CROWELL HELD TO SCORELESS TIE BY MUNDAY

Spears Make Eleven First Downs to Visitors 2; Crowell Men Hurt

Crowell and Munday played a scoreless tie here last Friday in the exciting football game that has been seen here this year. Crowell played the visitors, scoring eleven touchdowns to Munday's two, but the game dropped passes and fumbled touchdowns seemed certain. In the game also removed three Crowell's backfield men, Captain Lanier, Ashford and Ganns. Crews, end, also went out with intention to further cripple the Wild-

Crowell opened the game kicking to Holder on the five yard line. Munday kicked to the 47 yard line. After a number of large gains by the line by Ganns, the ball went on Munday's ten yard line. Crowell fumbled on an attempted lateral pass, with Munday recovering. Munday punted almost right up to put the ball on the 15 yard line. In an attempt to go around Lanier fumbled and Munday recovered and followed with a punt to the 35 yard line and ran back ten yards as the quarter-

Second Quarter
Two thrusts at the line failed and Crowell kicked to the 25 yard line with Captain Lanier returning. Spears made a first down. Crowell after two runs through the line, Crowell received a 5-yard pass for taking too much time and the next play Ganns punted 35 yards and Munday returned 7 yards.

Crowell gained 40 yards on a pass from Todd for ten yards and another pass on Munday's line. Parker of Munday intercepted a pass on the next play on the 35 yard line. After an unsuccessful pass, Pruitt kicked 40 yards. A Crowell pass failed and Ganns kicked 30 yards against Munday. Ashford intercepted a pass the Munday 45 yard line. Guy completed a pass on the 40 yard line as the half ended.

Last Half
Pruitt kicked off to Crowell's ten yard line and Lanier returned ten yards. Ashford, Lanier and Todd led 14 yards on three line plays. Crowell followed with another 5 yard pass. Spears followed with a 25 yard run to place the ball on the 30 yard line. Guy Todd went through the line for 6 yards and Crowell was penalized on the next play for taking too much time. A fumble. Two line plays netted no gain and another pass on the fourth play was hatted down giving Munday the ball on their own 30 yard line.

After two line plays and a pass to bring any gain Munday punted 25 yards giving Crowell the ball on the 45 yard line. After a run of eight yards through the line Crowell was penalized 5 yards for taking too much time, and Ganns was downed in his tracks. Crowell was offside and was penalized 5 yards. Three thrusts at the line failed and Munday punted 15 yards. After Spears dropped a beautiful pass, Oswald punted 48 yards across the goal line and Munday took possession of the ball on the 20 yard stripe. Munday kicked for a first down for Crowell and followed that beautiful play by completing a pass. Ganns completed a pass for 25 yards to put the ball on the Munday 12 yard line as the quarter ended. Ganns was injured taken out on the play.

Another Costly Fumble
Crowell hit the line for no gain then made a costly fumble which Munday recovered on the ten yard line. Pruitt punted 35 yards and Munday returned ten. A pass to Bell failed and on the next play Spears kicked a pass for no gain. Another fumble failed and Munday took the ball downs.

On the next play Edwards of Munday made a gain of 35 yards when he completed a long pass after lying on the ground. This was Munday's second touchdown. Munday was penalized 15 yards on the next play when Pruitt kicked 40 yards on the next play and returned 7 yards. Crowell followed with a punt of 30 yards. Munday received another fifteen yard pass for using the hands on the line and then punted 40 yards on the next play to Todd who returned 7 yards.

Two consecutive passes failed and Crowell was penalized 5 yards and Ganns again on the next play for being offside. Todd made a five yard run which was followed by a fumble which was dropped by Crowell. Oswald punted 35 yards for Crowell and Holder returned 10. A long pass by Munday failed and Crowell followed with a 45 yard punt. Crowell failed at an attempt to kick on the next play on Crowell's 35 yard line. Munday failed on an attempted pass and made a nice punt. Crowell's five yard line. Oswald kicked behind the goal line and punted 35 yards. Munday attempted to drop

County Agent Asks Farmers to Make Terracing Plans

The greatest terracing program in the history of Foard County will likely take place this year, according to Fred Rennels, county agent. Mr. Rennels expresses this opinion as a result of hearing comments of farmers and landowners on the matter. Over sixteen thousand acres were terraced in Foard County last year to exceed all previous records.

As has been the custom heretofore most of the people decide to terrace at the same time and naturally the services of fifty county agents could barely take care of the terracing calls that come within a short time.

The county agent is hoping that those wishing to have terracing done this year will notify him as soon as possible so that he can arrange and begin on the gigantic terracing program.

Foard County's large terracing program of last year was made possible only through the knowledge that the farmers gained on terracing along with the general supervision of the county agent. Many farmers purchased their own terracing levels and now there are machines of this type in every part of the county and their operation was quickly mastered by the farmers. As a result thousands of acres were terraced that otherwise would have been untouched if Mr. Rennels had been required to spend his time on just a few farms each week instead of being able to supervise the work all over the county.

J. C. Thompson, local agent for the Federal Land Bank of Houston, stated last year that practically all farms in Foard County that have loans from the Federal Land Bank have been terraced and officials of that institution were exceptionally well pleased with the rapid progress of this work in Foard.

Probably no institution has done more to promote terracing work than the Federal Land Bank. It is constantly pushing this work and has a special soil and conservation agent with A. K. (Dad) Short, one of the best known farming experts in the Southwest, in charge. Last year Mr. Short and M. R. Bentley, soil expert, of A. and M. College, conducted a terracing school here that was attended by farmers from all over the county.

Paving Has Reached Home of Guy Crews

After some delays due to the weather paving on the Lee Highway is again going full blast and is now past Guy Crews' residence, a distance over one and one-half miles from the starting point. Hand finishing work around a bridge has also made the work slower. Over 15,000 square yards of paving has been laid thus far. Forty-five gravel trucks are at work hauling material from the plant to the mixer.

Paving of the Lee Highway from the Wilbarger line to Vernon will be completed by the first of the week, according to information from Vernon. As soon as possible another plant will be established between Thalia and the Wilbarger line so that two crews may be at work in this county.

Five Million Feet Of Gas Struck In Tarver Oil Test

A gas showing estimated at five million feet was passed in the new Tarver test of Shell and Fain-McGaha Tuesday. The gas came from a depth of 800-935 feet. Drilling is now continuing for the 1,400 foot sand. This test is located in the J. K. French lease on the farm now owned by W. S. Tarver, 660 feet west and 220 feet south of the northeast corner of the west 80 acres of the south 160 acres of Section 3, certificate 5056, G. C. & S. F. Survey.

The Humble's No. 1 Matius, section 53, block 4, H. & T. C. Survey completed a fishing job after dropping two sets of tools in the hole at 1,620 feet. A third set was dropped before drilling operations could be resumed this week.

Successful Methodist Revival Ended Sunday

Dr. J. W. Hunt, president of McMurry College at Abilene, closed a very successful revival meeting of one week at the Methodist church Sunday night.

Dr. Hunt is one of the most popular ministers that has ever preached in Crowell and the people of this section are looking forward to the time when he can conduct another meeting here. Splendid interest was shown in the meeting throughout the eight days that Dr. Hunt preached here. Six additions, three by letter and three by vow, were made during the revival.

kick, after two line plays, from the 25 yard line. After gaining possession of the ball on the 15 yard line Crowell punted almost straight up and the game ended with the ball in Munday's possession on Crowell's ten-yard line.

CROWELL-RURAL TEACHERS HAVE THREE-DAY MEET

Dean James F. Cox of Abilene Christian College Makes Two Addresses

Every school of Foard County was represented in the three-day teachers institute held Thursday, Friday and Saturday at Crowell and Thalia. The institute opened Thursday at Thalia when the rural school teachers had their own meeting. The Crowell and rural teachers met jointly on Friday in the high school auditorium and the Crowell teachers had a meeting of their own Saturday.

Mrs. Boyd Gillespie of Truscott, district P. T. A. worker; Mrs. R. L. Kincaid of Crowell and W. C. Jones, Thalia superintendent, discussed the Parent-Teachers Association work at the morning session. J. E. Atcheson, county superintendent, gave a talk regarding the aims and plans for the teachers of the county after which sectional meetings were held with Mrs. W. C. Jones, Thalia, in charge of the primary department; Miss Sara Lawrence, Black, intermediate; and C. T. Tucker, Foard City, high school.

Afternoon Session

In the afternoon session Thomas R. Cox of Margaret spoke on how to use the course of study. Mrs. Leta B. Russell of Foard City spoke on the subject of playground beautification followed by a talk by Miss Mildred Cogdell of Claytonville on playground activities. Seating and posture were discussed by Fern Nicholson and after an intermission T. C. Davis of West Rayland talked on standard tests. "The teacher and the district board: what they should expect of each other," was the subject of a talk by L. L. Nixon of Vivian that followed. Professional relations between teachers and the responsibility of the teacher to the pupil were the concluding subjects for the day that were discussed by Mrs. Gladys Tucker and Mrs. Hite Jenkins of Foard City.

Second Day

The meeting for the second day opened at 9 a. m. in the Crowell High School auditorium. After roll call and preliminary services an address was given by Dr. J. W. Hunt, president of McMurry College at Abilene. His talk was mainly on the philosophy of happiness.

James F. Cox, dean of Abilene Christian College, featured the institute with two addresses, one in the morning and one in the afternoon of the second day session. In his first address he told of the teacher's opportunities to make something out of their pupils, stating that they had the most important material in the world with which to work with and compared that situation with that of the tree in the forest which is taken to the saw mills, part of the tree being developed into fine material and part into poor, but no part wasted.

In illustrating his point he gave an old Greek story in which a great prize had been offered to the person who had done the most for civilization. At the meeting in which this matter was to be decided, all of the great men were present and each arose and told why he deserved the prize. After about all had completed their talks the man in charge of the meeting walked over to an old white haired man and asked him if he also had something to say. The old man answered that he was merely present at the meeting to see which of the men got the prize as he was particularly interested in the matter since he had taught most of the men present. Without further discussion the old white-haired educator was awarded the prize.

After Mr. Cox's address a report of the Interscholastic League committee was made. Sectional meetings followed with the following in charge: primary—Miss Lottie Woods; intermediate—Miss Thelma Shaw; and high school—W. C. Jones.

Second Address

"The Teacher's Reward," was the subject of the address by Dean Cox at the afternoon session. He brought out that money, influence and persecution were the three main items in the teacher's reward and that money was the least reward of all.

He told how the teacher's influence was rewarded in the making of successful people. He stated that teachers were commonly persecuted, and that most of the time the persecution was unjust. He told how Jesus Christ was persecuted. In concluding he stated that though persecuted here the righteous would find their reward "up yonder."

Sectional meetings were held again in the afternoon with the following in charge: primary—Mrs. W. C. Jones; intermediate—Mrs. Gladys Tucker, and high school—I. T. Graves.

A discussion on the P. T. A. and the Interscholastic League concluded the meeting of the day.

League Officials

The following directors for the Foard County Interscholastic League were announced: Thomas R. Cox, Margaret, director general; athletics, C. G. Graves, Crowell; debate, Henry Black, Crowell; declamation, Miss Sara Lawrence, Black; music memory contest, Mrs. Hite Jenkins, Foard City; arithmetic, Mrs. Bob Abston; essay writing, Charles T. Tucker; spelling, Miss Irene Patton, Vivian; wild flower contest, Miss Virginia Borchardt, Gambleville; chorus, John

FUNERAL HELD SATURDAY FOR MRS. MITCHELL

Foard County Pioneer Died Early Saturday Morning After Serious Illness

One of the earliest settlers of this section passed on to her eternal reward in the early hours of the morning Saturday when death came to Mrs. G. A. Mitchell, who had been seriously ill for the past few weeks. Funeral services were held Saturday afternoon at 3:30 o'clock at the Methodist church with Rev. Charlie Jameson, pastor of the Canyon Methodist Church and a life-long friend of the Mitchell family, officiating. He was a former resident of this section. Rev. W. R. McCarter assisted in the services.

A large crowd was present at the church and a great number of cars followed the hearse to the Crowell Cemetery where interment was made.

Martha Ann Miller Mitchell (nee Lacy) was born October 1, 1855, in the state of Missouri. When but a child her parents came to Texas and settled in Burnett County on the Colorado River, where she grew to womanhood. She was united in marriage to Silas Miller in 1873. To this union was born one child, now deceased. The husband died in 1876.

In September 1878, she was married to G. A. Mitchell and to this union were born nine children, six girls and three boys, seven of whom are now living. Those surviving Mrs. Mitchell are her husband and the following children: Mrs. John S. Willamson, San Antonio; Mrs. J. R. Allee, Crowell; Mrs. Charles Hunt, Sand Springs, Oklahoma; Miss Dine Mitchell, Crowell; Mrs. W. B. Carter, Altus, Oklahoma; Mrs. L. J. McFarland, Fort Worth and Evans Mitchell, four sisters, one brother and fifteen grandchildren.

Mr. and Mrs. Mitchell came to this section in January, 1890, settling on a farm about two miles south of where Margaret now stands. Foard County and Crowell were organized a year after they moved here. In 1907 they moved to Crowell where they had since lived.

Mrs. Mitchell was baptized into the Church of Christ in 1885. Afterward she pledged her faith with that of her husband to the Methodist Episcopal Church, South.

Mr. and Mrs. Mitchell had been married for fifty-one years and one month at the time of her death. Throughout her life she had proved to be a kind, generous, sympathetic woman, ever ready to lend a helping hand. The loss of this fine pioneer woman is a great one to the entire community.

Pall bearers at the funeral were: John L. Hunter, John S. Ray, M. O'Connell, T. B. Klepper, D. R. Magee, J. H. Lanier and J. R. Beverly.

New Baptist Church At Vernon Started By Rev. W. W. Smith

As a result of a revival meeting conducted in West Vernon about four weeks ago, by Rev. W. W. Smith, a new Baptist Church for that city has been created. Already a lot has been purchased and paid for and practically enough money has been raised for the church's new basement where will be the first unit of the church home.

Rev. W. J. Darnell of Lockett was called as full-time pastor of the church on the last day of the revival. At present the services of the church are being held in the West Vernon school building.

Subscription Time!

For the past two weeks the News has been sending out a large number of sample copies to people of this county who are not subscribers to the paper. If you get one just consider it an invitation to become a regular reader. We want the paper to go to every home in the county and will put forth every effort in the next two months to accomplish this.

We have already been receiving new subscribers and some have already renewed for another year. New subscribers to the Star-Telegram who take advantage of our clubbing offer on the News and Telegram will get the latter paper for 13 months instead of 12.

Bargain rates of \$5.50 per year are also offered for one-year subscriptions to both the Wichita Falls Record-News or Wichita Daily Times and the Foard County News. The rate with the Star-Telegram is \$8.20.

Hugh Banister, West Rayland; art memory contest, Miss Lottie Woods, Crowell; sub-junior declamation, Mrs. W. C. Jones, Thalia; tiny tot story telling, Mrs. Marion C. Roy, Claytonville; girl's athletics, Miss Claudia Carter, Margaret.

The teachers of the county agreed to have three more meetings on Saturdays during the remainder of the year on their own time.

Herbert Edwards Winning Guesser For Last Week

Herbert Edwards made the best guesses on the football games last week to ruin Gordon Gribble's record as the champion predictor of Crowell. Jimmy Doolen barely forced Gribble from second place and Floyd Thomas and Paul Crews joined Eli Smith and Gordon Bell in the cellar positions.

Several upsets featured the games last week and not one person guessed all winners or the exact score of any game. Doolen was the only correct guesser on the T. C. U.-A. & M. game.

The scores of Saturday's games with the champion predictions follow, actual scores coming first: T. C. U. 13, 6-A. & M. 7, 19; Texas 21, 20-Oklahoma 0, 7; Baylor 31, 28-Arkansas 20, 7; California 12, 7-Pennsylvania 7, 0; Army 20, 21-Harvard 20, 7; Nebraska 7, 7-Pittsburg 12, 10.

Each week the winner has the honor of predicting until he loses and this week the following have made predictions: Herbert Edwards-1; Merle Kincaid-2; Irving Fisch-3; Fred Rennels-4; and T. B. Richmond-5.

The games and predictions follow:

	1	2	3	4	5
A. & M.	19	13	19	20	14
Ark.	7	7	0	14	0
Baylor	26	20	20	13	21
Centenary	6	0	7	7	7
Texas	28	32	33	20	20
Rice	6	0	0	0	6
T. C. U.	35	21	26	30	32
Tech	0	0	0	7	7
S. M. U.	19	20	13	14	14
Miss.	0	0	0	7	0
Army	14	13	13	0	0
Yale	7	7	6	7	7
Neb.	10	13	7	6	13
Missouri	7	7	14	0	0

Most of the guessers this week are unanimous on the winners, however, there are a few exceptions. The bettor that A. & M., Baylor, Texas, T. C. U. and S. M. U. will win their games is unanimous. Irving Fisch is the only person to predict defeat for Nebraska. Fred Rennels and T. B. Richmond are exceptions in predicting that Yale will beat West Point. Each happened to predict a 7 to 0 victory for Yale.

While it seems easier to guess at the winners of the games this week, yet it is more difficult to predict scores since there is such a difference in the power of the teams in most of the games.

The writer, after taking it on the chin for two consecutive weeks in picking the winner, picks Herbert Edwards will again emerge victorious. Last week the linotype operator hit the nail on the head when he announced in this column that he predicted Edwards to win while the writer chose Floyd Thomas. This week the operator picks Irving Fisch as winner.

State Improvement Agent Visitor Over County This Week

Miss Bernice Clayton of College Station, home improvement specialist, was a visitor in Foard County this week and attended meetings at Foard City and Vivian with Miss Virginia Freeman, home demonstration agent. Miss Clayton is connected with the A. and M. Extension Service.

Thirty-five women from the home demonstration clubs of Foard City, Catesville, Vivian and Claytonville were present at the meeting held in Foard City Tuesday afternoon in the Foard City church.

Miss Clayton gave a demonstration on living room improvement and told of the state-wide contest that is to be held on that item this year. Each year the extension features some phase of home improvement. This year living room improvement is being stressed.

The contest on living room is to begin December 1st and Miss Virginia Freeman is expecting a number of club women of this county to enter. As near December 1st as possible all entrants will be judged before any work is started on improvements and then again by the same committee on May 1st to determine the amount of improvement.

There are two classes in the contest, class one containing entrants who spend less than fifty dollars on improvements, and class two, where entrants spend more than fifty dollars.

The winner in each class in the county is determined and then a district agent determines the district winners after which the final decision is made by a state agent. Various prizes for the winners are offered by the Semi-Weekly Farm News of Dallas and it is also likely that prizes will be offered from other sources.

Vivian Meeting

Wednesday afternoon Miss Clayton and Miss Freeman met with the Vivian girls 4-H Club at the home of Mrs. J. B. Raspberry. Fifteen girls were present. A demonstration on dresser scarfs was made by Miss Clayton and a talk on yard and bedroom improvement was also given along with instructions as to the girls required home improvement work.

SELF IN CHARGE OF PROGRAM AT ROTARY LUNCH

Underprivileged Children Committee Presents Program Wednesday

B. W. Self was in charge of an interesting program at the luncheon of the Rotary Club Wednesday. Mr. Self is chairman of the committee on crippled and underprivileged children and conducted a program along that line. Miss Leoma Knox gave an excellent reading along the spirit of the program which concerned a hunchback child. Rev. Woodie W. Smith also made a talk regarding the accomplishments of crippled people.

In opening the program Mr. Self gave a number of interesting facts which follow: "2000 years ago crippled children were destroyed outright; 500 years ago crippled children were ostracized; 100 years ago they were neglected, but thanks to our more modern civilization, crippled children in our day are located, examined, treated and educated.

"At the present time the crippled child does not have to have the well-to-do parents to become normal, as we have many modern hospitals that take care of them without fee or reward. Many organizations are taking it upon themselves to help the unfortunate child, who from the very beginning has an unequal chance in life."

Mr. Self told of the great work for crippled children that was being done by the Shrine hospitals and mentioned of a visit to the one at Dallas. He paid particular tribute to Dr. Carroll, who gives his time without cost to that institution.

In telling the club how it could help on such matters, Mr. Self stated that everyone should report the case of any crippled child to his committee so that its case could be taken up at once in having it placed in a Shrine hospital at the earliest possible moment. "We stand by and see money appropriated by the millions for things that are as a sounding of brass and tinkling symbol compared to the unfortunate child. We do not believe there is a more noble work than to take a crippled child and place it on the road to happiness and success, so let us work together intelligently and systematically that we may bring the crippled children everywhere, their birthright of equal opportunity and thus make the world brighter and better by having assisted the poor crippled child who could not help himself," Mr. Self stated. Effort for improving the general health in various ways were also stressed by the speaker.

Rev. Smith Speaks

Following Miss Knox's reading Rev. Smith made a short talk in which he pointed out the accomplishments of crippled people of history. Moses was his first example, and the Apostle Paul was another Biblical character mentioned. Senator W. D. Upshaw and Helen Keller were two of the outstanding cripples of the present day that Rev. Smith referred to.

He also gave an instance of a former Foard County neighbor who was born without any signs of arms and who was now conducting a successful printing business in that city. The instance of another man who lost a leg in the first battle of the Civil War was mentioned. This man invented a cork leg and his invention netted him and his descendants millions of dollars. This particular man once mentioned that the shot "was the luckiest blow he ever received."

Former Crowell Child Died at Electra Tues.

Frances Henson, 7, sister of Mrs. Fae Beidleman of this city, died at her home in Electra Tuesday at 7:05 p. m. The little child had been ill for about ten days with diphtheria and Tuesday afternoon was thought to be better. Mrs. Beidleman, who had been visiting her little sister for about a week returned to Crowell and had barely arrived here when informed of the child's death.

Frances was the daughter of Mr. and Mrs. G. L. Henson, former residents of this city, and was born in Crowell on October 24, 1922. She was the youngest child in the family. Two brothers, Opal and Haskell, and three sisters, Darline, Pauline and Mrs. Beidleman, and her parents survive Frances. All of the family with the exception of Mrs. Beidleman live in Electra.

Funeral services were held Wednesday afternoon at the family home and interment was made in the Electra cemetery. Those attending the funeral from here were the sister of the little girl and Faye Beidleman, Mrs. T. B. Haney, Mr. and Mrs. B. D. Miller, Mrs. T. B. Richmond, Mr. and Mrs. C. E. Flowers, Mr. and Mrs. C. W. Beidleman, Miss Arrie Fleta Beidleman and Miss Cornelius Beidleman.

Frances was attending school for the first time this year.

COTTON GINNINGS

Ginnings in Crowell to Thursday amounted to 1,389 bales. A. T. Schooley, public weigher, reported that 2,612 bales had been weighed in the Crowell cotton yards up to Thursday afternoon.

FOARD CITY

(By Special Correspondent)

Miss Thelma Ferguson spent the week-end at home with her parents, Mr. and Mrs. Will Ferguson.

Mr. and Mrs. Sam Mills and daughter, Sammie Gene, of Crowell spent Sunday with Mr. Mill's parents, Mr. and Mrs. John Mills.

Rev. Russell filled his regular appointment here Sunday night. A large crowd attended both services.

Misses Juanita and Oleta Thompson spent the week-end at home.

Remember Sunday School next Sunday morning at 10 a. m. and preaching at 11 a. m. Every one invited to attend.

BLACK

(By Special Correspondent)

Mr. and Mrs. E. L. Boman and children of Wilbarger County and Lorene Boman of Margaret spent Sunday afternoon with C. O. Nichols and family.

Mr. and Mrs. J. M. Jonas of Crowell spent Sunday with their daughter, Mrs. C. D. Hall.

Mrs. R. P. Boman of Margaret spent the week-end with her daughter, Mrs. C. O. Nichols.

Mr. and Mrs. Edward Brock are spending the week with Mrs. Brock's mother, Mrs. Molly Free, of Gambleville.

Mrs. S. W. Gentry has been on the sick list this week.

Romeo and Juliet Free of Gambleville spent the week-end with Wayne and Kathlene McDaniel.

Mr. and Mrs. George Brown of Cottle County spent Sunday with Mr. Brown's sister, Mrs. L. T. Boren, and family.

Will Culberths and family of near Crowell spent Sunday with his brother, B. F. Culberths, and family.

Miss Bonnie Boren of Vivian spent Saturday night with her brother, L. T. Boren.

Mr. and Mrs. Grover Cole of Crowell spent Sunday afternoon with Mrs. Cole's mother, Mrs. G. W. McKown.

Mr. and Mrs. Frank Elton and children of near Quanah spent Sunday

with Mrs. Elton's mother, Mrs. G. W. McKown.

VIVIAN

(By Special Correspondent)

Mrs. W. L. McLaren and daughter, Effie, of Paducah are spending a few days visiting their daughter and sister, Mrs. Jesse Dishman.

Miss Naomi Fish of Paducah spent Saturday night and Sunday with her parents, Mr. and Mrs. A. T. Fish.

Mrs. J. E. Whately and son, Granle, left Tuesday morning for Roswell, New Mexico. On their return they will bring back a load of apples and vegetables.

Mr. and Mrs. L. L. Nixon and Misses Irene Patton and Fern Nicholson attended the Teachers Institute at Crowell Thursday and Friday.

Mrs. Allen Fish spent Monday afternoon in the home of Mrs. T. B. Klepper of Crowell.

Miss Avis Nixon of Crowell spent the week-end with her parents, Mr. and Mrs. L. L. Nixon.

Mrs. E. L. Davidson who has been on the sick list for several days is slowly improving.

A. W. Blair and children left one day this week for Iowa Park where they will pick cotton.

Mr. and Mrs. George Tremble and children of Paducah were visitors in the home of Mr. and Mrs. R. S. Haskew Sunday.

The Vivian Community is to have a box supper Friday night, November 1, for the benefit of school equipment.

Raymond and J. B. Rasberry left Monday for Oklahoma where they will visit.

WEST RAYLAND

(By Special Correspondent)

Mr. and Mrs. J. D. Long of Burk Burnett spent Sunday with her parents, Mr. and Mrs. Buck Clark.

Elijah Stone returned to his home in Hale Sunday.

Ira Tole who is attending school at Cordell, Oklahoma, spent the week-end with home folks.

Gar Ainley visited in Amarillo Sunday.

Dr. Hines Clark of Crowell visited Buck Clark Sunday afternoon.

J. E. Young purchased a new Chevrolet landau Wednesday.

Fred Belew and son, Junior, returned from the Plains Tuesday.

Mrs. Rosie Price and family of Quanah spent Sunday afternoon with M. L. Cribbs and family.

Mr. and Mrs. M. L. Cribbs were dinner guests of Mr. and Mrs. Fred Belew Sunday.

Naomi Baker of Rayland spent Sunday with Mary Jo Belew.

Mark Belew of Salina, Texas, spent from Thursday until Saturday with his brother, Fred Belew.

Mr. and Mrs. J. E. Young and daughter, Theima, left Sunday for a visit on the Plains.

Cap Adkins and family visited Ben Lowe and family of Vernon Sunday.

Mrs. Alley Huntley went to Vernon Sunday where she will visit a few days before going for an extended visit with relatives in Dallas.

Ralph Gregg and children, Hazel Jordan, Grace and Buster Crisp, and Jesse and Eula Mae Gregg attended church at Thalia Sunday night.

Frank Ward and family visited Buck Clark and family Sunday.

TEXON TALES

Well, they say there is a car for every five persons in the United States, to say nothing of Oklahoma. Personally, we wish to say we think the car, like prohibition, feminine suffrage and other modern impediments too numerous to mention has its evils but just the same automobiles are becoming thicker and thicker while the drivers are becoming thicker and thicker-headed. The golf club is not the only wooden-headed driver by any means. The headless horseman was only a forerunner of the present car driver. It takes one or two thousand nuts to hold a car together but only takes one nut to disassemble it along the roadside. A nut driving his car along the road, paying more attention to the miss in the seat than the one in the engine, feeding an abundance of apple sauce to the peach while the car took a nose dive into the pea-patch gave us our modern version of fruit salad. Another thing, the auto is putting the train out of business in many ways while the train is able to get in a bit only once in a while at some crossing. It doesn't take long for a car to last some guys a life time. You can lift a big car with a little jack but you can figure on it taking a lotta jack to keep a car going. When you see a gu driving carefully you can safely bet he has made the final payment. Some people figure a car is a rattling good investment. A man driving with both hands is a married man. Most married men say none of the innumerable rattles about the car irritate them as the chatter in the back seat. Lots of times the thing that won't turn out like you hope it will is the car ahead. Smiling and laughing is fine in its place but it ain't much help to a guy fixing a flat. Most people like cars alright though with all their faults and those who don't are considered backward. The automobile industry is a great thing. It popularized installment payments, proved to us we can live far beyond our means, has thinned down pedestrians to nearly nothing and has the last remaining few on the jump, has done a lot of mighty bad things to us that way while we can think of only one real benefit it has brought us—it tends to exterminate the horsefly. But, with the rest of the American people, we join in the popular refrain, "On with the dents."

TEXON TATTLER.

Statistics show that married men are worth more and live longer than single men, but in all probability an old bachelor proved to be the statistician.

Many people overlook the fact that marriage ties are only beau knots.

Little Martha Ann Johnson arrived in the home of Mr. and Mrs. R. C. Johnson Friday, October 18. She weighed 10 and one-half pounds.

Mr. and Mrs. Dave Shultz and Mr. and Mrs. Claude Carroll were Vernon visitors Tuesday.

WHEN ELECTRIC SERVICE IS INTERRUPTED TODAY

Recently a large American city was without electric current for a short time. The chaos resulting was graphically described by the Boston Herald, which said: "Street lights failed to work, with consequent traffic snarls; radios were struck dumb; electric machinery in dozens of factories stopped—elevators stuck between floors—; pipe organs in movie theatres died with dismal groans and the pictures 'froze' on the screen; soda fountain milk shakers refused to shake, and the supply of carbonated water soon gave out; afternoon newspapers were delayed by idle presses—"

Such a list could be continued for many pages. Electricity has become so integral a part of our lives and so necessary to all the machinery of our civilization that when service is interrupted for the briefest period of time, business actually comes to a stand-still. Behind almost every luxury and necessity we use and almost every task and occupation, is electric power. It is no wonder that electricity has often been considered the greatest agency of progress we have.

SUMMER WOOLENS REQUIRE PROTECTION FROM MOTHS

There is a prevailing impression that clothes moths are active only in the spring and summer and that in the fall and winter it is not necessary to take precautions in storing summer clothing. The Bureau of Entomology of the United States Department of Agriculture says, however, that while moths may be more prevalent and noticeable as warm weather approaches, they are active throughout the year in apartments or other places where a steady temperature of 70 degrees F. or more is maintained.

Clothing and blankets in constant use are not often attacked. A woolen summer suit left hanging at the back of a closet, however, would exactly meet a parent moth's idea of a good place to lay her eggs. The following year the suit would likely be riddled with holes; and some of the larvae might crawl off and eat other garments such as the evening suit that is only worn occasionally, or anything else that is not frequently brushed and shaken.

At the end of their season any garments likely to be attacked should be thoroughly cleaned at home, brushed, beaten and sunned or sent to a dry cleaner. Then they should be neatly folded and put away at once in a tight red-cedar chest or other tight container such as a trunk or box which can be sealed. As additional protection in any container except the cedar chest, it is well to put some naphthalene flakes or moth balls in the box with the clothing. Cardboard boxes may be used if the clothing is properly prepared beforehand as indicated and if they have an outer wrapping of heavy paper with the ends turned under in such a way that no moths can get in.

Use of the most peculiar machines made is man. The brain supplies the motive power for the tongue, yet the less power the faster the tongue works.

Night work is frequently injurious to the health of workers, particularly to women workers, the United States women's bureau finds.

Rewards offered by the Indian government for snake killing resulted in 57,000 snakes being killed last year.

The boar was held sacred by the Kelts of the iron age.

MRS. J. E. GREEN
Constant pain in my side, I had rheumatic pains in my limbs and it seemed like every joint in my body ached. It got so bad, I could hardly walk. My liver wasn't active and my system seemed full of poisons. My husband was taking Sargon and it was doing him world of good so I decided to try it. I can eat anything I want now, my stomach never bothers me. That rheumatic aching in my side is gone and I haven't a rheumatic pain in my body. Sargon Pills regulated my system and drove all the poisons out of me, without nauseating or hurting me in the least. Of all medicines I ever tried, Sargon and Sargon Pills are the only ones that really gave me lasting results."—Mrs. J. E. Green, 2218 Cedar St., Dallas. Sargon Drug Store, Agents. (Adv.)

THE TOWN WHICH GOES AHEAD

Some towns, because of a large territory from which to draw, because of exceptional resources nearby or as the result of unusual circumstances, forge ahead of others not so fortunate.

Progress, however, can not be attributed altogether to circumstances. The town whose citizens put their backs to the wheel of advancement will be a better town and its future more secure regardless of whether it has been favored or unnoticed by the god of chance. A town can be no better than the citizens who form it regardless of outside influences.

What then, makes a good citizen? A good citizen is one who is willing to give a reasonable amount of his time in a public-spirited way, in advancing the good causes of his community. He is one who is willing to cooperate with others and who can see the viewpoint of his neighbor as well as his own. He is one who does not knock, even if his own opinions are overruled.

A good citizen, if he is able, should be willing to back new enterprises that make for the progress of his community; and, if he is not in a position to help financially, he can speak a good word.

If the citizens as a whole show such a spirit of cooperation, leaders will come as a matter of course. But the support of the masses is essential.

It takes the united efforts of many to build well—but remember, any fool alone can tear down.

PAMPERED BRAINS

We all admire a smart young man, but we do not admire him when he becomes "too smart."

That is the trouble with many young men.

They are endowed by nature with more than the average allotment of brains, but they lack the poise and judgment necessary to keep them under control.

This deficiency, however, is not so much their fault as it is the fault of their parents.

When a baby shows indications of being quick witted too many parents immediately begin to humor it and spoil it.

Instead of maintaining a gentle but firm control over the child they give in to its whims and encourage it in

its selfishness.

It grows up with the idea firmly implanted in his mind that it must have its own way in everything.

If it makes a pert remark and is not corrected that remark calls for others in kind, and this leads naturally to the spirit of "smartness," which we so greatly deplore in many young fellows just entering man's estate.

Brains in the cradle require nursing.

Pampering only converts them into the egotism of maturity.

Cabin Plane Landed Here Thurs. Morning

The very latest type of sedan plane landed in Crowell Thursday morning carrying H. L. Burch and Lester Glasscock, pilot, both of Las Vegas, New Mexico. They were traveling in a cabin type Stinson-Detroit monoplane powered with a Wright Whirlwind motor. The men are agents for this plane and were enroute to Ft. Worth, coming to Crowell from Altus, Oklahoma.

They had intended to carry passengers here Thursday afternoon but unable to find a suitable field close enough to town that they would be permitted to use, they took off with the intention of returning later when conditions were more suitable.

Before leaving Mr. Glasscock stated that there were a number of wonderful sites close to Crowell that would make ideal airports and said that it was not one bit too early for a city this size to be planning for an airport.

First Cold Spell of Year Arrived Tues.

Foard County's first freeze and frost hit here Wednesday night following a cold norther that arrived here Tuesday. Ice was reported Thursday morning.

Most of the old-timers of the county that it was possible to see could not recall an earlier freeze than this one with the exception of John Ray. Mr. Ray stated that he recalled a freeze at about this time of the year in 1916. He believed that this freeze will be more beneficial than harmful. Some late feed may suffer though.

This freeze will cause cotton to open and leaves to shed quicker than otherwise.

The average date for the first freeze here is November 6th. In 1917 a frost occurred on October 18th while in 1921 a frost came on October 12th. In 1924 a frost did not come until November 23rd.

When Benjamin Franklin recommended a plan for daylight saving, more than 150 years ago, the idea was ridiculed.

FARMING BLOW SAND PROBLEM FOR FARMERS

Keeping Sandy Land From Blowing in Spring Important Problem of Farmers

By Fred Rennels
The problem of keeping deep sandy land from blowing in the early spring has been one of deep concern to many farmers in the eastern section of the County. When possible to get an early stand, most any crop can be produced well on the blow type soils.

There has been quite a few who rotate each year with feed and cotton, the crops being planted in alternate strips over the field. This in a large measure has solved the problem, but not as completely as is necessary.

It seems from some experiments that have been carried on that extremely deep breaking of the sand is one of the best plans of keeping it from blowing and at the same time increasing the yield.

Where it has been possible to break the land from 14 to 18 inches deep excellent results have been obtained. R. D. Almstead near Thalia, last year broke some of his land reasonable early in the spring with the results that it is making near one-half bale of cotton per acre, although Mr. Almstead did not break his land as deep as he wanted to.

J. G. Adkins, also of the Thalia country has had good success with breaking. The yields in various places are reported to be from 25 to 75 percent increase in the yield of crops. It also keeps the land from blowing.

According to those who have tried the plan, a special built plow is necessary. The plow sells from \$35.00 to as high as \$90.00, depending on the kind wanted. Most any implement company should be able to get the type for the breaking. Those who have been experimenting with the problem seem to be of the opinion that if the land is once broken to a depth of fourteen to eighteen inches and then rotation of feeds, peas and cotton carried out consistently each year that profitable results will be obtained and the blowing problem will be largely eliminated.

Crippled Team To Play at Knox City Friday Afternoon

Crowell High School will journey to Knox City Friday with four of the leading members of the team out of the game due to injuries received in the game with Munday here Friday. Captain Ragsdale Lanier will likely be out the rest of the season due to hurting his knee over again that was injured in the opening game of the season with Quanah.

Cotton Ganns will likely be out for two games with an injured shoulder. An injured knee is expected to keep Charlie Ashford out for about two weeks. Crews Cooper may be out for three weeks with an injured ankle. Cooper, end, is the only line man on the injured list.

Coach Graves will have to present a new back field in the game with Knox City and several boys who have not played thus far will see service in this contest. Crowell defeated Knox City, 21 to 0, here two weeks ago, however, it will be extremely difficult for the Wildcats to win the game at Knox City Friday.

Following the Knox City game, Crowell will play Matador here on November 1st. A game has been matched with the strong Chillietho aggregation for November 11th, however, it has not been decided yet as to where the game will be played. Crowell plays at Munday on November 22 and will conclude the season against Archer City here on Thanksgiving.

Armours Creameries Will Dress Turkeys In Crowell This Year

W. B. Price of Wichita Falls has arrived in Crowell to act as local manager of the Armour's Creameries that is to be located at A. L. Johnson's produce building during the turkey season. Mr. Price has been local manager here for the Wichita Poultry and Egg Company for the past three years. This firm is now owned by the Armour Company, the largest purchaser and distributor of poultry products in the world.

Crowell will have as good a market for turkeys this year as any place in this section, according to Mr. Price. The dressing of turkeys will begin on November 4th. Equipment for that purpose is already being installed in the A. L. Johnson building. The turkeys will be scalded this year instead of dry picked as has formerly been the case.

New York, Chicago and other eastern points will offer an outlet for Foard County turkeys this year.

EVIDENCE IS FOUND ON INDIANS' ORIGIN

Although the Smithsonian Institution's expedition to the Yukon water-

shed this year found no ancient writings to prove the "scientific deduction" that American Indians descended from Asiatics, the expedition discovered more facts than ever before that show the descent of Indians from Orientals, including the discovery of older remains than were ever before found in America. Alaska, although it was the port

of entry for the Asiatics who were the forefathers of American Indians was not peopled until the American father south were inhabited.

Fort Worth Star-Telegram and Foard County News for one year \$8.20.

VARIETY IN YOUR MEALS

What a dreary, dead old world this would be if there was no variety, if nothing new or different ever happened!

And how unappetizing and uninteresting meals would be if they were all alike.

Variety is the spice of life and especially in foods. It whets our appetites and gives us renewed vitality of body and spirit of mind.

But to prepare meals that are different is the problem—where to get the foodstuffs—but not if you depend on this store.

We Have the Foodstuffs You Want to Prepare for Tasty Meals

No matter what menu you have in mind, you can get the foodstuffs here with which to prepare it. We have excellent variety in every line. Everything is fresh and good, too. We handle only the highest quality foods, yet sell at prices which are consistent with economy.

Don't forget the Federation meeting November 1st. Interesting program will be prepared for that day.
Mr. and Mrs. T. F. Hill visited Mr. Hill's sister in Marshall last week. Mr. Hill's sister is seriously ill there.
Mr. and Mrs. M. S. Henry and Mrs. Joe Johnson were in Vernon Monday. They were accompanied by Rev. J. W. Hunt.
A. E. Brewer of East Texas came in Saturday for a visit with his son, R. M. Brewer, and brother, W. A. Brewer.
County Federation meeting at the court house Friday, November 1st. All members be present with your covered dish.
Radio sets—The famous Crosley screen-grid tube, 7 and 8 tube set, \$118.00 to \$138.00 and \$167.50.—Womack Bros.
E. F. Stephens of Wichita Falls, Texas, chief scout of The Texas Company, was a visitor in Crowell Tuesday on business.
Miss Essie McLarty of Vernon and her sister-in-law, Mrs. Archie McLarty, were here for the funeral of Mrs. G. A. Mitchell Saturday.
Mrs. Robert Beck returned to her home in Weatherford Wednesday after attending the funeral of her grandmother, Mrs. G. A. Mitchell.
Mrs. W. W. Griffith left Sunday for San Antonio to attend the Grand Chapter, Order of the Eastern Star, as delegate from the Crowell chapter.
Mr. and Mrs. Lon Robertson of Branson, Colorado, are here visiting Mrs. Robertson's mother, Mrs. B. F. Hallmark, and other relatives and friends.
Mrs. J. S. Ray returned Monday afternoon from La Grange, Mo., where she had been for two months visiting her parents, Mr. and Mrs. W. A. Mussetter.
Mrs. J. S. Williamson returned to her home in San Antonio Tuesday. She was here on account of the serious illness and death of her mother, Mrs. G. A. Mitchell.
You will not like to hear the alarm clock in the morning if you are sleeping on a Ketchersid-made mattress. See us for quality mattresses.—Ketchersid Furniture Co.
Miss Louise Ball has returned to Crowell and has assumed her duties as a teacher in Crowell High School. Her position has been filled by Mrs. P. A. Davis for the past six weeks.
Radio sets, the only genuine screen-grid radio receiver yet made, RCA Radiola No. 44 and 46. Table model 44, \$158.00; same in beautiful cabinet with power speaker, 46 is 197.50.—Womack Bros.
Mrs. C. W. Thompson and mother, Mrs. Florence Ragland, and Mrs. T. B. Klepper went to Ralls Thursday to visit Mrs. Ragland's daughter, Mrs. R. L. Bryant, and family. They will return home today.
Radios—Famous RE-45 Victrola Electrola (synchronized radio and phonograph loudspeaker) the most perfect musical instrument ever made at any price. Completely installed only \$298.00.—Womack Bros.
Mr. and Mrs. W. B. Carter returned to their home in Altus, Okla., Sunday. Mrs. Carter had been here for about a month during the serious illness and death of her mother, Mrs. G. A. Mitchell. Mr. Carter had been here for a week.
Mr. and Mrs. H. W. Norwood and Mr. and Mrs. Lee Probst of Vernon spent Sunday afternoon in the home of Dr. and Mrs. H. Clark. They were accompanied home by Mrs. Leonard Male who will visit for several days in Vernon and Wichita Falls.
Mr. and Mrs. Alton Bell left Wednesday for Waco to be present at a concert given by the President's Band of Washington, D. C., of which Mrs. Bell's brother, John P. White, is cornet soloist. Mr. White has been in Washington for the past six years as a member of this organization.
Mr. and Mrs. S. D. Mitchell and two small sons and Mr. Mitchell's sister, Miss Inez Mitchell, all of Ellenwood, Ga., arrived the latter part of last week for a visit with Mrs. Mitchell's parents, Mr. and Mrs. I. M. Cates, and other relatives and friends. The trip was made by automobile from Georgia in three days time. Mr. and Mrs. Mitchell come here about every two or three years for a visit with relatives and will be here about a month this time.

Bradley sweaters for all.—Self's.
Miss Mable McMurry visited her parents in Paducah Sunday.
If you need it, call the Ricks Dairy and watch the results.
Dollarwise people will save the utmost at Blaw & Rosenthal's sale.
Rev. W. W. Smith and family spent the day in Vernon last Friday.
Wow! What low prices Blaw & Rosenthal's sale is creating in this town.
Charlie Thompson and B. D. Miller have accepted positions with Fox Brothers.
Best facilities for handling your turkeys.—Armours Creameries at A. L. Johnson's.
Judge and Mrs. Robert Cole of Vernon were here Saturday for Mrs. G. A. Mitchell's funeral.
Misses Mary Clayton Giddings, Sara Lawrence and Louise Pechack attended the Dallas Fair Sunday.
Hello folks, I'm back again.—W. B. Price, local manager, Armours Creameries at A. L. Johnson's.
Mrs. J. H. Cope and Mrs. J. W. Cope of Quannah were here for Mrs. G. A. Mitchell's funeral Saturday.
Don't forget the Federation meeting November 1st. Interesting program will be prepared for that day.
R. T. Lutz, chief scout of the Humble Oil and Refining Company, was in town Wednesday on business.
Claude Hunsaker, former resident of this city and employee at Allen Chevrolet Company, visited here Wednesday.
County Federation meeting at the court house Friday, November 1st. All members be present with your covered dish.
With each purchase at Kimsey Grocery you are entitled to a free ticket to the matinee at the show Saturday afternoon.
Don't miss the savings, don't miss the crowds, they will be there each day at Blaw & Rosenthal's drastic Emergency Sale.
Mr. and Mrs. J. H. Lanier visited relatives in Knox City yesterday. Mr. Lanier attended court in Benjamin on their way home.
We need oil stoves, heaters, cook stoves, bedsteads and springs, as trade in on mattress work.—Ketchersid Furniture Co.
W. O. Miles of Hereford was here the first of the week attending to business matters. Mr. Miles is a former resident of this county.
The Alladin lamp gives light equal to 10 No. 2 lamps and burns as much kerosene as one. Gives soft, white light at low cost.—M. S. Henry & Co.
Radio sets—Perfectly good battery (wet or dry) and electric sets. As good as anybody had up to this season, at half price.—Womack Bros.
Haven't you got some second hand furniture to sell or trade? If so, see us and trade it to us on mattress work.—Ketchersid Furniture Co.
Gas circulator—Log radiant, beautiful walnut porcelain. Moist warm air. Beautiful, economical, efficient. \$75.00 installed. Heats evenly 3 to 6 rooms.—Womack Bros.
Mrs. George Johnson and three small children of Canyon came down last Friday to attend the funeral of Mrs. G. A. Mitchell. They were accompanied by Miss Rene Banister, Mrs. Johnson's sister, who had been visiting them for about three months. Mr. and Mrs. Johnson returned home Tuesday.
Jesse Owens made a business trip to Lee County, New Mexico, last week. While there Mr. Owens saw "Uncle" Burl Johnson who is in New Mexico for his health. He also saw the Shipp family who are former residents of this county. Another thing that Jesse found out on the trip was that his Ford car could outrun a coyote because he ran over one and killed it, according to his statement.

California Oil Scout Visitor Here Monday
R. S. Brennand of Colorado City, Texas, chief scout of the California Oil Company, was in Crowell Monday. Mr. Brennand's company has recently completed the acquisition of a large block of acreage in the southeast part of the county, which it contemplates drilling on soon.
It has not yet been determined whether one or two tests will be drilled on the block, which aggregates about fourteen thousand acres. The block has been thoroughly explored by core drills and geologists and is considered very favorable for production.

Seriously Injured in Wreck Near Dallas
Bob White, tool pusher of the Wich-Tex Oil Company on its test near Thalia, was in a serious auto wreck while returning from the Dallas Fair Monday, according to reports reaching here.
It is reported that both legs and one arm were broken in the accident which occurred between Dallas and Ft. Worth.

LIKE CALIFORNIA
A letter received from Mrs. E. S. Darby of Fresno, California, daughter of J. W. Klepper of Crowell, states that she and her husband are well pleased in California. Mr. Darby is office manager of the California Cotton Mills Company at Fresno and says prospects for the development of the cotton business on a large scale in the San Joaquin Valley are very promising.

BABY DIES
Little Tommie Joe Mixon, year-old son of Mr. and Mrs. M. L. Mixon, died at the family home at 1:15 a. m. Wednesday. The baby had only been sick since Sunday.
The remains were taken to Wichita Falls where interment was made Thursday afternoon. Mr. Mixon is in the employ of the Fain-McGaha Oil Co.
Farm lands along the River Nile are valued at \$1,000 or more an acre.

Loses Eye
Reports reached Crowell Wednesday that the driller of the oil test on the Thompson farm, east of Thalia, lost an eye when the lubrication chamber at the test exploded Tuesday. The lubrication chamber is under pressure from the steam boiler.

AVERAGE SHEEP PRODUCES WOOL FOR ONE SUIT A YEAR

How culling and wise attention to breeding of farm animals may be expected to produce returns for farmers is reflected in statistics gathered by the Bureau of Animal Industry and published in the current Yearbook of the United States Department of Agriculture.

"In 1840," says E. W. Sheets, in charge of animal husbandry investigations, "the average weight of fleece sheared from American sheep was less than 2 pounds. By 1900 it had increased to nearly 5 1/2 pounds. Today it is approaching 8 pounds. In other words, an average sheep today grows wool enough each year to make approximately a suit of clothes. In 1840 it took the wool of four sheep to make a suit of equal weight and quality."

Better breeding and more rigid culling of breeding flocks promise to raise this average still further. Wool production is similar to such qualities as heavy milk production in dairy cattle and heavy egg production by hens. The offspring of heavy producers are likely to be heavy producers and to transmit to their offspring the capacity for heavy production.

In the case of sheep, Mr. Skeets says: "There is still room for improvement. By 'weeding out' the poor producers and breeding from the heavily fleeced sheep, flock owners can raise the average."

The person who is not wanted any place must envy the man who is "wanted" in several places at one time.

Flat feet may be a handicap, but they will at least carry you farther than a flat tire.

Things that we don't know, are usually the ones which cause us the most worry.

CHURCHES

Christian Science

Sunday, 11 A. M., Subject for Sunday, October 27, "Probation after Death."

Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

Methodist Church

All regular services at the Methodist church next Sunday. The church extends a welcome hand to you and asks you to come and enjoy her home, hospitality, and be one among us.

Sunday School at 9:45 under capable supervision with classes and teachers for all.

Preaching by the pastor at both hours next Sunday, 11 a. m. and 7:15 p. m. Junior church services for the boys and girls in the basement of the building, conducted by Mrs. McCarter, at 11 o'clock. A very large number should attend.

Hi-League meets at 6 o'clock and the Senior League at 6:45. The hours for these League meetings are fixed with reference to the evening hour of worship in order that all our young people may have a chance to attend the church service.

Woman's Missionary Society meets on Monday afternoon at 3 o'clock.

Preaching at Black school house Sunday afternoon at 3 o'clock.

W. R. McCARTER.

Baptist Church News

A fine attendance at the Sunday School and preaching service last Sunday. Bro. B. F. Ellis was the four minute speaker in the Mission program given in the closing hour of the Bible school. He made a fine practical talk on the accomplishments of State Mission work in Texas by Baptists.

The pastor spoke at the eleven o'clock hour on "Christian Victories." He hardly got well in to his subject till his time was gone. Many at the close of the service asked that he finish the sermon at some early date, which he promised to do.

Next Sunday Bible School at 9:45 preaching at eleven and 7:15, B. Y. P. U.'s at 6:15.

Seven speakers will take part in the special program on State Missions next Sunday, each bringing their respective burden to the State Board to be lifted. When all these burdens are laid on a table, used to represent the State Board, each speaker will be asked to lift the heavy load. When each has failed, all together they will lift the load, thus giving us a modern parable in moving picture of what cooperation will do for our work.

Pastor Woodie W. Smith will speak at eleven on "A Great Task for a Great People." The evening theme will be "Eternity Is Near."

Special music by the choir, Mrs. Wright, director; E. B. McBurnett, leader; and Mrs. Rucker, pianist.

The two winding stairways are complete, which gives quite a different appearance to our church. They constitute a flight of forty-eight feet when put together. The elevated platform and choir seats have been set also this week. Everybody will want to come Sunday and see this new arrangement. The platform is movable, setting on giant rollers. This is a scheme worked out by the pastor and is a real piece of genius.

We look forward next to finishing our Young People's Department on the third floor.

Our revival meeting will start on November 3rd. We look forward with faith to a great soul-winning campaign. A strong preacher and Bible teacher will assist the pastor in this meeting. The singing will be in the hands of our local forces.

We trust all our people will plan to be in the city during the two weeks of the revival. Let no one plan trips for this date. May God lead us to put our best effort into these two short weeks.

WOODIE W. SMITH.

Christian Endeavor

Subject—What Is Worship?
Leader—Emma King.
Worship, Its Meaning—Frances Patton.
Methods of Worship—Mrs. Grady Walker.

Discussion of 95th Psalm—Mack Boswell.

Christian Church

We had a very fine day at the Christian Church Sunday. It was decided to have a Home Coming Day on November 10. It will also be a rally day for the Sunday School. Twenty years ago, November 14, the Church was dedicated. We want everybody to set aside the second Sunday in November as sacred, for we expect to have a great day of fellowship together. Bring your dinner for we expect to stay all day. Watch for announcements concerning the program for they will appear in the Church news.

Next Sunday we are expecting to have 100 people present. That means that you must come yourself. Be at the church at 9:45 for Sunday School. Morning worship at 11 o'clock, and evening worship at 7:30. The Christian Endeavor meets at the Presbyterian Church at 8:30. The Gospel Team goes to Claytonville next Sunday afternoon. Come go with us.

The pastor wishes to express his appreciation for the fine spirit of cooperation that is being manifested by all. It is indeed a joy to work with such faithful people. Strangers we welcome you.

JOHN G. CLARK.

BAPTIST W. M. S.

The Baptist W. M. S. has had a goodly attendance at all meetings this month. The first Monday was given to business while the second Monday Mrs. Poland conducted an interesting Bible study and last Monday Mrs. Smith led our Mission Study, "The Wandering Jew in Brazil." Next Monday at 3 o'clock in the church we will have our Royal Service lesson.

We have sent a large box of clothing to Burkner's Orphans Home this month and next Monday will send a box of chickens. You come and bring a chicken so that you will have a part in helping this great institution for the things we give are the things we have.

In the love of truth and in the spirit of Jesus we are united for the worship of God and the Service of Man.—Publicity Chairman.

Senior B. Y. P. U.

Subject—Laborers Together in the State Mission Task.

Introduction—Mrs. Miller.

Why State Missions—Mrs. McBurnett.

Laborers Together in Promoting the Organized Work—Maye Andrews.

Laborers Together in Helping Weak and Struggling Churches—Mr. Burnett.

Laborers Together in Enlisting the Churches—Mary Ennis Carter.

Laborers Together in Supporting the Cooperative Program—Mrs. King.

Special music.—Reporter.

... our Faith in You!

THE electric light and power system in many towns represents the heaviest industrial investment in the town.

Present day utilities of electricity in domestic and commercial life calls for great power generating stations and costly distribution systems. When selecting factory locations, big industries first ascertain if uninterrupted electric service is available.

When a company invests millions in generating stations to serve a group of cities and towns it is certainly a concrete indication of the company's confidence and faith in the towns.

The West Texas Utilities Company has built three major generating stations, and maintains 15 auxiliary power plants, to give unfailing service to the 110 prosperous cities, towns and communities on its properties.

This company is vitally interested in the progress and development of every community it serves. Your success is its success therefore it is one of your most active civic boosters and one of your most substantial citizens.

Brother of Garland Burns Is In Critical Condition From Shot

Garland Burns of the Baker-Camp Company received a telegram at Crowell, Texas, Wednesday advising him that his brother, Fay Burns, had been shot in Oklahoma City. Mr. Burns placed the call over the telephone but was unable to learn any details of the shooting other than the fact that his brother had been shot through the chest and was in a critical condition. He left immediately for Oklahoma City. —Munday Times.

The Wichita Record-News on Wednesday has the following brief account of the shooting: Oklahoma City, Oct. 16.—Fay Burns, 27 year old barber, was seriously wounded today in a rooming house shooting affray. J. M. Hunt was arrested and charged with assault with a deadly weapon. Burns was shot into his room where he and his wife were sleeping and was killed. One shot struck Burns in the chest.

Mrs. Burns said her husband attempted to defend himself with a baseball bat.

THE NEED OF THINKING

Talking without thinking does a tremendous amount of harm in this world. How much finer it would be if everybody took time to think before saying anything.

Very few people are judged by what we actually know of them, for as a rule we know little of anyone except our most intimate friends—only what we see on the surface.

But the natural thing to do is to judge others by what we hear of them, and we hear that which people have to say, regardless of whether they stopped first to weigh their words.

Unkind words are like deeds. You may curb them temporarily, but they spring up again, because the seed has been sown and has taken root.

A mis-statement may be corrected, but the suspicion still remains with many people. They conclude that "where there is smoke, there is always fire."

So the wisest course is to be cautious in discussing other people and their affairs. A little thinking before any talking is done, will save many heartaches and make the world a happier place.

Eola Farmer Tells Facts

Killiam Says He Is Now In Fine Shape After Taking Orgatone

"For the past fifteen years I have been looking for something that would relieve my troubles and have found it at last in Orgatone," said W. O. Killiam, of Eola, Texas, while in the Schwab Drug Store.

"For the past few years," he continued, "I suffered constantly from stomach trouble and, although I tried different kinds of treatments and medicines, I kept getting worse all the time. My liver was so sluggish that it wouldn't act at all without taking some kind of purgative. I felt badly rundown and would get up in the morning feeling so dull and languid that I didn't have a bit of life about me. My food almost always gave me indigestion and I would have a miserable feeling in the pit of my stomach as though what I had eaten had formed a heavy lump there. I was badly constipated and if I ate any lunch at noon I would always have trouble with gas right afterward and felt so drowsy and out of sorts that I could hardly do my work. I had always taken good care of myself and I could not understand what was the cause of my troubles."

"Some weeks ago I read a notice in the papers about Orgatone and decided I would investigate it. Well, I have only taken a little over two bottles so far and I am actually feeling better today than I have for the past fifteen years. My appetite is so much better that I enjoy all I eat and I eat anything I want without having the least touch of indigestion afterward. All that mean, sluggish

feeling is gone; I get up in the morning feeling fine and can work without suffering from that bloating and gaseous condition. My liver is working right and the constipation has been removed. I have never taken a medicine that did me so much good as Orgatone and am glad to recommend it to everybody."

Genuine Orgatone may be bought in Crowell at the Reeder Drug Store. (Adv.)

Margaret Home Demonstration

The Margaret Home Demonstration Club met with Mrs. Silas Moore Friday, October 11. We answered roll call by telling the piece of linen we needed most.

Miss Virginia Freeman was with us and gave demonstrations on how to tell the difference between good and bad linens. She had some patterns in Italian drawn work and Bermuda fagoting. She will demonstrate how to do this work in our next meeting.

The hostess, assisted by Mrs. Arthur McMillan, served angel food cake and punch to club members and two visitors. Our next meeting will be with Mrs. Leo Owens on October 25th.—Reporter.

Card of Thanks

We wish to express our heartfelt thanks and appreciation for the many acts of kindness, messages of sympathy and the beautiful floral offerings received from our friends in our sad bereavement in the loss of our dear wife and mother.

G. A. Mitchell and Family.

An orator declares that people in this age are too easily frightened. We just wonder if he ever tried to cross the street on a busy Saturday night.

NOTICE TO CONTRACTORS

Sealed proposals addressed to C. T. Schlagal, Mayor of Crowell, will be received at the office of the City Secretary until 2:00 p. m., November 8, 1929, for the improvement of certain streets in the town of Crowell.

Description of Work to be Done: The work consists of the grading and paving of four blocks of Houston Street, the approximate quantities being as follows:

4,576 cubic yards excavation; 13,726 square yards reinforced concrete pavement; 1210 linear feet concrete curb.

Plans and specifications may be seen and information obtained at the office of the City Secretary at Crowell.

A certified or cashier's check in the amount of 5 percent of the amount bid must accompany each proposal as a guarantee that the bidder, if successful will enter into contract with the terms of the specifications.

Proposals shall be enclosed in a sealed envelope and shall be marked "Bid for Paving of Houston Street."

The City reserves the right to reject any or all bids and to waive all technicalities. 20

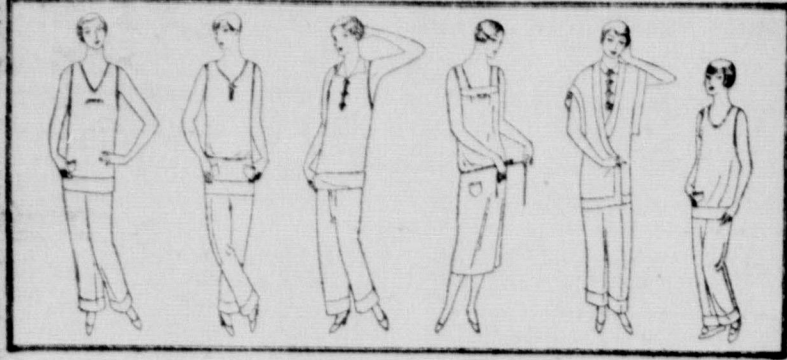

Lest You Forget

there is a firm in Crowell handling the world-famous HOOD TIRES AND TUBES, and that that firm is our station.

SOCIETY

BIRTHDAY CELEBRATION

On October 11, Mrs. S. H. Puryear of San Antonio, Mrs. D. P. Beaty of Wichita Falls, Mrs. H. W. Norwood of Vernon and Mrs. Hines Clark of Crowell, all daughters of Mrs. Bettie Thomson, met in Wichita Falls and celebrated the 78th birthday of their mother with a dinner. It was a happy occasion in every respect. Each daughter assisted in the preparation of the dinner. Several grandchildren were present.

MOTHER'S SELF-CULTURE CLUB

The Mother's Self-Culture Club met September 27, with Mrs. George Allison as hostess.

The study for the afternoon was Beethoven and his art. Mrs. Bruce was leader and was assisted by Mrs. Rasor and Mrs. Long. Many interesting happenings in the life of Beethoven were presented and the bearing they had upon the success or failure of his compositions discussed. Beethoven is said to be the greatest of all the German composers and he died at the age of fifty-seven, an age when many great men are doing their best work.

At the close of the study period Frances Allison played for us one of Beethoven's Sonatas which was well rendered and appreciated by all.

On October 11 the Mother's Self-Culture Club met with Mrs. Earl Norman.

The lesson for this meeting was, "The Operas," led by Mrs. A. D. Campbell, assisted by Mesdames Klepper, Allison and Andrews. The story of one of Wagner's Operas was given and the "Life of Wagner, its Relations to Art, Literature and Race Impulses," was discussed.

The hostess was assisted by Mrs. Bryan O'Connell.—Reporter.

ADELPHIAN CLUB

Mrs. Sam Bell was hostess to members of the Adelpian Club Wednesday, October 16, when she entertained with a South American Tea. Mrs. W. B. Johnson led the lesson on South America which included short

talks on each Republic of the continent, by appointed members of the club.

Mrs. R. D. Oswald very interestingly gave a review and criticism of the book, "Green Mansions," by W. M. Hudson. The purpose of the book was to portray the customs and superstitions of the natives of South America. The poetic element, the descriptive power and the spirit in which the book is written constitutes its great appeal.

Lovely refreshments in two courses, carrying out the South American idea of delicious food was served buffet style. During the serving the hostess announced that a South American dancer had been imported to entertain for the occasion. The attractive costumed dancer proved to be Mrs. Grady Graves.—Reporter.

P. T. A.

The Parent-Teachers Association of Crowell met Tuesday afternoon, October 15th, in the high school auditorium with the mothers of the first grade as hostesses.

The meeting was called to order by the President and during the business session it was decided to sponsor a parents visiting day during education week which is the third week in November.

This meeting was the nearest open meeting to the birthday of the Parents-Teachers organization in Texas, October 19th, and the following program was presented: "History of the P. T. A. Work in Texas," Mrs. Andrews; "Why we work for and with the Public Schools," Mrs. Klepper and "What P. T. A. means to the community," Mrs. Kincaid.

During the social hours Mrs. I. T. Graves gave an interesting reading, "Powder, Lipstick, and Paint." After which refreshments with Hallows' plate favors made by the first grade were served.—Reporter.

"A TRIP AROUND THE WORLD"

The Senior Class of Thalia High School sponsored a "round the world tour" last Wednesday night. A large number of seniors and others took advantage of the great opportunity of seeing the world for 50c a couple.

Passports were issued at the high school by custom officers Kathleen McElroy and Merle Banister. After being inspected by Dr. Stovall we were allowed to begin our journey. The first stop was Spain, at the home

of Mrs. Roy Ricks. Special music was given by Senoritas and chili beans were served. Africa, at the home of Margurite Morris, was visited next, where natives met us at the gate and directed us through the jungles where a cannibal was seen getting his pot ready for his feast. At the edge of the jungle a little "darky" entertained us by dancing. After eating some bananas we journeyed to Paris, at the home of Viola Taylor, where a style show was given. A toast was given by the class president as we drank French wine. We then went to Mrs. O. M. Grimm's home where "Kaiser Bill"

awaited us with kraut. Skating was enjoyed in Holland, Kathleen McElroy's home, and goat milk was served. Around a big bon fire in the home of Miss Gus Russell gave an interpretation of an Indian war dance. Spic cake was served. Everyone had hard time eating rice with chopsticks in China, at the home of Juan Huntley. Hawaii, our next destination, was at the home of Lore Shultz. Typical Hawaiian music was furnished by natives, after which pineapple was served. Then the guests departed for their American homes.—Reporter.
