**PRESENTS CHECK** — Tom Marrier, commander of the local Veterans of Foreign War, is presenting Weaver McKamie of the Post EMT's a check for \$4,028 which was raised Saturday to benefit the local EMT's. (Staff Photo)

## EMTs get \$4,020 from VFW benefit

The local Veterans of Foreign Wars and the residents of Garza County can pat themselves on the back for the tremendous success of the weekend benefit staged at the VFW building Saturday night.

The benefit which was staged by the local VFW, Ladies Auxiliary and the EMT's netted \$4,028 to date with other proceeds still coming in at press time.

The benefit which was given to help the local EMT's purchase training equipment and build training stations was a success as a whole by the cooperation of the organizations and the people of the community who came out to help and to enjoy the meal and the dance that followed.

Volunteer held, some of which put in some 20-hour days over the weekend, managed to feed over 500 people between the hours of 4:45 and 8 p.m. with only one small piece of meat of the two steers donated, left when the evening was over. George Sneed and Palmer Well Service donated the two steers for the barbecue.

The VFW organization, headed this year by Tom Marrier, has been very busy, with this benefit being the second one held in just a few short months. The other to benefit Girlstown raised \$2,500, which adds up to nearly \$7,000 that the organization has been instrumental in gathering for their community and others. The organization is made up of veterans, who are still putting their country and community first, by continuing to "honor the dead by helping the living".

The dance following the meal was well attended and was highlighted by an auction held of items donated by several local merchants. Weldon Reed

### Seminar is discussed

Post Chamber of Commerce members were fed hamburgers Tuesday evening at the community center and heard Joel Combs explain a Customer Development Seminar he plans to conduct here if enough business people are interested.

Included in the seminar would be such topics as personal attitude development, personal relations effectiveness, sales skills, goal-setting, time management, and memory development.

This seminar is recognized as being one of the most lauded programs in the field of business training.

### RATTLER STRIKES

Johnny Cloud, a South Plains Electric Coop linesman from Lubbock, was rushed by ambulance to Methodist Hospital from Post Tuesday for treatment after being bitten by a rattlesnake in an oil patch near here.

and Bob Palmer turned auctioneer for the night, and sold in excess of \$700 in merchandise to help the cause.

Ticket sales for the benefit were headed by Rusty Dean and George Sneed. Beef was donated by

## Post gives \$2,410 for Jerry's kids

Post's contributions to the Jerry Lewis Labor Day telethon for muscular dystrophy was a record of \$2,410.55, Rosemary Rogers who was in charge of the telethon office here, reports.

This compares with \$1,575 given in 1980. All told nationally, the telethon raised some \$31,498,000 in cash and pledges with the Lubbock area contributing about \$154,000 of this amount.

Final figures had not been released on the telethon when The Dispatch went to press.

Those walking over town seeking donations, including some who stopped cars in

the rain Monday afternoon, were Carla Bilbo, Sherry Craig, Glenna Reiter, Mr. and Mrs. Alfonso Castro, the Cruse children, Gina Bosman and Secret Bilbo.

Those answering phones in the telethon office here at Co-Ed Tax Service include Raenell Rogers, Cathy Davis, Misty West, Judy Morris, Darlene Rylant, Henry Cruse, Joel Warren, Jo Ella Sparlin, Carlion Cruse, Rhonda Rogers, Coleen Witt, Tammy Holly and Chris Moore.

The Fletcher Carter Methodist Church's young wives held a bake sale which brought in \$171.25 for Jerry's kids.

## Benefit for stockbarn—Harvest sale is set for Sept. 19

The second annual Garza County Junior Livestock Association Harvest Farm Equipment Sale and Flea Market will be held Saturday Sept. 19 at the GCJLA Stockbarn on US 84.

The flea market will be held in the fair building and will be open to the public at 8:30 a.m. Booths for arts and crafts or a garage sale may be rented for \$10 for a 10 x 10 foot area.

Consignments to the farm equipment sale are welcomed. Bobby Fletcher, No. TXS 0110248, from Wolf-forth will be the auctioneer.

All types of farm equipment are expected including a large number of cotton trailers and cotton harvest

### Nothing new on appraisals

The Board of Review didn't have much business when it sat Wednesday morning in the county appraiser's office to hear complaints on personal property.

Not a single taxpayer had signed up in advance to appear before the board.

County Appraiser Jean Westfall reports "nothing new" as yet on getting a final taxable property total for each local taxing unit.

Meanwhile, adoption of the various tax rates remain on "hold."

The hospital board was scheduled to meet at a breakfast session Thursday and was hopeful of setting its tax rate at that time.

### Open house here Sunday

United Convelescent of Post has scheduled a "Countrytime" open house Sunday afternoon from one to four p.m. to give the public a chance to meet the staff and find out about services, philosophy, rates, and the home's professional goals.

Bobbie Edler is the administrator of the home, Nell Smith is director of nurses, and Beverly Stansell is the activities director.

Tours of the resthome facilities will be conducted. Refreshments and entertainment also are planned.

The public is encouraged to come out and "see what we have to offer," Administrator Edler said.

### Labor Day rain here

Post got an official inch of rain — no more, no less — Monday in a steady afternoon rain.

This brought the moisture total for the last week to 1.13 inches and raised questions of whether the continual moisture is helping or hurting the cotton crop.

Farmers say it all depends upon what happens the rest of the fall.

A warm, sunny fall the rest of the way and a good crop is in prospect. More wet weather will cut the price by reducing the mike.

Some 569 outdated books were removed from library shelves this month in a continuing effort to keep the collection current. These books are now being sold by the library. Stop in and see what you might like, Librarian Pierce advises.

Thirty-one reference questions were answered during the month and four books borrowed for patrons on inter-library loans from other libraries.

Four story hours and four film showings were held in the library during the month.

Fines, book sales and gifts for August totaled \$33.85 to bring the total miscellaneous income for the year to \$281.73.

Some 569 outdated books were removed from library shelves this month in a continuing effort to keep the collection current. These books are now being sold by the library. Stop in and see what you might like, Librarian Pierce advises.

Four story hours and four film showings were held in the library during the month.

The next major decision the city council will make is the selection of a new city manager.

The council advertised through the Texas Municipal League that the position was open and has received 10 applications for the position from various parts of Texas, including at least one local application.

First step in the selection will be to decide after looking over the resumes which accompanied the applications who the council desires to bring here for interviews.

That item is on the agenda for the council's regular September meeting Monday night.

But Mayor Giles McCrary told The Dispatch he will recommend that the council schedule a special work session to look over the applications.

He explained there is generally enough business on the council's monthly agenda to take all of the meeting time.

After Pete Maddox resigned the position in June, the council decided to seek outside applications for the top administrative position.

Several council members said they wanted an experienced and trained executive who could make necessary applications for aid, draw up budgets,

## 10 apply for city manager

The next major decision the city council will make is the selection of a new city manager.

The council advertised through the Texas Municipal League that the position was open and has received 10 applications for the position from various parts of Texas, including at least one local application.

First step in the selection will be to decide after looking over the resumes which accompanied the applications who the council desires to bring here for interviews.

That item is on the agenda for the council's regular September meeting Monday night.

But Mayor Giles McCrary told The Dispatch he will recommend that the council schedule a special work session to look over the applications.

He explained there is generally enough business on the council's monthly agenda to take all of the meeting time.

After Pete Maddox resigned the position in June, the council decided to seek outside applications for the top administrative position.

Several council members said they wanted an experienced and trained executive who could make necessary applications for aid, draw up budgets,

handle insurance problems, etc.

That's when the major placed an ad with the municipal league publication.

Post has never hired an outside city administrator before.

Whether the majority of the council is ready to do so now is the big questions.

### More paving for schools is on agenda

School trustees with a surplus carried over into their new budget will take a look at expanding their paving program around Post schools at their regular September meeting in the high school library Thursday night.

It's the first item on the agenda, discussing six possible paving areas with Duane McQueen of their Lubbock architectural firm.

One of the new proposals is for paving in front of the primary school.

Another possible action may be increasing the price of reduced-priced lunches and breakfasts. The state has authorized an increase of reduced-price lunches from 20 to 40 cents and reduced-price breakfasts from 10 to 20 cents.

Trustees also will be asked to approve a 30-day certificate of deposit in the local bank for \$1,014,271.26 from Sept. 1 to Oct. 1 at 15 percent interest.

Tax Collector Billie Windham's report for July and August shows \$1,653.23 in tax collections and a total of \$135,477 in taxes unpaid over the last 25 or more years.

### Four arrests made here

Robert Gary Luberman of Denver, Colo., pleaded guilty in Justice of the Peace Court No. 1 to charges of possession of marijuana under two ounces and disorderly conduct following his arrest last Wednesday in a local store.

He paid \$103.50 fine and court costs for disorderly conduct and \$206 for the (See Four arrests, Page 16)

## Library now has 569 books to sell

Seven hundred and sixty-one books were checked out of the Post Public Library in August to bring the circulation total for the year to 5,903.

According to Librarian Pee Wee Pierce's monthly report 41 new books were put on library shelves during the month to bring the collection total to 14,252.

Some 569 outdated books were removed from library shelves this month in a continuing effort to keep the collection current. These books are now being sold by the library. Stop in and see what you might like, Librarian Pierce advises.

Thirty-one reference questions were answered during the month and four books borrowed for patrons on inter-library loans from other libraries.

Four story hours and four film showings were held in the library during the month.

Fines, book sales and gifts for August totaled \$33.85 to bring the total miscellaneous income for the year to \$281.73.

### John Harris' high school grid picks—

## Lopes are favored by 14 over Wolves

John Harris the veteran Texas schoolboy football grid picker, has named the Post Antelopes as 14-point favorites over the Wolves at Colorado City Friday night.

The Dispatch will give Post fans the Harris choices all season long with this selection being the first of what promises to be another rugged season.

The Lopes, which were ranked 19th by Harris for its opener against Lockney

a week ago, have been boosted up three notches to 16th this week.

Only the Tahoka Bulldogs among district opponents

are ranked above the Lopes by Harris. The Bulldogs started at ninth last week and slipped to 12th this week after a narrow come-from-behind victory over Stanton.

Littlefield, which bested the Lopes in a scrimmage two weeks ago, is rated No. 1 this week among the 206 ranked Class AAA football teams.

It moved up from No. 3 last week on the strength of walloping Class AAAA Levelland in its opener.

Other Harris picks this week of interest to Lopes fans include:

Floydada over Frenship by 14.

Slaton over Idalou by 2.

Petersburg over Lockney by 7.

Lorenzo over Lubbock Cooper by 27.

Lubbock Roosevelt over New Deal by 4.

Tahoka over Seminole by 16.

Littlefield over Tulia by 14.

Kermit over Denver City by 6.

Coahoma over Stanton by 2.

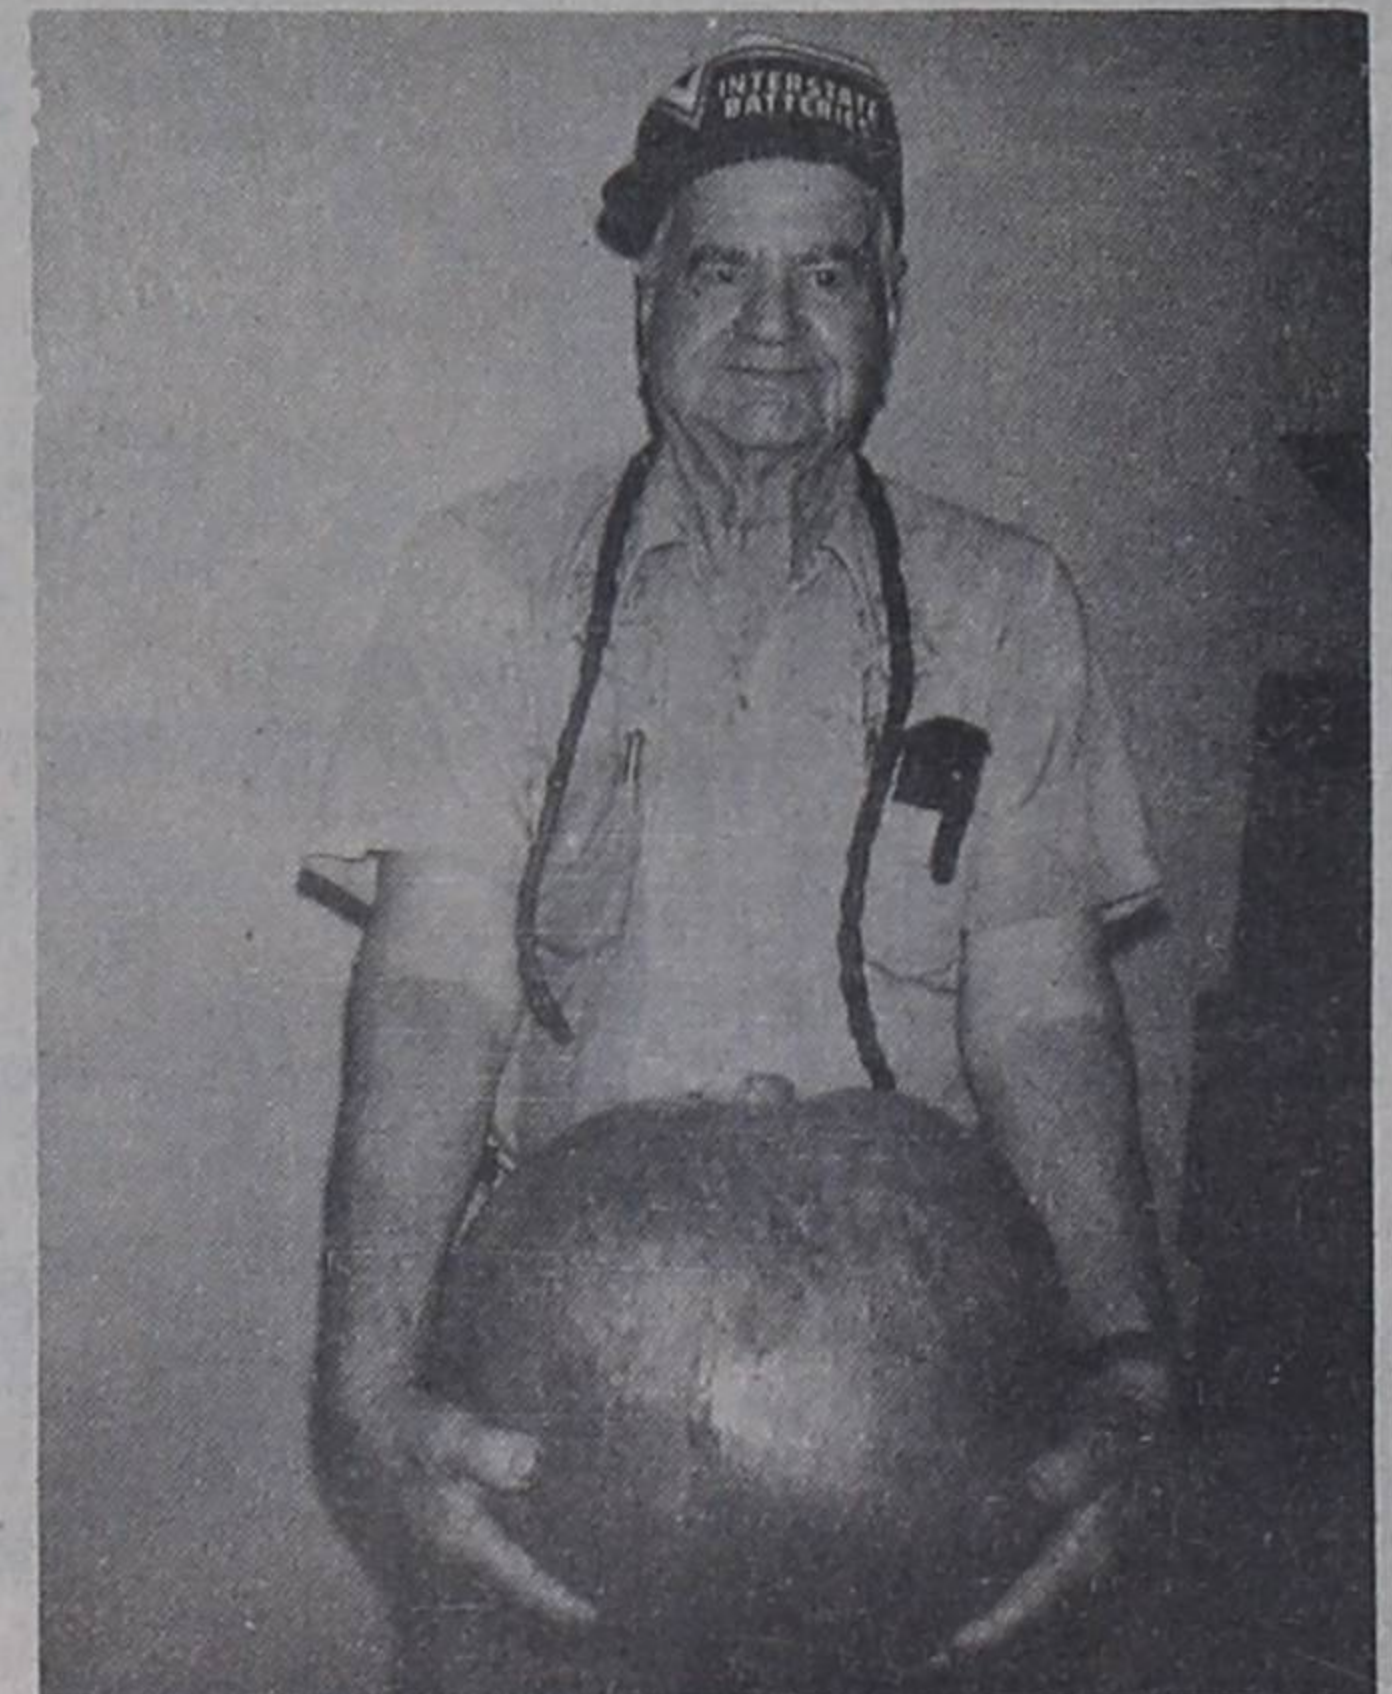

The "top ten" of the AAA division as listed by Harris in order are Littlefield, Breckenridge, Allen, Man-

(See Harris poll, Page 16)

Harris is an unusual pollster. He concentrates on Texas schoolboy football and has made himself into a real expert on ranking teams and picking winners.

He has been doing it 18 years now and he averages 73 percent for first week or two on up into the 80s as the season moved along.

Last week he opened the (See Postings, Page 16)

**GROWS 'EM BIG** — Dee Caylor who is beginning to get the reputation of growing large garden vegetables has done it again with this 32 lb. 7 oz. mammoth squash. Draped around his neck are two asparagus beans which were grown in his garden also. (Staff Photo)

### Computer is given F

Computers can't do everything. Just ask High School Principal Joe Giddens if that's not true.

For the first time, Giddens gave the computer the job of drawing up high school schedules this year. It did not work.

So for the first week of school, Joe has been busy re-scheduling about two-thirds of the student body.

What's the problem? What this computer couldn't do was to determine what classes should be offered in what class periods.

It just filled up classes and kicked the rest of the student cards out. That left the students very upset with their schedules.

"It may be great for big schools, but it's not for us," Principal Giddens told The Dispatch Wednesday. "We're putting the personal factor back in it."

Page 2 Thursday, Sept. 10, 1981 The Post (Tex.) Dispatch

## Bill serves notice

Governor Bill Clements has unofficially announced for reelection to a second four-year term as governor. That is not the usual political way it is done, but Bill is serving notice on all Democrats that if they want the job they must beat him out of it.

The Dispatch likes the idea. The governor has done a good job.

In today's Dispatch is a column by Clements, "Governor's Report" giving his views on the accomplishments of the recent legislature with his program.

It is pretty impressive reading — not exactly, the ho hum, business as usual type of programs Texans are normally accustomed to.

Maybe Bill spent seven million dollars of his own money to get elected last time, but he also worked very hard in his campaign.

We well remember one hot summer morning when he walked into The Dispatch office, introduced himself, sat down at our desk for an hour and explained how he was campaigning for the governorship of Texas and how his election would help make Ronald Reagan the next American president.

In two months that summer he visited

every small county seat in Texas where normally major state candidates don't appear. Bill took the time.

That campaign cost a lot of money because of the Texas political problem of name identification. It's hard to get people in this big state to recognize your name, or anybody else's name.

Clements has learned a lot of political savy in the last three years in Austin and has taken his share of political lumps. He is making a political contribution to Texas just in helping it to convert to a two-party state at long last.

The Dispatch thinks Governor Clements has done a good job. We think a lot of Democratic leaders think so too because there has been no great rush to line up to see who will oppose him next year. In fact, a large number appear to be quietly backing off which tells us a lot.

Governor Bill Clements is plain spoken and has tackled what he sees as Texas problems head-on. Yet he has been able to cooperate and get cooperation from Democratic legislative leaders.

Clements is no shoo-in in 1982, but he also is going to be pretty tough to beat by making an impressive record in his first term.

## Senior Citizens News

Senior Citizens Center of Garza County members are really having a lot of fun and enjoying good meals. We really had a good month in August, and had a total of 11 meals served to senior citizens and guests.

Hurrah, we finally got a new Mini Bus. Thank you Garza County for providing this for our older people who depend on it so much for their only way of transportation in town and also trips to Lubbock to see their doctors. We certainly appreciate this very much.

Those of you who missed our musical last Thursday sure missed a real blessing. Noel White and his son Steve played and sang for us. We sure appreciate them very much. Also Aubrey Ritchie got to play a lot of waltzes on his fiddle

along with Esker Stone on her accordion. Bea Dodson played the piano. Mr. J. F. Moore played the harmonica too. The senior citizens choir sang several gospel songs which we enjoyed very much.

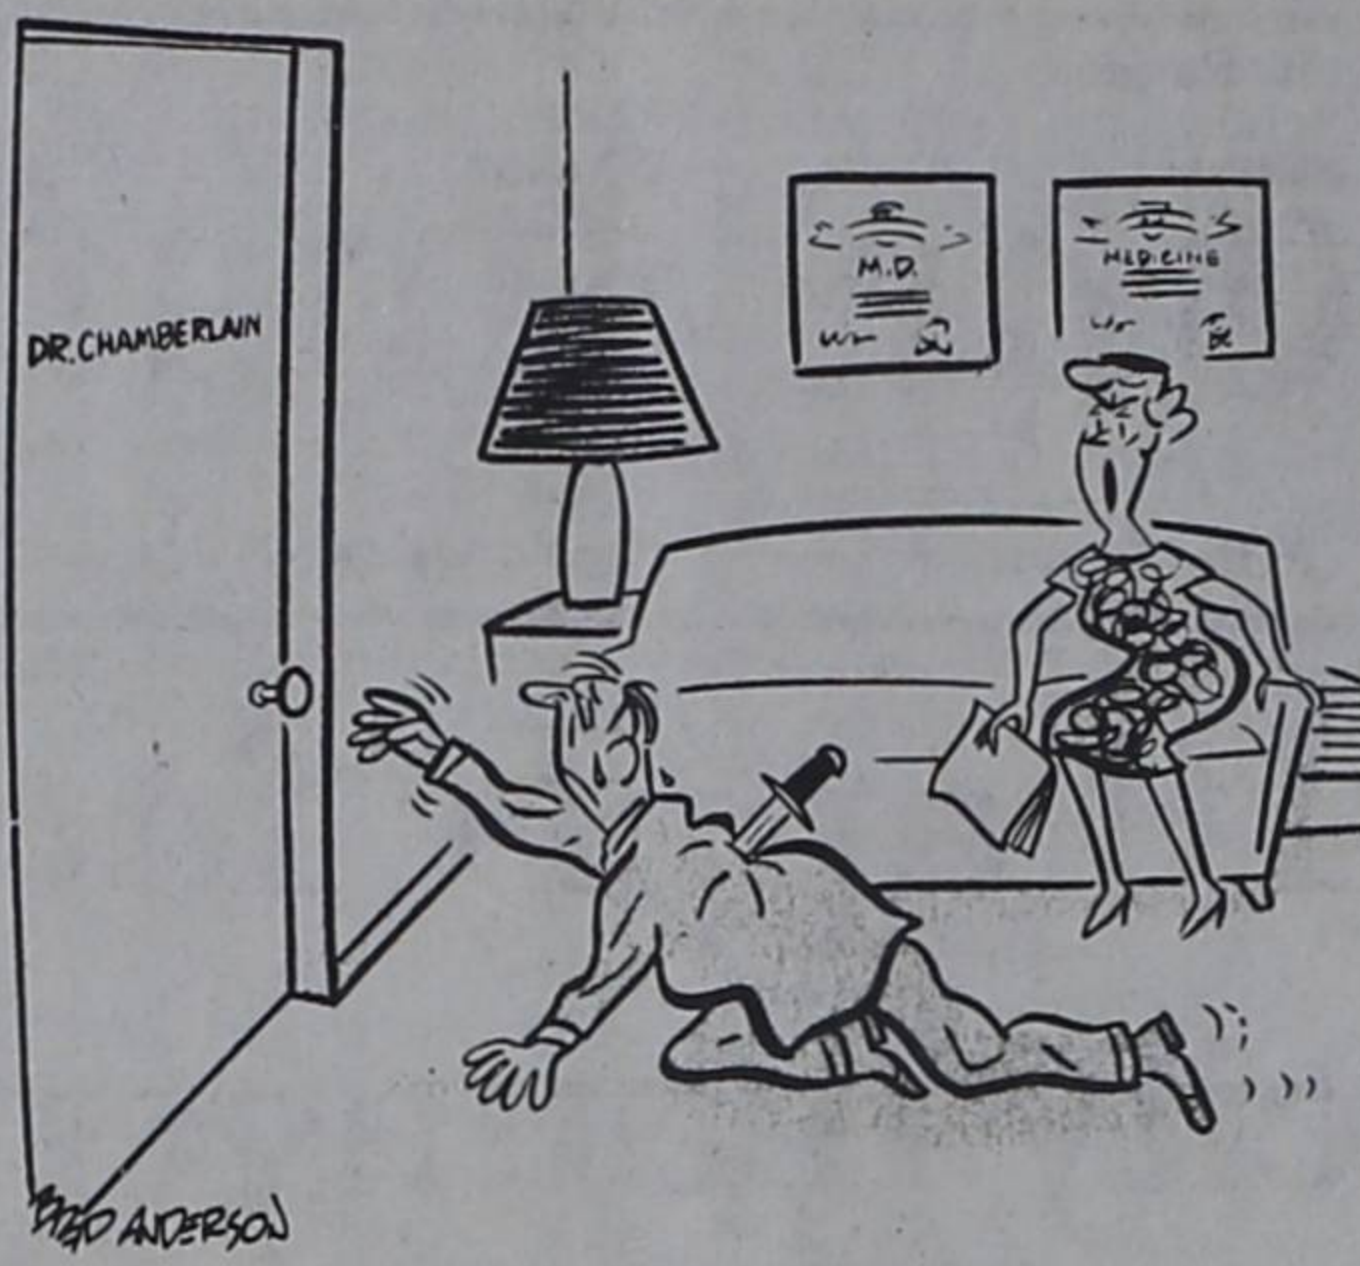

Most of our sick folks are doing a lot better except Chester Keeton who has suffered another heart attack and isn't doing very well. He is still in the Brownwood Hospital. Let's all remember him and Mrs. Keeton in our prayers.

We will be singing at the Church of God of Prophecy the fourth Sunday of this month. We sang at the Calvary Baptist church recently. We sure enjoy singing at our local churches.

Don't forget blood pressure check is each first and

fourth Tuesdays and each first and third Thursday. Bonnie didn't get to come this last week due to having a pinched nerve in her back, but will possibly be back this next time.

Had a pretty good crowd for lunch on Labor Day. Several were out of town or had company and didn't come. We missed those who were not here. Turned out to be a real rainy day which we really didn't need. We have a new bookkeeper, Roberta Gary. We are glad to have her with us. Inez Grantham is one of our cooks who is a very loveable person. She is the mama of all the children that come to the center to eat. Don't forget the exercises that we have each morning at 9 a.m. which are given by Joan.

"Just a moment, I was here first."

## Remember When

### 10 YEARS AGO

Dedication held for park, state markers; School enrollment gains; 19 students 'busing' to college; Mr. and Mrs. Malcolm T. Bull injured when auto hits tree, the Bull auto being described as a total loss; Post Jaycees to man Labor Day rest stop; Don Ellenberger hurt in crash; Lewis C. Herron is elected to PGC board; Leading the band this year are Drum Major Kent Kirkpatrick, majorettes Jan Hall, Jodi Norman, Dejuana Hays, Jan Bilbo and Drum Major Wilma Bullard; City pays out \$148 in stray dog bounties; Homecoming at Graham Capel this weekend; Mr. and Mrs. Glen Barley to observe 25 th wedding anniversary.

### 15 YEARS AGO

City okays proposed budget of \$460,198; Miss Linda Davis is Post Antelope Band Drum Major; Post man's sister found slain at El Paso airport; Suspect held, but most of loot missing in hijacking, searchers fail to find \$500 bundle; Post schools enrollment is up from last year; White River Lake depth now at 46.7 feet; Southland home is scene of wedding of Miss Bennie Chandler and Harvey Louis Pennell; Miss Ann Greer becomes bride of Herbert Hays; 20 are enrolled in Justiceburg school; Lopes open here against Hale

### Center.

### 25 YEARS AGO

Cheerleaders for Post High School are Linda Davis, Sharon Wood, Barbara Wheatley, Barbara Shyites and Bettye Porterfield; Onieta Jones and Carolyn Ward are among first place winners in district judging of record books; Mr. and Mrs. N.C. Outlaw have returned from Fort Worth where they attended the state Democratic convention; Miss JoAnn Moreman will become bride of Leon Miller on Nov. 2; Peggy Butler honored at birthday party in home of her mother Mrs. Stanley Butler; Mr. and Mrs. L. P. Baker hosts for reunion of his relatives; drum major and majorettes for high school band are Frances Dietrich, Marca Dean Holland, Kay Martin, Sherry Odom and Judy Gossett.

### SURPRISE VISIT

Mr. and Mrs. Bill Hughes were surprised with a visit last Saturday, when a friend, Catherine (Thompson) Huntsman, whom they had not seen in 26 years stopped for a visit. She and her family formerly lived in Post, moving to Sherman in 1953. She was accompanied by her friend Vi Robbins. They were enroute to Bonita Lake, N.M.

## Births

Mr. and Mrs. Michael Day of Dickens announce the birth of a baby boy, Brantley Wade, born September 2, at 2:33 p.m. weighing 7 lbs. 8 ozs. He was born in the Garza Memorial Hospital.

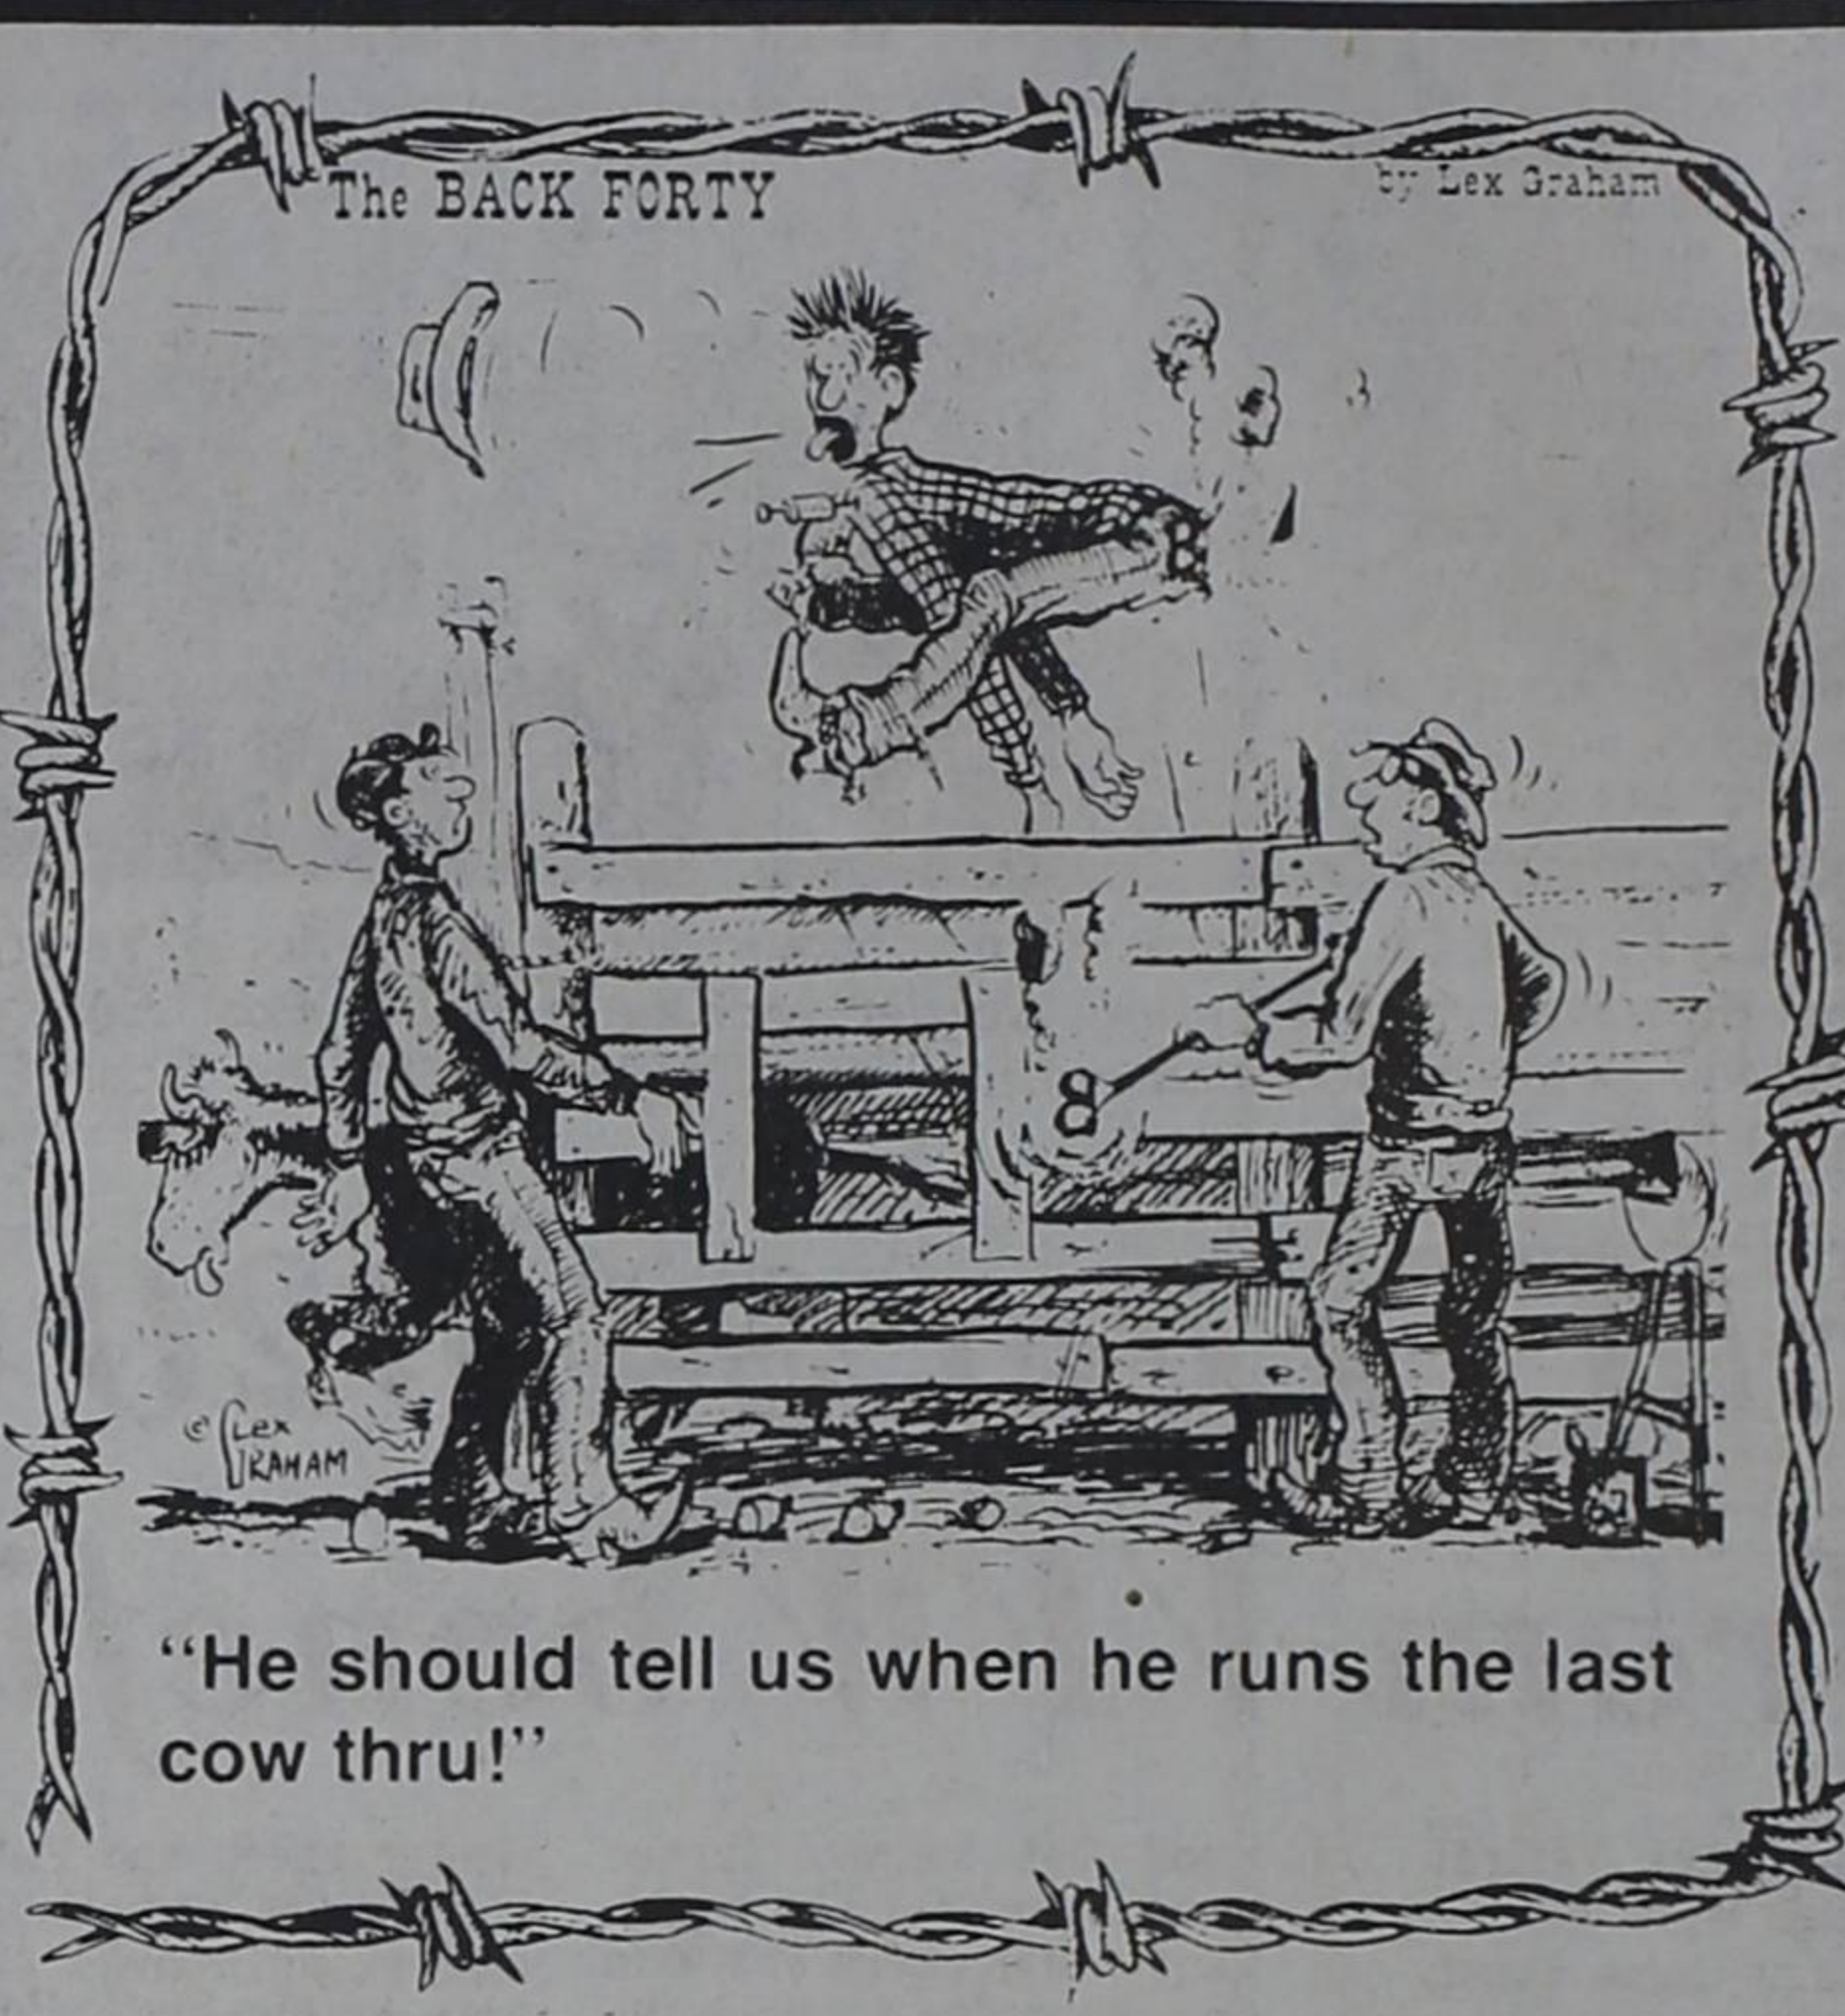

Mr. and Mrs. Les Fields announce the birth of a son, Jason Lamont, born September 2, at 8:38 p.m. weighing 7 lbs. 8½ ozs. He was born in Garza Memorial Hospital.

## FREE HEARING TESTS SET FOR SENIOR CITISENS

### LIVINGSTON HEARING AID CENTER, INC.

Offers a new concept in helping the hard of hearing. Livingston Hearing Aid Center, Inc., will sponsor FREE electronic hearing tests on Monday, Sept. 14 from 2 p. m. until 3:30 p. m. The tests will be given at the Senior Citizens Center in Post by Thomas A. Noble. His experience and professional approach assures you of personal understanding and expert help.

Most hearing aid specialists sell you the brand of hearing aid they carry. And that brand may not have the model that's exactly right for you.

With Livingston Hearing Aid Center, Inc., it's different. We offer a new concept for the hard of hearing by carrying a wide variety of hearing aids from over 12 different manufacturers. We promise to fit you with an aid that answers your problem exactly. And our promise is backed by a 30 day satisfaction guarantee or your money back.

Everyone, especially older citizens, should have their hearing tested electronically at least once a year. Many of you may suspect you have trouble hearing and understanding.

Repair service and cleaning will be available to you for your present hearing aid — no matter what brand or where you bought it. The hearing tests are FREE and will only take 20 minutes of your time. Please come in and take advantage of this special opportunity. (ADV.)

PRICES GOOD WHILE QUANTITIES LAST  
 Winn's Advertising Policy  
 Winn's attempts to please our customers at all times. That includes having ample quantities of advertised items on hand. But occasionally, due to unforeseen reasons, an advertised item may not be available for purchase. In this event, Winn's will issue a Rain Check upon request for the item to be purchased at the sale price as soon as it becomes available. If the item will not be available within a reasonable time, the customer may purchase a similar item at a comparable reduction in price. Merchandise designated as available in limited quantities will be sold on a first come, first served basis while quantities last. Winn's reserves the right to limit quantities purchased so that as many customers as possible may benefit from advertised prices.

## Thank You

God has given us a loving church family, Doctors, nurses, hospitals and friendly neighbors to help us in illness and other health problems. For this we are very thankful, also for the Post Dispatch that we can express our appreciation to all who have called, come by, sent cards, and offered to help out on the ranch. This makes a better world to live in.  
 We thank God for all these gifts of love.

## Coast, inland getting braced for hurricanes

**COLLEGE STATION** — Hurricane season traditionally runs from early June through mid-October along the Gulf Coast, and citizens should be prepared for evacuation and widespread inland flooding, say experts at Texas A&M University.  
 Seven county extension marine agents of the Sea Grant Marine Advisory Service will soon begin conducting regular hurricane awareness workshops along the coast through Oct. 31. The sessions deal with past storms, safe and unsafe structures, individual attitudes toward evacuation and evacuation itself.

"And I say this is no time to be calling around for estimates!"

## What's Happening in Home Economics

By MRS. CHERYL WALKER  
 County Extension Agent — Home Economics

This week Extension Homemakers from all over Texas are meeting in Austin for their annual meeting. Mrs. Loucille Morris and Mrs. Helen Richards are the club members representing Garza County.

Mrs. Morris and Mrs. Richards will be attending workshops on current program ideas, plus a variety of sessions with informative speakers. Outside the formal meetings on a variety of topics. Some of the programs coming up this fall include: Energy-Not the Same Old Thing, Convection Cookery, Holiday Ideas and Wrapping It Up for Christmas.

I would like to invite you to attend an Extension Homemakers Club meeting of your choice. If you enjoy your visit, and I know you will, join the club.

For more information on Extension Homemakers in

Garza County call me at the Extension office at 495-2050 or come by for a visit.

Extension Homemakers Club membership is open to all persons regardless of socio-economic level, race, color, sex, religion or national origin.

**Home Economic Hints**  
 Store extension cords conveniently without tangling in recycled tubes from rolls of paper towels or toilet tissue. Also, you can label or decorate the holders to help you locate the correct cord.

Bake cookies for occasional snacks and freeze some for later. After baking, simply cool the cookies and place them in an airtight container or freezer wrap, and freeze them. They'll stay fresh for as long as one year.

Want to cancel a door-to-door sales purchase. You

have three days. A door-to-door salesman or saleswoman should provide a cancellation form or give notice of the right to cancel the transaction at any time before midnight of the third business day after the transaction date.

Fossils of flowering plants 165 million years old have been found.

## CAREER SALES OPPORTUNITY

Farm Bureau Insurance is looking for a few good people to help sell and service established farm and ranch accounts in Lynn and Garza County. Our people average over \$20,000 their first year, and more each year thereafter. Three year training program. No travel. 160 hours of company paid classroom training.

If you are interested in hard work and a rewarding future, call for interview.

Pat Green  
 Agency Manager

**Heritage group to meet on Tuesday**

Here's a hint for home entertaining. If you're thinking of having a party, now is a perfectly good time to start your planning.

Pick a date. Decide the theme and menu. Make your guest list.

To get your party on everyone's calendar, send save-the-date messages early. The bigger the party, the more notice you need to give. This notice builds excitement for the event as well as preventing scheduling conflicts.

The Texas Heritage Association chapter here will meet at 10 a.m. Tuesday, Sept. 15, in the bank community room to hear plans to procure items from the Post estate to be housed in Post, probably in the Post Museum.

All interested persons are invited to attend.

Mailgram messages are perfect as invitations, too, especially for "spontaneous" get-togethers. And if, despite the best laid plans, a party has to be cancelled, Mailgram messages can be used to notify your guests of the change at the last minute.

MR. AND MRS. RANDALL STOTTS

**Baumann-Stotts vows said in Tahoka church**

Traditional wedding vows were exchanged between Donna Baumann and Randall Stotts in a 4 p.m. ceremony Saturday, Aug. 22 in the First Baptist Church of Tahoka.

Rev. Don Cass, pastor, performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. A. J. Baumann of Post and the groom is the son of Mr. and Mrs. Raymon Stotts of Tahoka.

Donna wore a candlelight street length dress of polyester, featuring a high neckline and long sleeves accented with rows of lace down the bodice and sleeves and around the cuffs. The full skirt was edged in matching lace. The bridal bouquet was a cascade of silk flowers in peach and brown with peach colored streamers. For something old, Donna carried her mother's wedding rings tied in the love knots of her bouquet; something new, her dress; blue, a garter and borrowed, a diamond teardrop belonging to her mother.

Honor attendants for the couple were Jerri Baumann and Shawn Stotts, sister and brother of the couple.

Hazel Bennett, organist, and Shanna Stotts, sister-in-law of the groom soloist provided the wedding music.

A reception followed the ceremony in the Fellowship Hall. The table was laid with a lace cut cloth over peach and featured a two-tiered cake of white decorated with brown French lace, peach flowers and small wedding bells with white columns and topped with a bride and groom. The bridal bouquet was used as the centerpiece. Peach colored fruit punch and peach mints, made by Theresa Baumann,

sister-in-law of the bride were served from crystal appointments. Guests were served by Jerri Baumann, Shanna Stotts and Theresa Baumann.

Special guests for the occasion were Mr. and Mrs. J. D. Saffel of Petersburg, grandparents of the bride and Mrs. Rosa Gage of Lubbock, grandmother of

the groom. Following a short wedding trip the couple are residing in Plainview where Randall is a student at Wayland Baptist University.

Out of town guests registered for the wedding from Post, Hobbs, N.M., Level-land, Petersburg and Lubbock.

**Lunch Menus**

**BREAKFAST**

Monday, assorted cereal, orange juice and 1/2 pint of milk.

Tuesday, biscuits, sausage, gravy, sliced peaches and 1/2 pint of milk.

**Teaching Tenderness**

Few adults realize it, but when they watch a child give a teddy bear or a doll a big hug, he or she is actually learning to love. Youngsters learn to love partly from loving their toys.

When your child is playing "mommy" to her doll she is also learning to be more responsive to the needs of others.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

LUBBOCK — Beset by low prices, high and rising production costs, insects, weather, and unsympathetic atmosphere in Washington and a myriad of other problems, farmers and farm writers have little time to worry about inequities in the Social Security system.

But farmers have no choice but to pay self-employment taxes and Social Security taxes on their employees, making its viability one of their legitimate

concerns. At least that is the strong opinion of Cecil Williams, Executive Vice President of the Agricultural Council of Arkansas, and officials of Plains Cotton Growers, Inc., Lubbock, are in full agreement.

Williams, based in West Memphis, Arkansas, hasn't offered any solutions. However he has pointed out to his members that about the only contracts reaching the Arkansas congressional delegation regarding Social Security have been from

people complaining that benefits may be cut. This leaves the impression he believes those paying Social Security benefits, including farmers, should be firing their own salvos of complaints. And he has ferreted out an armory of ammunition, some of which follows.

Social Security, contrary to what the multitudes have been led to believe since the program's inception, is a pay-as-you-go system, not a trust fund in the true meaning of the term. "This year's taxes pay for this year's benefits — or almost," Williams says.

Today just three working people support each retiree, and by the time post World War II babies reach retirement age there will be only two workers supporting each retiree.

Congressmen and other Federal employees pay no Social Security taxes, which prompts Williams to suggest this question: "If 83 percent of Social Security benefits are now direct welfare payments, as stated by Enterprise News Service of Washington, D.C. then why shouldn't congressmen and government workers pay Social Security taxes along with the other 90 percent of the work force?"

Business pays over half of the Social Security bill. Social Security is usually thought of as a tax on workers to help pay for their retirement. But every penny of Social Security taxes paid by an employee is matched by a business, the owners of which also pay self-employment tax.

Stating that the "heaviest burden is yet to come," the

ACA executive makes the point that both employees and self-employed retiring in 1981 will receive more benefits in less than three years than the maximum they could have paid in taxes.

And, there's more, much more, to illustrate the fiscal depravity of Social Security. For copies of Williams' full writings on the subject, write to Plains Cotton Growers, Inc., P. O. Box 3640, Lubbock, Tx. 79452.

The first crossword puzzle was published in 1913 in a supplement to the New York World.

**RECENT VISITORS**  
Visitors in the W. B. Sanders home Saturday were Stewart, Madeline and Cavin Downey, David and Cherri and Melanie Meyers all from Overland Park, Kansas. They returned home Monday.

The first voice on record was Thomas Edison's. What did he say? "Mary Had a Little Lamb."

**WEEKEND VISITORS**  
Visiting with Mrs. Olo Claborn and Irene were Evelyn Gary of Odessa; Aundry Hamilton, Adam and Jo Sherri, of Azle; Sue Williams and Joella of Fort Worth; Jay and J. C. Conyers of Fort Worth; Andy Wilcox of Fort Worth; Ricky and Melissa and Cody Wilcox of Fort Worth; John and Mary Claborn and Renae Claborn of Lubbock, Lisa Claborn of Post, Pearl Nance of Post. Five generations were represented at the family gathering.

## Historian goes ghost hunting

If you believe in ghosts and go hunting them, be prepared for surprises other than the shock of possible confrontation. So advises a Texas author who has searched out this state's spectres for two years.

Kerrville historian and novelist Ed Syers, whose latest work is "Ghost Stories of Texas," singles

out both the haunted house and its resident apparition as sources of unexpected discovery. The house may look as normal as yours, and its ghost is not necessarily dangerous.

"Movies always show us something foreboding, like that grim house in 'Psycho', Syers says. "Many of those I found were quite innocent looking. And a lot of the old places that reeked of gloom — from West to East Texas, I could lead you to them — simply

turned out un-haunted."

Some, he conceded, look haunted and are.

Their phantoms, he believes, possess very human motivation: the need to prove or disclose something, the drive to warn or protect, the refusal to accept a disagreeable eventualty — a life suddenly cut short. Nostalgia, the yearning for places of treasured memory, seems to provide the largest group.

"Of course," Syers adds, "there are those who seek revenge from some great wrong. They're the ones to avoid. But mainly what we fear is the unknown that

surrounds all this realm. And we don't talk about it because even more than we fear ghosts, most of us fear ridicule."

Author of a number of well-regarded books on Texas, Syers admits this work to be a departure from his usual field of heritage and history, but he defends his selection of what he considers the state's fifty major stories of the supernatural.

"You can believe or disbelieve," he says. "I'm not selling superstition; I'm reporting what I think I found. And frankly, it was intriguing."

A condensation of "Ghost Stories of Texas" will appear in the Dispatch on Thursdays, beginning next Thursday.

## Beginner's photo course offered

SNYDER — Beginning Photography will be offered as a Continuing Education class at Western Texas College on five nights from Sept. 22 - Nov. 17.

Classes will meet on alternate Tuesday evenings from 7 to 9 p.m. for a total of 10 hours of instruction, Dr. Mike McBride, instructor, said. Fees will be \$20 per person. Topics to be covered include: Cameras and Accessory Equipment, Exposure and Lighting, Composition, Flash-Strobe and Available Light, and Special Effects and Subject Treatments. No textbook will be required and there will be no laboratory work. Students are to reserve space in the class by calling 573-8511 extension 240.

## STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—The Texas Supreme Court last week upheld a lower court ruling which threw out the redistricting plan for the Texas House of Representatives.

Immediately all eyes turned to the Redistricting Board, provided in such emergencies by the Texas Constitution, for clues to how the final redistricting map will be drawn.

That board is composed of five Democrats and no Republicans, not by design of the Democrats, but by the Constitution. Sitting on the board are the Lt. Governor, House Speaker, Attorney General, Comptroller and Land Commissioner. Except for the Speaker, all are statewide elected officials . . . and all are Democrats.

Republican Governor Bill Clements, who enjoyed a powerful role in the recent regular and special sessions of the Legislature, must now pace the sidelines.

The map is now in the hands of Lt. Gov. Bill Hobby, Speaker Bill Clayton, Atty. Gen. Mark White, Comptroller Bob Bullock and Land Commissioner

Bob Armstrong. The political dynamics behind the drawing of the new redistricting plan is fascinating to politico-watchers.

A three-vote bloc will carry any cause on this five-member board, and those who profess to be true Democrats are eager to make up for losses sustained during the regular session.

Die-hard Republicans are claiming that any gains in House seats under the thrown-out plan are minimal. Perhaps what is at issue here is how many seats will be drawn which are to be considered toss-ups in the next election, to be won by a competent candidate from either party.

**The Bloc—Where?** Undeniably, the most conservative official on the Redistricting Board is Clayton, followed by Hobby. Clayton is approaching lame-duck status with every new day, but his seat on the Board gives him prolonged clout that his foes wish he didn't have. Clayton's strength in the House was a team composed of the minority of Republicans and a group of

conservative Democrats, mostly from rural areas. He should be rated the official most likely to look after the interest of Republicans.

Hobby is closer to the Democratic party, but not too much closer. Those who regard themselves as true Democrats fault Hobby for not standing up to Clayton and Clements during the past session.

Hobby, a Houston multimillionaire, would probably explain his stances as a protection of the conservative position, and an attempt to treat both parties fairly.

Going into the meetings, Clayton and Hobby appear to constitute two votes in a potential conservative bloc.

**Opposing Bloc** Two members who might readily oppose any Clayton-Hobby alliance are Bullock and Armstrong. While they risk being labeled the liberal bloc, it is probably more accurate to say the pair is more inclined to protect the Democratic Party.

They constitute a formidable duo: Armstrong is retiring from his office and has little to lose. Bullock has a macho mystique, and not known to shirk from a heavy-duty political fight.

**Swing Vote** The swing vote could well prove to be Mark White, the man who is also most likely to vote for a judicially fair map. As Attorney General, he should be the most conscientious official in terms of

meeting the requirements of the Voting Rights Act. However, that law was drafted to protect the rights of minority citizens, such as Hispanics and blacks, and not to protect any political parties.

**The Lobby** Still another group to be considered is the powerful group of special interest lobbyists who frequent Capitol halls. Conservative in ideology and untied to either party, they band together to contribute campaign money to their favorite officials and candidates. How much influence they

will have as a group on the five redistricting officials remains to be seen.

**Martin Indicted** State Rep. Mike Martin, R-Longview, was indicted for aggravated perjury last week by a Travis County grand jury. Jurors suspect Martin lied to them about a July 31 incident in which he was wounded in the elbow by a shotgun blast.

Martin posted \$5,000 and pleaded not guilty. A clean-cut looking young man who carried the "creation theory" bill last session, Martin is suspected of staging his own shooting for publicity purposes.

## Meet New Post Minister

Harold McSweeney, recently moved to Post from Deer Lodge, Montana, to begin his duties as minister of the Post Church of Christ. Harold graduated from high school at McCamey, Texas, and is a 1977 graduate of Sunset School of Preaching. He began his preaching career in 1977 at the Westside Church of Christ in Seminole, moving from there to Deer Lodge in 1978.

He and his wife Kim have two children, Carey who is a sophomore and Callie who is in the eighth grade.

# THANK YOU

Mere words cannot express the Emergency Medical Technicians' appreciation to the people of Garza County and those who live outside our county who have been so generous in their support to the E. M. T. organization during the VFW — EMT Benefit Barbecue.

Our very special thanks to the Veterans of Foreign Wars and the Ladies' Auxiliary for their help. We could not have even begun to dream of such success without them. For too long these two organizations have been overlooked and attention has not been paid to them for the many good deeds they have done unselfishly for our community. To the Commander, Tom Marrier a big thank you for all he has done, to Rusty Dean and George Sneed for putting it together and for ticket sales.

More special thanks to George Sneed and Palmer Well Service for their donations of beef, to Jackson Bros., for processing the beef, to the cooks, Fernie Reed, Ronnie Reed, Pete Price, Corky Ammons, Linford Warren and Monk Palmer who were not affiliated with any of the organizations but spent over 20 hours of their time to help and all the others who helped cook the meat.

Special thanks to the local merchants who donated items for auction that raised in excess of \$700.00 and to the auctioneers Weldon Reed and Bob Palmer for their tremendous help. Special thanks to the companies affiliated with the oil business who were so generous with their cash contributions.

Special thanks to Danny Guthrie and his band for using their talents for the benefit dance.

We, the E. M. T. Club of Garza County, want you to know that this money will not be spent foolishly. Our plans are to purchase training equipment and build training stations so that we might better our skills and thereby be better prepared for emergencies encountered. Again let us say, "Thank You" from the bottom of our hearts.

## Fall fertilizing of lawns needed

COLLEGE STATION — Hot summer weather has taken its toll on home lawns — and homeowners — throughout Texas. But there is still more work to be done to insure a weed-free winter lawn and good recovery of the lawn next spring.

"Lawn insects, including chinch bugs, white grubs and armyworms, must be controlled during late summer and fall," says Dr. Richard L. Doble, turfgrass specialist for the Texas Agricultural Extension Service, Texas A & M University System. "Where these insects damage the lawn, winter weeds rapidly invade the weakened turf and spring recovery is often poor. Timely applications of insecticides such as diazinon or chlorpyrifos (Dursban) will control most lawn insect problems."

According to Doble, fall fertilization is another requirement for maintaining green color and promoting early spring green-up of lawns. A dense, vigorous turf produced by proper fertilization also keeps winter weeds from invading lawns.

He recommends applying a complete fertilizer with a 3-1-2, 4-1-2 or similar ratio of nitrogen, phosphorus and potash at a rate of 1½ pounds of nitrogen per 1,000 square feet of lawn. This would be 12 pounds of 12-4-8 fertilizer per 1,000 square feet.

"Straight nitrogen fertilizers and fertilizers high in phosphorus (the middle number in the fertilizer analysis) should not be used for established lawns," cautions Doble.

"If winter weeds have become a problem in past years, apply a preemergence herbicide for addi-

onal protection against weeds," suggests the specialist. "Materials containing atrazine, benefin, bensulide and dachal provide pre-emergence control of many winter annual weeds. Some preemergence herbicides are available in formulations with fertilizers, which simplifies application."

Of course, it's important to follow label instructions in regard to grass species and rates of application when using herbicides. Materials containing atrazine should not be used around trees and shrubs.

As far as disease control is concerned, Doble suggests applying a fungicide on St. Augustine lawns to prevent damage from

brownpatch. Not only is brownpatch unsightly, but weeds generally invade the lawn in disease-weakened areas. Also, spring recovery is delayed in areas damaged by brownpatch.

"Another fall task for Pass meditations to be published

The Rev. Tom Pass, pastor of the First Presbyterian Church, has written a series of meditations for the devotional guide, *These Days*, which will appear in the March-April 1982 issue, *The Dispatch* has been advised by the publication which is headquartered in Atlanta, Ga.

homeowners is to remove excess accumulations of grass clippings or tree leaves from the lawn," points out Doble. "The excess debris from these sources increases thatch accumulation and creates a favorable habitat for insects and disease organisms."

So, for attractive lawns this fall and to insure good spring recovery, homeowners need to fertilize and use preventative pesticides as well as mow regularly.

### List posted in courthouse

AUSTIN — A list of Selective Service registrants born in 1962 and the first part of 1963 has been posted in the Post County Courthouse.

According to Colonel Paul Dean Aikin, the State Director of Selective Service for Texas, the Military Selective Service Act requires that the names of Selective Service registrants be posted in a public place within each local board area.

Local Board tentative assignments have been made based upon the Zip Code of the registrants permanent home address.

Colonel Aikin said the law (the Military Selective Service Act) still requires all young men to register with Selective Service at age eighteen.

Currently, men born in 1963 are required to register within 30 days before or 30 days after their eighteenth birthday.

Registration forms may be completed at any United States Post Office.

If any young man failed to register on time, he may clear his record by registering as soon as possible.

## Happy Birthday

## AVISO PUBLICO

Breves Declaraciones Explicativas De Las

### ENMIENDAS CONSTITUCIONALES

PROPUESTAS ELECCION ESPECIAL 3 DE NOVIEMBRE DE 1981

#### PROPOSICION NO. 1 EN LA BOLETA

Resolución Conjunta No. 8 del Senado propone una enmienda constitucional que permita a la legislatura autorizar a ciudades, pueblos y otras entidades fiscales conceder exenciones de impuestos por avalúo en una área no productiva, subdesarrollada o deteriorada para estimular su desarrollo. La enmienda también permitiría a la legislatura autorizar a una ciudad o a un pueblo emitir bonos o vales para financiar este desarrollo y empiezan futuros aumentos en los ingresos de impuestos por avalúo sobre la propiedad en dichas áreas para pagar estos bonos o vales.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza a ciudades, pueblos, y otras entidades fiscales estimular el mejoramiento, desarrollo, o redesarrollo de ciertas áreas por medio de avalúo en los impuestos sobre la propiedad y la emisión de bonos y vales."

#### PROPOSICION NO. 2 EN LA BOLETA

Resolución Conjunta No. 117 de la Cámara de Representantes propone una enmienda constitucional que autorice a una persona a recibir título de terreno del Comisionado de la Oficina General de Terrenos bajo ciertas condiciones. La solicitud para el título se tiene que hacer dentro de cinco años a partir de la aprobación de la enmienda. El terreno tiene que ser terreno de las escuelas públicas libres, medido, y no previamente titulado. La persona tiene que tener una escritura del terreno propiamente registrada, que adquirió sin saber del defecto de título y que él y sus antepasados interesados han tenido por lo menos durante 50 años. La persona y sus antepasados interesados tienen que haber reclamado el terreno continuamente y pagado los impuestos por lo menos durante 50 años.

Esta enmienda no se aplica a terreno de playa, a terreno sinergido ni a islas. Un solicitante no puede usar esta provisión

para resolver una disputa de límites de terrenos. Esta enmienda no se aplica a terrenos que hayan sido declarados propiedad del estado por una corte de jurisdicción competente ni a los que tienen un arrendamiento estatal de mineras, los cuales están produciendo o a la fecha efectiva de la enmienda.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza al comisionado de la Oficina General de Terrenos a dar títulos para ciertos terrenos del fondo para escuelas públicas libres tenidos en buena fe bajo título aparente durante por lo menos cincuenta (50) años antes del 15 de noviembre de 1981."

#### PROPOSICION NO. 3 EN LA BOLETA

Resolución Conjunta No. 38 de la Cámara de Representantes propone una enmienda constitucional que autorice a la legislatura conceder a un comité estatal de administración financiera la autoridad de administrar fondos estatales. Los fondos destinados por la constitución a fines específicos no estarían sujetos a la administración del comité. El comité estaría compuesto del Gobernador, el Gobernador Teniente, el Presidente de la Cámara de Representantes, el Presidente del Comité de Finanzas del Senado, el Presidente del Comité de Asignaciones de la Cámara de Representantes, el Presidente del Comité de Asuntos de Estado y el Presidente del Comité de Medios y Arbitrios de la Cámara de Representantes.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que permite a la legislatura conceder a un comité estatal de administración financiera la autoridad de administrar el gasto de ciertos fondos apropiados."

#### PROPOSICION NO. 4 EN LA BOLETA

Resolución Conjunta No. 6 de la Cámara de Representantes propone una enmienda constitucional que disponga que la mitad de

los ingresos sobrantes de impuestos, sobre el límite de gastos dispuesto por el Artículo VIII, Sección 22, de la Constitución de Texas, sean depositados en un Fondo de Asistencia del Agua a ser usados como provea la ley, incluso en proyectos para el desarrollo y la conservación del agua, la mejoría de la calidad del agua, el control de inundaciones o para cualquier combinación de estos propósitos.

La enmienda también provee \$500,000,000 del crédito general del estado para garantizar bonos emitidos en mercados comerciales por subdivisiones políticas locales, incluso ciudades, condados y distritos especiales. La enmienda permite que se establezcan cantidades para disminuir o para retirar deudas del estado, las cuales se definen como deudas garantizadas por la plena fe y el crédito del estado. La enmienda aumentaría el interés que se pueda pagar en bonos autorizados pero no emitidos, garantizados por la plena fe y el crédito del estado, de 6% a 12%.

La enmienda propuesta aparecerá en la boleta como sigue: La enmienda constitucional que autoriza el uso de una porción de los ingresos sobrantes del estado para el desarrollo, la conservación y la mejoría de la calidad del agua y para el control de inundaciones; que autoriza el uso del crédito del estado, no en exceso de quinientos millones de dólares, para garantizar los bonos de ciudades, condados, pueblos, y otras entidades de gobierno local en la financiación de proyectos dedicados a tales fines; que aumenta la tasa de interés que se puede pagar por bonos estatales previamente aprobados pero no emitidos; y que autoriza un programa para pagar bonos."

#### PROPOSICION NO. 5 EN LA BOLETA

Resolución Conjunta No. 49 de la Cámara de Representantes propone una enmienda constitucional que dejaría libres de impuestos el ganado y las aves. Actualmente los productos agrícolas en manos del productor y las provisiones familiares para el uso de la casa y de la granja están libres de impuestos.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que permite incluir el ganado y las aves con los productos agrícolas libres de impuestos."

#### PROPOSICION NO. 6 EN LA BOLETA

Resolución Conjunta No. 81 de la Cámara de Representantes autoriza al cuerpo gobernante de un condado, una ciudad, un distrito escolar u otras subdivisiones políticas declarar libre de impuestos una porción del valor de mercado de un hogar de residencia. La porción libre de impuestos puede ser hasta 40% para el periodo 1982-1984; 30% para 1985-1987; y 20% para 1988 y los años siguientes. La cantidad de la exención no puede ser menos de \$5,000 a menos que la legislatura por ley general prescriba otras restricciones monetarias de la cantidad de exención. A un adulto elegible se le permite recibir otras exenciones aplicables a las viviendas por la ley. Se hace excepción en caso de que los impuestos por avalúo hayan sido comprometidos previamente para el pago de deudas.

La enmienda admás dirige a la legislatura que requiera que se les dé a los propietarios una estimación razonable de impuesto sobre su propiedad en ciertas situaciones.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza a una subdivisión política proveer auxilio en los impuestos sobre la propiedad para los dueños de hogares de residencia y que cambia ciertos procedimientos administrativos en los impuestos sobre la propiedad."

#### PROPOSICION NO. 7 EN LA BOLETA

Resolución Conjunta No. 4 de la Cámara de Representantes propone una enmienda que autorice a la Junta de Terrenos para Veteranos poner en circulación de \$250,000,000 lo cual aumentaría de \$700,000,000 a \$950,000,000 la autorización total de circulación de bonos del Fondo de Terrenos para Veteranos. La enmienda aumentaría el interés máximo pagable por el estado por estos bonos de 6% a 10% y permitiría una tarifa aún más alta si fuera especificada por la legislatura.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza la emisión de bonos adicionales para financiar el programa de terrenos para veteranos y que aumenta la tarifa máxima de interés que se permite en los bonos del fondo de terrenos para veteranos."

## PUBLIC NOTICE

### BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS

#### SPECIAL ELECTION NOVEMBER 3, 1981

#### PROPOSICION NO. 1 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to authorize cities, towns and other taxing units to grant exemptions from ad valorem taxes on an unproductive, underdeveloped or blighted area in order to encourage its development. The amendment would also allow the legislature to authorize a city or town to issue bonds or notes to finance this development and to pledge future increases in ad valorem tax revenues from the property in such areas to repay these bonds or notes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years as of November 15, 1981."

resolve a boundary dispute. This amendment will not apply to land which has been determined to be state-owned by a court of competent jurisdiction or that has a productive state mineral lease on the effective date of the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years as of November 15, 1981."

#### PROPOSICION NO. 3 ON THE BALLOT

House Joint Resolution 38 proposes a constitutional amendment that would enable the legislature to grant to a state finance management committee the authority to manage state funds. Funds constitutionally dedicated to specific purposes would not be subject to committee management. The committee would be composed of the Governor, Lieutenant Governor, Speaker of the House of Representatives, Chairman of the Senate Finance Committee, Chairman of the House Appropriations Committee, Chairman of the Senate State Affairs Committee, and the Chairman of the House of Representatives Ways and Means Committee.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to allow the legislature to grant to a state finance management committee the power to manage the expenditure of certain appropriated funds."

#### PROPOSICION NO. 4 ON THE BALLOT

House Joint Resolution 6 proposes a constitutional amendment that would provide that one-half of the surplus tax revenues

above the spending limit provided by Article VIII, Section 22, of the Texas Constitution would be placed in a Water Assistance Fund to be used as provided by law, including projects for water development and conservation, water quality enhancement, and flood control purposes or any combination of these purposes.

The amendment also provides \$500,000,000 of the general credit of the state to guarantee bonds issued in commercial markets by local political subdivisions, including cities, counties, and special districts. The amendment allows amounts to be established to decrease or retire state debt, which is defined as that debt secured by the full faith and credit of the state. The amendment would raise the interest that could be paid on authorized, but unissued, bonds guaranteed by the full faith and credit of the state from 6% to 12%.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the use of a portion of the excess revenues of the state for water development, water conservation, water quality enhancement, and flood control purposes; authorizing the use of the state's credit, not to exceed five hundred million dollars, to guarantee the bonds of cities, counties, towns, and other units of local government in the financing of projects for such purposes; increasing the interest rate that may be paid on previously approved, but unissued, state bonds; and authorizing a program to retire state bonds."

#### PROPOSICION NO. 5 ON THE BALLOT

House Joint Resolution 49 proposes a constitutional amendment that would exempt livestock and poultry from taxation. Currently, farm products in the hands of the producer and family supplies for home and farm use are exempt.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to provide for the inclusion of livestock and poultry with farm products as exempt from taxation."

#### PROPOSICION NO. 6 ON THE BALLOT

House Joint Resolution 81 authorizes the governing body of a county, city, school district or other political subdivisions to exempt from taxation a portion of the market value of a residence homestead. The portion exempted may be as much as 40% for 1982-1984; 30% for 1985-1987; and 20% for 1988 and after. The amount of an exemption may not be less than \$5,000 unless the legislature by general law prescribes other monetary restrictions on the amount of the exemption. An eligible adult is allowed to receive other applicable exemptions provided by law. An exception is made where ad valorem tax has previously been pledged for the payment of debt.

The amendment further directs the legislature to require that notice be given to property owners of a reasonable estimate of tax on their property in certain situations.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing a political subdivision to provide property tax relief for owners of residence homesteads and changing certain property tax administrative procedures."

#### PROPOSICION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment that would authorize the Veterans' Land Board to issue and sell an additional \$250,000,000 in bonds increasing the Veterans' Land Fund's total bond issuance authorization from \$700,000,000 to \$950,000,000. The amendment would increase the maximum interest payable by the state on these bonds from 6% to 10%, and permit an even higher rate, if specified by the legislature.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the issuance of additional bonds to finance the veterans' land program and to increase the maximum interest rate allowable on veterans' land fund bonds."

# Cattlex completes 1st operating year

COLLEGE STATION — Despite poor prices and market uncertainty, cattlemen continue to expand their herds.

That observation comes from Dr. Ed Uvacek, Jr., economist in livestock marketing with the Texas Agricultural Extension Service, Texas A & M University System.

Uvacek notes that the latest figures show the total number of cattle and calves on farms and ranches in the United States up 2 percent or almost 2 million head from a year ago. That puts the nation's cattle herd at 125 million head, as of July 1.

Beef cow numbers rose 1 percent and heifers being held for beef cow replacement rose 7 percent from a year ago.

Dairy cows also were up 1 percent, with 6 percent more dairy replacement

heifers, reports Uvacek.

While most figures show increased cattle numbers on July 1, steers 500 pounds and over were down 2 percent from a year ago, reflecting reduced cattle feeding and increases in calf and non-fed cattle slaughter.

The big surprise was this year's short calf crop, says Uvacek, which was up only 257,000 head over the 1980 figure. This evidently was due to the severe drought last year which substantially lowered calving rates.

This small increase in calf numbers plus big increases in calf slaughter and non-fed cattle kill so far this year could result in tight feeder cattle supplies this fall, speculates the economist.

COLLEGE STATION — CATTLEX, a computerized auction and contract market for feeder-stocker cattle

in Texas, is completing its first year of operation.

The operation was launched as a demonstration by the Texas Agricultural Extension Service and the Texas Agricultural Experiment Station in cooperation with the Texas and U.S. Departments of Agriculture to allow cattlemen the opportunity to try a new marketing system.

CATTLEX began initially with 18 market locations over the state and now boasts 29 in its network.

"Although the system offers a new look mainly computer terminals, participants have not changed," emphasizes Dr. Ernie Davis, Extension livestock marketing specialist. "CATTLEX is operated by auction markets, order buyers, feedlots and producer marketing organizations. The system provides these marketing participants a

fast, efficient method of pricing, locating and obtaining cattle."

In addition, the system allows cattlemen another pricing means. For example, an auction market could offer a rancher's cattle over the 11 a.m. daily CATTLEX auction. If the rancher is not satisfied with the price he received from CATTLEX, he can refuse sale and sell through his local livestock auction that afternoon.

"Although computer marketing of cattle is relatively new, those providing the eyes, ears, arms and legs of the system — the graders — are certainly not newcomers to buying and selling cattle," notes Davis.

Graders physically view and describe all cattle listed on CATTLEX. These individuals have many years of livestock marketing experience and are associated

with an auction market or an order buying firm. They know cattle. In fact, the 55 graders that have been trained and certified by Texas A & M University represent a total of 825 years of livestock marketing experience or an average of 15 years per grader, points out the specialist.

"At the beginning of the CATTLEX project, selling cattle sight unseen to the buyer was expected to be the biggest problem," relates Davis. "After a year's operation, the description of cattle by graders has been one of the most successful aspects of the project. Buyers receiving cattle purchased over CATTLEX have been satisfied with the way cattle were represented. In fact, some buyers claim they get more information about cattle through CATTLEX than any other means."

Buyers are furnished details about the estimated weight of cattle, sex, color, age, breed, amount of Brahman or dairy influence, USDA grade, common name grade, location of cattle, how they have been handled or conditioned, flesh condition, weighing condition, weighing location, fill condition, shrinkage and number of head in the lot.

"Add to this any additional comments the grader may have about the cattle plus any merchandizing information supplied by the owner and the buyer should have complete information on the lot of cattle," says Davis.

All this descriptive information comes through the eyes of highly skilled, experienced cattlemen in whom CATTLEX buyers have gained trust and confidence, he adds.

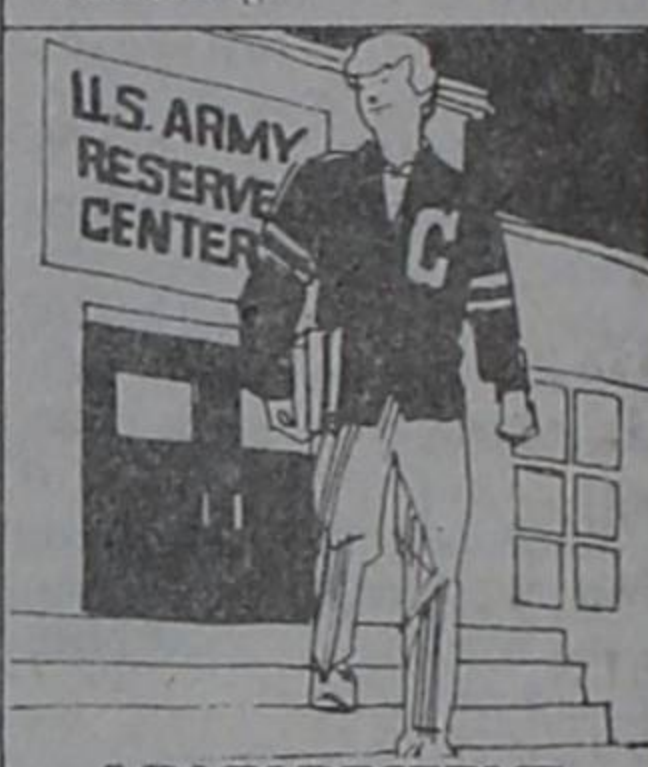

More than 200 kinds of bread are baked today in the Soviet Union, 130 in the Moscow Central Bakeries alone. Russians, on the average, consume about a pound of bread per day.

Five of the CATTLEX graders have more than 30 years each of livestock marketing experience. These seasoned veterans include Rayford Smith, Port City Stockyards, Sealy; Vernon Surret, Abilene Auction; Tom Bell, Texas Livestock Marketing Association, San Antonio; A. J. Kemp, TLMA, Fort Worth; and Buddy Wheelis, Bee County Livestock Market, Beeville. Eighteen additional CATTLEX graders have been in the business more than 15 years.

**In Lubbock's Civic Center—  
Computer workshop for farmers set**

COLLEGE STATION — Computers are no longer strangers to the agricultural industry. They offer a new dimension in farming and ranching that can help producers obtain more accurate information on which to base management decisions.

To give producers, agricultural leaders and others a better understanding of the role of computers and their actual application, the Texas Agricultural Extension Service, Texas A & M University System, will be conducting a special computer workshop Sept. 23-24 at the Civic Center in Lubbock.

The workshop on "Computers in Farm and Ranch Management" is designed to provide an introduction to several different computer systems available today, points out Dr. Wayne Hayenga, economist in management with the Extension Service.

"Participants will have an opportunity to get some 'actual' experience by operating several different computer programs," says Hayenga. "Everyone attending should have time to run a computer, using his own farm or ranch data. This will be a true 'hands-on' workshop."

First day of the workshop will feature discussions on various computer systems, their role in agriculture, how to select one, available programs, and farmer experiences with computers. Four "work" sessions will round out the workshop the next morning. These will deal with micro farm

accounting systems, livestock management decision aids, crop management decision aids, and financial projections and pricing aids.

Speakers and resource personnel during the two-day workshop include Extension economists and several farmers and ranchers who will talk about how they use computers in their operations.

Commercial exhibits will also be on hand.

As an indication of the interest in computers in agriculture, Hayenga notes that an earlier similar workshop in Corpus Christi attracted some 140 individuals from six states.

Registration information is available from any county Extension agent or from Marvin Sartin, Texas A & M University Agricultural Research and Extension Center, Route 3, Box 213AA, Lubbock, Tex. 79401.

**Dr. Robb heads Slaton revival**

SLATON — Nationally known Dr. Ed Robb will be the featured speaker at the Slaton First United Methodist Church's revival beginning Sunday which runs through next Wednesday.

Bob Wert of St. Luke's Methodist Church in Lubbock will be the director of music for the four-day revival.

Dr. Robb will begin the revival at the Sunday morning service. Evening services are slated at 7:30 p.m. and there will be early morning devotional breakfasts at 6:45 a.m. He currently is executive secretary of the Ed Robb Evangelistic Association and the author of three books.

# Lopes impressive; 31-0 over Lockney

## Defense keys easy triumph

A tough, gang-tackling defense and a sparkling varsity debut by Sophomore Tailback Milton Williams highlighted the Post Antelopes most impressive opening game victory in years Friday night in Antelope Stadium.

The Lopes jumped in front with a 16-point first quarter as they rolled to a 31-0 triumph over the Lockney Longhorns on a wet-slick field.

Led by veteran linebacking corps, the Lope defense completely smothered the Horns' attack, especially in the first half when it held the visitors without a first down and forced them into costly fumbles and bad snaps.

Williams, whose arrival in high school has been long awaited by high school grid fans, scored one touchdown on a 45-yard right end sweep with two minutes left in the game, had a 45-yard scoring punt return in the third period called back on a Lope penalty, and set up the second Post touchdown in the first period by returning another Lockney kick 35 yards after a safety to the Longhorns' 30.

After taking a 24-0 lead into the dressing room at halftime, the Lopes made a bushel of errors in the second half including three lost fumbles, as Coach David Thompson used all his 25-player squad to see what everybody could do under game conditions.

Junior Quarterback Tim Tannehill turned in a solid performance in his first outing at the varsity controls. Tailback Will Kirkpatrick slashed for two touchdowns. Wingback Richard Cisneros sparked on a 46-yard run to set up the first Lope score.

All told, the Lope defense held Lockney to four first downs, 73 yards rushing, and seven yards passing on two short completions on 15 throws, while intercepting two good for 75 return yards.

The defense forced three fumbles, recovered two — one on the Lockney by Tackle Brad Mason to step up the third Post touchdown — and forced a safety on a bad center snap.

On one first quarter play, 10 Lopes tackled Tailback Junior McDonald and the 11th Lope was only two feet away from the pile. McDonald who gave the Lopes all kinds of trouble in the opener at Lockney last year with his darting runs, got away only once this time for a 12-yard gain on a sweep. He was held to under 25 yards.

Lockney got their four first down in the second half when Quarterback Jeff McCormick was forced out of the pocket to run, when he handed off to fullback Mario Arellano on draws, against a fierce pass rush, and when McDonald got his 12-yarder.

Kirkpatrick picked off a McCormick pass in the fourth and returned it 30 yards to the Lockney 10, but Post fumbled away the handoff on the next play.

Milton Williams on the game's final play intercepted McCormick again and

| 3-2 Fumbles, Lost     | 3-3    |

sped 45 yards to the Lockney 22 before being knocked out of bounds.

The Post offense was sporadic and sputtered much of the second half.

This is how the action went:

On its second possession of the game, Post drove 65 yards for their first touchdown with Cisneros' 46-yard run the highlight. Tannehill on a keeper took it across from the four. Kirkpatrick converted with 6:35 left in the period.

Lockney's McCormick was sacked for a huge loss trying to pass after the kickoff and when he went back to punt out from the end zone the center snap sailed high over his head and out of the end zone for a two-point safety.

The elusive Williams then took McCormick's punt from the Lockney 20 after the safety and returned it 35 yards to the Lockney 30. Post moved in for their second score with Kirkpatrick zipping in from the 15 standingup. He converted to give Post a 16-0 first period lead.

In the first minute of the second period, Mason pounced on a Lockney fumble on the Lockney one and three plays later Kirkpatrick tallied again this time from the one.

Two five-yard penalties on the point try backed the Lopes out of kicking range so Tannehill passed to Cisneros for the two-point conversion. It was his first varsity pass.

Later in the period, tackle Mario Luna recovered a Lockney fumble on the visitors' 35, but Tannehill was intercepted on the Longhorn six to then the threat.

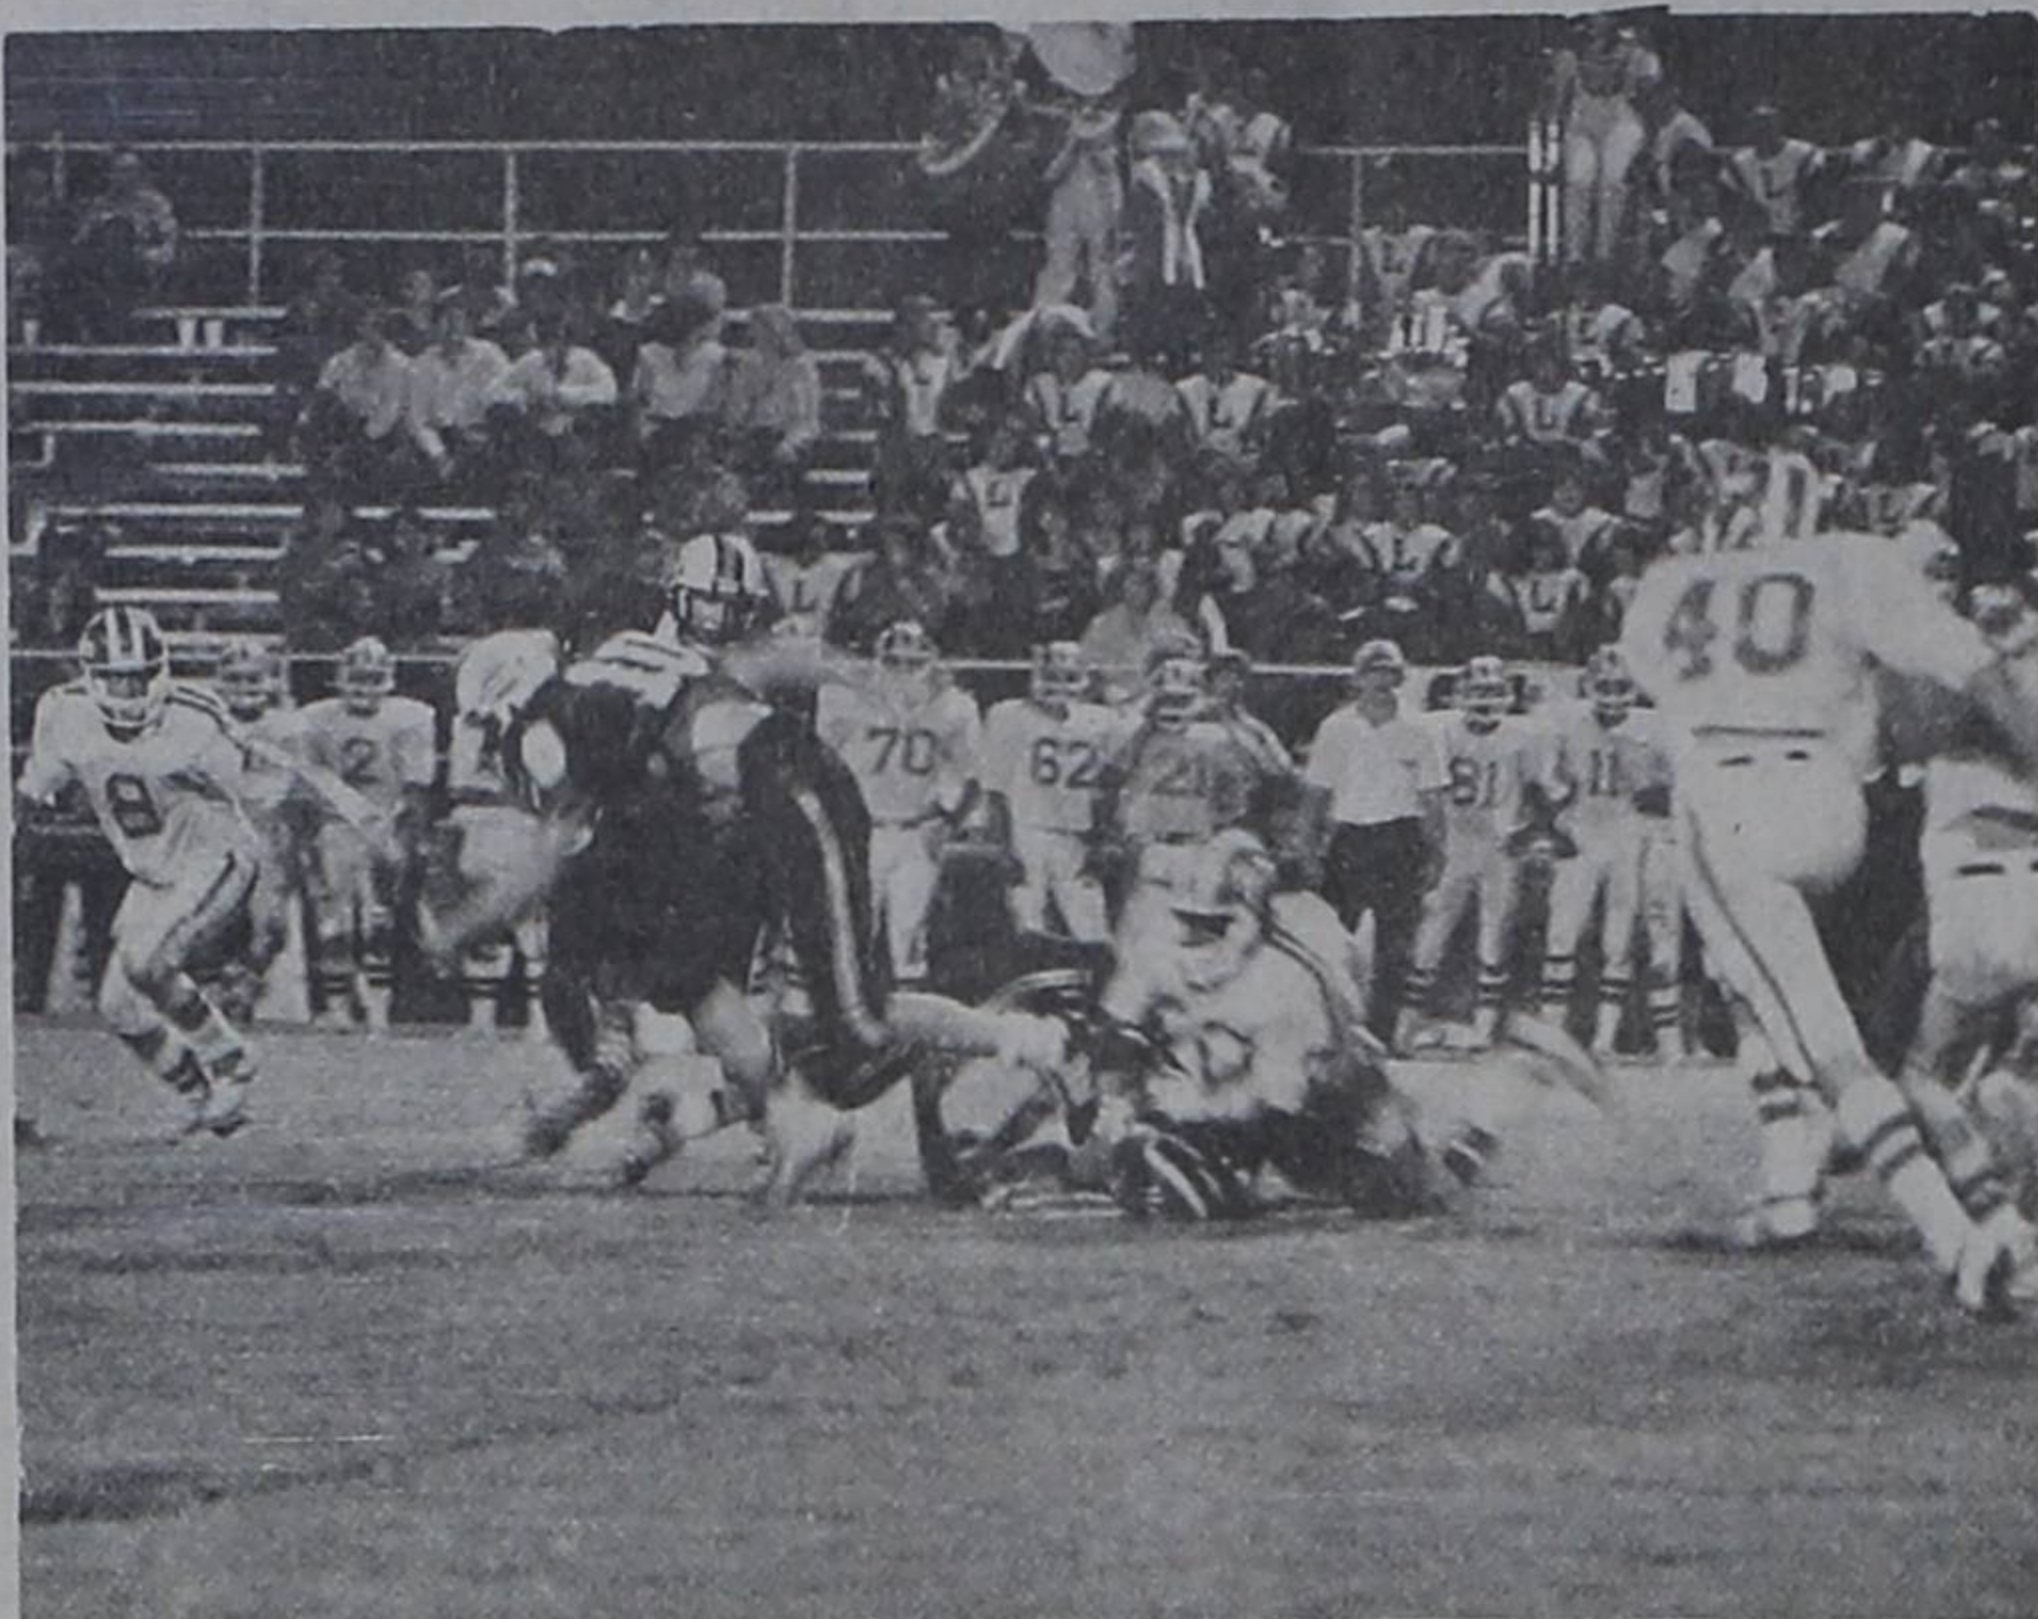

Late in the period, the Lopes drove 36 yards to the Lockney 22 only to lose the ball on downs.

Early in the third, Williams took a Lockney punt and swept to his left down the sidelines to score standing up. The play was called back and Post penalized for blocking below the waist.

The Lopes drove to the Lockney 20 where Fullback Marvin Wynne fumbled the ball away after a seven-yard gain.

Lockney's deepest "penetrations" of the game came in the third when the Horns reached the Lope 37 and 38 yard lines only to lose the ball on downs. One of the opportunities came on a partially blocked Tannehill punt which totaled only seven yards.

Williams returned a Lockney punt 18 yards with some fancy footwork in the fourth to the Lockney 37. Post moved to a first down on the 25 on a 12-yard Tannehill to End Bill Black pass but were pushed back

**SHORT GAIN** — Quarterback Tim Tannehill, No. 10, plunges for short gain at midfield in second quarter here against Lockney Friday night. (Staff Photo)

## Mike Ollison on two td runs-- Frosh open with 20-6 Lockney win

Tailback Mike Ollison led the Post freshmen to a 20-6 victory over Lockney's frosh at Lockney last Thursday night with touchdown runs of 85 and 90 yards.

Ollison got his first td in the third period after Lockney scored its touchdown to close within a point of Post at 7-6. The Post tailback took the succeeding kickoff back 90 yards for a six pointer.

He got his other in the final quarter when he swept around end 85 yards into the end zone.

Post got its first touchdown in the first quarter when Curt Greer rammed over from the one yard line to cap a 13-play, 60-yard march on Post's second possession of the game.

by two penalties and forced to kick.

With 2:32 left after Marvin Wynne had returned a Lockney kick to the Horns' 45, Williams took a pitchout around right end and went all the way for his first varsity touchdown.

Kirkpatrick then notched his third straight conversion kick for the final point of the night.

Cisneros was Post's top rusher for the game with 70 yards in seven carries.

He was followed by Williams, 5 for 57; Kirkpatrick 11 for 53; Wynne 7 for 28; and Tannehill 9 for 26, not counting a nine-yard loss on a sack trying to pass.

The Lopes came out of the contest with no injuries.

Terry Kennedy passed to Chuck Morris for the two point conversion after that score. Post's other two PAT attempts failed.

Other offensive standouts according to Coach Jay Kennedy, were Rod George, Paul Perez, Curt Cowdrey, Jim Rainbolt, Chuck Morris, Danny Storie, Albert Nava and Keith Osborn.

Standouts on defense were David Brown, Roy Perez, Victor Robles, Mike Johnson, Mike Ollison, Todd Angerer, Keith Osborn, Jay Valdez, Tony Soto, Donald Crenshaw, Terry Kennedy, Danny Storie, Rodney George and Scotty Cline-smith.

The Post frosh will make their 1981 bow before home fans in Antelope Stadium tonight against the Colorado City frosh. Kickoff time for this first game of a doubleheader will be at 5:30 p.m.

### Bo Jackson to Sunday speaker

The Church of God of Prophecy, 601 West 14th, would like to extend a special invitation to everyone to attend our Sunday services, September 13, We are pleased to announce that Bo Jackson will be our guest speaker in charge of the morning worship. Services will be at 10:45 a.m. and also the Sunday night service at 6 p.m. Everyone is welcome to attend.

### Hospital Notes

Those admitted to Garza Memorial Hospital since Thursday of last week were:

Tommie Brewer, medical; Vickie Day, O. B.; Helyn Fields, O.B.; Emma Hyder, medical; Patsy Romero, Ped.; Ida Mae Robinson, medical; Felix Bustos, medical; Gertrude Hodges, medical.

Those dismissed were Arnold Sanderson, Tommie Brewer, Patsy Romero, Vickie Day, Ruby Woodard, Ida Mae Robinson, Emma Hyder, Helyn Fields, Felix Bustos and Gertrude Hodges.

## Slaton, Tahoka eke out openers

In first game action last Friday night both Tahoka and Slaton were hard put to score victories.

The Tahoka Bulldogs squeezed out a 14-10 victory at Stanton on a 70-yard pass-run play for a touchdown with little more than two minutes to play.

At Slaton, the Tigers recovered a Colorado City fumble on the Wolves' two yard line and punched it in for the game's only touchdown and a 7-0 triumph.

Roosevelt opened with a 3-0 win over Lorenzo when a first quarter Lorenzo fumble gave the Eagles the opportunity to kick a field goal.

The Cooper Pirates got off on the right foot — Shawn Samply's foot that is — in a 7-6 victory over Ralls. Ralls scored late and failed on a two-point conversion try for the victory.

## Lopes invade Colorado City-- Wolves tough on defense

Colorado City's Wolves, who will host the Post Lopes Friday night in the second game are strong on defense with an unusual 6-1 defensive front.

Post scouts report Colorado City's opening loss to Slaton came when the Wolves fumbled the ball away on its two yard line and the Tigers drove two yards for the game's only tally.

"Defensively the Wolves are quick and aggressive," Coach Thompson said. "Randy Usleton, an 182-pound senior center on offense, is the lone linebacker on defense."

The Lope mentor says the Wolves have two good running backs in 155-pound seniors, Victor Jackson and Mike Scott.

The Lopes suffered no new injuries in their opening win, but will go into the Colorado City game with Mike Sullivan slated to be the starting fullback probably starting on defense only at linebacker. He jammed his neck in the final Lope scrimmage two weeks ago, but played defense in the opener.

Colorado City runs a veer offense.

Coach Thompson commented thusly on the opening win over Lockney:

"We played real aggressive defense. Our offense is a little bit behind, but for the first ball game we were very pleased."

Thompson's only fear is injuries to his front-liners. The Lopes are very short on depth.

The other four Post football squads will be in action tonight, three of them for the first time.

The freshmen and the junior varsity will host their Colorado City counterparts in a grid doublebill in Antelope Stadium with the frosh kickoff scheduled for 5:30 p.m.

The seventh and eighth grade squads will journey to Colorado City with the seventh graders opening at 5:30 followed by the eighth grade game in another twin bill.

### GET PAID FOR YOUR MILITARY EXPERIENCE.

If you're not using your military experience, you're missing a chance to earn extra money. # GOVERNOR'S REPORT

by William F. Clements Jr.

I had great expectations of the 67th Legislature, and a vast majority of those expectations have been realized.

Of 44 basic legislative proposals I advanced to the regular session early this year, 34 were approved.

We maintained excellent communication with the leadership of the House and Senate, and there was a high degree of cooperation and coordination of efforts.

We addressed some sticky issues which have been on the agenda for a long time and through the administrations of several governors. Our regular session batting average has been something like .770 per cent, and few administrations can top that.

The programs I submitted in the areas of law enforcement, education, better management of State government and other major fields, in general, won approval.

Of the five "leftover" tasks which I assigned as the initial business of the special session concluded August 11, four — or 80 percent — were successfully completed.

In addition, many other significant measures — some 25 bills — were passed in the July-August special session.

No legislative session in modern history passed more potent, far-reaching measures to combat crime and the drug traffic than did the 67th. Fourteen of the 16 key elements in my anti-crime and War on Drugs programs were adopted.

Major new legislation includes the first Texas wire-tap law, authorizing court-ordered electronic

surveillance in narcotics cases. The Legislature also funded the Criminal Justice Division at a level of \$25 million a year, permitted use of recorded oral confessions in felony trials, reorganized the Board of Pardons and Paroles, provided halfway houses for parolees, established probation commission and strengthened control of the bail bond system.

All of the bills sponsored by Ross Perot and the Texans War on Drugs group were adopted.

Some of the most substantial changes in the Texas public school system since passage of the Gilmer-Aikin laws three decades ago were enacted without fanfare by the 1981 regular

session. Among the important new laws was the curriculum revision or back-to-basics act which cleans up the present, legislative-mandated course requirements and allows the State Board of Education to provide greater emphasis on basic subject matter.

A constitutional amendment which I have long advocated to grant to a State finance management committee power to manage expenditure of certain appropriated funds and thus permit government to respond to unanticipated critical funding needs when the Legislature is not in session will be submitted to voters this November. This, together with several other measures which I recommended, will improve fiscal management of State government.

The special session completed action on congressional redistricting; submitted a constitutional amendment to create a State Water Trust Fund, dedicat-

ing a portion of future surplus revenues to water development; revised the property tax code to make it less burdensome on Texas taxpayers and resolved lingering differences over the medical practice act.

In addition, the special session offered a constitutional amendment to issue another \$250 million in veterans land bonds and increase interest on the bonds to make them saleable; exempted gasohol from highway taxes; required health insurance companies to offer optional group coverage for alcoholism and drug dependency; appropriated \$1.5 million for control of the Mediterranean fruit fly and passed implementing legislation for regulation and taxation of bingo games.

Failure of initiative and referendum was a major disappointment of the regular session. I regret that the Senate, in the special session, refused to go along with repeal of the 10 cent State ad valorem tax, as I

had strongly recommended. The tax, if upheld by the courts, could cost Texas property owners \$430 million a year. A three-cent

rate, as advocated by the Senate, would cost the \$135 million.

On balance, I am pleased and gratified at our achievements. We are undertaking a total assessment of the 1981 Legislature's work, and will be taking a close look at the reasons for our

relatively few losses, with a view to providing effective guidance on these issues prior to the next regular session.

**Gas heating saves \$226 per year!**

Compared to the heat pump, gas heating can save you \$226 per year on your utility bills. So if you hear that a heat pump is "more economical", remember, that is comparing it to other electric heating... not to gas! No other heating system even comes close to gas for economy. At Energas, we are committed to help you get the most for your heating dollar. Gas heating, combined with good conservation practices, saves energy, too.

**ENERGAS**  
Efficient Gas Energy for West Texas

Based on 1981 D.O.E. Established Average Values

### Scientists develop methods to combat current water crisis

COLLEGE STATION — A developing water crisis that could be more severe than the current energy crisis is being aggressively challenged by agencies and researchers in the Texas A&M University System.

Agricultural researchers with the Texas Agricultural Experiment Station are developing drought-resistant plants in light of the water situation.

The Texas Engineering Extension Service is developing a statewide program of water and waste water training aimed at setting standards of drinking water, improving waste treatment methods and assisting small communities in meeting more stringent requirements of the Safe Water Act.

A new method of irrigation in the High Plains alone, developed by Texas A&M agricultural engineers, could result in a \$1.5 billion energy savings during the next 20 years, predicts Dr. Jack Runkles of the Texas Water Resources Institute.

A Mexican Independent Day Grand Fiesta will be conducted next Tuesday and Wednesday nights, Sept. 15-16, by St. Michaels Church in Ralls, Father Malcolm Neyland has announced.

Included will be a parade of Raina queens through the Ralls business district at 4 p.m. Tuesday, an Eucharist at 5 p.m., Mexican dinner at 6 p.m. along with the opening of 24 puestos, carnival rides.

A dance will be held each night from 8 to midnight to Conjunto Los Gallitos Northenos de Jessie Sollis.

### Committee to study engineering problem

COLLEGE STATION — A national plan to combat critical shortages of engineering faculty and postgraduate students is expected by fall, says the dean at the nation's largest college of engineering.

Dean Robert Page of Texas A&M University said 2,500 engineering faculty are needed today in the nation's colleges. He feels the shortage of qualified faculty is at the heart of problems facing engineering educators.

## Get A Head Start At Briercroft

EARN **32%\*** NOW

Annual Rate  
On Super B Security

EARN **12.61%** AFTER SEPT. 30

Annual Rate  
On All Savers Certificates

# TAX-FREE

\*This Interest Is Not Tax-Free

Briercroft Savings will be offering the All Savers Certificate October 1. But, to give you a head start, we want to give you a bonus on your money...so until September 30, we are offering a "Super B Security" that will pay 32% per annum on a minimum deposit of \$500.

What exactly are the All Savers Certificate and the Super B Security? THE ALL SAVERS CERTIFICATE\*

This is a one-year, once in a lifetime savings certificate that will pay up to \$2000 interest TAX FREE.

Your minimum deposit is only \$500. Due to Federal regulations, there is a substantial penalty for early withdrawal.

The All Savers Certificate is insured by the FSLIC.

THE SUPER B SECURITY

This is a Repurchase agreement that will pay 32% per annum until October 1. At that time, Briercroft can transfer your funds into an All Savers Certificate.

The minimum deposit is only \$500.

The Super B is not insured by FSLIC, but is backed by Briercroft Savings and U.S. government securities. Substantial penalty for early withdrawal.

Interest earned on the Super B is not tax-free.

\*This offer is subject to Federal Regulation.

Here's an example of the high yield Briercroft "All Savers" Tax-Free Savings Account.

| If your family income is: | Your tax bracket probably is: | The interest rate you'd have to earn to equal 12.61% after federal income tax is: |
|---------------------------|-------------------------------|---|
| \$50,000 or more          | 50%                           | 25.22%  |
| \$35,000                  | 40%                           | 21.02%  |
| \$25,000                  | 30%                           | 18.01%  |
| \$20,000 or less          | 25%                           | 16.81%  |

Figures above are approximate and based on 1981 tax tables. Interest rate of 12.61% is equal to 70% of average investment yield on one year U.S. Treasury Bills as of the most recent auction date.

# COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

**NCC Opposes Quota Hike**  
The National Cotton Council has strongly urged Administration officials to oppose any increase in the quota on imports of raw cotton from Mexico. The proposal to raise the current quota from 18,507 bales to 200,000 reportedly has been under consideration by officials of the U.S. Department of Agriculture and the Department of Commerce since Mexico's president, Jose Lopez Portillo, met with President Ronald Reagan in June. Mexico's request was made public only this week. The issue is expected to be brought up again by Mexican Commerce Secretary Jorge de la Vega at a meeting September 21-22 with Commerce Secretary Malcolm Baldrige and Special Trade Representative Bill Brock in Mexico City.

Council President Frank M. Mitchener, Jr., wired Agriculture Secretary John R. Block and warned that deficiency payments to cotton producers could be triggered unless the Administration quickly rejects Mexico's request. He pointed out that the August price received by farmers (67.8 cents) was below cotton's 70.87 cent target price. The current quota level of 18,507 bales, written into Section 22 of the Agriculture Adjustment Act of 1933, has remained unchanged since the early 1940's. It can be changed by the President on a recommendation of the Secretary of Agriculture and the International Trade Commission, after public hearings to determine whether a new quota level would disrupt the U.S. cotton program.

**Council Directors to Meet**  
Topics ranging from clean air to taxes are on the agenda for the National Cotton Council's fall Board meeting September 17 at the Peabody Hotel in Memphis, Tenn. J. S. Francis, Jr., chairman of the industry-wide task force on clean air, will outline the latest developments in that area.

Other reports will cover cotton's supply and market outlook, cotton dust, packaging standards, foreign operations, tax law, and Washington activities.

A highlight of the session will be special recognition of surviving members and advisors of the Committee on Organization, who met at the Peabody 43 years ago to form the Council. Board Chairman Herman Propst of Anson, Texas, will preside.

**Yields Could Cut Growers' Costs**

An expected Beltwide improvement in 1981 cotton yields points to the strong possibility of a lower per-pound production cost, National Cotton Council economists say. The U.S. Department of Agriculture has projected that cotton's per-acre cost would rise 16 percent over 1980, but if yields average 517 pounds per planted acre as currently expected, the per-pound production cost — after adjustment for seed value — would run around 65 cents, excluding returns to land and management. This would be about 13 cents below the figure in 1980, when yields were poor.

## Let's Create Homemade Conserve

*It's Easy the Freezer Way!*

If you're searching for new ways to add excitement to the family's eating enjoyment, consider a delicious Plum Nutty Conserve. Jot down "fresh plums" on your marketing list. Be sure to include a package of powdered fruit pectin. Promise yourself to prepare this easy conserve recipe that will complement a good many meals.

Fruit in this freezer recipe isn't cooked — just mixed with sugar, chopped walnuts and powdered fruit pectin. By not cooking the fruit, the flavor stays much fresher, closer to nature. That's a major reason why commercial pectin is added. It helps capture fresh flavor and assures a good "set." Keep in mind that natural fruit pectin decreases as fruit ripens. Because pectin helps a mixture to "jell," it's necessary to supplement natural pectin with the commercial variety.

Refrain from making any recipe changes. At the time you purchase powdered fruit pectin, it's likely you will see packages of liquid fruit pectin. Do not use liquid and powdered fruit pectins interchangeably. While both bring successful results, remember that recipes are developed for a specific type of pectin.

Before you begin to prepare the conserve, read the recipe insert tucked inside the package of powdered fruit pectin. Follow directions for preparing small freezer containers, of not over a pint capacity, with tight-fitting lids. Containers as well as glass jars should be dishwasher safe.

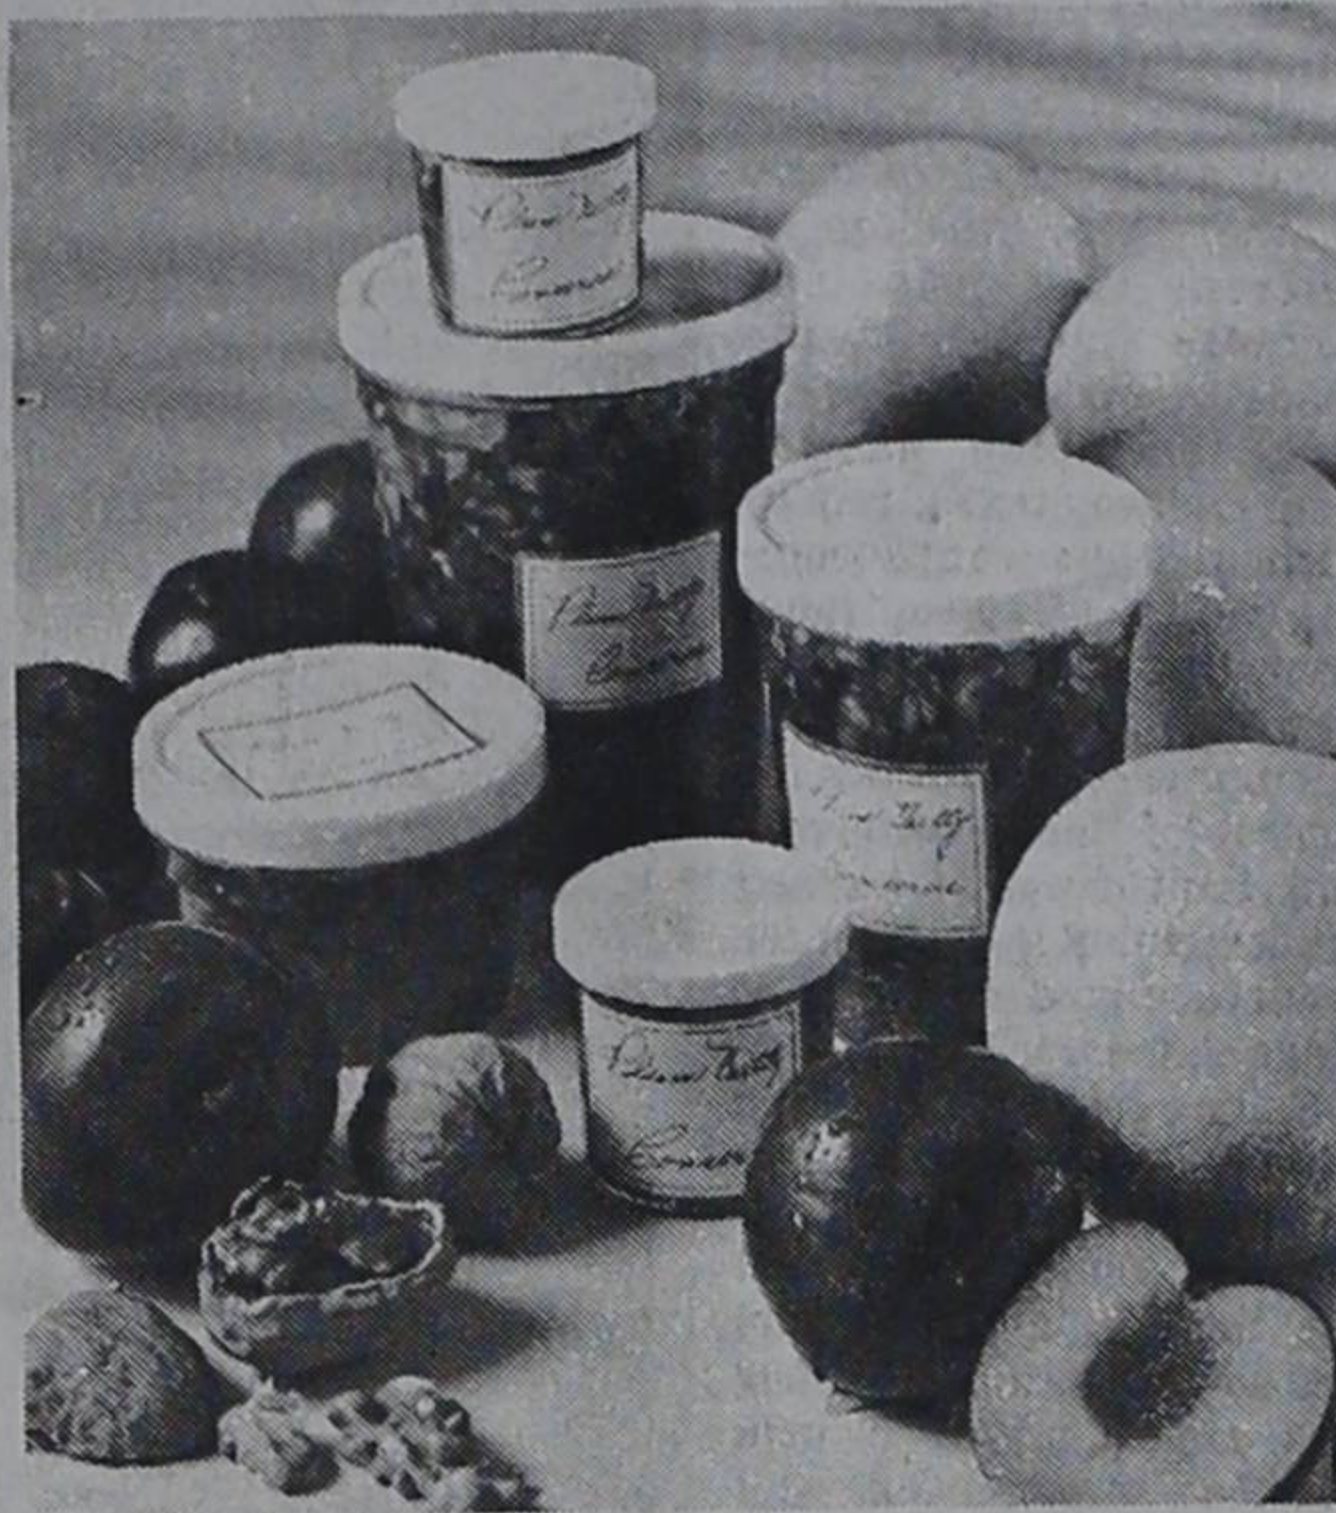

The recipe moves swiftly along: the prepared fruit mixture with pectin is stirred for just 3 minutes, quickly ladled into containers and covered with lids. After standing for about 24 hours, containers can be stored in the freezer up to six months.

Inspired to make a variety of fresh fruit jams and jellies? The recipe leaflet is a good place to start. Enjoy the satisfaction of adding to your stock of homemade spreads.

**Plum Nutty Conserve**  
2-3/4 cups prepared fruit (about 2 lb. fully ripe plums and 1 orange)  
1/3 cup finely chopped walnuts  
5-1/2 cups (2 lb. 6 oz.) sugar  
3/4 cup water  
1 box Sure-Jell fruit pectin

*First prepare the fruit.* Pit about 2 pounds plums; do not peel. Cut in small pieces; then chop very fine. Measure 2-3/4 cups into large bowl or pan. Grate the rind from orange; measure 1 teaspoon. Squeeze the juice from 1 orange; measure 1/4 cup. Add orange rind, orange juice and walnuts to plums.

*Then make the conserve.* Thoroughly mix sugar into fruit mixture; let stand 10 minutes. Mix water and fruit pectin in small saucepan. Bring to a full boil and boil 1 minute, stirring constantly. Stir into fruit. Continue stirring 3 minutes. (A few sugar crystals will remain.) Ladle quickly into scalded containers. Cover at once

with tight lids. Let stand at room temperature 24 hours; then store in freezer. Small amounts may be covered and stored in refrigerator up to 3 weeks. Makes about 7 cups or about 8 (8 fl. oz.) containers.

## Roundup chairman knows first hand

ABILENE — The chairman of the Cattlemen's Round-Up for Crippled Children horse sale says this year's sale will be the biggest ever.

Perhaps it's because this year, he's a patient at the West Texas Rehabilitation Center and has experienced first hand how the money raised at the horse sale will be used.

R. C. Williams, involved in CRCC since Conda Wylie brought in the first pen of calves in 1960, is known to everyone in the Abilene area as the voice of Abilene Auction.

He's worked in the cattle business since 1924 and at

Abilene Auction for 32 years. In the 22 years since the first Cattlemen's Round-Up, he has spent many hours preparing for sales, talking to donors, handling the sales.

"I have never missed a sale," he said, in an interview right after his daily treatment at WTRC. Williams's therapist, physical therapist Lu Ann Farmer, says he never misses a treatment either.

A portion of Williams' right foot was amputated in May and the treatment that started in July is to promote healing. When the foot heals, he will be fitted with a prosthesis and will be taught to walk on it at WTRC.

"It's sure done me good," he said. "Everybody out here has been good to me."

Williams still goes out to the auction three days a week, Monday, Tuesday and Thursday, and he broadcasts the auction report from his home.

He's already getting calls about the horse sale, set for October 3 at Abilene Auction.

"Horses are bringing more money than cattle. It's going to be bigger than it's ever been," Williams said.

How much will a horse bring in?

"Whatever you can get — that's what horse trading's all about," he said. He did say that a horse that once went for \$50 now will bring \$600 to \$700.

He says the cattle market is pretty good, "since he's seen both better and worse over the years. "The cattle business is a good one to go broke in," he said.

He's planning on handling the sale from his wheelchair if necessary and is counting on the best sale ever.

"Tell them to bring us the stock and we'll get the money. We're going to make it a big one."

## Postings—

(Continued From Page One) season by listing the Post Antelopes in 19th place among the 206 Texas schools in the AAA division with 147 points.

Tahoka was the only district school rated above the Lopes with 151 points which put the Bulldogs in 9th place.

Littlefield, which thumped the Lopes in the second scrimmage two weeks ago, was ranked third with 155 points behind No. 1 Allen and No. 2 Sweeny with 159 and 158 respectively.

Slaton was rated No. 36 with 140 points and Roosevelt 42nd also at 140 points. Frenship was No. 66 with 136, Floydada with 134 points was 78th, Colorado City was 119th at 127, Coahoma was No. 133 with 125 points, Denver City a point farther down at 124 was No. 136, Lockney was 157th at 120, and Lubbock Cooper was ranked 200th with 98 points.

Harris was right on all his district picks the first week in districts 3 and 4AAA, but two. He had the Cooper-Ralls game a tossup tie and he had Frenship over Denver City by six. Cooper won by a single point, 7-6, and Denver City upset Frenship 3-0. So they weren't bad misses. He had Post by 19 over Lockney.

Harris, like ever other grid picker, won't always be right. But he calls them a very high percentage of the time and we think Post fans will enjoy seeing how close he can get and where he misses.

Whether he picks the Lopes to win or lose by big or little margins we hope it does not influence the players one way or the other. After all, the games are actually won or lost on the playing field.

ATTEND REUNION  
Mr. and Mrs. Bill Hughes attended the Hughes reunion in Georgetown, Tx., Aug. 29 and 30. They were accompanied by their daughter, Maudie Sue Jones of Portales, N.M. 74 attended the reunion.

## Kraig Peel heads Close City 4-H

By JANELL JONES  
The Close City 4-H club met Sept. 3, 1981 at the Livestock barn and elected the following officers for the 1981-82 4-H year:

President, Kraig Peel; vice-president, Tommy Payton; secretary, Debbie Ethridge; treasurer, Cathy Davis; reporter, Janell Jones; boy council delegate, Derick Dunn, alternate, Chuck Morris; girl council delegate, Kayla Peel and alternate, Susan Sanders; recreation chairman, Jana Terry; refreshment chairman, Jana Middleton and telephone chairman, Rusty Morris.

The third Tuesday night of each month was selected as meeting night during football season and the third Thursday during basketball season. Meetings will be held at the Livestock barn at 7:30 p.m. for all regular meetings.

Stanlye Young, County Agent from Tahoka presented a country and western dance program during the meeting.

New members, Sammy and Glen Hardin, Michael Prather and Angela Melton were welcomed into the club as new members.

Other members include Korren and Steven Payton, Debbie and Betsy Ethridge, Denise and Kim Smith, Derick Dunn, Rance Sappington, Dana Morris, Mark Tyler, Krisha Mason, Cathy Davis, Janell Jones, Kraig, Kayla and Keith Peel, Jana Middleton, Jana Terry, Mike Bartlett, Lisa and Teresa Shults.

Also attending the meeting were adult leaders, Ronnie and Dolores Dunn and guests, Jean Morris,

## Four arrests—

(Continued From Page One) marijuana conviction.

A Garza deputy reported caught Daniel Alverado Salinas of Tahoka Saturday burglarizing a vehicle parked on US-380 west of Post. Salinas is in county jail here in lieu of \$2,000 bond.

A similar burglary of vehicle charge was lodged against Lucio Rodriguez of Illinois the same day. He was released on \$2,000 bail bond.

George W. Lierman of Nebraska was charged with criminal mischief Sunday for kicking in a door at a local motel. He was released on \$1,000 cash bond.

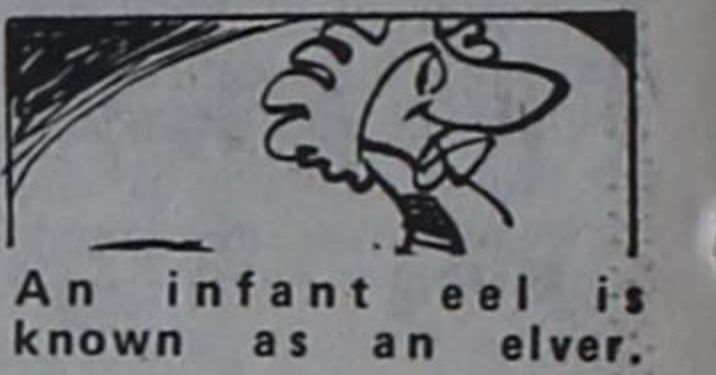

"Remember me, Doc? I'm the guy you told to relax and let my business run itself."

"The cautious seldom err." Confucius

## Harris poll—

(Continued From Page One) or, Point Isabel, Wylie, Marble Falls, Barbers Hill, Hitchcock, and Refugio.

Post's 1981 opponents this week are ranked as follows: Tahoka, No. 12; Floydada No. 34, Slaton No. 38, Roosevelt No. 71, Coahoma No. 84, Colorado City No. 106, Denver City, No. 112, Frenship No. 129, Lockney No. 155, and Cooper No. 200 among the 206 ranked AAA football teams.

THE NEW ENERGY FRONTIER: Coal America's new energy frontier. Black Thunder Coal Mine near Gillette, Wyoming, sits on part of 50 billion tons. Tapping this huge, new reserve of raw energy is a job that takes a combination of resources and pioneering spirit. The kind that fuels booms of opportunity. And we're here helping.

Last year, 3 million tons of this coal was used as fuel to make electricity at Southwestern Public Service power plants. Coal is being used more now because other fuels cost too much.

In Wyoming alone, there's enough coal that some areas of Black Thunder won't be mined until the year 2013. That's a lot of electricity. Coal. It's good to know there are some things you can depend on.
