CAMPAIGN TO FORM COUNTY AGRICULTURAL ASSOCIATION STARTED LAST THURS. JAN. 29

At a meeting of a number of farmers in the district court room Thursday a campaign was started for members to organize a County Agricultural Association for Foard County. Andy Bourne, prominent Wilbarger County farmer, was the principal speaker at this meeting.

In order to organize a county association there must be an organization in each community and from these the county officers will be elected. There will be a Community Agricultural Association in the Thalia, Riverside, Black, Crowell, Good Creek, Margaret, Gamberville, Vivian and Ford City communities. The purpose of these associations is to defend, improve and enlarge government farm programs.

Unite with other fighting farmers through affiliation with Texas Agricultural Association and American Farm Bureau Federation.

Afford every farm family the means of studying, discussing and effectively speaking their minds on important local, state and national questions.

Give organized support to worthy agencies serving farmers. Give the community an old-fashioned social center. Discuss and act upon other current problems confronting farmers.

NEW FRENCH ENVOY

A recent photo of Georges Bonnet, veteran minister of French cabinets, who was named French ambassador to the United States to succeed Andre de Laboulaye. M. Bonnet is one of the leaders of the radical Socialist party, which now is in power.

V. A. Teachers Met In Chillicothe Sat.; Plans for Year Laid

The Vocational Agriculture teachers of the Vernon district met with O. T. Ryan, area 1 supervisor, in Chillicothe last Saturday afternoon after the F. F. A. poultry show.

Plans for the rest of the year were made for this district. F. F. A. contests were discussed and decided on. A meat judging and identification contest will be held in Vernon, March 25. Each chapter will bring a team of four boys to judge retail, wholesale and quality cuts of pork, mutton, veal and beef.

Each FFA sponsor chose some phase of the state contests to enter. The Crowell chapter will enter debate and extemporaneous speaking. The question for debate is "Resolved: That the Expense of Federal Soil Conservation is Justified by Its Promotion of the General National Welfare." Speaking will be extemporaneous. Subjects will be selected. Other contests will be public speaking, chapter conducting, one act play and news writing.

Those present at the meeting were: J. W. Hulsey, Chillicothe; C. N. Merrill, Westover; M. S. Dean, Burk Burnett; H. L. Purvis, Kirkland; Mr. Harrison, Harrold; Walker P. Todd, Crowell; and O. T. Ryan, supervisor, Lubbock.

PRACTICE GAME OF BOWLING VERNON WEDNESDAY NIGHT

Several members of the crew of the Seismograph Corporation of Tulsa, Okla., went to Vernon Wednesday night for a practice game in bowling with members of the Geophysical Research Corporation crew, also of Tulsa. The Crowell men were joined in Vernon by four men who are working for the same corporation in Hardeman County and the bowling team is being made up of men from both towns. A match game will be played Sunday. Members of the team from Crowell are Fee Haag and Lou Cornish and those from Quannah are Geo. Giltinan, Geo. Reed, Glenn Conklin and Feathers Boman.

The Seismograph Corporation crew has been operating in the southeast part of Foard County for more than a month and is composed of the following men and their families who live in Crowell:

Mr. and Mrs. J. G. Jackson, Mr. and Mrs. L. G. Cornish, Mr. and Mrs. R. E. Barrett, Mr. and Mrs. H. B. Steadman, Mr. and Mrs. Brooks Green, Mr. and Mrs. Archie Marcotte and five children, Mr. and Mrs. R. B. Rutter and son, Mr. and Mrs. E. W. Davis and son, Mr. and Mrs. Edgar Andrews and son, Mr. and Mrs. Howard Claiborne, Mr. and Mrs. Thad Wigley and son and daughter, M. L. Burr, Archie Heir, Fee Haag and one local man, Tom Greengard.

CEMETERY DONATIONS

The following donations have been made to the Crowell Cemetery Association since the last report:

- M. L. Bird \$1.00
- T. S. Patton 1.00
- Mrs. Marion Roy 1.00
- Mrs. F. A. Davis 5.00

CROWELL GIRLS WIN DEBATE MEET AT VERNON

The Crowell girls' debating team, Camille Graves and Virginia Coffey, won first place in a debating meet held between the teams of Crowell, Vernon, Chillicothe and Quannah, Saturday at the Vernon High School. The Crowell girls, Bill Russell and A. C. Russell, both freshmen in the high school, placed third and the Vernon boys won first place.

The meet was held on a round-robin basis with the following results: girls—Crowell, 8; Chillicothe, 7; Quannah, 2; and Vernon, 1; boys—Vernon, 7; Chillicothe, 6; Crowell, 4; and Quannah, 2.

The Interscholastic League debated subject for 1937, "Resolved: That the manufacture of munitions should be a Government monopoly," was used.

Two Want Ads in News Last Week Get Quick Results

Two want ads in the classified column of The Foard County News last week got quick results. M. L. Rettig advertised a dry cow to trade for saddle. About three hours after the paper was mailed out T. L. Ward of the Thalia community phoned in to find out how to get in touch with Mr. Rettig. We do not know whether a deal was made or not.

O. W. Orr advertised for a watch that had been lost by his daughter, Jean. Friday morning the watch was brought to Mr. Orr's place of business by Mr. Meek of Thalia, an employee on the Crowell school building. The watch had been lost near the Baptist Church where Jean attends school.

People read the classified column in this paper and it is the quickest, easiest and cheapest way to get in touch with people who have something you want to trade for, to find lost articles or lost livestock, or most any other want you might have. If you haven't ever tried it you might be losing money.

HONOR ROLL IS ANNOUNCED FOR THIRD PERIOD

Forty-nine students of Crowell High School were on the honor roll for the third six weeks of school, according to I. T. Graves, superintendent. Sixty-six grammar school pupils were on the list. In the highest school sixteen were on the "A" honor roll and thirty-three on the "B" roll. Thirty-one grammar school pupils are listed on the "A" roll and 34 on the "B" roll.

A total of 79 students of the grammar school were credited with perfect attendance during the third six weeks.

High School "A" Roll
The high school "A" roll is as follows: Tom Alton Andrews, Billie Brown, Mary Helen Carroll, Charlie Clark, Jenny Dee Coffey, Ted Crosoe, Hughes Fish, Zelma Ferguson, Camille Graves, Mary Frances Green, Lenagene Green, Annie Mae Hall, Wanda Rose Lyles, Thelma Lois Moore, Billy Russell, Adolf Slovak.

High School "B" Roll
The "B" roll for high school: James Adams, Lavene Askins, Dorothy Beggs, Marion Benham, Juanita Boman, Marjorie Bradford, Pauline Branch, Hubert Carl Brown, Juanita Brown, Mary Frances Bruce, Virginia Mae Coffey, Winifred Connell, Frances Davis, Effie Griffin, Mabel Hall, Helen Harwell, Wynona Hembree, Edith Hutcheson, Margaret Long, Lou Martin, Daphny McClure, Faye McCurley, Verne Ray Morrison, Granville Mullins, Elmer Nichols, Glen Dan Reeder, Marjorie Spencer, Maggie Starnes, Edna Lynn Thompson, Reid Thompson, James Welch, Marie Wells, Oleta Faye Zeibig.

J. L. RENNELS DIES AT HOME MONDAY, FEB. 1

Funeral Held Tuesday In Vernon Baptist Church

Funeral services for J. L. Rennels, resident of the Riverside community since 1914, who passed away Monday morning at 5:30 at his home in that community, were held at the First Baptist Church in Vernon Tuesday afternoon at 2 o'clock. Services at the church were conducted by Rev. W. A. Reed, former pastor of the Thalia Baptist Church, assisted by Rev. H. H. Hargrove, pastor of the Vernon church. Interment was made in the East View Cemetery at Vernon under the direction of the Underwood Funeral Home.

Mr. Rennels had been in failing health for two years and became seriously ill last Thursday. He was 68 years of age and was born in Charleston, Ill., May 11, 1868. He came to Texas with his parents in 1874 and the family settled near Decatur. In 1890 Mr. Rennels was married to Miss Geneva Jane Casey at Decatur. She died in 1900 and in 1903 Mr. Rennels and Mrs. Minnie Lee Powell were married.

The Rennels family came to Foard County in 1909 and settled on a farm near Rayland. In 1914 they moved to the farm in the Riverside community where Mr. Rennels had since resided. He was a member of the Rayland Baptist Church. During his long residence in this county Mr. Rennels had endeared himself to hundreds of friends in every community.

Survivors include his wife; two sons, Fred Rennels of Vernon, county agent of Wilbarger County and former agent of Foard County; J. Bailey Rennels, principal of the Riverside school; a step-son, Emmett Powell, principal of the Vivian school; a brother, Sam Rennels of Wilson, Okla.; two sisters, Mrs. Florence Roberts of Granite, Okla., and Mrs. W. H. Casey of Arapahoe, Okla., and two grandsons, F. L. and Clark Rennels of Vernon.

SUED BY SENATORS

The target of no less than seven civil suits, totaling \$70,000, is Mrs. Ellen French Vanderbilt Fitzsimons (above), widow of Alfred Vanderbilt and wife of Paul Fitzsimons. The suits were filed recently at Newport, R. I., on behalf of seven Republican state senators of Rhode Island, to whom Mrs. Fitzsimons is alleged to have referred as "yellow dogs" and "traitors to their party."

MARRIAGE LICENSES

Two marriage licenses have been issued during the past week. J. B. Reynolds and Miss Mamie Newton were issued a license on Saturday, Jan. 30, and were married in the office of the county judge with Claude Callaway, county judge, performing the ceremony.

Walter Sprague and Miss Vera Dawson were issued a license on Tuesday, Feb. 2.

NORMAN NICHOLSON, SUPERVISOR UNEMPLOYMENT COMPENSATION COMMISSION HERE WEDNESDAY

Norman Nicholson of Wichita Falls, special representative of the Texas Unemployment Compensation Commission, was here Wednesday for the purpose of assisting employers to understand the two different taxes levied upon them by the National Social Security Act. Employers are confusing the two different taxes. One of these taxes was levied upon the employer and the employee jointly. The other tax was levied upon only the employer. The former was a tax for the purpose of old age benefits or insurance, the latter tax was for the purpose of unemployment compensation or insurance.

The Old Age Benefits tax was levied under Title 8 of the Act upon employers of one or more and upon their employees, and became effective Jan. 1, 1937. During 1937 it is a tax of 1 per cent levied on the employer and 1 per cent levied on the employee, making a total of 2 per cent due the Federal government. The State of Texas has nothing to do with the handling or administration of this tax. It remains at 1 per cent on both the employer and employee for a period of three years, each three years thereafter the tax raises .5 per cent higher on each. When the tax reaches 3 per cent it will remain at that amount unless, of course, it is changed by statute.

The tax return for both employer and employee is made each month by the employer. It is made on Federal Form 88-1 and sent to the Federal Collector of Internal Revenue. These forms can be secured from him if the employer has none. The tax for old age benefits is the tax which has made it necessary for employers to obtain Social Security numbers. The unemployment compensation tax was levied under Title 9 of the Act upon employers of 8 or more and became effective in 1936. During that year it was a levy of 1 per cent upon the employer only, but was not the same 1 per cent which was levied upon (Continued on Page Four)

ANNIVERSARY SERVICE FOR BOY SCOUTS

Special union religious services at the Methodist Church next Sunday night at 7 o'clock will begin the celebration of the twenty-sixth anniversary of the founding of Boy Scouts of America. The anniversary will be celebrated during the week beginning with Feb. 7.

The services Sunday night will include special music and a sermon delivered by Rev. John W. Tyndall, pastor of the First Christian Church.

A cordial invitation is extended to the public and to the fathers and mothers of all Boy Scouts to attend church Sunday night and also the demonstration which will be held at the Legion Hall the following Thursday evening at 7 o'clock. Members of the American Legion, sponsors of the Crowell Boy Scout troop, are especially invited to attend in a body.

Rev. Tyndall has recently been elected Scout Master of the Crowell Boy Scout troop. At the demonstration at the Legion Hall Thursday night, Feb. 11, the Boy Scouts will show the great advantages to be gained by the scouting movement. Each Scout, according to his rank, will show the public what a Scout does in times of emergency as in the case of fire, accidental injury, trailing, tracking, knot tying, signaling, campfire cooking, etc., according to announcement by the Scout Master, and he is especially anxious to have a large crowd present for both of these Boy Scout meetings.

Drive for Funds For Red Cross To Be Continued

Officials of the local chapter of the Red Cross announce that the drive for funds to be used by the National Chapter in flood relief will be continued for an indefinite period. Foard County's first quota was \$45. Up to date that amount has been trebled and has been sent to the National headquarters. Donations are now being received on the fourth amount of \$45 and it is expected to have this amount collected within a short time, according to announcement by George Self, local chairman. Anyone who desires to contribute any amount to this worthy work is urged to do so at once.

There have been 151 people donated \$25 to \$50, and local Red Cross officials appreciate the fine co-operation.

IMPORTANT CHANGES IN 1937 SOIL CONSERVATION PLAN ARE EXPLAINED BY COUNTY AGENT

State President

M. S. Henry, Crowell hardware and implement dealer for many years, was elected president of the Texas Hardware and Implement Association at its closing session of a three-day convention in Dallas last Thursday. Mr. Henry has been active in the work of the association for many years and served as vice president for the past year.

Other officers of the organization are A. P. Sharp, Troup, vice president; Dan Scoates, College Station, secretary-treasurer. New directors are H. P. Horsley, Dallas; H. W. Jones, Garland; J. D. Martin Jr., Bryan; Herman Taylor, Lufkin; W. C. Timberlake, Texarkana; T. P. Tucker, Beville; Clyde Tomlinson, Hillsboro; Lee Watson, Brownwood, and C. L. Caldwell, Seymour.

Book Review by Wichita Falls Woman Tomorrow

Tomorrow (Friday) at 3 o'clock is the time that "Gone With the Wind" will be reviewed for Crowell and Foard County people by Mrs. John W. Hampton of Wichita Falls.

"Gone With the Wind" is a book about the South, written as only a Southerner could write it. But its popularity has been as great in the North as in the South. The outstanding feature of the book is the fact that it tells a story. And what a story! Not a war book in the strict sense of the word, yet Miss Mitchell, the author, uses the Civil War as a lurid background against which her characters act out their dramatic stories. There is not a dull moment in the entire book; action is the keynote and drama is the theme song. The book is authentic in every sense. It might even be used for a reference book.

Mrs. Hampton is an outstanding book reviewer of the State.

ROTARY LUNCHEON

Eight visitors were present for the regular luncheon of the Crowell Rotary Club at O'Connell's Lunch Room Wednesday at noon. They were Carl Vestal and Frank Wendt, Rotarians of Quannah; Ray Nichols, Keith Berry and Fred Rennels, Rotarians of Vernon; J. H. Roberson, manager of the Lockett Gin at Rayland; Norman Nicholson of Wichita Falls, special representative of the Texas Unemployment Compensation Commission, supervisor of the North-west Texas District, and Rev. E. L. Yeats, pastor of the Crowell Methodist Church, who was the principal speaker on the program. Rev. John W. Tyndall was in charge of the program.

LIBRARY NEWS

There are four new books in the library this week: "The Girl Reporter," "The Iron Will," "Us Kids," and "Young Andy."

"The Girl Reporter" is a story of a millionaire's daughter who suddenly bereft of her father and his fortune, signs up as a reporter on a big city newspaper. She soon develops "a nose for news." The news world is not a peaceful one but as we experience it with Pat Prentiss we come to know it as a world of excitement and good natured banter, and above all, a world of the most human relationship.

A farmer's meeting was held Saturday afternoon in the district court room and John Nagy, county agent, explained the changes in the 1937 Soil Conservation plan.

The 1937 program is similar to that of 1936 with a few but very important changes, according to Mr. Nagy. There are still a few points to be cleared up before the program can go into effect. Following are the most important changes:

In 1936 a minimum acreage of diversion was required, that is, an acreage equivalent to 20 per cent of the cotton base. Unless this acreage was diverted the contract was not in compliance. Ruling of the 1937 program states that any number of acres diverted will be paid up to the maximum, which is 35 per cent of the cotton base and 15 per cent of the general base, provided each acre diverted is planted to a soil conserving crop. Payment will be made on one acre up to the maximum.

Should a farmer desire, he can establish a soil conserving base with the consent of the county committee, provided that he made a practice of planting soil conserving crops in normal years. One dollar per acre will be paid for each acre of the soil conserving base.

Another important point to this county is the fact that sorghum interplanted with legumes will not be considered one-half soil depleting and one-half soil conserving as it was last year. The entire acreage will be considered soil depleting and then one-half considered soil conserving. The only way this can be of benefit would be in a case where the need for home consumption exceeds the general crop base.

No payment will be made on soil conserving acres above the maximum diversion. That means that should the maximum diversion be 50 acres and 55 acres of wheat is turned under green, the soil conserving payment will be made only on the 50 acres.

Payments will be made the same as in 1936. Five cents per pound will be paid on cotton, but 90 per cent on general crops. Penalties for overplanting either base will be equal to the payment per acre of that base, instead of the 1 1/2 times the payment as it was the past year. The penalty for not planting a soil conserving crop on the diverted acreage will be \$3 per acre.

SHELTERBELT TREES READY FOR DELIVERY

Price of Trees \$1.50 Per Hundred; 16 Species

The Texas Forest Service and the Texas Agricultural Experiment Station, in co-operation with the U. S. Forest Service, are operating nurseries at the Lubbock and Chillicothe sub-stations for the production of forest tree planting stock to be used in the establishment of windbreaks, woodlots, grove and shelter plantings around farmsteads at approximate cost of production. Foard County farmers may get their supply of trees from either of these places.

The price of the trees is \$1.50 per hundred, at the nursery, and the purchaser must pay the freight. The species of trees that may be obtained are Chinese elm, honey locust, Osage orange, desert willow, tamarix, hackberry, chaste tree, black walnut, green ash, mulberry, Kentucky coffee, ailanthus and red bud.

Application blanks may be obtained at the office of Miss Myrna Holman, county home demonstration agent, in the court house. These blanks must be filled out and mailed to the substation in Lubbock before March 25 and the shipment is made at the applicant's risk after delivery to forwarding company.

The minimum order will be 100 trees, but with orders of 100 or more as few as 25 of any one species may be requested. Orders for each species must be in multiples of 25.

The owner of the land or his representative must sign an application blank as it is necessary to have a record of trees planted so that examinations of the plantings may be made from time to time. After the application is received at Lubbock the person ordering trees will be advised how and when they will be shipped. In signing the application, the (Continued on Last Page)

Items from Neighboring Communities

BLACK
(Mrs. Clint Simmons)

Ralph Hunter of Abilene visited friends in this community Sunday. Annie May Hall spent the weekend with her friend, Miss Mary Wanda Lewis, of Vivian.

Mr. and Mrs. Ralph McCoy are the proud parents of a baby girl, Willie Lee, born Jan. 28. They are in the Crowell hospital.

Roy Huckabee of Lorenzo spent the weekend with friends and relatives here.

Mrs. Jesse Adams and children, Perry, Coy, Mary Lou, and Jamell, of Altus, Okla., visited in the home of D. D. Adams and family Sunday.

Jim Simmons and family of Amherst are visiting relatives at Crowell, Thalia, Quannah and Medicine Mound.

Mr. and Mrs. B. F. Whatley of Thalia spent last week with their daughter, Mrs. Sherman Nicols. They returned to the home of their son, Herman Whatley, and family of Thalia Sunday.

Mrs. D. D. Adams entertained the young folks with a party Saturday night.

W. D. Stubblefield is visiting his children, Mrs. D. C. Hill and Mrs. T. C. Trammell, of Aspermont, and Cecil Smith and C. W. Stubblefield of O'Donnell.

Wilson Trammell of Medicine Mound spent Saturday night with his cousin, Horace Trammell.

Street Simmons and Bernice Brown of Medicine Mound visited in this community Saturday night.

L. T. Bowen and family of Thalia spent Sunday with Clint Simmons and family.

Several young folks from Crowell and Gambierville attended the party at Mrs. D. D. Adams'.

C. D. Hall and family spent Sunday with their daughter, Mrs. C. M. Carroll, of Gambierville. Mr. and Mrs. Carroll are the proud parents of a baby girl, Neta June, born Saturday, Jan. 30.

Miss Gertrude Simmons returned home last week from Amherst where she has been visiting her brother, Jim Simmons, the past week.

Mr. and Mrs. W. C. Trammell and son, Horace, and Wilson Trammell of Medicine Mound spent Sunday with Riley Trammell and family of near Four Corners.

Rev. C. A. Powell and wife of Abilene spent Sunday in the home of D. D. Adams and family.

Jewell Mullins of Thalia spent Saturday night with her parents, Mr. and Mrs. C. D. Mullins, of Miss Lois Thompson of Dallas is

FOARD CITY

(By Mrs. George Canup)

Dexter and Jerome Bevers of near Paducah are at the bedside of their mother, Mrs. Ross Bevers, who is ill. Her sister, Mrs. Charlie Shaum, of Las Vegas, N. M., is also here.

The W. M. S. met with Mrs. O. N. Baker, Monday. The president, Mrs. Virgil Johnson, brought the devotional. Seven members and one visitor, Mrs. Charlie Blevins, were present. Next meeting will be with Mrs. J. M. Barker.

Marshall and Polly Johnson entertained with a party Wednesday night.

A large crowd attended quarterly conference here last Sunday. Rev. Cal. C. Wright, presiding elder of Vernon, preached at 11 o'clock. Dinner was spread at the noon hour with a business meeting in the afternoon.

We are glad to report that M. L. Owens, who is in the hospital at Muskogee, Okla., is doing nicely.

Mr. and Mrs. R. L. Morris and daughter, Doris Lee, spent Wednesday with Mr. and Mrs. R. N. Barker of Crowell.

Hazel Canup spent Tuesday night with Ora May Owens of Crowell.

Lillie Maye Everson of Seymour is visiting in the home of E. Everson this week.

O. B. and Norman Dollar of Hobbs, N. M., were here a few days last week. They brought Billy Bell to his grandparents, Mr. and Mrs. J. H. McDaniel, where he will remain for some time.

Wayne Canup was absent from school Thursday on account of being ill.

Rev. and Mrs. George Tyson of Truscott visited in the home of Mr. and Mrs. Ross Bevers Monday evening.

Nina Covington returned home from Paducah this week where she has been visiting her sister, Mrs. Ike Sellers, and family for several weeks.

Mrs. Blake McDaniel visited her parents, Mr. and Mrs. C. W. Beidleman, of Thalia a few days last week.

Mr. and Mrs. E. R. Roland returned home Friday from Muskogee, Okla., where Mr. Roland had been taking medical treatment.

Mrs. F. R. Lefevre and daughter, Lavoyce, entertained with a party Friday night. After games and contests were played, refreshments were served by Mrs. Lefevre and Mrs. Percy Stone to a large number.

Miss Ludie Bowley visited her father and sister at Crowell over the week-end.

Harold Lynn Canup spent Saturday night with his sister, Mrs. R. N. Barker, of Crowell.

S. E. Breedlove and Earnestine Reed of Denton spent last week with Mrs. K. S. Reed.

A basketball game was played here Friday evening between the main team and some of the boys in the community.

The P. T. A. will meet in regular session the second Thursday night in this month. A program will be given and everybody is invited to come. A special song will be rendered by Charlie Blevins.

Mrs. Jess Autry returned home Friday from Gainesville where she had been at the bedside of her sister who is ill.

Rev. H. H. Henry of Crowell will preach here Sunday at 11 o'clock. Sunday School starts promptly at 10 o'clock. E. V. Halbert, Supt. Everybody is invited to come.

Mr. and Mrs. Weldon Owens of Lockett spent Sunday with Mrs. M. L. Owens.

Fate McDougle visited his mother, Mrs. F. R. Lefevre, over the week-end. He is working for Elmo Todd of Truscott.

QUESTIONS AND ANSWERS

1. What is the name of the boy who was recently kidnapped near Tacoma, Wash.?
2. What business does his father follow?
3. What well known Communist, after having been denied admission in other countries, was admitted to Mexico?
4. What two football teams met in the annual Rose Bowl game in Pasadena, Calif.?
5. What state has a one house legislature?
6. What well known American recently offered his private art collection, valued from nine to fifty million, to the United States?
7. What is the name of the president of Wisconsin State University recently ousted?
8. What is the number of the present Congress?
9. What is the name of the eccentric wealthy prospector said to have a fabulously rich gold mine who built a castle in the desert in southeastern California?
10. What motion picture actor or actress was credited with drawing the highest box office receipts for 1935?

(Answers on Page 3.)

Congressman W. D. McFarlane

The Relief Bill—
The \$899,717,318 deficiency bill, carrying \$790,000,000 in relief funds passed the House Tuesday. All of the \$790,000,000 if necessary, can be made available by the President to relieve flood sufferers, although the original plan called for carrying on relief work activities, mainly under the WPA program through June. The bill carries \$95,000,000 for Civilian Conservation work. Among other things this bill provides for the following: \$650,000,000 for WPA relief work, \$80,000,000 for Resettlement Administration work, \$10,000,000 for other Departmental activities and \$15,000,000 for administrative expenses.

Farm Tenant Legislation—
Hearings were begun before the House Agriculture Committee this week, on the \$500,000,000 farm tenant aid bill. This bill has for its purpose the creation of a Farmers' Home Corporation, an independent agency, which would buy and sell lands, under a \$50,000,000 annual appropriation from the Treasury, during the next ten years to tenants on easy terms and at low interest rates.

Civil Service Legislation—
The Post Office Civil Service bill passed the House last Thursday. This bill places all postmasters of first, second and third class offices under civil service. This legislation, if approved by the Senate will put into law with some modifications the executive order issued by the President last July. The incumbent postmasters would be permitted to serve out their regular four year terms, after which they may be appointed without terms, after passing a non-competitive examination. If the Postmaster General does not re-name the incumbent, he may permit an employee in the same post office to be promoted or may call upon the Civil Service Commission to hold an open competitive examination to establish an eligible list from which the appointment may be made.

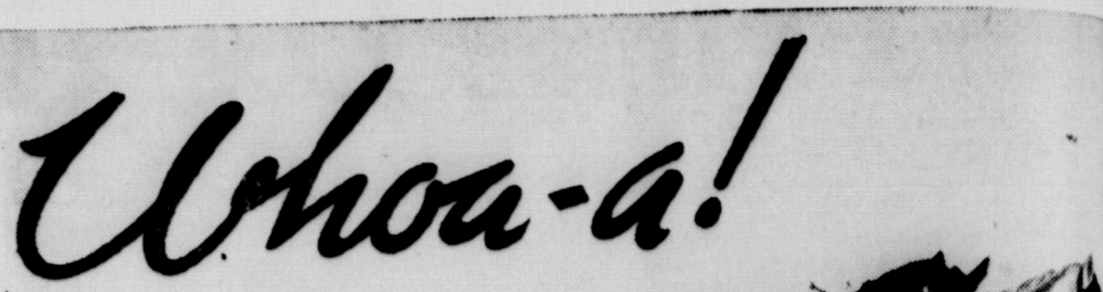

Crop Loan—
The Emergency crop loan bill creating a \$50,000,000 fund to make loans up to \$400 to destitute farmers, was signed by the President Friday. These loans to farmers are to be made at 4 per cent interest, secured by liens on their crops.

Power Pooling Conference Discontinued—
Last Wednesday the President cancelled further negotiations with the 19 private power companies who began negotiations with him last September, with the purpose in mind of pooling private power with the TVA and other public power projects. The President's letter to these different power companies in part said: "Since the conference of September 30, a sweeping preliminary injunction has been issued against the Tennessee Valley Authority upon the application of 19 utility companies, including certain companies who were parties to the conference. The securing of an injunction of this broad character, under the circumstances, precludes a joint transmission facility arrangement and makes it advisable to discontinue these conferences."

The House has organized a Power bloc of 171 members to continue the fight for lower power rates. Senators Norris, Bose, Black and others last week severely criticized the Power Trust officials for their shopping methods among Federal District Judges in the bringing of injunction suits to restrain the construction of public power projects. The writer and others have legislation pending of Federal District Courts, and it is believed that this Congress will enact some such legislation, limiting the Power of said Courts.

Calendar—
The tentative program of the House of Representatives for the week beginning Monday, February 28, is as follows: Monday, Unanimous Consent Calendar and Independent Offices' Bill; Tuesday, Private Calendar and Independent Offices' Bill; Wednesday, Independent Offices' Bill; Thursday and Friday, Reciprocal Trade Agreement Tariff Act, H. J. Res. 196.

IN A VELVET GOWN
It is a far cry from the Arabs at El Fustate near Cairo to the looms of velvet on this continent, says the Montreal Herald. More than 2,000 years have elapsed since our earliest records of velvets among the Persians and East Indians. From the Arabs the art of velvet weaving went to the Spaniards, then to Sicily, and, in the sixteenth century, into France where it developed under the skill of the most creative and intelligent of craftsmen and artists. From hand-loom to power-loom, to meet the volume of demand, the process of weaving has gone on. Velvet is woven in two pieces at a time—face to face and cut with a knife afterward, leaving a straight erect pile—the test of all pile velvets. First, heavy thick velvets were made, later finer types of velvets known as Lyonnes, then chiffon velvets ad after that the sanderizing, draping material known as transparent velvet.

Phillips 66
for **Instant Starting**

Don't wait until you actually have starting trouble. Do something about it... now. Get a trial tankful of Phillips 66 Poly Gas and find out how this outstanding winter gasoline ends, at once and for all, the nuisance and damage of slow, hard starting.

Because it is higher test, it kicks cold motors into instant action. Cuts down the need for money-wasting use of the choke. Warms your engine up fast.

Because it is enriched with extra energy units by the patented POLYmerization process, it puts extra pep into every cylinder.

Der. Gives more flexible, more lively response to the throttle. Delivers more miles per gallon than you ever thought possible.

The colder the weather, the higher the test of Phillips 66 Poly Gas—which is always 100% custom-tailored to your climate. Yet it costs no more than ordinary low test motor fuels because Phillips is the WORLD'S LARGEST PRODUCER OF NATURAL HIGH TEST GASOLINE.

Look for the Orange and Black 66 Shield. When you see it, drive in... fill up... pull out... and step on it! You will certainly feel that difference.

INTERESTING NEWS OF PICTURES AND PLAYERS

Tobacco Road, a play adapted from a novel by Erskine Caldwell, is entering upon its fourth year run in New York. With the exception of Abies Irish Rose it has had the longest continuous run of any American play. Tobacco Road depicts the life of the poor white trash of the south. Its success perhaps is due to the fact that the life it attempts to portray is presented exactly as it exists in the south. When the play was first presented, critics condemned it and in many cities it was prohibited being shown. It has already netted its producers \$1,500,000.

Sonja Henie, pronounced Sunya Henie, world's champion ice skater and athlete, recently made her debut in moving pictures in "One in a Million." She is the first professional athlete to become a convincing motion picture actress. Her voice resembles that of Greta Garbo. Her golden hair and her unsurpassed skating ability come from her Norwegian ancestry. She is accompanied on all her trips by her father, Wilhelm Henie. She is five feet two inches tall and though she eats freely of cake, candy and ice cream, because of her constant vigorous physical exercise, she experiences no difficulty in holding her weight level. Sonja Henie won the world's ice skater championship at the age of 14 and has been champion ever since. In 1935 she took her third Olympic championship. Darryl Zanuck production men for the 20th Century Fox saw Sonja Henie skate at the Polar Ice Palace and at once secured her name upon a contract offering her \$100,000 for one picture. The picture "One in a Million" cost \$1,243,000 to produce.

Ostrich Is Pampered
The most highly pampered farm animal in the world is the ostrich, owing to the sensitivity of its growing feathers. Of the numerous conditions that mar them and lessen their value, says Collier's Weekly, none is more incredible than the normal fluctuation of the blood pressure of the bird each day and night. This slight change is often "recorded" on the plumes in alternating densities.

Highest City in Europe
The highest city in Europe is Saint Gallen, Switzerland, with an elevation of 2,196 feet above sea level.

Still Coughing?
No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Know Texas

Denton, Feb. 28.—"Flood Waters Continue to Rise," "Millions in Property Loss," "Death Toll Mounts"—these were among the headlines of the past few days, bringing the nation face to face with the serious problem of flood control. To no small degree is the future economic and civic program of Texas and the nation dependent upon a solution of this problem.

The chief difficulty in the past has been lack of a co-ordinated program. However, in recent years rapid progress has been made toward a co-ordinated water conservation plan which would consider each river basin as a single problem, and endeavor to achieve the ends of flood control, irrigation, municipal supply, and power in a single program.

The Brazos River Conservation and Reclamation District, which plans to control the waters of the basin through 13 or 14 dams along the middle course of the river and its tributaries, is the outstanding example of co-operative effort in the conservation program of the state. The Brazos, throughout its history, has presented a greater flood control problem than any other river in Texas. This is due both to the density of population in its bottoms and to the physical character of the drainage basin.

The rainfall in the Brazos basin, while averaging only about 25 inches a year, is frequently heavy, rapidly swelling the flow of water in the streams. Rising at over 4,000 feet, the descent of the Brazos channel is relatively rapid until it breaks into the plain of the Grand Prairie and blackland belt about the lower limit of Somervell County. The rapid descent of flood water from the upper reaches into the slow-moving stream of the coastal belt has created disastrous floods.

At present the largest proposed project in Texas is in the Red River basin at Denison dam. The

project is a part of the Mississippi River development and flood control program, and will also be for power, navigation, and municipal supply.

RIVERSIDE

(By Bonnie Schroeder)

Bob Simmonds has returned home from Oklahoma City where he had been confined to a hospital following an operation.

The Riverside P. T. A. sponsored a pie supper and program in the school auditorium Friday night. The program consisted of playlets and recitations by pupils of the first four grades of the school. A vocal duet, Frances Tamplin and Bessie Short, rendered two numbers, "Indian Love Song" and "The World is Waiting for the Sunrise." Elizabeth Whitten won in the contest for the most popular girl. A total of \$15.55 was received by the P. T. A. from the contest and pies which were auctioned off by A. Y. Beverly of Crowell.

Out-of-the-community visitors present for the program and pie supper Friday night included Charlie Blevins and family of Foard City, Mr. and Mrs. A. Y. Beverly and son, Joe Wallace, A. Y. Olds and Miss Minnie Ringgold of Crowell and Mrs. S. C. Starr and son, J. M., of Vernon.

Mr. and Mrs. R. F. Derrington and son moved Tuesday from Thalia to their farm here.

Pete Gobin and family moved Wednesday from Five-in-One to the E. M. Key farm here.

Mr. and Mrs. Fletcher Ramsey and daughter, Edith, returned home Wednesday from Dallas where Edith submitted to a brain

She has been visiting in the homes of her daughters, Mrs. Jack Brown and Mrs. Harris Harwell. Services were held at the Baptist Church Sunday. The sermon was delivered by Rev. N. R. Barry. J. L. Bates Jr., who is attending school in Quannah, visited with friends and relatives here over the week-end. Mr. and Mrs. Preston Henry and daughters, Julia and Barbara, visited her mother, Mrs. Hommitt, of DeLeon several days this week. John Bill Jones has been visiting his parents at Ballinger. Mrs. Clifford Ohr returned Tues-

NOBODY'S BUSINESS BY JULIAN CAPERS JR.

Austin.—Setting down to serious business for the first time the legislature this week attacked the ever-present tax-raising problem by plunging its taxation and revenue committee into a full schedule of hearings on taxation bills. Headed by Alf Roark, the committee of 21 members—by far the most influential in the house—includes a heavy majority of youthful members, many first-termers, and no representative from Houston or Dallas, largest tax-paying communities in Texas. It is described as being overwhelmingly friendly to Governor Allred, and favorable to many of his tax recommendations.

Revenue Sources

Scheduled for early hearings were three groups of bills, representing the most probable sources of whatever additional revenue the 45th legislature will raise. First on the list is the franchise tax measure by Herman Jones of Wise County. Theoretically, this bill is a tax on corporations for the right to do business in Texas. Actually, it is a combined tax on corporate income and property. It levies a 5 per cent tax on the net income of corporations, or, alternately, a tax of one-tenth of one per cent of the gross assets, whichever yields the greater sum. This is the application of the tax principle which Gov. Allred recommended in his first message, which he supported with glaring examples of how some large corporations are doing business in Texas at negligible cost for the privilege. Opponents claim the corporations, particularly some 15,000 small ones in Texas, cannot stand the tax, in view of the recent heavy levies by the federal government for social security purposes. Many protests already have been received from owners of both large and small incorporated businesses by legislators, and in the original bill will be slashed considerably if it is finally passed. It is regarded as likely the rates Jones estimates his bill will raise \$12,000,000, and lobbyists estimates range upward to \$20,000,000.

Natural Resources

Next most probable source of revenue is a series of bills increasing taxes on oil, sulphur and natural gas. Ten cents a barrel on oil, instead of the present 2 1/2 cents (or 2 1/2 per cent on oil over \$1 a barrel), and \$2 a ton, instead of the present \$1.05 on sulphur, are the maximum rates proposed. Few believe the oil levy will be hiked to anything like the 10-cent figure. Already, higher oil tax proposals have evoked acrimonious debate in the senate, with Holbrook and Davis reading the campaign speeches of Gov. Allred, made last summer, in which he declared for no new taxes, and on-

day from Ballinger where she had been visiting. Mr. and Mrs. Jack Brown and children visited in Wichita Falls Saturday. Miss Neva Mills has been absent from school this week because of illness. Marcella Stevenson entertained several friends in her home Saturday night. Gordon Acker and Clarence Woodward made a business trip to Fort Worth this week. The Truscott Juniors are now working on their play, "Fingerprints," which will be presented at the Truscott High School auditorium soon. The purpose of the play is to raise money for the Junior-Senior banquet. Mrs. Gordon Acker visited with her sister, Mrs. Finley, of Knox City, Saturday afternoon while Mrs. Preston Henry and Miss Ethel Mae Chilcoat attended to business there and at Munday. E. G. Campsey, who has been ill for some time, is reported some better at the present. The Truscott basketball boys played a winning game against Seymour at Munday Friday night. Jack Traweek, who has been working in the Davis Mountains, has returned home. J. W. McDanel of Foard City visited his sister, Mrs. Ozlie Turner, on his way home from Abilene where he had been attending business college. E. P. Storm made a business trip to Dallas this week. Mr. and Mrs. H. A. Smith made a business trip to Wichita Falls Saturday. Mrs. S. B. Maddox has been visiting an old friend, Mrs. W. R. Sagar, of Chillicothe this week. Bill Campbell visited his family at DeLeon this past week. Blackie Johnson has been visiting in Cisco the past week. E. D. Griffin visited friends and relatives in Maytown last week. The Truscott basketball boys won a trophy in the invitation tournament which was held at Knox City the 15th and 16th. Mr. and Mrs. Jack Bullion were called to the bedside of his father at Seymour, who was seriously ill. Misses Oleta and Sarah Ruth Aldridge have been absent from school the past week because of illness. Mr. and Mrs. Steve Mills and daughter visited friends and relatives at Crowell Sunday. Henry Williams of Gilliland attended business here last week. Miss Marguerite Westbrook visited her cousin, Miss Peggy Jo Haynie of Munday last week-end.

ly "reasonable" increase in the oil tax.

Income and Sales Taxes

The third group—and the one least likely of adoption in any form—includes Petch's bill for a 2-cent sales tax, with the proceeds going to pay a \$15 pension to everybody over 65; and a state income tax bill, modeled after the federal measure, and beginning at one per cent for the first \$1,000 of income, and increasing to seven per cent on all over \$11,000.

Senate Balance-Wheel

The house, with its 73 new members and its extreme youth, appears likely to accept the additional demands of Gov. Allred at or near face value, and act accordingly, at this early stage. But the long three-months grind may develop a rift in the apparently happy line-up, particularly when a show-down comes on the pension question. On two preliminary votes that may be regarded as tests, the house has demonstrated a determination to liberalize pensions, and the governor has already warned that he will veto such legislation. Toward that situation, those who hope to keep down taxes look hopefully. But they are placing more reliance on the conservatism of the senate. Oil, sulphur and corporation representatives are expecting some tax increases, but they expect the senate to pare down to rates substantially from the house proposals.

Sentiment Changing?

Some observers here also profess to see among the people of the state, too, a growing sentiment to cease emergency expenditure of tax money, and get the state government back on a normal basis. Echoing this sentiment is a recent editorial in a representative small-town newspaper, written by H. D. Maister of the Yoakum Herald. He says he is "going to oppose any candidate for office, or for re-election to office, who gives his support to measures that will in any wise materially increase taxes or governmental expenses. It is up to the people of Texas to demand retrenchment and if they get together and take a firm stand along this line they will get it. Otherwise, the orgy of spending will continue until such time as it will be impossible for anyone to remain in business or give employment to anyone. Now is the time for the voter to get in touch with his member in the legislature and express his demands for less spending."

Brief Bits of News From Here and There

Psychologists claim that whatever one's fears are they are learned and never instinctive. Instinctively one does not fear the dark, the storm, dogs or other animals. All our fears are learned or acquired. According to psychologists 75 per cent of all fears have their origin in the conduct of parents toward the child. Only two fears of humans are natural or in-born: the fear of a sudden loud noise; the fear of falling when physical support is withdrawn or fails. It is estimated by scientists that the dinosaurs inhabited the earth in large numbers 100,000,000 years ago and existed for about 140,000,000 years. Some 60,000,000 years ago they disappeared from the earth due, perhaps, to climatic changes which made it impossible for them to exist. Man it is suggested, did not appear on earth until 50,000,000 years after the dinosaurs disappeared. The dinosaurs inhabited the lakes and rivers and ate only vegetable matter. They attained a length of sixty or seventy feet and a height of fifteen feet. A skeleton of one of these was recently dug up near Medicine Bow, Wyoming, at a cost of \$30,000. The brain cavity shows that these great creatures had a brain weighing approximately four ounces. Bob Feller, sensational school boy pitcher of Iowa, was signed up by the Cleveland team recently for the coming year at a salary of \$10,000 a year, said to be the highest salary ever paid a beginning pitcher by any team. Feller broke the American League record for strike outs in one game last year.

Crowell, Texas, February 4, 1937

Create in me a clean heart, O Lord, and renew a right spirit within me.—Psalm 51:10.

WATCHWORD, SAFETY

"Those of us whose incomes are derived entirely from our own earnings would have little chance of leaving what is even a modest estate were it not for the various forms of savings," says the Boston Traveler.

"The forms are several and good. Particularly useful is life insurance. Safely the insurance companies rose out of the worst depression the world has ever known. Never could this brilliant performance have been possible were it not for the care exercised in the investments made by the great companies."

As the president of a large life insurance company recently said, the thought continuously in the mind of insurance officials is the certain fulfillment of the contract with the policyholder. Safety is the eternal watchword.

Loose stock on a paved highway are dangerous and a violation of the law that should not be permitted even if it takes drastic action to stop the practice.

Give a small man money and it makes him smaller. Give a big man money and it makes him still bigger.

NOTICE

The Modern Beauty Shoppe will be open again Monday morning, Feb. 8, after being closed for the past two weeks, due to the illness of its operator.

TREVA SPEARS

HANDWRITING ON THE WALL

Unless labor unions and employers exercise self-restraint over their respective powers, and recognize the rights of the public, the government will step in and take control, Dr. Robert L. Sutherland of Bucknell University, declared recently when speaking on the long drawn out Pacific Coast ship strike and the automobile strike in the East.

Dr. Sutherland said it was "only a matter of time until any group using power without responsibility will be checked," and pointed out that as a general rule this country never curbed power until it was abused.

When any group of leaders, no matter who, deliberately plan to win their point at all costs, regardless of suffering of workmen or the public, it is time to break their grip—that is what government is for, to protect all the people.

If the day arrives when our government can be controlled by either labor or industrial dictators, to the detriment of the people, fascism or communism will have swallowed democracy, individual rights will be wiped out and labor will become a form of slavery.

NEW NATIONAL LANDMARK

Commenting on the world's greatest bridge that stretches for eight miles between San Francisco and Oakland, George D. Smith, manager of the Mark Hopkins Hotel, which stands on San Francisco's famous old Nob Hill, overlooking the bay and pioneer landmarks, says:

"The \$70,000,000 bridge is one of man's greatest achievements for public convenience. It is a fitting testimonial that there is no failure in the vision of a people who are carrying on the traditions of enlightened progress which the pioneers of '49' left for them to follow."

A sloppy, careless, indifferent workman will never succeed at anything. One of the first elements necessary to success in any line is thoroughness and a regard for detail.

The secret of financial independence in the majority of instances is hard work, self denial and the ability to say no at the right time.

Fur Traders Shipped Pecans

Fur traders in the 1760s first introduced pecans into commerce, shipping some to New York with beaver skins.

Somebody Said

Purloined Pointed Paragraphs

A hick town is a place where a fender retains its virgin shape for at least a month.

Our boss says he just plays gold for the fun of it. Our game isn't very good either.

The man who makes every minute count often becomes the man of the hour.

Sometimes you need more than appearance to lubricate the wheels of business.

The surest way to be happy is to get so busy that you have no time to be unhappy.

Play fair, be square, and you will find more sport in living and less fear of dying.

A fool will tell you where to get off, while a wise man will help you get back on.

It's a wise worm that stays under cover and deprives the early bird of his breakfast.

Bad ink is better than the best memory.

A wishbone is N. G. without a backbone.

Selling the boss isn't selling the prospect.

Get what you go after—it breeds respect.

Forethought often prevents afterthought.

Concede a little and you often gain much.

If the outlook seems black, try the uplook.

Optimism is life—pessimism, slow suicide.

He who laughs last is usually the dumbest.

Many a self-made man quit work too soon.

WHAT WE THINK

(By Frank Dixon)

I was in a restaurant yesterday morning and a young woman came in to get her breakfast. I almost swallowed a half a doughnut when she ordered raisin pie. I suppose as a matter of fact raisin pie is as good for breakfast as it is for any other meal but this was the first time I had ever seen it eaten for breakfast.

If a big husky man had ordered pie for breakfast it would have seemed strange enough, but when a spindling ninety-eight pound girl called for a slab of raisin pie for breakfast it sounded unusual. When I was a boy I could eat pie three times a day and between meals too, but I never got it for breakfast.

When you deal with an honest man you seldom need a lawyer and when you deal with a crook, often even a good lawyer can't save you.

One of the women's clubs in my town is in difficulty. One of the members it seems is a tale bearer, that is, she tells things that are told at club after school, or after the party breaks up.

If a remark is made about some one not a member of the club, she looks the party up the next day and tells her that Mrs. Jones said this and so about her. She has stirred up several good sized rows and the club isn't nearly so popular as it used to be.

I've heard it said that no man can look another in the eye and lie to him.

I never believed that. As a matter of fact the best liar I ever knew could look a man straight in the eye and lie like a race horse.

Many people would believe him and doubt a more self-conscious, though more honest, man because he didn't have the face, or the insides to lie or whatever it takes to be a proficient liar.

The moral to that story is, if you are going to be crooked you must be brazen about it if you expect to get away with it.

Many a dull meeting is saved by a good toastmaster.

The best way to get even with people who have offended you, or who have been little and mean, is to forget them. That is the one language persons of that kind are not able to understand.

Out in my part of the country we have no child labor problem. Most of the boys work but it is out of door helpful farm work that is a benefit to them. The child labor law should be so framed that it will not disturb this situation.

I think it would do every boy good to spend his summers on a farm doing farm work until he reached the age of twenty. He would be a healthier and better man for it—and the same is true of girls.

How Paint Solidifies

The way in which a painted surface becomes converted from a liquid to a solid state is due to the fusion of each particle of resin and oil combining with not less than three other particles or molecules.

Juniors Wallop Five-in-One 23-14 In Game Wed.

The Crowell Juniors battled the Five-in-One Juniors to a standstill and took a 23 to 14 victory from them Wednesday night in the Crowell gym.

The Kittens proved that they will develop into good Wildcat basketball material by the time they are old enough to try for the team.

The Juniors were leading 9 to 4 at the half and after they stopped shooting at the wrong goal at the beginning of the third period, they settled down and widened their margin over the visiting Juniors.

Even though the fray was fast and furious, no one fouled out and Dunn, Crowell Kitten, was the only player that had three fouls.

Curtis, lanky Crowell center, was high point man with 10 points, missing only two shots at the basket. Dunn, Smith and Tole, Five-in-One guards, tied for second with 6 points each.

Box score for Juniors vs Five-in-One game. Includes players like Smith, Andrews, Curtis, Whitfield, Dunn, Magee, Brown, Hollingsworth, Williams, Potts, and Totals.

Box score for Five-in-One vs Five-in-One game. Includes players like Huskey, Neel, Tole, Haney, Boman, and Totals.

CROWELL DUMPS FIVE-IN-ONE IN PRACTICE GAME

Non-Conference Game With Scoring Honors Divided

The Crowell High School Wildcats defeated the Five-in-One quintet in a non-conference game at the local gymnasium Wednesday night, 50 to 23.

Seymour was scheduled to play here, but due to the fact that their gymnasium was not completed Crowell could not return the game, so both games were cancelled and the Five-in-One team filled in with a return game.

The game was fast and rough and scores were frequent. Although no one fouled out of the fray, every player, except a Five-in-One substitute, had at least one foul and four Wildcats had three and two of the visitors were credited with three fouls. There were 25 fouls committed.

The Wildcats took the lead in the first minute of play but were leading by only one point at the end of the first period, 7 to 6. The Cats' sharpshooters settled down and rang up 13 points to hold the lead 20-12 at the half-way whistle and they continued to hit the basket and had the Wilbayer cagers 34 to 20 at the end of the third quarter. The Wildcats ran their score up to the highest they have turned in this season, to send the Five-in-One boys home with the little end of a 50-26 score.

The Wildcats held the advantage of making field goals and free tosses, sinking 22 two-point counters and 6 out of 12 gratis shots, while the visitors hit the basket 8 times with field goals and made 16 out of 22 free shots count. There were 30 field goals and 34 gratis tosses.

The high scoring honors were evenly divided between four players, although Middlebrook barely placed first with 14 points and B. Burelsmith and Kelsey were very close seconds with 13 points each. Cotton Owens rang up 12 tallies to crowd both the first and second men.

Orr, replacing McLain at forward, who is absent from the lineup on account of illness, turned in an all-around good game and was credited with 9 of Crowell's scores, and Nelson played a brilliant defensive game. Benham and Fitzgerald also saw service.

Box score for Crowell vs Five-in-One game. Includes players like Orr, Kelsey, Middlebrook, Owens, Nelson, Benham, Fitzgerald, and Totals.

Box score for Five-in-One vs Five-in-One game. Includes players like Abston, B. Burel's, M. Burel's, R. Burel's, O. Burel's, Shultz, and Totals.

CROWELL WINS OVER WICHITA FALLS, 36 TO 19

"Big 5" Race Narrows To Quannah and Crowell

The Crowell Wildcats tightened their hold on the second position in the "Big 5" conference by walloping the Wichita Falls Coyotes 26 to 19 at Wichita Falls Tuesday night.

The Wildcats will have to defeat the Quannah Indians when they meet in the local gymnasium next Thursday night, Feb. 12, to tie for first place in the conference, unless the Vernon Lions upset the dope and give the Foard County lads a trimming. The Vernon game is the only conference match that the Wildcats will play before meeting Quannah. The Quannah cagers defeated the Vernon Lions Wednesday night to keep ahead of the Wildcats by a few points.

Kelsey, forward, paced the Wildcats and Middlebrook was a close second, both receiving plenty of help from Owens and Nelson. Although Orr played only a half he turned in 6 points and Fitzgerald played well at his defensive post.

McLain and Whitfield, regular forward and guard, were absent from the lineup on account of illness and the substitutes capably filled their shoes.

Crowell got off to a slow start and the half first ended 6-6 with the Wildcats trailing throughout most of the period, but the Cats' sharpshooters found their range and hit the hoop for 10 points to end the first half 16 and 8.

The third quarter went to the Coyotes as they scored one point more than the Wildcats but the Crowell boys came back in the fourth quarter and took command of the game. A fresh team was sent in to stop the scoring spree that the Wildcats were on and at the time the new team took over the play for the Wichita Cagers the Wildcats were leading 32-19 and with

only two minutes left to play the Cats sank two field goals. Only one free toss was made during the game and Wichita made that.

Maurice Levell was the outstanding player for the Coyotes and tallied four times to score 8 points to take scoring honors for the Wichita quintet.

Box score for Crowell vs Wichita Falls game. Includes players like Nelson, Kelsey, Middlebrook, Owens, Fitzgerald, Orr, and Totals.

Box score for Wichita Falls vs Wichita Falls game. Includes players like Reeves, Monaghan, Thompson, Jantz, Levell, Hanna, Holloway, Swanner, Scott, Eichler, Damerall, and Totals.

Score by quarters: Crowell 5 10 6 14-36, Wichita F. 6 2 7 4-19

Many Types of Iguanas

There are at least 400 types of Iguanas, scattered through the West Indies, Central and South America. The circus chameleon, which can turn green, brown or gray, is said to belong to this big family. Another odd type is a lizard which can run on water, his hind feet only. The lizard raises his body and tail and his forelegs while performing a unique stunt. There are land and water types of iguanas multiple sizes and shapes. Locally all branches of the tree are confined to southern part of the New World.

AMERICA'S MAGIC CAR

That's what people call it, the original and still favorite national news magazine. For, as one reader writes, "you all around the world in an hour each week." Mrs. M. O'Connell returned Saturday from Willow, Okla., after a visit with her brother, Walter Ross, who is ill. She was accompanied to Crowell by Mr. O'Connell's brother, Will O'Connell, and Miss Ruth Malone, who returned to her home in the Margaret community after a three weeks' visit in Willow.

Mrs. Joe Roberts and small daughter, Joan, are visiting Mr. Roberts' parents, Mr. and Mrs. N. J. Roberts, this week. Mr. Roberts, party chief of the State Highway Planning Survey who has been working in South Texas, was here for a short visit. He went to Dalhart the first of the week accompanied by J. M. Risinger.

From 1885 to 1937, Texas has produced, in recovered metals, 6,160 ounces of gold, 26,012,507 ounces of silver, 1,418,960 pounds of copper, 6,592,126 pounds of lead and 1,488,474 pounds of zinc, according to statistics compiled by the Texas Planning Board.

Tapestry Weaving in Ireland Tapestry weaving began to thrive in Ireland towards the end of the Seventeenth century.

A photograph of Miss Catriona Louise MacLean, of Ardour, Scotland, seventeen-year-old claimant to the chieftaincy of the clan MacLean of Ardour. Her claim is opposed by Lieut. Commander Henry MacLean, of Bursledon, Hampshire, who appealed in the Edinburgh court of session against the decision of Sir Francis Grant, the Lord Lyon King of Arms that he has authority to deal with Miss MacLean's claim. If successful the girl will be the first woman chieftain of a Scotch clan in many centuries.

Musical Comedies Featured at Rialto Theatre Next Week

Four musicales are featured at the Rialto Theatre during the next week.

Cinema fans will have their last chance to see Bing Crosby in "Pennies From Heaven" tonight. Bing sings "Pennies From Heaven" and several other popular songs. Madge Evans, Edith Fellows and Donald Meek head the supporting cast.

William Boyd and Jimmy Ellison brings to the Crowell screen another one of those enjoyable westerns, "Hop-A-Long Cassidy Returns," Friday night and at the Saturday matinee.

Claire Trevor, Jane Darwell and Arline Judge are featured in "A Star For A Night," which shows Saturday night from 7 to 11 o'clock only.

The right amount of love interest by Eleanor Powell and James Stewart with the singing of Frances Lankford and dancing of Buddy Ebsen and the comedy of Sid Silvers and Una Merkel topped off by the tap dancing of Miss Powell results in "Born to Dance," one of the season's biggest hits, which shows at the Rialto at the Saturday night preview through Sunday and Monday.

Paramount's musical comedy, led by Jack Henny, George Burns, Gracie Allen and Martha Raye, "College Holiday" is showing Wednesday and Thursday. A cast such as this picture has can mean nothing but song, dancing and laughter.

FIRST CHRISTIAN CHURCH

Services will be conducted at the morning hour with sermon by the minister, Rev. John W. Tyndall. Wylie Ellis will bring a special message in song. Come and hear him. Evening services at the Methodist Church. Be sure to come.

JNO. W. TYNDALL.

QUEEN BEE IS VERY BUSY DURING SWARMING SEASON

During the swarming season bees reveal most amazingly the intricate functioning of instinct, states a writer in Literary Digest. New queens have been developed in their circular cells. Quality of food determines whether an egg shall become a queen or a worker bee. Queens are fed bee-jelly (propolis) by their nursemaids, workers receive bee-bread, which is largely pollen scraped from the hairy legs of worker bees. The old queen departs with her retinue, leaves the hive to the newly hatched queen.

The virgin queen prowls around looking for the cells of unhatched queens. If the colony is large enough to permit swarming, guards prevent the virgin queen from attacking her sisters who are on the point of hatching. If the hive population is small, swarming inadvisable, the newly hatched queens battle to the death, the fittest remaining to take charge of the hive as ruthless dictator.

When the hive is large enough to swarm, bees leave the colony in clouds to follow their new queen. They gather in great clusters, clinging to one another's bodies, on tree limbs, fence posts, almost any nearby object, and the alert beekeeper must have a new hive ready to entice them into.

No Poverty in Bali

In Bali the people produce enough food in four months to last a whole year, leaving 8 months to be devoted to leisure and the pursuit of happiness. The only vices known to the inhabitants of this earthly paradise are gaming and cockfighting. There is no poverty. People have so little use for money that they bury it—until necessity calls.

Gold, silver, copper and lead mined in Texas last year had a gross value of \$1,141,573, compared with \$781,614 in 1935, according to information received by the Texas Planning Board from the Bureau of Mines.

BOBCATS UPSET WILDCATS WITH 27 TO 23 WIN

Booth Turns Trick With 14 Points; Kelsey 11

The Crowell Wildcats lost their second conference game to the Childress Bobcats here Thursday night by the score of 27 to 23. This was the same score that the Wildcats defeated the Bobcats Jan. 12.

This loss tumbled the Crowell cagers from the top rung, which they had held since the opening of the conference, Jan. 12, and dropped them into second place leaving the Quanah Indians in undisputed command of the "Big 5" lead. This was the third consecutive defeat for the Foard County lads, the team having lost a non-conference and a conference game to Quanah.

First Game

The fray was fast and furious and the Bobcats took the lead in the first minutes of play and kept it except for a few minutes in the fourth quarter, when the Wildcats rallied and nearly stole a well-earned victory from the Childress boys.

The tallies at the end of the quarters were all in favor of the Bobcats and are as follows: 8 to 4, 16 to 12, 20 to 15 and 27 to 23.

Clarence Booth, Childress forward and former member of the Margaret junior basketball team, took great pleasure in showing his old team mates the art of putting a basketball through the hoop by sinking seven goals for 14 points to carry off scoring honors for the evening.

Kelsey was a close second with 11 points and his play kept the Wildcats in the game and he was responsible for the Crowell boys' knotting the score and even taking a three-point lead in the middle of the fourth quarter, but the Bobcats were too much for the Wildcats and quickly sank seven points to cinch the game.

Helms and Patton, Bobcat guards, did their share in humbling the Wildcats. They seemed to be every place at the right time. Helms took possession of the majority of the tip-offs to take the ball for Childress. Patton intercepted several passes to stop Crowell rallies and was directly responsible for several Bobcat counters.

Jim Whitfield, Wildcat guard, played with the team for the first time in the local gymnasium Thursday night since December and played outstanding defensive basketball. He had to retire from the game late in the fourth period, when he injured his right arm in a fall.

Childress made five of ten gratis tosses count and the Wildcats only made three out of seven. Although it was a rough game with lots of spills, no one was forced from the fray on account of fouls.

The box score:

CROWELL	FG	FT	FTM	PF	TP
McLain, f	2	1	1	2	5
Kelsey, f	5	1	2	0	11
Middlebr'k, c	2	1	0	2	5
Owens, g	1	0	0	1	2
Whitfield, g	0	0	1	2	0
Nelson, f	0	0	0	0	0
Totals	10	3	4	7	23

CHILDRESS	FG	FT	FTM	PF	TP
Booth, f	7	0	1	2	14
Huffsteater, f	2	4	1	0	8
C. Andrews, c	1	0	0	0	3
Patton, g	1	0	2	1	2
Helms, g	0	0	1	3	0
H. Andrews, g	0	0	0	0	0
Totals	11	5	5	6	27

Score by quarters:

Crowell	4	8	3	8-23
Childress	8	8	4	7-27

Officials: Dan Stallworth and Joe Forrester.

MAKE AUTO KILLING UNPOPULAR

When the final figures are tabulated and released, it will probably be found that 1936 was the worst year in our history so far as automobile accidents were concerned.

More than 35,000 men, women and children were killed. Hundreds of thousands were injured. Property damage ran into the billions.

At least 90 per cent of this ghastly destruction can be ascribed to but one thing: the human element.

It is a telling commentary on our driving habits that the worst accidents commonly occur on good roads under favorable conditions of light and weather, and involve cars in excellent condition. The reason for this is simple enough. Drivers exaggerate the "safety factors" of roads and weather and cars. They take chances. They succumb to the lure of speed beyond any reasonable need. They pass other cars on hills and curves, weave in and out of traffic and zoom around corners at a horrible cost in life, health and property.

Efforts to educate these drivers to appeal to their senses of reason and fairness and courtesy, have failed practically 100 per cent. That being true, the next step is a massed public opinion that will strengthen traffic laws and traffic patrols, and strictly

punish those guilty of driving errors that cause accidents. If the reckless driver refuses to mend his ways, he must be forced to. And if, after a period of time, he has shown that fines and other punishments won't do the work, he must be deprived of the right to operate a car on public streets and highways.

It is estimated that 10 per cent of drivers are reckless, while 90 per cent are reasonably capable and cautious. Will that dangerous 10 per cent continue to be allowed to imperil all the rest and to make slaughterhouses of our public roads?

Edward Clark, recently appointed secretary of state, automatically becomes secretary of the Texas Planning Board.

Opportunities which exist in Texas are being broadcast in a series of weekly broadcasts over Station KNOW by Maj. E. A. Wood, director of the Texas Planning Board.

Assistant Attorney General R. A. Stout has been assigned to help the Texas Planning Board redraft sections of the Texas mining laws which tend to discourage the prospecting for minerals.

Texas Planning Board statisticians estimate that the 1937 Texas crop of grapefruit will be 6,790 boxes out of a national crop of 27,523,000 boxes. The value of the 1937 Texas citrus crop is estimated to represent a present market value of \$8,000,000, compared with \$3,600,000 last year.

H. D. and 4-H CLUB ACTIVITIES

Officers of
FOARD COUNTY HOME DEMONSTRATION COUNCIL
 Mrs. A. L. Davis, Chairman Mrs. J. L. Hunter, V. Chairman
 Miss Bonnie Schroeder, Secretary-Treasurer
 Miss Myrna Holman, Home Demonstration Agent

RIVERSIDE 4-H CLUB

Beatie Sher, was elected garden demonstrator for the year at the meeting of the Riverside Girls' 4-H Club on January 26.

There were nine members and one visitor present and Miss Holman discussed plans for our spring garden.

The meeting adjourned to meet again on Feb. 9.

RIVERSIDE H. D. CLUB

On Jan. 12 at the meeting of Riverside Home Demonstration Club, Miss Holman gave an exact illustration of the minimum foods required for an adult for one day in order to maintain perfect health. This might be said to have been a climax to the demonstrations on Food Preservation. Ten members were present to enjoy this very instructive demonstration.

RIVERSIDE 4-H CLUB

A very interesting Bible program was led by Mrs. Frank Ward at the meeting of the Riverside Home Demonstration Club at the school house Jan. 26. Others on-

CHURCHES

Christian Science Church
 Sunday School at 10 a. m.
 Sunday services at 11 a. m.
 Wednesday evening services at 8 o'clock.
 Sunday, Feb. 7, 1937. Subject: "Spirit."
 The public is cordially invited.

Christian Science Services
 "Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist on Sunday, February 7.

The Golden Text is: "We all, with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, even as by the Spirit of the Lord" (II Corinthians 3:18.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Am I a God at hand, said the Lord, and not a God afar off? . . . Do not I fill heaven and earth? saith the Lord" (Jeremiah 23:23, 24.)

The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The three great verities of Spirit, omnipotence, omnipresence, omniscience—Spirit possessing all power, filling all space, constituting all Science—contradict forever the belief that matter can be actual. These eternal verities reveal primeval existence as the radiant reality of God's creation, in which all that He has made is pronounced by His wisdom good" (page 109-110.)

Two Minute Sermon

(By Thomas Hastwell)

Those Who Seek the Truth: In the gospel of John a certain Pharisee, Nicodemus, by name, a leader of his sect, came to Jesus in the night and asked certain questions touching upon the matter of being born anew and of the spirit. Nicodemus and Christ visited together over the matter and questions were asked and answers given as Nicodemus sought to understand the meaning of the new teaching of Christ. I think the world would be better if there were more people like Nicodemus; people who have the courage to inquire into the facts of religion and acquire a conviction. Too many people accept religion as a matter of course. With many of these it is an inert, passive, neutral thing that serves no vital purpose in their lives. I like the man who insists on proving his religion, who must tear it to pieces and digest it and make it his very own. He is a stronger Christian for having done so, because in the act he has made it a part of himself, a living, vital, usable force with which he can confidently meet the trials and the emergencies of life.

Lockett Pastor Commends Crowell Baptist Church

In an article in the January 21 edition of the Baptist Standard, Rev. C. V. Edwards, pastor of the Lockett Baptist Church, had the following to say concerning the First Baptist Church of Crowell. "Churches do not always show the Christian spirit towards their pastors when sickness or misfortune overtakes him. The First Baptist Church of Crowell, gives us a beautiful example of how it should be done.

"Their beloved pastor, W. B. Fitzgerald, has not been well for several months. His doctor advises that he take a complete rest, which he is planning to do soon. "His church recently voted unanimously to retain him as pastor on salary as long as it may take him to get well, even for a year or more, if need be. The church in the meantime will look after the supplies for the pulpit and other church ministries.

"Seeing this spirit on the part of the church, the pastors of the Wilbarger-Foard Association and others offered to supply the pulpit as called upon without charge."

In a meeting of the Wilbarger-Foard Association Workers in Crowell, Jan. 12, the following resolution was adopted:

"To Brother and Sister W. B. Fitzgerald:

"Your co-laborers, in Wilbarger-Foard Association, wish at this time to extend our sincere love and appreciation for you, as our helpers in the Lord. We are disappointed that Bro. Fitzgerald's health makes it necessary for you to be away from the church work and our midst for a little while. We want you to know that our prayers and our sympathy will be with you and that we shall pray that it may please the Lord to give you a speedy recovery, that your church may soon have your ministry again and your good gospel message.

"We rejoice to hear that the First Baptist Church of Crowell has definite plans to stand by you as their pastor while the Lord brings you back to full health and strength. We believe that we can say to you and to your good church that the preachers will be glad to co-operate with them and with you in helping to carry on the work during your absence. We wish to express our profound appreciation for the friendly and brotherly co-operation which the church is giving you at this time."

Your Horoscope

February 1, 2, 3—Your greatest power is in your eye. If in an argument you can get your opponent to fix his gaze on you, it is an argument lost for your opponent. Women, as well as men, have this power but with it they are also physically beautiful generally. You have a very soothing and calming power over insanity and excitement. You want the plain facts before you will believe anything. You are very fond of a family and love pets, especially cats.

February 4, 5—You have a smooth way about you and can talk a thing up and get people to invest in it. You are artistic in everything you do no matter whether it be in your home, yourself or your scheme. You always get a lot for very little but when you sell anything you get the highest price. You are sometimes very generous with a friend but you always look out for yourself.

February 6, 7—You have a fairly good business head but are rather given to "kite flying." You are not always sound and practical in your practices. You will not risk anything when you think there is a remote possibility of losing. You forget engagements and such, and when you think of them usually about five minutes beforehand you will see a friend and go riding and remember your engagement the next day.

"I Love to Tell the Story" was sung in union.

America's Best Seller, the Bible, was given by Mrs. Marion Crowell, Writers of the Bible, Old Testament, by Mrs. F. A. Davis, New Testament, Mrs. G. A. Patton, Poems on the Bible, Mrs. Agnes McLaughlin, Bible Stories Every Child Should Know, Mrs. G. H. Kinchloe, Do You Know Your Bible?, Mrs. Donald Norris. A Bible contest was engaged in. Miss Myrna Holman and Mrs. J. L. Kinchloe were visitors for the afternoon.

The Club will meet February 15 with Mrs. F. A. Davis as hostess, with a "Safe at Home" program.

SAFETY SLOGANS

In driving on icy streets remember unless you have tire chains the brakes should not be applied as the application of the brakes under such conditions will throw the car out of control. It is better to take a chance of steering should be hard and

If there is steam or frost on the windshield do not continue to drive until it is removed. If you can't see don't drive.

Records are kept of automobile and other accidents, but no one has any way of knowing the toll of the public drinking cup. It is never wise to drink from a public drinking cup.

It is never safe to walk on the

pavement at night. If you must walk on the pavement face the approaching traffic on your side of the road. Less accidents occur in this way than when one walks with his back to the traffic.

HOUSEHOLD HINTS

Do not use soft butter or lard in making pie crust. The shorten-

ing should be hard and

Cooking vegetables in skins retains all the value of the vegetable matter directly under the skins.

Use the liquor from peaches, cherries, plums, tart fruits in your mince. You will take the place of usually called for and hard to get.

HAVE YOU MADE ARRANGEMENTS FOR YOUR Reading Matter for Another Year?

Let us help you with this matter while we still have the annual bargain rate of \$1.50 on The Foard County News and other attractive clubbing offers that are real gains.

Every effort is being made by the present News force to fill its pages with interesting local news from every community in the county and the northern part of Knox County. The policy of printing a weekly newspaper that ranks along with the best in the state is still our ambition and you can help us by renewing your subscription to your home paper promptly. We appreciate greatly the response we have had in renewals as well as new subscribers and we hope to have all renewals in within a short time. If you live outside of the county and know your subscription has expired please send in your renewal at once. If you live in the county be as prompt as possible with your renewal. We want more new subscribers and we are always glad when the new ones are received.

Crowell High News

D. REEDER, Editor H. K. EDWARDS, Sports Editor
ITH HUTCHESON, Ass't. Ed. MYRTLE McKOWN, Exchange Editor
IS E. NORRIS, Joke Editor HENRY BLACK, Faculty Adviser

SUPPORT THE WILDCATS

It is a well-known fact that a son will work harder if a reward is waiting at the end of the job. The only reward that a high school athlete receives is his sweater. The basketball boys rarely ever sweaters. But they can. And way that the high school can for the sweaters is by making up money off the basketball sales.

ROWELL DEBATERS WIN

The Crowell girls' debate team, consisting of Camille Graves and Virginia Coffey, won the Vernon State Tournament in the High School building last Saturday, January 30. They defeated the Chickilotho girls 3-0, and the Vernon girls 3-0, and the Chickilotho girls 3-0.

SPORT BROADCAST

The Crowell Basketeers have had five conference games thus far this season. They won the three but have lost the last two by small margins. The last was to Childress. They have won Childress once this year.

ETIQUETTE

Don't substitute "American but" for "synonym: safety pins" for repair work. Mary Green, who has been absent from school for several weeks due to illness, returned to school Monday morning.

F. F. A. PROJECT

During the month of December about five pounds of feed were required for one pound of gain in feeding a steer owned by Hughes Fish, of the Vivian community. Hughes is a student of Vocational Agriculture in Crowell High School and is feeding this Hereford steer as one of his projects.

BRAIN TEASER

That is impossible in the following story? Mr. Todd was alone. He was reading a magazine. When he reached a page he heard a loud crash in the next room. Placing his mark between pages nine and ten, he went into the next room to see what had caused the crash.

PEP SQUAD ELECTS

The pep squad elected officers Monday. The following were elected to office: president, Joannita Brown; vice president, Billie Brown; secretary, Fern Pearce; reporter, Virginia Coffey.

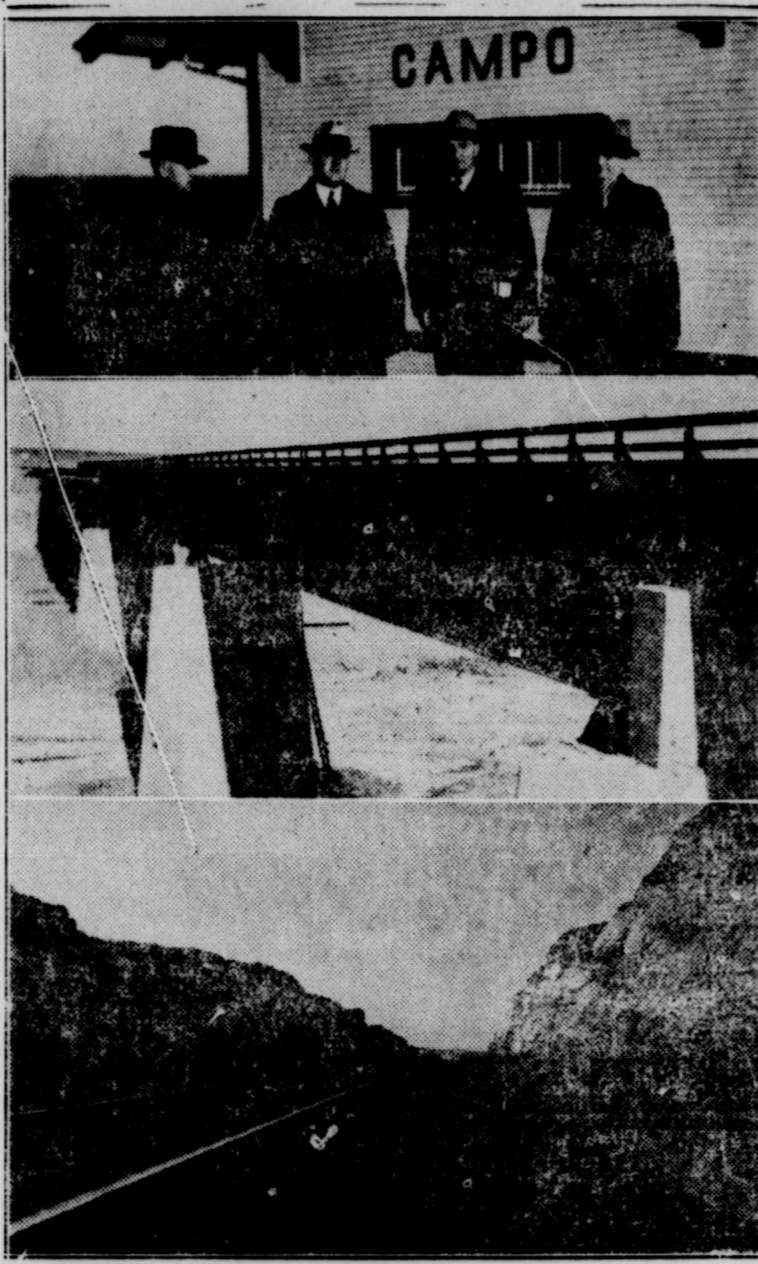

NEW CAR

Coach—The science instructor H. S. has purchased a new car, a blue 1936 model Chevy.

MEMBERS OF THE PEP SQUAD

Monday at noon five senior girls "Good-bye" to the pep squad, when officers were elected for next year. These girls have served their last year of service to the pep squad, and each

Santa Fe Will Open New Short Line, February 1

In completing a new line from Boise City, Okla., to Las Animas, Colo., the Santa Fe Railway slashes its distance between Denver and the Gulf, and establishes a new outlet for a great agricultural empire consisting of Eastern Colorado, Western Kansas, the Oklahoma Panhandle, West Texas and part of New Mexico.

prize offered by their instructor, Mr. Todd. The Crowell boys judged two classes of white Leghorns, 2 classes of Rocks all for production purposes.

Improvements on school grounds. There are a number of improvements being made on the Crowell Public School campus, which includes the planting of 25 Chinese Elm Trees, foundation planting, and the laying of sidewalks.

Barberry Control in 1960. The first law providing for barberry control was passed by France in 1860.

ANSWER. It is impossible to place the book mark between pages nine and ten in a magazine.

America's Own Cabinet Styles. By the end of the Eighteenth century America had developed fine cabinet-making and a style of her own.

Do I Have to Take Any Job Offered Me? Question 12: "One of the previous articles said that I must accept new work when it was offered to me, or I would become ineligible for benefits."

Are Strikers Eligible for Benefits? Question 13: "A previous article said that strikers cannot draw benefits under this Act. Suppose I lose my job as a result of a strike at my factory, although I personally had nothing to do with the strike. Will I be ineligible for benefits?"

Answer: No. But you must be able to prove to authorities that you had no part in the labor dispute.

You must show that you were not taking part in, or helping to finance, or directly interested in the labor dispute which stopped the work.

If you belong to a labor union or group, and other members of that union are interested in the dispute, then you will be considered to have a direct interest in it.

In other words, if any particular union in any one factory or mine or office becomes involved in a labor dispute, then all members of that local union in that plant are involved and none of them can draw unemployment benefits.

But the law is very fair. If two businesses are conducted on the same premises and the work-

ers in one group go on strike, the workers in the other group are not considered to be directly interested, although they belong to the same union.

Editor's Note:—Following are questions and answers prepared by R. B. Anderson, chairman-director of the Texas Unemployment Compensation Commission, which is an interpretation in simplified terms of the various provisions of the recently-enacted Texas Unemployment Compensation Act.

UNEMPLOYMENT COMPENSATION in TEXAS

Editor's Note:—Following are questions and answers prepared by R. B. Anderson, chairman-director of the Texas Unemployment Compensation Commission, which is an interpretation in simplified terms of the various provisions of the recently-enacted Texas Unemployment Compensation Act.

Further questions and answers in this series will appear in this paper from time to time.

What Makes a Man Ineligible For Benefits? Question 11: "What must I guard against to keep from being ineligible for benefits under the law?"

Answer: The law provides minor penalties for minor violations of its rules. It also provides certain situations in which a worker can be unemployed and still not be able to draw any benefits.

(1) If you quit your job without any reason, the Commission may make you wait an extra three weeks before you can draw any benefits. Suppose you quit in the middle of the week. You draw no benefits that week; you are then forced to wait three weeks more because you quit your job without a reason, and then you must wait two more weeks—the regular waiting period. In other words, it will be six weeks before you can draw your first check.

(2) If you are fired for misconduct, the Commission may force you to wait as long as nine weeks—plus the two weeks' waiting period.

(3) If you fail to sign up for work at the public employment office; or, if you refuse to accept work when the employment office finds it for you; or if you ordinarily have a private occupation such as farming or carpenter work, when you do not have regular work, and you refuse to follow it; then the Commission may make you wait five weeks—plus the two weeks waiting period—before you can draw your first check.

(4) Strikers are not eligible to draw benefits. These last two penalties (3 and 4) will be discussed in detail later on.

(5) If your employer gives you a week's wages when he fires you, then you cannot draw any benefits for that week. That week also is not counted when your benefits and your eligibility for benefits is decided.

(6) If you are drawing Workmen's Compensation for a certain week, then you cannot get a benefit check for that week, nor can you count that week in establishing your eligibility for benefits.

(7) If you are getting an old age pension or any similar pension or grant, you cannot draw any benefit checks.

Do I Have to Take Any Job Offered Me? Question 12: "One of the previous articles said that I must accept new work when it was offered to me, or I would become ineligible for benefits. Suppose I am not trained for that new job; or suppose the new job would make me—a union worker—violate the obligations of my union membership. Must I still take the job?"

Answer: The aim of these employment offices is to get you, as nearly as possible, into work that is suitable for you. Of course, the Commission wants to keep as many men working as possible; but all the facts are to be considered when a man is offered a new job.

In deciding whether the new job is suitable for you, the Commission can consider the following: The degree of risk involved to your health, safety and morals; your physical condition and your previous earnings.

The Commission will also consider the chances for getting local work at your customary job, the length of time you have been without a job, and the distance of this new work from your home.

However, the Commission will not make any man take a new job when it is vacant due to a strike; or if the wages and conditions of work are less favorable than the wages and conditions in similar jobs in that locality; or if taking the job would force you, against your will, to join a company union or would keep you from joining a recognized union.

Are Strikers Eligible for Benefits? Question 13: "A previous article said that strikers cannot draw benefits under this Act. Suppose I lose my job as a result of a strike at my factory, although I personally had nothing to do with the strike. Will I be ineligible for benefits?"

Answer: No. But you must be able to prove to authorities that you had no part in the labor dispute.

You must show that you were not taking part in, or helping to finance, or directly interested in the labor dispute which stopped the work.

If you belong to a labor union or group, and other members of that union are interested in the dispute, then you will be considered to have a direct interest in it.

In other words, if any particular union in any one factory or mine or office becomes involved in a labor dispute, then all members of that local union in that plant are involved and none of them can draw unemployment benefits.

But the law is very fair. If two businesses are conducted on the same premises and the work-

ers in one group go on strike, the workers in the other group are not considered to be directly interested, although they belong to the same union.

If you have any questions concerning the operation of this law as it affects employers or workers, you can have your questions answered by writing to R. B. Anderson, chairman, Texas Unemployment Compensation Commission, Austin.

WATER CLOCK WAS USED BY CHINESE, HINDUS YEARS AGO

An ancient time-telling device was the clepsydra, or water clock. Like the sundial, it was invented so long ago that there is no authentic record of its origin, observes a writer in the Washington Star. It was used by the Chinese and Hindus from the earliest times, but it was developed most extensively by those clever people, the Greeks. And they had a word for it, for the name comes from the two Greek words meaning "the thief of water." Its simplest form was that of two vessels, one of which had a small vent which allowed water to drop slowly into the other. One of the vessels was graduated, and the height of the water in it at any given time indicated the hour.

The Greeks and Romans installed water clocks in their forums or market squares of their cities, guarded by a civic officer whose duty it was to keep it filled and in order. Wealthy citizens sent their servants around to find the exact time from it, while the poorer classes were informed by the sound of a horn which was blown by the attendant "every hour on the hour." The Romans also installed water clocks in their law courts. The device was filled up when a lawyer started his oration, and when the water ran out he had to stop. "This," said a writer of the day, "was to prevent babblings."

that such as spoke ought to be brief in their speeches."

Epidote. Epidote is a native orthosilicate of calcium, aluminum and iron. Occurring in granular masses in fibrous forms and as monoclinic crystals, the color may be red, white, black, or pistachio green. Fine epidote crystals used in jewelry are found in France, Switzerland, Austria, Norway and many parts of America.
