IN FT. WORTH HOSPITAL

Dr. H. Clark and Mr. and Mrs. J. the occasion. W. Bell went to Fort Worth last Saturday where Mrs. Bell entered a hospital. On Tuesday she underwent an operation and reports from her on Thursday afternoon indicate that

ACTION PROMISED SOON THAT FEED CAN BE PLANTED

According to a telegram which has been received at the county agent's office, early action is promised in the destruction of cotton which will permit farmers to plant the land in feed and other crops as early as possible. Emergency permit blanks are being rushed to the county agent in order that permits may be issued to those whose contracts have been accepted by the county committee so that they may plant feed. Every farmer, however, is cautioned not to destroy his crop until he has secured a permit giving him the authority

Quota of Acreage Secured A total of 558 cotton rental contracts has been completed and forwarded to the Secretary of Agriculture for final approval. If the entire offering is accepted, the farmers of J. D. Satterwhite, who left Crowell on July 3rd with his two small children to hitch hike to Las Cruces, N. M., where he expects to make his home on a small farm, arrived at Las Cruces July 7th, according to a letter received by The News from Mr. Satterwhite Wednesday. The distance from Crowell to Las Cruces is 743 miles.

Mr. Satterwhite and the children The contracts which have been to start the formal saccepted, the farmers of found County will receive a sum of \$139,452 in cash and an option on 2193 bales of cotton which will be sold later. The optioned cotton, based on the present price, will amount to an additional \$43,860, which will make a total of \$183,312 coming to the cotton farmers of Foard County as a result of the acreage reduction program.

The contracts which have been

es is 743 miles.

The contracts which have been Mr. Satterwhite and the children given represent a total of 44,854 to open a ladies' ready-to-wear establishment on the north side of the square of the s occupied by the Texas Natural Gas Las Cruces and he found it in better ty's five-year lint production average, however, the county committee Will Plant Feed

Can't Eat Can't Sleep Can't Work

A Sign You're Rundown!

When your appetite has fled and you're tired and nervous you can't even work, much less sleep, it's a sign you're rundown. It may be due to overwork, worry or sickness, but whatever it is, your condition calls for a good tonic. There is nothing better than Grove's Tasteless Chill Tonic, for it is iron and tasteless quinine combined. Iron, as you know, is a noted blood builder, while quinine tends to purify the blood. Thus you get two effects of vital importance in any rundown condition.

Old and young find new appetite, new strength and energy in Grove's Tasteless Chill Tonic. Try it for just three days and see the difference it makes in you. You feel like a new person. Grove's Tasteless Chill Tonic is pleasant to take and contains absolutely nothing harmful. Get a bottle today at any store.

THE FOUNDER OF MODERN BUSINESS

When Jesus was twelve years old his father and mother took him to the Feast at Jerusalem. It was the big national vacation; even peasant families saved

their pennies and looked forward to it through the year. Towns like Nazareth were emptied of their inhabitants

except for the few old folks who were left behind to look after the very young ones. Crowds of cheerful pilgrims filled the highways, laughing their way across the hills and under the stars at

In such a mass of folk it was not surprising that a boy of twelve should be lost. When Mary and Joseph missed him on the homeward trip, they took it calmly and began a search among the rela-The inquiry produced no result. Some re-

membered having seen him in the Temple, but no one had seen him since. Mary grew frightened; where could he be? Back there in the city alone? Wandering hungry and tired through the friendless streets? Carried away by other travelers into a distant country? She pictured a hundred calamities. Nervously she and Joseph hurried back over the hot roads, through the superbs,

up the narrow city streets, up to the courts of the Temple itself.

And there he was. Not lost; not a bit worried. Apparently unconscious that the Feast was over, he sat in the midst of a group of old men, who were tossing questions at him and applauding the shrewd common sense of his replies. Involuntarily his parents halted-they were simple folk, uneasy among strangers and disheveled by their haste. But after all they were his parents, and a very human feeling of irritation quickly overcame their diffidence. Mary stepped forward and grasped his arm.

"Son, why hast thou thus dealt with us?" she demanded. "Behold thy father and I have sought thee sorrowing."

I wonder what answer she expected to receive. Did she ever know exactly what he was going to say: did any one in Nazaareth quite understand this keen, eager lad, who had such curious moments of abstraction and was forever breaking out with remarks that seemed so far beyond his years?

He spoke to her with deference, as always, but in words that did not dispel but rather added to her uncertainty. "How is it that ye sought me?" he asked. "Wist ye not that I

must be about my father's business?" His father's business, indeed, as if that wasn't exactly where they wanted him to be. His father owned a prosperous carpenter shop in Nazareth, and that was the place for the boy, as he very well knew. She was on the point of saying so, but there was something in his look and tone that silenced her. She and Joseph turned and started out, and Jesus followed them-away from the temple and the city back to little Nazareth.

A TONSORIAL TALK

I have been a patron of the barber shop for over fifty years am one of the best friends the barber has. That's why I am so my interested in the very best for both operator and customer, in the important field.

I may have mentioned in this column before-that I knew clergyman with the finest "suit" of hair I ever saw; he would n permit a barber's brush or comb to touch his scalp-for fear some sort of carried infection. The more I think of it, the more feel that the preacher was right.

Now I am uncomfortably bald. My more than three-score a ten years may account for it-but I wish I could have kept the hair! Many a barber's brush has showered down on my scalp wha ever was in the instrument. Let me repeat: The barber's hair bro should be kept immersed in a good bowl of antiseptic solution.

Not only that: but, barbers should be zealously guarded their own personal health and condition of blood. In these days rapid transit and mixed customers, too much care cannot be exe cised by men who have such varied contacts as barbers have. It not like to have a workman shave me who has a crop of ugly lesion on his face-and certainly not on his hands!

It would make me leap for joy to see a sign hanging in barbershop, "ALL OPERATIVES HERE HAVE NEGATIVE BLOOD-TESTS." It ought to be the finest of drawing cards for public barber shop or hairdressing establishment.

I ran across a man professionally this week who was "Wasserman plus four," who absolutely did not know how he acquired the ugly condition. Such experience as this sets a man to thinking. We should close every door against dangerous invasion.

550 NEW TUBES AND 250 NEW TIRES ADDED TO STOCK

U. S. Tire Sales Have Been Satisfactory For the Past Month

Although it has been just one month since we added 250 new tires to our stock, it was so depleted that it was necessary for us to add 250 more new tires this week. Not only have we just received these new tires but we have also received 550 new tubes, in order that we may always be ready to fill the wants of our many customers when they are in need of new tires. It is our earnest desire to always have what you want when you want it and we are continually striving to fulfill that ambition in dealing with the people of Crowell and Foard County. If it so happens that we do not have the size tires you need we can get them within three days. We also have many econd-hand tires.

Use Falls Products To Plow Up Cotton

The farmers of this county have given us a very liberal pat-ronage in the use of FALLS Petroleum Products, which we greatly appreciate. According to information reaching us, it won't be but a short time now until the farmers will begin to plow up the cotton that has been contracted to the Government. When this work begins you will need gas and oil and we want to supply you with FALLS Products—the kind that insures smoother operation of your motors and other machinery, and saves you money in operating expense.

Batteries

And don't forget that we have a complete line of HARRISON-SMITH Storage Batteries and we believe you will be satisfied with the service you will get from one of these batteries. Other handy utomobile accessories can found at our station.

-A quality possessed by U. S. TIRES, which will give you 7 to 36 per cent more mileage at no extra cost.

Careful buyers of tires, who want the very best quality at no extra cost, are the type of people that are regular U. S. TIRE customers.

U. S. TIRES have maintained a position right at the top of the tire industry over a long period of years because of QUALITY and FAIR PRICE. And remember—TEM-PERED RUBBER does make a big difference.

Only U. S. Tires carry this mark, "Tempered Rubber."

FERGESON BROS.

Eliminate the Drudgery of Scouring Pots and Pans...

The tedious and never-ending job of scouring pots and pans, you'll agree, is one of the most irksome of household duties. It is a messy, disagreeable job to begin with - and roughens your hands, irritates your disposition and wears out your utensils.

This drudgerous household task can be eliminated once and for all time from your daily routine . . . by the simple expedient of eliminating the oldfashioned cooking method that causes the grime and soot to collect.

... with a Modern Electric Range You Merely Wipe Them off!

Progressive home - managers throughout West Texas have found the superlative cleanliness of modern Electric Cookery one of its outstanding advantages. There's no flame to blacken utensils and cause you hours of disagreeable scouring work. And this same cleanliness also eliminates much of your

other kitchen cleaning. Think of the time and money this will save!

Ask about the remarkable cleanliness of the modern Electric Range. Ask also about the sixteen startling superiorities of Electric Cookery. You'll find that this modern "Electrical Servant" will do more for you than you'd imagine anything inanimate could do . . . and it'll do it all and save money in the bargain! Investigate present LOW PRICES and CONVENIENT TERMS . . . TODAY!

> Call us for an individual investigation of your use of electric service, to determine the cost of cooking by electricity in your home. You may be surprised to know that there are many cases where electric cookery ctually decreases the total of electric and gas bills.

for high commodity prices all over a music box once owned by Abra-

The Dollar Level

There is a decided belief here Herman that, perhaps within a couple of months, perhaps not until the end of the year, whenever the commodity price level reaches a point com-parable with 1926, the dollar will be stabilized at a point probably about 60 percent of its present gold value. In the meantime, the dollar will be permitted to "run loose" A large number of the members and find its own level, in foreign

Prices generally are rising, but average of basic commodities is still more than 30 percent below the 1926 average. Every rise in price has resulted so far in starting up factory wheels and putting men back to work. Every possible effort is being made by the Industrial Recovery Administration to bring industries into line with their codes of fair practice, minimum wages and maximum work hours.

A good many industrial leaders are beginning to show that they do not like the idea of being compelled to cooperate with others in their respective lines.

There probably is more bark than bite in their protests, and there certainly is a bite behind the bark of General Hugh Johnson, who has power under the law to require every industry to take out a Federal li-cense to do business and conform to regulations far more onerous than would be required under vol-

untary agreements. Want Authority

What most manufactureres feel is needed is authority for their trade associations to fix minimum prices and compell all to adhere to them. If they are going to be saddled with higher wages and shorter working hours, they would like to feel assured of profit enough to carry the in-

creased cost of production.

It is being freely predicted here that the Administration will do an about-face on this point and authorize price-fixing in order to hasten the program of reemployment

Rising prices of agricultural commodities so far are held here to be the result of the fall of the dollar more than to any other cause. In the case of wheat, serious drought conditions helped reduce the crop expectation, and that has helped up the price. No such condition obtains in cotton, however, which has gone up proportionately more than wheat, and in which commodity there is a huge unconsumed surplus and the prospect of a larger crop than ever unless the plan for plowing under a quarter of the 1933 crop before picking time begins is carried out.

Making Progress

A permanent rise in cotton prices and all other farm commodity prices must be depended upon reduced production, the Administration holds. As this is written it seems probable that enough cotton growers will accept the Government's offer to lease the acreage which they are asked to plow in, to bring the 1933 crop down to under ten million bales.

The wheat processing tax has gone into effect, and the millers are pass-

ing more than the 30 cents a bushel on to the bakers who in turn are putting up the price of bread by about a cent a loaf. They probably will be permitted to get by with that increase, but the Secretary of Agriculure is on the lookout for any unreasonable rise in retail bread prices and it will not be safe for bakers to try to gouge their customers.
