

# Post lists two new attractions for 1967 summer tourist season

## Daily tours of Postex Mills and sextuple pumper

Post has two new tourist attractions for the 1967 summer tourist season — "the world's only sextuple well," promoted by the Chamber's tourist committee, four times daily tours of the Postex Cotton Mills.

David Lucas and David Newby, chairmen of the Chamber's tourist committee, are completing arrangements for the "sextuple well," which is operated by the Oil Company of Dallas on 13th street, just west of the late Terrace residential addition to be viewed as a tourist attraction.

New pump jacks operate two holes only 30 feet apart pump oil from six different production levels. In the oil trade known as a "triple twin," the tourist committee is putting directional signs to the well from both US-84 and US-380 on Tenth street and has arranged with property owners in and around the city for a gravelled

## C. Storie Sr. funeral service held Saturday

Funeral services for Scott Clifford Storie, a resident of Garza County, were conducted at 10 a. m. Saturday at the First Baptist Church.

Storie, a farmer and ginmer, died about 7:30 a. m. last Thursday at the Methodist Hospital at Lubbock. He had been a patient for several days.

Storie was born Sept. 18, 1891, in Missouri and was married to Miss Cora Conner on Jan. 2, 1916, in Garza County. He had been a resident of Garza County for about 20 years when he went back to Lubbock to marry Miss Conner.

Storie had been retired from the gin and was an overseer of his land the Storie Gin, west of Lubbock. He had been a member of the First Baptist Church for 40 years.

His wife, Mrs. Storie is survived by a daughter, Mrs. Pauline of Lubbock; two sons, Storie Jr. of Post and Harold of Silverton; three brothers, J. P. (Boots) Storie, M. M. Storie and A. L. (Skinner) Storie, all of Post; eight grandsons and eight great-grandsons.

Rev. Joe Vernon, First Baptist pastor, officiated at the funeral. Music included two solos by Vernon Scott.

The service was held at Terrace Cemetery under the direction of Huddleston Funeral Home, Palibearers: C. White, Bryan J. Williams, L. Peel, Henry Wheatley, Paul Reno, Robert Compton, and Mike Custer.

## Funeral conducted here

Funeral services for Finis Pierce Buford, 66, who died Saturday at the Veterans' Hospital in Lubbock, were held at 10 a. m. at Huddleston Funeral Home.

Buford, a resident of Post for more than 20 years, had been in the hospital for several months. Born Aug. 7, 1894, he was then the Indian agent and was employed here during the war.

He is survived by five sisters, Mrs. Beeler and Mrs. Mildred Wheeler, both of Amarillo, Miss Buford of Wichita Falls, Mrs. Buford of Denver, Colo., and Mrs. Lora Palmer of Santa Fe. He had one brother, Raymond of Denver.

Tommy Wilson, pastor of the Methodist Church, officiated at the funeral services. Burial was at Terrace Cemetery. Military rites were conducted by John Miller Post of the Veterans of Foreign Wars.

Survivors were Jody Mason, G. T. Mason, Kenyon, Dale Davis and Kelly.

road into the well site from 13th street and for a gravelled turn-around the fenced well so it can be viewed from cars without tourists even getting out of their vehicles.

It's a mighty unusual sight to see — for Postites and Garza Countians as well as tourists — even in the heart of West Texas oil country.

The Postex tours also were arranged by the two tourist committee co-chairmen with mill management.

The tours will start from the mill office at 10 and 11 a. m. and 2 and 3 p. m. daily, Mondays through Fridays, and will require approximately one hour to complete with a guide provided.

Tourists will have the opportunity to see sheets made all the way from bales of cotton to finished product. The five-block long, air-conditioned Postex plant here is the only such plant handling the complete process west of the Mississippi River.

Youngsters under 16 years of age are not permitted to make the tour as a safety policy of the company.

Newby and Lucas have set up the two new tourist attractions in an effort to secure Post some increased revenue from the tourist industry, which has grown to become one of the largest industries in Texas.

Only Governor John Connally's signature is needed to sign into law a special bill enacted in the closing days of the recent session of the Texas Legislature which would authorize creation of a Garza Hospital District with its own taxing powers if a majority of voters approve of the creation of such a district.

State Representative Renal B. Ross in a letter to County Attorney Preston Poole over the weekend notified county officials

## Rainfall slights Post, but lake makes gains

Post and Garza County got little of the moisture which poured down over various portions of West Texas over the holiday weekend, but the White River Lake managed to pick up millions of gallons of welcome runoff water.

The lake reported gained 1 1/2 feet in depth up to yesterday morning from the weekend storms which dumped up to 11 inches on some portions of the High Plains.

Depth of the lake at the dam stood at 46 feet yesterday, only a half foot below its all-time high of last summer. Additional runoff was expected to boost the lake's depth even higher.

A total of 3.20 inches of moisture fell at the lake over the weekend, the filtration plant reports, with the east side of the lake looking like a snowstorm had struck after hail covered the ground with a mantle of white Friday afternoon.

Moisture totals from around Garza County from the Friday night and early Saturday thunderstorms ranged from a reported .60 of an inch in Post all the way to two inches in the Verbera area. The Justiceburg area received a heavy rain and moisture totals west of Post on top of the cap ranged from a half to three quarters of an inch.

Much dry land cotton still remains to be planted as farmers await planting moisture.

Legion meeting is set for Tuesday, June 6

A meeting of James C. Cole Post No. 270 of the American Legion will be held at 7:30 p. m. Tuesday, June 6, at the Legion Hall.

All Legionnaires are invited to attend the meeting, at which plans will be made for the post's annual Independence Day supper.

upon its own motion or upon a petition of 100 resident legally qualified property taxpaying electors.

Such election would be held not less than 30 days from the time said election is ordered by the court. A majority of the legally qualified property taxpaying electors participating in the election must vote in favor of the proposition for the district to be organized.

Such a hospital district would take over operation of Garza Memorial Hospital, would assume all outstanding bonds and indebtedness heretofore issued by Garza County for hospital purposes, and would assume full responsibility for providing medical and hospital care for the needy persons residing within the district.

The district would be empowered to levy a tax not to exceed 25 cents per \$100 valuation, using Garza County values and Garza County tax rolls.

Should the necessary election for creation of such a district be called and carried, the commissioners court would declare the district established and appoint five persons as directors of the hospital district to serve until the first Saturday in April, at which time five directors shall be elected.

At the first such election for directors, the three directors receiving the highest vote shall serve for two years, the other two directors shall serve one year. Thereafter, all directors shall serve for a period of two years.

No one may be elected or appointed as a member of such board of directors unless she is a resident of the hospital district and owns land subject to taxation therein. He or she also must be more than 21 years of age and have been a resident of the district at least two years.

Hospital district directors would serve without pay, but may be reimbursed for actual expenses incurred in the performance of their duties.

The bill provides the county tax assessor - collector would collect hospital district taxes, subject to the same discounts and penalties as for county taxes from the county tax rolls, and charge the district not over five per cent on the first \$10,000 in taxes collected and not over two per cent on all such taxes thereafter, but in no event in excess of \$5,000 for the total tax collection for any one fiscal year.

here that the special bill he sponsored late in the session at the request of the Garza County Commissioners Court had been approved unanimously by both houses of the legislature, 143-0 in the house and 31-0 in the senate.

Governor Connally is expected to sign the measure within a few days.

The special bill provides that the necessary election for creation of such a hospital district may be initiated by the commissioners court

Legal maneuvering in jury trials are often difficult for the general public to understand. One major misunderstanding has arisen here, we are told, over The Dispatch's coverage of the murder trial of Julio Criado, charged with the pistol slaying of Manuel Mindieta, as reported in last week's Dispatch. In all fairness to the Mindieta family we want to correct an apparent false impression, although the story was correct even though misunderstood.

George Mindieta, father of the slain youth, was called by the defense to stand in an effort by the defense to introduce evidence that the slain youth in August of 1963 had been in the state mental hospital at Big Spring. Mindieta had no choice but to testify and to answer any questions defense attorneys put to him. He was, certainly, a reluctant witness.

The father on the stand testified generally that his son to him was a normal youth, but had to say truthfully that his son had gone to Big Spring in the month in question and returned to Post in a few days. The father said, again in answer to questions, that he did not go to Big Spring himself and knew nothing more about it. When he testified that the family had employed an attorney to assist the state with the prosecution, this again was in answer to a question by the defense attorney. His only choice was to tell the truth. He was under oath.

We trust this clarifies the public misunderstanding. George Mindieta was certainly a reluctant witness. Those who say he "testified against his son" simply do not understand court procedure and the right of the defense to its day in court.

Levelland woman hurt in wreck

A Levelland woman, Mrs. Jessie Davis, suffered a broken arm about 1:30 p. m. Saturday when the car she was driving ran into the rear of a cattle truck driven by Claude Hartzell of Soper, Okla., 5.3 miles southeast of Post on US-84.

Highway Patrolman Henry Harden, who investigated the accident, said Mrs. Davis's car was severely damaged when it hit the rear of the cattle truck, bounced off out of control and then swerved back to hit the truck a second time.

The truck was not badly damaged nor was the truck driver injured.

Mrs. Davis received emergency treatment at a physician's office here and went on to West Texas Hospital.

Five thousand copies of the second annual Tourist Edition of The Post Dispatch will roll off Dispatch presses this weekend to be distributed free to tourists passing through Post this summer.

The front page of the tourist edition includes feature stories of the daily cotton mill tours of Postex and the "world's only sextuple oil well" tourist attraction on its front page as well as an aerial view of Postex Mills.

Also featured on the front page of the edition are stories of Post's new \$80,000 Post Industrial Foundation, the new Post - Garza County Municipal Airport, the city-county park and swimming pool facilities available to tourists, and the 1967 summer Boy Scout camp program at Camp Post.

Inside features of the edition include one on the White River Lake recreational development, Garza County's many historical markers, and the unusual history of the city of Post.

The edition will be distributed beginning next weekend — by local service stations, restaurants and cafes, drug stores, auto firms, auto parts houses, motels and liquor stores which have purchased advertising space in the edition to attract tourists.

A feature story on the Tourist Edition, begun last year by The Dispatch as an aid to Post's tourist industry, appeared in the last issue of the West Texas Publisher, the monthly magazine of the West Texas Press Association, as a unique undertaking which is making Post one of the most "talked about towns" in West Texas.

The tourist edition is printed on tabloid size on multi-colored newsprint with a 10 to 15 minute reading time so tourists will have the opportunity while shopping, gassing up, eating or staying overnight to learn more about Post and the business firms which are here to serve them.

Dr. Polivka told The Dispatch he wishes to thank those of this area who have been patients of his. He closed his office here yesterday preparatory to moving to Crosbyton.

## Accomplishments were impressive

There is no telling what may—or may not—get through in the Texas Legislature's final regular session, which was Monday and is all over now as you read this Saturday-written editorial. But, most of the legislators' far-reaching record of achievement in many areas had been accomplished before the final hectic day.

No one can deny that there were some notable failures. But the accomplishments were impressive.

Here is a random look at some of the session's highlights.

**BUDGET**—Lawmakers agreed on \$2,400,000,000 in spending (\$446,800,000 from general revenue) for 1968, without passing a tax bill. They will come back next year to budget for 1969. Funds provide for substantial increases in all areas of state government, including education, health, general administration and welfare.

**SCHOOL TEACHERS**—After requesting a \$68,000,000 salary increase program and being offered \$55,500,000 by the Senate, teachers finally got \$51,000,000.

**STATE EMPLOYEES**—These workers came up with their most substantial salary benefits in history. Raises averaged about 14 per cent and ranged up to 30 per cent and more in some salaries.

**MEDICAID**—Title 19 hospitalization and medical aid to the needy—most dramatic step in public welfare since launching of social security—was implemented for Texas by passage of a special act and appropriation of nearly \$25,000,000.

**EDUCATION**—Money was made available for 2,300,000 public school pupils and a 26 per

cent increase in higher education spending. Junior college appropriations were increased from \$13,600,000 to \$24,400,000.

**CITY SALES TAX**—Cities got the authority they sought to supplement their property tax income by levying one per cent sales tax on vote of their citizens after next August.

**TRAFFIC SAFETY**—Major part of Gov. John Connally's recommended highway safety program was approved. It included a new drivers' license act, an auto inspection bill and establishment of a traffic program to be administered by the Governor.

**OPEN MEETINGS**—Another Texas legislative first, an act to require open meetings of governmental agencies at all levels was signed into law by the governor, who termed it "a great step forward to provide a means whereby the public can be more informed on governmental and public affairs."

**REAPPORTIONMENT**—Legislators agreed on both congressional and state House of Representatives redistricting. However, they could not get together on judicial reapportionment.

**SUNDAY CLOSING**—Lawmakers tightened Sunday closing laws by repealing the "emergency purchase" provisions of the old law.

Key recommendations of Governor Connally which failed to clear the Legislature included his proposal for legalized sale of liquor by the drink.

The bill to legalize parimutuel wagering on horse races never came to a showdown vote, but a referendum on the issue was approved for inclusion on next May's Democratic and Republican primary election ballots.

## Garbage disposal 'two-way street'

City of Post officials request householders to cooperate to the fullest on trash disposal regulations, now that warmer weather is here with flies and mosquitoes posing a threat to the community's health.

Residents are asked to deposit their trash in trash cans and to keep the lids on the cans until the garbage is picked up by the trash haulers. They are asked not to pile trash on the alleys nor to deposit it in pasteboard boxes or other makeshift receptacles.

City officials admit that there have been justifiable complaints from some householders

of the city's trash haulers being careless with trash cans and lids after dumping the garbage into the disposal truck. This has resulted, they say, in cans being bent to where the lid does not fit at it should, and also in some lids being lost.

Like everything else, the trash problem is a "two-way street." If the householder is to be expected to "do it right" in getting his trash on the alley for hauling away, then certainly the sanitation department employees should be expected to see to it that the trash cans are back in place after their contents are dumped into the truck.—CD

## What our contemporaries are saying

Breaking the smoking habit will bring out as many helpful hints as going on a diet, finding a wife or buying a car. But each case is different and what works for one won't bother another. For example, one friend told me to be sure and take a tablet designed to curb the desire for smoking. I took one and it gave me a terrible stomach ache, but didn't alleviate the craving for a cigarette. Another was in favor of peppermint sticks, still another swore by milkshakes. If nothing else, my little experiment has brought out some interesting remedies.—Tuck in The Morton Tribune.

We suppose the day will come when a man who starts the day using a manual toothbrush will be the physical exercise nut.—James Roberts in Andrews County News.

Smart speakers use simple subjects and simple words to put over deep thoughts.—Van Horn Advocate.

Nature's own tranquilizer is a Mocking Bird singing in a dew-drenched dawn, with a sliver of gold and purple cloud drifting in a sea of crimson light.—Douglas Meador in Matador Tribune.

When you're past 40, there's a catch to kicking up your heels. Right in the small of the back.—Hamilton Herald-News.

The trouble with daylight saving time is that a bird doesn't get sleepy early enough to go to sleep early enough to get sleep enough to get up early enough to catch the worm.—Billye Stockton in The Crosbyton Review.

**TODAY (THURSDAY)** is the first day of June and June is traditionally the month of brides. That also makes it a good month to review the Ten Commandments of Marriage that a reader, who said he once heard it from a minister, passed on to us. As the marriage license is about the only license that doesn't expire, these commandments help to refresh and renew the memory.

1. Thou shalt understand what a marriage really is.
2. Thou shalt not submit the soul entirely.
3. Thou shalt talk things through to completion.
4. Thou shalt trust one another.
5. Thou shalt forgive one another.
6. Thou shalt develop a sense of humor.
7. Thou shalt be loyal to one another at all times.
8. Thou shalt take a positive approach.
9. Thou shalt cultivate a romance in marriage.
10. Thou shalt make thine a Christian marriage.

June is also the month when a lot of boys, just out of school for the summer, will be looking for a job. Here is something I once clipped that will be well worth the young job-seeker's reading:

Boy Wanted: To Fill Important Position.

He must have a clean face, clean habits and a clean shirt. Need not know how to roll a cigarette or how beer tastes; and if he is not up to date on all the smutty jokes in the pool room, his ignorance will be overlooked.

He must be a boy who treats his mother and sister — and every other boy's mother and sister — with respect and does not refer to his father as the "old man."

He need not be especially brilliant at school, but he must be studious and persevering, never cheating in his examination or passing a problem until he has mastered it.

He must be truthful, prompt, obedient and industrious. He must make his employer's interest his interest and never be afraid of earning more than his wages.

He is wanted to respond at once to any number of opportunities. Merchants want him to sweep out the store for a few years and ultimately to take charge of it.

Newspapers want him to commence at the bottom and work to the roomy space on top.

He is wanted everywhere — in the law, in medical practice, in the counting room and to run great public works. The people who pay big salaries are looking for him.

The people want him for judge in the court, member of congress, senator and for president, and the nicest girl in the world wants him for her husband.

THE MAN UP the street says suspenders are just about the oldest form of social security.

In last Thursday's "Library Listening Post," columnist (and librarian) Rosemary Chapman no doubt left a lot of her readers wondering what No. 9 and No. 10 are on the list of the 10 all-time best selling classic books in the U. S. For Rosemary chopped off the list at No. 8, explaining, "9 and 10 I won't tell because we don't have them (at the library)." I was one of those left wondering, so I looked it up, and trust Rosemary will forgive me for letting my readers know that No. 9 is Plato's "The Republic" and No. 10 is Kafka's "The Trial." Let's put them on the library "want list," Rosemary.

HELPED ALONG by something I read, I've just thought of a marvelous way to amend our Daylight Saving Time bill, if it is still with us next year. Let's amend the bill to allow that extra hour at the lunch period instead of after work. That way, we could enjoy a noon-time siesta, like they do in Mexico and other Latin countries. The Rotary Club and other clubs that meet at noon wouldn't have to rush through their programs, and by working until 6 p. m., those of us who quit at 5 still would get off work at the same time of day as we do when DST isn't in operation.

Some time ago in Kansas a mail sack, bulging with letters, fell under the wheels of a train and was cut to shreds. The scraps and tatters were collected and the whole jumble dropped into the post office's lap to be pieced together. The post office was equal to the task. The job was done so thoroughly that one man received a letter he'd read, torn up and thrown away while waiting for his train on that fateful day.

IF YOU DON'T believe that one, try this one: When several vats in a London brewery were struck by lightning, but undamaged, the beer in them was found to be improved considerably in quality. This is believed to be the first recorded case of a storm actually brewing.

### Terry cloth mittens help children bathe

It's easier and more fun for small children to learn to bathe themselves if you supply them with cotton terry cloth mittens for soaping.

Colorful terry mittens can also be used to make a game of hand-washing. Slip them over the child's

hands, tell them to wash his mittens and he can't help but get his hands clean at the same time. The National Cotton Council reports that you can stitch up mittens in minutes from wash cloths.

## It's the Law ... in Texas

**WHAT PRICE BEAUTY?**

Skin deep or not, beauty is precious to most people. Both men and women, as a rule, are acutely conscious of their physical attractiveness—or lack of it.

So it is not surprising that people hurt in accidents often seek damages not just for injury to their limbs, but also for injury to their looks.

Should that kind of compensation be awarded at all? The law's answer is yes. Even though a scar is not disabling in the same way as a limp or an ache, disfigurement can be a real and serious handicap.

The biggest problem lies in deciding how much the damages should be. How do you put a price on the harm done by a scar?

The courts generally take into account both the characteristics of the victim and the characteristics of the scar itself. Thus, in particular cases, the following facts have lent weight to a damage claim:

- 1) that the victim was a girl ("scars on the face of a female are ordinarily regarded as more objectionable than on the face of a male.");
- 2) that the victim had a job (as an actor) in which appearance mattered a great deal;
- 3) that the scar had an unpleasant side effect (distorted a young man's smile).

On the other hand, damages will be less if the scar can be mended by simple plastic surgery — or if it is in a place where it would not ordinarily be seen.

What if the mere display of a scar to the jury would be shocking or indecent? That could improperly inflame the emotions of the jury. Such a display may be forbidden, usually at the discretion of the trial judge.

However, in most cases, the judge will rely on the jurors to draw fair conclusions from what they see.

In one case, involving an injury to a young woman's knee, the defense attorney objected to an inspection by the jury. He noted that the plaintiff was young, charming, and beautiful — and that the jurors were all men.

But the court overruled his objection, commenting: "She is entitled to resort to the same proofs that she might have resorted to if she had been aged, ugly, and repulsive."

## THE LAND AROUND US... by TOMPOSON

OUR LEADING AGRICULTURAL CROP, CORN—VALUED AT OVER \$4 BILLION—IS THREATENED BY THE CORN BORER, WHICH ANNUALLY DESTROYS 100 MILLION BUSHELS, WORTH MORE THAN 100 MILLION DOLLARS!

CROP PRODUCTION IN ALL PARTS OF THE U.S. IS HAMPERED BY PLANT NEMATODES, WHICH ATTACK THE ROOTS OF MANY TYPES OF FIELD AND FORAGE CROPS, VEGETABLES, FRUIT, ORNAMENTALS AND GRASS. NEMATODES ALSO CARRY VIRUSES THAT CAUSE PLANT DISEASES. CROP LOSSES DUE TO NEMATODES ALONE AMOUNT TO WELL OVER 1/4 BILLION DOLLARS A YEAR!

TO PROTECT CROPS FROM THESE PESTS, AN EVER-GROWING GROUP OF CHEMICAL INSECTICIDES AND NEMATOCIDES IS BEING DEVELOPED BY SCIENTISTS. SOIL FUMIGANTS IN SOME AREAS ARE INCREASING CROP YIELDS BY AS MUCH AS 50%!

## DRUNKS, WHORES, GAMBLERS, ETC.

Such folks are all loved and wanted by God just as much as preachers and "good" church members and other sinners. They too may have His forgiveness, life, and salvation in Christ, if they want it. Our Lord Jesus says, "God so loved the world that He gave His only-begotten Son that WHO-SOEVER believeth in Him should NOT perish but have everlasting life. For God sent not His Son into the world to condemn the world but that the world through Him might be saved."

# It's My Turn

— By MRS. C.

They say you have to live in 20 years before you are not as good as a newcomer. That is the case the C's have only more to go.

Being the nebulous thing it is, I feel like we've lived forever and that we can't really have lived here ten years.

I learned many things since coming a West Texan. The first I learned is that when someone greets you with "y'all right" are just using another form of "hello." The first person to say this to me was Don Ammons. He said it from atop our first house in Post where he was helping up our TV antenna. Ten years ago Don was still a teen-ager and he leaned over the edge of the roof and with a bright-eyed smile said to the Misses C's and I "y'all right."

My first thought was that we look as though we weren't married and I hurriedly looked at my daughters. They looked fine so I thought it must be me. I looked like something was not right. Not knowing how else to respond to this greeting, I tossed out "hello" and rushed in to look at me.

Don informed me a couple of years later that he had hired that eyed kid and I immediately thought I was all right.

I hired another young kid to help with the four-foot-high weeds in the yard. This one was Abel and he and I had many rounds about gardening tools. He was doing the yard work. I kept asking me if we have a garden hoe and I kept showing him common ordinary hoe and he kept shaking his head. I suggested he borrow one from a neighbor since I didn't know it was. He did. We still don't have it. Abel ended up in our office, for almost 10 years.

My brother Didway was inherited with the office and he's the inheritance we've ever received.

My reception is held at the Community Room following the graduation exercises Friday night for the Senior Class of 1967.

Reception is held at the Community Room following the graduation exercises Friday night for the Senior Class of 1967. Teachers and class members were present for the occasion with mothers of the seniors as hostesses. Snacks, punch and nuts were served from a table centered with a blue and white floral arrangement. The senior class of blue and green were to complete the decor.

Well, I got sidetracked there. Back to my learning. I found out that being "covered up" was the same as being "snowed under;" that "I wouldn't take" means the same as "I wouldn't give a million dollars;" that "don't be ugly" is the same as "not being nice" and "I'm proud to know you" just replaces "I'm glad to know you."

While I was learning all these things, I found out the natives were learning that I sounded like a damn Yankee and I was furnishing them with much amusement.

I learned that all weeds in West Texas have stickers on them and that goatheads are so called because they look like goatheads.

I learned that people are awfully storm conscious here and that the wind doesn't blow nearly as hard here as in Kansas.

I learned that people are pretty nice everywhere and that Post is a darn good place to live and rear children and you might as well learn that I'm going to stick around for another 10 years at least just to see if that "newcomer" saying is true.

## Betrothed couple is honored here

Don Davies and his fiancée, Miss Betty Hall, were extended several courtesies while visiting in Post for a week as guests of Don's parents, Mr. and Mrs. Garland Davies.

Miss Carol Davies and Mrs. Ted Allen served.

Sunday night, the couple was honored with an ice cream supper in the home of Mr. and Mrs. Arnold Sanderson.

### 'Financial Ten Commandments' are listed for young married couples

Young couples who follow the "Financial Ten Commandments" will have more success for happiness, says Mrs. Doris Myers, Extension home management specialist with Texas A&M University.

Mrs. Myers quoted the "Commandments" listed by Dr. Milton Huber, associate professor at the University of Wisconsin's Center for Consumer Affairs.

I. You shall have no more children than your income will permit to maintain the standard of living you want for them. Do not forget that the older the children become, the more expensive they are. Financial planning and family planning must complement each other.

II. You shall not make the mistake of buying all the modern conveniences and comforts that your parents have taken a lifetime to accumulate. Ignore this, and the new baby will arrive amidst a bombardment of debts — which the wife's income can no longer cover. Base your budget on the husband's income, primarily.

III. You shall not take for granted

that your mate has the same idea about spending money. Couples who don't work out spending plans together can end up with poor credit.

IV. Remember to save for the unexpected. Plan for medical and household emergencies. Set aside in savings, from the top of the paycheck, the equivalent of income from six months labor to care for emergencies.

V. Honor your credit rating. Pay your debts on time. Beware of merchants who advertise "easy" credit, but specialize in harsh and expensive repayment on contracts.

VI. Do not buy impulsively. Beware of door-to-door salesmen and the lure of "something for nothing." Compare merchandise and prices for furniture and appliances.

VII. Do not commit yourself to any installment contract without reading it completely. Be sure that all blanks have been filled in and that all verbal agreements have been put in writing.

VIII. Do not cheat yourself by

**ACTION-Styled**—Instead of croquet, the modern dad is more apt to spend his leisure hours scuba-diving or boating. Typical of this year's Father's Day gifts: an action-styled jacket of cotton madras with zip-in hood. It's teamed with surf-style cotton twill trunks. Both by Puritan Sportswear.

securing new loans at high interest to pay off old bills. This is an expensive way of buying time — not a way of paying bills.

IX. You shall not bear the responsibility of purchasing a car or major appliance on the installment plan without inquiring into the true annual rate of interest, dollar charges, and other special fees. Interest rates vary considerably. Shop for your credit as well as your merchandise.

X. You shall not covet a house of your own if you move frequently. Financing, selling, and closing costs increase the cost of home ownership prohibitively for families who move every few years. Neither shall you compare the costs of renting versus the costs of buying without including all of the costs of home ownership besides monthly mortgage payments. These include depreciation, taxes, hazard insurance, mortgage life insurance, closing costs, upkeep and repair, and income from interest lost on savings used as down payment on a house.

Dr. Huber wrote his "Ten Commandments" for young families after a study in depth of over-indebted couples. He says that if families will honor the list their marriage can be harmonious, even prosperous, whatever the income.

No! It doesn't happen in one day. It takes four years. And it's not really the years that count. It's the days ... and the hours.

For when the scroll is in our hand ... what are we? We are what we have become ... gradually ... through all those hours, days, and years.

So the wiser among us recognize a degree for what it is; a recognition of knowledge and proficiency that have been attained.

And while we're acquiring that knowledge ... and while we're applying that proficiency ... we build into our hours, days and years the spiritual fibre of religious conviction and Christian service.

For gradually — we are becoming the men and women that one day we will be!

**THE CHURCH FOR ALL • ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

A. They are issued in face amounts of \$25, \$50, \$75 and \$100. Purchase prices are \$20.25, \$40.50, \$60.75 and \$81.00.  
Q. Can Freedom Shares be bought by themselves?  
A. No. They must be bought in conjunction with E Bonds of the same or larger face amounts. For example, a \$25 Freedom Share may be bought with a \$25 E Bond, when on a regular plan. The total price would be \$39 (\$20.25 for the Freedom Share and \$18.75 for the Bond).  
Q. Can I buy as many Freedom Shares as I want, as long as I buy E Bonds of the same or larger amounts?  
A. No. On Payroll Savings, Freedom Share deductions are limited to \$20.25 per weekly pay period, \$40.50 per bi-weekly or semimonthly pay period, \$81.00 per monthly pay period. On Bond-a-Month, the limit on Freedom Share deductions is \$81.00 per month.

# Future of cotton is steadily brightening

Competitors predicting a dismal future for cotton misjudge the future of cotton, its response to technology, its resources and the cooperation it can muster.

To all of the big reasons why we had for feeling optimistic about the future of cotton," says S. Buck, Memphis, director of science and engineering, National Cotton Council, explains, "producers have added a new dimension of determination, confidence and continuity."

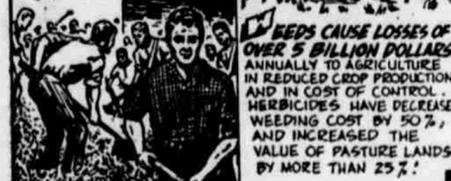

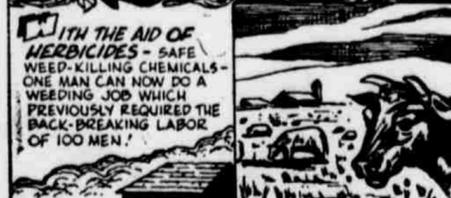

This new dimension, according to Mr. Buck, has been added through research and promotion approved by nearly seven of ten producers voting in a referendum in December, 1966.

THE COUNCIL'S research heads out that while almost any physical characteristic of cotton can be exceeded in one or more of the specialized synthetic fibers, no other fiber — natural or synthetic — provides such a favorable balance of desirable consummation qualities as cotton.

Furthermore, it has a tremendous potential for: (1) lower production costs which can assure leading position in economy; further improvement in those qualities which consumers already find so valuable; and new products with entirely new characteristics through chemical finish-

Mr. Buck believes it is here that the real future of cotton will be assured, observing that while the average cost of producing a pound of cotton was 28.4 cents in 1964, growers produced it for a cost of less than 18 cents per

# 10 Busy and Enjoyable Years Are Now Behind Us

## Publishing YOUR Weekly Newspaper

It was exactly 10 years ago today—June 1, 1967—that we purchased The Post Dispatch and became publishers of YOUR weekly newspaper.

They have been 10 busy, but enjoyable years of reporting the news of this community and the good folks who live in this area. In the 520 issues of The Dispatch of these 10 years have been recorded the gains, the growth, the setbacks, the problems, and thousands of big and little stories about you who live here.

We have tried to make The Dispatch the best weekly newspaper anywhere. We haven't accomplished all the bright and shiny things we set out to do, but that is not too surprising nor disappointing.

We want to take this opportunity to express to the entire community our thanks for your support of this newspaper—and for your cooperation, your advertisements, and your subscriptions.

Your continued support will be appreciated as we start the second ten.

## Annual Memorial Day rites well attended

"We who are left to enjoy the freedoms made possible by these gallant men can in no way ever repay them for their deeds of valor," James L. Minor said Tuesday at the annual Memorial Day service at Terrace Cemetery.

Minor, who is president of the 36th Division Association, a World War II organization, was the principal speaker at the service, which was sponsored by John Miller Post 6797 of the Veterans of Foreign Wars, assisted by James C. Cole Post No. 270 of the American Legion.

"While we can in no way repay them," the speaker said, "we can, with reverence and humility, honor them, not only on Memorial Day, but on every day of the year."

"I am very much afraid," Minor continued, "that if it were possible for these honored veterans to observe the events taking place in our nation at the present time, they would be very much perturbed and perplexed."

The speaker lashed out at beatniks, protest marches, draft card burning and other demonstrations against the nation's war effort.

In touching briefly on conditions overseas, Minor said, "The newspapers say that all American troops have now left France. Technically, that's not quite accurate. About 60,000 are still buried there."

A large crowd gathered at the cemetery to join with members of the service organizations in honoring their departed comrades. Max Chaffin, who presided, read the roll of deceased Garza County war veterans.

The program also included the invocation by Bernard S. Ramsey, a VFW firing squad salute, and taps blown by Mickey Taylor.

Following the memorial service, the VFW distributed American flags for the decoration of veterans' graves at the cemetery.

### Vietnam veteran visits sister and family here

Billy Hamilton, who was recently discharged from the Army after several months in Vietnam, left Wednesday for Garland to visit his mother, Mrs. Johnnie Hamilton, before going on to Louisiana and Tennessee to visit friends and relatives.

Billy plans to re-enroll in North Texas State University in the fall.

### Scenic trails—

(Continued From Front Page)  
roadways chosen for the trails by Oct. 1.

The major cost of establishing and publicizing the Travel Trails will be borne by the state. Each community and county, participating in the program, will bear the responsibility of purchasing uniform signs to designate the tour routes.

Plans for the Texas Travel Trails, aimed at increasing the state's billion-dollar tourist industry, were unveiled by Gov. John Connally at a state-wide meeting in Austin on May 3.

The byways, designed to lure travelers "off the beaten path," will be routed over existing highways.

Last year 19.2 million out-of-state visitors came to Texas; but their average stay declined from 6.1 days in 1965 to 5.8 days.

Governor Connally expressed hope that the Travel Trails program will induce tourists to remain in the state longer by opening up tours through the countryside and smaller communities which have been bypassed by super highways.

The starting often steals the nests of other birds for its home.

## Little League action

# Cards deliver Yanks 1st loss

The Cardinals downed the Yankees, 16 to 2, Monday night to hand the Yankees their first defeat of the 1967 Little League season and at the same time take over the league leadership.

In Monday night's other game, the Dodgers beat the Tigers, 16 to 7, to hold onto their second place tie with the Red Sox, who blanked the Wildcats, 15-0, in a make-up game Saturday night.

Tonight (Thursday), the Yankees play the Tigers, who are still looking for their first victory, and the Cards take on the Wildcats.

Tony Conner pitched the Cardinals to their big win over the Yankees, yielding only three hits, Ronnie Ammons, the Yankee starter, was the losing pitcher, with relief coming from Garland Dudley and J. Blacklock.

Catcher Keith Howard was the Cards' batting star, getting a home run in addition to two singles.

The Tigers stayed close to the Dodgers in Monday night's first game, but the roof fell in on them in the sixth inning when the Dodgers scored eight runs. David Conoly was the winning pitcher, but Clifford Laws finished up on the mound for the Dodgers. Larry Haynes was charged with the loss, with Charles Bell and Steve Hays also taking turns on the mound for the Tigers.

Saturday night's game between the Red Sox and Wildcats was called after four innings because of the 10-run lead rule. Buddy Blacklock hurled the Red Sox to their one-sided win, facing only 12 batters and striking out the first 11. The only batter he failed to fan was Kevin Thomas, who grounded out, pitcher to first. John Redman, the Wildcat starter, was the losing pitcher, with Robert Slatter finishing up on the mound. The Dodgers collected eight hits, with Jay Stone and Buddy Blacklock getting two apiece.

## Beat White Sox, 7-2

# Indians on top Babe Ruth loop

The Indians strengthened their grip on the Babe Ruth League lead Tuesday night by defeating the second place White Sox, 7-2, as league play was resumed following a week's layoff because of the end of school.

In Tuesday night's first game, the Braves came from behind to beat the Pirates, 4-3, and climb into a second place tie with the White Sox.

Tonight (Thursday), the league-leading Indians take on the Pirates in the first game, while the Braves and Cubs clash in the second.

Jay Bird gave up just three hits in hurling the Indians to their 7-2 win over the White Sox and fanned 16 batters. Ray Altman was the losing pitcher. The winners collected only four hits, but capitalized on walks and stolen bases to help roll up their score.

The Braves scored three runs in the bottom of the sixth to score their come-from-behind win over the Pirates, who led 3-1 at the end of five innings.

With one man out, singles by John Busto, Robert Mindieta and Dennis Dodson, with a walk to Kyle Josey sandwiched in, produced the Braves' three runs in the bottom of the sixth.

The Pirates had the Braves shut out, 3-0, until the bottom of the fifth when Dodson reached base on an error, stole second and later came on to score on a fielder's choice.

Ken McKamie's two-run single in the first game gave the Pirates two of their runs after Terry Cross had singled and Karl Hall had reached base on an error. The Pirates scored their third run in the third when shortstop J. Stone was hit by a pitch and scored on Cross' single.

Dodson was the winning pitcher and Cross the loser.

**Dry clothes automatic way and save labor**  
 An automatic clothes drier can save a homemaker 160 hours of work and 40 miles of walking in one year, according to a recent survey.

For one thing, a drier can eliminate ironing cotton sheets. The National Cotton Council recommends that you take sheets out of the drier while they're still slightly damp. Fold them carefully, matching edges and corners, and they'll look smooth and neat when unfolded.

## Hail damage reported at White River Lake

Hail and rain struck the White River Lake area late Friday evening and lasted 25 minutes, according to Freda Hardin, Calgary community correspondent for The Dispatch, who reports as follows:

"The marble-sized hail covered the ground and minor damage was reported to boats and buildings. About two feet of sand was washed into the boat ramp on the south side.

"There was about a one-half foot rise in the level of the lake, and very little more expected from the rains further north. This leaves the lake at about 50 per cent of its capacity level.

"Pipelines for water will be laid around the lake for the cabins in the near future, according to Maynard Brown.

"The shades for the picnic tables are being erected. There are to be ten put up.

"The fish have been biting good, with many small bass and perch caught. Also a few that have weighed in at three pounds or more.

"Be sure to have your big fish weighed in at the Marina. They are giving away three dozen minnows to the person who catches the largest fish each week. ## New beach hats are nifty head coverings

Take a tip from the Arabs — keep a cool head by covering it up when you go out in the hot sun. This summer the most stylish new beach hats are also the most practical. They're made of absorbent, breathable cotton fabrics.

The National Cotton Council reports that hats come in white, bright solid colors, or attractive floral prints. They're styled with wide floppy brims that help protect against sunburn.

Some testing machines can exert a pull of more than 2,000,000 pounds.

## Buy Bonds where you work.

It's miserable work, crawling through a rice paddy. And being shot at. This American does the job for freedom's sake. So do thousands of his buddies. Many of these brave men also support freedom with their dollars. A majority of our servicemen overseas are investing in U.S. Savings Bonds. Would you

like to show this man you're with him? One good way is to buy Savings Bonds where you work or join the Payroll Savings Plan where you work. You'll make a good investment. And you'll walk a bit taller.

### U.S. Savings Bonds

*Bond facts: Savings Bonds pay you back \$4 for every \$3 at maturity in only seven years... are replaced free if lost, destroyed or stolen... have special tax advantages... can be redeemed whenever the need arises.*

The U.S. Government does not pay for this advertisement. It is presented as a public service in cooperation with the Treasury Department and The Advertising Council.

## COULD YOU GET BY IF YOU HAD TO PAY CASH?

How many people could enjoy the pleasure and convenience of an automobile, piano or refrigerator if they had to pay cash? Credit is your most valuable possession.

The only way to maintain a good credit record is to buy only what you can pay for — and pay for it on the date it is due.

You will find it mighty convenient to say: "Charge it please."

## Cotton fabric makes good wall covering

Covering walls with an attractive cotton fabric is a popular decorator trend that has practical aspects. It's a good way to disguise scars and cracks in old walls.

The National Cotton Council suggests you use a firmly-woven cotton for a covering. Apply fabric with cellulose paste. This kind of paste does not bind immediately on contact, so you can smooth out wrinkles and line up patterns before it dries.

"The Doctors" by Hope Johnson.  
The doctors are very important  
to Garza County and the hospital.  
Three doctors work in the hospital.  
They must give the right shot. If  
the doctor tells you to go to the  
hospital, go to the business office.  
The people there will take you to a  
nurse. She'll take you to a room.  
There you'll get ready for a doctor.  
Either Dr. Tubbs-1, Dr. Bausman-  
2, or Dr. Polivika-3.

If you have to get your tonsils  
pulled out, whooping cough, mea-  
sles, mumps, cold, or the chills,  
try to feel well. Doctors use al-  
cohol, cottonballs, telescopes, and  
needles. It may sound funny, but  
he's to help you.

"The County Sheriff and Police"

SIGNS OPEN MEETINGS BILL

Gov. John Connally signs Senate Bill 94 in the presence of Garth Jones, Associated Press; Sen. Chet Brooks of Pasadena, sponsor of the bill; Stuart Long, Long News Service, Austin, and Don Scarbrough, Williamson County Sun, Georgetown. All are members of Sigma Delta Chi, professional journalism fraternity, one of several groups that urged the bill's passing. Under the terms of the bill all meetings of official public bodies must be open to the press and to the public.

Jr., Bill and Fay give tickets  
when you pass red lights and speed.  
When you steal something, they  
take you in. When you get hit,  
they help you. The Police and the  
Sheriff helps with fires. Their

We have a new mayor. His name  
is John Hopkins. The City Council  
meets once a month with the may-  
or. They work on city problems and  
taxes.

"The County Clerk" by Charity  
Smith. The county clerk is elected  
by the voters and the county clerk  
keeps records for the county. If you  
want to get married, you get a li-  
cense from the county clerk. If you  
buy a house, you get the county  
clerk to write down the papers and

your house in a book. You see the  
county clerk if you want a birth  
certificate.

"The Post Public Library" by  
Tiana Shiver. The library is a very  
special place because it has books  
in it and you learn from books.  
Mrs. Earl Chapman and Mr. Jim  
Cornish work for the library. Mrs.  
Chapman is the County Librarian  
and Mr. Cornish is the President  
of the City Library Board.

The library was started on July  
5, 1966. When it started it had 1,000  
books. Now, it has 3,500. The way  
to get librarians are volunteers.  
You can check out two books each  
time. If you keep a book too long,  
you have to pay a fine and it is  
5 cents a day.

"The Post Office" by Matt Alli-

son. The Post Office is a very  
important place. It brings us the  
mail. The people put the mail in.  
They tie it into sacks. They put  
it under the sign that it will go.  
The mail men who go in town  
walk. The mail men who go out in  
the country go by car. They have  
a stamping machine. They have a  
safe. The postmaster is A. J. Mc-  
Alister.

"The First National Bank" by Al  
Craig. The bank was made in 1909  
and H. B. Herd was president. Mr.  
J. B. Potts is president now.

Miss Vearl McBride is a cashier.  
She is the one who showed me  
around. She showed me the vault  
area and the important mail safety  
boxes.

Mr. Lewis Herron is vice-presi-

dent. He is the one who gave me  
the book about the bank. It had  
pictures of the First National Bank  
and told me about the bank. They  
keep your money safe for you.

"Post Fire Department" by Nora  
Valdez. Our fire station is located  
on South Broadway in Post, Texas.  
The Fire Department has four fire  
trucks. They are red. We have a  
volunteer fire department. They  
rush to the fire station when they  
hear a fire alarm. Mr. Lloyd Mock  
is Fire Chief. They are good com-  
munity helpers.

"Churches" by Patricia Ray-  
monds. In Post, there are eight  
churches, and with the Catholic  
Church, there are nine. The Cath-  
olic Church in Post was started in  
1959 by Father Erickson. The Cath-  
olic Church in Post and the one in  
Wilson were made a parish in  
1964. The present pastor of the two  
churches is Father Casey.

Owl! That's enough! You've tak-  
en up all our time, and we will  
have to finish next week. Rose-  
mary, this used to be your column.  
Is there anything you'd like to add?

HOW THOUGHTFUL. YES. Dur-  
ing May, 750 books were checked  
out and approximately 300 new li-  
brary cards were issued, bringing  
the total to 868.

Our appreciation is extended to  
the many students and teachers  
who made this increase possible by  
their interest and participation in  
the library tours. A very special  
thanks to Bettye Scott for her help  
and cooperation.

Book donors this week are Mrs.  
Elvus Davis and Mrs. Sam San-  
ders.

Bib Benson left a copy of "Fron-  
tier Times" at the library for those  
interested in the story, "Bad  
Blood" by Don M. Jay. It is about  
the murder of Jeff Harden in  
Claremont, Texas, during the ear-  
ly 1900's, and the historic photo-  
graphs used include many old-  
timers whose names are well-  
known around these parts. Among  
them are Bib's father, Lee Jody  
Bird, and Mrs. O. D. Cardwell's  
brother, Will Rogers. C. O. Fox  
and John and Dick Sampson are  
also pictured.
