## Garza County's Segment Of Post-Gail Road Is Approved

Garza County will share in the new two-year farm-to-market road program for Texas, with at least one project, according to information this week from S. C. McCarty, District 5 engineer of the Texas Highway Department at Lubbock.

Earmarked for completion under the program in this county is a 15-mile farm-to-market road extending from FM 1313 two miles southwest of Post to the Borden County line. It is estimated that the project will cost \$135,000.

County Judge Pat N. Walker said today that the road will be this county's link in a farm-to-market road connecting Post with Gail, county seat of Borden County. Plans call for Borden County to build the rest of the road and it, too, is expected to come under the new farm-to-market program. Several months ago, Garza and

Borden County judges and commissioners called on the Texas Highway Commission in Texas to ask that a road be built between Post and Gail. Judge Walker said the highway commission at that time expressed surprise that the two towns were not already linked by a roadway. They said their impression was that there were no county seat towns in Texas not already connected by a road.

It has been announced by the district highway engineer that work will begin on the Garza County project as soon as final planning is completed and right-of-way secured. Judge Walker said the county did not anticipate any difficulty in securing the required right-of-way since, only two property owners will have to be dealt with along the entire 15-mile route.

The proposed road will reach

the Borden County line after crossing U Lazy S Ranch property.

Resident Engineer F. C. Stanley will be in charge of the work in this area.

The new farm-to-market road program comes under provisions of the Federal Aid Highway Act of 1956. Funds for the program are being derived from the Federal Aid Act, matched with state highway funds on a dollar-for-dollar basis. McCarty said surveys of the projects in this area would be started as soon as the counties accept provisions of the program.

Meanwhile, Judge Walker said progress is continuing on securing right-of-way for widening of U. S. Highway 84 from here to the Scurry County line, with all easements expected to be in within the next few days.

## Church Groups To Participate In Bible Project

The inter-church Bible Reading Project sponsored by the Post Ministerial Alliance will begin on Thursday—Thanksgiving Day. Members of the congregations of participating churches and many other interested persons will read the specially selected passages suggested by the American Bible Society.

In connection with the project, a display of Bibles has been set up in the vacant building next door to Herring's and will remain open to the public until Dec. 10. Also, a feature-length motion picture, "Our Bible—How It Came to Us," was shown Wednesday to the student bodies of Post High School and junior high school and is to be shown at 7:30 p. m. Thursday, Dec. 6, at the First Methodist Church.

"Eleven congregations of the churches in Post are participating in the inter-city fellowship of home Bible reading and study," said the Rev. Almon Martin, chairman of the Bible Emphasis Committee.

"The combined memberships of these churches is approximately 1,900 people, the great majority of whom will daily share in Bible reading and study, in the home individually and by families," continued the Rev. Mr. Martin.

Special sermons emphasizing the value of Bible reading will be preached at the Thanksgiving services and on the Sunday following. In these services, members of the congregations will receive the Bible reading guides.

The Thanksgiving to Christmas program is being emphasized by the Post Ministerial Alliance with special aid from the American Bible Society and the Committee on the Use and Understanding of the Bible, Division of Christian Education, National Council of Churches.

Extra copies of the Bible reading guide will be available from the churches and leading stores, and the readings will be carried daily on radio station KRWS and weekly in The Post Dispatch.

## 24 Citizens Take Part In Roundtable Discussions

Topics listed in the roundtable workbook, as well as a number not listed, were discussed Monday night at a community roundtable session in the Post High School study hall. Twenty-four citizens took part in the discussions, with Mayor James Minor serving as chairman.

The roundtable session was one of more than 30 being sponsored in the area by Texas Technologi-

cal College's adult education program.

First, and probably foremost, on the agenda in the roundtable discussion was the water problem, which is also Topic No. 1 in the roundtable workbook issued by the Texas Tech group.

The discussion pointed up the value of water to townspeople and farmers of the area, with Mayor Minor telling of the city's efforts during the last two years to avert an impending water shortage from the underground wells now serving as the municipal supply. He said the City Council had explored every possibility of obtaining an adequate water supply including tying on with Lake Thomas or the Canadian River project and in obtaining a surface water supply of its own. The possibility of reclamation of waste water also was discussed by the group.

## Negro Being Held On Murder Charge

Denied bail on a charge of murder with malice, Jesse Skief, 53-year-old Post Negro, is being held this week in connection with the fatal stabbing of Alfred Hall, 40-year-old Slaton Negro, about 9 o'clock Sunday night in the Raymond Leston home in the Negro section of town.

Hall, stabbed once in the heart with a long-bladed pocket knife, is believed to have died almost instantly, according to Deputy Sheriff J. W. (Red) Floyd, who investigated.

Floyd said he was informed of the stabbing after an ambulance had been summoned. He said he found Hall's body lying on the kitchen floor, where he had collapsed after stumbling from a bedroom in which the stabbing is said to have occurred.

The deputy sheriff said that while he was questioning witnesses, Skief walked into the house and said, "Mr. Floyd, I'm the one you want."

The officer said Skief still had the unopened knife in his pocket. Floyd said the Slaton Negro reportedly was stabbed over gambling winnings. He said witnesses told him the two had argued and that the stabbing took place after Skief followed Hall into a bedroom.

Graveside services for Hall were held at 2 o'clock Wednesday afternoon in a Slaton cemetery with Hudman Funeral Home in charge. Hall's survivors include two brothers and two sisters.

## Post's Population Is 4,145 Based On Meter Connections

On the basis of meter connections both within and outside the city limits, Post's population is 4,145—an increase of seven over the 4,138 estimated for August of 1955.

The population figure was arrived at by a process considered accurate by government census experts. The number of meter connections—water, gas and light—were added, the total divided by three and then multiplied by 3.4, which is considered the average number of persons per meter.

Also discussed was the region's agricultural system, with the hybrid grain sorghums being mentioned as one of the brightest spots in the crop outlook.

Other topics talked over were a greater diversification of economy based on industry and trade; aspects of community life; the need for greater understanding, acceptance and cooperation of various segments and groups of our population; and the problem of exhaustible mineral resources.

On the aspects of community life, it was brought out that communities the size of Post are fortunate in the personal relationship possible between customers and the owners of firms with whom they do business, and in the more personal emphasis possible in the community's religious life.

On the subject of exhaustible mineral resources, it was brought out that communities rich in oil should realize that depletion is inevitable and that some thought should be given to industries which will make it possible to

## Band Performs In 'Gridiron Jubilee'

The 42-piece Post Antelope band, directed by Bob Meisch, participated in a "Gridiron Jubilee" Tuesday night at Jones Stadium in Lubbock.

The Post band, more than one-half of its members junior high and sixth grade students, received a Division III rating in the Class AA marching competition. Director Meisch said since this was the first time the young Post band had competed in marching, he was well pleased with its performance.

"It was the best marching performance they have turned in this year," the director said. "The youngsters really tried hard and showed by their efforts that before long they will be marching with the best of them in their class."

Very few of the members of the Post band ever had been in marching competition before, since the group has not participated in marching competition in the University Interscholastic League music festivals the last two years.

Receiving a Division III rating along with Post was the Lockney band. Also in Class AA, Spur and Olton received Division II honors, and Tahoka, Muleshoe and Floydada, Division I ratings. A total of 25 area bands took part in the "Gridiron Jubilee."

## 4-H Awards Given Here

Garza County's annual 4-H Achievement Day program was held Saturday night in the school lunchroom with approximately 400 members receiving awards of achievement medals, year pins, fair premium checks, and other honors.

Receiving the prized Gold Star Boy and Girl pins were Tommy Young and Linda Livingston, with the presentations made by County Agent Lewis C. Herron and Miss Jessie Pearce, home demonstration agent.

Preceding the awards, a 30-minute color film, "4-H Headlines," was shown.

Both agents briefly traced the club boys' and girls' accomplishments for the year before presenting the awards. Miss Pearce reported that there are nine girls' clubs with a membership of 108. Herron reported six boys' clubs with 100 members.

The achievement medals, presented by Ford Motor Company, went to John T. Brown, Dean Huddleston, Oneita Jones and Sharon Jobs.

Other medals, their donors and recipients were as follows:

Beautification of home grounds (Mrs. Charles R. Walgreen): Shirley Bostick.

Clothing (Coats & Clark, Inc.): Margaret Ritchie, Peggy Butler, Sharon Blackwell.

Dairy foods demonstration (Carnation Company): Janet Stephens (individual), Barbara Mock and Sherry Bevers (team).

Dress revue (Simplicity Pattern Company): Linda Livingston, Beatrice Kiesel, Janet Stephens.

Field crops (Nitrogen Division of Allied Chemical and Dye Corp.): Carol Davis, Donald Young.

Food preparation (Kelvinator Division of American Motors Corp.): Linda Camden, Beatrice Kiesel, Loma Dell Crockett, Shelia Morris.

Frozen foods (Whirlpool-Seeger Corp.): Linda Payton, Patsy McGehee, Jessie Carolyn Ward.

Girls' home economics (Montgomery Ward): Cecilia Bland, Rita Fern Jones, Elaine Wheatley, Faye Messer.

Home improvement (Sears-Roebuck Foundation): Karen McGehee.

Leadership (Edward Foss Wilson): Tommy Young, Sharon McGehee.

Meat animal (Thomas E. Wilson): Don Richardson, Jerry Thuett.

Poultry (Sears-Roebuck Foundation): Billy Bland, Ruth Ann Long, Allan Louise Brown, Dianna Barron.

Public speaking (Pure Oil Company): Patricia Wheatley.

Safety (General Motors): Marilyn Steel.

Food preparation (Foley Manufacturing Company): Shelia Morris.

Blue ribbons for work in the spring contests went to the following:

Karen McGehee and Jessie Carolyn Ward and Barbara Mock and Sherry Bevers, dairy food demonstration teams; Janet Stephens, dairy foods demonstration individual.

## Post's Population Is 4,145 Based On Meter Connections

On the basis of meter connections both within and outside the city limits, Post's population is 4,145—an increase of seven over the 4,138 estimated for August of 1955.

The population figure was arrived at by a process considered accurate by government census experts. The number of meter connections—water, gas and light—were added, the total divided by three and then multiplied by 3.4, which is considered the average number of persons per meter.

There are 3,231 meter connections within the city limits and 426 outside the city limits—a total of 3,657 connections. Divided by three, this gives 1,219 as the meter basis and multiplied by 3.4 gives 4,145 as the population figure.

Gas meter connections total 1,231—1,104 within and 127 outside the city limits. Water meter connections are 1,190—1,021 within and 169 outside the city limits. Total light meter connections are 1,236—1,106 within and 130 outside the city limits.

Post's population in 1950, the year of the last federal census, was 3,141. Using only the meter connections within the city limits as the formula, Post's population would be 3,662.

Collection of state and county taxes in October totaled \$20,339.23 more than collections in October of last year, according to Mrs. Exa Thomas, chief deputy tax collector and assessor.

This year's October collections totaled \$146,787.23 as compared with \$126,448 for the same month of 1956. Collection of county taxes this October totaled \$96,446 and state taxes, \$39,370.96. In October of last year, county tax collections were \$88,939.29 and state tax collections, \$36,627.24.

Up to Wednesday noon, 306 poll tax receipts had been issued, which is more than usual for an off-election year, as 1957 will be.

Payment of taxes in October brought a 3 per cent discount. The November discount is 2 per cent and the December discount is 1 per cent. Taxes for the current year will become delinquent after Jan. 31, 1957, which is also the last day for paying a poll tax.

A. J. Bray of Tahoka was elected vice president; Leo M. Acker, secretary, and L. A. Forsythe of Tahoka, treasurer.

Other members of Post's four-man board are Phil S. Boucher and Pat N. Walker.

Each town will have two teams in the league.

## Thanksgiving Day Is Being Observed Here

Another Thanksgiving Day—the big one as far as Post is concerned—is being observed today, with most business firms and public offices closed.

Since the post office remained closed for the Nov. 22 Turkey Day date, it will be open all day today, according to Postmaster Harold Voss.

Schools were dismissed Wednesday afternoon for the holiday, with classes to be resumed Monday.

The annual union Thanksgiving service sponsored by the Post Ministerial Alliance was held Wednesday night at the Calvary Baptist Church.

Christmas is less than a month away, you know, and I'm getting ready to make this one the most wonderful of them all. Yes, I'm making more toys this year than I ever have.

But right now I'm not sure just what everybody wants for Christmas. And I sure do need to know early. Sometimes when the mail comes in right at the last minute, I just can't get around to giving everyone just what he or she wants for Christmas.

So, why don't you write to this newspaper, because I read every issue of it—particularly the big Christmas edition. That way I'll know just what you want. If

Soviet Decision As To Egyptian Situation Will Be Great Factor In Business Outlook

BABSON PARK, Mass.—First, let me say that Russia's decision as to the Egyptian situation will be a great factor in the U. S. business outlook for 1957.

Immediate Outlook For 1957 If Israel had not stirred up this trouble, business in 1957 would be fair—with a maximum average decline of not more than 3%.

If Russia keeps out of the conflict, we can depend upon the above forecast. If, however, the Middle East should flare into a small war and if the United States remains neutral, 1957 could be the busiest and most profitable year we have ever had...

What Has Happened To Date? Israel has apparently already pulled out, regretting that she ever started the row. She now realizes that if it should develop into a real war, she could be wiped out.

Will Russia Remain Neutral? Thus far Russia has refused to do so and is threatening to help Egypt and the Arab World by contributing to Egypt airplanes, munitions, and "volunteers," as she helped the North Koreans some years ago.

I cannot now foresee Russia and the United States joining forces even to bring about real

DOESN'T COST—IT PAYS!

For several weeks now—ever since the resignation of the city marshal—the City of Post has been without a police officer, having to depend entirely upon county law enforcement officers. That isn't good for a city the size of Post.

Fortunately, we have had no major outbreaks of lawlessness, although there have been some break-ins and other violations on which the county officers should have had some help from the City in trying to prevent and in conducting their investigations.

Few, if any, cities the size of Post are without paid police protection. We realize that the city governing body has been busy on a number of other things, chief among them being the water problem.

We are out of the way. With the rest of the nation observing Turkey Day on the 22nd, there were some good football games on the air which most of us had to miss.

Getting Out On The Limb

By EDDIE the editor

SUDDEN THOUGHT: The worse trouble with money is that you can't use it more than once.

Sooner or later you young folks will learn that the more you grow up, the less you blow up.

SPEAKING OF blowing up, the confusion over this year's Thanksgiving celebration has almost caused me to explode.

We're observing this Thursday as Thanksgiving, but the way things worked out last Thursday we might as well have gone ahead and celebrated two of them like some of the larger places did.

Despite the fact that the post office was the only place closed here the 22nd, it seemed like a city-wide holiday in many respects. And, the closing of the post office, delayed putting up The Post Dispatch until 4 o'clock, with the result that we got telephone calls from several subscribers wanting to know if we had published a paper.

With the rest of the nation observing Turkey Day on the 22nd, there were some good football games on the air which most of us had to miss.

Texas is the only state in the union to have two Thanksgiving days this year.

Most years there is no question when Thanksgiving will be observed. For most Novembers have only four Thursdays, and Thanksgiving is always observed on the fourth and last Thursday of such November.

I don't know how long it will be until another five-Thursday November rolls around, having no ready reference calendar at hand, but the longer the better if it's going to work out as unhandy as this.

A business man in a nearby city advertises as follows: "I want a highly intelligent, experienced and efficient secretary, and I don't care how ugly she may be."

And, a financially embarrassed movie actress says, "I'm flat busted." No wonder she's broke.

THE IDEA IS widely held that television has gained an unshakable hold on the young people of the country, to the detriment of other and older media of communication.

But apparently that idea needs some overhauling, as this item from Editor & Publisher demonstrates: "The study of the 'teenage market' just released by the Bureau of Advertising completely destroys the television-created myth that the youth of America is a new race of TV viewers to

world peace. Russia does not want stable world conditions unless she is the "top dog." To this President Eisenhower would never agree though—as a General—he realizes the hopelessness of any nation winning another war.

On the other hand, I can understand why President Eisenhower would be willing to see England and France worry for a while. They refused to take the advice of our President and Mr. Dulles. These men both urged England and France to refrain from using force in Egypt.

Don't Forget The Arabs Remember that Eisenhower knows and likes the Arabs, having become acquainted with them during the course of World War II. He knows that their desert lands need only water to be the most productive in the world.

In closing, let me say that one real goal of Russia and England and the United States is to keep open the Middle East oil fields and retain the good will of the Arab World. I forecast that France is now out of the picture and will lose all of North Africa.

(These opinions of Roger W. Babson are published in this paper every Thursday.)

New-Fangled 'Pig Parlor' Proves Far Superior To Pens And Wallows

By JOHN C. WHITE  
 Commissioner of Agriculture  
 Modern pork production has reversed the old truism, "You can't raise a pig in a parlor." Apparently you can! And at a neat profit, too!

Southwestern hog feeders are showing interest in a recent housing and management practice that involves a "pig parlor" believed far superior to pens and wallows. The method calls for fattening of hogs in low-cost, shed-type buildings erected on concrete slabs.

This development approaches the broiler producer's concept of putting production on efficient assembly line basis. The idea makes it possible to market as high as 300 head of hogs a year with a minimum investment in money and labor, yet get maximum returns.

A group of hog pioneers came up with the parlor idea, starting with a large group of pigs on concrete. According to studies of the Ralston Purina Company, the first 32 hogs marketed from a "parlor" returned a labor profit of \$6.32 per pig in 45 days on a 16-cent market.

A parlor 30x22 feet can handle 50 pigs weighing 60 to 80 pounds. Maximum efficiency of investment, labor and feed is claimed with a turnover every 60 to 70 days. The cost of the parlor including equipment was about \$400 in the experimental locations.

Feeders who have used the parlor system believe that their hogs show better carcass yield in addition to the state advantages: quick turnover of investments, fewer disease problems, ease of adaptability to either hot or cold weather, and higher daily gains.

Texas hog raisers may want to investigate this method of production, in view of the high competition for the consumer dollar. In addition, current hog prices call for low production costs in order to make a profit.

Information concerning "pig parlors" may be obtained by writing to John White, Commissioner, Texas Department of Agriculture, Austin.

AWAIT USE IN DISASTER — Water filtration units in the Federal Civil Defense Administration warehouse at Seneca, Ill., await use in a possible future disaster. These warehouses filled with vital engineering equipment are located sufficient distance from expected nuclear bulls-eyes, and to the west—or usually upwind—from target cities to lessen the chances of blast damage and fallout.

Postmaster Lists 10 Ways To Make Sure Of Gift Deliveries

- Here are 10 ways to make sure your Christmas cards and gifts get prompt and safe delivery, according to Postmaster Harold Voss.
1. Address mail fully and clearly. Write legibly or print plainly. Where applicable, use zone numbers on the address and return address. Avoid using abbreviations which might confuse handlers.
  2. Be certain that a return address is printed on the upper left hand corner of both Christmas cards and parcels. This will prevent any undelivered mail ending up in a "dead letter" office.
  3. Do not enclose coins or hard objects of any kind in letters without marking the envelope for hand stamping. High speed cancelling machines cannot process such letters and often jam, damaging letters.
  4. Do not mail cash in any Christmas gift. For safety's sake, use postal money orders or checks.
  5. Make sure parcels are well packed and securely wrapped in strong containers. Cushioning material, such as excelsior, shredded newspapers or tissue paper should be evenly and firmly placed on all sides of the Christmas gift. The carton should be wrapped in heavy paper and securely tied with strong twine.
  6. Gifts of a delicate nature, such as glass, china, electrical appliances, radios and musical instruments, must be marked "Fragile" by the mailer. Foodstuffs should be marked "Perishable" if subject to spoilage.
  7. Insure parcels. Register letters of real value. Where only proof of delivery is required for letters of no intrinsic value use Certified Mail. Use Combination Mail where a letter or message—other than a gift tag—is to be enclosed inside a Christmas package.
  8. Ask any post office for the free pamphlet, "Post Office Department Publication No. 3," which contains rates of postage and limits of size and weight for domestic mail.
  9. Mail Christmas cards and parcels early to avoid the last minute rush and waiting in line at the post office. The best times to avoid crowds at stamp windows in most post offices are before 10 a. m. and between 1:30 and 3:30 p. m.
  10. Every postal employee is happy to answer questions on postal rules and regulations. Anyone with problems about mailing Christmas parcels should avail himself of the opportunity of discussing the problems with postal employees and taking advantage of their experience.

San Andres Wildcat Is New Location

The Southland Company, Dallas, has spotted a 3,100-foot San Andres wildcat in the South Rucker A Strawn pool of Garza County as No. 1-S R. Clyde Miller, 330 feet from north and 1,650 feet from west lines of Section 39, Block 6, H&GN Survey.

It is a twin to an 8,500-foot Strawn operation, Southland's No. 1-D Miller, 660 feet from north and west lines of east half of northwest quarter of Section 39. The latter is an east offset to the South Rucker A Strawn pool opener.

From where I sit... by Joe Marsh

The Kid's Learned to "Take Charge"

I was down at Buck Benson's store the other day when a fellow came in with a six-year-old boy—obviously his son.

While the fellow was looking over some stuff on the counter, Buck handed a free peppermint stick to the boy, who promptly tore off the wrapper and went to work on it.

The father seemed quite put out about his son's lack of manners and held up his hand to stop him. "What do we say when Mr. Benson gives us something?" he demanded. "Charge it," replied the kid without hesitation.

From where I sit, children aren't the only ones who "repeat things" without knowing what they're talking about. For instance, I'm convinced that many of those who speak out against the old American custom of enjoying a glass of beer after work are just parroting what they've heard others say. It's better to get the facts—then make up our own minds—and permit our neighbors to do the same.

A DAY SET APART

... to give thanks to God for his blessings, that was the first Thanksgiving. In prayers, deeply felt in every heart, the Pilgrim Fathers expressed their gratitude for survival through the rigors of their first year in the New World. In same reverent spirit, let us gather with families, friends and neighbors in Church on Thanksgiving. Blessed with the good things of life, far beyond the rosiest dreams of our fore-fathers, let us humbly render our thanks to the Creator.

Meet the magic of the new kind of Ford!

An Action Test will show you that Ford's newness just begins with its longer, lower, wider beauty. It's a completely new car—right from wheels up!

Out on the open road, Ford's magic really takes over! Ordinary stretches of road become special. In fact, every trip's a treat. And it's no wonder, with the all-new "Inner Ford" melting the miles.

The revolutionary new frame, for example, is a full foot wider at the center. You ride lower, with more inside room... full road clearance. And this longest of all low-priced cars is a cinch to handle! With a lower center of gravity, wider rear tread and new easier steering, even tight turns and rutted roads come easy.

And talk about "big-car power"! This new kind of Ford offers you your choice of Silver Anniversary V-8's with a wide range of horsepower to suit every need. Or if you prefer, you may choose the world's most modern "Six" — the new Ford Mileage Maker Six!

The new Ford is easier to enter—roomier than ever.

## Dye, Vernon A. Lobban, Jr. Wedding Sunday In Home Ceremony

Miss Delores Ann Dye, daughter of Mr. and Mrs. Edd Dye, became the bride of Vernon A. Lobban, Jr., son of Mr. and Mrs. Vernon A. Lobban, Sunday afternoon in the home of the bride's parents.

The Rev. Roy Shaban, First Baptist pastor, read the double ring ceremony at 4 o'clock before an archway decorated with fall leaves, yellow and bronze pom-poms and bronze wedding bells.

Recorded musical selections were played preceding the vows and Misses Marca Dean Holland, Alane Norris and Sherry Custer sang "The Lord's Prayer" as the benediction.

Given in marriage by her brother, James Dye, the bride wore a peacock blue wool, knit suit trimmed with white angora at the neckline and cuffs. Her accessories were white and she carried a white Bible, topped with an orchid, surrounded by Stephanotis and ivy. She wore her mother's engagement ring for something old; something borrowed was the Bible belonging to Miss Holland, and she wore a new and blue garter, a gift from Miss Janyce Lobban, sister of the bridegroom.

Mrs. Bob Turney of Midland, attended her sister as matron of honor. She was attired in a rose knit suit with brown accessories. She carried a nosegay of pink and deep red roses.

Bob Turney attended the bridegroom as best man. Ushers were Noel Don Norman, Travis Polk and Jerry Key.

Mrs. Dye chose for her daughter's wedding a blue dress and navy accessories. Mrs. Lobban wore black faille with mauve accessories. Their corsages were of pink roses.

A reception followed the wedding. Miss Linda Byrd presided at the guest register and Misses Janyce Lobban and Melba Neely of Lubbock served refreshments. The bride's table was laid with ecru lace over brown and was centered with pom-poms and fall leaves. Yellow and bronze streamers and yellow tapers completed the decorations. The cake was topped with yellow wedding bells. Yellow fruit punch was served with the cake. Bronze napkins were used.

Mr. and Mrs. Lobban are at home in Midland, where he is employed by the International Harvester Co. For traveling, the bride wore a navy faille sheath dress with matching jacket, white accessories and an orchid corsage, from her bridal bouquet.

The couple attended Post Schools and the bridegroom was graduated with the 1956 class. They are at home at 1504 N. Lamesa Road, Midland.

Relatives and close friends of the couple were guests for the wedding and reception.

## OES Grand Matron Is Feted At Tea Saturday Evening

Slaton, Southland and Post Order of the Eastern Star Chapters honored the Worthy Grand Matron, Pauline Smith of Lubbock, with a tea Saturday evening in the home of Mrs. J. W. Tate in Slaton.

Approximately 85 guests called between 7 and 9 o'clock. They were greeted by Mrs. Tate, Mrs. Smith and 14 of the grand officers. Mrs. Smith was presented a corsage made of pink rosebuds and money.

The serving table was laid in lace over pink and featured an arrangement of pink carnations in pink net, flanked by matching tapers. Silver appointments were used.

Members of the host chapters were in the houseparty. Mrs. Kenneth Davies, Mrs. Birdie Culver, Mrs. Malcolm Bull and Mrs. Edsel Cross alternated at the refreshment table. Guests were registered by Mrs. Hattie Cade and Mrs. Pearl Landmon of Slaton.

WEST TEXAS

Editorial Comment...

**Bugs Moving North**

Those who have been intrigued by realization of the continuing battle between man and insects will be interested in the report of a zoology professor at the University of Texas who says the yellow fever mosquito is moving back north. The continued warm wave that has enveloped the area north of the equatorial belt is lending aid to this movement as well as the movement of other enemies to health and vegetation as they try to recover the ground lost. Embattled mankind is using every artifice, including scores of new insecticides, in an effort to stem the tide. What we need most is a cold winter. It would be trying after so many years of having it soft, but it would be worth millions, might even avoid an epidemic.—"Views and Comment" in The Floyd County Hesperian.

**A Mental State**

A Lynn, Mass., man wrote down during the week for "a tourist book of the entire state of Dallas." Dallas, of course, is

entirely a mental state.—"Big D" in The Dallas Morning News.

**Little To Show**

Often I am startled from melancholy meditation through the realization that many people have known me since before I amounted to anything. Even more shocking is the knowledge that I still don't amount to anything and that all they have to show for their pains is the lasting quality of some acquaintances.—"Trail Dust" in Matador Tribune.

**Experience Failed Him**

Chief of Police John Ashcraft is sporting a new pistol scabbard these days. The story behind it is that the Chief's five-year-old son struck up a bargain with another youngster the other day and traded off the \$9 scabbard for a "Roy Rogers Special." Even with all his police experience, the Chief could not run down the other party in the trade.—The Monahans News.

Article In 'West Texas Today' Tells Complete Story Of White River Work

(Editor's Note: The following article, "The Proposed White River Project," appears in the November issue of "West Texas Today," official publication of the West Texas Chamber of Commerce. The article is being re-printed here because of its general interest to our readers.)

About two years ago, a Community Clinic sponsored by the West Texas Chamber of Commerce and Texas Technological College provided the spark that turned a 20-year-old dream into a near reality—a plan to provide four West Texas cities with an abundant supply of surface water.

At the clinic, which was held in Crosbyton in 1955, many of those attending the meetings expressed interest in water conservation.

They felt the need to establish some form of reservoir where an adequate supply of surface water could be made available to the city to supply present needs and, in addition, to provide plentiful amounts of water for future growth and development.

The first consideration of the citizens of Crosbyton concerned a dream two decades old—the harnessing of the White River that flows through nearby Blanco Canyon. The White River, although it lies dry during parts of the year, becomes a roaring cataract following rains that sweep water from northwest of Plainview down through the canyon, into the Salt Fork of the Brazos River in Kent County and on into Possum Kingdom Lake.

The residents investigated the possibility of placing a dam across the river to trap some of the flood waters. Their desire to provide additional water supply stemmed partly from the rapid decline of the underground water table in the area. Currently, the city is using water pumped from nearby wells for municipal purposes.

As discussion of the project increased, three other nearby cities expressed interest in the proposal. A meeting was called in the early part of the year of citizens of Crosbyton, Ralls, Post and Spur to organize a committee to represent the four cities in negotiations to establish a municipal water authority.

At the meeting, three persons from each of the cities were named to serve on a citizens committee. The committee acted for the cities in undertaking work on the project.

The group made numerous trips for consultation with engineers, lawyers, investment firms, and members of the Brazos River Authority. Next, an agreement was made with the firm of Freese and Nichols, consulting engineers of Fort Worth, to check the feasibility of building a dam on White River with a storage large enough

to supply water for the cities in the proposed project. The firm's survey, showed, following a preliminary investigation, that the dam could be constructed and would store the necessary water for the population within the four cities and also would allow for 100 per cent growth of the towns.

Next, core drilling was made at the proposed dam site and revealed that the area is free of gypsum deposits and suitable for the construction of the dam.

A petition was presented before the State Board of Water Engineers on Sept. 10 to form the White River Water Control and Improvement District. The Board approved the petitions and created the water district with five temporary directors.

Board Chairman R. M. Dixon prefaced the Board's favorable vote by congratulating the petitioners for "doing on your own all you can to get water instead of waiting for somebody else to do it for you."

The project will be financed through sale of water, which will amount to about 75 per cent of the cost, with the remaining 25 per cent raised through taxation.

However, it is estimated that as soon as water consumption passes the two million gallons per day rate, that sale of the water will pay for the entire remaining debt. It is further estimated that the two million consumption mark will be reached within five years.

The water will be sold to each town at the same rate, about 30 cents per 1,000 gallons. The rate of resale of water in the cities will be set by that city's government. The water is expected to be considerably softer than present supplies. It will be filtered at the dam and the leadership in the cities indicate that they feel that the filtration will lead to approval by the State Board of Health of the municipal water supplies.

Current plans show that the dam will be of earthen construction and nearly 2,000 feet long. A

natural spillway lies on one side of the damsite to permit overflow water to be released from the lake.

The dam will be approximately 50 feet high and will be built at a cost of nearly one-half million dollars. It will back up water to form a lake nearly eight miles long and one mile wide. It will hold more than 30,000 acre feet of water, enough, engineers estimate, to withstand a five-year drought and still have a 33 months supply of water.

Entire cost of the project, including the dam, water lines to the cities, water treatment plant, contingencies, legal and engineering fees and interest during construction, will be approximately two and one-half million dollars. The tax on the average home owner within the cities is estimated to be less than one dollar per month.

Computation of the siltation factor shows that silt will not affect the reservoir for at least 50 years.

The dam will be located in the southeast corner of Crosby County. It was placed so as to be nearly equidistant from each of the cities.

It is expected that numerous concessions will be built at the lake to provide a first-rate recreational area for the region. Both fishing and boating will be allowed on the lake and leases will be made for cabin sites as well as providing building sites for such organizations as the Boy and Girl Scouts. However, these matters will be under supervision of the water district and the board of directors. The recreational side of the project has not been worked out and it will be some time after the completion of the project before it will be known what rules and regulations will apply to recreational facilities.

The District will own land approximately one-fourth mile from the shore line of the lake.

# FOR ALL WE HOLD SACRED.... ATTEND CHURCH!

## Of Such is the Kingdom of God

Some people argue that the words of Christ imply that God's Kingdom belongs to children and not to adults. Indeed, there are some families whose worship habits suggest as much. The youngsters are bundled off to Sunday School; and the grown-ups stay home.

But Biblical scholars have long agreed that Christ's words point to the attitude, not the age, which is the mark of God's Kingdom.

The implicit faith, the humble acceptance, the eager yearning with which children approach Christ's teaching — these are the qualities which belong to God's Kingdom.

Perhaps we are foolishly infatuated with the notion that our children should follow in our footsteps. If we start them in the right direction, the direction of the Church, we may gain much more by following in theirs.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

The Rev. Kenneth Leach will conduct services Sunday at Central Baptist Church at 11 a. m. and 3 p. m. Everyone is invited to attend.

Mr. and Mrs. O. R. Cook's daughters, Polly Tilton of Lubbock and Josh Sweeten of Sundown recently visited them.

Mr. and Mrs. Victor Lindsey and family of Jal, N. M., and Mr. and Mrs. Winford Craig of Tahoka spent Thursday in the C. S. Craig home.

Mrs. Bishop Mathis and Minnie and Mrs. Glenn Mathis and Donna were in Lubbock Saturday.

Mr. and Mrs. R. M. Turner and Mr. and Mrs. T. C. Edwards visited in Walters, Okla., with the Vernon Turners and Billie Lee from Wednesday until Saturday. Other guests were the Coll Edwards family of Dallas.

### Seven Birds Won In Jaycee Turkey Shoot

The Post Junior Chamber of Commerce's second turkey shoot Saturday resulted in the giving away of seven turkeys as compared with 10 the previous Saturday.

Guy Floyd rated as a sharpshooter by winning two of the turkeys awarded Saturday. Jack Henderson, who had won one of the birds the previous Saturday, repeated last Saturday.

Other winners Saturday were Jackie Hays, Allen Nichols, Bobby Terry and Neal Francis.

### SCOUT TROOP MEETS

Girl Scout Troop 6 met Monday and elected the following new officers: Lida Pennell, president; Margie Ann Harrison, vice-president; Mary Beth Ford, secretary; Carol Billings, treasurer, and Susie Jo Schmidt, reporter. Games were played, and Linda served refreshments to the group.

### 4C'S WILL MEET

The Close City Community Club will have a chili supper at the school lunchroom Dec. 6. Each family is asked to bring a pie and enough chili for their family. Crackers, coffee and punch will be furnished by the club. Everyone in the community is invited to attend.

## Church News

Mrs. Jessie Voss was in charge of the supply work program at Monday afternoon's meeting of the First Methodist W. S. C. S. Others on the program were Mrs. Elaine Mills, Mrs. T. L. Jones and Mrs. W. L. Porterfield. A business meeting followed. About 10 members were present.

Central Baptist Church, located between Post and Tahoka, will have a Thanksgiving service from 8 a. m. until 12 p. m. Friday. The service will consist of reading the New Testament. Kenneth Leach, pastor, said that the public is cordially invited to attend.

Kenneth Rogers, son of Mr. and Mrs. Earl Rogers and a senior student at Bethany Nazarene College, Bethany, Okla., spoke at the Church of the Nazarene Sunday evening. He is training to be a missionary to Africa. His sister, Delta, Clarence Hawkins, Miss Janell Crawford of Sherman and Harold Allen of Lubbock, all Bethany students, presented special music for the service. Accompanying the group to Post was Miss Warrick of Lubbock.

Roy Shahan, First Baptist pastor, reports: "The Sunday morning sermon subject will be 'Results of Our Union With Christ' (John 14:20). At the evening hour, the pastor will speak on 'But by the Grace of God I Am What I Am' (1 Cor. 15:10). December closes our calendar year of church activities and is also the season that we observe the birthday of our Lord. Each one is urged to be faithful in attendance at all church services in response to the love that was manifested in God's gift to the world."

Cecil Stowe, Church of the Nazarene pastor, announces that he will speak at both the morning and evening services Sunday. He said that W. R. Bennett will begin a class on "The Life and Teachings of Christ" at the Nazarene Young People's meeting hour. The public is invited.

### Former Post Youth On Paris TV Show

Pfc. James H. Womack, 21, formerly of Post, recently appeared on a three-hour French TV "spectacular," "36 Chandeliers," with the 76th Army Band in Paris. The band, in which Womack is a tuba player, played two selections on the show, which presented the top names in French show business.

Womack, son of John E. Womack, now of Snowflake, entered the Army in January, 1955, and arrived overseas in September of this year.

Mrs. Mae Payne, who has been visiting for a month with her daughter, Mrs. W. C. Kiker, and family will return to her Wichita Falls home today. Mr. and Mrs. Roy Brown, Jr., and Richard, Mrs. Kiker, Alice, Wayne and Diane will accompany her and they will attend the Baptist State Training Union convention.

### 32 Students Make 6-Weeks Honor Roll At Colored School

### Roundtable—

(Continued From Front Page) some day replace the tax monies from oil.

The discussion also brought forth the suggestion that one thing that keeps small towns small is the money earned here and spent elsewhere—in larger shopping centers, for instance.

Following discussion of the topics in the workbook, Mayor Minor brought up a number of others, including a city court and police system, city hall facilities, and ways in which to make our schools better.

Those attending and taking part in the roundtable discussions were Mayor Minor, Powell Shytles, Miss Kate Lowrie, Tom W. Boucher, Dr. and Mrs. A. C. Surman, Dr. and Mrs. Harry A. Tubbs, E. R. Moreland, R. K. Green, Chant Lee, R. J. Jennings, Lee Ward, T. L. Jones, Pat N. Walker, the Rev. Roy Shahan, Mr. and Mrs. S. E. Camp, Eddie Warren, Harold Lucas, Harold Voss, George Samson, H. W. Schmidt and Leo M. Acker.

Mr. and Mrs. Leon Miller and Don Tatum visited Miss Anne Porterfield, freshman student at Howard County Junior College, Big Spring, Saturday night. They attended a speech class play, in which Miss Porterfield participated.

### Post Woman Hurt In Car Collision

Mrs. Loree Thaxton, who received a broken right knee and two broken ribs in an automobile accident near Lubbock Friday morning, was reported improving this week in West Texas Hospital.

The accident occurred when Mrs. Thaxton's automobile collided with one driven by a Corsicana man at the intersection of 50th Street and the Slaton Highway. Mrs. Thaxton was en route to classes at Texas Tech when the accident occurred.

The Post woman's husband, C. R. (Si) Thaxton, said their automobile was almost totally wrecked in the collision. Only one of the five occupants of the other car was injured seriously enough to require hospitalization.

### Sunday Blazes Cause Only Minor Damage

Post volunteer firemen answered two alarms within the space of 30 minutes early Sunday afternoon, with neither blaze resulting in serious damage.

About 1 o'clock, the firemen extinguished a truck tire blaze on a truck on U. S. Highway 84. Less than half an hour later, they were called to the "flats" to put out a blaze which did minor damage to a residence.

### Maturity Tests Are Given Pupils Here

Mental maturity tests have been given Post Junior High School pupils, Principal Ellis M. Mills said Tuesday. The tests are also to be given fifth grade pupils in the elementary school.

Purpose of the test, Mills said, is to arrive at an intelligence quotient with language and non-language factors playing a big part in the composite results.

The results of the tests will prove especially important from the standpoints of counseling and teacher-relationship, the principal said.

**DATE COCONUT COFFEE CAKE**

1/2 cup sifted, all-purpose flour  
1/3 cup sugar  
1/2 teaspoon cinnamon  
1/4 cup cold butter or margarine  
3 cups biscuit mix  
3/4 cup sugar  
1/2 cup water

1/2 cup finely cut dates  
2/3 cup canned, flaked coconut  
1 slightly beaten egg  
1 cup Pet Evaporated Milk

In a small bowl, mix the flour, 1/3 cup sugar and cinnamon. Work in butter with fork until mixture looks like coarse corn meal. Let stand in 2-qt. bowl mix the biscuit mix, 3/4 cup sugar, dates and coconut. Add all at once a mixture of the egg, milk and water. Mix just enough to moisten dry ingredients. Spread batter in greased 9-in. square baking pan. Sprinkle crumb mixture over top. Bake near center of 400 oven (hot) 40 min., or until cake pulls from sides of pan.

**Canyon Eliminates Spur Bulldog '11'**

The 1956 football season ended for District 2-AA at Plainview Friday night when the Spur Bulldogs lost to the Canyon Eagles, District 1-AA champions, by a score of 28 to 13.

The Bulldogs made a contest out of it, trailing the strong Eagles by 14-7 at halftime. The hard-charging Spur line had bottled up Canyon's potent running attack, forcing the Eagles to take to the air for their win.

Quarterback Ray Powell ran 85 yards for one of Spur's touchdowns and halfback James Gordon scored the other on a three-yard run. Powell made the Spur conversion.

Spur had tied with Lockney and Abernathy for the District 2-AA championship. The Bulldogs won the right to enter the bi-district playoff game on the toss of a coin.

Canyon meets Stamford, defending state champions, Friday in a second round game of the Class AA playoffs.

**Deer Hides Sought For TB Patients**

AUSTIN (Spl.)—The executive secretary of the Game and Fish Commission has endorsed as "first rate conservation" the effort by the Texas Tuberculosis Association to collect deer hides for patients to convert to usable objects.

"This is a fine program," he said. "And it's a shame that so many deer hides go to waste when good citizens being restored to usefulness are so deserving."

Hides will be handled free by motor transport if addressed to: "L. M. Rathbone, Austin Taxidermist Studio, 2709 Fredericksburg Road, Austin."

**Slaton Cagers Open By Beating Lorenzo**

The Slaton Tigers of District 2-AA opened their 1956-57 basketball season last Friday night by defeating Lorenzo, 61-45, on the Slaton court.

It was the earliest start of the season for a 2-AA cage team, Slaton having finished their football season a week ahead of Post, Floydada, Spur, Lockney, Tahoka and Abernathy, the other district teams.

High scorer for Slaton was Larry White with 18 points.

The Slaton girls also won over Lorenzo, 48-37. Beverly Blaud paced the winners with 20 points.

**Fire Chief Warns Postites Of Perils Of Yuletide Trees**

Fire Chief Robert Cato this week issued a word of caution to Post residents regarding Christmas tree-decorating safety.

The fire chief said that while he doubted if many trees will be going up until several days after Dec. 1, it still isn't too early to think about safety.

"Accidents at Christmas time always seem so much more tragic," Cato said. "And this is especially true if the accident results in a fire that costs a family their home; maybe serious injury to one of the family."

The fire chief pointed out that this type of accident is easily preventable, if only a few common sense precautions are taken. As an example he listed the following eight rules which he considers "musts" in safe decorating.

1. Keep tree outside until time to trim.
2. Place tree away from all heating units.
3. Use non-flammable decorations.
4. Never use candles near tree.
5. Make sure lights, sockets and wiring are in good condition.
6. Anchor tree, at top, with wire to prevent it from falling.
7. Turn off tree lights at bedtime or when away from home.
8. Dispose of tree safely after you are through with it.

"Remember," he concluded, "it takes less than 60 seconds for the average tree to burn up completely, so make your Christmas a bright one, but with happiness—not with fire."

Thanksgiving is a time for family gatherings - - - for heartfelt rejoicing in the blessings of home, family, peace and plenty. It's a time to be joyful - - - and a time to be quietly, prayerfully grateful because the abundance and freedom our forefathers dreamed of are ours in reality. On this Thanksgiving, we join in giving thanks, and among our blessings we count the opportunity of serving you during the past year. May we continue to serve you in a manner that will ever deserve your patronage.

# Marketing Quota Referendum Cotton Is To Be Dec. 11

Wright, chairman of the Garza County Agricultural Stabilization and Conservation committee, said this week.

The first vote of cotton marketing quotas was held in March of 1938, and the last previous cotton referendum was in December of 1955. In the last vote, 93 per

cent of the farmers voting expressed approval of using the quotas for the 1956 cotton crop. At least two-thirds of the farmers voting must favor quotas before they may continue in effect.

Under legislative provisions, the Secretary of Agriculture must proclaim a national marketing quota and a national acreage allotment for upland cotton whenever he finds that the total supply exceeds the normal supply.

At the time the Secretary issued the proclamation for the 1957 crop, the total supply of upland cotton for the 1956-57 marketing year was estimated at 27.5 million running bales, which included on Aug. 1, 1956, carryover of 14.1 million bales, 1956 production of 13.4 million bales (the August crop report) and estimated imports of 50,000 bales. The "normal supply" figure of 17.7 million bales included domestic consumption of 9.1 million bales and exports of 4.5 million bales, plus a 30 per cent "carryover" reserve of 4.1 million bales. Thus the prospective total supply for 1956-57 at the time the quota was proclaimed exceeded the normal supply by about 9.8 million bales.

Marketing quotas operate through acreage allotments. A grower who exceeds the cotton acreage allotment for his farm, under a cotton marketing quota program, will be subject to a marketing quota penalty of 50 per cent of parity on the farm's excess production. Growers who do not exceed their cotton allotments may market free of penalties all the 1957 cotton production from their farms.

## Post Rural Mail Carriers Help Set Safety Record For Two-State Region

Rural mail carriers operating 224 miles daily, amounting to more than 68,000 miles annually, and they have just completed a year's operation without an accident.

The Post carriers' record was part of the rural route fleet of the Louisiana-Texas postal region that has just been given driver safety recognition in the 25th annual national safety contest of

the National Safety Council, according to a statement made this week by Postmaster Harold Voss.

During the year the rural carriers of the two-state region covered 31,060,814 miles with an accident rate of only .08 accidents per 100,000 miles. Rural carriers of the post office here contributed to this outstanding safety record.

The postal region's 2,500 drivers placed third in the passenger

PRODUCERS IN DUMPS

The citizens of Houston will be looking at their garbage dump with new eyes from now on. The city-owned dump already boasts one well, producing at the rate of 183 barrels a day, and preparations are almost complete to drill a second. In all, plans call for drilling up to 30 wells on the property. City officials estimate that the first well alone will net Houston's 600,000 citizens about \$40,000 a year. Wherever there is oil, there will be oil men to take it from the ground for the benefit of the American public.

Mr. and Mrs. E. R. Moreland transacted business in Lubbock Monday.

National Safety Council In 'Back The Attack' Campaign

"A loaded gun is no more dangerous than a half-loaded driver," Ned H. Dearborn, president of the National Safety Council, asserted today. "For one thing, the driver isn't recognized as a lethal weapon."

Dearborn, appealing to civic organizations and enforcement off-

icials to "Back the Attack" against traffic accidents, pointed out that drinking drivers and drinking pedestrians are more prevalent during the Christmas holidays than at any other time of the year.

Because of the emergency traffic situation, with its rising toll, Dearborn said a year-round "Back the Attack on Traffic Accidents" campaign is being launched this December and will continue throughout 1957.

The purpose of the campaign is, first, to encourage public officials to step up the attack and, second, to stimulate citizens to back the attack on traffic accidents.

The December emphasis will be on drinking drivers and pedestrians, night driving, speed, and pedestrian hazards.

The throttle and the bottle were the big reasons why a record 609 persons were killed in traffic accidents last Christmas, according to a study made by the National Safety Council.

Drinking drivers were involved in 55 per cent of the fatal mishaps, although normally they are involved in around 20 per cent, the study showed. Speed was a factor in 85 per cent, compared with an annual average of 35 per cent.

The most common driver action contributing to fatal accidents was driving on the wrong side of the road or in the center of the road. Failure to observe a signal or stop sign was second. Mechanical failure or tire blowouts were responsible for only four of the fatal accidents studied.

Seventy-five per cent of the accidents happened during dark hours, between 5 p. m. and 7 a. m.

One-third of the pedestrian victims were crossing between intersections, stepping from behind a parked car or walking on a roadway.

POSTEX MILLS

By A. LEE WARD

Well, the pillow case hemming department in the Postex Sewing Room did it again last week. They hemmed another all-time high production record for number of dozens per week. This now makes the sixth consecutive week they have gained in production. Let's hope they do it again this week.

By January of 1957, we will be needing to produce about 12 per cent more pillow cases than we did last week, and about 24 per cent more sheets than we did last week. If any of you know of experienced sheet hemmers or pillow case hemmers that would like to come back to work, please have them contact us before Jan. 1, 1957.

Speaker Says State Should Furnish Funds For Right-of-Way

The state should provide money for farm-to-market road right-of-way, Earl Sharp, Gregg County judge, said at the annual convention of the County Judges and Commissioners Association of Texas, held recently in San Antonio.

Sharp, keynote speaker at the convention, said county judges and commissioners have "no greater headache" than the right-of-way problem.

"In a great many cases," he said, "we find that the expense is almost prohibitive on the route of selected and we have great difficulty in getting the engineers to change the route."

"The state must face up to the responsibility and buy, preferably, but at least provide the funds for purchase of right-of-way on their own roads. No excuse can exist to bankrupt a municipality or a county for right-of-way which, though it benefits the city or county, is of greater benefit to the public generally."

HIGH-MINDED DRILLERS

One of the highest gas wells in the nation is staked more than 10,000 feet up on the Wasatch Plateau in east-central Utah. Operating on such a high plane represents a special challenge to the gas operator's ingenuity: for instance, wellheads must be buried underground to protect them from crumbling rock and debris. Solving unusual problems is daily routine to the people of the petroleum industry, as they compete with each other for new and better ways of serving the American public.

TAXPAYERS TO GET FORMS, BOOKLETS SOON

Income Tax Forms For 1956 Returns Will Contain Only Minor Revisions

Federal income tax forms for the preparation of 1956 returns will be available about Dec. 3 in reasonable quantities to accountants, attorneys and other professional personnel, Howard O. Nichols, district director of the Lubbock office of the Internal Revenue Service, said today. The Internal Revenue Service has provided order blanks to the 3,500 North Texas tax practitioners who have, in most cases, already submitted orders. These orders are being packaged and shipped starting Dec. 3.

Individual taxpayers on record will receive their forms and instruction booklets through the mails on the same schedule as last year, during late December or early January, Nichols said.

There are very few changes in the form other than minor revisions for clarity and simplification. The instruction booklet which accompanies it has been changed, however, to provide a line-by-line series of explanations, keyed to the arrangement of the form and its sequence of entries.

New type-faces have been used in both form and booklet, Nichols said, and should, with the simplified treatment and explanations, make preparation of a return much easier than in past years.

The Internal Revenue Service will sponsor the printing of 185 million copies of Form 1040. Taxpayers were advised to begin study of the tax instructions as soon as possible since a good understanding of the tax instruc-

tions will mean money in the taxpayer's pocket when he files his tax return.

Carbon Monoxide Gas Taking Lives Of Many Drivers

Motorists of the Post area this week were warned of the dangers of carbon monoxide gas.

"Mr. Motorist, there is a wolf in sheep's clothing—carbon monoxide," said Capt. E. L. Posey of the Lubbock Highway Patrol District. "You can't see it, you can't smell it, you can't feel it, but don't be a victim—it is plenty dangerous."

About 250 lives are lost annually due to carbon monoxide poison. These deaths result from motor vehicle exhaust gas while the vehicle is standing.

"We have no way of knowing how many the gas has put to sleep while driving, or the number of resulting traffic accidents and additional fatalities," Captain Posey said. He gives the following reminders to keep the "carbon monoxide wolf" from your car:

1. Never go to sleep in a standing vehicle with the motor running; your nap could be permanent.
2. Keep fresh air constantly circulating in your car while driving.
3. Report any instance of motor fumes to your mechanic. "Don't play with this killer," Captain Posey said. "If you underestimate the reality of this menace, or you are too lazy to do something about it, the results could be disastrous to you. The life you save could easily be your own!"

GAUDY, BUT NICE!

There's a bright day coming for a sprawling, 600-acre oil refinery in Philadelphia. More than 700 buildings, tanks, and refining units will soon be wearing coats of glowing pinks, yellows, blues, grays and greens. The painting job, which will transform the refinery into a rainbow panorama, is part of the plant's arrangements for easy identification and safety measures. It's only natural for the oil industry, one of the most colorful and efficient in the world, to make use of color for efficiency—and safety.

### Judge Now Executes Rate Certificates On Grain Shipments

The authority to execute certificates entitling eligible Garza County applicants to reduced freight rates has been redelegated to County Judge Pat N. Walker by Gov. Allan Shivers. This new order became effective Nov. 15.

Heretofore, the certificates have been issued by the county supervisors of the Farmers Home Administration and only stockmen who were eligible for emergency feed could obtain the certificates.

The orders provide in part that the class of persons entitled to reduced rates are those designated as being in distress and in need of relief by the U. S. Department of Agriculture or by such state agents as designated by the department.

Under the revised routine, county judges of Texas have been authorized to grant emergency relief to all stockmen in the designated drouth counties of the state.

Mrs. Irene Dixon was Sunday afternoon guests of the Sam Sanders family.

### Mrs. Isaac Brown's Texas Sets Aside \$1,500 To Stimulate Further Study, Research On TB Control

Funeral services for James W. Franklin, 86, father of Mrs. Isaac Brown and brother of O. B. Franklin, both of Post were conducted at 3 p. m. Tuesday at the First Baptist Church in O'Donnell. Burial was in the O'Donnell cemetery.

Mr. Franklin, a retired farmer, died about noon Sunday in Lamesa General Hospital where he had been a patient about 10 days.

Besides the daughter and brother of Post, he is survived by his wife; another daughter, Mrs. Howard Barnes of Raton, N. M.; six sons, Ben of Pittsburgh, Calif., C. R. of Alamogordo, N. M., D. A. of Tahoka, J. A., Dick and J. W. Franklin Jr., all of O'Donnell; two other brothers, J. N. and M. T. Franklin of Keene; five sisters, Mmes. E. E. McLain of Keene, J. W. Quinn of Coleman, C. E. Quinn of Merkel, H. C. Griffin of Odessa and Vida Lacy of Odessa; 24 grandchildren and 18 great grandchild.

Those enjoying a Thanksgiving dinner in the home of Mr. and Mrs. R. L. Cummings Thursday were Mr. and Mrs. Jimmy Cummings and family of Muleshoe, the Rev. and Mrs. Douglas Gossett and children of Blackwell, and Mr. and Mrs. Odean Cummings and children.

Visitors in the Earl Rogers home over the weekend were their son and daughter, Kenneth and Delta Rogers and Miss Jeanette Crawford, students at Bethany College, Bethany, Okla.

AUSTIN (Spl.)—Recognizing research advances which have drastically cut the national TB rate, members of the Texas Tuberculosis Association's research committee have set aside \$1,500 to stimulate further study and research on TV control in Texas.

Dr. Daniel E. Jenkins of Houston, head of the committee, believes that scientists may be on the threshold of new discoveries which will reduce the great number of TB cases still persisting. The U. S. currently has 1,200,000 cases, both active and inactive, needing either actual treatment or medical supervision. Of these, 250,000 are not under treatment and are exposing others in their communities.

"In 50 years of fighting the disease, we've found the answers to many problems," asserted Dr. Jenkins in discussing the half-century siege of tuberculosis by TB associations. "But medical research is often frustratingly slow. The tuberculosis problem in Texas is very large in comparison with many other states where the disease has been more completely controlled."

"Despite money allotted to research each year from Christmas Seal funds," he continued, "here in Texas we feel that we need to set up a fund especially for research in the state. It's a 'baby' fund, of course, but doctors on the research committee hope that it will be a nucleus for donations from local tuberculosis associations or medical endowments." Letters were today directed to

medical and pre-medical schools over Texas, inviting would-be recipients of the \$1,500 to apply to the research committee of the Texas TB Association in Austin. Research may be current or proposed, either in the basic sciences, or along clinical, sociological or public health lines.

Mr. and Mrs. Noel Wilson of Slaton spent Sunday afternoon with friends and relatives.

Sunday guests in the O. B. Taylor home were Mr. and Mrs. D. C. Scoggins and C. T. of Claremont, Oscar Osman of Petersburg, Mrs. Mattie J. Osman of Claremont, who will make her home here, and Mr. and Mrs. Alton Clary and Judy.

### University Press Has 3 New Publications

AUSTIN (Spl.)—The University of Texas Press has three new publications:

"A Political History of the Texas Republic" by Dr. Stanley Siegel of Houston, "Why the Chisholm Trail Forks and Other Tales of the Cattle Country" by Andy Adams (edited by Dr. Wilson M. Hudson) and "They Tell of Birds" by Dr. Thomas P. Harrison, a study of birds as they are presented by four great English poets—Chaucer, Spenser, Milton and Drayton.

Drs. Harrison and Hudson are members of the University English department faculty.

Mr. and Mrs. Percy Parsons and family were Sunday visitors of Mr. and Mrs. Charles Hudson in Crosbyton.

Our special fall check-up protects your car against cold

\* We'll check the battery and spark plugs for quick starting... tires, under-surfaces... put in Texaco FT ANTI-FREEZE (one filling lasts all winter)... fill the crankcase with fresh HAVOLINE for full power... cushion your car with MARPAK (the long lasting chassis lubricant). Then, with our pace-setting Texaco SKY CHIEF or famous FIRE-CHIEF gasoline, you're all set for cold weather. Drive in today.
