By CHARLES DIDWAY

THE BIG EVENT of the coming week is the annual membership banquet of the Post Chamber of Commerce, and C. of C. officials are of the opinion that there'll be an unusually large turnout for this year's affair.

IN ADDITION TO representatives of many of the 102 member firms of the organization, there'll be a number of guests, including some of the Post Lions not holding membership in both groups. When the C. of C. officials learned that the Tuesday, Feb. 7, date conflicted with the Lions' meeting, they solved the problem by inviting members of that club to attend the banquet as special guests.

THAT'LL HELP SWELL the size of the crowd, and the fact that the widely-known Dr. D. M. Wiggins is to be guest speaker will draw several members who otherwise might not have attended. At least that's the way some of the C. of C. officials have it figured in predicting a larger-than-usual banquet gathering.

SPEND TODAY nursing your little troubles and tomorrow they will be big enough to walk.

OVER AT THE county tax office they've announced that again this year no "special" license plate numbers will be issued. But the first tag coming up is pretty "special" since it's No. 2000, and we're anxious to learn who gets it. This column is being ground out too early to know, but if you'll turn to the front page there'll probably be a story there about the first tag purchaser, who as first-come-first-served, will own tag No. 2000.

IT'S A WISE thing to be satisfied with your lot, even if you don't have a lot.

"PLAINS COTTON GROWERS" was the name selected by directors Friday for the organization formed early last week at a meeting in Lubbock, Garza County cotton farmers and businessmen were well represented at the organizational meeting, and apparently are going right down the line with those from 22 other counties in working on any cotton problem of common interest.

THE BOSS SAYS one of the things that worry businessmen is that they have so many unemployed on the payroll.

APPLYING AT THE accounting department for his first job, the recent high school graduate was momentarily stymied by a question on the application blank which read: "What machines can you operate?" He thought a moment, then wrote: "Slot and pinball."

NO, MA'AM, THE Citizens Advisory Committee appointed a few weeks ago by the school board isn't "dead" just because you haven't seen anything about it in the paper. The Committee, we are happy to report, is working on projects which aren't quite news just yet, but which will be before long. Does that answer your question?

"YOU'VE GOT TO hand it to the income tax people," says a neighboring editor, "other-

Roger W. Babson Writes This Week:

As Long As There's Cash In Bank, Partners In Both Business And Marriage Get Along

BARSON PARK, Mass.—Most people seem content to live from day to day irrespective of their pocketbooks. Governmental "womb-to-tomb" social security has caused people to take lightly problems of unemployment and old-age security. Most young people give little or no sound thought to their financial futures. They, therefore, never get even the few dollars necessary to get themselves started on the road to successful investment. Surely, the birds who build their nests (homes) before they raise their young set us a good example.

My father used to tell me that a man who systematically spends less than he gets, automatically becomes an employer; while a man who spends all he earns, automatically remains a wage earner. Father insisted that the business of saving had nothing to do with how much much a person had, or the amount of his salary. "Some people with very large incomes never save anything," he used to say.

It has been my own observation that partners in business and partners in marriage tend to get along well as long as there is plenty of cash in the bank. It is when the bills come in, and there is no money with which to pay them, that trouble begins. The only way to assure financial or marriage success is to tell your dollar where to go instead of asking where it went.

Main Investment Problem: Saving Your first step in an investment program is to save some of your income each week. The next step is to make your savings produce some more income. I am a firm believer, however, that it is cheaper to pay the grocer than the doctor; hence a budget should be drawn up which puts first things really first. Many of my clients tell me that they are handicapped by spending too much on rent, or its equivalent in taxes, repairs, insurance, etc., on property owned. The best thing that could happen in many households today would be to cut down household labor costs by getting the children to help more with household

BOY SCOUTS' BIRTHDAY

The Boy Scouts of America observes 46th birthday during Boy Scout Week, Feb. 1 to 12, with its membership at an all-time high of 4,100,000 boys and adult leaders. Since more than 24 1/2 million Americans have shared in its leisure-time program. There is scarcely an American family that does not know Scouting first hand.

This certainly holds true in Post, the site of the C. W. Post Memorial Scout Camp, where every year hundreds of Explorers, Boy Scouts and Cub Scouts come for summer encampments. Right at our back door we have one of the largest and most modern Scout camps in the country.

To mark this 46th birthday the Boy Scout organization launches a four-year program with the theme "Onward for God and My Country."

The Boy Scouts of America seeks "through organized and trained man power to give an increasingly better program to an increasing number of the nation's youth," says Dr. Arthur A. Schuck, Chief Scout Executive, and to "help today's youth to 'Be Prepared' as citizens of character, to be prepared in body, skill, spirit, will, and as a member of a team."

The Chief Scout Executive feels that this program is launched at a time when it is evident that increased emphasis on our freedom of life is important. For the safety and welfare of the United States, he holds, a patriotism of the highest type is essential, a patriotism built on a firm spiritual foundation.

"As Scouting now influences the lives of three million boys," he says, "we must help them to the realization and acceptance of God as the guiding power of the universe. We must interpret and find additional methods to help a Scout in his own religious life to fulfill his obligation to God as stated in the Scout Oath and Law."

The "Onward for God and My Country" program also seeks to give youth opportunities to develop physical fitness, self-reliance, a sense of personal responsibility, a spirit of helping people, a willingness to share, and an understanding of government's democratic processes.

It is a program worthy of the support of all Americans interested in youth.

wise they'll come after it."

WE WISH to thank Mrs. Scogins, Justiceburg school teacher, for inviting us to the art exhibit and program at the school last Thursday morning. We regret that we were unable to attend on account of Thursday being one morning of the week that none of us are able to get away from the office for any appreciable length of time on account of it being press day.

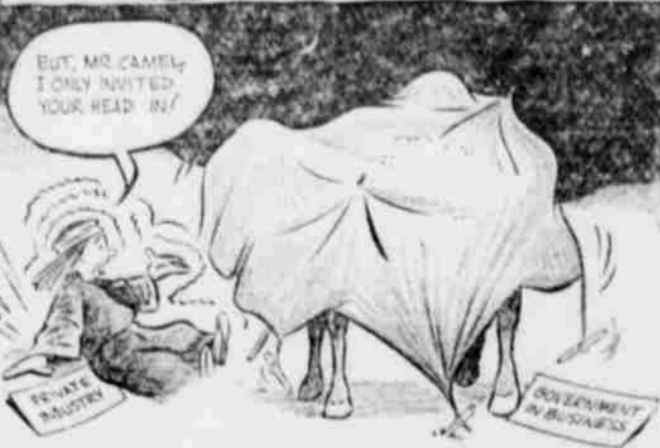

FOR THE FIRST time in two weeks, the Post Antelope basketball teams will play at home Friday night, taking on the Spur Bulldog cagers in District 5-AA contests. If you haven't yet been out to see this season's editions of the "A" and "B" boys' and girls' teams in action, you oughta come out Friday night. The Post teams aren't setting the woods on fire, but they're staying close enough—when they don't win—to make each game interesting.

Plan For Saving And Investing

A study of the average man's financial independence is generally shocking to most people. About 30% of the men 55 years of age are not self-supporting. The real tragedy of this situation, as I have seen it, is that the average man made enough money between the ages of thirty and fifty to keep himself and his family in comparative ease for the rest of his life. He just never got around to a definite plan of saving and investing. Does it not seem senseless for you to work hard the best part of your life to get a few dollars if those dollars earn nothing for you after you get them? It is highly important to learn early in life how to budget, save, and invest.

Important capital is created only by labor and saving; those who consume less than they produce turn their surplus back into productive channels to increase the nation's store. Investments, plus bank deposits, are the way in which capital is increased. Increased capital means increased production. Greater production means more wealth. More wealth means more to be distributed among those who take part in production. Greater production means more consumable goods and services at lower prices for all of us. This is the democratic way of raising our standard of living.

A Friendly Gesture Misunderstood

When the check or money order accompanies the ad, we don't accept advertising for addressing envelopes at home, learning to write salable fiction in one easy lesson, or other get-rich-quick schemes.

For that reason, I am glad to go along with the government which recently tipped off the buying public on ways to avoid the "10 worst buys."

- 1 cup FRIENDLY WORDS
2 heaping cups UNDERSTANDING
4 heaping teaspoons TIME and PATIENCE
Pinch of WARM PERSONALITY
DASH OF HUMOR
Instructions For Mixing:
Measure WORDS carefully. Add heaping cups of UNDERSTANDING. Use generous amounts of TIME and PATIENCE. Keep temperature low—DO NOT BOIL. Add dash of HUMOR and a pinch of WARM PERSONALITY. Season to taste with SPICE OF LIFE. Serve in individual molds. This recipe is guaranteed never to fail.

THIS NEWSPAPER has always made it a point to turn down questionable advertising, and you'd be surprised at the amount of it we receive each year. Even when the check or money order accompanies the ad, we don't accept advertising for addressing envelopes at home, learning to write salable fiction in one easy lesson, or other get-rich-quick schemes.

**IS HE RIGHT?**—First to call in Friday on Mystery Farm No. 35 was Robert N. Lusk, who guessed it to be Carl Fluit's farm in the Graham Community. Up to noon Monday, no one had called at the First National Bank for the picture of the farm, which is the only way identity can correctly be established. If Lusk's guess is correct, he wins a six-months subscription to The Post Dispatch—if not, some-

one else still has time to make the right guess and win the subscription. Take a good look at the farm above and see if you think it is Carl Fluit's, or somebody else's. Mystery Farm No. 35 appears on page 2. Guesses on it will not be accepted until 1 o'clock Friday afternoon, but you can guess on the farm pictured above at any time after you receive your paper.

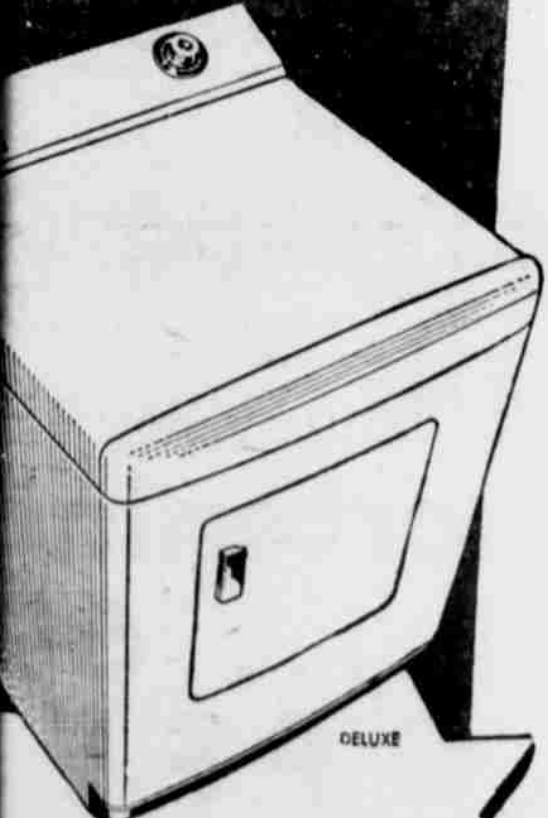

## Band Instruments Are Needed Here

Lack of instruments is seriously retarding the band program in the Post schools, according to Ellis M. Mills, junior high school principal, and Roy Silvey, band director. The principal said there are 16 junior high school students who want to take band this semester but are unable to do so because there are not enough instruments. Some of the instruments now owned by the band are being used as many as three times a day by band students of age levels from the fifth grade through high school. This makes it impractical for any one student to take the instrument home with him for practice, it was pointed out. Including fifth grade beginners there are now enough of the younger students to have a junior high school band of at least 65 pieces if instruments were available. A number of junior high school students are playing in the high school band, but plans are to separate these students once the program is built up to the desired point. The principal and band director said that Post residents who have band instruments that are not being used can help speed up the program by donating, lending or selling these instruments to the band. Anyone with a band instrument which can be used by the school groups is asked to contact the director by telephoning number 571.

## Sheriff Warns Of Winter Motoring

"Be prepared at all times for the hazards of winter driving!" That was the advice given motorists today by County Sheriff Carl Rains in his discussion of the ways and means of combating winter driving hazards sponsored by the Texas Safety Association, Department of Public Safety and the National Safety Council this month. "Let's all admit that we try to take the easy way out when it comes to keeping our car properly equipped and in top condition so that winter driving is safe to ourselves and to others," he said. The sheriff stressed the importance of maintaining the car in good running conditions at all times and of having it checked regularly to make doubly sure that all things were working properly. One of the main things to remember, the sheriff continued, is that motorists have to see danger to avoid it. Therefore, windshields and windows should be kept clear at all times. "Be sure your windshield wiper and blades are in good condition and do not streak," he said. "Wipe off the inside of all of your windows and make sure your heater and defroster are working properly." Sheriff Rains urged motorists to heed the safety motto: "Be Safety Wise — Winterize Your Driving Habits."

## Knowledge Of Traffic Laws May Mean Difference Between Life And Death

"How well do you know your traffic laws?" That life-and-death question was fired point-blank at the people of this area today by Sheriff Carl Rains as the first spot in a traffic safety drive inaugurated this month by the Texas Safety Association, the Department of Public Safety and the National Safety Council. "The answer to this question will no doubt cause much disquietude among many of our citizenry," the sheriff said. "There is no doubt that the average citizen's ignorance of his own traffic laws is appalling, despite the fact that his very life may depend upon his complete knowledge of—and his use of—these traffic laws in our highly complex traffic picture. Such knowledge may mean the difference between life and death to oneself or to another person."

"Ignorance is no excuse," the officer continued. "Many traffic offenders plead ignorance of local traffic laws as an excuse for his own traffic violation. But such a plea of ignorance only adds to the burden of guilt, for I believe that any man who climbs behind the wheel of a car should first acquaint himself thoroughly with the various traffic laws of the area through which he is driving."

- The sheriff offered the following rules for safe driving:
1. Know and obey all traffic laws.
  2. Drive at a speed that is safe for conditions.
  3. If you drive, don't drink; if you drink, don't drive.
  4. Never attempt to cross an intersection unless you're sure you have the right of way. Always be ready to give up your right of way to avoid an accident.
  5. Do not pass on hills or curves, and never cut in sharply after passing.
  6. Do not hog the road.
  7. Heed all traffic signs and signals; they are the "Signs of Life."

8. Keep your car in first-class condition at all times.

FACTS and FADS around P. H. S.

The student council had a meeting Monday. The "ways and means" committee of the senior class met Tuesday afternoon.

PHS certainly misses Jim Brewer. Jim has been ill for several days. He is in Garza Memorial Hospital. We all wish him a speedy recovery. Also English class has been quite dull without him.

The PHS girls are letting their hair grow out—most of them that is.

Congratulations go to Frances Craig and Ted Tatum. They were elected Mr. and Miss PHS last week. They are both seniors.

The PHS students also miss Tom Williams. Tom, the owner of "Tom's Place" has been ill for several days. Mr. E. R. Moreland is doing a good job helping out during school hours. She's becoming quite a favorite with the kids.

Miss Moore and Mr. King, co-sponsors of the junior class, are already making big plans for the junior-senior banquet. It will probably be in May.

The seniors have chosen their play. It is "The Perfect Idiot."

## Editorial Comment...

**Vanishing Shepherders**  
Lonely camps of the sheepherder are vanishing from the crimson horizons of the Southwest and he has given the once-lonely prairies to the noisy children of progress. Half a dozen states quarreled for the privilege of erecting a monument to the cowboy, while his lonely

counterpart in the conquest of the West rolls his blanket and steps into the twilight of oblivion. The cowboy was presaged into glory, through song, in writing, the movies and now television. The sheepherder, on the other hand, has lost his slim estate of distinction. "Days of solitude and meditation are behind him; days with the winds singing in distant skies, and nights when the stars echoed prayers for a meager destiny. The hills remain eternal, his monument—"Trail Dust" in Matador Tribune.

### Needed Practice

Pete Pirutary was telling us the other day about the golfer who was about to be hung. As a last request he asked if he could take a few practice swings.—"Nearly News" in The Lamb County Leader.

### He Doesn't Like It

A farmer we know says he thinks the county commissioners had no business voting themselves a tidy raise in pay while farm income is on the way down. In fact, he went so far as to say that commissioners who voted for the raise should be defeated when they come up for re-election in the event their opponent appears to be qualified for the job. "They knew what the salary was when they ran for office and they were glad to get it," says our dissenter. Most of the county's income is derived from farm property, he says, and the idea that said commissioners should increase their salaries while farm income is down sort of sticks in his craw. We don't think he'll find too much argument with that. Not in these parts, anyway—"Main Street" in The Lorenzo Tribune.

### Hidden Moral

Mr. Bascom Giles arrived via taxicab Tuesday at Huntsville to begin serving the 14 months and 12 days which will satisfy a total of 75 years given him for theft. We recall that the boy from Crosby County who got five years in the same prison for stealing one irrigation battery arrived at the prison gate handcuffed and escorted by armed guards. There's a moral here somewhere, if you can find it!

## SWPS Company To Spend More Than \$12 Million For New Construction

Continued growth and expansion within its 45,000 square mile service area will make it necessary for the Southwestern Public Service Company to spend more than \$12,000,000 for new construction in 1956. It has been announced by A. R. Watson, executive vice president and general manager of the electric light and power company.

"Growth goes on in this territory—and so does our need to keep abreast of the continuing demands for service of our customers. Although we have spent more than \$160,000,000 in the last 10 years, we must continue our construction and expansion at a high peak to assure adequate electric power for all parts of our region," Watson said. Largest expenditure in the

company's 1956 construction program will be made at the new Cunningham Station, west of Hobbs, N. M. \$4,500,000 will be put into this new 96,000 horsepower electric generating station this year. It is scheduled for completion in 1957, at a total cost of nearly \$8,000,000.

Another \$4,000,000 will be spent for service extensions to customers, while \$2,700,000 will go for transmission line and transmission system substitution construction. New distributing facilities, the lines which actually provide the connecting link for the customer's service, will involve an expenditure of more than \$1,000,000.

Southwestern Public Service Company's investment in plant and equipment to serve its customers has increased by 400 per cent in the last 10 years, compared to a national increase by electric light and power companies during this decade of 115 per cent. As a result of this recent rapid growth, 80 per cent of the Company's equipment is ten years old or less, one of the highest percentages of new equipment in the electric industry.

### What Do You Think?

We wouldn't say anything about it for fear of antagonizing the elements to the point they would do something rash, but we want to say the present weather we are going through is as pleasant and docile as a day in June. Here we are moving along in the middle of one of winter's most treacherous months, capable of flinging rain, snow, sleet and ice at us until it is nobody's business. Yet it is dry as heck. What do you think?—"Snooper Knows" in The Stanton Reporter.

### Right Spot For TV

While mountain states communities have it all over towns like Floydada on the high plains where the nearest fishing hole is a half-day journey and the up-ended scenery must also call for a journey of at least a few miles. But for television reception we are more fortunately situated. We have in mind one community, comparable to Floydada in size, in the mountains where they hope to have television service by cable by May 1. "If enough sign up" to make it feasible. "Signing up" means contracting to take television service and paying \$150 down to help bring the cable to the nearest mountain peak from which the sound and sight impulses can be beamed into the community. The service per month, according to preliminary estimate, would be \$3.50 in that particular town.—"Views and Comment" in The Floyd County Hesperian.

## Garza Officers Are Invited To Meeting On Juvenile Crime

Garza County law enforcement officers have been invited to attend a conference on Juvenile Crime to be held Monday in Amarillo under the auspices of the Texas Police Association.

Chief of Police R. H. Rhodes of Amarillo has announced that an excellent program has been arranged and officers from cities and towns throughout West Texas will be in attendance.

Speakers on the Amarillo program, who will discuss various phases of the juvenile problem, will include W. A. Murphy, chief special agent, FBI, Dallas; Col. Homer Garrison Jr., director of the Texas Department of Public Safety; Davis Grant, first assistant attorney general; Wesley Lillard, publisher of the Amarillo Daily News, and others.

The meeting will be held in the Municipal Auditorium. Officers of all jurisdictions—city and county officials, teachers and others interested in the prevention of juvenile delinquency are invited to attend the meeting.

## SCS Will Recognize Soil Bank Plan As Old Friend With Brand-New Name

By JOHN C. WHITE

Recent proposals concerning the national farm program have given added weight to the old declaration—"there is nothing new under the sun."

The idea of a "soil bank" is a sound one. Certainly, any program which is directed towards maintaining and preserving that vital six-inch average of cover that feeds and clothes our nation is worthwhile. We have had it before.

The Soil Conservation Service will recognize the soil bank plan as an old friend with a new name. The program was almost estranged by cut-backs in appropriations and adverse policies some three years ago. Now it is being revived with a few minor changes.

The soil bank plan was one phase of President Eisenhower's recent congressional message which received the most nationwide publicity. It was advanced as a forward step in curtailing over-production and reducing surpluses. There are two sides to that argument.

Opponents of this theory point out that this same program, under the title of soil conservation a few years ago, did not have the effect with which it is now attributed. Its primary purpose was to enrich the soil so that it could produce MORE when the

land went back into production—which it eventually does. The crop lost during the "laying out" of the land was more than compensated for during succeeding years of production. Can this lead us to more surpluses in future years?

Proponents of the "soil bank less surplus" theory say it will take marginal land out of production. To a certain extent, it will. But at the same time, a great number of entire farms can be classified as marginal. These farms are not going to be abandoned entirely under this plan. Only a certain percentage of the land will be retired on a temporary basis to re-vitalize the soil.

Nevertheless, this soil bank or soil conservation program—call

## VA Questions And Answers

Q. I am going to school less than half-time under the Korean GI Bill. What will be the amount of my monthly GI allowance payments?

A. You may receive either (1) the established charges for tuition and fees paid by non-veterans for the course, or (2) a prorated amount based on \$110 a month for a full-time course—whichever is less.

Q. How much money may I borrow on my permanent GI insurance policy? It has been in force for more than one year.

A. You may borrow up to 94 per cent of the reserve value of your policy. Any VA office can determine the exact amount for you.

Q. I am drawing VA disability compensation payments. If I move, is it possible for my checks to be forwarded to my new address?

A. No. Under the law, VA benefit checks may not be forwarded from one address to another. So if you are planning to move, be sure to notify VA—and give both new and old address, full name and "C" number.

Q. I am receiving a monthly pension from VA. Recently, a relative willed me a small piece of undeveloped land. Must I consider the value of this land as income?

A. The land need not be considered as income until it is converted into cash, by selling or renting it. And even then, you may deduct whatever money you had to put into the land—for taxes, improvements and the like—in determining the net income.

## ONLY A GAME

This little girl is playing only a game... a childish little game called blind man's buff. Any time she wants to, she can whip off that blindfold in the twinkling of an eye.

But... suppose she couldn't? What if she were forced to keep her blindfold on forever?

There are many places in the world today where people are blindfolded, mentally and spiritually, and where they are denied one of the greatest of all freedoms... the freedom to worship as they will. We, who have that freedom, should guard and cherish it. For ours is the right to be enlightened.

If we don't go to Church, if we refuse to remove our own spiritual blindfolds, we have no one but ourselves to blame. Put on a blindfold, and see how it feels. Imagine what it would be like to wear it forever, over our eyes, our minds, our souls. Then, next Sunday, go to church—and find out what it really means to see!

## THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### TV Appliance Firm Sets Grand Opening For This Weekend

Grand opening of Post's newest store, the TV Appliance Center at 121 East Main, will be held Friday and Saturday, owners Hank Huntley and Ed Sawyers have announced.

Coffee and doughnuts will be served to everyone visiting the store on the two opening days. Registration will be held for a grand prize of a Westinghouse Laundromat; second prize of a Westinghouse table radio, and third prize of a Sunbeam mixer.

The new owners are originally Texans, although they have been in the TV and appliance business in Boulder, Colo., for the last few years.

Huntley was reared here and is a graduate of Post High School. Sawyers and his wife are originally of Uvalde, Tex.

Huntley has had 15 years experience in electronics and has also been employed in government guided missile work, sound system work and as a motion picture projectionist. He and Mrs. Huntley have two sons, Denny and Jimmy, who have enrolled in school here.

Mr. and Mrs. Sawyers are graduates of Southwest Texas State College and both have teacher's certificates. She has taught home economics and he has a degree in business administration.

Sawyers, like Huntley, has had years of experience in the appliance business. He has served in the Air Force and received a commission from Officers Candidate School.

John Slepicka, who is qualified by training and experience in television and radio repair, is an employee of the new firm. He is a graduate of DeVry Technical Institute in Chicago.

### Auto Turns Over Scattering Beer

Cans of beer were scattered all over the highway early Monday evening after an automobile hauling seven cases of the beverage overturned on U. S. Highway 84, just south of the Wilson cutoff.

Sheriff Carl Rains said Tuesday that a Lubbock man was driver of the automobile, which was headed north when the accident occurred. The driver is reported to have caught a ride on into Lubbock before officers arrived at the scene of the mishap.

Rains who assisted highway patrolmen in an investigation of the accident, said charges of illegal transportation will be filed against the car's driver. Six cases of the beer were confiscated. The other case was reported so badly "busted up" that the beer was thrown away.

### Escapes Injury In Highway Accident

The driver of a Fort Worth Star-Telegram delivery truck escaped injury about 3 o'clock Tuesday morning when the vehicle turned over a few miles south of Post on U. S. Highway 84.

Elery Thomas Campbell, 35, driver of the truck, told officers that the vehicle overturned after he swerved to avoid hitting a cow on the highway. The accident occurred at the Green Tank dump. Sheriff Carl Rains reported.

The truck, which skidded across the highway then ended up in a barrow ditch on the other side with its wheels in the air, was badly damaged, the officer said.

The driver of a film truck, which arrived shortly after the accident occurred, brought the driver and his newspapers on into Post.

**Antelope Teams To Clash With Bulldogs Here Friday Evening**

Post Antelopes, with a 1-0 record, play the Bulldogs here Friday night in a 5-AA game. There also is a "B" team game in the girls' game.

The girls' game is currently tied with Tahoka for the league lead—each with five victories against one Antelope varsity and "B" lost at Tahoka Tuesday night.

**Abernathy Antelopes To Spur, 61-59**

Spur Bulldogs climbed in with Tahoka for the District 5-AA lead Friday night by beating the Abernathy Antelopes 61 to 59. Two free throws in Green in the final four minutes of play gave the home team the victory.

Ensey was high scorer for the Bulldogs with 31 points on 13 goals and five free throws. Ensey scored 20 points to lead the Antelope five.

Ensey led 33-23 at halftime and at the three-quarter mark.

**Dan Mitchell, who underwent tonsillectomy in Slaton Hospital last week, returned home Sunday.**

night, while the Post girls won by a score of 62-17, with Frances Craig hitting 22 points.

Tahoka won the varsity game, 61-49, and the "B" game, 35-17. Troy Cartmill scored eight points to lead Post scorers in the "B" game. Ronnie Kennedy had four. Bill Stephens and Jimmy Redman, two each, and Andy Schmidt, one.

Following is the box score of the varsity game:

**Southland Teams Are Defeated By Cooper**

Southland basketball teams lost both halves of a District 9-B doubleheader to Cooper last Thursday night on the latter's court.

The Cooper boys triumphed, 54-49, while the girls won by a score of 87 to 58.

George Ellis of Southland scored 27 points to tie Cooper's Fred Weaver for scoring honors in the boys' game.

Muller had 33 and Davies 11 for Southland in the girls' contest.

**Post Ace Boosts Scoring To 232**

Hitting 26 points in Friday night's game against Floydada, Tommy Murray of the Post Antelopes increased his season scoring total to 232 points on 106 field goals and 20 free throws. He is averaging 19.4 points a game, one of the highest averages in District 5-AA.

Noel White maintained a firm grip on second place by scoring 19 points in last week's Slaton game and six points against Floydada. He has scored a total of 118 points—an average of 9.10 points per game.

Following are scoring totals through Friday night's Floydada game:

| Player   | G  | FG  | FT | TP  |
|----------|----|-----|----|-----|
| Murray   | 12 | 106 | 20 | 232 |
| White    | 12 | 50  | 18 | 118 |
| Ethridge | 11 | 29  | 9  | 67  |
| Hays     | 12 | 22  | 19 | 63  |

| Cato     | 11 | 13  | 2  | 28  |

**22-Point Fourth Quarter Breaks Back Of Post Antelopes In Floydada Game**

Fast-breaking the Post Antelopes dizzy in the fourth quarter, the Floydada Whirlwinds scored 22 points to break a 38-38 third quarter tie and win a District 5-AA game, 60-46, Friday night on the Floydada court.

The Post "B" team also lost, by a score of 42 to 36.

Coach N. R. (Jiggs) King's girls' team kept it from being too dismal a night for the visiting Antelopes, by scoring a 43-33 victory. Frances Craig scored 21 points for Post and Texe Kenamer had 24 for Floydada.

Except for the final quarter, the varsity game was a nip and tuck affair. The Whirlwinds led 15-11 at the end of the first quarter and 26-23 at the halftime intermission. With seven seconds

**8th Graders Win Over Cooper '5'**

The Post 8th grade basketball team came from behind in the second half at Cooper last Friday night to defeat that school's 8th graders by a score of 35 to 31.

Coach Herman F. Raphael's Post team was behind, 22-19, at halftime, but scored 16 points in the second half while holding Cooper to nine.

Curtis Didway, with 12, was high point man for Post. Richard Cornett had 10.

Following is the Post scoring summary:

| POST 8th | fg | ft | pf | tp |
|----------|----|----|----|----|
| Smith    | 4  | 1  | 0  | 9  |
| Braddock | 2  | 0  | 3  | 4  |

| Poole    | 0  | 0  | 1  | 0  |
|          | 17 | 1  | 5  | 35 |

to go in the third stanza, the Antelopes tied the score at 38-38.

In the final frame, however, Coach Vernon Ray's Antelopes were able to score only eight points while watching their fast-breaking opponents swoosh down the boards for 22.

Tommy Murray of Post was the game's high point man with a total of 26. Colley scored 24 for Floydada.

In the "B" game, Floydada led 9-6 at the end of the first quarter, 19-12 at halftime and 28-22 at the three-quarter mark. Three Antelopes—Troy Cartmill, Don Ammons and Howard Jones—shared their team's scoring honors, each with eight points.

Following is the box score on the varsity game and the Post scoring summary on the "B" game:

### February Food List Topped By Potatoes, Also Pork And Beef

COLLEGE STATION (Sp.) — Potatoes, pork, beef and grapefruit top the plentiful food list for February.

Mae Belle Smith, extension specialist in consumer education, says potatoes are being consumed in decreasing amounts because they are thought to be fattening. This isn't true, she says, for a medium sized potato contains about 100 calories. The thing to watch is the butter and gravy that is commonly eaten with the potato. Potatoes are a good source of vitamin C, contain B vitamins, iron and other minerals besides being a good energy food. They are a good food and good for you, says the specialist.

Best meat supplies for 1956 are expected to be pork, beef and veal, with veal of choice and cuts of pork and lamb also expected to be in good supply. Pork is a good source of vitamin B as well as iron and phosphorus.

Beef is still plentiful and Mrs. Smith suggests that the average man can help keep the food list just as good.

Chopped, bulk beef and ground beef are available in large quantities at prices slightly below those of a year ago and are a good buy. Other fresh vegetables include cabbage and celery. Eggs, butter, frozen milk and other dairy products, vegetable oils and the greatest butter, lard and tallow, tuna, and the plentiful list for February.

These special events also were made by AJRA members who were presenting awards to the winners of the roping contest. Mrs. W. S. Johnson, Mrs. S. C. Olin, and Mrs. J. T. Heston were the winners of the roping contest. Mrs. W. S. Johnson, Mrs. S. C. Olin, and Mrs. J. T. Heston were the winners of the roping contest.

### '55 Business Activity In Texas Establishes All-Time High Mark

AUSTIN (Sp.)—Business activity in Texas established an all-time record in 1955, increasing 10 per cent over 1954 and exceeding somewhat the increase registered for business in the remainder of the U. S., the University of Texas Bureau of Business Research reports.

"The strongest major segment in the Texas economy during 1955 was industrial activity," Dr. John R. Stockton, Bureau director, points out. "If 1956 continues the trends that developed during 1955, it is to be expected that industrial activity will supply the strongest force, tending to sustain the level of Texas business activity."

Rapid growth of the U. S. population is an important factor in inducing business concerns to plan for more capacity, the Bureau emphasizes.

"Even with no increase in the standard of living, the growing population would require an ever-increasing volume of goods," Dr. Stockton notes. "And there is no indication that the standard of living will not continue to rise, thereby giving an additional impetus to the demand for all kinds of products." However, prospects for farm income in 1956 do not look much brighter than in 1955, which registered a decline of 10 per cent from 1954. Prospects for farmers have been almost without exception since 1951, and most estimates look for a continuation of that trend, the Bureau says.

Mr. and Mrs. Don Brown, daughter of Lubbock, are in Slaton with Mr. and Mrs. E. J. Sunday.

Mrs. Roy Gilmore and Miss Rhea Hays spent the day in Slaton with Mr. and Mrs. R. A. Thompson.

**DRY ON TOP BUT WET DOWN DEEP**—Glenn Voss this week is listing land on the 97-acre farm of his stepmother, Mrs. May Voss. Glenn, who also has a 119-acre farm of his own, says

the ground is dry and hard on top but that there is surprisingly good moisture five or six inches down. It's a better deepsoil season than last year, he thinks.—(Staff Photo.)

## Dryland Farmer Is Listing Land

The afternoon was dry and windy, too warm for January, and the ground fought back stubbornly as the lister points bit into it. But the man riding the tractor wasn't in a bad humor. He even sounded a cheerful note by saying that the deep-soil season is better this year than there is good moisture down five or six inches.

"A nice little rain would put it in good shape," Glenn Voss said as he looked back over the wide expanse of dark clouds turned up by the lister points. "I'll take less rain to get the ground in shape this year than it did last year," he added.

"Oh, the ground's plenty hard, all right," he said as he said as he kicked at one of the lumpy clods, "and I'm having to use hard-surface points on my lister. Just couldn't get along without them on ground like this. I'd spend as much time sharpening points as I would listing."

Voss said he'd been surprised at the moisture he'd found at a five or six-inch depth when he pulled up some old fence posts in the field.

Voss makes his home with his stepmother, Mrs. May Voss, on a 97-acre dryland farm a few miles west of Post just off the Tahoka Highway. He also farms a 119-acre place of his own, three miles west and one-half mile north of his stepmother's farm.

Neither is Voss gloomy about the cotton acreage allotment cuts on the two farms. He doesn't like the principle of the acreage allotment reductions, of course, but he says you can't kick too much when you use just one acre on one place and an acre

and a fraction on the other. "I'm back about where I was in 1954 as far as acreage allotments are concerned," he said.

Voss says the cotton crops on the two farms have been mediocre the last few years. Both places averaged about one-fourth of a bale an acre this year and last. He plants Macna Stormproof cotton.

Dry weather has been the bugaboo on both farms. Voss said the insects haven't been bad enough even to fool with poisoning. He had to plant over once on his place last year following a hard hail and blowing rain.

Grain has been even more mediocre than the cotton. The grain crop never came up on his place, and he had to plant twice on his stepmother's farm. Voss hires a few hoe-hands

for his cotton crop, but he does all the gathering himself—by stripper.

"A man just can't afford to hire labor on a quarter of a bale an acre," Voss said.

He keeps well abreast of the local and national farm situation, and says he is optimistic over chances of the newly-organized Plains Cotton Growers helping area farmers get a better deal.

"I planned to attend the organizational meeting in Lubbock, but something came up that I didn't get to go," he said.

## Panhandle Fish Spot Renovation Planned

AUSTIN (Sp.)—Renovation of Buffalo Lake, a popular Panhandle fishing spot, will be undertaken this spring, according to the executive secretary of the Game and Fish Commission.

The announcement was made following a conference with four officials of the Federal government which created the Randall County lake 15 years ago by damming Tierra Blanca Creek. It has 25 miles of shoreline, covers about 1,000 acres and is 25 feet deep at the deepest part.

The lake will be treated with rotenone in an effort to remove rough fish so that game fish species may be restored in sufficient numbers for the heavy angling traffic.

### SANTA FE CARLOADINGS

Santa Fe carloadings for week ending Jan. 28 were 23,399 compared with 22,965 for the same week in 1955. Cars received from connections totaled 11,831 compared with 12,327 for the same week in 1955. Total cars moved were 35,230 compared with 34,392 for the same week in 1955. Santa Fe handled a total of 36,601 cars in preceding week of this year.

## Plains Cotton Growers Name Chosen For New Organization

John F. Lott and Irby G. Metcalf Jr., Garza County's directors, helped those from 22 other counties vote the Plains Cotton Growers organization into being Friday afternoon at a meeting in Lubbock.

In addition to selecting the name of Plains Cotton Growers, the 48 directors—two from each county—raised more than \$3,000 for immediate operational expenses, went on record as supporting six specific measures affecting cotton in this area, voted to establish officers, including a president, vice president, and secretary-treasurer, appointed three committees, and made plans to seek a state charter for the organization.

W. O. Fortenberry of Lubbock, who was named chairman of the group at the Jan. 24 organizational meeting, will serve as president of the Plains Cotton Growers.

### Some Grain Sorghum Planting Seed Scarce

COLLEGE STATION (Sp.) — Reports have come from farmers and seed dealers not only in Texas but also Nebraska, Kansas and Oklahoma that ordinary white and in some cases red grain sorghum seed are being sold by transit salesmen as hybrids.

Farmers and seed dealers are reminded by Jack G. King, Texas A&M College System agronomist with headquarters in Lubbock, that only a very limited supply of hybrid grain sorghum seed is available for planting this year. Most of the seed produced in 1955 is being used in demonstration plantings of from one to five acres. These demonstrations are widely scattered over the entire State and demonstrators are being supplied with planting seed.

Adequate supplies of hybrid sorghum planting seed should be available to all farmers for 1957 plantings but the supply to be sold for 1956 plantings is very small.

Finally, King says, buy hybrid sorghum planting seed only from a reliable local dealer or seed grower.

Wilmer Smith of Lynn County will be vice president, and the directors elected M. A. (Bip) Elms of Littlefield as secretary-treasurer.

Fortenberry filled by appointment three committees created by the directors—the by-laws and constitution, finance and membership and a public relations committee.

Named to the by-laws and constitution committee were Roy Davis of Lubbock, chairman; A. L. Hartzog of Farwell, W. L. (Bill) Smith of Falls, Earl Eads of Plainview and Ben Dopson of Laimesa.

Appointed to the finance and membership committee were Orville Bailey of Anton, chairman; Bill McMurry of Seagraves, A. C. Verner of Tahoka, D. E. Benham of Morton and Paul Lewis of Littlefield.

Named to the public relations committee were Wilmer Smith of Wilson, chairman; Fortenberry; the chairman of the other two committees, Bailey and Davis; and the secretary of the organization, Elms.

The directors voted to recognize the 23 counties represented at the Friday meeting as charter members of the Plains Cotton Growers and additional member counties will be accepted by the board of directors.

Directors also went on record as favoring action in working with any other state or national group on any cotton problem of common interest.

The more than \$3,000 raised Friday was done on a voluntary basis as directors instructed the finance committee to study ways and methods of financing the organization, which will be acted upon and announced later.

The group's members were unanimous in most of the specific measures they went on record as endorsing.

These six measures were: 1. The group unanimously opposes a change in the cotton staple base from 7/8 to middling inch, and furthermore opposes any legislative provision that would widen the basis in grade on any cotton below one-inch.

2. The Plains Cotton Growers are opposed to any legislative cuts in cotton parity prices.

3. The group endorsed the stand that there be no limit on the amount of cotton loan paper that any individual producer may hold from the Commodity Credit Corporation.

4. The group went on record to ask the Federal Loan Association to get more supervisors in this area to help process farm loans, since a backlog now exists and is working a hardship on many farmers in connection with planting this year's crop.

5. The group is opposed to any move to curtail cotton allotments due to the nature of sandy soil—this being of a discriminatory nature, according to the organization.

6. The group endorsed continued support of the present bill now before Congress to refund the 2-cent federal gasoline tax to farmers for on-farm use.

Directors also considered action on the 1956 cotton allotment program and heard a report from Willis Hawkins of Hart and Ralph White of Howard County, two of the plaintiffs in suits now pending in court against the Texas Agricultural Stabilization and Conservation committee.

Another vote by the directors was to have officers of the Plains Cotton Growers outline the aims and purposes of the organization and send a copy to both state and national legislative representatives.

The possibility of sending a representative to Washington as soon as possible to solicit help in agricultural measures now being considered by various committees was considered by the directors.

President Fortenberry was instructed to check on the advisability of this move and act accordingly.

### TO MEET SPECIAL NEEDS OF ESTABLISHED SMALL FARMERS

## Farmers Home Administration Is Broadening Lending Authorities

The Farmers Home Administration has broadened its lending authorities to meet the special needs of established small farmers who, due to drought and other adverse conditions, have been forced to work part-time off the farm in order to make a living for the family, Walter T. McKay, the agency's state director, announced today.

The extension of credit to these small farmers, who are in

need of credit primarily for farm operating expense which cannot be obtained from their usual source of credit, together with the income from their off-farm work, will permit them to continue farming and to maintain a satisfactory standard of living, McKay said.

These loans are short-term credit designed to help farmers finance one year's operations. Credit may be extended to farmers who are operating units no larger than a family type farm provided there is a sound basis for credit, McKay said.

This means that the anticipated gross income from farming and other sources must be sufficient to repay the loan, meet farm and home expenses not provided for in the loan and provide a reasonable margin above these amounts.

## Moreland, Yancey On Oil Committee For Two Programs

E. R. (Buster) Moreland has been appointed to head the Texas oil industry information and service program for Post and Garza County residents.

Moreland's appointment was announced today by M. C. McNichol of Lubbock, area chairman.

Objective of the American Petroleum Institute-sponsored information program is to make clear how well the people of this area are served by many oil businesses and to gain support for conditions under which they can continue to be privately managed, fully competitive and financially sound.

The local OHC will concentrate on two projects: a school program providing supplemental teaching materials to junior and senior high classes and Oil Progress Week. The latter is an October event placing particular emphasis on the importance of local service station operators.

Warren Yancey of Service Pipe Line Co. was appointed school chairman for Post by McNichol.

### BITS-OF-NEWS

Mr. and Mrs. W. A. Hummel, former residents of Post who are now living in Lovington, N. M., visited friends and relatives here Sunday.

Mrs. Barbara Schmidt and Karen from Lubbock spent Sunday afternoon with Mr. and Mrs. Wesley Northcutt and Mrs. Northcutt.

Jimmy Hutton, who is employed in Pecos, visited with Mel Pearce and Miss Jackie Mason last week.

Applications may be filed at the Garza County office of the Farmers Home Administration to determine the eligibility of applicants for these loans.

Credit is also extended by the Farmers Home Administration over longer periods to finance adjustments and improvements in farming operations.

### New Future For Your Present

How many ties did you get for Christmas? For once I didn't come up with any—could have used a couple this year, too. Instead I got three wool mufflers. Never wear a muffler.

Some people are determined to do something about the Useless Gift Problem—they're holding a "White Elephant Party" Saturday at the Community Hall.

Handy Peterson's the chairman. "Bring any presents you'd rather give than receive," he says. "Chances are you'll swap them off for something even worse—but it ought to be fun."

From where I sit, it's sometimes pretty hard to give a man exactly the present he wants. Other people so often have tastes and preferences that differ from our own—for example, think of all the people you know who claim coffee's the beverage, and all the others (like me) who'd rather have a glass of beer. Being able to make your own choice is the greatest "gift" of all.

# Post Groups To Help Launch Boy Scout Week On Monday

Post's Cub Scouts, Boy Scouts, Explorers, and adult leaders will join 4,100,000 others throughout the nation Monday in launching their Four-Year Program, "Onward for God and My Country," during Boy Scout Week, Feb. 6 to 12, marking the organization's 46th anniversary.

Dr. Arthur A. Schuck, Chief Scout Executive, says the new program seeks "through organized and trained men power to give an increasingly better program to an increasing number of the nation's youth" and to "help today's youth to be prepared as citizens of character, to be prepared in body, skill, spirit, will, and as a member of a team."

He declares it will give youth further opportunity to develop physical fitness, self-reliance, the fulfillment of one's obligation to God, a sense of personal responsibility, a spirit of helping people, a willingness to share, and an understanding of the government's democratic processes.

During Boy Scout Week plans will be completed for the strictly nonpartisan 1956 National Get-Out-the-Vote Campaign which the Scout organization is sponsoring jointly with the Freedoms Foundation of Valley Forge. Scouts distributed in 1952 more than 1,000,000 posters and placed 30,000,000 Liberty Bell doorknob hangers in their first nationwide get-out-the-vote effort. This effort was said to be an important factor in the record turnout of sixty million voters.

It is believed that four million Scouts and adult leaders can be a great influence among parents, relatives, neighbors, and others to produce another record vote this year.

The campaign seeks to instill in adults the determination and responsibility to exercise their franchise as free people and take a more active part in their government. Each Scout will have an opportunity to participate and better understand his responsibility as a citizen.

Since a major reason for not voting is failure to have registered, the Scouts' campaign will first try to get citizens to reg-

ister. Colorful posters encouraging registration will be displayed in accordance with local registration dates. Just before Election Day, Scouts and their leaders will distribute 35,000,000 Liberty Bell doorknob hangers to homes across the nation. These posters read: "Heed youths' call, as you think, but vote Nov. 1956. Use your freedom to vote."

Boy Scout Week is the largest annual single event observed by young citizens. List of the nation's 36,000 Cub packs, with 1,430,000 members, will hold blue and gold pot luck banquets with each family bringing a part of the menu. These eight, nine, and ten year old members follow a home-centered program in their homes and backyards.

Each unit will train its members in common-sense things they should do in case of fire, panic, or flood, simple things one should do for himself and his family. Interesting objects made by Cub Scouts will be shown in window displays. Cub Scouts will put on dramatizations, tableaux, and pantomimes, based on Cub Scout ideals, the history of Scouting, and persons important to its progress.

Most of the 54,000 Boy Scout troops, with 1,160,000 members, eleven, twelve and thirteen years old, will celebrate with annual parents' and Scouts' dinners at which individual advancement and achievements will be recognized. They will also thank local organizations and parents whose support makes Scouting possible.

Explorers in the 14,000 Explorer units and in Explorer crews in troops, with their 440,000 members fourteen years and older, will demonstrate before adults and young people the outdoor, social, service, and vocational elements of their program.

## Ben Moore Funeral Held At O'Donnell

Funeral services for Ben Moore Sr., 69, widely-known O'Donnell man, who died at his home Saturday shortly after a heart attack, were conducted at 3 p. m. Monday in O'Donnell Methodist Church, with burial in the cemetery there.

Mr. Moore, who was well known in Post, had been in failing health since suffering a heart attack last October.

A native of Blanco County, he moved to Lynn County in 1910 and since then he had lived in O'Donnell where he operated the Moore Insurance Agency until he retired last year.

A member of the Texas Tech Museum Society, Mr. Moore was a well-known South Plains writer and naturalist. He was considered an authority on West Texas Indian lore and culture.

He is survived by his wife, one daughter, two sons, three brothers and four sisters.

## County Oil Activity Is Reported Light

One completion and one amended location have been reported by the Railroad Commission in recent Garza County oil activity.

The completion, in the PHD-Glorieta field, is the J. Paul Karcher et al No. 8 Payton. It is 810 feet from north and 330 feet from east lines of Section 1412, T11R Survey. The well was completed at a depth of 4,380 feet, with pay topped at 4,290 feet and perforations from 4,291-04.5 feet. It pumped 31.8 barrels of oil per day plus a trace of water. Gravity was 38 and gas-oil ratio 319-1. The hole was acidized with 750 gallons.

The amended location, in the Huntley field, is the Sinclair No. 2 C. N. Brown, 330 feet from north and east lines of Section 1402, Block A-650, E1&R Survey, four and one-half miles northwest of Post. It is to plug back to 3,700 feet, San Andres.

TEXAS PUBLIC SCHOOLS WEEK has been proclaimed by Gov. Allan Shivers for March 5-10. Receiving the proclamation for the sixth annual statewide observance is John McKee of Dallas (left), who has served as state chairman of the Texas Citizens' Committee for Public Schools Week since the week was inaugurated in 1951.

## Post To Join In Public Schools Week Observance Scheduled For March 5-10

The Post schools will join March 5-10 in the observance of Public Schools Week, proclaimed by Gov. Allan Shivers. The observance, inaugurated in 1951, is sponsored by the Texas Citizens' Committee on Education, headed by Chairman John McKee of Dallas.

Every citizen is urged to visit at least one public school during this period and to become personally acquainted with the programs and accomplishments of our educational system. A total of more than 1,500,000 Texas citizens to visit public schools during the week has been set. In issuing the proclamation, Governor Shivers said, "The latest source of assurance for the future of the American way of life is our Public School System, which enables our youngsters to become familiar with the magnificent history of men and

events which has made our Republic the most powerful, respected and favored country the world has ever known."

"The public schools provide the tools of knowledge which will equip our young men and women to become constructive and responsible citizens in this land of freedom," the Governor said.

"We have a great responsibility to maintain and advance the ideals and standards which our people have come to expect of their public schools. We must keep pace with the growing needs of our schools by providing new classrooms, improved methods and by encouraging loyal, able, qualified men and women to adopt teaching as a lifetime career," Governor Shivers declared.
