Mrs. Redman had been a member of the Missionary Baptist Church since early girlhood, having been baptized at the age of 14 years in Fayette.

Survivors are a brother, W. M. Olive of Tuscaloosa, Ala.; a sister, Mrs. W. N. Langley of Lawrenceburg, Tenn.; three daughters, Mrs. L. J. Gorman and Mrs. Mary Lee Savage of Amarillo and Mrs. Oscar Graham of Post; three sons, Goldsmith (Buck) Davis of Amarillo, Carl Davis of Long Beach, Calif., and Glen Davis of Post; 15 grandchildren and 10 great grandchildren.

### Forest Moyer Is New Minister At Church Of Christ

Forest Moyer of Childress, brother of Lloyd Moyer of Slaton who has conducted revival meetings here, has accepted the call as pastor of the Church of Christ and will assume his duties at the close of the gospel meeting, June 20-29, at the church.

Mr. Moyer, whose boyhood home was Childress, has been preaching in Idaho the past year. Although he is only 19 years of age, he has spent the past four years in the ministry and he can quote the entire New Testament from memory.

He preached at the local church last Sunday and will preach there again this coming Sunday. He replaces Paul Mayr who resigned recently to become pastor of the Church of Christ in Kerrville.

The public is invited to attend the gospel meeting services at the church at 8 o'clock each night, beginning Monday. Jimmy Wood of Brownfield will be the evangelist and Herbert Arant of Lubbock will direct the singing.

### TRAFFIC IMPROVES

Commenting on the lack of arrests made here recently, Sheriff E. M. Bass said that his department deeply appreciates the cooperation from the public. He said there is a noticeable decrease in double parking, speeding and other traffic violations.

The total rainfall in Post so far this year is 15.70 inches, the Double U. Company reported yesterday. Added to the total of 13.96 inches, which had been measured by last Thursday morning, was .55 of an inch June 10, .74 June 11 and .45 of an inch June 13.

The total rainfall for June by yesterday was 6.26 inches, in Post. The last time that much rain was recorded here in June was in 1938 when a total of 8.07 inches fell.

Cooperators of the Duck Creek Soil Conservation Service have reported recent rainfall, as follows:

Lee Reed, Justiceburg—June 8, .80 of an inch; June 9, 1.08 inches; June 10, .48 of an inch; total, 2.36 inches.

C. P. Witt, Kalgary—June 6, .30 of an inch; June 7, .51 of an inch; June 8 and 9, .62 of an inch; June 10, .46 of an inch; June 11, .60 of an inch; June 12 and 13, .40 of an inch; total, 2.89 inches.

S. M. Lewis, Pleasant Valley—June 7 and 8, .76 of an inch; June 9, .42 of an inch; June 11, .38 of an inch; June 13, .61 of an inch; total 1.17 inches.

### Entrance Age For Boy Scouts, Cubs Lowered One Year

Dr. F. B. Malone of Lubbock, president of the South Plains Council, Boy Scouts of America announced this week that in an unprecedented move, the Boy Scouts of America has lowered the entrance age for its three programs of Cub Scouting, Boy Scouting and Senior Scouting, effective Sept. 1, 1949.

In announcing the far-reaching change authorized by the National Executive Board of the organization, Dr. Arthur A. Schuck, chief Scout executive said the decision was reached after a three years' exhaustive study during which opinions were obtained from experienced leaders as well as parents.

After Sept. 1, boys may become Cub Scouts at eight years of age instead of nine; Boy Scouts at 11 instead of 12; and Explorers at 14 instead of 15 years of age.

The program known as Senior Scouting, Dr. Schuck announced, will now become "Exploring" with its scope broad enough to include land, sea and air activities as well as life exploration. Units specializing in seamanship or in aviation will be known as Explorer Ship or Explorer Squadrons, respectively.

### Alley And Street Repair Is Begun Here This Week

City officials announced this week that Clyde Reynolds, superintendent of the sewer construction project here, has put a crew of men to work on the streets and alleys.

The recent rains, they said, were helpful in that the water settled the dirt in the trenches so that the alleys can be put back into normal condition sooner than would have been possible without the heavy moisture.

If fair weather prevails, both the streets and alleys should be put into good condition within a few weeks, the officials said.

### W. I. Smith Dies At Home In Post Early Saturday

Funeral services for W. I. Smith were conducted at 4 o'clock Sunday afternoon in the First Baptist Church. The Rev. J. T. Clinton of Lubbock officiated, assisted by the Rev. A. B. Cockrell and the Rev. T. M. Gillham. Burial was in Terrace Cemetery under the direction of Hudman Funeral Home.

Mr. Smith died at his home here Saturday morning shortly after suffering a stroke. He was born July 27, 1870, in Mississippi and he moved to the plains in 1915. He had been a member of the Baptist Church since early manhood.

### Ruby Mason Helping With Polio Cases

G. T. Jones, chairman of the Garza County Chapter of the American Red Cross, said yesterday that he had "recruited" Miss Ruby Mason, daughter of Mr. and Mrs. L. R. Mason, for emergency polio nursing in San Angelo. Miss Mason, a registered nurse, has had quite a bit of experience in polio work.

The American Red Cross has set aside \$150,000.000 for polio and disaster work in Texas, Jones said. Much of the money will be used in Lubbock, Amarillo, San Angelo and other West Texas towns.

The local Red Cross Chapter also announced this week that the Fourth Army will present "A Salute to the Red Cross," a radio program at 9:45 o'clock tomorrow night, and the program can be heard over Station WOAI, San Antonio.

Several of the boys are showing up as good athletic material for the Post schools. Two or three of the boys are kicking a football around like some of last year's Post Antelopes.

### Pfc. Grady Pike Is Reburied Here Sunday Afternoon

Reburial services for Pfc. Grady J. D. Pike, son of Mr. and Mrs. John L. Pike, were held Sunday afternoon in Terrace Cemetery.

## New Building Construction Starts Soon

All three issues in the school bond election, held Tuesday at the City Hall, carried approximately 4 to 1. About 155 votes were cast, but several of the ballots were mutilated, the election officials announced. The voting was as follows:

For maintenance tax, 119; AGAINST, 27; For assumption of outstanding bonded indebtedness and the levying of the tax in payment thereof, 122; AGAINST, 27; For the issuance of the bonds and the levying of the tax in payment thereof, 123; AGAINST, 26.

The election resulted in bonds amounting to \$275,000 which the Post Independent Consolidated School Board has sold to the Central Investment Company in Dallas. The average interest over a period of 25 years will be 3.2 per cent, according to Supt. G. R. Day.

Mr. Day said "It is our hope and belief that this sum will be enough to build a new grade school building and cafeteria (Continued On Back Page, Col. 1)

### Theatre Builder Visits Post To See About Labor

Mr. Waller, contractor for the new Theatre Enterprise building here, was in Post Friday looking over the labor situation preparatory to resuming construction of the building, on Main St., between Hundley's and the City Hall.

He told John Hopkins, manager of the Garza Theatre, that the foundation, which was run several months ago, has set well and is in good condition for the proposed building.

He prepared a report on the situation for Theatre Enterprises, Inc., which will instruct him as to the date for beginning the building, Hopkins said.

### Public Hearing On Paving To Be Held Tomorrow

Anyone wishing either to protest or promote the proposed road and street paving project in Precinct 2 is invited to attend a public hearing on the subject at 10 o'clock tomorrow morning in the Garza County Commissioners Court Room.

The Commissioners Court has been petitioned to call an election for bonds not exceeding \$300,000 for the paving of approximately 28 miles, some of which are within the Post city limits.

### Drain Ditches On Highway Opened

North Post residents along the curve on Highway 84 are pleased to observe the Highway Department's equipment hard at work opening the drain ditches. When completed, the ditches will once more carry at least a normal flow of water. The work has been slow, however, because of the mud and the rainy weather, Jake Webb, foreman, told the Post Dispatch.

The drains became ineffective during the heavy rains this spring and the weather has not until recently permitted work on them. Because of this situation the houses in that area were flooded with water on at least one occasion.

### JOIN WTCC

Added this week to the list of Post members of the West Texas Chamber of Commerce for another year were Thaxton Cleaners and Piggly Wiggly.

### BOOSTERS EXPECTED

Boosters for the Jaycee Rodeo of Brownfield will be in Post about 11 o'clock Tuesday morning to present a short program in advertisement of the performance June 23, 24 and 25.

ROGER W. BABSON WRITES THIS WEEK:

# Government Expenses Must Be Reduced Each Year

New York City, June 16.—Living the 28 years that I have been writing this weekly column, I have seldom suggested to my 5 million readers that they write their congressman. I am doing so now, however, because of the indifference which I found as to government finances on my recent annual trip about the country.

For the first time in many years the government has reached the "parting of the ways" in connection with balancing the budget. Of course, during the war it was impossible to balance the budget and no one asked that it be done; but today the situation is very different. The country is now at peace; business is fairly good; and employment continues to be high. On the other hand, due to the demands from abroad and the possibility of smaller income tax receipts, one of two things is necessary. Extra taxes must be increased, or government expenses must be correspondingly reduced. The Hoover Commission recommends an annual reduction of three million.

I believe that President Truman is an honest man, but I fear some of his advisors are either misleading him or else are ignorant of economic truths. He wants a balanced budget, but he seems unwilling to balance this budget in the obvious and sensible way—namely by reducing

government expenses. This would be the natural way for any business to balance its budget; in fact this policy of economy would have saved Mr. Truman from undesired financial trouble which, through no fault of his, came upon his former haberdashery store which I visited a few weeks ago when in Kansas City.

### The Present Danger

The present danger is that congress, to satisfy those who are opposed to increased taxes and also those who want to hold jobs for their friends, may cause the country to fall into the terrible and dangerous habit of deficit financing—that is, to run the government at a loss and borrow money to make up the difference. Such a borrowing policy is like a prohibitionist starting

in to think, or like a bank clerk starting to gamble, or like any family living beyond its means. Once the habit starts, it is very difficult to stop, and always ends in disaster.

I was recently talking with Mr. Eugene W. Stetson, one of the best informed bankers in New York, regarding the general business outlook. He stated that commodity prices could stabilize and employment hold up "if the business interests of the country could have faith in the Democratic congress now in session in Washington." In other words recent decline in commodities and the accompanying increase in unemployment, is largely due to a fear among thoughtful people that proper efforts will not be made to reduce government spending and prevent further

debt.  
**Write Your Congressman**  
Therefore, if you readers of this column are interested in getting a fair price for your product and holding jobs for your self and family, I earnestly urge that you write your congressman as follows: "Please vote to reduce government expenses so that it will be unnecessary for Uncle Sam either to increase taxes or to go into further debt." If your congressman will take your advice on this matter, the decline in business at this time might be checked. But otherwise, a constant decline in prices, wages, and employment may be expected. It would be the old story of trying to burn a candle at both ends.

Let's be frank. You know your congressman. Would you em-

ploy him to run your business? Yet, you have the world; and I am serious. On the other hand, please a majority of interests are organized. A deficit program, which has no interest in the budget, but merely a situation lies with the voters such as the farmers, businessmen and workers. Perhaps, you get to your congressman much of this desired could be brought about firing anyone—but not replacing those employees who resist

## Garza and the World

By EVELYN BOYD

America grew up as a Land of Promise. But it is only within recent history that "O Promise Me," became a substitute for the national anthem.

The above is an astute observation by H. I. Phillips, New York Sun columnist who never fails to give me a few chuckles. He also said: "There are no more frontiers to conquer. They've all been chartered for automobile parking lots."

There's a big plan on—hatched up by the Liberals in the U. S. government—to make Uncle Sam the boss of business. We won't read much about it until times get worse and the psychological time to spring this Socialism on a panicky public arrives. It's designed to entice the small business men while they're suffering from a business slump. Hope our local readers will take this as a warning when, later this year, they start reading the propaganda about the wonders of a "planned economy."

Was reading the other day a Christian Science Monitor dispatch from London on the subject of Britain's experiment with the state health service. It said, "The doctors, generally speaking are overworked and harassed... many doctors in more populous areas have 4,000 patients each."

During the past several weeks, we have had sick folks at my house, at my mother's house, in both of my nephews' families and even the boss of this newspaper has been seriously ill. The strain on the local doctors by the above group alone has been great. A number of times the physicians have had to make calls at one of our houses in the middle of the night, and on one occasion that I know of one of the doctors made two calls at the same house in the night.

The above type of service would not be possible in England where one physician has 4,000 patients and 4,000 forms to be made out in triplicate for services rendered. England will realize this when the death rate keeps mounting year after year. I have been thinking a lot about Socialized Medicine, because the proposed government health insurance plan is a step in that direction. I am just thankful we didn't have it in force while all our folks were ill.

I'm not so worried about some of the present administration's plans for gradual socialization of this country as I was the day after the General Election last November. Mr. Truman's liberal program hasn't gone over so big, in fact, here's a quick look at the status of things:

Taft-Hartley Act—Mr. Truman wants complete repeal. It would require a miracle to achieve it, much as her having more sense than himself." —Feilding.

"In all ill-matched marriages the fault is less the woman's than the man's as the choice depended on her the less." —Mme. de Rieux.

It is doubtful if anything save technical changes in the law will be voted. It may not be changed at all.

**\$4,000,000,000 Tax Increase**—Whenever this comes up, a glacial atmosphere descends on Congress. Everything will be done to avoid any tax increase. If, of dire necessity, a tax bill is passed, it will be very different from Mr. Truman's desire.

**Expanded Social Security**—This is in the dolrums. The section with the best chance of approval would give increased benefits to the aged. Opposition to the Administration's medical proposal is very strong. The more moderate measure, proposed by Senator Taft and others, has many more adherents.

**Columbia Valley Authority**—This is a key step in the Administration's plan for the greatly expanding government power development and solidifying federal authority over water and other natural resources of the nation. Cost would be some \$2,000,000,000. Has small chance this session, will be pushed hard again.

**Standby By Authority for Price Controls, Allocations, etc.**—Absolutely dead.

**New Farm Subsidy Plan**—This is a scheme, suggested by Secretary Brannan, whereby food prices to consumers would be held down by giving direct federal subsidies to farmers. The congressional reception has been chilly.

Why should the president's program have encountered such heavy going? There are various reasons. First, many congressional Democrats, especially in the senate, are conservatively inclined and have little use for what is being called the "Tru-Deal"—they fear it would result in state socialism. Second, the president has antagonized some of the more influential lawmakers by what they regard as a demanding, dictatorial attitude. Third, the decline in business, even though it has been moderate, has developed an attitude of watchful waiting, and congress doesn't want to depress things further if it can help it.

Next session may tell a different story—the president is organizing for battle. But he's making small headway this time.

The silo is the best way to store abundant supplies of nutrients found in pasture and hay crops. In silage form, feed is available summer and winter.

"I wish you'd let CONNELL CHEVROLET CO. keep that battery charged."

## What Our Contemporaries Are Saying:

**DO WE WANT POLIO?**—The answer is an emphatic 'NO'. The city health department and civic clubs of the city are going to do everything possible to prevent an epidemic of polio. Cleanup campaigns are in full swing and should receive every cooperation. The city fogging machine is spraying every alley, garbage can and breeding place for flies and other insects.

At the same time we are not to be unduly alarmed and get excited over false reports. Dr. Harry A. Logson, city health officer, advises all to avoid crowds, over-fatigue, swimming, getting chilled and above all to keep the body clean as well as living quarters and premises.

Dr. Logson also advises that in case of headaches, nausea, upset stomach, muscle soreness or stiffness, or unexplained fever that you call your doctor.—Colorado Record.

**NOW WE KNOW**—If you have ever wondered how much water comes out for a hose, here's your answer. A half-inch hose with a nozzle delivers 200 gallons of water an hour at normal pressure. A three-fourth-inch hose with a nozzle delivers 275 to 300 gallons of water an hour. And the average lawn sprinkler head will spray 120 gallons an hour over the yard.—Lockney Beacon.

**TERRIBLE MALADY**—Reprinted from the First Baptist church bulletin Sunday, June 5:

A terrible malady known as "Morbus Sabbaticus", or Sunday sickness, a disease peculiar to church members, has hit Crosbyton; and many members of the First Baptist church have been affected by it.

The attack comes on suddenly every Sunday; no symptoms are felt Saturday night. The patient sleeps well and wakes feeling fine, eats a hearty breakfast, but about church time the attack comes on and continues until the services are over in the morning. The patient feels easy and eats a hearty dinner. In the afternoon he feels much better and is able to talk politics, go visiting. He eats a hearty supper, but about church time he has another attack and stays home, forcing the pastor to preach to the empty pews on which he is not sitting. He retires early sleeps well and wakes on Monday feeling refreshed and ready for work and does not have any symptoms of the disease until the following Sunday.—Crosbyton Review.

**THE SAME HERE**—Here is a little request: About every week some good friend rushes to The Canyon News office all out of breath with the request that we published an editorial on such and such a subject. They usually come in about 15 minutes before press time. We are grateful for

all such requests, as it expresses confidence in the ability of The News to influence the people of the community. But here is the catch. The editorial page is written on Thursday, and printed on Friday before the paper comes out on the following Wednesday.—Canyon News.

**ORIGINAL BOY LEAVES**—When Boys Ranch first started in 1938, there were only five boys in the first group. There were no buildings and the boys were quartered in the old courthouse. Four of the boys were around ten to twelve years old, but the baby of the group was only six. The elder boys left after a few years, but the youngest one stayed on.

That six year old boy was Charlie Hanna, and no' after being at the Ranch for eleven years, Charlie is leaving. Charlie

**Grass Drill Bought For Lubbock Group**

Sunday's Lubbock Avalanche Journal carried a story of the Lubbock County Soil Conservation District Supervisors' buying a special drill to plant grass seed. The drill is designed to plant both trashy and clean grass seed. Double disk openers put seeds in the soil deep enough to keep them from blowing or washing out and shallow enough so they will come up. The drill is similar to the kind Bill Norman, Russell Wilks and Tom Gilmore used this spring to plant grass.

District soil conservation co-operators who plan to make grass planting next spring should discuss their needs for a grass drill with the supervisors of the Duck Creek Soil Conservation District, O. P. Ottinger, of the local office has announced.

**Rye And Vetch Seed Should Be Reserved**

Duck Creek Soil Conservation District co-operators who plan to plant a cover crop of rye, or rye and vetch this fall are urged to get their rye seed just as soon as it is harvested. The rye seed will cost less when taken from the combine. The cooperator will be assured of seed when he is ready to plant it. The District Soil Conservation Supervisors will have a better idea of how much outside seed will be needed.

E. O. Merrill has about 100 acres of rye that he plans to harvest. C. P. Witt has 50 acres; Bill man 30 acres; and J. W. McQuien about 50 acres.

Jack Henry and son, Jackie, of Floydada spent the weekend at Camp Post and in the home of Mr. and Mrs. John Herd. The Herds, accompanied by Miss Jeneice Propst and Miss Ganell Babb, took Mr. Henry home Sunday night. Jackie remained here for a visit this week with the Herds.

The contest will continue indefinitely.

**"Kid Brother" Of J. F. Maxey Comes Early for Reunion**

A family reunion in the home of Mr. and Mrs. J. F. Maxey was enjoyed last weekend.

Among those present was Mr. Maxey's "Kid brother", S. F. Maxey, who says he is "only 77 years old." He preceded his older brother as a Garza County pioneer when he moved here in September, 1902, and stayed until 1906, when he moved to Terry County "because there wasn't much going on here."

S. F. Maxey moved from Terry County to Clay County in 1910 "to get away from the sandstorms," and eventually he moved to Ringgold in Montague County, where he now lives. He arrived here week before last well ahead of his brother's children and their families. He is a retired rural letter carrier.

J. F. Maxey's brother-in-law, E. N. Comstock of Visalia, Calif., also arrived early for the reunion. Those arriving for the weekend included J. F. Maxey, Jr., and family of Hondo; Mrs. Ira J. Howard and family of Midland; Mr. and Mrs. Roy Holland of Portales, N. M.; Bryan Maxey and family of Central Point, Ore. Mrs. E. H. Burdine and Valdean, and Mr. and Mrs. Stanlin Erie and children of Weatherford and the Quanah Maxey family.

Mrs. Fred Hemphill and daughter, Charlotte Jo, of Hale Center have been visiting her parents, Mr. and Mrs. W. H. Martin, in the Barnum Springs community.

Mr. and Mrs. Temple Lee of Snyder have been visiting her parents, Mr. and Mrs. J. L. Wheeler.

Mrs. J. W. Long of Barnum Springs recently gave a party honoring her son, Don Wayne, on his ninth birthday.

Mr. and Mrs. Doyle Baxter of Tahoka and Mr. and Mrs. Benny Huff of Barnum Springs recently visited Mr. and Mrs. Ben Altman at Pleasant Valley.

**Miss Payne Wins Bookkeeping Trophy**

Helen Payne, daughter of Mr. and Mrs. Gene Payne of Plains, formerly of Post, has been notified that she won an international trophy in the 12th annual contest in bookkeeping conducted by the Business Education World, New York publication.

The Fort Worth Star-Telegram last week said she was one of 200 winners among 15,000 high school students in the United States, Canada, Alaska, Hawaii, Puerto Rico, Cuba and the Virgin Islands.

Helen, a granddaughter of the late Mr. and Mrs. F. W. Custis of Post, was graduated from high school at Plains two weeks ago. She had the highest score in typewriting made at the school in eight years, 84 words a minute for five minutes with only one error.

An accomplished equestrienne, Helen entered the Cowgirl Sponsor Contest of the South Plains Junior Championship rodeo last year.

**TIMELY TIPS**

1. Home-grown vegetables such as turnip greens, collards and mustard green are the "best buys" at leading Texas markets.

2. Take care of those plentiful eggs. Treat a good egg right; and store it right: Clean, covered, cold.

3. Sprinkle blue cheese on top of a fresh green salad and add your favorite French dressing—it will give a new twang to spring salads.

4. Eggs may be used to thicken a custard or sauce—to lighten, or lighten, a soufflé or cake—to hold together oil and vinegar in a creamy mayonnaise. Use egg whites to make cloudy soups clear or an eggshell with some of the white still clinging to "settle" muddy coffee.

Mrs. J. H. Babb, who was seriously ill last week, is improving in condition. Mrs. Kizzie Lewis, a practical nurse, is staying with her.

## Post Millers Play Slaton Here Tonight And Denver City Here Sunday Afternoon

Still going strong with two players from T.C.U., the Post Millers defeated Tahoka and Slaton Thursday night and Sunday afternoon, respectively, to gain a solid fourth place in the Oil Belt League standings. They have six wins and four losses to their credit.

The Millers will play Slaton again tonight in the Postex Park, beginning at 8:30 o'clock. The time for the evening games has been changed because of the lengthening days.

On Sunday afternoon, the Millers will play Denver City in the Postex Park, beginning at 3:00 o'clock.

At the request of Post and some of the other Oil Belt League members, a few changes have been made in the Oil Belt League schedule, pertaining to four games and dates for the playing of make up contests. Changes in the regular schedule included last Sunday's game, the game with Denver City on June 19, a game to be played with Brownfield at Post July 10, and a game to be played with Seagraves at Post on Aug. 21, on the regular schedule.

On June 21 Denver City will play at Slaton, and Levelland will meet Denver City at Denver City on June 26 in rescheduled games.

Curley Barnett of T.C.U. pitched

a good game for the Millers last Thursday night in the Postex Park. The score was 9-5. The other TCU recruit, Jim Boyd, stole the score. He got on by being hit by a ball, then stole second, third and home. Walter B. Holland got four hits in five times at bat.

The score was 9-7 in the game at Slaton Sunday. They started slowly, taking only one hit off the Slaton pitcher before the seventh and even Pitcher Barnett got a hit and knocked in two runs. The most spectacular spots in the games were three impossible put-outs made by Boyd. Holland got two for four.

The two T.C.U. players, whose residence here seemed uncertain until they found suitable employment here last week, have moved, with Mrs. Barnett, into an apartment owned by Earl Hodges. Barnett, who worked this week at Hundley's, will begin with the Comanche Oil Corporation next week. Boyd is employed by the Rayflex Exploration Co.

## Pressure Canner Care Tips Given By County Agent

Mrs. Jewell H. Strasner, Garza county home demonstration agent, sent the Post Dispatch the following tips on how to care for a pressure cooker:

First clean canner thoroughly. Check to see if opening to the pet cock, safety valve and pressure gauge is clear by pushing a wire through the opening. If these parts should become clogged it may not register correct pressure or the safety valve may fail to work when the pressure becomes too high. Clean the safety valve and petcock openings frequently by drawing a strip of cloth thru them.

Unscrew the ball and socket type of safety valve and clean after each use. Sometimes the ball inside the safety valve cements itself to valve and this creates a dangerous situation for you really have no safety protection when valve is stuck. Take the ball, spring and safety valve crew out and clean in vinegar and whiting. Check before using the canner each time to see that the ball is loose so the valve can work freely. If the canner loses steam at the safety valve, a new spring is needed. You may buy one at a hardware store. Your pressure canner gauge should be checked at the beginning of each canning season. I have the equipment for testing the gauge at the office, please bring the entire canner and I will be glad to check it for you.

## Six Scholarships Of \$300 Offered To Outstanding Girls

"With more than a million homemaking projects being undertaken, 4-H girls are putting the 1949 theme 'Better Living for a Better World' into action," declared Guy L. Noble, director of the National Committee on Boys and Girls Club Work. Texas girls carried 44,886 of these projects, and accepted the challenge to report good records of work well done in 1949, according to Mr. Noble.

Clothing, canning, home improvement, home grounds beautification, garden and poultry are among the activities considered in the National 4-H Girls' Record awards program. In addition to learning the job of homemaking, the girls come to know the basic principles for happy family relationships and community responsibilities. The Cooperative Extension Service supervises the program.

For over a quarter of a century, Montgomery Ward has rewarded girls whose accomplishments in this contest have been outstanding. Six national scholarships of \$300 each—in place of the usual \$200—will be given this year. An all-expense trip to the National 4-H Club Congress in Chicago will again be provided for winners in each of the 45 states participating, and for county winners, a gold-filled medal of honor. 4-H girls in Alaska, Hawaii and Puerto Rico also enroll in the contest, and champions receive a \$100 U. S. savings bond.

For the 1948 record judged best in Texas, Lois Wilson, of Morton was awarded a trip to the 4-H Club Congress. There were 37 county medal winners named.

Mr. and Mrs. R. D. Lee and two sons of Monahans visited here Saturday and Sunday with Mr. Lee's sister, Mrs. Jim Hays, and family.

### Scripture:

To every thing there is a season, and a time to every purpose under the heaven: A time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted; a time to kill; and a time to heal; a time to break down and a time to build up; a time to weep; and a time to laugh; a time to mourn; and a time to dance; a time to cast away stones; and a time to gather stones together; a time to embrace, and a time to refrain from embracing; a time to get, and a time to lose; a time to keep, and a time to cast away; a time to rend, and a time to sew; a time to keep silence, and a time to speak; a time to love, and a time to hate; a time of war, and a time of peace.

## Gossip About Garza Guys And Gals

—by gay nellie

Gosh, is our face red! When Bennie Porter and his bride return from their wedding trip in New York, they will probably "call it quits" after reading the wedding story the Post Dispatch published last week. We are sorry that we had the bride's sister serving as flowers on a Bible and the bride carrying a WHITE WHITE BOUQUET ON A WHITE BIBLE. But we can blame all our blunders in last week's paper on the boss, who wasn't here to help us read the proofs. After reading last week's edition of his "pride and joy" it's a wonder that he ever got well, but he is back with us, part time, this week.

Jack Wright visited here a few days last week after graduating from A&M. He left last weekend for Pampa where he is to be employed by the Soil Conservation Service.

Charles Propst, who has been with the Army in Alaska, received his discharge in Montana last week and arrived home Tuesday.

Jeff Justice, Jr. is spending the summer in New York City in school at the American Academy of Dramatic Arts. He taught in Junior High School in Lubbock last year.

The World's Original Junior Championship Rodeo will open its second season in the Post Stampede Arena August 11 and will run three days. Fourteen Garza County Guys and a Gal have been named directors and each is doing his part to make it a big success again this year. Alvin Davis, our famous 4-H boy, is managing director and Carter White, another big time 4-H operator, is assistant manager and secretary. Jimmy Bird, who is known as one of West Texas' best ropers, has been named arena director and Jackie Meeks and Donald Jones whose father and mother, respectively, are important cogs in the Post Stampede and Rodeo each year, are going to carry the flags in the parade and grand entry. Jimmy Moore, who just lives from one rodeo to the next to enter the wild cow milking contest, is making the arrangements for a colorful parade before each performance. Giles Dalby has an interesting job, we'd say. He is to be chairman of all those good looking cowgirl sponsors, but we bet none of them will look any cuter to him than Nell Floyd. Zee Sims, who stole the show at Southland High School last year as "queen of everything", will be hostess sponsor for the big event. The other directors, Barry Ford, F. M. Reep, Jimmy Puckett, Billy Meeks, R. E. and Roy Josey and Billy Taylor, are all "Ole Cowhands" and are doing a "bang-up" good job of getting ready for the big event. Garza citizens are proud of these youngsters who thought up the rodeo and made it a big success last year. Remember to plan your vacation trip either before August 11 or after the 13th, so you can be on hand for the WORLD'S ORIGINAL JUNIOR CHAMPIONSHIP RODEO.

**Wheeler Boys Have Bad Luck On Horses**

The Wheeler boys, Wilburn and Don, are a little crippled up this week, the result of accidents while getting the cows last Friday afternoon. They were in a hurry to get the cows, as their parents, Mr. and Mrs. Clyde Wheeler who live north of Post, were giving an ice cream supper that night.

Wilburn's horse ran under a bush which dragged him off and caused him to break the small bone above his left wrist. While his parents were bringing him to the Post Clinic, Don's Shetland pony fell with him, and he suffered minor injuries.

**Rates are Lower  
For Protection  
Of Grain Crops**

Garza county farmers will be able to protect certain 1949 feed grain crops through loans and purchase agreements at rates slightly lower than in 1948, according to Will Wright, chairman of the County Agricultural Conservation Committee.  
Support prices will average .73 cents a bushel for oats, \$1.05 a bushel for barley, and \$2.03 per 100 pounds for grain sorghams. National averages are 69 cents for oats, \$1.27 for rye, \$1.09 for barley, and \$2.09 for sorghams. For the 1948 crops, the supports averaged 70 cents for oats, \$1.29 for rye, \$1.15 for barley, and \$2.31 for sorghams.  
Mr. Wright said that the lower rates this year are the result of lower parity prices and a reduction in the percentage-of-parity rates for barley and grain sorghams. The percentage rates are: Oats 70; rye and barley 72; grain sorghams, 70. All rates reflect the feeding value of these grains in competition with corn.  
Commodity Credit Corporation has also advised that a storage allowance of 7 cents per bushel will be made to farmers on wheat stored on the farm under the 1949 Price Support and Loan Program, if and when the commodity is turned over to CCC in satisfaction of the loan. In effect, CCC storage provisions under loan programs are continued for another year.
