Governor Cites Green Thumb Program Day

Governor Mark White has made June 1 memorable for almost 2000 hard-working older Texans by designating it as Texas Farmers Union Green Thumb-Senior Texans Employment Program Day in the state.

Citing the "meaningful employment opportunities" offered by the two senior employment programs since the early 1970's, the Governor signed a special proclamation during ceremonies at the Capitol.

Texas Farmers Union has sponsored the Green Thumb program in Texas since 1970. The largest and oldest federally-funded senior employment program, Green Thumb has more than 17,000 enrollees nationwide, including 1,059 in 108 Texas counties.

In 1973, the Texas Legislature adopted a TFU proposal to establish the Senior Texans Employment Program (STEP), which now receives both state and federal support through the Texas Department on Aging. STEP employs 930 workers in 122 counties.

Governor White said that through the two programs, STEP and Green Thumb workers "have found a new lease on life and have made major contributions to their communities."

"Citizens of Texas are grateful for the rejuvenation of their rural areas and the reclamation of lost manpower these programs provide," the Governor said.

The programs place workers aged 55 and over with senior centers, schools, libraries, and municipalities to

furnish services that would not otherwise be available.

TFU President Mike Moeller, who attended the signing ceremony along with officials from both programs and the Texas Department on Aging, said Governor White's proclamation "is clear evidence that the new leaders of this state value our strong rural heritage, and the past and future contributions of older Texans."

Moeller emphasized that STEP and Green Thumb are "true self-help programs designed to serve those who have the most faith in the work ethic and in the nation itself: older workers."

"Most of these people were raised on farms and they know what it means to work. For them work isn't a necessary evil, a means to an end; for them it's a worthy end in itself," he said.

The two programs not only provide rural elderly persons with work and rural communities with much needed services, he added, but also actually save the taxpayers money.

"A study by the American Association of Retired Persons re-estimates that for every dollar going into senior employment, the government saves \$1.15 in benefits the workers could be receiving if they were unemployed," he said.

"So this recognition is not just for the idealistic purposes of these programs; it's also for the very real and practical advantages that accrue to all of us—rural and urban—as citizens and

taxpayers," he concluded.

Green Thumb worker Cleo Holder, 82, of Dripping Springs, who was honored at the ceremony and received a pen from the Governor, knows first hand how important

employment can be for an older person.

A cook at the Dripping Springs senior center since 1977, Holder has found that it's "almost impossible to get by on Social Security because th-

ings have gotten so high that you don't have anything left (out of Social Security) to buy clothing or much else."

Even more important to Holder, however, is the sense of purpose she derives

from her work. "I en Thumb, I would have died a long time ago. It's kept a lot of people going because it keeps them busy."

IRS Delays Plan

The Internal Revenue Service today said that it is granting to all payors of interest and dividend income an automatic 1-month extension of the requirement to withhold tax scheduled to begin July 1, 1983. The automatic 1-month extension is being granted to alleviate any undue hardship to payors.

Today's action is

being taken in light of the June 16, 1983, Senate action to repeal the withholding provisions which were enacted by the Tax Equity and Fiscal Responsibility Act of 1982. The IRS noted that there has been no final action concerning repeal.

The Congress continues to consider expanded backup withholding and other compliance measures.

Defensive Driving Course

A defensive driving course was set for July 5, 6, and 7 by members of the Women's Chamber of Commerce when they met for a regular meeting June 15 in the Reddy Room.

All members were encouraged to attend the driving course and

encourage people of the community to also attend. The only cost for the course will be for books and upon completion of the course, a 10 percent discount can be received on your car insurance.

In other business, members were asked

to serve at the annual July 4 celebration with members agreeing to do so.

Attending the meeting were Donna Stelzer, Lois Cook, Melanie Windham, Iva Hudman, Nell Matthews, Bobbie Edler and LaGayluah Feagin.

Plains Cotton Growers Criticize Feds

Pervasive pessimism concerning production prospects and severe but constructive criticism of the Federal crop insurance program dominated discussion June 15 when directors of Plains Cotton Growers, Inc. met in a special called session in Lubbock.

To a man the 26 directors present, representing a good cross section of the Plains, reported unsatisfactory crop conditions. Directors from some counties, generally south and west of Lubbock, lamented continued absence of planting moisture. Existing stands of cotton in the remainder of the area were described as retarded and "sick" from wet cool weather, high winds and or

intermittent hailstorms.

All were agreed that rain was an immediate must on dry fields and that warmer temperatures were equally imperative on most existing stands if the Plains is to produce anything like a normal crop.

Comic relief was provided in the otherwise gloomy picture when Lloyd Cline of Lamesa said "The only thing even close to being wet in Dawson County is Y-banez."

The group was most critical of Federal crop insurance and instructed PCG staff and officers to propose that the Federal Crop Insurance Corporation (FCIC) institute a "pilot program" on the High Plains for 1984, per-

haps based on adjusted provisions of the disaster program of past years. Interest in such a possibility, PCG President Tommy Fondren of Lorenzo had previously reported, surfaced in an earlier meeting between himself, PCG Secretary-Treasurer Bennie Claunch of Bula and Under Secretary of Agriculture Frank Naylor.

Fondren stated that he and Claunch had accepted an invitation to a meeting in Denver June 21 and 22 with the FCIC Board, at which time they would pursue the pilot program idea and call attention to Federal crop insurance improvements suggested by the PCG Board.

Any new or revised FCIC program, according to PCG dis-

cussion, should provide for prevented planting coverage, more realistic yields, the use of ASCS acreage measurements, correction of the excessive drain of agent commissions and the establishment of an effective means to resolve inter-agency conflicts.

On other matters the Board expressed opposition to the Ad-

ministration's proposal to freeze target prices and loan rates at 1983 levels, supported the adoption of two new cotton standards and agreed that a payment in kind acreage reduction program may well be needed for cotton in 1984 unless surplus stocks in the U.S. decline to below four million bales at the end of the 1983-84 marketing year.

DPS Chief Urges Caution

The Regional Commander of the Texas Department of Public Safety called on drivers to use extreme caution in traveling the streets and highways in Texas during the July 4th holiday weekend.

Major Vernon Cawthon said, "We realize the added dangers of traveling by motor vehicle during holiday periods and want to help motorists avoid the tragedy and suffering which could mar this otherwise happy occasion."

He pointed out that the DPS will be conducting its holiday "Operation Motorcade." He said, "We will continue to work with the news media to keep motorists posted on unusual traffic conditions and to advise them on where and why serious holiday accidents are occurring."

Cawthon said, "Excessive speed and driving while intoxicated continue as the primary law violations contributing to fatal accidents," and he warned, "DPS troopers have been directed to be especially watchful for motorists exceeding speed limits or under the influence of alcohol."

Cawthon also reminds motorists that many lives could be saved and serious injuries could be reduced during the crowded driving time through greater utilization of seat belts.

He added, "The DPS will place all available troopers on the state's highways and we urge every Texas driver to join in an all-out effort to make the July 4th holiday as safe as possible."

'Texas' Opens at Palo Duro

The gates are opened, the flags are flying, the lines are polished, and "Texas" is playing for its eighteenth season in Palo Duro Canyon State Park. Every night except Sunday, eighty singers, actors, and dancers burst upon the stage to the sounds of "Texas Forever", and once more the story of the Texas Panhandle during the 1980's is unveiled to near-capacity houses.

Indians, horses, thunder, fire, and romance are all parts of the show. "Goose bumps" are frequently apparent when audience members are made to feel a part of the sacrifice, perseverance, and humor of these pioneers.

Tech Honor Students Named

More than 2,200 students at Texas Tech University qualified for the deans' honor rolls in the university's six colleges during the 1983 spring semester.

Students making the honor roll included the following from Post: William D. Becker, Route 2; Kevin L. Craig, 706 Chantilly Lane; Carol A. McDonald, Route 3; David P. Poole, 410 Osage; Amy C. Thuet, Route 3; and Michael T. Wade, 607 W. 11th.

To qualify for a dean's honor roll, a student must have a grade point average of 3.5 or more on a 4.0 scale and must have taken 12 hours or more of classes.

Company members were selected in auditions that were held throughout Texas and New Mexico in January and February. Those selected have been sharpening and refining their talents in rehearsals that began in May. Eight hours of practice six and ½ days a week forms the company into a unified whole that not even wind, heat, cold, or storms can divide.

Hospitality members have dusted off their Texas draws and their "Howdy y'all's". They know how to get the most possible cars onto the parking lot and how to pour hundreds of soft drinks in only a few minutes.

For ticket information write Box 268, Canyon, Texas 79015 or call 806-655-2181.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—Texas Comptroller Bob Bullock certified last week that the Texas Legislature once again, as required by law, has balanced the state budget . . . but not by much.

Bullock predicted that after the state finishes paying the bills two years from now, "there will be only small change left in the bank."

Although Gov. Mark White earlier indicated he might veto the budget unless lawmakers raised taxes for teacher salaries, he was expected to sign the bill, thus ending a budget battle which nickel-and-dimed everyone-leaving all feeling underfunded.

But while the tax battle still looms on the horizon, at least two other issues must be resolved first, and events are apparently unfolding to bring lawmakers back into special session this summer.

Lieutenant Gov. Bill Hobby predicted last week the Governor will call the Legislature into session within a few weeks to extend the life of the Texas Employment Commission and to enact a brucellosis program. Later this year, Hobby said, White

will call a second special session to pass a teacher pay raise.

Some insiders say the first special session could come the last week of June.

Quarantine Sidestepped

Last week, a few days before Texas was to have gone into court against the federal government's quarantine of all Texas cattle, a tentative bargain was struck when it looked like the Lone Star State was about to lose the case.

White and the feds agreed that Texas will seek to enact a new brucellosis control program and the feds will call off the quarantine as long as Texas shows good faith effort.

White and others will take a week or so to line up the legislative program before a special session is called.

Employment Commission

When the brucellosis session is ordered, White is also expected to include a bill which will extend the existence of the Texas Employment Commission.

The state agency was subject to the Sunset Act this session, but the Legislature adjourned without passing a bill to continue operation of the commission for the next 12 years.

The Senate passed its version, but when Sen. Lloyd

Doggett tried to force the House to accept his "human rights commission" amendment or forfeit the bill, conservative House members called his hand and let the bill die.

Whether Doggett is successful in attaching the amendment this summer may be an indicator of whether he will forge ahead with his now-in-force campaign to challenge U.S. Sen. John Tower.

Water, Farmworkers

Two other unfinished issues which might find their way onto the special session agenda are the comprehensive Texas water plan and workers compensation for farmworkers.

The farmworker bill was killed in regular session by a last hour filibuster and the water bill was held up in a House committee after it passed the Senate.

A West Texas Senator, Bill Sims of San Angelo, speculated last week Texas may have to pass the legislation piecemeal over the next few years, since it will be difficult to provide an all-encompassing statewide water plan.

Sims passed legislation which would govern the use of fresh water in secondary oil recovery, increase requirements for lining salt water pits, and provide for plugging of old abandoned wells which often leak oil or salt water onto agricultural land.

Galveston Gambling

What with all the talk last session about legalizing horserace gambling, some speculators want to rebuild the gambling hey-day of Galveston Island. Gambling of all sorts was allowed until 1957 when the Attorney General closed it down.

Now that the Island is undergoing a building boom with several large hotels going up right on the seawall, a move is afoot to legalize casinos.

State Sen. Chet Brooks and the city council have agreed to a non-binding straw vote to see what citizens want.

Texas Republicans

The Texas Republican Party reports it is in unified state following this spring's bloody infighting and the election of a new state chairman. The GOP vows to carry the state in '84, and national Republicans visited Dallas last week to prepare for the coming convention there next year.

Pleasant Home News

By Annie Gilbert
Sunday, June 19 Pleasant Home was saddened by the loss of a member, Sister Rebecca Brewster who succumbed Thursday, June 16. She was a longtime and faithful member of Pleasant Home and we truly will miss her. Our sympathy and prayers goes out to all her families.

Services at Sunday School as usual.

Devotional led by Deacon Willie Burleson, Deacon Jim Osby and Sister Iona Smith. She read the entire number 113 Psalms. Altar prayer very spiritually prayed.

Rev. James then read St. Matthew chapter verses 1 through 12. Senior choir sung out of the hearts and souls wonderfully.

During the 11 a. m. service our pastor

delivered a wonderful sermon from the book of 103 Psalms verse 13. His theme "Our Faith in God the Father."

Please continue to pray for the sick and shutins of the churches, town and community.

The showing is scheduled to begin at 6:00p.m.

Braves Over Indians 15 - 11

The Braves notched their first victory of the season last Monday evening, defeating the Indians 15-11 in Post Babe Ruth League Action.

Jay Fluitt was the winning hurler while Greg Storie and Kenneth Pearson and Kenneth Pearson divided the pitching chores for the Indians.

The Indians pushed two runs across in the

first on hits by Kenneth Pearson and Adam Perez.

The Braves countered with three runs on four hits in their half of the opening inning. Lupe Perez and Bryan Overton had doubles and Jay Fluitt and Tony Perez had singles.

Both teams scored in the second, the Indians on hits by

Greg Storie and Pearson, the Braves on an error.

In the Indians' half of the third inning, Keith Hart and Craig Greathouse each had singles to add another run to the visitors' total.

At the end of three complete the score was knotted at four a piece.

The Indians were

shut down in the fourth as the Braves exploded for five runs.

The runs came on singles by Greg Adams, Bryan Gibbs and Fluitt.

The Indians fought back to within a run in the fifth as hits by Scott Hair and Andy Pearson helped them to a four run inning.

Adams got another single while the Brav-

es scored another run in the bottom of the fifth to allow them to take a 10-8 lead into the last two stanzas.

The Indians took the lead in the top of the sixth as three runs moved over home plate on a Storie hit and three errors.

The lead was short lived as four walks and an error netted five runs for the

Braves.

Ricky Benton caught a fly ball in left field to end the game and a bases loaded scoring threat by the Indians.

Air Show In Lamesa June 26

Aerobatic pilot Jim Franklin, seen earlier this year on the television show "That's Incredible," will be exhibiting his extraordinary flying skills in a special

two-hour air show Sunday, June 26, at Lamesa.

Franklin has been described as "The World's Greatest Air Show Pilot" and is most noted for his inverted ribbon pick-up, in which he flies upside down at over 200 miles per hour and snatches a ribbon suspended only a few feet above the ground.

For "That's Incredible," the San Angelo pilot did the maneuver while carrying a wing-walker.

Adding to the show will be a performance by a group of sky-divers from the Midland-Odessa area, a display of ultra-light aircraft, and a display of Confederate Air Force planes from this area of the state.

Sponsored by the Lamesa Noon Lions Club, the show will begin at 2 p.m. at the Lamesa Airport a mile northeast of the city. Tickets are available in advance or at the show at \$3 per person.

Dates for the Texas Cowboy Reunion are July 1, 2 and 4.

The TCR is still considered the largest amateur rodeo in the world, judged on the basis of the number of contestants which grows each year. Contestants are mostly working cowboys on the large and small spreads from Texas, New Mexico and Oklahoma.

Many rodeo events have had their origin at the TCR in Stamford, such as wild cow milking, barrel racing and cutting horse contest, these in addition to the regular events of bull riding, calf roping, saddle and bareback bronc riding.

This year's entertainers include Leon Rausch and the Texas Panthers' salute to Bob Wills, Bill Mounce, Sammi Smith and Sheb Wooley.

Forty-three of the country's top western artists will be participating in the 10th Annual Stamford Art Foundations Exhibit and Sale.

A rodeo parade will kick-off the TCR Friday, July 1, on the square at 3:00 with various floats, riding clubs, marching bands and automobiles participating.

Rodeo performances begin at 8 p. m. July 1, 2 and 4. The world famous Hardin Simmons Cowboy Band will provide musical entertainment in the arena at each performance.

These attractions plus an art and quarter horse auction, rodeo dances, a "Golden Horseshoe Hedeaway" worth \$500.00, chuck wagon dinners and more are all part of the 53rd Annual Texas Cowboy Reunion.

VA Increases Basic Interest Rates

The Veterans Administration increased the basic interest rate for homes and condominiums by a half percent June 8 to 12 percent, said William E. Welstead, Loan Guaranty Officer for the Waco VA Regional Office in Waco, Texas.

It was the first rate hike in 16½ months and returned the basic rate to the level set last November 15.

At the same time, the VA maximum interest rate for Graduated Payment Mortgage loans was increased to 12¼ percent.

Other current VA loan-guarantee rates:

13.5 percent for purchase of manufactured home units; 13 percent to buy both a mobile home and a lot, and 13 percent for loans to purchase a lot and the cost of necessary site preparation.

For a veteran buying a home with a 30-year, average GI loan of \$55,000, the rate increase of a half percent will raise the monthly payments by \$21 over the previous 11.5 percent rate.

The change, however, doesn't affect existing closed GI loans, whose interest rate remains the same for the life of the agreement.

VA guarantees loans made by private lenders to eligible veterans, widowed spouses of veterans who died as a result of service-connected disabilities, or spouses of service personnel officially listed as missing in action or prisoners of

Unfortunately, USDA's lawyers have answered with a flat "no when asked if unplanted cotton acreage will be eligible for deficiency payments. They quote a parenthetical provision, carried over from the 1977 farm act to the 1981 law, which says payments in no event will be made "...on a greater acreage than the acreage actually planted to cotton for harvest..."

PCG, the National Cotton Council, the Agricultural Council of Arkansas and perhaps others have sought ways to reduce the impact of this provision on farmers unable to plant for reasons beyond their control.

from the attorneys is apparently irreversible without new legislation," Johnson says, "and that's a practical impossibility in time for the 1983 crop."

Planting after the established final planting date, a State official of USDA's Agricultural Stabilization and Conservation Service has told PCG, will qualify producers for deficiency payments if payments are due. However under certain conditions if planting occurs so late as to preclude the possibility of making a normal yield, the amount of any payment could be reduced by the County ASCS Committee.

"Since there are no definite guides to follow in this regard," Johnson says, "producers who find it impossible to plant before the final planting date might do

well to discuss the matter, in advance, with county ASCS offices."

Also, PCG is advised that producers who "dry plant" will retain deficiency payment eligibility if the planting is done in a bona fide effort to produce a crop.

As to the third question, the State ASCS office says producers who fail after making every effort to get and keep a stand of cotton through the final planting date may plant and harvest another crop on base cotton acres and still collect deficiency payments. The second crop may be any non-program commodity or, since there is no cross-compliance, may be any program crop provided the producer has not agreed to participate in the program for that commodity.

How Important Is Church?

DONNY CROWSON
Graham Chapel
United Methodist
Ministerial Alliance

How important is the church to you? Better yet, why do you attend your church? In the past four years, I have come across MANY reasons. Of all those reasons one shockingly comes through. That reason, in nature, is purely socially oriented.

True, we are social beings. True, there is fellowship whenever a "body of believers" come together. However, that's not what I'm referring to here.

I have known people to attend a local church because of an important position that they hold within their community. Is that what our churches have become? To borrow a phrase from the Apostle Paul, "May it NEVER be!"

clouded when we find ourselves nervously anxious because such and such are wearing the same thing we are. **HOW TERRIBLE!**

This article may seem like an exaggeration. However, if you'll look, you may find that, unfortunately, these feelings and thoughts are alive and well within the church today. I didn't say they were right; only that they are there.

Now, what are the real reasons for going to your local church on Sunday and Wednesday? I hope it's not to see what Aunt Tillie is wearing; but to enter into the time

of worship and praise to our Father. Which, by the way, shouldn't end when we walk out of the church door.

We should each count it a privilege and blessing to have the freedom to worship God in this country! Other's don't enjoy that freedom. Still, we can find (or make up) all sorts of excuses on why we can't go to church on Sunday morning.

As a christian, and a proclaimer of the Gospel, I find that I want to go to church; NOT that I have to.

I hope that YOUR pastor will see YOU in church this next Sunday morning!

First Christian Church

John Bunyan's great Puritan classic, Pilgrim's Progress, is more than three centuries in age. Its clear insights to the life of the believer are still fitting to our day. Through the allegory of a dream, the weary pilgrim, named Christian, is searching for the Celestial City.

Like the Israelites when they were wandering in the wilderness, Christian and his traveling companion got into trouble because they wanted a better way. They rejected God's will.

Bunyan relates, now the way was rough,

and their feet tender by reason of their travels. Their thoughts echoed the wandering nation Israel (Numbers 21:4). So the soul of the Pilgrims were much discouraged, because of the way. The desire was for a better, that is, easier way. Trouble began as the two pilgrims opted for By-Path Meadow, and no longer chose to follow God's will.

But, By-Path Meadow is only the beginning of their entanglement. Strangers, the sudden fall of the darkness of night, and the threat of a deep pit and dreadful storm lie ahead. Christian by leading his companion from the original pathway

for the way of temptation, subjected both to further temptation. One temptation makes way for another.

And friends beware! The philosophy of By-Path Meadow still exists. Even well-meaning ones can wander from God's directed way for that which seems the easiest way. Take heed lest you begin walking by sight down alluring By-Path Meadows and not walking by faith along God's way (Romans 14:23). Happy traveling.

About 14,000 martyrs are listed in the records of the Roman Catholic Church.
