

THE FOARD COUNTY NEWS

AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, AUGUST 8, 1935

\$2.00 A YEAR EIGHT PAGES

SEVENTY-ONE IN JURY BODY FROM FOARD COUNTY

Seventy-one Foard County boys leave tomorrow for a C. C. C. boarding a train at Quanah. Relief officials have not been held where the newly recruited members of the Civilian Conservation Corps will be sent to camp. Foard County's new C. C. C. members are: Travis Brewer, Loyd Thews and LeRoy Denton. W. O. Dollar, Minnie Hudgeons, Edgar Mercer, Foard City; Thalia; James Meadors, Leon Van Winkle, James Bosley, Porter, Glen Williams, Denton, Arthur Jones, John Vigne, Marvin Williams, Wil Holman, Robert Kelly and Jerry Norris, Crowell; DeWayne Nor, Thalia.

Thalia People Hear Sec. of Agriculture Speak at Amarillo

G. Grimsley of Thalia, Roy of Riverside, Mr. and Mrs. E. Renner and son, Clark, were in Amarillo Monday to hear H. Wallace, Secretary of Agriculture. At his address, the Secretary of Agriculture in President Roosevelt's cabinet, declared farmers entitled to the same benefits and that they should be educated to their rights of a tariff.

He charged that most of the farm debt that the AAA program has from that section which benefited most from the tariff and added "it first should be that tariff give the same benefit to the consumer as does processing tax. Second, we will do away with processing tax if you will do with the tariff."

Farm Debt Adjustment Committee for Foard Giving Voluntary Aid

Foard County's Farm Debt Adjustment Committee for the year consists of C. P. Sandiford, chairman; Hubert C. Brown, secretary; and C. E. Gafford. These accepted the appointment of James V. Allred and succeeded W. Wisdom, Leo Spencer and J. Greer. J. E. Atchison, who appointed Conciliation Commissioner for Foard County last year will continue to serve in this position.

Voluntary farm debt adjustment committees are organized to provide a means, in distressed farm cases, of bringing debtors and creditors together in an informal, friendly manner, in an effort to solve their debt problems. One of the principal functions of the committee is to help stop undesirable foreclosures, which have been defined as one wherein the following factors are involved: 1. The farmer is doing his honest best; 2. His delinquency is due to the many years of low agricultural prices rather than to any fault of his own; 3. He has a fair amount of property, up to his capacity to pay, as limited by the net farm income; 4. He is making proper care of the property; 5. He is properly applying proceeds of production, over and above necessary living expenses, toward paying his creditors in accordance with the principles of security and priority of claim; 6. He has a reasonable expectation of a return to normal conditions; 7. He is ultimately meeting his obligations to the satisfaction of creditors.

OFFICERS FOR COUNTY WHEAT COM. ELECTED

L. H. Williams of Thalia was re-elected president of the Foard County wheat control committee at the annual meeting of this group Saturday afternoon. T. E. Welch of Foard City, vice president, and J. C. Hysinger of Margaret, treasurer, were also re-elected. F. H. Crews of Crowell was elected secretary, succeeding Hubert Brown of Crowell. The county committee meeting followed the annual session of the Crowell community wheat control association. The three Crowell committeemen, F. H. Crews, Hubert Brown and J. J. McCoy were re-elected. Crews was elected chairman to succeed Brown in this position. The other three community wheat control associations had previously elected committeemen as follows: Thalia—L. H. Williams, president; W. G. Chapman, A. B. Wisdom. Margaret—J. C. Hysinger, vice president; Jno. L. Hunter, Jr., A. B. Owens. Foard City—T. E. Welch, president; F. L. Sloan, Glenn Jones.

ment against the debtor for the deficiency therein, are not only delayed, but are permanently taken from him. This cannot lawfully be done." Attention was called, in the opinion, to the similarity of the provisions of the State Act, and the Frazier-Lemke Act (Federal Farm Moratorium Act), which was recently declared unconstitutional by the Supreme Court also relied upon. Two recent decisions handed down by the Supreme Court of Texas, in which the "State Emergency Moratorium Act" and the "Anti-Deficiency Judgment Act" were held unconstitutional, as legislation attempting to impair the obligation of contracts in violation of the Constitution of Texas and the United States.

Foard County Farmer Badly Injured Tues. in Tractor Accident

B. W. Solomon, who lives about 3 miles northeast of Crowell, was seriously injured Tuesday morning on the H. K. Campbell farm when caught between a tractor and plow as the tractor was backing to the plow to hitch onto it. Two broken ribs, two broken bones below the knee of the left leg and other severe bruises were suffered by Mr. Solomon, who was brought to the local hospital for treatment. He has been removed to his home. Dwight Campbell, who was operating the tractor, stated that the clutch failed to disengage and that it was necessary to kill the engine to stop the machine after it struck Mr. Solomon, who was preparing to hitch the plow to the tractor.

Foard Cotton Income 20 Per Cent Higher Result Adj. Program

While the cotton income of Foard County farmers was much less in 1934 than in 1933, and even less than in the disastrous year of 1932, it was more than twenty per cent higher than it would have been had there been no adjustment program, it is announced by Fred Rennels, county agent. The statement is based on official three-year county cotton figures just received from the Agricultural Adjustment Administration. Foard County farmers last year received a total of \$394,935.49 for their cotton of which only \$327,099.76 came from market value. Benefit payments, which are designed to help bridge the gap between market price and parity price in normal years, served as insurance to Foard County farmers in 1934. They received in this way a total of \$67,835.73 through April 30th last. These cotton income figures do not include the value of unsold Bankhead certificates of which about nine million dollars' worth are held by Texas farmers. Foard County cotton was valued on the farm at \$665,923.88 in 1932. It increased sharply in 1933, the previous year, to \$1,387,181.47, including benefit payments. These values are based upon yields and prices as furnished by the United States Department of Agriculture. The benefit payments include all those to April 30, 1935. Commenting on Foard County cotton income for the last three years as revealed in these official figures, Mr. Rennels points out that crop insurance benefit payments for 1934-35 enabled farmers to survive a bad crop year. Nearly seventy-five thousand dollars more was put into local circulation than would have been possible without a program. It is difficult to see how farmers could have maintained their farms and homes and remained customers of merchants last year without the program, he concludes.

commenting on Foard County cotton income for the last three years as revealed in these official figures, Mr. Rennels points out that crop insurance benefit payments for 1934-35 enabled farmers to survive a bad crop year. Nearly seventy-five thousand dollars more was put into local circulation than would have been possible without a program. COUNTY ADMINISTRATION OF RELIEF IS ABOLISHED IN TEXAS; FOARD INCLUDED IN CHILDRESS DIST. UNDER NEW SET-UP

Thalia Supt. Accepts Position at Spearman

W. M. Bralley, superintendent of the Thalia school system for the past three years, resigned this week to accept a position as school superintendent at Spearman, Texas.

CITY EQUALIZATION BOARD TO BE IN SESSION TUESDAY

The equalization board for the City of Crowell will be in session at the City Hall Tuesday to hear complaints of those wishing to show why the valuations on their city property should not be raised. Members of the board, which held its initial session last week, are: H. K. Edwards, Leo Spencer and H. E. Ferguson.

DIRT WORK COMPLETED FOR PEASE RIVER BRIDGE

Dirt approaches to both ends of the new bridge now under construction across Pease River has been completed. Work was finished Tuesday on the new grade from the pavement in Hardeman County to the north river bank. Pile driving has been resumed.

Church of Christ to Open Annual Revival Here Saturday Night

The annual revival of the Crowell Church of Christ will open Saturday night with Elder O. C. Ribble of South Bend, Texas, doing the preaching. Services will be held outdoors next to the church and will be conducted at least ten days. Elder Ribble has preached for a number of the Church of Christ revivals here in past years and his sermons have always proven of much interest in these meetings.

Federal Aid Checks for Texas Teachers Mailed from Austin

Austin, Aug. 3.—Approximately one million dollars worth of checks paying rural teachers of Texas under the federal aid program which enabled nearly 1,500 schools this year to complete a normal term have been mailed from Texas Relief Commission headquarters, State Relief Director Adam R. Johnson has announced. The checks are being sent to the superintendents of the various schools, who will distribute them to the teachers. Schools in 161 counties received such aid. H. A. Ziegler, engineer in charge, reported. By supplying schools unable to complete a full term under their own finances with funds, the Federal Emergency Relief Administration enabled thousands of rural youths of Texas to obtain a normal term's schooling the past year. More than 1,500 school districts applied, and 1,493 projects were approved. A total of 8,764 persons will receive the checks.

NEW MOTOR VEHICLES

New motor vehicles registered in Crowell during the past week follow: Ira Tole, Chevrolet sedan; Howard Huggins, Plymouth sedan; J. R. Self, Chevrolet sedan; D. E. Todd, Chevrolet sedan. Efforts of delegations from Floyd and Lamb counties to secure action from the State Highway Department in paving Texas Highway No. 28 across these counties should prove of interest locally. This 255-mile highway, which crosses Foard County east and west, is now an all-weather route except for Lamb and Floyd counties, and prospects are now favorable for paving contracts in these counties. Beginning at the Texas-Oklahoma bridge northeast of Oklaunion there is a continuous strip of pavement westward for a distance of about 124 miles. Proceeding through Vernon, Crowell, Paducah and Matador, the pavement now ends at a point about 7 miles west from Matador. From that point in Motley County to the Floyd County line, the highway is over natural gravel. Recently new grade and drainage structures were completed entirely across Floyd County. A continuous strip of concrete in Hale County, through Plainview, on Highway 28 connects the two unpaved counties, Floyd and Lamb. A short distance from Clovis, N. M., Highway 28 connects at Muleshoe with Highway No. 7 in connecting with this New Mexico city. Continuous Pavement Important A continuous strip of pavement across Texas on Highway 28 is of major importance in attracting a great amount of additional national tourist traffic. U. S. Highway No. 70, extending from the At-

Wedding Ring Lost Over 40 Years Ago Recovered Recently

A wedding ring lost over forty years ago was recently found, thus contributing one of the major pre-golden wedding anniversary events for Mr. and Mrs. Tom Murry of Richland Springs, San Saba County, who have been visiting Mrs. Murry's sister, Mrs. W. W. Nichols of the Black community, and other relatives and friends in that community. When they were married Aug. 12, 1885, Mr. Murry gave his bride the ring, which was lost about six years later by their first child, George, at the age of 5. Just recently the 26-year-old son of George found his grandmother's ring, which his father had lost nearly 45 years ago. The 22-carat gold ring, was still bright and in good condition when found in the field near Richland Springs. Naturally, the golden wedding anniversary celebration Monday will be made happier as a result of the unique discovery.

Abolishment of county administration of relief in Texas has been announced by Adam R. Johnson, State relief director, however, county offices will continue to operate until they have been replaced by the 38 district offices being established over the state.

Bryan O'Connell, Foard County relief administrator, announces that the local relief office will cease its present functions on Thursday, Aug. 15. After that local relief will be directed from Childress, headquarters of District 12-B, with A. W. Long as administrator for the district which includes the following counties: Foard, Childress, Cottle, Hardeman, Haskell, King, Knox and Stonebowl.

Under the new set-up, allocations will continue to be made to counties, but funds will be disbursed from the district offices. County relief boards will be continued as advisory bodies. Case workers will be maintained in the counties after district administration is set up and clients will not have to go outside their own county to obtain relief.

The state relief director, Mr. Johnson, explains that curtailment of administrative costs in line with the reduced program of the Federal Emergency Relief Administration, which is being partly supported by the Works Progress Administration, necessitated the business end of the 253 county administrators, whose staffs will administer relief over a much wider area. The 38 districts are outlined according to the pattern of the Works Progress Administration districts in the state, with each WPA district, with a few exceptions, divided into two FERA districts. Wichita Falls is headquarters for the WPA office of the district which includes Foard County.

Thalia Methodists Begin Revival Meet

A revival of two weeks was started by the Thalia Methodist Church last Sunday. Rev. J. H. Sharp of Stanton, Texas, is doing the preaching. Everyone is invited to attend the services. Examinations to determine whether eligible prospects will be physically able to engage in relief projects of the Works Progress Administration are being conducted in Crowell this week. Relief roll clients are being transferred from the Emergency Relief Administration rolls to the WPA rolls where they are expected soon to obtain work on projects created through the \$4,800,000,000 work fund, \$50,000,000 of which has already been allotted to Texas. In order to receive benefits of work under the WPA, relief roll clients must be certified as to eligibility for work and be registered with the U. S. Employment Service.

MOVE TO KNOX CITY

Ralph Gillette, who has been employed in the parts and bookkeeping department of Self Motor Co., left Monday for Knox City to accept a position with the Maluf Motor Co., Ford dealers of that city. His wife and little daughter will join him later. Marion Seif, who has been employed with Bursley-Loug, Implement Co., has taken Mr. Gillette's place at Self Motor Co.

PROSPECTS FAVORABLE FOR ALL-PAVED ROUTE ACROSS TEXAS ON NO. 28; WOULD INCREASE TOURIST TRAFFIC IN FOARD

Efforts of delegations from Floyd and Lamb counties to secure action from the State Highway Department in paving Texas Highway No. 28 across these counties should prove of interest locally. This 255-mile highway, which crosses Foard County east and west, is now an all-weather route except for Lamb and Floyd counties, and prospects are now favorable for paving contracts in these counties. Beginning at the Texas-Oklahoma bridge northeast of Oklaunion there is a continuous strip of pavement westward for a distance of about 124 miles. Proceeding through Vernon, Crowell, Paducah and Matador, the pavement now ends at a point about 7 miles west from Matador. From that point in Motley County to the Floyd County line, the highway is over natural gravel. Recently new grade and drainage structures were completed entirely across Floyd County. A continuous strip of concrete in Hale County, through Plainview, on Highway 28 connects the two unpaved counties, Floyd and Lamb. A short distance from Clovis, N. Texas Co. Cements Oil Test Tuesday

After topping an oil sand, casing was cemented Tuesday morning at a depth of about 3,540 feet in the Texas Company's No. 8 Johnson-McAdams oil test, about 18 miles airline west of Crowell. After letting the cement set, operations at the test will likely be resumed the latter part of this week. Haliburton equipment from Olney was used in the cementing work this week. This test is located about 1,400 feet east and 110 feet north of No. 6, the field's last producer. The well came in flowing 2,000 barrels of a heavy gas flow, estimated at 5,000,000 cubic feet. The formation of sandy lime was topped at 3,546 feet and was penetrated to 3,581 feet, when it blew in and flowed naturally until closed. The field's four producers are Nos. 3, 4, 5 and 6, and are located in Foard County, No. 7, located approximately 1,500 feet across the line in Cottle County, was abandoned as a dry hole at a depth of 3,894 feet early in April. A breakdown halted operations this week at the Cowden-Fagradan & Lindsay No. 1 Dallas Stock Land Bank test, about ten miles southwest of Crowell.

FOARD WELL REPRESENTED AT ANNUAL SHORT COURSE

Nineteen persons from Foard County were present for the annual A. & M. Short Course that was conducted at College Station last week. Over seven thousand people from every part of the state were present for the course in setting a new attendance record. Those attending from Foard County were: Mrs. C. M. Carroll, Mrs. S. E. Tate, Mrs. J. L. Hunter, Jr., Mrs. Earl Davis, Mrs. W. A. Dunn, Misses Annie Mae Hall, Frances Garrett, Dorothy Garrett, and C. D. Haney, J. C. Taylor, Weldon Hammonds, R. M. Gregg, A. L. Davis, H. R. Zelig, E. V. Halbert, F. L. Rennels, R. W. Bell, Miss Myrna Holman, home demonstration agent, and Fred Rennels, county agent.

REVIVAL AT GILLILAND

A Church of Christ revival meeting will begin at Gilliland Monday evening, Aug. 12, with Evangelist L. C. Utley of Shawnee, Okla., doing the preaching. Services will begin at 8:15 each evening.

Local Grocery Will Move to Wink, Tex.

Mrs. G. F. Elliott, Dow Miller and Bill Elliott, owners of the M System Grocery in Crowell will leave in about ten days for Wink, Texas, where they have leased a building for the purpose of establishing a new grocery store. They will move stock and fixtures from their local store to the new location. Wink is an oil-field town located near the southeast corner of New Mexico.

BUILDING LEASED

The Self building in which the M System Grocery is now located has been leased by John Kellog of Thalia, who will start a variety store in it shortly after the removal of the grocery from here to Wink, Texas.

Trades Day Events Entertained Many People Here Mon.

A large crowd was in Crowell Monday for the regular monthly Trades Day. The program of entertainment was featured by Model "T" Ford races, a slow race and water fighting. Several cars were entered in the races, which were conducted in heats, followed by the finals in which the winners of each heat competed. Mark Saunders won first in the Model T race and Floyd Roberson, second. R. H. Sikes won first place in the slow race and Merrill Allee, second. D. R. Magee, Bill Dunn, Claude Dodd, George D. Self and Amos W. Lilly entertained the crowd with a water fight on the northeast part of the court house lawn, using equipment of the local fire department. First prizes of \$2.00 and second prizes of \$1.00 were awarded in the auto racing events.

Hydraulic Hoist and Greasing Equipment Installed by Roberts

Greasing service was started this week at the Roberts Service Station following installation of the most modern type of "Globe" hydraulic hoist at the station last week. A concrete floor, 15x22 feet, was poured about the hoist, making it possible to also use the hoist for car washing. Alemite greasing equipment has been secured. A grease gun, generating a pressure of 6,000 pounds, is used in greasing work. It has attachments for any make of grease fittings. Jno. C. Roberts, owner and manager of the station, states correct greasing will be one of the features of his station's service and that service in this respect will be as good as can be secured in the state. New machinery and equipment costing near one thousand dollars have been installed at the station recently, including an 80-gallon capacity air compressor of the latest type.

Crowell School Board Adds 2 New Teachers; Mrs. Lanyon Resigns

The resignation of Mrs. Kenneth Lanyon of Holdenville, Okla., as English instructor in Crowell High School was accepted Monday night at a regular meeting of the board of trustees of the Crowell Independent School District. Mrs. Lanyon had faithfully served the local school system as a teacher for the past ten years or more. At the close of the past school term she moved to Holdenville. Mrs. Lewis Sloan and Miss Elizabeth Kincaid were employed to teach in the local system during the 1935-36 term. I. T. Graves, superintendent, will assign them to their positions in the local schools later. The addition of two new teachers was necessary as a result of the resignation of Mrs. Lanyon and the transfer of about 30 Margaret High School students to the Crowell district.

THALIA SCHOOL BOND ELECTION ON AUGUST 31ST

An election will be held in the Thalia Consolidated Common School District No. 3 on Saturday, Aug. 31, to determine whether or not bonds of the district in the amount of \$15,000 shall be issued. Should the bond issue carry, funds from it will be used in the construction of a proposed combination vocational building, gymnasium and auditorium. An application for a PWA grant on the project has already been made by the Thalia school board. O. R. Walker of Lubbock was employed as architect following a mass meeting at the school on July 25, at which time a large majority of about 60 persons present in an indication vote expressed themselves in favor of the proposed construction program. The proposed new building would be of brick and the construction would provide a combination gymnasium, auditorium and space for home economics training for girls and industrial education for boys. The auditorium in the present building would be made into class rooms in case the proposed new building is constructed. An official notice of the election appears elsewhere in this issue.

Many Independent Rigs Used in Foard During '35 Harvest

A larger number of independent threshing rigs were in operation in Foard County during the recent wheat harvest than in several years, the total number being 17 or possibly more. One of the rigs finished its run for the season Monday, which probably ended the 1935 grain harvest in Foard County. So far as The News has been able to learn, the following operated independent outfits in the county this season: Lee Whitman, M. F. Crowell, O. H. Hillman, J. H. Ward, Hubert Brown, Robert Long, Jim Nix, Virgil Smith, Dr. R. E. Main, A. B. Wisdom, M. Moore, Hackberry Threshing Co. (Vivian), B. H. Collier, C. W. Carroll, W. E. Hunter, Hysinger & Reithmayer, and S. B. Middlebrook. It is estimated that at least one-third of Foard's 1935 crop was threshed by independent rigs, which carried their own cook shacks and workers from field to field. The standard threshing rate was ten cents per bushel for wheat and five cents per bushel for oats. The standard rate for combining was \$1.50 per acre.

Haney-Razor Stock Is Combined With Cash-Way Grocery

T. S. Haney and John Rator, Crowell grocerymen since April, 1924, have combined the stock of the original Haney-Razor Grocery on the north side of the square, with their Cash-Way Grocery in the Thacker building on the northwest corner of the square. Haney and Rator started operation of the Cash-Way store in January, 1934. The business is now operating on a cash basis under the name of "Cash-Way Grocery and Market."

FOARD BOY INJURED

Howard Gamble, 15-year-old son of Mr. and Mrs. J. L. Gamble of the Thalia community, received a fractured collar bone and severe head bruises when he fell from the bumper of a car Saturday night near the home of Bert Abston in the Rayland community. He was taken to a Vernon hospital and is recovering satisfactorily.

ACCIDENTALLY SHOT

Alton Hubbard, former resident of Crowell and nephew of H. D. Poland of this city, is slowly recovering from severe wounds received recently when accidentally shot while hunting near Richmond, Calif., according to word received this week by Mr. Poland.

BIRTHS

To Mr. and Mrs. Samuel David Simpson, Foard City, Aug. 1, a boy, Sam Christopher. To Mr. and Mrs. Homer C. Ketchersid, Crowell, Aug. 5, a girl, Charisea Gaynell.

Legionnaires Invited to Attend Meeting at Wichita Falls Sunday

All Legionnaires and ex-service men of Foard County are invited to attend the meeting of the Rank and File Club that is to be held Sunday afternoon at 1:30 o'clock in the Veterans' room of the Memorial Auditorium at Wichita Falls. Tom Sawyer of Quanah, chairman, reports that some very vital information will be given out and exchanged at this meeting.

Items from Neighboring Communities

GAMBLEVILLE

(By Opal Carroll)

Officers of FOARD COUNTY HOME DEMONSTRATION COUNCIL Mrs. A. L. Davis, Chairman Mrs. H. H. Beggs, V. Chairman Mrs. Tom Russell, Secretary-Treasurer Miss Myrna Holman, Home Demonstration Agent

WARDROBE WORK

Last week four summaries of wardrobe demonstration work in Foard County were published in this department. The final summaries in this series follows:

Mrs. C. R. Dodd

"With her goal set as a place for everything and everything in its place," Mrs. C. R. Dodd entered the wardrobe demonstration contest for her club. She now feels that she has gone quite a way toward reaching that goal. To begin with she had a closet 34 inches deep, 65 inches long and extending to the ceiling. This had a clothes rod and two shelves on one side and five shelves on the other. The first move toward improving the closet was removing the clothes rod and putting them above the others. This conserved all of the shelf space and at the same time gave room for a rod for the children's clothing under the remaining shelves. Mrs. Dodd tells what each shelf is for. "The one above the rod is for hats, the next for linens and the two upper ones for suits. Above the rod on the opposite side is a shelf for material to be sewed, and boxes for lingerie and hose. The one above for quilts and the top one for odds and ends." Hat racks were made from cardboard and fruit jars. A shoe rack extending the entire length of the closet and accommodating ten pairs of shoes was made. The total cost of improvements was 30 cents. Twenty cents of this was spent for two towel racks which were placed on the door for ties and belts, and the other ten cents for a strip of quarter round used on the shoe rack.

Mrs. Raymond Sikes

The pattern fit, so Mrs. Raymond Sikes, wardrobe demonstrator for the Margaret Club saw one special reason for trying on the dress she made for the recent contest. She stated that she cut out the waist, sewed it up, sewed it on to the skirt and hung the dress in the closet without ever trying it on. When she did put it on she was satisfied with the fit. Mrs. Sikes improved her closet by adding hat and shoe racks, hangers, rearranging a shelf, and papering it throughout.

Mrs. E. A. Dunagan

As the result of a move Mrs. E. A. Dunagan of the Gambleville Club found herself a second year wardrobe demonstrator without a closet of any kind. Plans were made at once for a larger and better one than she had had. This was done at a total expense of \$2.00. It was built seven by four feet and extended to the ceiling. One board and one piece of sheet rock was bought and some orange crates and board boxes used. The closet is fully equipped with five shelves on one side and a long one above and plenty of shoe and hat racks. It was papered inside with light paper and the outside to match the room. Mrs. Dunagan says that in her wardrobe work this year she has helped make foundation patterns in two different clubs, made one for a non member, and is to make two others soon.

Mrs. W. B. Jones

"I now have two standard closets built in," says Mrs. W. B. Jones who has just completed her second year as wardrobe demonstrator for the Foard City H. D. Club. "The new one that I built this year is 24x47 inches, with a compartment at the top with outside door to be used for bedding. Inside the closet on one end I have four shelves. A rod for dresses and coats extends the length of the closet. It has space enough for holding shoes, hats, purses, folded garments, and other articles. The closet is finished inside and

Mrs. A. L. Davis

Ninety-nine garments including coats, dresses, underwear, and smocks have been made by Mrs. A. L. Davis, second year demonstrator for the Good Creek Club, during the past year. She says, "My foundation pattern has been my only guide in sewing for myself. I have used it to make jamas, petticoats, smocks and dresses." Mrs. Davis had built in a standard closet last year and equipped it with shelves, two rods, shoe hat racks, and other conveniences. This year she painted the shelves white, thus adding a lot to the appearance.

Measures to Prevent Food Contamination Urged by Officials

Austin, Texas, Aug. 7.—It is a matter of vital importance, particularly during the warm summer season, that sanitary measures be applied to prevent the contamination of perishable foods, stated Dr. John W. Brown, State Health Officer. Various intestinal disorders result from food which has in some way been rendered unwholesome.

Perishable food, if contaminated, endangers human health. This hazard is greater in warm weather, because germs or their products multiply or develop more rapidly at high temperature. Some of the most valuable foods are of perishable nature. Such foods demand the exercise of safeguards. Among well known precautions, which need to be used if perishable foods are to be kept wholesome, are the fol-

THE PUBLIC FRIEND

We have heard much of late about the Public Enemies. The United States government is purchasing certain conspicuous characters whom it declares to be Public Enemies, and it has disposed of several conspicuous figures in that class. There is a whole army of Public Enemies with whom the country has to contend, and many of them have never seen the inside of any prison. Meanwhile we should recognize that we also have a great many public Friends, as well as Public Enemies, and warm tributes should be paid them, and people should be encouraged to qualify for this class. What are the characteristics of the Public Friend? The Public Friend believes he must take some share of the labors of carrying on community work in his home town. If he is asked to take some office in some good community organization, he does not say, "O, no, I could not possibly do anything like that." You find him taking up tasks that are more or less distasteful. You will probably see him at your door some night, offering you an opportunity to give money to some good home town cause. The Public Friend is interested in everything that promises progress for his home town. He attends meetings and gatherings considered to discuss local problems. He offers suggestions when he can see things that should be done. The Public Friend makes his purchases at home whenever he can, which is practically always. The Public Friend always speaks good words for his home town. He does not think it smart or funny to take a superior attitude and point out its defects, but he always speaks of its kindly and friendly spirit, and the public institutions built up over years of labor. We have many of these Public Friends in Royal Oak. — Tribune, Royal Oak, Michigan.

DEFEAT NO. 7

We believe that when the voters go to the polls on Aug. 24 they should vote to defeat Amendment No. 7 as its adoption could have a dangerous effect upon the free schools of the state. It proposes to furnish free text books to each child of scholastic age, whether they are attending the public schools, or not. Children who attend the public schools of our state are already getting free text books. If this amendment carried the State would be required to furnish free textbooks to private and church schools, over which the State has no control whatever as to qualifications of teachers, standards of instruction, subjects taught, or even the care and use of books which the amendment would furnish them free at the expense of the taxpayers of the state.

It also proposes a change in the present method of distributing the state available school fund by eliminating the per capita census

basis of equality and fails to specify any other constitutional method of distributing state funds, which makes possible political rivalry and constant juggling of the available school fund, giving the legislature power to change year after year the plan or method of distribution. It will also make possible unequal distribution of this fund as between counties or even districts within the same county.

The present plan of distributing the state school funds is an equitable and successful one over a long period of years and we are not in favor of trying a new one that we know nothing about. A vote against Amendment No. 7 on Aug. 24 would no doubt be one in the interest of the public schools of our county and state.

"Honor thy father and mother." But do not always imitate them. Here might be found the answer to the burning question of the day—"What's the matter with the young people?" The youngsters are O. K. and as a rule follow the example set by their elders.

Folks are so meddlesome. When an Indiana man was peacefully supporting two wives on \$35 a week the neighbors up and had him arrested for bigamy.

The old fellow who used to serenade his girl with a guitar has a grandson who gets quicker results with an auto horn.

A Flemish scientist declares that talking is less fatiguing to women than to men. Those scientists are simply finding out everything.

Like a hard-boiled egg, a supposedly hard-boiled man is usually yellow inside.

Many persons are eager to learn about business—especially other people's.

A girl's idea of a perfect man is subject to frequent revision.

A SERVANT OF MANKIND

To have been the means of saving even one human life is a most worthy accomplishment. How splendid, then, to have been the discoverer of a method of saving the lives of countless thousands, not only of the past and present but of generations yet unborn.

Such was the service to mankind rendered by Sir Joseph Lister, famed English surgeon, the 100th anniversary of whose birth was celebrated at Westminster Abbey in London and was noticed by scientific men and the public in every civilized land.

Our own Public Health Service in a published statement called attention to Lister's service to humanity through his discovery of the efficiency of carbolic acid as an antiseptic in the treatment of wounds and in preventing infection after surgical operations. Before

Lister's discovery hospital gangrene was common, and operations were frequently followed by erysipelas, blood poisoning or lockjaw. The highest surgical skill was set at naught by these accompanying causes of suffering and death. As a result of Lister's methods it became possible to extend surgical treatment into fields formerly inaccessible, including abdominal, chest and brain surgery.

Another epoch-making contribution to surgery by Lister was the employment of "catgut" in sewing up breaks of human tissues, instead of silk. "Catgut" stitches are finally absorbed whereas the silk remained as a source of possible future irritation or of abscess formation.

In recognition of his eminent services, Lord Lister received many honors. He was president of leading British scientific societies, was created a baronet in 1883, raised to peerage in 1897, and was made an original member of the Order of Merit institute in 1902. He died in 1912 at the age of 85.

VOLCANIC TERRORS

In the far away Malay Archipelago thousands of natives stand daily in dread of disaster, for the mighty volcano, Krakatao, is belching lava again. And Krakatao once staged the most stupendous eruption of recorded history.

It was in 1883 that this volcanic island, after two centuries of repose, blew up on August 26 with a roar that was heard 3,000 miles away. The nearby island of Rakata was half blown away, and great sea waves, 75 to 100 feet high, were sent rolling in all directions, affecting the tides practically around the world.

Seacoast towns throughout the archipelago were inundated by the tidal waves, and it is estimated that 40,000 persons perished. Ashes were thrown to such a height that they drifted all over the globe, causing weird sunset effects in all latitudes for months afterward.

Following this, Krakatao was quiet for 45 years, but since 1928 it has shown signs of activity at intervals. Whether the present eruption is the forerunner of another tremendous upheaval can not be foretold, but it is no wonder that the Malays are in terror.

While scientists have learned much about volcanoes in recent years, they are never certain of what one may do next. Vesuvius was thought to be extinct for many centuries before its first recorded eruption in the year 79, when it destroyed the towns of Pompeii, Herculaneum and Stabiae, with great loss of life. Many eruptions have occurred since, one in 1906 killing 2,000 persons and doing enormous property damage.

Still, people continue to live in the shadow of these death-dealing monsters, hoping for the best while fearing the worst.

MONKEYS IN DEMAND

Laboratories equipped for the production of poliomyelitis vaccines have been busy of late, due to the epidemic of the disease, commonly called infantile paralysis, in North Carolina and Virginia.

The vaccine most used is that developed by Drs. Brodie and Park of New York, and made from the crushed spinal cords of rhesus monkeys infected with the disease. Each monkey yields only about ten doses, and two doses are necessary for the treatment of each child.

As the treatment is preventive only, it should be given to all children in the area in which an epidemic occurs. More than 3,000 doses have been given to children in the epidemic districts, but it has been impossible to produce the vaccine in sufficient quantities to meet the demand.

At present only about 350 monkeys can be handled each month, but it is hoped to increase the facilities very greatly in the immediate future. Health department agents in India have agreed to supply 500 monkeys each month for three months, and more later if needed. The monkeys cost \$6 a piece, delivered in New York, and including the cost of manufacture of each dose of vaccine runs about \$1.75.

Infantile paralysis is spread by virus from the nose and throat of an infected person reaching the nose and throat of another. After the disease has been contracted, the vaccine derived from monkeys is of no avail, and other methods of treatment must be employed.

LAST CIVIL WAR GENERAL

Holding the distinction of being the last surviving general of the Civil War, General Adelbert Ames reached the age of 97 before his death a few months ago. He was also one of the few living men who held the rank of general in the Spanish-American War.

The career of General Ames was a varied and often stormy one. A native of Rockland, Me., where he was born on October 31, 1835, he was graduated from West Point in 1861, at the outbreak of the Civil War, in which he served with distinction, being brevetted a major general of volunteers for gallantry in action.

He settled in Mississippi after the war and was a United States Senator from that state from 1870 until 1873, when he was elected governor. His alleged favoritism toward the negroes led to a serious riot in Vicksburg. The legislature impeached him in 1876, but the charges were withdrawn and he resigned later returning to the North. He was a brigadier general during the war with Spain.

Next to General Ames, the last Civil War general was J. Warren Keifer of Ohio, former speaker of the national House of Representatives, who died at his home in Springfield, O., on April 22, 1932, at the age of 96.

QUANAH BEATS LOCAL NINE IN LEAGUE TILT

Quanah defeated Crowell 9 to 6 in a Cotton Belt league game on the local diamond Sunday afternoon.

Snooze Edmondson had the Indian sign on the locals when hits were needed to score runners on bases. He struck out nine and did not walk a man. Wm. Bell got in hot water by walking 2 and hitting 2 batters in the third, coupled with hits that drove him from the mound after 7 runs were scored. Rasberry relieved him and pitched good ball the rest of the way.

The box score:

CROWELL	AB	R	H	E
Mason, 3b	5	0	2	0
Graves, 1b	5	2	3	0
Sloan, ss	5	1	1	0
LaRue, c	5	1	3	2

CROWELL VS. GOREE

Crowell's league-leading Cotton Belt baseball nine will play at Goree Sunday afternoon in a game with the Goree club, leader in the Wichita Valley league, according to announcement of O. O. Hollingsworth, local manager.

The world's largest magnet, weighing 120 tons, has been completed in Paris.

COMMON CAUSE OF BALDNESS

One of the chief causes of premature grayness, falling hair and ultimate baldness is lack of circulation in the scalp. To overcome this and bring an abundant supply of blood to nourish the hair roots, massage scalp at night with Japanese Oil, the antiseptic counter-irritant. Thousands of men and women report amazing results in stopping falling hair, growing new hair on bald areas and in eliminating dandruff and itching scalp. Japanese Oil costs but 60¢ at any drug-gait. Economy size, \$1. FREE "The Truth About the Hair." Write Dept. 35, NATIONAL REMEDY CO., 64 West 45th Street, New York

What's New?

After many years of breeding a white canary has been developed.

A method of weaving cloth from bamboo fiber has been invented.

Tests of rust-proof steel for use in artificial teeth, fillings and crowns are being made in Russia.

An improved locomotive designed to eliminate waste of steam is being developed in England.

No less than 48 useful products are now made from furfural, derived from oat hulls.

A Norwegian chemist has patented a liquid which makes wood fire-proof.

An important new instrument for measuring the sun's rays has been developed at the Smithsonian Institution.

Eldorado Ball Team Dropped from League

Eldorado, Okla., has been dropped from the Cotton Belt baseball league, according to official notice received by Clyde Cobb, Crowell, secretary, from E. E. Storm of Truscott, league president.

The Oklahomans failed to appear at Truscott for scheduled game on June 11 and Aug. 4, thereby forfeiting all rights and privileges in the league.

As a result of the Eldorado situation, Crowell gains two games of forfeit, thus clinching first place for the local club.

Eldorado had won only 3 games and lost 14 up to now in the Cotton Belt season.

The Shaughnessy play-off game being played Aug. 25.

CLOTHES ARE NO CLEANER THAN the SOLVENT in which they are Cleaned.

Dip a clean cloth in muddy water. Take it out and you have a dirty cloth.

Put clothes in dirty solvent and no matter how much they are washed or how well they are dried or deodorized, they still are dirty clothes.

WILL CONDUCT THE FREE

ELECTRIC KITCHEN SCHOOL

OF

West Texas Utilities Co.

August 15 - 16

The housewives and husbands of Crowell, and all surrounding towns, are cordially invited to attend a FREE Cooking School sponsored by the West Texas Utilities Company on the dates of August 15 and 16.

The Cooking School will bring suggestions and methods to relieve long hours of work. This is not a matter of learning how to cook or how to do housework, but the use of short cuts with appliances and tested methods to reduce time and labor. Many women feel that "Mother's housekeeping cookery," the best in the world, is good enough for today," but mothers in those old days yearned, too, for new ideas and simpler methods.

Plan now to attend every session. You are sure to enjoy and profit by the valuable experience of Miss Johnson as exhibited in the demonstration conducted by her.

Miss Inez Sloan of Dallas arrived in Crowell last Wednesday for a visit with her parents, Mr. and Mrs. A. L. Sloan.

Edward Huffman, former Crowell resident, was transferred this week by Montgomery-Ward & Co. from Corpus Christi to their store at Temple.

Go to M. S. Henry & Co. for your school supplies.

Miss Pauline Currie of Iowa Park and Miss Grace Russell of Vernon visited friends and relatives here over the week-end.

Mrs. M. O'Connell has returned from a visit of a few days with relatives and friends in Fort Worth.

Miss Martha Rettig, student nurse in Washington University, St. Louis, is spending her vacation with her parents, Mr. and Mrs. Ed Rettig, and family.

Mr. and Mrs. R. J. Roberts and Mr. and Mrs. Hal Greenlees left this morning in their cars for a visit of about a week with relatives in Clarksville and Bonham.

Golden Star washable dust mops, \$1.50 each.—M. S. Henry & Co.

Mr. and Mrs. Joe Lewis of Madisonville were guests of Mrs. Lewis' sister, Mrs. A. Y. Beverly, and family from Thursday until Sunday.

Mrs. J. E. Billington of Paducah and daughters, Miss Ruth Billington and Mrs. J. K. Mason of Waco, visited Mr. and Mrs. J. T. Billington and family Sunday.

Mr. and Mrs. M. A. Howard and children and Mr. and Mrs. O. C. Howard and son, Billie, of Woodboro, Texas, visited Mr. and Mrs. O. J. Wilson here Sunday and Monday.

Banana splits with fresh peach dressing at O'Connell's this week.

Mr. and Mrs. Irving Fisch of Wink, Texas, are visiting in the home of Mrs. Fisch's parents, Mr. and Mrs. R. J. Thomas. They operate a dry goods store at Wink.

Mr. and Mrs. Miles Hart and daughter, Genelle, of Durant, Okla., visited this week in the home of Mrs. Hart's parents, Mr. and Mrs. F. H. Crews.

Mrs. J. A. Johnson, Mrs. W. B. Johnson and Frances Henry Johnson have returned from a two weeks' visit to San Antonio and Fort Worth.

Mr. and Mrs. J. C. Hysinger left by bus Tuesday for a visit of about a month in and near Cleveland, Tenn., where Mr. Hysinger formerly lived. This will be Mrs. Hysinger's first visit to that section.

Mrs. W. C. Lane returned to her home in Denison Sunday after a visit in the home of her aunt, Mrs. H. E. Ferguson. Miss Ruth Ferguson accompanied her on the return to Denison and will visit there.

Mr. and Mrs. Jimmy Self, Marion Self and Miss Mary Frances Self left yesterday for Buffalo, Mo., to visit in the home of Mr. and Mrs. F. M. Self, parents of Jimmy and Marion Self.

Mr. and Mrs. Vern Walden left Friday for a visit of two weeks in Durango, Colorado. R. O. King of San Angelo is serving as local Santa Fe agent in the absence of Mr. Walden.

Coach Grady Graves, Walker P. Todd, assistant, and Aldon Horn, 1935 Crowell High football captain, returned Sunday after spending a week in Dallas attending the annual coaching school of the Texas High School Football Coaches Ass'n.

Mr. and Mrs. Buster Smith of Tipton, Okla., spent Sunday night and a short time Monday morning in Crowell. They were returning home from a visit with Mr. Smith's parents, Mr. and Mrs. E. J. Smith, in McCullough County. They were accompanied by Mrs. Smith's grandmother of Plainview.

B. C. Newton and Ritchey Newton of Marietta, Okla., were guests of Mr. Newton's sister, Mrs. T. B. Klepper, and family over the week-end. They had been to Cordell, Okla., to attend the funeral of a cousin, C. S. Blanton, who was buried at that place Friday. Mr. Blanton had visited in Crowell several times.

Mr. and Mrs. H. K. Edwards and daughter, Mary Evelyn, left Saturday for St. Louis, to purchase merchandise for R. B. Edwards Co. Mrs. R. H. Alexander of Clarendon, mother of Mrs. Edwards, is in the Edwards home this week with H. K., Jr., and Bob, sons of Mr. and Mrs. Edwards.

Miss Ina Smith of Wichita Falls visited friends in Crowell Wednesday while returning to her home after spending the summer visiting her brother, E. J. Smith, at Prescott, Arizona. While away she visited Yellowstone National Park and numerous other points of interest. She will resume duties in September as a teacher at Thalia.

For your school supplies go to M. S. Henry & Co.

I. T. Graves attended a meeting in Wichita Falls Wednesday that was conducted by the State Dept. of Education for school officials of 14 counties of this section.

Mr. and Mrs. F. T. Carter and two children of Tyler left last Thursday after a visit of a few days in the home of Mrs. Carter's parents, Mr. and Mrs. C. E. Lyon.

John Clark Long visited his grandparents, Mr. and Mrs. E. P. Bomar, in Henrietta last week. He was accompanied home by Jimmie Dale, whose home is in Dallas.

Mrs. H. V. Coats and children of Chillicothe visited relatives in Crowell this week. Mrs. Coats is a sister of the Ketchersid brothers of this city and a sister-in-law of Mrs. F. W. Mabe.

Mr. and Mrs. Barney Sanders and sons, Bernice and Leo, Mr. and Mrs. George Fox, Miss Virgie Sanders and Henry Ashford left last Friday on a visit of two weeks in Pittsburg and other East Texas points.

Miss Addie Lorene Baker is spending her vacation with her parents, Mr. and Mrs. O. N. Baker, of the Foard City community, and other relatives and friends here. She is cashier with the Hastee Tastee soda shop and restaurant of Vernon.

Mrs. Florence Ragland returned to her home in Pilot Point Friday after a visit of two weeks with her daughter, Mrs. C. W. Thompson, and family. She was accompanied as far as Vernon by Mrs. Thompson, Mrs. Pearl Carter and Charlie Thompson.

Mr. and Mrs. A. F. Cannon and granddaughter, Miss Addie Lorene Baker, visited in the home of Mr. and Mrs. W. O. Tyson at Wichita Falls Sunday. The Tyson family recently moved from Fort Worth to Wichita Falls, where they have established a doughnut shop. Mrs. Tyson is a granddaughter of Mrs. Cannon.

An improved method of extracting gasoline from coal is announced by a Hungarian scientist.

Mrs. John Huart of Spokane, who said she had lived as a stranger under the same roof with her husband for 22 years, was granted a divorce.

Miss Jessie Faye Gamble, daughter of Mr. and Mrs. J. L. Gamble of the Thalia community, went to Turkey Saturday where she will begin training as a nurse in the Dr. L. E. Stanford hospital. She was accompanied to Turkey by her mother and uncle, John Henry Smith.

R. L. Taylor and son, T. J., returned Saturday at noon from East Nashville, Tenn., where they visited relatives. They were accompanied by Mr. Taylor's brother, O. W. Taylor, of Fort Worth. R. L. and O. W. Taylor were born in East Nashville, coming to Texas when they were small boys.

Grady Magee, Gordon Bell and Tom Beverly visited in Dallas and Fort Worth over the week-end. They witnessed the all-star football game at Dallas Saturday night which the all-star high school players of South Texas won 3 to 0 over a similar team from North Texas.

Patsy, Frankie and Wilburn Elton of the Liberty community in Hardeman County were guests in the home of Mr. and Mrs. Grover Cole from Saturday until Wednesday, when Mr. and Mrs. Frank Elton came after their children. Mrs. Elton is a sister of Mrs. Cole.

Mr. and Mrs. G. H. Patton and daughters, Misses Beulah and Vera Patton, and Chas. Patton of Dallas, brother of G. H. Patton, left last Friday on a trip of about a week in which they will visit relatives and friends in Oklahoma, Arkansas and Missouri. Chas. Patton will leave the group when they reach Dallas while returning home.

Mr. and Mrs. Velox Ward and children of Brownfield spent Tuesday night and Wednesday in the home of Mr. and Mrs. Joe Ward. They were on their return home after visiting in Mt. Pleasant, Texas. The family formerly lived here. Mr. Ward now operates a shoe repair shop in Brownfield. Before leaving here he was employed as a mechanic in the local Chevrolet garage.

CROWELL STATE BANK

ROTARY LUNCHEON

A program on accident prevention with respect to motor vehicles was given at the luncheon of the Rotary Club Wednesday. Geo. D. Self was in charge of the program, which included talks by Eli Smith and Mack Boswell. Rev. T. M. Johnston of Wellington and Rev. Geo. E. Turrentine were visitors at the luncheon. T. B. Klepper, vice president, presided in the absence of President I. T. Graves.

Over 36,000 persons were killed and nearly a million injured as a result of collisions on streets and highways during 1934, the speakers stated. The number of Americans killed in auto and truck accidents for the same length of time is greater than the total American fatalities in the World War, it was stated.

BUS FARE REDUCED

The rate from Crowell to Lubbock has been reduced from \$3.60 to \$3.15, according to announcement this week by the Red Star Coaches, which operate between Vernon and Clovis, N. M., via Crowell, Paducah, Matador, Floyd, Lockney, Plainview, Olton, Muleshoe and Farwell. The Red Star line recently leased the Floyddada and Lubbock, thus making possible a reduction in the fare to Lubbock.

Mistaking a moonlit concrete highway in Indiana for a stream of water, a flock of wild ducks swooped down on it so hard that 18 of the birds were killed.

MESQUITES GROW FAST

If one has failed to travel the old highway toward the Vivian community since the new paved highway has been completed, the remarkable growth of the mesquite trees cannot help but attract the attention of anyone who might not have traveled that road for several years.

Not only have the larger trees grown taller but a thick growth of sprouts have covered the ground in many places that are tall enough to hide stock. One farmer says a few years ago he could see his stock anywhere in his small pasture but now he goes to hunt them and fails to find them.

Helps Babies Rest Ends Colic Pains Aids Digestion

When your baby tosses about, cries in pain and cannot sleep, why not get at the cause with Mc-Gee's Baby Elixir. It neutralizes indigestion acid, ends gas cramps and colic pains and then helps them become cheerful again. They sleep better. Mc-Gee's Baby Elixir is made of the purest medicinal extracts and syrup. It cannot harm. Years of use has proven that. Simple directions tell exactly how to use it. Tastes good. Gives relief promptly. Two sizes: 35c, 60c. (adv)

CHURCHES

Christian Science Church
Service Sunday at 11 a. m. Wednesday evening service at 8 o'clock.
The public is cordially invited. Sunday, August 11, 1935. Subject: "Spirit."
Christian Science Service
"Spirt" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 11.
The Golden Text is: "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Galatians 6:8.)
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "O Lord, thou hast searched me, and know me. Whither shall I go from thy spirit or whither shall I flee from thy presence?" (Psalms 139:1-7.)
The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "God is infinite omnipresent Spirit. He fills all space, and it is impossible to conceive of such omnipresence and individuality except as infinite Spirit or Mind. Hence all is Spirit and spiritual" (pages 223 and 331.)

Items from Neighboring Communities

WEST RAYLAND (By Bonnie Schroeder)
Mrs. Fred Rennels and son, Clark, of Crowell spent Monday night with Mr. and Mrs. John Rennels.
Bob Miller and family, accompanied by Mrs. Walter Carr of Thalia, returned home Monday from Norman, Okla., where they visited their mother. They were accompanied home by their sister, Mrs. Milton Linz, and son, Edwin, of Appleton, Wis., who had been visiting at Norman.

Ellen Brown of Claytonville visited Vidie Phillips Sunday evening.
Several in this community had a fish-fry on Good Creek Friday night.
Mr. and Mrs. G. W. Brown of Claytonville spent Sunday with Mr. and Mrs. P. M. Hinkle.
E. L. Gaylor of Saugas, Mass., claims the world's record for holding his breath. In a recent laboratory experiment at Wesleyan University it is said he held it for 14 minutes and 2 seconds.

Properly Stowed Bags Add to Comfort

Comfort, pleasure, and safety on a tour depend largely on efficient loading of the luggage, and modern body designs have done much to ease the problem. As these views of Chevrolet models reveal, in the upper left view, the suitcases have been fitted in snugly, the adjustable front seat having been moved forward to allow extra legroom, and the driver is now pushing back the seat to clamp the bags in place for the day. Upper right, the tourist is utilizing the baggage space back of the rear seat. The two lower pictures show the loading of a coupe compartment and a sedan trunk.

Shower Is Given for Recent Bride

Mrs. Andrew Calvin, who was Miss Reba Collins before her marriage last week, was the honor guest at a pretty miscellaneous shower on last Friday afternoon when Mesdames Ralph McKown and Ebb Seales were hostesses at the home of Mrs. Clint White.

The program was opened with a solo by little Avalon Jane Smith. This was followed by a reading by Joyce White. Miss Peggy Thompson gave a vocal solo. She was accompanied by Mrs. Sam Crews. Mrs. McKown then gave a toast to the bride.

The presentation of the gifts was made by Evelyn Jean Seales, accompanied by little Virginia McKown and Leona Glenn Gillette, who asked the bride to play "Follow the Leader" with them and led her to an adjoining room where the many beautiful gifts were arranged.

Mrs. Sidney Collins and Mrs. J. V. Ramsey of Vernon were out-of-town guests present.

LOCAL METHODIST REVIVAL WILL END SUNDAY NIGHT

The meeting which is in progress at the Methodist Church is being attended by good crowds. Rev. T. M. Johnston, M. E. pastor of Wellington, is doing the preaching and his messages are forceful, inspiring and helpful.

The meeting will come to a close next Sunday night. The morning services at 10 are held in the church and the evening services at 8 are on the lawn south of the church.

REGISTERED NURSE

Miss Frances Cook, daughter of Mr. and Mrs. J. W. Cook, returned to Crowell last Thursday from Tulsa, Okla. She is a graduate of the nursing school of the Morning-side Hospital of that city and recently became a registered nurse after passing the state examination.

About Women

Misses Jean Mark and Fannie Lee are the first two Chinese girls in Canada to graduate in physical education, having received their training in the Margaret Eaton school of Toronto.

Mrs. Ofelia Ellen Keelan of Charleston, S. C., is the first American to win the highest award of the British Academy of Arts in Rome during the Academy's existence of more than 100 years.

Mrs. George R. Van Namee of New York, who began as a salesgirl at \$5 a week, now owns several florists shops, for which she has signed leases amounting to more than \$5,000,000.

Mrs. S. L. Tuthill, 82, of Salisbury Mills, N. Y., claims an invention whereby she can determine the sex of a chicken which an egg will produce before it is incubated.

Miss Elizabeth Pomerene of Cleveland received the degree of bachelor and master of arts and doctor of philosophy from Western Reserve University at the age of 21.

Mrs. Mary A. Foulds is still in active charge of the Pennsylvania hotel at Treverton, Pa., which she has operated for more than 50 years.

Boys and Girls

Dorothy Johnson, 4-year-old piano prodigy of Honolulu, plays 30 classical selections which she has learned by ear.

George Noffsinger, Jr., is an expert bronco-buster and guide at Glacier National Park at the age of 13.

Jeanne Malveur, 4-year-old girl of Calais, France, was carried five miles to sea in a tub in which she was playing near the beach, but was finally rescued.

Lyman W. Prose, 10, of San Diego, Calif., received a reward of \$100 when he found a purse containing \$10,000 and returned it to the owner.

George Matson of Chicago, aged 14, rescued his older brother, who had become unconscious from smoke in their burning home.

Ruth Eddy, 1-year-old baby of Sheffield, Eng., was buried under debris when her home was wrecked by an explosion, but was unharmed when dug out.

Famous artists chose Ruth Colwell Hamilton of Granford, as the prettiest co-ed at New York University.

AN OLD-FASHIONED GIRL

What is declared to be the oldest known specimen of the American girl was discovered some months ago in Ottertail County, Minnesota, and scientists have been studying her ever since. True, they have only her skeleton to aid their investigations, but this has proved most interesting.

According to Dr. A. E. Jenks, anthropologist of the University of Minnesota, the skeleton is that of a prehistoric Indian girl, who was about 17 years old at the time of her death, which occurred some 20,000 years ago as a result of violence, perhaps murder. Evidence that an arrow or spear had pierced her breast were given by marks on the ribs and shoulder blade.

Her youthful skeleton marvelously preserved, was uncovered by a ditching machine employed in road building, and the strata of earth in which it was found has been determined by a number of geologists to have been at the bottom of a lake which existed during the Ice Age, but which is now dried up.

With the bones were found shell ornaments and a dagger made from an antler of some member of an ancient deer family. The find is described as one of the most important ever brought to light in North America, from a scientific standpoint.

In an article in Science News Letter it is said that this old-fashioned girl "was monogoloid in her features, and her rounded nose openings indicate a closer relationship to the apes than is the case with modern women." Just how much closer is not stated.

In a parochial school in Stuart, Neb., there are 19 pupils having the surname of Kaup out of a total enrollment of 92.

A. R. Van Ampwert of St. Louis has owned the same automobile for 21 years and it was a second hand car with 35,000 miles behind it when he bought it.

This-That, Etc.

"We have high hopes of coming to Crowell this fall and giving those Wildcats as good a licking as they gave our team last fall," stated an Olney resident who was a Crowell visitor Tuesday. Crowell's 33 to 12 victory over the Cubs last season rubbed Olney fans the wrong way, he added, and with the return of eleven letter men, including three-all-district performers, Kelly, Williams and Atchley, the Cubs are planning to "go places" this season and they don't intend for that dawg-on-bunch of Wildcats to stop their climb to the district championship, which Crowell has held for the past two seasons.

Olney is really going to have a swell team this year—no doubt about it, all of which simply means that when these two teams clash in Crowell on Nov. 22, fans will have the opportunity of seeing one of the best games ever played on a local gridiron.

We hope our confidence is not misplaced—and we don't believe it is—when we bank on those Wildcats to give Crowell another victory over Olney. Anyway that's our prediction. Here's a few good reasons for the confidence: Line-men—Bill Dunn, Mark Saunders, John Cogdell, W. F. Brisco, Oscar Nichols, Albert Dunagan, Bob Lilly, Oliver Brisco, Austin Wiggins and others; backfield—Aldon Horn, Paul McKown, Frank Meason, Sam Crews, Jr., Goodloe Meason and others.

That line has possibilities of being one of the best in Crowell history and with a backfield behind it that possesses plenty of talent, the Wildcats are very likely to "go places" themselves.

Of course the loss of Todd, Patton, Gafford, Owens, Graham, Jones, Womack and Gibson will be keenly felt. Taking a man rated as the best in the state out of any line-up is in itself enough to make a whale of a difference, but some of these towns that think Crowell won't be so hot with Todd out of the line-up are due for a surprise this fall.

Last week the Matador paper headlined the fact the Bullfighters would play their opening game with "Crowell's Toddless Wildcats" at Crowell Sept. 20.

The Burk Burnett paper also calls attention to the absence of Todd at Crowell in announcing that the Bulldogs will begin training at Lake Kemp on Aug. 19.

Seymour has had little to say yet, but don't be surprised if those Panthers come through with one of West Texas' best Class B outfits. Lowell Parrish, former coach at Texas Military College, Terrell, is the new Seymour coach this year instead of Abe Barnett of Baylor U., as announced recently.

A Real Prospect

While much is heard and expected of Paul McKown with respect to 1935 prospects, we are going to change the subject and talk about his little brother, Marvin, who is employed with Fox Bros. Grocery. Marvin, a freshman for 1935-36, has gained over 25 pounds during the past year and now weighs over 140. He is interested in football and we predict that he will really be heard from in seasons to come, maybe this season. Incidentally Big Brother Paul is said to be putting on weight and muscle in his work on W. B. Johnson's New Mexico ranch.

Royalty Visits

Two very distinguished gentlemen in state and national football circles were guests in the Eli Smith home Sunday afternoon. They were Francis Schmidt, head coach at Ohio State University, and Raymond (Bear) Wolfe, T. C. U. line coach. They stopped here while on their way to the Tech Coaching School at Lubbock. Schmidt formerly coached at T. C. U. Wolfe was a student there during Eli Smith's reign as president of T. C. U. student body and manager of the Horned Frog football team. Schmidt confessed that Ohio State had been very interested in securing the services of a certain Crowell product. Incidentally, leading sports writers of the nation rate Ohio State as a "hot" prospect for national championship honors next season.

Weather Dept.

We predict scattered showers over the county Sunday. We would like to have a rush order on a general rain, but Tuesday is as early as we dare predict one. Beginning Tuesday night, the rain should range from 1.5 inches to 2 inches over the county.

Prominent Home Economist to Conduct Free Cooking School Here August 15-16

A free electric kitchen school, sponsored by the West Texas Utilities Co., will be conducted at the high school auditorium in Crowell on Thursday and Friday, Aug. 15 and 16, by Miss Patricia Johnson, prominent home economist for the Hotpoint Electric Range Co.

MISS PATRICIA JOHNSON

The cooking school will bring suggestions and methods to relieve long hours of work. This is not a matter of learning how to cook or how to do housework, but the use of short cuts with appliances and tested methods to reduce time and labor, according to announcement of the West Texas Utilities Co.

Housewives and husbands of Crowell and all surrounding towns are cordially invited to attend this free cooking school and profit by the valuable experience of Miss Johnson as exhibited in the demonstrations conducted by her.

The cooking school will begin at 2 o'clock each afternoon.

Although we have had no snow now for two years, at least three good ones are expected during the approaching winter.

That big silver ball in the window of M. S. Henry & Co. belongs to the local fire department and is to be used later, possibly Trades Day, in water polo events. It is 2 feet in diameter and was constructed of sheet iron by Wiley Ellis, head of the plumbing and sheet metal department of M. S. Henry & Co.

Mrs. Robert F. Wood feeds a large number of birds at her home in Marberth, Pa., and included among them is a catbird which greedily eats buttered toast but scorns plain dry toast.

Thomas K. Hill, 107, of Marberth, Mich., whose family was 32 years ago he was too old to drive an automobile, has passed his examination and received new driver's license.

Mrs. Carolyn McDonald-Walton-Bronson-Burgess-Chevalier-Paschall was married for the twelfth time at Columbia, La.

DYING

Now is the time to buy light-colored clothes for Fall use.

Our work will please you. REASONABLE PRICES.

The WRIGHT CLEANERS East Side of Square

MANY THANKS!

We greatly appreciate the patronage and encouragement given us since consolidating the stock of the original Haney-Razor Grocery with our Cash-Way Store last Saturday. We also wish to express sincerest thanks for the patronage given us while located for over 11 years at our old stand on the north side of the square and trust that we may continue to share in your patronage at our location in the Thacker building on the northwest corner of the square.

LOWER PRICES FOR YOU

By operating on a STRICTLY CASH basis in the future and by combining the stocks of our two stores, we are able to give you lower prices without sacrificing the quality of our products or the standard of service we have maintained in the past.
