### THALIA

(By Special Correspondent)

John Hugh Banister preached at the Church of Christ here Sunday and Sunday night.

Benona McNair of Lockett visited her sister, Mrs. Ava Jones, here last week-end.

Miss Marie Stalcup of Harold is visiting relatives and friends here this week.

Mrs. Donia Wheeler and son of Vernon visited in the C. J. Fox home here Sunday. Also Mr. and Mrs. C. C. Wheeler, Mr. and Mrs. O'Neal Johnson and Eric Wheeler and family.

Misses Lorene Shultz and Emma Maine were shopping in Vernon Saturday.

Miss Corene Haney entertained a large crowd of young people with a party at her home Friday night of last week. Each one present reported a fine time.

Rev. W. A. Reed preached at the Baptist Church here Sunday morning and preached at the Gambleville school Sunday night.

C. C. Wheeler and family, Mrs. W. S. Tarver, Mrs. Joe Johnson, Mr. and Mrs. E. V. Cato, W. G. Chapman, and W. A. Reed were Vernon visitors Saturday.

Willie Cato and Gotchie Mints were business visitors in Crowell Monday and Tuesday.

The 4-H club girls gave an ice cream supper at the M. C. Adkins home Saturday night. The proceeds go to send a member of the club to the short course at A. & M.

A large crowd from here attended the base-ball game at Quanah Sunday, score was 9 to 18 in favor of the Quanah team.

Funeral services for Grandma Williams were held at the Baptist Church here Monday afternoon at 2 o'clock. They were conducted by Rev. T. M. Johnston of Crosbyton.

Grandma had lived here for many years and was loved by all who knew her. Fall bearers were her three grandsons, Glenn Gamble, Jesse and Raymond Grimm, and Norman Gray, Claude Abston and John Hugh Banister. The floral offering was beautiful. She is survived by two daughters, Mrs. O. M. Grimm and P. T. Gamble and two sons, Howard of this place and C. L. Williams of Brownfield.

Miss Lorene and Lucille Shultz went to Vernon Monday and were accompanied home by Margaret Shultz.

Lightning struck one of Frank Matthew's mules during a thunder storm Monday afternoon, killing it instantly.

Truett Neill went to the Plains one day last week to work through harvest.

Mr. and Mrs. J. A. Stovall, Misses Louise Stovall, Modena Stovall and Katherine Wheeler visited in Crowell Sunday afternoon.

Miss Kathleen McElroy was a Vernon visitor Friday.

C. L. Williams was here last Saturday and Sunday visiting his mother, Mrs. Lizzie Williams, who was critically ill at her home in this community.

G. C. Phillips and Mesdames John Sims and R. L. Sims went to Quanah one night last week. They were accompanied home by Mrs. G. C. Phillips who had been visiting relatives there for a few days.

Oran Chapman left last Friday for Groom, Texas, where he is working during wheat harvest.

Mr. and Mrs. Dave Shultz visited Mr. and Mrs. Claude Roberts in Vernon last Saturday night and Sunday.

Mr. and Mrs. C. B. Morris returned from Clarendon where they attended the bedside of his father, J. R. Morris. They report Mr. Morris' condition improved and that he will soon be able to return home.

Mesdames Mack Edens, Truett Neill and C. H. Wood visited Mrs. Leo Hlavaty in Vernon Sunday afternoon.

Miss Corene Haney visited her sister, Mrs. John Rasor, in Crowell several days this week.

Mr. and Mrs. W. B. Durham were visitors in Vernon one day this week.

Mr. and Mrs. Milton Teague and daughter of Philadelphia, Pa., visited his cousin, M. C. Adkins and family Tuesday night. They were accompanied by his father, S. T. Teague, of Clarendon, who is going to visit them in Pennsylvania.

### FOARD CITY

(By Special Correspondent)

Mr. and Mrs. Sam Mills of Crowell spent Sunday with Mr. Mills' parents, Mr. and Mrs. John Mills, of this community.

William Aydelett of Slaton, Texas, visited relatives and friends here Sunday. He returned to Floydada Sunday night where he is hauling wheat.

Miss Mary Nell Merriman gave the young people a party Saturday night. A large crowd was present and everyone reported a lovely time.

Hughie Wright of Crowell spent Saturday night with Carl Thompson.

Mr. King of Rockwall, Texas, is here visiting his daughter, Mrs. Willis, of this community.

Joe and Hugh McLain of Texas, are here visiting Mr. and Mrs. T. F. Welch and family.

Mr. and Mrs. Bob Taylor and Mrs. Grady McLair and Mr. guests of Mr. and Mrs. Frank Welch were dinner Sunday.

Herbert Huffaker of Denton is here visiting Mr. and Mrs. Joe Owens.

Mr. and Mrs. Steve Mills of Truscott spent Sunday with Mr. Mills' parents, Mr. and Mrs. John Mills.

Miss Bessie Dollar of Truscott was visiting in the community Sunday afternoon.

There were several people of this community that attended conference at the Methodist church at Truscott Sunday night.

Rev. Browder preached here Sunday morning. A large crowd attended the service.

There was a nice rain in this community Monday evening and night.

It is estimated that 1,000,000,000 meteorites strike the earth daily.

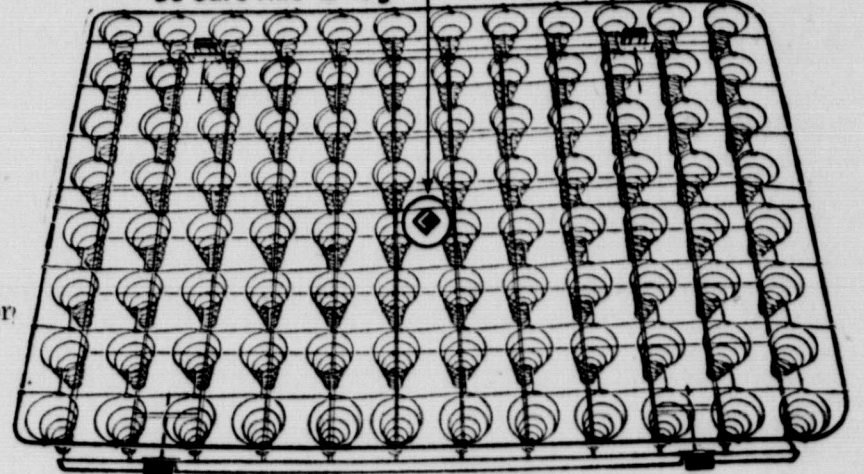

## The Legget & Platt Springs

Were invented and patented by Mr. Legget more than 40 years ago.

About 4 years ago, Mr. Legget found the No. 2 (which was the second spring he made, which was over 40 years old) in a second hand furniture store. After more than 40 years of service it is in perfect condition.

MACK BOSWELL, Asst. Editor

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, July 5, 1929

SUSPENDERS AND BELTS

In the year 1900 or thereabouts, several million American and Canadian boys informed an equal number of fathers that suspenders were out-of-date and the only safe and sane trouser protector was the belt.

Those fathers of 1900 protested, but youth had its way and the belt dominated the world.

In 1929 or thereabouts, several million American and Canadian boys informed an equal number of fathers (the fathers were the boys of 1900) that belts were out-of-date and the only safe and sane trouser protector was the suspender.

These fathers of 1929 are protesting, but youth is having its way and the glaring suspender now helps to demonstrate the fact that after all the young man of today is merely his granddad over again.

As for woman—well, it begins to look like fig leaves again, for without them many an under-developed girl will be over-exposed.

MAKING MEN OF BOYS

When General Baden-Powell started the Boy Scout movement he was quietly ridiculed by many incredulous people.

Today he is regarded as a benefactor of the human race.

Everyone knows that you can take a weakling, put him in the army and keep him there for a few years, and he will come out a reasonably strong and healthy man. It is the rigid and systematic military training that does it.

The training accorded the Boy Scouts is much along the lines of that pursued in the army, with sufficient variation to appeal to the juvenile mind.

There is a surplus of enthusiasm bottled up in every boy's chest that requires an escape valve.

If there is a Boy Scout organization in town, it affords the necessary outlet.

If there is no such organization the boy will find an outlet elsewhere—on the street, 'with the gang,' or possibly in some kind of mischief dear to the young heart.

Boys will be boys until they grow to man's estate. The manner of their growth, however, depends upon the manhood and the womanhood of today.

Every town should have a Boy Scout company. They produce better men and thereby elevate the race in general.

LOW TREE BRANCHES

Considerable comment from various sources comes to us regarding the low-hanging tree branches along the sidewalks of Crowell. Probably few property owners realize the inconvenience offered to scores of people by these low-hanging branches that are prone to knock a hat from one's head and that cause everyone that passes to duck out of their way.

With a little effort this situation could be remedied without damaging the beauty of the trees and the result of doing this work would certainly meet with approval of the public in general.

SOIL TILLING IS POPULAR

A noted writer declares that in time the lonesomeness of farm life will be done away with and that tilling the soil will become a popular vocation.

He might have said that much of the lonesomeness has already been banished, and that the remainder is rapidly disappearing.

The automobile has done it. There is no need for the farmer or his family or his help to feel lonesome these days. Distance no longer exists for him.

With his car he can be in town at any time within a few minutes. He can visit his neighbors for miles around any evening after supper, while attendance at church on Sunday and social gatherings at other times require but little more effort than is consumed in walking around a city block.

His life in more ways is preferable to that of the city dweller. His health is enhanced by the sunshine and the pure country air that he breathes. His life is not menaced by the constant stream of motorists who drive recklessly, as is the case in most cities. His children grow to maturity in the purity of contact with nature, instead of being surrounded by the questionable environment of more congested centers, where there is little opportunity to sift the good from the bad. He is free to go and come as he desires and is not hedged around with the myriads of restrictions and laws of the city man.

Tilling the soil is popular now. It will become more so as time goes on and the beauties and advantages of nature are better known and understood by those who now live by a clock and the factory whistle.

The United States produces more tons of steel ingots than the rest of the world combined.

A flying hotel to accommodate fifty passengers is being built in Germany.

Two Baseball Games In Crowell This Week

The Crowell baseball club will play two games this week, the first to be played on the afternoon of July 4th with Kirkland and the second with Truscott here Sunday. Both towns have fast clubs and good games are expected.

The Crowell team went to Eldorado Sunday but through some error at Eldorado, their team was not ready for a game and did not appear on the field. O. O. Hollingsworth, manager of the local club, received a letter this week from the manager of the Eldorado team apologizing for the incident and telling how the mistake occurred. In reciprocation he offered to bring his team here for a game without any expense to the local club.

T. J. Shelton, mayor of Plainview, was a visitor in Crowell Thursday.

WHAT'S DOING IN WEST TEXAS

(By West Texas Cham. of Com.)

Snyder will entertain 150 4-H boys at a two-day picnic on July 19 and 20 through the courtesy of W. O. Logan, county agent. Prizes will be offered by merchants and camp will be made at Wolf Park with swimming privileges given by Snyder Golf Club. Two plane rides with "Slim" Lowry, new government licensed pilot in charge.

Sweetwater is completing plans for the Fourth annual convention of the West Texas Press Association which opens July 12 for a two day session. Round table discussions will take up aviation and free plane rides through the courtesy of the Texas Air Transport Company will be given every registered delegate wearing a ribbon.

E. H. Whitehead, publicity manager of the West Texas Chamber of Commerce for the last four years resigned to become assistant manager of the South Texas Chamber of Commerce, at Corpus Christi, effective July 10. One of his accomplishments was making West Texas Today, official publication, a magazine instead of a newspaper.

Wheeler is building a new sanitarium. The building will be frame with stucco finish on the outside and sheet rock on the inside and when completed will be 72 by 72 feet with 22 rooms, hall ways running both ways through the entire building. A large basement will be part of this fine acquisition.

The Cisco cooperative Livestock Marketing association shipped two cars of hogs and one of cattle to the Fort Worth market recently. The cattle brought \$1,600. There were one hundred sixty two head of hogs. R. L. Poe remained in Fort Worth to observe the results of a new tattooing machine used on the hogs.

Levelland's three newest brick business structures on the east side of the square are being completed and will soon be occupied by the Hockley County Realty Company, the Levelland Drug Store and other concerns.

Hereford's new creamery will be installed soon as two car loads of machinery have been received. One car contained vats and churns and the other the refrigerating plant to be used for keeping the cream at the proper temperature to make butter.

Plainview's third annual Texas Panhandle Plains Dairy Show will be held in Plainview on April 7, 8 and 9 of 1930. The dates are one week later than those of the two former shows, and the change is made in order to get away from the first of the month rush usually encountered by business men over the section.

Winters is making progress in cream shipments. Two years ago, about 100 cans of cream per month were shipped out. This year the shipments are averaging 285 per month. Cream brought about \$15,000 into Winters in five months.

Twenty-five applications have already been received to make the trip with the Fourth Annual Motorcade of the West Texas Chamber of Commerce to the Carlsbad caverns. B. M. Whiteker, agricultural manager is in charge, and detailed information can be obtained from him in Stamford.

Spearman dealers recently received 15 Chevrolet trucks to supply the demand of farmers who desire to haul their wheat crop to town. A sufficient number of railroad cars to carry the grain to the markets has been insured.

Del Rio water works system is being installed. The bottom of both of the 1,000,000 gallon tanks have been laid and the forms are being placed for the pouring of concrete on one of them. Each tank will be 28 feet high, and 80 feet wide. Walls are 10 inches thick and well reinforced with steel.

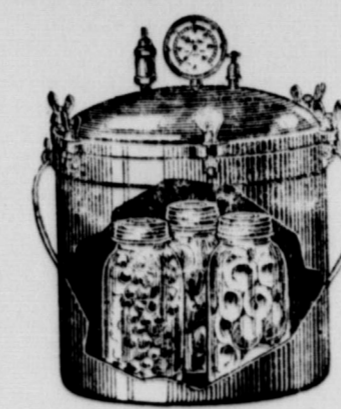

Winnie Russell, of Gibson's Landing, British Columbia, claims a new strawberry picking record. In the course of nine hours' work she picked and hulled 180 pounds of berries.

Reindeer from North America dwindled when kept in corrals, near Grenoble, France. Turned loose in the hills they are thriving.

Mount Vesuvius was not thought of a dangerous until the disastrous eruption of 79 A. D.

The United States owns nearly half the world's moving picture theatres.

The Mississippi watershed includes almost half the United States.

National Pressure Cookers For Canning and Cooking

THE WINNERS OF THE CANNING CONTEST NOT ONLY WIN A VALUABLE PRIZE BUT HAVE A CHANCE TO WIN A SCHOLARSHIP IN ANY TEXAS COLLEGE. (Ask at this store for further particulars).

PRIZES

- First Prize, for best jar of fruit ..... Waterless Cooker

First prize, for best jar of vegetables ..... Waterless Cooker
Second prize, for best jar of vegetables ..... 27x54 inch Axminster rug

RULES FOR CONTEST

Fruit and vegetables must be home grown and home canned. Only wide mouth one quart glass jars may be entered. All jars will be entered under registered number, thus leaving name of canner unknown to judges. Contest open to any person in Foard County. All entries must be placed on display at this store. Contest closes August 15, 1929. We now have a complete stock of the following and will be glad to furnish your needs in this line: Wide mouth jars in pint, quart, and half gallon sizes. Common mason jars in half pint, pint, quart and half gallon sizes. National pressure cookers—last a life time. Burpee Sealers—used one can three times. National Sealers—lower in price. Nos. 2 and 3 tin cans. Extra lids.

M. S. Henry & Company EVERYTHING FOR THE FARM AND HOME Hardware, Furniture, Implements Plumbing and Sheet Metal

The colorful life of the deep sea has been investigated in the search for new colors for automobiles.

The world zodiac comes from the Greek, meaning a circle of animals.

The sabre-toothed tiger once roamed the west coast of our country.

About 80 percent of the whaling interests are controlled by Norway.

Diseases cut down the cotton crop last year by nearly 15 percent.

BUILDING TO RESIST CYCLONES

Structural damage to buildings by tornadoes and loss of life incident thereto, may be avoided or reduced by designing buildings so that they can readily resist internal pressure, declares L. V. Teesdale, of the United States Department of Agriculture.

Property damage to buildings by tornadoes may be divided into two classes—that caused by the explosive effect and that caused by flying debris. The explosive effect, usually the most serious, occurs as a result of a difference in atmospheric pressure set up by a tornado between the inside and the outside of a building. The sudden drop in external air pressure produces an internal pressure which frequently results in the blowing out of some portion of the building.

The Medicine For Pellagra

Dr. J. L. Leverett, prominent Paris, Texas, Specialist, is attracting National attention with his NEW method of treating Pellagra and certain forms of stomach trouble closely resembling Pellagra. Under a rigid test of more than 3000 patients the treatment proved to be all that was claimed. A 28 day trial treatment for \$5 and this money back if the patient is not benefited and the patient alone is the judge. The medicine doesn't make you sick to take it. For particulars, testimonials and blank for FREE diagnosis write J. L. LEVERETT, M. D., Paris, Texas.

would open outward the internal pressure the necessary venting could be accomplished. Special windows equipped with hardware which would work on the same principle as the panic bolts used on doors in theatres would do the trick. Hinged panels for use in the spaces between windowsills and floors elsewhere in the side walls of a building is another venting possibility. Roofs may be vented by automatic dormer windows, by skylights, or hinged roof panels, stated.

It is possible to relieve the internal pressure of air thus set up in a building by providing automatic vents in it," says Mr. Teesdale. "Observations made indicate that from 10 to 15 per cent of the outside walls and a similar area in the roof should be vented. There are a number of methods by which this could be done. If a sufficient number of windows or panels were designed so that they

The Foard County News

T. B. KLEPPER, Editor and Owner  
MACK BOSWELL, Asst. Editor

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, July 5, 1929

SUSPENDERS AND BELTS

In the year 1900 or thereabouts, several million American and Canadian boys informed an equal number of fathers that suspenders were out-of-date and the only safe and sane trouser protector was the belt.

Those fathers of 1900 protested, but youth had its way and the belt dominated the world.

In 1929 or thereabouts, several million American and Canadian boys informed an equal number of fathers (the fathers were the boys of 1900) that belts were out-of-date and the only safe and sane trouser protector was the suspender.

These fathers of 1929 are protesting, but youth is having its way and the glaring suspender now helps to demonstrate the fact that after all the young man of today is merely his granddaddy over again.

As for woman—well, it begins to look like fig leaves again, for without them many an under-developed girl will be over-exposed.

MAKING MEN OF BOYS

When General Baden-Powell started the Boy Scout movement he was quietly ridiculed by many incredulous people.

Today he is regarded as a benefactor of the human race.

Everyone knows that you can take a weevling, put him in the army and keep him there for a few years, and he will come out a reasonably strong and healthy man. It is the rigid and systematic military training that does it.

The training accorded the Boy Scouts is much along the lines of that pursued in the army, with sufficient variation to appeal to the juvenile mind.

There is a surplus of enthusiasm bottled up in every boy's chest that requires an escape valve.

If there is a Boy Scout organization in town, it affords the necessary outlet.

If there is no such organization the boy will find an outlet elsewhere—on the street, with the gang, or possibly in some kind of mischief dear to the young heart.

Boys will be boys until they grow to man's estate. The manner of their growth, however, depends upon the manhood and the womanhood of today.

Every town should have a Boy Scout company. They produce better men and thereby elevate the race in general.

LOW TREE BRANCHES

Considerable comment from various sources comes to us regarding the low-hanging tree branches along the sidewalks of Crowell. Probably few property owners realize the inconvenience offered to scores of people by these low-hanging branches that are prone to knock a hat from one's head and that cause everyone that passes to duck out of their way.

With a little effort this situation could be remedied without damaging the beauty of the trees and the result of doing this work would certainly meet with approval of the public in general.

SOIL TILLING IS POPULAR

A noted writer declares that in time the lonesomeness of farm life will be done away with and that tilling the soil will become a popular vocation.

He might have said that much of the lonesomeness has already been banished, and that the remainder is rapidly disappearing.

The automobile has done it. There is no need for the farmer or his family or his help to feel lonesome these days. Distance no longer exists for him.

With his car he can be in town at any time within a few minutes. He can visit his neighbors for miles around any evening after supper, while attendance at church on Sunday and social gatherings at other times require but little more effort than is consumed in walking around a city block.

His life in more ways is preferable to that of the city dweller. His health is enhanced by the sunshine and the pure country air that he breathes. His life is not menaced by the constant stream of motorists who drive recklessly, as is the case in most cities.

His children grow to maturity in the purity of contact with nature, instead of being surrounded by the questionable environment of more congested centers, where there is little opportunity to sift the good from the bad. He is free to go and come as he desires and is not hedged around with the myriads of restrictions and laws of the city man.

Tilling the soil is popular now. It will become more so as time goes on and the beauties and advantages of nature are better known and understood by those who now live by a clock and the factory whistle.

The United States produces more tons of steel ingots than the rest of the world combined.

A flying hotel to accommodate fifty passengers is being built in Germany.

Two Baseball Games In Crowell This Week

The Crowell baseball club will play two games this week, the first to be played on the afternoon of July 4th with Kirkland and the second with Truscott here Sunday. Both towns have fast clubs and good games are expected.

The Crowell team went to Eldorado Sunday but through some error at Eldorado, their team was not ready for a game and did not appear on the field. O. O. Hollingsworth, manager of the local club, received a letter this week from the manager of the Eldorado team apologizing for the incident and telling how the mistake occurred. In reciprocation he offered to bring his team here for a game without any expense to the local club.

T. J. Shelton, mayor of Plainview, was a visitor in Crowell Thursday.

WHAT'S DOING IN WEST TEXAS

(By West Texas Cham. of Com.)

Snyder will entertain 150 4-H boys at a two-day picnic on July 19 and 20 through the courtesy of W. O. Logan, county agent. Prizes will be offered by merchants and camp will be made at Wolf Park with swimming privileges given by Snyder Golf Club. Two plane rides with "Slim" Lowry, new government licensed pilot in charge.

Sweetwater is completing plans for the Fourth annual convention of the West Texas Press Association which opens July 12 for a two day session. Round table discussions will take up aviation and free plane rides through the courtesy of the Texas Air Transport Company will be given every registered delegate wearing a ribbon.

E. H. Whitehead, publicity manager of the West Texas Chamber of Commerce for the last four years resigned to become assistant manager of the South Texas Chamber of Commerce, at Corpus Christi, effective July 10. One of his accomplishments was making West Texas Today, official publication, a magazine instead of a newspaper.

Wheeler is building a new sanitarium. The building will be frame with stucco finish on the outside and sheet will soon be inside and when completed will be 72 by 72 feet with 22 rooms, hall ways running both ways through the entire building. A large basement will be part of this fine acquisition.

The Cisco cooperative Livestock Marketing association shipped two cars of hogs and one of cattle to the Fort Worth market recently. The cattle brought \$1,600. There were one hundred sixty two head of hogs. R. L. Poe remained in Fort Worth to observe the results of a new tattooing machine used on the hogs.

Levelland's three newest brick business structures on the east side of the square are being completed and will soon be occupied by the Hackley County Realty Company, the Levelland Drug Store and other concerns.

Hereford's new creamery will be installed soon as two car loads of machinery have been received. One car contained vats and churns and the other the refrigerating plant to be used for keeping the cream at the proper temperature to make butter.

Plainview's third annual Texas Panhandle Dairy Show will be held in Plainview on April 7, 8 and 9 of 1930. The dates are one week later than those of the two former shows, and the change is made in order to get away from the first of the month rush usually encountered by business men over the section.

Winters is making progress in cream shipments. Two years ago, about 100 cans of cream per month were shipped out. This year the shipments are averaging 285 per month. Cream brought about \$15,000 into Winters in five months.

Twenty-five applications have already been received to make the trip with the Fourth Annual Motorcade of the West Texas Chamber of Commerce to the Carlsbad caverns. B. M. Whiteker, agricultural manager is in charge, and detailed information can be obtained from him in Stamford.

Spearman dealers recently received 15 Chevrolet trucks to supply the demand of farmers who desire to haul their wheat crop to town. A sufficient number of railroad cars to carry the grain to the markets has been insured.

Del Rio water works system is being installed. The bottom of both of the 1,000,000 gallon tanks have been laid and the forms are being placed for the pouring of concrete on one of them. Each tank will be 28 feet high, and 80 feet wide. Walls are 10 inches thick and well reinforced with steel.

Winnie Russell, of Gibson's Landing, British Columbia, claims a new strawberry picking record. In the course of nine hours' work she picked and hulled 180 pounds of berries.

Reindeer from North America dwindled when kept in corrals, near Grenoble, France. Turned loose in the hills they are thriving.

Mount Vesuvius was not thought of a dangerous until the disastrous eruption of 79 A. D.

The United States owns nearly half the world's moving picture theatres.

The Mississippi watershed includes almost half the United States.

National Pressure Cookers For Canning and Cooking

THE WINNERS OF THE CANNING CONTEST NOT ONLY WIN A VALUABLE PRIZE BUT HAVE A CHANCE TO WIN A SCHOLARSHIP IN ANY TEXAS COLLEGE. (Ask at this store for further particulars).

- PRIZES
- First Prize, for best jar of fruit ..... Waterless Cooker
  - Second prize, for best jar of fruit ..... 27x54 inch Axminster rug
  - First prize, for best jar of vegetables ..... Waterless Cooker
  - Second prize, for best jar of vegetables ..... 27x54 inch Axminster rug

RULES FOR CONTEST

Fruit and vegetables must be home grown and home canned. Only wide mouth one quart glass jars may be entered. All jars will be entered under registered number, thus leaving name of canner unknown to judges. Contest open to any person in Foard County. All entries must be placed on display at this store. Contest closes August 15, 1929. We now have a complete stock of the following and will be glad to furnish your needs in this line:

- Wide mouth jars in pint, quart, and half gallon sizes.
- Common mason jars in half pint, pint, quart and half gallon sizes.
- National pressure cookers—last a life time.
- Burpee Sealers—used one can three times.
- National Sealers—lower in price.
- Nos. 2 and 3 tin cans.
- Extra lids.

Diseases cut down the cotton crop last year by nearly 15 percent.

sure produce an internal pressure which frequently results in the blowing out of some portion of the building.

It is possible to relieve the internal pressure of air thus set up in a building by providing automatic vents in it," says Mr. Teesdale. "Observations made indicate that from 10 to 15 per cent of the outside walls and a similar area in the roof should be vented. There are a number of methods by which this could be done. If a sufficient number of windows or panels were designed so that they would open outward from internal pressure the necessary venting could be accomplished. Special windows equipped with hardware which would work on the same principle as the panic bolts used on doors in theatres would do the trick. Hinged panels for use in the spaces between windowsills and floors elsewhere in the side walls of a building is another venting possibility. Roofs may be vented by automatic dormer windows, by skylights, or hinged roof panels," stated.

BUILDING TO RESIST CYCLONES

Structural damage to buildings by tornadoes and loss of life incident thereto, may be avoided or reduced by designing buildings so that they can readily resist internal pressure, declares L. V. Teesdale, of the United States Department of Agriculture.

Property damage to buildings by tornadoes may be divided into two classes—that caused by the explosive effect and that caused by flying debris. The explosive effect, usually the most serious, occurs as a result of a difference in atmospheric pressure set up by a tornado between the inside and the outside of a building. The sudden drop in external air pressure

Twenty-five applications have already been received to make the trip with the Fourth Annual Motorcade of the West Texas Chamber of Commerce to the Carlsbad caverns. B. M. Whiteker, agricultural manager is in charge, and detailed information can be obtained from him in Stamford.

Spearman dealers recently received 15 Chevrolet trucks to supply the demand of farmers who desire to haul their wheat crop to town. A sufficient number of railroad cars to carry the grain to the markets has been insured.

Del Rio water works system is being installed. The bottom of both of the 1,000,000 gallon tanks have been laid and the forms are being placed for the pouring of concrete on one of them. Each tank will be 28 feet high, and 80 feet wide. Walls are 10 inches thick and well reinforced with steel.

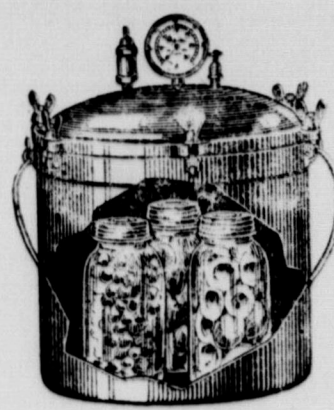

Winnie Russell, of Gibson's Landing, British Columbia, claims a new strawberry picking record. In the course of nine hours' work she picked and hulled 180 pounds of berries.

Reindeer from North America dwindled when kept in corrals, near Grenoble, France. Turned loose in the hills they are thriving.

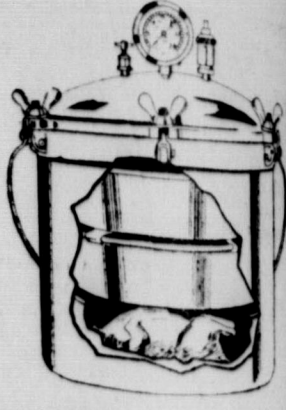

Mount Vesuvius was not thought of a dangerous until the disastrous eruption of 79 A. D.

The United States owns nearly half the world's moving picture theatres.

The Mississippi watershed includes almost half the United States.

BUILDING TO RESIST CYCLONES

Structural damage to buildings by tornadoes and loss of life incident thereto, may be avoided or reduced by designing buildings so that they can readily resist internal pressure, declares L. V. Teesdale, of the United States Department of Agriculture.

Property damage to buildings by tornadoes may be divided into two classes—that caused by the explosive effect and that caused by flying debris. The explosive effect, usually the most serious, occurs as a result of a difference in atmospheric pressure set up by a tornado between the inside and the outside of a building. The sudden drop in external air pressure produces an internal pressure which frequently results in the blowing out of some portion of the building.

The Medicine For Pellagra

Dr. J. L. Leverett, prominent Paris, Texas, Specialist, is attracting National attention with his NEW method of treating Pellagra and certain forms of stomach trouble closely resembling Pellagra. Under a rigid test of more than 3000 patients the treatment proved to be all that was claimed. A 28 day trial treatment for \$5 and this money back if the patient is not benefited and the patient alone is the judge. The medicine doesn't make you sick to take it. For particulars, testimonials and blank for FREE diagnosis write J. L. LEVERETT, M. D., Paris, Texas.

**The Foard County News**

T. B. KLEPPER, Editor and Owner  
MACK BOSWELL, Asst. Editor

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, July 5, 1929

**SUSPENDERS AND BELTS**

In the year 1900 or thereabouts, several million American and Canadian boys informed an equal number of fathers that suspenders were out-of-date and the only safe and sane trouser protector was the belt.

Those fathers of 1900 protested, but youth had its way and the belt dominated the world.

In 1929 or thereabouts, several million American and Canadian boys informed an equal number of fathers (the fathers were the boys of 1900) that belts were out-of-date and the only safe and sane trouser protector was the suspender.

These fathers of 1929 are protesting, but youth is having its way and the glaring suspender now helps to demonstrate the fact that after all the young man of today is merely his granddaddy over again.

As for woman—well, it begins to look like fig leaves again, for without them many an under-developed girl will be over-exposed.

**MAKING MEN OF BOYS**

When General Baden-Powell started the Boy Scout movement he was quietly ridiculed by many incredulous people.

Today he is regarded as a benefactor of the human race.

Everyone knows that you can take a weaking out him in the army and keep him there for a few years, and he will come out a reasonably strong and healthy man. It is the rigid and systematic military training that does it.

The training accorded the Boy Scouts is much along the lines of that pursued in the army, with sufficient variation to appeal to the juvenile mind.

There is a surplus of enthusiasm bottled up in every boy's chest that requires an escape valve.

If there is a Boy Scout organization in town, it affords the necessary outlet.

If there is no such organization the boy will find an outlet elsewhere—on the street, 'with the gang,' or possibly in some kind of mischief dear to the young heart.

Boys will be boys until they grow to man's estate. The manner of their growth, however, depends upon the manhood and the womanhood of today.

Every town should have a Boy Scout company.

They produce better men and thereby elevate the race in general.

**LOW TREE BRANCHES**

Considerable comment from various sources comes to us regarding the low-hanging tree branches along the sidewalks of Crowell. Probably few property owners realize the inconvenience offered to scores of people by these low-hanging branches that are prone to knock a hat from one's head and that cause everyone that passes to duck out of their way.

With a little effort this situation could be remedied without damaging the beauty of the trees and the result of doing this work would certainly meet with approval of the public in general.

**SOIL TILLING IS POPULAR**

A noted writer declares that in time the lonesomeness of farm life will be done away with and that tilling the soil will become a popular vocation.

He might have said that much of the lonesomeness has already been banished, and that the remainder is rapidly disappearing.

The automobile has done it. There is no need for the farmer or his family or his help to feel lonesome these days. Distance no longer exists for him.

With his car he can be in town at any time within a few minutes. He can visit his neighbors for miles around any evening after supper, while attendance at church on Sunday and social gatherings at other times require but little more effort than is consumed in walking around a city block.

His life in more ways is preferable to that of the city dweller. His health is enhanced by the sunshine and the pure country air that he breathes.

His life is not menaced by the constant stream of motorists who drive recklessly, as is the case in most cities. His children grow to maturity in the purity of contact with nature, instead of being surrounded by the questionable environment of more congested centers, where there is little opportunity to sift the good from the bad.

He is free to go and come as he desires and is not hedged around with the myriads of restrictions and laws of the city man.

Tilling the soil is popular now.

It will become more so as time goes on and the beauties and advantages of nature are better known and understood by those who now live by a clock and the factory whistle.

The United States produces more tons of steel ingots than the rest of the world combined.

A flying hotel to accommodate fifty passengers is being built in Germany.

**Two Baseball Games In Crowell This Week**

The Crowell baseball club will play two games this week, the first to be played on the afternoon of July 4th with Kirkland and the second with Truscott here Sunday. Both towns have fast clubs and good games are expected.

The Crowell team went to Eldorado Sunday but through some error at Eldorado, their team was not ready for a game and did not appear on the field. O. O. Hollingsworth, manager of the local club, received a letter this week from the manager of the Eldorado team apologizing for the incident and telling how the mistake occurred. In reciprocation he offered to bring his team here for a game without any expense to the local club.

T. J. Shelton, mayor of Plainview, was a visitor in Crowell Thursday.

**WHAT'S DOING IN WEST TEXAS**

(By West Texas Cham. of Com.)

Snyder will entertain 150 4-H boys at a two-day picnic on July 19 and 20 through the courtesy of W. O. Logan, county agent. Prizes will be offered by merchants and camp will be made at Wolf Park with swimming privileges given by Snyder Golf Club. Two plane rides with "Slim" Lowry, new government licensed pilot in charge.

Sweetwater is completing plans for the Fourth annual convention of the West Texas Press Association which opens July 12 for a two day session. Round table discussions will take up aviation and free plane rides through the courtesy of the Texas Air Transport Company will be given every registered delegate wearing a ribbon.

E. H. Whitehead, publicity manager of the West Texas Chamber of Commerce for the last four years resigned to become assistant manager of the South Texas Chamber of Commerce, at Corpus Christi, effective July 10. One of his accomplishments was making West Texas Today, official publication, a magazine instead of a newspaper.

Wheeler is building a new sanitarium. The building will be frame with stucco finish on the outside and sheet rock on the inside and when completed will be 72 by 72 feet with 22 rooms, hall ways running both ways through the entire building. A large basement will be part of this fine acquisition.

The Cisco cooperative Livestock Marketing association shipped two cars of hogs and one of cattle to the Fort Worth market recently. The cattle brought \$1,600. There were one hundred sixty two head of hogs. R. L. Poe remained in Fort Worth to observe the results of a new tattooing machine used on the hogs.

Levelland's three newest brick business structures on the east side of the square are being completed and will soon be occupied by the Hockley County Realty Company, the Levelland Drug Store and other concerns.

Hereford's new creamery will be installed soon as two car loads of machinery have been received. One car contained vats and churns and the other the refrigerating plant to be used for keeping the cream at the proper temperature to make butter.

Plainview's third annual Texas Panhandle Plains Dairy Show will be held in Plainview on April 7, 8 and 9 of 1930. The dates are one week later than those of the two former shows, and the change is made in order to get away from the first of the month rush usually encountered by business men over the section.

Winters is making progress in cream shipments. Two years ago, about 100 cans of cream per month were shipped out. This year the shipments are averaging 285 per month. Cream brought about \$15,000 into Winters in five months.

Twenty-five applications have already been received to make the trip with the Fourth Annual Motorecade of the West Texas Chamber of Commerce to the Carlsbad caverns. B. M. Whiteker, agricultural manager is in charge, and detailed information can be obtained from him in Stamford.

Spearman dealers recently received 15 Chevrolet trucks to supply the demand of farmers who desire to haul their wheat crop to town. A sufficient number of railroad cars to carry the grain to the markets has been insured.

Del Rio water works system is being installed. The bottom of both of the 1,000,000 gallon tanks have been laid and the forms are being placed for the pouring of concrete on one of them. Each tank will be 28 feet high, and 80 feet wide. Walls are 10 inches thick and well reinforced with steel.

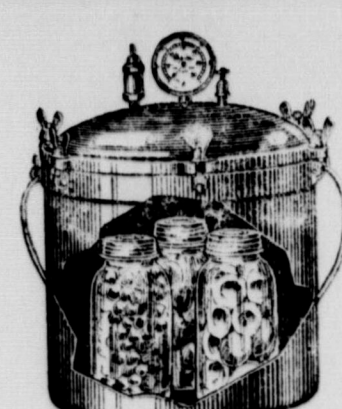

Winnie Russell, of Gibson's Landing, British Columbia, claims a new strawberry picking record. In the course of nine hours' work she picked and hulled 180 pounds of berries.

Reindeer from North America dwindled when kept in corrals, near Grenoble, France. Turned loose in the hills they are thriving.

Mount Vesuvius was not thought of a dangerous until the disastrous eruption of 79 A. D.

The United States owns nearly half the world's moving picture theatres.

The Mississippi watershed includes almost half the United States.

The sabre-toothed tiger once roamed the west coast of our country.

About 80 percent of the whaling interests are controlled by Norway.

Diseases cut down the cotton crop last year by nearly 15 percent.

**BUILDING TO RESIST CYCLONES**

Structural damage to buildings by tornadoes and loss of life incident thereto, may be avoided or reduced by designing buildings so that they can readily resist internal pressure, declares L. V. Teesdale, of the United States Department of Agriculture.

Property damage to buildings by tornadoes may be divided into two classes—that caused by the explosive effect and that caused by flying debris. The explosive effect, usually the most serious, occurs as a result of a difference in atmospheric pressure set up by a tornado between the inside and the outside of a building. The sudden drop in external air pressure produces an internal pressure which frequently results in the blowing out of some portion of the building.

It is possible to relieve the internal pressure of air thus set up in a building by providing automatic vents in it," says Mr. Teesdale. "Observations made indicate that from 10 to 15 per cent of the outside walls and a similar area in the roof should be vented. There are a number of methods by which this could be done. If a sufficient number of windows or panels were designed so that they

would open outward the internal pressure the necessary venting could be accomplished. Special windows equipped with hardware which would work on the same principle as the panic bolts used on the doors in theatres would do the trick. Hinged panels for use in the space between windowsills and floors elsewhere in the side walls of a building is another venting possibility. Roofs may be vented by automatic dormer windows, by skylights, or hinged roof panels," he stated.

Rev. E. J. Smith returned to Crowell Tuesday from McCullough County where he has been for the past week visiting his parents. During the previous week he conducted a revival at the Church of Christ in South Bend, Texas.

Mrs. P. D. Moseley and children of Sweetwater have been here for several days visiting her mother, Mrs. L. O. Sanders, and other relatives and friends. Mr. Moseley came up for the Fourth and his family will accompany him home.

Mrs. Olin Hollingsworth and son, Woodrow, returned to Crowell Tuesday, after a visit with Mrs. Hollingsworth's parents, Mr. and Mrs. C. W. Rame, in Alma, Oklahoma. While in Oklahoma, they also visited in Hilton and Ringling.

Mr. and Mrs. M. J. Brady of Wichita Falls arrived in Crowell Saturday for a visit here with Mrs. Brady's parents, Mr. and Mrs. W. L. Ricks. Mr. Brady left Monday for Wichita Falls while Mrs. Brady remained here for a short visit.

Mrs. Ollie Satterwhite and daughter, Miss George, are here from Mangum, Okla., guests in the home of Mrs. Fannie Thacker. Mrs. Satterwhite was Miss Ollie Rainey before her marriage and was practically reared here but moved away more than twenty-five years ago. She will be well remembered by all the older residents of this community.

J. H. O'NEAL IMPROVING

J. H. O'Neal, victim of a dynamite explosion while at work on the highway west of here in April, is getting along nicely in a Fort Worth hospital, according to a letter received from O'Neal by Oran Speer. An operation will be performed on his foot soon to remove small fragments. After that it is believed that he will be able to get up.

See the negro minstrel at Margaret Friday night.

Miss Ludell Green is visiting relatives in Rule.

The Northland—a good ice refrigerator.—M. S. Henry & Co.

Mr. and Mrs. Dock Harrison of Paducah were here Monday afternoon to attend the funeral of Mrs. J. E. Fish.

Mr. and Mrs. Jim Cook and children left Tuesday for a trip to New Mexico and will probably visit Colorado before returning home.

Mrs. J. D. Halshell and son, Herman, returned to their home at Sanderson last Friday after spending several days in the home of Dr. and Mrs. H. Schindler.

Mrs. Robert Beck came up the latter part of last week from Weatherford and will visit here for two weeks with her mother, Mrs. John S. Williamson, and other relatives.

Mr. and Mrs. W. O. Clary and children, Mary Alice Shannon and Ha Lovelady visited in Tokeken, near Ballinger, Sunday. Mrs. Clary remained there for a short visit.

Mr. and Mrs. Jack Brian and Mrs. Brian's mother, Mrs. D. P. More, and two small daughters of Paducah who were here visiting Mrs. Brian, went to Wichita Falls Tuesday, returning Thursday.

Mr. and Mrs. Lanier Brooks of Marlin were here the first of the week visiting his mother, Mrs. J. W. Klepper. They left Wednesday for McLean to visit his brother, Horace Brooks, and family.

Mr. and Mrs. Roy Perkins and small son who have been making Crowell their home for several months, left Sunday for Santa Barbara, California, their former home. Mr. Perkins is a brother to Mrs. T. F. Hill.

THE FIRST STATE BANK

**Robbers Entered Cafe At Thalia Last Week**

Robbers entered the Corner Cafe, operated by Mack Edens, at Thalia last Thursday night between 10:30 and 11:30 p. m. and escaped with a mint vending machine. No other loss was reported.

A window and door were found to have been pried open. A part of the slot machine was found the next day in the cistern at the Thalia school house, however, the main part of it was still missing. It is not known just how much cash was in it at the time of the robbery.

**"Terrace or Perish," Say Soils Experts**

"What shall we do to prevent soil erosion?" The reply given to that question by soil experts of the southwest is "terrace or perish," according to the July 1 issue of the Oklahoma Farmer-Stockman.

The alarming extent to which the soils of the southwest have eroded and the certain destruction of a larger part of the land in the southwest unless something is done to prevent it brought nearly 100 men from five southwestern states together at the Texas A. and M. college recently to combat this menace. The conference was called the Southwest Soil and Water Conservation conference. It will be held next year at Oklahoma A. and M. college.

All of those present at the conference agreed that soil erosion is the biggest problem before the southwest, and that it must be tackled in the most vigorous manner. In many sections of the southwest crop yields have dropped 50 percent, largely because of erosion. Millions of acres have become "marginal" land on which renters earn a mere existence, farms abandoned. Some of those can be built back at the cost of much time, labor and money. Others have been destroyed to all use of man. We are saving more acres each year, but no one disputes that we abandon two acres for each one saved. The greater loss takes place on the million acres still in cultivation.

To learn best how to build terraces and then how to farm the land after the terraces have been built, it was recommended by the recent conference that all states concerned carry out a program of research by conducting different types of terraces and by farming them in different ways. All experiment stations were represented and the interest was enough that such a program will be begun at once.

Three couples celebrated their golden wedding together at Colchester, England. The wives are triplets.

**STATE PARKS INCREASE**

More than a million additional acres of forest land has been added to the total area of forests in the United States, during the past three years, due to the interest taken in the matter by various states.

In all there are 6,556,736 acres of forest lands in the United States under supervision of the states, most of them being designated as state parks. The government survey showed 1,555,658 additional acres acquired by the state during the last three years.

The greatest extension in state forest area during the three-year period since the end of 1928, was reported by the State of Washington, which added 1,200,000 acres to its 1925 total, and Michigan was a close third with an increase of 167,000 acres. Three states—Delaware, Georgia and South Carolina—which had no state forests three years ago, reported forest lands under state administration at the beginning of this year.

Three year's growth in state park areas added a area of 67,834 acres to the 1925 figures, bringing the total area of state parks to 436,077. Municipal and county forests and parks increased in total area from 697,447 acres at the end of 1925 to 726,577 acres at beginning of this year.

The aggregate area of forest land owned by states, municipalities and counties in the United States on January 1, 1929, included other forest land beside that in forests and parks, was 12,136,945 acres.

The Babylonian compass was laid out in accordance with the winds rather than stars, according to a German professor.

An air map of the city of Rio de Janeiro is to be made.

**"I'm Proud That I Found It," Says Wichita Woman**

Says Since Taking Orgatone She Feels Better Than She Has In Eight Years

"I am now enjoying better health than I have in eight years and I owe it all to Orgatone," said Mrs. Jack Stout residing on Wichita Street, in relating her experience with this medicine.

"I am certainly proud and happy that I found Orgatone, for it is the first and only medicine I have taken in my eight years of suffering that seemed to do me any real good. My main troubles were with my liver and stomach and about five years ago my kidneys started to bother me considerably and I would have sharp shooting pains across the small of my back. After eating I would have a tight, bloated feeling caused by the formation of gas.

I read testimonials in the local Wichita Falls papers about the good Orgatone was doing right around us here and with hope that it might help me too, I bought a bottle and I want to say my relief has been simply wonderful. It may sound exaggerated, but it's the plain truth. I felt better after taking my first dose of Orgatone. In place of irritating my stomach as other medicines did, it seemed to have a soothing effect and after only a few days I found the gas had stopped forming after I would eat and all that cramping and distressed feeling had left my stomach entirely. My kidneys stopped troubling me and I can now eat anything anybody else can, pastries, just anything you can mention, without the slightest discomfort afterwards and I haven't finished taking my first bottle yet. I feel like a different woman. I'm enjoying life more than I have in eight years."

Genuine Orgatone may be obtained in Crowell at the Reeder Drug Co. (Adv.)

European corn borer moths have been known to fly as far as twenty miles.

**HELPING TO BUILD TEXAS**

More than one-third of the cucumber acreage in the United States is in Texas this year with the early crop already beginning to move. The U. S. Department of Agriculture estimates the United States cucumber acreage at 16,040 acres and that of Texas at 5,880, an increase of 660 acres over 1928.

Cows and chickens in the Decatur trade territory returned to farmers nearly \$100,000 in cash in March and April, according to figures compiled by the Decatur correspondent of the Dallas News. Exclusive of the produce hauled out by itinerant buyers and that consumed on the farm, cream brought nearly \$14,000, live poultry over \$10,000, eggs nearly \$22,000, and milks over \$38,000. Decatur is shipping sweet cream in carlots to Philadelphia.

**ECONOMY DISHES**

An economy dish is one in which left-overs are used, or that may be prepared with inexpensive ingredients. Try the following. Even though you be wealthy, you will appreciate the flavor:

**Poverty Pudding**  
6 cups whole milk  
1/2 cup rice  
1/2 cup sugar  
1 teaspoon salt  
1/2 teaspoon nutmeg  
1/2 cup raisins

Put all together in a buttered pan in a moderate oven. Stir frequently at first and then occasionally. Bake 2 hours. Should be creamy. Better cold than hot.

**Left-Over Meat Pie**  
Cut left-over meat and vegetables into uniform medium-sized pieces. Mix with an equal amount of medium cream sauce (1 c. milk, 2 tbsps. flour, 2 tbsps. butter). Season well with onion, salt, pepper, etc. (Use left over gravy with cream sauce if possible.) Cover with a thick pie crust, washed dough or layer of left-over mashed potato mixed with milk (one slightly beaten egg can be added to potato if desired). Bake in a moderate oven until the crust is cooked, or until browned and heated through if potato is used.

**COLD DRINKS**

**Fresh Orangeade**  
1/2 cup sugar

**GOOD FOOD MAKES LIFE MORE ENJOYABLE**

The kind of food that goes into your stomach has much to do with the enjoyment you get out of life. Good food will satisfy your hunger and put pep and vitality into your system. It will make you more cheerful, and life will be brighter. Poor food has just the opposite effect in every instance if you eat it continually.

So, it will pay you greatly to buy only the best and freshest food at all times not only in the way of enjoyment, but in vital health.

**YOU WILL ENJOY THE FOODSTUFFS YOU GET HERE**

We handle only the high quality foodstuffs that make life more enjoyable and livable. Everything here is fresh and good at all times with no exceptions, for we constantly strive to keep our standard the highest.

Our prices are moderate, however, even though the high quality is maintained. You can buy just as economically here as you can anywhere and in many instances, more so.

**MRS. HARWELL AND MISS KIRKPATRICK ENTERTAIN**

Mrs. J. E. Harwell and Miss Frankie Kirkpatrick entertained with two delightful "600" parties on Thursday and Friday afternoons of last week at the home of Miss Kirkpatrick. A color scheme of green and yellow was carried out in all the appointments of each party. Tables were placed and attractive butterfly tallies and score-pads to match were used. Refreshing punch was passed during the game.

After several pleasant hours of playing, an attractive plate was served. The plate had a frill of yellow crepe-paper, was centered with a paper lace doilie and held green brick ice cream and yellow cake. An individual favor of either a green or a yellow powder-puff was placed upon each plate.

The following ladies enjoyed the pleasing hospitality of the hostesses: Mesdames S. S. Bell, J. A. Johnson, M. S. Henry, Arthur McMillan, T. B. Klepepr, M. L. Hughston, T. J. Hughston, A. Y. Beverly, Esca Brown, Brown Franklin, Clyde McKee, Hines Clark, John Ray, L. A. Andrews, R. D. Oswalt, Glynn Shultz, R. R. Magee, John Rasor, D. R. Magee, Oscar Boman, Russell Beverly, Lona Shawver, Alton Bell, M. M. Hart, Jr., R. L. Kincaid, Maurice Kenner, Sam Crews, Bryan O'Connell, M. O'Connell, T. P. Reeder, Henry Ferguson, C. R. Ferguson, S. J. Ferguson, Que Miller, Byron Reese, George Burreas, H. Schindler, D. B. Miller, T. S. Haney, J. H. Shultz, P. W. Shirley, T. L. Hughston, Edgar Womack, L. A. Beverly, C. Q. Crawford, Rob Cooper, C. W. Thompson, Jack Brian, Misses Elizabeth O'Connell, Elsie Schindler, Lozelle Kincaid, Litha Crews, Frances Hill, Mary Clayton Giddings, Alice Baker of Memphis, Vera Patton, Frances Stuart, Allison Self, Martha Schlagal and Caroline Shawver.

**HONORING MISS WILLIAMS**

Mr. and Mrs. Gordon Bell entertained Monday evening in honor of Miss Sarah Williams of San Antonio who is a guest in their home. Tally cards and score-pads for bridge followed a modernistic idea, carrying out a color scheme of green and were very attractive.

Mrs. T. S. Haney won high score among the ladies and was presented with four cocktail napkins while Paul Crews received the men's high score favor, a nest of ash-trays. Guest prizes which were modernistic powder-boxes were given Miss Williams and Miss Corine Haney of Thalia.

A refreshment plate containing ice cream moulded in the form of grapes, cake iced with green, lime punch and green mints was served to Mr. and Mrs. T. S. Haney, Mr. and Mrs. Lawrence Kimsey, Mr. and Mrs. Alton Bell, Misses Sarah Williams, Frances Hill, Corine Haney, and Messrs. Jack Roberts, Jr., and Paul Crews.

**MRS. T. S. HANEY ENTERTAINS**

Miss Sarah Williams of San Antonio, who is the guest of Mrs. Gordon Bell and Mrs. Robert Beck of Weatherford were complimented with a delightful bridge party Tuesday afternoon by Mrs. T. S. Haney. Beautiful silhouette pictures were presented to Miss Litha Crews, who won high score, and to the honorees. At the close of the games a dainty plate was served to the following: Mesdames J. R. Beverly, S. S. Bell, Gordon Bell, Alton Bell, Baxter Johnson, John S. Williamson, and Misses Haney, Crews, Hill, Kincaid and the honorees.

**PARTY FOR MISS WILLIAMS**

Another pretty compliment to Miss Sarah Williams of San Antonio was a bridge party given by Mrs. Alton Bell on Wednesday afternoon.

There were two tables of players and a color scheme of pastel shades was emphasized in each feature of the party. The high score favor, which was celluloid shade pulls, was awarded Mrs. T. S. Haney. Miss Williams was the recipient of a beautiful Dresden powder-box as guest favor. Misses Williams, Frances Hill, Lozelle Kincaid, Mesdames Robert Beck of Weatherford, Pete Bell, Lawrence Kimsey, T. S. Haney, and Gordon Bell were the guests.

A delicious plate course consisting of sandwiches, salad, cake and brick ice cream in the soft pastel colors was served at the conclusion of the game.

**SWASTIKA CLUB**

The Swastika Club held its last two meetings with Mrs. Gordon Bell and Mrs. M. M. Hart, Jr.

The club met with Mrs. Bell on June 13th. Games of bridge were played with Mrs. O'Connell winning high score and Mrs. Lawrence Kimsey second. Refreshments were served to members and two guests, Miss Allison Self and Mrs. Sidney Miller.

Last Thursday morning the meeting was held at the home of Mrs. M. M. Hart, Jr., and after a number of games of bridge, refreshments were served to the members and the following guests: Miss Sara Williams of San Antonio, Miss Litha Crews, and Mrs. Bob Hudson. High score in bridge was won by Mrs. Gordon Bell with Mrs. Que Miller, second.

**MRS. T. N. BELL ENTERTAINS**

Mrs. T. N. Bell was hostess at a pretty, three-course luncheon at 12 o'clock on Tuesday, complimenting Miss Sarah Williams of San Antonio, a guest of Mrs. Gordon Bell. Colors of pink and yellow were used throughout the luncheon and the menu consisted of melon cocktail,

**Fashionettes**  
NOTES OF FASHION and Store News

Milady is returning from the vivid hues she has adopted during the past few months, to her first love of the season, somber blues and black. Black especially is just becoming the color for daytime wear.

We want to remind you again of the trained corsair service that we have in our women's department. You can be fitted correctly in a Gossard in the type that you should have and you should remember this service when in need of it.

One of the cleverest little lines of wash dresses we have ever seen has reached our ready-to-wear department. Cool, crisp, and fast colors—they are real "knock-outs" at \$1.95.

Men's ties are getting bolder and gayer as the season advances. A select group of the very newest things in ties awaits your inspection in our men's department. These ties are really different from anything you have seen, and of course, you'll want them while they are new.

Those ankle length socks the little girls are wearing so much are being equally as popular with her older sisters. They are worn for sports either with or without hose. And, by the way—the bare legged fashion—while popular has not reached the heights it did last season. Flesh shades and "off white" shades of very sheer hose are taking the place of no hose, as fashion and beauty experts everywhere agree that a silken covered leg is more attractive than a bare one.

For Friday's special we will sell any lady's or child's hat in the house for \$1.00 (excepting felts). Come early!

**Blaw-Rosenthal**  
CROWELL, TEXAS

fried chicken, flapper salad, deviled eggs, potato chips, olives, hot rolls, iced tea and orange sherbet and cake.

The guest list was composed of Misses Williams, Frances Hill, Allison Self, Mesdames Alton Bell, T. S. Haney, Lawrence Kimsey and Gordon Bell.

**GAMBLEVILLE CLUB**

The Gambleville Home Demonstration Club met at the home of Mrs. Jim Bailey Monday with 17 women present.

After Mrs. F. J. Jonas gave a talk on "Protective Diet," Miss Freeman gave a demonstration on "Canning."

Refreshments were served and the club adjourned to meet next Monday, July 8, with Mrs. R. H. Blevins. At this meeting votes will be cast for the delegate that will represent the club at the A. and M. Short Course. All members are urged to be present and visitors are always welcome.—Reporter.

**MARGARET CLUB**

The Margaret Home Demonstration Club met last Friday with Mrs. Dennis Harriston. At the meeting it was voted to send a delegate to the A. and M. Short Course in July and provide funds for that purpose. It was decided to have an ice cream social Saturday night, July 6th, at the Woodman Hall. Tables will be arranged so the men can play dominoes, four games for 10 cents.

Miss Freeman gave a talk on vegetable cookery and also gave a demonstration of a new steam cooker which is inexpensive and can be owned by most anyone. The Vivian club will put on a play here Friday night.

**FIRST NEW MARRIAGE LICENSE**

The first new marriage license granted from the office of Foard County clerk under the new marriage license law was issued Tuesday to Buddy Lewis and Ollie Erwin, colored.

Lewis and Mrs. Erwin were married in a public ceremony at night in the negro section of the town. The wedding was attended by a crowd of both white and negroes.

**CICERO SMITH LUMBER CO.**  
"THE HOME OF SPLINTERS"  
R. J. ROBERTS, Local Manager

Dear Friends:

We have decided that we do not know what Mr. Weatherford is going to send us but if we made a guess it would be that we have a mighty good prospect for a fine feed and cotton crop this fall.

Proud father: "Don't you think it's about time the baby is learning to say 'daddy'?"  
Mother: "Oh no, I hadn't intended telling him who you are until he becomes a little stronger."

It is a good time to paint after this fine rain for the dust and dirt have been washed off. We have a complete line of B. P. S. Paints and Varnishes and also a good stock of wall paper.

Two may be able to live as cheaply as one, but not as quietly.

The depreciation on your car caused by it being out in the sun and winds will pay for a good garage in a short time.

A Numetal Weather Strip customer said: "Before my house was weather stripped it cost so much to keep the house warm in the winter that I never had enough money left to go somewhere in the summer." Numetal Weather Strips will help keep the cold sand out of your house. We also have a felt strip to put at the top of your doors to keep the rain from blowing in.

"I have just killed five flies—two males and three females."  
"How do you know?"  
"Two were on the table and three on the mirror."

Yours truly,  
SPLINTERS.

**How to Have Foot Comfort**

An Exposition of the newest, scientific, most advanced methods of relieving and correcting Foot Troubles will be held at our store

**July 11th**

How they give Comfort will be explained  
By an Expert from Chicago

ON the above date we shall have at our store an Expert from the staff of the world's most noted Orthopedic authority, Wm. M. Scholl, M.D., at which time the newest, most advanced scientific methods of correcting foot ailments will be shown and explained.

No matter how painful, difficult or long-standing your foot trouble may be, you will be shown how instantly modern science now brings you foot comfort. This Expert will Pedro-Graph your stockings and show you exactly the nature and extent of your foot trouble. He will then prove to you how the specific Dr. Scholl Foot Comfort Appliance or Remedy made for your particular ailment, relieves you of pain and removes the cause. All this without any charge or obligation to you! Don't miss this opportunity.
