Council decides

Something to be done about hotel

The council voted unanimously Monday night to begin proceedings against Ameen before the council in a condemnation hearing to see what will be done about it.

A delegation of three business people, Jimmy Hundley, Mrs. Maxine Marks, and Jim Cornish, appeared before the council to report that Hundley had secured a written bid for the city of \$3,840 for the demolishing of the building by T. J. Davis Jr., of Lubbock.

Hundley told the commission that the old building is deteriorating rapidly with the back wall falling down and the building rapidly losing any salvage value it might have.

Hundley said Davis had made an offer to purchase the cleared lots from the city should the city (See Hotel Building, page 8)

PRINCIPALS ON BANQUET PROGRAM
Jay Naman of Waco (second from left), president of the Texas Farmers Union, spoke last Thursday night at the Garza County Farmers Union banquet. He was introduced by Joe Rankin of Ralls (left), a state director. Also on the program were Mrs. Don Wooten of Crosbyton and Arnold Sanderson, president of the GFU, who was master of ceremonies.

Naman addresses large crowd at farmer banquet

"You are to be congratulated for the job you have done in Garza County; now take the second step and get yourself involved in the fight for a better day in agriculture," Jay Naman of Waco, president of the Texas Farmers Union, told members of the Garza County Farmers Union at their banquet last Thursday night.

Held in the new Community Auditorium, the banquet attracted a crowd of approximately 225 persons.

Naman commended the 130-member Garza County Farmers Union for its "tremendous progress" since its organization early in 1967.

"YOUR PROGRESS has been made possible through your county's good environment," Naman said. "Yours is a good farming county, there is a good spirit of cooperation between farmers and businessmen... you have an aggressive business community and fine social institutions."

"With all those things going for you, about the only other thing you need is a price that will return you enough profit from your farming operations," the speaker continued.

Naman urged farmers to sign up in the wheat, feed grains and cotton programs. "If better prices are to be achieved in 1968 for cotton, wheat and feed grains, it is vital that farmers use the programs which are designed to reduce the over-supply of these commodities and to strengthen prices."

THE FARMERS' UNION president cautioned cotton farmers to exercise a high degree of caution and restraint before planning expansion of acreage. He said no decision should be made on planting that is not based on sound business.

Deadline for filing of candidates passed at midnight last night in both city and school races.

Only candidates in the Post school district trustees election will be A. C. Cash and K. W. Kirkpatrick who are seeking re-election.

Cox is seeking election to the council seat to which he was appointed. Arnold Parrish, the other city incumbent, did not seek re-election.

THURSDAY, MARCH 7, 1968

Dispatch endorses Preston Smith

Preston Smith, the present front runner for governor, made a very good impression here last Friday afternoon with his 20-minute campaign talk to those who turned out to meet him again and hear him.

The Lubbock man who has been to Post often during his long Texas legislative and executive career started early and has never let up in his bid for the governorship.

Despite the big and unwieldy field, which may make it a rather harum-scarum race, the present lieutenant-governor has a lot going for him.

He knows Texas and Texans know him—and like him.

He is by his own definition a conservative who believes the people are entitled to full value and full accounting for their tax dollars.

He is—by far—the most experienced man in the race. The rest of the candidates lumped together don't have his background in Texas government.

He has a hand in most of the state's present progressive programs in many fields and he be-

lieves in keeping them going.

Then there is that added special appeal too for voters in this area. Preston Smith comes from West Texas and won't forget West Texas and its problems when he moves into the governor's mansion in Austin next January.

Smith already has campaigned into some 250 Texas cities and towns and by the end of March will have visited 250 of the state's 254 counties. He has Smith for Governor organizations already in 350 cities.

The Dispatch will predict that the current race will go down to a primary runoff between Preston Smith, representing the conservative element of the Democratic party, and Don Yarbrough, representing the militant liberals.

We believe Preston Smith will win that runoff and go on to be elected Texas' next governor in November.

The Dispatch endorses Preston Smith to its readers as the best choice for all of those who want an experienced, steady hand at the controls of the largest industry in Texas—our state government.—JC

Happy Girl Scout Week, kids!

"Why do the bad kids get all the publicity? They probably represent less than one per cent of all the kids in this country."

We might offer several possible answers to this provocative and often-made remark. But we think it would be more fruitful to give some publicity to the good kids instead.

So we're tipping our editorial hat to a bunch of very good kids—Post's Girl Scouts, who are celebrating the 56th birthday of their organization March 10-16.

Joining The Dispatch in its salute to the Girl Scouts are a number of Post business and professional firms, who have taken a page ad elsewhere in today's paper to congratulate the organization.

There's nothing square about these girls nor about their theme of Girl Scout Week, which is "Values to Hold—Worlds to Explore." They're

just as groovy and "with it" as the kids who are making a lot more noise with a lot less to shout about.

They are thoroughly acquainted with the latest in rock and folk rock. On non-Scout occasions, they can look pretty sharp in mod dress or a Carnaby-type cap.

But instead of trying to tear the country apart, they're doing their best to build it up. They are finding ways to serve their communities. They are making friends in other countries, and thereby helping to improve our national image abroad. They are earnestly trying to develop their best potential because they know our future depends on them.

There are lots of good kids in this country. More than three million of them are Girl Scouts. So, Happy Girl Scout Week, kids. Enjoy your fifty-sixth birthday, too.

Stock show needs your support

It isn't a bit too early—in fact, it's getting up toward being too late—for folks who haven't yet come out in support of the third annual Garza County Junior Livestock Show, March 15-18, to do so.

Officers and directors of the Garza County Junior Livestock Association were to meet Monday night for the purpose of going several steps further in plans for this year's stock show. Frankly, up until Monday, the promise of community and area support in all the various categories has not been as great for this year's show as it has at the same time in the past.

It is to be hoped that the community-wide support necessary to stage a junior livestock

show and make a success of it will make itself evident during this final week or ten days before the event.

The youngsters who raise animals for the annual show deserve the support of the community when they exhibit them and when they bring them into the sale ring. Without that support, no junior livestock show can be a success.

The association members who organized the show and are staging it for the third year also deserve community-wide support in their efforts.

Not much time is left before this year's show. Make every minute of it count by "talking up" the event and by giving your support when and where it is needed.

Liberty is never old-fashioned

Whether we like it or not, Vietnam has become a war effort of the first magnitude. It can be nothing else when hundreds of thousands of U. S. citizens are called upon to leave their homes and families for military service. In past wars, there have been differences, but never, as at present, has there been evidence of lack of support of the basic principles of freedom for which we have always fought.

In spite of this weakening of first principles at home, it is encouraging to talk to servicemen

who have been to Vietnam and many of whom are going back. Here at The Dispatch, we have interviewed a number of these Vietnam veterans for news stories, and we are convinced that each of them knew why he served there—defending freedom against tyranny of the cruelest kind. They appeared to feel, to a man, that when one people loses freedom, all lose in part.

The idea of believing in one's country and in the ideal of liberty under representative government is never old-fashioned.

What our contemporaries are saying

Women are creatures who can talk themselves out of almost anything except a phone booth.—Post Star-Telegram.

A friend who will soon become interested in the benefits of Medicare, says his father had unusual eyesight. He could see over a hill when this son was leaning on a hoe handle instead of chopping cotton.—Dougie Meador in Matador Tribune.

Aren't you glad there are people in the world with the ability to laugh at their troubles? If everyone were so straight-faced they had no sense of humor when things happen that can't be helped, we'd be a wretched lot. Hooray for those who can laugh at themselves and with others, for they shall bring smiles and gladness into the hearts of all.—Billie Stockton in The Crosbyton Review.

IT ISN'T LONG until Spring, which reminds me that it is about time for baseball fans to begin worrying about who will win the World Series.

The man up the street says if nickel juke boxes make a comeback, we'll have to find some new music that's worth it.

THE DICTIONARY defines an acronym as a word formed from the initial letters of other words. And acronyms have proved a blessing to the fellows who sit around in Washington and dream up names for federal programs. They don't always resort to acronyms, however, as they sometimes come up with clever names they think up themselves; such as Head Start, Upward Bound, Operation Mainstream, etc.

Acronyms are used more often, however, for they're easier to arrive at, and anything that comes easier is popular in Washington. For instance, when the name-thinkers wanted a name for Job Opportunities in the Business Sector, they just used the initials of the essentials and came up with JOBS. The same way, they came up with CAMPS for Cooperative Area Manpower Planning System.

ACRONYMS OF this kind are not encouraged in all cases, of course. As an example, President Johnson in January proposed a new program that he labeled Partnership for Education and Earning. While that qualifies as both inspirational and catchily descriptive, it does not lend itself to abbreviation.

This is a presidential election year and although to the casual glance Republicans and Democrats may appear to be almost indistinguishable, here are some hints which should result in positive identification.

Democrats buy most of the books that have been banned somewhere. Republicans form censorship committees and read them as a group.

Republicans are likely to have fewer but larger debts that cause them no concern. Democrats owe a lot of bills but don't worry either.

Democrats give their worn-out clothes to those less fortunate. Republicans wear theirs.

Republicans post all the signs saying "No Trespassing" and "These Deer Are Private Property" and so on. Democrats bring picnic baskets and start their bonfires with the signs.

Republicans employ exterminators. Democrats step on bugs.

Republicans have governesses for their children. Democrats have grandmothers.

Democrats name their children after currently popular sports figures, politicians and entertainers. Republicans' children are named after their parents or grandparents, according to where the most money is.

Republicans tend to keep their shades drawn, although there is seldom any reason why they should. Democrats ought to but don't.

Republicans fish from the stern of a chartered boat. Democrats sit on the dock and let the fish come to them.

Democrats eat the fish they catch. Republicans hang them on the wall.

Republicans have guest rooms. Democrats have spare rooms filled with old baby furniture.

Republican boys date Democratic girls. They plan to marry Republican girls but feel they are entitled to a little fun first.

Democrats make up plans and then do something else. Republicans follow the plans their grandfathers made.

Democrats suffer from chapped hands and headaches. Republicans have tennis elbow and gout.

Republicans sleep in twin beds—some even in separate rooms. That is why there are more Democrats.

FROM THE Saturday Review: From Mississippi comes the story of how an old Negro farmer talked his way out of a traffic ticket. LISTENING POST

By ROSEMARY CHAPMAN

I have always liked Senator John Tower because (1) he looks just like my father, (2) it's such a pleasure to have an intelligent Texan representing us in Washington, and (3) he likes libraries. Here's an interesting letter from Senator Tower's secretary, Pam McCrary.

United States Senate
Committee on
Banking and Currency

Feb. 29, 1968

Dear Rosemary:

I was chatting with Senator Tower a few days ago. We somehow got on the subject of Post, and, in relating all the merits of our fair City, the library was one of the first things that came to mind.

The Senator is really quite interested in this kind of project, and he asked me if he could do anything for the library. He suggested, and I agreed, that a subscription to the "Congressional Record" would be one thing that can be of interest, value, and enjoyment to everybody. It should be of special good use for school work, and, of course, it is also an excellent way to remain well-informed of what is going on in the Congress every day.

The Senator also suggested that I get my busy little research fingers going and gather some government publications such as information on the Capitol, Agricultural Yearbooks, Presidential Economic Reports, etc. I will be getting this material off within the next few days to the Post Public Library.

The "Record" should begin to arrive within approximately 1 1/2 weeks. If the first copy is not there by then, please let me know, and I will check on it.

Also, please tell Earl that we will do everything we can about the hospital situation. Apparently a number of other hospitals are having similar problems, and it seems to be a very touchy subject. We have not received his letter yet, but as soon as it does arrive, sparks will start flying.

DEAR Senator Tower, I vote for you and Pam!

OUR READERS Write

LETTER TO LIBRARIAN

(Editor's Note: The following letter from Sen. John G. Tower to Mrs. Earl Chapman Jr., former librarian at the Post Public Library, is being run in our "Readers Write" column because of its local interest.)

Dear Mrs. Chapman:

In speaking with one of my staff members, Pam McCrary, I have learned of the great progress achieved since the opening of the Post Public Library. I was delighted to hear that the number of volumes available has doubled within the space of one year and that the book circulation has substantially increased.

You and all those who have contributed so generously of your time and efforts are to be highly commended for your endeavors. I know that the people of Post are quite proud of their library and deeply appreciative of the many benefits accruing from it.

Pam also tells me that the library has received many gifts of books from "friends" in the West Texas area. I have long encouraged and supported such civic-minded endeavors, and, consequently, I have placed the Post Public Library on my mailing list to receive a subscription to the Congressional Record, the daily account of Congressional business. I

am also sending under separate cover additional government publications which I thought you might find interesting and useful.

May I also extend to you my personal and warm congratulations for being selected "Woman of the Year." I know that it is well-deserved.

Again, I congratulate you and the people of Post on your outstanding achievement. I trust that you will feel free to call upon me whenever I might be of assistance in any way.

Best of luck in the future.

Sincerely yours,

John G. Tower

Do!

OPEN FRIDAY!

Becoming Post's new Chevrolet-Oldsmobile dealer is for me "a dream come true."

In 1940, I first got into the Chevrolet business when I went to work for Connell Chevrolet Co. here and except for almost five years of World War II service, I learned the auto sales business under Jude Manly, the firm's general manager. When the business was sold in 1954, I became sales manager and then general manager for Caprock Chevrolet, Inc., until John Lott sold the dealership in 1957.

We are "starting from scratch" virtually in hiring an adequate staff and in securing the necessary auto repair equipment and parts.

But the doors will be opened Friday and we will be ready to special order your new car that day. New cars for our showroom are on order and should arrive by early next week.

After four months of Post being without a Chevrolet and Oldsmobile dealership, there is a lot of catching up to do.

It's My Turn

— By MRS. C.

I'm being read! I would have been disappointed had I not received any mail about my "Little League" column last week. I received a letter from a "Little League Fan" chewing me out in a nice way. The "fan" misinterpreted my column in that she thought I didn't approve of the program. I thought I made it quite clear that I did.

The amusing thing about the letter was a suggestion on the "fan's" part that I come out and help keep score. Gad, that would throw things into a big mess. Baseball scorekeeping is completely beyond me. I found out many years ago when Mr. C had to be two places at once and asked me to keep score at a game until he could get there. We were in Garden City, Kans., at the time and he never did get it all figured out.

Just in case anyone thinks I was just picking on the Little League, they are all wrong. I just used it as an example of baseball "troubles." The Babe Ruth League gives us the same sort of trouble if that will make the Little League "fans" happy.

With Spring just around the corner (I'm not sure it has even approached the "corner" as cold as it was Monday morning) I thought it about time I take you on a tour from 307 Osage to The Post Dispatch.

On the corner of Osage and 11th street Mrs. M. H. Campbell still wins the prize as being the most industrious yard worker on the route. Her yard is neat as a pin (strange expression) as always. On up the street we get to enjoy the Bryan Williams' violets blooming in all their glory. Turning the corner on Avenue S we note that the Louie Burkes pine trees weathered the winter.

One of the most exciting things which has happened on 10th Street is the removal of a car which had been setting there on a parking lot for quite some time looking disreputable. One down and many to go!

The Lowell Shorts are doing some refurbishing at their home. They have removed two huge cedar trees from the front of their house and are doing some cement work. I laughingly remarked to Mr. C that now that all the Short kids are out of college they can "afford" to think about their house and themselves.

The Clovis Tuckers are long overdue a tip of the hat for the improvements they have made on the corner of Avenue O and 10th Street. They started in late last summer making all sorts of improvements and it is now a well-kept neat looking place.

I see the Rev. Charles Peters out in his yard working like mad occasionally to make a new lawn. They also put in a new sidewalk last summer to improve the looks of their home.

Mrs. Hinton Fluitt runs a close second to Mrs. Campbell on her yard work. Her place always looks lovely and well-cared for. We've been enjoying her Johnny-Jumps.

Mrs. Jimmie Hudman is another good yard worker. We see her out many times on our way to work, working away on their nice looking yard.

Attention men! Notice that three out of the four yard workers are women!

Just as Mr. C was learning to dodge all the chug holes left by our winter weather the city got around to filling them all up. Now we feel like we are driving on streets instead of an obstacle course.

You see, I do give people pats on the back occasionally instead of griping about the things that don't get done.

Girl Scouts of Caprock Council observing week

Around 6,000 girls of the Caprock Girl Scout Council will join almost three and three-quarter million Girl Scouts throughout the country in celebrating Girl Scout Week from Sunday, March 10, through Saturday, March 16, 1968.

"Values to Hold — Worlds to Explore" is the theme of Girl Scout Week and of the Girl Scouts' 56th birthday March 12. This date marks the anniversary of the first meeting of the first troop organized in Savannah, Ga., by Juliette Gordon Low, founder of the movement in the U. S. A.

Since that first troop of a few girls, more than 22 million members have made the Girl Scout Promise to do their duty to God and Country, to help other people at all times, and to obey the Girl Scout Laws of loyalty, honesty, courtesy, cheerfulness, usefulness, kindness, and thrift.

This year Girl Scouts are focusing their attention on "Worlds to Explore." Troops across the country are being encouraged to explore the world of themselves and that includes fashion, food and fun as well as their futures.

Special days are earmarked throughout Girl Scout Week to illustrate the various aspects of the Girl Scout program. Members of Caprock Council will observe the week in a variety of ways.

In observance of Girl Scout Sunday March 10, thousands of Girl Scouts are expected to attend religious services in uniforms. Jewish girls will celebrate Girl Scout Sabbath on Friday evening, March 15. Many schools throughout the West Texas area, will join in the celebration of Girl Scout Week.

SAN ANTONIO — Whether you call it "op art" or "HemisFashions," the well-trained crew of guides at HemisFair'68 will be right in style.

Aerial count of big game begins in West Texas

SAN ANGELO — Using an airplane capable of moderate to slow speeds, the Texas Parks and Wildlife Department has begun wildlife census work in West Texas. Region I Director Henry Burkett, advises that such data are collected on an annual basis.

Beginning Feb. 13 through 20, deer and turkeys along the Canadian and Washita Rivers and Sweetwater Creek will be counted. The surveys will be flown in early morning and late afternoon, the peak periods of big game movement.

March 3 through 8 begins the spot check of Trans-Pecos antelope herds, with emphasis on the compiling of information on winter losses and the checking of movement of previously tagged animals.

Mid-March will see the aircraft move into the Permian Basin Regulatory Area for the yearly antelope census.

Wildlife Supervisor Jack Parsons said that a helicopter census of aoudad sheep in the Palo Duro Canyon will also be conducted in mid-March.

From June into August the plane will be skimming the plains and valleys, home of the Panhandle and Trans-Pecos antelope herds, on an extended and more comprehensive coverage, including actual head counts on individual ranches in both areas.

September will end the major portion of aerial census work and will include white-tailed and mule deer in the Trans-Pecos sections of Texas.

Hostesses for the six-month World's Fair will wear a three-piece suit with helmet hat, shoulder purse, gloves and shoes. The skirt is A-line with an overblouse and blazer coat. The material is of black and white "op art" design.

Hosts will be decked out in black and white striped blazers with duck pants, helmet hat and a tie made of the same material as the hostess ensemble.

The costumes were designed at HemisFair and made by Lorch of Dallas.

More than 80 guides and hostesses have been hired for the highly

sought-after jobs. Each is fluent in at least two languages and some speak three.

The duties of the well-groomed guides range from helping the handicapped around the fairgrounds to escorting journalists and VIPs.

Speaking a foreign language is an essential part of the role. Those hired represent more than 15 nationalities.

J. D. Smith, coordinator of guides and hostesses, warned those hired that they must know more than a few words in the foreign languages.

"I tell them that they must be able to meet an industrial executive early in the morning and stay with him for six hours speaking nothing but the foreign language," he said.

Hostesses are given a thorough course in grooming and fashion by Mademoiselle magazine hair stylists, makeup artists and fashion editors.

Besides the grooming and fashion instruction, the hosts and hostesses will receive intensive training in history, geography and economy of San Antonio, Texas and HemisFair; first aid, protocol, etiquette, speech and diction.

The coast redwoods, the earth's tallest living things, grow only in California and a small section of southern Oregon.

HEMISFASHIONS

Doris Bowen of HemisFair's advance ticket sales department models the "op art" uniform to be worn by hostesses at the six-month World's Fair. The three-piece suit includes a helmet hat, shoulder purse, gloves and shoes. The skirt is A-line with an overblouse and and blazer coat.

SMOG SURPRISE

MINE MAKER

A 1,200-ton dredge, the largest single piece of equipment ever used to develop a mine in Northern Manitoba, required 95 railway cars to haul it to the site. It is used to remove overburden at one of International Nickel's mining projects in the area.

Dear Pat...

I know it has been a long time since I've written. As you can imagine, I've been very busy getting settled here. Everyone has been wonderful, and what an experience it is teaching these first grade children! It's a real thrill to watch them as they learn to read. I've already met some wonderful people, both here at school and in church...

So she writes her letter, and although "it has been a long time..." these words will stretch across the miles and the fibres of this friendship will be as strong as ever.

If you were never to write a letter you would lose touch with people who mean a great deal to you. By the same token, if you never were to go to church, you would fail to keep the fabric of your faith woven tight and strong. True, you might still believe firmly in God, but the affirmation and continued growth of this faith requires worship in His presence and in His house.

Thinking about a friend isn't the same thing as writing a letter to him — wanting to be in that person's presence. Believing in God isn't the same as professing that belief by attending church regularly.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Hospital board —

(Continued From Front Page) sions, working on the many, many political, financial, equipment, and personnel problems which the hospital board must solve. These hard, unthankful, unrecognized, and without-compensation jobs other than the gratification of serving their community should be recognized by the citizens of Post. Again Mr. Kenneth Sledge, the new hospital administrator, along with the board have done an excellent, if not almost miraculous, job in one year re-establishing a functioning hospital.

My purpose of this letter is to thank and to give credit where credit is due and to explain my own inadequacy in order to function as all a hospital must have desires to place patients in their beds and in turn the doctor is privileged to work in the hospital where equipment, personnel, and

so forth are at his disposal to provide the best care possible for his patients.

The hospital board saw fit last night to dismiss one of its two staff members until further notice — that staff member was me. In my heart I know this was one of those difficult decisions I was speaking of that it is the responsibility of a hospital administrator and a hospital board member to do. I know the decision was hard not only because of the need for several more physicians on the staff, but because most of them if not all are friends of mine — some of them in my way I consider close friends. In view of these two reasons you citizens should thank God that the people running your hospital let neither personal attachment, friendship, or the desperate need of a physician interfere with their decision and determination that the best of medical care will be provided as much as possible in our county hospital. This was a fair decision. I was deserving of the discipline I forced them to inflict.

Hotel building —

(Continued From Front Page) obtain title through a tax sale. Hundley told councilmen that the building is dangerous to passers-by and also is a health hazard as well as a fire hazard.

City Attorney Carleton P. Webb reviewed the legal aspects of the case for the councilmen, both as to condemnation procedures and tax suit procedures.

This will be the second start on the condemnation procedure against the old building by the city. In the condemnation hearing a year or two ago, Ameen promised to make necessary repairs and the condemnation was not carried through.

Hundley told the council that if the old building catches fire during a time of a strong east wind, the council might find its remodelled destroyed as well as the entire business block between the hotel and the city building.

Luther Harper appeared before the council to urge that the council do "nothing drastic" right now about the hotel building until he had "a few days to work on something involving the building." Harper didn't reveal what he had in mind.

But as one councilman declared: "We've waited long enough. Let's get started on condemnation because that will take enough time without any further delays."

Dealership —

(Continued From Front Page) P. Harold Lucas. — Oldsmobiles in Post. He went to work in 1940 for the Connell Chevrolet Co., and except for almost five years of World War II service, sold cars there until the dealership was sold to John Lott in 1954.

He served Lott as sales manager and then general manager for the three years Lott operated the business as Caprock Chevrolet, Inc., before selling the dealership in 1967 to Claud Collier.

Lucas entered the insurance business at that time. The new Post auto dealer is having to start literally from scratch in putting together a dealership organization and in securing parts and equipment for the dealership. A formal opening of the new agency is planned for April.

Hubble Jr., who lives near Wink; two sisters, Mrs. Bill Herring of Gatesville and Mrs. Ada Albert of Dallas; two brothers, Jesse of Bakersfield, Calif., and Fannie Hubble of Midland; three stepdaughters, one stepson, 18 grandchildren and six great-grandchildren.

The Rev. Dale Dozier, pastor of the Calvary Baptist Church, officiated at the funeral services, assisted by the Rev. Charles E. Peters, pastor of the Church of the Nazarene.

Burial was in Terrace Cemetery under the direction of Mason Funeral Home. Pallbearers were Cecil Foster, Keith Adams, Floyd O'wings, Bill Williams, Roy Brannon and S. F. Hair.

Mr. Hubble had been a member of the Baptist church for over 40 years.

Medicare —

(Continued From Front Page) ed from Sledge and Dispatch Publisher Jim Cornish.

Preston Smith was advised of the problem during his campaign visit here last Friday afternoon and promised to look into the matter. Gov. Connally was contacted by phone by Gambelin and expressed his concern and desire to help.

State officials were contacted because the hospital inspections for Medicare are made by the Texas Department of Public Health which recommended approval of the Garza County hospital for Medicare. It is reported the Floydada and Spur hospitals also have been rejected for Medicare certification because of the lack of registered nurses "round the clock."

Rites conducted for victim of lake drowning

Funeral services for Mrs. Artis Nelson Payne, 19, of Lubbock, who drowned while scuba diving in White River Lake with her husband late Sunday evening, were conducted in Lubbock Wednesday.

Mrs. Payne was pronounced dead on arrival about 6:30 p. m. at Crosby Hospital and Clinic. An inquest conducted Monday fixed drowning as the cause of her death.

Two Lubbock men were driving across the dam at the head of the lake when they heard Mrs. Payne's husband calling for help. They said he was 75 feet out into the lake when they heard his call.

The two men helped Payne bring his wife on to the shore, where artificial respiration and mouth-to-mouth resuscitation were administered by two White River Lake plant operators, Johnnie Lowe and Ted Karr, who continued their attempts to revive her all the way to the hospital.

Both Mrs. Payne and her husband were wearing protective rubber wet suits and underwater breathing apparatus at the time of the mishap.

A member of the family said Sunday night that both Payne and his wife had received scuba diving instruction in Lubbock and often went diving. He said they had dived in White River Lake on previous occasions.

Mrs. Payne, the former Laura Jane Bartlett, was a granddaughter of Mrs. Laura Bartlett of Post. She was a 1967 graduate of Lubbock Christian High School and a member of the Oakwood Baptist Church.

Surviving besides her husband are a daughter, four-month-old April Dawn; her parents, Mr. and Mrs. Henry W. Bartlett of Lubbock; two brothers, John Bartlett of the U. S. Navy and H. W. Bartlett Jr. of Lubbock; her grandmother of Post; and grandparents, Mr. and Mrs. John R. McKinley of Lubbock.

Billy Snow is to enter hospital

Billy Snow, 13-year-old Post Junior High School student, left by train Wednesday night for Galveston, where he was to enter the hospital today for examination and treatment.

The youngster was accompanied by his mother, Mrs. Lee Snow, and by Post Jaycee Bob Carpenter and Mrs. Carpenter.

The Jaycees, who are sponsoring the correctional treatment of an abnormal development of Billy's face, received word from the State Health Department Wednesday that the youngster would be accepted at the hospital for examination at 1 p. m. today.

The Deer Park Jaycees, who assisted Post Jaycees in the project when Billy was first taken to Galveston a few weeks ago, met the train in Houston this morning, with an automobile available to take the youngster on to Galveston.

The council voted to accept the bid of a difference of \$2,627 for purchase of a new small tractor above the trade-in tractor the city offered from the Post Implement Co. Other bids were received from the Nell Farm Equipment firm.

Councilmen also voted to accept the bid of Scott-Pool, Ford of \$5,234.32 for the chassis for a new fire truck. The only other bid received did not meet all specifications.

The city opened four bids for hose for the new pumper truck for the fire department and four bids for the truck itself.

Presentation of the bids for the truck, which ranged from \$12,231.30 to \$14,913.60, by various representatives required almost half of the meeting time.

The council decided for a joint

Naman concluded his talk by promising that the National Farmers Union "will be at the forefront, taking the lead for passage of legislation in Washington that will benefit the farmers and ranchers." This legislation, he said, includes a bargaining power bill, protection from fraudulent practices in the livestock market, and a Food for Freedom program.

The speaker was introduced by Joe Rankin of Ralls, District 2 director of the Texas Farmers Union. RANKIN, in his introductory remarks, said Garza County is "one of the brightest stars in the Texas Farmers Union today."

Also on the program was Mrs. Donald Wooten of Crosbyton, who is director of the Texas Farmers Union's new Tel-a-Lady program. She told of the organization and objectives of the new program, which is designed to give added strength to the TFU in its fight for increased farm income and a better way of life for all in rural America.

Mrs. Wooten's daughter, Andrea, led the crowd in the singing of the Farmers Union song, then took charge of the children present for a recreation period in another room of the building.

Arnold Sanderson, president of the Garza County Farmers Union, was master of ceremonies. He introduced officers and directors and their wives and spoke briefly on the county, state and national Farmers Unions.

ENTERTAINMENT consisted of four songs by "The Ranchhands," a string quartet of Cy Willson, John Johnson, Jimmy Norman and Bruce Sanderson. They were accompanied by George M. Willson.

The invocation was by E. E. (Elva) Peel, an officer of the GPU.

The banquet was catered by Jackson's Cafeteria.

Former Post man is cleared in shooting case

Freddy Pena Collazo, 18, formerly of Post, was found not guilty of first degree manslaughter by a jury at Garden City, Kans., last Friday.

Collazo, son of Mr. and Mrs. Firmin Collazo of Post, had been charged in connection with a shooting Sept. 16 in a Garden City tavern brawl.

The victim of the shooting was Benigno Ramos Hernandez, 25, of Garden City. Hernandez, shot once in the top of the head by a bullet from a small pistol, died within minutes of the shooting.

The 12-man jury was told that the shooting arose from a \$15 bet placed by Hernandez on the outcome of a game of pool between Collazo and another man. Collazo won the game and the bet, but, according to testimony, Hernandez pocketed the money and refused to pay off.

An argument and scuffling ensued. Witnesses said Collazo produced the weapon from a pocket and struck Hernandez over the head, the weapon discharging and its single bullet piercing Hernandez's brain.

The defense said Collazo did not know a shell was in the gun and was intending to use it only as a club in self-defense.

Smith's visit —

(Continued From Front Page) He termed education as "the most essential state program" and said he didn't know if raising teachers salaries will solve the growing shortage of Texas teachers — due to reach 14,000 this year — or, but that under his leadership a solution would be found.

"I don't see crime as being an issue in this campaign," Smith said with a smile. "I think all the candidates are against it."

Smith told his hearers that he has Smith for Governor organizations already formed in 525 Texas cities and towns and by the end of March will have visited 250 of Texas' 254 counties in his nomination bid.

He expressed himself as well pleased with the turnout at the coffee in his honor and asked all his hearers "who believe in the same brand of government I believe in to support me."

No money verdict in damage suit

A district court jury returned a "no money judgment" at 11:30 p. m. Tuesday in the \$31,300 damage suit brought by Mrs. Minnie Graves against the United Super Markets.

The suit went to trial here Monday afternoon before Special Judge Sam Saleh of Lamesa to open the March term of court.

Mrs. Graves brought suit of injuries allegedly suffered during a fall in the local food store Jan. 31, 1965.

A second damage suit went to trial in district court here yesterday afternoon.

In it Joe Tijerina and his wife, Olivia, sued for \$16,500 in damages from Donald Cornell for injuries received in a dirt road auto collision Jan. 29, 1967. Jess M. Cornell, father of Donald, has filed a counter claim for \$3,000 in damages from Tijerina.

Incarnate Word College

Gail sisters setting fast pace for team

MARY ANN DENNIS

JACQUIE DENNIS

SAN ANTONIO, Tex. — Most basketball stars are tall, lanky, muscular, and wouldn't take it too well if you called them "pretty."

But with Mary Ann and Jacquie Dennis of Gail, the term basketball star takes on a whole new meaning.

They are the daughters of Mr. and Mrs. John W. Dennis and the pride of the Incarnate Word College basketball team. Mary Ann, a physical education major in her junior year, is a fine woman athlete in her own right. But when teamed up with her younger sister, Jacquie, a freshman elementary education major, the IWC basketball team takes on a new sparkle.

Wednesday night the IWC team, of which Mary Ann is the captain, played against a woman's basketball team from Trinity University, also in San Antonio. The IWC team, thanks to the consistent scoring of the Dennis sisters, led all the way.

Jacquie piled up an impressive game total of 18 points and the excellent 6 for 6 free throw record. Mary Ann hit for a total of 16 points and 5 for 10 free throws.

In the closing minutes of the game, with the score a close 40 to 39, Mary Ann scored on five free throws, giving the IWC team an easy six point lead and the final score — 45-39.

Next Monday night the Dennis sisters and their teammates, Marjorie Millet of Port Arthur, Cynthia Kaufman of Natchitoches, La., and Marilyn Byrne of Tilden will face some stiff competition in a game with Southwest Texas State College, San Marcos.

The game is scheduled for 7 p. m. in the IWC gymnasium.

Rumor has it that Mary Ann's and Jacquie's younger sister, Debby, is an even better basketball player.

If all three of them join the same team, Incarnate Word might be in for a bid to play in the NIT.

Two grid schedules announced by coach

Athletic Director and Head Coach Glynn Gregg this week announced the 1968 football schedules of the Post "B"-freshman team and the 7th and 8th grade teams.

Coach Gregg explained that the "B" team roster will include freshmen, but that some of the games will be between freshman teams only. Those games are so designated in the schedules appearing below.

He also explained that in the Oct. 26 game between the Post "B" team and Plainview 9th grade team that the Post gridgers will not necessarily be playing a team of Class AAAA 9th grade caliber. He said it would be nearer Class AAA because Plainview is splitting up its 9th grade squad to play two schedules.

The "B" team - freshman schedule is as follows:
Sept. 19: Ralls at Ralls, 6 p. m.
Sept. 26: Plainview 9th grade at Post, 6 p. m.
Oct. 3: O'Donnell at O'Donnell, 7:30 p. m.
Oct. 10: Tahoka at Tahoka, 7 p. m.
Oct. 17: Lockney at Lockney, 6 p. m. (Freshman).

Modern...Slat Floor...Low Cost

WE HAVE BUILDING PLANS! New, Portable Purina Pig Parlor

Now you can build a modern slat-floor, Purina Pig Parlor that can easily be moved like a portable feeder. And it costs only about \$15.00 per pig... about \$750 for a 50-size unit. It's great!

It consists of two, 10' x 24' sections. It's partly covered with aluminum and insulated with styrofoam. The feeding floor can be subdivided for two age groups of hogs.

The new portable Purina Pig Parlor provides for easy manure disposal. Waste falls through the slat-floor and after hogs go to market the Pig Parlor can be moved and manure scattered. It can even be transported from farm to farm.

See us about building a portable Purina Pig Parlor on your farm. We have the building plans. And we also have the Purina Hog Chows to help you put low cost gains on your hogs. Stop by to see us soon.

Couple attends Slaton Blue and Gold banquet

By MRS. EDMUND WILKE

Hi there! I will have to start the news with a correction from last week. I've done it again! Seems like I am forever making a "booboo". I reported that Mr. and Mrs. Don Basinger had a little boy and sure enough, it was a little girl and they named her Robin and she weighed in at 7 lbs., 14 oz. Sorry for the mistake. Please forgive me.

I also forgot to report that Edmund and I were honored with an invitation to attend the Cub Scouts Blue and Gold banquet recently at the Slaton Junior High School cafeteria. The whole evening was a huge success—the food was delicious, the decorations were so pretty, the program was good. In fact, I think the whole thing was just wonderful. Seeing all those little boys in their uniforms, all the proud parents, all the mothers, who serve as Den mothers, the Cubmaster and his helpers—well, it all just thrilled me, and we felt real honored to have been invited to attend.

Mr. and Mrs. Walter Wilke of Dimmitt visited with Edmund and Yours Truly last Friday.

Mr. and Mrs. Otto Klaus were guests in the home of their son and family, the Werner Klauases last Sunday. They helped Werner celebrate his birthday. Happy Birthday, Werner.

Mr. and Mrs. Earl Schwenke and Glenn of Slaton were Sunday supper guests of Mr. and Mrs. Cecil Stolle.

Mrs. Cecil Stolle and Mrs. Ronnie Dunn attended a church women's meeting at the First Methodist Church at Slaton Monday morning. A panel discussion was led by several pastors of different faiths.

Bro. Hill preached at the Antion Baptist Church last Sunday.

Mrs. Ed Lieske celebrated her birthday last Sunday. Happy Birthday, Mrs. Lieske. Her daughter, Mrs. Bertha O'Keefe spent the weekend with her.

Mr. and Mrs. Donnie Pennell spent the weekend at Amherst visiting with an aunt.

Cathy Long and Bessie Winter, rowd went with Cathy's Sunday School class from the Church of Christ at Slaton to an ice skating party in Lubock.

Recent guests of Mr. and Mrs. Willie Becker were Mr. and Mrs.

Gilbert Becker and sons of Kansas City, Mo., Mr. and Mrs. Junior Becker and sons, Mr. and Mrs. Robert Becker and children of Brownfield. Mr. and Mrs. Richard Becker and children of Slaton, Mrs. Tillie Krause of Wilson and Mr. and Mrs. Stanley Paul Krause of Taboka.

Mrs. Willie Becker, Junior Becker and Jerry Pennell visited the Robert Beckers and a Mr. and Mrs. Armstrong in Brownfield on Sunday.

CONGRATULATIONS to Miss Julia Cisneros, daughter of Mr. and Mrs. Alejo Cisneros, who will be united in marriage to Maximine Arguello March 10 at Our Lady of Guadalupe Church in Slaton. May God bless this marriage.

Edmund and I visited his sister, Mrs. Bertha Betts, a patient in Methodist Hospital. She underwent leg surgery for the fourth time in four years. She is doing fine and hopes to go home in 11 or 12 days.

Mrs. Bobby Drees and daughter, Monica, went with the D. J. Drees to Lovington, N. M., where they visited her parents, Mr. and Mrs. V. O. Bowden, and then they went to Roswell to visit other relatives.

Sherry and Yours Truly were Saturday supper guests of Mr. and Mrs. Libby Schneider in Slaton. Other guests were Mr. and Mrs. James Riney and Cathy, Mr. and Mrs. R. M. McMin, Mr. and Mrs. Wallace Becker, Mr. and Mrs. Charles Lebkowsky and Mr. and Mrs. D. B. Kiser.

Mr. and Mrs. Donald Pennell made a business trip in DeFatur over the weekend and while they were there they visited Mrs. Riley Howard. They later went to Dallas and visited Mr. and Mrs. Royal Pennell.

WE WOULD LIKE to extend our deepest sympathy to Miss Sharla Taylor and her parents, Mr. and Mrs. Hub Taylor. Sharla's fiancée was killed instantly in a car accident last Sunday morning at El Paso. His name was Larry Whitte, and he and Sharla had planned a June wedding. This was a very tragic accident and this community feels very deeply about it. May God comfort this family in their sorrow.

Mr. and Mrs. Hansell Haltman returned Saturday from an extended trip to California and other points. They visited for six weeks with her sister, Mrs. Georgia Stoll, in Ventura, Calif. From there they went to Phoenix, Ariz., and spent several days with Mrs. Frankie Dulin. They spent two days with Mrs. Nannie Shahan in Roswell, N. M., before returning to their home. Welcome home, folks.

Joey Basinger placed first in high jump with five feet 8 inches and Bill Bevers placed fourth in pole vault with 11 feet six inches in the Idalou Track meet Saturday. Congratulations, boys.

Mmes. F. W. Callaway, Dillard Dunn, Herbert Dunn and Jay Oats attended the style show at Hemphill Wells Monday night.

Mr. and Mrs. Herbert Dunn attended the Texas Tech-Texas A&M basketball game Tuesday night. Bye for this week.

ARE WE ALONE?

Both the Russian and the American probes to the planet Venus indicate that it is far too hot to support life. Since Mars appears to be inhospitable too, Earth seems to be the only planet in the solar system where life exists.

Only few more than one-third of Garza County vehicles inspected

"With the April 15 deadline for obtaining inspection stickers drawing near, only 36 per cent of the 3,133 registered vehicles in Garza County have been inspected," stated Capt. Alan Johnson, motor vehicle inspection supervisor of the Texas Department of Public Safety.

However, this year the auto safety inspection could be more than just an inconvenience to the motorist who waits until the last day

to get his vehicle inspected. It is possible many cars may not get inspected due to a shortage of seat belts. The 1967 state legislature passed a law requiring that front seat belts must be installed in all vehicles in which seat belt anchorages were a part of the manufacturer's original equipment.

SEAT BELT anchorages were part of the manufacturer's original equipment on all American passenger cars beginning with 1962

models. Seat belts also will be required on foreign-made cars in which seat belt anchorages were original equipment.

Captain Johnson points out that seat belt anchorages are threaded holes in the vehicle structure suitable for receiving seat belt attachment fittings.

Captain Johnson also explained there are many 1962 model vehicles containing the seat belt anchorages but no seat belt attached. Also, many of the 1962 and later models have had the seat belts removed after they were traded in for newer models and were never replaced. Therefore, the owners of these vehicles must have front seat belts

installed before their vehicles will pass the inspection requirements.

A SHORTAGE of seat belts may develop here because automotive equipment suppliers are reluctant to build up a stock of belts for fear there will be no market for them after this year's inspection program, so most suppliers are holding their stock to a minimum.

Therefore, it is urgent that motorists have vehicles inspected now to be assured of obtaining the belts.

Captain Johnson called attention to the fact that since the beginning of the inspection program in 1951, vehicles having a defect that was a causative factor in fatal acci-

dents decreased from 13 per cent to 3 per cent.

"The purpose of the Motor Vehicle Inspection Program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," the Captain said.

HERE IS A check list of items that various vehicles must have and be operating satisfactorily before an inspection sticker can be issued.

1. Horn
2. Windshield wipers
3. Brakes
4. Headlamps
5. Cab lights

6. Stop lights
 7. Tail lamp
 8. Beam indicator
 9. License plate light
 10. Clearance and side lamps
 11. Reflectors
 12. Directional signals
 13. Mirror
 14. Record motor, serial, titification number.
 15. Steering
 16. Wheels and rims
 17. Seat belts
- The last three items—steering wheels and rims and seat belts are additional items to be inspected as required by the 1967 Legislature.
