

PAWNEE WOMAN — This Pawnee Indian is portrayed in one of Chip Polk's original pencil drawings, with scenes from the Post area in the background. Chip is just now beginning to venture into adding the background along with his portraits. This young woman works for Chip at KKYN in Plainview.

PEARL NANCE — This drawing of Pearl Nance, local rancher, was done some years ago, and was one of the first drawings displayed here in Post at the First National Bank in September of 1980.

MY FATHER'S HANDS — This drawing is of the hands of Chip's father, T. C. Polk, who lives here in Post. Chip is very proud of this drawing and says it is one of his favorites. Chip is not hendered by using only the black pencil because of the clearness of all the details in his drawings. Some of his drawings will be released soon in print form.

Ted Aten retires, Noel White new manager

Ted Aten, who has managed the Graham Coop Gin for almost ten years, officially retired from his position Monday night at the regular directors meeting. Ted stated he just wanted to slow down a little, and will still be in the farming business, and he is a Commissioner of Precinct 2 in Garza County.

The Graham Coop Gin during his years there are very impressive, with an average gin count each year of 7,349, and a net savings average per bale of \$27.65 returned to the patrons. The best years were in 1973 and 1974, with 13,162 bales and 11,020 bales ginned those bumper crop years. Several new ginning procedures were added during Ted's tenure, including the module ginning addition that was added last year. This year, a building was built to cover the module carrier, to aid in ginning. Ted reported that they had some problems with the wind, while suctioning the

cotton from the module into the gin, and the building will eliminate this problem. Ted has enjoyed his years with the gin, and reported he had enjoyed the patrons and the directors alike, during his years serving them. Noel K. White, a farmer in the Graham Community for the last 21 years, has been hired to replace Ted, and will begin his duties at the gin in August. Ted will remain at the gin with Noel until September to help in making the needed changes. Directors of the Graham Coop Gin are Albert Stone, (See Ted Aten, Page 12)

JIM COLLINS VISITS — Jim Collins visited in Post this weekend with some of his supporters. Meeting in the Dispatch office were l to r, Joe Miller, Karen Conner, Mr. Collins, Sahron Morris, Geraldine Butler and Judy Bush. (Staff Photo)

Collins visits here

U. S. Congressman Jim Collins, stopped in Post, Friday on a sweeping tour of the country, to meet with some of his Post supporters. Collins in opposing Lloyd Bentsen for the U.S. Senate in a race that has attracted lots of attention in our area. He expressed his views about his opponent, and stated he feels that Bentsen is too liberal with the taxpayers money. He noted several areas where Bentsen was so liberal and

stated that Texas could balance its budget very easily, with the right management. Following is an introduction to Collins and his feelings on some of the election issues. Collins is serving his eighth term as the United States Representative from the metropolitan Dallas area which makes up the Third Congressional District

of Texas. First elected to Congress in a special election in 1968, he received almost 80 percent of the vote in 1980. He serves on the powerful and prestigious Energy and Commerce Committee and is the Ranking Minority Member on its Subcommittee on Telecommunications, Consumer Protection and Finance. This panel legis-

Board discusses retirement plan

In its regular monthly meeting, the hospital board met with Dowe Mayfield of Jefferson Standard Insurance Company to discuss the retirement plan now in effect for hospital employees and to try and rewrite the policy which will pay 100 percent after 11 years with the new resting period, to effect new employees only. The board has been approached by a medical student Aaron Angel of Wichita Falls who is studying in San Antonio at the present for support during the remainder of his medical schooling. This matter was tabled until the August meeting so the board could check with its attorney on the legal aspects of the request in which the funds would come out of the

scholarship monies set aside for this purpose. One nursing student is now working at Garza Memorial Hospital after receiving such assistance and is continuing her education. After receiving a report from Administrator Maritta Reed on the rising costs of the hospital group insurance which expires in August, the board voted to stay with Blue Cross and Blue Shield. Before adjourning the meeting, the board approved payment of the monthly bills and wrote off \$4,285.97 in delinquent accounts. The board met Thursday night at 7 p.m. in lieu of their regular Thursday morning 7 a.m. meeting with members, Jack Alexander, Danny Shaw, David Tyler, David Nichols and Maritta Reed in attendance.

A native of Dallas, he graduated from Woodrow Wilson High School and received a Bachelor's Degree from Southern Methodist University, where he was chosen Representative Mustang; a Master's Degree from Northwestern University, where he won the Marketing Scholar Award; and a MBA from Harvard Business School, where he was elected President of the Student Body. He served with distinction in Europe during World War II and attained the rank of Captain while winning four battle stars and the Medal of Metz with Patton's Army Engineers from Omaha Beach to Munich.

17 indictments handed down

Seventeen indictments were handed down by the Garza County Grand Jury, when it met in session Monday in the courthouse. Listed in the indictments were Nathaniel Brown, indicted for aggravated rape, and aggravated sexual abuse on or about June 14. Amanda Viola Lowe was indicted for voluntary manslaughter in the March 30 death of Charles Albert Elmore. Roy Lee Craig, indicted for sale of drugs on or about September 11. Tino Aleman Hernandez was indicted for the sale of (See Indictments, Page 12)

Assault charge filed here

Garza County officers arrested Teddy Wayne Qualls on a Dallas County aggravated assault with a deadly weapon and criminal trespassing charge, and was released on \$10,000 bail bond on the assault charge, and a \$400 cash bond on the trespassing charge. Also arrested were Jerry Tom Smith for discharging a firearm in the city limits, he was fined \$397 in court costs and fine, in city court. Johnny Joe Castro was arrested for unlawful carrying of a weapon, released on a \$350 cash bond in county court. Mark Joseph Schneider was arrested for fleeing from officers and reckless driving, released on a \$2,000 bail bond. Daniel Dale Pritchard was arrested for public intoxication and unlawful carrying of a weapon. He was released on a \$350 cash bond.

Judge Dalby attends meet

County Judge Giles Dalby attended a meeting of the Governor's Task Force on Traffic Safety Wednesday, July 7, in Austin. Vern With, Regional Alcohol Specialist, Department of Transportation, National Highway Traffic Safety Administration, began the meeting with a presentation on "The DWI Problem from a National Point of View." Proposals from the sub-committees, (A) Driver Licensing-Driver Improvement, (B) Public Support-Education, and C.D.W.I., were reviewed. Col. James B. Adams, Department of Public Safety, presided over the meeting.

Garza SCS has brush tour

Shinnery control will be the topic of a tour July 21 sponsored by the Garza County Soil Conservation Service and Elanco Products Company. The tour will meet at 9 a.m. at the SCS office in Post or ranchers may meet the group at the Post-Montgomery Ranch at 9:30. Interested ranchers will view pastures in their second and third growing season after treatment of shinnery with Graslan. No reservations are needed. The Post-Montgomery Ranch is located six and one-half miles north of Post on Highway 651.

Chip Polk making name as pencil artist

BY BETH SHORT Chip Polk, son of Mr. and Mrs. T. C. Polk of Post, and a former resident of Post himself, is coming up in the art world, and was just recently invited to exhibit his works with the James M. Haney Gallery in Amarillo. This is quite an honor to be invited to this gallery, and Chip is understandably proud. Chip's work is done in pencil, and he says that his style of art is a little slower selling in galleries because most of the pieces are pretty art, but he is really encouraged because of this invitation. Artists showing in the James M. Haney Gallery are name artists only, and Chip is really excited and hopes that this will help him gain his place in art. Chip's work is very well known in other parts of the Panhandle, and he has recently shown in the "Beef Empire Days" western art show in Garden City, Kansas, where 13 to 14 artists from all over the United States are invited to attend. It is a noted show, and Chip sold most every drawing he took with him. He also entered the "Best in the West" art show in Amarillo recently and won third place there. Chip stated he does not feel limited because he does not use color, and feels that he does not lose anything with his black and white pencil drawings. This is evident in his work, one can see the fine detail in each of his drawings. He also stated that his main objective in turning more time to his art work is to spend more time with his wife, Robin, and his three-

year-old son, Jordan. Chip attended high school in Post, and became interested in drawing when he was in junior high school. He drew mostly cartoon characters, but then in high school he answered one of those "Draw Me" advertisements you see in magazines and took several months of instruction from them. The correspondent who was helping with his lessons soon wrote him back one day and told him to forget his art aspirations because he was 'color blind'. Chip was discouraged and gave up his ambitions for art for a career in radio for awhile. He began his radio career here in Post when he was still in high school, then went on to KLLL in Lubbock where he stayed for 5 years. He moved to KKYN in Plainview where he now makes his home. He has been with KKYN for

6 years, and is in advertising sales and radio production with that station. Chip married his wife Robin, 7 years ago, and with her encouragement, her helpful criticisms and her degree in Interior Designing and fine art, gave him an insight into what he could do with pencil or charcoal. He gives her a great deal of the credit for him being where he is now in his drawing and art career. Chip stated that following Robin's encouragement for him to be serious with his art, that they now have a very good partnership, with her handling the business end of the art work, which includes operating their studio, "Little Box Canyon Studio", in Plainview. She also is in charge of the framing of all of Chip's original drawings. Chip has been doing commissioned portraits

since 1979, and has made quite a name for himself in this field of art. Although he enjoys doing portraits, it leaves him very little time to spend on his other drawings in landscapes and other subjects, which he began recently. Chip's training has been virtually just his own grit and determination, and the encouragement of his wife. But he has studied with friends who worked with charcoal. After trying charcoal and pencil for awhile, he decided to stay with pencil exclusively and specialize in this one media of art. He is now working on a series of drawings to be released in prints, which will be entitled, "Fading Crafts of the West." His first in this series is the "Bootmaker", a friend in Plainview, who posed for him. He plans to add a blacksmith, saddle maker and others. He likes to visit with his subjects, and get to know them a little before drawing them. This enables him to more closely portray their personalities in his drawings. Things have been moving at a rather fast pace for Chip for the last two years. (See Chip Polk, Page 12)

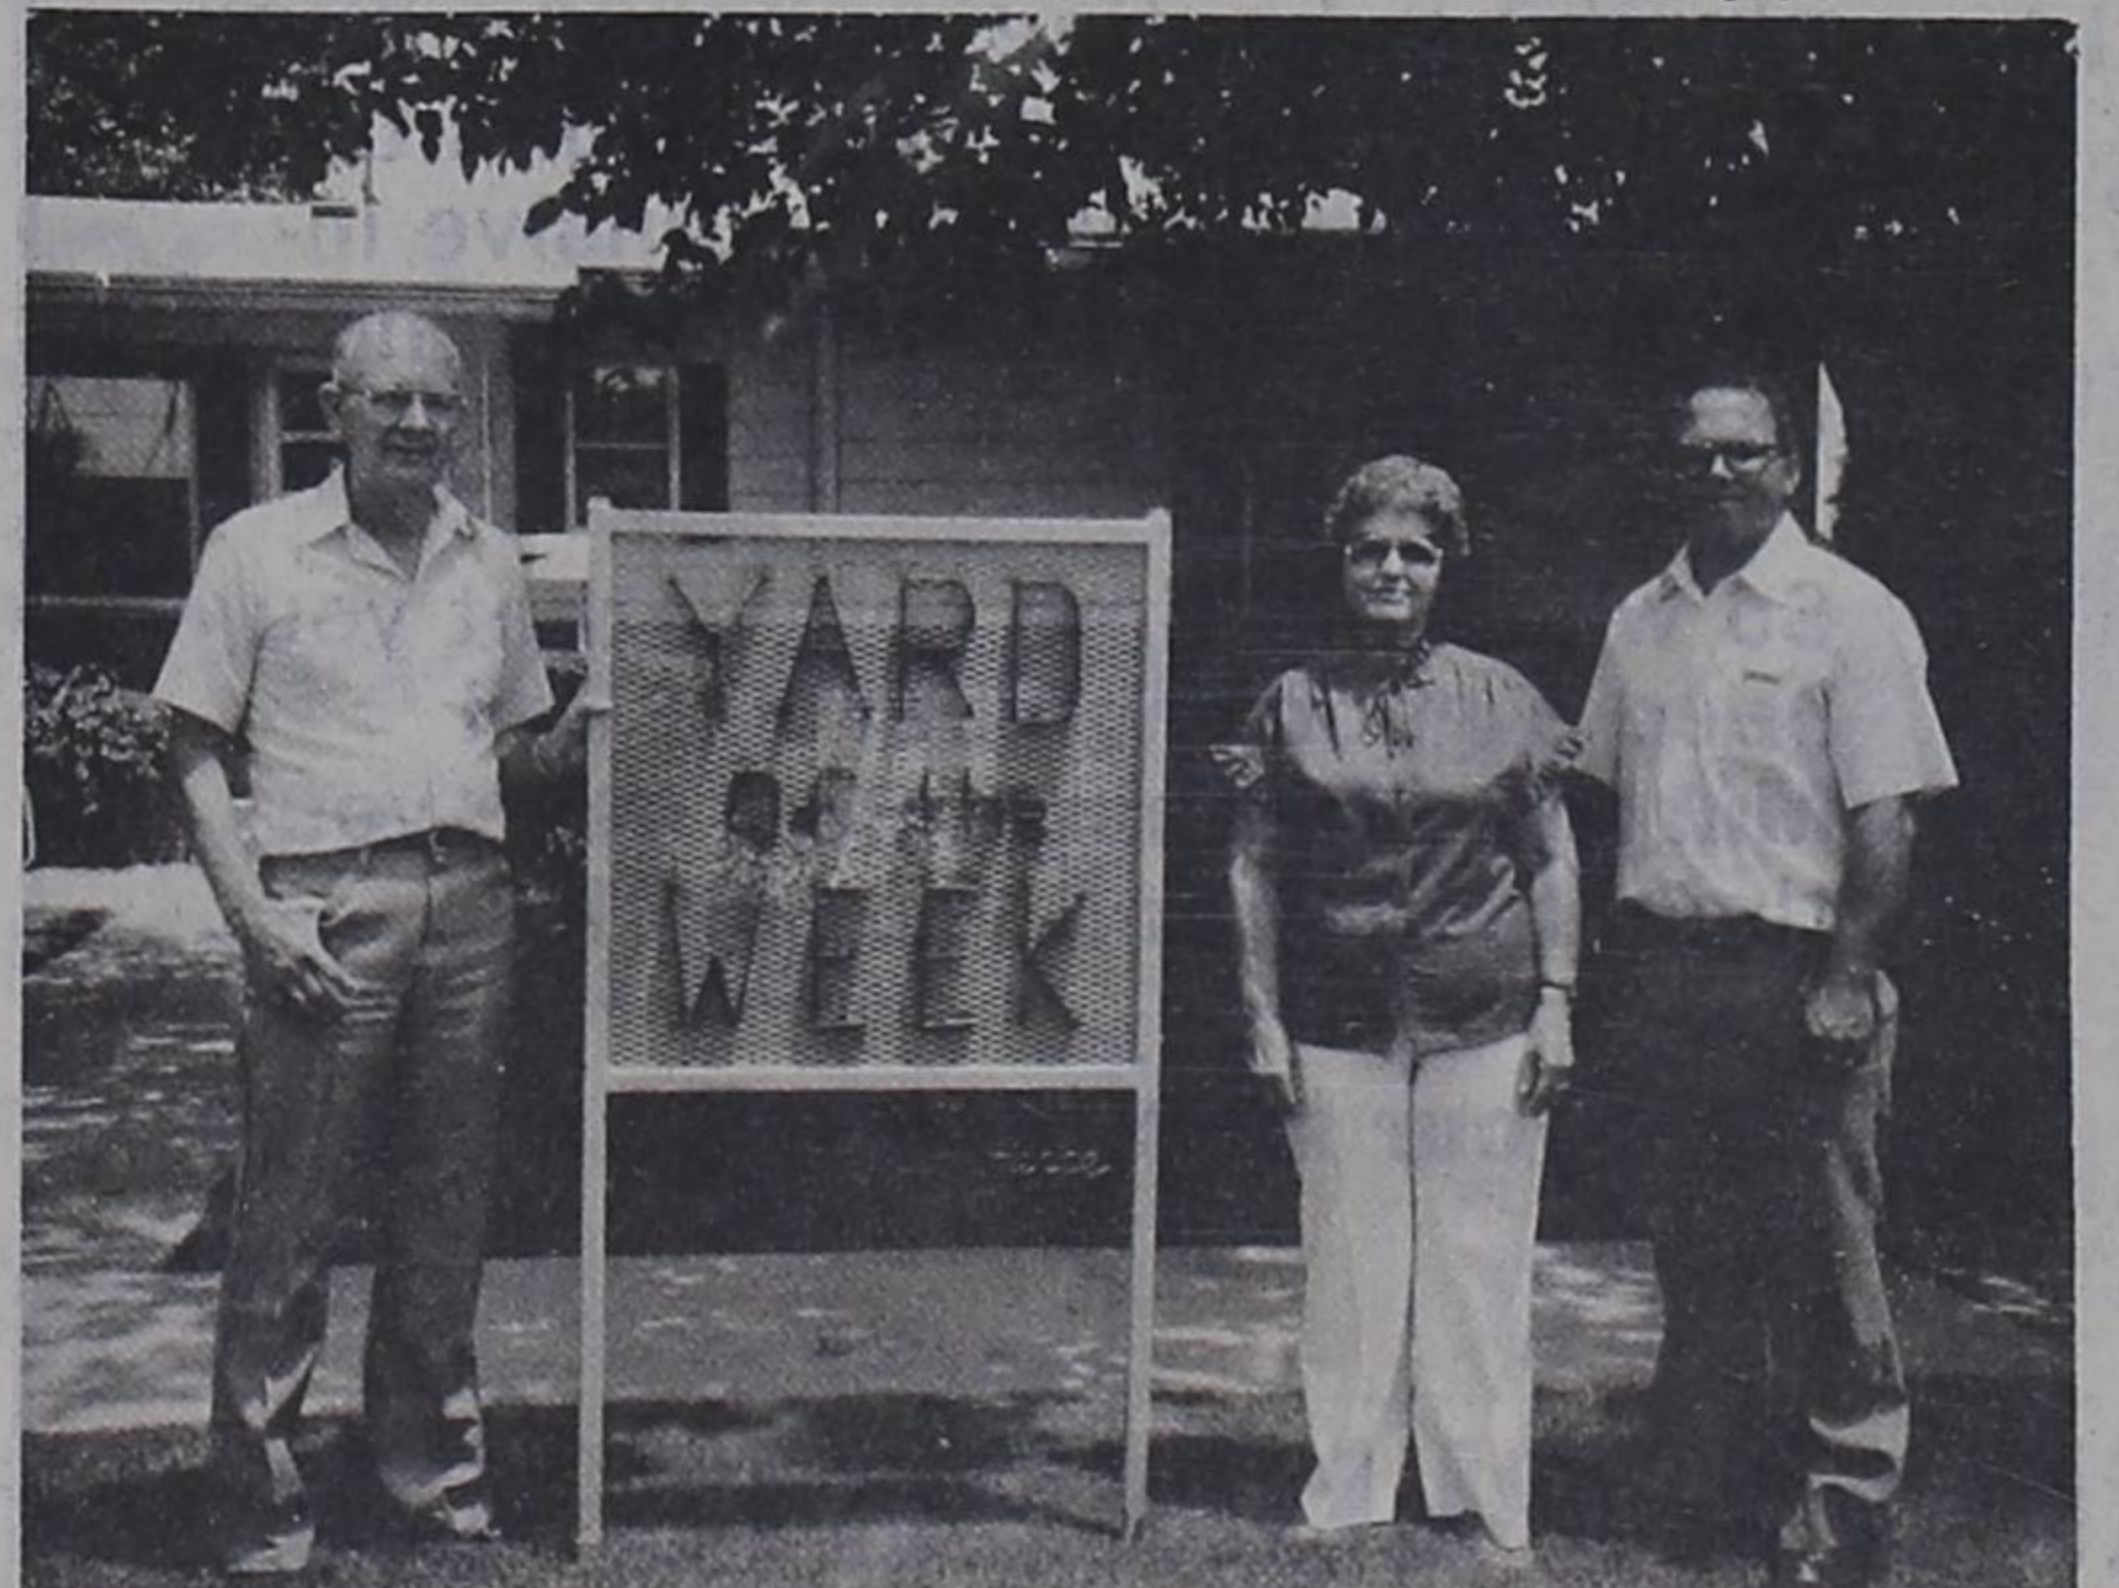

Commissioners hear complaints

Several citizens and oil company representatives appeared to voice concern over road conditions due to the heavy rains and problems of rights of way during a regular meeting of the Commissioners Court held Monday. In other action the Commissioners heard Ruby Williams on behalf of the Community Center, request additional funds for maintenance and operation for the remainder of the fiscal year. Commissioner Herbert Walls moved that the

budget be amended to reflect an additional \$1,000 with the motion carrying unanimously. John Q. Ward, president of the Trailblazers, appeared before the court to present budget requests for the next fiscal year and to discuss a proposed renovation of the Algerita Building. The requests are to be considered at the annual budget hearing. Before adjourning, the court approved the monthly reports and the monthly invoices for payment.

Gonzales rites held

Rosaries for Florence Escobar (Shorty) Gonzales, 24 of Dallas, and formerly of Post, were said at 8 p.m. Sunday and 8:15 p.m. Monday in the Justice-Mason Funeral Home in Post. Funeral mass was held Tuesday at 11 a.m. in the Holy Cross Catholic Church with the Rev. George Roney officiating. Burial was in Terrace Cemetery under direction of Justice-Mason Funeral Home of Post. Gonzales died Saturday morning in Dallas. According to a report from the medical examiners' office in Dallas, Gonzales died at 2:48 p.m. of multiple stab wounds. He was pronounced dead on arrival at Parkland Hospital in Dallas. He was born in Post and had lived here until moving to Dallas three years ago. He was a construction worker. Survivors include his father, Morris of Post; three sisters, Evelyn Barbosa and Elma Gomez, both of Dallas, and Frances Trevino of Ralls; a brother, Elex of Slaton; five half-brothers, Eddie, Felix and Isaac, all of Dallas, and Johnny Escobar and Michael, both of Post; and two half-sisters, Margaret Camacho of Dallas and Gloria of Post.

YARD OF THE WEEK — Mr. and Mrs. Ira Farmer were presented the Yard of the Week award this week for their home. Shown l to r, are Ira Farmer, Modena Farmer, and Chamber director, Curtis Hudman. (Staff Photo)

Fine Arts Festival to open in Crosbyton

The curtain goes up at 8 p.m. tonight (Thursday) in Crosby County Pioneer Memorial Auditorium, Crosbyton, for this year's Fine Arts Festival featuring the works of area artists, sculptors and photographers. Honor guests at the 1982 Patrons' Reception will be those business persons and individuals who have pledged purchase awards for the show. The reception begins at 8 p.m. in the auditorium.

The 1982 Arts Festival is dedicated to the late Bill McLaughlin, Lubbock and Ralls area banker who had supported and encouraged the art show each year as a cultural contribution to this area.

This year's art and photography offerings by area artists go on display for the public Friday morning through Saturday afternoon. Hours are 9 a.m. until 5 p.m. July 16 and 17. There is no admission charge. Out of town visitors may also wish to tour the Crosby County Pioneer Memorial Museum, which is

rated as one of the best small museums in the Southwest.

Adding to the fun Saturday will be arts and crafts and food booths set up all around the square in downtown Crosbyton. A variety of craftsmen from throughout the area are expected for this event. These will include "Thumbkins" booths, woodwork, pottery, a booth in which children may do simple art works, a bake sale by the Crosby County Child Welfare board, plants, stained glass, and others. Local artists working with the

Adoption is announced

Mr. and Mrs. Laval Verhalen of Stillwater, Oklahoma, announce the adoption of a son. He is 9½ years old and is named John. They also have two daughters, Lisa and Amy. Grandparents are Mr. and Mrs. J. C. Steel of Post, and Mr. and Mrs. M. L. Verhalen of Knox City, Tx.

Festival will have their unframed works on sale on the porch of the Museum. Some Crosbyton businesses have indicated they will have booths on the sidewalk outside their stores, such as a local florist who will have a puppeteer demonstration going on Saturday. Cost of booths on the square is \$5 per space, with no commission charged and craftsmen furnishing his or her own display equipment.

Jurors for the 1982 Arts Festival are Chuck Wilson, Lockney, master photographer, and George Pate, Los Alamos, N.M., fine arts.

BIRTHDAY PARTY

Mr. and Mrs. Stanley Mathis were hosts recently for a birthday party for three of their four granddaughters. Those honored were Tresa Mathis, 10; Letha Mathis 8; and Dixie Feagen age 6. Also honored was Stanna Feagin who is nearly 2. Jimella Simpson baked a large sheath cake with a corner of the cake honoring each girl. The party was attended by a host of friends and family.

"Truth makes a man of courage and guilt makes that man of courage a coward." Daniel Defoe

Senior Citizens News

Garza County Senior Citizens are still having a lot of fun at their center playing games and watching TV. We are having good attendance every day from 60 to 70 people are fed each day. Lunch is served at 12 noon. This includes the home bound.

The Senior Choir is hosting a musical at the Community Center Friday night at 7:30 with several musicians to be present. Also several will be singing, so everyone be out for this entertainment.

We had several senior citizens honored through the July 4th celebration, which was Post's 75th birthday. Several had been here the whole time and were awarded plaques which they were very proud of.

We had a very good turnout for our Medicare seminar. This was a very interesting and informative program.

We will be having a Public hearing program

here at our center the 26th day of July. This is to be a South Plains Association of Government Program to let you know about the SPAG program for the older Americans. The time for the hearing is 10 a.m. They will be discussing things on the upcoming year 1983, so all who are interested in the Senior Citizens program for

Garza County, please be present. Crosby, Lynn and Dickens Counties will be here also. This is something all of Garza County should be interested in, so let's have a good turnout.

Vada McCampbell was our lucky winner on the quilt we had been taking chances on at \$1 each. This was a fund raising project for our center and we received \$161.00 on it. That was good, but it should have been better. We thank each of you who donated for this project. We are going to

have to have some fund raising projects in the future to help us keep our center open because there was a 10 percent cut of all funding from SPAG.

So we would appreciate any kind of donation that could be made to our center in any way. This is certainly a wonderful program for our older people. They receive a good balanced meal, plus the fellowship they would not have if we didn't have this facility for them.

Don't forget we have blood pressure checks four times a month, every first and fourth Tuesday and first and third Thursday. Also on each fourth Thursday, Randy Brackeen from Belton will be here.

We want to remember our sick and bereaved in our prayers as we go through the week.

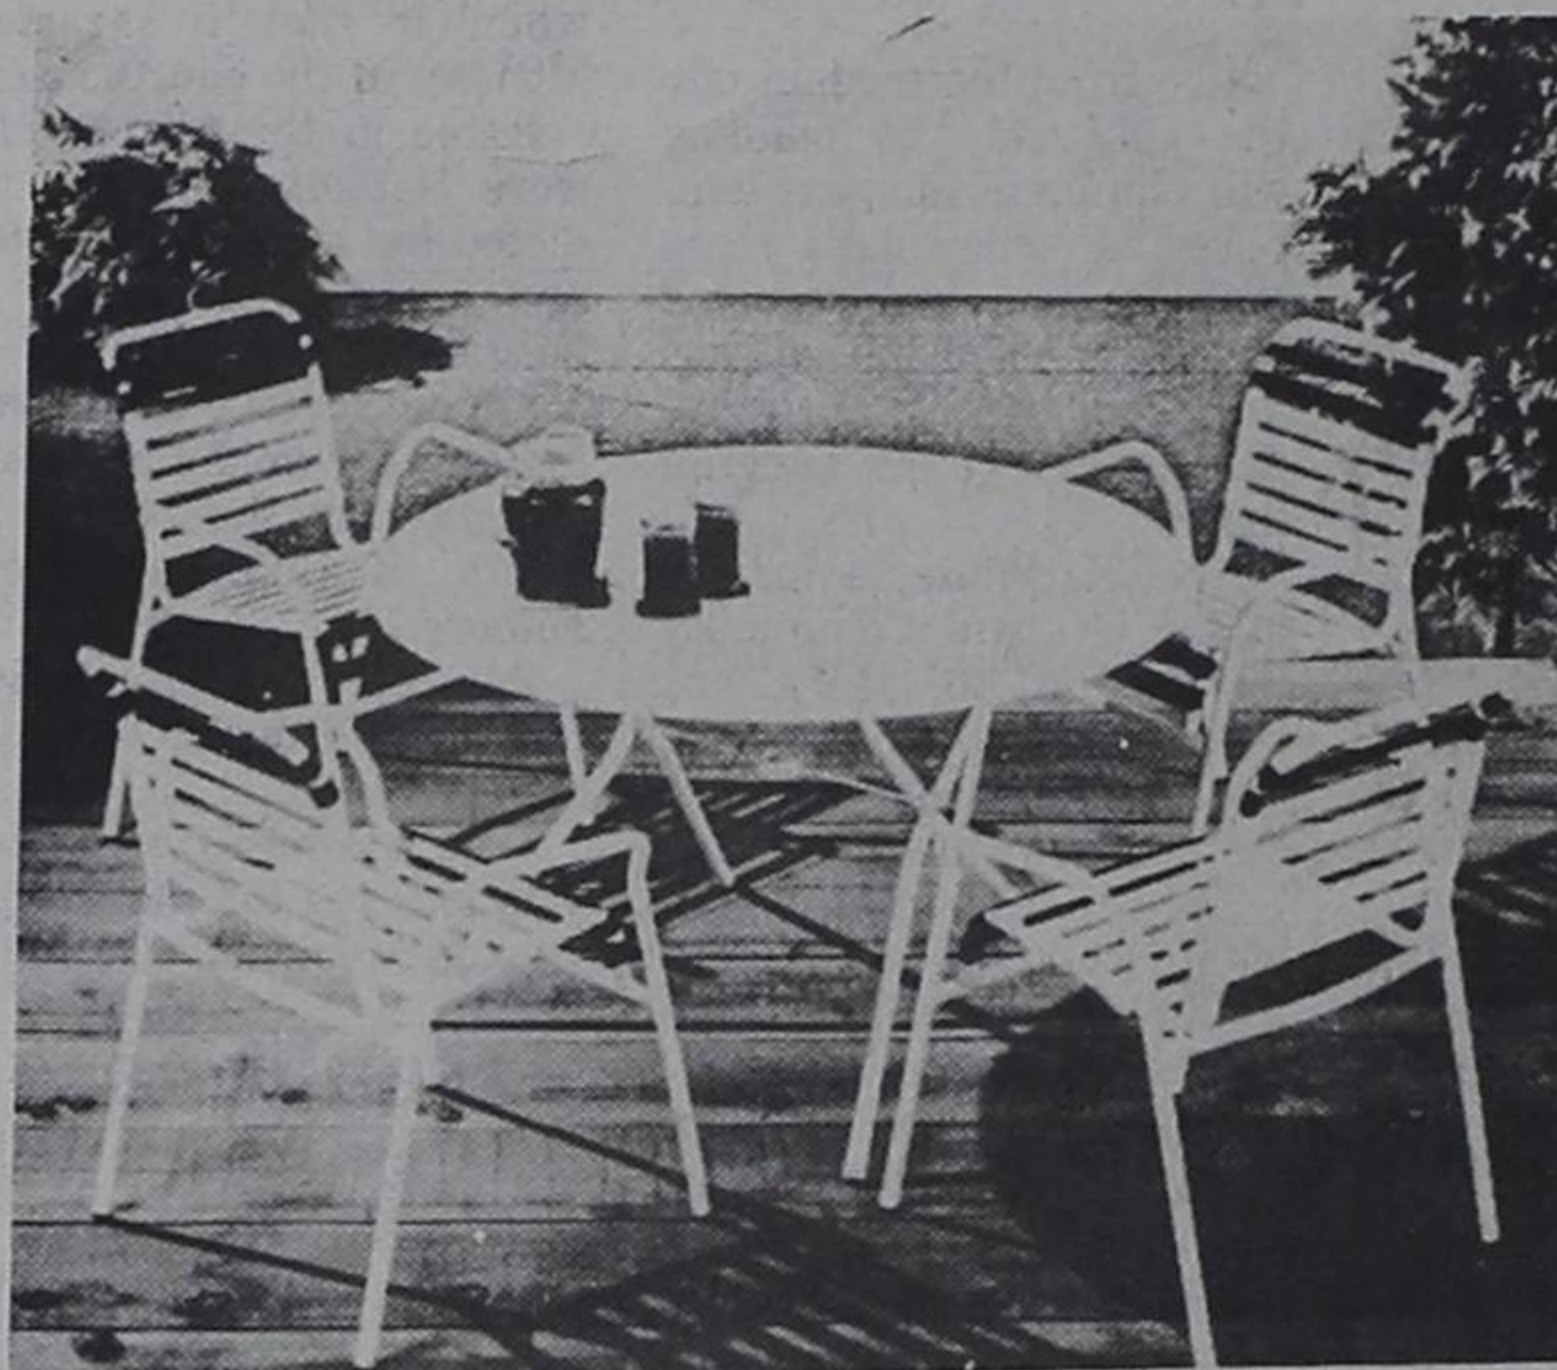

Thank you folks for the nice vegetables, you gave us, we appreciate them very much.

Until later.....

Cadet, the term used to describe students in the U.S. military academies, is a French word meaning younger son.

WHEN PLUMBING IS YOUR PROBLEM... MURPHY'S YOUR MAN.

Years ago all you needed to do your own repair was a monkey wrench, a plumber's helper and a strong back.

But times have changed and so has **Murphy**. Changes that make **Murphy** the Man to call at the first sign of any plumbing problem.

Murphy is a **Master Plumber** with years of experience in all areas of plumbing, heating and air conditioning repair and replacement. Plus **Murphy** has an extensive inventory of parts. That means no waiting and less inconvenience.

So when the time comes that you need a good plumber . . . call **Murphy Plumbing**. He'll save you time, money and your back.

He's your man!

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—A 1,900 percent tax hike may seem a little extreme but that's what one group of Texans may face if the current dire economic conditions don't improve.

Gov. Bill Clements has acknowledged an earlier projection by the Texas Employment Commission that payroll taxes for 280,000 employers may jump from \$6 to \$114 per employee if unemployment in the state continues to rise.

The taxes, currently the lowest in the nation, support the unemployment insurance program. The payroll taxes go up whenever the unemployment insurance fund drops below a \$225 million floor.

The fund presently stands at \$197 million but is expected to drop as low as \$130 million by October, when the tax increase would go into effect.

Clements earlier expressed doubts about the TEC's projections and he called a recent rise in unemployment in Texas to 7.2 percent not "all that significant."

However, a spokesman for the governor's office later said an audit proved the TEC figures to be "basically correct."

Despite that, Clements

says he will do everything within his power to prevent the increase, which he called "unconscionable."

The governor also had criticized TEC for not informing him of the problem until after the special legislative session held in May.

TEC officials, however, pointed out that they had warned Clements of the situation as early as November 1981.

A drop in unemployment would lessen the demand on the unemployment insurance fund and ease the situation. But as long as unemployment remains high, employers can expect significantly higher payroll taxes.

Ballot Woes

And while employers were getting their bad news, Secretary of State David Dean announced some equally bad news for some legislative candidates.

Dean says he will not certify candidates for the November election ballot who fall under a recent U.S. Supreme Court ruling concerning overlapping terms.

The high court recently upheld a Texas law that prohibits certain paid elected officeholders from serving in the Legislature if the term for which they were elected

overlaps the legislative term they are seeking.

The provision, which also applies to some judges and other officials, provides that an officeholder with more than a year remaining on his term automatically resigns that post if he files for another public office.

Dean has not determined how many candidates will be affected by the Supreme Court ruling, but at least three Republicans probably will be knocked off the GOP legislative ticket.

Arlington Rep. Bob McFarland, who asked Dean to rule on the matter, has said as many as 43 officeholders may have forfeited their positions or may be ineligible to run in the November election.

Dean has asked Attorney General Mark White to rule on whether other officeholders have forfeited their jobs by declaring candidacies for other posts.

Pesticide Poisoning

A group of persons who say they have suffered extreme physical and emotional disabilities because of overexposure to pesticides and other chemicals has asked a House subcommittee to recommend stronger control of pesticide use by farmers and others.

The group, supported by the Texas Consumer Association, the Sierra Club and others, say that their lives have been disrupted by the effects of "chemical sensitivity." One woman claimed not only to have become physically sick but mentally confused and suicidally de-

pressed as well.

TCA and Sierra Club spokesmen claim that the Texas Department of Agriculture isn't doing enough to regulate the use of pesticides, and suggested that other state agencies, including the Air Control Board and Department of Health, be given some authority to protect the public against improper use of these chemicals.

Brownsville Rep. Rene Oliveira, chairman of the subcommittee, says his panel is not interested in banning pesticides, which he says would harm both farmers and consumers.

But he added that the subcommittee also can't ignore the health hazards that exist

Butter Giveaway

The U.S. Department of Agriculture has decided to release some surplus butter it has been stockpiling, and Texas is expected to get some 748,800 pounds of the stuff.

The decision to distribute the butter follows a similar giveaway of more than 4.4 million pounds of processed cheese in Texas this spring.

The butter will be distributed by the Texas Department of Human Resources, which is now considering leasing refrigerated trucks to store the butter.

The butter would be distributed to the needy at churches, Salvation Army centers and other locations

across the state.

Solar Proposal

Texas prison inmates may soon get an opportunity to get out of the license plate shops and move on to another trade.

The Solar Advisory Committee of the Texas Energy and Natural Resources Advisory Council has been looking at an Arkansas program that is training prisoners to assemble solar collectors for use in state buildings.

The program has been in operation in Arkansas for about a year.

The TENRAC staff says it will continue to examine the possibility of starting a similar program in Texas, but the committee has taken no action on the matter.

FAMILY WEEKEND

Visiting in the home of T. C. and Pearl Polk for the weekend were all but two of their children and grandchildren, representing Texas and three other states. Visiting were the Travis Polk family of Garden City, Kansas, Chip Polk and family of Plainview, Glenn

Polk and family of Snyder, Ronnie Polk and family of Indiana, Jan Cook and son of Abilene, Cindy and Wayne McKibben of Snyder, Mr. and Mrs. V. F. Low of Winters, Tx, and their two grandsons Keith and Jimmy of Alabama, and Mrs. Dave Polk of Wilson.

Scanning Social Security honor student

By Jim Latimer

Social Security numbers for work purposes can only be issued to U.S. citizens, permanent resident immigrants, and temporary aliens who have been granted permission to work by the Immigration and Naturalization Service, Laura Purcell, District Manager of the Lubbock district said recently.

Even so, Purcell said, legal aliens who do not have permission to work may need a number for purposes other than work, such as banking, school, or driver's license. In such cases, a social security number will be issued, but the card will be marked to show that it is not valid for employment. A prospective employer will know at once that the holder of such a card is not legally permitted to work.

Social Security cards cannot legally be issued to illegal aliens for any purpose.

Anyone applying for a

social security card must furnish evidence of age, identity and citizenship or alien status. In addition, anyone age 18 or older must apply in person.

Any applicant for a social security card who furnishes false documents or false information about age, identity, citizenship or alien status is subject to a fine of \$5000 and 5 years in jail.

At The Beach

Kerri Pool

More than 700 students at Baylor University were named to the Dean's Academic Honor List and the Dean's Distinguished Academic Honor List for the 1982 spring semester, and included in the 700 is Kerri L. Pool, a senior student at Baylor.

To be named to the Dean's List, a student must be an undergraduate with a grade point average between 3.6 and 3.79 while registered for a minimum of 15 semester hours. A grade point average of 3.8 or above qualifies a student for the Dean's Distinguished List, which also includes Kerri.

The two lists included 160 freshmen, 234 sophomores, 181 seniors and three postbaccalaureates.

PUBLIC NOTICE OF INTENT TO CHANGE RATES

Notice is hereby given that LYNTGAR ELECTRIC COOPERATIVE, INC. (the "Utility") intends to change rates for electric utility service effective July 30, 1982 or as soon thereafter as permitted by law. The changes are applicable to all areas to which the Utility provides electric utility service. All classes of customers are affected by the proposed changes. The Utility expects that the proposed schedule of rates will furnish the Utility 11.53 percent more in revenues than are furnished by the existing schedule of rates.

Implementation of the proposed changes is subject to approval by the appropriate regulatory authority. A statement of intent including the proposed revisions of tariff and schedules and a statement specifying in

detail each proposed change, the effect the proposed change is expected to have on the revenues of the Utility and the classes and numbers of Utility consumers affected is on file with the Public Utility Commission of Texas, and the municipalities of Lamesa, Wilson, New Home, Meadow, Brownfield, Plains, Levelland and Sundown.

The Statement of Intent is available for public inspection at the general office of the Utility located at 1807 Main Street, Box 970, Tahoka, Texas 79373.

NOTICE OF APPLICATION FOR OIL AND GAS WASTE DISPOSAL WELL PERMIT

Western Reserves Oil Company has applied to the Railroad Commission of Texas for a permit to dispose of produced salt water or other oil and gas waste by well injection into a porous formation not productive of oil or gas.

The applicant proposes to dispose of oil and gas waste into the San Andres Jack Haire, Well Number 1. The proposed disposal well is located 15 miles N. W. of Post in the ROJ-SANDRES Field, in Lynn County. The waste water will be injected into strata in the subsurface depth interval from 3434 to 3454 feet.

LEGAL AUTHORITY: Chapter 27 of the Texas Water Code, as amended, Title 3 of the Natural Resources Code, as amended, and the Statewide Rules of the Oil and Gas Division of the Railroad Commission of Texas.

Requests for a public hearing from persons who can show they are adversely affected, or requests for further information concerning any aspect of the application should be submitted in writing, within fifteen days of publication, to the Underground Injection Control Section, Oil and Gas Division, Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Texas 78711 (Telephone 512-445-1373). 1tp 7-15

Terri Tyer, Scott Mills united in marriage

Terri Lynn Tyer and Scott David Mills were united in marriage Saturday evening recently, during a candle-light ceremony in the First United Methodist Church in Hale Center. The Rev. Jack Webb, minister of the church, officiated at the recitation of vows.

The bride is the daughter of Mr. and Mrs. Gene Tyer of Hale Center. She is a graduate of Hale Center, and Texas Tech University where she was affiliated with Delta Gamma sorority, Angel Flight, and the President's Hostesses. She is a homemaking teacher at Borger High School.

She is the granddaughter of Mr. and Mrs. and Mrs. B. F. Evans of Post, and also taught in Post Elementary

School in 1980.

Parents of the groom are Mr. and Mrs. Harry Mills of Wakefield, Nebraska. He is a graduate of Wakefield High School in Wakefield and the University of Nebraska. He is employed as an employee relations analyst for the Refining Division of Phillips Petroleum Company of Borger.

Vows were exchanged at an altar decorated with an arrangement of white daisies and baby's breath flanked by arched candles. Family candles and a unity candle nestled in tree fern, completed the nuptial setting. Parents of the couple lit the family candles which preceded the lighting of the unity candle by the bride and groom.

Music for the ceremony was provided by Mr. and Mrs. Steve Baker of Elkhorn, Nebraska, sister and brother-in-law of the groom, as soloists. Ida May Powers, of Plainview, was the organist.

Candles were lit by Carol Mills of Steamboat, Colorado, sister of the groom, and Mrs. Dan Byers of Lincoln, Nebraska, sister of the groom. The candlelighters wore lilac colored dresses identical to the bridal attendants.

Guests were seated by Tim Durie of Borger and Doug Hanlong of Manhattan, Kansas.

Given in marriage by her parents, the bride wore a gown of white organza accented with re-embroidered Alencon lace. The moulded bodice featured a portrait neckline enhanced in re-embroidered Alencon lace. The long candlestick sleeves of sheer point d'esprit were accented by Alencon lace appliques and featured covered button closures at the wrists. An A-line floor length organza skirt fell from the empire waistline and was adorned in front by Alencon lace appliques. The skirt swept to back fullness forming a Chapel length train. The entire hemline and train was completely encircled in re-embroidered Alencon lace. To complete her ensemble, the bride chose a silk illusion veil that was caught to a beaded Alencon lace Juliet capulet. The single layer veiling featured petal edging and flowed to waltz length. Alencon lace appliques were delicately placed throughout her veiling.

She carried a cascade bouquet of white silk orchids mixed with gardenias and stephanotis.

Tanya Tyer, sister of the bride, was the maid of honor. Bridal attendants were Mrs. Joe Simpson of Crosbyton, Emily Thigpen of Austin, and Dana Stout of Hale Center. All wore identical violet chiffon pinsetta gowns designed with a moulded bodice and spaghetti straps. The natural waistline was enhanced by a gathered chiffon cummerbund. The slightly gathered skirt fell to floor length. The gown was further enhanced by a chiffon jacket with a scooped neckline and self-fabric tie at the hollow of the neck. The waisted jacket exposed puffed chiffon sleeves. They carried mixed bouquets of silk violets, lavender anemones and baby's breath, tufted with lavender satin ribbon and streamers tied in loveknots.

Dan Byers of Lincoln, Nebraska, brother-in-law of the groom served as best man. Groomsmen were Gordon Mitchell of Borger, Mike Soderberg of Fremont, Nebraska, and Steve Baker of Elkhorn, Nebraska.

Immediately following the ceremony, a reception was held in the fellowship hall of the church featuring three serving tables. Reception assistants were Angie Berg, Linda Smith, Angie Jones, Mmes. Wayne Hill, Tommie Rogers, Wesley Davis, Had-

MRS. SCOTT MILLS
Terri Lynn Tyer

Randy Conner is honored

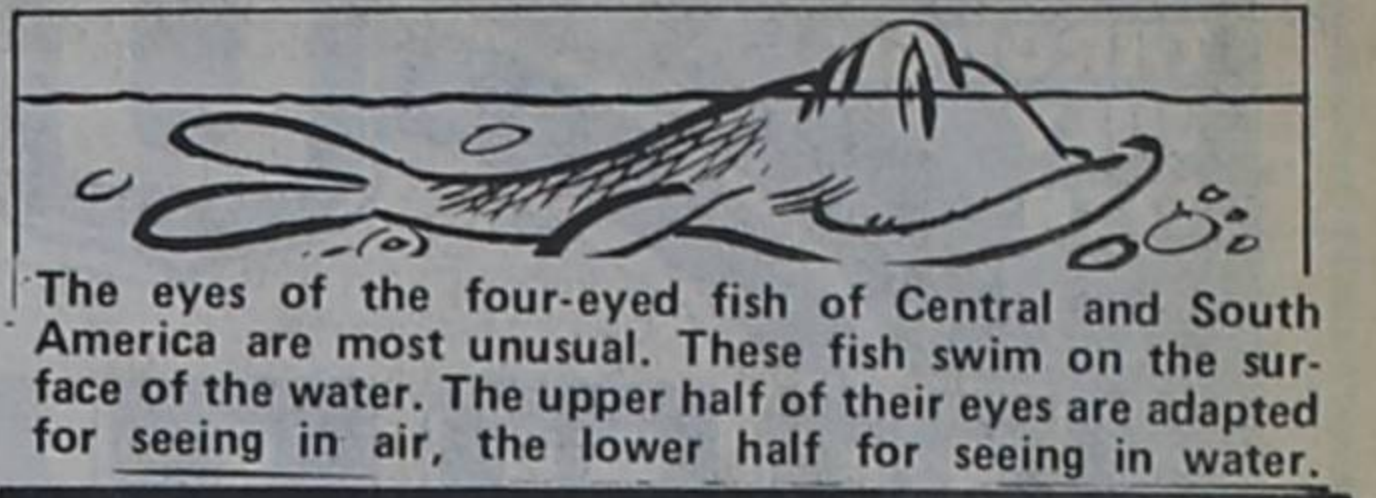

Randy Conner was honored with a dinner in the home of Mr. and Mrs. Jack Kirkpatrick, and was presented with miscellaneous garden tools.

Hosts for the occasion were Tom and Janey Middleton, Bil Hedrick, Ed and Marie Neff and the Kirkpatricks.

The dinner was held Wednesday, July 7, with the members of the wedding party and the families of the future bride and groom as guests.

Approximately 40 guests attended the dinner.

Human beings are the only animals that can blush.

The eyes of the four-eyed fish of Central and South America are most unusual. These fish swim on the surface of the water. The upper half of their eyes are adapted for seeing in air, the lower half for seeing in water.

en Moore, Wesley Roddy, C. P. Smith, Dick LeMond, Kit McDaniel, O. A. Stout, Jr., Bob Lotspeich, Jerry Logan, Robert Boyd, T. C. Clark, James Campbell, J. D. Black and Tim Hill.

Rice Bags were distributed by Jenny Hill of Plainview and Nicole Logan of Hale Center.

The bride's table was covered with an acru cut-work linen cloth and featured an all-white three tiered wedding cake topped with white silk flowers. The bride's bouquet completed the setting. The cake was served by Annette Weil of Plainview and Mrs. Charles Bowers of Spearman.

Punch was served from a table covered with an acru linen cloth featuring the bouquets of the attendants. Guests were served from crystal appointments by Joy Beth McKinney of Borger.

Laid with an ecru linen cloth, the groom's table featured a brass coffee service and brass candle holders with white tapers. Guests were served by Mrs. Gordon Mitchell of Borger.

Special guests attending the wedding were Mr. and Mrs. B. F. Evans of Post, Mr. and Mrs. Charlie Tyer of Snyder, grandparents of the bride.

The rehearsal dinner was

hosted by the groom's parents at K-Bob's Restaurant in Plainview.

The bridesmaid luncheon was given by Mrs. Ronnie Sherrod and Mrs. Jay Garretton on Friday in the home of Mrs. Sherrod.

Recent bridal courtesies included a miscellaneous shower given in the home of Mrs. Wayne Hill in Hale Center and one in the church parlor in Borger. A Christmas ornament shower was given by Mrs. Jackie Sims, Dana Stout and Mrs. Robin Cochran in the home of Mrs. Cochran in Hale Center. A lingerie shower was given in the home of Mrs. Roger Farren in Borger.

Following a wedding trip to Cancun, Mexico, the couple will reside in Borger.

10 YEAR NO SWEAT WARRANTY

If Air Conditioning doesn't have it here it probably doesn't have it.

Gas Air Conditioning Has It!

No other air conditioner has a warranty like a gas air conditioner because no other air conditioner is built like a gas air conditioner.

Gas air conditioning has fewer moving parts and no compressor to wear out or break down. This means less wear and tear and lower maintenance costs.

That's why gas air conditioning is so dependable and why it has a warranty that's twice as long as other types of units... a full 10 years!

Find out more about the air conditioning that's backed by the best warranty available. Call Energas today for a free cooling survey and cost estimate. There's no obligation.

Remember, all air conditioning was not created equal. And we have the paper to prove it!

Manufacturer's limited warranty covers all defects in materials and workmanship on the sealed refrigeration unit for ten years from the date of installation of the air conditioner when it is installed in a single family residence. All other parts are warranted for one year from date of installation.

Accent On Health

Measles, an acute viral illness which occurs primarily in unvaccinated children, continues as a health threat in Texas today because of the serious complications it can cause. Measles, although most common in late winter and early spring, may occur anytime with possible complications ranging from pneumonia and middle ear infection to encephalitis, mental retardation, and death.

In 1981, nearly 900 measles cases were reported in Texas with major outbreaks occurring in El Paso, San Antonio, Houston, and the Lower Rio Grand Valley. During these episodes many young children developed pneumonia following measles illness, and one child died from complications following the disease. Through mid-April of this year, 21 measles cases were reported to the Texas Department of Health, compared to 67 for the same period a year ago.

The importance of early immunization against measles cannot be overstated because of the health problems the disease can create. There is no specific treatment for measles once the disease occurs.

On September 1, 1981, measles immunization requirements were revised by the Texas Board of Health because many students enrolled under preexisting requirements became ill with measles. Revised regulations require all students enrolled in public and private schools to be vaccinated against measles on or after their first birthday or present a physician validated history of measles illness.

Normally, children are vaccinated against measles at 15 months of age. The

vaccine used is usually a combination of measles, mumps and rubella vaccines. The vaccine is safe and quite effective as protection against these three diseases.

Public health officials urge all physicians, health care providers, school officials, and child-care facility operators to report promptly any rash and fever illnesses that resemble measles. This will assist public health officials in the control of measles outbreaks and will eliminate measles as a threat to public health.

Aggie improves speed of bicycle

COLLEGE STATION — A Texas A&M University aerospace engineering student has found that covering a bicycle tire with plastic wrap can decrease the amount of work required by the rider to maintain a certain velocity.

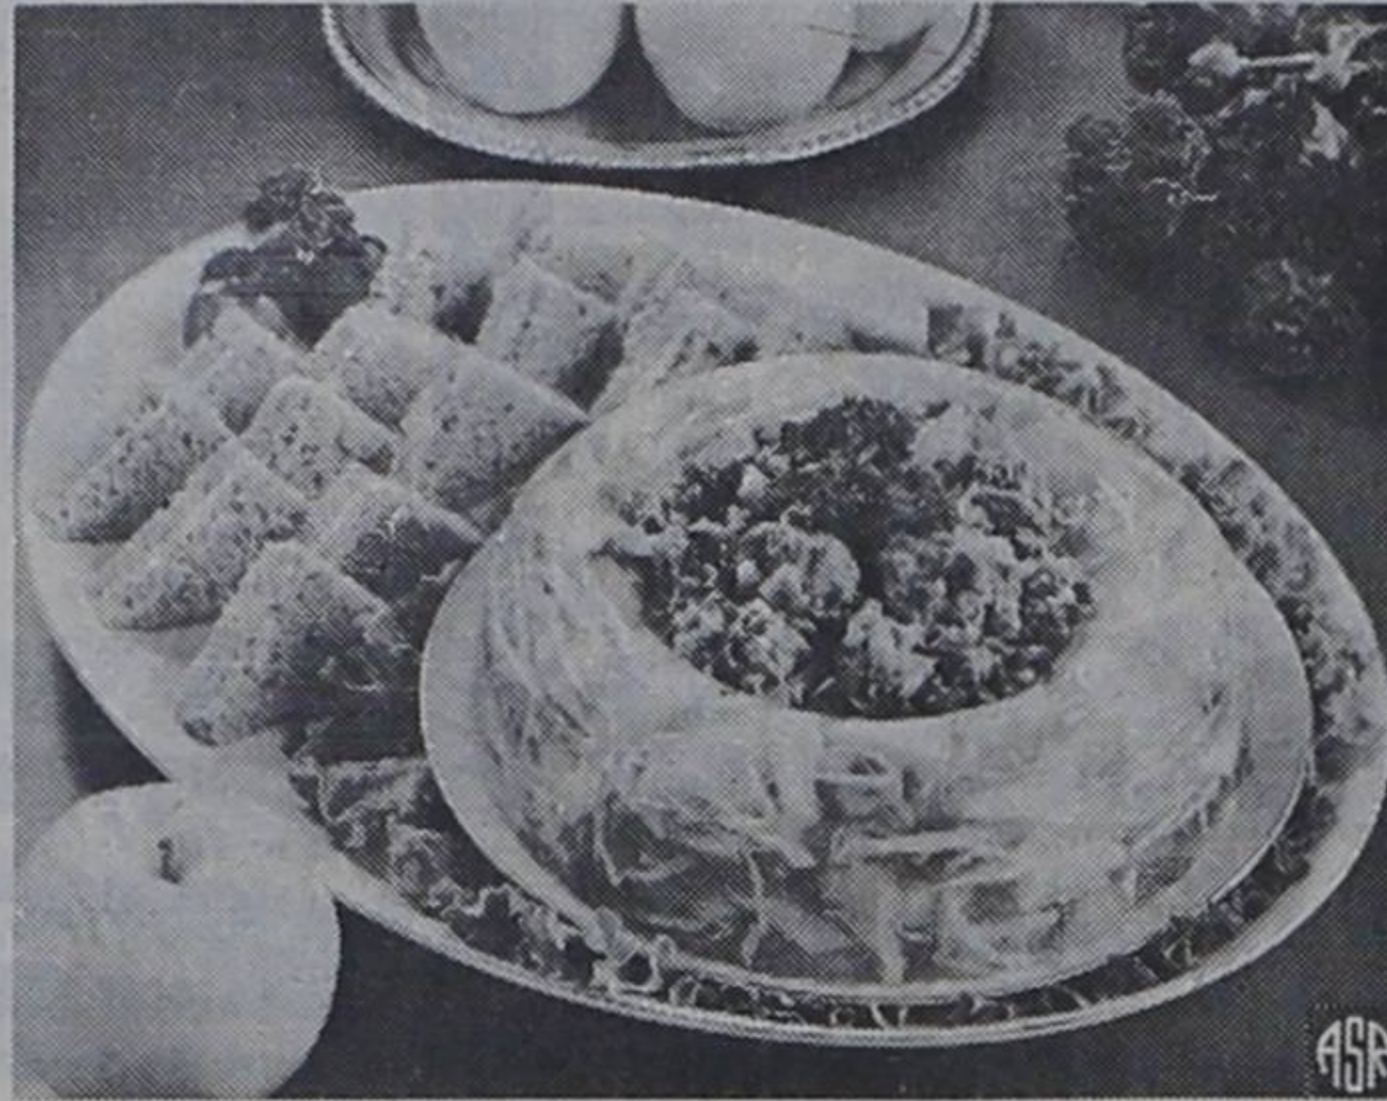

Anne Daugherty, a junior, won first place in a regional technical paper writing competition sponsored by the American Institute of Aeronautics and Astronautics for her study of "Drag Reduction of a Two-Wheeled Human-Powered Vehicle."

Her study revealed that as much as 60 percent of the total resistance experienced by the bicycle rider combination could be eliminated with "fairings" (coverings).

Daugherty said totally covering the wheels with plastic wrap gave the best drag reduction, but caused the bicycle to be difficult to handle in a cross wind. She also tested various other fairing designs.

The purpose of the work is to improve bicycle performance and decrease the amount of work a cyclist must perform to ride a bicycle at certain velocities, she said. Her goal is to create an inexpensive kit that might be applied by racing and touring cyclists.

A Molded Apple And Salmon Salad

If the original meaning of the classic perfection salad was a "perfect" salad, then this sparkling version does an old tradition proud! Most recipes for perfection salad call for a gelatin mold combining shredded cabbage, celery, green pepper or pimiento, flavored with vinegar and lemon. This shimmering, make-ahead perfection ring takes its cue from the traditional, but adds crisp, juicy Golden Delicious apples for an unbeatable flavor and texture combination. A hearty salmon salad filling turns the ring mold into a delicious main-dish supper or luncheon entrée.

Thanks to modern storage methods, a plentiful supply of luscious, Golden Delicious apples of harvest-fresh quality will be available through the spring and summer months — and at an excellent value. The delicate, naturally sweet flavor of Golden makes them perfect for combining with other foods in light spring salads, old-fashioned breads, casseroles and pies — or for out-of-hand snacking.

Golden Perfection Ring With Salmon Salad

- 1 package (6 oz.) lemon-flavored gelatin
- 3 cups boiling water
- 1/4 cup each white vinegar and lemon juice
- 3/4 teaspoon salt
- 1-1/2 cups chopped Golden Delicious apples
- 1 cup shredded cabbage
- 1/2 cup each chopped green pepper and sliced celery

Dissolve gelatin in boiling water; stir in vinegar, lemon juice and salt. Chill until partially set. Fold in apples, cabbage, green pepper and celery; place in 5 or 6-cup ring mold. Chill until firm; unmold onto lettuce-lined salad plate. Fill center of ring with Salmon Salad. Makes 6 servings.

Four-fifths of the people of Texas live in urban areas. Half of those are located in the metropolitan areas of Dallas-Fort Worth, Houston and San Antonio.

TEXAS TOPICS

Statistics show that the Caribbean islands rank as one of the most popular locations for honeymoons by Texans. June bookings for Frenchman's Reef Beach Resort in St. Thomas, for example, were up 37 percent last year, due primarily to the increased popularity of the islands among honeymooners.

Richard Todd, captain of the New York Jets, and his bride chartered a boat from the Reef's Undersea Centre for daily scuba diving among the many wrecks of ships that went down in the area years ago. They were joined at the hotel by Mike Kadish, of the Buffalo Bills, and his wife who discovered the area on their honeymoon and decided to settle in St. Thomas during the off-football season.

Frenchman's Reef is the largest resort in the U.S. Virgin Islands. It has its own generating plant for electricity, a fresh water distilling plant and a sewage treatment facility. The hotel's air conditioning is powered by the largest solar system of its kind. A Texas bridegroom commented to Managing Director Nick Pourzal, "What, no oilwells?"

Screw worm cases reported in Mexico

AUSTIN — Confirmation of nine screw worm cases in Mexico within a few miles of Val Verde County in Texas has been reported to officials with the Texas Animal Health Commission. "This should alert livestock producers within 100 miles of that area to check their animals for suspected screw worm infestation. The location is 16 miles west of Comstock and eight miles south of there into Mexico," Dr. John W. Holcombe, executive director, TAHC, said.

The cases were confirmed from a composite of samples taken during the period April 20 to 24. They were sent to Tehuantepec for verification, and a report of that was given to Texas officials Thursday.

"It is possible that other screw worms have migrated northward into Texas, so it is imperative that producers check their animals carefully, and submit suspected screw worm samples to the fly lab at Mission. This applies especially to producers within 100 miles of Comstock, but it also is a good practice for producers throughout the state to be on the lookout for suspected screw worm infestations," Dr. Holcombe said.

Measures to contain the outbreak in Mexico are already underway which

include overwhelming the area with sterile screw worm flies and dispersing of specially-treated pellets called SWASS to attract and destroy any potential screw worms.

It has been nearly 12 months since a confirmed case of screw worms has been found in Texas.

Texas raises more cotton than any other state.

A&M reestablishes comparative medicine research center

COLLEGE STATION — A Center for Comparative Medicine has been reestablished at Texas A&M University to direct research on diseases and other areas where human and veterinary medicine have common interests.

Mankind's health has always been tied to the health of animals and the environment, says Dr. William McCulloch, professor of veterinary public health and center director.

Researchers have identified and will study selected animal diseases that resemble human disorders, concentrating on cancer, reproductive problems and genetic defects, said McCulloch.

WHY BUY A GAS GRILL NOW?

Now is a great time to buy a new gas grill. Choose from 7 quality models ... save a big 20% ... and take the heat out of your kitchen, too.

You'll really enjoy the convenience of cooking out with a natural gas fired grill ... love the flavor of outdoor cooking without the mess of charcoal or the hassle of LP tanks.

Order your gas grill from any Energas employee now and make the most of summer.

PATIO KITCHEN

PK grills provide the convenience of natural gas fired barbecuing ... have heavy top and bottom aluminum castings and H-shaped stainless steel burners for years of long wear ... and exclusive Range Rock briquettes with controlled porosity for even heat and less flare-up.

PK DELTA 1
Single-burner model with 270 sq. in. chromed steel cooking grid.

ONLY \$6.85 PER MONTH*

List price \$155.00
Less 20% 124.00
Plus installation 70.00
..... 194.00
5% sales tax 9.70
1CASH PRICE \$203.70
1BUDGET PRICE* \$246.60
Budget terms: no down payment, \$6.85 per month for 36 months.

PK REGENT 1
Dual burner and controls let you use one-half or all of burner. 325 sq. in. cast iron cooking grid, plus 120 sq. in. chromed steel step-up grid for warming.

ONLY \$8.91 PER MONTH*

List price \$228.00
Less 20% 182.40
Plus installation 70.00
..... 252.40
5% sales tax 12.62

1BUDGET PRICE* \$592.20
Budget terms: no down payment, \$16.45 per month for 36 months.

CHOOSE A DEERE

WAIVER OF FINANCE CHARGES OR A BONUS

For a limited time on two new John Deere cotton strippers, you have a choice of waiver of finance charges or a bonus, as explained below.* This offer is above and beyond our good deals on new self-propelled 4-row 484 and new mounted 2-row 283 Cotton Strippers. The sooner you get your new stripper, the greater your benefits and bonus. If you choose to finance it with Deere, you can have finance charges waived until February 1, 1983.

But if you pay cash for your new stripper...or finance it through (without waiver)...or lease it from Deere, you'll qualify for a John Deere money bonus in big dollar amounts (ask us for the actual figures). John Deere finance and lease plans are subject to credit approval. If you earn a money bonus, it will be mailed to you after we make delivery (unless other arrangements are made). Choose your new John Deere cotton stripper during this limited-time special offer.

* This offer may be withdrawn at any time.

ASK ANY **ENERGAS** EMPLOYEE Sale ends July 31, 1982.

New pastor assumes duties

Steven Traw has accepted the position of minister of the First Christian Church in Post, assuming the pulpit for the first time Sunday, July 11.

Traw is a recent seminary graduate of Dallas and served with the Pleasant Grove Christian Church of Dallas since 1979 as Associate Minister of Singles and youth. He also holds a bachelor of education degree in physical science and as taught one year in secondary schools.

He served in the US Air Force for six years logging 1300 hours navigating the C-130 Hercules aircraft before entering seminary studies.

Mrs. Traw holds a bachelor's degree in elementary education and has taught in public schools and private pre-school. She has also given private piano lessons for several years.

The Traws have three children, Michael 10, Judy 7, and Becky 5. The family resides at 806 West 13th in Post.

Avocados ripen quickly when put in a brown paper bag and set in a warm place.

Youthseminar is planned

A Super Spiritual Dating Seminar has been set for July 15 through July 17 at the Calvary Baptist and First Baptist Churches.

The seminar, for junior high and high school students, will be taught by Tom Hart and friends.

Thursday and Friday at 7:30 p.m. the seminar will be held at the Calvary Baptist with the First Baptist to host Saturday morning at 10 a.m.

It will include "What Does God Say About Dating?", "Why Do Love's Young Dreams Turn Into Middle-age Nightmares", as one out of two marriages ends in divorce, and "What Should Dating Standards of Christians Be?"

This series not only answers questions but also reveals the excitement of experiencing God's richness and blessings in dating.

There will be a spaghetti supper Thursday night and a hamburger supper Friday night at the Calvary Baptist Church.

First Baptist to hold VBS

The First Baptist Church will be holding its Vacation Bible School this coming Monday through Friday, July 19-23.

Times for the VBS are 9 a.m. to 11:30 a.m. each day.

The VBS will include Bible teaching, crafts, games, singing, and refreshments each day. There will be classes for all children from four years old through the eighth grade. Children from all over town are invited and will be welcome.

OUTDOOR COOKING TIPS MAKE PICNICS EASIER

Sausageburgers make an ideal treat for outdoor cooking.

Being in charge of a cookout or picnic can mean lots of work, but there are ways to make outings easier and more fun, according to Cindy Gant, spokesperson for Owens Country Sausage.

"The first rule is planning," said Ms. Gant. "A simple check list will help get you organized and make sure you don't overpack or underpack."

Divide the list into three parts: the main course (meat or other items to be cooked on the grill); salads, chips, relishes and drinks; and supplies such as paper plates, charcoal, utensils, etc.

Decide how many people to prepare for. List the type of food or supplies you want to include under each category. Then calculate how many servings will be needed.

"There are a lot of fun ways to be creative with a cookout," Ms. Gant says.

"One of my favorite foods is sausageburgers. They're easy to make and can be served with lettuce, tomatoes, mustard or mayonnaise. The spicy sausage flavor makes them tasty enough even without the extras."

For a special touch, top grilled sausageburgers with Mozzarella or Monterey Jack Cheese.

"Sausage is good to bring along on cookouts because it's so versatile. An unopened sack of sausage keeps well in the ice chest because it is watertight," said Ms. Gant.

Another simple, tasty food for the grill is the Sausage Shishkebab. To prepare, mold sausage into bite size meatballs and alternate them on a skewer with green peppers, tomatoes, and onions. Lay the skewer directly on the grill or hold over an open fire until done.

Texas has a greater area than Illinois, Indiana, Iowa, Michigan and Wisconsin combined.

Walleyes now at White River

CROSBYTON — Outstanding catches of walleyes by fishermen on White River Lake near here are reinforcing the view among fishery biologists that the introduced fish can be a valuable addition to some West Texas reservoirs.

Biologist Bill Provine of San Angelo said recent creel surveys at the 1,000-acre lake 70 miles east of Lubbock have shown good catch rates and an increasing awareness among anglers that the fish are available.

"Not all our walleye stocking efforts have been successful," Provine noted, "but we're beginning to learn more about what the fish require for survival."

Ideal drinking water is free of bacteria, sparkling clear and tasty, but water in its natural state seldom has these qualities. Water drawn from a natural source must first be purified at a treatment plant before it is pumped to consumers. Many Texas towns use these three basic processes: coagulation and settling, filtration and disinfection.

Provine said White River Lake received "mass stockings" of walleyes in 1979 and 1980, meaning 2,000 fry per acre.

"Our creel survey was done at only one boat ramp, but we weighed around 70 walleyes a day on several occasions," said Provine. "This is an unusually high catch rate, even compared to creel surveys done on largemouth bass at some of the better bass lakes in the state." He estimated that the one-ramp survey was able to assess the catch of only about a sixth of the fishermen, indicating a sizable total catch.

When walleye stocking programs were initiated several years ago, the philosophy was to stock a large number of lakes with the fish. "It has become obvious that many lakes don't furnish the necessary conditions for good walleye survival," he said. "Now we are concentrating on a few carefully selected lakes and stocking them at high rates to create a fishery in a reasonably short time."

While White River currently is the showcase of walleye fishing in Texas, several other lakes have produced well at times and may receive consideration for future stocking. Some

stocked with varying degrees of success are Moss Creek near Big Spring, Buffalo Springs near Lubbock, O. C. Fisher at San Angelo and Canyon Reservoir near New Braunfels.

Provine said the White River phenomenon serves to dispel some of the "hard to catch" stories about walleyes. "If you can establish a good enough standing crop of walleyes, that are not that difficult to catch,

and it takes very little time before the fishermen learn where they are and how to catch them", Provine said.

He said during the spring the walleyes moved into shallow water where they were caught on virtually all kinds of lures, primarily crankbaits. Later, the fish moved slightly deeper, but anglers still are catching good stringers and sometimes the 10-per-day limit on earthworms.

Purity—plus good taste—is the essence of a highly sophisticated system of filtration, water treatment and purification used at White Rock Beverages in the making of its seltzer, now being introduced here in Texas. The system reduces the mineral content of water to just six parts per million. No minerals are added after the purification process, leaving the seltzer practically salt free—important for people on low salt diets.
How can you tell if the water in your club soda is impure? It will bubble furiously when opened—but for a short time only. Then it is flat.
Hospital Notes.....
Those admitted to Garza Memorial Hospital since Thursday of last week were:
Maria Jimenez, medical; Jeri Sinyard, medical; Floyd W. Smith, medical; Sylvia Williams, medical; Jess Hobson, medical; Johnny Collazo, medical; Ed Landreth, medical; Vickie Cornett, O.B.; and Oma L. Clay, medical.
Those dismissed were Floyd Smith, Jess Hobson, Ed Landreth and Sylvia Williams.

Farm Topics

SYD CONNER
Garza Extension Agent

Fleas seem to be making it big in Texas.

Over the last five to seven years, fleas seem to have become more and more of a problem, particularly in urban and suburban areas.

Cat fleas which infest dogs or cats and readily attack humans are the most common, says an entomologist with the Texas Agricultural Extension Service, Texas A & M University System.

Flea bites are extremely annoying and generally become increasingly sore and irritated over a period of a week or more, explains Dr. John M. Owens. Fleas most often bite people about the legs and ankles.

A small red spot with a light colored center appears where the mouthparts of the adult flea enters the skin. Applying cooling preparations such as carbolated vaseline, menthol, camphor, calamine lotion or ice will help relieve itching.

Severe allergic reactions or infections should be treated promptly by a physician.

Although fleas can transmit bubonic plague and murine typhus, these diseases are rare.

How do you control these irritating pests?

Flea control must include treatment of the pets and thorough treatment of the entire premises — indoors and outdoors. These three areas should be treated simultaneously to break the "flea-cycle" and get effective control, emphasizes the entomologist.

Insecticides containing carbaryl (Sevin), dichlorvos (DDVP), pyrethrin, rotenone, malathion, methoxychlor or propoxur (Baygon or Sendran) are labeled for use on animals. Dusts or powders are generally preferred over sprays for treating pets and should be used at three to four-day

intervals when infestations are heavy.

Rub the dust into the animal's fur by hand. Be especially thorough around ears, between legs and around the tail. Try to avoid getting dust in the eyes, mouth and nostrils. Flea collars which contain propoxur or naled (Dibrom); appear to be superior to those which only contain dichlorvos. Be sure to read the label before using any of these products and consult a veterinarian if questions arise.

Spray all infested outdoor areas such as the yard, porches, garages and out-buildings with chlorpyrifos (Dursban), diazinon, propoxur or carbaryl. Be sure to treat areas used by pets, and let the spray dry before pets or children are allowed to use treated areas, says Owens. Repeat the spray at two-week intervals until fleas are controlled.

Inside the home, begin control measures with thorough cleaning. Vacuum all floors and upholstery and dispose of sweepings immediately to prevent flea escape and subsequent reinfestation. Also, launder all pet bedding.

Apply an insecticide spray of chlorpyrifos (such as "Rid-A-Bug" or Raid "Home Insect Killer") to all floor areas, under and around upholstery cushions, and to pet bedding areas. Also spray moldings, baseboards and draperies to a height of one foot above floor level. Try to avoid further vacuuming and cleaning for 10-14 days after treatment.

While this insecticide should give three to four weeks of effective residual indoors, it will not rapidly knock down adult fleas. In conjunction with the residual spray indoors, homeowners might also use a non-residual insecticide ap-

plied as a total-release aerosol or fogger, suggests the entomologist. Products containing pyrethrins, resmethrin (SBP-1382) and

dichlorvos are available to provide quick relief from indoor fleas. Again, be sure to read and follow all label directions and precautions with these products.

One final place which may require insecticide treatment is the family car, especially if your pet is a frequent rider, adds Owens.

Senator Lloyd Bentsen Watching Washington

The United States needs a strong intelligence gathering capability to ensure its security and the security of its allies.

Information provided by our intelligence officers can help us anticipate international crises. Then we can work to prevent the crises or to cope with them in the best way possible.

The world we live in is increasingly hostile. Our adversaries are contemptuous of international law, human rights and national sovereignty.

Whether dealing with the Soviet Union's KGB or splinter terrorist groups, our intelligence officers enter a mean, tough business when they go under cover in foreign countries.

The anonymity under which they must work means that their efforts often go without recognition. While their failures are frequently criticized, their successes are generally unknown.

As a member of the Senate Intelligence Committee, I can assure you that our agents serve at great risk to perform vital tasks. They deserve our support.

The very least they should be able to expect is to have the risks of their work under cover reduced as much as possible. One obvious way is to lessen the likelihood of their names being published.

For the past several years, a group of anti-intelligence zealots has been systematically publishing the names of undercover U.S. intelligence agents.

After his name was made public, the station chief for the Central Intelligence Agency in Athens, Greece, was assassinated while returning home with his wife from a Christmas party.

Another CIA agent in Jamaica, identified by the same group, returned home to find his 12-year-old daughter's bedroom shot up. Fortunately, no one was hurt.

I find the actions of these anti-intelligence zealots to be reprehensible.

Not only do they place the lives of brave people in jeopardy, but their actions raise questions among our friends and foes about our ability to function effectively in intelligence operations.

For more than six years, I have been working to pass legislation that would put a stop to the unauthorized publication of the names of our undercover agents in foreign countries. I was the first Member of Congress to propose such action.

Therefore, I was pleased at the recent Senate vote, 81-4, to approve the Intelligence Identities Protection Act.

This act provides for a 10-year prison sentence and a fine of up to \$50,000 for government employees who expose the identities of undercover agents in foreign countries. Other persons who show a "pattern of activities" which would "impair or impede" U.S. intelligence operations could be imprisoned for up to four years and fined \$15,000.

The legislation isn't perfect. It's got some flaws. And quite a few changes were made in the bill I first introduced.

But it offers sorely needed protection to our intelligence agents serving abroad, and that will significantly enhance our national security.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

All time highs were set in 1981 for cotton acreage planted, acres harvested and bales produced in the 25 counties represented by Lubbock-based Plains Cotton Growers, Inc. But low prices blocked benefits that producers might otherwise have enjoyed.

In 1982 records of another kind are topping. The largest acreage destroyed by a single hail storm occurred on Friday, June 18, when something like 500,000

acres were battered almost beyond recognition and certainly beyond recovery. Losses before and after that debacle, the result of other hail storms, wind, disease and flooding, have now brought the area's total loss to another single-year record of perhaps 2.5 million acres or more. That's over 62 percent of the estimated four million acres planted, and the previous record acreage abandonment for an entire season on the Plains was 17.3 percent in 1974.

And without a drastic change in weather patterns and substantial outside financial help, at least two other records are in danger of falling this year.

The estimated 1.5 million cotton acres left standing will have to yield an average of almost 320 pounds per acre if the High Plains is to gin one million bales of cotton this fall, a figure the area has not failed to exceed since 1950, before the full development of irrigation on the Plains. And a 320 pound yield from a crop already two to four weeks behind schedule and none too healthy, without a quick reversal in Mother Nature's lack of cooperation, is far from certain. "In fact," notes PGC Executive Vice President Donald Johnson, "some experienced crop observers are talking in terms of around 250 pounds per acre."

But the saddest part of all, Johnson notes, is that unless Washington intervenes quickly and dramatically, a record number of farmers in 1983 will be seeking another means to sustain their families.

"We are doing all we know to do to convince the Secretary of Agriculture that implementation of the emergency disaster provisions of the 1981 farm law is an absolute must; that payment of existing FmHA loans should not be demanded until producers have a chance to recover from this crisis; that new, low interest emergency loans should be made available, and that

Golden Spur to Browning

LUBBOCK — J. Ernest Browning of the Mule Shoe Ranch near Willcox, Arizona has been named recipient of the prized National Golden Spur Award presented annually by America's major livestock associations.

Browning is the fifth to receive the crystal and gold presentation piece which recognizes significant lifetime contributions to the livestock and ranching in-

every other avenue to providing assistance should be explored and utilized to the fullest."

Even with all this help, spokesmen for financial institutions say many farmers will be unable to continue next year. But without help some say almost half may be out of business.

dustries. Browning is a founder and former president of the American Quarter Horse Association, a cattleman noted for breeding and production of Herefords, a member of the National Cowboy Hall of Fame Board of Trustees, and a former director of both the National Cattlemen's Association and the Livestock and Meat Board.

He will be presented the Steuben-designed award at a National Golden Spur Award and Prairie Party at the Lubbock Civic Center Sept. 17. The event — expected to attract 1,500 people — follows a Livestock Day and precedes Ranch Day at the 14-acre Ranching Heritage Center of the Museum of Texas Tech University. A symposium on railroads of the

Southwest and a national exhibit of western art will be held in conjunction with the Sept. 17-18 events.

Announcement of the 1982 selection of Browning was announced by RHA Board Chairman John R. "Rich" Anderson. Anderson also outlined the plans for the Sept. 17-18 weekend.

Joining with the award sponsors for the Livestock Day is the Texas Cattle Feeders Association. Ranch Day is sponsored by the Ranching Heritage Association to enhance the public's understanding of one of America's bedrock industries — ranching as it developed in the American West, Anderson said.

In 1829, Ohio legislators enacted a statute authorizing the first night school classes in the nation.

Fashion Cleaners will be closed July 26 until July 31.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective July 27, 1982, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 13.4 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

Notice to El Paso Area Customers

Effective January 1, 1982, Southwestern Bell adopted the Mountain States tariffs in effect for El Paso County. Southwestern Bell proposes to merge the separate El Paso tariffs with its tariffs applicable to the rest of Texas. The resulting new rate schedule is on file with the PUC and the El Paso area municipalities served by Southwestern Bell, and is available for inspection at our El Paso business office.

Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs. While Southwestern Bell has proposed no increase in long distance rates, any change in those rates would also affect customers of other telephone companies.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 27 de julio, 1982, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 13.4 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, así como en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios que resulten de la manera en la cual Southwestern Bell aplique sus tarifas.

Aviso a Clientes en la Región de El Paso

Con vigencia a partir del 1o de enero de 1982, Southwestern Bell ha adoptado las tarifas de Mountain States efectivas en el condado de El Paso. Southwestern Bell propone unir las tarifas de El Paso con sus otras tarifas que se aplican al resto de Texas. El nuevo arancel que resulta de ésta unión se ha archivado en la Comisión de Servicios Públicos (Public Utility Commission), así como en las municipalidades de la región de El Paso servidas por Southwestern Bell, y está disponible para inspección pública en nuestras oficinas de El Paso.

Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio también afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell. Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para larga distancia, cualquier cambio en las mismas también afectaría a los clientes de otras compañías de teléfono.

A broken air conditioner can be the best thing that ever happened to your household budget.

Your air conditioner breaks down. You have several choices. Repair. Replace. Buy a whole new system. All major investments. Southwestern Public Service Company suggests that you consider a more efficient alternative.

Consider the electric add-on heat pump. The add-on heat pump is a very special air conditioner that works with your present furnace. Besides cooling your home in the summer, it helps heat your home in the winter.

You can save money. Because the heat pump is one of the most efficient ways to heat and cool, you can save money. Call us to see what your savings can be.

Together, we can save more than money. The add-on heat pump is one more example of how you can work with us as a partner to help manage electricity more effectively. Together, we can make a difference.

You and SPS, partners managing electricity, make the difference.

Lopes picked to finish in top spot

15 lettermen on returning squad

With the sultry 90 degree plus weather hovering about it's hard to think football is just around the corner, but Athletic Director and head coach David Thompson has nothing else on his mind, but football, especially since Dave Campbell's Texas Football magazine has hit the news stands and has the Antelopes picked to finish in the drivers seat and the No. 1 spot in the state.

With the Lopes having 15 lettermen returning from last year's 7-3 team and 10 offensive and seven defensive players filling the key positions, the Lopes are expected to give their opponents a run for the crown.

In a new district this year 3-AAA, Post will have an all new schedule which includes Floydada, Idalou, Lockney, Slaton and Childress.

The Antelopes posted a runnerup finish last season and now finds strength and quickness to be excellent among the returnees. Lettermen include Toby Craft, linebacker; Richard Cisneros, fullback; Will Kirkpatrick, safety; Tim Tannehill, quarterback; linemen, Derek Walls, James Lee, Bill Black, Irvin Price; backs, Milton Williams and Melvin

Wynne; tackles, Kenny Bullard and Curtis Clinesmith; guard, Mark Odum and Center, Wade Giddens.

In a look-see around the new district Floydada flaunts 1,640-yard rusher Bruce Williams who rolled up 22 TDs last season and back Donnell Weeks and has four offensive and four defensive holdovers from a 10-2 club.

Idalou posted a creditable 7-3 record last season, but only three offensive and two defensive regulars now are back for another shot at a winning season.

Lockney appears set to improve on last year's 3-7 record since all-state linebacker Kyle Brock returns to the fold along with five offensive and six defensive regulars who are back for more.

Slaton's last year second place finish is hoped to be improved to first with five offensive and three defensive holdovers from a 5-4-1 team.

Childress, one of Texas' most successful teams in the 1970's slumped to a 5-5 record last season, but it is hoped that its young players will develop in a winning way and bolster the five offensive and two defensive veterans on hand.

LITTLE LEAGUE ALL-STARS — These 11 and 12 year old All-Stars are playing in a tournament in Tahoka this week. Players and coaches are shown top row, l to r, Amando Chapa, Blair Didway, Glen Hardin, Eric Reese, Lex Dunn, Michael McClain, Michael Ayala and Darrel Foster; bottom row, l to r, Dale Gonzales, Greg Benham, Brent Jones, Roy Holly, Henry Medina, Andy Pearson, Johnny Torres, Vincent Slay, manager Milton Williams and coach, George Reese. 13-15 All-Stars whip Seminole

The Post 13-15 year old all-stars overhauled the Seminole all-stars Monday night in the All Star Tournament being held in Brownfield to the tune of 15-7.

Danny Storie went the route for the locals and besides the winning game to his credit, he also received five RBIs.

Post went ahead in the first at bat when Storie led off with a base hit followed by Tommy Basquez with a two bagger and Todd Angerer brought both in with a two base hit. Post had seven batters in the first try with Seminole only managing one run on one hit.

Scotty Clinesmith led off the top of the third with a base hit, Angerer walked when Storie again knocked a two bagger bringing in the runners. Gregory Adams and Greg Storie both received a free trip to base before the side was retired leaving bases loaded and the score 6-2.

Sammy Hardin added

another run with his base hit in the fourth.

Seminole came on strong in the fifth knotting it 7 all when the local All-Stars could manage but one run with Simon Salinas base hit.

Theodore Piaz was hit with a wild pitch and walked to first base followed by a walk by Greg Adams when again Storie came to bat and again got a two base hit bringing in both runners.

The seventh inning was the lucky number for the locals when Basquez and Clinesmith both received base hits, followed by a walk by Angerer, Rodney Guthrie and Greg Storie, and Mike Ollison receiving a sacrifice fly. Runners scored on infield errors and stole home on numerous occasion with Seminole unable to overcome their lead.

In Tuesday night's action the All-Stars were defeated by Brownfield in an exciting 3-2 game.

Greg Adams, pitching for the locals had 10 strikeouts but the Brownfield team

had 14. Only four walks were allowed by both sides throughout the seven innings.

Benefit tennis tourney set

The Terry County unit of the American Cancer Society announces a benefit tennis tournament to be held July 28-31 at the Brownfield High School tennis courts.

Entry fee has been set at \$5 per event with a limit of three events and deadline for entries is July 25 at 9 p. m.

There will be a junior division for 10 and under, up to 16 and under; an adult division with 18 and under to include boys and girls singles and doubles; 19-29 men and womens open singles and doubles, A & B division; 30-39 mens and womens singles and doubles and 40 and up mens and womens singles and doubles.

There will also be an open mixed doubles, a high school mixed doubles and 30 and up mixed doubles.

To enter call Verdine Montgomery at 637-3496 or Lynn Thames 637-7417.

Texas ranks first in the nation in electric power production. It has over 160 electric-power plants and stations.

Capital Gain.

Time and again, you've heard it said, "To make money, you have to have money."

The truth is, you have to know how to save money before you can think about making more.

That's why more and more people are joining the Payroll Savings Plan to buy U.S. Savings Bonds. That way, a little is taken out of each paycheck automatically.

In no time, you'll have enough Bonds for a new car, your child's education, even a dream vacation.

Whatever you save for, Bonds are the safest, surest way to gain capital.

Take stock in America.

When you put part of your savings into U.S. Savings Bonds you're helping to build a brighter future for your country and for yourself.

Paul Hobby will visit Post Friday

Paul W. Hobby, son of Lt. Gov. and Mrs. Bill Hobby will visit Post on Friday, July 23, on a campaign tour for his father.

Hobby 21, said he plans to travel across the state this summer and fall campaigning for his father's re-election bid. A recent graduate of the University of Virginia, Hobby said that Texas will need the experience and leadership of Lieutenant Governor Hobby to face the unparalleled growth that is expected to continue throughout the 1980s.

"The lieutenant governor sits at the head of the budgeting process and only his strong guidance can guarantee fiscal responsibility in state government," Hobby said. "That fiscal responsibility, however, has not made Bill Hobby unresponsive to the varied needs within our state."

The younger Hobby said that education and highway reforms initiated by his father have readied Texas for the challenge of the years ahead. In addition, during his ten years in office, Lieutenant Governor Hobby has preserved and enhanced the state's capacity to attract investment that has spawned a rate of growth unparalleled in the nation, he said.

"Texas has maintained a fiscally sound state government throughout the 1970s in spite of experiencing some of the most explosive population growth in the nation," Hobby said. "The fact is that growth of state government has been kept within reasonable bounds by Bill Hobby's affirmative policy of fiscal responsibility."

With a background of experience in newspaper

and broadcast media, Paul plans to explore work in other areas of communication, particularly media affairs. He will attend the University of Texas School of Law in the fall of 1983.

He was graduated from the University of Virginia in Charlottesville this spring with a Bachelor of Arts in history. He played linebacker on the university's varsity football team for three years and was president of Delta Kappa Epsilon fraternity during his senior year.

Chip Polk—

(Continued From Page One) and he and his wife and son Jordan, are really excited and pleased with the acceptance of his work. His plans for the future are a little up in the air now, but he plans to spend as much time as possible with his drawing.

Chip displayed some of his work in Post in September of 1980, in his first public art show in the First National Bank, and one of his drawings was of Pearl Nance. Judge for yourself the quality of work on this piece, it is on the front page of The Dispatch. He is working harder now, and gaining more recognition everyday, recognition that he deserves!

ATTEND DISTRICT 4-H CAMP—These Garza County youth attended the District 2 4-H camp at Levelland held recently. The camp provides 11 to 13 year olds an opportunity to participate in project workshops and recreational activities. Shown l to r, Korren Payton, Janell Jones, Keitha Beth White, and Angela Graves. Toby Craft also attended the camp as a 4-H staff member.

Emergency Council Being Formed

National Cotton Council President Ed Breihan has invited representatives of all farm organizations, financing institutions, and others in the storm-stricken areas of West Texas, Oklahoma, and New Mexico to join together in a special Agriculture Emergency Coordinating Council.

The new group will establish and maintain contact with government leaders at local, state, and federal levels to coordinate help for area farmers and farm-based business.

Meanwhile, a USDA task force which Secretary John Block sent to the region at the request of the Cotton Council president has returned to Washington. Its

Indictments—

Pedro Saucedo Criado, for sale of drugs, on or about September 11.

Ben Maxie Long, was indicted for sale of drugs, on or about Oct. 16.

Carol Ann Lawson was indicted for welfare fraud, on or about February 1, of over \$200 but less than \$10,000.00.

Rodney Sinyard was indicted on five counts of forgery, on or about June 19.

Jeri Sinyard was indicted on five counts of forgery by passing on or about June 19.

report is expected to be a factor in Block's decision on whether to utilize the 1981 farm law provision that authorizes him to make disaster payments to farmers under certain conditions.

Breihan has strongly urged the payments, pointing out that the situation fully meets the conditions.

USDA to Pay Extended Loan Charges

ASCS Administrator Everett Rank has notified the National Cotton Council that USDA will pay receiving charges and accrued storage for all cotton on which price-supported loans are extended. Payment will begin on the date the loan is extended. Previously warehousemen did not receive storage charges until cotton was redeemed or forfeited.

The Council requested USDA's action in support of the warehouse industry which was facing the necessity of increasing its charges because of acute cash flow problems resulting from storing loan cotton over long periods of time. Council President Ed Breihan said USDA's action should be helpful to the entire industry, averting increased costs to producers and lessening the possibility of CCC taking ownership of cotton in storage.

Export Shipments Steady
Cotton exports totaled 118,300 running bales during the week ended June 24, bringing accumulated shipments to 5,765,500. Net new sales for 1981-82 delivery were reported at 11,300 running bales and for 1982-83 at 119,200.

Closer Supply-Demand Balance Seen

With 1982 crop prospects now much lower, the cotton supply and demand may return to a closer balance, according to the National Cotton Council.

A lower-than-expected planting report and the severe weather-damaged Southwestern crop have drastically changed the production outlook for the 1982 crop. A range of expectations for harvested acreage suggests production prospects of 9.5 to 10.5 million bales, according to the Council.

If the U. S. Department of Agriculture's current estimates of domestic and export offtake materialize in 1982-83 and the crop is between 9.5 and 10.5 million, the July, 1983, carryover should be reduced to 3 to 4 million bales.

Low Cotton Delinces
Cotton in the Commodity Credit Corporation loan program declined by a net 54,411 running bales during the week ended July 30 as 1,321 new entries were reported along with repayments on 55,762. Loans remain outstanding on 4,095,785 of 6,080,122 bales that have entered the program in the 1981-82 season, the National Cotton Council reports.

VISIT UNCLE
Mr. and Mrs. M. L. Masters of Baytown visited his uncle, Charley Williams, and other relatives last week. The Masters were en route to Bonger to attend a class reunion.

Family boot tradition in final year at A&M

COLLEGE STATION—By the time Cadet Pat Perryman completes his education at Texas A&M University next year, he and his four brothers will have been true "sole mates."

Each of the Perryman brothers, except Gerald Jr. who had the privilege of wearing them first, will have walked more than a mile in his brother's shoes — make that senior boots — when Perryman and the 14-year old boots hit the campus sidewalks in the fall.

The knee-high brown riding boots are a badge of distinction worn only by seniors in the Texas A&M Corps of Cadets.

Perryman, 21, a mechanized agriculture major, says he and his brothers take pride in their own Aggie tradition. "My buddies really give me a lot of trouble, but that's OK," Perryman said. "I just laugh because I didn't have to go out and spend \$425 on a pair of boots. My brother bought ours for \$125 in 1965."

In addition to the expense, Perryman said he will also miss out on certain other senior experiences like blisters caused by breaking in a pair of new boots and two or three months of polishing required to develop the shine expected in the cadet corps.
