AND CROWELL INDEX

VOLUME XXXVIII NO. 31

CROWELL, FOARD COUNTY, TEXAS, FRIDAY, JANUARY 24, 1930

3 PAGES \$2.00 A YEAR

OIL ACTIVITY AWAITS GOOD WEATHER HERE

Continental Has Paid All Rentals Due on Number of Foard County Block

Due to the fact that bad weather conditions had prevented any extensive operations, oil activity in Foard County has been practically at a standstill since the first of the year. According to reliable reports both the Wich-Tex Johnson Estate No. 2 and the Humble Oil and Refining Company's John Matus No. 2 are standing on top of the sand, awaiting only favorable weather for drilling in. Both wells are regarded as very likely to make producers and when the water lines have thawed sufficiently to allow their completion they will be carefully watched by most of the North Texas oil men.

Johnson Test Looks Good
It is freely predicted that the Johnson Estate well will probably produce more oil than any well which has been brought in in the Thalia area to date. The Matus well is largely an unknown quality as no well in that vicinity has been completed and no basis for comparison is to be had. However, it is confidently expected that it will make a good producer.

The Continental Oil Company, who several months ago took over the properties in Foard County of the Marland Oil Company, have recently paid all rentals due on their blocks in Foard County which indicates that they still expect conditions to justify a thorough exploration of the wildcat territory under lease here.

Recent Slashes in the Price Paid for Oil
Recent slashes in the price paid for oil is expected to affect Foard County development to a considerable extent as it will prevent rapid development of any discoveries, encountered during the present low price scale. However, it is thought by large producers that the new cut in oil prices will enable small operators to spread out and explore new territory, as the prices make practically impossible any further development of proven fields. These companies must find some outlet for the use of their men and equipment and it is probable that they will use their resources in finding new fields which will be ready for full development when the price of crude oil rises again.

Ice-Skating Popular Sport in Foard County During Cold Weather

Ice-skating has been one of the most popular sports in Foard County in the last week or two. There has been but a few opportunities for this sport to be enjoyed here and only a comparative few have ice skates, but those who have skates have willingly loaned them to others while not using them and thus a considerable number have taken advantage skimming around over the ice-covered lakes of the county.

Dr. H. Schindler has been hailed as one of the fanciest skaters of the county. T. B. Richmond is another who has been referred to as one of the best on the skates along with R. H. Cooper.

Guy Crews, George Self, Jimmy Doolen and a number of others have also shown their skill in this sport. While a number have taken rather hard falls in trying to learn, Arthur Bell, mastered the art of skating in a short time Sunday and is rated with the best.

Many spectators have enjoyed watching both the awkward and fancy work of the skaters, as well as a number of hard falls.

Games Start Thurs., Jan. 23 to Decide County Champion

The Foard County basketball championship will be decided within the next two weeks. The first games of the tournament will be played Thursday, January 23.

Crowell was to have played at Margaret Thursday, January 24th, but due to weather conditions the game will be played in the gymnasium here Thursday night. Foard City is scheduled to meet Thalia in the Thalia gymnasium on the same day. The remaining schedule follows: Jan. 27—Foard City vs. Margaret (at Foard City). Jan. 28—Crowell vs. Thalia (at Crowell). Jan. 30—Crowell vs. Foard City (at Foard City). Feb. 3—Foard City vs. Margaret (at Margaret). Feb. 6—Crowell vs. Thalia (at Thalia). Feb. 10—Foard City vs. Thalia (at Foard City). Feb. 13—Crowell vs. Margaret (at Crowell). The game between Crowell and Margaret at the local gymnasium Monday should prove to be one of real interest.

The court has held a jay-walking game as illegal, but nevertheless takes no court to prove that it is fatal.

Home Demonstration Year Books Ready For Distribution

The year books for the women's home demonstration clubs of Foard County are now off the press at the Foard County News and will be distributed to the various club members by Miss Virginia Freeman, home demonstration agent, who prepared the books.

The books this year are more attractive than those published last year due to the fact no space for advertisements has been used in the publication this year. A small charge will be made of each woman securing the year books to take care of the expense of printing.

Twenty-five pages are included in the book which outlines a complete year of work for the home demonstration clubs. The club poem, song, motto, prayer and extension officials' names are included in the front of the book.

The greater part of the pages are taken up with programs for each meeting during the year. Record sheets for garden, poultry, dairy, clothing, home improvement, home industry, food preparation and food preserving are provided.

Other features contained in the book are the itinerary of the home demonstration agent, a canning budget, essentials of an adequate diet, and parliamentary drill for club members.

Bruce Barber Shop Is in New Location

The Bruce Barber Shop has now occupied its new location on the north side of the square for nearly a week. It was formerly located in the west space of the Bank of Crowell building. It is now in the Fox building, just west of Self Motor Company. The shop contains three chairs and is as attractive and up-to-date as any shop to be found anywhere. A water basin has been provided for each chair and a snow-white interior has been provided. L. J. Saunders completed the work of setting aside the space for the shop last week.

FEBRUARY TERM DISTRICT COURT JURORS NAMED

W. N. Stokes of Vernon Will Preside as Judge for First Time in Foard

The list of jurors for the February term of district court, which opens here February 17th, Monday, has been issued by Mrs. Ida Reavis, district clerk.

The list of grand jurors follows: O. B. Davis, L. R. Morgan, J. C. Self, C. F. Hunter, C. E. Dunn, H. W. Banister, J. H. McDaniel, C. L. Adkins, C. B. Morris, J. J. McCoy, J. M. Marr, W. A. Dunn, John L. Hunter, Sr., M. S. Henry, M. F. Crowell, J. G. Coffey. This group is to appear at the court house at 10 a. m. Monday, February 17th.

First Week List
The petit jury list for the first of court follows: W. R. Ferguson, G. B. Finney, C. C. Wheeler, C. A. Gloyna, J. S. Jobe, S. E. Croston, S. M. Tole, J. R. Hanks, E. W. Crisp, C. D. Mullins, T. L. Ward, Lee Whitman, A. L. McGinnis, W. F. Hlavaty, O. M. Gentry, W. F. Marlow, E. O. Trawick, F. W. Weatherall, T. W. Cooper, A. K. Edens, W. P. Hunter, C. D. Hall, C. C. Wisdom, J. E. Long, J. A. White, C. C. Lindsey, A. H. Hudgens, Tom Callaway, T. F. Lambert, R. S. Haske, Glen Offield, Henry Johnson, F. W. Butler, J. E. Harwell, J. A. Hough and G. E. Mapp.

The first week petit jurors will assemble on Wednesday, February 19th.

Second Week
The petit jurors for the second week are: D. R. Magee, J. B. Gandy, A. F. McMillan, B. D. Webb, J. T. Wayland, J. Y. Welch, Hartley Easley, F. A. Davis, C. F. Bradford, J. C. Brian, O. N. Baker, S. W. Mills, W. B. Franklin, W. B. Jones, T. H. Matthews, W. H. Cole, J. C. Davis, J. F. Matthews, Leslie McAdams, E. E. Self, T. L. Johnson, T. E. Womack, A. G. Ketchersid, J. C. Wozencraft, George Burress, T. S. Haney, T. D. Roberts, C. W. Thompson, T. D. Edwards, J. N. Johnson, P. M. Hinkle, Frank Kirkman, John R. Carter, C. O. Nichols, Ed Rettig and O. D. Rader.

This group is to assemble on Monday, February 24th.

Many Tax Suits
About seven hundred tax suits will be passed upon at the February term of court.

Fourteen cases are listed on the criminal docket and about 29 cases on the civil docket are to come before this session of court.

W. N. Stokes, recently appointed judge of the 46th judicial district to succeed the late Robert Cole, will preside for the first time in Foard County as district judge.

AT LEGISLATURE
Dr. and Mrs. R. L. Kincaid left Saturday for Austin where they will remain for possibly a month.

Dr. Kincaid is the representative to the Legislature from this district. That body is now in session in Austin.

Merle Kincaid, their son, recently accepted a position with Sears-Roebuck Company at Dallas.

CAR OF CERTIFIED COTTON SEED IS ORDERED BY FOARD FARMERS

One of Most Progressive Moves Yet Made by Farmers To Better Agricultural Conditions in this Section

Through the board of directors and management of the Farmers Co-operative Society, a carload of certified cotton seed has been ordered for the farmers of Foard County.

This is regarded as one of the most progressive moves that has ever been made by the farmers of this section for the betterment of agricultural conditions. The benefits from it will no doubt be great the first year and even greater for years to come. With proper care there should be enough seed for the entire community after the first year.

A general survey of the results of yields have been made among the various farmers in different sections of the county surrounding Crowell and it is generally conceded that most farmers are of the opinion that the variety known as the "Bennett Big Bell" is best adapted to this section and that variety has been ordered.

Best Staple Needed
According to the reports made by the men who have been growing that variety, it produces as well as other varieties of a shorter staple, and stands dry weather equally as well and produces a staple that is acceptable to the cotton trade.

Cotton men are unanimous that the shorter staple varieties will be harder to market than ever in the future and will bring still lower prices. There is little demand for the short staple cotton as there is entirely too much of it grown and the price on it is decreasing each year, while the long staple cotton has brought a much better price as it has been in demand by the mills.

To Distribute at Cost
According to H. E. Davis, manager of the Farmers Gin here, it is the aim of the directors to distribute these seeds at actual cost. In order to keep them pure, the gin will set aside certain days to gin the pure seed cotton next year in order that these may be kept as pure as possible. It is believed that through this method there will be enough seed after the first year to supply most of the needs of Foard County.

In discussing the value of good seed, Mr. Davis said that it was his opinion that the communities which are not making any efforts to grow a better staple cotton are being penalized more than they know. He thinks that under the co-operative marketing plan that is outlined by the Farm Board, that the real value of staple cotton will be realized by the grower.

Decreased Acreage Urged
"If the cotton farmers of the South are to reap any benefits from the efforts being put forth by the Farm Board, they are going to have to render some assistance themselves," said Mr. Davis. "If the Southern farmer will plant only half of the acreage to cotton that he intends to plant, it will produce as many dollars as the full acreage."

Mr. Davis thinks that the Federal Farm Board will call upon the South to make a material reduction in cotton acreage and also ask it to produce as good quality cotton as possible. Eleven million bales are worth more than fifteen million bales, says Carl Williams, who is the cotton director on the board.

Crowell Banks Have the Same Officials for 1930

Crowell's two banks have named the same officials for 1930 that officiated during the past year.

Officers for the Bank of Crowell are: J. W. Bell, president; T. N. Bell, vice-president and cashier; and the following partners: C. R. Ferguson, W. S. J. Russell, Mrs. W. S. Bell, L. D. Campbell, and Mrs. Ebbie Edwards.

The First State Bank officers are: S. S. Bell, president; M. L. Hughton, cashier; G. G. Crews, Dr. Hines Clark and M. F. Crowell, directors.

These are the nights when you pull up the cold sheet that was so hot last July.

Must Answer "Personal" Questions to Census Takers When Work Begins

Who's the head of the family? and "are you a lady?" and "are you loafing or working?" are personal questions, but couched in diplomatic language ought not to be embarrassing the census bureau has revealed in saying that substantially these inquiries will be made. There is a penalty for refusing to answer. For some obscure reason, the radio industry will get a bounteous boost, since every person will be required, under penalty of prison or fine to say whether he owns a radio. The government however, omitted the "if not, why not?"

There will be 24 points to the individual census report, and some of them are whopping points. It will take longer to answer them, than to ask them.

"Can you speak English?" is a question to be asked foreign-born people. "No sabe" probably will be equivalent to "no."

Here are the questions:
1. What is your relationship to the head of the family, and who is the homemaker (housewife)?

2. Do you own or rent your home?
3. Value of home, if owned; monthly rental, if rented.
4. Do you own a radio set?
5. Does the family live on a farm?
6. Are you a man or a woman?
7. Are you white, black or otherwise?
8. Age at last birthday.
9. Married or single?
10. Age at first marriage?
11. Place of birth, state or county.
12. Where was your father born?
13. Where was your mother born?
14. Mother tongue of each foreign-born parent.
15. Can you read or write?
16. Did you attend school in 1929?
17. Year of immigration to U. S. if foreign-born?
18. Whether naturalized, if foreign-born?
19. Whether able to speak English, if foreign-born?
20. Occupation of each gainful worker.
21. Industry in which he is employed?

Local People Hear King George the V Speak Over Radio

Quite a number of Foard County people have reported that they arose early Tuesday morning to hear King George V of England speak over the radio in opening the London disarmament conference. The conference was formally opened by the distinguished king at 5 a. m., according to Crowell time.

Most of the local listeners reported that the program came in good enough to understand the king's speech and the others of famous men from all parts of the world. The voices coming from London over the radio could be heard more quickly by the listener than a voice could have been heard one hundred yards away when not broadcast over radio. The opening of the conference was broadcast throughout the world.

This naval conference is looked upon as one of the most important events in history and may play a great part in the furtherance of world peace. Five major nations are taking part in it. They are: the United States, England, France, Japan and Italy.

Foard County Cattle Have Stood the Cold Weather Excellently

Foard County cattle have stood the cold weather exceptionally well, according to Paul Shirley, prominent cattleman of this section. Mr. Shirley expressed the belief that even more cold weather would fail to hurt Foard County cattle badly.

Only a few deaths among Foard County cattle have been reported. Most of the cattle in this section have been fed well and there has been plenty of feed on hand to meet the recent emergency.

A large number of cattle are reported to have died around Matador and other sections of West Texas as a result of the coldest spell in Texas since 1899.

POULTRY CARE IMPORTANT IN COLD WEATHER

County Agent Gives Advice on Care of Flocks During Cold Spells

Fred Rennels, county agent, states that there have been a number of people reporting colds and roup in their poultry flocks. The recent weather has made it very easy for flocks to contract colds and in talking on this situation Mr. Rennels gave the following advice:

"As a rule roup develops from colds, and colds are the results of over-crowding and poor ventilation of roosting quarters. Where ventilation is poor and the flock becomes too warm during the night then perhaps go from their roosts into a chilly wind or come in contact with a draft, a cold is almost certain to develop."

"In dealing with colds and roup prevention is worth more than cure, however, when a cold is noticed in the flock, it can usually be checked before any serious developments occur by spraying the roosting quarters with a good disinfectant. The flock should be given a dose of epsom salts at the rate of one pound of salts to each 100 birds in the flock. The salts may be given in water, not allowing the flock to have any other except that containing the salts until it is consumed. It may also be fed in a moistened mash feed to the flock when they come from the poultry house. It should be arranged on boards so that each fowl will get a sufficient amount of the salts. Permanganate of potash may be put into the drinking water during the period of treatment. Enough to give the water a deep wine color. This is an antiseptic which tends to prevent the spread of the disease through the drinking water."

"When roup is fully developed the affected birds should be removed from the flock and individual treatment given."

"Individual treatment may be given by applying carbonized vasoline to the affected part of the birds' head. Another treatment may be given by washing the mouth and nostrils with a mixture of one tablespoonful of peroxide of hydrogen and two tablespoonfuls of water. This may be injected into the birds' mouth and nostrils with a medicine dropper or a small oil can. Iodine is also recommended for applying to affected parts of the head."

"The cause of colds and roup should first be removed, if possible, when beginning treatments."

BABY RECEIVES BURNS

Christene Cribbs, four year old daughter of Mr. and Mrs. George Cribbs of Rayland, was painfully burned about the face Monday afternoon, according to L. G. Andrews who visited in that community Monday.

It is reported that the oven of a gas stove in the Cribbs' cafe was opened by the child and a flame flew from it striking the little girl in the face and painfully burning it.

COLD WEATHER CONTINUES FOR 3RD WEEK HERE

Weather All Over Texas is Coldest Since 1899; More Snow Falls

The weather has certainly been the main topic of discussion in this section for the last sixteen days. A white sheet of snow and sleet has now covered Foard County for over two weeks with prospects of remaining on the ground for three weeks.

During the past week about an inch to 2 inches more of snow have fallen and in general the weather has remained about the same that it was during the early part of the cold spell.

Last Friday was one of the most severe days ever seen in Foard County. Foard County people awoke to find a stiff blizzard blowing from out of the north. The temperature was considerably below zero Friday morning with four to six degrees below zero being reported.

There was hardly a sign of any wind Tuesday night and early Wednesday morning, yet the temperature was about as low then as it has been this winter.

The cold weather has been felt over most of the nation and this spell is reported to be the worst in Texas since 1899.

J. D. Johnson, who has lived here for 28 years, is jubilant over weather conditions, stating that it should prove of great value to the county as a whole. He said it would aid greatly in killing out insects and would place the land in good shape to receive moisture later on and that in the time he has been here, the best crops have followed the most severe winters and he has hopes that this year will be no exception.

Travel over the highways came to a stop on a few days but is now proceeding over them with little difficulty. Curtis Ribble, state highway form of Foard County, has secured heavy equipment out of Wichita Falls to keep the highways in shape. Along the road near Gambierville, the snow has been banked on each side as high as five feet.

Comparative clear skies and warmer weather Thursday afternoon brought the greatest departure from the cold wave that has been felt in sometime.

Several Injured Here During Cold Weather

The recent cold spell has been responsible for a number of accidents in this section during the past few weeks. While it is impossible to find out all of the minor accidents, a few are listed here.

Miss Lucille Ellis received a severe gash on her head Sunday when she slipped on the ice at the city lake. Several stitches had to be taken in the wound.

Edward Huffman stated that the country club lake jumped up to strike him about the right eye while he was ice-skating. A bad gash and a black eye resulted.

Mrs. Morris Kenner was also painfully injured about the head when she slipped on the ice at the country club lake. She was rendered unconscious for a short time.

Irving Fisch's coupe was damaged Monday night when it struck a horse on the Chillicothe-Quanah highway. The horse was killed.

Leo Spencer was unconscious for a short time after slipping on the ice on the street between M. S. Henry and Co. and the Bank of Crowell.

No other accidents have been reported although a great number of falls have occurred in which no injuries resulted. It certainly pays to watch your step in the kind of weather we have been having.

BROTHER DIES

Miss Mabel McMurray, local telephone operator, left Sunday for Wichita Falls, after receiving word of the death of her brother, A. J. McMurray, in a hospital in that city.

He was buried Monday in Seymour.

Tax Payments At City Hall Are Very Slow

R. J. Thomas, city tax collector, stated that tax payments are coming in very slow and that if a large number of people do not give this matter their immediate attention they will be required to pay an extra ten per cent of the amount of their taxes that is imposed as a penalty on those failing to make their payments by February 1st.

Only slightly above four thousand dollars have been collected. There is a total of \$22,823.10 assessed on the city books, according to Mr. Thomas.

Of the 299 poll taxes assessed, only sixty-two have been paid in thus far. Mr. Thomas called special attention to the necessity of every male person in Crowell, between the ages of 21 and 45, paying the special road tax of three dollars. Those living outside of the city limits of Crowell are required to pay this special tax to the county tax collector.

BLACK

(By Special Correspondent)

Mrs. S. E. Williams and children moved to Wichita Falls last week where they will make their home indefinitely. They were accompanied there by Mrs. Williams' sister and brother, Mildred and Joe Meredith, who returned Saturday. Mrs. Rosalie Puchacek was called Saturday to the bedside of her daughter-in-law, Mrs. Rudolph Puchacek, of near Crowell. W. T. Carter and family of Vernon have bought and moved to the Lawhorn farm. Mr. and Mrs. Copbell of Knox

County have moved to the Teague farm. Mr. and Mrs. Frank Elton of Quanah spent Sunday night with Mrs. Elton's mother, Mrs. Tillie McKown. Jack McCoy has purchased a new Chevrolet. Paul Cuffed made a business trip to Medicine Mounds Friday. W. W. Nichols and the infant of Mr. and Mrs. Ford have been on the sick list this week. S. A. Lawhorn and family will live on the Gamble farm for the coming year.

MARGARET

(By Special Correspondent)

Mrs. Mabel Trout of Miami, returned to her home Wednesday after spending two weeks with her father, W. E. Taylor. Miss Emily Ellen Reinhardt is visiting her uncle, Mrs. Alvin Hysinger, and family at Olton. Grandma Mollbrook is very ill at this writing. Frank Duna and family visited Mr. Duna's cousin in Vernon last Wednesday. Miss Lillie Bell Stephens returned from Vernon Saturday night where she had been visiting her sister, Mrs. Lee Bradford. Mrs. G. C. Wesley and son, John, and daughters, Alma and Anita, and

Miss Ella Maye Blewins visited in Quanah last Thursday. Messrs. Luther and R. L. Long of Pampa were visiting friends and relatives in this community Monday. Mrs. S. J. Boman has been ill. Mr. and Mrs. W. A. Dunn of Crowell attended Sunday School here Sunday. V. A. McGinnis is on the sick list. Lloyd Fox of Crowell visited in this community Sunday. Mr. and Mrs. Ed Rallsback announce the birth of a girl, Robbie Lee, born Friday, January 17th.

CLAYTONVILLE

(By Special Correspondent)

Mr. and Mrs. Edward Brock are the proud parents of a six pound baby girl, born to them on January 4. Miss Opal Carroll returned home Thursday from Harold where she has been visiting her uncle, Charles Gibson, and wife. She also visited Mrs. J. M. Garrett and family. Mr. Carroll and Cleo Gibson spent Thursday and Friday night with Mr. and Mrs. C. W. Carroll. Mr. and Mrs. T. J. Jones and son, Gary, spent Sunday with Mrs. Jones' parents, Mr. and Mrs. Whitley, and family of Thalia. Mr. and Mrs. Boyce Cate of Thalia spent Sunday afternoon with Mr. and Mrs. Dave Shultz. There will be Sunday School next Sunday morning at 10:30 o'clock and we cordially invite everyone to come and attend. Mrs. Deb Patton is reported to be very ill Tuesday and Wednesday. Miss Virgie Buchheit spent the week-end with her parents of Beaver.

FOARD CITY

(By Special Correspondent)

W. A. Vauk and daughter, Aris, and son, Leonard, are going to make a trip with C. E. Blewins for another year. Miss Pearl Appleton of Snyder, Texas, spent last Sunday evening with Jewel Hays. Little Winifred Horn is on the sick list this week. Hargston McLain is ill with pneumonia. Len Horn spent the week-end at Crowell with friends. There was a number of school children that had to spend last Friday night in the school house on account of the storm. Harve Mallinck returned home Thursday evening from the oil fields at Grayback. Ernie Smart and Edward Mallinck left Thursday morning for Frederick, Oklahoma, where they will visit Mr. Smart's father. Kenneth Manger is reported on the sick list this week.

THALIA

(By Special Correspondent)

Rev. Garrett of Vernon preached at the Baptist church here Sunday morning. Mr. and Mrs. R. T. Huntley and Charlie Webb, son, met Saturday from a visit in Wheeler County. Mr. and Mrs. C. B. Morris went to Iowa Park Monday to attend the funeral of Newt Lowrance who died of heart failure Sunday while attending Sunday School. Mr. Lowrance is the father of Miss Clara Lowrance who taught school here several years ago. Mrs. N. F. Pittillo and son, Reggie, came Sunday for a few days visit with relatives here. W. J. Long and son, Wilson, of Post are visiting relatives here this week. Endale Oliver and family moved to G. A. Shultz's farm near Macfarland. Lewis and Roy Mints and Ira Lee of Corbett, Oklahoma, visited relatives here last week-end. W. P. and Frank Wood visited relatives near Fargo Wednesday night and Thursday. Mr. and Mrs. M. C. Atkins, Mr. and Mrs. T. H. Matthews, Mr. and Mrs. T. R. Cates, Mrs. Bertha Shultz, Marshal Franklin and A. G. Wickens were Vernon visitors Monday. Ed Hitchcock and Clarence Donahue of Vernon were business visitors here Monday. W. G. Chapman, J. C. Jones, A. S. Wickendon, R. R. Cox and Mrs. J. A. Stovall were Crowell visitors Saturday. A large crowd from here attended the basketball game between Louisa and Thalia in Vernon Saturday night, the score being 24 to 5 in favor of Thalia. H. R. Hartman and Miss Margarette Morris were Vernon visitors Tuesday. Mr. and Mrs. C. H. Wood are the proud parents of a young son, born Wednesday morning. The Thalia basketball boys played Vernon Friday night in a very thrilling game, the score being tied several times. At the conclusion of the game it was still tied so an extra five minutes had to be played after which the score was 23 to 22 in favor of Vernon. Billy Aubrey who has returned from Post and entered school here was the star player of the game. Misses Catherine Wheeler and Lorene Shultz and Leland Stovall and Norman Gray went to Vernon Tuesday night to see "The Cock-Eyed World."

SOMETHING TO REMEMBER

If our tax laws were created and administered with the intention of assessing every individual and business organization on an equitable basis, there would be no tax problem. It is when taxes are levied in a discriminatory or unequal manner against certain types of individuals or businesses, in order to benefit others, that taxation becomes a problem of great economic and social import. We know that the radio has arrived when we see some lightwads buying them. Every politician thinks he is a statesman just after being reelected.

DEMOCRATIC GOVERNMENT should step in. It should be the aim of a free and democratic government to allow individuals the right to advocate doctrines that they believe are beneficial to humanity. When individuals or organizations urge measures which threaten damage to life, liberty or property the law should step in. There can be no half-way measures with freedom of speech. Anarchy and rebellion are the result of oppression, not of liberty. Intellectual freedom should be prized and protected. The United States was founded to provide its citizens with the very mate of freedom up to the point where life or property is menaced. Once that fundamental principle changed, democracy will be dead. Friends are like dollars—when need them most, they are hardest find.

Quality Goods

- Cloth Collars \$2.50 to 3.00
 - Leather Collars \$4.00 to 8.50
 - Check Lines \$5.75 to 8.50
 - Leather Bridles \$1.75 to 3.50
 - Single trees and oak timbers All Sizes
- McCormick-Deering Primrose cream separator. Make your cows pay your bills with one of these separators.
- McCormick-Deering—P. & O. 2-row Listers are better. Save time and money with one of these sturdy machines.

Household Word Throughout America—24 Carloads Sold in 25 Days in 27 States—Overwhelming Demand the One Great Outstanding Proof of Its Wonderful Merit

Most medicines are sold by the dozen by the gross. A few are sold in larger quantities, but think of a medicine that sells in such enormous quantities that wholesale dealers are unable to buy it in solid carload lots to supply a demand that has been so phenomenal as to almost stagger the imagination.

That's just what has happened with Sargon, the celebrated new medicine that is now sweeping the country like a great tidal wave. Not only is the trade buying it in carload lots, but they are buying carload after carload, each car containing over 20,000 bottles of Sargon and Sargon Soft Mass Pills.

Twenty-four carloads in 25 days sold in only 27 states is the amazing record recently made by these wonderful medicines.

In the state of California where Sargon was introduced in April of last year, it has required 21 carloads to supply the ever increasing demand in this one state alone. Texas dealers required 9 carloads in only four months.

A single New York firm, with wholesale branches in leading cities, is selling at the rate of over a million and a quarter bottles a year.

"Phenomenal and bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Sargon.

"It's the greatest seller within the memory of the oldest members of our organization," said another.

"We are selling more Sargon than any other ten medicines put together," said still another.

And so it is everywhere Sargon has been introduced. From coast to coast and from the Gulf to the Great Lakes, Sargon is known and honored.

Million upon millions have used it and have told other millions what it has done for them. When suffering men and women find a medicine that helps them, they naturally want to tell their friends about it and in this way Sargon is fast becoming a household word throughout America. Reeder Drug Co., Agents. (Adv.)

Average Ages of Texas U. Students Is Given

Austin, Texas.—Average age of freshman students in the University of Texas at the time of registration last September was 18.45 years, according to statistics recently compiled with the registrar's office. This compares with an average of 18.65 years for last year.

The average for all students this long session is 21.39 years, as compared with an average age of 21.35 years for last long session. Graduate students show a much greater age average than other students in the University. The average of the students in the Graduate Schools is 29.61 years.

Canton.—More than 100 Van Zandt county farmsteads have been improved in appearance and 57 landscaped in a beautification program sponsored by a woman's club at Edgewood and participated in by women of four near-by rural home demonstration clubs.

BRIEF FARM NEWS

Nacogdoches.—The high winning boy among 4-H cotton club members in Nacogdoches county this year is Kyle Heath, 13 years old, of Cushing, who produced 1087 pounds of lint on one acre. The 16 high ranking club boys made 19½ bales on 16 acres, so F. O. Montague, county agent, reports.

Butterfat Produced Cheaply Hereford.—Butterfat was produced in November for a feed cost of 18 cents per pound by L. A. Smith, member of the cow testing association of Deaf Smith county, who fed his 12 cows two bundles each of hegari daily, supplemented with cottonseed meal for protein and ground cane bundles for additional roughage. Eight of the cows made net profits for the month, totalling \$134.80, but the other four gave small returns because near the end of their lactation periods.

The cottonseed meal is fed according to production, one pound daily to cows producing 20 pounds of milk daily, 1½ pounds to cows milking 30 pounds per day, and two pounds of meal to those giving over 30 pounds of milk a day. Cottonseed meal is fed at milking time but the cows are allowed free access to the ground hegari and cane bundles. The hegari bundles average one-third of their weight in heads, and are ground to increase the amount consumed, so R. O. Dunkle, county agent states.

Seguin.—Guadalupe county farmers are planning to have plenty of Sudan grass for pasture in 1930. They have pooled orders for 13,000 pounds of seed, through the local dairymen's association.

Good Soil Management Pays

Bastrop.—In a corn growing demonstration conducted by Fred Moore in Bastrop county this year a yield of 465 bushels of yellow dent corn was made on 12 acres of deep sand, or practically 39 bushels to the acre. This is said by county agent, G. C. King, to be more than 13 bushels above the general average of the county this year. Mr. Moore planted the land late in 1929, to rye and wheat, plowed it under in the spring, applied 300 pounds of 4 (Nit.) 12 (Phos.) —4 (Pot.) fertilizer, planted March 11th and gave two cultivations. The cost of production was \$143.55 and the net profit per acre was \$26.70.

Living at Home Profitable

Snyder.—Six of the 153 home demonstration club women in Scurry county growing gardens in 1929 are serving as special 4-H pantry demonstrators, and their records show that their gardens and orchards, including canned products, were worth a total of \$2316.65 to them last season, or almost \$400 each. Their families consumed 7030 pounds of fresh vegetables, and 1286 containers of vegetables and 3489 containers of fruit were canned for the winter months. Their entire garden, orchard and canning programs have been worked out with the aid of the home demonstration agent in the form of budgets to give the proper amounts of all essential foods and they are feeding their families completely balanced meals.

Decatur.—Twenty 4-H club girls on Wise county farms are improving their bedrooms by re-finishing their furniture; making rugs, draperies and pillows; building bookcases, tables and footstools; and re-papering the walls. Sixty-six other girls are adding bookcases, arranging furniture to conform with the lines of the room and improving the floors.

Wheeler.—Many farm families in Wheeler county are adding at least one sea food dish weekly to the diet to provide a source of iodine which has been found to prevent goitre. The program is being worked out through the home demonstration clubs of the county.

THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon G. T. Oliver, his heirs and legal representatives; W. O. Stark, R. O. Stark, Orlin Stark, Mrs. Jeanett Morgan joined herein by her husband, Eldon Morgan, and their heirs and legal representatives, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Foard County, to be holden at the court house thereof, in Crowell, Texas, on the third Monday in February, A. D. 1930, the same being the 17th day of February, A. D. 1930, then and there to answer a petition filed in said court on the 21st day of January, A. D. 1930, in a suit numbered on the docket of said court No. 2121, wherein Foard County, Texas, is plaintiff, and G. T. Oliver, his heirs and legal representatives; W. O. Stark, R. O. Stark, Orlin Stark, Mrs. Jeanett Morgan joined herein by her husband Eldon Morgan, and their heirs and legal representatives are defendants, and a brief statement of plaintiff's cause of action, being as follows: That on or about the 10th day of September, A. D. 1909, G. T. Oliver made, executed and delivered to plaintiff his certain promissory note for the sum of \$1327.50, and due on 10th day of September, 1929, payable to the order of Foard County, Texas, bearing interest at the rate of 5% per annum from date until paid, and stipulating for 10% on principal and interest as attorney's fees if placed in the hands of an attorney for collection. Said note was given in part payment for a certain lot or parcel of land in Bailey County, Texas, and being Subdivision No. 14 out of League No. 195 of the Foard County school lands, and containing 177.1 acres of land. And that in the con-

A Few Hints for January

January is cold and blustery, take all the precaution necessary to keep yourself in order.

Do you catch cold easily? Do you fear any of the old troubles that come on you in winter? If so, come in and make the purchases necessary to combat these troubles.

See your family physician and let him prescribe for you, then bring us the prescription and we will take pride in filling it for the lowest possible price.

Respectfully,

Fergeson Brothers

The Rexall Store

veyance of said land by plaintiff herein to G. T. Oliver, a lien was reserved to secure the payment of said note, and that said note is due and unpaid and the interest thereon is due and unpaid, and defendants, though often requested, have failed and refused to pay said note or any part thereof.

That said land above mentioned was on February 9, 1911, conveyed to W. O. Stark and the said W. O. Stark assumed payment of said note; on March 23, 1914 said land was conveyed by deed to R. O. Stark who assumed payment of said note, and on April 5, 1920, same was again conveyed to W. O. Stark who again assumed payment of said note, and on September 18, 1921, Mrs. W. O. Stark died, leaving as her heirs at

lat, R. O. Stark, Orlin Stark, sons, and a daughter, Mrs. Jeanett Morgan whose husband is Eldon Morgan. And that said defendants, W. O. Stark and R. O. Stark in assuming payment of said note, became bound to pay same according to its tenor and effect.

That said note has been placed in the hands of O. D. Beauchamp, an attorney, for collection, and plaintiff has contracted to pay him the usual and customary 10% attorney's fee. Wherefore, plaintiff prays the court that defendants be cited to appear and answer this petition, that he have judgment for his debt, interest, attorney's fees and costs of suit, and for the foreclosure of his lien on the above described land and premises, and the same be decreed to be sold according to law; that the

sheriff, or other officer executing said Order of Sale, shall place the purchaser of said property, sold under order of sale, in possession thereof, within thirty days after the day of sale, and for such other and further relief, special and general, that he may be entitled to at law or in equity.

Herein fail not but have before said court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, Texas, on this the 22nd day of January, A. D. 1930. (Seal) IDA REAVIS, Clerk. District Court, Foard Co., Tex. By A. G. MAGEE, Deputy. 34

Complete Electrical Equipment

An analysis of electrification in West Texas shows a development startling in its completeness, and almost unbelievable in the brief span of time during which this electrical transformation has taken place.

And yet—the top has just been scratched!

Numberless small communities, and countless individual farmers and ranchers are just awakening to a realization of the extreme economy of electrical service.

They have come to realize that Electricity can perform the tasks at which they have been toiling in a fraction of the time, and at a fraction of the expense of old-time, old-fashioned methods.

Have you fully investigated the many electrical time and labor-saving devices which you can install at small expense, and operate for practically nothing? Come in, and let us talk things over—you will be surprised at the extreme economy of complete electrical equipment.

THE SOUTH AND THE NEGRO

The regard that seems to prevail in
the minds of many eminent people in
the North as to the South's attitude
toward the negro is almost disgusting.
The articles appearing in many of the
strongest magazines on the subject of
the negro leaves an unpleasant taste
in the mouth of most any Southerner.
They recall the days of slavery and
imagine that even today, the negro's
existence is that of an oppressed race.
They simply cannot understand the
attitude of the Southern people toward
the negroes.

Just recently more than a thousand
white people in Longview attended a
triple funeral of three of the oldest
negroes in that city who had died at
the same time. One of the negroes
was an ex-slave, nearly 100 years old.
All of the negroes had been held in
high esteem by Longview citizens
who generally mourned their passing.

Do our good friends of the North,
where it is claimed that negroes have
more "social equality," show any
more respect to the negro than shown
by the Longview incident.

USING THEIR WEALTH

What does it profit a man, if he
accumulates a fortune commensurate
with his needs, and then continues to
make money just for the sake of adding
to his wealth?

The logical answer is that it profits
him nothing if he does not use the
surplus above what he actually needs
for the good of others.

He would be unwise to retire, un-
less his condition of health made such
a step necessary, because he would
be unhappy in a life of ease and the
community would suffer from the loss
of his business judgment and experi-
ence.

When such a man reaches a place
where he is financially independent,
he can do untold good by continuing
to make money and spending it for
the betterment of others less fortunate
and with less ability than he.

Such men discharge their full duty
when they become public benefactors
and use their wealth to good ends.

What a viewpoint we have. A boy
makes a cigaret and thinks he is a
man, and the old man will smoke one
and imagine he's a boy.

KEEPING IN TUNE

Every automobile owner knows
that the most important thing in
operating the machine is to keep it
in tune, with all cylinders hitting and
timed perfectly. Human cylinders
frequently get out of time and we
fail to make the grade.

Keeping one's self in tune is a
matter, largely, of eliminating dis-
cords in one's mental and spiritual
being. The business man who con-
siders it his prerogative and possibly
his duty to berate roundly those who
are under his authority, is laying up
for himself a reaction on which he
has not counted. Every explosion of
wrath has its counteraction in a man's
inner organism. He suffers, although
in a different way, quite as much as
his victims.

There is close affinity between
one's mental state and one's physical
state. Getting all "fussed up" is an
indulgence for which one must pay a
stiff price. Emotion of every sort
exact its penalty. Anger, sorrow,
fear, envy, set one jangling inside,
with consequent loss of efficiency and
poise. To get out of tune is easy
unless one keeps thought one's
thoughts under control. The anger
that is bottled up; the sorrow that is
hidden; the fear that haunts the
mind; the envy that gnaws at the
heart—destroy one's harmony and
poise quite as much as though they
were expressed.

OIL CONSERVATION

Appreciable progress toward sta-
bilization of the petroleum industry
has been made through the conserva-
tion policies adopted a year or more
ago, in the opinion of E. B. Reeser,
President of the American Petroleum
Institute.

Because of voluntary co-operation
in various fields, says Mr. Reeser, at
least 10,000,000 barrels of crude oil
have been kept in the ground, instead
of being produced to still further
swell the excess supply.

Successful conservation must be
effected by state laws and voluntary
agreements between operators,
instead of through federal action.

In California, Texas and elsewhere,
efficient and stabilized production
has been achieved by laws enforcing
the conservation of oil and natural
gas, and by pro rata agreements be-
tween operators that prevent waste-
ful, unnecessary production. In one
field, where conservation has been
almost completely realized, actual
production is but a small percentage
of potential production, in spite of
the fact that the field is divided
among many operators.

It may be eventually public opinion
will have to be brought to bear in
order to force the irresponsible oper-
ators to abide by restrictions that are
necessary to the development of the
industry and to the preservation of
our resources. Our industrial civiliza-
tion cannot afford to permit oil
waste.

Political Announcements

LAST DAY FOR BARGAIN RATES. NEARLY HERE

Mail Checks or Call at News Office to Subscribe or Renew Your Paper

While the majority of the News subscribers have renewed for another year, yet there are a number who have failed to do so. The bargain rates on the News will cease after February 1st and all of those wishing to save money on their subscriptions are urged to either mail \$1.50 or call personally at the News office and attend to this matter.

The bargain rates on the Wichita Falls papers will be out after January 31st.

If the weather makes it inconvenient for you to come to the News office, just mail the amount for the subscription.

Negroes and Mexicans More Loyal to New Texas Marriage Law

Mexicans and negroes of Foard County have been more loyal to the new marriage law than the white people, according to records in the office at the county clerk.

Since the law went into effect last summer, only eighteen licenses have been issued from the local office. Twelve of these have been to white people, four to negroes and two to Mexicans. Considering the population the percentage of licenses secured by the negroes and Mexicans has been considerably larger than that of the white people.

The first license issued under the new law was to a negro couple and the last one issued also went to a negro couple.

RAYLAND

(By Special Correspondent)

Born to Mr. and Mrs. Horace Lambert, last week, a son.

J. C. Davis purchased a house from Garrett Shultz in Rayland and moved his family there last week.

Miss Hattie Lara Prescott of Harrold, formerly of this community, was married Saturday in Oklahoma.

Harrison Price who is attending school in Wichita Falls spent the past week-end with home-folks.

Bob Price and L. W. Greenway went to Wichita Falls Thursday. They started home Friday and got snowbound at Electra. Mr. Greenway did not get home until Saturday.

NOTICE TO CONTRACTORS

Sealed proposals addressed to C. T. Schalagal, Mayor of Crowell, Texas, for the improvement of certain streets in Crowell, Texas, will be received until 8:00 p. m. February 7, 1930, and then publicly opened and read.

Description of work to be done: Work consists of concrete paving with concrete curbs and gutters with the following approximate quantities: 22,400 square yards concrete paving; 468 cubic yards earth excavation; 3250 linear feet combined curb and gutter.

Plans and specifications for the work may be seen and information obtained at the office of the City Secretary at Crowell, Texas.

A certified or cashier's check in the amount of 5% of the amount bid, made to the order of C. T. Schalagal, Mayor of Crowell, must accompany each proposal as a guarantee that the bidder, if successful, will enter into contract and make bond in accordance with the terms of the specifications.

The city reserves the right to reject any or all bids and to waive all technicalities.

Five kings and queens attended a royal wedding the other day, but it sounds more like a bridge party.

The price of gasoline is lighter than air, or at least it doesn't appear to come down.

FURNITURE

We are prepared to meet your furniture needs. Whether it be a complete housekeeping outfit, single room furnishing, or just odd pieces. We would like to show you our line of living, dining, bed, and breakfast room suites. Also odd dining tables, chairs, stoves, cabinets, rugs, library tables, center tables, etc.

Here you will find those old familiar tunes you are so fond of hearing over and over again from your phonograph. New melodies are being released and sent direct to us at regular intervals. In this way we have the new records as soon as they are placed on the market.

High School Girls Entertain Members Of Rotary Club

The program at the Rotary luncheon Wednesday was made up chiefly of entertaining numbers provided by five girls of Crowell High School under the direction of Josephine Griffith. Vocal numbers, including many of the latest songs, piano solos and readings made up their program which was presented in a manner that reminded one of a radio program.

The program opened with the girls joining in a vocal number after which each presented her part individually. Those presenting numbers were: Misses Lela Ber Allee, Peggy Thompson, Jo Roark, Josephine Griffith and Evelyn Sloan, accompanist. Jo Roark gave two readings and the other girls, with the exception of the accompanist who gave a piano solo, rendered vocal solos.

B. J. Smith, of Colorado Springs and former Foard County resident, was present and gave an interesting talk, reminiscent of the old days in the county and the development to the present time.

R. J. Thomas was also a guest at the luncheon.

The programs for the next month were given as follows: January 29th—Stunt program, Bert Self in charge; February 5th—Vocational Service program, Employer and Em-

ployee Relations, M. S. Henry—"The Employer," Eli Smith—"The Employee," February 12th—Classification program, J. R. Beverly in charge; talk, "Engineering" by Byron Reese; February 19th—Washington and Lincoln program, "Washington"—Clarence Self, "Lincoln"—T. B. Klepper; February 26th—Rotary Birthday program, John Razor in charge.

WEST RAYLAND (By Special Correspondent)

Miss Bertha Dunson is visiting relatives at Chillicothe.

Jeff Prescott of Harrold spent Sunday and Sunday night with his brother, Ransom Prescott, and family.

Mr. and Mrs. Horace Young left Thursday for the Rio Grande Valley where he will engage in trucking.

Dr. Maine was called Sunday to see Junior Belew who has been ill the past week.

Lewis and Weston Ward have been on the sick list the past week.

Miss Mildred Culver of Strong City, Okla., a former resident of this community, was married, on December 14th, to a Mr. Scott of that city.

J. E. Young and son, Arnold, made a business trip to Wichita Falls Thursday.

Wallace Scales was a Crowell visitor Saturday.

J. E. Young purchased a farm from Joe Thompson which is located three miles south of Rayland. Arnold

Young and wife will live there year.

Mr. and Mrs. Paul Wallace Crowell spent the week-end with parents, Mr. and Mrs. J. H. Idiger.

John Dunson and family of V spent Sunday with Mrs. L. B. son.

Vernie Courtney and family ed to Crockett Monday. They accompanied there by Will Louie Clark.

Mrs. K. W. Walls has returned home. Her grandchild is better.

Bob Huntley and family returned from Wheeler County Saturday.

Miss Ruby Cowen who has been visiting her sister, Mrs. Arthur son, for some time, left Sunday noon.

The Home Demonstration club meet with Mrs. Joe Huntley on uary 28th.

Ten thousand airplane have been issued by the department of commerce.

Ammonia traces its name to association with the Egyptian Ammon.

THE BANK OF CROWELL

1930 Calendar pads, one cent each, at News office.

A. Brian is recovering from a severe sick spell.

Mrs. H. Schindler is visiting in Vernon this week.

Eli Smith made a business trip to Quannah Wednesday morning.

For Sale—Good used piano. Good terms given.—Allen Chevrolet Co.

Do away with gas sweating. Use Allen's Parlor Furnace.—M. S. Henry & Co.

J. R. Beverly returned Tuesday night from a trip to Dallas and Mineral Wells.

County Head Light Test Station, No. 2, now ready to serve you.—Ivie's Station.

Three gallon garbage pail with close fitting lid. This week—79c.—M. S. Henry & Co.

Marceles—50c; Finger Waves—50c; Shampoos—50c.—Phone 338, Frankie Pennington, at hospital.

Our special value this week. Heavy galvanized 3-gallon garbage pail with close fitting lid, 79c.—M. S. Henry & Co.

Ralph Hunter, son of Mr. and Mrs. Perry Hunter, is now chief electrician at the new 12-story Hilton Hotel in Lubbock.

We need oil stoves, heaters, cook stoves, bedsteads and springs, as trade in on mattress work.—Ketchersid Furniture Co.

Miss Marguerite Stephens returned to her home in Benjamin Wednesday. She taught the first term in Crowell High School.

We can dispose of a few used electric cook stoves and will trade new Detroit Jewel gas cook stoves for yours.—M. S. Henry & Co.

J. R. Bell is visiting relatives and friends at his old home at Venus, Texas. He orders his paper changed to that address until further notice.

Mr. and Mrs. L. A. Beverly and son, Fred Allan, returned last Friday from a trip to Dallas. They also visited relatives in Wichita Falls.

Miss Emily Purcell returned Monday from a visit with her nephew, Allen Vannoy, and family at McAllen, Texas. She reports a very pleasant trip.

Mr. and Mrs. J. H. Cope of Quannah visited Mrs. Cope's mother, Mrs. Ida Cheek, here Sunday. Mrs. Cheek has been ill but is considerably improved now.

Mrs. D. M. Ferebee of Vernon spent last week with her mother, Mrs. J. Q. Middlebrook, at Margaret. Mrs. Middlebrook has been confined to her bed for the past six weeks.

Mrs. J. F. Long has returned from Covina, California, where she has been for the past few months. She was met at Amarillo by Mr. Long and both made the trip from there to Crowell by auto.

Mrs. S. E. Tate received a message last Tuesday night stating that her cousin, G. F. Young, had died at Chattanooga, Okla. She, Mr. Tate and Ed Manard left immediately for that place. Mr. Young died very suddenly with a stroke of paralysis. He was buried Thursday at Burkburnett.

Mr. and Mrs. B. J. Smith of Colorado Springs have been visiting in Crowell and Foard County this week. They have just returned from a trip to San Antonio and other points. Mr. Smith owns a ranch in Foard County and has been looking after some of his interests here.

Everett Wallace left Tuesday night for Commerce where he will enter East Texas State Teachers College, the school he attended last year. Mr. Wallace has been working under Byron Reese, resident engineer of the State Highway Department, since last spring on Foard County's highway program.

Nimray Hidgon left last Friday for Austin where he will enter Texas University. He is a brother of Mrs. Oscar Boman and Mrs. T. V. Rascoe of this city and has been bookkeeper for the Crowell Gin Company this season.

Mr. and Mrs. Clarence Self, Herbert Edwards and Glen Halsell left Tuesday for a trip to Fort Worth. Mr. Halsell lives in Fort Worth but has been staying on the Halsell Ranch southeast of here for some time.

Leo Spencer has been appointed district manager of the Western Reserve Life Insurance Company of San Angelo. This institution is one of the most rapidly growing insurance firms in the state.

The Western Reserve is a legal reserve company and has one of the strongest boards of directors of any insurance company, according to Mr. Spencer.

Mr. and Mrs. A. J. Norton and baby daughter of Glenrio, New Mexico, arrived in Crowell Wednesday night for a visit with J. H. Shelton and family. Mrs. Shelton is an aunt of Mrs. Norton. Mr. Norton reported that the temperature at Glenrio dropped to 14 below zero last Thursday night, however, the snowfall there had been rather light. Glenrio is west of Amarillo.

Folks who pay as they go never have to walk home.

1930 Calendar pads, one cent each, at News office.

For Sale—Good used piano. Good terms given.—Allen Chevrolet Co.

Will trade Detroit Jewel gas ranges for electric ranges.—M. S. Henry & Co.

County Head Light Test Station, No. 2, now ready to serve you.—Ivie's Station.

No sweat runs down your walls and windows when you heat with Allen's Parlor Furnace. It heats the entire house.—M. S. Henry & Co.

Haven't you got some second hand furniture to sell or trade? If so, see us and trade it to us on mattress work.—Ketchersid Furniture Co.

MISS STEPHENS LEAVES

Miss Marguerite Stephens, who has been instructor in English in Crowell High School, has returned to her home in Benjamin. She has been substituting this year for Miss Winnie Self who has now taken over the English work of the high school.

NOTICE

No wood cutting, no fishing, no trespassing will be allowed in Wishon's pasture. Offenders will be prosecuted.

J. W. WISHON.

FRIVOLITIES OF WEALTH

Almost as regularly as clockwork we read in the daily press where millionaire is suing his wife for divorce, or is being sued himself or both.

Generally there follows a mass of moral filth that is amazing and almost beyond belief. Like dirty linen, it comes out in the wash, but unlike the linen, the principals can hardly lay claims to purity as a result of that legal bath.

This is a queer world. As long as we are poor we are able to live comparatively decent lives. But let great wealth come our way and we immediately begin to yearn for the vices and frivolities it will buy.

It would be far better for the human race if we were to forego a majority of the "pleasures" of wealth and retain the respectability that is inherent in mankind in the days of his poverty.

Millions and morality do not always harmonize.

How true it is that half of the men who pull out their watches, don't know what time it is when they put them back in their pockets.

Chevrolet Expects to Sell Many Cars in Jan.

Detroit, Mich.—Chevrolet will sell more cars this month than in January of any year ago, according to H. J. Klingler, vice-president and general sales manager of the Chevrolet Motor Company, who announced on Saturday that the month's schedule had to be increased in response to the greatest reception a new Chevrolet model has received in the nineteen-year history of the company.

Directly on the heels of the first showing of the new car on January 4, a flood of congratulatory messages poured into the home office from every quarter of the country. Every message told of unprecedented public interest in the new car and a consequent increase in retail sales, with the result that the January schedule had to be revised upward to meet dealer requirements for immediate delivery, Mr. Klingler said.

MAN OF ALL WORK

Gas is joining hands with electricity in eliminating the drudgery of housework. In the modern home it cooks the dinner, keeps food cold, makes ice, provides hot water, heats the house, burns the garbage and dries the clothes, all automatically. It is a modern "man of all work." Some change from the day when it was predicted that the use of gas would disappear with the advent of electricity.

"Work hard" is useless advice and is not much as information.

CHURCHES

Baptist Meeting at Odell Tuesday, Jan. 28

The Wilbarger-Foard Baptist Association will meet with the Baptist Church at Odell on Tuesday, January 28th. The meeting is to begin at 10 o'clock in the morning.

A splendid program is being planned and it is hoped by those arranging the meet that it will have a record breaking attendance.

Christian Science

Sunday, 11 A. M. Subject for Sunday, January 26, 1930, "Truth." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

The Christian Church

The attendance at church Sunday was not as good as it has been, but it was better than the Sunday before. I know that it is cold and disagreeable, but we are establishing habits of staying at home on Sunday morning. Please remember that you are forming habits of non-church attendance, and that these habits will be hard to break when warm weather comes. So far it has not been as cold on Sunday mornings as it has been during the week, and it hasn't been too cold to go to town or to your job. So, please make a supreme effort to come to Sunday School and church next Sunday. Just remember that it is as important spiritually as your job is materially.

Sunday School begins at 9:45 and we are going to start on time from now on. So please be on time. The church will be nice and warm, so you need not fear any unpleasantness from the cold. Everybody read at least one chapter in the Bible during the week and study your lesson. Let's have a hundred per cent Bible readers with a prepared lesson.

The worship service begins promptly at 11 o'clock. This service should be very important to all members of the church, because during this service we partake of the Lord's supper. "For as often as ye eat this bread and drink the cup, ye proclaim the Lord's death till he come." We are trying to make the worship service just as helpful as we can. Won't you come and enter into the service with hearts prepared to commune with God in both silent and audible prayer, and in singing songs of praise unto Him? We need to fortify our souls with the cleansing breath of God.

The Evangelistic service of the church begins at 7:45. This service is important to all members of the church. Why? First, if you yourself will not go to church you cannot expect others to come. Second, if you are interested in your fellowman, you will be asking, begging, and pleading with him to accept Christ, and if you are asking him to do this, you would be showing poor interest if you did not come to see if he takes that initial step that will place him in such a position as to accept the promises of God. Third, think of the joy that will come to you of seeing those friends of yours saved whom you have talked to, for a soul saved covers a multitude of sins.

The sermon subject for Sunday morning will be, "Christian Ideals." The sermon subject for Sunday night will be, "The Four Best Things."

We gladly welcome all strangers and visitors and friends to this church. The Friendly Church.

JOHN G. CLARK.

Baptist Church

Regular services will be held at the Baptist Church Sunday with Rev. Garrett, missionary for the Wilbarger-Foard Baptist Association, conducting the services. Everyone is cordially invited to come and take a part in the services.

Presbyterian Church

Rev. J. T. Bryant will be with us Sunday for church services at both the morning and evening hour. Morning services will begin at 11 a. m. and evening services at 7 o'clock. Sunday School at 10 a. m.

We shall be glad to have you with us.—Reporter.

Fifteen Years Ago In The Foard County News

JANUARY 22, 1915

Celebrates Birthday

"Grandma" Ferguson celebrated her 87th birthday at the home of her son, T. J. Ferguson, with whom she makes her home, Sunday. Seven sons were present. These were Messrs. F. G., T. M., N. P., S. J., T. J., C. R., and H. E. and their wives with the exception of Mrs. T. M. Ferguson of Vernon.

Exciting Fire

A fire at the house belonging to E. G. Campsey and occupied by S. C. Bruton and family, in the west part of town caught fire Friday and came near taking the lives of two of the Bruton children.

Hubert Brown discovered the fire and gave the alarm while on his way to school. Mr. and Mrs. Bruton were away from the house at the time. It is presumed that the older child started the fire by throwing a match in a clothes basket. Neighbors saved the children and the house from burning up by their heroic work. One room and furniture were badly damaged.

Leave for New York

Mrs. Holthausen and son, Ernest, who have been visiting her daughter, Mrs. J. H. Minnick for several weeks, left Sunday for her home in New York City. Master Jimmie Minnick returned with them and will spend a few months in the great metropolis.

New Blacksmith Shop

C. B. Garlinghouse has opened a blacksmith shop south of the old Burks & Swain Garage. This makes the fourth blacksmith shop for Crowell.

C. P. Sandifer sends the News a telegram from Dallas telling us that he had just arrived from Austin where he attended the inaugural festivities and ceremonies of Governor Ferguson.

The end of the road may be far away but someday it will be at hand.

KNOW TEXAS

Texas has 242 creameries. Practically all of them have been built within the past five years, most of them in the last two years.

In spite of a short cotton crop and a low price, Texas' agricultural production for 1929 was valued by the U. S. Department of Agriculture at \$615,351,000, again giving it first place among the states.

Texas improvement projects in 1930, public and private, are estimated at from \$450,000,000 to \$500,000,000.

Since 1913 Texas counties and road districts have voted and issued \$201,000,000 in road improvement bonds.

BEST IN HISTORY

"The quality of the service furnished by the railways . . . is better now than at any other time in the history of the country," says an annual report of the United States Department of Commerce. "Shortage of cars have now become rare occurrences. At present it takes scarcely two-thirds as long to move goods a given distance as it did a decade ago.

"With the increasing efficiency with which traffic is being handled producers are able to make quicker deliveries and distributors are able to carry smaller stocks and turn their capital more quickly. As a result goods are cheapened to consumers."

This is not a biased statement, but the well-considered utterance of a fact-finding governmental department. Its conclusions should be known to every citizen. Railroad executives have obtained the greatest possible benefit from every facility. Waste, in time and money, has been outlawed.

Industrial progress made in the last four years would not have been possible without a high standard of transportation service.

Merchants who advertise should take some interest in what they advertise and how.

HELPING TO BUILD TEXAS

Electra and Alice are among the Texas towns soon to have new airports.

Gainesville started off the New Year with \$200,000 worth of new construction to start immediately, including the paving of a dozen streets.

After twelve years of service the little light plant at Fairlie is no more. It has given way to improved service available from a Texas Power & Light Co. "highline" that passed nearby.

Extensive improvement of the downtown lighting system is expected to be made during 1930 as result of the efforts of the Dallas Retail Merchants Association. Lights like those on Pacific Avenue are planned for other streets in the downtown section.

Background of the \$200,000 milk plant at Mount Pleasant, now well under construction, is of interest to other ambitious communities. Citizens of Titus, Camp, Franklin, Morris and Harrison counties paid in \$100,000 for stock and the Texas Milk Products Co. of Marshall paid in the remainder. The Mount Pleasant plant will have a daily capacity of 120,000 pounds of milk and is planned to take care of the increased dairy industry of the fine section it will serve.

Fashionable London has taken to counterpanes of the type Queen Elizabeth used, made by miners' wives in distressed coal fields.

TEXON TALES

The reason we quit talking about the weather is because the discussions run our temperature down to four below nothing about four o'clock Saturday morning. Last summer we had trouble with guys talking about the weather until it was 120 in the shade. Looks like we could let the weather alone and quit agitating it.

es and some store room to the government building here recently. Just thought it was a good idea to get ready for this town to kind of spread out and then if it don't why nobody can blame it onto the post office. Texas led the whole U. S. in new well oil production in last December and no telling what we gonna do this year if anything.

Well, we got through the holiday rush only to wake up to the fact we got March winds and long skirts all in a wad. Pretty soon the elections will have us gossiping a right smart. We predict a lotta folks are going to get beat. The reason we say that we seen it happen before and know what we're talking about. Just as sure as two guys run for the same office somebody's gonna get it right smack in the neck so you better figure on that. If we could have just one guy run for each office why it could cut the disappointment way down. But you gotta take a chance. Even the farmer will bet a year's work against the weather and grass-hoppers he will make a crop and pay the grocery bill. The farmers have only one thing to be thankful for—if he was any more prosperous the government would go to regulating him. But any time you need a little money get one of the new dollar bills. Then, if you want to make money fast, paste it on the table.

The Foard County News

Opening of Cherokee Strip to Be Given Over Radio Tuesday

A vivid dramatic re-enactment of one of the most colorful and thrilling episodes in the history of the West—the opening of the Cherokee strip in Oklahoma, which precipitated the greatest land rush ever recorded—will be presented by the Conoco Adventurers Tuesday at 10:00 p. m. Central Time, over a National Broadcasting Company network.

The Conoco Adventurers, representatives of the Continental Oil Company of Denver, have packed into a half-hour of radio entertainment a remarkably life-like representation in sound of the stupendous drama that transpired when more than 100,000 people started from "The Line" at the sound of a U. S. Cavalryman's rifle shot, and raced for homes and fortunes. The crash of colliding vehicles, curses of disputing settlers, popping of fire-arms as men locked in death struggles over the precious land—all these and other side-lights of the land rush are developed in "The Race for an Empire." The Conoco orchestra provides as musical background, featuring the fiddle tunes and the rhythmic banjo music that the land-seekers played as they waited behind a guard of soldiers at "The Line" for the starting signal. There is a sentimental touch too, as the Conoco players develop a love affair between a cow-boy and Alice, a brave frontier girl who join in the mad rush to stake adjoining claims.

The Conoco Adventurers may be heard every Thursday at 10 p. m. through the following N. B. C. Stations: WLS, Chicago; WDAF, Kansas City; WREN, Lawrence, Kansas; KOA, Denver; KSL, Salt Lake; KWK, St. Louis; WHO, Des Moines; WOC, Davenport; WOW, Omaha; WKY, Oklahoma City; KVOO, Tulsa; WFAA, Dallas; WBAP, Fort Worth; WOAL, San Antonio; KPRC, Houston; WMC, Memphis; KTHS, Hot Springs; and WLW, Cincinnati.

THE STATE OF TEXAS To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon G. T. Oliver, D. W. Odell, R. S. Phillips, their heirs and legal representatives, and each and all persons owning or claiming an interest in the hereinafter described land, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Foard County, to be holden at the court house thereof, in Crowell, Texas, on the third Monday in February, A. D. 1930, the same being the 17th day of February, A. D. 1930, then and there to answer a petition filed in said court on the 21st day of January, A. D. 1930, in a suit numbered on the docket of said court No. 2122, wherein Foard County, Texas, is plaintiff, and G. T. Oliver, D. W. Odell, R. S. Phillips, their legal heirs and representatives, and each and all persons owning or claiming an interest in the hereinafter described land are defendants, and a brief statement of plaintiff's cause of action, being as follows: That on or about the 10th day of September, A. D. 1909, G. T. Oliver made, executed and delivered to plaintiff his certain promissory note for the sum of \$1,327.50, and due on 10th day of September, 1929, payable to the order of Foard County, Texas, bearing interest at the rate of 5% per annum from date until paid, and stipulating for 10% on principal and interest as attorney's fees if placed in the hands of an attorney for collection. Said note was given in part payment for a certain lot or parcel of land in Bailey County, Texas, and being Sub-division No. 13 out of League No. 195 of the Foard County school lands, and containing 177.1 acres of land. And that in the conveyance of said land by plaintiff herein, to G. T. Oliver a lien was reserved to secure the payment of said note, and that said note is due and unpaid and the interest thereon is due and unpaid, and defendants, though often requested, have failed and refused to pay said note or any part thereof.

That the land above mentioned was conveyed by warranty deed, on the 20th day of November, 1921, to D. W. Odell and R. S. Phillips, who are now the last record owners of said above described land and premises.

That said note has been placed in the hands of O. D. Beauchamp, an attorney, for collection, and plaintiff has contracted to pay him the usual and customary 10% attorney's fee.

Wherefore, plaintiff prays the court that defendants be cited to appear and answer this petition, that he have judgment for his debt, interest, attorney's fees and costs of suit, and for the foreclosure of his lien on the above described land and premises, and the same be decreed to be sold according to law; that the sheriff or other officer, executing said order of sale, shall place the purchaser in possession thereof, and for such other and further relief, special and general, either at law or in equity.

Herein fail not but have before said court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, Texas, on this the 22nd day of January, A. D. 1930.

(Seal) IDA REAVIS, Clerk District Court, Foard Co., Tex. By A. G. MAGEE, Deputy. 34

EVERYBODY IS NOW PRAISING ORGATONE

Cisco Mechanic Declares He Feels Like New Man Since Taking Orgatone

"Two or three weeks on Orgatone actually put an end to my indigestion and made me feel like a new man," said F. B. Blackburn, a mechanic for the Gulf Pipe Line company and residing at 1400 G. Ave., Cisco, Texas, in relating his experience with Orgatone.

"One day after eating," he continued, "I had an awful attack of acute indigestion and for several days I was a mighty sick man. My stomach would swell up with gas so that I could hardly breathe and there were black streaks and spots floating before my eyes and I would get so dizzy I could hardly stand up. My appetite was practically nothing and my tongue was so coated that I could almost taste it. I was so nervous and restless I could not sleep. I started doctoring myself, but in spite of the medicine I took I became much worse and suffered such agony that it just looked like nothing was ever going to do me any good.

"I heard and read so much about this new Orgatone treatment that I thought I would give it a trial but to be frank with you I did not have much faith in it at first, I had been disappointed so often, but I began to improve right from the first and in a week I felt much better. I kept on taking the medicine and it continued to fix me up right along and I have gotten entirely over my indigestion and can eat anything I want and the pains in my back and sides have disappeared entirely. I believe that everybody in our neighborhood is taking Orgatone and praising it for the good it is doing them."

Genuine Orgatone may be obtained in Crowell at the Reeder Drug Store. (Adv.)

Record of Corporations In Texas Year of 1929

Austin, Texas.—New corporations organized in Texas during December totaled 162, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas. These new enterprises were capitalized at \$8,423,000. These figures compare with 123 companies granted charters during December, 1928.

During 1929, a total of 2,630 corporations having capitalization of \$285,612,000 were organized, a new high record so far as numbers are concerned. In 1928, charters were granted to 2,488 companies capitalized at \$390,288,000.

A man was sent to prison the other day for having two wives, and some men get into trouble by marrying only one.

Twenty Years Ago In The Foard County News

Party Purchases Automobiles

As stated last week, a party of Crowellites went to Dallas to buy automobiles. The ones who bought machines were J. W. Allison, W. S. Bell, G. A. Burks, J. W. Gimmell, Dr. J. M. Hill, Major Johnson, C. P. Sandifer, J. H. Self and B. W. Self. Each purchased a car, 6 Overlands and 3 Fords. The Overlands and one Ford came through the country, while the other two were to be shipped.

The party arrived Monday about noon, giving an account of a pleasant trip with their machines, although they encountered some mud.

There are now 15 automobiles in Crowell, and we are glad there are so many. We wish there were a hundred, for the man who rides in an automobile is without exception, in favor of better roads. We hope the auto has come to stay until we at least have built up good roads. If good roads are the result of the introduction of the auto, the public should feel very well paid for the freight their teams have often showed at their appearance.

R. Frank Cates and Miss Ella May Cook were married Sunday by Rev. S. O. Woods. Mr. Cates is the son of T. J. Cates and Mrs. Cates is the daughter of Mr. and Mrs. J. W. Cook.

C. W. Beidleman was here from near Thalia Monday and reported prosperous conditions.

Sam Bell is reported to be improving gradually. We hope to see him up again in a short time. He was operated on for appendicitis last week.

Crowell now has 15 autos, but as yet we cannot predict who will be the most probable winner of distinction of being the first to get killed.

Mrs. S. T. Crews and her music

class have secured the services of Miss Louise Chalmette Daniel of Houston, in a piano recital to be given on February 4th at the Bell Opera House.

PLAY AT GAMBLEVILLE

A three-act play, "The Little God-hopper," will be given at the Gambleville school Friday, January 24th. The play will begin promptly at 7:30 p. m.

The proceeds from the play will go for the benefit of the school in buying library books and other needed items. The public is cordially invited to attend the play which is said to be an excellent one in every way.

SAFETY MOVEMENT IN AUTOS

Winter, with its snow, ice and slippery streets, naturally brings with it an increase in automobile accidents. It is no unusual thing to see a car sprawled on its side or overturned.

But the better modern cars seem able to withstand terrific shocks and it is remarkable that occupants, even in major accidents, suffer so little injury.

The all-steel body is probably the greatest safety innovation since the early days of the industry and has unquestionably saved thousands of lives.

Wise motorists, interested in something beside mere speed or appearance of a car, are insisting on every possible safety device.

The first wife may get the most petting, but the first automobile gets the most polishing.

A NEW AGE OF LUBRICATION BEGINS WITH THIS NEW MOTOR OIL CHARACTERISTIC:

"Penetrative Lubricity"*

CONOCO Alone Has this New Characteristic

Since the discovery of the wheel, lubrication has been a necessity and a problem. The first rude barrows which pre-historic men built, needed lubrication, and one of the brighter tribesmen began rubbing the axles of his primitive cart with raw animal meat.

With Watt's invention of the steam engine in 1763, metal-on-metal friction resulted. Then it was that animal and vegetable oil lubricants became definitely unsatisfactory. Their tendency to leave corrosive deposits ruled them out.

Mineral Oils Are Discovered

After the drilling of the first oil well in 1859, mineral oils became commercially successful. Because petroleum was plentiful and was freer from gumming and corroding tendencies, it rapidly supplanted animal and vegetable oils.

But since 1901 there have been practically no changes of fundamental importance in refining motor oils.

Now since 1901, think of the changes that have been made in motors! Probably the make of car you drive today was not even manufactured in 1901. Certainly its needs for oils are far more exacting!

The Development of Germ Process

Foreseeing that ordinary mineral oils would eventually fail to meet the increasing strains put

upon them, Wells and Southcombe, two British scientists began a study of the problem which occupied 16 years. The result of their efforts was the isolation of the Germ Essence—a property that provides increased "oiliness" when introduced into mineral oils. These processes were patented and Continental acquired them exclusively for North America. Thus Continental brings you the first and only fundamentally better oil of the century!

Germ Process and Penetrative Lubricity

The Germ Process adds one startling characteristic to CONOCO Germ-Processed Motor Oils. It enables them to penetrate metal surfaces! This means that an enduring oil film actually penetrates all working parts and clings under all conditions. In starting when 40% to 60% of motor wear occurs. In speeding when any failure of the film is fatal to motor life, remember this—the permanence of this film precludes any possibility of metal abrasion. The germ-essence naturally adds greater "oiliness" and we call that lubricity. So we have Penetrative Lubricity as the outstanding characteristic of this new oil.

When will you begin using CONOCO Germ-Processed Motor Oil?

THE FOUR AGES OF LUBRICATION

? Years B. C. to 1763

Animal Fats for Wood-on-Wood Friction

1763 to 1859

Vegetable Oils and Animal Fats for Metal-on-Metal Friction

1859 to 1918

Petroleum discovered and used—not as "oil" but does not corrode

GERM-PROCESSED OILS 1929

The first fundamentally better oil of the Century!

* Means—Slipperiness, smoothness, freedom from friction; also the property that diminishes friction, as the lubricity of oil, coupled with the unique ability to penetrate metal surfaces.

Chevrolet Expects to Sell Many Cars in Jan.

Detroit, Mich.—Chevrolet will sell more cars this month than in January of any year ago, according to H. J. Klingler, vice-president and general sales manager of the Chevrolet Motor Company, who announced on Saturday that the month's schedule had to be increased in response to the greatest reception a new Chevrolet model has received in the nineteen-year history of the company.

Directly on the heels of the first showing of the new car on January 4, a flood of congratulatory messages poured into the home office from every quarter of the country. Every message told of unprecedented public interest in the new car and a consequent increase in retail sales, with the result that the January schedule had to be revised upward to meet dealer requirements for immediate delivery, Mr. Klingler said.

MAN OF ALL WORK

Gas is joining hands with electricity in eliminating the drudgery of housework. In the modern home it cooks the dinner, keeps food cold, makes ice, provides hot water, heats the house, burns the garbage and dries the clothes, all automatically.

It is a modern "man of all work." Some change from the day when it was predicted that the use of gas would disappear with the advent of electricity.

"Work hard" is useless advice and it is not much as information.

CHURCHES

Baptist Meeting at Odell Tuesday, Jan. 28

The Wilbarger-Foard Baptist Association will meet with the Baptist Church at Odell on Tuesday, January 28th. The meeting is to begin at 10 o'clock in the morning.

A splendid program is being planned and it is hoped by those arranging the meet that it will have a record breaking attendance.

Christian Science

Sunday, 11 A. M., Subject for Sunday, January 28, 1930, "Truth." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

The Christian Church

The attendance at church Sunday was not as good as it has been, but it was better than the Sunday before. I know that it is cold and disagreeable, but we are establishing habits of staying at home on Sunday morning. Please remember that you are forming habits of non-church attendance, and that these habits will be hard to break when warm weather comes. So far it has not been as cold on Sunday mornings as it has been during the week, and it hasn't been too cold to go to town or to your job. So, please make a supreme effort to come to Sunday School and church next Sunday. Just remember that it is as important spiritually as your job is materially.

Sunday School begins at 9:45 and we are going to start on time from now on. So please be on time. The church will be nice and warm, so you need not fear any unpleasantness from the cold. Everybody read at least one chapter in the Bible during the week and study your lesson. Let's have a hundred per cent Bible readers with a prepared lesson.

The worship service begins promptly at 11 o'clock. This service should be very important to all members of the church, because during this service we partake of the Lord's supper. "For as often as ye eat this bread and drink the cup, ye proclaim the Lord's death till he come." We are trying to make the worship service just as helpful as we can. Won't you come and enter into the service with hearts prepared to commune with God in both silent and audible prayer, and in singing songs of praise unto Him? We need to fortify our souls with the cleansing breath of God.

The Evangelistic service of the church begins at 7:45. This service is important to all members of the church. Why? First, if you yourself will not go to church you cannot expect others to come. Second, if you are interested in your fellowman, you will be asking, begging, and pleading with him to accept Christ, and if you are asking him to do this, you would be showing poor interest if you did not come to see if he takes that initial step that will place him in such a position as to accept the promises of God. Third, think of the joy that will come to you of seeing those friends of yours saved whom you have talked to, for a soul saved covers a multitude of sins.

The sermon subject for Sunday morning will be, "Christian Ideals." The sermon subject for Sunday night will be, "The Four Best Things." We gladly welcome all strangers and visitors and friends to this church. The Friendly Church. JOHN G. CLARK.

Baptist Church

Regular services will be held at the Baptist Church Sunday with Rev. Garret, missionary for the Wilbarger-Foard Baptist Association, conducting the services. Everyone is cordially invited to come and take a part in the services.

Presbyterian Church

Rev. J. T. Bryant will be with us Sunday for church services at both the morning and evening hour. Morning services will begin at 11 a. m. and evening services at 7 o'clock. Sunday School at 10 a. m.

We shall be glad to have you with us.—Reporter.

Celebrates Birthday

"Grandma" Ferguson celebrated her 87th birthday at the home of her son, T. J. Ferguson, with whom she makes her home, Sunday. Seven sons were present. These were Messrs. F. G., T. M., N. P., S. J., T. J., C. R., and H. E. and their wives with the exception of Mrs. T. M. Ferguson of Vernon.

Exciting Fire

A fire at the house belonging to E. G. Campsey and occupied by S. C. Bruton and family, in the west part of town caught fire Friday and came near taking the lives of two of the Bruton children.

Hubert Brown discovered the fire and gave the alarm while on his way to school. Mr. and Mrs. Bruton were away from the house at the time. It is presumed that the older child started the fire by throwing a match in a clothes basket. Neighbors saved the children and the house from burning up by their heroic work. One room and furniture were badly damaged.

Leave for New York

Mrs. Holtzhausen and son, Ernest, who have been visiting her daughter, Mrs. J. H. Minnick for several weeks, left Sunday for her home in New York City. Master Jimmie Minnick returned with them and will spend a few months in the great metropolis.

New Blacksmith Shop

C. B. Garlinghouse has opened a blacksmith shop south of the old Burks & Swaim Garage. This makes the fourth blacksmith shop for Crowell.

C. P. Sandifer sends the News a telegram from Dallas telling us that he had just arrived from Austin where he attended the inaugural festivities and ceremonies of Governor Ferguson.

The end of the road may be far away but someday it will be at hand.

KNOW TEXAS

Texas has 242 creameries. Practically all of them have been built within the past five years, most of them in the last two years.

In spite of a short cotton crop and a low price, Texas' agricultural production for 1929 was valued by the U. S. Department of Agriculture at \$615,351,000, again giving it first place among the states.

Texas improvement projects in 1930, public and private, are estimated at from \$450,000,000 to \$500,000,000.

Since 1913 Texas counties and road districts have voted and issued \$201,000,000 in road improvement bonds.

BEST IN HISTORY

"The quality of the service furnished by the railways . . . is better now than at any other time in the history of the country," says an annual report of the United States Department of Commerce. "Shortage of cars have now become rare occurrences. At present it takes scarcely two-thirds as long to move goods a given distance as it did a decade ago.

"With the increasing efficiency with which traffic is being handled, producers are able to make quicker deliveries and distributors are able to carry smaller stocks and turn their capital more quickly. As a result goods are cheapened to consumers."

This is not a biased statement, but the well-considered utterance of a fact-finding governmental department. Its conclusions should be known to every citizen. Railroad executives have obtained the greatest possible benefit from every facility. Waste, in time and money, has been outlawed.

Industrial progress made in the last four years would not have been possible without a high standard of transportation service.

Merchants who advertise should take some interest in what they advertise and how.

HELPING TO BUILD TEXAS

Electra and Alice are among the Texas towns soon to have new airports.

Gainesville started off the New Year with \$200,000 worth of new construction to start immediately, including the paving of a dozen streets.

After twelve years of service the little light plant at Fairlie is no more. It has given way to improved service available from a Texas Power & Light Co. "highline" that passed nearby.

Extensive improvement of the downtown lighting system is expected to be made during 1930 as result of the efforts of the Dallas Retail Merchants Association. Lights like those on Pacific Avenue are planned for other streets in the downtown section.

Background of the \$200,000 milk plant at Mount Pleasant, now well under construction, is of interest to other ambitious communities. Citizens of Titus, Camp, Franklin, Morris and Harrison counties paid in \$100,000 for stock and the Texas Milk Products Co. of Marshall paid in the remainder. The Mount Pleasant plant will have a daily capacity of 120,000 pounds of milk and is planned to take care of the increased dairy industry of the fine section it will serve.

Fashionable London has taken to counterpanes of the type Queen Elizabeth used, made by miners' wives in distressed coal fields.

Opening of Cherokee Strip to Be Given Over Radio Tuesday

A vivid dramatic re-enactment of one of the most colorful and thrilling episodes in the history of the West—the opening of the Cherokee strip in Oklahoma, which precipitated the greatest land rush ever recorded—will be presented by the Conoco Adventurers Tuesday at 10:00 p. m. Central Time, over a National Broadcasting Company network.

The Conoco Adventurers, representatives of the Continental Oil Company of Denver, have packed into a half-hour of radio entertainment a remarkably life-like representation in sound of the stupendous drama that transpired when more than 100,000 people started from "The Line" at the sound of a U. S. Cavalryman's rifle shot, and raced for homes and fortunes.

The Conoco Adventurers may be heard every Thursday at 10 p. m. through the following N. B. C. Stations: WLS, Chicago; WDAF, Kansas City; WREN, Lawrence, Kansas; KOA, Denver; KSL, Salt Lake; KWK, St. Louis; WHO, Des Moines; WOC, Davenport; WOV, Omaha; WKY, Oklahoma City; KVOO, Tulsa; WFAA Dallas; WBAP, Fort Worth; WOAI, San Antonio; KPRC, Houston; WMC, Memphis; KTHS, Hot Springs; and WLW, Cincinnati.

Adriatic divers have brought up ancient Swedish gold ducats of the time of King Gustavus Adolphus.

A North Carolina trapper claims the distinction of catching a catfish in a steel trap.

Most wise paragraphs are borrowed and most humorous ones are clipped.

THE STATE OF TEXAS To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon G. T. Oliver, D. W. Odell, R. S. Phillips, their heirs and legal representatives, and each and all persons owning or claiming an interest in the hereinafter described land, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Foard County, to be holden at the court house thereof, in Crowell, Texas, on the third Monday in February, A. D. 1930, the same being the 17th day of February, A. D. 1930, then and there to answer a petition filed in said court on the 21st day of January, A. D. 1930, in a suit numbered on the docket of said court No. 2122, wherein Foard County, Texas, is plaintiff, and G. T. Oliver, D. W. Odell, R. S. Phillips, their legal heirs and representatives, and each and all persons owning or claiming an interest in the hereinafter described land are defendants, and a brief statement of plaintiff's cause of action, being as follows: That on or about the 10th day of September, A. D. 1909, G. T. Oliver made, executed and delivered to plaintiff his certain promissory note for the sum of \$1,327.50, and due on 10th day of September, 1929, payable to the order of Foard County, Texas, bearing interest at the rate of 5% per annum from date until paid, and stipulating for 10% on principal and interest as attorney's fees if placed in the hands of an attorney for collection. Said note was given in part payment for a certain lot or parcel of land in Bailey County, Texas, and being Subdivision No. 13 out of League No. 195 of the Foard County school lands, and containing 177.1 acres of land. And that in the conveyance of said land by plaintiff herein, to G. T. Oliver a lien was reserved to secure the payment of said note, and that said note is due and unpaid, and the interest thereon is due and unpaid, and defendants, though often requested, have failed and refused to pay said note or any part thereof. That the land above mentioned was conveyed by warranty deed, on the 20th day of November, 1921, to D. W. Odell and R. S. Phillips, who are now the last record owners of said above described land and premises.

That said note has been placed in the hands of O. D. Beauchamp, an attorney, for collection, and plaintiff has contracted to pay him the usual and customary 10% attorney's fee. Wherefore, plaintiff prays the court that defendants be cited to appear and answer this petition, that he have judgment for his debt, interest, attorney's fees and costs of suit, and for the foreclosure of his lien on the above described land and premises, and the same be decreed to be sold according to law; that the sheriff or other officer, executing said order of sale, shall place the purchaser in possession thereof, and for such other and further relief, special and general, either at law or in equity.

Herein fail not but have before said court, at its next regular term, this writ with your return thereon, showing how you have executed the same. Given under my hand and the seal of said court, at office in Crowell, Texas, on this the 22nd day of January, A. D. 1930. (Seal) IDA REAVIS, Clerk District Court, Foard Co., Tex. By A. G. MAGEE, Deputy. 34

EVERYBODY IS NOW PRAISING ORGATONE

Cisco Mechanic Declares He Feels Like New Man Since Taking Orgatone

"Two or three weeks on Orgatone actually put an end to my indigestion and made me feel like a new man," said F. B. Blackburn, a mechanic for the Gulf Pipe Line company and residing at 1400 G. Ave., Cisco, Texas, in relating his experience with Orgatone.

"One day after eating," he continued, "I had an awful attack of acute indigestion and for several days I was a mighty sick man. My stomach would swell up with gas so that I could hardly breathe and there were black streaks and spots floating before my eyes and I would get so dizzy I could hardly stand up. My appetite was practically nothing and my tongue was so coated that I could almost taste it. I was so nervous and restless I could not sleep. I started doctoring myself, but in spite of the medicine I took I became much worse and suffered such agony that it just looked like nothing was ever going to do me any good.

"I heard and read so much about this new Orgatone treatment that I thought I would give it a trial but to be frank with you I did not have much faith in it at first, I had been disappointed so often, but I began to improve right from the first, and in a week I felt much better. I kept on taking the medicine and it continued to fix me up right along and I have gotten entirely over my indigestion and can eat anything I want and the pains in my back and sides have disappeared entirely. I believe that everybody in our neighborhood is taking Orgatone and praising it for the good it is doing them."

Genuine Orgatone may be obtained in Crowell at the Reader Drug Store. (Adv.)

Record of Corporations in Texas Year of 1929

Austin, Texas.—New corporations organized in Texas during December totaled 162, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas. These new enterprises were capitalized at \$8,423,000. These figures compare with 123 companies granted charters during December, 1928.

During 1929, a total of 2,630 corporations having capitalization of \$285,612,000 were organized, a new high record so far as numbers are concerned. In 1928, charters were granted to 2,488 companies capitalized at \$390,288,000.

A man was sent to prison the other day for having two wives, and some men get into trouble by marrying only one.

Twenty Years Ago In The Foard County News

JANUARY 21, 1910

Party Purchases Automobiles As stated last week, a party of Crowellites went to Dallas to buy automobiles. The ones who bought machines were J. W. Allison, W. S. Bell, G. A. Burks, J. W. Gimmell, Dr. J. M. Hill, Major Johnson, C. P. Sandifer, J. H. Self and B. W. Self. Each purchased a car, 6 Overlands and 3 Fords. The Overlands and one Ford came through the country, while the other two were to be shipped.

The party arrived Monday about noon, giving an account of a pleasant trip with their machines, although they encountered some mud. There are now 15 automobiles in Crowell, and we are glad there are so many. We wish there were a hundred, for the man who rides in an automobile is without exception, in favor of better roads. We hope the auto has come to stay until we at least have built up good roads. If good roads are the result of the introduction of the auto, the public should feel very well paid for the freight their teams have often showed at their appearance.

R. Frank Cates and Miss Ella May Cook were married Sunday by Rev. S. O. Woods. Mr. Cates is the son of T. J. Cates and Mrs. Cates is the daughter of Mr. and Mrs. J. W. Cook.

C. W. Beidleman was here from near Thalia Monday and reported prosperous conditions.

Sam Bell is reported to be improving gradually. We hope to see him up again in a short time. He was operated on for appendicitis last week.

Crowell now has 15 autos, but as yet we cannot predict who will be the most probable winner of distinction of being the first to get killed.

Mrs. S. T. Crews and her music

class have secured the services of Miss Louise Chalmette Daniel of Houston, in a piano recital to be given on February 4th at the Bell Opera House.

PLAY AT GAMBLEVILLE

A three-act play, "The Little Clod-hopper," will be given at the Gambleville school Friday, January 24th. The play will begin promptly at 7:30 p. m. The proceeds from the play will go for the benefit of the school in buying library books and other needed items. The public is cordially invited to attend the play which is said to be an excellent one in every way.

SAFETY MOVEMENT IN AUTOS

Winter, with its snow, ice and slippery streets, naturally brings with it an increase in automobile accidents. It is no unusual thing to see a car sprung on its side or overturned. But the better modern cars seem able to withstand terrific shocks and it is remarkable that occupants, even in major accidents, suffer so little injury.

The all-steel body is probably the greatest safety innovation since the early days of the industry and has unquestionably saved thousands of lives.

Wise motorists, interested in something beside mere speed or appearance of a car, are insisting on every possible safety device.

The first wife may get the most petting, but the first automobile gets the most polishing.

A NEW AGE OF LUBRICATION BEGINS WITH THIS NEW MOTOR OIL CHARACTERISTIC:

"Penetrative Lubricity"*

CONOCO Alone Has this New Characteristic

Since the discovery of the wheel, lubrication has been a necessity and a problem. The first rude barrows which pre-historic men built, needed lubrication, and one of the brighter tribesmen began rubbing the axles of his primitive cart with raw animal meat.

With Watt's invention of the steam engine in 1763, metal-on-metal friction resulted. Then it was that animal and vegetable oil lubricants became definitely unsatisfactory. Their tendency to leave corrosive deposits ruled them out.

Mineral Oils Are Discovered After the drilling of the first oil well in 1859, mineral oils became commercially successful. Because petroleum was plentiful and was freer from gumming and corroding tendencies, it rapidly supplanted animal and vegetable oils.

But since 1901 there have been practically no changes of fundamental importance in refining motor oils.

Now since 1901, think of the changes that have been made in motors! Probably the make of car you drive today was not even manufactured in 1901. Certainly its needs for oils are far more exacting!

The Development of Germ Process

Foreseeing that ordinary mineral oils would eventually fail to meet the increasing strains put upon them, Wells and Southcombe, two British scientists began a study of the problem which occupied 16 years. The result of their efforts was the isolation of the Germ Essence—a property that provides increased "oiliness" when introduced into mineral oils. These processes were patented and Continental acquired them exclusively for North America. Thus Continental brings you the first and only fundamentally better oil of the century!

upon them, Wells and Southcombe, two British scientists began a study of the problem which occupied 16 years. The result of their efforts was the isolation of the Germ Essence—a property that provides increased "oiliness" when introduced into mineral oils. These processes were patented and Continental acquired them exclusively for North America. Thus Continental brings you the first and only fundamentally better oil of the century!

Germ Process and Penetrative Lubricity

The Germ Process adds one startling characteristic to Conoco Germ-Processed Motor Oils. It enables them to penetrate metal surfaces! This means that an enduring oil film actually penetrates all working parts and clings under all conditions. In starting when 40% to 60% of motor wear occurs... in speeding when any failure of the film is fatal to motor life, remember this—the permanence of this film precludes any possibility of metal abrasion. The germ-essence naturally adds greater "oiliness" and we call that lubricity. So we have Penetrative Lubricity as the outstanding characteristic of this new oil.

When will you begin using CONOCO Germ-Processed Motor Oil?

THE FOUR AGES OF LUBRICATION

Table with 4 columns: 1. ? Years B. C. to 1763: Animal Fats for Wood-on-Wood Friction. 2. 1763 to 1859: Vegetable Oils and Animal Fats for Metal-on-Metal Friction. 3. 1859 to 1918: Petroleum discovered and used—not as "oily" but does not corrode. 4. 1918 to 1929: GERM-PROCESSED OILS 1929: The first fundamentally better oils of the Century!

* Means—Slipperiness, smoothness, freedom from friction; also the property that diminishes friction, as the lubricity of oil, coupled with the unique ability to penetrate metal surfaces.

Dense Clouds of Smoke West of Here Saturday

Hundreds of Crowell and Foard County people were attracted to the sight of the dense cloud of black smoke that stretched for miles across the sky in the western part of the county all Saturday afternoon. At that time no one knew exactly where the smoke was coming from and no reports could be learned as to the cause.

It was reported Sunday that a break in the pipeline of the Humble Oil Company, that just barely misses the west end of Foard County, caused thousands of barrels of oil to pour out on the ground and that this waste oil had been set on fire purposely.

Paducah was without natural gas Monday as the result of another break in the line, northeast of that city. When the oil was set on fire a bridge which crossed a creek that carried the gas line across it, was burned down with the result that the gas line broke.

Bring Warm Clothing To M. S. Henry & Co.

The Columbian Club has sponsored a move for providing a number of the poor families of Crowell and Foard County with warm clothing and have requested all interested in this matter to please bring any old warm clothing to M. S. Henry & Company Friday.

The members of the Columbian Club will then distribute the clothing to a number of needy families.

The cold weather has dealt misery to many poor people and now is the chance for the people of this section to get rid of clothing for which they have no further need. It is hoped that the public will co-operate in this matter.

Paris.—Edna Brown and Pauline Stapleton, two 4-H club girls of Tigertown in Lamar County recently completed four years of club work with profits of \$681.70 and \$546.33, respectively. These gains were made from managing poultry flocks, growing gardens, canning, and making some improvement articles and clothing.

SOCIETY

Cold Weather Fails To Stop Good Work Of Crowell Schools

Last week was examination week for the Crowell schools and in spite of the extremely cold weather, all but six of the pupils in Crowell High School were present to take their examinations for the three days that they were given, Wednesday, Thursday and Friday.

L. T. Graves, superintendent, stated that the average of exemptions in the Crowell schools this year was considerably above the average. Fourteen students of the seventh grade successfully passed the requirements to enter Crowell High School.

Students of the Crowell schools have been attending better than generally during the cold weather that has existed for the past three weeks, according to Mr. Graves. On some of the coldest days the attendance in the grammar school, particularly the primary grades, has been considerably below 50 per cent and around 60 and 70 per cent in the high school.

The two school buildings have been comfortably heated for most of the time, Mr. Graves stated, especially in the high school building. During the Christmas holidays, repair work on the windows to keep out the wind was completed at the grammar school building and has helped conditions considerably.

Only slight damage has been suffered as a result of pipes freezing. Le Roy Statser, janitor, has worked day and night at the buildings looking after conditions.

Sophomores Winners of Art Contest at C. H. S.

The sophomore class of Crowell High School won the art contest that was held last week. The winners were determined Tuesday, according to I. T. Graves, superintendent.

Unusually high grades on the contest were made and the interest shown by the students in art is outstanding. The ninth graders made an average of 99.87 per cent, just barely beating the seniors who had an average of 99.39 and the freshmen, 96.53.

Mr. Graves stated that 132 students in the high school made perfect grades compared with 161 for the contest last year.

Twenty pictures by famous artists were used in the contest this year. The students were required to give the name of the picture, its artist and the nationality of the artist. Correct spelling also counted in the contest.

A similar event will be held for the grammar grades at a later date with different pictures being used.

MRS. HARWELL IS HOSTESS AT FAREWELL PARTY SAT.

Mrs. J. E. Harwell was hostess at a farewell party given in honor of Miss Marguerite Stephens at her home Saturday afternoon, between four and six.

Games of "600" were played after which a delicious plate lunch was served to the following: Mrs. Esca Brown and Misses Louise Ball, Thelma White, Ruth Patterson, Virginia Freeman, Thelma Shaw, Frankie Kirkpatrick, Martha Schlagal, Frances Hill, Lottie Woods, Gene Ballew of Seymour and the honoree and hostess.

Miss Stephens was English instructor in Crowell High School during the first term, substituting for Miss Winnie Self, and made a great number of friends in this city. She has returned to her home in Benjamin.

MRS. T. S. HANEY HOSTESS

The Swastika Bridge Club met with Mrs. T. S. Haney on the afternoon of Thursday, January 15. An attractive feature of the afternoon was the silhouette table covers and napkins. In the game, Mrs. John McAnear received high score and Mrs. Gordon Bell, second. The favors were a vanity for high and a box of candy for second. The hostess served a delicious salad course to the members present.

P. T. A. POSTPONES MEET

The Crowell Parent-Teachers Association will meet Tuesday at the high school at 1 p. m. The meeting was to have been held this Tuesday, but due to the weather, it was postponed.

The fourth grade teachers and mothers will be hostesses at this meeting. The subject for the P. T. A. program this month is "Thrift," according to Mrs. L. A. Beverly, president.

CROWELL GIRL ON HONOR ROLL

Miss Nellie Briscoe of Crowell, was one of the 61 students whose name appeared on the fall term Honor Roll of the West Texas State Teachers College, which was issued this week. Miss Edna Graham of the Mathematics department being chairman of the Honor Roll committee. Only students who do a very high type of class work are able to make the honor roll.

The winter term, which has just opened at the Teachers College found the enrollment increased by 104 students.

President J. A. Hill and his faculty are planning the twelve weeks summer session which will begin June 6.

MAKE 400 MILE TRIP

T. N. Bell and Que R. Miller returned Monday afternoon after leaving Crowell Sunday on a trip to the Plains that carried them over four hundred miles. Threatening weather and ice roads failed to stop these hardy travelers from making this trip. While away they visited in Ralls,

Lubbock, Littlefield, Plainview, Tulia, Silverton and Memphis. They reported driving in snow from one to eight inches deep and stated that about the heaviest snow they struck was in the section around Silverton in Briscoe County. A number of damaged cars and accidents along their route were reported, although they were able to complete the trip without a mishap.

Federation Postpones Meeting Indefinitely

The meeting of the County Federation of Women's Clubs has been postponed indefinitely, according to Mrs. M. S. Henry. The meeting was to have been held last week at Margaret with the Margaret Parent-Teachers Association as the hostess club.

Due to the weather it was postponed until this week, but the weather has necessitated another postponement. Mrs. Henry asked that the women watch for an announcement in the News as to when the next meeting will be held.

To Give Certificates For Best Library Work

In order to stimulate library reading among the students of the rural schools of Foard County a certificate will be awarded to one pupil out of each grade by the county superintendent, J. E. Atcheson, and the teacher of the grade.

The student out of each grade in the rural schools that does the best work in reading library books will be awarded this attractive certificate.

SPLINTERS

Published in the interest of the people of Crowell and vicinity by the Cicero Smith Lumber Co. R. J. ROBERTS, Manager.

We are hard to please, it was winter weather we wanted, and the past two weeks have not pleased us. Have you ever used Magnolia Coke to warm your home? Magnolia Coke Brings the Healthy Warmth to Your Home During the Winter Months. Magnolia Coke gives a steady, even flow of Intense Heat—Is Smokeless—Harmless and Economical. Solve your heating problems by using Magnolia Coke. You'll find it better than coal, cheaper than coal and CLEANER than coal. You'll always be satisfied with Magnolia Coke.

Wife—"Where on earth did you get that red lantern, dear? Absent minded Husband: "A careless fellow left it out there in the street beside a hole."

Attention chicken raisers! We have Glass Cloth in stock the kind that lets in the sun rays that are necessary for the young chickens—also pairs for brooder houses—chicken houses and other equipment needed for the successful raising of chickens. Do not forget that poultry houses free from mites! C C Mite Killer keeps your one for one whole year, with only one application. Kills blue bugs too.

Get a job, son! When I was your age I worked in a building material office for \$5.00 a week! Six years later I owned the place! Son—Ya can't do that now-days dad; they have cash registers.

"There's a mistake in this building material bill!" "The crooks! I'll go see them at once!" "But it is in your favor, dear!" "Oh well, I'd better not pay any attention to it—I might get someone in trouble!"
