years from now many of our county seats will still be miles from any line of railway."

"All we ask is that you give us a chance—a broad, big American chance."

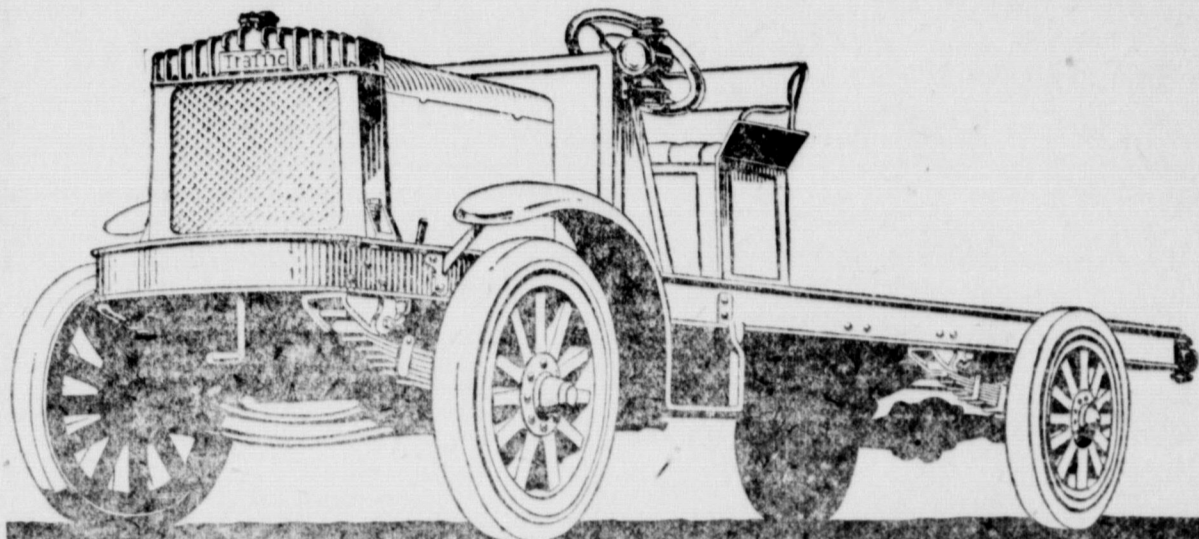

FARMERS TO SELL COTTON

The farmers who listed their cotton to be booked at Crowell, Texas, by Saturday, Nov. 29, 1919, are requested to be in county court room by 2 p. m. said date, then the bid will be given out and you can say whether it is your desire to sell or not. It will be necessary for you to be present with your tickets or have some one to represent you.

Packers' By-Products.

The by-products obtained in the packing house industry may be divided into two classes—the edible and the inedible. The inedible constitute the external covering (hair, horns, hoofs and hides), some of the offal and the bones. From these are prepared a great variety of substances, some of which have developed into enormous industries in themselves, such as leather, soap, glue and fertilizer. The last mentioned represents the ultimate utilization of packing house waste. For example, in the manufacture of buttons, combs, knife handles and spatulas from the horns and hoofs of cattle and sheep and the hoofs of hogs the waste resulting from the preparation of these articles was at one time thrown away, but it has been found that by treating such material with sulphuric acid, the nitrogen which it contains becomes available as a fertilizer.

Tanks May Tow Barges.

When the swords are beaten into plowshares, what is to happen to the tanks? Many people must have asked themselves this question, and C. J. Aubertain's recent article in the London News suggests an answer, for, with slight modifications, the "whippers," at any rate, might well be used as tractors on the towpaths of our reconstructed state canals. The French government, I am told, observes a writer in the Edinburgh Scotsman, has made experiments already in this very direction and has found that a light tank is capable of hauling four fully laden barges at a speed of two miles an hour, which is about twice that of a horse. Mechanical traction has been employed on some of the German canals for some considerable time.

Immunity in a Mule.

An Alabama doughboy had trouble getting with a mule.
"Ah just couldn't take any interest in dat mule. The others were all right. Dis one first crack outa de box, done hit mah finger. Den, while Ah'm 'zaminin' mah finger he ups an' kicks me in de pants. Den dose bush Germans started a gas attack.
"Ah was s'posed to put gas masks on dem mules an' den on me. Ah put masks on two of dem.
"Den I led dis ornery one around in dat gas foah two hours, an' dog mah cuts, nothin' ever happened to dat mule a tall!"

True Service Is the Constant Desire and Effort to Render Every Man His Due.—Justinian

You like to trade at a store where you are so well treated and pleased that you will want to repeat your visits.
At our store an effort is made to render customers this character of service. When we fail to please you, please tell us.
In fact, a druggist's right to exist depends on how well he performs his functions in promoting public health—we never substitute.
We welcome your trade and our appreciation is expressed in best possible drug service and most reasonable prices.

The Owl Drug Store

T. P. REEDER, Proprietor

I want my friends to know that I am now limiting my practice to office work, treating diseases of the eye, ear, nose and throat, fitting glasses and X-ray work.—J. J. Hanna, Quanah, Texas.
C. P. Sandifer reports the sale of the Kuykendall house, known as the East Side Rooming House, to J. T. King. Mr. King will move the lumber to his farm where he will use it in making an addition to his home.
Alonzo Bain came in Wednesday from Dallas to spend a few days visiting his mother, Mrs. G. C. Bain, and many friends. Alonzo has a good position in Dallas. He is one of our boys who has gone to the city and made good in the business world and we are proud of him.
Mr. and Mrs. T. F. Hill returned last Friday from a month's visit with relatives at Ft. Worth, Celina, Longview, Gilmer and Cleburne. They made the trip of 1,400 miles in their car encountering considerable mud. They were accompanied by their little nephew, Frank Perkins.
D. M. Ferebee was here from Vernon Monday and said to a News representative, "My wife said for you to change our paper from Margaret to Vernon." The Ferebees slipped off down to Vernon without saying much about it, but never mind they will be coming back one of these days. They have been too long identified with Foard County's interests to stay away long.

BANQUIT FOR FORMER VERNON EDITOR
The business men of Vernon honored R. H. Nichols, former editor of the Vernon Record, with a banquet at the Bailey hotel last Thursday night. Mr. Nichols has been editing the Vernon Record for the past ten years and has built up one of the best papers in West Texas. He goes to Amarillo where he will be editor of a new daily. He was presented with a handsome traveling bag during the evening.

THE STATE OF TEXAS
To any sheriff or any constable of Foard County, greeting

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

To all persons interested in the estate of C. S. Greening, deceased, Mrs. Edna Greening has filed in the County

Court of Foard County, an application for letter of administration upon the estate of said C. S. Greening, deceased, which said application will be heard at the next term of said court, commencing on the 1st Monday in December, A. D. 1919, the same being the 1st day of December, A. D. 1919, at the court house thereof, in Crowell, Texas, at which time all persons interested in the welfare of said estate, may appear and contest said application, if they see proper to do so.

Herein fail not, but have you before said court, on the said first day of the next term thereof, this writ, with

your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, Texas, this the 12th day of November, A. D. 1919.

MARIE HARRIS,
Clerk County Court, Foard Co., Tex27

THE POOR IN THE COURTS

The Carnegie Foundation, after a careful investigation, of three years, concludes that our courts, under the law, and without bribery, political influence, incompetent Judges, extortionate fees or class domination, operate exactly as they would operate, provided the law of the land read: "Every subject who can furnish a bond for \$15 to \$75 ought to obtain justice, freely, completely, and without delay; to all others the courts are closed."

This is a striking verdict, but we must confess that it is the truth. The rich and the poor do not stand "on an equality" in securing justice, mainly because of delays, court costs, and fees charged by the State and lawyers' fees. Our traditional judicial system is outworn. The conditions under which suits can be brought and conducted are entirely antiquated. This is not due to corruption or deliberate intention. The laws have been interpreted and applied in good faith. But "there is something tragic in the fact that a plan and method of administering justice, honestly designed to make efficient and certain that litigation should result in reaching insuperable obstacles in the rear of those who most need protection, so that litigation becomes impossible, rights are lost, and wrongs go undressed."

The denial of justice is most marked in small cases, where the expense involved is more than the amount involved. A wage earner, with a just claim of ten dollars, has little chance of getting his money if the defendant fights it. The delays and appeals that confront the poor plaintiff pile up cost after cost and at last, assuming that he should win, and without considering the loss of time to him, the attorney fee will take the entire amount if it hasn't been spent on the case. As a matter of fact few attorneys care to handle such claims, as there is no money in them, either for the client or his representative.

In criminal cases delays are more vexatious, as the amount to a sentence of imprisonment for poverty. Suppose a poor man is taken up on some inconsequential charge, an admitted wrong. He has no money to furnish bail. He goes to jail to await trial, and he is a prisoner, to all intents and purposes, until his trial comes off. If he is then sentenced his term of waiting does not count upon his sentence. If he is acquitted his term of waiting hovers in his mind as a dismal nightmare in a place of filth.

In some civil cases the plaintiff, on motion, must furnish bond to indemnify the defendant from a loss, if he should be successful in his defence. This is alright if the plaintiff has the money, but suppose he hasn't? The state forbids a person to right his own wrong, but when such things, as mentioned above, prevent the attempt to secure justice, and places impossible conditions around the poor, it is the imperative duty of the state to provide a means of trial, within the bounds of reason to all persons, regard being had for their financial standing.

Some remedy for the situation outlined must be found. It is not to be considered that a condition can continue, which deprives the poor of justice in many cases. It is a task that all earnest people will take up. It is a challenge to the lawyers of the United States and they cannot ignore the duty upon them to evolve a system wherein the well regulated and subtly refined procedure, and the ingenious intellects of the best practiced lawyers, will never hamper the acquisition of justice.

AMERICA'S UNIQUE PUBLICATION

The Youth's Companion prints week after week the best of everything that is worth while and for every age. No other source will give your family what The Companion furnishes, or so much for the price—less than 5 cents a week.

The Companion creates an atmosphere of loyalty to the family and to the country, of unselfishness and high purpose. It inspires, it suggests, but always entertains. It makes actual life fascinating, and never panders to the trashy or worthless or worse.

No family should miss the pleasure of reading the delightful serial stories by Elsie Singmaster, Cayt. Theodore G. Roberts, and others, to be published during the next year. If you subscribe at once you will receive all the extras mentioned in the following offer:

- 1. The Youth's Companion—52 issues in 1920.
 - 2. All remaining weekly 1919 issues for 1920.
 - 3. The Companion Home Calendar for 1920.
 - 4. All the above for \$2.50.
 - 5. McCall's Magazine for 1920, \$1.00—the monthly fashion authority. Both publications for only \$2.95.
- THE YOUTH'S COMPANION
Commonwealth Ave. & St. Paul St., Boston, Mass.

New subscriptions received at this office.

A responsible financial paper thinks that the sugar shortage will be ended in another fortnight if the housewives continue their enforced economy, although pre-war extravagance will not be possible until after the new crop comes in. The sugar shortage exists in spite of the fact that the country has imported more sugar within the last eighteen months than at any time since the war. The amount imported during the last fiscal year was more than a billion pounds in excess of the year before, and thirteen per cent. more than in 1914. Exports have increased 1,000 per cent. over 1914, showing why there is a shortage.

In New York city last week a ship had 6,000 tons which the agent offered to sell at four cents per pound more than the government price, but when steps were taken to commandeer it, the owners came across with it for the control price. In New Orleans and Chicago, it is said, sugar is being dealt in openly at twenty and twenty-five cents, respectively. This indicates that sugar control is still advisable.

The Last Man

Who said "Sell it for junk" now holds his ears and blinks with both eyes when he sees the same car come from our garage and take to the road like a swift breeze.

It is our work that counts. We MAKE it count.

WAR COST \$337,000,000,000

The Carnegie Peace Employment Organization has computed the cost of the World War as \$337,000,000,000. The author of the report of 338 pages relating to the matter is Ernest L. Bogert, Professor of Economics. All the wars of the 19th century, from the Napoleonic down to the Balkan war of 1912-1913, show a loss of life of 4,449,300 according to this report, while the known and presumed dead of the world war reached 9,998,771.

The money value to each country of the individuals lost is estimated in the report, the highest unit of value on human life being given to the United States where each individual's economic worth is placed at \$4,720, with England next at \$4,140; Germany third, at \$3,380; France and Belgium, each \$2,900; Austria-Hungary at \$2,720 and Russia, Italy, Siberia and Greece and the other countries at \$2,020.

The report puts Russia at the head of the list, with a loss of life reaching over 4,000,000, and an estimated economic loss from this source alone of over \$8,000,000,000. Germany, France, England, Austria-Hungary, Italy, Serbia, Turkey, Rumania, Belgium and the United States appear in the list in the order named. The total property loss in all countries, on land, is put at \$29,960,000,000.

FARMERS MUST STEADY THE COUNTRY, SAYS BARRETT

Charles S. Barrett, President of the National Farmers' Union, addressing a convention of that body at Memphis recently, made the following statement: "Capital is perturbed, even seared; labor is irritated almost to the boiling point. Between the contending elements the public is reduced to that condition of uncertainty which causes it to question where it is going to get its food, its fuel, its clothes. Confronted with these tremendous problems and amidst the ocean of

pent-up human passions now raging, the farmer is the only man who has his feet really on the ground.

"There is a feeling in Washington that something is wrong somewhere, that somebody or something has failed, and, in thinking circles, there is a growing conviction that agriculture must be the intercessor between the warring factions; that the farmer must stabilize conditions and make his great influence felt at this time."

Camel CIGARETTES

CAMELS are the most refreshing, satisfying cigarette you ever smoked! Put all your cigarette desires in a bunch, then buy some Camels, give them every taste-test and know for your own satisfaction that in quality, flavor, smooth-body and in many other delightful ways Camels are in a class by themselves!

Camels are an expert blend of choice Turkish and choice Domestic tobaccos. You'll not only prefer this blend to either kind of tobacco smoked straight, but you'll appreciate the remarkable full-bodied-mildness and smooth, refreshing flavor it provides! Camels are a cigarette revelation!

Camels win you in so many new ways! They not only permit you to smoke liberally without tiring your taste but leave no unpleasant cigarette aftertaste or unpleasant cigarette odor!

Compare Camels with any cigarette in the world at any price! You'll prefer Camel quality to premiums coupons or gifts!

Methodist Church Enters Ypres and Brussels

GREAT MEMORIAL CHURCH WILL BE ERECTED IN DEVASTATED BELGIAN CITY.

Brussels To Be Center of Large Enterprise On the Part of Southerners.

Nashville, Tenn.—A great Methodist Church, erected and maintained by the Methodist Episcopal Church, South, will be erected amid the ruins of Ypres, in Belgium. This was stated by Dr. W. B. Beauchamp, director general of the Centenary Commission, who, with Bishop James Atkins, the bishop in charge of European mission fields, just returned from Belgium.

The city of Ypres, terribly devastated, will not be rebuilt in its entirety. The once magnificent Cloth Hall, the finest in the world, the Cathedral, the town hall, the churches, and other large ruins will be left as a perpetual memorial.

On these the city mayor has caused signs to be erected, reading: "This is holy ground. No stone of this fabric may be taken away. It is a heritage for all civilized peoples."

A City of Memorials.

Ypres is a city of memorials. The British government has selected a site and will erect a great museum as a monument to her fallen heroes.

Similar buildings will be built by Canada, New Zealand, Australia and Belgium.

In the midst of these memorials the Southern Methodist Church will be erected. It will contain a library, reading room and social equipment, in addition to its auditorium and class rooms.

"Ypres will always be a mecca for travelers," said Dr. Beauchamp. "Thousands and millions will flock to that battlefield. Our Church will not only minister to the people of Ypres and the surrounding territory, but it will also serve these visitors."

Great Plant in Brussels.

The Methodists have also purchased a great building in Brussels, which will be their headquarters for Europe. It will contain offices, an auditorium, reading and lecture rooms, a publishing plant and social equipment.

The general secretaries of the two Protestant bodies of Belgium, the state Church and the free Church, will have offices in this building, thus making it the Protestant center of Belgium.

Southern Methodists have also purchased a half interest in the Protestant hospitals of Brussels. It will be enlarged and its capacity will be doubled.

Relief Stations Established.

Dr. Beauchamp reported that thousands of children will freeze to death this winter, because the Germans flooded the mines and filled them with concrete, thus making it impossible for the people to obtain fuel.

"Children with their mothers," said Dr. Beauchamp, "are now living in the abandoned trenches and dug-outs left by the enemy."

In order to cope with the situation the Methodists have arranged to open relief stations at Ypres, St. Quentin, Montdidier, Belgrade and other points.

A full contingent of physicians, nurses, directors and social workers will be sent abroad as soon as they can be found.

The Church has a fund of \$5,000,000 for European construction work. This will be spent in Serbia, France, Belgium, Poland and Bohemia.

Revival Planned For Entire South

Widest Evangelistic Effort Ever Made Will Be Launched Soon.

Nashville, Tenn.—Plans for an evangelistic movement which will cover the entire South and operate in 20,000 churches at the same time are being formulated by the Centenary Commission and the evangelist committee of the M. E. Church, South.

Bishop U. V. W. Darlington is the chairman of the joint directing committee and Dr. O. E. Goddard is the executive secretary.

Standard Plan Made.

The movement will operate according to a standard plan. This plan provides for a preliminary survey of the entire South to discover what persons are not affiliated with any religious denomination.

Dr. A. C. Zumbrennen is in charge of the survey, and he has made preliminary investigations in a large number of typical sections as samples to guide pastors in surveying their own fields.

When these surveys are completed the evangelistic movement will be launched in an effort to interest all non-church members whose names have been secured.

It has been estimated that half a million workers will be enlisted to personally interview the persons who have no church membership.

DELCO-LIGHT

"Electricity for every Farm"

The Delco-Light engine is the valve-in-the-head type—used in the best and most powerful airplane engines and in hundreds of thousands of automobiles.

It is air-cooled—runs on kerosene in any climate—has only one place to oil and has a simple mixing valve in place of carburetor.

The storage battery is exclusively designed and built for Delco-Light with thick plates, wood and rubber separators and many improvements that insure long life.

Delco-Light long ago passed the experimental stage and has gone through the refining influence of three and one-half years of production and of usage by 75,000 customers.

You will find plants in the homes of your community. Just ask your neighbor about his Delco-Light plant.

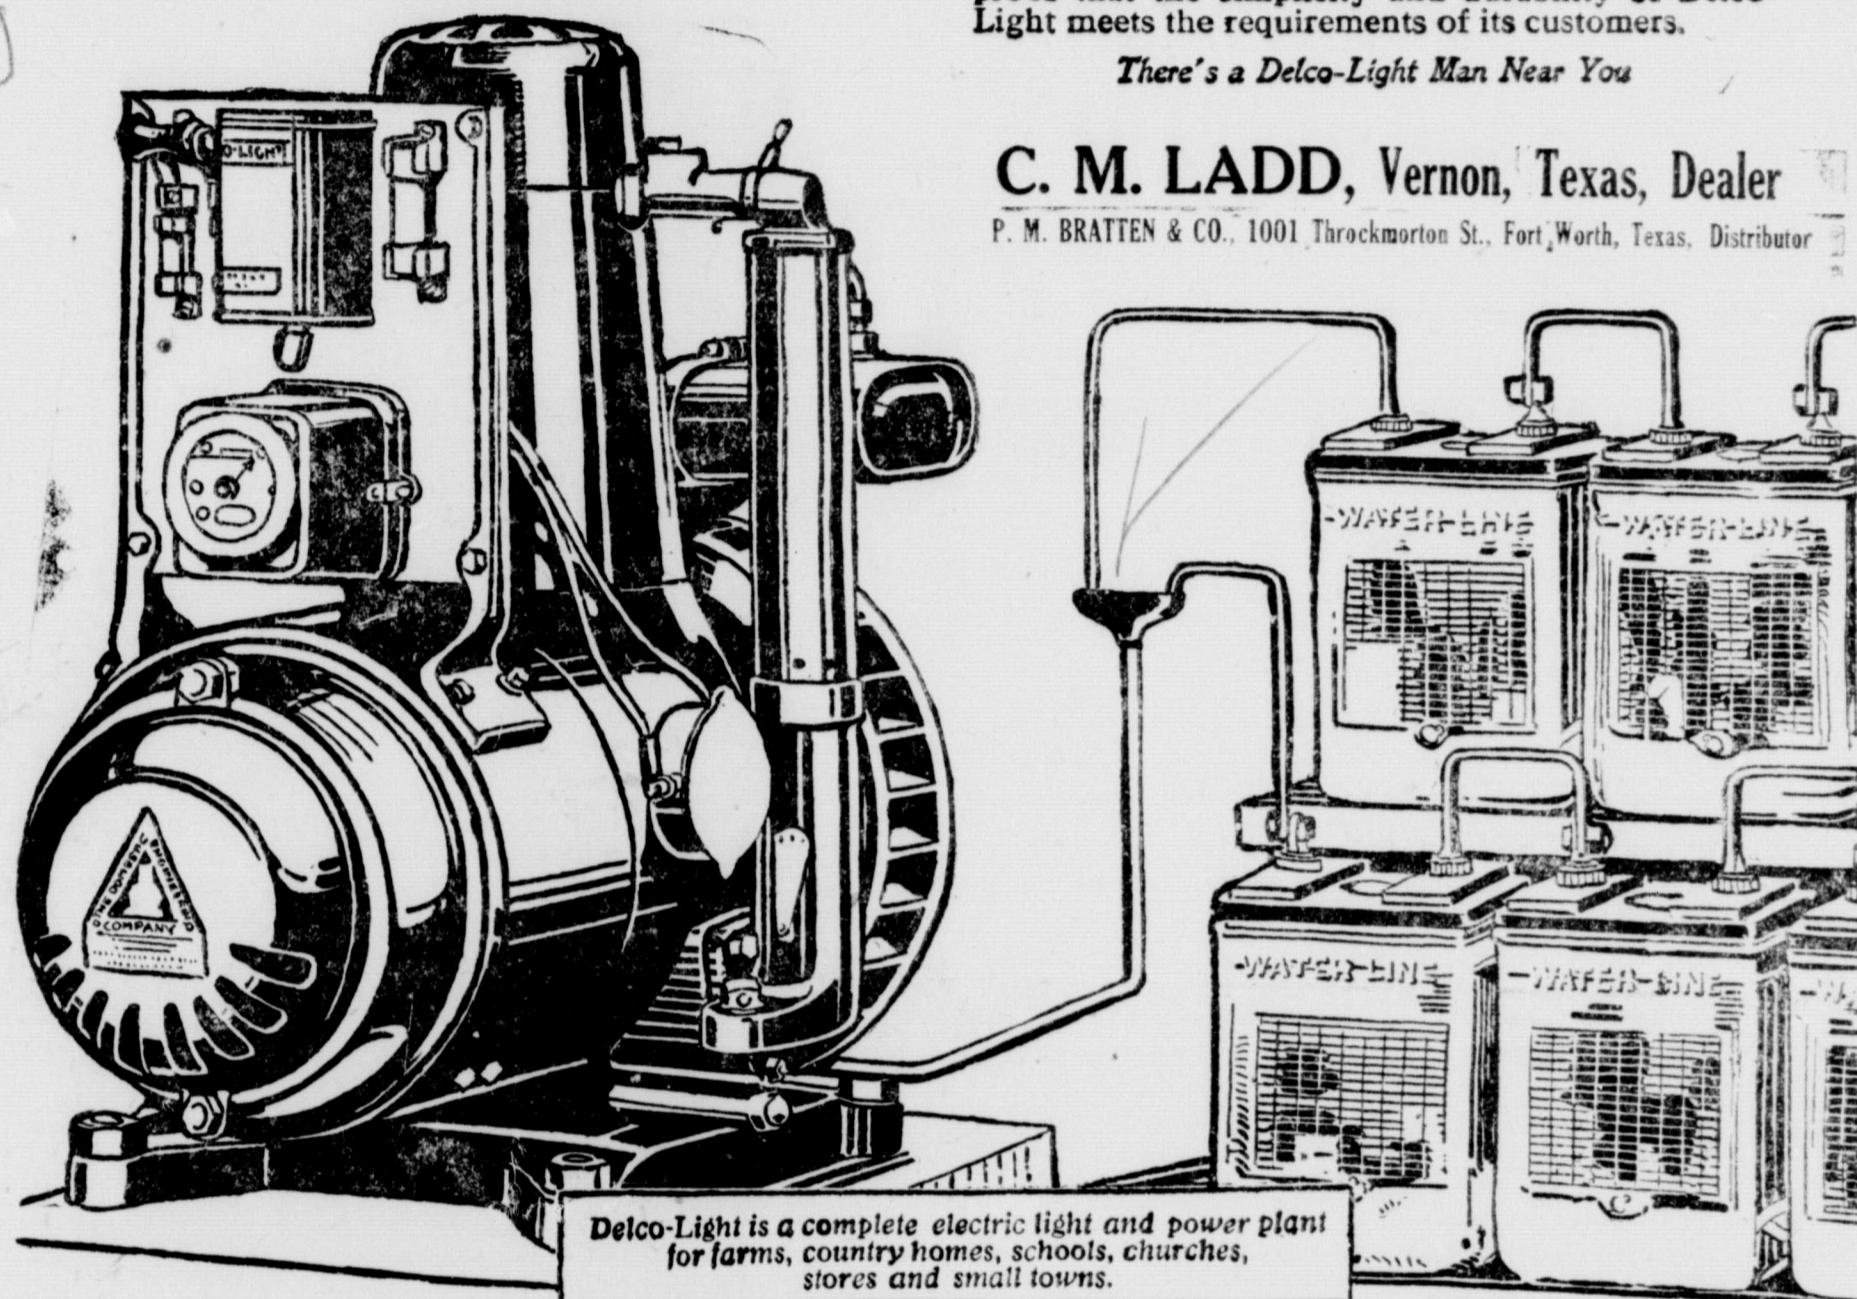

Delco-Light makes happy homes; it saves time and labor, taking away lots of hard, unpleasant tasks. It "Pays for Itself" by the work it does and the time it saves.

Of the more than 75,000 Satisfied Users of Delco-Light, the first are among the most enthusiastic—proof that the simplicity and durability of Delco-Light meets the requirements of its customers.

There's a Delco-Light Man Near You

C. M. LADD, Vernon, Texas, Dealer

P. M. BRATTEN & CO., 1001 Throckmorton St., Fort Worth, Texas, Distributor

Delco-Light is a complete electric light and power plant for farms, country homes, schools, churches, stores and small towns.

THE DOMESTIC ENGINEERING COMPANY, Makers of Delco-Light Products, DAYTON, OHIO

GAVE THANKS FOR ARMISTICE

Fervent Gratitude to God Was First Thought of the Gallant Defenders of Verdun.

The artillery fire died out, and there was a pause that seemed like the sudden end of the world. Then from the 40 bells, high in the towers of the old cathedral at Verdun, pealed forth those silvery tones that proclaimed again, "Peace on earth." The armistice had come.

Slowly the great doors of the cathedral opened and in rushed 600 allied soldiers. Doctor Maurer of the Red Triangle, says a writer in Association Men, quietly walked to the altar rail and knelt there. Captains, lieutenants and soldiers reached for the bell ropes, and he feared the opportunity for religious service was lost. But they saw the lonely figure and came into the choir space. As he rose all was quiet.

"Boys," he said, "I believe we all want to sing and that we ought to sing the Doxology."

At its close Doctor Maurer raised his hands, and Mohammedans, Catholics, Protestants and Jews bowed their heads and fell on their knees. Amid the ruins 600 soldiers knelt—Mohammedans bumping their heads on the stones, Catholics devoutly crossing themselves, and Jews and Protestants with hands clasped, faces shining and eyes lifted.

Doctor Maurer led in that ever-wonderful prayer, "Our Father Which Art in Heaven." He then suggested that the Americans sing "My Country, 'Tis of Thee," while the English sang "God Save the King." At the close of the singing the French soldiers pushed forward and sang, as only Frenchmen can sing, the "Marseillaise."

The French general came forward and took Doctor Maurer's hands. "I want to thank you," he said, "for leading these men on this occasion of grace to offer praise to God for the deliverance of France and for the safety of the world."

The Foard County News only \$1.50

OLD TURKISH TRADE UNIONS

Guilds Formed of Members of Various Industrial Vocations Common in Constantinople.

Whatever may be the eventual government of Constantinople, the countless guilds or corporations created by members of the various industrial vocations followed by the population will probably respond slowly to the change. In Constantinople, says a writer on Turkish life, every trade and calling has its own union, many of which are of long ancestry; the esnaf, or guild, of the shoemakers, for example, is said to have been granted power to judge and punish its own members for public offenses as long ago as the sixteenth century, in return for some service which it then rendered Suleiman the Magnificent. Organized for the common benefit as traders or workers, the members of the guilds are admitted irrespective of race or religion so long as they follow that particular occupation. The business of the organization is conducted in lodges, the officers of which have been held responsible for the good behavior of members. Although future conditions in Constantinople will doubtless modify them, the esnafs will probably continue to be a power.

Schools of Dunkerque.

One of the things that deeply impressed the company of journalists from some twenty different nations who recently visited Dunkerque in a party was the story of the public schools. Dunkerque, although it escaped occupation, was under constant bombardment; the enemy at one time and another had the city under fire by land, sea and air, but, except for a short time in the beginning when the buildings were used for war purposes, the schools of Dunkerque, like those of Reims, continued in session, and new schoolhouses were built. Whenever the city was bombarded, the pupils, big and little, marched to the cellar in orderly procession, and sometimes the entire session was held there. If a schoolhouse was partly shattered,

it was repaired at once, and school promptly resumed; nothing, in short, was allowed to interfere with the continuity of the schools of Dunkerque.

Peanut Now Important Crop.

The peanut has accomplished wonders for agricultural production, and has increased production by acres and doubled the value of land in many sections. It similarly helped Alabama through the crisis when the appearance of the weevil played havoc in the cotton fields of that state. It has done well throughout the South, and Virginia, which formerly stood first in its production, has sunk to fifth place. The peanut oil industry has added to the value of the crop, and this year the total harvest and value were the greatest ever recorded, in spite of a reduction in acreage. The once despised peanut has proved itself a valuable agricultural asset to the South and the country, and the end is not yet.—New Orleans Times-Picayune.

Everyone There Named Levy.

There is a peculiarity about Little Tancook Island, Lunenburg county, Nova Scotia, which is not generally known. Nearly all the residents are named Levy. In fact, only a few years ago all the residents bore that name. In the majority of cases the given or Christian names is taken from the Old Testament. The Levys claim to be direct descendants of the men who followed the fisherman's calling on the shores of Galilee in the time of Christ.

Flower Gardens of Holland.

It was only after the fall of Constantinople in 1453 that Holland became such a gay land of flowers as it now is. Many Dutchmen went to the East during the years of the great crusades, and those of them who loved beautiful things brought seeds with them. When these were planted in the rich soil of Holland such wonderful flowers appeared as had never before been seen in that country. The people became wildly enthusiastic over the new colors and scents and foliage brought to them from the East, and in Holland there sprang up a great love for gardening.

Make Big Gun by Shrinkage Liner.

In making a 12-inch gun at an eastern arsenal the liner tube, 33 1/2 inches long, was finished and rifled before being shrunk into place. Customarily the liner is fire-bored and rifled after the shrinkage operation, and this is declared to be the first time a gun of such large size was ever assembled after the tube was finished.—Popular Mechanics Magazine.

Johannesburg Now Metropolis.

Johannesburg, with a population of 263,274, is the largest and most cosmopolitan city in South Africa. The tastes of the people are varied, ranging from the simplest requirements on the part of the natives to the most cultivated wants. Music of some form is one of the means of satisfying these wants.

THANKSGIVING DAY 1919

Sweetened by the airs of heaven, moistened by its rain and warmed by its Summer sunshine, Mother Earth has yielded up a harvest unsurpassed to make glad the hearts of the the nation, to strengthen the sinews of reconstruction, to fill us anew with love and hope and encouragement, and we are thankful.

We are thankful, too, for the bigness of our nation; for the clean hands, the pure minds and loyal hearts of our people. We are grateful for the safe return of our worrier sons and for peace, the joy, the liberty and freedom which we now enjoy. For the ever increasing wealth of our community, for the success of our neighbors, for the honest friendship of our citizenship we are grateful indeed.

And lastly, dear friends of ours, we are thankful for your patronage, and we take this Thanksgiving occasion to express our gratitude. We can only be glad that

we have been permitted to well serve your needs throughout this season of rapidly rising prices, of difficulties and uncertainties when no merchant knew what the end might be; and that, despite present merchandising conditions we are so fortunate as to have secured such a splendid showing of dependable merchandise as is offered at our store.

In further observance of this season of Thanksgiving, we hope to have an opportunity to express to you each and every one in person our gratefulness for your friendship, your confidence and your much appreciated patronage.

December 15—Last Day

BAPTISTS PLAN TO FIGHT BOLSHEVISM

SYSTEM IS RECOMMENDED FOR PREVENTION OF RADICALISM IN THE SOUTH.

AMERICANIZE FOREIGNERS

Teaching Them English and Ideals of United States and Christianity Is Part of Program of 75 Million Campaign.

Southern Baptists have no sympathy for the I. W. W.'s, Bolshevists and bomb throwers, and while radicals of that type are not numerous in this section of the country as yet, it is the hope of the Baptist 75 Million Campaign to make the spread of such destructive propazanda here impossible by so pervading with the gospel all centers where radicalism might expect to obtain a foothold as to make it impossible for the professional agitators to receive a sympathetic hearing. In other words, it is the hope of the campaign to so extend the work of Americanizing and Christianizing the foreigners living within the territory of the Southern Baptist Convention that they will measure up to the highest standards of patriotism and religion.

There are 4,000,000 persons of foreign birth and children of foreigners living within the territory of the Southern Baptist Convention, and while considerable work has been done already along the line of teaching Americanism and the Christian religion to these people, this work will be greatly enlarged as a result of this campaign.

In the Southwestern states there are 1,000,000 Mexicans, 600,000 living in Texas, 200,000 in New Mexico, 75,000 in Louisiana and a large number in Arkansas, Oklahoma and Missouri. Because of the growing importance of

the Mexican work the campaign has appropriated \$375,000 to it alone for the next five years.

But the Americanization and evangelization of the foreigners is not confined to Mexicans. This work is carried on also among the newly-arrived immigrants at the various Southern ports, among those of foreign birth in the mining districts of Alabama, Oklahoma and Illinois and among other groups of people of foreign birth in Florida, Louisiana, Texas, Maryland and Virginia. Some of the state organizations carry on work of their own among these people, while in many places the program is carried out cooperatively between the state mission boards and the Home Mission Board. In many instances a large work is done by the latter agency alone.

Believing that both Americanization and evangelization can be accomplished most effectively by first teaching the children, Baptist agencies have established schools where the English language is taught, along with American and Christian ideals. Such schools are already being conducted with great success among the Italian and Cuban children at Tampa, Fla., for French-speaking children at Church Point, La., for Mexican children at El Paso and other Texas points, while community center work is carried on extensively at many of these points and at numerous towns and mining centers where people of foreign birth make up a large percentage of the population, the social work of this character being conducted by Baptist women.

Large results are expected to follow the work of the Baptist Bible Institute at New Orleans, where instruction is given in English, French, Italian and Spanish. All foreign-speaking people are required to take some English work and the Bible is taught in certain practical subjects to them in their own languages, thus facilitating their grasp of it. Practical Christian activities are also required of all the students, some of whom are training for foreign mission work and others for service among the peoples of foreign birth in this country. Patriotism and high ideals of Christian civilization are given emphasis throughout the institution and it is the belief of those familiar with its work that it will prove a potent factor in the Americanization and Christianization of the peoples of foreign birth in this country.

PROMINENT MERCHANT FOUND LASTING RELIEF

In a South Carolina county-sent a prominent merchant suffered for years with eczema. Money was not a consideration if he could only be relieved from the terrible itching, burning, and irritation. He scratched his back at nights until it bled, but

the soreness only became worse. He visited Western Springs, and consulted various physicians, but never found a permanent cure until a friend brought Zemerine to his notice. He tried this great treatment, and now sings its praises highly. Zemerine is a wonderful treatment for diseased skin, especially eczema, tetter, rash,

itch, and similar disorders. It is sold upon the fairest basis imaginable—your money will be returned if it doesn't help you after a fair trial. If you can't get Zemerine at your drug-gist send \$1 or 50 cents to the Zemerine Chemical Co., Orangeburg, and a jar will be sent you direct.

Ford
THE UNIVERSAL CAR

Have Ford Mechanics Repair Your Car

The mechanics in our car who will adjust or repair your Ford car, or Ford truck, are men who understand the Ford mechanism and who know the Ford way of making repairs and replacements. They are experienced Ford mechanics and because of their familiarity with Ford cars can do your work more intelligently and more quickly than can other skilled mechanics who lack Ford experience.

The work on your car will be done in a completely equipped shop with time-saving Ford tools and equipment. Whether your car needs an adjustment or a thorough overhauling, we are prepared to give you careful and prompt service. And nothing but the Genuine Ford-made parts and replacements will be used. When the work is finished, the charge will be the reasonable, standard Ford prices.

Our stock of Ford parts is always complete. And our Ford garage and Ford mechanics are at your service at any time. We are Authorized Ford Dealers and not only repair Fords but also sell them. Drive in or 'phone. Be fair to your car and your pocketbook.

FARMERS TURN

DOWN ALLIANCE
Samuel Gompers, head of the American Federation of Labor, invited representatives of the National Grange, a representative body of 600,000 farmers, to a conference in Washington on December 13.

The purpose of Gompers' invitation was to form an alliance between the laborers and the farmers, in order that the two groups, or classes, of our population might place themselves in a powerful position and enforce whatever demands they might see fit.

The evil in the suggestion was that it made an offensive alliance for industrial warfare, and was calculated to secure demands regardless of the justice and righteousness of them, except as reviewed by the two classes making them. The laborers and farmers would do as they thought best, but self-interest is sometimes a thought-controller.

By an overwhelming vote the farmers of the National Grange declined the conference and rejected the alliance offered. In doing this they served both their own interests and that of the public. It is scarcely to the economic advantage of farmers to enable workmen to raise the prices of their implements and needed manufactured products. It is not to the advantage of the public to have any group, or combination of groups, in the nation thinking itself powerful enough to coerce and challenge the entire people.

Professional men and farmers have it within their power to counteract the strike-methods of the labor group, whenever the strike is based upon unjust and unnecessary causes. Usually, a strike is found to be well-founded, but a permanent alliance between farmers and laborers in an offensive agreement would bind the farmers to support every strike, regardless of its inherent merits.

THE BUBBLE IS SURE TO BURST

The world is floating on an expansion. Credit has been strained to its utmost limits everywhere. Inflation is the habit. Business houses, individuals and all, are splurging on an unprecedented scale. Sooner or later, and probably sooner than most of us expect, the bubble of war time inflation is going to burst.

Signs of the coming financial hurricane are not lacking. The Federal Reserve Bank has advanced its rates for rediscounts, and the Bank of England followed suit. Call money on the New York Stock Exchange has brought high figures, fifteen and twenty per cent, being frequently paid for overnight accommodation. A well known New York financial house says:

"Judging the future by the past, the efforts of the world's statesmen and financiers to force liquidation will prove unavailing and inflation and expansion will continue until the bubble bursts with disastrous results. The results are likely to be much more disastrous than usual as the world's present inflation is more extended than ever before."

The action of the Federal Reserve Bank and the Bank of England is regarded as a warning to the commercial and financial world that credit is dangerously strained. Whether the business and financial folk of the world heed the warning in time, or whether they foolishly build dreams of great profits upon further inflation, rests entirely upon the individual man. Unless the great majority of them set their houses in order they may expect disaster in the financial tempest that is certainly coming.

A man's best pal is his smoke

"Let's take it easy for a while"

— Ches. Field

A CIGARETTE that invites you to enjoy a smoke as you never have before—that's Chesterfield.

Not merely fine tobaccos, mind you, though we use the finest of Turkish and Domestic leaf, but an exclusive blending method that brings out hidden flavors—flavors that others have failed to find.

That's why Chesterfields are different. That's why they satisfy. And this method is a closely guarded secret. That's why none but Chesterfields can satisfy.

And Chesterfields reach you in prime shape for smoking always—because every separate package is wrapped in moisture-proof glassine paper.

Liggett & Myers Tobacco Co.

20 for 20 cents

They Satisfy
—and the blend can't be copied

Retrieving Barbed Wire.

The problem of retrieving the buried and broken barbed wire on the battlefields of Flanders and northern France is being tackled by the British war office salvage committee, and a machine for the purpose has been invented and built which is thus described:

One truck and trailer carries the whole of the plant, which can work on the most uneven ground. A stout wire rope with a number of hooks is worked by a winch. As the barbed wire is drawn up it passes through two sets of rollers, and the salvaged metal appears in blocks from one foot to 18 inches square, and weighing from 70 to 80 pounds. For smelting it sells for about \$25 a ton. The staff in charge of the scheme thinks that there are 100,000 tons that can be removed, and if that is the aggregate weight the cost of the 40 outfits said to have been ordered should be amply justified.

MR. DODSON WARNS USERS OF CALOMEL

Says Drug Acts Like Dynamite on Liver and You Lose a Day's Work

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

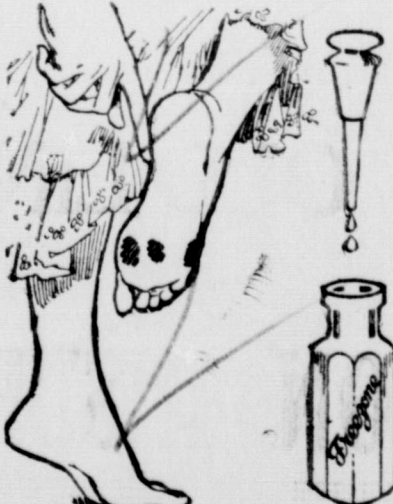

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick, and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

Foard County News \$1.50 per year.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

NASTY COLDS ARE RELIEVED AT ONCE

"Pape's Cold Compound" Then Breaks Up a Cold in a Few Hours

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken

usually breaks up a severe cold and ends all gripe misery. The very first dose opens your clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores.

It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

The New York Girl Scouts are against short skirts, high heels, lip sticks and cosmetics. Each scout is asked to convert three other girls. This may be a good plan, but a better one would be to convert three Boy Scouts.

ANCIENT ACTORS WELL PAID

Researches Show That Oldtime Entertainers Were by No Means Inadequately Rewarded.

Enormous salaries of actors today are looked upon as a modern innovation, growing with the development of the American millionaire and the imagination of the American press agent. Such is not the case, says Robert Mantell, who in his studies in the preparation of his classic repertoire has come across many bits of curious information, observes the Buffalo Express. The Roman actor Roscius, whose name has become synonymous with all that is marvelous in a player, earned a salary which, according to Mr. Mantell, puts that warm friend of Cicero quite in a class with Charlie Chaplin. Roscius drew about \$100 daily in the money of his time, which had a purchasing power equivalent to nearly \$1,000 in United States money, even without the aid of the war and the patriotism of the restaurant men. That brings his annual salary to the half-million mark. Another actor, the tragedian Aesopus, not to be confounded with the writer of fables, and who also was a friend of Cicero, received so great a salary that he left a vast fortune to his son. When Emperor Vespasian repaired the theater of Marcellus he gave the tragedian Apollinaris (whom a Winter garden comedian might dub "the father of waters") \$20,000 to appear there, but the length of his services is not stated. To each of two harpists in the company, Terminus and Diodorus, he gave \$10,000, and no player received less than \$2,000. In addition, he made the actors numerous special presents of money, always gold.

Coming down to more recent times and more modest amounts, but still comparable with salaries of today, David Garrick drew at the height of his popularity \$250 a night. Macready in 1830, when he staged for the first time "Richard III," was paid \$125 a night, and Miss Ellen Tree, about the same period, drew the same salary.

DOG REFUSED TO STAY DEAD

Indianapolis Policeman Found He Had Not Done as Good a Job as He Thought.

Frank Finney, motor policeman, lost his reputation as a marksman the other day after he and his partner, Ben Lansing, had been called to the Coburn Storage and Warehouse company, 211 West Georgia street, to end the suffering of a dog that had been run over by an automobile.

Finney shot the dog, all right, the bullet apparently putting an end to the

animal's suffering. In fact attaches of the warehouse officially pronounced the dog dead, and told the two motor policemen they could return to headquarters, as further services would not be needed.

A short time after the motor policemen returned, an attaché of the warehouse telephoned to Captain Sanders and told him the dog apparently had "come to life again" and was trying to walk. Finney and Lansing were sent back to complete the job. The former, however, refused to take a hand in the affair, contending that he had killed it the first time, so Lansing was chosen as executioner, and the dog was really and finally killed.—Indianapolis News.

The Course of True Love.

"Clarence Spradd has had a spat with that 'ore plump Guggles girl," related Burt Blurt of Petunia. "He bought one of them there fashionable, thin-legged suits of clothes with a belt and a pucker in the back, and expected it would make him look like the swell young fellers in the advertising columns of the newspapers. And the Guggles girl said he looked more like a comic picture in another part of the same paper. He up and told her he'd rather be hung than to marry her, and she said she'd rather he would be."—Kansas City Star.

Ye Old-Time Telephone Girl.

"Time was before the experts came along, and, in vulgar business parlance, 'sold efficiency' to the telephone companies, when the telephone was a real convenience," John Ambruster relates in Everybody's. "The historic instance of a lady who rang up central and said: 'I am just stepping over to Mrs. Brewster's for a few minutes to get her doughnut recipe—she's Main 227—and I'll leave the receiver off so you can hear if the baby cries and let me know.' In my home town we used to ask central where the fire was and who was dead and did she think there was any mall for us."

Nine Months on Warship.

A naval man, home on leave, was discussing Lord Jellicoe's tribute to all ranks who fought at Jutland, and he revealed what seems to the lower deck the highest form of heroism.

It was not the fighting, not the anxious watching day and night—that is what a naval man is there for, he showed.

"I've been 19 years in the navy, but if you'd ever told me before the war that I should ever have lived for nine months on board ship without a break, I should have dropped down dead," he said. "But I've just done it," he added.—London Chronicle.
