Memorial Service Held For Doil Last Sunday

A large crowd paid tribute last Sunday to the memory of Pfc. Doil Jones who was killed in action April 21 on Luzon Island. Friends and relatives gathered at the Nazarene church for the Service honoring the fallen soldier. Lovely flowers and a further tribute to the man and a consolation to his family were given.

Star Spangled Banner was played and with the colors still standing the colors were advanced by Bill J. Davis, Bowen, Ollie Weakley and Fred Duckworth.

C. Outlaw as spokesman for the American Legion presided and read the several parts of the Service. Speaking of the service as a grateful and patriotic tribute to the memory of one who made the supreme sacrifice, Outlaw offered a rededication to people at home to democratic principles and a pledge that those who go forth to battle will ever be remembered.

Wm. Robinson, local Legion chairman, led the prayer asking for the help and guidance during the war.

A. F. Duke, pastor of the Nazarene church, gave the history of the life of this man. Doil Jones was born Dec. 7, 1923, to Mr. and Mrs. Jones of Gransland. He attended school at Gransland and graduated from Taboka High School. He was married to Miss Lee West in April 1943. On April 21, 1945 he answered the call of the Great Commander of Armies.

A member of the Ladies' Auxiliary of the American Legion, T. L. Jones spoke concerning symbols. The small cross and helmet represent the place of a soldier. The cross represents eternal life. The helmet represents truth and goodness which a soldier fights.

Legionaries, T. L. Jones, Cardwell, Wesley Stephens, Ray Smith served as relief guard.

D. W. Reed, long time friend, chose for his text Isaiah 102: "Hear my prayer, O Lord, and let my cry come unto thee. Hide not Thy face from me in the day when I am in trouble, Having known the young man of all his life, Rev. Reed spoke of wonderful comfort to the bereaved, citing them especially to Isaiah which begins "Let not thy heart be troubled." He went on with the words "He went and might stay; did what he

Graphic Picture Of Pacific Action Told By Lt. Griffith

The gravity of the task ahead in fighting the war in the Pacific was brought forcibly home by Lt. Ernest Griffith, survivor of grave battle action off Okinawa, when he spoke to the Rotary club Tuesday.

"In my estimation it will take six months to move a sizeable fighting force of foot soldiers from the European fronts to the Pacific front," Griffith said. He based this time element upon the experience he had in reaching the states from the grave site of his lost ship, the U. S. S. Colhoun. "It took us almost a month to reach the states from the Okinawa area where severe action of Jap suicide planes knocked out our ship along with others in that particular action early in April."

The confusion of the "missing in action" message received here by his wife, the former Rose Jean Rodgers, which was later changed to "reported safe" was clarified.

Lt. Griffith who wears the battle stars for participation in Attu, Iwo Jima and Okinawa, compared the intense action in the Pacific to a checker game. The main strategy of action so far is one of isolation. It is the purpose of our forces to cut off the Jap held islands from the homelands and their supplies and to establish strong bases whereby big scale operations can take place, he explained. The magnitude of the Pacific task and its probable long duration was emphasized.

The brief but accurate accounts of the landings and action on the islands of Iwo Jima and Okinawa held the interest of the listeners.

Another point the lieutenant, who served as communications officer on his ship, stressed with firm conviction is the fact that the armed forces in the Pacific do not under estimate their adversaries or anticipate early victory.

To this heroic member of the United States Navy the audience gave their undivided attention. Lt. Griffith reports to New Orleans following his leave.

Phil Boucher introduced the speaker following the usual opening song and prayer numbers. Five out-of-town Rotarians signed the guest register along with Mrs. Griffith, Mrs. Irene Rodgers, Miss Aileen Riddle and Mrs. Eddie Warren.

In Memoriam

FOR the price of freedom some have laid down their lives. That our American way of life may be preserved some have gone forth never to return.

On Memorial Day, May 30, we humbly and reverently pay our homage to those of our boys who, in far off places, have answered the call and responded above and beyond further earthly duty.

May their names ever shine in the light of an eternal remembrance.

Advertisers To Be Solicited For City Directory

The Lions club is "all set" to start the advertising campaign for the benefit of the City Directory to be published in the near future by the club. Proceeds from the sale of advertising and the sale of the directories will be used to provide street markers for Post.

The cause is one of the most worthy ever undertaken by a civic club in Post and merits the support and cooperation of every business firm in the city. Benefits from the project are numerous and have been listed many times in this paper.

Information is being compiled on listings to be printed in the directories by the members of the Junior Culture club. All Post citizens are asked to give these young women the proper information when they call.

The club is anxious to complete work on the directory in order that copy can be turned over to the printing firm at an early date. Final plans for finishing up this detail work were discussed and approved at the club meeting Tuesday night.

SOLDIER OF THE WEEK

S-Sgt. Bill Edwards, son of Mr. and Mrs. B. J. Edwards, has been in service 50 months. Until ten days before the war ended in Germany he was with the 99th Infantry Division of Hodge's First Army and was under the command of Major General Walter E. Lauer. This Division is now attached to Patton's Third Army.

After crossing the Rhine on March 10, the 99th pushed southward to a 70 square mile area, controlling ten miles along the Rhine where it captured 2,200 prisoners and took the towns of Dattenburg, Laufdorf, Stenhardt, Bremscheid, Hausen, Honnigen, Hammerstein and many others.

Bill has sent his parents many German souvenirs that are being displayed in The Post Dispatch office this week.

His wife is in Winsor, California with her mother but lived here for awhile with Mr. and Mrs. Edwards.

Gayle Bowen Is Member Of Heroic Crew Of Franklin

Vernon Gayle Bowen, Seaman 1c, is at home visiting his parents, Mr. and Mrs. Mitchell Bowen, other relatives, and friends, after having been through the "scariest" time of his life, the bomb blasting on March 19 of his ship, the U. S. S. Franklin.

Gayle arrived in Post on a 30 day leave May 9 but until official censorship was lifted last week he could not be quoted regarding the bombing of his ship.

On a mission which had taken the task force within 60 miles of the Japanese mainland the large aircraft carrier was preparing to launch its loaded planes, some having already left the flight deck.

At just the moment to realize a pilot's dream, a lone Jap plane appeared through the clouds which were low and heavy, flew the length of the ship at little more than mast height and dropped two armor-piercing shells. One of the shells exploding on the flight deck and the other on the hangar deck, setting fire to planes, ammunition, and gasoline.

Seaman Bowen said, "I was in the mess hall for breakfast when we were hit. No Jap planes had been seen so the crews were not at battle station but smoke and fire blocked all exits. I was trapped for three hours in the mess hall. There were about 300 of us in there. I didn't think we'd ever get out. Finally Lt. Gray found a way and helped us get out. The smoke was so thick we formed a human chain and crawled out one by one through a ventilator."

He continued, "After we got out I went on the flight deck and helped to fight the fire which was raging. Later I had to go to my gun station." The young sailor paid a tribute to the ship's chaplain. He said it was just wonderful how the chaplain was every where at once giving aid and comfort to the wounded and doing every thing he could.

Surviving this most appalling catastrophe, the Franklin limped home and arrived at Brooklyn Navy Yard early in May, back home from Japan's very front door.

Gayle was one of the skeleton crew of 704 men who remained on board to bring Big Ben to port after immediate damage was repaired and it was determined the ship would remain afloat.

He received his promotion to Seaman 1c on his arrival in New York and was one of the first to get leave. He wears one bronze star on his Pacific service ribbon. He will report June 12 at New York for re-assignment.

Gayle volunteered in the Navy last September and received boot training in San Diego. After a

7th War Bond Drive

According to our State Chairman, Texas had bought only twenty-five percent of its E Bond Quota at close of sales last Saturday. I regret to state Garza county had not done this well on its quota.

We had a county workers meeting at the Algorta hotel last Monday night. Every community had representatives present except two. We had a good meeting and we believe those present went home ready to go to selling War Bonds. If you haven't got your supplies please do so at once.

We honestly believe the people of our county should buy \$275,000.00 in War Bonds. Our government said we should, and it is the same government that has told our boys to fight, bleed and many die for our homes, schools and churches. Our government has said I was too old to carry a gun, or sleep in a fox-hole, but has made it plain that I am not too old to buy and sell War Bonds. I am ready to do all I can in this bond campaign. Are you?

Friends, let us take this bond business seriously and talk bonds, buy bonds and sell bonds and Victory will be ours.

Respectfully,
T. R. Greenfield

T-5 Eugene Herring's Death Reported To Parents Last Week

Mr. and Mrs. R. J. Herring received word May 18 that their son, T-5 Eugene W. Herring, 23, died May 8 in the Philippines.

Herring was inducted into the Army April 24, 1941, at Fort Bliss, Texas. He received his Engineer training at Ft. Leonard Wood, Mo., and then was sent to Camp Bowie, Texas, where his regiment, the 49th Engineers Construction Battalion was organized.

He left for overseas duty Jan. 23, 1942 and arrived in Australia on Feb. 23. He was stationed on New Guinea and Dutch New Guinea. After seeing action there he was sent to Sydney, Australia for a 3-month rest. He returned to New Guinea in July 1944 and then moved to the Philippines Oct. 20, 1944 where he received his furlough papers. He arrived back in the states Nov. 23, 1944 for a 30-day furlough and returned to overseas duty on Jan. 18 of this year.

Besides his parents, a sister, Howard Busell, of Abilene, also survives.

Here's How Joe's Release Chances Can Be Figured

Washington—Here's how GI Joe can figure his eligibility for discharge under the Army's point system.

Suppose he's been in the Army 36 months. He gets 36 points under service credit.

For 18 months he's been overseas and that adds another 18 points to his score.

He's won the Silver Star and the Purple Heart and has taken part in three major campaigns recognized officially with battle stars. Each of those awards is worth five points, so he gets another 25 points.

Back home he has a five-year-old daughter. She's worth 12 points, since she's under 18.

So, striking a balance, the soldier gets a total score of 91 points. It takes only 85 points to qualify for release, so he can count on going home unless he's an exceptionally skilled man for whom no replacement can be found immediately. But he has the Army's assurance that every effort will be made to obtain a replacement for him.

Beef Production Payment Plan Is Announced By WFA

2. Sold to licensed slaughterer.
3. Weighing 800 pounds live-weight or more.
4. Sale price at least the amount listed for minimum stabilization range for good grade cattle.

All cattlemen shall be advised immediately to retain evidence of sales showing the above information. Complete details of this program will be issued as soon as they are received."

Draft Of Men In Useful Work Virtually Ends

Washington, May 22—Selective Service Director Lewis B. Hershey today announced indefinite deferment of men 30 or over who are contributing to the war effort or who are doing "useful" community work.

Hershey also instructed local boards to review cases of men in the 18-25 age group who were previously disqualified on physical grounds.

Under the new program which is effective immediately, drafting of older men virtually will be halted if local draft boards rule that they are engaged in work contributing to national health, safety or interest.

Hershey told a press conference that the monthly draft calls will be reduced to 90,000, starting July 1. This is a drop of 25 per cent under current calls. This cut made possible the liberalized policy for calling up of men in the 30-37 age group, Hershey said.

Your Mutual Minute of Prayer

Inspired by the late President's suggestion to pray for an early Victory, made at the time of the Pearl Harbor tragedy. This prayer is that of

The Rt. Rev. Monsignor E. J. FLANAGAN
 Director of Boys Town
 Boys Town, Nebraska

Let us pray:
 O Heavenly Father, Creator and Ruler of the human race, look with pity and compassion upon this sad and suffering world. We are threatened with destruction by our iniquity and devastation of soul, our rebellion by our selfish love of the things of this world. We are humbled and sorrowfully to Thee, O Lord, that sanctified by Thy Holy Spirit, a regenerated world may be built on the Fatherhood of God and the Brotherhood of man. Through Jesus Christ our Lord, Amen.

HAVE WE DONE ENOUGH?

The Seventh War Loan Drive opened last week. The national goal is 4 billion, with our own county goal set at \$275,000.00. Now that the European war is over we turn our thoughts to the destruction of the Japanese war machine. We cannot afford to lose a step in the forward march. There is still need for the things our money will buy: ammunition for the many types of guns, bombs for the racks of the mighty war planes, personal equipment for the fighting men, just to name a few. During the invasion of two Jima, also service men carried the American flag to the peak of volcanic Mount Suribachi. Three of those men lived to come home. Last week the same flag fluttered from the flagstaff at the Capitol. Friday the three survivors went to New York to witness the unveiling of the magnificent statue commemorating that flag raising on Iwo Jima, a statue which may well portray The Spirit of '45. Those of us who heard the radio broadcast of this ceremony will wonder how we here at home done enough.

Listening to Pfc. Rene Gagnon, one of the men who came home from Iwo Jima, and the relatives of one of the men who did not come home, more of the full meaning of war was impressed on us. Gallant soldiers such as these are dependent on the supplies we furnish them. Would you refuse to provide ammunition for the Marines who go ashore on the islands leading to Japan; would you refuse to provide food for the soldiers who are retaking the Philippines; would you refuse fuel for the ships that seek the naval enemy; or would you refuse bombs for the airmen to drop on Tokio? Think on these things and then see if you can refuse to buy bonds during this mighty Seventh War Loan Drive.

Each morning when the hour is eleven o'clock, the House ceases its labors for half a minute of silent prayer for the success of our armies and for our boys who are fighting so valiantly all over the world. One can almost hear the fervent prayers of the men and women in the house whose loved ones are in danger on the battlefronts as they ask the Almighty to look over them.

WHAT KIND OF MONUMENT WILL OUR BOYS LIKE?

Much has been written in recent weeks on the type of monument various communities are going to erect in honor of their servicemen. It has been noted that many are going to erect a cold monument of marble when it is "over over there." To us this is one kind of monument that the boys probably will not want. They want something real and that will be forever a living tribute. If we are to have such a memorial, plans should be made now. And Post and Garza county people should decide now whether it is to be a lifeless pile of marble or a living reminder that the boys and their families can enjoy year after year.

Someone has suggested that the town should provide a park, dedicate it to the servicemen. They could enjoy it season after season, together with their families. This idea struck a harmonious note with us. It is not too early for us to begin to think and plan for this day. We suggest that the civic clubs of our county and city take a lead in such a memorial. A well kept park with plenty of trees, playground equipment and picnic tables and other equipment would be one of the finest gestures that this county could make. Think about it, neighbor.

WATER POWER

"Since we are indebted to Edison more than any other man for the development of the electric industry, his views of hydro power are particularly interesting. . . . In an article published January 5, 1929, Mr. Edison said: "Water power is a political issue, not a business one. . . . There is far more danger in public monopoly than there is in private monopoly, for when the government goes into business it can always shift its losses to the taxpayers. If it goes into the power business it can pretend to sell cheap power and then cover up its losses." Buy A War Bond today!

ABRAHAM LINCOLN SAID IT: "IMPOLITENESS DENOTES INFERIORITY"

Many people overlook this point in their contacts with people. An Abe Lincoln story aptly illustrates the value of politeness. President Lincoln, driving along a country road with a friend, met an aged Negro who lifted his hat. Lincoln promptly returned the salute, whereupon his companion asked in surprise: "Surely, Mr. President, it isn't your custom to tip your hat to a Negro?" "Why yes, indeed," replied the President; "you couldn't expect me to permit a Negro to outdo me in politeness!"

HOW TO GREET A WOUNDED SOLDIER

By Joe Marsh

Charlie Jenkins got back from overseas the other day, discharged for wounds. . . and he was pretty well banged up. Naturally, our town felt mighty sad about it. We wanted to sympathize with him and help him. But Doc Walters set us straight about that.

He said that what Charlie wanted most was to be accepted as one of the gang again. . . as if nothing had happened. So we asked him over to pitch horseshoes with his good hand, and enjoy a friendly glass of beer and chew the fat like old times.

And you should have seen him pick up! From being scared of meeting people, Charlie got his confidence back and soon became his own self again. From where I sit, Doc Walters gave us the right steer. The wounded men coming home don't want our sympathy or our over-enthusiastic help. They want to be treated like the rest of us. . . with a chance to work and lead a normal life. And that's the least we can offer them.

THE RETURNED EXILES AND THEIR WORK

LESSON TEXT—Nehemiah 8:1-4a, 5, 6, 8, 12, 13-15

GOLDEN TEXT—Ye shall seek me, and not me, when ye shall search for me with all your heart.—Jeremiah 29:13.

God loves men and takes delight in blessing them and prospering them on their way. When He most punish them, it is a source of grief to His Father-heart.

That fact probably explains why the period of the captivity of the Jewish people is passed over in silence in the historical accounts of the Bible. We do know that prophets were sent to minister to them and to keep alive their hope of restoration to their own land.

When the Jewish captives were ready to return to their land, the silence of sacred history is broken, and we learn of their experiences in rebuilding the temple and the wall of Jerusalem from the books of Ezra and Nehemiah.

Many and varied were the obstacles, but in due time they were surmounted, and by God's help the work was accomplished. Now the time had come for a spiritual revival, and God had His man and His message ready for that hour.

Ezra, the scribe, was God's servant in bringing the Word of God to the people. The elements of success for any revival are found here.

I. An Open Book (8:1,2)

The Word of God is quick and powerful and sharper than a two-edged sword (Heb. 4:12). That mighty weapon does not need any apology or defense. It needs use. The soldier in battle unsheathes his sword or fires his gun. He does not send pamphlets to his enemies telling them what an effective weapon he has—he uses it and gets results.

There is a place for discussion and instruction regarding the authenticity and dependability of the Bible, but if we make it a substitute for using the Word, we are on the wrong track.

Ezra brought out the law of God and opened it to all the people. That is what we need to do today. Open up God's Word and let it do its powerful work.

II. An Attentive People (8:3, 4a, 5, 6)

The Word must be heard as well as preached. Good listeners are as important as good preachers. The open ear and the open heart complete the ministry of the open book.

Note the reverence of the people (v. 5). When the Book was opened, they stood up—a token of honor. We do not worship the Bible, but we should show far more reverence toward it and its message than is ordinarily the case. This is God's Word, and man should approach it reverently.

Note the spirit of worship in verse 6. Be sure that any people coming to God's Word in that spirit will receive a blessing. We shall see in a moment how wonderfully God met them, but first we shall note an additional reason for the splendid response of the people.

We have before us the open book and an attentive and reverent people. What more is needed?

III. An Intelligent Ministry (8:8, 12)

There is nothing that any man can add to God's Word, but he can, by the grace of God and the illumination of the Holy Spirit, be used in opening up the meaning of the Word.

That kind of an exposition of Scripture is the very essence of real preaching. Topical discussions have their value. There is a place for book reviews and the presentation of social problems. But the pulpit should be primarily and always the place where God's Word is expounded.

Note that the law of God was read "distinctly" (v. 7). How important! That calls for preparation and prayer. That precludes the casual selection of a Scripture passage in the last minute before service.

Then observe that "they gave the sense, so that they understood the reading" (v. 8). That takes more preparation and much prayer. The teacher or preacher needs illumination so that the truth may be clearly understood and presented.

IV. A Spiritual Response (8:15, 18-19)

Revival came—and what a revival! Tears and laughter mingled. There was sorrow because of sin, and joy because of God's forgiveness. There was both fasting and feasting. God was in their midst, working through His Word as it was given out by His messengers.

It makes one downright hungry to read an account like this, hungry for a similar manifestation in our day of spiritual deadness. God is giving this kind of revival here and there where people are ready to go His way. The writer of these notes has only recently been in such revivals. Why not have them everywhere in our land? Yes, in your home or why?

These men can tell you why the 7th WAR LOAN is the BIGGEST yet!

YOU ARE being asked to lend more money than ever before—in the 7th War Loan. These men can tell you why. They can tell you of giant ships ready to slide down the ways this year. They can tell you of a whole new air

force in the building—huge new bombers and fast new jet-propelled planes coming off the lines by thousands. They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes—instead of shipping tanks and guns from Europe.

They can, in short, show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

Will you tell these men "I can't afford to buy my share"?

THE GENERALS and admirals can show us why our money is needed—more money than before. But other men can show us something, too. They're the men with twisted, crippled limbs...with clever iron hooks instead of hands. The blind men...the men with

scarred, seamed faces. And perhaps worst of all, the men with blasted, darkened minds. They can show us, clearly, how small is any sacrifice we make in lending money. If you have an income, whether from work, land, or capital, you have a quota in the 7th War Loan. Find out what that quota is—and make it!

Chaplain Nat Tracy Gives Brief Account Of Duty Overseas

Quoting from the Post Rotary Club Branding Iron, J. A. Stallings, the editor, gives a thumbnail account of experiences as related by Captain Nat Tracy, son of Mr. and Mrs. H. H. Tracy, who is a chaplain in the U. S. Army.

Capt. Tracy was guest speaker at the Rotary club last week. He is on leave from his church in Mississippi. While visiting here the chaplain also appeared as guest speaker at the First Baptist church. He was accompanied here by his wife.

From the Branding Iron: We were very lucky to have as a speaker, Capt. Nat Tracy, a Chaplain in the U. S. Army, and son of Mr. and Mrs. H. H. Tracy. He just recently returned from duty in Iran. He gave us a detailed and very interesting account of a part of his experiences, beginning with the clearing of his ship from San Francisco with 7100 aboard. They were escorted by a dirigible for the first 50 miles—then alone, depending solely upon detector equipment and speed to avoid submarines. Their first stop was at Wellington, New Zealand, where they were split up and sent into Egypt, India and Iran for the purpose of establishing lines of communication. Capt. Tracy's group was stationed in Iran and so well did they perform their task of delivering supplies to the Russians that delay was asked by the latter. He said from 200 to 250 trucks were assembled, on the field, each day, loaded with various supplies, moved to designated points and turned over to the Russian army. This stupendous task was accomplished in spite of extreme heat and other difficulties. Getting first hand information of such herculean performances, and the great effort made to save our boys, and improve living conditions in the far away camps, takes the sting out of paying taxes. In closing, Capt. Tracy expressed the sentiment of every overseas veter-

They raised the Flag again on Corregidor...

Let's raise the money in the MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on two June, four thousand men—more and more—died to take the long step forward to Victory. Twenty thousand others suffered wounds. Yes, we're on the way to Tokyo!

At home, your contribution to Victory is measured in dollars.

The Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!

Vets Head For Home June 1

Supreme Headquarters, AEF, Paris.—The first group of American veterans—more than 15,000 strong—with scores above the required \$5 discharge points to their credit, will head for the United States June 1, supreme headquarters announced last week.

Composed almost entirely of men with combat experience, the group will include 12,000 from the 12th Army group (U. S. First, Third and Ninth armies), 3,000 from the Sixth Army group (U. S. Seventh Army and French First), and 500 from the air forces. Less than two per cent of the total will be officers.

"The number is restricted this month because of a transportation shortage but will be increased substantially next month," the announcement said. Men of the Army Service forces and more men from the air forces will be included in the next month's quota. Headquarters said each division was assigned its proportionate

WPB Says 200,000 New Passenger Cars Probable This Year

Washington—The War Production board said last week that on the basis of available information, 200,000 passenger cars will be produced late this year.

Henry P. Nelson, in charge of automobile reconstruction for WPB, said "it looks now" as though production can be stepped up to 400,000 cars in the first three months of 1946, with an annual output at the rate of 2,000,000.

Nelson told a news conference that production of 200,000 cars this year was recommended to WPB by members of the automobile industry advisory committee.

"That looks like a pretty good approach right now," Nelson stated, adding that the figure is based on an expected availability of materials.

No decision has been reached, he said, as to when the industry will get a go-ahead to produce cars, but WPB expects to "come up with an answer just as soon as possible."

A grateful Nation has girded itself for the Mighty Seventh War Loan for 14 billions of dollars, half of which has been assigned as the individual sales quota. According to reports from state chairmen reaching Ted R. Gamble, national director of the War Finance Division of the Treasury in Washington, the Nation is ready for the huge task.

Mr. Gamble was enthusiastic about results. He said "We're prepared to do the best job in the 7th War Loan." Mr. Gamble said that "not only is there more money available than ever before in each state, but individual income will be higher in the period of the 7th War Loan than in any previous War Loan period."

Secretary of the Treasury Henry Morgenthau said seven billions of dollars has been assigned as the quota for individual investors and that the major emphasis throughout the drive will be placed on the quota for individuals. The individual quota is the highest established in any of the previous drives, the secretary said.

The E Bond quota alone is 4 billion. The 7th War Loan drive is nearly as much in the one drive as was asked in the first two drives of last year which were held up to this time. The two drives of this year, therefore, will seek nearly as much as was sought in the three drives of 1944.

The secretary stated that there is every evidence that Federal expenditures are going to remain at a high level for some time to come, and that the Seventh War Loan program was designed to obtain maximum funds necessary to prosecute the War from non-bank investors.

The securities, which will be sold under the direction of the State War Finance Committee, are as follows: Series E, F and G Savings Bonds, Series C Savings Notes, 2 1/2% Bonds, 2 1/4% Bonds, 1 1/2% Bonds, 1/2% Certificates of Indebtedness. The 1 1/2% Bonds will not be offered in the Drive to corporations.

The Drive for individuals will extend from May 14 to June 30. However, an intensification of activities in the sale of Series E bonds began April 9, when millions of persons on payroll savings plans throughout the country were asked to enlarge their participation as a part of the Seventh War Loan. All Series E, F and G Savings Bonds and Series C Savings Notes processed through the Federal Reserve Banks between April 9 and July 7 will be credited to the Drive.

During the final phase of the Drive which will cover the period from June 18 through June 30, subscriptions will be received from all other non-bank investors for the 2 1/4% and 2 1/2% marketable bonds and the certificates of indebtedness.

Please Notice**

We are being forced to close our . .
Soda Fountain
one day a week in order to make our cut in sugar allotment, ice cream and other fountain supplies sufficient to serve our customers.

We will close our fountain on Sunday. This measure will not interfere in any way with our regular drug store service as we will be open on Sundays the same hours as usual. We will not have fountain service on that day except for ice water.

We regret this curtailment in Drug Service but it is imperative that we put it into effect for one day at this particular time.
