Cabin site leases at lake to be opened to all Aug. 5

Residents of four towns have 3 weeks left

White River Water District Directors decided last Thursday night to open the new lake cabin sites to public leasing Aug. 5 as a necessary revenue measure as residents of the four member cities have not shown a great deal of interest in the cabin sites already staked.

Al O'Brien, water district manager, told directors only 42 out of the 200 available sites are now under lease to residents of the four member cities. The decision will still give any Post residents almost a month to select a cabin site for lease if they so desire.

IT WAS estimated \$5,000 or more will be raised through the early leasing of the cabin sites to the public in general. A great many inquiries from Lubbock, Levelland and other area points already have been received on leasing such sites and a real rush is expected to develop after Aug. 5.

The directors approved a system of building permits for the cabins or cottages to be erected around the lake and authorized O'Brien to approve plans for any such construction when presented and issue the necessary permits.

A copy of the building plans will be required for the district's permanent file before the building permit is issued as well as a cost estimate of the construction.

The first such permit was authorized to cost about \$9,000.

DIRECTORS also approved plans for a 40 by 60 foot grocery store which will be built by White River Marina, Inc., a corporation formed by 10 Crosbyton business men to develop commercial facilities at the new lake.

The grocery store, which will be a steel building with masonry front, will be air-conditioned and cost \$13,500.

Directors authorized O'Brien to enter into a permanent lease with the corporation for the grocery store. Excavation work on the site got under way Friday.

It was also announced that the corporation has sub-leased the construction of a steak house to Mr. and Mrs. Jack Hash of Crosbyton and that plans for the steak house call for a seating capacity of 130 people.

Plans for the corporation's new marina call for an original floating unit of steel construction for the housing of 20 boats. Other such

First road crew here on US 84 job

The Border Construction Co. of Monahans moved in a crushing crew yesterday to begin crushing for the four-laning project on US-84 from the top of the cap to the Lynn County line.

Major work crews are not expected to arrive for a week to ten days.

Many of the construction workers and their families are expected to live in Post for the duration of the work if accommodations can be secured.

Joe Cox is general superintendent for the project.

The state highway commission has advised the county that effective June 30 it has established a 45-mile speed limit for the duration of the construction. Local motorists are advised of the speed restriction.

units can be added as the number of boats kept at the lake increases.

The corporation also is busy with plans for a motel for the lakeshore, directors were told. The Crosbyton group building the facilities plans to make them of top quality construction so that the lake's recreational facilities will be of the very best.

DIRECTORS received a delegation of five from the White River Sportsmen's Club of Crosbyton who told directors that talk of a 25 cents per head admission charge to the lake has virtually the un-

animous opposition of its club members and most Crosbyton residents as far as taxpayers and water users of the district paying such an admission charge is concerned.

The delegation proposed that taxpayers and water users of the district be exempt from the admission charge.

Marvin McLaughlin of Ralls, who presided at the session in the absence of Tom Bouchier, board president, told the group that the directors have been discussing an

This is one of those short-handed weeks at The Dispatch with backshop foreman, Don (Corkey) Ammons, vacationing. Our versatile editor Charlie Didway moved into the backshop for the week to preside over the intricacies of the Intertype machine setting type. And that left all of Charlie's multiple front office chores to be absorbed by Mr. and Mrs. C. Next weekend when Charlie recuperates from this experience on his vacation, we are obviously going to be short-handed for news pictures (that's Charlie's private specialty). Sorry, for one week a year our cameraman is out of touch.

Speaking of vacations, Herman Dillard, back from a visit with Georgia relatives, popped in this week to explain that he had to admit down there in Georgia that Texas doesn't have the biggest of everything. He brought along a giant hen's egg to prove it. These big brown hen's eggs are laid in Georgia, he relates, by what he calls white giants. He brought back a dozen, packing them in corn meal in the ice chest of his car. Mrs. C says Herman's egg was bigger than a duck egg. Each has a double yoke. Just imagine in this day of skyrocketing food prices having a family-sized one-egg omelet for breakfast.

Appearing on page 3 of today's Dispatch is an unusual tribute to the late attorney, A. C. Cooke, who died here suddenly last week. It is an essay, entitled, "The Lawyer," which was a favorite of Mr. Cooke's. Placing the tribute was the Garza County Bar Association.

O'Neill abandons oil test north of Post

Joseph I. O'Neill Jr., of Midland has abandoned his No. 1 Marjorie M. Post and others, a Garza out-post, at total depth of 3,875 feet.

The test site is 2,312 feet from north and 2,352 feet from east lines of Section 1225, EL&RR Survey—three-fourths mile north of Post.

Texas industrial head here today

All Chamber of Commerce members and others are invited to a community meeting at 1:30 p. m. today in the Community Room of the First National Bank to hear Harry W. Clark, executive director of the Texas Industrial Commission, speak on the community

of close cooperation with industries.

Clark is expected to outline how his state agency cooperates with industry-seeking communities and give Post some guidelines for getting into the search for industry.

Mayor Harold Lucas and Tom Gamblin secured the appearance of Clark here in a recent trip to Austin. The Chamber of Commerce by letter has invited all its members to today's meeting which will last from 60 to 90 minutes.

The Chamber is sponsoring a small luncheon for Clark and local industrial leaders prior to the afternoon meeting.

County leases space for Aug. 1 opening

State welfare office for Post

County Judge J. E. Parker announced today that the Garza County Commissioners' Court is opening an office for a state welfare worker here, effective Aug. 1.

Only cost to the county, Judge Parker said, will be for the rent, electric and phone bills. The offices are being air-conditioned.

The State Welfare Department will pay the salaries of the full-time male welfare worker who will be assigned here and of a part-time secretary.

Judge Parker said this will be the first time in many years the county will have a state welfare office here to handle the welfare application, which in recent years has required trips to Lubbock, Crosbyton or Spur where such offices are located.

The county judge said the court saw the opening of the office as a means of saving county tax money despite the rental and utility obligations involved.

He pointed out that if eligible welfare applicants can get on the state welfare rolls promptly it should cut down the county's welfare costs considerably.

Kelly Newman, who was graduated in May from Abilene Christian College, is the new minister of the Post Church of Christ.

He is a native of Plainview and his wife, Gail, was reared in Tahoka.

The young minister conducted services for the first time in the church Sunday and plans to be back and forth between Post and Abilene until Aug. 1 when he will move here with his wife.

Mr. Richardson is well known in the community having been a resident of Garza County for many years. He is engaged in farming and ranching in the Pleasant Valley community, where he is active in 4-H club activities and community improvement projects.

Other members of the FFA county committee are Monroe Lane and George M. Ramage.

Burglars 'hit' Post Pharmacy

A burglar or burglars forced entrance through the rear door of the Post Pharmacy sometime last Thursday night and stole \$44 in cash.

Frank Blanton, owner of the pharmacy, reported the burglary to police Friday morning. The break-in was discovered when the store was opened.

A moulding was broken loose from the rear door to gain entrance and was replaced when the burglar or burglars left.

Blanton told officers that nothing else was found to be missing.

Temperature staying below 100 degree mark

It's been mighty hot here for the last two weeks, but not in the "heat storm" class that St. Louis hit on Tuesday when the all-star game was played.

The temperature, believe it or not, hasn't hit the 100 degree mark since July 3. It's been running from a low of 92 — Sunday during the "cool wave" — to 98.

The official rain gauge at the courthouse measured .17 of an inch moisture in the light shower which fell off and on Sunday.

Rotarians hear talk by Paul B. Faulkner

Paul B. Faulkner of Fort Worth, who is conducting the gospel meeting at the Church of Christ this week, spoke before Post Rotarians at their Tuesday luncheon in City Hall on "My concerns for the way America is heading."

He discussed various aspects of what has popularly been termed the "new morality" and the "moral revolution."

"Somewhere along the line," he told Rotarians, "we need to stand up for what we believe and let the world know it."

He spoke of the need for self discipline for young people and what is happening on college campuses today.

Garza taxpayers to begin trek to courthouse July 18

The Garza taxpayers' trek to the courthouse will begin Monday when the county board of equalization will begin sessions at 9 a. m. to hear any and all disgruntled taxpayers in turn.

With the county's tax equalization and real property revaluation program going into effect, taxpayers must first check at the courthouse to see if they think they want to complain.

Due to the lack of time, new tax valuations could not be mailed out in advance of the board of equalization hearings so taxpayers will have to line up at the tax assessors' office to find out what their new tax valuations are going to be.

With the county jumping their tax valuation to \$20,000,000 — an increase of \$6,000,000 — virtually every taxpayer can expect some-sized increase.

The tax rate will not be set by the commissioners' court until after the equalization board hearings and the adoption of the new county budget. It is possible that the maximum \$1.50 tax rate will not be required this year in view of the big valuation hike.

And until all this is accomplished, the taxpayer will be unable to determine his new county taxes in exact dollars and cents.

The county's board of equalization will be in session from Monday through Friday, July 22, for landholders and will meet again Tuesday, July 26, for equalizing the value of minerals, public utilities and industries.

All board of equalization board hearings have now been set for local taxing units, but the county's is the first — and in view of the equalization program and boost in

THURSDAY, JULY 14, 1966

Sunday can be your eye opener

The open house at the new Post Public Library Sunday afternoon from 3 to 5 will be the best occasion we know for all the well-meaning folks who somehow haven't found time to stop in for a look around at these new educational facilities to do so.

You will find there in City Hall, not just a bright and shiny new library with about 2,000 books at your fingertips for your reading enjoyment, but you will find yourself in the midst of Post's first "do-it-yourself" project in a decade or two.

There you will find the results of community cooperation, the sum total of the donations of vast amounts of time, no little money and a large number of books, and the proper channeling of all this effort into a well-organized project which not only has resulted in the new library, but its operation as well.

Adult volunteers are operating the library, putting the books on the shelves, keeping the necessary records, planning step by step as they go for an even brighter future. They have organized small youngsters for weekly story telling hours to interest them in books and broaden the whole outlook of their lives. They are organizing the older youngsters into reading clubs, also to promote their enjoyment and education through reading.

This is just a start. If the spirit remains and the organization retains proper control, there is no limit to the heights of community improvement this young library can attain.

You will be amazed at the efficiency of the volunteers. They know their jobs well simply because they love their work. We doubt if any project could have been found which will offer greater future rewards to this community than your Post Public Library.

If you haven't been a part of the library movement, here's your chance to step in and join with the many already at work. Attend the open house Sunday afternoon—and open your eyes to the broad and new horizons which are there for you in the pages of many, many good books.—JC

Making an effort usually pays off

For those people willing to "make the effort," the effort usually pays off.

The business man who hustles, keeps his store clean and attractive, his stock up, and his prices competitive may not do all the business he would like to some years, but he doesn't go hungry either.

People like to trade with those who "make the effort," who are always courteous, pleasant, and quick to serve.

Exactly the same principal or psychology applies to communities as well as people.

It's the town that is clean, attractive, and hustles to welcome strangers and customers that sticks in people's memories.

Sometimes it isn't easy to hustle around and be cheerful about it. Most towns these days would like nothing better than to bolster their economic picture with some new small industry. Most of them make the effort, too—at least for a while.

But "a while" isn't enough. We've got to keep digging and hustling all the time to make "the effort" pay off.

It's easy to become discouraged. Discouragement leads to cynicism and that of course leads to a hopeless, do-nothing attitude.

Post can try a lot of new things if we have the mind to try. Did you ever stand on the corner at Main and Broadway for ten minutes and count the cars that bolt up and down the highway day and night, day and night.

In these days of the highway by-pass, this continuous flood of cars containing people going someplace, or coming back, is real local opportunity. There are any number of ideas which could be tried to stop more of those folks.

Post has a rodeo coming up next month.

That's about all the community does each year anymore in the way of a celebration. The Fourth of July holiday last week was a "nothing" here as far as the town was concerned. It's been a "nothing" for many years. Neighbor Snyder, of the south got busy last week and held a Fourth of July celebration which drew 10,000 folks together.

That's hustling.

The search for industry goes on here as elsewhere. Maybe most folks aren't aware of it—but it does. Each year the Chamber industrial committee gets one project or two awfully close to the reward point. Nothing's happened, you say. That's true—but it takes an awful lot of effort and there is some luck also involved. One of these days, one of these projects is going to "hit."

Hustling at the community level requires a lot of individual effort and a whole lot of cooperation. It needs the support of not just a few committees, Chamber officers and directors and officials—but of everyone. It feeds on ideas and suggestions.

It needs a real community-wide "carry through" when something is organized.

It's time for Post to throw off its defeatist attitude, too widely held, and get on the ball and hustle. Strangely enough, Post's community reputation to the outsider is far better these days than to the local citizen.

That's awfully wrong. Our attitude need changing. And with it must come a spirit of determination, cooperation, and hustle and a general understanding that now, tomorrow, and all the time it's "worth the effort"—JC

What our contemporaries are saying

The trouble with ministers, when they have trouble with home repairs, is that they don't have

the proper vocabulary to go with it.—The Douman (Wis.) Index.

THE ANNUAL round of vacations is starting here at The Dispatch office, which means that until they are over and done with, each of us will be "doubling up" to do the work of whichever one of us happens to be on vacation. Corkey Ammons, the back shop foreman, started the vacation round off this week, which means that I'll be doing back shop duty until he returns, and which also means that I'll have to get this column out of the way in a hurry so I can go back and get at it.

So, everything considered—and since I haven't had time to give any thought to a column—I'll borrow any and every thing I can use from some of The Dispatch's newspaper pals from over the area. We in the newspaper business are always glad to do one another a good turn, even when we don't know we're doing it.

SPEEDY NIEMAN of the Slaton Slatonite (I've got to remember to ask him sometimes how he acquired that nickname of "Speedy") writes this week that a word to the wise should be sufficient; and that, as he has pointed out before, citizens should be very cautious about doing business with "Fly-by-night" operators.

"I always appears to be a real bargain," Speedy writes, "when these types of people breeze into town, make a quick pitch and leave with the money. Often, however, it turns out that it's not much of a bargain for the local buyer. You can depend on your local merchant. You get what you pay for!"

In the Lynn County News at Tahoka, Frank Hill, in his "Printer's Ink-Lings" column, answers an oft-repeated question: "Some Republicans, a lot of Democrats, beatniks, some college students, draft dodgers and others keep asking 'Why are we in Vietnam?' Seems to us the answer is very, very simple: To stop the Communists—21 years late, 21 years after we started giving in, compromising, apologizing, turning tail, acting like Chamberlain or even Quisling of World War II notoriety."

THE WRITER of the "Sights, Sounds and Signs" column in the Stamford American holds forth, as follows, on a timely topic: "A news story in the Ralls Banner the other day told of a Little League game being officiated by mothers. I know this is just one more job for the woman of the house, but the idea has possibilities."

"Any mother who protests too vigorously that Little Johnny didn't get a fair deal might be given a chance to umpire at a game."

"Come to think of it, why limit this to mothers? Why not include the loud-mouth men who give team managers and officials so much static?"

Plains, county seat of Yoakum, gets lots of "dry" traffic on the "refreshment run" to Bronco, just over the state line in New Mexico. So, Harry W. Cayce, editor of the Plains Record, writes as follows in his "Cayce's Corner" column:

"It looks like the state boys from the Hootch Association here having a bit of luck. We read in the Brownfield paper where the frame of the courthouse shook at its seams when application was made to end prohibition there. The same thing happened in Whiteface last week. Do you suppose the boys are eyeing Yoakum County for a little bit of research? If they did, it would sure hurt the gasoline sales here and would relieve the west-bound traffic problem to the state line."

BUFORD F. DAVENPORT of the Abernathy Review no doubt felt the same way many other drivers have often felt when he wrote in his "Talk in Print" column:

"This may cost me my car insurance, but I'll admit to the fiendish desire at times to jerk the stick in reverse and cram the accelerator to the floor. I have this seizure only when the impatient nut behind me stands on his car horns when I am stopped for a traffic sign or light or a pedestrian."

Troy Morris, with whom I used to exchange editorial brickbats (mostly in fun) when he was editor and publisher of the Ropes Plainsman and I was editor of the Brownfield News, is on the news staff of the Hockley County Herald at Levelland now, and is still taking pot-shots, to-wit:

"We've had our problems on the 4th of July since it was first celebrated—there always has been a certain number killed and injured. In those good old days before the auto there were run-aways in which people were injured and killed. I was just a kid when a horse ran away on the courthouse square of Stephenville and killed a young lady when the buggy turned over—someone threw a firecracker at the animal... on another occasion I stood on the sidewalk and watched a man get his hand

COW POKES

By Ace Reid

See, it ain't no trouble teachin' an ol' hoss to load. Jist gotta have patience!

Patience is the art of waiting gracefully, but you don't have to wait long in our bank for prompt, friendly service.

July is 'Land Bank Month,' 50th anniversary of the Farm Loan Act

For some 496 people who make their living from agriculture in Lynn, Garza, and Borden counties, July will be a month-long testimony to the fact that they—and most other farmers—have turned out to be good businessmen.

It will be "Land Bank Month," the 50th anniversary of the Farm Loan Act which helped put farming on a business basis in the U. S. for the first time in history. Farmers at last were able to borrow money on reasonable terms and put it to work as a production tool.

Ross Smith, manager of the Federal Land Bank Association of Tahoka, said that farmers at the turn of the century were regarded as poor business risks. "No one would lend them money to operate the way a businessman must if he is going to grow and contribute to his community," he said. "Interest rates for farmers were twice as high as for the city businessmen, and the loans were for very short terms."

"Three Presidents—Theodore Roosevelt, Taft and Wilson—studied the problem, and finally the Farm Loan Act was signed by Woodrow Wilson on July 17, 1916. This Act created the Federal Land Bank System, through which farmers could make long-term low-cost real estate loans from their own organizations."

The Federal Land Bank Association of Tahoka was created in 1919. It is one of 73 associations in the Federal Land Bank district of Houston, which is one of 12 Federal Land Banks that serve 50 states. "Altogether," Mr. Smith said,

"the Federal Land Bank System nationally has loaned its farmers members more than \$12 billion. The Land Bank of Houston has loaned Texas farmers more than 1.1 billion dollars." "Not only have farmers proved to be outstandingly good loan risks, Land Bank foreclosures are at most unheard of today—but, given money to work with, they have proved to be production geniuses of a quality rarely found anywhere in American business, Mr. Smith said.

"There are half as many farmers today as there were 50 years ago, and they're feeding the population that has doubled in the century," he said. "They're among the greatest users of technology the world has ever known. Anyone who doubts it should visit the modern farms today."

"What goes on there—in the breeding, feeding, and other production techniques—makes most of the rest of us look as if we are not the farmers are living in the horse-and-buggy days."

"I don't know of another industry in the country that is producing today with 1915 methods of selling—for most part—at 1955 prices."

Mr. Smith said that 496 farms currently hold Land Bank loans. The three counties his association serves. Most of the loans have been used to expand, improve or modernize farm land and equipment. The largest category of borrowers (who are also members of the Association) produce corn. Second are producers of grain and livestock.

Burlington Industries accents fabric colors in fall fashion event

Colorful apparel fabrics by 21 designers of Burlington Industries were previewed for the nation's press July 6 at a fashion show in New York.

More than 200 women's and fashion editors from throughout the United States attended the Burlington show held on the sound stage of a Manhattan television studio. The show is a featured event during the New York Couture group's "Press Week" schedule.

Themes of the show — color and new fashion significance — tied with the textile company's expanding impact on families throughout America via national television advertising — which includes the new color series, "ABC 67," to be co-sponsored by Burlington this fall.

Fashion show scenes, named for famous TV spectaculars, reflected styling trends in a cross-section of apparel by more than 60 clothing manufacturers.

The annual value of shipments from primary timber manufacturing plants in Texas is \$211,700,000, according to a report by the Texas Department of Commerce. The value of shipments annually from secondary manufacturers is \$114,500,000.

The Lawyer

IN ALL AGES lawyers have been the highest type of citizen. All public officials—guardians, executors, administrators and others—who handle money belonging to other people, are required to give bond—all except lawyers. Every year lawyers handle billions of dollars of other people's money faithfully without bond.

When the city of San Francisco was destroyed by the great earthquake of 1906, the books and records of the Bancroft-Whitney Company, a law publishing firm, were destroyed. The company published in the newspapers an open letter stating that the lawyers of America owed it \$300,000, that all records of that indebtedness were lost, but that the money was needed for the firm to stay in business. Thirty-two years later the company published another letter stating that all of that indebtedness had been paid except \$20,000, and payments were still being received on that account. Such a record for honesty cannot be matched by any other people in the world.

In every struggle for liberty, justice and right, the lawyer has been in the lead. In 1215 at Runnymede the people of England forced King John to sign a guarantee of their liberties known as Magna Carta. The man who drafted that instrument was a lawyer, Thomas Jefferson, who wrote the Declaration of Independence, was a lawyer. Roger Williams, who founded the Colony of Rhode Island, established the first Baptist church in that colony if not in America, and wrote the first charter of religious liberty in the world, was a lawyer. Sam Houston, who helped declare the Republic of Texas free and independent, and who commanded the Texas army of 500 which defeated Santa Anna's 5,000 in the open field at San Jacinto, was a lawyer. Abraham Lincoln was a lawyer. Mohandas Gandhi of India was a lawyer. Francis Scott Key, who wrote "The Star-Spangled Banner," was a lawyer.

Some of the greatest names in literature have been names of lawyers. Robert Louis Stevenson was a lawyer.

This essay by M. L. Hankins, a favorite of Mr. Cooke's, is published by the Garza County Bar Association in memory of our friend and fellow attorney.

Safety recognition to water district

The management and employees of the White River Water District has been awarded an "Award of Merit" from the Southwest Section Safety Committee of the American Water Works Association for completing a full year's operation without a lost-time injury.

"Safety is an important aspect of the water utility business and you should be justifiably proud of the record which earned this recognition," Mel C. Binney, chairman of the Southwest Section Safety Committee wrote in presenting the award.

"It represents a fine level of employee morale since records such as this cannot be earned without the wholehearted cooperation of each and every employee.

"The safety record compiled nationally by the AWWA for water utilities shows that we have a long way to go to improve our safety programs," Binney said. "The record is not as good as those of other types of utilities and industry in general. Therefore, you are deserving of additional commendation because you are demonstrating to others in the water utility field that it is possible to conduct our operations in a safe manner."

Teaching new farming and canning methods to small groups of farm boys and girls back around 1906 was the forerunner of the 4-H Club program supervised by the Cooperative Extension Service.

We wish to express our heartfelt thanks to all of our friends, relatives and neighbors for your kindness and concern shown us for our loved one. Your prayers, cards, visits and all the food brought in at the first until the last, the many deeds done in God's name, the many flowers were all deeply appreciated. Southland coach has a happy 'fishing Fourth'

By MRS. EDMUND WILKE
First let me say "thank you" to each of you that stopped and told me that you missed this column last week. Hope you all had a nice 4th of July. We did.

One family that I know had a good time was Coach and Mrs. Bob Dyess and children who went to Lake Hubbard for a little camping and fishing. Coach caught a 4-pound black bass on his rod and reel. Oh boy, when he called and told me I just about had a fit! I hope this will happen to me someday! Coach was just thrilled to death about it!

Mrs. Nellis Mathis will attend the Mathis reunion Sunday at Mackenzie State Park. All friends and relatives are welcome.

Mrs. J. F. Rackler spent Tuesday night with the Claude Ropers. Mr. and Mrs. Clyde Bowman and two daughters, Linda and Nettie, of Murfreesboro, Tenn., visited last week with Mr. and Mrs. J. B. Rackler. They returned to their home Friday.

Visiting in the home of Mrs. J. F. Rackler on July 4 were Mr. and Mrs. Claude Roper and Miss Neida Roper. Mr. and Mrs. J. B. Rackler and children, Mr. and Mrs. Clyde Bowman and Miss Vickie Rhoads.

The J. B. Rackler family and their Tennessee guests went on a tour of Carlsbad Caverns a week ago Tuesday. Mr. Bowman is the brother of Mrs. Rackler.

A son of Mrs. Susie Bradshaw is visiting her from California. Robert Lee Hagler has been confined to Methodist Hospital and underwent surgery Monday morning.

Mr. and Mrs. J. B. Rackler and Beverly, Mrs. J. F. Rackler's and the Clyde Bowman family were supper guests of the Claude Ropers Thursday night. Also visiting the Ropers was their grandson, Mike Stiel, of Lubbock.

Mrs. Ona Raymond and grand daughter visited Mr. and Mrs. Claude Roper Thursday.

Mrs. C. Dearth and Becky returned to their home Saturday after visiting Mr. and Mrs. Noble Wynn.

Mrs. J. B. Rackler and Beverly left Monday morning with a group to attend the West Texas Baptist camp at Lake Brownwood.

THE REV. and Mrs. Tommy Wilson and Tommie Jean, have been in Dallas where he has been attending Perkin's Theological Seminary at SMU. Filling the pulpit in his absence at the Southland Methodist Church have been Lee Vardy, John Morris and Mrs. Rush Wheeler, all of Slaton, and the Revs. J. C. Crawford and H. H. Hunt of Lubbock. I know the congregation appreciated these different people coming to speak to them. It is wonderful when people take time off from their busy lives to go out and do things for other people.

Mrs. KENNIE DUNN is home from the hospital and doing fine after her recent surgery.

Miss Sue Oats, daughter of Mr. and Mrs. Jay Oats, former residents of this community, is touring Europe this summer. She teaches in the Lubbock school system.

Bill Winterrowd of Amarillo was a weekend guest of the Paul Winterrows.

Copperhead snake uses
'Old Hat' trick with
couple out on picnic

MINERAL WELLS — A copperhead snake enacted the "Hat Trick" when it was engaged in friendly joust with picnickers at Camp Walters, according to Game Warden Mike Morris.

The "Hat Trick", folks, usually applies only to the game of hockey when a player makes three goals in one game.

Here's the reptilian version of that feat on ice skates:

A woman found the snake. Her husband, considering himself an expert, was demonstrating that the creature was harmless. The wife looked closely to confirm and was bitten on the fact. The husband was nipped as he was hurrying to the hospital to confirm the "harmlessness".

A hospital physician recognized the snake as a two and one-half foot, able-bodied copperhead too first Texas snake "Hat Trick" of late to avoid being tagged as the 1966. But all hands recovered to enjoy the "joke" — later.

How do we read
prescriptions?

According to some of our customers, prescriptions aren't written—they're doodles. Yet your pharmacist looks at the cryptic scribbles and calmly reaches for a bottle. The right bottle. Prescriptions are written in a special international language known to physicians and pharmacists... a kind of universal, standardized shorthand that's grammar and penmanship-proof. It exists so any registered pharmacist anywhere can fill your prescription accurately. That's how we're always able to give you just the drug your physician prescribes, and why the directions are always correct. We are pleased to serve you whenever prescription medication is required.

admission charge, but that no action upon it has yet been taken.
He expressed the appreciation of the directors for the information on public feeling about the lake admission charge from the Crosby-ton group.

DIRECTORS closed their monthly meeting with a thorough discussion of the district's financing and its ability to meet upcoming bond and interest payments.

O'Brien told directors that the district operated for its first full year for \$6,000 less than had been budgeted for the year's operations.

He said the district had \$138,950.75 in principal and interest coming due July 10 on its \$4,300,000 bond issues and that he had sent enough money to Dallas prior to the meeting to cover these payments. He said \$46,878 was taken out of water revenues for the payment and \$72,514 from the district's tax account.

O'Brien said \$88,990 on interest will come due in January, 1967, and that this can be paid for entire from the tax account.

He said the interest and principal payment on July 10, 1967, will be \$140,000.

HE EXPLAINED that the district can expect approximately \$140,000 in gross water receipts during the next year and should have \$70,000 accumulated in its tax fund by July of next year if tax payments hold up at the present percentage of payment.

But he pointed out that he district spent approximately \$60,000 for its operations this year and probably will need another \$10,000 for operations next year.

If \$70,000 is needed for operations next year — in the new budget now being prepared — this would leave only \$140,000 to meet the \$140,000 bond and interest obligation providing tax and water income holds up.

The possibility that some recreation money may be needed to meet the bond payment in July, 1967, was indicated unless a tax increase for the district is voted.

Directors were asked to think over the financial picture prior to the August meeting when the tax rate will be set. There was no visible support for any tax boost among directors.

IT WAS pointed out if Ralls can be supplied water by the district for the coming fiscal year it would provide \$30,000 in additional water revenues. Ralls has not been supplied water up to now pending the filling of the lake to a greater capacity.

This too may come up for decision next month, especially if new rains in the meantime bolster the lake's water supply. Dr. A. C. Zimmerman commented that "no one Ralls on either side would drain the lake level over six inches in the coming 12 months."

Directors have been hesitant of taking action even though the revenue is needed, until given the go-ahead by the engineers.

The board at its June meeting authorized expenditures of \$600 from the district's recreational fund to help pay the cost of a feasibility report on construction of a golf course on the lake shore.

Also at its June meeting it voted to increase the budget of the "summer play" to \$100,000, with in front of the door as a part of about \$18,000 would make the lake level for this year and which the lake to fill because the lake capacity from 38,000 to 47,000 acre feet.

Attending the session from that were Dr. Zimmerman, James Moore, directors, and Publisher Jim Cornish.

We'd bet local householders haven't realized what makes this summer so different from all the other summers, hot as they always are, which has gone before it. It's simply that Post for the first time has no summer water shortage. True, White River water has been with us a year now, but it wasn't hooked up in 1965 until the town was within a few gallons of being completely out of water. We noted in the nearby daily yesterday that the power situation over the U. S. is now termed critical due to excessive cooling demands caused by the current heat wave. But that's no worry here, according to Glen Barley. "We've got plenty of juice," the Southwestern Public Service manager told us yesterday. "Just keep those coolers running."

Teen-Age invitational tourney opens here July 25

Six teams enter meet sponsored by Jaycees

The Post Jaycees will sponsor the Post Invitational Teen-Age Baseball Tournament here on the Babe Ruth League diamond during the week of July 25.

Tournament Director Frank Blanton announced today that six teams will compete in the double elimination affair.

EITHER THE LUBBOCK Bell Checks or the Lubbock Autos, Slaton, Floydada, Lockney, Cotton Center and Post have accepted invitations. Only disappointment on the part of the Lubbock Bell Checks was the failure of the uninvited Petersburg team and the Denver City club to accept invitations for the affair and round out an eight-team field.

The Lubbock Bell Checks, who headed the Post Teen-Age club one of its only two defeats this season with a one-inning rally here last week, will be the Lubbock entry unless the Checks win the district tournament this weekend.

In that case, the Lubbock Autos, another crack Lubbock Legion club, will replace the Bell Checks in the tourney line-up. The Autos and the Checks tied for first in League district league play.

Little League meet, July 22-23

Dates for the Little League district tournament here have now been set for Friday and Saturday, July 22-23. Charlie Cooper, president of the Post Little League, announced this week.

All-star teams from Post, Slaton, Lamesa and Tahoka will participate in the event. Post will play Lamesa in one first round game Friday night, July 22, with Slaton and Tahoka clashing in the other first rounder.

Besty all-stars from the local league are working out regularly in preparation for the tournament competition. The squad will be trimmed to 15 players.

It will be the first district Little League tourney ever held here, the week at Detroit.

In State Sports Spectacular

Post girls win only points

Post girls scored the only points for the local track team which competed in the Texas Sports Spectacular held at Lubbock last Thursday, Friday and Saturday.

The Post girls team, composed of Sharon Windham, Karen Windham, Sherry Bird and Nancy Hart placed third in the 440 girls relay and Sherry Bird finished fifth in the broad jump.

Local entrants competed in both golf and track with local merchants sponsoring them in the big sports extravaganza. Sending the local team was a project of the Post Jaycees.

Competing in golf with sponsors listed in parenthesis were Jimmy Bartlett (Harold Lucas); Mark Clayton (Caprock Liquor Store); Larry Johnson (Hundley's Men's Wear); and Rodney Hopkin (Post Pharmacy).

Entrants in the track meet were David Pierce, Jay Bird, Arthur Torres, Ray Altman, Johnny McGuire, Norman Tanner, Mike Robinson, Ronnie Petty, Karen Windham, Sharon Windham, Sherry Bird, Nancy Hart and Melvin Condon.

Merchant track sponsors were Cox Lumber Co., Western Auto, TV-Appliance Co., Corner Barber Shop, Cash Implement Co., Jackson Bros. Food Locker, Wright's Texaco Service, Judy's Cafe, J. B. Potts, Martin's Department Store, Corner Grocery & Market, Garza Auto, Phillips Quick Service, City Shoe Shop, Hudman Fur Hure Co., and Bob Collier, Drug-gist.

Nine hundred young contestants from all over the state participated in the various divisions of the spectacular.

The Post Jaycees expressed their gratitude for the cooperation and help that was shown for this junior track and golf program.

Tahoka takes cup in matches' lead

The T-Bar Country Club men golfers of Tahoka got the jump on Post Country Club linksmen Sunday afternoon in the start of the two clubs' 1966 cup matches.

The visitors, aided by three local players to even up sides, won the two - ball partnership 18-hole event, 20-13 with 33 two-player teams competing.

Teams from the two clubs will meet four times during the current season. The team scoring the most points in the four matches will win the trophy.

Robert Harvick of Tahoka had the best round Sunday with a 69. The two teams will meet for the second time over the Tahoka course on Sunday afternoon, Aug. 14.

Hopkins runner-up in Reese golf tourney

Charles Hopkins, Post golfer, was runnerup Sunday in the Reese Invitational Golf tournament played over the Reese AFB course in Lubbock.

He was defeated in the finals by Lubbock's Johnny Rogers, 4 and 3, in match play competition.

Sunday morning, Hopkins defeated one of Lubbock's best golfers, Melvin Beet, 1 up in the semi-finals. This closely fought match saw the two golfers total nine birdies in the first nine holes of play.

George Scott, Boston Red Sox rookie and homerun hitter, got the starting nod at first, but Cash came in as a pinch hitter in the sixth. He grounded into a double play with a runner on base.

In the top of the tenth with a runner on second and none away he fled to centerfield.

The pitchers were as hot as the 106 degree heat in St. Louis and the American Leaguers managed only five scattered hits and a lone run scored on a wild pitch.

Cash and his Detroit Tiger mates will be on local TV screens at 2 p. m. Saturday when the Tigers take on the league - leading Baltimore Orioles in the TV game of the week at Detroit.

NY Yankee chain releases Nichols

A disappointed David Nichols was scheduled to arrive back in Post today after being given his release by the New York Yankees baseball chain.

David phoned the news to his father, Martin Nichols, earlier this week from Johnson City, Tenn., where he had been assigned to the Yankee farm club of the Appalachian League.

He said the club had 15 pitchers and could only keep six. He is hopeful of getting a tryout with one or two other major league farm clubs and is hopeful of an Amarillo tryout with the Houston Astro organization.

Nichols, who couldn't report until the end of the spring college term, will return to Tarleton State College at Stephenville in the fall.

Cash plays in all-star game

Norm Cash, first Detroit first-sacker and former Post High athletic ace, played half of the all-star game in St. Louis Tuesday afternoon but couldn't get a hit as the American League went down to a 2-1 defeat in 10 innings.

Cash, who was voted by the league players as the second best first baseman in the league, was named to the all-star squad last weekend.

George Scott, Boston Red Sox rookie and homerun hitter, got the starting nod at first, but Cash came in as a pinch hitter in the sixth. He grounded into a double play with a runner on base.

In the top of the tenth with a runner on second and none away he fled to centerfield.

The pitchers were as hot as the 106 degree heat in St. Louis and the American Leaguers managed only five scattered hits and a lone run scored on a wild pitch.

Cash and his Detroit Tiger mates will be on local TV screens at 2 p. m. Saturday when the Tigers take on the league - leading Baltimore Orioles in the TV game of the week at Detroit.

Babe Ruth team in area tourney

Post's Babe Ruth League All-Stars, managed by Jimmy Bird, are primed and ready for the area tournament opening in Denver City Monday night.

The locals drew a first round buy and will see their first action at 8 p. m. Tuesday against the winner of the Lamesa - Slaton first rounder Monday night.

Other teams in the area meet are Brownfield, Tri-Cities and Frontier, the latter two of Denver City and Morton.

Post's Teen-Age club sweeps to three wins

Post's Teen-Age team, managed by Pat Walker, rang up three more victories during the past week to stay within one game of the league-leading Petersburg club with the return showdown clash between the two now only a week away.

Post will take on Petersburg at Petersburg next Thursday night in the final game of their league slate and a victory against their undefeated foes would knot the league race on the final night and force a championship playoff.

BUT BEFORE THE Petersburg game, Post must play Abernathy here at 8 n. m. tonight and Roosevelt at Roosevelt Monday night and win them both.

It still looked like a two - team race this week as Post defeated Idalou, 8-1, at Idalou last Thursday night, shutout Roosevelt here Friday night, 9-0, and overpowered Shallowater, 23-3, here Monday night in a game held to five innings by its one-sidedness.

Outfielder Joe Hudman was the Post player nobody could seem to keep off the basepaths this week.

In 10 trips to the plate in the three games, Hudman socked two homeruns, a double and a single. He walked four times and got a life on an infield error once. Only once did he bounce out over the three-game stretch.

He cracked his first homer with one on in the sixth inning against Idalou and banged his second in the fourth inning of the Roosevelt game with two away and the bases empty.

MANAGER Walker got route-going performances from three different pitchers during the week.

Against Idalou, Clyde Cash gave up six hits, but held down a 9-0 shutout in the seven-inning contest.

Filemon Vargas struck out 18 and permitted only two hits—singles in the first two innings — as he shutout Roosevelt Friday night while his mates were unloading 17.

CALIFORNIA GUESTS Guests in the home of Mr. and Mrs. Bobby Gordon last week were her brother-in-law and sister, Mr. and Mrs. W. R. Clark and children of El Monte, Calif., and Mr. and Mrs. H. P. Askins, Buckley and Nancy of Lubbock. Nancy accompanied the Clarks home to California.

hits for their most robust attack of the week.

In the 23-3 victory over Shallowater, Doyle Nichols went the route, granting only four hits and striking out 10 in five innings. Post picked up ten hits in this one, but put 13 more runners aboard via walks and six others via errors.

For the three games, Post batted .314 as a team in chalking up their triumphs, getting a total of 27 hits in 86 official at bats.

THE IDALOU game last Thursday night was the best of the

three. Post held only a 2-1 lead until they exploded for five runs in the bottom of the sixth on a single hit — Joe Hudman's one-on-homer. Five got aboard during the inning on walks.

They added an insurance run in the top of the seventh on three walks, a double by Duke Altman and a hit batsman.

Post got its first two runs in the fourth without a hit on a walk and three infield errors by Idalou.

Post scored in every inning against Shallowater when they gained 15 runs on only four hits.
