Chamber of Commerce

## Aggressive Projects Launched

Post Chamber of Commerce president Jack King assigned members of the board of directors to a variety of committees during the regular monthly meeting Monday evening.

Among the committee assignments is the Fourth of July celebration, with Joe Giddens as chairman.

The directors authorized the committee to include a fireworks display for this year's celebration and planning for the event will begin this week.

The Fourth of July celebration will be held at the city-county park again this year.

Betty Posey and Charles Wallace will serve as leaders of the Business Promotion committee, which will plan retail promotions and ideas for retailers.

The Transportation committee chairman is Bill Terpening. The committee will be working on the airport renovation and other projects related to transportation.

Russell Wilks Jr will head the Agriculture Promotion committee, which is planning an Agriculture Appreciation Day and Banquet in the fall. Other projects of the committee include the annual Taba'na Yuan'e, Post Stampede Rodeo and support for the Double U Sale.

Wes Burnett, Don Glidewell and Bryan Williams III will serve on the Tourism and Recreation committee, with a downtown

renovation and spruce-up as a high priority of the group.

Other projects planned by the Tourism and Recreation committee include the popular Yard of the Week promotion starting in June, sprucing up the Chamber of Commerce office building and promoting local historical sites.

Chamber of Commerce secretary Donna Stelzer and Jack King will serve on the committee to plan for next year's annual banquet.

A membership drive report was presented to the directors, with 20 businesses listed as new members.

Membership drive chairman Glidewell emphasized the importance of continuing the drive on a day-to-day basis.

"What we really need to do is remind our friends that the chamber is open to everyone . . . and non-business memberships are needed just as much as businesses," King added.

In other business, the directors voted to purchase special wind-breakers and blazers which would be worn at chamber of commerce functions. Directors would pay individually for the blazers and wind-breakers.

Directors also approved the support of local efforts to secure an operator for the Postex Plant.

"One of the most important things we have to do as a chamber of commerce," King pointed out, "is to show this community we have something to cheer about . . . and we can start by helping ourselves look good to the folks who cruise through our town."

Directing his comments to the Tourism and Recreation committee members, King continued his theme, "our appearance as a town says who we are and what we think of ourselves, and if we as a board of directors accomplish nothing else this year, I'd say we would have a successful year if we can just get our downtown looking good . . . and it starts with us."

King also reminded committee chairmen that all members of the chamber of commerce should be given an opportunity to serve on committees.

"The more people working on these projects, the better are the chances of success," he added.

Chamber of Commerce members who wish to serve on one or more of the committees should call either a member of the board of directors or the chamber office at 495-3461.

Directors voted to change the regular monthly meeting to noon on the last Wednesday of the month at the First National Bank community room.

## Individuals Urged to Join Chamber

By Wes Burnett

"The Post Chamber of Commerce is an organization made up of a wide variety of businesses and individuals with a united goal of making Post a better place to live and work . . ."

That's the message members of the Chamber of Commerce board of directors are reminding area citizens during this month's membership drive.

"In order to be an effective organization," drive chairman Don Glidewell comments, "the chamber of commerce must have as wide a scope of members as possible to serve all the people."

This membership concept opens the door for the entire community to participate . . . not just businesses.

"Individual memberships are badly needed," Glidewell continues, "and we are really puzzled as to why we only have 29 non-business, individual members."

With a membership fee of only \$24 per year, the non-business non-commercial individual can be a part of the chamber of commerce and take as active a roll in the organization as he or she wishes.

"If you are not an owner of a business, we ask that you give careful consideration to joining with us to work in the chamber of commerce as an individual member," Glidewell adds.

"The \$24 individual membership is designed to encourage people to get involved, even if they don't own a business," Glidewell concludes.

To join, call the chamber of commerce office at 495-3461.

## Cable TV Gets New Ownership

Stan Whitfield with the TV cable company informed The Dispatch Monday that the sale of the Omni Cablevision Company to Star Cable TV was now in effect and that crews had been moved to Post to begin tying in the new lines and putting in new amplifiers.

The new cable company, whose headquarters are in Waxahachie, Tex., had previously told the city council that they would have the new system tied in within 45 days following the purchase of Cablevision.

To report cable TV problems or questions concerning billing, the address and telephone remain the same with the office in Idalou.

A toll free number is provided to those calling 1-800-692-4455.

## Repair on Cable TV Begins

Cable TV at Work — Star Cable TV purchased Cablevision from Omni last week and is currently in the process of installing new amplifiers and tying in new lines.

The boxes will be sent to the

Department of Public Safety in Lubbock to try and lift fingerprints. **Letter to the Editor**

Dear Editor We read the Post Dispatch every week and are looking forward to attending the Close City reunion that has received some very nice publicity in your paper. The Garlynn school played a very important roll in the Garza County School System at one time, but is all

but forgotten now. If you could just give some space to our announcement of the reunion this summer we would appreciate it very much.

Sincerely, Eldon & Eva Lee Roberts 9940 Richmond No. 2008 Houston, Tx. 77042

**Library News**

Sometimes the Post Public Library obtains a new book simply on the re-

commendation or request of a reader. That person can then eagerly await its arrival. People hear about books in magazines, newspapers, from friends, or even a television interview with the author. And sometimes, just the author's name is enough to merit interest in a new book.

For example, someone is waiting to read Stephen Kings' new book, "Christine". He wrote "The Shining," you may be terrified to remember. In "Christine", the scene is 1978 Pittsburgh. The characters are Arnie, a bullied high school senior, Dennis, his friend and sometime protector, and Leigh, the new girl in school.

Leigh is won by Arnie, and wanted by Dennis as well. Another lovers' triangle? Not quite. There's a fourth, for the dark force in this novel is a 1958 Plymouth named Christine. Like I said, the book has been reserved, even before its arrival. But you might want to get your name on the list. If you dare.

Tim Ekaterin, a young investment banker with a checkered past and a troublesome streak of good intentions, arranges for the purchase of Sandcastle, a superb thoroughbred racehorse headed for stud. Then the deaths begin, and trying desperately to stop the killing, Tim also fights the confusion in his own life. Dick Francis writes "Banker."

**Class of '43**

The 1943 graduating class of Post High School met recently to plan a reunion. The 40th class reunion will be held July 8 and 9 in the Post Community Center.

Members of the class that cannot be located include: Grady Porter, Ozie Doan, Rogene Lane, Loraine Gowan, Audra Mae Thompson, Rudolph Easley, Billy Scarborough, Faye Morris, Imogene Nickens and Audrey Lee Harrison.

Anyone knowing the whereabouts of these classmates are asked to notify any member of the "Over the Hill Gang" Punk Peel, Maxine Cummings, Glen Norman or Ted Aten.

## United Conv. News

By Nell Mathews Thank you to the Justiceburg Baptist Church for the service Sunday. Our residents are on the mend again.

We sure have a few big 42 games going on around here. Nell and Bobbie get into some of them. Most of the time it is Mrs. Winnie Henderson, Mrs. Ruby Woodard, Mrs. Lu Williams, Mrs. Dorothy Sparlin, Mr. Lewis Babb, Mr. Tom Warren and sometimes there is a lot of laughing going on too.

Our Bingo games on Monday sometime get a little loud, but we haven't got run out yet.

Our Employee of the Week is Filis Reyna.

The days are so nice now we can go on our walks again. It would be nice if you came along with

us. Our Family Night is April 25 at 7 p. m. Jodie Baudreaux will be here to entertain.

Our hearts are sad with the loss of Travis Gilmore. He had been with us a long time.

We here at United Convalescent Home live with each person here each day it is a part of our life.

We love each one as if they were our family, we play, we cry, we laugh, we talk, we sing and we work with each other. When one becomes ill we are ill with them. We dress them, we feed them, we keep them clean, when their heart is broken, we cry with the, when they are lonely we try and comfort them, when they get well we get well with them. So when we lose one of our residents we have lost a part of our family.

## STATE CAPITAL HIGHLIGHTS

By Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN—Faced with the problem of whether to cut state spending or raise taxes, legislators last week began to trim — disheartening advocates for the prison system, teacher pay raises and increases in state employees salaries.

The preliminary trims brought bellows from the gored oxen, but more bad news surfaced, even as committees tried to grapple with dwindling state revenues.

Because of a post-World War II record in unemployment, Texas employers must pay at least \$1 billion in new payroll taxes over the next few years to repay federal loans and refill the state unemployment benefits fund, consultants told the leadership late last week. The report is headed to Gov. Mark White's office for his reaction.

Meanwhile, last Thursday Comptroller Bob Bullock

predicted that state sales tax revenues for 1983 will decline almost two percent, largely because of the oil industry slump and the peso devaluation. Other tax collections may also drop by one percent, a revelation shocking to lawmakers who are used to Texas tax revenues growing by 14 percent yearly.

### Budgetary Games?

Some lawmakers reacted by calling for more taxes, while others began belt-tightening for a "no-growth" budget — but many are grumbling suspiciously that they may be pawns in budgetary political games being waged by the governor and Bullock.

Bill Sims of San Angelo, an anti-tax senator, told reporters "something funny is going on between the governor and the comptroller. Nothing could be more embarrassing than if the gover-

nor had to raise taxes, and then the comptroller manages to find a couple of million dollars."

### Prisons, Teachers

Angered teacher groups opted for new taxes last week after House and Senate budget panels voted to hold the line on teacher salaries for the next two years. The Senate approved a plan to funnel as much as \$600 million to local school districts for property tax relief, but set aside no money for the fund.

Governor White stuck to his campaign guns insisting on a 24 percent pay raise for teachers, a viewpoint termed by Lt. Gov. Bill Hobby as "absolutely" unrealistic.

The Senate budget panel also cut more than \$70 million from the prison system budget, and prison officials argued it would create a loss of prison employees.

### Speaker Lawsuit

Problem-plagued House Speaker Gib Lewis caught another one last week when he was named in a lawsuit accusing him and an associate of forming a bogus corporation to reduce his tax liabilities. The suit seeks recovery of \$450,000 in debts from the firm owned by Lewis which filed for bankruptcy last year.

### The House

Last week the House heard Lewis and former Speaker Bill Clayton testify to a committee for the creation of an ethics commission to oversee Texas politics.

The House also approved, after hard debate, a bill partially deregulating trucking for some agricultural products, like citrus.

Also passed was a measure enabling the Legislature to function in case of nuclear attack.

Universal City Representative Alan Schoolcraft said a

quiet straw poll of House members reveals a majority favor reform of mandatory legislative continuances, or the postponing of trials for legislator-lawyers while they are in session.

### The Senate

The Senate approved a measure tightening bingo regulations, including prohibiting minors and barring anyone from playing for free at games where revenues are subject to the comptroller.

Senators also passed a bill setting up a state board to license dieticians, a bill sought by dietician groups to upgrade their profession.

Also approved was a bill allowing counties and cities to buy insurance covering juvenile offenders on a work program.

### Republican Party

Following the forced resignation of Republican Party chairman Chet Upham and vice chairman Dorothy Doehne, the state GOP attempted to rally around its new chairman, George Strake, former Texas Secretary of State.

### Face Slapping

Upham resigned and Strake stepped in at a party executive committee gathering in Midland. Amid bitter party in-fighting, which saw two Republican women slap each other's faces during an informal session, the GOP forged a base of agreement which leaders hope will not be short-lived. Immediately after the leadership switch, the delegation voted unanimously to pass the 1983 budget and eight resolutions.

### Oil purchase

The United States signed an agreement to purchase 1.8 million barrels of Iranian oil on April 22, 1982, for the Strategic Petroleum Reserve.

## Jr. High Boys Compete at D. C.

Post seventh and eighth grade boys attended the Denver City Track Meet last Friday with 15 schools attending and five of which were 4A schools.

In the seventh grade division, Ben Kirkpatrick received a first place in the

110 meter hurdles and also won second in the pole vault;

Mike Bartlett was third in the 100 meter dash and the sprint relay team dropped the baton.

The eighth grade boys division had Eddie Moat receiving a first place in the 200 meter dash and he also received a fifth in the high jump; Jay McCook was sixth in the 300 meter hurdles.

The mile relay team of Jay McCook, T. Perez, A. Perez and E. Moat was fourth.

## Water Saving...

Conservation-conscious homeowners can take steps to reduce the water and energy demands of lawn care without lowering lawn standards.

"While lawns offer many aesthetic and recreational benefits, these may be offset by high requirements for water and energy," says Dr. Richard Duble, turfgrass specialist with the Texas Agricultural Extension Service, Texas A&M University System.

"Mowing, watering, fertilizing, controlling pests and disposing of leaf clippings are all energy-consuming requirements of lawn care.

During spring and summer months, watering the lawn and collecting and disposing of grass clippings place a heavy burden on cities for water and trash collection services.

Grass clippings account for more than 30 percent of total trash collections in some cities during spring and early summer," notes Duble.

He offers several lawn maintenance practices to help homeowners reduce these requirements.

Reducing fertilizer applications to maintenance levels — 2 to 3 pounds of actual nitrogen per 1,000 square feet of lawn per year — will go a long way toward reducing water and energy demands. (That's 20 to 30 pounds of fertilizer containing 10 percent nitrogen.) Applying only maintenance levels of nitrogen to lawns can reduce mowing requirements, water use, insect and disease problems, and grass clippings.

"Excessive fertilization is the single most important factor contributing to high water and energy demands for lawn care," contends Duble.

Another lawn care practice to reduce energy demands is returning or composting grass clippings. Using a mulching mower can be beneficial if grass clippings are not composted, says the specialist. Regular mowing at weekly intervals will reduce thatch accumulation.

# What Our Concerns Should Be For One Another

Bro. Arthur Kelly Pleasant Home Baptist Church

The Bible lesson for this message finds Paul telling the church at Philippi these words and this I pray that your love may abound yet more and more in knowledge, Phil: 1-9.

Love is the fundamental power of the church. As you read the New Testament observe how the word love is used to describe God's concern for man and what our concerns should be for one another.

The greatest of all lessons on love is what has been called the Gospel of Jesus Christ in miniature, "For God so loved the world, that he gave his only begotten Son, whose ever believeth in Him should not perish, but have everlasting life." John 3: 16.

We are born into the church through the power of God's love extended to us through Jesus Christ. The entire Bible teaches this.

God created each of us. We are people of God even if we were

not converted and found in church today, we would still be people whom the Lord created.

We are the offsprings of Adam and Eve, the first man and woman whom God created.

He breathed into their nostrils of life, and they became living souls.

I do not believe anyone has ever really defined just what love means.

Many have tried, but no one can really define love. We can describe love.

Love is what God does for us in spite of ourselves. Love is God's forgiveness to us; it is giving us another chance.

Love is that power that helps us to see ourselves and also our fellowman.

However, the statement I like most is the one that says that love is that power that makes us have fellowship with God.

Paul knew that Christian love needed the support of prayer. Each one of us needs love in order to serve in the spirit of Christ.

When the vision of

Christ is lost, love turns inward and becomes selfish.

When we lose sight of our purpose our reason to exist, love becomes cloudy and we sometimes bicker among ourselves.

This is why groups in the church sometimes start to create problems and stir up troubles, because the purpose for which they serve has been lost by the weak spirit of the flesh.

We must remember that the same spirit of the devil that troubles our world

can be found in the church. Satan does not want us to have peace in the church.

He does not want us to live in love to lift up Christ, and to build up God's kingdom in the church. We must watch, fight and pray. Above all else we must pray one for another.

Paul knew that prayer was the re-generating power behind love.

I am praying for you that God will keep your body strong and your faith alive.

I am praying that God will keep Satan from sifting your life and cause you to fall apart like chaff in the wind.

The miracle of my praying for you is that someone is praying for me. Now one

of the favorite spirituals is

You pray for me and I'll pray for you. You pray for me and I'll pray for you. Pray for me and I'll pray for you. Why don't you pray for me.

### Pleasant Home News

By Annie V. Gilbert

Pleasant Home Services were as usual and just great.

The Youth's Sisters Carolyn Whitehead and Priscilla Martin taught the Juniors and Primaries and Sister Iona Smith taught the Intermediates and Adults Sunday School lesson on "Missionaries on the Move" Acts 13: 1-3; 14: 8-18.

To our visitor, please come again, you are always welcome.

Devotion was by Deacon Jim H. Osby, with Sister Callie Harper reading St. Matthew, Chapter 8

Verses 1 to 6.

Altar call was very spiritually prayed by Rev. James then read St. Luke, Chapter 21 verses 1 to 19.

The choir sung praises of glory to God from their souls at their Post of Duty.

Rev. Kelly preached from St. Luke Chapter 18 Verses 1 through 8 during the 11 a. m. service. His theme was "When the Impossible Becomes Possible."

Let's remember to pray for and visit the sick and shut-ins of the church and community.

For spiritual help call Rev. Kelly 495-3192.

### Facts & Focul Point

Pastor Steve Traw First Christian Church

There was a story about an 18 year-old boy who was deeply interested in scientific subjects, especially astronomy. So his father brought him a very expensive telescope.

Since the young fellow had also studied optics, he found the instrument to be most intriguing.

He took it apart, examined the lenses, and made detailed calculations on the distance of its point of focus. He became

so absorbed in gaining a technical knowledge of the telescope itself, that he never got around to looking at the stars.

He knew a lot about that fine instrument, but he missed seeing the wonders of the heavens.

In much the same way it is possible for one to study the Scriptures so diligently in its facts, words and details. The danger comes in missing the chief subject or purpose of that revelation.

The Jewish scholars poured over the Old Testament and exacted the fullest possible meaning from each word. Yet they did not recognize the one of whom they read.

As Christians, to know all the facts and figures contained in the Bible is not the end for which God has given us this Book. It bears witness of Christ that we might know Him.

You are invited to join us as we study God's Word and its focus on Christ this Sunday. The Lord in reference to the Scriptures tells us, "it is these that bear witness of me."

William Freytag remarked, "The more religious a person is, the less prepared that person is to hear the Good News."

The Presbyterians of Post have opened the same book over 4,000 times through their church's 75 years in this town, and keep hearing the Good News that God's love is not just "once for always," but fresh and new every morning.

They invite you to "listen in," as they hear "the old, old story" told from Sunday to Sunday.

In a fresh, personal, encouraging way.

Heat kills brains  
 In all mammals the brain is ultrasensitive to heat. Death of brain tissue may result from a rise of just 6 degrees in temperature above resting levels.

Waste just wasted  
 Europeans produce nearly 2 billion tons of urban, agricultural and industrial waste annually. At present nearly all this material is disposed of without further treatment although an estimated 70 to 90 percent of it could be reprocessed to produce heat energy, animal fodder or fertilizer.

## BUILD-PROTECT-PROFIT

### Sugar Red

As the name implies, Sugar Red is a vigorous sweet sorghum hybrid using early sumac (red top cane) as one of the parents. Fast growing and very leafy, Sugar Red makes a very sweet and palatable forage\* plus 20%-40% more tonnage than common open-pollinated varieties. Sugar Red is very drought tolerant yet gets 7-9 feet tall under good conditions. Sugar Red is mostly sterile and works well in a winter grazeout program with a minimum of volunteer plants the following year.

## HAY-SMAK

You can look to HAY-SMAK Hybrid Sorghum-Sudangrass for a most dependable forage ... producing excellent grazing, superior hay, good green chop, and satisfactory ensilage.

HYBRID SORGHUM-SUDANGRASS
