## Heavy absentee rush may indicate big vote Saturday

### Long Demo ballot

More of Garza's 2,400 eligible voters may go to the polls Saturday to vote in the Democratic — and reestablished Republican — primaries that political observers have been predicting.

Certainly, they will have more choices this time in state, senate, and congressional races than they've had in many a year, plus three county and precinct contests.

Heavy absentee voting, which reached a total of 65 by the Tuesday deadline, is a good indication of rekindled interest.

The Dispatch's "political edition" today is another indication. It contains some 34 "political ads" with six for one county candidate and five for another.

Polls will open at 7 a. m. Saturday and close 12 hours later at 7 p. m.

The first choice voters will get will be between party primaries.

Giles McCrary has arranged the first Republican primary in about a decade with voting for the entire county to be handled in his office in the McCrary

#### For results

The Dispatch office will open at 8 p. m. Saturday to start giving county primary election returns. It is expected to be between 11 p. m. and midnight before county totals are complete from all nine voting precincts.

#### building.

Poll workers aren't expected to be particularly busy, however. The last GOP primary here attracted only seven voters.

The Republicans will have a choice of three for the party's gubernatorial nominee, but that's the only contest on the ticket. It pits Bill Clements, former deputy secretary of defense under President Ford, against Ray Hutchison and Clarence G. Thompson.

Other GOP candidates on the ticket, all unopposed, are John Tower for U. S. Senator, Bill Fisher for 17th district congressional nominee; Gaylord Marshall for Lieutenant governor; Jim Baker for attorney general; James W. Lacy for railroad commissioner, and Joe Robbins of Lubbock for state senator.

Both Democrats and Republicans will be given the opportunity to express their opinions on pari-mutuel wagering on horse races by local option.

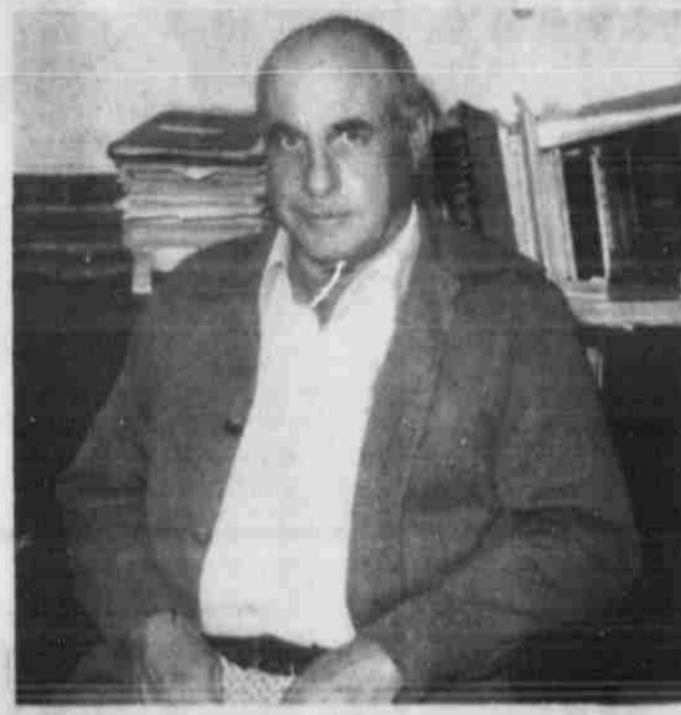

The Democrats also will vote on whether voters favor the Texas Legislature's authorizing higher interest (See Long ballot, Page 16)

ONE LAST TIME — Weldon Swanger puts up the mail for the last time, Thursday, April 27, ending a 32-year career as a civil service worker with the Post Office Department. Weldon began his career in 1947 as a mail messenger and special delivery person. He said he had no immediate plans for the future than to relax and enjoy life. #### AFTER 31 YEARS IN CLASSROOMS—

## Principal Billy Hahn will retire June 30

"GRADUATING" JUNE 1 — High School Principal Billy Hahn announced his retirement from a school career spanning 34 years as teacher, coach and administrator. — (Staff Photo)

Post High School Principal Billy Hahn announced this week he will retire June 30 after 31 years in the classroom and credit for three more for World War II service.

"I have no definite plans for the future," Hahn told The Dispatch Tuesday. "I want to go fishing and do some traveling."

Hahn said he plans to continue to make Post home "until maybe I find a cabin on a good fishing lake."

Billy will complete his 20th year in the Post school system when he steps down at the completion of the current school year.

His successor is yet to be named.

Hahn came to Post at the start of the 1957-58 school year as a physical education teacher with a sixth grade math class and a coaching assignment as junior high girls cage coach.

He began coaching B team (See Hahn retires, Page 16)

## Cold front brings welcome rains

A "black norther" blew into this area Monday night, dropping temperatures 57 degrees and bringing a very welcome 1.61 official inches of moisture to Post.

The skies were so dark over Post Tuesday morning that street lights remained on until mid-morning.

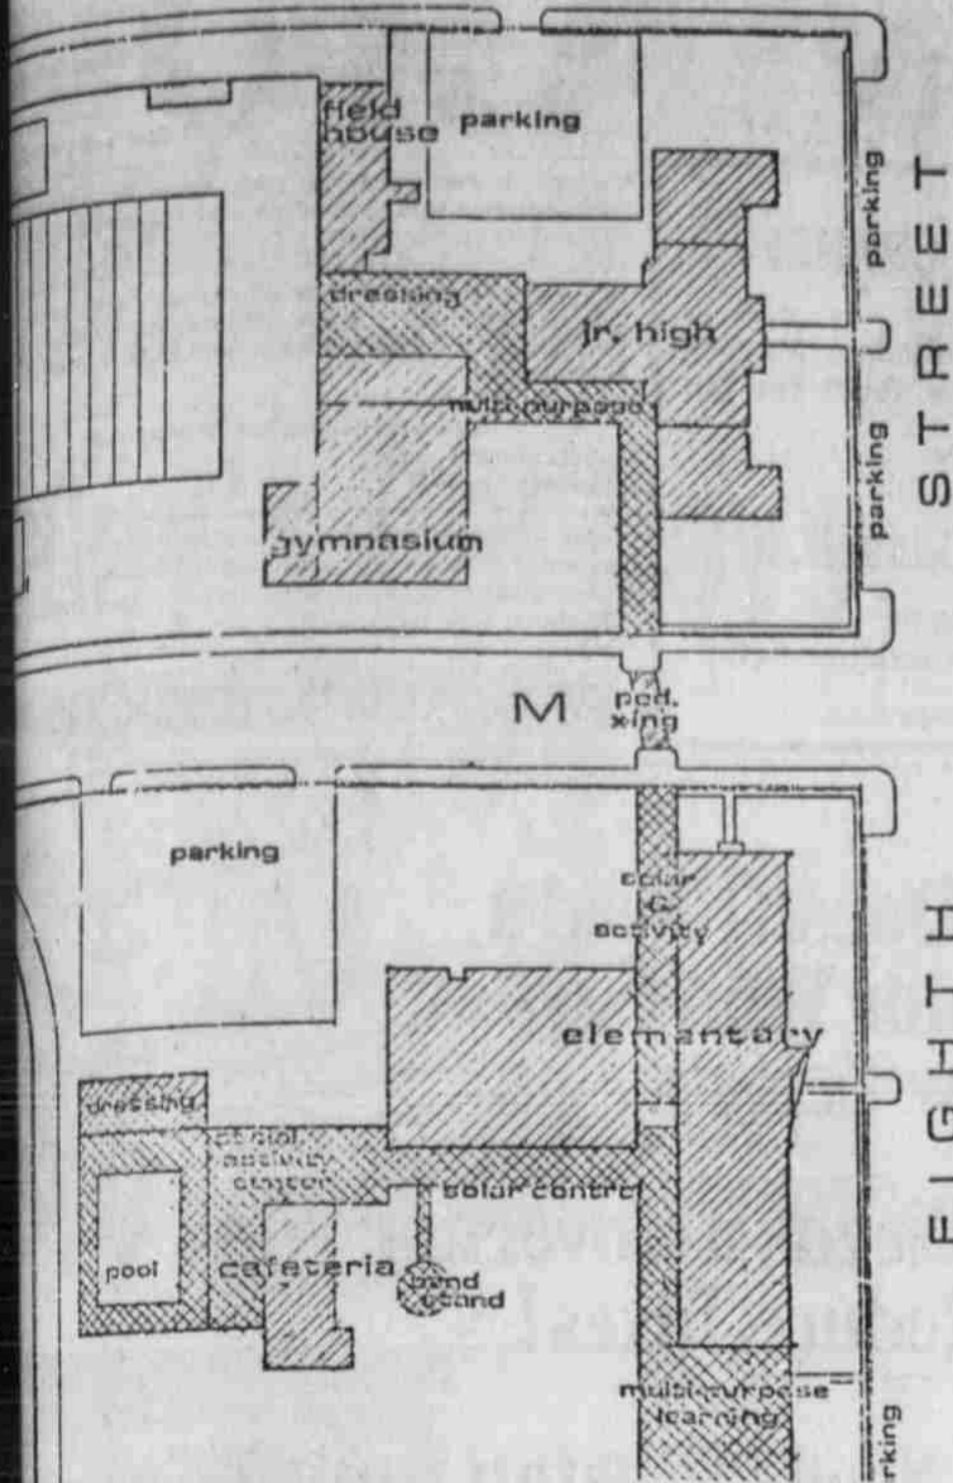

It rained intermittently half the day or more Tuesday with .59 inches of moisture being recorded for the 24-hour official reading at 8 a. m. Tuesday, and 1.02 inches more at the Wednesday morning reading.

Some pea size hail was reported both in town and

rural portions of Garza County.

The possibility of additional badly needed rain remained for both Wednesday and Thursday.

The temperature fell from a Sunday high of 95 degrees in Post to a low of 39 degrees (See Cold front, Page 16)

PROPOSED ADDITIONS — Shown above is the architect's line drawing showing proposed additions to the Post Junior High School and Post Elementary School. The school board is considering only the junior high part at this time. The diagonal lines show present buildings with the x marked areas the new additions. Note junior high, gymnasium and field house would be connected. Plans call for safety islands and parking in front of junior high in what is now the parking beyond the sidewalk. The front would be fenced as a safety measure to confine student access to the street to three safety island areas. Note dressing room and multi-purpose area as well as enclosed 10 foot wide enclosed walkway to Avenue M to confine that student crossing to one area.

## New junior high plans to cost estimated \$415,512

Post school trustees will meet at 4 p. m. Monday at the junior high school building with Lubbock architect Sanford Whitaker, Supt. Shiver, Junior High Principal Bud Davis and a representative group of junior high teachers to discuss Whitaker's plan to remodel and expand the junior high building.

This decision was made Monday night at a special meeting of the school board for a presentation by Whitaker of cost estimates of the work.

Whitaker was unable to attend due to the death of his parents but was represented by three other members of the Whitaker firm — Joe Hall, Wynne McQueen and Teresa Drewell.

They presented preliminary cost estimates totaling \$415,512 for the junior high portion of the development of present Post school building for future needs. This included \$213,582.50 for new construction around

## \$200,000 damage as rig is blown over

A "workover rig" of Palmer Well Service Inc., was blown over by winds estimated at 70 miles an hour Monday night on a lease near Justiceburg, causing damages estimated at around \$200,000.

Not only was the rig "totaled" at a loss of approximately \$110,000 but the rig squashed a lot of other equipment on the ground when it fell, including a perforating truck belonging to a Snyder oil service firm.

"Monk" Palmer told The Dispatch Wednesday that the rig was not in operation at the time and no one was injured in the fall.

"I think this one will probably be totaled," Palmer said. "We'll probably try to buy another one. This caught us in our busy season too."

The loss trims Palmer's available workover rigs

square feet, for a 20-foot wide corridor to Avenue M costing \$44,000, development of a parking lot for \$6,282.50 and construction of safety

## AAM office to remain open

The Garza County office of the American Agriculture Movement will remain open, farmers decided here last week.

"It may not be manned every minute, but it will be open and we plan to continue meetings on a weekly basis," The Dispatch was told by farm leaders.

Some of the offices are closing. It's a decision each office must make.

"This isn't over yet by a long ways," The Dispatch was told.

## Danna Giddens named 1978 valedictorian

DANNA GIDDENS Valedictorian

DAVID MORROW Salutatorian

Danna Giddens, daughter of Mr. and Mrs. Joe Giddens, has been named valedictorian of Post High School's graduating class.

Danna has been active in basketball, track, dramatic activities, U.I.L. events, and band. She is president of the band, secretary of the senior class, and student council member.

Remaining seniors in the "top five" are David Morrow, salutatorian; Tricia Dudley, class history; Peggy Jackson, class history; and Sharon Johnson, class prophecy.

It scares us to see Governor Dolph Briscoe spending about three million dollars (according to officially filed campaign expenditure reports) in his efforts to defeat John Hill and win a third term in November and complete 10 years in the governor's mansion.

If Hill had had that kind of money he could have made a heck of a fight for it. If they exchanged campaign funding, Hill would have won in a canter — providing he can ride a horse.

Briscoe's is the most by far any candidate has ever spent in Texas to win the governor's chair — and a whale of a lot of it was Dolph's own dough.

And don't forget if Preston Smith pulls enough votes and Hill is anywhere close, Briscoe may still face a June runoff as well as a tougher than usual Republican opposition in the fall. Who knows? Maybe that will cost a couple of more million.

The Dispatch enjoys providing voting returns for any election of real interest in Garza County — and the Saturday primaries (note that is a plural on primaries) — are no exception.

We will relay the information from the courthouse to the newspaper office and will be answering both phones.

But we ask for your cooperation.

The way Post's dial phony system works — when it works — if one person making a call fails to hang up correctly and leaves his or her receiver off the hook then the disconnect is never made and the party at the other end of the line has his phone tied up "busy" until the faulty party at the other end of the line properly disconnects.

This has happened to The Dispatch twice on election nights in the last three years. The last time was back in April in the local spring elections. That cut us down to one phone and made it difficult for interested callers to get through for results.

You can't call somebody back and ask him to (See Postings, Page 16)

## Band concert here Tuesday

Four bands from the Post schools will be presented in concert Tuesday, May 9, at 7:30 p. m. in the high school gym.

The fifth grade, sixth grade, junior high and high school bands will be featured at the concert. The groups will play a wide selection of music, including the numbers played at the various band contests the bands attend.

The annual band awards will also be presented at the concert. Honored will be the Outstanding Bandsman in each band, and the outstanding senior member of the high school band will receive the John Philip Sousa award.

The bands are under the direction of Mr. Jimmie Stringer.

## Too many not interested

Voter apathy is obvious here and all across Texas as the party primaries loom just 48 hours ahead. It's a dangerous trend when so many folks appear simply not to care about elections anymore.

Political analysts give several reasons for this. Principal one, of course, is that most of us are so discouraged we have given up on trying to change things in government.

Remember just about half of the eligible voters bothered to go to the polls and vote at our last presidential election. Only 30 percent or so show up to mark their x even in hotly contested local school elections. About 15 percent chose our city councilmen.

Political watchers say the voters aren't going to be "turned on" Saturday. Statewide vote totals are expected to be down to "mediocre size."

And this despite the fact voters are going to get a lot more choices this time than usual. Several congressional districts are electing replacements for retiring congressmen. This has really drawn a crowd.

There's a hot race for governor and another for attorney general. But half of the voters or more don't even know who is running. We doubt if 20 percent of Garza voters could tell you who are the two top candidates for attorney general.

Dolph Briscoe is about to be reelected for his third term as governor which will virtually make the governorship of Texas a monarchy—10 years for Dolph. That's because John Hill's campaign never really got off the ground.

The thrust of Briscoe's campaign is that Texas doesn't want an activist governor who wants to get things done. Well, we're convinced now that that's a winner.

Very few, if any, Garza Countians have listened to or read about all the candidates who are running for Omar Bureson's congressional seat. Most of the voters couldn't name three in the field, much less all eight.

The 1978 choice could well move into Washington for 20 years, because it is hard to unseat a congressman who really tends to business once he gets established.

Who of the eight is the most capable, has the best chance to grow in the job? It would be hard to even get into an argument on here on that question.

America is in real danger when Americans don't take a real interest in choosing those who will operate the government controls at national, state and local levels.

The only reason Garza County will have a halfway respectable voting turnout Saturday is because of three county races—two for county commissioner and one for county treasurer. And only one of those affects the entire county.

A long time ago, this newspaper quit joining any last minute "get out the vote" campaigns.

We contend if the voter doesn't know the candidates and what they stand for we are all much better off if they stay home and leave elections to those who care.

But The Dispatch is always optimistic. We encourage you to take an interest in the election, get involved, and help get government more responsive to the people. If we aren't interested election day, we don't deserve to complain about what we get—in Austin, Washington, or right here in Post.

## Texas Needs a Governor Who Will Reduce Taxes!

## Texas Needs Preston Smith.

Texans have paid too much in taxes! For the last six years Texas has been operating with a tax surplus that has skyrocketed to more than 2 Billion dollars.

It's easy for other candidates to say "no new taxes" when they have been taking more money out of your pocket than is needed to run your state government.

You've been overcharged!

Preston Smith will reduce taxes.

### Hospital auxiliary votes to disband

A called meeting and luncheon was held in the home of Mrs. J. E. Parker recently for the Garza Memorial Hospital Auxiliary members. It was decided at this meeting that the auxiliary would disband. The auxiliary was organized in April of 1961 with 51 active members with Mrs. Parker as the first president. The hospital had Doctors: Williams, Surman, Kaylor, Matthews, Carter, Tubbs and Young. The needs were

very different at this time and volunteers worked over 4,743 hours the first year. The 17 years this auxiliary has been in existence have had many projects — bought needed equipment for every department, gave receptions for new doctors, open house for hospital, took citizens through the hospital and acquainted them with all departments, Christmas parties for hospital personnel and each year at elections of new officers, gave a banquet for the hospital board members, doctors and wives, county officials and all hospital employees, Pink Ladies and their husbands.

Curtains and carpet were bought for the lobby and hospital rooms, dishes and electrical appliances, coffee cart for the lobby were some of the ways the money was spent.

As time went on the hospital needed room that had been assigned to the auxiliary and more help was hired for the hospital and fewer volunteers were willing to serve.

There have been several hundred ladies serve as volunteers and as many associate members who although didn't give time, gave their money for projects. Cash on hand was voted to be spent for kitchen needs and the cart and coffee maker are to be given for use at the hospital.

The auxiliary and the hospital always had great cooperation with each other. Ed Zintgraff and personnel of the hospital honored the Pink Ladies with a breakfast this spring and was greatly appreciated.

The auxiliary wishes to thank each and everyone for their cooperation, time and money to help the auxiliary function for the past 17 years.

**A State Income Tax. A Hangman's Noose For Texas.**

If you think taxes are choking you now, consider the possibility of a State income tax. It would be a noose around your neck. Around the neck of every Texan. And around the future of Texas.

A vote for John Hill is a vote for:

- bigger government.
- more government spending.
- more inflation.

AND FOR A STATE INCOME TAX.

A vote for Dolph Briscoe is a vote for:

- fiscal responsibility
- less — not more — government.
- continued economic growth.

AND FOR NO NEW TAXES.

- We don't need New York-style government in Texas.
- We don't need Washington-style bureaucracy in Texas.
- And we don't need a big spending liberal activist as Governor of Texas.

LET'S KEEP DOLPH BRISCOE AS OUR GOVERNOR.

"We are already footing the bill for run-away government in Washington. As Texans we should not have to foot the bill for run-away government in Austin.

"I don't think Texas should spend itself into a state income tax. That is exactly what will happen if Mr. Hill fulfills only some of his political promises."

# Band improves to Division II ratings

The Antelope Band was rated a division II in concert and a Division II in sightreading at contest held in Seagraves April 26.

For their concert performance, the band played "British Eighth", by Elliott, "Court Festival", by Latham, and "The Black

Knights" by Grundman.

The judges were complimentary to the "many fine players" in the band, and commented on improvements shown. A division II is considered excellent by UIL standards.

Although sightreading scores are not available for other schools in district 5AA, concert ratings are as follows: Frenship High School, division I; Cooper High School, division II; Denver City High School, division II; Slaton High School, division III; Roose-

By the time you read this, the PHS choir members will be relaxing in the sand and surf at Galveston Island. Most of the choir students and their parents have worked very hard all through the year to earn the money to make this trip, so they fully deserve it. Best of luck at the contest also.

After postal mess-ups and frantic delay, the graduation announcements for the seniors have finally arrived. Now comes the fun part — burning the midnight oil — as you sit up to address the invitations to friends, relatives, etc. Better hurry — there are only 16 more school days left til graduation.

Congratulations to all the new members inducted into the National Honor Society. This is a substantial honor, and one which you should do your best to maintain. Although it gets harder and harder to convince students of the benefits of scholastic achievement, believe me, it pays off.

Best of luck to Larisa and Cindy as they travel to Austin to show everyone what Post ready writers and

## Needy children health clinic here May 11

Volunteers are needed in Post to work Thursday, May 11, with the State Health Department's team that will be screening needy children for health problems, according to Chris Nelson, caseworker with the Texas Department of Human Resources (TDHR.)

Clinic hours are from 8:30 a.m. until 3 p.m. in the office of Dr. Harry Tubbs, 111 North Avenue I. Ms. Nelson explained that mothers need to be with the children who are receiving health check-ups and volunteers are needed to supervise small brothers and sisters during this time, as well as to provide transportation to and from the clinic site.

Persons wishing to assist with the project are requested to call the Texas Department of Human Resources office in Post, telephone 495-2881.

Any Medicaid recipient under age 21 is eligible for the health screening, known as the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program. Health Department nurses provide the service

under contract with TDHR. "The way to prevent having big health problems, is to catch them while they are still small," Ms. Nelson said, and she urged any eligible persons who do not already have an appointment to contact the TDHR office immediately to schedule a time to be seen.

In the fiscal year ending last August 31, some 2926 young people received EPSDT screening for medical problems in the Lubbock and Amarillo regions of TDHR. Of these, 1103 were referred to physicians for treatment, Ms. Nelson said.

## 697 books read in April

Post Public Library Patrons read 697 books in April to bring the library's circulations to 2,951 books for the first four months of 1978.

These figures are contained in the monthly library report prepared by Librarian Pee Wee Pierce.

This included 587 adult books checked out and 110 juvenile books.

Fifty-three new books were added to library shelves in April to bring new 1978 acquisitions to 185 volumes.

Twenty-three youngsters attended the weekly story hours to bring this total to 96 for the year. Sixteen reference questions were answered during the month.

Seven film strips were shown in the library for a total of 28 and the filmstrip projector was checked out three times.

## One for the people.

As Chairman of the State Insurance Board, Joe Christie slashed proposed insurance rate increases by more than \$500 million and he shocked the politicians by asking the Legislature to reduce the Board's budget.

His opponent, who has only lived in Texas 11 months out of the last 19 years, is the hand-picked candidate of Big Oil, and he votes their way every time no matter what effect it has on Texans' utility bills or the skyrocketing rate of inflation.

## As our new Governor, John Hill will get the job done.

John Hill will cut utility bills. Where Dolph Briscoe has failed, John Hill will remove the sales tax from utilities and save taxpayers millions of dollars yearly.

Reduce property taxes. Instead of pushing more of the tax load on property owners, like Dolph Briscoe has for six years, John Hill will shift the burden back to the state where it belongs. The budget surplus is there, he'll use it to relieve our taxpayers.

Cut state spending. The budget has doubled under Dolph Briscoe and he's failed to manage it well. His own office of Migrant Affairs is a model of mismanagement and waste. John Hill will trim the fat and put the savings to work on worthwhile programs... like better education for our children.

Hold the line on taxes. There's been no need to raise taxes and there won't be when John Hill's Governor. He'll veto any tax increase that comes to his desk.

Stand up for Texas in Washington. John Hill won't dance around on the energy issue. We can't count on him to take on the bureaucrats and win. He knows how to work up a convincing case that gets results in Washington. He's done it as Attorney General. He'll do it as Governor.

Wouldn't you rather have John Hill on your side as the new Governor of Texas?

## I'm Proud to Stand on My Record In Asking Your Support May 6 for Re-election As County Judge

The Garza County Commissioners Court of which I am a member has greatly expanded the county's services to its people during my two terms, while continuing to operate within the same tax structure.

Some of the court's accomplishments include:

1. Sponsoring programs for senior citizens, including Meals on Wheels and the mini-bus to provide essential transportation.
2. Construction of new jail and law enforcement facility and paying for it in less than four years.
3. Establishing a probation department for the first time.
4. Assuming the operating costs of the new community center.
5. Financing summer recreation programs for our youth.

6. Providing offices for the Department of Human Resources (formerly welfare) and Out-Patient Mental Health Clinic.

7. Establishing a retirement system for county employees.

8. Supporting the Post Special School for handicapped children.

9. Entering into joint projects with City of Post for ambulance service, joint law enforcement, paving of city streets, greatly expanded cost share of operation of public library, and development of Post-Garza Municipal Airport.

10. Renovation of county courthouse, including expansion of district courtroom and addition of jury room and judge's chambers.

11. Purchase of computer for county treasurer's office.

12. Establishment of federal grant director's office and program to secure additional federal CETA funds.

13. Establishing civil defense system.

# Bryan Compton wins AA regional broadjump

## Qualifies for state May 12 in Austin

Bryan Compton qualified for the state high school track meet in Austin May 12 by winning the Class AA regional broadjump at Lubbock Saturday with a leap of 21 feet, 11 inches.

He was the only Post Antelope to qualify for state.

Cliff Kirkpatrick scored Post's only other point at the regional with a sixth in the 330 yard intermediate hurdles.

Kirkpatrick set a new Post school record in the event with a 40.4 second time in the Friday preliminaries. His time in the finals Saturday afternoon was 40.5.

Other Lopes competing in the regional, neither of whom placed, were Brent Terry in the 220 yard dash and Evans Heaton in the pole vault.

Most unusual thing about Compton's regional effort was his consistency. All six of his jumps at Lubbock were better than 21 feet.

Compton, a junior, placed fourth in district in the broadjump last year as a sophomore with a leap of 19 feet, 11 1/2 inches.

He has improved by nine inches in his leaping dis-

tance since winning the district meet two weeks ago. Coach Lane Tannehill hopes Compton will continue to improve and be jumping well over 22 feet by the time of the state track meet.

"Bryan is a hard worker in track and has not only improved in jumping but has gained a lot of confidence in his own ability in recent weeks," Coach Tannehill told The Dispatch Monday.

Compton will compete in the Lubbock state qualifiers meet Saturday at Lubbock for state qualifiers in all classes. The broad jump is scheduled for a 2 p.m. start.

At Austin's Memorial Stadium where the state meet will be held the following weekend, May 12-13, the broad jump is scheduled for 11 a.m. Friday, May 12.

The Post school record for the broadjump is 22 feet, 5 1/2 inches.

Slaton's Tigers won the regional at Lubbock for AA schools by scoring 52 points to easily outdistance Dimmitt with 36. Post tied for 18th with Denver City with 11 points.

## Raymie Holly third in singles

Joe Bob Wynn of Morton upset Raymie Holly in the semi-finals of the Class AA regional boys singles at Lubbock Saturday, but Holly came back to whip Greg Hix of Denver City for a third place finish.

Holly defeated Gene Acosta of Alpine 6-1, 6-4 in a first rounder and eliminated Gary Fitzgerald of Canadian 6-4, 6-2 in the quarterfinals of the 16-player bracket before meeting Wynn.

Holly led through most of the first set before dropping the tie-breaker 7-6. Wynn then breezed through the second set 6-1 for the win.

In the third place playoff, Holly defeated Hix 6-2, 6-2. Howard Moore of Lockney became the regional singles champion by bouncing Wynn 6-1, 6-2 in the finals.

Motorboats listed as Class A (less than 16 feet in length) are required to have a combination light on the bow of the boat with 112.5 degree green light to starboard (right) and a 112.5 degree red light to port (left) and a 360 degree white light on the stern.

FOR ATTORNEY GENERAL

Texans can't afford to pay any more for energy...

More and more of our electric companies have been forced to sign long term contracts with coal suppliers in Wyoming and Montana... Now those states want to levy a 30% excise tax on coal. Mark White believes you should have someone in state government who makes it their business to see that this doesn't happen. As Attorney General he will go to court on your behalf to stop this and other consumer rip-offs. We need an Attorney General who means business.

Select Mark White Attorney General. He Means Business.

**SPEAKS AT BREAKFAST** — A. L. (Dusty) Rhodes, candidate to succeed Omar Burleson as this district's congressman, brought his campaign to Post Friday morning with a talk at a fund raising breakfast in his honor. The Dispatch camera interrupted his conversation with Mrs. Martin Parks of Fluvanna. — (Staff Photo)

**Rhodes has solution for fed bureaucrats**

A.L. (Dusty) Rhodes of Abilene, reportedly leading a large field in the race for Omar Burleson's congressional seat, zeroed in on federal bureaucrats in a talk here Friday morning at a fund raising breakfast in his honor at the Post Community Center.

Approximately 60 persons were on hand for the catered breakfast.

Rhodes said there are 152 separate bureaus in Washington "which have control over our lives." He termed them "the fourth arm of government."

Rhodes declared the government needs to serve the people, not as the bureaucrats would have it—the people serving the govern-

ment. He said the problem of bureaucracy can be "very easily solved" when congress makes all bureaus accountable to congress.

"Congressional review of their work and their regulations are the only answer," Rhodes declared.

Recalling the civil war, Rhodes said that American is seeing division rising in the country again, pitting region against region. The northeast is trying to get more than its share of federal funds and just about everything else, he said.

He pointed out while folks in Post are paying \$2.27 to \$2.40 for natural gas, New Yorkers are paying only 86 cents. Rhodes called this "another problem."

Rhodes also cited the need for a water plan and declared a future crisis is on the way. "The metropolitan states stopped us dead still six years ago in working out the distribution rights to water in the nation's streams," he said.

As for the farmers, Rhodes said, "it is a shame the farmer has to apologize for the right to make a profit." He said the farm problem exists because consumers are running the nation's farm policy and threatening to destroy the very basis of this nation's existence.

He cited a fistfull of foreign policy problems which face the United States today.

He said he found it appalling that the United States today is 37 percent behind Russia in military

support weapons. "We are going to remain free only when we are strong enough to remain free," Rhodes reminded his hearers.

Rhodes urged his hearers to become "participants in our communities, state, and nation."

He said the dignity of the individual and the American work ethic are what built our country. "It's time we start talking and demanding individual responsibilities," Rhodes said. "We must find a new determination. There is a right way and a wrong way to run this country. Let's get back to the basics, which is free enterprise."

Pointing out that America today has the choice bet-

ween a controlled economy and free enterprise, Rhodes pointed out that individual American productivity today is only one half of what it was 14 years ago.

He called today's inflationary spiral "a national emergency" and declared its basic cause was the way American productivity has "gone down, down, down."

Citing today's planned national deficit of \$60 billion, Rhodes declared: "We can't afford the luxury of continually going into debt as a nation. This can be changed when the people are ready to change it. We could balance our budget next year, Rhodes said, citing how he would cut out billions now in the budget.

"I ask for your help," he concluded. "I want to represent you and your community in Washington and do something about these things."

Rhodes flew to Post for the speech and breakfast despite the fact he was in pain from a broken blood vessel in his right eye.

Decisive Choice Of Fellow Lawyers Across Texas

Incumbent Justice T. C. Chadick is the overwhelming choice of fellow lawyers throughout Texas; has been endorsed by the Houston Chronicle, Waco Tribune-Herald, San Antonio Light, Fort Worth Star-Telegram, Dallas Morning News, Dallas Times Herald and many other newspapers throughout the state; by the Dean of the Texas Senate, A. M. Aikin; by Baylor University President Abner McCall; by 10 former Supreme Court Justices; and literally hundreds of informed people throughout the State.

In Texas, we've learned the bitter lesson of voting for a well known name, rather than a well respected and qualified candidate for this highest court position. Let's don't make the same mistake twice.

On Saturday, May 6th, let's return Justice T. C. Chadick to the Texas Supreme Court, Place Four.

**No new taxes. What has it meant for Texas?**

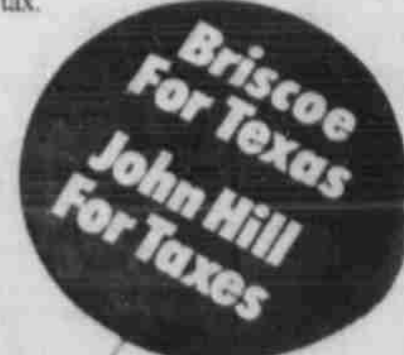

The people of Texas like Dolph Briscoe's kind of government because they are getting more from state government now than ever before, but at the same time, they are keeping more of their hard-earned wages for their own use, rather than paying higher taxes for unneeded or ineffective programs.

But the people of Texas understand this, too: when something needs to be done, Dolph Briscoe gets it done.

- During the Briscoe Administration, we have put two and one-half billion additional state dollars into improving our public schools.
- During the Briscoe Administration, we have increased average teacher salaries 53 percent.

- During the Briscoe Administration, we have put new emphasis on vocational and technical education.
- During the Briscoe Administration, we have increased funding for medical education by 250 percent.
- During the Briscoe Administration, we have increased spending for mental health and mental retardation by 174 percent.
- During the Briscoe Administration, we have expanded programs for the aged by 200 percent.
- During the Briscoe Administration, we have protected our \$35 billion investment in the best highway transportation system in the world by enacting the first comprehensive, long-range highway program since 1955 — and we did it without raising the gasoline tax.

The choice is clear. Do we want to continue with Dolph Briscoe's style of leadership that stands on a solid record of prosperity without big government and without new taxes? Or do we want the kind of John Hill leadership that will promise anything to gain votes? The kind of leadership that will surely result in more governmental interference in your life and a state income tax next year.

My background as a lifelong West Texas resident, family man, banker, businessman and farmer and rancher with oil interests, has given me the knowledge and opportunity to know what bothers West Texans. I feel I can relieve the problems of the 28th State Senatorial District by:

- AGRICULTURE:** Encouraging the marketing of Texas commodities overseas more aggressively by the Texas Department of Agriculture and favoring a priority supply and pricing of fuel used in agricultural production.
- OIL AND GAS:** Working to change the sales tax on all oil and gas from a percentage to a flat rate, thus raising the tax income on oil and gas delivered out-of-state while reducing the cost to Texas consumers.
- WATER IMPORTATION:** Encouraging the acceleration of the two-year-feasibility study of water importation from Arkansas and other regions, later forming a Texas water committee to promote its acceptance, not only statewide, but with the other six states affected by the importation.

The VFW Ladies came and served refreshments to all and honored Nora Ferguson and Iva Sanders on their birthdays. Those who came were Lola Ryan and JoElla Sparlin.

Visitors this week were Esker Stone, Bill Bartlett, Opal Wright, Charles Hoskins, Dessie Hoskins, Patsy Sanderson, Arnold Sanderson, Bruce Sanderson, Jessie Roberts, Mr. and Mrs. R.D. W.E. and Jena Pierce took Mrs. Pierce out Friday for the afternoon and for a fish dinner at her sisters house.

All of us at Twin Cedars will really miss Mrs. Nell Davis. Mrs. Davis was a very interesting person of great dignity and history. She astounded all of us with her stories of her childhood and her family's heritage. Our hearts are with her family at this time of sorrow. Many of us were unable to attend her service in Spur. Billie Caylor and Tricia Metzgar attended and the rest of us send our prayers and thoughts. Until next week...

Wordsworth

This short story appeared in British Weekly. "Principal Rainy, of whom a child once read that she believed he went to Heaven every night because he was so happy every day, once used a fine metaphor about a Christian's joy. 'Joy,' he said, 'is the flag that is flown from the castle of the heart when the King resides there.'"  
American novelist Thomas Wolfe wrote, "There are people who have the quality of richness and joy in life and they communicate it to everything they touch. It is not of all a physical quality; then it is a quality of the spirit."

**'2 SHOW**

THEY'RE BETTING ON YOU!

**VOTE AGAINST PARI-MUTUEL GAMBLING!!!**

On Saturday, May 6, voters in both the Democratic and Republican primaries in Texas will be asked to express their opinions about legalized pari-mutuel gambling. The referendum is reported to be "non-binding", but DON'T BE MISLED!

Unless concerned citizens make it clear to our elected officials that Texans do not want legalized gambling, this "non-binding" referendum could BIND US ALL to organized gambling and its accompanying ills, and repeat a dark chapter in the proud history of our state.

"Do you favor the proposition that the next session of the Texas Legislature should enact a law to permit the pari-mutuel wagering of horse races by local county option?"	FOR	AGAINST
		X

- Experience in Texas and other states proves that an increase in illegal betting and other activities of organized crime follow the legalization of gambling.
- Legalized gambling is not a proper way for the state to raise money from its citizens.
- Organized crime is already taking at least one billion dollars per year out of Texas.
- We oppose the State of Texas giving official approval to any kind of gambling which results in an increased take for organized crime.

**VOTE "NO" ON MAY 6TH!**

We believe this to be a moral issue which affects us all and should concern everyone who hates to see our State (and Nation) take yet another step toward godlessness and lawlessness.

# PLANT CERTIFIED

For Higher Cotton Yields

Yields from certified cotton planting seed were up to 18 percent higher than yields from caught or non-certified seed according to research by Dr. L. L. Ray at the South Plains Research and Extension Center in Lubbock, Texas. Certified seed has not undergone genetic deterioration in the field. Volunteer plants and undesirable cross-pollination are eliminated. And certified seed from Pioneer is free from pests and weeds which often accompany non-certified varieties. See your ginner or Pioneer brand seed dealer for these certified varieties.

**Dependable even in dry country!**

**Certified LX571\***

Cotton growers in Texas, Oklahoma and Eastern New Mexico have relied on certified Lankart 57 for consistently high yields for years. This variety has vigorous plants with short main stems and short fruiting branches. Leaves are large and dense. And this medium-early maturity cotton has storm-proof bolls. Lankart 57 is a good stripper cotton, too. . . . well-adapted to Texas and Oklahoma dryland production.

### Cold front-

(Continued From Page One) Tuesday night. The high Tuesday was only 45 degrees.

A whole lot of additional moisture is needed for good spring planting after a six months drought, but the moisture which has already fallen has brought smiles to almost all residents.

Only 2.44 inches of moisture was recorded here for the first four months of the year, including .24 for April, .33 for March, 1.74 for February and .13 for January.

The rains Tuesday were widespread over West Texas and most of the county received as much or more than Post.

A May snow was reported in the Texas panhandle Wednesday morning.

### Rig damage-

The Justiceburg well site where the rig fell is reported to be "a real mess."

## Junior High School---

(Continued From Page One) islands on Eighth street in front of the school for \$3,000.

The total cost estimate also included \$104,602.96 in renovation of the present junior high building and \$68,087 in a new heating system, which would include \$11,651 for storm windows.

The building repairs include \$2,500 in exterior work, \$11,751.75 for a badly needed new roof, \$14,817.15 for repainting the building, \$1,993.73 for blinds, \$21,538.33 for carpet, \$41,706 for electrical modernization, \$8,336 for classroom insulation and \$2,860 for new ceiling and insulation in halls.

Other portions of the project included in the cost estimate is \$25,447 for rejuvenation of the old junior high gym and \$5,792.90 for rejuvenation of the field house, both of which would be connected to the junior high building via proposed new construction.

Modernization of the gym would include metal roof repair for \$6,960, reroofing two gymnasium additions for \$2,609, replacing 20 windows for \$2,240, repainting 6,960 square feet of deck for \$3,132, \$5,408 worth of new vinyl, \$3,400 for new

ceiling in weight room, \$900 for new dressing room lighting, \$600 for heating weight room, and \$200 for miscellaneous electrical.

Field house renovation would include \$2,386.80 for repainting, \$160.10 for cleaning, \$1,746 for tile, \$1,000 for ventilation and \$500 for renovating the showers.

Hall advised trustees not to divide the junior high project into phase one, new construction; and phase two, rejuvenation of existing facilities, but to combine it all into one contract to save on the construction.

He estimated the work itself would require a full 12 months, and pointed out that additional time would be needed for the firm to complete detailed plans for the project and put the work up for bids.

In coming up with a "master plan for development of Post school facilities" which was presented to trustees in April, Whitaker had first interviewed teachers and administrators in the local system to determine needs.

Hall said in answer to a question from The Dispatch Monday night that the long new proposed corridor extending out to Avenue M would be comprised almost entirely of glass on the south side to attract solar heat into the building which would be circulated to other portions.

Trustees decided at their April meeting to concentrate for the present on the development of the junior high building and had asked Whitaker to come up with more detailed plans and cost estimates for the May 1 session.

The schools have enough funds through surpluses and funds designated for repairs to finance the junior high project.

Jack Lott was elected president of the trustees for the next 12 months, succeeding A. C. Cash in that office. John Boren was elected vice president and Wanda Mitchell was reelected secretary-treasurer.

Prior to the election, trustees canvassed the vote of the runoff school election and swore in the three trustees elected, Charles Morris for the first time and Royce Hart and John Boren who were reelected.

In other actions, trustees adopted the calendar for the 1978-79 school year, and accepted the resignations of Coach and Mrs. Bill Unberhagen and Mrs. La Verne Murphy.

Unberhagen is resigning to return to school to complete work for his degree in physical education.

School will start on Aug. 28 next year and end May 28 with a week's Easter vacation included, April 16-20.

After their Monday afternoon meeting at the junior high, trustees will return after dinner for their regular May board meeting in the board room.

### Long ballot-

(Continued From Page One) rates on loans under \$5,000.

Republicans have two other and different propositions. One is whether votes favor the next session of the legislature enacting a bill to provide for the election of the delegates to a political party's national nominating convention by the voters in that party's primary. The other whether or not voters favor the Texas legislature proposing a constitutional amendment to place a limit on the amount of taxes which can be levied by the state and local governments.

The Democratic primary ballot is a long one, some 27 inches in length and contains some 15 contests for state and county nomination, not counting voters in commissioners Precincts 2 and 3 who have county commissioner contests. There are also 13 uncontested nominations on state and county ballots and another for precinct voters.

The Democratic ballot, from top to bottom, in contests only includes:

He became junior high school principal his second year as head coach and then left coaching for full-time administrative duties.

He served as junior high principal for five years being succeeded as football coach and athletic director by Bobby Davis.

Hahn became high school principal three years ago. Retirement as a teacher under Texas rules requires at least 30 years of teaching and a minimum age of 55. Billy is 57.

Hahn also told The Dispatch that one reason for his resignation was that he "is not feeling in top physical shape" but refused to comment further on the subject.

"I like Post and the people in Post," Hahn told The Dispatch. "My resignation is not because of any problem." He added he felt it was time to make a major adjustment in his life.

**DON WORKMAN**  
STATE SENATE

A WORKMAN For The People of West Texas Wants YOU to Know... Where He Stands On The Issues...

Dear Voter:

As a lifelong West Texan, I know the problems facing the 28th State Senatorial District. Like many of you, I am a family man, businessman and farmer and rancher with all interests. Because of my knowledge and background in this area, I feel I can relieve the problems of West Texas by:

**OIL AND GAS:** Introducing a bill prohibiting the sale of any oil and gas produced on state land from being sold to out-of-state consumers, thus raising the income of the state and making more oil and gas available to consumers within the State of Texas.

**GOVERNMENT INTERVENTION:** Aggressively defending the Texas right to self-government and insisting on the Attorney General's 100 percent effort to stop the encouragement of federal authority over state and local jurisdiction.

**EDUCATION:** Supporting an increase of career teachers maximum salaries while working to increase retirement benefits of those currently teaching, thus attracting and keeping highly competent educators in our classrooms.

As your State Senator I will work toward these ends--and many others which I will outline later--to give West Texans the independence and protection each of YOU deserve.

So if you call Saturday night - hang up. Please!

Remember the vote will be slower this time because of the long Democratic ballot and we may be close to midnight before the county is complete. For this reason, The Dispatch won't open for "result giving" until 8 p. m.
