If you have not been attending the Methodist meeting then you have missed the splendid sermons of Rev. O. B. Herring of Post. Saturday evening the children gathered for their first meeting of the children's choir, with Bro. E. C. Armstrong as leader.

The Baptist church announces its summer-revival dates as Aug. 6-15 with Rev. Thomas Cobb of Summerville as evangelist. The pastor, Rev. O. E. McGaw urges you to worship with them in every service. The church has recently purchased new hymn books which they hope will contribute much to the success of the meeting.

The Church of Christ will have a revival following the one held by the Baptist church, but, as yet, we have not learned who will do the preaching.

Sunday the New Hope Baptist church closed a four-day meeting. Their fund for purchasing a church building is growing.

Mr. and Mrs. C. C. Coleman and children, accompanied by the Chester Swope family, also of Wilson, came Sunday evening to visit her brother, J. B. Henslett.

Jack Haire of Hackberry is visiting his uncle, Hub Haire and wife and aunt, Mrs. Harvey Stotts and family.

Helen Becker left Friday for her employment in Seagraves, after spending the week here with her parents.

The Methodist church had a supper and ice cream social at the church last Tuesday night and a good sized crowd attended. Mrs. Herbert Dunn had charge of a Bible quiz and games.

Mr. and Mrs. Wilburn Harris and son of Sterling, Okla., arrived Thursday to spend several days with his brother, J. C. Harris before continuing to California to visit their daughter.

Tuesday visitors of the J. T. Simmonds were Mrs. Gladys Haggood and daughters, Mrs. M. L. Gibbs and husband of Phoenix, Arizona.

When there was a case of infantile paralysis across the street from them in Fort Worth, E. S. Barnhill quit his job at Consolidated Airtart and moved his wife and five children to West Texas. They moved to the house west of Christ Gindorf.

Who are non-essential travelers?

You are the judge of whether or not your trip is essential—and your judgment is what our government is relying upon.

Please consider these points when you think of traveling on the railroads this summer and for the duration:

1. Your trip may take a Pullman berth or chair car seat needed by men in uniform traveling under orders.
2. Your trip may delay war workers, not in uniform, in reaching their vital jobs.
3. Your trip may deprive men and women in the service of a furlough trip to visit their homelocks. If you do take a trip, plan for it in advance, travel light, consider taking a box lunch to avoid delayed meals in the diners, and make up your mind to put up with certain inconveniences and crowded conditions.

WHAT ABOUT VACATION TRAVEL?

Vacations should be spread out over the year, not confined to summer months.

A vacation trip should be confined to one round trip only, starting and returning on Tuesday, Wednesday or Thursday.

Travel in chair cars whenever possible, and please carry only one piece of luggage.

Consult your Santa Fe Agent about your travel plans. You'll find his friendly advice helpful.

Rural Women To Meet In Dallas August 17 to 19

Rural women who are fighting the Axis with war bonds, pressure cookers, and shovels will report their progress at a war-time convention of the Texas Home Demonstration Association scheduled in Dallas August 17-19. "The Battle on the Home Front" will be the theme of their meeting.

Plans for the convention were made at a recent session of the executive committee held in Dallas. Executive members predict that approximately 300 delegates of the Association's 48,000 will come to share their ideas, despite the pressure of work on the farm and in the farm home.

In Europe, was so out-of-date it sounded odd. He was advising his wife to keep their infant son, Billy, in the hospital when he has been at home six weeks and improving so rapidly that most of us had forgotten he had pneumonia.

Corporal Manuel Reyes spent the week end at home, the first visit since their three-weeks quarantine at LAFS as a preventative against infantile paralysis.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

ARE YOU GUILTY?

We depart from our time honored custom of printing any poetry to give our readers the following sermon by parody on our national anthem. Clipped from an exchange paper we feel free in publishing it here as it contains a moral lesson so powerful in it. It is 99 out of every 100 Americans we know, in fact, at the moment it hits everyone we know. Let us correct ourselves on this point and do it now.

Oh, say can you sing from the start to the end,
When orchestras play it;
When the whole congregation, in voices that blend,
Strike up the grand tune and then torture and slay it?
How valiant they shout, when they're first starting out,
But "the dawn's early light" finds them floundering about.
Tis "The Star Spangled Banner" they're trying to sing,
But they don't know the words of the blessed old thing.
Hark, "The twilight's last gleaming" has some of them stopped,
But the valiant survivors press forward bravely,
To "the ramparts we watched," when others were dropped,
And the loss of the leaders is manifest soonly.
Then "the rocket's red glare" gives us the bravest a scare,
And there's fear left to face "the bomb's bursting in air."

ALL POWERFUL

"There is one common characteristic of all totalitarian states no matter by what name they are called," says Edwin Vennard. "The government both operates and regulates business enterprise. When . . . management of the machinery of production is thus vested in the government, the manager becomes his own regulator—he becomes his own auditor, so to speak—on no opportunity is afforded for considering the interest of the people. Under such a society any complaint against the manager can be registered only with the manager. No impartial consideration is possible. The economic freedom of the people is lost. Once this is lost, the loss of other freedoms is a most natural consequence."

All growth depends upon activity. There is no development physically or intellectually without effort, and effort means work.
—Calvin Coolidge.

Views of Neighboring Editors:

The Slator Stationer.—It is the season of the year when it is dangerous to go home and equally as dangerous to look around town. In other words the coming season is on hand and the larger the amount of capable staff you may have coaxed out of the soil, the more dangerous it is to go home. For when you do, you will have to tighten the tops on just at many more jars;—our wife

will have every spoon, pan, saucer and plate on the place all gummed up with jelly, tomato juice or potlicker from the beans, the sweat will be dripping off the end of her nose, her temper will be shooting lightning, the dog will be way back under the bed and any critical remark will bring down the roof and a threatened divorce suit.

This is just a warning to those who have been petting the potatoes. Speak tenderly, always keep near a door and if the worst comes to the worst, just knock her down and run.

The Haskell Free-Press.—"The Four Freedoms"—You've all heard of the four freedoms—freedom from want and fear, and freedom of worship and speech. These four freedoms apply to farm people as much, if not more, than to any other group in America. To farm people, the land by which they earn their living is more than a place to make a living; it is a way of life. To them, the land itself through its productivity, means freedom from want. The land, so long as it is theirs, means freedom from fear. The way of life on the farm also signifies the freedom to worship and spend as they wish. To keep their land and keep it productive so they can have prosperity and happiness, is the freedom farm people want. All other things depend on that. That's why farm and ranch people are investing all they can in War Bonds—to help win the war and build financial reserves to keep their land and their farms productive in the future. That's why they're also investing in War Bonds to pay for education of the children, illness and hospital bills, and to buy farm and home equipment. Help keep the four freedoms on your farm by investing all you can in War Bonds. Order your War Bonds from your bank, postoffice, production credit association, merchant, rural mail carrier and radio station.

The Woman's Angle In The Lubbock Avalanche.—If your heart is really in your work and you make every minute count, if you don't complain about the sacrifices, great and small, all of us make to win this war; if you kill a rumor before it gets started in its dirty work; if you're more interested in fighting Nazis and Japs than your neighbor—then you're a real American and a person worth knowing!

The Lynn County News.—We are aware that most newspaper men are in favor of Government-aided advertising, and we guess it is unpopular with the fraternity for any of their number to oppose it, but we think we see grave dangers in it and we at least must advise caution.

The Lubbock Avalanche.—This, the second World war in a quarter century, should teach us never again to pussyfoot when Germany begins to goose-step.

Lauritzen-Moudy Wedding Held In Ft. Worth Saturday

A wedding of interest to friends here was that Saturday of Miss Lucille Lauritzen and Rev. James M. Moudy of Belton who until recently was pastor of the First Christian church here.
The wedding took place at the First Christian church in Fort Worth at 8:30 p. m. with a reception afterwards at the home of the bride's parents, Mr. and Mrs. A. W. Lauritzen, 2306 Lorraine Court.
Miss Gwen James played organ selections, "Ave Maria," "Pania Angelicus" and accompanied Pvt. Melvin Dacus, who sang "O, Promise Me." The church was decorated with palms and greenery, pink gladioli and giant asters, with pink tapers in tall candleabra. Rev. Paul E. Kennedy read the double ring ceremony.
Mrs. R. L. Smedley, sister of the bride, was matron of honor. Misses Mary Virginia Scott and Sue Hartwell, bridesmaids, wore pink lace and net gowns and carried bouquets of small pink asters, daisies, carnations and blue feverfew. Mrs. Smedley, who carried an identical bouquet, wore a white marquisette gown trimmed with Chantilly lace. Pfc. George C. Moudy was best man and ushers were Messrs. Hugh Baker, Bill Lauritzen and Private Dacus.
The bride wore a white evellet embroidered frock made with a sweetheart neckline, leg o'mutton sleeves, with a triple-tiered illusion veil which fell from a pearlized orange blossom cluster. Her shower bouquet was of gardenias, carnations and stephanotis.
The bridal couple will live in Belton, where the bridegroom is pastor of the Christian church. The bride's going-away suit was a brown gabardine, worn with tan accessories, and a rhinestone and zircon pin, a gift of the bridegroom. Both young people attended Texas Christian University, the bridegroom having been a May graduate. He was president of Alpha Chi, national scholarship society and of Pi Gamma Mu, national honorary social science fraternity.

"Bill Jack vs. Adolf Hitler" Is Latest March Of Time

This month's March of Time tells the amazing story of the Jack & Heintz defense plant in Cleveland, Ohio—a unique factory where there are no time clocks, no employees—only "associates"—no strikes or absenteeism, and yet production records have won the Army-Navy "E" for excellence. It shows next Wednesday and Thursday at the Garza theatre.

Millions of Americans have read in Life and other periodicals about the Jack & Heintz sweater girls, the humiliating "wolf-call" for latecomers, the country club atmosphere and the benefits conferred on workers—free health care, special shoes, free vitamins, hot meals, vacation communities, and insurance. They will see all this on the screen, as well as the amusing "Train For Berlin" and the Hula Dancers.

Every wage-earner, man or woman, and every employer will be interested in this entertaining film about a money-making plant where a former union official is working out a new theory of labor management cooperation.

Philippine Ship Eludes Japanese

The Philippine vessel Dona Nati arrived in Manila Harbor outbound from San Francisco on December 6, 1941, and thereafter led a hide-and-seek game with Japanese surface ships, submarines and airplanes.

The master of the vessel, Capt. Ramon Pons, got orders to take leave of Manila and sail for Brisbane, Australia, where he was to pick up a cargo of food and medicines for the distressed residents of the Philippines. He threaded his way out of the harbor by the light of the burning naval vessels at Cavite. His chart of the mine field indicated that he could get through only by the most accurate maneuvering. He made that trip safely. A Norwegian ship following him struck a mine and was destroyed.

By the time he had loaded his supplies at Brisbane, the Japanese had extended their tentacles far east, into the Coral Sea. Capt. Pons was forced to take a circuitous route toward the Fiji Islands and thence westward toward the Caroline Islands. He made Cebu, discharged his cargo and learned that a Japanese cruiser was waiting outside the harbor. He got away shortly before the cruiser began shelling installations.

Outside the harbor, Captain Pons sighted a camouflaged vessel which he could not identify. He learned that it was an Australian freighter aground. Capt. Pons tried to pull it off but failed. A Japanese observation plane spotted the Dona Nati.

On another day, the Dona Nati sighted a mother ship refueling two submarines, which immediately made crash-dives in the direction of the Philippine vessel. Capt. Pons evaded them but again he was spotted by an observation plane. He threw off that ship by pretending to head for the Japanese naval base at Turk. The Japanese never succeeded. The ship then turned south again, skirted the Solomon Islands, sailed southeast to the Fijis before turning westerly below New Caledonia and thence into Brisbane.

Mrs. Roy James Of Cross Roads Sends In Popular Recipes

The following pickle recipe is one of the most popular recipes used by Mrs. Roy James of Cross Roads and she is passing the recipe on to others who are interested in canning pickles. "Many people ask me for this recipe each week and I can truthfully say it is one of the finest I've ever used."

13-Day Cucumber Pickles

2 gals. fresh, firm pickling cucumbers
10% salt solution to cover (2 2-3 cups salt to 1 1-2 gal. water)
1 oz. alum
2 qts. vinegar, not too strong
3-4 qt. water
8 cups sugar
2 tbsp. whole mixed spice
1 tbsp. whole celery seed
1 tsp. whole allspice
1 box stick cinnamon

1st. day: Wash cucumbers, drain thoroughly. Cover with salt solution (which will float an egg).
2nd. to 7th. days: Let pickles stand, removing scum and stirring about every other day.
8th. day: Drain, cover with boiling water, let stand.

9th. day: Drain, cover with boiling water to which alum has been added.
10th. day: Drain, cover with boiling water, let stand until cold. Drain well, then cover with a hot syrup made of vinegar, water, spice tied in a bag and only 2 cups of sugar.
11th. day: Drain off syrup, add 2 more cups sugar, heat, pour over pickles.
12th. day: Repeat.
13th. day: Repeat, adding 2 cups of sugar, only this time pack pickles in jars, add syrup and seal.

Another popular as well as extra good recipe that Mrs. James uses every year is the Sandwich Spread recipe below.

Sandwich Spread

1 pt. ground green tomatoes
2 sweet red peppers ground
2 green peppers ground
1 tsp. salt
1/2 doz. sweet pickles chopped
2 tsp. flour
1 cup sugar
2 tsp. prepared mustard
1-2 cup vinegar
1 cup sour cream
3 eggs beaten

Grind fresh vegetables, add salt, let stand about an hour. Drain off all juice, add a half cup of fresh water and cook 20 to 30 minutes, when liquid should be evaporated. Add chopped pickles. Combine starch and flour, mix with other ingredients and add. Bring to a boil and cook just to thicken. Seal.

Mrs. James cans and preserves a large amount of food-stuffs every year and this year is making plans to exceed her record and to reach an all-time high by the time the canning season is over.

Miss Lucille Collier left this morning for Springfield, Mo., where she will visit with her brother, Bolitho, who is stationed there.
