Been fighting a little touch of the flu the last few days, reminds me that this might become a problem for folks generally as we enter the fall and winter seasons.

So, from all of us at The Dispatch to Lupe Perez and his family...a happy 105th birthday celebration!

Over the years the Red Raiders Roadriders have tried to contribute to the community by contributions of money as well as time to worthwhile groups such as the Texas Boys Ranch, Foster Children of Lubbock,

Muscular Dystrophy Association, Meals on Wheels and Buckner Baptist Home.

The Red Raider Roadriders hold a motorcycle rally each year in Sept. with approximately 450 people from other towns, some from other states, attending.

Fellow bikers will start arriving in town around noon on September 13.

Some will camp while

others will fill up the motels.

These people could be your next door neighbor.

The motorcyclist will be riding motorcycles that cost anywhere from \$500 to \$16,000 and will be all shapes, sizes and colors.

The public is encouraged to attend the rally at the Postex Plant.

Letters

Dear Editor:

In your paper this week you covered a recent meeting of the Post City Council where funding for Meals on Wheels, Trail Blazers, Satellite School and Alcohol-Chemical Abuse Program was discussed.

In my opinion, these are all efforts that could be substantially funded by the United Way.

If they are to be funded by the United Way, a more intensive and well organized United Way effort will have to be made.

service is offered.

Those band boosters helping last Friday included Judy and Robert Wall, Earlene and Ray Bagby, Nancy and Ronald Thuett, Mozelle Rogers, Billie Redman, Carol McDonald and Barbara Ethridge.

Nanch Thuett painted the sign and Ronald and Robert put in most of the work finishing the inside.

The visitors' concession stand will be a big help to the band program, as well as taking some of the load off of the home side during home games.

Some hoodlums or vandals, maybe just one, "egged" the Kermit band busses as the visitors arrived from Kermit last Friday.

Shame on you.

In Lubbock we raise over \$2 million annually from about 180,000 residents, or \$11 per capita.

Garza County should be able to come close this amount per capita with an energetic program contacting all businesses and people in the county.

In any event, our company is willing to do its share, or maybe a little more, in any United Way effort to raise funds for these needed projects.

Sincerely,
Ray J. Diekemper, Jr.

Dear Editor:

Just thought the folks hereabouts might like to know just what Post Art Guild is doing for Post.

In addition to teaching local children in the arts, we have had five series of classes or workshops which attracted artists from other towns.

These people have eaten and shopped in Post while in town for these classes.

The general thought was very well summed up in the most recent workshop by one of the ladies from

Snyder, when she said, "We drive through Post all the time on our way somewhere else, with never a thought of shopping here and only came this time because Bob Chenault was teaching. We had planned to go to Ruidoso, but came here instead. We did not know

what a neat little place to shop Post is until now, and we will be coming back."

We, at the Guild have been convinced that such an enterprise would benefit Post in many ways and this is just the beginning.

Ya'll come in sometime.

Plains Artist Show at Algerita Center

The Algerita Arts Center, 131 East Main St., in Post, Texas will be the scene of an exhibit of the American Plains Artist, on September 28 and 29, 1985.

One of the artists that will be attending will be Steven

Napper. A native Texan, Napper strives to depict the past and present peoples of the American Plains.

In 1984, Napper was invited to return and exhibit in the Pastel Society of America, and the Salma-

gundi Club annual shows, both in New York City.

Recently Napper repeated himself by winning Best in Show and 1st place in the Pastel Society of the South-west Annual show in Dallas.

The American Portrait Society also recognized Napper with a notice of exceptional merit.

These are only a few of the recognitions Napper received in 1984, combine these past years and it's easy to understand why his popularity as an accredited artist continues to grow.

Well it has been a while, but here we are again.

We have been very busy this summer.

We have had birthday parties, trips to White River and Justiceburg.

We also had a float in the parade. We had Nathan Wilson, who is 103 years old to ride on the float along with Lewis Babb, Juanita Yarbrow, Lizzie Milo, Delbert Funk and Rose Askin, who are all residents at Golden Plains Care Center.

We had alot of fun making the float and would like to thank Stacy Pollack, Joann Binford, Debbie Funk and Corky Abraham.

We have had cantelopes from several gardens this summer and we want to thank each and everyone that has brought vegetables to us. We have enjoyed them very much.

The summer has gone so fast, guess we have been so busy, that is the reason we haven't really noticed.

The Empty Nest

Pastor Steve Traw First Christian Church Imagine a home of average size much like your own. Inject a sudden but long approaching change. That son or daughter, your firstborn, has left home. Somewhere in that grey area where the teenager becomes young adult has touched your household. Perhaps it has happened before. Only this time your baby is off to college, that military career, or the job in the big city. Thoughts that tear at the emotions now plague parents. While the heart is tugged in one direction, the head is facing quite a different direction. Feelings of sadness, emptiness, or uneasiness are too commonplace. Enduring this time may be a bit easier by considering several helpful steps. Two of these are rather preparatory in nature, more of a preventive than a cure.

The third suggestion will be a bit more of a balm for the parent of the empty nest. Reward, responsibility, and remembering should temper our assumed loss. "Children are a reward from the Lord," advises the wisdom of Solomon. As mother and dad, we do not own them. Those 18 or 20 years were a time of stewardship, instruction, encouragement, but never intended as ownership. Relinquish them accordingly. Responsibility of the parent sees that the youngster hurrying toward adulthood is groomed for independence. The completely helpless babe of yesteryear is guided to a self-reliant position. They in turn, learn the responsibilities they will soon face in their life of independence. Remember, mom and dad, your personal time of leaving the nest. Avoid those unnecessary rough spots. Build upon the positive aspects of your coming-of-age. Ask other older adults for their wise counsel. Channel your young adult so their memories of these years will be pleasant ones. The years of a new adult friendship between parent and child will reward you both.

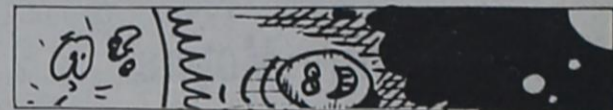

Pleasant Home News

by Annie Gilbert Holy Greetings everyone this beautiful day in which the Lord has made for us to see and enjoy as his children. Thank God we're here again and I'm still living for our Lord and Master to forever be a Christian and being led to what God would have me be. "motto: The church where everybody is somebody." Rev Kelly, pastor and Sister Gilbert, reporter. Lesson for the day (Pattern for Maturity). Philippians 3: 13-21, 4: 1, 4-9. Key verse: Have no anxiety about anything, but in everything by prayers and supplication with thanksgiving let your requests be known to God, and the peace of God, which passes all understanding, will keep your hearts and minds in Christ Jesus. Philippians 4: 6-7. Worship hour devotion by Deacon Burlson, Sister Gilbert visiting. Sister's Georgia Peters, Helen Goode and Sister Peters read the entire 23rd Psalms. We had really great congregational praises. The Lord visited while the spirit was high at altar

prayer. Let's pray for one another always. Amen and Amen. "God is not through with us yet." We had lovely visitors from El Campo, Texas. Visiting was Sister's Ora Lee Joiacan, Georgia Peters and Helen Goode. You all truly made our day. Sick and shut-in's includes Sister Annie Mae Taylor in Okla. Memorial Hospital, Room 10 east, Okla. City, Okla. If you want to write, this is the address: Annie Mae Taylor, 5619 N. Hiwassee, Choctow, Okla. 73020. Others to numerous to mention, you know who they are so please continue to pray for their speedy recovery. "So be and look alive in eighty-five."

IT'S A FACT!

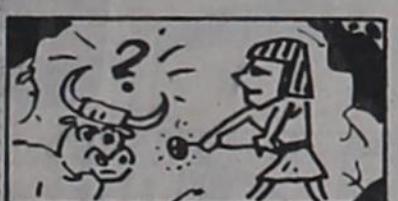

People have been trying, with more or less success, to best that pest the mosquito since prehistoric times.

THEN: Egyptians used netting and smudgepots to fight off mosquitoes over 3,000 years ago. Others from the distant and not-so-distant past coated themselves with mud. Early Americans tried smearing their bodies with fat from bears, sheep or cattle and eating huge amounts of garlic.

NOW: Modern insect repellents work by confusing the mosquito's sensors, so the mosquito can't tell if you're worth biting. Since 1961, one repellent has been considered an effective weapon against biting insects. Called Cutter, it's available in a variety of forms - cream concentrate, aerosol spray and a stick along with the new non-aerosol pump spray and single use packets.

Cattle branding was practiced 4,000 years ago. Old tomb paintings show Egyptians branding their cattle.

The first known sewing needles were made of bone and they are over 30 thousand years old.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS OF PROPOSED **CONSTITUTIONAL AMENDMENTS**
GENERAL ELECTION
NOVEMBER 5, 1985

PROPOSITION NO. 1 ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with \$190 million of those bond proceeds to be used for water supply loans and facilities acquisition and with \$400 million of those bond proceeds to be used for state participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater. Of the remaining bonds authorized, \$190 million will be dedicated for use in water quality enhancement projects, and \$200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration, and implementation of a bond insurance program to which the state pledges up to \$250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to make grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to nonprofit water supply corporations.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$980 million of Texas Water Development Bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, subsidence control, recharge, chloride control, agricultural soil and water conservation, and desalinization, to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 54 proposes a constitutional amendment that would permit the legislature to authorize a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property if such relocation or replacement is done in conjunction with or immediately following the relocation or replacement of water mains serving the property. Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

"The constitutional amendment authorizing proceeds from the sale of land dedicated to the permanent school fund to be used to acquire other land for that fund."

SKIN CARE

If you're average, you get a new skin every 28 days—or at least you used to. In youthful skin, the outer layer is completely renewed by younger, healthier cells about once every 4 weeks. With age, however, the older, dryer, weaker cells stay on the skin surface longer than in youth. These older cells are less effective at protecting deeper skin layers and more easily give up the moisture needed to keep skin smooth and healthy.

Many women are turning to a new kind of cosmetic designed to help their own skin renew itself faster.
