County Agent To Handle Farm Labor Problem

Wallace Kimbrough, County Agent of Texas A. & M. College Extension Service

The farm labor situation has become one of the major problems confronting the farmers and ranchers. The farmers and ranchers are asked for increased production with less labor and equipment. This is a large order and requires closer cooperation between neighbors. The labor the farmers and ranchers are getting is not the experienced help that has had in the past, but young inexperienced boys or rather old men. Too all the help wanted is available, even the inexperienced kind. The War Plants and Armed Services have taken a number of the better farm hands. Help must be given in getting the inexperienced hands trained, pointing out the dangers of their job, proper instructions, and encouragement which cost lives, of time and offer a better job.

There is a plan now going into operation which if used properly will offer some help to the farmers and ranchers on the labor problem. It won't solve all the problems that will arise. The plan calls for full cooperation of the farmers as to get the value of it. The plan works in the County over the United States setting up files; one for farm owners to fill out which shows a number of hands, types of work experienced at, address and phone, whether part or full work wanted. The other form will be filled out by the farmer showing, number of hands needed, type of work to be done, when the help is needed and location and address. If both the farmer and the laborers will cooperate it will be to the advantage of both of them. Through the plan the local County Agent will receive reports from College men showing where and the number of laborers as available in the counties in Texas and the help is needed in Texas. This help is not available in many other counties with the labor. With this organization it will help in moving labor to areas where it is not needed where the help is needed.

The plan will be used this Fall helping the farmers get migration labor into the county to care the crops.

Brother Of Roy Holland Buried Here Wednesday

Funeral rites for Sterling Edward Holland, 45, brother of Roy Holland, manager of the Southwestern Public Service Company, were held Wednesday afternoon at the Church of Christ. The service for the former Post citizen was under the supervision of Ford Shropshire, minister of the church here.

Mr. Holland died Monday, June 21, in Wichita Falls. His body was brought overland to Post by Mason & Company funeral directors. During his residence in Post he was associated with the Custa-Gin Company and worked also with the Jim Samson Plumbing Company for a short time. He was born on September 18, 1898.

Survivors are three brothers, Roy of Post, John of Houston, Erman of Delano, California and a sister, Mrs. J. L. Skelton of Jourdanton, Texas.

Pal bearers were: Clint Herrington, Pat O'Connor, L. H. Ingram, Curtis Davies, Walter Crider and Mace Casey.

Interment was made in Terrace cemetery.

Repairmen To Receive Extra Gas Coupons

An interpretation of the preferred mileage regulations of the OPA which will give extra gasoline rations to skilled repairmen of farm implement companies and to persons engaged in adjusting hail insurance losses was announced today by the District OPA office. Both types of services were classified as highly skilled services which were necessary to the operation or functioning of agricultural establishments essential to the war effort.

The ruling affecting representatives of farm implement companies said that "specialists trained in the care and repair of farm machinery may qualify for preferred mileage for travel to dealer outlets, when they travel for the purpose of insuring a functional distribution of replacement parts, instructing dealers and farmers in the care and repair of farm machinery and themselves making certain repairs."

Hail losses require that inspection be made promptly after the damage is suffered and the skill and experience of highly trained persons is needed in most instances to decide the extent of loss, the possibility of salvage and the steps which should be taken to restore the productive capacity of the injured area, the OPA said.

Consumers Are Receiving War Ration Book No. 3

Garza residents are receiving their copies of the new war ration book No. 3. The book contains four pages of point stamps, similar to those in War Ration Book No. 2, although slightly different in design and printed in brown ink. It also contains four pages of unit stamps for the type of rationing now used for sugar, coffee and shoes. Each page of 48 stamps bears design of a different war machine, including guns, tanks, aircraft carriers and planes.

Copies of the war ration book No. 3 need not be taken to the county board to be validated, OPA office of Lubbock notified county boards.

Assurance that service men would be issued War Ration Book No. 3 was made this week by Howard Gholson, district director of OPA. Numerous service men from the air fields in West Texas have been appearing before local boards to find out why they are not to make out applications for the books at this time.

Applications of service men will be taken at a later date and final details for taking the applications are being worked out now, the OPA announced. Military personnel serving in their own homes were previously issued Book 1 and 2. Book 3 is merely a replacement book and probably will not be put into use until August.

Colored Church Is Organized At Southland

Sunday afternoon, the New Hope Baptist church was organized at Southland with these charter members: Harrie, Elma and Jessie Lee Davis, Clara Jefferson, M. C. and Maude Hyson, A. C. and Mattie Collins, Orestia and Mary Scott, Zonia and Lillie Mae Ray, and Mrs. Jefferson, Rev. H. J. Henderson, pastor of the church at Slalom and Levelland, had just held a five-day revival at Southland. He consented to preach each first and third Sunday afternoons at 3:00 o'clock until the church collections for the week were \$26.05.

There will be a baptizing at Slalom next first Sunday afternoon. The candidates are: Mabel King, Ruby Faye and Dorothy Mae Hyson, Ruth and Le Gusta Bruce, Lloyd Huston, Velvalene and Pearl Mae Franklin.

Sunday morning 21 were present when their Sunday school was organized. Mrs. Oesela Scott was elected superintendent, Mrs. Stonewall Jefferson, secretary, and teachers: Mrs. Alfred Gregg, beginners; Mrs. Harrie Davis, seniors; Rev. S. M. Gray of Slalom reviewed the lesson. The president of the Lubbock WMU will come later to help the women organize.

Mr. and Mrs. N. C. Ostlaw spent the week-end in Russell, New Mexico and returning with their daughters, Alma and Vera Ann, who have been visiting with their grandparents.

4-Hers "All Out" To Help Prevent Fires And Accidents

"Every accident and fire you help prevent is another knock-out blow at Hitler-Hirohito!"

The foregoing is the battle cry of more than 1 1/2 million 4-H Club boys and girls throughout the nation who are "all out" to make rural America safety conscious for victory. Enrolled in the National 4-H Farm Safety Activity, they're impressing upon rural residents that accidents and fires—which exact staggering annual losses in lives, labor, livestock, and property on American farms—can be prevented. The 4-Hers are pointing out that extreme vigilance should be exercised this year because hundreds of thousands of inexperienced helpers will work on the farms.

Among their recommendations to prevent accidents and fires are to keep tools when not being used in racks; . . . dangerous animals by secure pens; . . . electrical equipment in repair; . . . to install fire-fighting equipment; . . . establish fire lines; . . . mark containers of inflammable and explosive liquids. In short, they are impressing upon farm people the 4-H principle of the coordinated use of the Hands, Head and Heart for Health.

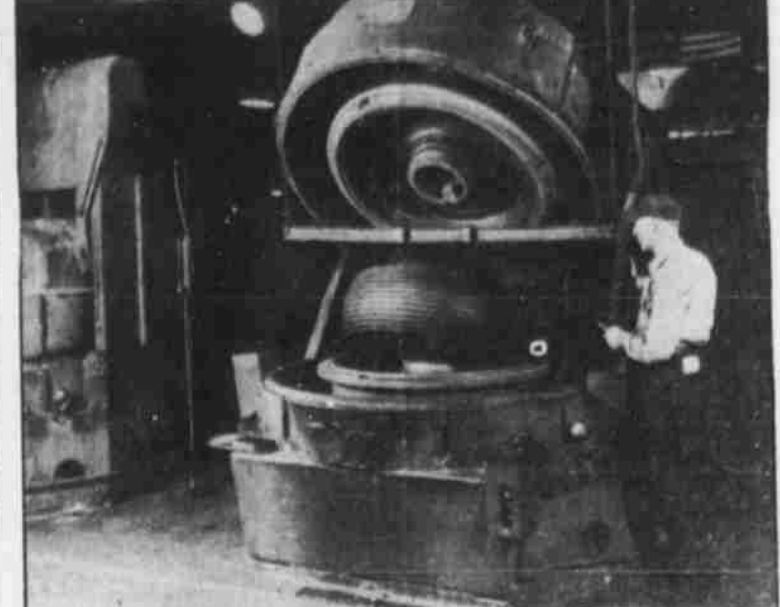

New Arrivals...

Mr. and Mrs. Howard McCampbell are announcing the arrival of a son on June 20 at 7:30 o'clock in the morning at the West Texas hospital in Lubbock. The new baby was named David Howard and weighed eight pounds. The maternal grandparents are Mr. and Mrs. W. E. Dent and the paternal grandparents are Mr. and Mrs. A. T. McCampbell. The father is in the Army Air Corps and is stationed in Wichita Falls. The mother, the former Betty Nell Dent, is making her home here with her parents.

Mr. and Mrs. Cleve Tucker are announcing the arrival of a baby girl on Wednesday, June 23. The new daughter weighed nine and three quarters pounds and was named Janice Elaine. The father is stationed at Camp Campbell, Ky. and the mother, the former Ada Mae Wallace, is making her home with her parents. Mr. and Mrs. John Wallace of Graham, paternal grandparents are Mr. and Mrs. Henry Tucker.

Air-Minded Synthetic Rubber

Evidence of the way synthetic rubber already is taking over even the toughest assignments formerly handled by natural rubber is this scene at a B. F. Goodrich plant showing one of the new synthetic tires for airline planes coming out of the mold. The air-mindedness of Texas is expected to help make this state an outstanding market for the synthetic rubber made in Texas plants in the coming postwar era of "personalized aviation." Recently the Civil Aeronautics Administration granted, for the first time, approval for use of synthetic tires on commercial transport planes, on the basis of extensive tests the B. F. Goodrich company had made, along with performance records of its Ameripol auto tires, first put on general sale in June, 1940.

New "T" Coupons To Be Issued Next Month

In an effort to eliminate all waste commercial mileage and strike a blow at the Black Market, new gasoline coupons carrying a "T" instead of a single "G" will become effective for commercial motor vehicles on July 1, Howard Gholson, District OPA Director, said today.

Lee Byrd Is Injured By Lightning Saturday Night

For the third time in a very short period lightning affected persons in this immediate territory.

Lee Byrd was the third victim of the powerful element but in his case the results were not fatal. During the short rain and wind storm of last Saturday night Mr. Byrd got up to go outside to raise the windows on the car. While he was rolling the windows up a bolt of lightning struck nearby and knocked him unconscious. When he came to he was not able to walk and had to crawl slowly to the house. His wife did not hear him call until he finally reached the porch. "Sparks of fire covered my entire body," he said. "And I sure thought my number was up." The radio aerial on the house was cut in half but apparently no other damage was done to the house.

Byrd is up and about his work at N. L. S ranch but is stiff and sore from the shock.

Two weeks ago Paul Lawson was killed by lightning and a few days later Mrs. Dulin of near Tahoka was also killed. In the latter case, there was no rain, only wind and lightning.

Southland Elects Superintendent For 1943-44 Year

Southland school board elected J. P. Hewlett as superintendent recently. The school man lives in San Benito, Texas and has been visiting his brother in Wilson for the past few weeks.

For the past year he has been in the medical supply division of the U. S. Army but was given an honorable discharge due to his age. He received his degree from Texas Tech and has attended West Texas State Teachers College at Canyon, John Tarleton at Stephenville, and San Marcos Teachers College in San Marcos. He is not married.

Estelle Hardin and Virginia Roddy of Tahoka were guests for several days at the Kelly Sims ranch.

Income Tax Law Uncovered By Chesley Manly

Pfc. Chesley Manly, son of Mr. and Mrs. J. P. Manly, who is stationed at Bergstrom Army Air Field in Austin, Texas, last week scooped the biggest story of the year for servicemen. His story which was published in the Del Valle News, camp newspaper, revealed how the new income tax affects service men. The Income Tax law which is a boon to service men wipes out the 1942 tax liability of all members of the armed forces, regardless of rank on all net income, such as salaries, wages, commissions, fees for professional services, etc. The liability on income from dividends, rents, royalties, interest, etc., is not cancelled.

Servicemen who deferred payment of their 1942 income tax when the first installment became due in March, under the provisions of the Soldiers and Sailors Relief Act, are discharged from all liability for payment of the tax for that year.

Other phases of the law were discussed in detail by Manly in his article. The story was featured in the Del Valle News and is being widely read and discussed by servicemen.

Washington newspaper correspondents and radio commentators overlooked the new possibilities of the new law. Manly, who is a member of the public relations office of the Bergstrom Field and who has been in the newspaper business for 15 years, used ingenuity in getting the story. He dug into the official report made by the Senate and House conferees which was received from Speaker Rayburn of Texas and an explanation from Senator Walter F. George (D. Ga.), chairman of the Senate conference committee. Accuracy of the contents of the article as it appeared in the camp newspaper was verified by the Austin Internal Revenue Bureau.

Before joining the army, Manly was assistant chief of the Chicago Tribune's Washington Bureau. He was also connected with the Milwaukee Journal.

Notes From County Agent's Office

By Wallace Kimbrough, County Agent of Texas A.M. Extension Service

4-H Club Work

4-H Club Boys are called upon to do another War Emergency job. In order to obtain the proper distribution of insecticides to the control of cotton insects and to insure an adequate supply of materials for the best possible control of these pests in Texas, it is essential that a close check be kept on the development and distribution of insects during the growing season. To accomplish this purpose the Bureau of Entomology and Plant Quarantine cooperating with the Texas Agricultural Extension Service are attempting to establish a weekly survey of the abundance of cotton insects throughout the state this season. The information obtained from this survey will be sent from Washington each week to be used as a basis for the distribution of insecticides to areas where and when they are most needed, thus avoiding disastrous delays as occurred last year.

Club boys in the various 4-H clubs in the county have volunteered for the job as "War Emergency Cotton Insect Pest Reporters." These boys will check five fields each week to determine if boll weevil, leaf or boll worms, flea hoppers or other cotton insects are present and to determine the percent of damage. Each boy will report his findings on a card to H. G. Johnson, Extension Service Entomologist at College Station each week. The County Agent will work with these boys teaching them to identify the various cotton insects and to determine the percent of damage.

There is a plan to present to each "War Emergency Cotton Insect Pest Reporter" who successfully completes his reports for the season, a certificate of merit or some suitable award for a job well done.

Boys who have volunteered in Garza county are: C. W. and Marvin Dorman, Alvin Davis, D. G. Pertenfeld, Harley Martin and Walter Lester Jones.

L. W. Dalby Attends Duck Creek Soil Meeting June 17

L. W. Dalby, local supervisor of the Duck Creek Soil Conservation District, gave the following report on the District Supervisor's meeting held at Spear June 17.

One new priority area was set up near Southland and Alvin. While selected as group leader, eleven applications for district assistance involving 43,430 acres were approved; seven agreements on 2,522 acres were approved; more than 100 miles of terraces were completed in the Post Work Unit, it was reported; Ray Hodges, H. J. Edwards, J. L. Taylor, H. C. Norton, A. R. Robinson, Henry Wheatley, R. H. Lewis, C. R. Scott, and O. G. Sheppard have made applications.

Fine Program Is Presented For Post Rotarians

One of the finest programs of the year was presented last week by Tom Bouchard, lumber dealer when he delved into the pages of history and brought a comprehensive survey of events that marked the first world war. That it ranked among the best programs of the year was the opinion of a number of Rotarians.

To make last week's program doubly interesting was the appearance of Buddie Williams, son of Dr. D. C. Williams who was visiting his parents. Buddie who is with the Meteorology department of the Air Corps, gave an explanation of the work of the department that proved very interesting. Buddie returned to Grand Rapids, Michigan a few days ago.

O. D. Carlwell was the speaker for this week's program and presented the subject, "Diplomatic Background of the Present War." Next week will bring to a close the term of office for Roy Holland. New officers will be installed.

Four departments are being planned: Beginners, Primary, Junior, and Intermediate. Instructors for each department will be announced at a later date.

Miss Vera Goshon has returned from a week's vacation in South Texas.

Women Taking Active Part In Food Gardens

The female of the species sent up a wild cry after reading the Garden News of last week's Dispatch and said in loud voices, "The women are raising gardens too."

Well, of course, the women are always in on important things around the home. Lots of times they don't get credit, but back of every successful project is a woman's planning whether it be directly or indirectly. This week, however, we are listing a number of Post women who are making much of their Victory Gardens and our hats are off to them on the gestures they are making in an effort to produce food and lots of it.

Production on a wide scale was planned by Mrs. Della Justice, owner and manager of the Justice Shop. Plans were made in the early spring for staggered production and since early spring she has had many fine vegetables in her gardens. We say gardens, for she has two, one at her home and one at the home of the late Mrs. Mattie Justice. Mrs. Justice plans to can every thing possible this year and will no doubt triple the quota set by the government on canned foods.

Mrs. Skeeter Slaughter is cashing in on fresh vegetables for her table too. Radishes, onions and beans are already being eaten from the garden and soon tomatoes, okra and squash will be ready for the table.

Mrs. Fred Robinson has already canned 100 quarts of beans from her garden. She gets a big kick out of the garden and being able to save the surplus foods that we don't use every day, Mr. Robinson said. The Robinsons have been eating onions, radishes, lettuce and potatoes and beans and will in a very short time have cucumbers and cantaloupes galore. They also have corn beginning to tassle, English peas, and tomatoes are just beginning to bloom. Mrs. Robinson, with the help of her husband, is preparing a place to store potatoes and other foods. "Back in Kentucky we used cooling but here we will have to provide suitable storage space," Mrs. Robinson said.

Mrs. Clara Brown is thrilled over her garden that is proving very productive. We have everything we wish to eat and the garden is in full bloom. The golden plot is one of the prettiest in town and resembles a picture from the seed catalogue.

Another garden spot that is producing "bits" and "buds" of admiration from those who have seen it is that tilled by Mrs. Emma Cash. This energetic woman has planted everything that her family enjoys and will be able to produce much of it by canning. She intends to fill the pantry shelves in overflowing as the canning season approaches.

Mrs. Marshall Mason and Mrs. A. C. Summum are two others who are interested in gardens and are able to provide fresh vegetables for their families from them.

Mrs. F. E. Marable, too, is cashing in on garden stuff. She is already harvesting beans, blackeyed peas, cucumbers, squash, onions, potatoes, radishes. The Marable garden is a cooperative one shared between Mrs. Marable and Mrs. Tom Cyrlum.

Asparagus, beans, squash, peas, and other seasonal vegetables are being grown in the garden of Mrs. Iva Duckworth.

Next week we expect to have a luncheon on some of the Victory Gardens in the rural communities. Until then, "keep 'em growing," as the Scotchman says.

"A" Book Renewals To Start Soon

Application forms for renewal of basic "A" gasoline rations are being distributed this week, the OPA region office announced. The forms will be available at gasoline stations and other convenient locations to be announced by Local War, Price and Raising Boards. Areas completing the portion of the form set off by heavy borders, the applicant is to mail it to his local board, along with his current ration card and record and the back cover of his present "A" book. Renewal books will be mailed to our owners between July 21, the date on which current A coupons expire.

Measures Taken To Control Garza County Of Predatory Animals

A special called meeting of Commissioners court on Monday was voted to pay a \$200 bounty on scraps of coyotes and foxes. Deadline on payments was set September 1, said County Judge Lee Bowen who made the announcement Wednesday and inserted a notice in the Dispatch advertising the bounty feature. Persons who have scraps are to bring them to the county office where they will be issued a county warrant for each animal.

Over 200 taxpayers petitioned the court to take steps to rid the county of this predacious menace.

Your Federal Stamp Now

Operators of motor vehicles are now displayed on the windshield of each vehicle by July 1, 1943 Federal Stamp, obtainable at the postoffice for \$5.00, according to Postmaster Phil Bouchard.

He urges that these stamps be bought immediately, as many postoffices will not have sufficient stamps to meet the demand. Failure to display the stamp is punishable by law.

GET MORE SUGAR

Wholesalers and retailers may receive temporary increases in allowable inventories of sugar and the anticipated increase will be home canning. Dealers will be allowed to operate under their allowable inventories until August 31, 1943.

With The Men In Service:

Elbert Davies In San Diego Naval Training Station

Elbert Davies who left Post for Lubbock on June 3 and from there was sent to a Naval Training Station is now in training at the U. S. Naval Station at San Diego. Elbert "Lefty" was put in charge of a group of inductees and was responsible for them until they reached the base. His wife is making her home here for the time being.

Word was received here by John Herd that his son, Harvey, was being transferred from Boca Raton, Florida. Harvey began training in the Meteorology division of the Army Air Corps on April 19 and has been stationed in Florida.

Hansford Hudman Sets Record On Aptitude Tests At Naval Base

Hansford Hudman who is stationed at the Naval Training Station at San Diego completed his classification tests with flying colors, according to word received here. He made an average of 96 on all tests and on his mechanical aptitude test made 99, the highest grade made by any person recently in the station. He was commended highly by the Commanding Officer for his record. Hansford left Post on June 3 for the Naval base. He is the son of Mr. and Mrs. J. B. Hudman. His wife, the former Maurine Russell, is making her home here with her parents.

News Of Murrie Crowley

News of Murrie Crowley will be of interest to his many friends. Murrie who is known as M. L. Crowley in the Seabee division of the U. S. Navy, is somewhere on Island X in the Pacific. He volunteered into the service one year ago last Thursday and the experiences he has had with the company in which he serves would make very interesting adventure reading. . . maybe someday all the tales can be told, but for now only a very few facts about the company he is with can be revealed.

His family here received last month a paper giving some of these facts. It was called a Quick Muster Report and was designed to fit the demand for news that families want to know about their men in service. The company in which Murrie serves was made up at Camp Bradford, Va. on July 15, 1942 under the leadership of Chief J. W. Hamilton. "We played blackjack all across the USA and went broke in San Francisco but we still kept plustering. . . Sent 6 in '42 we sailed joyfully to Island X, confident that at last we were on our way to do a job for which we gave up our homes," said J. A. Butters, editor-in-chief of the D-5 Muster Report. A short personality sketch was given in the paper about some of the men and included in the first report was one concerning Murrie. . .

Quoting from the paper, "Crowley—Ace we call him, and an Ace he is for more than one reason. His wife will recognize one of his qualifications, while we recognize him as the man who can fix anything. Two minutes after Ace hits the sack he is asleep, but subconsciously he's dreaming about newly arrived Ace, Jr., Mrs. Ace and little Patsy. Such utterances as "bounce the ball to me—" "Stop, you have cooked enough now," indicate that the little 5 ft. ex-minister of the gospel is thinking about home cooking."

Murrie is the son of Mr. and Mrs. G. B. Crowley of Post and before entering the services was an employee of Lanotte Furniture Company where he truly could fix anything. His wife and children reside in the Brant apartment.

Receives Letter From Brother In North Africa

Miss Georgia Mae Langford of Big Spring and formerly of Post received a letter from her brother S/Sgt. Walter Langford, who is stationed in North Africa. He was quite thrilled over the battle of Tunisia and to quote a part of his letter:

"I believe censorship regulations aren't quite so strict now as I want to tell you about the city of Tunis. It is quite a beautiful place. We were in the initial landing party there and let me tell you it was some party. Everything is under control now and it doesn't seem a bit quiet today. We also participated in the battle of Kasserine Pass. We received quite a welcome from the French and I must say the girls are beautiful. However, I haven't learned to speak French very well yet."

Sgt. Langford has been in Tunisia's service almost a year. This was the first word from him since the Battle of Tunisia.

Ebenezer "Skeets" Edwards is spending several days at the home of his parents, Mr. and Mrs. L. S. Edwards. He is stationed in Fort Knox, Kentucky and has been in the service several months.

PRIZE WINNERS AT POST—Two of the prize winning calves shown recently by Garza county Four-H club-boys and girls at the annual fat stock show in Post. Top picture is of Emory Stevens and his 1,000-pound steer calf, which won the first prize, a \$50 war bond, and was declared grand champion. Bottom is Orel Rogers and her 1,045-pound calf which was runner-up in the calf show, and took the \$25 war bond prize. The show was sponsored by the Post Chamber of Commerce. The boys and girls were awarded \$105 as prizes. The youngsters had their choice of cash or war bonds and stamps, and took the government securities. Alvin Davis, not shown, took the \$5 prize for showing the best trained calf and for exhibiting the best showmanship.

Southland Bors In Service

Garth Thomas, who is yet at El Toro, California, has been promoted to First Lieutenant and expects to sail sometime soon.

Cadet Midshipman Wayne H. Hallman received his medical discharge June 10th. He was with the Naval Air Corps in Chicago.

Wayne White's letter last Friday told his mother of receiving a multicolored bar pin for participation in the North Africa campaign. The pin has ten different colors of ribbons. Wayne also states that it didn't take long to get used to receiving their pay in frames.

The W. W. Gilliland's son, Homer, has been all over North Africa and landed back in the same port where he first set foot on the Dark Continent and Uncle Sam evidently hasn't forgotten that he was a tailor before he joined the Army, for he had been dressing trousers the day he wrote.

Pvt. Merle Taylor was supposed to have arrived last week end to visit his sister, Mrs. R. D. Williams and his wife, who came from her home in Weatherford last Tuesday. Pvt. Taylor is stationed in Pine Camp, N. Y., but was on maneuvers in California.

Bobbie Leake, who is stationed at Tampa, is enjoying a few days here with his parents.

Cadet Ralph Landers came in Sunday to spend several days.

Cables Father's Day Greetings

Mr. and Mrs. Elton Nance received a cablegram from their son, Lewis, who is somewhere in the Pacific theatre of war. He cabled Father's Day greetings. He has been promoted to the rank of Sergeant-Technician and is associated with a research party.

Receives Promotion

Jack Kuykendall, son of Mr. and Mrs. J. W. Kuykendall of Rt. 2, Post, who is stationed at Gore Field, Great Falls, Montana, has recently been promoted to Corporal. He says he likes the army fine, and especially the girls in Great Falls.

Olan Stanley Sailed Recently

Word has been received here by Mrs. Olan Stanley that her husband has sailed. His new address is: T-3 Olan Stanley, 6295490, Division Headquarters Troop, APO 4552, c/o Postmaster, San Francisco, California. Sgt. Stanley has been stationed in El Paso and spent several days here recently with his family. His wife who has been in El Paso for the past several weeks returned to make her home here with her parents, Mr. and Mrs. Tol Thomas and resumed her work with the Southwestern Associated Telephone company.

Any excuse you can give for not applying your payroll savings will please Miller, Hirohito and puppet Mussolini.

Floyd Stanley At Marine Base In San Diego, California

The Marine base at San Diego was the destination of Floyd Stanley who left here for El Paso recently to be sworn into the Marine Corps. Floyd will be in boot camp for several weeks before he is given an assignment to some training station. He likes everything fine, according to his wife, who will make her home here for the time being.

Casey Pippin left Wednesday for an air base in Arizona after being for several weeks in Tallahassee and Perry, Florida. Casey is a radio technician. His wife who has been in Florida with him returned here. They arrived Tuesday night. Until Casey receives further orders Mrs. Pippin will remain in Post.

Joe Moss At Sheppard Field

Pvt. Joe Moss writes from Sheppard Field in Wichita Falls that he would like his Post Dispatch sent to that field. Joe until June 9 was attorney here and spent several days in Fort Sill, Oklahoma, before being transferred to Wichita Falls.

Letters from Charles Morrow to his parents here, Mr. and Mrs. Charlie Morrow, indicate that he is well pleased with his life as a Marine. "It's pretty fine out here." "Of course, we don't know where out here is, but just to know that he is liking everything makes us feel pretty good too," his father said. Charles has been in the service for four or five months and spent the first six weeks in San Diego at the Marine base.

LONGEST DAY OF YEAR IGNORED BY POST CITIZENS

June 21, conceded by weather bureau authorities to be the longest day of the year, passed without winning any recognition from Post and Garza citizens. To most people June 21 was just another day. The fact that summer begins officially on that day wouldn't convince many people here that it hadn't been on hand for several weeks as the weather here has been proof that summer really is on the scene.

According to weather bureau officials, summer started at 2:18 a. m. Monday. Records show that the sun reached its northernmost point for the year at that hour. That's how they decide the beginning of summer. Usually the hour falls on June 21.

It's been a warm spring, ham't it?

Word that S. "Blackie" Caprito is improving was well received by his acquaintances here. He was hurt in an automobile accident last week in which Henry Hilberly was killed. Caprito underwent surgery on his leg last Thursday and since that date has been showing improvement. It is understood that he will be able to come home in a few days.

RATIONING CALENDAR

Gasoline— "A" book coupons No. 6, good for four gallons each until Midnight, July 21.
Sugar— Coupon No. 13 good for 5 lbs. through August 13. Coupons No. 15 and 16 are good for 5 lbs. each for home canning purposes. Housewives may apply to their local boards for additional rations if necessary.
Coffee— Stamp No. 24 (1 lb.) good through June.
Shoes— Stamp No. 18 in War Ration Book One good for one pair through October 31.
Meats, etc.— Red Stamps J, K, L, M and N good through June 30.
Processed Foods— Blue stamps K, L and M will continue good through July 7.

Mrs. Glen Cannon, the former Billie Bowen, left Saturday to make her home in Idaho. Her husband who until Friday was a member of the United States Air Corps, was stationed at Del Rio, Texas. He received an honorable discharge in order to take over the management of his father's farms in Lubbock county. The elder Mr. Cannon, accompanied by his wife, will leave this week for Hot Springs, Arkansas, where he will take medical treatment for three months.

Billie was employed with the local ration board.

Mrs. Betty Fortune who has been transacting business in Garza field, Oklahoma, for several weeks, is spending a few days of her home here in this county. She will return to Grandfield as soon as she has been named executor of the estate of her brother who died recently.

War Expenditures Up 1 Percent

War expenditures by the U. S. during May amounted to \$7 billion, 373 million, a one percent increase over April. The daily rate of war expenditures averaged \$233,600,000 in May compared with \$230,400,000 in April.

Mrs. Truett Fry and two children and her father, W. H. Taylor, returned home a few days ago from a visit with her sister, Mrs. E. M. Bass, and S-Sgt. Bass of Frederick, Oklahoma.

"King of the Royal Mounted," and William Bakewell plays the role of Ross.

There is a girl in the case, the daughter of the inventor, played by Peggy Drake, who will be remembered for her excellent work in "The Turtles of Tahiti." She is destined to share a good portion of the perils of Sergeant King in the eleven episodes that are to ensue.

Topic of the Times Is Centered On Food Preservation

Big Talk in Texas these days is food preservation. Many folks are envious now who never saw the inside of a pressure cooker before, and others are demonstrating ingenuity in the home-construction of driers.

For example, Mrs. W. I. Byrd, member of the Gresham home demonstration club in Smith County, got the help of her husband in making a home drier from an old marble machine found in a store. Using scrap materials, Mrs. H. R. Smith and her daughter, Mrs. Gilbert Riley, of Bell county, made a drier at a cost of \$1.

Tina Stewart, Bell County home demonstration agent, says Mrs. Smith and Mrs. Riley are using the drier for carrots, beans and small white potatoes which are too small to store. They are blanching these until the skin slips, peeling them, and cutting the larger ones into thin slices. The smaller ones are put through a ricer and dried as potato meal. Mrs. Riley says she stirs this meal into scalded milk and whips it into fluffy mashed potatoes.

Mrs. Bryan Dawson of eGorgetown, Williamson County, is canning for her neighbors and friends at 35 cents an hour when the producer furnishes containers and brings products ready to be canned. So far, she has canned for one customer every day and, with her own canning, is kept busy.

Fifty-four pressure cookers for folks in Houston have been checked by Mrs. H. H. Fletcher of the Spring Branch home demonstration club, Harris County. The Kashmir Gardens club in the same county checks cookers for 25 cents each. Fifteen cents of this amount is kept in the club treasury, and 10 cents pays rent on the thermometer which is owned by a woman in the community.

Sticker For Ration-Free Shoes

Shoe dealers must put an official OPA sticker on shoes that are to be sold ration-free because of damage by fire, water, steam, or other accidental cause, the OPA has announced. The purpose of the sticker is to protect the customer against black market in shoes.

Southland News

Mrs. Marvin Truelock, Correspondent

Sunday dinner guests in the O. Klaus home were Mr. and Mrs. Werner Klaus and children, Mr. and Mrs. R. J. Nieman and Mrs. Katy Nieman, all of Wilson.

Mrs. Elmus Cantrell and two children of Post came Thursday to visit until Saturday night with her sister, Mrs. Robert Pennell and family.

Diane Haire of Gordon came Tuesday to visit her uncle, Harvey Stotts and family, and aunt, Mrs. Hub Haire and husband.

Vernon Crisp spent the week end with Dan Stotts.

Last week Verna Dell Long visited Polly Stotts.

Mrs. Otto Eckermann, accompanied her daughter-in-law, Mrs. Tracy Eckermann, and her nephew Wilmer Ray Eckermann, all of Holland, arrived here Wednesday to visit her daughter, Mrs. August Becker. Saturday the other two returned home, but her mother will remain with Mrs. Becker until July.

Rev. E. C. Armstrong left a week ago Sunday afternoon for the Methodist pastor's school in Dallas. He will return home the latter part of this week.

Mrs. H. C. White and her sister, Mrs. H. G. Stiles, have moved to Lubbock. The White house will be moved away soon.

Mrs. Lamor Keith and baby of Richland, Calif., came a week ago Thursday to visit her mother, Mrs. E. H. Usery, her twin sister, Mrs. Helen Gist, and her mother-in-law, Mrs. L. C. Keith of New Home. Derle Kieth, her 18 month-old son, had his tonsils removed in Slaton Monday.

Robbie Joe Oakley who has been visiting his grandparents at Levelland since school was out, returned home Sunday with his parents, the Jack Oakleys.

Glynda Grantham returned home Monday afternoon, after remaining to visit her cousin in Vernon. Mrs. Marvin Truelock and son returned from Vernon and the North Plains Thursday afternoon.

The C. R. Howell family is moving to Lubbock.

Mr. and Mrs. L. H. Moore and sons now reside in Clovis, N. M. Everett Samples is employed in Deal's Machine Shop in Lubbock. He spent the week end here with his family.

Yep, right up to my horns. A couple of Uncle Sam's soldiers are depending on me for meat this year, and I'm not going to let them down. Over 30 million and a half of us are pledged to meet beef needs here and abroad in '43.

Butane Systems

Many farmers, poultry raisers, dairymen, ranchers are now eligible to purchase butane systems. Approval is quick. We have large stock on hand. Write us quick, while this stock lasts, for full particulars.

Men Wanted for Mounted Beach Patrol by United States Coast Guard

The United States Coast Guard wants men between the ages of twenty-five and thirty-eight for the mounted beach patrol. If you like horses and have riding experience the Coast Guard needs you. Men accepted will be sent to a training station where they will be trained to patrol the many beaches that are assigned to the Coast Guard. The qualifications are that a man must have wide riding experience, pass a strict physical examination, and be able to furnish three letters of recommendation as to his riding ability. Men who want to apply or write for information can do so, to the Coast Guard Recruiting Office, 217 Post Office Building, Lubbock, Texas.

CARD OF THANKS

The family of the late Mr. Henry Bilberry acknowledges with grateful appreciation your kind expression of sympathy.

Mrs. Henry Bilberry and children
 Rev. and Mrs. L. S. Bilberry and children
 Rev. J. W. Bilberry

Rex Everett, Clyde Hundley, Dr. D. C. Williams, Ira Lee Duckworth and a group from Lubbock are fishing a few days in Colorado.

Mrs. Novis Rodgers has returned from a two weeks visit in Dallas.

... and I says to the Top Sarg...
 "Listen, Sarg, you'd think this Tommy gun was the same as that light-cylinder motor in my dad's car, the way you want her oiled up every day!" And the Sarg says, "You listen! I ran a filling station before I joined up and I know a lot of things about oil, I sold that Conoco No. 1 oil. It oil-plates and protects the engine's insides on the order of chrome-plating protecting your bumpers." I've got a lot of respect for the Top Sarg, so Dad, if I'm to inherit that eight-cylinder job when I get back, for the love of Mike, take her over and have her oil-plated up!

FARM WOMEN SERVE WAR EFFORT

Among the women serving in the war effort we name with pride the farm wife. She has an all important job of furnishing food which sustains other women in their munitions and airplane plants, in addition to providing sustenance for men on the fighting front.

She may not spend long, well-paying hours in airplane factories, but she is vitally concerned in turning out an equally important variety of wings... poultry wings, which, by taking the place of meats, enables hundreds of housewives to conserve ration points and eggs. These poultry products furnish breakfasts for war workers when dehydrated and sent abroad and provide a welcome change of menu for America's armed forces and the civilian populations of war-torn nations.

She is held at home but her hands reach across the sea to offer under lend lease agreements, steaks, bacon, and other meats. Farm women, busy from dawn to dusk, are meeting the farm labor problem in a magnanimous manner.

She has not donned slacks to build General Grants, but she has more than a passing acquaintance with the tanks' young brother, the tractor. She can put it through its paces before plow or harrow.

THE NYA IN WAR

The National Youth Administration, the former depression agency, is now engaged exclusively in training youths for jobs in war plants, and has made an important contribution to the expanding labor force of industry. The NYA operates under the direction of the War Manpower Commission, and receives its recruits through the United States Employment Service.

Eligibles for NYA training are girls, 17 to 25 years of age, and boys, 16 to 17½ years. After four weeks' course, the student is sent to a war plant for work. One war plant in the Southwest has 3,000 NYA graduates, largely from West Texas, on its payroll. Girls and those boys ineligible for military service become permanent war workers.

Many a seeded field bears witness to the farm wife's determination and adaptability.

While war workers use their pay checks to buy bonds, the farm woman dips into butter and egg money for a similar purpose. Her bond buying has helped many a community to reach its quota.

Farm wives are serving their country well. They may be likened to those privates in the rear ranks whose names are seldom mentioned in the dispatches, but who win the battles.

Our Merchant Marine

THE WEST INDIES TRADE

THE COLONIES HAD COUNTED ON INCREASING NUMBERS OF IMMIGRANTS TO PURCHASE SUPPLIES OF FISH, DRIED MEAT AND LUMBER. THE ENGLISH CIVIL WAR OF 1641 TEMPORARILY HALTED IMMIGRATION AND THUS PRECIPITATED AN ECONOMIC CRISIS HERE. NEW MARKETS WERE NEEDED.

FIVE YEARS EARLIER (1636) GOVERNOR WINTHROP'S SON JOHN AND THOMAS MAYHEW OF BOSTON HAD SENT A TINY SLOOP TO TRADE WITH BERMUDA. IT WAS A SMALL VENTURE BUT PROVED TO NEW ENGLANDERS THAT THERE WAS A MARKET IN THE WEST INDIES.

AS THE TRADE DEVELOPED, COLONIAL SHIPS BROUGHT BACK SUGAR AND MOLASSES IN SUCH QUANTITIES THAT THE COUNTRY'S SHIPPERS BEGAN EXPORTING THE TROPICAL PRODUCTS TO AMSTERDAM, COPENHAGEN AND OTHER EUROPEAN PORTS.

THUS, THE COLONIES NOT ONLY GOT RID OF THEIR HOME-GROWN SURPLUS BUT SUDDENLY FOUND THEMSELVES DOMINATING ONE OF THE MOST PROFITABLE TRADE ROUTES IN THE WORLD. THE FAMOUS WEST INDIES TRADE WAS BORN.

SIMILARLY AMERICANS WERE THREATENED WITH ECONOMIC DISASTERS WHEN WORLD WAR BROKE OUT. BUT SHIPROPS HASTILY REVISED THEIR TRADE ROUTES TO CONCENTRATE ON NEW MARKETS AND MARKETS LEFT STRANDED BY THE WITHDRAWAL OF BELLICENT VESSELS.

PLANE LOSSES

During the six months and three days of the North African campaign, from November 8th to May 11th, the War Department asserts that the combined air power of the United States and Britain destroyed 2,000 Axis planes, losing only 770 aircraft. In 386 attacks, the total bomb poundage was 6,256,290 pounds.

will awaken in the morning and have a nice steaming cup of coffee, well buttered toast, may be some strawberry preserves. We know that we can eat in peace and enjoy it.

We arise to a new day which there is no apparent personal dangers to face, and our tasks will be pleasant and we can take time off most whenever we want to for a cold drink, or another cup of coffee.

During the day we may complain that we have had to give up some of the luxuries we were accustomed to in peace-time—and yet somewhere out there in the foxholes, or on the high seas, or in the air, or on the battlefield our sons, brothers, friends, and neighbors are risking their lives for us.

The Texas Spur—The arguments for advertising in wartime are even stronger than in normal periods. The people as a whole have a good deal more money to spend. There is money to be had by the store that has goods the people want. On this time when many things are scarce, the people are eagerly looking for the things they need and want. They are keenly interested in stores that advertise and describe these things and tell what they cost.

When stores advertise, the time it takes to sell off a stock is reduced, so the money is turned over rapidly, and the proceeds can be soon used to buy merchandise and keep business humming. Advertising makes the dollars move faster.

The Lynn County News—There are doubtless more gardens in town and country this year than ever before in the history of Lynn county. Most of the increase is due probably to the repeated requests of Government officials that the people raise as much food and feed as possible to meet the increased demands of the war. A lot of people may find out that the raising of gardens is profitable as well as patriotic.

Colorado City Record: Clipped from Conversation Corner in the Colorado Record is a smart little article entitled "Why Newspapers Are Like Women" by a Marine sergeant. Ruth Caffey columnist, adds a few words to the Marine sergeant's to give it additional weight.

1. They are thinner than they used to be.
2. There is a bold face type.
3. Back Numbers are not in demand.
4. They have a great deal of influence.
5. Every man should have one of his own and not chase after his neighbor's.

Yeah. And the dirt might have added—they are usually full of opinions and controversies... Their make-up is highly important to their appearance... They all have firms... They're a headache to everybody concerned when they're paid... And men nearly always have to wait for 'em on Sunday morning.

Views of Neighboring Editors:

Nolan County News—Have you noticed in letters from servicemen how frequently they express the same sentiments in a different way?

Have you noticed that the soldiers, sailors, marines, fliers and the rest of them refer to their desire to do a good job, trying, each of them, to do their part in terminating this war as soon as possible?

What sort of reactions do you have when you read these statements from the fighting men?

At night we have soft, comfortable beds in which to sleep. We know when we lie down that we are not going to be disturbed by the screaming of bombs from the sky, the whine of artillery shells, the whistle of machine gun bullets, or the bustling of hand grenades.

We feel reasonably sure that we

workers, and war plants executives—our usual jobs make highly satisfactory employments, who turn out more work than elderly persons.

The NYA should be recognized as a wartime agency of usefulness, having shed entirely its depression functions. The criticism heard in Congress to the effect that the NYA is useless and extravagant, falls when the facts are viewed from the war plants.

FRIENDLY

service has always been our watchword. When you eat at the American Cafe you enjoy delicious food and you are welcome to stay as long as you please. Why not make a date to meet your friends here for dinner soon.

Shower Given In Honor Of Mrs. H. McCampbell

Mrs. Howard McCampbell was named honor guest recently when Mrs. Clyde Hundley was hostess with a pink and blue shower.

To open the informal program, Ann Mullins, talented daughter of Mr. and Mrs. Roy Mullins, sang a lovely lullaby and held in her arms a large doll dressed as a baby.

SCHOOL GIRL DOES HER BIT

BRAWLEY, CALIF. — Dimingo Souza, a dairy farmer near here, has found one answer to the manure shortage on the farm.

ABOUT THAT GARDEN

... the Scotchman

Watering a garden in the evening means less evaporation and more moisture left in the ground. There is no rest for a well-managed garden plot.

A sharp hoe will save blisters and backaches in the garden. Use a flat file to give the business end of the hoe a long beveled edge.

Most amateur gardeners water their gardens too often and not deeply enough. A good soaking when the ground has become practically dry is the rule for best results.

Pinching is not only permissible but advisable for garden peppers. For a bigger and better crop, the first of "king" blossoms should be pinched out.

Pretty as pretty does, in a Victory garden. Pull the weeds every day!

Madonna lilies, unlike most lilies, make a fall growth of leaves which remain green over winter.

Squash-vine enemy No. 1 is the squash borer. You may outwit his schemes by covering the vine with soil at as many joints as possible.

Dig sweet potatoes after vine turns yellow.

Dig early Irish potatoes when foliage turns light green; for late potatoes wait until vines die.

Peas and String Beans—Instructions are short and to the point. "Pick—don't yank!" If you jerk at the vines, you loosen or break branches that would produce next week's crop.

Sweet Corn—Big thing in picking sweet corn is to do it at just the right time. If the husks are tight and the silk has turned deep brown, chances are that the ear is ready.

Do...

Ordination service will be held for the young pastor on June 30 at 8:30 a. m. in the First Baptist church.

First Lady of the Lone Star State Is Fifth To Be Featured in Cotton's Portrait Series

Mrs. Stevenson's Picture Appears In Mademoiselle

Among Other First Ladies In Praising Cotton's Serviceability

Memphis, Tenn.—The First Lady of the first state of cotton will be featured in the July presentation of the cotton industry's "Governor's Lady" portrait series.

Made at Mansion
The portrait, taken in front of the state Governor's Mansion at Austin, was made by Wynn Richards of New York.

Mrs. Stevenson's, a native of Cleburne, Texas, is a Texan from start to finish. Consequently, she appreciates the value of cotton to the state.

First Lady Of Texas

Mrs. Coke Stevenson Jr., First Lady of the State of Texas, poses with her daughters, Scottie Gayle, standing, and Linda Fay, in front of the state Governor's Mansion at Austin.

son of the Governor of Texas, Mr. and Mrs. Stevenson Jr. made their home at Junction, where the Governor's family had settled almost a century ago.
