WHERE ARE THE MEMBERS OF YOUR FAMILY?

Ex-Residents Of Garza County Scatter Everywhere

This is second in a series of features about former Post residents, where they are and what they are doing. The series will be continued as long as readers show interest by supplying news regarding their own family members who are seeking their fortunes elsewhere.
Only one of the children of Mr. and Mrs. W. E. Dent lives in Post. She is Mrs. Carl Hughes, whose husband is employed by an oil company. They have a daughter, Drura Ann.
Woodrow Dent and his wife are in Hawaii where he is completing his 20th year in the Army. His enlistment will be up in November, and he is undecided as to whether he will re-enlist or return to the States and begin another career. He will be 37 years old in July.

The former Ethel Dent left here 18 years ago to become a nurse at the West Texas Hospital in Lubbock. She is now Mrs. Gordon Sanders of that city and the mother of two lovely daughters, Karen Sue and Joan. Mr. Sanders is associated with his father and brothers in the Sanders Funeral Home.
The only other Dent is Mrs. Howard McCampbell, who is living in Fort Worth where her husband, a master plumber, is employed. They have two children, David and Deborah. Mr. McCampbell is a son of Mr. and Mrs. A. T. McCampbell.
Mrs. Morrow's Family
Mrs. W. E. Dent's mother, Mrs. S. A. Morrow, a pioneer Post resident, has been living in Fort Worth the past 24 years with her daughters, Mrs. Homer Huey

and Mrs. Ann Griffith. Mrs. Huey has a son, Billy Sam, who is married and living in Albuquerque, N. M., where he is employed by the government. Mrs. Morrow has another daughter, Mrs. Ina Connell, who also lives in Fort Worth. She has two sons, Giles and Walter, Jr., who live in Houston. Walter, Jr., a graduate of the Baptist Seminary in Fort Worth, does educational work with the youth of a Houston Baptist Church. He is married and has two daughters, Giles, who is single, is employed in a typewriter shop.
Another of Mrs. Morrow's daughters, Mrs. Lillie Brass, lives in Socorro, N. M., where she has business interests. Her daughter, Mrs. Chalmers Caskey, lives in Fort Worth where her husband, who is in the Navy Re-

serves, is employed in a government hospital.
Mrs. Ethel Everett of Brownsville, Mrs. Ira Elkins of Seminole and Charlie Morrie of Post are the rest of the Morrow children. Mrs. Everett, who has been in newspaper work for a number of years, is now employed by the Singer Sewing Machine Co. She has two sons and a daughter. Charlie and his family live near Post.
Gone to Pennsylvania
Mrs. H. C. Smith is now enjoying the happy experience of visiting one of her far-away children, Mrs. H. O. Hostler, in Clifton Heights, Pa. Mr. Hostler, an expert accountant, is employed in the Government Institute of the University of Pennsylvania. Mrs. Smith was accompanied to Pennsylvania by her daughter,

Mrs. Faye Woods, and the latter's daughter, Marilyn, of Lubbock. Faye is attending summer school at the U. of P. She is a teacher in the Lubbock schools.
The only other Smith is Alex, who lives in Dallas and is a State Highway Department engineer. He is married and he has two fine sons, Don and Brad.
Another big Post family that is now widely scattered is that of N. J. Lanotte. A son, Clarence, is a rural mail carrier who lives in Anson. He and his wife have four daughters, Juanita who was graduated from high school last year, Mary Lou who was graduated this year, and Ann and Linda who are still in public school.

Paving Vote To Be Taken On July 23

Precinct 2 Plans Road Improvement

A Commissioners Precinct 2 election will be held July 23 to determine the following proposition, which was presented by 85 resident property taxpaying voters of the precinct to the Garza County Commissioners Court.
"Whether or not the bonds of said Commissioners Precinct No. 2 of Garza County, Texas, shall be issued in an amount not to exceed \$300,000, bearing interest at the rate not to exceed four percentum (4%) per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners Court, serially or otherwise, in not to exceed twenty (20) years from the date thereof, for the purpose of construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes or in aid thereof throughout Commissioners Precinct No. 2 of Garza County, Texas; and whether or not taxes shall be levied annually on all taxable property in Commissioners Precinct No. 2 sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at their maturity."
The Commissioners Court held a public hearing on the proposition last Friday morning and, there being no opposition, set the election date and ordered publication and public posting of the election order. Details are published in a public notice elsewhere in today's Post Dispatch.
The polling places and presiding officers of the election have been announced as follows:
Voting Precinct, No. 6—Graham Common School; J. W. McMahon, presiding judge; Will Wright, judge, and Mrs. Will Wright and Mrs. J. W. McMahon, clerks.

Only qualified voters of Precinct 2 will vote. The precinct recently was enlarged to include property owners on the south side of Main Street, west of the courthouse to the city limits.

Mrs. Wilbur Morris, 4-H sponsors committee chairman, said that the 4-H girls' trips to the State Round-Up at College Station and the District Encampment at Lubbock were made possible through the help of the cooperative girls of the Graham and Close City communities, the Garza County Commissioners' Court and the cooperation of the public servants here. Clearfork Pay Is Indicated In Garza Deep Test

The Montgomery-Davies No. 1 Garza Deep, Comanche Oil Corporation Ellenburger test, had reached 4,625 feet by Monday.
The operator said that the only thing below the San Andres which looked like it might be productive was an estimated 28-foot section believed to be in the top of the Clearfork Limestone.
A drillstem test was made from 3,555 to 3,583 feet, with the tool open 50 minutes. The operator recovered 20 feet of 35 gravity oil and 200 feet of oil cut muddy water.
Comanche's other rig, on the Fred Robinson unit No. 11, on the north end of the rodeo grounds, had reached 2,455 feet early this week.
Roland S. Bond has completed a well that looked good on the Store lease, west of Post, and Monday moved to another location, further west. The operations are south extensions of the northwest area of the oil field.

June 'Teenth Celebrations Were Mild But Sheriff Bass Was Kept Busy All Weekend

Although June 'Teenth activities in Post were comparatively mild, the Garza County sheriff's department had a hectic week-end. The only trouble caused by Emancipation Day celebrations was the fruitless search for a "drunk" negro who allegedly was trying to shoot up the town early Sunday morning.
The most exciting event was a "gang fight" at the carnival Saturday night between five or six local boys and some of the carnival personnel over a watch which a Post boy "won" and was unable to collect. Sheriff E. M. Bass stopped the fight and got the watch for the boy, he said.
Eight Mexicans were critically injured when the automobile in which they were passengers was hit by a United Geophysical Co. truck driven by Henry Shaw of Snyder, about 10 miles south of Post on Highway 84, at 12:30 a. m. Sunday. Shaw told Sheriff Bass and Highway Patrolman Jim Riddles and Dan Saunders

Local Boys Group To Play Softball With Slaton Club

All 6 to 13-year-old boys enrolled in the Boys Club, which meets from 1 until 4 o'clock each afternoon in the school gymnasium, will participate in a softball game with members of the Slaton Boys Club.
The game will be played in the Postex Park, either Wednesday or Friday afternoon of next week. Coach Vernon Ray, who is supervising the local club, will complete arrangements with Coach Clarence Tillery of the Slaton club tomorrow.
The Post Boys Club, sponsored by the Post Chamber of Commerce for six weeks each summer, is in its third week. Eight new members were enrolled since last Thursday. They are Butch Paddock, John Schmidt, George Graham, Jim Ottinger, Denzil Lawrence, Dearn Bruton, Guy Davis, Jr., and Irvin Johnson. Approximately 45 boys are on the roster.
During the past four days, the boys have been running races. Those who won the fourth day, placed either first or second in the races the other three days. By age groups, they won as follows the fourth day:
Six to 8 years—Larry Jones, first; Butch Ticer, second; and Kenny Poole, third.
Nine and 10 years—Andy Schmidt, first; Charles Ray Garner and V. A. Lobban, Jr., tie for second; and Robert Carlton, third.
Eleven years and up—First, J. C. Shedd; second, John Schmidt, and third, Jackie Odom.
Coach Ray said that the two public Fun Nights, featuring boxing bouts, probably will be held the last two weeks of the club season.

Post Dispatch Is Winner of First And Second Places

The Post Dispatch won first place on column writing and second place in general excellence in the division for weekly newspapers in towns of 3500 or less population in the Texas Newspaper Association's annual contest at the state convention in Galveston last weekend. A total of 216 entries were in the contest.
First place for general excellence in the contest was won by the Kaufman Herald. The Post Dispatch column which won first place in the state competition was Garza and the World written by Evelyn Boyd.
The advertisement was placed by a group of Post business men, Hundley said.

Post Advertised As Good Place For New Movie Enterprise

An advertisement in the Fort Worth Star-Telegram last week, stated that there is an opening in Post for a new theatre, had by yesterday brought 20 replies to the Post Chamber of Commerce. Jim Hundley told the Post Dispatch. Some of the letters stated that interested parties would like to send representatives here in the near future to discuss the situation.

above a door. As the gun hit the floor it discharged and shot Billy in the neck. He was taken to the Lubbock Memorial Hospital by a Mason ambulance. He is suffering from a broken neck and paralysis, relatives said.
Sheriff Bass reported that a 1937 automobile belonging to one of the carnival men was stolen at 4 a. m. Sunday from in front of the Rodgers Hotel. The owner had loaded some luggage into the car and gone back into the hotel to get more luggage when the vehicle disappeared. No trace of it had been found at last report.
The sheriff also reported that a bicycle was stolen here Sunday.
Four or five hundred pounds of copper wire were stolen last week from behind the Southwestern Public Service Company building, the sheriff said. The wire belonged to the public service company. No trace of it had been found at last report.

Graduates With Praying Mothers Have Best Chance To Get Jobs

Babson Park Mass.—The largest crop ever of college students will graduate this June from our colleges. In addition, tens of thousands will graduate from public and private schools. There just won't be enough jobs for all.

The first quarter in 1949 has seen increasing cut-backs in labor. Total unemployed now number nearly three million—a million and a half more than a year ago. Some of this unemployment is due to seasonal fluctuations. However, an increasing amount is due to a general slump in sales. Sales slumps have backlogged inventories and resulted in cut-backs in production—which means fewer jobs.

Many industries show declines in profits, from 6.5% in appliances to 37% in textiles, when the first quarter of 1949 is compared with the same period in 1948. Faced by this situation, companies are firing, not hiring.

Who Will Get Jobs?
Job competition this season will be rough and tough. One out of every four college graduates of the class of 1949 will still be job-hunting when September comes. A young man's character will, in a real measure, determine whether he gets a job. Companies search out men with strong character traits of integrity, dependability, industriousness, ingenuity, perseverance, temperance and a sense of responsibility.

Companies also look for good personality. Personality implies flexibility, self-control, emotional stability, and the ability to get along with others. Business wants those with good judgment and common sense.

Business wants men with good motivation, men who have ambition and a purpose, and who are not afraid of hard work. Business wants men who are highly competitive.

Selling Yourself
In short, then, companies are looking for men of character, energy and endurance. The power of endurance—physical, mental, and spiritual—is the best foundation I know for success. If you have developed these traits, and if you can sell yourself in an interview, your chances of getting a job are better than average.

Plan your job-hunting strategy. With the help of instructors, aptitude test results, part-time work experiences, personal hobbies, and your classroom record, decide what you like and what you can do best. Know how you can use your interests, abilities, and personality traits productively on a job. You are now ready to direct a carefully prepared mail campaign to a hundred or so carefully selected companies. You will be given the opportunity of interviews if you take the time to write a concise, forceful and grammatically correct presentation of yourself.

Can you sell yourself? I know one young man who recently told a prospective employer in the interview: "Sure, I can sell." The interviewer snapped back: "That's fine. I need a new watch. Sell me yours!" Are you prepared for such contingencies? Plan for them in advance. Talk about the employer's needs—not your needs. Demonstrate to the interviewer that though your part-time job experiences you have already learned how to work and to stick with a job until it is successfully completed. Let him know that you have had the opportunity to work with people, that you have called many times for a job that you have perseverance, self-reliance, and initiative. Make your prospective employer want you. Jobs are not given, but if you really want them, you will get them. It has been my life-long experience that you get out of life what you put into it. Confide in me say that those of us who come from humble beginnings are praying mothers have the best chance of getting a job.

Garza and the World

By EVELYN BOYD

This column feels undressed and lonely without Getting Out On The Limb at its left. Eddie the Editor is cutting down on his work for a few weeks. During the editor's column's absence, we will attempt to comment on things of a local nature whenever the need becomes obvious enough to knock us down.

With this in mind, here are a few words about the mayor and his problems:

It's been a matter of civic pride with Mr. Herd the past two or three years to object to our deplorable sidewalks and lack of them. Of course, it's nothing out of the City's pocket if someone breaks his neck on a sidewalk full of holes because the sidewalks do not belong to the city. They belong to the individual property owners.

And the above situation is the very reason I am loathe to accompany the civic-minded mayor by commenting on the bad condition of the sidewalks. I don't suppose there are any sidewalks in worse condition anywhere in this city than the one right in front of my house.

The mayor, whose salary is \$20 a month, probably takes more cussing and listens to more petty fussing than anybody in town . . . and so he is entitled to fuss back once in awhile. Therefore I will forgive him for complaining about my sidewalk . . . and just hope nobody breaks his neck in front of my house until I can afford to repair it.

Mr. Herd's constant plea for people like me to fix up their premises for the good of the community, makes plenty of sense. It makes a lot more sense than many of the things that the public asks the city to do without giving a thought as to where the money is coming from.

Talking about all these requests one day, the mayor said he answers the most impossible ones with this question: "Did you ever try to shop for a winter wardrobe with a \$5 bill?" The answer to the mayor's question is the reason the city can't accomplish more things. The people don't want to spend any more money than they're spending now, and the money they are spending now will not stretch as far as all of the people would like to see it stretch.

Which reminds me of the Ralls Banner's headline on a recent Texas poll story. It went something like this: "How Much Salary Do the Texas Legislators Get?" "Dunno!" "Are they overpaid?" "Yup."

Which brings up something

else. Rep. John L. Crosthwait of Dallas is pushing a proposed amendment for a legislative session each "even year" to make appropriations and take care of emergency matters. It will be voted on in September, he says. I submit his statement of the cause, for whatever enlightenment it may have for those who plan to vote:

"The state will save millions when we start making annual budgets. It is humanly impossible for the legislature to foresee what conditions and needs will be 30 months in advance. Yet that is the task set before us in January—to prepare a budget and make appropriations for the biennium beginning the following September.

"For example the 50th legislature, in 1947 missed the rural aid needs by \$4,000,000; the Highway Patrol ran \$250,000 short because of unpredictable increases in the cost of gasoline, oil and tires; other state departments had to ask for emergency appropriations for similar reasons—and yet state revenues over that period ran some \$50,000,000 more than had been estimated.

"We pass laws requiring counties, school districts, cities and other political subdivisions of the state to make annual budgets, and then we try to play superman and guess what the state will need two and a half years hence.

"Under the Crosthwait plan, the regular 'odd-year' session would not be changed except as to the length. In the added 'even-year' session, only appropriations, emergency subjects submitted by the Governor and other matters brought up by four-fifths vote of the members could be considered.

"Another section of the proposed amendment would put legislators on a year-around salary of \$3,000, in stead of the present \$10 a day during the first 120 days of the session and \$5 a day thereafter. Although I considered this phase less important than the annual session plan, I believe that more pay for members is 'long overdue.'

"A legislator is required to represent his district in Austin for many things, such as highway matters, school matters, individual problems of his constituents and so on. Even while he is drawing \$10 a day, he finds it well-nigh impossible to live in Austin on his pay. Meanwhile he must maintain a residence at home.

"The amount of money the state will save through more

THE POST DISPATCH

ESTABLISHED IN JUNE, 1926

Published Every Thursday at the Dispatch Publishing Company Building in Post, Garza County, Texas.

E. A. WARREN, Publisher-Editor

Entered at the Post Office at Post, Texas, for transmission through the mails as second class matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

What Our Contemporaries Are Saying:

TIME TO CONSIDER—Last week The News called attention to a pending election which will be held in October for a member of the new state board of education under the Gilmer-Aiken law. Friends of the schools of Texas should get busy and get some person who is qualified to give service to the state and to the children of Texas.

The pay is zero. The opportunity for service is great. Frankly we believe that the legislature made a mistake in not providing for a little more than absolute expenses of the members while attending the meeting of the board.

Those who will serve on the board must be of one of two classes: They must be financially independent, which sometimes means that they will be ultra conservative in their thinking; or they must have an ulterior motive in seeking the position.

The new law provides that the new members will either have to file as a candidate with the Secretary of State or be drafted by 100 citizens.

There will be 31 members on the new board. They will represent all congressional districts. They will have absolute control of the school system of Texas. Their obligations and opportunities will be great.

It is time that citizens devote a lot of time to thinking about the person whom they can draft from this section to represent us on the board.—Canyon News.

WE ALL MAKE MISTAKES—When a plumber makes a mistake, he charges twice for it.

When a lawyer makes a mistake, it is just what he wanted, because he has a chance to try the case all over again.

When a doctor makes a mistake, exact planning and budgeting in annual sessions would be many times the amount required to pay annual salaries to legislators.

I like Mr. Crosthwait's plan.

take, he buries it. When a judge makes a mistake, it becomes the law of the land.

When a preacher makes a mistake, nobody knows the difference.

But when the editor makes a mistake—WOW!—Quoted —The Slaton Slatonite.

TIME WILL TELL—We can hardly wait for the July 1 bills to come in so we can see what we got for Father's Day. Meanwhile, we're guessing: a payment on our life insurance policy, shoes for the kids, membership dues in a square dance unit, a 10-cent cigar. Whatever it is, we hope Mother can use it. It'll save having to get it next Mother's Day. Men don't know how to spend money. They must concentrate their limited talents on earning it. If men knew how to spend, women wouldn't now be controlling 90 per cent of American wealth.—The Ralls Banner.

GEORGE SHRUGS LIFE AWAY—There must be very little fun in life for George.

To our "how are things going?" he answered: "I know all the answers. And all the answers are wrong. But what difference does it make?"

Now, George thought that was pretty clever. And, it wasn't bad. But the joker is that this is about the way he feels about everything. He's the kind that shrugs his shoulders when you try to talk over the economic or political situation with him—the kind that likes to end up a conversation with "so what?" His favorite summary on every matter that comes up is "but there's not a thing we can do about it."

The Georges think they are pretty sophisticated. What they are not smart enough to realize is that they are sophisticating away the only life they will ever live on this planet.—The Scurry County Times.

ATHLETES AND SCHOLARS—We notice from the columns of the Post Dispatch where four of the Post football players were in the top ten scholastically of their class . . . Junior Malouf, Kay Kirkpatrick, Carter Gene White and George Pierce.

None of the four boys need introductions to Levelland football fans, and we thought it worthy to note that at least in this instance, football and classes mixed pretty well.

For too long now, public conception of a football player has consisted of a strong back and weak mind.

The Whizzer Whites come and go and have been pointed out to counteract this mis-impression, but they are always acknowledged as the exceptions that prove the rule.

It seems that the Post editor however has put over his point pretty well, certain four out of ten, lends recommendation to his cause. He goes on further to comment on the other six students. All of them had been active in extra curricular work of some type or the other. The girl had been active in their sports field or the band.

PEOPLE STILL MARRY—With all the new improvements in packaged, ready-to-serve foods, automatic housekeeping equipment and machines that will launder clothes to perfection, there is little excuse for a man getting married. It is interesting, however, to notice that the old and rather popular custom is showing no tendency to change.—The Matador Tribune.

Certainly well supervised extra curricular activities will revitalize the students that would get stale on a strict diet of geometry and Elizabethan drama, which we remember to be the scourge of high school seniors.—Hockley County Herald.

Yes, a penny's BIG money

When you spend it for electricity, of course!
That important little penny will do any one of these things for you . . .

 1¢ . . . vacuum clean 6 large rugs	 1¢ . . . bake 3 full loaves of bread
 1¢ . . . beat and mix 6 layer cakes	 1¢ . . . wash and dry 6 loads of dishes
 1¢ . . . bring you an evening of radio	 1¢ . . . light a 100-watt lamp over the table

It's amazing what your electric penny buys in comfort and efficiency and real living values. It takes a lot of skill and experience—yes, and sound business management—to keep electric service the biggest bargain in your budget today. (And this, remember, in spite of the rising cost of making and delivering electricity to you!) Truly, electricity does a lot for you.

San Angelo Paper Recalls Founding of Garza County

Garza County was the subject of a regular "This Day in Texas" feature on the editorial page of the San Angelo Standard-Times June 15. The clipping, which was sent to the Post Dispatch by Mrs. Roy Green of San Saba, the former Miss Mable D. Cox, gave a brief history of the beginning of Garza County, as follows:

"Organized on this day in 1907 was Garza County, created by an act of the legislature in 1876 and named for one of the oldest families in Texas.

"The Garzas trace their Lone Star history back to 1731, when Madam Rabina Betancourt came to San Antonio. Shortly afterward, she married Geronimo Garza, whose land grant is one of the oldest recorded at the General Land Office.

"It seems reasonable to assume that the Garza family tree is the most venerable of any Texas strain.

"The settlement of Garza County did not come until 31 years after its creation. Post, the county seat, was built by the eccentric cereal king, who purchased thousands of acres of land in Garza and neighboring counties and attempted to found a colony. The town of Post was carefully planned by its creator and many of the brown stone buildings erected under his supervision are still standing.

"In Garza County occurred many of Post's experiments to bring on rain by discharging explosives.

Four Firemen Go To Galveston For State Convention

Fire Chief Homer McCrary asked the Post Dispatch to express the Post Volunteer Fire Department's appreciation for the city commissioners and the merchants who made it possible for two delegates, Jesse Compton and Marshall Gibson, and the fire chief and Fire Marshal Dick Wood to attend the 73rd annual convention of the State Firemen's and Fire Marshals' Association of Texas in Galveston June 14, 15 and 16. They were among 518 delegates to attend, the convention being the largest in the history of the organization.

McCrary said "I believe that with the pointers and facts that we received and after passing them on to the fire department we will be able to better serve the public with our equipment."

Railroad Commissioner Olin Culberson was secretary for the convention. Many speeches were made by such men as Paul Brannen, fire insurance commissioner of Texas; Jay Stevens of San Francisco, Calif., secretary of the International Association of Fire Chiefs; Homer Garrison, director of the Texas Department of Public Safety; Hugh Keepers of Dallas, assistant manager of the Texas Inspection Bureau; Anson Brundage, editor of the Grand Prairie Texan, and Frank Williams, pension commissioner of Texas.

Memorial services for firemen who lost their lives since last year's convention were held June 15, with Chaplain J. C. Feigen delivering the address. Another highlight of the convention was a pumper race with 39 teams entered. LaGrange won first place.

Post Millers Clock Up Two More Wins In League; Will Play Brownfield Tonight

Junior Deputies In Sports Activities

The Junior Deputies defeated the Black Antelopes, 39-10, in a basketball game in the school gymnasium Tuesday night. The winners scored as follows: Jerry Odom, 13; Jackie Hays, 10; Billy Ramage, 6; and Eugene Ford, 10. Black Antelope points were made by: Hosie Wynn, 6; J. D. Steptoe, 2, and A. J. Lewis, 2. The two teams will play again next Tuesday night, Sheriff E. M. Bass reported.

The Junior Deputies played a local Mexican team in baseball last night in the Postex Park.

Mr. and Mrs. Charlie Bird and six children have moved to their home in the Verbena community for the summer months.

The Post Millers, with two more wins to their credit, climbed up another notch in the Oil Belt League standings during the past week. In a close, exciting game Sunday, they defeated Denver City 9-8 in the Postex Park. Last Thursday night they beat Slaton 4-3 in the local park.

Sunday's game was the second loss of the season for the Denver City team, which had 11 straight wins.

With Curley Bennett pitching, the score was 4-4 in the fifth inning when Barnett got put out of the game for touching the umpire while complaining about a decision at the home plate.

W. W. Thetford pitched the rest of the game.

Shortstop Jim Boyd stole the game. In the last of the ninth inning, he stole second, then stole third and then stole home.

The Millers will play Brownfield at 8:30 o'clock tonight in the Postex Park. Sunday they will go to Sundown for a game.

In last Thursday night's game, Slaton got only five hits off Barnett. He and Boyd, working as a team, did some spectacular pitching and catching off first and second bases. In addition to entertaining the crowd, they put about four men on bases, once when the bases were loaded.

The Millers have eight wins and four losses.

How To Grease Your Own Car

FIRST....

Put on your dirtiest clothes so you can crawl under your car.

SECOND....

Buy a supply of transmission, differential, universal joint, water pump and pressure grease, a grease gun and a spray gun. Also some penetrating oil and No. 40 oil.

THIRD....

Equip yourself with lots of strong words, such as "Damn" and "Oh Hang," and the like to use on the joints where the grease doesn't want to come through. Keep using these words until the grease comes out on the other side.

FOURTH....

Buy yourself a complete set of wrenches to use on the containers that must be opened to inspect the lubricating supply inside. Also some new skin to graft on your knuckles when the wrench slips.

FIFTH....

Fill your spray gun with penetrating oil to spray on tire springs. Be sure to spray for about 10 minutes while spraying the springs or you may oil-plate the inside of your lungs, which is bad.

SIXTH....

Be sure not to miss any place that should be lubricated as it may cost you the price of twenty grease jobs for repairs.

OR...

... if this seems like too much trouble and expense, drive your car over "Across the Tracks" and we will do the job for a money lay buck... and you just won't try the home job again.

Scripture:
I waited patiently for the Lord; and he inclined unto me, and heard my cry. He brought me up also out of an horrible pit, out of the miry clay, and set my feet upon a rock, and established my goings. Blessed is the man that maketh the Lord his trust, and respecteth not the proud, nor such as turn aside to lies. Psalms 40: 1-4.

Letters From The Readers

Dear Editor:
I have a peeve to discuss. I think Post is a fine town, the best in West Texas and we have the best merchants I've ever seen; but I was ashamed of some of them Flag Day. Did you notice the dirty flags? I was ashamed for the out-of-town people to see the flags that were flown that day. I heard some tourists discussing them. One asked if it were not against the law to fly a soiled flag. They were discussing one flag in particular, and they said it looked like it had been used for a grease rag.

Can't we get our business men to buy new flags or have the ones they have cleaned? They were a disgrace to our town.

A Reader.

(EDITOR'S NOTE: The above unidentified Reader must be a newcomer here. As an oldtimer, we were impressed not so much with the looks of the flags as by the fact that so many flags were flown. It used to be that hardly a flag was seen on June 14. Let's give the merchants E for Effort, at least.)

Dear Editor:
Thank goodness, Post is blessed with a good newspaper editor. I enjoy your column so much, for you have the bouquets and brick bats where they are needed. Maybe some day the people of our fair city will finally wake up to give us paved streets, a new grade school, hospital, etc.

Thanks, too, that our chamber of commerce is finally getting some life into it. I am for them 100% as long as they keep the improvements coming.

I have heard long-time residents say that Post used to be the prettiest little town in West Texas. I hope it soon will be again, for now it is the ugliest and it is hard for me to believe it was ever pretty.

Your article on outdoor toilets pleased me very much for I also live in South End. This part of town has sewerage, and every resident should be on it. If the city does not enforce it, why build a new system? It would be much cheaper on a fellow not to have it, and the one who has it has to pay double or triple price for it.

Another fly breeder is chickens in town. They should not be allowed any more than pigs. I have chickens, but I would gladly get rid of them if there were a law against it. But I have to keep up with my neighbors and let as many flies go to their house as come to mine. Also, the awful odor, for they do smell. It sure is hot on a fellow in summer to keep the doors closed.

Thanks again for giving us a good column. I am for you all the way.

A Regular Reader.

(EDITOR'S NOTE: we appreciate the bouquets contained in the letter from our anonymous

"This 145-horsepower FORD F-8 BIG JOB outperforms them all!"

Frankly, I have never seen or had anything like this Ford F-8 truck," reports W. J. Worsham of Taft, Texas. "I have managed up to 130 trucks in gravel hauling and this 145-h.p. Ford F-8 BIG JOB outperforms them all. It steers so easy it handles more like a car than a truck. My mileage is over six miles to the gallon, and I think this is wonderful."
 Mr. Worsham is but one of many Ford BIG JOB enthusiasts who has taken the time to write about the remarkable performance of the Ford F-7 and F-8. Thousands of others are profiting from gas economy unusual in the big truck field... from an ability to carry gross loads of 50,000 lbs. and more on tandem-axle semi's... from power that makes the BIG JOB the king of the hills. Come in and get the facts on any one of over 150 Ford Bonus Built Truck models for '49, built extra strong to last longer.

Post Dispatch Of 1928 Tells How To Make Brew

"HOW TO MAKE BEER," the following which had been contributed by a prosperous Garza farmer was published in the Post Dispatch Aug. 2, 1938: "I will brew for three days and then I will gather hops. To them I will add one-half of shellac, one bar of soap. Boil 36 hours. Strain through an I.W.W. cloth. Keep it from working. Add a grasshopper to each quart. Pour a lit of it in the kitchen sink; if it foams it is ready to drink."

some old files. Here are some of the Page 1 headlines: "Boys Are Enjoying Outing At Post Scout Camp." "Graham Chapel School Being Remodeled." "New Ford To Be Given Away By Post Merchants." "Utility Truck Added To Chevrolet Line of Cars." and "Complete Ballot Box of Garza County."

Under "City News Briefly Told," it was learned that Albert Hartford, who had been visiting Charles Lewis Pickett for six weeks, left for his home in Battle Creek, Mich., accompanied by Harold Gore. Elmo Corbell of Littlefield visited in the city over the weekend. Mrs. Ollie Gardner of Haskell had been visiting in the P. Z. Stevens home. Mr. and Mrs. H. G.
