

# New college extension center to open here in fall

Western Texas College of Extension will offer college credit for Post beginning with the opening of a new center in the high school building.

Robert L. Clinton, president of Western Texas College, said Supt. Bill Shiver over the approval of the Coordinating Board of Colleges and Universities April meeting for the fall.

"We at Western Texas College look forward to being able to supply this service to your community and appreciate so much your cooperation and that of your school board in providing us with such an opportunity," Dr. Clinton wrote Shiver.

"We appreciate your confidence in Western Texas College," he concluded. "We feel that our association together will be beneficial to both of our communities."

Supt. Shiver told The Dispatch that it is like adding two additional years to Post's 12-year school system by making junior college courses available here.

He explained that the Post schools will open necessary classrooms for use by the extension center, beginning at 4 p. m. after school classes here are dismissed.

"These extension courses will enable local young people to take college courses right here at home while working at a full-time job," the Post administrator pointed out.

"This will put a college education within reach of all who want it," he declared enthusiastically.

"We in the Post schools will go all-out to make the new junior college extension program work from the start," Shiver said.

Earlier, he had estimated if the extension center were approved Post could easily have 100 to 150 students enrolled in college courses.

Shiver said the Post schools will pay for maintenance and utility costs of providing local classrooms. He pointed out some inconveniences would occur with a high school group using the classroom during the day and a college group in the evenings.

But he said it will be well worth it by putting Post's \$4,000,000 educational plant to use more than just seven hours a day.

Dr. Ben Brock, WTC vice president, also announced this week that Rotan and Sweet-

water were approved with Post for the new extension centers, beginning with the fall semester.

Western Texas College, which opened in 1971, now offers extension classes in Haskell and Colorado City. Some courses for disadvantaged adults also are offered in Post and Colorado City through WTC.

Dr. Brock said a survey will be taken here in Post to determine which courses are in sufficient demand to enroll the minimum number of students.

(A minimum of 15 persons is generally required to form a class.)

In making application for the extension program here two months ago, Supt. Shiver requested that WTC offer general academic courses, selected occupational-technical courses, adult basic education courses, and non-credit community service courses.

Academic courses being considered for Post include English, government, history, math, conversational Spanish, psychology, sociology, speech and art.

Occupational-technical courses being considered include business courses and law enforcement.

Community service courses may be arranged upon the request of interested persons to cover a variety of subjects. Community service courses offered on the WTC campus in Snyder in recent months have included basic electronics, radio communications, cake deco-

(See New college, Page 10)

for one bedroom and \$120 to \$125 for two bedrooms depending upon final construction costs, Potts said.

The units would include carpet except in kitchen and dining area, refrigerated air conditioning, stove, and refrigerator.

J. B. Potts, chairman of the housing committee, said forms are available at both the Chamber of Commerce office in the McCrary building or at the bank for local individuals or families interested in rental housing.

He explained that at least 35 to 50 families or individuals who would qualify for the FHA-financed duplexes in terms of finances and age and who are in the rental housing market are being sought to complete the survey.

Potts said persons filling out housing survey forms are not obligated in anyway to apply to rent the duplexes but that they could apply if they desire to do so.

Individuals not making over \$8,700 annual income and families of four with a maximum income of about \$9,800 would be eligible to rent the new duplexes under the FHA program's requirements.

They should also be under 50 years of age, as this is a program designed for young families and individuals in the community who are hurt by the pinch of the housing shortages, not for the elderly.

If the project is approved for Post, the duplexes would rent for from \$100 to \$115 monthly

for one bedroom and \$120 to \$125 for two bedrooms depending upon final construction costs, Potts said.

If the project is approved for Post, the duplexes would rent for from \$100 to \$115 monthly

## FHA housing loan being sought here

The Post Chamber of Commerce housing committee, moving rapidly to apply for Farm Home Administration funds to build a 10-unit duplex rental housing project here, issued a community call for cooperation this week to complete an essential housing survey.

J. B. Potts, chairman of the housing committee, said forms are available at both the Chamber of Commerce office in the McCrary building or at the bank for local individuals or families interested in rental housing.

He explained that at least 35 to 50 families or individuals who would qualify for the FHA-financed duplexes in terms of finances and age and who are in the rental housing market are being sought to complete the survey.

Potts said persons filling out housing survey forms are not obligated in anyway to apply to rent the duplexes but that they could apply if they desire to do so.

Individuals not making over \$8,700 annual income and families of four with a maximum income of about \$9,800 would be eligible to rent the new duplexes under the FHA program's requirements.

If the project is approved for Post, the duplexes would rent for from \$100 to \$115 monthly

## Cancer crusade here Saturday

A county-wide door to door canvass is scheduled here Saturday, beginning at 9:30 a. m. to raise funds for the 1975 Cancer Crusade.

Fifty volunteers will not only cover Post but rural communities as well in the first-ever such financial effort here under the direction of Mrs. Nell Dalby.

No specific goal has been set by the Garza chapter of the American Cancer Society, now headed by Bill McBride.

## AT COLORADO MUSIC FESTIVAL Antelope band 'outstanding'

The 55-member Post Antelope Band came home from the "Four Corners Music Festival" in Durango, Colo., Sunday night with a I rating in concert and the designation as "outstanding band" in Class AA in competition with six other Texas, Colorado and Arizona bands.

The band was selected for the honor over bands from Dove Creek, Pagosa Springs, Ignacio and Nucla, Colorado; Page, Ariz.; and Tahoka.

Added to these impressive band accomplishments were I ratings received by Cy Willson, coronet solo; Dana Giddens, who was given a I plus, Tiana Shiver and David Morrow, flute solos; flute ensemble of Giddens, Morrow, Peggy Jackson and Patricia Posey; and a clarinet quartet, composed of Shirley Allen, Patricia Bilberry, Mary Ann Norman and Pam Carpenter.

Scott Houston, Post band director, told The Dispatch approximately 50 bands, orchestras, and choirs competed in the festival.

Prior to leaving on the 13-hour, 475-mile trip to Durango early Thursday morning on two chartered buses, the band received a I in sight reading and a II in concert in the UIL contest at Seagraves.

No class AA bands at Seagraves received over a II in (See Post band, Page 10)

## Flower show here May 14

The Woman's Culture Club is sponsoring a flower show at the First Christian Church May 14 from 3 to 4:30 p. m. and invites community-wide entries.

Ribbons will be awarded by a judge from the Lubbock office of the Soil Conservation Service in five divisions: wild flowers, cultivated yard flowers, terrariums, dried flower arrangements, and hanging baskets.

An entrant may enter as many divisions or as many entries in any division as he or she desires.

Entries should be brought to the church from noon to 2 p. m. on the day of the show.

Judging will be before a slide presentation by Mrs. Jack Kirkpatrick of "Nature's Underworld" which will be given at 3 p. m. in Fellowship Hall, followed by Ed Nell's slide presentation on Garza County flowers.

The show and program is a Bicentennial project for the culture club.

**FOUR OF CUTEST KIDS** — Shown above are the winners and runners-up in last Thursday night's Mini Miss and Mini Mr. Contest. Left to right, A. D. Sparlin, runnerup; Beth Parnell, Mini Miss; Rance Sappington, Mini Mr.; and Christy Cole, runnerup.

**MISS AND MR. POST** — Teresa Sparlin named Little Miss Post last Thursday night, second from left, and Brent Jones, Little Mr. Post, next to her pose with the contest runners-up, Tyra Alexander, left and Rodney Tidwell, right. (See story on Page 10)

# The Post Dispatch

Forty-Seventh Year Post, Garza County, Texas Thursday, May 1, 1975 Number 48

NATIONAL EDITORIAL Blue Ribbon FOUNDATION 1975

## "CAN'T MAKE LIVING WAGE" Jimmy Holleman is resigning as sheriff effective June 1

J. A. (Jimmy) Holleman submitted his resignation as Garza County Sheriff, effective June 1, to the Garza County Commissioners Court Monday.

The lawman gave no reason for his action to the court.

Holleman told The Dispatch yesterday, however, that "my only reason I'm resigning is that I can't make a living wage."

Holleman's salary as sheriff is \$597 a month.

As the sheriff pointed out, Post policemen make more than this without the sheriff's responsibilities.

Holleman told The Dispatch he isn't ready to announce his future plans but that he has received two offers, presumably in the law enforcement field, one for \$800 monthly and the other "for considerably more."

The sheriff placed his home here on the market last week with a classified ad in The Dispatch.

"I don't want to leave Post," the sheriff told The Dispatch. "I've got a lot of friends here."

County Judge Giles W. Dalby told The Dispatch yesterday that the commissioners court is seeking applicants from whom to select Holleman's successor.

Judge Dalby asked those wishing to apply for the position to do so through his office.

The court is not expected to make its appointment for several weeks.

Holleman has served as sheriff here since the general election in November, 1970, when he was elected to fill the unexpired term of the late Faye Claborn who died in office.

The court had appointed Mrs. Claborn to succeed her husband until the November election that year.

In 1972, Holleman was re-elected to a full four-year term which would have expired Dec. 31, 1976.

The court-appointed successor will serve until the next general election which will be in November of 1976.

Currently, Gene Gandy is Holleman's deputy. He is now going to law enforcement school.

## Little Britches Rodeo to be held here this weekend

Garza's 1975 rodeo season will open here Friday and Saturday nights, May 2-3, with a Little Britches Rodeo in the Post Stampede arena, sponsored by the Garza County Junior Livestock Association.

Each evening's performance will start at 8 p. m.

Tommy Young accepted entries through Monday night when the books closed. Doc Edwards of Girard is the stock promoter.

Three age divisions for the rodeo are Pee Wee Boys and Girls, age 11 and under; Junior Boys and Girls, ages 12 through 14; and Senior Boys and Girls, ages 15 and 16.

The six events in each age division are barrel racing, flag racing, pole bending, bareback (See Little Britches, Page 10)

**SHE'S WINNER AGAIN** — Cindy Bird was the individual winner for the third straight year in the District 2 4-H contest held at Texas Tech University Saturday.

**Cindy Bird district 4-H livestock judging champ**

Cindy Bird, daughter of Mr. and Mrs. Jimmy Bird, for the third straight year was high-point individual winner in livestock judging, at the District 2 4-H eliminations contest held at Texas Tech Saturday.

Cindy has been in Garza County 4-H for 10 years and has been a member of the Senior livestock judging team for five years. She was also a member of the Junior team.

Tony Conner and Andy Williams were other members of the team which placed fifth in a field of 16 entries. Steve White who is also a member of the team, was not able to participate, because of a conflict with the band trip to Colorado.

## 2 certificates are presented

Sharron Morris and Jim Hundley were presented certificates of appreciation by Post Chamber president Ed Bruton at a Chamber membership meeting in the Reddy Room last Thursday night.

Mrs. Morris' certificate was for Post's newest merchant with her Trends for Men Shop, and Hundley's for being the oldest supporting merchant and member.

Approximately 40 members turned out for the session which included a slide presentation of Littlefield's downtown beautification project undertaken a few years ago.

Bruton, in announcing, Chamber committee chairmanships for 1975, said "our goals are to perform so people will want to join and become involved in community work."

## Library receives its first film packet

The Post Public Library over the weekend received its first packet of short-length movies from the West Texas Library Circuit and now has them available for free loan to local schools and organizations along with its new movie projector.

Librarian Pee Wee Pierce announced that beginning next Monday, May 8, a film will be shown for youngsters and adults too from 3 to 5 p. m. each Thursday. She said the film will be shown on the hall hours for the two hour period.

"Golden Fish," the movie to be shown is a color movie with (See Library gets, Page 10)

**SIGNS PROCLAMATION** — County Judge Giles W. Dalby signs a proclamation declaring May 4-11 Soil Stewardship Week in Garza County. Churches throughout the nation will emphasize man's obligation to God to be stewards of the soil and all natural resources. — (Soil Conservation Photo)

**WINGS**

of you mobile home are going to be reading through City's new mobile home...

find the 2,875 word on page 14 of today's back page of the section.

noticed in driving town that a number of mobile homes had apparently already the qualifications of the house, except we can't tell if they're "tied" to withstand a really blow.

Judge Giles Dalby telling us yesterday morning when we made "the house beat" that the city may initiate a new wide census this summer.

commissioners court is trying to redistrict the four commissioners precincts to a federal judge's ruling requiring that they be approximately equal in the number of persons (not in land voters). The court also requires that as far as possible all minorities be in one precinct.

Judge Dalby has proposed that a county-wide census be taken using youth as a starting point for dividing the South Plains into Precincts. (Page 10)

**Case sought for Tower**

Price, former Hollywood sound man, says he is looking for a lease on the Theater in an effort to live country western in Post right out of state, Tenn.

Price told The Dispatch he's trying to bring weekend back to this community and he's losing proposition.

Price said he has purchased the City's closed movie theater and converted it into a studio for the making of commercials.

Price also is offering to provide background music to merchants at a suggested fee of less than a dollar a day.

Price hopes to get the live music into Post by working out an arrangement with Lubbock outlet.

**Burglars get \$4,000 worth**

A large amount of welding equipment and hand tools, valued at approximately \$4,000, were stolen from the Neff Equipment Co. on the Tahoka highway last Wednesday night, May 28.

Police Chief Jim Trulove said the burglar entered the metal building through the metal sheeting on the west side of the building.

The burglars also broke into the firm's safe but nothing of value was stored in it.

Chief Trulove said the burglary here is very similar to one in Dallas in Crosby County a week earlier in which the same method was used to gain access into the same type of building with similar tools and equipment being hauled

## College now within your reach

The "good news" this week that Western Texas College at Snyder will open an extension center in Post next fall will put college within reach of every Post High graduate.

Supt. Bill Shiver and Post school trustees are to be congratulated for their successful efforts in bringing the Western Texas College new extension center to Post.

It is a "dream come true" and, in a sense, converts the Post school system into a 14-year educational program, adding the first two college years.

College credits earned at the extension center here are transferable to any college or university as these will be junior college credit courses and Western Texas College is accredited.

What this means is that young high school graduates may hold down local jobs, or farm and still attend college classes, as the classes

will be held in high school classrooms here from 4 p. m. on after high school classes are out for the day.

Being able to live and work at home while attending college puts college study within reach of everyone.

It means too that young married women can "go back to school" for college credit right here in Post.

For the minorities and the economic disadvantaged, the college opportunities are endless. It will now be up to the individual — college training is here if you want it.

In the next few weeks, The Dispatch will carry more stories on the new extension center and how it will work. Watch for them, and begin to make your plans.

To take advantage of this educational opportunity, start planning now. September will be here before you know it.

## Statebeat

By KURT JOHNSON

AUSTIN — It has been noted more than once in this column that the current session of the legislature is in the midst of one of the biggest bottlenecks in the state's history referable to the number of bills pending and the amount of legislation which the elected are attempting to bludgeon through.

Any intelligent person, even being absent from the scene itself, would probably conclude that the quality of legislation is reduced by virtue of the quantity of the bottleneck. As one who is on the scene, I can assure you that such a conclusion is pristinely correct.

You would think that the solons would make every effort to improve on this situation by being as efficient as possible, particularly with the resource of time. But politicians, for some reason unknown to me (and probably unknown to them), seem to lack the ability to step back and do what is necessary to cut through the plethora and get results. I could never understand why administrative or ceremonial falderrawl should take priority status over pressing legislation.

A good example of this problem took place on the House Floor last Wednesday, April 23.

I have nothing against religion in general or Christianity in particular (having been to church a few times myself), and I know enough about the subject of religion to be aware of the fact that in at least one sense Christianity is like politics; there are many different shades, varieties and types, many of them mutually exclusive, and the result of these philosophical differences is division and controversy.

Well, on Wednesday, April 23, both state solons adjourned in mid-morning, shutting down floor sessions, committee meetings and other processes which are necessary for the alleviation of the bottleneck, and relaxed to hear some religious speeches.

There's nothing really wrong with religious speeches. The concern here, however, is (1) the inefficient use of legislators' time when a legislative bottleneck exists, and (2) the potential conflict of interest regarding the principle of separation of church and state, which certainly is subject to violation when evangelists take up legislators' time at the expense of the taxpayers, not to mention the fact of doing it on state property.

The occasion on Wednesday consisted of speeches given by William Bright of the Campus Crusade for Christ and Dr. Charles Malik, former president of the United Nations General Assembly. Their pitch was geared to the conclusion that the universities are full of religious decay and in need of religious restoration. At one point Dr. Malik said: "The one place Christ would not feel at home today is at the university."

Both men's remarks were entered into the House Journal in written form.

Without commenting on the content of those speeches (this is a political column, not a religious one) several questions come to the fore.

1. If a specific religious group can gain an audience before both houses of the state legislature, thus establishing a precedent, what right do the solons now have to deny such a forum to any religious group which requests one? Don't other religious groups with differing views now have a specific right to the forum in consideration of fairness?

2. What kind of administrative inefficiency must exist in the capitol in order for an item like this to be given priority, in light of the problems of precedent which it creates, not to mention the serious problem which already exists in finding the time to get legislative business done?

3. What kind of pull does it take to get the capitol power structure to concede to this kind of special-interest group, and more specifically, who in the capitol makes this kind of agenda decision?

At least one legislator saw the nature of the abuse. Rep. R. B. McAlister of Lubbock contended what was said, and his remarks were also entered in the House Journal.

While a citizen and taxpayer might be disturbed by the evidence of favoritism for a special interest group, he should be even more disturbed by the gate which has now been opened via precedent. The next thing you know, people with shaved heads, pig-tails, pink robes who swing pots with burning incense will be demanding equal time. And the legislature, to be fair, would have to grant it.

And as if that problem isn't enough, the bottleneck not only still exists, it is even worse.

"Well let's see," says one legislator to another, "what bill were we working on when all this started?"

## COSTLY AND HEAVY-HANDED CONTROLS!

## Wild flowers program theme

Zoe Kirkpatrick presented a program on wild flowers in Texas to members of the Graham 4-H Club at its regular meeting Tuesday, April 22.

The meeting was called to order by President, Vernon Ferguson and opening exercises were led by Kelly Mason.

Refreshments were served by Rynn and Kim Norman to the following members and guests: Mrs. Bobby, Shari and Mike Macy, Vernon Ferguson, Sherri McElroy, Lisa Cowdrey, Pam Riley, Bill and Mark Short, Kelly and

## VIRGINIA HOUSE GUESTS

Mr. and Mrs. Hub Haire had as their houseguest recently, Mrs. Nina Wyszpolski and son, Frank of Alexandria, Va. Frank is planning to attend college in California. It has been 25 years since the Haires and Mrs. Wyszpolski have seen each other.

Brad Mason, Patty Ann and Roxanne McClellan, Steve White, Jarita, Jay, Rynn and Kim Norman, Russell Fluit and Charla Williams. Guests were Mrs. Jack Kirkpatrick, Mrs. Mason McClellan, Mrs. Gerald Norman and Mrs. Lewis Mason. Adult leader present for the meeting was Mrs. Noel White.

## Couple of phone rate angles

Readers might also keep an eye on legislative stories out of Austin. Right now, the proposed state utilities commission is one of the three major pieces of legislation the lawmakers have still to come to grips with.

What has emerged for consideration recently is a compromise bill pushed by Lt. Gov. Bill Hobby which is so watered down that at first passage seemed certain. But now new opposition has pushed it back on the calendar.

It would among other things regulate intra-state phone rates and utility rates in non-incorporated areas.

But one provision of that bill we understand is that it would remove the state law which provides eight per cent as a maximum return on investment by a utility in a non-home rule city or town, such as Post.

It was the eight per cent provision in the present state law on which the Post council a couple of months ago rejected General Telephone's rate request.

The Dispatch figures the phone utility is now waiting to see what happens in Austin in an effort to legislate out that eight per cent maximum and thus "open up" small towns again for rate boost requests.

## We're Excited About Starting To Solve Post's Housing Problem with a FHA Rental Housing Project!

To secure approval for the Project we must QUICKLY complete a housing survey to prove:

## Post's Rental Housing Need!

If you are (1) under 50 years of age, (2) earn not over \$9,000 annually for two, or \$9,600 for family of four, and (3) are in the rental housing market here and are interested in this project (no obligation) please . . .

## Card of Thanks

Many thanks for all that Doctor Tubbs and the nurses did for me. Everyone was so kind. My love to each and everyone of you.  
Minnie L. Johnston

May we express gratitude to all of our friends who were concerned over our bereavement in the loss of our loved one. Each card and phone call was appreciated. Thanks to those who came down to be with us. Vernon and I loved our many friends in Post so much. Mrs. Vernon Lobban and family

Words are really inadequate to express the deep appreciation and thanks we feel for all those who brought food, flowers were here, with comforting words, acts of love and concern during the time of our sorrow at the loss of our beloved, Gary Jon Elliott.

Earlene, Donna and Doug Elliott  
Mr. and Mrs. S. W. Elliott  
Mr. and Mrs. Earl Rowan  
The J. G. Stewert family

I would like to take this time to thank all of my friends who called, sent cards and for all the beautiful flowers and gifts I received while I was in the hospital and since I've returned home. Thank you for your prayers. Also I'd like to thank Bob and Edie Connel for being with my loved ones during my surgery. Friends are so special at a time like this. May God bless each of you.  
Elaine Gindorf

## Big boost in Camp Post use

The first quarter of 1975 has shown an increase of weekend camping trips to local council camp, Camp Post over the same time period in 1974 according to Elbert Buerger, District Executive for the South Plains Council.

In January, Camp Post was used by 14 Scout Troops, 262 Scouts accompanied by 33 leaders. February figures show 14 Scout Troops, 245 Scouts, and 37 adult leaders attended weekend camping trips at Camp Post. In March, the figures jump to 19 Scout Troops, 304 Scouts, and 44 leaders. During March there was also 27 Scouts and 20 adults attending the Order of the Arrow Conclave, where plans were made for the O. A. for the coming year, according to Buerger.

"This is an increase over the first quarter of 1974. Each troop is encouraged to have a monthly week-end camp out.

## New Texas map now available

**AUSTIN**—A dramatic new section of Interstate Highway 10 as it traverses the scenic Hill Country near Kerrville graces the cover of the 1975 Official State Highway Travel Map, now being distributed.

The Texas Highway Department expects demand for the updated 1975 map will exceed one million copies. "Once for a ounce," Tom H. Taylor, director of the department's Travel and Information Division said, "the Highway Travel Map is the best friend a Texas motorist can have."

The new map shows recently opened sections of the Interstate and other highways maintained by the Texas Highway Department. Motorists will find symbols which identify safety rest areas, and distinctive symbols for those with comfort stations, including several completed during the past year.

Thirteen special insets on the reverse side of the map chart major urban freeways and arterial streets through the state's business metropolitan areas.

Copies of the 1975 Official Highway Travel Map are available from Highway Department tourist information bureaus, from Highway Department district offices throughout the state and by mail. Requests should be sent to: Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78763.

We need and want your news, call 2816.

## As It Looks From Here ...

By **OMAR HURLESON, M.C.**, 17th District, Texas  
**WASHINGTON, D. C.**—During a recent police action in Washington a police dog bit a policeman during a raid. Dogs make mistakes too during confusion and excitement. So, the subject here is watch out for the watchdog.

**LEGISLATION** to create a consumer protection agency—a super-bureau which is supposed to save all of us from flim-flams and shoddy but expensive merchandise, is again before Congress. Last year this legislation passed the House of Representatives but fell before a filibuster in the Senate.

**WITH THE CONGRESS** more tilted towards the liberal side as a result of the last election and with a recent change in the Senate rules to make filibustering more difficult, the chances are increased that this bureaucratic monstrosity may be unloaded on the people of this country, under the guise of protecting the consumer.

**AS PROPOSED** in this legislation a new agency would be authorized to dip its ear into any governmental operation that "may substantially affect the interest of consumers"—which means just about everything. The bureaucrats of such an agency would be as much, if not more powerful, than those which now watch over us with power granted them by the Congress. The probability is high that such an agency would soon dwarf most other governmental departments in controls, size and costs.

**THIS KIND** of thing would add another "watchdog" to a penful already a part of the Federal Government.

**THERE ARE** already in the

**Post Lodge No. 1058**

law provisions on "Truth in Lending," "Truth in Packaging and Labeling" and a number of other regulations governing advertising and the like to give protection to the public. The long-time established regulatory agencies such as the Interstate Commerce Commission, the Federal Power Commission, the Securities and Exchange Commission, the Federal Trade Commission and others, have their special functions and although some of these are not for the purpose of helping or protecting a particular individual, all have powers over some aspects of national life which affects us all.

**THE PROponents** of these newer units of the Federal government and those proposed such as the Consumer Protection Agency, seem to assume that people just don't know much and must have someone to look out for them on everything. Self discipline through such organizations as the Better Business Bureau to which many businesses belong, is one way for commercial enterprises to help themselves and serve their customers and keep the government out of it.

**A WATCHDOG can serve a**

useful and necessary tool. There must be laws and regulations to keep the lawless and the lawless deprecations on others. There are such laws and must enforce them. To get another dog with the power proposal authorized is to get "em" and those who supposed to be benefited protected are likely to be

A weekly public service feature from the Texas State Department of Health

# Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Food is your most urgent need. The hunger drive is basic to human existence and survival. Yet the food you eat—and the foods you don't eat—may be a contributing factor to serious health problems, now and in the future.

The nation's diet is so poor, in fact, that improper nutrition costs some \$30 billion a year in doctor bills and other health care costs, according to a report from the U.S. Senate's Select Committee on Nutrition and Human Needs.

The committee said that there are three major dietary problems in this country: undernutrition, or not enough food; malnutrition, or not enough of the right kinds of food; and overnutrition—too much food, especially too many calories.

Inadequate nutrition has been associated with poor mental development and even with emotional instability. Maternal and infant diseases and deaths, absenteeism among school children and among the workforce, losses of life due to cardiovascular diseases and hypertension, the expense of mental disease, alcoholism, diabetes, obesity, digestive malfunctioning...all of these potentially crippling and life-threatening conditions can be attributed, at least in part, to poor nutrition.

Most people know that there are some foods which are better than others for helping children grow and keeping adults vigorous and well. Unfortunately, most people don't bother to follow what they know to be good dietary practices. We eat only the things we like, what we're used to eating, or what we think we can easily afford—although, in fact, good nutrition is no more expensive than bad nutrition. Too many people fall for brightly-packaged foods, or foods that can be prepared quickly and eaten on the run, rather than the sensible choice of foods that provide a nourishing, balanced daily diet.

Nutritional scientists have identified no less than 57 nutrients that are used by the human body and that are necessary for life and well-being. These include 13 vitamins and vitamin groups; 17 minerals; 22 amino acids, the basic building-blocks of protein; several fatty acids and other fat-like substances; sugars; starches; and water. All of these nutrients, in their proper proportions, can be included in the daily diet by choosing wisely from the four major food groups.

The club met in the Womens Club House with Mrs. D. C. Williams, Mrs. J. P. Storie and Mrs. D. D. Pennell as hostesses.

The meeting was called to order by President, Mrs. D. C. Williams and a letter of appreciation was read to the club from the Ralls Study Club.

Mrs. Lee Davis, chairman of the flower show gave a report on the plans for the show and named the chairmen and committee members. Committee chairmen are: Mrs. I. L. Duckworth, publicity; Mrs. Jack Burress, wild flowers arrangements; Mrs. J. H. Haire, cultivated flowers; Mrs. R. L. Marks, terrariums; and Mrs. R. T. Dickson, custom flowers. Mrs. Jack Kirkpatrick will show one of her own unique arrangements and Edward Neff will show an arrangement.

Program for the meeting was presented by Mr. Georgie Willson and five of his choir members. Nancy Reno sang, "My Johann" by Grieg; Dana Pool played "The Hunting Song" and sang "The Way We Were"; Jennifer Miller and Kelvin Thomas sang "Lover Than Ever" and "Sixteen Going On Seventeen". Two tapes were played, "Third Movement of Prelude" by Gershwin and a trumpet arrangement by Ari Adojie, played by Cy Willson, and a tape of David Morrow, playing "Romance" by Brahms.

Refreshments were served to Mmes. M. J. Malouf, Jack Myers, D. D. Pennell, Duckworth, Dickson, Davis, Williams, Storie, Haire, Ralph Welch, and Mrs. J. W. Potts. Guests served were besides the students and Mr. Willson, Mrs. J. M. Hutchins and Mrs. Stanley Butler.

STYLE SHOW MODELS — Models for the El Tejas Style Show are, back row, l to r, Joy Dickson, Jan Hunter, Wyanza Mock, Iva Hudman, Shirley Hays, Linda Ellis, Patsy Craig and Doll Haire; second row l to r, Tina Bevers, Mary Baysinger, Carol Waters and Donna Lott; front row l to r, Renee Mock, Kristy Haire, Lisa Brown and Tanya Baysinger.

## Focus on Home Economics

By PAULA GAWTHON  
Assistant County Extension Agent

IT'S A FAMILY AFFAIR. Nearly every married couple experiences difference and disagreement — this is to be expected. People come to marriage having lived separate and different lives for 20 to 30 years.

But serious trouble can happen when disagreements frequently start turning into quarrels. It doesn't take much imagination to know the kind of frustration and anger a quarrel can generate — nor to understand how it can damage the relationship. Marriage partners who understand this situation can learn to cope. A wife or husband starts out feeling slighted or rejected and nurses it without saying anything.

The hurt feelings build up to great proportions and give rise to an angry mood and a desire to retaliate. By the time something does come out, it is no longer merely a complaint — it's an attack.

But such attacks can be stopped by keeping the issues straight and withholding angry retorts. Giving reassurance, listening rather than talking, and looking at the issue in its larger scope can settle disagreements before they turn into quarrels.

Quarreling situations can be changed into productive communication when both people have a genuine desire to change and willingness to work at it until success is achieved.

Garza group at Snyder meeting. SNYDER — Eight members of the Garza County Historical Survey Committee were among the 50 persons attending a regional meeting of the Texas Historical Commission here Wednesday (April 23).

The program is called the Discriminate Function (DIF). DIF uses a series of mathematical formulas to identify returns with a high probability of error. The formulas are developed from thousands of audits over the years, and a high DIF score normally indicates a high probability of error.

DIF formulas are continually revised as in-depth audits uncover new problem areas. For instance, certain changes in the tax laws may not be understood by vast numbers of taxpayers, leading to numerous mistakes. Usually, however, a combination of factors will "flag" a return, and in turn it will be examined by IRS "screeners."

Screeners are trained to consider local or other factors that may create a high DIF score on returns that normally would not need an audit. Thus, the screeners' knowledge and the computer selection process combine to determine which returns will be audited.

SUZANNE KENNEY

## July 3 wedding is planned

Mr. and Mrs. Wayne Kenney of Slaton announce the engagement of their daughter, Suzanne, to Ray Altman, son of Mrs. Peggy Altman of Slaton and Deamos Altman of Post.

Miss Kenney is a candidate for May graduation at Slaton High School. Altman is a graduate of Post High School and attends Texas Tech University.

The couple plans a July 3 wedding in the First Baptist Church in Slaton.

LAS VEGAS VISITORS. Mr. and Mrs. Michael Ault and two children of Las Vegas, Nev. arrived in Post Wednesday to visit his father, Jack Ault, and his grandmother, Mrs. Ben Ault and Beth and Amy.

NEW MEXICO GUESTS. Mr. and Mrs. Harry McDonald of Albuquerque, N. M., were guests in the home of Mr. and Mrs. Hub Haire last Thursday.

BAND DIRECTOR QUILTS. DENVER CITY — Larry Sparks, Denver City High School band director for the last several years, has resigned. No replacement has been named.

NEW SCURRY MARKER. SNYDER — A historical marker commemorating the production of Scurry County's billionth barrel of "oil" was dedicated here last Thursday on the original Collins lease, five miles north of town off US-84.

## 'April Flowers' was theme of style show

"April Flowers" was the theme for the annual style show held by the El Tejas Club, last Thursday evening in the Women's Clubhouse. A review of very attractive spring outfits and a pleasant get-together was enjoyed by all who attended.

Club members decorated around their theme by arranging various trees and flowers to center upon a large doorway arch, under which the models entered the room. Colors of yellow, orange, and green were carried out in artificial trees, floral arrangements, the serving table, and colored paper programs for the guests.

Also the theme was further accentuated by a collection of live plants and flowers from the Post FFA greenhouse.

Sixteen ladies modeled clothing from Twins Fashions and Raferti. Little girls who modeled were Kristy Haire, Lisa Brown, Renee Mock, and Tanya Baysinger. Other guests models were Tina Bevers, Patsy Craig, Joy Dickson, Iva Hudman, and Doll Haire. El Tejas members who modeled were Donna Lott, Linda Ellis, Carol Waters, Jan Hunter, Wyanza Mock, Mary Baysinger, and Shirley Hays. Paula Cawthon narrated for the

fashion showing, which covered stylewise, everything from a long formal gown to a casual tennis outfit.

Following the program club members served a fruit bowl of cantaloupe, mandarin oranges, strawberries, and pineapple chunks with a cream cheese dip and iced tea.

El Tejas club members are putting their style show proceeds to work right away in the presentation of a vocational scholarship to some 1975 high school graduate.

## Merrymakers to meet again May 13

The Merrymakers Club met Tuesday, April 22, in the home of Opal Williams and spent the afternoon visiting.

Refreshments were served by the hostess to the following members: Malinda Malouf, Sadie Storie, Nora Kiker, Bonnie Adamson, Pearl Crisp, Maudie Hankins, Pearl Storie and Bertha Printz.

The next meeting will be May 13 in the home of Ida Wheatley.

# Texas Outdoors

By W. R. LONG

You are reading this paper without any thought of rattlesnakes, yet there may be one or more within a few yards of you, or there may be one miles away. All we know for sure is that they are there, somewhere...like gold nuggets, where you find them. Let's take a look at a species, any one of the ten types found in Texas, and if we don't get information enough to cause us to lose our fear of them, at least explanation enough to make us respect them and know how to deal with a problem that could, but likely won't, arise on a fishing trip or camping trip for hunting or hiking.

Rattles are like inflation; not wanting doesn't mean we won't have. The trick is to know how to avoid as much of the unpleasant aspects as possible, and live with it.

Size of rattlers has always been a conversation topic. One man in West Texas offered \$10 per inch for any live rattlesnake delivered to him that measured over 6 feet in total length. His publicity cost him a fortune. He was the recipient of, to put it mildly, of an abundant number. So they do get 6 feet in length, the western variety, but for each one of this size we rightfully expect hundreds below three feet, a few 4 feet, and a very limited few at 5 feet or above. The stories of the 18-footers is hogwash!

We think of rattlers as denizens of hot, dry, semi-arid desert. Unfortunately such types as the pygmy, Massasauga and black-tailed haven't read that book. They love the lowlands, damp areas, edges of swamps. The key factor is temperature. Being cold-blooded they tolerate little above 90 degrees, and a ground temperature above 110 is fatal to all Texas species.

In hot weather they usually shade themselves in daylight, hunt at night. Nights of 60 degrees or below finds them inactive, and freezes kill many. They are relatively slow and sluggish at best, may move at a top speed of about 3 MPH, strike much, much slower than a man can swing a golf club or tennis racket. They don't hear with external ears, but are sensitive to ground vibrations, and usually, not always, but usually, will try to avoid contact with man or any large mammal or predatory bird.

Fangs are folded against the roof of the mouth, replaced with new ones frequently, and the snake is capable of delivering all its venom with one strike, or delivering none at all. Venom is intended to use on rodents and birds to gather food. When used on man there is no easy way out, but death is not imminent, rather it's rare. The car, the paved road and ready medical attention coupled with first aid knowledge saves most lives.

Of an estimated 3,000 to 9,000 persons bitten by rattlesnakes each year the death toll may run as high as 12. A cool head and a good doctor will take care of the problem, but venom effect on the tissue is a lasting illness at times.

You will be camping this summer. Train your family, give them facts, and give them first aid kits and know-how, but don't give them an unwarranted fear that will ruin the trip. Use a light ahead of you when walking at night, and if you are in real snake area wear boots when walking in weedy or brushy areas. Be respectful, but not morbidly afraid.

**RETIREES AFTER 23 YEARS** — Roy Gary, second from left, is pictured with Postex Plant Manager Ed Bruton, left, Bobby Waters, card-spin department manager, and J. E. Tanner, greige mill superintendent, Friday. The occasion was Gary's retirement at Postex Plant after 23 years of continuous service.

## Roy Gary honored on retirement at Postex

Roy Gary, Postex Plant card room fixer was honored Friday upon his retirement from Burlington Industries after 23 years of continuous service at the Postex Plant.

Gary, who lives at 815 N. Ave. P., first came to work at Postex in 1944 where he worked as a cloth doffer for one and one-half years before leaving. Gary returned in January of 1953 and worked as a cloth doffer and draw frame tender before being promoted to card room fixer.

During the celebration Friday morning his co-workers presented him with a gold electric wrist watch.

Later in the afternoon he was

honored in the office of plant manager, Ed Bruton along with his department manager, Bobby Waters, Greige Mill Superintendent, J. E. Tanner, Personnel Manager, Walter Didway, and former employee, Roy Stanley, who was a long-time co-worker of Gary's.

During the afternoon visit in Bruton's office old plant pictures were viewed and the many changes in the plant during the past 23 years were discussed.

Gary said that he is going to take it easy for a while and then see what he can "get into." Gary said, "I sure am going to miss everyone at Postex."

## Mother-in-law dies in California

Services for Mrs. Mary Bull, 87, of Taft, Calif., were held Tuesday in Amarillo.

Mrs. Bull died April 27 in her home.

Survivors include one daughter, Mrs. Max Simmonds of Taft, Calif., and her daughter-in-law, Mrs. Malcolm Bull of Post.

## HOME FROM HOSPITAL

Mr. and Mrs. R. B. Post, who have both been patients of Scott and White Clinic Temple, have returned home much better. They were accompanied home by their daughters who have been Temple with them, Mrs. Josey and Mrs. Jerry Epley.

### Cemetery work set May 5

Directors of the Southland Cemetery Association, met April 22 at the Southland Hardware to discuss repairs that must be made, and to set a work day.

Mrs. Hub Haire, president presided over the business meeting. Mr. Sam Ellis was asked to investigate the price of a new riding mower.

The work day was set for May 5 and everyone is urged to come prepared to work.

Don't forget the association needs your donations desperately, as water pipes and equipment needs repair. Mrs. Hair said.

The meeting was closed with a prayer by Mrs. H. D. Hallman.

### GRAHAM AREA NEWS

## Don Maxey suffers broken foot helping his father

By MRS. GLENN DAVIS  
Mr. and Mrs. Don Maxey were visiting his parents, Mr. and Mrs. Bryan Maxey a day last week and he was helping his dad with an air conditioner and somehow a rock fell on his foot and broke two bones.

Mr. and Mrs. Paul Davis of Odessa spent Saturday night with his sister and brother-in-law, Mr. and Mrs. Albert Stone. Sunday luncheon guests of Mrs. Ethel Redman were Mrs. Mary Cowdrey, Mrs. Gladys Floyd, Mr. and Mrs. Bobby Cowdrey and family and Mrs. Viva Davis.

We want to correct a mistake we made in last week's news, that was Mr. and Mrs. Jack Crownover, not Crown. We are

sorry.  
Tom Herring of Corpus Christi nephew of Mrs. Johnnie

### Lunch Menus

The Post schools luncheon menus for the coming week are as follows:

Monday: Lasagna, green beans, carrot salad, peach cobbler, orange juice, biscuits, half pint milk.

Tuesday: Chile beans, cabbage slaw, mixed greens, chocolate pudding, cornbread, half pint milk.

Wednesday: Chicken fried steak with gravy, sweet peas, whole potatoes with cheese sauce, pear halves, hot rolls, grapefruit juice, half pint milk.

Thursday: Frito pie, lettuce salad, white beans, jello with fruit, cornbread, half pint milk.

Friday: Turkey sandwiches, pork and beans, buttered corn, peaches, orange juice, half pint milk.

Rogers visited here last Saturday.  
Mr. and Mrs. Lewis Mason and family spent last weekend visiting in Capitan, N. M. with Mr. and Mrs. Gerald Dean Jr. and family.

Mr. and Mrs. Melvin Williams visited Sunday afternoon with Mr. and Mrs. Jesse Edwards and family in Hurlwood.  
Silas Short spoke Sunday morning and evening at the Church of Christ in the absence of Homer Jones.

Mr. and Mrs. A. O. Parrish met Mr. and Mrs. Jimmy Parrish in Lubbock Saturday evening for a visit.

Sunday luncheon guests of Mr. and Mrs. James Stone were the Jim Eblen family of Slaton, the Pete Pierce family of Acuff, and the Ed Brady family of Abilene.

Mrs. Esther Ward spent Saturday night with the Melvin Williams family.

Patty McCowen spent the weekend with her uncle and aunt, Mr. and Mrs. Curtis Williams and Andy.

Mr. and Mrs. E. E. Peel spent the weekend down near Springtown with his parents, Mr. and Mrs. John Peel and other relatives. They returned Monday afternoon.

Mr. and Mrs. James Stone and Mr. and Mrs. Orville Stanley attended a Stanley family reunion last week down at Kingsland. One brother didn't get to attend. The Stones spent one night while there in Marble Falls with Mr. and Mrs. Lex McClure.

Mr. and Mrs. Avon Dunlap and granddaughter, Lisa Dunlap of Dallas spent the weekend here visiting with her parents, Mr. and Mrs. Fred Gossett and in Post with his mother, Mrs. Mattie Dunlap. Mike Dunlap also of Dallas visited part of the week here visiting his grandparents.

Mrs. Ada Oden, Rene Fluit, Jewell Parrish, visited last Tuesday afternoon with Viva Davis, Mrs. Wanda Morris visited Thursday afternoon and Mr. and Mrs. Mack Ledbetter visited Sunday evening.

Mr. and Mrs. Delmo Gossett of Lubbock visited Sunday with Mr. and Mrs. L. H. Peel and attended church with them. The Gossetts visited in the afternoon with Mr. and Mrs. W. H. Childs.

Mr. and Mrs. Joe Wayne Fondy and baby daughter of Lubbock spent a few days last week with her parents, Mr. and Mrs. Joe Taylor and Helen Vern. Other Saturday supper guests were Mr. and Mrs. Joe Fondy of Slaton.

James Stone has a real sore foot from this week getting in one of his boots while burning thistles. The Dr. had to get some out of his foot. So he will go get the stitches out this week.

Mrs. Charlie Mason is starting on the third week as a patient in West Texas Hospital. We wish for her a fast recovery.

Mr. and Mrs. Carl Fluit visited with her mother in Tahoka Sunday afternoon. Other guests in Mrs. Gandy's home were two sisters, Mrs. Lilly Ethridge and Mrs. Nina Bean.

Mrs. Carl Fluit, Mrs. Ruth McClellan and Mrs. Nell Mathews visited Mrs. Gladys Floyd one afternoon last week. Mrs. Fluit visited Mrs. J. M. Bush also that afternoon.

### Hospital Notes

Those admitted to Garza Memorial Hospital since Tuesday of last week were:

- Troy Gilmore, medical
  - George Tillman, medical
  - Helen Coffee, medical
  - E. A. King, medical
  - Pat McCowen, obstetrical
  - Rickey Gill, medical
- Dismissed
- Minnie Johnston
  - Clifton Vaughn
  - Mary Dobson
  - George Tillman
  - Alfonso Castro
  - Troy Gilmore

### BIRTHS

Mr. and Mrs. Donald McCowen announce the birth of a daughter, Mecca Lynn, born Monday, April 28 in Garza Memorial Hospital at 5:53 a. m., weighing 7 lbs., 7 ozs.

SATURDAY VISITORS  
Visitors in the home of Mr. and Mrs. Silas Short and sons Saturday, were her brother and his family, Mr. and Mrs. Sid Berry and sons of Hale Center.

### TEXAS TALK

By FRED MYERS

The worst is over... probably. Statements like this have become the most common hedge in the cattle industry in the past few weeks as top executives of the beef business find reason to be cautiously optimistic in the face of rising per capita consumption and a decrease in the industry's number one problem, glut. Caused by a combination of price controls, natural cattle cycle (cattle population reaches a cyclical peak every 10-11 years) and high feed prices, glut (over-supply) seemed for a while to be unending. Consumers are solving the problem by buying more beef and accepting grass-fed meat. Packers buying grass-fed cattle have to use 2 or 3 of the young pasture-fed cattle to produce as much meat as a single grain-fed animal. So the problem seems to be solving itself, but even the optimistic cattlemen (not the easiest thing to find) say it will take at least 18 months before the industry is back to normal.

# Lopes end season at regional meet

Couch Lane Tannehill's Antelope track team closed its spring season at Odessa last weekend by tying Tulia and Phillips for 17th place in the regional track meet with 10 points.

Only two Lopes got into the scoring and none qualified for the state meet in Austin in two weeks.

Floydada won the regional with 61 points.

Dusty Webb scored one of two new Post school records when he flipped the discus 144 feet even for third place in that event.

The other Post points came from Jimmy Dorland's fourth in the long jump with a leap of 21 feet, 4 inches.

One other school record was set when Jackie Blacklock ran his preliminary of the 120 yard high hurdles in 15 seconds flat. Blacklock was leading over the third hurdle of the finals, but hit the fourth hurdle, lost stride and finished behind the point winners.

Edward Price, Post's sprinter, zipped a 10 seconds flat in the 100 yard dash — his best of the year — but didn't even qualify for the finals. All the

short dash finalists ran either 9.8 or 9.9 in the sprint preliminaries.

The sprint relay team, composed of Alfred Pena, Price, Joe Moore and Blacklock ran a 44.7 second 440 in their prelim, but the time wasn't fast enough to qualify for the finals.

The other Lopes in the regional competition, Jay Kennedy, ran a 2:06.9 in the 800 yard run but did not qualify for the finals.

## Price wins 220 at San Angelo

Brenda Price won the 220 yard dash in the Blue Bonnet Relays at San Angelo last weekend.

She ran the event in 25.5 seconds.

Only other Post Doe to score was Ann Mitchell who placed third in the discus with a toss of 100 feet, 5 inches.

The two girls competed in other events, but did not place. Jenda Gilmore, Post's other qualifier for the state meet in the 80 yard hurdles, did not compete at San Angelo because of a schedule conflict.

## Postex golf league with 28 players into action

The Postex Golf League, composed of seven four-man teams of Postex plant employees, swung into its first week's action on the Caprock golf course Sunday.

Each team is scheduled to play one nine-hole round weekly against another team.

Thus team play is divided into four individual matches

with two points being scored for each of the four team matches. One point goes to the man who wins the most holes and the other point for the fewest strokes per round. In cases of ties, the points are split.

Each man's score is adjusted by handicaps computed by using modified USGA rules on a weekly basis.

The league will play a seven weeks schedule with the possibility of extending play if interest grows for more golf.

Team standings after the first round had teams, two four and five tied with six points each, followed by one, three and six with two points each, and team seven with no points.

First week's individual results with nine hole scores shown in parenthesis are:

Capps (38) defeated Valdez (39), Gilmore (38) defeated Ammons (44), Bruton (43) defeated Sweeten (48), and Kelley (35) defeated Cerda (38).

Gill (36) defeated Brown (37), Gatlin (36) defeated Hays (38), Adams (39) defeated Beard (54), and Lowe (38) beat Didway (49).

L. Warren (39) defeated B. Martin (43), G. Martin (34) defeated Hurston (39), Ford (36) defeated C. Warren (39), and Criado (34) defeated Potts (36).

## TIPS FOR OUTDOORSMEN

by Vern Sanford

All you Campers — One thing that's easy to forget when packing for a camping trip, but is mighty important to have with you, is a stocking cap. (And the new ones are in all our stores right now — by the hundreds.) It's about as handy as a sleeping bag on those chilly nights, and makes a good head protector during the days.

You're not likely to forget your sleeping bag, but if you want it to last a long time you should never spread it on the bare ground. Put something down first to keep the dampness of the ground from penetrating the bag. An old rubber sheet, a tarp, even old newspapers or tinfoil will do.

Speaking of foil — I'll never know how anyone ever camped out without aluminum foil. It's worth its weight in gold. And that's saying something at

today's gold price. Of course it doesn't weigh much though — which also makes it easy to take along.

If you don't take prepared foods, you can cook in foil. You can shape any sized pan or cup out of it. With foil and an old coat hanger (for making a handle for your foil pan and also for making a fork) you've got the essentials.

Well, you do need a campfire if you're going to cook. So, to build your fire, be sure it's out of the wind. And if the wind is blowing too hard, you can always build a wind screen — out of foil, of course.

So, for goodness sake, don't forget the foil when you go camping, hunting or fishing.

Hunters and fishermen, who are also photographers, find a plastic bag comes in mighty handy. Use one to protect your

camera from water, spray and possible rain damage. If it's raining don't let that keep you from firing away with the camera still in the bag. Use the same camera setting, the same lens opening and the same shutter speed that you would use if the camera was outside the bag.

Needless to say, the bag must be of clear, clean plastic, neither colored nor discolored.

And for you hunters — If you're in the woods and need a quick fire, take an empty, used shotgun shell and split the cardboard covering down the side in a half-dozen places. Then spread the wax-treated paper apart and stand the shell on end.

Apply a lighted match and the old hull will burn well, and start your campfire in a hurry.

The shell alone is hot enough to make a good handwarmer.

### Farm Topics

SYD CONNER  
Garza Extension Agent

A five-year study comparing planting dates to cotton yields shows numerous advantages in deferring planting until the soil temperature reaches 60 degrees or higher.

According to research conducted at the Texas Agricultural Experiment Station by Dr. J. D. Bilbro, agronomist for the Agricultural Research Service — USDA Lubbock, plants will have a faster growth, be less susceptible to seedling diseases and will more likely produce uniform stands and a higher yield per inch of applied water.

Cotton planting on the Texas High Plains normally is not started until the 10-day average minimum soil temperature at the eight-inch depth reaches 60

degrees, he says. The 15-year average date for the soil temperature to reach this level is April 24.

Bilbro says that if the minimum temperature level is reached around April 24, and the producer believes his soil fertility and irrigation potential are such that he can produce two bales per acre, then he should probably begin his planting soon after in order to have sufficient growing season to produce this amount of lint. However, if his water resources are limited to the extent that a single summer irrigation is all that he can apply and his target yield is 1 to 1½ bales, then it is not nearly so necessary that he plant at the earliest feasible time. The plants will emerge and grow off much faster, and will be less susceptible to seedling diseases and more likely to produce uniform stands and a higher yield per inch of applied water.

In the studies, reports Bilbro, the lint yields of a locally adapted variety ranged from 858 to 1022 pounds per acre and averaged 954 pounds per acre for April 20 plantings. When planting was deferred until May 15, the lint yields ranged from 863 to 974 pounds per acre. The average yield was lowered by less than two pounds per acre for each day that planting was deferred from April 20 to May 15. However, delaying the planting to June 1 reduced the five-year average lint yield to 822 pounds per acre which is a loss of about five pounds of lint per acre for each day planting was deferred from May 15 to June 1.

Classers' grades averaged strict low middling for each of the three planting dates, and Classers' staple lengths were essentially the same for all three dates. The micronaire values, however, were reduced by each delay in planting. The average values for the April 20, May 15 and June 1 plantings were 3.7, 3.4 and 3.3, respectively.

All the tests received either two or three summer irrigations, depending on the rainfall received during the growing season. Stands were good in all tests.

"The growing conditions of most of the years that we conducted these tests were better than average," says Bilbro. "So the yields we obtained were higher than what we would expect to obtain under more normal conditions."

## Macy stable in two victories

Bob Macy's Running M Racing Stable chalked up two more track victories Friday in Denver and El Paso.

Macy's quarter horse, Friendly Request, broke the tape in a 475 yard allowance race at the Centennial Race Track in Denver.

His thoroughbred, Rural Hope the same afternoon came in ahead of the field in a six-furlong allowance race at El Paso's Sunland Park.

## Little League to hold draft tonight

Makeup date for tryouts for Little League, ages 9-12, boys and girls will be today at 5:30 p. m. The draft will also be held tonight at the Little League Park.

## Two girls to state meet

Post High's two qualifiers for the state Class AA girls track meet at Austin Friday night were scheduled to leave for the state capitol this morning with their track coach, John Morrow.

They are Brenda Price, who qualified in the 220 yard dash, and Jenda Gilmore, who qualified in the 80 yard hurdles. Both girls were planning workouts this afternoon on the field where the finals will be held.

There will be no preliminaries in the state meet. Track finals for Class AA will begin at 7:30 p. m. Friday night.

The girls and Coach Morrow will stay over most of Saturday to watch other girl's state competition before returning home Saturday night.

## Regional net meet planned

Post area tennis players of all ages may enter the regional tournament of Texas Amateur Athletic Federation (TAAF) scheduled on Saturday and Sunday, May 17-18 for all ages 16 and under and on May 24-25 for the 18-under and adult division.

Sponsored by the Lubbock Tennis Assn., the TAAF regional will be played at the Coronado High School courts on 34th St. in Lubbock. Dale Glaze, pro for the LTA, will direct the tournament, winners of which will qualify for the state TAAF tournament.

Players may enter only one age group, but may play in both singles and doubles in that division, according to Dr. John Miller, president of LTA. Entry fee is \$3 for each singles and \$5 for doubles team, and must accompany entry. The entry and fee should be mailed to David Hester, 1420 Texas Ave., Lubbock, Tex. 79401, with "TAAF Entry" marked in the lower corner of the envelope.

All entries must be received by Thursday of the week of play. The usual divisions, male and female, will be played, including 12-under, 14-under, and 16-under on May 17-18, and 18-under, men's and women's, 35-over and 45-over on May 24-25.

Counties in the Lubbock TAAF region include Stonewall, Kent, Garza, Lubbock, Lynn, Terry, Yoakum, Crosby, Dickens and King.

TO STATE FINALS — These three South Plains students are bound for Austin and the state track finals. Left to right, Amanda Wheeler in writing and spelling; Kendon Wheeler, handwriting; and Mary Buxkemper, 880 yard alternate in track.

## Sand so bad half of horses didn't compete

Sunday afternoon's howling sandstorm was so bad here some 40 or 50 horses entered in the Post Paint Horse Show at the Post Stampede arena were not even taken out of their trailers by their owners.

Floy Richardson, who sponsored the show, told The Dispatch that "those paint horse owners from the Dallas and Fort Worth area just can't stand our sand."

The show had 92 entries counting the entries present, but not competing.

Grand and reserve champions in each class were:

Youth Haler: Hester owned by Roger Hester, Decatur, grand champion Yellow Pages, owned by Shields of Sagnia, reserve.

Stallions: Q Ton Fly owned by Lee and Debbie of Muleshoe, grand; and Mount, owned by Jim and Lamb of Gruver, reserve.

Geldings: Side Car, owned by Buddy Nicholson of grand; and Joe Patchen, by Danny Collins, also of reserve.

There were no local entries in the show.

**INVITATIONAL VOLLEYBALL TOURNAMENT**  
**May 1, 2, and 3**  
**In Junior High Gym**  
 On Gail Highway  
 Sponsored by Dalby Cattle Co.  
 Volleyball Team  
 All donations to concession stand appreciated.

## No '75 fishing at Mackenzie

TULIA — The new Mackenzie dam and lake area will not be open to the public this summer.

Directors of the Mackenzie Water Authority say they are "going slow" on the recreational side to avoid recreational problems other West Texas lakes have experienced.

Right now, directors are trying to find an engineer to employ as manager of the lake operation.

Lots may not be leased this summer, but residents of the four member towns of Silverton, Lockney, Floydada and Tulia will get first choice before leasing is thrown open to the general public.

Right now sewage disposal still hasn't been solved and a \$70,000 to \$75,000 public sewage system at the lake is being considered.

## Mel Tillis signed for Lubbock fair

LUBBOCK — Mel Tillis has been signed for his third straight appearance at the Panhandle South Plains Fair here this fall.

Tillis — singer, comedian and songwriter — will team up with Gunilla Hutton, a regular on "Hee Haw", and the Statesiders for two-a-day shows in Fair Park Coliseum September 22-23.

Negotiations still are underway for three other shows to be presented during the eight-day fair run, Steve L. Lewis, fair general manager said.

# To me, nothing tastes better than fine tobacco. But I don't smoke.

To millions of Americans, the good taste of tobacco doesn't always come from smoking. It also comes from tasting. From placing a pinch of tobacco between cheek and gum, and savoring it. And yet, to millions of others, this age-old tobacco pleasure is still a mystery. Possibly because they've never tried it.

Or because, as is true, the use of "smokeless" tobacco is an art, and takes practice.

So, to make it easier, we've made it different. We've made Good Luck. A whole new way to enjoy tobacco.

Good Luck is a pinch of choice "tasting" tobaccos, in a neat little pouch. And the pouch is what makes it different. You place Good Luck, pouch and all, between your cheek and gum. Then, as it rests there, the pouch works like a tea bag. To let tobacco flavor out, while the tobacco stays in.

Nobody knows. Naturally, any form of "tasting" tobacco

takes a little getting used to. But with Good Luck, it's easier because the pouch holds the tobacco all in one place. It sits comfortably and no one knows it's there, but you. Also, each pouch comes properly pre-measured so you always get the right amount.

**Sealed in foil.**  
To keep the tobacco fresh and moist, each Good Luck pouch is sealed in foil. That also keeps it from spilling into your pocket.

And because you don't smoke Good Luck, it's perfectly welcome in places where smoking isn't. Such as courtroom, on a bus, or near inflammables.

And unlike a cigarette or a pipe, Good Luck won't tie up your hands. You enjoy its tobacco flavor no matter what you're doing.

**Rich tobacco tradition.**  
Now you're acquainted with Good Luck's little pouch. But what about the tobacco that comes inside? Well, it's made by United States Tobacco Company, whose other tobaccos, without a pouch, are more enjoyed by over 6 million Americans. And Good Luck is part of the same tradition. Only the pouch makes it easier to use.

**For people like you.**  
But no matter how you use tobacco (or even if you don't), we think Good Luck will add to your pleasure. Try it. We put Good Luck in a pouch for people like you.

Try Good Luck, a whole new way to enjoy tobacco.

...This bulletin board has a  
...message. The theme of  
...bulletin board is the use of  
...and alcohol of pregnant  
...and the effect on the  
...child. It is a collage of  
...and signifying cases of  
...defects caused by the use  
...drugs. The title is "Why  
...what have we ever done  
...?" It should be observed  
...every student. If you have  
...take a look, and open  
...eyes to one of America's  
...serious problems.

...again a bit of news  
...of our VOE girls. They will  
...taking a field trip to  
...look to Caprock Business  
...lines, on April 29th. These  
...have been working with  
...advanced business mach-  
...and this excursion will  
...them a chance to see the  
...lines and other machines  
...operation in an office.

...for our girls, Jenda  
...and Brenda Price will  
...be traveling to Austin to  
...participate in the State Track  
...and Field meet. They will  
...make the trip this Thursday. Jenda  
...will run the 80 yard hurdles and  
...Brenda Price will run the 220  
...yard dash. We wish these girls  
...the best of luck. Remember  
...do your best,  
...remember your fighting for  
...PHS!!!!

...Last week we had an almost  
...near wreck. It seems a passing  
...motorist saw several agricul-  
...ture boys looking through  
...objects on tripods. The un-  
...knowing motorist naturally  
...thought they were the subject of  
...an up and coming group of  
...photographers and in an  
...attempt to present the better  
...side to the camera almost  
...wiped out two cars and a  
...telephone pole. They then  
...realized that the boys were  
...surveying. Mr. E. A. Howard,  
...one of the Ag teachers here at  
...Post has begun to teach his Ag.  
...II class some things about the  
...task of surveying properties.  
...The boys are hoping that they  
...will some day get a chance to  
...utilize this new found knowl-  
...edge. We are glad to see a  
...teacher teaching students some-  
...thing as down to earth as  
...surveying which can easily be  
...a vocation for some job minded  
...student.

...Mrs. Linn, a junior and senior  
...English teacher here at PHS, is  
...really improving the intellect of  
...her students. They have been  
...reading classic novels. For  
...example Bronte, "Jane Eyre."  
...The students must answer  
...numerous questions pertaining  
...to the novel they are reading.  
...They also must be able to  
...identify tone, theme, plot and  
...setting. We truly believe a lot of  
...people are getting a lot out of  
...this. Like their neighbors  
...Miss Lewallen's junior  
...class has just begun theirs.  
...From what we hear she has out-  
...smarted everybody. She isn't  
...going to give her class the  
...exact same assignment that  
...Mrs. Linn gave hers so you  
...might as well give back your  
...friends notes. You know some  
...people spoil all the fun.

...Our FFA horticulture class  
...has really been busy lately.  
...They have purchased a wide  
...variety of plants which they are  
...growing and propagating in the  
...chapter's hothouse. Many of the  
...which are tropical varieties  
...these are transplanted into  
...terrariums by the students  
...themselves. Many are ivy type  
...plants and others similar which  
...are transplanted into hanging  
...baskets which are then put up  
...for sale. The prices range from  
...\$7.50-\$8.50-\$9.50; depending up-  
...on the variety and size of  
...plants. They are also selling  
...potted plants, tomato and  
...pepper plants. You can pur-  
...chase these from the students  
...at the Ag building from 8:35 a.  
...m.-3:45 p. m., or call a  
...horticulture student and they'll  
...be glad to arrange the purchase  
...for you. Come on out and look  
...at the facilities and support  
...your local FFA chapter by  
...purchasing a plant.

...Last week the FFA livestock,  
...dairy, poultry and meats  
...judging teams traveled to  
...Texas Tech University. They  
...participated in area competi-  
...tion against 1,600 other  
...students. They unfortunately  
...will not have any teams  
...advancing to state. Eddie  
...Gannon did receive an award  
...as ninth high individual out of  
...approximately 336 other live-  
...stock judging students.  
..."They did real well," said  
...Mr. Gene Thomas, ag teacher.  
..."I had to make a last minute  
...replacement in my livestock  
...judging team. It was Shelby  
...Barley. Although Shelby had  
...never judged livestock before  
...he did an outstanding job. All  
...the teams did a fine job and we  
...are looking forward to next  
...year."

...Sunday evening our band  
...returned from its journey to  
...Durango, Colorado. The band  
...left early Thursday morning.  
...They took two charter buses.  
...Apparently they not only had  
...fun but went with every  
...intention of winning Division I  
...ratings throughout the festival.  
...The honors were as follows: All  
...the solos received Division I  
...ratings. The band received  
...Division I in concert. But most  
...rewarding of all, they received  
...the award as outstanding band  
...in the division.

...A big CONGRATULATIONS  
...to Mr. Houston and his  
...bandmen. And we want you to  
...know we are proud of the fine  
...way you represented PHS while  
...on your trip.

...The Antelope track team  
...traveled to Odessa to Regional  
...competition Friday and Satur-  
...day. Unfortunately no one will  
...advance to State competition.  
...Jackie Blacklock qualified for  
...the finals in 120 high hurdles,  
...but was eliminated in final  
...competition. We are very proud  
...of all our fine athletes and can  
...truly say they are the District  
...Champs.

...An Porky Pig would say  
..."Th th th th th all folks!"  
...I told next week

# Antelope Tracks

News from Post High School

The Post (Tex.) Dispatch Thursday, May 1, 1975 Page 9

SOUTHLAND SCHOOL NEWS

## UIL contests today for 3rd through 8th grades

"Three Pills In A Bottle", the one-act play presented by the Post Middle School, Tuesday at Frenshup won second place, and had three cast members to be selected for the all-star cast. They are Dale Redman, Ingrid Arhelger and Kerri Pool with Shorty Bilberry as honorable mention. Other cast members were Cindy Terry, Mike Dye, Karla Duren, Terry Holloway, Mike Maddox, Greg Pollard and Susan Sawyers. Sponsors were Kathy Brown and Donna Caughron.

Other UIL contests will be held today (Thursday) at 2:30 in Cooper. Participants and their sponsors are as follows:

## Winners named in Little and Mini Post contests

Teresa Sparlin and Brent Jones were named Little Miss and Little Mr. Post and Beth Parnell and Rance Sappington were selected as Mini Miss Post and Mini Mr. Post in the primary school auditorium here Friday night.

Approximately 250 people attended the annual contest and

program sponsored by the Xi Delta Rho Chapter of Beta Sigma Phi for the benefit of its scholarship fund.

Teresa is the daughter of Mr. and Mrs. David Sparlin and Brent is the son of Mr. and Mrs. Jimmy Jones. Rebecca Parnell is the mother of Beth and Mr. and Mrs. Roy Sappington are the parents of Rance.

Runners-up in the Little Miss and Mr. contest were Tyra Alexander, daughter of Mr. and Mrs. Jack Alexander, and Rodney Tidwell, son of Mr. and Mrs. Clayton Tidwell.

The runners-up in the Mini Miss and Mr. contest were Christy Cole, daughter of Mr. and Mrs. Don Cole, and A. D. Sparlin, son of Mr. and Mrs. David Sparlin.

There were 47 boys and girls entered in the two contests.

Linda Linn, president of the sorority chapter, was mistress of ceremonies for the evening.

Entertainment was provided by Marita Jackson's third grade ukelele group, Ann Mitchell and Marsha Arhelger, Nancy Reno and Jenda Gilmore.

Stage decorations carried out the Snoopy Theme.

Trophies were donated by the First National Bank.

Assisting with escorting the mini division were Theresa Orr and Charla Williams.

## Lucas Motors low bidder

Harold Lucas Motors was low bidder Monday for two new pickups and a truck for Garza County.

The Garza County Commissioners Court accepted Lucas bids of \$7,110.28 for the purchase of a truck for precinct 2, \$3,560.48 for purchase of pickup for precinct one, and \$3,180.35 for purchase of a pickup for the county agent.

Other bids were submitted by Smith Ford of Slaton.

In other actions, the court accepted Sheriff J. A. Holliman's resignation effective June 1, allocated \$1,500 to the community center for the first half of 1975 from federal revenue sharing, endorsed the continuation of the South Plains Community Action Association's handling of the manpower program, and authorized Treasurer Pauline Coleman to bill the city for half the cost of supplies of miscellaneous supplies for the law enforcement building.

## Rotarians told of B-1 bomber

Post Rotarians Tuesday at their luncheon in City Hall saw an interesting slide presentation on the U. S. Air Force's controversial B-1 bomber, the four-engined long range jet about the size of the 707 jettliner designed to replace the current B-52.

Capt Alan Strzemieczny from Reese AFB then answered club members' questions about the new \$40 million planes yet to be ordered into production.

The slide presentation showed Russian counterparts to American bombers and missiles.

The air force officer, who has seen service in Vietnam, stressed in his talk the balance of civilian control over America's military and the role of the American citizen in national defense.

## Library gets —

(Continued From Page One)

the plot being can a cat, canary and a gold fish be friends. It's sure to please the youngsters.

Mrs. Pierce said "Movie nights" at the library will not be launched at the library until after school is out due to so many conflicts in May with school and baseball activities.

The librarian reports she also has ordered a number of catalogs of available film rentals which also can be ordered by clubs at their own expense. Some will charge small rental fees and some of these films are free.

The eight films received in the first film packet are: "The Silent Partner" which contains comedy sequences by Zazu Pitt, Joe E. Brown and Buster Keaton; "Blessing on the Woods, 12 minutes, color, a tribute to the beauty of the woods.

"Sculptors of the Forests," 13 minutes, color, basic introduction to the Olmec culture and art; "Fire, Not In My House," a 10 minute color film on fire prevention in the home.

"Snake River," a 23-minute color film dealing with question of High Mountain Sheep Dam which would flood and destroy Hell's Canyon; "The Problem," 12 minutes, color, puppet animation; and "Mauriorea Maori Show," 13 minutes, color, a Mauriorea concert of song and dance; and "Golden Fish."

## Little Britches —

(Continued From Page One)

call riding, and ribbon roping. Buckles will be awarded to event winners with ribbons to the first seven placers. An all-around buckle will be awarded in each age group with contestants required to enter at least three events to qualify.

A dance on the rodeo grounds slab is scheduled for both nights of the rodeo from 9:30 p. m. to midnight with Danny Guthrie's band providing the music. Admission will be \$1 a person.

**GRIM REMINDER** — These three crosses have appeared in the right of way of FM-211 north of Post where two Post and one Slaton men were killed in a one-car accident Easter Sunday afternoon. State highway officials told The Dispatch that the crosses were not a part of a Texas highway safety program. — (Staff Photo)

## FHA housing —

(Continued From Page One)

work closely with the Chamber committee so an agreed May 31 deadline could be met for filing the FHA loan application.

Approximately \$150,000 would be borrowed to build the five duplexes. Some of the duplexes would be two bedroom units and some single bedroom units.

Gildersleeve told the housing committee that several builders are interested in these housing projects. One already has applied for the work at the Chamber office here.

The loan would be obtained for a 40 year payout period at three per cent interest.

Gildersleeve said it is possible that approval can be received from FHA in time for construction to begin in late summer. FHA funds are already available.

Potts announced that the First National Bank will underwrite the cost of securing the state charter for the non-profit housing corporation. This cost in state fees may run up to \$300, which will be the only cost the corporation is responsible for. All other project costs would be included in the loan.

Potts also has written letters to 15 to 20 community leaders asking their letters to him on Post's rental housing needs, another requirement of the loan application.

The housing chairman said he hopes to have the housing survey completed by the second week in May. Gildersleeve said federal people often check those signing survey forms to be sure the survey is genuine.

Members of Potts' housing

## New officers are installed

Mrs. Zoe Kirkpatrick was installed as the 1975-76 president of the Garza County Division of the American Heart Association April 21.

Other officers installed were Mrs. Kathy Rankin, vice president; Molly Conoly, secretary; J. B. Potts, treasurer; public education, Pat Thompson; professional education, Toni Britnell; public relations, Elaine Gindorf and Mrs. Madge Webb; community service, Svan Nichols and campaign, Henry Wheatley.

Mrs. Mary Johnson, a regional director, of Lubbock, presented a certificate of appreciation to Mrs. Kirkpatrick.

In accepting the presidency, Mrs. Kirkpatrick announced that the major efforts of the Garza County Division will be directed toward local educational and community service programs. People working with them in the community, the home, in school, in industry and in the office is the only way to make the programs of controlling heart disease effective and save thousands of lives each year from heart and circulatory problems, she said.

committee include James Mitchell, Sexton Huntley, Robert Cox, Lee Norman, Bryan J. Williams, Harold Lucas, Syd Wyatt, Earl Chapman, Giles Dalby, Giles McCrary, Charles McCook, Gene Moore, Glen Barley, Victor Hudman and Jim Cornish.

## Post band —

(Continued From Page One)

concert. Band Director Scott Houston told The Dispatch he was well pleased with the entire trip. Ten adults accompanied the 65 member band as chaperones.

The Post band arrived at Durango Thursday night at about 7:30 p. m. after a 6 a. m. start here and were quartered in the Holiday Inn.

On Friday, the band held morning rehearsals and then competed in concert competition that afternoon following the individual and group competition by band members.

A recreation evening was held Friday night.

The festival behind, the band group spent Saturday in an all-day visit to the Mesa Verde National Park where the youngsters and adults toured the Indian Pueblo ruins. They returned to Durango for a private steak dinner at a Durango restaurant.

Everybody was up at 5 a. m. Sunday and by 6:30 the two buses were loaded and starting on their 13-hour trip home to Post.

To make the trip even more of a successful Colorado excursion, the band and its booster club had raised \$4,300 prior to departure in a school-year-old group of benefits to more than pay all expenses of the trip.

In fact, there is even a small balance left for summer band scholarships and maybe a school-end band party.

Been somewhere? Had company? Call your news to 2816.

## New college —

(Continued From Page One)

rating, macrame, belly dancing, gardening and landscaping, basic nutrition and bridge for beginners.

Western Texas College is accredited by the South Association of Colleges and Schools and the Texas Education Agency.

College credits earned at WTC are transferrable to other state supported colleges and universities as well as to most other colleges and universities throughout the United States.

Some Post high school seniors may be permitted to enroll for college credit courses in the new extension center here during their senior year under the WTC early admissions program, and will receive credits earned upon completion of high school.

## Course is slated in radiation detection

Use of radiation detection equipment by emergency personnel will be the subject of a three-night radiological monitor school here beginning Tuesday night May 6, under sponsorship of the Division of Emergency Medical Services of the State

Health Department and Garza County Civil Defense.

Fire Chief Neal Clary said local firemen and others are interested will attend classes each evening at 7 p. m. in city hall.

Garland Latham and J. Dyer, both from Austin, will be the instructors.

Use of radiisotopes increased greatly in Texas the risks of an accident involving transportation of the substance also increased making it necessary to train emergency personnel using monitoring devices.

Fire Chief Clary said the department has been working with the state health department for almost a year in the three-night course in Post.

## Postings —

(Continued From Page One)

Community Action manpower director is checking to be sure a census would come within federal guidelines for the jobs.

It's been five years since the last census here — that a federal effort — and there is a wealth of information which could be tabulated in such a census-taking. The city could well make use of the information, possibly the school district would like some, etc.

Judge Dalby realizes other local governmental agencies probably could use such census information. It's all a grand idea. We hope it's federally "legal" and the court authorizes it.

## Historical committee to meet Tuesday

The Garza County Historical Survey Committee will hold May meeting at 10 a. m. Tuesday, May 6, in the community room.

Everyone is invited to attend.

"If there were no humorists in America, life would be one long funeral service."

# The last cage tourney' being held in Southland

MRS. ROBERT MOCK returned from a fishing trip with a family of five. Meeting there for a family reunion were their sons, Darrell and Larry, from Arizona, Darrell and Larry from Dallas and a daughter, Sherry and husband, from Lubbock. Mrs. Mock said they caught as many fish as they wanted. She is still in a cast from an additional surgery on her leg in March. Mrs. Mock and her husband, Mr. C. R. Lancaster, and several members of their family were visiting them during the tourney.

Falls, Mr. and Mrs. Elmer Hall of Littlefield, Mr. and Mrs. Travis Lancaster and Curtis Lancaster of Lubbock. Remember work day at Southland Cemetery, May 5! Monday!

Bound for UIL state finals this week are three Southland students, they will be in Austin along with their sponsors for competition on May 1. Good Luck! And congratulations to Kendon Wheeler, son of Mr. and Mrs. Valton Wheeler, competing in Headline writing, Amanda Wheeler, daughter of Mr. and Mrs. Farrell Wheeler, competing in Plain Writing, and Spelling and Mary Buxkemper, daughter of Mr. and Mrs. Monroe Buxkemper, an alternate in the 800 yard run in track.

Mr. and Mrs. Wesley Scott from Roswell, N. M., was visiting his mother, and other friends over the weekend. Wesley said "hello to everyone and he's in business for himself in Roswell and really enjoying it.

Mr. and Mrs. Clinton Smith and daughter, Amy, was visiting Mrs. Ula Bea Smith over the weekend. They reside in Midland.

The Texas Basketball Inc. for girls and boys from Southland will be hosting a basketball tournament in the Southland gym beginning Tuesday, Thursday and Friday and Saturday. Each day the games will begin at 5 p. m. Everyone is urged to try and come and boost the boys and girls on. There are seven girls teams and five boys teams entered and they are all in the 11-12 year old category.

Several of the young men of the community are sporting skinned elbows and knees from wild rabbit chasing on their cycles — those rabbits will win every time!

Mrs. Pamela Trotter from Pampa was guest of Mr. and Mrs. James Shelton last week. She had come down to enter her bronze works in the Slaton Art Show. Pam has shown her work all over Texas and adjoining states and has won many awards, coping the first and second in sculpture in that show.

Mrs. Pat Moses also exhibited quite a few varied drawings and paintings winning the purchase prize of her picture "Wheat." Pat and her husband Wayne live in Slaton and Wayne is owner of the Moses Gin at Gordon.

**FIVE GENERATION PICTURE** — Five generations were represented recently in the home of Mr. and Mrs. Ronald Simpson. They are from l to r, back row Russell Simpson, Mrs. Floyd Duncan; Front row, l to r, Emma Barthold (Mrs. Duncans mother) Laura Bowles, (Mrs. Bartholds mother), Ryan Simpson, Mrs. Ronald Simpson (Mrs. Duncans daughter) and Jenny Rhea Simpson.

## Kansan to lead worship here

The Rev. Isaac Butterworth, pastoral associate on the staff of the Village Presbyterian Church at Shawnee Mission, Kans., will preach at the 11 a. m. service of the First Presbyterian Church here Sunday.

Dr. Paul H. Chalfont, interim supply pastor, will be in Columbus, Ohio, on the Ohio State University campus addressing the North Central Sociological Association and leading a panel on mental illness.

## School taxes would double

SLATON — The Slaton school trustees were told last week that Governor Briscoe's school finance bill, if passed by the Texas Legislature, would more than double local school taxes.

Local fund assignment, the amount the state says the local district must pay, would be boosted from \$131,000 currently to \$650,751 annually, according to Supt. J. C. McClesky.

McClesky said the school district has received \$62,949 in emergency funding aid from the state this year, and there now is hope Slaton can wind up without a budget deficit for the first time in many years.

## Floydada still has 'dog problem'

Floydada has a dog warden, a dog ticket system, just about the works. But like every other small town, it still has the same old dog problem.

Steph Carver, dog warden, appealed to Floydada citizens this week to keep their pets up or on leash. In one two months period, he picked up 220 dogs of which only four were claimed by their owners. Ninety-eight per cent were half breeds.

## Streaker runs at Denver City

DENVER CITY — Streaking isn't dead here. In fact, it's a mess.

Last week a masked male streaker struck — and kept going — right by a workout of Denver City High cheerleaders.

One boy has been suspended from high school in connection with the sans clothes escapade, but according to the Denver City Sunday Press the suspended boy isn't the guilty one.

Actually, reports The Press, a boy who has been in trouble with school authorities before did the "streaking" and the suspended student is "taking the rap for him."

The Press says a number of students know who the 'streaker' is but are waiting for him to step forward and confess so an innocent boy isn't penalized. The streaker wore a mask but nothing else but shoes to complicate the identify problem.

People who think they know it all irritate those who do.

## Post librarian at workshop

Thirty librarians from 22 public libraries in the Lubbock area Library System, including Mrs. C. K. Pierce of the Post Public Library staff, attended a workshop on "Encyclopedias: Their Selection and Use," in Lubbock last Wednesday at the George and Helen Mahon Library.

The program was presented by Mrs. Marlene Harp, head of Adult Services at the Mahon Library, and Miss Paula Higgins, Consultant for the Lubbock Area Library System. Eleven different encyclopedias suitable for adult use in the library were evaluated. The consumer's point of view in selecting an encyclopedia for purchase for home use was also included. Various price ranges were indicated and a copy of a consumer magazine's aid for evaluation was distributed to the librarians.

A film, "Five Thousand Brains", depicting the preparation of the Encyclopedia Britannica III was shown and pointers on using the new approach to knowledge in the Britannica were presented by Mrs. Harp.

The Post Public Library has very recently selected this encyclopedia as their share of the grant for book acquisition for the community libraries in the System.

## Junior rodeo at Tahoka May 1-2

TAHOKA — The Lynn County Junior Rodeo Association will sponsor a junior rodeo May 2-3, beginning at 8 p. m. each night, in the Tahoka Rodeo Arena.

A dance will follow each performance until 2 a. m. at the Tahoka Community Center.

Entry books will be open from 4 p. m. until 10 p. m. April 28 through May 1.

Anyone wishing to enter the rodeo should contact Sheila McNeely, 924-3530, or mail their entries and money to Box 175, New Home, Texas 79383.

# Post's New Mobile Homes Ordinance

ORDINANCE NO. 306

AN ORDINANCE PROVIDING FOR THE REGULATION OF MOBILE HOMES; DEFINING THE TERMS USED HEREIN; PROVIDING FOR RESIDENTIAL AND OFFICE USE OF SUCH; AND ESTABLISHING AN ELECTRICAL CODE FOR MOBILE HOMES.

WHEREAS, the growth in usage of mobile homes and their increase as dwellings within the City of Post, has presented a situation making regulation imperative in order to protect the health, safety and well-being of the citizens of the City of Post.

NOW THEREFORE BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF POST:

## SECTION 1. DEFINITIONS

(a) Mobile Homes — "Mobile Homes" means any movable or portable structure, including expandable units, designed for human occupancy and built on a chassis without a permanent foundation.

(b) Mobile Home Park — "Mobile Home Park" means any tract of land of 45,000 square feet or more where accommodation is provided for non-transient mobile home use, whether or not a charge is made for such use. It shall include any building, structure or enclosure used or intended for use in such mobile home park. "Non-transient" use means usage for a period of time of not less than one (1) month by the patrons of such park.

(c) Trailer Space — "Trailer Space" means a plot of land within a mobile home park designated for accommodation of a single mobile home.

(d) Hard Surface — "Hard Surface" shall mean a weather-proof surface that will not soften when exposed to water and is of sufficient strength and thickness not to crack or deteriorate under normal wheel loads.

(e) Space Width — "Space Width" means the horizontal distance between the side lot lines, measured at right angles to such side lot lines at a point midway between the front and rear of such lot. When different results are obtained by measuring from different side lot lines the shortest distance shall be considered the space width.

## SECTION 2. USE FOR DWELLINGS

Mobile homes may be used for dwelling purposes only in the following instances:

(a) When located in a mobile home park licensed by the City of Post as hereinafter provided;

(b) When located in a licensed retail mobile sales or service business; this shall be limited to one such residence per business; and

(c) When used as temporary living quarters for guards at construction sites when approved by the Chief of Police for the City of Post.

(d) When located on a lot with a minimum frontage of forty (40) feet, provided that the wheels must be removed and a covering shall be placed completely covering the space from floor level to ground level around the entire trailer; the home or trailer shall be located a minimum of five (5) feet from any property line and ten (10) feet from any structure or building and no more than one (1) trailer shall be located on each forty (40) foot lot; provided further that such mobile home shall be properly tied down so as to withstand wind velocities of 70 miles per hour as well as being properly connected to sewer and utilities; or

(e) When approved by the City Council of Post in cases of extreme personal hardship.

In all the above instances all utility connections shall conform to the pertinent ordinances of the City of Post.

## SECTION 3. PARKING OR STORAGE

The parking or storage of a mobile home, vacation travel, trailer or camping trailer shall be permitted in any location, provided that such not be used for dwelling purposes and provided further that such shall not be permitted to be parked on the street, parkway or alleyway.

## SECTION 4. SITE PLAN

A site plan shall be filed with the City Secretary prior to the approval of any site as a mobile home park and shall show the following:

(1) The area and dimensions of the tract of land, with identification of location and boundaries;

(2) The number, location and size of all mobile home space;

(3) The location, width and specifications of driveways, roadways and walkways;

(4) The location and specifications of water and sewer lines and riser pipes;

(5) The location and details of lighting, electrical and gas systems;

(6) The location and specifications of all buildings constructed or to be constructed within the park;

(7) Existing and proposed topography of the mobile home park;

(8) The location of fire mains, including the size, the hydrants and any other equipment which may be provided;

(9) Such other information as municipal reviewing officials may reasonably require.

## SECTION 5. BUILDING PERMITS AND CODE COMPLIANCE

All new construction permitted hereby shall comply with the requirements and standards set out in all relevant city ordinances, including but not limited to, subdivisions regulations, building code, plumbing code, electrical code and sidewalk ordinances.

Mobile home parks in existence upon the effective date this chapter shall comply with this ordinance when updating their existing facilities.

Updating shall mean major remodeling or replacement of existing facilities, but shall not include normal maintenance.

## SECTION 6. LICENSE

An annual license is required for each mobile home park.

(1) Fee. The annual fee for each mobile home park shall be twenty-five dollars (\$25.00) for the first twenty (20) mobile home trailer stands and one dollar (\$1.00) for each additional stand.

This annual license can be issued when the owner shows written evidence that the mobile home park and its facilities have been inspected and approved by the City-County Health Department and the City Fire Department not more than thirty (30) days prior to the date the license is issued.

The City Secretary shall send out notices thirty (30) days before expiration date to insure this annual license is obtained.

(2) Display. The license certificate shall be conspicuously posted in the office located on the premises of the mobile home.

(3) Revocation. The license to maintain and operate a mobile home park shall be revoked by the City Secretary upon ten (10) days notice when recommended by the City-County Health Department, Building Inspector or Fire Department on the finding of a violation of any provision of this chapter. A new license may be issued if the circumstances leading to revocation have been remedied and new license fee paid.

## SECTION 7. REGISTER OF OCCUPANTS

It shall be the duty of the licensee to keep a register containing a record of all mobile home owners and occupants located within the park for a period of seven years and readily available for inspection by law enforcement officers, public health officials and other officials whose duties necessitate acquisition of the information contained in the register. The register shall contain the following information:

(1) The name and address of each occupant.

(2) The make, model and year, license number and state of registration of all automobiles, mobile homes.

(3) The date of arrival and departure of each mobile home.

## SECTION 8. REQUIREMENTS GENERALLY

All mobile home parks constructed in whole or in part after the effective date of this ordinance shall conform to the following requirements:

(1) Density. There shall be no more than seven (7) mobile

homes per acre in any mobile home park.

(2) Initial development of any mobile home park shall not be less than 45,000 square feet fully improved with serviced spaces. All site plans shall define the initial development area.

(3) Mobile home minimum setback and spacing requirements:

SPACING	SETBACKS
Between structures	15'
End to end parking	10'

from permanent structures (excluding individual storage structures, patio, roofs & carports) 10'

and gutter except where three (3) feet gutter walks or drives are situated. No cul-de-sac shall be over two hundred fifty (250) feet from center of the turn around to the nearest curb line of the street it abuts. At the end of each cul-de-sac a six (6) feet wide open, unobstructed fire fighting easement shall be provided. This easement shall not be more than two hundred (200) feet in length and shall abut and open onto a private or public street other than a cul-de-sac. Gates may be installed in such opening, provided breakaway locks are used.

(10) Ingress and Egress. All mobile home parks shall have a double drive entrance separated by a thirty (30) foot median and a secondary access street at least three hundred (300) feet from this double entrance. Such streets shall have standard curb and gutter and shall not be less than twenty (20) feet in width. Secondary access street can be chained for control as long as a breakaway lock is used. Entrances and exits must comply with provisions of the Ordinances of the City of Post.

(11) Driveway of Access. A driveway or accessway shall be reserved from the street to the mobile home stand.

(12) Parking. Two off-street paved parking spaces shall be provided for each mobile home space and two additional guest paved parking spaces shall be provided in a common area for each three (3) mobile homes in the park. Such parking spaces shall not be over three hundred (300) feet from the mobile homes they serve.

(13) Recreation Area. A landscaped recreation area or areas totaling not less than 8 per cent of the total mobile home park site shall be provided. Such recreation area shall be provided in a central location where possible, and may be divided so as not to exceed one such recreation area per five (5) acres of gross mobile home park area. Regardless of location each recreation area's smallest dimension shall not be less than fifty (50) feet. Community buildings and community use facilities, adult recreation and child play areas and swimming pools may be included in these recreation areas.

(14) Soil and Ground Cover. Exposed ground surfaces in all parts of every mobile home park shall be paved, covered with stone screening or other solid material, or protected with a vegetative growth that is capable of preventing soil erosion and of eliminating dust.

(15) Recreation Area. A landscaped recreation area or areas totaling not less than 8 per cent of the total mobile home park site shall be provided. Such recreation area shall be provided in a central location where possible, and may be divided so as not to exceed one such recreation area per five (5) acres of gross mobile home park area. Regardless of location each recreation area's smallest dimension shall not be less than fifty (50) feet. Community buildings and community use facilities, adult recreation and child play areas and swimming pools may be included in these recreation areas.

(16) Soil and Ground Cover. Exposed ground surfaces in all parts of every mobile home park shall be paved, covered with stone screening or other solid material, or protected with a vegetative growth that is capable of preventing soil erosion and of eliminating dust.

## SECTION 9. DISPOSAL OF GARBAGE AND RUBBISH

Each stand shall provide a hard-surface area for the deposit of garbage and trash for collecting by the city. This area shall be accessible to the street or alley and shall be large enough to accommodate not less than two (2) standard garbage cans.

## SECTION 10. FIRE PROTECTION

Mobile homes in mobile home parks:

(1) Each mobile home shall contain five (5) pound CO<sub>2</sub> fire extinguisher at all times.

(2) Fire hydrants shall be installed so that no mobile home space will be over three hundred (300) feet from a hydrant setting on an eight (8) inch water main.

(3) There shall not be any storage under the mobile home.

(4) Fences around mobile homes shall not be over thirty-four (34) inches high across the front of the space.

From patio, roof or carport of space 3'

Rear and side park property lines 10'

Front park property lines 25'

From interior streets 15'

From cul-de-sac streets 25'

Space Width 35'

(5) Tenant Storage. Mobile home parks shall provide storage facilities of 90 cubic feet minimum for each mobile home space.

(6) Additional Construction. Mobile home spaces may have open unenclosed patio, roofs, and carports of metal, fiberglass or other incombustible materials, constructed to withstand wind velocities of seventy (70) miles per hour.

(7) Utilities.

A. Water Supply. An adequate supply of potable water for domestic and fire protection purposes shall be supplied to meet the requirements of the park. Mobile home spaces shall be provided with a water hookup at least four inches above the ground and hose connection for lawn maintenance.

B. Sewage Disposal. Waste from showers, bathtubs, toilets lavatories in mobile homes, and service or other buildings within the park shall be discharged into a public sewer system in compliance with applicable ordinances. In the event public services are not available such waste shall be discharged into a private disposal system approved by the City-County Health Unit.

C. Natural Gas. Mobile home space shall be provided with a natural gas hookup at least four inches above the ground.

D. Electrical Services. Underground service shall be provided throughout mobile home parks and service to individuals mobile homes and vacation travel trailers shall meet the requirements as set forth in the Ordinances of the City of Post. All electric meters shall be permanently installed in a location accessible from an interior street, alley or all-weather walk way.

(8) Lighting.

A. Entrances and exits to mobile home parks shall be lighted with one (1) or more luminaries (or fixtures) totaling 7700 lumens.

B. The interior area of the mobile home park shall be lighted to a .5 candle average maintained. All luminaries shall be mounted fifteen (15) feet to twenty-five (25) feet above the ground level.

(9) Walks. All interior walks of mobile homes parks shall be all-weather and not less than four (4) feet in width. Walks provided adjacent to interior streets shall be three (3) feet concrete gutter-walks. Walks provided adjacent to public streets shall comply with applicable City Ordinances.

(10) Interior Streets. Interior asphalt streets shall be provided to service each mobile home. All spaces abut upon such paved interior street which shall connect with a public street. Interior streets where on-street parking is permitted shall not be less than thirty-five (35) feet in width. In mobile home parks where no on-street parking is permitted the interior streets shall not be less than twenty (20) feet in width. All streets shall have standard curb.

(11) Supervision.

A responsible attendant or supervisor, owner or operator shall be in charge at all times to keep the mobile home park, its facilities and equipment in a clean, orderly and sanitary condition and he shall be answerable, with the licensee, for any violation of the provisions of this chapter.

(12) Electrical Code.

A. Grounding Electrode.

That it shall be unlawful to connect to a power source the electrical wiring system of any mobile home, house trailer, or other similar equipment in the City until the metal frame of such mobile home, house trailer, or similar equipment shall have first been connected to a grounding electrode which shall be a metallic underground water piping system, either local or supplying a community, where such a piping system is available; and where it is not the grounding electrode shall be of metal and shall consist of a driven pipe, driven rod, buried rod, buried plate approved for the purpose by the City electrical inspector and conforming to the following requirements:

(1) Plate Electrodes. Each plate electrode shall present not less than 2 square feet of surface to exterior soil. Electrodes of iron, or steel plates shall be at least 1/2 inch in thickness. Electrodes of non-ferrous metal shall be at least 0.06 inch in thickness.

(2) Pipe Electrodes of pipe or conduit shall be not smaller than of the 1/2 inch trade size and, where of iron or steel, shall have the outer surface galvanized or otherwise metal-coated for corrosion protection.

(3) Rod Electrodes. Electrodes of rods of steel or iron shall be at least 1/2 inch in diameter. Approved rods of non-ferrous materials or their approved equivalent used for electrodes shall be not less than 1/2 inch in diameter.

(4) Installation. Electrodes should, as far as practicable, be imbedded below permanent moisture level. Except where rock bottom is encountered, pipes or rods shall be driven to a depth of at least 8 feet regardless of size or number of electrodes used. Pipes or rods when less than standard commercial length shall preferably be of one piece. Such pipes or rods shall have clean metal surface and shall not be covered with paint, enamel or other poorly conducting materials. Where rock bottom is encountered at a depth of less than 4 feet, electrodes shall be buried in a horizontal trench, and where pipes or rods are used as the electrodes they shall comply with 2 and 3 and shall not be less than 8 feet in length. Each electrode shall be separated at least 6 feet from any other electrode, including those used for signal circuits, radio, lightning rods, or any other purpose.

B. Responsible Parties.

No owner, lessee or party in possession or control of any mobile home, house trailer or similar equipment in the City of Post shall cause or permit the electrical wiring system of such mobile home, house trailer, or similar equipment to be connected to a power source or to remain connected to a power source, unless the metal frame of such mobile home, house trailer or similar equipment shall have first been connected to a grounding electrode as described above.

## SECTION 13. PENAL PROVISIONS

Any person violating any provision of this Ordinance within the corporate limits of the City of Post, Texas, shall be guilty of a misdemeanor, and, upon conviction shall be fined an amount not exceeding two hundred (\$200.00) dollars. Each day that such violation continues shall be a separate offense. Prosecution or conviction under this provision shall never be a bar to any other remedy or relief for violations of this ordinance.

## SECTION 14. SEVERANCE

If any provision, sentence, clause, phrase, or wording of this ordinance shall be declared illegal or invalid, such holding shall not effect the validity of the remainder of this ordinance, which remainder shall continue in effect so as to effectuate the intent of this City Council of Post.

## Wolf Badges to 6 Cub Scouts

Cub Scout Pack 314 held their monthly pack meeting last Thursday in city hall.

Chris Furlong and Curtis Clinesmith of Den 3 conducted the opening ceremony.

Cubmaster Jack Clinesmith presented awards to six boys who earned their Wolf Badges; Shannon Adkins, Robert Connel and Toby Craft of Den 1, Clinesmith of Den 3, and Michael Anderson and Jimmie Valdez of Den 4.

Den 1 conducted the games and closing ceremony.

## Sermon titles for Sunday announced

Sermon titles for the services this coming Sunday at the First Christian Church will be "His Seamless Dress," the 11 a. m. worship and "Get It Some Don't," the evening service at 7 p. m.

Church activities for the week include: 9:45 church school, CYF following the evening worship, and the m. prayer meeting.

Installation of new officers for CWF will be May 12 at 7 p. m.

Edgar L. Fox is minister of the First Christian Church.

## Did You Make A Down Payment! An Unfortunate Situation:

(We'll try to correct it)

We have learned that several Post-area farmers have made down payments on an organic soil building material represented as being mined near Cuba, New Mexico. The salesman who took those down payments is not associated with us, nor with Clod Buster blend of natural Humic Acids.

However, the entire soil amendment—"organic fertilizer"—industry is harmed by the actions of a very few. We are extremely proud of our product, Clod Buster, the only soil amendment mined from the Cuba, New Mexico area.

We do not know the extent of collections made. But we will do our best to allow credit towards delivery of Clod Buster for those down payments made.

From our conversations with those who made the down payments, it appears that only two misrepresentations were made:

Delivery was not made.  
The material represented is not from Cuba, New Mexico.

Product worth appears to have been accurately represented, although our years of comparative testing have conclusively shown that Clod Buster is superior to the material delivered by that salesman in the past.

Contact us and we'll do our best to allow you credit towards delivery of Clod Buster for those down payments.

# HOW'S The Electric Company DOING?

Let's ask Johnnie Cowan, division stores superintendent...

"Johnnie, what are poles costing these days?"

"This pole, like the one in back of your house, cost \$35.70 in 1962, now it costs \$81.35, a 128% increase."

That's part of the reason the cost of electricity is up somewhat... everything costs us more... and if we don't replace wornout things... well, your electric service will suffer. We don't want that, and we're sure you don't.

The Future is Electric!
