Council sets Friday at 4 p.m. for oath of office ceremony

by Wes Burnett

The Post City Council met at 5 p.m. Monday and set Friday at 4 p.m. at city hall for the oaths of office ceremony for newly elected council members Maxine Conoly, Jimmy Holleman and incumbent Jim Schooler.

Council members heard a brief report from Mayor Jim Jackson that "the cemetery situation has been settled between the two parties."

The council approved the second reading of the cemetery ordinance, setting specifications for foot stones.

The purchase of a chipper was approved after a discussion. The lone bid of \$18,949 was received from Caprock Premier Equipment Co. of Lubbock, which has also provided the equipment to Brownfield and Slaton. Jackson said he had checked with the other cities and that they "were quite satisfied with the machinery."

The chipper will be used to shred brushes and shrubs and wood materials, but will not be able to handle any metal or nails.

Council member Larry Waldrip opposed the purchase on the grounds that the machine "would not solve our bigger problem of what to do with demolished houses."

At the suggestion of Waldrip, the council voted to pay off the \$100,000 still owed on the new fire truck, using money from the current balance of more than \$800,000. "We don't need to be paying interest on this when we are earning less interest on our money," he said.

Jackson told the council that the curfew committee wasn't prepared to make a report, taking into consideration the need to review the proposed ordinance. Council member Larry Mills pointed out that most curfew laws have been found to be unconstitutional. City attorney Harvey Morton explained that the only curfew laws that were constitutional were those that did not accomplish the desired effects.

The council approved a letter of intent to the West Texas Library System for joining in the automation project. The approval does not bind the city for funding, but does give the library here the opportunity to participate in the system and seek grants for the computerized program.

Jackson told the council that work on the lights at the baseball field should be put off for now "because the high school is planning on enlarging and improving the field."

Morton reported to the council that a meeting has been set May 21 at 5:30 p.m. in City Hall with the newly appointed redistricting committee to outline the law and assist in the planning for the committee's work. "I expect that we will be ready to present a plan for consideration before the summer is over," Morton said.

Low voter turnout puts new people in city, school offices

by Wes Burnett

Voters here chose new city council members and school board trustees in a relatively low voter turnout last Saturday.

In the Post City Council election Maxine Conoly led the balloting with 312 votes, followed by Jimmy Holleman with 292 and incumbent Jim Schooler at 250. Other city council candidates and their votes included Marion Cruse at 245, Jack Alexander with 232, Jim Voss at 204, Harold Lucas at 160 and Lewis Holly with 107.

A total of 673 votes were cast in the city election of an approximate registered voter list of 1,500.

In the Post ISD board of trustee election Royce Hart was chosen by 562 votes in Place 1 unopposed, S. Rafe Foreman took Place 4 at 405 votes to Dale Redman's 327 and incumbent Ronnie Gradine's 83. Jeff Lot received 498 votes to win the Place 5 position over incumbent Pru Basquez' 252 votes.

Unopposed Garza Memorial Hospital Board of Directors incumbents Becky Warren and David Tyler were re-elected with Tyler drawing 439 votes and Warren collecting 402. One each write-in votes were cast for Jay Pollard, Judy Bush and Wanda Mitchell.

'Play it Again, Sam' opens May 7, extended thru May 24

Garza Theatre managing director Jane Prince-Jones has announced that due to the large number of early reservations, "Play It Again, Sam" will be held over an additional weekend for performances May 21-24.

The play opens tomorrow and features Jon Steele in the part as Humphrey Bogart. Also starring in the Woody Allen comedy are Mike Toombs, Alison Hoefler, Laura "Mac" Bryan, Cherri Brooks and David Weaver. Other cast members include Sarah Williams, Christy Lusk and Mandy Swafford.

Evening performances begin promptly at 7:45 and Sunday matinees begin at 2 p.m.

The play will be directed by Prince-Jones.

Call the Garza Theatre box office at 495-4005 for more information and reservations. The box office is conveniently open Monday through Friday 9 a.m. to 5 p.m. and Saturday 10 a.m. to 2 p.m.

Tickets are \$7 for adults and \$4 for students ages six to 12.

The mayor requested the council to consider putting a bounty on animals to help alleviate the stray dog problem in Post. He said a contract could be let with a "bounty hunter" who would be paid on a per animal basis. No action was taken on the proposal.

Attending the meeting were council members Irene Fry, Larry Waldrip, Dan Lamb, Jim Schooler and Larry Mills; Mayor Jackson, city manager Bob Turner, city secretary Wanda Wilkerson and city attorney Morton.

OLD-FASHIONED GOSPEL MEDLEY WINDS UP CARAVAN - The talented young vocalists in Country Caravan, a country music show performing in Post Monday, May 11 at 8:30 p.m. on West Main Street near the courthouse. Cast members participating in the performance are (left to right) Trent Willmon from Afton, Heidi Wood from Lubbock, Charles Schovals from Sudan, Nancy Cunningham of Midland, Derek Spence of Tennessee Colony, Texas, Wendy Stephenson of Lubbock and Sid Harper of Midland.

Citizens hear about high cost of solid waste management

by Wes Burnett

Everyone at Monday evening's public hearing concerning the solid waste management problems facing Post and Garza County agreed that Post should fight to keep its landfill open.

No one, however, could tell precisely what the cost of keeping the landfill open will be and how it will be paid for.

South Plains Association of Government's (SPAG) Shawn Raborn, a highly qualified and seasoned veteran on the subject of the regional solid waste management problems, told the approximately 200 citizens at the meeting that because the rules keep changing, "getting a handle on the cost is almost impossible."

He did specify that SPAG's most recent estimates on landfill operations puts the cost of operating a local landfill for the size of this community to be \$58 per ton.

Post and Garza County generate approximately 11 to 15 tons of solid waste per day, which puts the top end cost at \$290,000 to \$300,000 per year to continue to operate. As city councilman Jim Schooler pointed out after

Post ISD single member redistricting plans outlined

by Wes Burnett

Seven citizens, in addition to board of trustee members, attended last week's Post ISD public hearing on two proposed plans for single member redistricting.

Post ISD attorney Don Dennis explained the two proposals, which call for five members elected in single member districts and two at-large.

Opposition to the plans were expressed by Pat N. Walker, who pointed out that any at-large system would be found unconstitutional and in violation of the voting rights act.

Dennis explained that the U.S. Justice Department would not necessarily disapprove of the "five-two" plan, and that the proposal here was in consideration of the difficulty of shifting boundaries for seven single member districts. Dennis said that because of the pattern of population here, it is a complex problem to ensure that at least two districts have majority minority population and at the same time keep all seven districts with the same number of people. "There have been cases where the 5-2 plan was approved," Dennis said.

The Post ISD board of trustees listened to the presentations and the comments of citizens.

Larry Haynes expressed his support for the proposal that included one district with 51 percent minority population and one with 54 percent.

Trustees attending the meeting were Mark Kirkpatrick, Ronnie Gradine, Rex Cash, Pru Basquez and Barbara Hardin.

Dennis reminded those at the meeting that a second public hearing will be held at the regular school board meeting May 12 at 7:30 p.m. in the high school library.

The meeting and the public hearing on the redistricting plan is open to the public and citizens are encouraged to attend and express opinions on the proposals.

"We can't do this in a vacuum," Basquez said, "we need the input of the people so that we can come up with a plan that satisfies our citizens."

Ideas on residential waste management outlined at meeting

A Waste Management Campaign to help Garza County residents join the effort for waste management will be held at the Post Community Center Thursday, May 7 at 7 p.m.

Program topics include home water safety, efficient home water use, water smart tips and the "Texas Don't Bag It Program."

Door prizes donated by Post merchants will be awarded to those attending the event.

For more information contact the Garza County Extension Office at 495-2050.

"PLAY IT AGAIN, SAM" cast members are preparing for the opening tomorrow night at the Garza Theatre. Appearing on stage are (back row, left to right) Sarah Williams, Alison Hoefler, Mandy Swafford, Jon Steele, Heather Harris (front row) Christy Lusk, Mike Toombs, Shelly Knight and David Weaver. Also appearing but not available for the photo are Laura "Mac" Bryan and Cherri Brooks.

Drains Run Slow?

You'll never have a slow running, or clogged drain again! The secret? Clean drains don't run slow. Slow drains, or periodic clogs, are SIGNALS that a thick layer of GOOK is choking your pipes. Grease, hair, and other waste stick to your pipes, with every use. This gook deposits along the entire length of the pipe. It chokes your pipes gradually, as it gets thicker and thicker.

Conventional drain openers can't fix slow drains. They react chemically on the surface of the gook. To be effective, they must remain in contact with the waste. Even a small tunnel through the gook lets them flow out to the sewer, leaving the gook behind.

In the past, the only way to remove this build-up was to rooster your pipes. An expensive, temporary measure.

Now, with just a few minutes each month, you can easily clean out your pipes... and KEEP them clean with Plumb Clean. Its totally unique formula clings, and penetrates deep into the gook. That is what allows it to liquify even years of build-up. Plumb Clean will clean the entire length of your pipes. It will make your drains run like new, when used as directed. This penetrating action is so revolutionary, we stand behind Plumb Clean with a money-back guarantee!

Saves Money. A 1 lb. container of Plumb Clean holds up to 41 drain treatments. Even if drain openers could fix slow drains, it would take over 10 quart bottles to get the same number of treatments. Plumb Clean costs about 35¢ per treatment. We don't know of anything that cleans drains for less.

Safe Too. Conventional drain openers are dangerous chemicals. They can injure eyes on contact. They can release deadly vapors, in some situations. Some may damage your fixtures. Plumb Clean will not burn skin, or eyes. It will not release harmful fumes. When used as directed, it is 100% safe for people, and of course, all plumbing.

So, if your drains are giving you a SIGNAL, act now. Get safe, guaranteed Plumb Clean today! Available at:

Post Art Guild Spring Art Show Sale and Exhibit has 291 entries

by Linda Puckett
The Post Art Guild annual Spring Art Show Sale and Exhibit was held at the Algeria Art Center this weekend with a total of 291 entries. PAG Vice-president and Chairman of the PAG Board of Directors, Melba Thomas of Tahoka, coordinated the show.
The PAG congratulates the juror, Lois Lawrence of Lake Ransom Canyon, who stepped in at the last minute and did an excellent job of judging the show in the absence of Midland artist "NO SHOW" Tom Ryan. Mrs. Lawrence recently retired from teaching art in the public schools, and has a B.S. and Masters Degree in all levels of art. Her work is represented in the Texas Tech Museum, business and private collections. Lois has traveled extensively including China, Hong Kong, Peru, Bolivia, Europe, Gauguin Martinique, Bali and attended Van Gogh's 100th anniversary of his work in the Netherlands.
The Best of Show Awards went to local photographer Joe Miller for "Truck & Weeds", and to Lubbock artist Norma Drew for "Winters Cold - Summers Shade". Each received a \$60 cash award.
The People's Choice Award went to local artist Mary Ann Stelzer for "The Man From Glasgow", along with a \$25 cash award.
The Citizen's Award went to Clovis, New Mexico artist Ginnie Seifert for her painting "Sunday Fun." This award is made possible by local citizen's donations totaling \$400 and is used to purchase a piece of art to hang in a public place in Post. This year's recipient is the Carrock Cultural Association for their new office next door to the Algeria Art Center.

A Cowboy's Guardian Angel

by Julia Davis Taylor
Dallas, Texas

Zelma Moore was baking cookies -- at 5:15 in the morning! She always sealed them in five-gallon buckets, and this one was almost full; two more sheets of chocolate chip ought to just about do it.

The boys loved her cookies, so she wanted to be sure she had plenty on hand.

You see, the rodeo was in town, "The Post Stampede"! Cowboys converged on Post, Texas from all

directions, eager to try their luck at a rodeo that boasted some of the wildest livestock and fiercest competition among contestants in the State.

They came by the dozens -- some drove cars, some rode the bus, some even hitch-hiked -- their mode of transportation wasn't important -- getting to the rodeo was.

Zelma knew that they would start showing up sometime today. They'd be hot, tired, and hungry. Some might want to play in the river for a while; some might work

on busted gear; or someone might bring a guitar -- that would be fun!

And they would all be starving. She was anxious to see who would be back this year, and there were always some new faces in the crowd.

Zelma's own son, Jimmy Avery, was a rodeo rider. Zelma remembered the first time she'd seen him perform in a rodeo.

It was kinda frightening, actually, to see him ride a bucking bronc. But he was good!

That same night when the rodeo was over he had brought three out-of-town boys home with him because they didn't have a place to stay.

Well, that was ok with Zelma. He was just practicing what she had always preached: "Treat people like you want to be treated." What had started out as plain Southern hospitality, had turned into a Texas-sized gathering, a cowboy reunion, if you will, that commenced the day the Post Stampede started and didn't end until Sunday afternoon. Why, it wasn't uncommon for Jimmy to invite all the contestants from the rodeo home with him.

It was a tradition that Zelma was proud of, helping people. She loved these cowboys like her own son. She had tried to teach Jimmy right. She never wanted him to rodeo, and was hoping he wouldn't make a career out of it. But it was what he wanted now, and Zelma loved him too much to try to stop him. She just didn't want him to get hurt!

Everytime he boarded that bus for destinations unknown, Zelma prayed that a guardian angel would watch over him. Rodeo is a tough sport and a tougher way of life, and has always been blamed for splitting up families and tearing up relationships. Well, Zelma was determined that rodeo wouldn't break up her family, or anyone else's, if she could help it.

So today, adorned in her best house dress, with a faded ribbon in her hair she donned the role of these cowboys' guardian angel. Any cowboy that needed a hot meal or place to spend the night was welcomed. Zelma loved these cowboys and was eager to ask them about their families and what kind of year they'd had.

Zelma could sense when a cowboy was having problems at home or difficulties with his girlfriend. She offered advice when she could; or if it was physical aches and pains they suffered from a rough rodeo ride ... well, horse liniment works wonders on people.

Chores are never really done on a working ranch, but Zelma was ready. She'd been through the bunk house. It wasn't fancy, but it was clean. It had fourteen beds and plenty of floor space for palets. She'd cooked enough food for an army, and now there were plenty of cookies!

Zelma dropped the potholders that she had handmade and hammered the lid in place on the bucket. Yes, Zelma was ready.

It was all really second nature to her -- a way of life --- she was simply doing the most extraordinary things one would expect from a guardian angel.

Editor's Note: Julia Davis Taylor is Zelma Moore's niece and penned this story about Zelma for a speech class. Zelma and her husband Jim ranched in Garza County north of Post off the Rails Highway.

Living on the Edge of the Caprock

by John Senter
 Garza County Extension Agent - Ag
 Water Quality - Waste Management Alternatives
 As was discussed last week, the issues of water quality and waste management are vital topics of

concern for all citizens of Garza County. Our land fill is on the edge of filling and we will be left with problems of how to handle our solid wastes.

One such avenue of prolonging land fill life in many rural and urban areas of Texas has been the Texas Don't Bag It program. The program was developed by Dr Bill Knoop, Extension Turfgrass Specialist - Dallas. The program is aimed at introducing homeowners to management practices that not only benefit and beautify the home landscape but more importantly, reduce the amount of landscape wastes in landfills. The Don't Bag It program centers around timely applications of specialized fertilizers, proper and planned watering and specifically timed mowings. All three of these items go into making a beautiful lawn. By a few simple alterations in procedures, homeowners can save time, effort and most importantly, precious landfill space by following this program. Results from trials conducted through the Don't Bag It program have produced the following results: 1 - although the program may increase mowing numbers by one more time per month, it decreases overall mowing time by as much as 38 percent; 2 - 78 percent of homeowners surveyed, indicated that after participation in the D.B.I. program, they would no longer bag their grass clippings; 3 - additionally, 78 percent of the participants replied that they were very satisfied with the appearance of their lawn, after program completion. Overall, 94 percent of the overall participants were very well satisfied with the Don't Bag It program.

This Thursday night at 7 p.m. the Extension Service, in support of county and city waste management programs, will hold the Garza County Waste Management Campaign meeting. The event will be held at the Community Center and will hold information for all county residents concerned with home water safety, home water quality and management and especially the Texas Don't Bag It program. There will be no fee for attending the meeting and several local merchants will furnish door prizes, in support of the program. Most importantly, our office will be impressing upon folks the potential impact on our land fill by participating in the D.B.I. program as cooperative demonstrators for the program this summer. The potential impact for our county, through this program is great. Please, make plans to attend this meeting and feel free to call our office for more details.

This ANN That

by Ann Nobles
 Extension Agent
 Home Economics

I hope a large number of Garza County citizens were able to attend the Town Meeting on Monday night to let the County and City decision-makers know what you think about the decisions facing the community regarding waste management. This week has been designated National Drinking Water Week so this is an appropriate time to have community activities which will help citizens become aware of local environmental problems.

Waste management issues combine concerns for safe drinking water, clean air, and uncontaminated land. Each element of this issue impacts each one of us personally and it is next to impossible to separate any one component of this issue from the others. Pollutants in the ground will eventually reach the water table and pollute the underground water.

The average daily requirement for fresh water in the United States is estimated to be 338 billion gallons a day. For Mother Nature to replace the water we use in a day, it would have to rain an average of one inch an hour for two solid weeks in Washington, D.C.

In 1989 Americans dumped 365 million gallons of motor oil or the equivalent of 27 Exxon Valdez spills.

If every household in America had a faucet that dripped once each second, we would waste 928 million gallons of water a day or enough to fill 7.5 billion 8 ounce glasses.

The above facts point out the need for us to stop polluting our water supply and conserve the water we have. To this purpose my co-worker, John Senter, and I will present a program Thursday evening at the Post Community Center which will give citizens pointers for reducing the amount of waste they send into the landfill, for conserving water in the home and for keeping the home water supply safe from accidental pollution.

We hope you will join us for this program and support our efforts to help Garza County manage household waste in an environmentally responsible way.

Kisses are what's left of the language of Paradise.
 -Joseph Conrad

Gamma Mu Selects Officers

by Lisa Kirkpatrick
 On Tuesday evening, April 28, the Gamma Mu Sorority met at the SPS Reddy Room to discuss year-end business. The hostess for the evening was Mendy Dalby.

The meeting began with the selection of the 1992-93 officers. The officers selected are as follows: Co-Presidents - Susan Strawn and Gena Lott, Secretary - Lisa Kirkpatrick, Treasurer - D'Linda Chapman, Education Director - Metta Tyler, Chaplain - Mendy Dalby and Yearbook Editor - Charlicie Dalby.

Silent ballots were cast for the Member of the Year. The Member of the Year will be revealed at the last meeting of the year and presented with a gift at that time.

The next order of business was to select the 1992 recipient of the 1992 Gamma Mu Scholarship. A list of graduating seniors who plan to attend college was reviewed and discussed. A selection and an alternate selection were made. The scholarship will be presented at the upcoming awards ceremony at the High School.

Gena Lott prepared a farewell surprise for her secret sister, Della Cockrell. Della and her family will be leaving Post at the end of May and relocating to Lamesa. Della received a gift basket from Gena which included an address book. All members present at the meeting recorded their addresses in the book for Della.

The last meeting of the 1991-92 year will be Tuesday, May 26, at 7 p.m. at Peggy Lott's house. The menu will be Italian with the members contributing salads and desserts. The main order of business of the last meeting will be to install next year's officers.

The members present at the meeting were Mendy Dalby, Penny Redman, Michelle Mason, Melinda Gunn, Gena Lott, Dena Gunn, Sherry Williams, Metta Tyler, Della Cockrell, Terri Cash, D'Linda Chapman, Susan Strawn, Peggy Lott, Charlicie Dalby and Lisa Kirkpatrick.

Lady Lope 400 meter relay team advances to state meet

Anchored by a determined and still feverishly ill Sara Alexander, the Post Lady Lope 400 meter relay team racked up another notch for trips to Austin as they scorched the competition in Abilene at the Regional I Track and Field Championships.

Alexander, who had suffered the previous week from about of strep throat, took the baton from Wendy Clay and raced to the finish line, gasping but smiling as she would make her fourth trip to Austin.

Ranetta Cruse bolted out of the blocks in the race, giving Tiffany Steel the baton who roared past the competitors transferring the baton to Clay who extended the lead.

After giving all she had in the 200 meter dash, Alexander was forced to sit out the 1600 meter relay event. Replacing her at the anchor spot was Tiffany Steel and leading off the charge was freshman Melissa Williams. Clay took the baton from Williams earning a third place when LouAnn Ammons held her position until the final 100 meters, then Steel took off in fourth place and on the backside began passing the competitors. On the final turn Steel was fighting for first place when she ran out of steam and on the final straightaway slipped into the back of the pack.

Ranetta Cruse broke a school record in the long jump, but finished fourth in the event. She broke the previous record of 17' 6 3/4" she had set herself on April 24, 1992.

"These girls did a really outstanding job," coach Bill Gordon said, "without hesitation I would say that all did their very best, that is all a coach can ask of his athletes."

Reed Qualifies for State at Boy's Meet

The Post Antelope Track Team went to the Regional Championships this past week with a strong group of underclassmen. They came home qualifying for four of the six events for the finals and one for State.

The state qualifier is Henry Reed, who placed second in the 100 meter dash. "Henry qualifying for the State meet is extra special to us," remarked Track Coach Lane Tannehill. "We've had an excellent year considering that the majority of our kids are underclassmen."

Coach Tannehill also stated that he would like to recognize the four Seniors on the roster this year. They are Tommy Ammons in the quarter mile and 1600 meter relay, Barrett Day in weights, shot put, and discus, Ty Hill in the 1600 meters and 3200 meters, and Shane Horton in weights.

The 400 meter relay team of Ricky Jefferson, Anthony Martin, Brad Lawson, and Henry Reed finished eighth in the Regional final. Brad Lawson had a good showing in the 400 meter dash finishing seventh. Ty Hill also ran in the finals in the 1600 meter run.

Barrett Day and Jaime Ayala also competed in the Regional meet in the shot put and the 1600 meter relay respectively.

Reed's qualifying run was particularly close. Three runners crossed the line almost simultaneously as Myron Cook of Stamford edged Henry for the Region Championship by 1/100th of a second. Cook posted a time of 10.85, Reed had a time of 10.86 and Larry Norris of Abernathy ran a 10.87.

Reed advances on to the State Championship Track and Field event to be held in Austin May 16th.

Landfill problem...

(Continued from Page 1)

consulting a calculator, "that's about \$20 per resident per month."

Raborn responded by saying, "well, you can't really settle on that figure, it could be much higher, the cost of monitoring, transporting and collecting also have to be considered."

The public hearing was sponsored jointly by the Garza County Commissioners' Court and the Post City Council. Judge Giles Dalby pointed out that since the responsibility for implementing the rules on solid waste management have been recently moved to the Texas Water Commission, "we might see a little relief for rural communities."

Dalby told the people that an announcement is expected later this week, "Wednesday or Thursday," which is expected to offer some hope for Post and Garza County.

Mayor Jim Jackson told the people that the city "has been studying this problem the past year," and is trying to find the most economical way to solve the problem. "We must have you the citizens to help us," he emphasized, "especially when it comes to dumping stuff at the landfill, please don't put garbage outside the gate when it is locked, that is a real no-no, we have signs up for putting metal and wood in different areas."

Actually, Mayor Jackson missed about four years of the city council's work on the landfill problem. It was first on the agenda when the federal government began to issue preliminary rules regarding landfill operations. During the past three years city council members have studied and reviewed various options, usually ending up at the same point they are at today... not knowing how to respond because the rules are still changing and the cost is undetermined. (readers will be reminded of the recent series of articles published by The Post Dispatch, which provided details on the entire issue).

In a letter distributed at the meeting, Mayor Jackson said "You have recently read scare stories indicating that, in the very near future, the cost per household for garbage disposal will be as high as \$80 per month. This letter is to inform you that, in my opinion, that is absolutely incorrect."

The articles published in The Post Dispatch, which quoted sources at the Texas Water Commission, the Texas Department of Health and engineers at Parkhill, Smith and Cooper (the City of Post engineering firm), informed citizens that the cost could be as high as \$40 per household.

Also explaining the high cost of landfill operations was Lee Ramirez of the City of Lubbock, who explained that just putting the liner inside one 14 acre pit in Lubbock cost \$900,000.

"I think I can assure the residents of Post that our landfill problem is going to be solved without any extortionate costs which you have heard banded about in news stories," the mayor added in his letter.

The problem for citizens here is really quite simple, no one can at this time say with any assurance what the cost of operating a landfill will be... either now or in the future. Nor is there any assurance that the state will issue a permit to operate a landfill.

Just as equally frustrating is the fact that there is also no assurance of costs for transporting solid waste to a regional landfill, such as Lubbock or Brownfield. Nor is there any assurance that the cost for such services will not be just as exorbitant as operating a landfill.

Those who have been following the issue found the meeting Monday night to be most repetitious of previous information, but the statements from the Lubbock officials as well as Raborn added new emphasis the seriousness of the problem to the people in Garza County.

Of course, we would all like to see our landfill remain open and at costs similar to what we have been accustomed to, the simple facts are that this will in all likelihood not be the case.

Stay tuned, there are likely to be more "scare stories" issued on this subject. We promise to stick to the facts on the issue so you may be informed.

Lottery to begin seven weeks early

Once the first Texas Lottery tickets go on sale May 29 - seven weeks ahead of schedule - Texas will have a new millionaire every week for 12 consecutive weeks," State Comptroller John Sharp says.

Those 12 winners will get their million dollars in cold cash, not in a long-term payout like some other states. That's something no other lottery has been able to offer in its first game," Sharp said.

"Instant prizes for the 'Lone Star Millions' game will range from \$2 to \$10,000, but thousands of tickets will offer Lottery players a chance to enter our million-dollar grand prize drawings," Sharp said.

"Texas clearly has the most efficient lottery start-up in recent history," Sharp said. "We've been able to hold down expenses, like limiting our staff to 186 employees - compared to California's 1,000 and Florida's 775 - and we're starting sales seven weeks ahead of the Legislature's July 17 mandate.

"All of those factors will help us create an instant millionaire each week from mid-June through Labor Day," Sharp said.

"Based on current projections, the Texas Lottery should earn enough in less than a week of ticket sales to cover - with 10 percent interest - the \$12 million the Legislature appropriated for start-up."

More than two million winning tickets, providing as much as \$7.1

million in prizes, should be sold on opening day. More than 28,000 of the first-day tickets will offer a chance to enter the \$1 million grand prize drawings.

Packaged in books of 500 each, 300 million red, white, blue and silver "Lone Star Millions" tickets are stored under armed guard in an Austin warehouse. The packages of \$1 tickets will be distributed to the Lottery's network of about 14,700 retailers several days before the May 29 kick-off.

"Texans will find this first game easy to play," Lottery Director Nora Linares said. "All they have to do is scratch the latex covering off of all six Lone Stars on the front of the ticket. Each scratch reveals a prize amount."

"Any ticket with three matching prize amounts is a winner," Linares said. "With the generous array of prizes - and the weekly chance of winning \$1 million in cash - we expect a record number of Texans to give it a try," Linares said.

The overall odds of winning an instant prize are one in 7.9.

Ticket sales will begin at 6 a.m. on Friday, May 29, when the Texas Lottery activates the computer system that validates winning tickets.

Any Lottery retailer may redeem prizes of \$100 or less. Winners of \$1,000 or \$10,000 prizes must bring or mail their tickets to one of 24 Lottery claim centers that have been established across the state.

BRAZOS RIVER AUTHORITY, Acting for and on Behalf of the City of Lubbock

is Plaintiff and

CHEVRON, USA, INC., NATIONS BANK, MIDLAND, TEXAS, TRUSTEE OF THE H. L. HUFFMAN ESTATE, L. MACKECHNEY, WILLIAM F. SMITH and WILLIAM S. SPRADLING

are Defendant(s).

A brief statement of the nature of this suit is as follows, to-wit:

This is a proceeding in eminent domain wherein the Plaintiff, Brazos River Authority, seeks condemnation of a property interest, involving subordination of all right, title and interest, which Defendants have or may have to explore, drill, develop or produce oil, gas or other minerals from tracts of land out of Section 21, Block 6, H&GN RR Co. Survey, Garza County, Texas, more particularly described in the Plaintiff's Original Petition on file in this cause, in which the Defendants are alleged to own undivided mineral interests, with Plaintiff seeking subordination of the rights of the Defendants to explore, drill, develop or produce oil, gas or other minerals from said property to the rights, needs and requirements of the Plaintiff and the City of Lubbock in connection with the construction, operation, maintenance and use of a water impoundment project in Garza and Kent Counties, Texas, for the purpose of providing fresh water for the needs of the City of Lubbock in the future. All rights of the Defendants to explore, drill, develop or produce, oil, gas or other minerals from their mineral ownership interest in the property described above are to be declared inferior to the rights and interests of the Plaintiff and the City of Lubbock to construct, operate and utilize the project for its intended purpose,

as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Post, Texas, this the 9th day of April, A.D., 1992.

1992 family land heritage program begins registration

Agriculture Commissioner Rick Perry has announced that registration for the Texas Department of Agriculture's 1992 Family Land Heritage Program began May 4 and end August 21.

"We are seeking out Texas farms and ranches that have been active and productive for the same family for at least 100 years," Perry said. "This program helps highlight the importance that family farms and ranches play in sustaining the land and passing it on to future generations."

TDA created the Family Land Heritage Program to honor Texas farms and ranches that have maintained continuous agricultural production for a century or more. Since the program's inception in 1974, more than 2,600 properties have been registered.

For a farm or ranch to qualify, the land must have been agriculturally productive and owned by family members for 100 years or more. An operation also must meet the old U.S. Census definition of a farm by earning a minimum income of \$50 or more a year if it is 10 acres or larger, or by earning at least \$250 in income if it is less than 10 acres. In addition, immediate family members must actively manage and direct the daily operation of the farm or ranch. If the entire acreage has ever been leased to a non-family member, it will not qualify.

Applications accompanied by supporting documents must be certified by the county judge in the county where the land is located. TDA is the final judge of eligibility.

Honorees will receive a certificate in the name of their property at a special fall ceremony in Austin.

For an application, contact your local county judge, county historical commission chairman, the closest TDA office or write: Family Land Heritage Program, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

An open-ended eyeglass case can be a great place to keep pens, pencils, nail files, small scissors and the like in a handbag.

NO, YOU CAN'T TAKE IT WITH YOU.

But with a Will, it goes where you want it to go.

Do you want your plans and hopes to be carried on after your lifetime? That will happen only if you have arranged for it. Only if you command it with a WILL. Only then can you be certain that what you worked for all of your life will be distributed as you wish.

Without a Will, the State of Texas determines the disposition of your assets, the welfare of your spouse and the guardianship of your children. Plus probate, taxes and fees increase the cost.

Don't make the mistake of thinking only wealthy people need a Will, or that it is too complicated and expensive. Send for details. Where there's a Will, there's a way.
