## No 'sweat' on faculty situation

The teacher problem in the Post Public Schools as related to resignations and employment of new teachers is not nearly as black as some people are trying to paint it. In fact, the situation at this time of year is as good or even better than at the same time in any previous year that we can recall.

Monday of this week, only four vacancies remained to be filled on the schools' faculty list, and Supt. William F. Shiver was making preparations even then for a three-day trip within the state to interview applicants for those four vacancies.

Some good teachers have resigned in recent weeks, but qualified teachers have been hired to replace them, and that is the same situation that exists in practically every school district in Texas.

Supt. Shiver told this newspaper that the ideal situation for the Post schools or any other school, for that matter, is to have no more than two or three resignations, but where does it work out that nicely?

"Regardless of how good a teacher is, if he doesn't want to continue living in Post, I have not encouraged him to stay," the superintendent said. He added that most of those who have resigned feel that they are bettering themselves financially.

Shiver pointed out that 17 new teachers came into the Post school system last year, but that there won't be that many new ones this year. So, where can the present picture of faculty change be said to be worse than it ever has been—as some would have us believe?

The Post schools or any other school would be in a sad shape if it ever lost a teacher or an administrator that could not be replaced. To our knowledge, that hasn't happened yet.

We've lost some good teachers and a couple of good administrators this year, but we have qualified teachers and administrators to replace them. Instead of giving up on a situation that isn't all that bad, let's be thinking of what we can do to make the new school people coming into our community feel that they are more than welcome.—CD

## Why lunchroom prices went up

Figures supplied by School Supt. William F. Shiver show why the school board found it necessary to raise the price of school cafeteria lunches at their last regular meeting.

Federal commodity products furnished the school lunchroom during the school year just closed were only about half what they were during the 1964-65 school year.

In 1964-65, fruit received by the school through the federal commodity program totaled 185 units, but during 1965-66 dropped to 60 units. Forty-four units of beef totaling 2,620 pounds were furnished the lunchroom in 1964-65, but dropped to 23 units, or 1,219 pounds, during the school year just closed.

Forty-six units of turkey meat, totaling 2,070 pounds, were received in 1964-65, as compared with only 12 units—540 pounds—in 1965-66. The lunchroom did not receive any roast at all in 1965-66, whereas in 1964-65 it received 19 units, or 1,945 pounds.

Chicken furnished the lunchroom totaled 56

units, 1,680 pounds, in 1964-65, but dropped to 24 units, or 720 pounds, this last school year. Beans, corn, peas, and other vegetables totaled 68 units in 1964-65, but only 45 units in 1965-66.

This reduction in federal commodities made it necessary for the school to have to purchase more food for the lunchroom, resulting in a sizeable deficit.

The lunch price increase, which goes into effect at the beginning of the 1966-67 school year, is from 35 to 40 cents for students and from 40 to 50 cents for adults.

The school superintendent predicts the increased prices will enable the lunchroom to overcome the deficit, and also indicated that it will make a higher quality lunchroom meal possible.

This was one of those increases the school board didn't want to make, but in the face of dwindling commodities and higher food prices there just wasn't any way of getting around it.—CD

## No sensible approach to it yet

Generous-minded Americans contribute over a quarter of a billion dollars a year to 33 national voluntary health organizations and their local or state affiliates. But, as far as we have been able to determine, none of these organizations includes in its program a sensible approach to low-cost childhood immunization.

The immunization a child should have up to school age, including that required for school entrance, costs an estimated \$60 under present routine charges. This estimate does not include office visit charges made up the physician, and

these charges generally are from \$4 to \$5 a visit. The immunization and tests a child should have up to school age include DPT, polio, measles, and smallpox vaccine and tuberculin test.

Families in the lower income groups are finding it increasingly difficult to pay for the immunization their children should have. Any help they could get through a voluntary organization would contribute greatly to the overall health of the nation. In its category, low-cost childhood immunization appears to be one of the things we need more than some of the things we have or are trying to get.—CD

## What our contemporaries are saying

A recession is a period when you tighten your belt. In a depression, you have no belt to tighten. And when you have no pants to hold up, that's a panic.—The Bartow Herald, Carterville, Ga.

In a small town most air pollution problems originate with that little black animal with the white stripe down his back.—Door County Advocate, Sturgeon Bay, Wis.

MARK TWAIN said, "Everybody talks about the weather, but nobody does anything about it." Well, last Friday afternoon, City of Post officials "did something" about it when they decided not to test the tornado alert system, as scheduled, because it looked "too stormy" and they didn't want to unduly alarm anyone.

We don't know who made the final decision not to test the alarm signal at 3:30 o'clock Friday afternoon, but it didn't blast off. Someone from the mayor's office called The Dispatch to ask what we "thought about it," but we passed the buck by telling them we'd rather the mayor or City Supt. Eddie Warren make the decision.

AFTER THE telephone call, Mrs. C. wondered out loud whose face would be the redder if a tornado should suddenly hit while whoever pushes the "panic button" sat idly by with orders not to do it because it looked too stormy. Well, it was just one of those "impossible" things that come up ever so often, and the mayor had given notice in the original announcement that the test would not be made if the weather was threatening at that time of day.

That's the fun of living in a small town. You not only know what is going on, but you get in on the ground floor for most of it.

THE MAN UP the street says a middle age is when you discover an eight-hour workday is ten hours long.

There are times when putting out a newspaper is a frustrating and exhausting job, but there is always someone else having a worse time.

Take the case of the newsman who moved up to a frontier town in Colorado, unpacked his hand-set type and started his first issue. This is the way it came out:

"We begin the publication of the Roccay Mountain Cyclone with some phew diphiculties in the way. The type pounder phrom whom we bought our outfit phor this paper phaled to supply us with any epha or cays, and it will be phour or phive weeks bephore we can get any.

"The mistake was not phound out till a day or two ago. We have ordered the missing letters and will have to get along without them until they come. We don't lique the looxs ov this variety ov spelling any better than our read-ers, but mistakes will happen in the best regulated phamillies, and igh the Ph's and the c's and the X's and the q's held out, we shall ceep (sound the c hard) the Cyclone swirling apher a phasion till the shorts arrive.

"It's no joke to us—it's a serious aphaire."

A GOURMET IS described as a man who, invited to an evening of wine, women and song, wants to know what kind of wine.

Out at our house, we've lost a dog and gained two cats. Three weeks ago, as I've already reported in this column, we gave our hound Spot away and, up until Sunday when Mrs. Gladys Presson gave us a couple of month-old kittens, that was about as long as our household has been without a pet of some description. The kittens we got at Mrs. Presson's are coal-black, and she said she just knew we'd want them on account of our cat Blackie having strayed away. My wife says the sparrows, which have been giving her yard and trees so much trouble, are already shying away from the cats, so maybe she'll let me keep them. Mrs. Presson has two more kittens at her house and she generously offered us all four of them, but we wanted to leave some for other people.

SOMEONE WHO read the item in last week's Dispatch about a truck load of goats turning over near Slaton, said, "Don't you know that was a noisy accident?" Then, someone who overheard him said it couldn't have been as noisy as the one he saw in which a truckload of empty milk cans crashed into a truckload of geese.

Juanice Robinson's baptistry painting at the Trinity Baptist Church is something everyone who hasn't already been by should go out and see. Dozens of people went out to see the painting Sunday afternoon. I won't attempt to describe it, since I couldn't do it justice, but like most everyone else who saw it, I was especially impressed by the three-dimensional effect given it. Sunday, incidentally, was a big day for Juanice. In addition to large numbers of people going out to see her baptistry painting, others visited the exhibit at Levi's Restaurant of paintings by her adult art class. The walls of the restaurant's banquet room were lined with oil, charcoal and other-medium paintings of the talented adult artists.

## Sculpture award won by student

SAN FRANCISCO, Calif.—A sculpture by Roy Carter of Post is among the award-winning works in the annual Spring Show at the College of the San Francisco Art Institute.

His piece is one of three sculptures to be accorded an honorable mention by a distinguished jury composed of Nina Valbo, Emeritus Curator of Painting and Sculpture at the M. H. de Young Memorial Museum in San Francisco, and Herschel Chipp, professor of art at the University of California, Berkeley.

Carter is the son of Mr. and Mrs. Tom R. Carter, 105 East 5th St., Post, and a graduate of Post High School.

The Spring Show, composed of over 600 works, was selected by the Institute's faculty to present the most outstanding work produced at the 92-year-old art school during the past year.

'Texas-America's Fun-Tier' comes out in sparkling, brand-new edition

AUSTIN — The immense variety of Texas pleasure travel is portrayed in an entirely new edition of the popular travel brochure, "TEXAS — America's Fun-Tier," released today by the Texas Highway Department.

The 22-page color brochure incorporates maps, photographs and art work in a glossy, magazine-style format. It provides the traveler with a short, vivid course in Texas geography, spiced with colorful pictorial glimpses of things to see and do in the "Friendship State."

So vast is Texas, the new brochure divides the state into six recreational regions, focusing on attractions which are depicted by caricature maps, drawings and photos. Designed to give equal representation to all parts of the state, the new publication illustrates a cross section of Texas vacation variety. Historical, amusement and recreational features are portrayed in each section, outlining a brand of fun for everyone.

Also included are informational sections on hunting and fishing, highway regulations and tourist services provided by the Texas

Highway Department.

Nearly a million free copies of an earlier edition have been distributed since its introduction some three years ago. Demand for the new publication is expected to be even larger.

The new brochure joins other pieces of travel-oriented literature which are now being distributed by the Highway Department. More than three million pieces are annually provided free to Texas travelers.

Supplemental literature includes the Official State Highway Map, Texas Calendar of Events, State Capitol Guide, Texas Facts Sheet, State Parks Guide and an invitation to visit Highway Department Tourist Bureaus.

Those Tourist Bureaus — seven located at major highway entrances to the state, and one in the State Capitol rotunda — serviced more than 750,000 travelers last year. Visitors were provided free maps, literature, travel tips, and encouragement to stay a while longer in Texas. A ninth Tourist Bureau is under construction in Amarillo.

How do you tell a drunk?

The man was acting strangely. You know what people thought. But the neighborhood pharmacist had a hunch, took a close look, gave the man sugar. Then he called a physician who found the man was in insulin shock. Too much insulin, not liquor. Without prompt treatment, he might have died. This story illustrates the potency of modern drugs. Before using powerful drugs you should see a physician and then follow directions to the letter when taking them. There's a happier moral. Without modern drugs, the diabetic in this story wouldn't have had a life to save.

How to succeed in business by really trying

Ford sales are at an all-time high. During May Ford outsold all other car makes!

The word is spreading—fast—that Ford Division is building the best cars it has ever built. And it's true. Never have Ford cars been so good—never have Ford sales been so high.

People discovered our 1966 Ford was the strongest Ford ever built. A strong car, well-engineered, is a quiet car—and the '66 Ford has a ride that is quieter even than some of Europe's most expensive hand-built luxury cars.

Over a million people have already bought Mustangs. This rare blend of sports-car excitement and solid value is the most popular new car in history... and right now it's the world's best-selling hardtop and convertible.

Wagon buyers are excited about our Magic Doorgate—the greatest step forward in wagon convenience in years. It opens out like a door for people and swings down like a tailgate for cargo. It's standard equipment on all Ford and Fairlane wagons.

Car shoppers discovered a whole new range of comforts and conveniences. The '66 Ford offers power front disc brakes, a Stereo-Sonic Tape System, America's largest V-8 to perform on regular fuel, Silent-Flo Ventilation that keeps air fresh with all windows closed, and a new Safety/Convenience Control Panel that lets

you lock all doors with one switch, has lights to warn if fuel's low or a door's ajar, reminds you to fasten seat belts.

A whole new group of sports-minded car buyers has come over to Fairlane. We've redesigned it completely with 30 new models, including GT's, sports-luxury XL's, convertibles, Squire wagons, and an exciting new Sport Shift Cruise-O-Matic Drive (on GT/A models) that gives you the ease of an automatic—or lets you shift manually for the fun of it.

People everywhere are finding out just how much extra value we've built into today's Ford cars—extra value that's the reason why Ford sales have soared to an all-time high.

And that's why Ford Dealers... leading from strength... are now offering you the best deals ever. There are specially equipped, specially priced Fords, Fairlanes and Mustangs, and special values on all our cars—across the whole line. See them soon.

## Card of Thanks

I wish to express my sincere appreciation to all our friends for their kindnesses shown to me during my stay in the hospital. Thank you for the visits in the hospital and since I've been at home; also for the lovely flowers, food, get-well cards and everything you so thoughtfully have done on my behalf.

Mrs. Frank Blanton.

## For over a week now I have searched my heart and mind for the words to tell you, our dear friends, how much your kindness and love meant to us during the past weeks. The task has gotten harder.

Those of you who have been through similar situations will know what I mean. Your heart is so full that a "thank you so much for all you have done" seems too simple. Your cards, letters, and notes have meant so much to me. I looked forward to the mail every day and I was never disappointed. (Even the nurses were impressed by the amount I received.)

The food you brought here to the house; how the children have enjoyed it all. That was one of the first things they told me the one and only time they were allowed to visit me in the hospital. I know how busy all of you are these days so thank you so much. The day the men plowed our land; how I wish I could have seen it—18 tractors together. And the wives who took dinner in Aunt Nettie's house that day, and the neighbors in the country who looked after our stock.

All of you who came to the hospital even though I could not see you for so long, your visits with Luke and the family helped them so much through the long hours and your messages to me helped more than you will ever know.

Later when I could have visitors I enjoyed you so much even though I wasn't very good company. The flowers and gifts were all so lovely. Bro. Joe Vernon came by every time he was there. Mr. Terry, Mrs. Lobban and Mrs. Sprayberry all had loved ones seriously ill but yet they all took time to come see me. When an elderly man died, who had been in the intensive care unit when I was, Luke was there to be with the wife and daughter in the first hard hours for them.

This love and concern for one another is like a ring in the water spreading out and touching more and more people all the time.

How very much I appreciated the Rev. Clarence Stephens' visits. He will never know how his prayers for me and with me have helped. I am so happy to have known him. And your prayers for me. I know because I felt them and was lifted by them. It was a personal experience I shall not try to describe. How sad that there are those who try to tell us "God is Dead". They should live here for just awhile and see God's love and spirit living in the people of this little town and the countryside.

Thank you again so very much for all you have done and are doing for us.

Louella and Luther Bilberry and children  
 Mrs. Beulah Gilmore  
 Mrs. Delia Bilberry

Thanks so very much for the flowers, cards and visits during my stay in the hospital and at home.

# Vickie Wilks and Ronnie Hart exchange vows Friday evening

Miss Vickie Lynn Wilks and James... Ronnie Hart exchanged wed-... ding vows Friday, June 10, at 7... o'clock in the evening at the First... Baptist Church in Post with the... Rev. C. B. Hogue, former pastor... here now serving Crescent Park... Baptist Church of Odessa, officiat-... ing at the double ring service.

Parents of the couple are Mr. and Mrs. Russell Wilks Jr., of Post and Mr. and Mrs. J. D. Hart of Tahoka.

Vows were repeated between an... archway of greenery and white... baby's breath. Candles flanked the... archway and one candle was cen-... tered under the archway. They... were repeated at each window and... marked the first two pews.

Given in marriage by her father, the... bride wore a chapel-train gown... of silk and acetate, embellished... with pearl-studded appliques of re-... embroidered Alencon lace. The un-... usual sculptured neckline was en-... hanced by lace appliques. Two tiny... roses of silk and acetate were plac-... ing on the front of the bell-shaped... princess skirt. The dress had been... worn by her sister, Mrs. Kenneth... Poole. Complimenting the dress, the... bride wore a cathedral-length man-... tillia, fashioned of imported lace... and silk illusion.

She carried a cascade of steph-... anotis, centered with a white or-... chid, atop a white Bible, which... had been presented to her in a... Young Woman's Auxiliary White... Bible service.

Mrs. Poole of Edna was matron... of honor. Bridesmaids were Miss... Jan Wilks, sister of the bride; Mrs. Melvin Lewis of Snyder; Mrs. Jerry Stone and Misses Annette Mc-... Bride and Cheryl Martin. They... wore delphinium blue crepe floor-... length, sleeveless dresses with ba-... zoux necklines. A bow accented the... front of the empire-style frocks. They... carried nosegays of white... baby mums and their headpieces... were circlets of matching crepe... with flat bows at the back.

Candles were lighted by Miss... Cloie Haralson of Cooper and Miss... Julia Childs. Train bearers were... Melinda and Melissa Tatum, cou-... sins of the bridegroom. They all... wore dresses of scribe crepe iden-... tical to the bridesmaids.

George McLaurin of Clovis, N. M., was best man. Groomsman... were the bridegroom's brothers, Jay, Kenneth and Sydney Hart, Melvin Lewis of Snyder and Wendell Johnson. Ushers were Johnny Tom Bilberry, Jerry Stone, Ronnie Pierce and Richard Hart, cousin of the bridegroom.

George M. Willson played the... organ during the ceremony and... accompanied Miss Sandra Dalton... of Levelland, who sang, "The Wed-... ding Prayer" and the bride, who... sang "Whither Thou Goest."

The reception was held in the... Community Room carrying out the... bride's chosen colors of blue and... green. I'm missing from this picture. I belong right between the subjects. For the old gentleman on the right is my father . . . and the young gentleman on the left is my son. But someone had to snap the picture.

It was taken on a Sunday afternoon. Earlier the three of us had walked to church. And Grandpa — (you know how you come to call your own father "grandpa" after you have a son) — well, Grandpa put his hand on Jimmy's shoulder.

"You know, Jimmy," he said, "I've been walking to church down this street ever since it was a cowpath. And I used to think real proud-like, when I walked your father to church, that the Lord never gave me a bigger job to do than raise my son a Christian. But I feel just as proud walkin' by you — like all my important work isn't done yet!"

Understand why I wanted this picture? And why I call it "Unfinished Business?"

**By MRS. EDMUND WILKE**  
 Mrs. Elsin Crawford's mother, Mrs. Moore, who is a resident of Slaton Rest Home, fell Tuesday afternoon of last week and broke her right arm. She was transferred to Mercy Hospital and Saturday morning she got out of bed to turn off the light and fell and broke her left arm. May God's healing hand be upon her.  
 Jettie Crawford is spending a few days in Lubbock with her brother, James, and family.  
 Mrs. Opal Pennell and Mr. and Mrs. Carl Cederholm spent last weekend in Decatur visiting Mr. and Mrs. Riley Howard. They attended baptizing services of the Howards. Mr. Howard is a brother of Mrs. Pennell and Mrs. Cederholm. Mrs. Pennell reported they

drove in bad weather nearly all the way home.  
 Mr. and Mrs. Robert Lee Mock and David and Curtis Lancaster spent the weekend at Lake Thomas.  
 Mr. and Mrs. Marcus Wilke have gone to LBJ Lake for several days.  
 Edmund, Larry, Sherri, Darrell and Yours Truly plan on going to Lake Stamford for the Father's Day weekend and visit my father, A. B. Dozier.  
 The Rev. and Mrs. Tommy Wilson of the Southland Methodist Church attended a conference in Dallas last week. All of you will be happy to hear that they will be staying here for at least another year.  
 The Southland Baptist Vacation Bible School closed with a program Sunday night and had a very good attendance.  
 Mrs. C. D. Ellis is on the "puny" list this week suffering from a sore back. We hope she has a speedy recovery.  
 F. W. Callaway and Rod and Jackie Dunn have gone after some new school buses. Bet the school kids will be proud of that, come September.  
 Hope to see you next week.

**American teen-ager is becoming more adept at finding good job**

**COLLEGE STATION** — The American teen-ager has become unusually adept at finding paying jobs, says Mrs. Wanda Meyer, home management specialist at Texas A&M University.  
 The U. S. Labor Department says that one out of two young people between the ages of 16 and 21 are formally employed in the work force.  
 The number of informal work situations teen-agers can find, however, raises this ratio much higher. As an illustration, there are more than a million teen-age babysitters, according to the Department of Health, Education and Welfare.  
 "Project Talent," a nationwide survey of youth's capabilities by the University of Pittsburgh, has  
**JUNIOR CAMP COUNSELOR**  
 Carol Camp left last week for Camp Trojan, located 10 miles from Boulder, Colo., where she will be a junior counselor teaching swimming for a month. Carol is the daughter of Mr. and Mrs. S. E. Camp.  
 made some interesting discoveries.  
 For example, fewer than one in 10 high school students depends entirely on an allowance for regular spending money. But one in four high school boys earns all his spending money with a regular job.  
 Many more earn money on a regular basis doing neighborhood and community chores, while most youngsters depend on some combination of the three—family help, chore money and job money—to meet their spending requirements.  
 Teen-agers find a wide variety of jobs to do, ranging from camp counselors and lifeguards to waitresses, office helpers, and sales clerks. Most employers find them diligent and hard-working. In fact, many held down the same job summer after summer.  
 The fact that teen-agers are successful in their job-seeking is shown by these projections from employment officials: By 1970, teen-agers are expected to earn \$21 billion, an increase from \$1 billion in 1960.

**Lyntegar representative is 4-H Club speaker**

Lois Greathouse of the Lyntegar Electric Cooperative showed a film on mouth-to-mouth resuscitation and heart massage at the regular meeting of the Pleasant Valley 4-H Club, with the meeting called to order by Larry Bevers, president.

The speaker also furnished a mannikin for the members to work on.  
 The members approved a letter concerning the scales the club bought for the 4-H building.  
 Members present were Sue, Laura, Larry and Bill Bevers, Cathy Long, Irene Martinez, Marla Shelton and Brenda Katrola. —Larry Bevers, Reporter.

**New paving set on 'bad stretch'**

Good news to travelers on U. S. Hwy. 380 is the announcement that new paving will be laid late this summer from Tahoka a little more than eight miles east.  
 The proposed new paving will replace an experimental stretch of paving that has been a headache to drivers ever since it was laid in the 1930's. When constructed, the highway department experimented with about three types of mix, one of which included mixture of asphalt with natural soil on the roadbed.  
 This "bad" stretch of highway runs from the railroad tracks in east Tahoka to the curve a little more than a mile east of the Draw road junction with U. S. 380.  
 The new paving will be a high-type two-lane paving, 26 feet wide plus a 9-foot paved shoulder on each side—a total of 44 feet.

**Right-of-way pact signed**

**Library lighting is authorized by city**

The city council Tuesday afternoon authorized purchase and installation of necessary fluorescent lighting fixtures for the Post Public Library and the signing of a contractual agreement with the state highway department for the right-of-way procurement for the city's portion of the four-laning of US-380 west from Avenue S to the "top of the cap."

Mayor Harold Lucas told the council a lighting engineer of the Southwestern Public Service Co., had checked the library and told him that the library could be adequately lighted with four eight-foot double fluorescent tube fixtures and four four-foot tubes.

The fixtures will cost \$116 with installation cost extra, Lucas said. Authorization of the signing of

the right-of-way agreement with the highway department didn't take long after the council realized members had "misunderstood" the highway department's request and that the authorization was needed now to permit preliminary planning on the project to begin.

Julian Smith, resident highway engineer here, told the council that right-of-way funds would not be needed for at least one and up to three years, but that planning couldn't start until the agreement was signed.

The council at its special meeting also met with the joint city-county airport board over several airport matters.

Tom Gamblin, airport board chairman, showed councilmen a letter received from the Federal Aviation Authority which gave final approval to the airport plans and specifications June 2 and which gave the airport board FFA approval to proceed with advertising for construction bids.

The council voted to put up a \$162 deposit on abstracts for the airport property so the abstract work could be gotten out of the way now and would not delay the project later.

Members of the airport board meeting with the council were Gamblin, Giles Dalby, Jimmy Hundley, and Julian Smith.

waiting list to see the equalization board.

A tremendous amount of confusion is sure to result in attempting to explain all of this to everybody just prior to and during the equalization board hearings.

To heighten the confusion is the fact that the property value he will get at the courthouse will be the 100 per cent value only. The taxpayer will not know what percentage of this 100 per cent value the commissioners court will then take as taxable property valuation.

The court itself won't know what percentage it must take to meet budget requirements until after the completed and the total 100 per cent equalization board hearings are finally determined.

The best yardstick the taxpayer will have for comparison are his 100 per cent school district or city valuations because the county hasn't had 100 per cent property values before.

Mr. Smith of Pritchard and Abbott told The Dispatch yesterday that in the big county-wide reevaluation and property equalization program the whole county has been "driven over," every home measured and valued, every business building checked, all rural improvements figured, and even aerial photos studied.

**THE TAX engineer said that in** fixing the 100 per cent value of farms and ranch lands average production has been taken into account as well as land sales.

The agreed-upon 100 per cent land values are:

- Irrigated land, No. 1 grade, \$150 acre; No. 2 grade, \$100 acre.
- Dryland farmland, No. 1 grade \$112 acre; No. 2 grade \$75 acre; and No. 3 grade \$50 acre.
- Pastureland No. 1 grade (improved or cultivated land to be grazed) \$40 acre; No. 2 grade (good mesquite pasture) \$25 acre; No. 3 grade (rougher land) \$18 acre; and No. 4 grade (escarpment) \$10 acre.

"Whether we are high or low in our 100 per cent valuations, I believe taxpayers will find we have been consistent," Smith told The Dispatch, "and that is what we are after in an equalization program."

**COUNTY JUDGE J. E. Parker** said he will start work Monday on the new county budget.

Since the county has had to borrow money this year to meet its obligations, the budget is sure to take a considerable jump next year as the loan repayments begin.

Taxpayers can be fairly sure of one thing—under such conditions their county taxes are going to be boosted.

made to secure a combined White River district delegation of 50 or more from the four member cities for the hearing.  
The water hearing is scheduled to begin at 9 a.m. in the Lubbock Municipal Auditorium, but the local delegation has been requested to arrive about 8:15 so the entire White River delegation can be organized before the hearing starts and sit together as a group.  
This is the first of a series of public hearings throughout the state conducted by the Texas Water Development Board on the proposed new Texas Water Development Plan.  
The plan as it now stands has little in it for West Texas.  
O'Brien said here Tuesday that "we have been told that water is available from northeast Texas to fill and maintain White River Lake, but the state board must be shown we want the water by attending the hearing."  
Between 2,000,000 and 3,000,000 acre feet of water in north and east Texas is government owned. Under discussion on the state water development board is the feasibility of building a pipe line to all municipal water lakes in the West Texas area. The recent state water development plan report eliminated irrigation water for West Texas, but did not eliminate municipal water, O'Brien pointed out.  
"Such a water source would enable the White River Lake to be filled and maintained at a full level with the possibility of other West Texas towns buying water from it.  
The cost of such a pipeline would be borne by the state with the state possibly selling the water to the White River district for resale to other municipal users.  
"Sure, it's a long range plan," O'Brien commented. "But we must start somewhere to work out such plans and the initial effort will be made at the public water hearing in Lubbock Friday morning."  
He said other water proposals may be considered from other delegations. The White River plan is not the only one on the agenda by any means.

## Jaycee track meet set for Saturday

Competition in the track and field meet sponsored by Post and girls by the Junior Chamber will get under way at 9 o'clock Saturday morning at the high school track.

Prizes will be given first place in each event, members of the Jaycee Sports Spectacular.

Proper wins at Tulia

Fraser of Post was best roping winner in the third annual Steer Roping held in Tulia.

Fraser, who won the Cheyenne Days roping last year, was one of the world's top ropers in winning the Tulia place.

Clark of Kiowa, Okla., third place winner of Tulia, and Bob Johnson of Eldorado.

Prizes were required to trip the four steers each, and money paid for the best four times around the track and the top four averages.

The gymnasium contract is the first to be awarded on a \$500,000 school improvement program for which bonds were voted recently.

State fish hatcheries are pressed to meet demands after heavy runs

Good water levels in Texas apparently prompted heavy runs on hatchery fish.

Water deaths in state increase

Deaths from water recreation continue to climb ominously according to the Texas Parks and Wildlife Department's unofficial report.

The 22 fatalities reported in the last two weeks' period were blamed on boating as well as high speed operations or falling.

Development coincides with concentrated effort, shared by the department, in enforcing the water safety code.

Overcrowding involved boats, and the fishing variety and were as occurring while the boats were on angling forays.

Accidents were the major cause since 11 persons perished in the water.

Deaths were wading, three very young children.

The price to date is running at the 1965 rate when an estimated 100 persons died in water recreation accidents, as totaled by the department.

Last year it was 90 on department spokesman suggested that the three summer months that entire millions of people wanted water areas will be a self-preservation challenge.

The fishing fatalities have been avoided had persons involved been wearing life preservers.

A new safety code stresses life preservers in the Department. The Department has made emphasis now is on enforcing the code by patrolling game areas in this enforcement phase.

by blanking Idalou, 8 to 0, behind the pitching of Clyde Cash and Filemon Vargas. They defeated Ralls there last Thursday night, 9 to 2, with Doyle Nichols pitching a two-hitter for his second win of the season.

Cash, who pitched four innings, received credit for the victory over Idalou, with Vargas taking over the mound duties in the fifth.

Post got 13 hits off Idalou's Fisher, with first baseman Ronnie Pierce rapping a two-run homer in the third. Pierce also got a double and a single for a perfect night at the plate.

Left fielder Donnie Windham, right fielder Jimmy Bartlett and catcher Dennis Altman got two hits apiece, with second baseman Duke Altman, shortstop Davis Heaton, center fielder Paul Walker and Cash also hitting safely.

Ralls' only runs off Nichols Thursday night came on Stevens' solo homer in the fourth inning and a double by D. Phillips, an error and a fielder's choice in the seventh inning. Nichols posted 13 strikeouts, whiffing the side in the third and fourth frames.

Windham hit a two-run homer in the third inning, in which Post scored four runs, and also had a single to his credit. Cash had two singles, Roy Sappington, Pierce and Walker singles, and Heaton a double for Post's other hits.

Golf winners here will be eligible to compete in the state Jaycee Sports Spectacular.

Contract let for new Slaton gym

SLATON — Contract for a \$172,848 high school gymnasium has been awarded by the Slaton school board to Tom McAbee of Lubbock.

Scheduled for completion in time for the next basketball season, the new gymnasium will seat 1,350 persons.

The gymnasium contract is the first to be awarded on a \$500,000 school improvement program for which bonds were voted recently.

for restocking, reports the Texas Parks and Wildlife Department.

Surplus bass, channel catfish, crappie, and sunfish left at the hatcheries after meeting stocking requirements for public waters are consigned for private waters.

The deadline for black bass applications was April 1. Aug. 1 is the deadline for applications for channel cats and the other available species. Requests received after those dates will be held over until next year.

The Department cautions about overstocking private fishing waters.

"A properly stocked farm tank, fish pond or small lake will provide fishing over a number of years," said a Department spokesman.

"There is no need to restock with fish every year. Such a practice is not only wasteful of hatchery reared fish but results in an overcrowded condition and stunted, small fish."

"Overstocked waters produce poor fishing and poor quality fish just as overstocked land produces poor quality cattle. Overstocked waters should be chemically renovated or drained and refilled before stocking."

"In newly built or newly renovated waters, largemouth black bass stocked at a maximum rate of 200 fry or 100 fingerlings per surface acre should produce a fishable population within a year."

"Crappie (white perch) are not stocked in ponds of less than 10 surface acres in size. This policy is part of an attempt to provide the best fishing possible to small pond and lake owners. Due to the inherent reproductive capacity of crappie, this species will quickly overpopulate and become stunted in

small bodies of water. Such a condition normally results in poor fishing for all species of fish."

Kim Owen pitched the Dodgers to a 10-5 win over the Yankees Saturday night, with McAfee the starter and loser for the Yanks.

Owen allowed the Yankees only five hits, but one of them was a two-run homer by catcher Jay Pollard in the sixth inning. The Dodgers also got only five hits, but wildness and errors proved the Yankees' downfall.

Kyle Josey rapped a triple and a single for two of the winners' hits.

THE RED SOX came up with three runs in the fifth inning Saturday night to edge the Wildcats, 7 to 6. Buddy Blacklock, who re-

ceived starter Danny Lee, was the winning pitcher, with Glen Branson the loser. The Wildcats out-hit the Red Sox, 8 to 7, with catcher Mark Clayton getting three for three and shortstop Mike Hays, three for four. Catcher Tommy Zachary was the Red Sox' leading hitter with two for three.

Danny Lee was the winning pitcher when the Red Sox beat the Tigers, 17 to 3, last Thursday night, and Robert Torres the loser. The Red Sox got nine hits, with second baseman Jay Stone and third baseman Buddy Blacklock getting two apiece. Lee and Blacklock, each hurling three innings, held the losers to five hits, with Kenny McKamie getting two of them.

Second baseman Gary Shepherd blasted a two-run homer for the Cardinals in their 20-5 stampede over the Yankees last Thursday night. Robert Mindeta was the winning pitcher, giving up only four hits — doubles by Jay Pollard and James McAfee and singles by Steve Sawyers and Roger Pace. Jerry Smith, the Yankee starter, was the loser.

There was also a third place tie between Carl Avcock and Sid Pierce, who shot 145's.

About 25 golfers participated in the tournament.

Afghan pheasants nest on plains

SAN ANGELO — At least one cooperative Afghan white-winged pheasant hen has found the lower plains to her liking and laid a nest full of eggs, reports R.L. Sinclair, Texas Parks and Wildlife Department biologist working with the experimental exotic bird program.

In February, 180 Afghan white-winged pheasants were flown from a California State hatchery and released in selected areas of Gaines, Lubbock and Lynn counties.

Sinclair reported finding a white-winged pheasant nest in heavy cover near the Lynn County release site the other day.

Biologists hope for high nesting success so the exotics may establish themselves in the lower plains where native gamebirds are not overly abundant.

Dodgers are leaders' only threat

## Cards still in lead as league play nears end

The Cardinals whacked the Yankees, 20 to 5, last Thursday night and then won a close one from the Wildcats, 5 to 3, Monday night to stay on top of the Little League standings, with the regular season scheduled to end next Thursday night with a single game between the second-place Dodgers and the third-place Red Sox.

Six games have been postponed by rain thus far during the regular season and the postponed games that will have a bearing on the league championship will be played after the regular season ends next Thursday, according to League President Charlie Cooper.

The Yankees drubbed the Tigers, 13 to 2, Monday night to climb out of the league cellar for the first time this season.

REG MOORE held the Wildcats to four hits in pitching the Cardinals to their 5-3 victory Monday night and fanned seven. Mark Clayton, the losing pitcher, gave up seven hits, with Cardinal shortstop Jerry Saldivar getting four of them. Three of the losers' four hits were doubles by Clayton, Bill Hudman and Johnny Minor and the other a single by G. Branson.

Hair was the winning pitcher in the Yankees' win over the Tigers, yielding only four hits and striking out 11. Dooley, who went all the way for the Tigers, was the loser. The Yankees got 13 hits.

There was also a third place tie between Carl Avcock and Sid Pierce, who shot 145's.

About 25 golfers participated in the tournament.

# Harvesters win in extra-inning game

The league-leading Harvesters edged the Colts, 3 to 2, Tuesday night in an extra-inning Minor League game.

Catcher Keith Howard's hit in the bottom of the fifth scored Jerry Tyler for the winning run. Tyler had reached base on his third hit of the night.

The Colts scored two runs in the top of the first on an error and four walks. The Harvesters came back with a single run in the bottom of the first when Garland Dudley's hit scored Tyler.

The Harvesters tied the score in the bottom of the second when Alton Orr, who had walked, scored on Junior Vasquez's hit.

Dudley was the winning pitcher, and Noel Saldivar was the loser.

In Tuesday night's second game, the Rebels beat the Giants, 9 to 4, with Steve Hays the winning pitcher and Tim Owen the loser.

The Rebels beat the Colts, 24 to 10, last Friday night, with Steve Hays pitching the win and Rodney King absorbing the loss.

The Harvesters won over the Giants, 14 to 2, Friday night with the win going to Dudley and the loss to Ray Martinez.

## Nichols will go to Johnson City

David Nichols reported recently to the New York Yankees' farm base at Sarasota, Fla., and is due to be assigned to the Johnson City, Tenn., club of the Appalachian League, which opens its season about June 23.

The righthanded pitcher, who was signed to a Yankee contract last summer, won his first game at the farm base, according to information received here.

After signing his contract last summer, Nichols spent the remainder of the season with Fort Lauderdale in the Florida Rookie League. He attended Tarleton State College at Stephenville during the school year just closed.

Half the Yankee farmhands now at Sarasota are due to be assigned to Johnson City and the other half to the Binghamton, N. Y., club of the New York-Pennsylvania League which has already opened its season.

**Five tickets are given by police in two mishaps**

Aaron Ward of Waco was given a ticket for no driver's license and D. E. Morris of Post one for following too closely following a traffic accident at 19th and Broadway at 9 a.m. Saturday.

According to the police report, Ward's car was struck by a pickup driven by Morris as Ward started to turn right off Broadway. Both vehicles were traveling north.

Police estimated damage to the car at \$100 and to the pickup at \$150.

Two 17-year-old drivers, Ronnie Joe Jackson and Manuel Martinez, were charged with no driver's license after their cars collided on South Avenue H at 9:05 p.m. Wednesday of last week. Jackson was also given a ticket for reckless driving, according to the police report.

Police said both automobiles were traveling south on Avenue H and that the car driven by Martinez was struck by Jackson's while Martinez was making a left-hand turn. Jackson's car plowed through the yard fence at the home of Mrs. Bill Gill, 612 South Ave. H, follow-

### 10-night revival meeting to start Friday at Church of the Nazarene

A 10-night series of revival services will open at the Church of the Nazarene, 202 West 10th St., at 7:30 p. m. Friday, June 17, and run through Sunday, June 26.

Evangelist for the services will be the Rev. Henry C. Thomas of Lubbock, who will bring the even-

ing messages. Also featured in the services will be John F. Whisler, blind musician and singer.

The Rev. Charles E. Peters, pastor, invited the public to all services.

Mr. Thomas began his ministry in 1942 as pastor of a Tahoma church, a work he continued for 20 years in Texas. In 1963, he entered the work of full-time itinerant evangelism. He travels throughout the country as an evangelist in revivals, camp meetings and conventions.

Whisler, whose home is in California, Mo., is a musician and singer devoting his time to evangelistic work under the auspices of the Church of the Nazarene. A graduate of the Missouri School for the Blind in St. Louis, he is accompanied wherever he goes by his pilot dog. Here, he is an outstanding piano player and plays the piano-accordion as well. He also sings and is a great favorite of children with his whistling.

### Raymond Shaw is top airman
