## K. T. Lofton Now In The Army

K. T. Lofton, son of Mr. and Mrs. S. D. Lofton, is now in the United States Army. He is a member of the Engineering Division and has been in the service two weeks. He was inducted at El Paso. He has been with the Government Soil Service for seven years and served as soil technician. K. T. formerly lived in Post and was a student of Post High school.

## Graduates From Primary Flying School

Lt. W. L. Wood, Jr., the son of Mr. and Mrs. W. L. Wood, graduated from Primary Flying School at the 9th Army Air Force Flying Training Detachment, Ft. Stockton, Texas and will be sent to a Basic Flying School to continue his training.

The 9th AAFSTD is located near Ft. Stockton, Texas, a city well known to the pioneers of the southwest part of our country.

## Captain Kahler Returns From Australia

Captain Glenn Kahler who has been stationed in Australia and New Guinea for fifteen months arrived here last week to join his wife and baby. Captain Kahler is with the Medical Division of the Air Corps and was sent back to the United States to take a special Flight Surgeon course. He will begin work at San Antonio about April 26. The course will continue for three months and perhaps longer, it is understood from members of the family. The Kahlers left Thursday and will visit for several days with his parents in Bonham county. Mrs. Kahler and baby have been making their home in Post since Captain Kahler sailed. They stored their furniture here temporarily.

A cablegram was received here about two weeks ago by Mrs. Kahler that her husband was returning to the United States.

## Pvt. Harold Caffey Wins Medals During First Week's of Training

Pvt. Harold H. Caffey, son of Mr. and Mrs. Walter Caffey, Sr., of Camp Roberts, Calif., says he likes the army fine. Pvt. Caffey entered service Oct. 9, 1942 and was sent from Ft. Sill to Camp Roberts. He finished his 13 weeks basic training Jan. 23 and won two medals, a marksman medal on the rifle and also a marksman medal on the Browning automatic rifle. He was made instructor on line engines but later was promoted to instructor in six thousand mile check-up on all motor school trucks. Mrs. Caffey and little daughter, Janis Marie, left Post March 8 to be with Mr. Caffey. Mrs. Caffey, the former Kathryn Loyd, is the daughter of Mr. and Mrs. T. A. Loyd of Post.

### Southland Boys In Service

James Becker, S. 3/4, is now serving on land somewhere in the Pacific. He writes that the people there treat them better than they were treated in the States.

Seaman Leon King of Evanston, Ill., writes that he has passed two tests—for aviators and submarine crew, but he is too tall for an airman.

Pfc. Ralph C. Cockrell of Sheppard Field, Wichita Falls, had as visitors last week end his mother, Mrs. Vera Cockrell and daughter, Mrs. R. H. Smith of Pleasant Valley, and his brother, Fred Cockrell and wife of Morgan.

Charles (Red) Dodson, who is now stationed at Camp Rucknagel, Ala., now is private first class.

### Hulen Harrison Visits Here

Staff Sergeant Hulen Harrison of Florida visited his mother, Mrs. G. A. Thomas, last week. Harrison who has been in the army since January a year ago is a bombardier instructor. He left Monday for his camp.

### Receives Commission

Shelley E. Camp of Post was commissioned a second lieutenant in the Army of the United States April 17 upon successful completion of the Officer Candidate Course at the Infantry School at Fort Benning, Ga. Lt. Camp is the son of Mr. and Mrs. W. B. Camp of Palacios, Texas, and is the husband of the former Frances Lee Duckworth of this city.

The new lieutenant enlisted into the army on Aug. 5, 1942 and received basic training at Camp Wolters, Texas, before going to Officer Candidate School three months ago. He held the rank of Corporal before being commissioned.

At the Infantry School, world's largest institution of its kind, the local officer took a three months course to fit him for his new responsibilities. The course covers the technique of handling all the varied modern infantry weapons and tactics of leading small infantry units in combat. It also includes study of many varied subjects which future officers must know along the lines of administration, military law, etc.

Lt. Camp will leave today for Camp Wheeler, Ga. after visiting here since Monday.

### Walter Caffey, Jr. Promoted

Walter C. Caffey, Jr., of Bryan, Texas, has just been promoted to private first class. He is the son of Mr. and Mrs. Walter Caffey, Sr., of Post Pfc. Caffey volunteered into service on Oct. 20, 1942 and was placed at LAFS, Lubbock. He is mail clerk in the 301st Orderly Room and likes his work and the army fine. Mrs. Caffey is with her husband at Bryan. She is employed by Woolworth. She is the former Marjorie Pettigrew, daughter of Mr. and Mrs. Elmer Pettigrew of Justiceburg.

### Captain Dalby In Omaha

According to his father, L. W. Dalby, it was learned here that Captain Arno Dalby is now stationed in Omaha, Nebraska. Dalby has been in Denver for over a year and recently completed a 6 weeks training course in California. It is understood that he will not remain in Omaha for a very long period. Mrs. Dalby who has been visiting in Denver returned to Post last week.

### En Route To Hawaiian Islands Captain and Wife Visit Here

Captain Jimmie Williams, son-in-law of O. B. Kelly and husband of former Post girl, Peggy Kelly, was a visitor here last week end. Williams who has been in Fort Sill for six weeks taking a special liaison pilot's course of the Field Artillery, is en route to the Hawaiian Islands where he has been stationed for over a year. He is with the reconnaissance group. Peggy joined her husband in Oklahoma two weeks ago and before returning to California they have been visiting her father since Friday. They left Monday afternoon. Captain Williams will fly back to the islands soon.

### Stationed At Great Lakes, Ill.

Great Lakes, Ill.—After a series of aptitude tests and a personal interview given him during "boot" training to attempt to place him in the type of work for which he is best qualified in the Navy, James B. Harvin, 21, son of Mr. and Mrs. J. J. Harvin of Post, has been assigned to the service school for Gunner's Mates at the U. S. Naval Training Station here.

### Howard McCampbell Now At Sheppard Field

Sgt. Howard McCampbell has been transferred from Miami Beach, Florida, to Sheppard Field in Wichita Falls. Mrs. McCampbell, the former Betty Dent, will go to Wichita Falls Sunday to visit her husband and they will observe their wedding anniversary.

### Mack Dinwiddie Visits Parents

Sailor Mack Dinwiddie was a Post-visitor last week. Mack is the son of Mr. and Mrs. E. K. Dinwiddie. He has been in the service five months and is now stationed in Farragut, Idaho, where he is taking some special work in gunnery.

### Lewis Nance Is Now Stationed In New Guinea

Letters are being received here by Mr. and Mrs. Elton Nance from their son Corporal Lewis Nance who is in New Guinea. Nance is with a group of research men from the medical corps who are making a malarial survey of the New Guinea area.

Pfc. Harvey Gilmore of Garden City, Kansas visited here recently.

### Wagoner Johnson Visits

Pvt. Wagoner W. Johnson has been transferred from Salt City, Utah, to Clovis, N. M., visited homefolks on a pass and returned to camp Tuesday morning.

## The Command has Come— "Attack!"

**Looks Like New!**  
**Looks Like New!**

Loan Drive, which started April 12th, is the most urgent appeal America has ever made!

**The time is short—act now!**

When you attack with War Bonds you don't suffer pain or any harm—you don't risk your limbs or your life... millions of our boys are doing every day. All you do is make an investment—the safest in the world. You help to secure Victory now—and your own financial security.

During this drive if you are visited by a volunteer War Bond worker, welcome him. He will explain the 7 different types of U. S. Government obligations you may choose from. But don't wait for his call—go at once to your nearest bank or Post Office or place where they sell War Bonds. And answer the command to ATTACK by buying more War Bonds—and still more War Bonds!

NOW the command has come on the home front to attack! To attack with the dollars that buy the weapons of war our boys must have to meet the last desperate assaults of Hitler. Your government asks you to lend it 13 billion dollars during this drive. And this historic 2nd War

**ACID—not speed—may "burn up" your engine now!**

You don't go "tearing off" the miles, and you hate tearing off ration coupons, too. You'd think your low speed and mileage would almost do away with engine wear. But the products of combustion—always hanging back in the cylinders after stopping—contain acids that nibble at metals!

Engine acids are nothing new, only they couldn't do their worst when interrupted by frequent use of your car and fast driving, instead of staying in your inactive engine for days. Short, slow, infrequent runs don't help much to clean acids out. So now when you're not even sure of getting any needed replacement parts, make sure you muzzle acids as well as you can, by keeping your engine's insides OIL-PLATED.

You know of plating being used to resist such corrosion as rust, for instance. And to resist acid corrosion, have your engine OIL-PLATED—quickly—simply—economically—by changing this Spring to Conoco N<sup>th</sup> motor oil—patented. It includes a great advancement in synthetics, invented to maintain OIL-PLATING up and down your engine's insides, during many hours or days when such resistance against acid can help. Your Spring oil change is a "must," but the worst acid effects are not—not when you get Conoco N<sup>th</sup> motor oil. Continental Oil Co.

### THE GULF GROWS WIDER

The question of whether our country will be able to survive the cost of the war without financial collapse, looms larger daily. In ordinary times a two or three-hundred-billion-dollar debt would have been considered insurmountable. But when a nation has its back to the wall, it can often accomplish the impossible. We now have our backs to the wall financially. It remains to be seen whether the people value personal comfort more than they value personal liberty and the integrity of the nation.

Inflation and eventual bankruptcy can be avoided if the people have the determination to follow through on measures designed to curtail excess purchasing power and the accumulation of an unmanageable public debt. In the main, these measures are rigid price controls and rationing cuts in non-essential government

### "REGULATORY" ARMY NEEDS TRAINING

If it were not tragic it would be humorous to see how all at once the powers-that-be in Washington have awakened to the fact that farming is an essential industry.

Those who are writing the regulations for farmers should have more practical knowledge of the sources of food supplies than is furnished by Washington restaurants.

Leading dairy organizations have long pointed out what was pending, taxation, and bond sales to the people. Except for rationing, we have adopted none of these measures fully as yet.

Too many people and public officials cling to peacetime illusions. They are even so foolish as to plan greater comforts in the future, assuming that they can skip the gulf of sacrifice that lies between. The gulf grows wider as they talk.

### GUARDING A POWDER KEG

More than a year before Pearl Harbor, oil company executives, engineers, and safety supervisors were faced with the problem of protecting oil against attack, principally sabotage. The task before them was akin to guarding an open powder keg in the midst of a forest fire. Included in the physical plant of the oil industry are 300,000 bulk storage plants and terminals, nearly 500 refineries, nearly 700 natural gasoline plants, and 70,000 miles of trunk pipe lines. Obviously it would have been impractical to secure the necessary steel and other strategic material for fencing, lighting and guarding the entire facilities of the oil industry. Consequently efforts were concentrated upon key plants or plants which might constitute a source of fire exposure to other defense industries.

Employees were fingerprinted and required to prove citizenship. They were investigated to determine the nature of their activities and associations prior to employment. Badge and card identification systems were established. Guard forces were enlarged and trained for wartime conditions. By fateful December 7 the oil industry was prepared for war.

The complete record of American industry in the war effort will never be compiled. Its achievements and praiseworthy actions are too numerous to record. But they all add up to one fact—private enterprise does not let the nation down, in war or peace.

going to happen to our milk, cheese and butter supply. Maybe if a few of the white-collar boys in Washington had had to shovel manure and milk cows for three months as training for their regulatory jobs, there would be more dairy products today.

### Views of Neighboring Editors:

**The Slaton Slatonite**— All my life I have been expecting things to level off and get just right. In other words, to reach that point where they are normal, but as far back as I can remember, we have been going through a depression, a boom or the President and the Congresses have been trying to ward off one or the other, but it seems now that I can sit back and rest easy, for all the Women's Clubs, the churches, the High school students, the Rotary clubs, the Ex Ambassadors and Congress are working out "after the war peace schemes" that will give everyone an ample supply of everything, and I am looking forward with trepidation to the millennium that is teetering on unsteady legs as the world battles its way through this time.

**The Scurry County Times**— If you have observed closely during the past few weeks, you will notice that older men in Scurry and adjacent counties are making a decided comeback, in that they are taking up where younger men called to arms left off civilian activities.

"Why, us older men hadn't given up at all," one typical country squire stated Saturday, "we had 'kinda' been neglected the past few years and bided our time to prove we could still turn good work in almost any field of endeavor. We merely needed to be called upon to do a definite job."

Older men, in taking the lead in farm, ranch and professional work, will have a steady influence on business that will keep this area stable until normal conditions return—and younger men can again pursue peace-time occupations.

**The Texas Spur**— Housekeeping in the Army is done in a big healthy way. But its purpose is the same as housekeeping you and I do; to keep men comfortable and healthy and well fed. It isn't the man job of the Army, of course, but it's essential. You know what happens to soldiers cut off from their supplies and you know what happens when your own men come home to a cool, dark house with no food in the kitchen. So chin up and snap to attention, if your job is housekeeping! It's vital work these days and stands behind every man and woman on our vast war production line just as the Quartermaster Corps stands behind every man at the front.

**The Dallas Morning News**— Remember Them!— Remember Java where a Texas soldier prayed for the sight of just one American plane while Japanese Zeros and dive bombers were dropping death and destruction all around him?

Haven't heard from him since then. His people hope that he's a prisoner of the Japs, as horrible as that may be.

Maybe you have a son, a brother, a friend on some battlefield. Don't force him to utter the same prayer.

Planes, tanks, guns, ships. Our boys must have them. They will lose without them.

It takes money to make them. Your money.

You can lend that money to the government and get it back with interest in ten years.

If you hang on to it and we lose this war your money won't be worth much anyway.

Buy a war bond today. Do it as often as possible. You can't lose and it will help win the war.

Stopping unnecessary food wastes at home has become much more than a matter of family thrift.—Bureau of Home Economics.

In all civilized countries musical symbols are the same.

# America's Food Emergency

A Statement by Santa Fe

United States facing most critical "crop year" in its history.

During the coming months, the need for more food may be greater than the need for more guns, tanks and planes.

Serving, as it does, "the breadbasket of America," the livestock and meat industry, and the great fruit and vegetable areas of California and the Southwest, Santa Fe pledges its all-out effort in the production and mobilization of food.

**What Santa Fe Is Doing**  
Santa Fe employees are planning Victory Gardens along their railroad's 13,199 miles of right-of-way.

Everything that rolls on the Santa Fe is being kept in fighting trim.

Old cars with good running gear are being rebuilt into sleek new gondolas.

Many Santa Fe refrigerator cars that used to go back "dead-head" now hurry back loaded with other freight.

Cars are few and hours are precious. Every hour a freight car stands idle holds back food or other vital war freight from folks who need it. Every unused cubic foot squanders vital space.

The supply experts of the Army and Navy, the ODT, and the Interstate Commerce Commission Bureau of Service are all focusing on this problem.

**How Shippers Are Helping**  
Shippers are helping and can continue to help (1) by maximum loading; (2) by quicker loading; (3) by quicker unloading.

More than 57,000 Santa Fe folks join with the farmers, the livestock producers, the shippers, and the consumers of all America to help meet the greatest food crisis our nation has ever faced.

### They're On The Job, Too!

For years the Agricultural Development Department of Santa Fe has cooperated with growers all along the line, for greater production per acre, through better seeds and better cultural methods. For example:

The people of the middle Rio Grande know how the desert has been converted into paying crops.

The folks in Blue Water Valley of western New Mexico know how the production of vegetables has increased from 86 to 1076 carloads in the past three years.

The potato growers of Kern County,

California, know how Santa Fe cooperated in stamping out ring rot and blight.

This year, the people in the Texas Panhandle are bringing in their first harvest of waxy kaffir which promises to produce the starch for tapioca and other important products that formerly came from the cassava roots of Java.

In the present national food emergency, these people of Santa Fe's Agricultural Development Department are working harder than ever, doing everything they can to help food growers all along the line.

Fannie Faye Porter
to Marry Lt. Henslee
of Dallas-May 21

To announce the approaching marriage of Miss Fannie Faye Porter of Colorado City to Lt. Milton H. Henslee of Dallas, Mes-

ses W. W. Porter and Bryan Porter entertained with a breakfast in the home of the latter on Sunday, April 18 at 9 o'clock.

As the guests arrived, they were seated to register in the white leather bride's book, and in return for their signature, were given a pair of silver glider wings which revealed the wedding date, May 21.

At the bridal table was a miniature airport flanked with gliders, and displaying the glider wings in V formation. A low bowl of tidal wreath and corn flowers completed the decorations on the table.

The guests were served a delicious two course breakfast at tables for four. Each of these tables was centered with a white center lily.

About twenty guests enjoyed the affair. Out-of-town guests were the honoree's sister, Memphis Porter of Amarillo, and Misses Jean Duff and Maxine Durrett of Fort Worth.

Miss Porter attended North Texas State Teachers College at Denton and has been teaching in Post this year.

Lieutenant Henslee attended Baylor University at Waco and was graduated from South Plains Army Flying School in Lubbock March 15. He is now in command training at Bowman Field, Louisville, Kentucky. The wedding ceremony will be performed in the chapel at Bowman Field.

Verbena Folks
Engaged In Varied
Activity Program

A community "42" party was given recently at the Verbena school under the direction of Miss Virginia Elliott. A variety of games were enjoyed and places at tables were arranged for twenty-four players. A business meeting of the trustees of the school preceded the game hour. At the business meeting Miss Elliott was re-elected principal of the school.

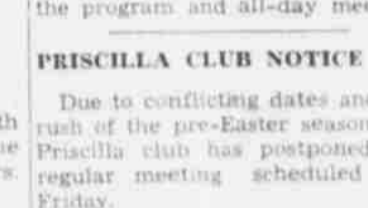

Miss Elliott honored two graduating students at her home two weeks ago with a delightful party. The honorees were Miss Wanda Williams and Miss Veta Davis. They will graduate from Post High school on May 14.

On Sunday the Verbena church will hold the annual all-day Easter program. Every family in the community that takes part in the service will bring a basket dinner and will enjoy the all-day affair together. Mrs. Bruce Taylor and Miss Willie Jo Lucas will have charge of general arrangements for the program and all-day meeting.

PRISCILLA CLUB NOTICE

Due to conflicting dates and the rush of the pre-Easter season, the Priscilla club has postponed the regular meeting scheduled for Friday.

### "Who Done It?" At Garza Theatre Sunday - Monday

Bud Abbott and Lou Costello are at it again, spreading hilarity with their eighth comedy for Universal and their ninth since they created a celluloid earthquake with "Buck Privates."

Their new laughfilm is Universal's "Who Done It?" showing Saturday night 11:30, Sunday and Monday at the Garza Theatre.

All this talk about the boys making too many pictures, and thereby recklessly spending their box office value, seems to be just that—talk. Their funny faces and zany dialogue keep the audiences rocking day after day without apparent let-up. And, as the fellow with nine pretty daughters is marked, you can't have too much of a good thing.

The current film is a howling travesty on murder-mystery dramas and the cast includes Patrick Knowles, William Gargan, Louise Allbritton, Jerome Cowan, and a host of other Hollywood favorites.

#### Point Values Lowered

Because some perishable meat products were moving very slowly OPA reduced by one or two points the ration values of sausage (including wieners, bologna, pork sausage), scrapple, chitterlings, and pork neck and backbones. Dry and semi-dry sausages—such as hard salami, hard chivalat, pepperoni, soft salami, chorizo, and mortadella—were not affected by the action.

### Social Security Cards Should Be Safeguarded

"Every time an American worker loses, destroys, or mutilates his social security account card, he is wasting as much money as it costs to provide thirteen bullets to an American soldier," John Palmer, manager of the Lubbock Social Security Board field office said today. He asked that holders of social security cards safeguard them as a wartime conservation measure.

"Don't carry your card with you unless you must. Put it in a drawer, safe, or other place where you keep valuable documents. Know where the card is. Before putting it away, place it in an envelope and mark it: 'My social security card.' Then you will be able to find it in a hurry, if necessary."

"If you change jobs frequently, and need to carry your card with you, don't just stuff it in a pocket. Try to protect it against loss, wear or mutilation. Never keep your card in your overall or shirt pockets. Many losses occur because the shirt or the overalls—together with the card—are tossed into the laundry tub."

Mr. Palmer also warned against using the card for identification purposes. He said the card is not only useless for identifying persons, but such use results in wear and tear and shortens the life of the card.

### Price Standards Set On Hosiery On April 15th

Here is something we've long wanted—price standards wedded to quality standards for our stockings. We know we've been having difficulty with our hose since silk stopped coming from Japan and nylon went to war for the U. S. A.

Manufacturers have done a heroic job in trying to please us with rayon hose but to most, rayon was a new material. They have learned a lot about how to use it and now we can get rayon hose far more attractive and serviceable than those we had in 1941.

But prices have been a headache. The General Price Regulation says, "charge the same as you did in March 1942 for the same or similar merchandise." But rayon hose today are quite different from the hosiery of last year.

OPA felt that something needed to be done about both prices and standards, and set about doing it. Manufacturers, consumers, retailers, textile specialists and many others were consulted. It was decided that there should be regulations.

The regulation is in effect as of April 15. In general the reductions in the price of hosiery will amount to from 5 to 40 cents a pair. This does not mean that every pair of hose you now buy will cost less than before April 15. Price reductions will occur only when hosiery has been overpriced according to the new price standard qualifications.

To be constituted Grade 'A', hosiery must be accurately and completely marked in accordance with the provisions of this regulation.

To make certain that no confusion or unwitting violations occur, the regulation provides that the manufacturer shall label each pair of stockings with the following information:

1. The identity of the manufacturer.
2. The gauge of the hose.
3. The OPA grade.
4. The ceiling price at retail.

Each storekeeper is required by the regulation to post in his store at the place where the rayon hosiery is sold, a schedule giving the quality information and ceiling price of all rayon hosiery which he offers for sale. This will enable you to see and compare the values offered and to reach some decision before taking up the sales-person's time.

#### NEW PRICE SUPPORT—

(Continued From Front Page) farmers for peanuts of like type and grade will be uniform in all areas. Under the one-price system announced on this year's crop no distinction will be made between "quota" and "excess" peanuts.

Under the increased price support program, yellow soybeans having 14 percent moisture content will be \$1.80 per bushel instead of \$1.70 per bushel announced several years ago. Premiums and discounts will be made as previously announced.

Loans at not less than 85 cents per 50 pound bushel for grain sorghums and purchases of sweet potatoes at prices ranging from \$1.15 to \$1.45 will be made, the board explained.

Incentive payments of 50 cents per bushel will be made on the normal yield of the acreage planted to Irish potatoes in excess of 90 percent of the individual farm goal, up to 110 percent of the goal. On approved truck crops for the fresh market, the incentive payments will be \$50 per acre for the acreage between 90 percent and 110 percent of the farm goal.

Approved truck crops in Texas are carrots, snap beans, lima beans, beets, tomatoes, cabbage, onions and green peas.

#### Save Fats, Silk Hose And Tin Cans

Garza county women are still being urged to continue their household salvage campaign.

Three materials are being especially sought. They are fats, silk hose and tin cans.

No arrangements for the collection of tin cans salvaged have yet been worked out, but women who will save tin cans are requested to keep them stored somewhere until directions for their collection are announced.

Fats and household greases are still being handled through local markets and through the Garza Frozen Food Locker Plant.

Local club women are collectors for the discarded silk hose. Women over the county are requested to contact the clubs if they have hose to donate.

THE 2<sup>ND</sup> WAR LOAN DRIVE IS ON!

**Come on, Let's WIN this war!**

IF we should lose the war, life would not be worth living.  
"But we won't lose it," you may say.  
Listen, brother—in this world nothing's sure, unless you make it so.  
This month it's up to us here at home to do our part, and then some, to make Victory surer—and quicker! To do it, we've got to lend Uncle Sam 13 billion extra dollars.  
It isn't easy—but war isn't easy and Victory isn't cheap. It takes money—and more money—to buy planes, ships, tanks, guns and a million other things our boys must have to deliver that final, paralyzing knockout punch.  
And it's a whale of a lot easier for us at home to lend our money than for our boys to fight through the hardships and dangers of deserts, swamps, jungles, ice-fields and sub-infested seas!  
Just think! Every extra bond you buy will help provide the weapons to save the lives of many American boys! Isn't that alone worth every effort, every economy you can make? You bet it is!  
There are 7 types of U. S. Government securities to meet the needs of every purse. They offer the finest investment in the world—liberal interest, plus security guaranteed by Uncle Sam himself.  
A volunteer worker for the 2nd War Loan Drive may visit you soon. Welcome this unselfish patriot—and buy all the bonds you can. But don't wait for that call. Go—today—to your bank, investment dealer, broker, post office or bond booth and invest to your uttermost limit. Even if it hurts, it's nothing compared to the agonizing impact of a bayonet thrust, a flesh-tearing torpedo fragment or a bone-crushing bullet.  
So dig deep, brother, and do it NOW!

There are 7 different types of U. S. Government securities—choose the ones best suited for you!
