Vote Democrat or Republican... but Vote

by Wes Burnett
Yes, in November you can vote for whoever is on the ballot, regardless of which primary you vote in this Saturday.

This Saturday, however, you must decide whether to vote in the Republican or Democratic primary.

State law prohibits you from voting in both.

In fact, it is a felony third degree offense to even attempt to vote more than once in an election... that includes the primary.

"What if there is a primary run-off?" A question posed to me this past week more than once.

Answer: you may only vote in a primary run-off election if you had earlier voted in that party's primary.

For instance, if there is a run-off between Kent Hance and Bill Clements for the Republican gubernatorial contest, you must have voted in the Republican primary in order to participate in the primary run-off.

Same thing for the Democrats.

However, the general election in November is open to all voters and picking a party has no bearing in that election.

Voting Saturday opens at 7 a.m. and closes at 7 p.m. with Democratic precincts voting boxes the same except for Precinct 7, where voting will now take place at the Postex Community Room at the Postex Plant.

All Republican ballots will be cast Saturday at Handy Hardware, also from 7 a.m. to 7 p.m.

'Silver Whistle' Reviewed

by Wes Burnett
Opening night of the first performance by the

Caprock Community Theater was a huge success.

The cast was superb, almost flawless, the play was spirited and packed with a mix of humor and insight...really it was everybit as good as I had expected.

I am looking forward to the next performance... June 17-21, "You Can't Take It With You."

Meanwhile...three different audiences were treated last Thursday, Friday and Saturday to the professional stage talents of director-actor Will McCrary.

His portrayal of Oliver Erventer was just right... smooth and crisp and polished. We are indeed fortunate to have McCrary choose to live in Post and share his talents with us.

Everyone in the cast fit just perfectly.

The Thursday night audience interrupted the performance with applause during the scene where Mr Beebe, played by Preston Poole, chases the adorable Mrs Sampler, beautifully acted by Marie Waters, across the stage.

I found myself unable to stop laughing during the bench scene with Erventer, Beebe and Mr Cherry, played by Jack Alexander.

The three had found Miss Hadley's, Debbie Chambliss, whiskey, and were consuming it along with the miracle potent, and when Poole started laughing, joined in by

Post Notes

by Wes Burnett

KAMC, Channel 28 in Lubbock, was in town Monday...and I just want to say publicly how much we appreciate their interest in us and generally the excellent coverage Lubbock media have given Post.

The way we look to others is important...and

the positive reporting on television is a good influence on how others see us...and how we see ourselves.

Pointing with just a little bit of pride, we can say that the closing of the Burlington plant did not put us out of commission.

Slowed us down a little...

but in many ways that closing has set us on a broader and more aggressive course for the future.

Look around at what's happening.

There's new life in our civic organizations.

People are doing things together.

Click off just a few...(and hope I don't leave out some important group)

Post Art Guild.
Caprock Cultural Association.

Caprock Community Theater.

Rotary Club.

Post Lions Club

Chamber of Commerce.

Post Merchants' Association.

And now, a group is being formed to get Post named as a Texas Main Street City.

Two lakes will be built.

TEXCEL committees.

Post Economic Development Corp.

And everyone in this community is an ambassador for our city.

Wherever we go, whoever we talk to...the word spreads and multiplies.

All of you who work in the service stations, eating places and stores along our highways...remember, the impression you give to our visitors is critical to our future.

'Silver Whistle'

(Continued from Page 1)

Alexander and McCrary, it was contagious.

Ronnie Gradine was superbly cast in the role of Emmett the hobo, and as one admirer said after the play, "I just can't see Emmett as anyone but Ronnie."

Anne Leake provided lots of laughs with her outstanding performance and "well, it's my appendix...I tell you we are all going to die here."

The set-up for the church bazaar was clever...and David Murphy played the enraged minister in character the whole way.

Jennifer Miller, the lovely Miss Tripp, flashed her big pretty eyes and captivated the audience.

Patsy Bilbo got her share of laughs as the pious Mrs Gross...proclaiming sin everywhere.

Brilliant casting, according to one of the actors, put Jack King on the stage as the bishop...and his entry on stage eyeballing the church bazaar set the tone for the final act.

Jack Chambliss was the irate Father Shay come to retrieve stolen property from the hospital...

Mike Toombs as Mr Beach was just as good, also hitting the stage with demands...

Jan Olson, in addition to providing the in-between off-stage musical interlude, was the straight-arrow funeral director come to claim the stolen flower planter.

Ronnie Metzgar looked just the part as the policeman...although later I bragged on his part and he frowned at me...maybe he misunderstood my compliment.

Omar the rooster fit right in... "RoJo" was loaned to the cast by Fernie Reed.

You can't have a performance this good without a lot of backup help behind the scenes:

Stage manager, Julie Rylant Enlist

William J. Rylant III of Post has enlisted in the U.S. Navy and leaves for Orlando, Fla. May 12.

He will study nuclear power during his six year enlistment.

Rylant is married to the former Camilla Crawford of Snyder and they have a daughter, Jessica.

He is the son of William J. Rylant Jr of Burnet, Tx and Darlene Pittman of Slaton.

He is the grandson of Opel Rudd.

Mason, I'm sure we'll see her beauty and talent on the stage in future productions.

House manager Arleta Gary...you know how much work she did to get it all together.

Steve Waters and Mildred Stewart served as property assistants.

LeRoy S. McCrary was the carpenter...and there was obviously a lot of that to do getting the props set.

Angie Holleman and Margie Pennell served as usher managers...getting us to the right seat.

The start for the Caprock Community Theater was fantastic...the plans for the future are aggressive...look at this calendar:

June 17-21, "You Can't Take It With You."

July 22-26, "My Three Angels."

August 26-30, "Little Mary Sunshine."

October 14-18, "Arsenic and Old Lace."

December 9-13, "Mouse-trap."

January 26-31, "Man of LaMancha."

March 9-14, "The Glass Menagerie."

April 21-25, "Harvey."

Season tickets are \$40 for adults and \$20 for children...which is eight shows for the price of seven.

I am convinced that we have found a solution to the void in entertainment for our community!

SUBJECT TO THE ACTIONS OF THE DEMOCRATIC PRIMARIES
Pol. Adv. Paid for by Leon Davis, P. O. Box 703, Post, Texas 7936

Anyone can vote Republican

If you have always voted in Democratic Primaries, it does not mean you are registered as a Democrat. Your voter identification card is stamped "Democrat" or "Republican" in May simply to prevent voting in the other party's runoff elections in June. It does not mean you are registered as a member of either party.

VOTE REPUBLICAN MAY 3

If West Texans ever had a chance to take a single action that would immediately improve our economy, attract new jobs, and bring new business and industry to our area, that chance will come on Saturday, May 3, when we can vote for Kent Hance in the Republican Primary. Kent is the only candidate who can carry the cities and the rural areas of Texas to beat Mark White in November.

Kent was born and raised here, operated businesses here and practiced law here. He represented us well in the State Senate and in the Congress where he passed the largest tax cut bill in history. He is the answer for us and for all of Texas in these tough times. Kent Hance is the only candidate for Governor who has the leadership experience to meet our problems... and he will listen.

West Texans know first hand how progress comes from having a governor who knows and understands this area. Another great West Texan helped us become a major medical center, an educational center, and provided a climate that attracted new business and industry to West Texas with thousands of new jobs for our people. **We can do it again.**

April 1st was meeting night, with 10 members present. Dink Boren won the cash attendance pot. Plans were made for the fish fry, which was April 5th. That was the last one until fall.

Jo Ella Sparlin and Melessy Johnston visited Golden Plains Care Home on Friday the 8th. They served cake and punch.

Jo Ella Sparlin took ice cream to Golden Plains for family night on Thursday the 24th.

The bake sale that was Saturday the 26th at United

Supermarket was great. 30 members baked cakes and pies. Some that couldn't bake gave cash. It was the best bake sale the auxillary has had in some time. Jo Ella Sparlin, Lola Ryan, Margaret Sharp, Melvis Taylor and Mary Mann helped with the sale. The auxillary appreciates that United let them set up there for the sale.

Woman's Culture Club News

by Doll Haire

The Womans' Culture Club met April 23rd, in the First Christian Church, with Estelle Davis and Opal Pennell hostesses.

Katherine Cathcart, president, called the meeting to order and Ruby Kirkpatrick lead the group in prayer.

The roll call was answered with a Texas fact or trivia.

As this was Hat Day, the parade was most unique.

Ruby was very dignified in a big black straw with matching gloves.

One of the prettiest models was Joyce Strubhart wearing a large black straw hat.

Sue Traw had the program on "The Space Age."

She introduced the speaker of the day, Rev Steve Traw. He too was attired in an appropriate

hat and uniform. Age had shrunk the uniform, giving the speaker a very impressive look.

Steve having served seven years in the Air Core gave a most informative and interesting talk. Being a pilot in the service, he used a model aircraft to illustrate.

Some of our people are not interested in our landing on the moon or walking in outer space, but we are finding more information and even benefits from our research.

Lillian Potts concluded the program by playing the last of the tape on "Texas History under the French, Spanish and Mexico Flags."

Those enjoying the social hour were Ms Cathcart, Kirkpatrick, Strubhart, Traw, Ada Buchanan, Potts, Doll Haire, guest Steve Traw, and hostesses.

Oil Drilling Report

Pumping 36-gravity crude at the rate of 52 barrels per day, the No. 13 Richardson Unit has been completed in Garza County's PHD Field seven miles northwest of Post. BHP Petroleum is the operator. The well probed to a 3,900-ft bottom and was perforated to produce from the San Andres Formation, 3,679 to 3,689 feet into the hole. In addition to oil, the well will

make 87 barrels of salt water daily.

A pumping wildcat oller has been completed by Natural Resource Management Inc. in Garza County about three miles southwest of Justiceburg.

Designated as the No. 1 R. Clyde Miller, the well pumped 32-gravity crude at the rate of 25 barrels per day along with about 70 barrels of waste water.

It bottomed at 8,113 feet and will produce from an unperforated interval in the Ellenburger Formation, 8,107 to 8,113 feet into the hole.

At a location 12 miles south of Post, Maynard Oil is preparing to make hole for an 8,400-ft developmental well in Garza County's Happy Field. The well has been designated as the No. 104 Slaughter "H".

It is situated in a 640-acre lease block in the T&NO Survey A-1034.

Parallel Petroleum Inc. has plugged and abandoned an unsuccessful Garza County wildcat located about two miles northeast of Post.

Designated as the No. 1 Rattlesnake, the explorer well bottomed dry at total depth of 8,412 feet.

Pumping 22 barrels of 37-gravity crude with 66 barrels of waste water daily, the No. 1 Kline has been brought on line in Garza County's Tubbow Field by Anadarko Petroleum Inc. The drillsite is about one mile east of Justiceburg.

Anadarko took the well to total depth of 8,042 feet and perforated for production in a Mississippian pay zone, 7,868 to 7,894 feet into the wellbore.

Murexco Petroleum has hung the dry hole sign on an ill-fated Garza County wildcat in a lease about five miles south of Justiceburg.

Murexco's No. 1 M. Bennett was spudded late in December and probed to dry bottom at a depth of 8,250 feet.

The venture had carried permit for total depth of 8,500 feet. It has been plugged and abandoned.

Post Notes

(Continued from Page 1)

No matter how great our lakes might be...if people who stop here for a break aren't treated with courtesy and friendliness...they will take a "bad taste" home with them.

Let's all be extra careful to give visitors to Post a good feeling about stopping here.

Our future depends on it.

Betty Dennis pointed out to me that this Friday will be a special day across the United States as more than 200 photojournalists will take about 250,000 frames of photos in one 24 hour span to record history on that one day.

The photos will be assembled into a photographic history of the U.S., with blank pages at the back for people to place their own individual photos taken that day.

"A Day in the Life of America" will be published by Collins Publishers and should be in bookstores by October.

I flubbed up last week, in my review of "The Silver Whistle" I got so carried away by the acting that I forgot to compliment the ladies of the Post Art Guild who prepared and served the delicious Fajita dinner, honoring the cast.

Anyone can vote Republican

If you have always voted in Democratic Primaries, it does not mean you are registered as a Democrat. VOTE REPUBLICAN MAY 3

If West Texans ever had a chance to take a single action that would immediately improve our economy, attract new jobs, and bring new business and industry to our area, that chance will come on Saturday, May 3, when we can vote for Kent Hance in the Republican Primary. Kent is the only candidate who can carry the cities and the rural areas of Texas to beat Mark White in November.

Kent was born and raised here, operated businesses here and practiced law here. He represented us well in the State Senate and in the Congress where he passed the largest

tax cut bill in history. He is the answer for us and for all of Texas in these tough times. Kent Hance is the only candidate for Governor who has the leadership experience to meet our problems. . . . and he will listen.

West Texans know first hand how progress comes from having a governor who knows and understands this area. Another great West Texan helped us become a major medical center, an educational center, and provided a climate that attracted new business and industry to West Texas with thousands of new jobs for our people. **We can do it again.**

Soil Stewardship Week May 4 - 11

GARZA COUNTY JUDGE GILES DALBY signs the proclamation setting May 4-11 as Soil Stewardship Week.

The Origin and Observance of

Soil And Water Stewardship Week

For centuries, men and women have offered humble thanks to God for the priceless gifts of soil, water, air and sunshine which make all living things possible. This gratitude by religious people has been expressed in many ways over the years but in all its forms there has been a continuing thread of emphasis on the wondrous powers of the Almighty to create and to heal.

There has been stress, too, on the universal dependence on His grace for salvation and for all good things.

The world as we know it could not exist without a fruitful agriculture. A regular harvest is a critical matter. But nature, like man, is erratic. There are times when the very elements seem to conspire against a yield.

When the rains cease and the earth cracks, when storms and pestilence wreak their havoc, fields become barren and livestock grow gaunt in search of grass. It is then, and particularly in times of prolonged hardship, that the call goes out for divine intervention to ease the suffering and restore the bounty of the soil.

That is what happened in France more than 1,500 years ago in the city of Vienne and its surrounding countryside. Bad weather, fires and earthquakes had brought crop failures and widespread hunger. The Bishop of Vienne, Saint Mamertus, called for prayer and penance on the three days preceding Ascension Day. The people responded and implored God for help in their suffering and privation.

Word of what happened in Vienne spread throughout France and then to other countries beyond the Alps. The supplication filled a need in the hearts and minds of the people and, as the years went by, the practice of setting aside these special days -- Rogation Days -- was widely established on an annual basis. By the end of the eighth century, the Church formally adopted the custom.

In our own country, the decision to set aside a week each year to acknowledge before God our gratitude for His gifts of soil and all the bountiful resources associated with it has met an evident need of a great many people.

The week -- now known as Soil Stewardship Week -- has become a special time to remind all people that these gifts of the Creator warrant their best in creative conservation and considerate management.

In parts of the South earlier in this century, a few churches and their congregations began to set aside the fifth Sunday after Easter as Soil and Soul Sunday. Subsequently, this designation was changed to Soil Stewardship Sunday when, in 1946, the publishers of Farm and Ranch magazine took an initiative. They suggested to religious leaders in a number of southern states that one Sunday be set aside each year as time for a special reminder to the men and women of their congregations about the ethical obligations of all people to serve as responsible stewards of the land.

The response of clergymen and laymen was so warm and widespread that observance of Soil Stewardship Sunday spread steadily to additional churches and additional states. In 1954, the publishers of the magazine (circulated primarily in the South) suggested to the officers of the National Association of Conservation Districts that a still wider observance of Soil Stewardship Sunday could aid significantly in bringing about a national awakening and recognition of man's duties as stewards of the Lord's earth.

To help achieve this goal, the publishers offered to transfer their limited sponsorship of Soil Stewardship Sunday to the Association, which represents some 3,000 local conservation district organizations in all the states and territories of the nation. The NACD accepted and, beginning in 1955, undertook to foster the observance on a nationwide basis.

A year later, recognizing possible conflicts with Rural Life Sunday and other events often observed on church calendars, Soil Stewardship Sunday was changed to Soil Stewardship Week -- beginning always with the fifth Sunday after Easter and continuing through the sixth. The change provided a helpful latitude in church timing for the observance.

In its stewardship efforts, the asso-

ciation has been guided by a Soil Stewardship Advisory Committee of clergymen representing a number of the nation's major religious denominations. Many other church leaders have provided notable assistance. Officers and members of the NACD Ladies Auxiliary have been particularly helpful, as have members of several cooperating farm and conservation organizations.

The Soil Stewardship Week observance, by its very nature, is one to be joined in by everyone who shares a sense of personal responsibility under God for the care of soil, water and the other vital elements making up our environment. The prime concern of conservation districts, along with thousands of involved clergymen and laymen, is to encourage an ever-growing participation by Americans in this annual recognition of the continuing importance of thoughtful stewardship.

About this year's material... CONSERVATION'S NEW FRONTIERS is the theme of the thirty-second Soil and Water Stewardship Week sponsored by NACD. The dates for 1986 observance are May 4-11. This year's reference booklet and associated materials feature a reproduction of a paper sculpture designed to challenge all Americans to develop a frontier spirit to evangelize the cause of proper care, use and management of the nation's God given land and water resources.

Consider New Frontiers

Reflect for a moment on the pages of time,
How bounteous and plentiful, how glorious, sublime
Was this new founded country our ancestors once claimed,
How they worked and they struggled and yet, what a shame.

"This land we are settling will surely provide
Enough for a lifetime. Let's get busy," they cried.
As best they knew how, they took from our land,
They planted and harvested and planted again.

The soil grew tired and the crop yield soon faded.
The waters, once clear, became dirty and jaded.
They had to move on, they had to provide
For their families and so they just took it in stride.

New frontiers were waiting, theirs for the taking.
The scene was repeated; soon men were awaking.
"God's word says, 'With no vision, the people will perish.'
We can't let this happen to this land that we cherish."

Preserve productivity; the vision caught on.
The battle was tedious, but it could be won.
Strategy, education, basic facts were combined;
Understanding, motivation, methods refined.

No longer content to do things "the same way,"
They studied, gained knowledge, made changes each day.
With efforts to tell others, their ideas they shared,
They encouraged, involved folk, showed that they cared.

Caretakers for God are what we should be.
This land's an inheritance, oh, yes, can't you see.
We need to be stewards, executors, if you will,
Managing carefully, steadfastly, with wisdom and skill.

Consider new frontiers; consider them well.
