BODY OF SOLDIER ARRIVES—The flag-draped coffin of Korean casualty Pfc. Billy Odom is being removed from a Santa Fe baggage truck and placed in a Mason Funeral Home hearse preparatory to interment in Terrace Cemetery. The body arrived here late Friday night and laid in state at the funeral home until services were held Saturday afternoon. Ex-service men assisting in handling the coffin are, left to right, Jack Kuykendoll, Ralph "Rusty" Dean, J. W. Teal, Bob Poole, James Minor, and Cpl. Jack D. Coleman, who accompanied the body to Post. (Photo by the Dispatch.)

Military Rites Are Conducted For Pfc. Odom

Military rites were conducted for Pfc. Billy James Odom, Garza county's first Korean war fatality, at 4 o'clock Saturday afternoon in the Calvary Baptist church.
The Rev. F. M. Wiley, pastor, and the Rev. J. C. Holman, pastor of the Church of the Nazarene, officiated. Music included "Beautiful River" and "Does Jesus Care" by a choir and a duet, "Sunrise Tomorrow" by Mrs. L. G. Thuet, jr., and Mrs. Alvin Young.
Mason funeral home directed burial in Terrace cemetery. Members of the Veterans of Foreign Wars and the American Legion held a graveside service.
Pfc. Odom, 23 year old native of Post, was killed while serving on patrol duty in Korea Jan. 27, 1950, at Fort Sill, Okla. He received his training at Fort Sill, Camp Carson, Colo., and Yuma, Ariz. He was a member of Company G, Second Battalion, Fifth Regimental Combat Team.
Survivors are his parents, Mr. and Mrs. Bud Odom; a sister, Mrs. Pauline Jackson; two brothers, Jackie and Pfc. Jerry Odom of Fort Campbell, Ky.; and two nephews, Ronnie and Teddy Jackson.
Flower girls were Miss Virgie Ammons, Miss Juanella McClellan, Mrs. Vada Kinman, Mrs. Jeanne Reno, Mrs. Rena Isaacs, Miss Gloria Jean Caylor, Mrs. Roy Brown, jr., and Mrs. Helen Jo Odom.
Pallbearers were Ben Owen, Bob Poole, Arlie Ramage, Bill Hayes, Dan Altman, Gene Hays, Virgil Priddy and Vancil Bowen.
Honorary pallbearers included Ed Isaacs, Joe Kinman, Roy Baker, J. C. Strange, Shorty Bland, Jimmy Smith, Paul Duren and Roy Brown, jr.

Post Schools Are In Readiness For Opening Of '52-'53 Term

Post High school students will have a brighter outlook on school life Monday, Sept. 8, when they register for the fall term of the 1952-53 school year. This new outlook is a result of the "face-lifting" job on the high school building. Halls, classrooms, offices and the auditorium are all dressed up in new bright colors and many repairs on desks, doors, lockers, and other school fixtures have given the building a spic and span look.
Offices are painted in green and white with the dado in green and the upper portion of the walls and ceilings in white. Halls feature a soft shade of light blue and the auditorium is re-finished in a pleasing tone of off-white. This is the first time the auditorium has been re-decorated since the erection of the building in 1928. With the completion of the paint and repair job on the high school plant and with the new grade school still reflecting its newness, the Post Independent School District buildings are two of the finest and most attractive in this area.
Everything is in readiness for an auspicious beginning both in high school and grade school, reports Superintendent D. C. Arthur. He expects about 1,600 students to enroll. Registration will begin at 9:00 a. m. Seniors juniors, sophomores will register from 9 until noon. Freshmen and eighth graders will register from 1:00 until 3:30 p. m. Preceding the registration hours, students are requested to meet in the auditorium to receive instructions on registration.
Post Grade School students will meet in the auditorium at 9:00 a. m. for announcements concerning registration. Grades one through seven will enroll between 9 and 11:30 a. m.
Parents or guardians of beginning pupils are requested to report with them to room 116 where pupils will be enrolled and be assigned to class sections. Principal Ellis Mills requests that parents please furnish a copy of the child's birth certificate. This certificate is to be a part of the child's permanent school record.
Report cards and book cards should be brought by all pupils in grades two through seven. Pupils in these above mentioned grades must report to the following rooms where they will be enrolled and assigned to class sections: Second grade, room 112; Third grade, room 119; Fourth grade, room 108; Fifth grade, room 107; Sixth grade, room 103; Seventh grade, room 102. Pupils in grades one, two and three will be excused at noon. Those who ride the buses, however, will be supervised until bus time. Pupils in grades four through seven will report to home rooms at 1:00 p. m. See SCHOOL OPENING Page 8

\$115 Is Needed To Cover P-TA Play Program Deficit

Although many donations have been coming in to help cover the deficit of the Summer Recreational Program, \$115 is still needed, according to Mrs. John Lott, president of the sponsoring unit, the P-TA. The latest contribution of \$35 was made by the Veterans of Foreign Wars.
Other contributions have been: P-TA, \$315; Rotary Club, \$50; Junior Luncheon Club, \$10; Post Bridge Club, \$25; Beta Sigma Phi Sorority, \$10; Mrs. Gordon Hamilton, \$5; Mr. and Mrs. Bill DeWalt, \$10; Double U Company, \$15; Monte Moore, \$5; and the Order of the Eastern Star, \$10.
Those interested in helping the sponsoring unit in cleaning up the deficit on one of Post's most successful programs for the school age boys and girls are asked to contact Mrs. C. R. Smiley.
The program was started on June 9 and continued for eight weeks and was under personal supervision of High School coaches, Bing Bingham and Vernon Ray. Many activities, such as supervised group games, skating parties, swimming parties, etc., drew a large attendance. The program filled a recreational need for the summer months and was of great interest to boys and girls, as well as to their parents.
Parents were especially pleased with the outcome of the program. One parent, Bill DeWalt, stated that his young son seemed to grow up in many ways during Recreation, Bill, jr., 6, declared he "wouldn't miss it for anything." Mr. and Mrs. DeWalt expressed the feelings of many parents in saying that they hope the program is continued in the future.

30 Day Heat Wave Vanishes

Canadian air, coming down through Oklahoma and North-west Texas, Monday night cracked the month-old heat wave and afforded some relief to crops, but offered little hope for rain.
Tuesday's weather showed that the heat wave was broken over most of the state, with only a few scattered areas showing 100 degree weather. The reading here at 5:30 a. m. set the month's low of 56 degrees. Wednesday's early morning minimum was 58 degrees with a maximum of 89 degrees at 3:00 p. m.
The Weather Bureau said Wednesday, Texas would have more hot days, but nothing like the heat that killed 20 and burned up the fields.

Edgar Moseley Gins First Bale 1952 Plains' Cotton

Garza county's 1952 "first cotton" contest came to a close last week when Edgar Moseley, of Southland, ginned the first bale on the Plains.
Bennie Wilks, of Grassburg, had walked off with the honors on the Breaks section. He actually ginned the first bale in the county, but the contest has been broadened in the past years to include the two distinctly different geographical sections of the county.
Both Wilks and Moseley were awarded \$50 prize money by the members of the Post Chamber of Commerce. No auction will be held however, because of the light interest in last year's auction.
Moseley explained that the winning bale was the first he had ever ginned in August, L. E. Hambricht, manager of the Baskin Gin in Southland, ginned the bale free for Moseley because it was the first. By Friday of last week, Moseley had ginned three bales of cotton. His first bale weighed 605 pounds.

CONGRATULATIONS, MR. MOSELEY—That is what L. E. Hambricht, left, manager of the Baskin Gin at Southland, is telling Edgar Moseley on being the first farmer to gin a bale of cotton on the Plains this year. Moseley brought the first bale into the gin on Tuesday, August 26. Since then he has ginned three more bales. He also won the \$50 prize donated by the Post Chamber of Commerce for the first Plains bale. (Dispatch Photo)

20,000 Bale Cotton Crop Is Forecast For Garza County

Continued hot, dry weather, which is estimated to have cost Garza County at least 10,000 bales of cotton during August, has dimmed hopes for a bumper crop, but has failed to darken the harvest picture to a below average crop.
Garza County has baked under afternoon temperatures of 100 or more for nearly a month. Virtually no rain has fallen for more than 60 days, and the situation fast became worse as cotton and grain crops withered and deteriorated, except in a few widely scattered localities where showers have fallen, or where irrigation is practiced. Despite all weather elements of the past, Garza County should produce 20,000 or more bales of cotton, declared County Agent Lewis Herron Tuesday.
The agent based his estimate on 5,000 bales from irrigated acreage and 15,000 or more bales from dry land farms. He points out that dry land farms will average one quarter bale per acre, and that a bale to the acre may be expected from most irrigated land.
Herron's forecast corresponds with that made by K. N. Clapp, veteran cotton man of Lubbock. Clapp in his South Plains crop estimate of Sept. 1, broke this County's figure to 20,000 bales. One month prior to his recent See COTTON CROP Page 8

Briggs Rites Are Conducted Sunday

Funeral services for Farris Raven Briggs were conducted at 3 o'clock Sunday afternoon in Mason Funeral chapel.
The Rev. and Mrs. J. C. Holman of the Nazarene church, provided the music and the Rev. Mr. Holman officiated for the service.
Burial was in Justiceburg cemetery with Mason's in charge. Mr. Briggs died at his home here Saturday. He had been in ill health for several months.
He was born March 3, 1875, in Boone county, Ark., and had lived in Garza county since 1921. He farmed in the Justiceburg community until 1939 and moved here the following year. He was a member of the Woodmen of the World and the Nondenominational church.
Survivors are the widow, Mrs. Nely Jane Briggs; a son, Ben, five grandchildren; three brothers, Egbert of Clayton, N. M., Foss of Long Beach, Calif., and Jim Briggs of Fort Worth; and a sister, Mrs. Lula Cox of Long Beach, Calif.
Mr. Briggs was preceded in death by four sons.
Pallbearers were Bill, Norman, Creed, Bobby and Kenneth Brad-dock and J. W. Chancellor.

Grid Game To Spark Opening Of School

Southland school will unofficially open tomorrow night with the first football game slated with New Home there. The school officially starts Monday, Sept. 8, with registration of all pupils. This week the Eagles have been preparing for the opening grid-iron tussle.
F. W. Calloway, superintendent of schools, announced that approximately 15 boys reported for football workout Monday, Sept. 1. Coach C. H. Spears has been working diligently to insure victory in the starter Friday night.
A change in the faculty since last week's announcement is the election of Mr. and Mrs. Swindle. They will teach High school and primary work. There is still one faculty member lacking as the 1952-53 term gets underway.
Regular classes will begin Tuesday, Sept. 9, in the completely remodeled building.

New Minister Has Assumed Duties

J. C. Eubanks, jr., of Lueders has assumed duties as minister of Church of Christ here. He is replacing Quentin Fanning, who has accepted the ministry of the church at Sterling City.
Eubanks and his wife moved here from Jayton, where he taught school. For the past six summers he has done evangelistic work in North Carolina, Georgia and California.
The minister was born in Tahoka, but has made his home in Lueders since moving from the plains at the age of five. He is a 1948 graduate of Abilene Christian College.

Funeral Rites For John Herd Are Held Here

John T. Herd, one of Post's pioneer citizens and leading businessmen, died at 5:30 o'clock Thursday morning, in Glickner hospital in Colorado Springs, Colo., where he had been admitted the evening before. He and Mrs. Herd had spent the past several months at their summer home in Chipita Park.
Funeral rites were conducted at 3 o'clock Saturday afternoon, in Hudman Funeral chapel with Bishop George H. Quarterman, Episcopalian, Amarillo, and the Rev. Gerald N. Blackburn, Presbyterian minister, officiating. Mrs. J. A. Stallings, organist, played several selections including "Nearer My God To Thee", "Abide With Me" and "Face To Face" before the service. Burial was in Terrace cemetery.
Mr. Herd, 62, a retired banker and former mayor, had been ill for several months.
He came to Post from Fort Worth in 1910, with his father, the late H. B. Herd, and the late C. W. Post, founder of the town, and they established the First National bank. He served as vice-president of the institution until 1944 when he retired from active service, but remained a director until the time of his death.
Mr. Herd served two terms as mayor, retiring two years ago. He had been active in the South Plains Boy Scout council since its organization in this area many years ago, was a Rotarian and a director of the West Texas Chamber of Commerce. During his long residence here he See JOHN HERD RITES Page 8

Community Scholarship Fund Setup For Worthy Garza Boys And Girls

What ever happened to William Bullard?
You know the boy that Post citizens were going to send to college after tragedy struck his family by burning their home and all their possessions.
Well, rest easy, for William is going to college. And he is being sent by interested citizens. William leaves Friday for Stephenville and John Tarleton College for the first two years of his search for higher learning.
However, his enrolling in school does not bring the subject to the suspected logical end. For many more worthy and ambitious Post High school students may follow in the foot-steps of William, thanks again to these same interested citizens.
Tuesday night this group of citizens met to discuss the project of sending William to school and wound up establishing the Post Community Scholarship Fund.
This revolving fund is destined to grant aid to many worthy students who could not enter college without outside aid. As set up, the scholarship fund will be administered by a committee. Applying students will be screened carefully and diligently for character, academic work, need and determination to succeed.
William will lead the parade and much responsibility for the success or failure of the program lies on his shoulders. The committee voted to sponsor only students for the first few years and then maybe branch out.
The fund gives the committee the right to allow the student up to a maximum of \$200 per semester. However, this does not mean they will allow each student that much.

German Youth Talks To Church Group

Twenty-two-year-old Gottfried Reichel, whose home is in Frankfurt, Germany, and who is attending Hardin College at Searcy, Ark., spoke from the pulpit of the Church of Christ Saturday evening and at the regular Sunday morning hour.
The young man, who is in the States doing mission work and completing college work, which will require another year's time, was much impressed with this little city. After delivering the two messages here he left for Ozona and spoke to the Church of Christ congregation there. Tuesday night he filled an engagement at Midland and had a number of other area churches to visit during the remainder of the week.

Boosters To Sell Membership Cards

Antelope Booster Club membership cards are now on sale, it was announced Wednesday by Bill Edwards, president of the club. These cards will entitle the holder the privilege of attending all Boosters Club meetings and banquets. A meeting is usually held on Thursday evening before each game, preceding a pep rally. A football picture is shown to the members present.
The Booster Club is an opportunity for the fans to boost the morale of the Antelopes. Membership fees are \$1. The membership committee is comprised of Ralph Kirkpatrick, Edwards, Fritz Brownlee and Buster Moreland.

FAIR CANCELED . . .

The unfortunate circumstances which brought about the cancellation of the projected Garza County Fair are to be regretted by the county at large. This project, which was to be sponsored by the Lions Club, might have been a much needed shot in the arm to the spirit of the county, especially with the crop outlooks the way they are. People need and desire competition to bolster their moral, especially when crop situations prevail as they do now. The scope of the project and the many headaches which would face any club organization or individual would have made stout hearts quake. But none of these were the reasons for the Lions club giving up the idea for this year. Conflict with the Lubbock Fair started the ball to rolling and ended up cancelling the Garza County Fair. All women's exhibits have to be in Lubbock on Friday, Sept. 26 or they cannot be entered. Local sponsors had the fair scheduled on that day. Therefore in order that the women and girls of the county not miss out on the Lubbock Fair, the officials decided to cancel the fair until next year. Naturally there were other minor problems, such as available show space at a different time, the hiring of a carnival at a different time, etc. But the officials did not want the women to feel obligated to enter this fair, thereby missing the one at Lubbock.

SCHOOL DAYS . . .

School students throughout the county, approximately 1,555 of them, will settle down to brass tacks by the middle of next week. For each of them it will be a step forward in their preparation for life. And for each parent it will be another measure in the fulfillment of their ambition to see their children in a better position to face the life ahead. Yet, in order to give the children better preparation and to carry the parents' ambitions to their fullest, the schools should be in tip-top shape as far as equipment, space and teachers are concerned. It is very doubtful that any school in the county can bat a thousand on all these topics. There is no doubt that the teachers in the county are among the best anywhere, but all of the schools are sorely lacking in classroom space and adequate equipment. In the Post system alone the classroom space is indeed a sore spot. Grade school principal Ellis Mills said that last year every inch of available space was used, and this year at least three new sections of students will be made necessary by the influx of students. What are they going to do? Will they find the space? The answer to the latter is yes. The school officials always work out some solution. But it is high time for the people in the various school districts to begin to help them out by planning some expansion programs for their schools. They are your school and your children attend them.

Getting Out On The Limb

by EDDIE the editor

Sudden Thought: Pulling out your watch to see what time it is won't stop a speaker now-days. You got to shake the thing like you don't believe it's running.

In this day of "hand-me-out government," the average citizen—in his precarious position between the rock and the hard place—usually wonders what is to be done—and at the same time knows that directly he can't do too much about it.

However, on the other hand, many average citizens are interested only in the handouts the government makes and forget the great truths which all of us ought to understand and never forget. Some of them read:

- 1. You cannot bring about prosperity by discouraging thrift.
2. You cannot strengthen the weak by weakening the strong.
3. You cannot help small men by tearing down big men.
4. You cannot help the poor by destroying the rich.
5. You cannot lift the wage-earner by pulling down the wage payer.
6. You cannot keep out of trouble by spending more than your income.
7. You cannot further the brotherhood of man by inciting class hatred.
8. You cannot establish sound security on borrowed money.
9. You cannot build character and courage by taking away a man's initiative and independence.
10. You cannot help men permanently by doing for them what they could and should do for themselves.

There are far too many people in this country who do not understand—

That there is no way by which you can get something for nothing—that everything you get is balanced by something you give up;

That no one can hand out more than is produced—and that government produces nothing;

That if you want yourself and your family to be well taken care of you must do it yourself—there is no substitute for hard work and frugality;

That if you want your rights respected you must respect the rights of others.

These truths every American voter (and non voter as well) should imprint in his mind. Especially in this year of general election. For when America goes to the polls in November it will be to decide which way to go—Democratic or Republican—the way we are living now or a question mark as to which way we will live—better, the same, or worse.

A Word To The Wise: If you want to annoy your wife try grinning in your sleep.

Was sorry to hear the Lions club had to cancel sponsorship of the projected county fair, but nevertheless am in sympathy with the reasons for the task.

However, I might get in Dutch by saying they cancelled the fair. For actually they have only postponed it until next year. All club members definitely have the "wait until next year" thought in mind as far as the Fair is concerned. And I bet my bottom dollar they put the county on a whiz.

Antelope football season begins next week with the Floydada game. According to Coach Bing Bingham, the Antelopes have a tough row to hoe. Therefore the entire team needs the support of every fan in the county. The high school team plays on Friday nights. There is no conflict with college games or professional games. So no one has any bonafide excuse for not attending a majority of the games.

Providing we can keep too many people from moving out, Garza county's population is definitely on an increase. Since the first of the year more than 70 babies have been born to Garza county parents. And the surprising factor has been the eight or nine sets of twins born since the first of the year. This is an unusual number of twins for a county of this population.

Texas Brags: Plainview, up in Panhandle, has this legend about its name. A young buck started out with his gal for a Sunday afternoon buggy ride. As they drove off he told her he was going to kiss her when they got out of sight of her ma and pa, whom they had left sitting on the front porch. They drove and drove, but the country was so flat that when it started to get dark they could still see her folks watching them from the porch. Finally, in desperation, the young swain wound his reins around the whipstock and took the gal in his arms. "We are in plain view but I am going to kiss you anyway," he said. They married and founded the town of Plainview on the site.

Report On Spur Bulldogs

Twelve lettermen will spark the Spur Bulldogs as they begin practice Monday for the 1952 football season—just twelve days from the season opener against Matador here September 12. Coach Sam Hawkins indicated general optimism and anticipation in discussing the 1952 Bulldog machine. The injury and loss of letterman stalwarts Joe Bell and Toby Williams somewhat dampened the Spur coach's spirits, but as soon as the center position can be filled, Spur should be able to field well balanced, experienced team.

Things Could Be Worse

Harry Truman, the Missouri "imbecile" during whose presidency the nation put more people to work than ever before in history and provided the average man with a fatter paycheck than he had ever before seen, no longer is wanted. Adlai's advisors have told him as tactfully as possible, "Stay clear of Truman as much as you can—too much of his support would be so much poison to your chances of becoming President." Most everyone registers an occasional squawk about the Truman-imposed tax burden, but I've heard no grumbling about the fatter paychecks that have materialized during the regime of "poor Harry." Maybe after "the little jerk" has gone to the showers, things will be a whole lot better. Then again, they could be a whole lot worse.

A Good Thing Not To Do

Since Nomination for a local office in Floyd county is tantamount to election the business of running for office is settled for another two years and everybody including the unfortunate (?) who lost, can make their plans. Either to begin running again now for two years hence or to get into something else and forsake the business of seeking office. One thing you note about office holding, about the time you get in the position that you must have the office the voters decide to turn it over to somebody else and turn you out. A good thing for a young man not to do is to seek public office.

—The Floydada Hesperian

Feed Situation Critical

Local ranchers, farmers and dairymen Saturday were going ahead—buying hay where they could get it for the best available price. The cost was climbing by the ton, but they told the Record they figured they could not wait for neither politics nor red tape. They had to have feed for their culled herds or go out of business. They could not take the chance of waiting on approval of Governor Shiver's reluctant request for the federal government to buy feed in the northern states and ship it into Texas for sale at "reasonable" prices to drought dry farmers and ranchers.

—The Colorado City Record

Levelland Should Be Proud

Firm believers in the old saying that "a town is no better than the newspaper it keeps," the management and staff of the Hockley County Herald and Levelland Sun-News feel that the maiden issue of the Daily Sun-News this Sunday will sound a clarion note of progress for the city, county and surrounding trade territory. The management's decision that the time has come for a daily newspaper in Levelland came only after careful consideration. That consideration not only was of the newspaper's ability to take the seven-league step from the semi-weekly into the daily field, but also was the ability of the city and its trade area to justify a daily newspaper. It is a fact that the Herald Sun-News is adequately equipped and staffed to produce an outstanding daily newspaper. The management has carefully planned this step and many of the most modern innovations in printing and publishing are incorporated in the local plant. It is also a fact that Levelland and Hockley county have grown and progressed the past few years, as is attested by the increase in population and the large building program being carried out. This is because of Hockley county's sound economy, based on agriculture, oil, ranching and industry. Therefore, the

Editorial Comment From Weekly Newspapers:

From The County-Wide News Of Littlefield . . .

Adlai Stevenson has literally "torn his pants" with the voting strength of Texas and all states whose geography places them in a position to have an interest in the outcome of the tidelands and of the minerals under the tidelands. Governor Shivers, while expressing his disappointment at Stevenson's stand that Truman's veto was the proper thing to do, still took the only honorable way out by leaving the position of the strength of Texas in the presidential race up to the people of Texas. There is little doubt in our minds what the decision of Texas voters will be. They will, and must turn thumbs down on Adlai and Harry.

From The Stamford American . . .

If there was any question in the minds of Texas voters as to what presidential candidate to support this fall, that question should have been answered Saturday. Democratic Nominee Adlai Stevenson that day too another step that marked him as a Truman follower and opened still further the chasm between himself and those who believe in rights of the individual states as guaranteed by the federal constitution.

Stevenson told Texas Governor Allan Shivers that he had to concur in the decision of the U. S. Supreme court which took from Texas its tidelands and millions of dollars of revenue from Texas schools. Not only that, the Democratic nominee said he would have to go along with President Truman in his veto of legislation passed overwhelmingly by Congress to restore these tidelands to their rightful owners—the states. The Democratic platform is conspicuous in that it makes no mention of this highly controversial question. On the other hand, the Republicans have gone on record as favoring state ownership of the submerged lands and their candidate, Ike Eisenhower, has said repeatedly that he favored legislation which would return this property to the states. Actually the issue is stronger than that.

The Supreme Court didn't rule simply on the matter of who owns the tidelands. The court decision is far more dangerous than that. The court held that the federal government has paramount rights over all property and that should any property be needed by the government, it might be taken.

I am sorry that Mr. Stevenson feels as he does. I had hoped the Democrats had awakened to the mess that the federal government finds itself in. I had hoped that they would be willing to put the welfare of their country above that of their party. Whatever it takes, I believe that Texans and the country as a whole will be better off if Stevenson is defeated.

I am writing this at 58 Middle Street in the very room in which I was born; and am thinking of the changes since my boyhood.

Women In Industry

When I was a boy only about 2 million women were employed in the entire United States in other than housework or teaching. This has now increased to nearly 20 million. Jobs have given women more money to spend. New industries and products have been developed, freeing women from housework. Among these may be mentioned frozen foods, complete bakery products, self-service stores, electric refrigerators and ranges, dishwashers, garbage disposals and plastic table "linen."

There are 110 million people in the United States over fourteen years of age, of which 58 million are women. Of these only 19 million are now employed. The total men and women in the labor force is about 63 million. If we subtract the 19 million from the 58 million women it means that 39 million women have not yet become wage workers. Now here is the important question: How long will it be before the number of women employed equals the number of men employed? This will be possible as smaller and more modern houses are built, supplemented by complete automatic electronic equipment and other wonderful new inventions not yet on the market.

Labor Unions and Living Standards

When I was a boy there was not a labor union in Gloucester. The carpenters and painters got \$3 a day; haircuts were 25 cents; common labor was \$1 a day. After graduating from college, I went to work for \$10 a week. Rents and foods were low and there was no

plumber's bill as our "bathroom" was out in the back yard: We got our water from a cistern in the cellar; our heat came from stoves; we cut our own fire wood; and for light we used kerosene lamps.

There, however, was then a great difference between the living standards of the few well-to-do families and of the great mass of the population. As a result of the labor unions, minimum wages, social security, safety laws, shorter hours and higher wages, the living standards of the wage worker are now very much higher; while the privileges and profits of the old well-to-do families are gradually vanishing. Of course, new machinery and advertising have greatly aided in this redistribution of wealth. Let us hope that the labor leaders will not overreach and "kill the goose which has laid these golden eggs."

Managed Money and Education

In my boyhood days we were living under the Gold Standard, which put a "ceiling" and "floor" on business, employment, prices, etc. It acted like a thermostat. When the expansion became too great, the thermostat turned off the oil burner; while when business cooled off, this economic thermostat started up the oil burner again. Twenty years ago this Gold Standard, or "business thermostat," was discarded. We are now living under Managed Currency. It is a pleasant sensation, but it is like running an oil burner without a thermostat. Some day the boiler will bust!

With women in industry, our public schools are completely out of date. Children are now getting most of their education from the newspapers, automobiles, radios, televisions, and gang leaders. As a result, we are suffering from a very serious epidemic—Juvenile Delinquency. Unless there is a revival as to parental responsibility, I fear that the only way to correct this situation will be by keeping the children in school eight hours a day. This may be the next great educational change coming to every city where this column is read.

Texas A. & M. Picked To Wind Up Southwest Conference As Winner

By HAROLD V. RATLIFF
Associated Press Sports Editor

Coaches usually profess great pleasure when their teams are rated out of championship contention. They say that's fine psychology—and it also makes their jobs easier. If nobody expects anything, nobody will be disappointed. At least that's the way it ought to be. But a lot of coaches have been fired for not winning with a team that wasn't supposed to win.

Anyway, Coach George Sauer of Baylor is going against the accepted theory. He says his Bears have much more ability than the sports writers give them credit for. He doesn't like that sixth-place rating they've accorded Baylor in the Southwest Conference race. Perhaps he's a trifle alarmed; perchance he

fears that if the fans are led to believe Baylor can't beat anybody they will stay away from the stadium. Crowds are as necessary to coaches as good football players.

But Sauer is different from most coaches anyway. He isn't the crying type; he considers his team's good points along with the bad. The others only talk about the bad.

But if psychology favors anybody Ray George should be the fair-haired boy. Ray is coach of Texas A&M, which is ranked seventh in the conference only because there are just seven teams.

At least he's better off than Jess Neely of Rice was last year. Somebody placed Rice eighth. Which caused Jess to ask if maybe some other team—Texas Tech perhaps—had been slipped into

the conference without him knowing about it.

Rice did a pretty good job with a largely sophomore team. It fought for the title down to the last week.

Recalling the uncertainties of Southwest Conference football over the years, we are tempted to pick A&M to win the championship with Baylor a good second.

Howard Grubbs, executive secretary of the Southwest Conference has applied to the NCAA for eight televised games this fall.

The NCAA, you know, is allotting games over the country to TV and has largely indicated which are to be televised. But the Southwest Conference wants to follow its 1951 policy of telecasting all games that are sell-outs. And Grubbs thinks he has a good chance of getting this for the conference.

The Southwest won't be able to send television out over the nation until Jan. 1—the Cotton Bowl game. But San Antonio, Houston, Fort Worth and Dallas can televise locally.

The games indicated by Grubbs as possible sell-outs are Texas-Notre Dame, Oct. 4; Texas-Oklahoma, Oct. 11; Southern Methodist-Rice, Oct. 18; Texas-Rice, Oct. 25; Texas-Southern Methodist, Nov. 1; Texas-Texas Christian, Nov. 15; Texas-Texas A&M, Nov. 27; Texas-Christian-Southern Methodist, Nov. 29.

Austin can not televise but San Antonio will do it on the Texas-Notre Dame game at Austin if permission is granted.

Last year four games were televised—Texas-Oklahoma, Southern Methodist-Texas Christian, Texas Christian-Texas A&M and Texas-Southern Methodist. They were sell-outs.

One of the most popular places for coaches and athletes in Texas is Wichita Falls' Hole in the Wall Club. Every sports celebrity is entertained there and the athletes, coaches and sports writers always look forward to it.

A group of sports enthusiasts used to meet in the Holt Hotel room of Ernest Scannell. But Ernest got married and the boys had to make other arrangements. So they rented the room that became the Hole in the Wall Club. There are 30 members and a waiting list. It actually costs the boys only \$10.00 a month

Farm Bureau Men Schedule Meeting

each since they sell the food and drink and have an income going toward the operation of the club, organized five years ago.

Such top personalities as Jack Dempsey, Gene Autry and Tony Martin have partaken of the hospitality of the men who maintain this club.

A brave man is Browning Diggs, who is promoting professional football games in Texas. He lost \$10,860 in matching the Detroit Lions with the Chicago Cardinals at Amarillo. But he now has arranged a game between Camp Polk, La., and the Cardinals at Lubbock Sept. 13.

Attendance thus far in Texas for the pro games has been mighty low. The Dallas Texans have drawn less than 10,000 for two games. Both were against service teams, however, and the real test will come next Friday night against the Philadelphia Eagles at Odessa.

The big one is due to be at Dallas Sept. 12 when Doak Walker and his Detroit Lions clash with the Texans in the Cotton Bowl. If this doesn't pack the bowl a lot of folks are going to be convinced that pro football won't draw in Texas—at least the way backers of the pro club at Dallas have been talking. If the Doaker can't get them out they won't come out.

The Yalu River compares with the Susquehanna River in its length and its shoreline of forested hills.

County Farm Bureau leaders from this area will gather in Lubbock on Thursday, Sept. 11, for a sub-district meeting. This is one of 24 such sessions being conducted throughout the State by the Texas Farm Bureau Federation. It has been announced by J. Walter Hammond of Tye, Texas, president of the organization.

In attendance will be Marvin Carter, Federation organization director, and O. R. Long, Field Representative, American Farm Bureau Federation. W. R. Tilson of Meadow, state director for this district, will preside. The all-day meeting will be held in the Lubbock Hotel at Lubbock beginning at 10:00 a. m.

In announcing the sub-district meetings President Hammond emphasized the importance of county leaders meeting with state officers and staff members to discuss current issues and policies vital to farm and ranch people. Mr. Long will discuss the organization's program of work this year and the responsibilities of local leaders. Mr. Carter will present the enrollment plan which has been developed by the State organization and recommended to counties for use in their annual membership enrollment drive scheduled for the week of October 10-17.

BROUGHT AND FIRE—A range fire, fiercely burning southeast of Devol, Okla., is symbolic of the powder keg which exists over much of Texas where the grass and farmlands have been rain-starved. This fire on the Turner

Ranch burned itself out after sweeping 80 acres and putting to flight a herd of 25 cattle, but ranchers with hundreds of acres already reduced for grazing by the blazing sun, kept an uneasy eye trained on the range.

School Cafeteria Open Monday

The Post school cafeteria will begin operations on Monday, Sept. 8, according to an announcement from Superintendent C. Arthur and Manager E. E. Pierce.

Monday, however, will only be a limited basis since all students except those in the fourth, sixth and seventh grades will not be at school.

Prices for lunches at the cafeteria this year will be 30 cents for children in Grade school and 40 cents for high school students and teachers.

Lunch times will be the same last year with lower grades primaries eating when the cafeteria opens at 11:15 a. m.; intermediates at 11:45 and high school at 12 noon.

Staff for the lunchroom this year is to be the same as last year. Pierce will manage the cafeteria, Mrs. E. E. Pierce will head cook, and other cooks will be Mrs. Bulah White, Mrs. Mable Pennington and Miss M. McBride.

OPS Action Will Affect Garza County Buyers

Dallas, Texas—Action by the Office of Price Stabilization in setting new dollars-and-cents ceilings on cottonseed feed products in Texas and Oklahoma generally result in lower selling prices, F. C. Tomlinson, OPS regional foods chief, has announced.

Tomlinson said the new regulation (CPR 167, effective Aug. 25) rolls back and fixes processors' ceilings in this area which are from \$2 to \$5 per ton less than previous prevailing prices for all cottonseed feed products, including cottonseed cake, flakes, meal, sized cake, pellets, cubes, hulls, hull bran and cottonseed feed.

The OPS action in setting lower ceilings was taken to place all processors on the same basis in their producing areas, Tomlinson declared. The regulation now permits only one mark-up at each marketing level for the products, and should eliminate speculative practices of pyramiding

mark-ups which have resulted in increasing prices to feeders.

New ceilings, f.o.b. the mills in the States of Texas, Oklahoma, New Mexico and Arizona are \$82 per ton for bulk cottonseed meal, \$83 for bulk sized cake, \$84.25 for pellets and cubes, and \$25 per ton for bulk cottonseed hulls.

Subject to the addition of any actual transportation charges, the following prices, Mr. Tomlinson said, are what feeders can expect to pay for cottonseed feed products under the new regulation: Cottonseed meal, \$88.60 to \$96.25 per ton; cottonseed pellets and cubes, \$90.85 to \$98.50 per ton; cottonseed cake and sized cake, \$89.60 to \$97.25 per ton; and cottonseed hulls \$30.50 to \$38.25 per ton.

Mr. Tomlinson explained that the actual selling prices permitted by OPS are dependent on whether feed purchases are made at the mills or from retailers, and the type of sacking involved.

TEXAS FEELS GOOD TO BARE FEET—Young Kent Ramey, seven-month-old son of Maj. Gen. and Mrs. Roger Ramey, got a good toe-hold on Texas while visiting in Marshall at the home of friends. Kent was born in Washington, but his parents are native Texans and this was his first trip "home." Gen. Ramey, director of operations for the Air Force and former commanding officer of the Eighth Air Force in Fort Worth, is from Denton. Mrs. Ramey, the former Miss Latane Worsham, is from Shelbyville.

STILL GOING DOWN—The odor of dying fish and sound of swarming mosquitoes hang heavy over Lake Wichita near Wichita Falls, Texas, these days. Residents along the lake say it is going down more and more each day. Millions of gallons of water have been drained from the lake by evaporation and for city water use. Here a solitary fisherman casts his line into three feet of water from a dock near the lake's pavilion. Next week he may find this spot dry.

Schooner Heads South For Tahiti

WILMINGTON, CALIF.—A—Three young Navy veterans sailed off recently in their 43-foot schooner, Camarada, bent on following in the wake of the Kon Tiki, a raft full of scientists which drifted from Chile to the South Seas.
 The trio, Frank Thatcher, 26, Pat Swift, 26, and Miles Wyatt, 27, explained they would work their way down the coast, stopping at La Paz and Acapulco, Mexico, then at Panama and South American ports.
 "We plan to be gone 18 to 24 months," said Thatcher, "depending on how long the money holds out." After they reach Valparaiso, Chile, they will turn west toward the Marquesas and Tahiti.

Overship of property does not carry with it the right of unlimited use of the premises. Certain restrictions upon the use of real estate have been handed down to us through the ages. These restrictions, relatively small in number, exist by reason of custom. The prime example of such a restriction is that a person cannot maintain a nuisance upon his premises.

With the growth of cities and the increasing importance and value of real estate, it became important to change and add to these age old restrictions. It was found necessary that certain operations on real estate that would be regarded as nuisances in a residential area must have a place in the city where they would not be nuisances. At the same time, they should be prohibited from existing in a locality where they would be not only a nuisance but where they also would detract from the value of the other property in the neighborhood.

This change and addition has been accomplished largely by two methods: (1) Zoning and other Statutes and Ordinances and (2) Restrictive Covenants. The latter are usually placed upon a tract of land by the person who is subdividing and developing it as an addition to the city. It is important for the house buyer to find out exactly how these two types of restrictions affect his property. What zoning ordinances are in effect upon his property and the property in the neighborhood? What restrictive covenants are in force in the subdivision of which his land is a part? If the buyer doesn't have the answer to these questions before he signs the contract of sale, the contract should contain a provision giving him the right to discover the answer and decide whether he wants the property in view of his discovery. An illustration may serve to emphasize the importance of zoning ordinances and restrictive covenants.

Jones moves into his new house and wants Uncle John to live with him. In order to persuade Uncle John, Jones commences building an addition to the house in the form of a bedroom and kitchenette. An enterprising neighbor soon informs Jones that he is violating the restrictive covenants of the subdivision by placing the addition too close to the property line. Jones ignores his neighbor and a city inspector soon appears, who not only verifies the neighbor's assertion but also tells Jones that his block is zoned for single residential dwellings. Also, the restrictive covenants have the same provision. Jones retreats until he sees a store building being erected on a corner lot almost directly across the street from his property. He proceeds to give the inspector a piece of his mind about commer-

Rotary Club Hears Of Water Situation

Mayor T. L. Jones and City Water Superintendent Henry Tate spoke to Post Rotarians Tuesday noon, reports Bob Collier, program committee member.

The Post Mill's expansion plans to enlarge the bleachery will also double the use of water. A new dryer is to be installed and will also increase the need for water. The city at present plans to drill three new wells to cover this need.

These wells are to be located in the Close City area, Mr. Jones said.

Invisible Paint Invented By Man

HOLLYWOOD (AP)—A 75-year-old inventor in this capital of showmanship has come up with an invisible paint—it takes black light to see it.
 John T. (Pop) Shannon, who dabbled in fluorescent lighting effects for Flo Ziegfeld as far back as 1907, is the creator of this new effect. He unveiled it for a gas appliance manufacturer (Western Holly) at a recent cooking school. Patrons saw appliances change from their normal white enamel to flowing brightly colored hues when the auditorium lights went off and black lights were turned on.
 The general public knows black light best as the method of marking hands of patrons at racetracks, dance halls, fairs and other events instead of using pass-out checks.

Foreign Art Attracts Britons, Critic Says

LONDON (AP)—British composer Vaughan Williams says Britons are "artistic snobs" because they go for foreign art instead of the home-grown variety.
 Williams told a folk music congress in London the British "can't believe any artistic effort is good unless it comes from another country. We get all our paintings from France, all our music from Germany, and all our dances from America."

Camels were imported commercially to America for the first time in 1856—34 animals sent to Indiana, Tex.
 Special enterprises ruining a nice residential area. Then Jones discovers that the lot in question is zoned for business. Furthermore, since it is not within the same subdivision as his house, it is not subject to the covenant restricting the land to single residential dwellings.

Price Clinic Planned For Post Businessmen

W. C. Reynolds, price specialist from the Lubbock Office of Price Stabilization has informed the Post Chamber of Commerce that he will be in Post on September 12 to conduct a price clinic for local businessmen.

Mr. Reynolds urges all local businessmen who may have price problems under OPS regulations or who desire information to attend the clinic, which will be held at the Chamber's headquarters on Friday from 9:00 a. m. to 12 noon.
 "The OPS is still in the business of price regulation," Reynolds declared. "All businessmen who need more information in order to properly comply with the law, or who have some pricing problem for which they need assistance are invited to attend our regularly scheduled price clinics."
 Mr. Reynolds suggested that operators of service establishments in particular, attend the price clinic.

Pegram-Hibbs Vows Exchanged In Church Wedding August 30

Mr. and Mrs. T. R. Hibbs have returned from Oklahoma City, Okla., where they attended the wedding of their daughter, Miss Elaine Hibbs, and Paul Emory Pegram, Jr. The couple celebrated the 33rd wedding anniversary of the bride's parents as their wedding date.

The double ring ceremony was read at 9 o'clock Saturday morning in the study of the First Christian church. The Rev. Don Christian, pastor, officiated. The couple stood before a mantle, which was decorated with arrangements of white gladioli and tapers in candelabra.

The bride, who was given in marriage by her father, wore a grey silk linen suit with blue velvet accessories. Her corsage consisted of orchids. For something to wear she wore a ring belonging to the bridegroom's grandmother.

Mrs. Nelson Pointer of Great Bend, Kans., was her sister's ma-

trou of honor. She was attired in a teal blue crepe dress, black velvet accessories and a gardenia corsage.

Paul O. Pegram, sr., of Winston Salem, N. C., attended his son as best man.

Mrs. Hibbs chose for her daughter's wedding an aqua dress with black accessories and a red rosebud corsage. The bridegroom's mother was dressed in grey with blue velvet accessories. She also wore a red rose corsage.

After a trip to Niagara Falls and Canada, Mr. and Mrs. Pegram will be at home at 131 NW 21st street, in Oklahoma City. They will return September 15.

The bride is co-owner of the Stork shops and her husband is employed by Commercial Credit Corporation.

Mrs. Pegram attended Beaver high school and National School of Business in Oklahoma City. The bridegroom was grad-

uated from Winston Salem high school and attended Duke University.

Wedding guests included Mr. and Mrs. T. R. Hibbs, jr., and son Wayne, of Levelland and Deane Pointer of Great Bend, Kans.

Mr. and Mrs. Hibbs were hosts for a dinner in Beverly's Banquet room Friday evening. Members of their daughter's wedding party were guests.

Culture Club Will Meet Wednesday In Ralph Welch Home

The Woman's Culture club will hold its first meeting of the new club year in the home of Mrs. Ralph Welch, next Wednesday afternoon at 3 o'clock. Mrs. J. R. Durrett will be cohostess.

The course of study selected for this year is "Great Literature of All Times."

Mrs. Tom Hagood will speak Wednesday on "What Are The Characteristics of Great Literature?" and Mrs. C. E. Dougherty is to discuss "What Benefits Do We Derive From Reading Great Literature?" All members are urged to attend.

Mrs. Charlie Bird will serve the unit as president this year.

Doris Ritchie Is Named Winner In The Gold Star Girl Contest

Miss Doris Ritchie has been chosen Garza County Gold Star Girl for 1952, an honor bestowed annually upon the outstanding 4H girl in the county. She will receive a Gold Star pin at Achievement Day, which will be held in November.

To be a candidate for this award a girl must be a 4H member for three years, including the current year, and must be selected by her respective club.

Her work and record books must be judged by two former Gold Star girls, the 4H leader

and Home Demonstration agent and members of the expansion, education and exhibit committee of the Home Demonstration council.

Miss Jessie Pearce, leader and agent, gave the following account of the tour in which Doris was judged winner: "It was certainly a difficult job to choose the outstanding girl in this contest as the other entry, Oneita Jones, has also done a splendid job."

"Doris' room was literally covered with display samples of her year's work. She even had two cotton stalks on display to show us what her five acres of cotton look like."

"When we had completed our inspection of the articles of handicraft and clothing, vegetables from her garden and eggs from her poultry project, Doris then served refreshments of chocolate cake, banana bread and iced tea. In this manner she not only showed her skill in baking but also her ability as a hostess."

Miss Ritchie is a daughter of Mr. and Mrs. A. A. Ritchie of Close City community, and the third Gold Star winner in her family. She won a trip to the State Fair in Dallas in 1947, a trip to District Camp in Lubbock in 1948 and trips to the 4H Roundup at A&M college at Bryan and National 4H Congress in Chicago in 1950.

Doris has served as president, vice-president, treasurer and reporter of the Post 4H club, reporter for the county council and Junior Leader of the Close City club.

She is a junior in Post high school, where she is a member of Future Homemakers of America, the Pep Squad and the English Club. Miss Ritchie is also active in community projects.

P-T-A To Entertain Teachers In School Cafeteria September 11

The annual Parent-Teacher association entertainment for Post school teachers, will be given at 7:45 o'clock Thursday evening, Sept. 11, in the school cafeteria. Officials have announced the evening will be spent in getting acquainted. Refreshments will be served.

The local P-T-A will launch its 1952-53 membership drive next week. A spokesman for the group stated that any civic-minded adult is invited to join the unit whether or not he or she is a parent or teacher.

One of the main purposes of the organization is to establish good home-school relations which are so necessary for the happiness of school children.

The following explanation taken from a bulletin, "The P-T-A Needs You", gives a resume of the purposes of the organization: "In the P-T-A you, as an individual, count and are counted upon. The great and growing organization will continue to represent the highest hopes and

best efforts of the American people to preserve for their children America's heritage of freedom."

"There's a new and better world to be fashioned for all children and for all mankind. Many persons in critical posts at home and abroad venture to say that the P-T-A Way may be the way to world understanding and lasting peace. The unit needs your ideas, interest, inspiration, service, strength and support."

Hardin Families Have Reunion At Dermott Sunday

Children of the late Mr. and Mrs. Mark Hardin met Sunday at Dermott, for their first reunion since 1935. The Roy Elkins home was the scene of the meeting.

HATS OFF to Edgar Moseley of the Southland community for winning the first bale of cotton prize from the members of the Post Chamber of Commerce as listed in last week's Dispatch. He reported Friday afternoon that the bale had been ginned Tuesday, Aug. 26, at the Basinger Gin Company, at Southland, which is the first bale from the Plains section. Bennie Wilks of Grassburg won the first bale on the Breaks section.

Thanks go out to L. B. Ham-bright, manager of Basinger Gin Company, for helping us out with

Truck Driver Wrecks Increasing Greatly

NEW YORK—P—Truck drivers were involved in nearly twice as many accidents as passenger cars in 1950, according to the latest statistics of the National Safety Council.

The council figures reveal that trucks were involved in 2.11 accidents per 100,000 vehicle miles while passenger-car rate was 1.07. The figures also revealed that drivers west of the Mississippi River were safer than drivers in the eastern part of the nation. The eastern rate was 1.28 accidents per 100,000 vehicle miles while the western rate was only .85.

this program. The company is not a member of the Chamber of Commerce but came right along with a nice donation, for he ginned Mr. Moseley's cotton tree of charge.

NOTE: It would be wise for you members to start considering who you would like to serve on the board of directors for the next three years. Buck Gossett, Pat Walker, and Phil Bouchier will be outgoing directors at the beginning of the 1953 term. They have done and are still doing a wonderful job.

Several of our local business places are getting a "face-lifting." Hans Hudman's Service Station looks like a new place and practically is. And when they have finished remodeling Mason & Company, it, too, will be a credit to any city.

GOOD CAUSES: A really good cause that needs donations is the building of a storage warehouse for the Boy Scouts of American South Plains Council. The Chamber of Commerce donated \$25.00; see what you can do toward helping Dr. B. E. Young raise this county's member's share.

Another is toward a standing scholarship fund to send some worthy student to college. This year it will be for William Bullard. The fund is short around \$40.00 and Ruth Young, Southwestern Public Service secretary, would appreciate your assistance.

One of the greatest causes is to the school cafeteria. E. E. Pierce will need help serving lunches to underprivileged children. A lunch ticket for an entire month amounts to \$6.00 but is worth much more to our children's health. Some of the organizations and some individuals helped last year but more help is needed.

DROUGHT-SEARED COTTON—Too much hot weather and not enough rain has caused this cotton in a field near Abilene, Tex., to grow slowly. The bolls—what there is of them—open too early because of the extreme heat. Lack of

rain has caused many of the plants to wither and die. A cigarette package beside the row in the foreground gives a comparison of the size of the stalks and how lack of moisture has caused plants to remain small.

South Plains To Have Fair Exhibit

An outstanding committee of agricultural leaders from Texas A&M Extension District 2 is co-operating with the State Fair of Texas in working out the colorful South Plains exhibit of the 1952 Story Book of Texas Agriculture, to be presented at the fair, Oct. 4 through 19.

The committee includes W. H. Jones, co-chairman, Lubbock; Mrs. Aubrey W. Russell, co-chairman, Lubbock; Clara Pratt, Lubbock; Vivian Limer, Seminole; D. F. Eaton, Jr., Amherst; O. F. Limer, Plainview; A. B. Davis, Lubbock; Curtis Ainsworth, Lubbock; Raymond Lee Johns, Lubbock; Jim Roberts, Plainview; and Bob Crowell, Levelland.

The South Plains exhibit honors Bailey, Borden, Briscoe, Cochran, Crosby, Dawson, Floyd, Gaines, Garza, Hale, Hockley, Howard, Lamb, Lubbock, Lynn, Mitchell, Scurry, Swisher, Terry and Yoakum counties.

The display will feature three baby Duroc pigs in a pen set in the center of a field of red and white grain sorghum, carrying out the exhibit's "hog-and-sorghum" theme. Huge color photographs of threshing in a grain sorghum field will fill the background behind a transparent curtain on which a big map of the district and its products will appear.

The South Plains will be honored with a special day at the fair Saturday, Oct. 18.

The Story Book of Texas Agriculture includes animated, "show window" type exhibits for all 12 agricultural extension districts of Texas.

The Texas Jewelry and Gift Show in Dallas was attended by a number of Postites last week, according to R. B. Dodson, local jeweler. The show is one of the major jewelry shows in the United States and was held in the Baker and Adolphus Hotels and the Santa Fe Building.

All manufacturers of jewelry or gifts products had their lines of merchandise on display. The first four floors of the Baker Hotel and the first ten floors of the Adolphus Hotel were used for this display. The third floor of the Santa Fe Building is used for permanent year around display. Jewelers from Louisiana, Oklahoma, New Mexico, and 90 percent of the Texas jewelers attended this show. Attending from Post were Mr. and Mrs. Dodson, Mrs. J. R. Durrett, Miss Maxine Durrett, and Miss Nora Stevens.

For Sale, Bargain: Stainless Steel Teeth

Not many people know it, but Uncle Sam buys millions of dollars' worth of stainless steel teeth. Don't get upset. They're not the chewing kind. They're the jet plane kind.

You see, stainless steel teeth are blades that fit inside the engine walls of jet planes. The blades help to drive air into the firing chambers. There are more than 1,000 of these teeth in each engine, and up to a little while ago each one had to be forged—a slow, fussy, expensive method.

The problem was dumped in the lap of G-E specialists, and they solved it.

The result is that today we roll a continuous strip of stainless steel, cut the teeth to length, and weld them to a base. Works fine. The cash saving: 55%. Critical material saving: 39%.

There's an extra reason to be happy about this, since all of us taxpayers have to foot the bills. Millions of dollars will be saved by the military services in future blade production. And the how-to-do-it is being shared through the U.S. Air Force with other jet engine builders.

Movies of the Week

Drama, comedy, romance, thrill, suspense, action. Laughs, tears, fear, happiness and heart-throbs. They are all to be found in the Tower of Good Moving Pictures. Every lover of good moving pictures will find his choice on the menu. An action-filled war picture leads the parade, followed by a corny, rib-tickling riot, then a suave, sophisticated comedy and a savage, hard-hitting picture in which the spotlight of glory is turned on revenge killing that shocked a nation.

For the best movie of the week, our likes naturally lean toward the latter picture, which you might have guessed is a newspaper story.

"Deadline—U. S. A." shows Wednesday and Thursday and carries two 1951 Academy award winners, Humphrey Bogart and Kim Hunter. Also headed the cast in this picture with punch is Ethel Barrymore.

"Deadline—U. S. A." is the story of a managing editor of a progressive, independent paper who refuses to knuckle under to the demands of underworld gangs. His fight to expose to the world the shocking, criminal activities of these "leeches of society" is one that every American citizen should see and remember.

This is the story of how crime and corruption can gain such a strangle hold on the public until eventually truth, pureness, honor and integrity will be throated. High among the main problems of the American public is

the problem of halting the steady climb of crime in this country.

"DEADLINE—U.S.A." so effectively presents this problem to the public that critics grant it an almost perfect score. In Box-office magazine the rating is an 11 plus story. No negative votes were turned in against it.

Mr. and Mrs. Bud Taylor might like the story told in "Deadline—U.S.A." If so they have two tickets at the boxoffice good for any performance. These are through the courtesy of the management.

The other outstanding show of the week is the tomorrow and Saturday presentation of a motion picture bringing to full bloom the color, the scope, the courage and the impact of the famous words spoken in Korea by Gen. O. P. Smith, First Marine Division, when he said, "Retreat, hell! We're just attacking in another direction!"

"RETREAT, HELL!" is that picture. See it. "3 FOR BEDROOM C" shows Tuesday and Sunday and Monday Abbott and Costello bring you their first color picture and their biggest laugh riot, "JACK AND THE BEANSTALK."

PORTIONS OF LAKE DRIED BY DROUGHT—One part of Phantom Lake, near Abilene, Tex., shows this appearance after a prolonged drought in the area caused water levels to drop. Stranded in this section of the lake are the floating boat house at left, center and the rowboat at left. A boat dock at center gives an

idea of the height of the former water level. Other portions of the lake, however, are said to contain a two-year supply of water. The state Board of Water Engineers reports that water levels of lakes, reservoirs, and wells vary in several areas of Texas. The board said the only real precipitation during the month of July came from light, scattered thundershowers.

DEPORTED MEXICANS—Part of 912 Mexicans who had just been deported from the United States are shown in this picture taken at Reynosa, Mexico. They were crowded by Mexican immigration officers into ten railroad coaches for a 400-mile trip to Torreón, in the Mexican interior. The "Wetbacks"—Mexican Nationals

illegally in the U. S.—had been picked up by the U. S. Border Patrol. The "trainlift", operated by the Mexican government with funds supplied by the U. S. Department of Labor, is being employed to get the "Wetbacks" as far away from the border as possible so they cannot easily return.

Hospital Ship Crew Tells Of Experiences

LONG BEACH.—P—A sea-weary crew brought in the big hospital ship Consolation recently and told newcomers of their battle experiences.

"One of the worst days," said a nurse, "was June 16 when the ship was receiving battle casualties from the Inchon area."

On that day the Consolation cared for 101 patients brought aboard with "every type of wound—bayonet, shell fragment and bullet." Altogether, the ship's crew took care of 5,300 casualties during its 10-month's tour of duty off Korea.

Hunting Season Is Just Around Corner

Hunting season—for those who hunt—is just around the corner, and in a few instances it's the corner behind instead of the one ahead.

Licenses are available at the usual places in Post and almost any store in town can provide the hunter with all the necessary equipment.

Season on ducks and geese opens October 31 and extends to December 29, both days inclusive; except that shooting on October 31 shall not commence until 12:00 o'clock noon; shooting hours on other days shall be from one-half hour before sunrise to one hour before sunset.

Mourning Doves: Garza county hunters could have begun firing at noon Monday and can continue to do so until October 10. However, they can only fire from noon to sunset.

Daily bag limit on ducks is five in the aggregate of all kinds. Any person may possess not more than ten ducks in the aggregate of all kinds.

Ex-Actress 'Miscast' In Alcoholic Role

LONG BEACH, CALIF.—P—Judge Wilbur F. Downs, who recently celebrated his 25th year as a Long Beach municipal court jurist, says a lot of strange cases have appeared before his bench.

For instance, says the judge, there was a former Broadway actress turned alcoholic. After appearing on drunk charges a dozen times she was treated at a sanitarium and released as cured.

Almost a year later, said the jurist, she appeared again bedraggled and bleary-eyed. It seems she had been screen-tested for a skid-row drunk part in a movie but the director decided she was completely miscast.

geese is five. Possession limit is one day's kill. Daily limit on mourning doves: ten in the aggregate.

IT'S THE LAW in Texas

"DEED OF TRUST"

In most cases the seller wants the cash when the buyer buys the house. Then the problem to the buyer is, how to raise the money? The answer is, borrow it. Regulation X of the Federal Government requires the buyer to have a certain amount of his own money on hand for payment on the house, if it is not older than a certain age. However, even as to houses not under Regulation X, the buyer should have some cash of his own.

One item common to all loans is the promissory note. In this note, the borrower promises to re-pay to the lender the amount of money borrowed. Of course, the borrower agrees to pay the lender some interest for the use of the money.

The rate of interest can be as high as 10% and still be legal in Texas, but most lenders today charge about one-half of that rate. The rate of interest is usually lowest on those loans that are insured by an instrumentality of the Federal Government, such as Federal Housing Administration (FHA) and Veterans Administration (VA.)

A note usually provides for the sum of money re-paid to lender in installments—monthly installments probably being the most common. This portion of the note is very important to the borrower as he does not want the installments to exceed the amount he can afford to pay.

On the other hand, the borrower does not usually want the installments to be too small. Small installments mean that the principal is re-paid very slowly and, therefore, over the life of the loan, the borrower pays more interest.

In regard to re-payment, if the note contains a provision enabling the borrower to pay the loan in part or in full prior to the maturity of the note, ("payment privilege") then the borrower can use his extra cash to reduce his indebtedness. Also, a liberal payment privilege may be very useful to a borrower if and when he desires to sell his house.

In order for the lender to have something to fall back on in case

the borrower does not fulfill his promise to re-pay the money, most borrowers are required to place a mortgage on the house and let them are buying. In Texas, the mortgage instrument used is a "Deed of Trust," a complicated instrument.

In its essentials, it is a conveyance of the real estate by the borrower to a third party ("Trustee") for the benefit of and as security for the lender. If the borrower defaults in the payment of the note or defaults in the performance of certain promises made in the Deed of Trust, then the Trustee is authorized to sell the property and apply the proceeds to the satisfaction of the borrower's debt to the lender.

A free pamphlet containing useful information on legal problems involved in buying a home has been prepared by Texas lawyers. To obtain a copy, merely print your name and address on a postcard and mail to State Bar of Texas, Austin 15, Texas.

This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Gilmer-Aikin State Aid to Garza Schools Declines From 1951

An estimate of the Gilmer-Aikin state aid to the Garza county schools will amount to around \$20,000. This estimate for school year 1952-53 was based on preliminary applications to the Texas Education Agency. The tax evaluation and number of pupils to be enrolled was also estimated.

Three Music Studios Open For School Year

Music studios in Post are open. Classes taught by Mrs. Elmer Long and Mrs. H. J. Dietrich started Sept. 1, but Mrs. J. A. Stallings will not begin classes of piano and personality singing until Monday, Sept. 8. These teachers, who each year have full enrollments, maintain studios in their respective homes. Mrs. Stallings will enroll pupils Friday and Saturday and class sessions will begin on Monday. She will teach a pre-school group this year of boys and girls. Mothers who are interested in enrolling their small children in this group should contact her at once. This group will be taught in the morning hours.

Pupils of Mrs. Dietrich registered on August 25 and she has a pretty full schedule. She can enroll a few others. Mrs. Long reports that she can still enroll pupils for the two o'clock hour and will take a kindergarten group again this year. This group includes the four and five year old children. Her classes started on September 1.

Antelopes Will Journey to New Deal Tonight For Scrimmage

Following three days of strenuous workouts, the Post Antelopes will journey to New Deal tonight for a practice scrimmage. A return scrimmage match will be played on the Antelope field Tuesday night.

Thirty-one boys reported for workout Monday, reports Bingham, head coach. Only 17 of these boys have had previous football experience. The remainder of the boys are out for their first time. The schedule of this week's workouts have been from 6:30 to 9 a. m. and 6:30 to 9 p. m. Coach Bingham reports the schedule for workouts after school starts Monday will be from 2 until 4 o'clock each afternoon.

The Antelopes are handicapped by being inexperienced and light in weight, but offset these factors by showing willingness to train and aggressiveness to win. They have lots of hustle and are in fine spirits declare both Coach Bingham and Line Coach Vernon Ray. Predicted low in the district, and facing a difficult opener with Floydada here, Sept. 12, the Antelopes are working to upset these predictions from the very first game.

Besides the returning lettermen there are 12 first year boys.

Antelope Band Will Play At Grid Opener

If perseverance can do the trick, Post band students will be in "fairly good form" for their first public appearance next Friday night, September 12, said Robert Robbins, band director. The group will play for the opening game of the football schedule when Post meets Floydada on the home field.

The first band meeting of the fall school session was held Monday in the band room on the old grade school campus. Meetings and practice sessions have been in progress all week and will continue throughout the week said Robbins. Practice hours are from one until two o'clock each afternoon. All band students are urged to attend. Forty students were in attendance Monday and the attendance has been increasing each session. Robbins hopes to have a group of sixty in this year's band. Fifty-five were enrolled last year.

Interscholastic League Places "Property Rights" Case With State Supreme Court

By HAROLD V. RATLIFF
Associated Press Sports Editor

The Texas Interscholastic League has taken its case with Midwestern University over the Oil Bowl football game to the State Supreme Court. A ruling will come in October or November and it is being awaited with great interest not only by the schools of Texas but those in other states that have a rule similar to this one — banning all-star games.

The major point involved is property rights—can the Texas Interscholastic League control school property?

This case involves an injunction obtained by Midwestern which forbids the Interscholastic League from bringing punitive action against Wichita Falls High School for allowing the Oil Bowl football game, an all-star high school contest matching players from Texas against Oklahoma, to be played in the high school stadium.

Midwestern entered the picture after the Interscholastic League members voted a rule that banned the use of high school facilities for all-star games. Midwestern, which has no stadium of its own, had a contract with the Wichita Falls school district for use of the stadium and said it was going to sponsor the Oil Bowl game this year. Maskat Temple of Wichita Falls had put on the game until now. The proceeds go to charity.

In its application for a writ of error to the Supreme Court, the League argues Midwestern was doing this in order to get around the rule; that it wasn't legal because Midwestern's con-

Post Stations Check 246 Cars During Last Week In August

With the deadline for the Texas Motor Vehicle Inspection Law near at hand the Post Inspection stations have been "on the boom". During the past seven days 246 cars have been inspected. The personnel of the stations stated that this has been a large increase over previous weeks.

The week of Aug. 26 through Sept. 2, revealed the following count: Tom Power, Inc. 54; Les Short Buick Co., 19; Connell Chevrolet Co., 78; and Wilson Bros. Chevrolet Station, 95.

Power said inspection at his shop had doubled, while Les Short Buick Co. had a slight increase. At Connell Chevrolet Co. the increase was great and Wilson Bros. state that theirs "went out of sight."

MRS. W. F. PRESSON

No one likes to think of the suffering . . . the lost weeks and months of schoolwork . . . or worse . . . that the youngster must endure as the price of a motorist's wandering mind or his great hurry. But the merchants below ask you to think carefully about it. Perhaps this page of ads will save a young life!

STOP Think!

Almost all of us have experienced the shocking news that a dear one is ill or has been injured. How much sharper the pain of this knowledge, if the victim is a child and the tragedy could have been avoided. Remember, School's open. When you drive your car, be careful!

ANOTHER STRATTON—Monty Stratton, former Chicago White Sox pitcher who returned to professional baseball in spite of the loss of a leg in a hunting accident, teaches his son, Dennis Lee, 11, the finer points of the game. Stratton has hopes of his son going to the big leagues and taking up where he was forced to leave off. Stratton pitched in class C and class B ball in a courageous return to the game. Now retired from baseball, Monty manages a Little League team in Greenville, of which his son was a member.

ALL WHISKERED UP—When they come out from behind the whiskers, this will be Paul (left) and Jim Wilson, vice president and president of the Austin College student body. The twin brothers, sons of Mr. and Mrs. Paul K. Wilson, sr., of McKinney, kept in shape during the summer by working in the wilds of Glacier National Park. Besides their political activities, the boys have an interest in football—Paul is a Biology major and football manager and Jim is an English major and a two-year football letterman at the Sherman college.

Fair Premium Lists Mailed Over Area

Premium lists for the 35th annual Panhandle South Plains Fair, scheduled here Sept. 29 through Oct. 4, have been distributed throughout the area to 3,000 exhibitors, county agents, home demonstration agents, and vocational agriculture leaders, the fair association announced this week.

Entries into the livestock divisions of the fair were coming in earlier than ever before, and fair officials interpreted this to mean another record breaking fair for the South Plains.

A record attendance is forecast this year. Last year's mark of 148,937 visitors was the first attendance record since 1935, which was 145,273.

Leading agriculturists from Lubbock and the South Plains make up the Fair's list of superintendents. They are: Walter Wells, Lubbock, general agriculture superintendent; Robert Gibson, Floydada, and Raymond L. King, Lubbock, assistant general agriculture superintendents; L. H. McElroy, Seminole, county agriculture; E. C. St. Clair, Lubbock, vocational agriculture; Jack Carothers, Lubbock, individual agriculture exhibits; L. M. Hargrave, Lubbock, vocational agriculture; D. F. Eaton, Amherst, South Plains Grass exhibit and contest; W. B. Griffin, Tahoka, general livestock supe; Gerald Collier, Ralls, Herefords; V. M. Peterman, Amherst, Milking Shortorns; Lee Roy Colgan, Lamesa, dairy cattle; Ollie Limer, Plainview, swine; Morris Ducan, Lubbock, junior agriculture; V. N. Burleson, Lubbock, rabbit show; George A. Sealy, Gail, junior livestock; A. E. Quest, Jr., Lubbock, Boy Scouts; Mrs. Chester Gilmore, Idalou, women's department; Mrs. Howard Alford, Lubbock, women's department assistant; Mrs. D. O. Johnson, Idalou, textile; Mrs. Lena Kelso Lubbock, Textile assistant; Mrs. Ralph Robinson, Lubbock, culinary; Miss Clara Pratt, Lubbock, women's home demonstration clubs; Mrs. Mona Hildreth, Lubbock, 4-H girls clubs; Mrs. Lila Wilkins, Lubbock, Future Homemakers; Mrs. G. Pat Cunningham, Lubbock, plants and cut flowers; Miss Edna Houghton, Lubbock, art; Mrs. W. C. Wood, relics and antiques.

YOU, TOO, CAN HAVE HEALTH...

It is chiropractic's mission—its only mission—to restore normal nerve function by detecting and correcting displacements. This is done through scientific adjustment of the spine. Once pressure is removed and the flow of energy restored, the deficiency condition is corrected, and nature herself heals the diseased organ. Nature wants you to be well! Nature is never stingy with her gifts. And the greatest of all her gifts is health.
