Officials Take Oath Of Office Here Tuesday

Officials of Garza County who were elected to four-year terms last Nov. 6 were officially sworn in shortly after 10 o'clock Tuesday morning in a ceremony in the district courtroom.

County Judge Pat N. Walker officiated at the swearing-in ceremonies, with County and District Clerk Carl Cederholm administering the oaths of office.

Among those sworn in were two new members of the "official family" of Garza County—Tax Assessor and Collector T. H. (Talmage) Tipton and Precinct 1 Commissioner Racy Robinson.

Only one-half of the officials in the courthouse were included in the swearing-in ceremonies. The remaining officers did not have to run for re-election the past year, having been elected to four-year terms in 1954 under provisions of the Constitutional Amendment voted on that year which automatically fixed their terms at four years.

In the future, one-half of the officials will run for re-election every two years.

Also sworn in as deputies were Mrs. Faye Cockrell of the clerk's office, Mrs. Jack Lancaster of the tax assessor-collector's office and Mrs. Opal Pennell, who will serve as deputy in both the clerk's office and tax office.

Deputy Sheriff J. W. "Red" Floyd, unable to be present for Tuesday's ceremony, was to be sworn in later.

Stork Misses Post On New Year's Day Flight

The stork missed Post Tuesday on its New Year's Day rounds—in fact, up to 2:30 p. m. Wednesday it hadn't been in Post since 11:36 p. m. Dec. 26 when a son, Alex Jay, was born to Mr. and Mrs. Alex Ringhofer at Garza Memorial Hospital.

A New Year's baby was born at 12:41 p. m. Jan. 1 at West Texas Hospital in Lubbock to Mr. and Mrs. Johnny D. Matsler, former Post residents. The new arrival is a girl and was named Kemper von.

Post's first 1956 baby was a daughter, Sue Ann, born at 6:39 a. m. Jan. 2 to Mr. and Mrs. Robert Miller.

John Ben Shepperd Speaker At C. Of

John Ben Shepperd, who has just completed two terms as Attorney General of Texas, will be the principal speaker at the Post Chamber of Commerce's annual membership banquet on Thursday night, Jan. 10, it was announced today by Bryan Williams, newly-elected president of the organization.

Williams, who has been serving as vice president, was elected president Monday afternoon at a directors' meeting in the Chamber of Commerce office. E. R. (Buster) Moreland, outgoing president, was elected vice president.

Williams and Moreland were recently re-elected to the 10-member board of directors, and Lee Ward, W. M. Kirkpatrick and Chant Lee were elected as new directors. Holdover members of the board are Harold Voss, John N. Hopkins, Ted R. Hibbs, Lowell Short, and Dr. Harry A. Tubbs.

The annual banquet, originally scheduled for Tuesday, Jan. 8, was changed to Thursday the 10th in order to secure Shepperd as the speaker, members of the banquet program committee said. The committee is composed of

Irby G. Metcalf Jr., Joan N. Hopkins and Walter Duckworth.

Shepperd, who has made an outstanding record during his two terms in the office of attorney general, will be introduced by Everett Fullingim of Lubbock, a former Secretary of State. Metcalf, president of the First National Bank here, will serve as master of ceremonies.

Railway Special Agent, Garza Sheriff Probing Destruction Of Lights

Destruction of railway signal lights here, at Buenos Switch and Justiceburg and the shooting out of a locomotive headlight at Southland are being investigated by E. A. Nelson, special agent for the Panhandle & Santa Fe Railway Company, assisted by Garza County sheriff's officers.

While here last week investigating the vandalism, Nelson said conviction for such acts of lawlessness carries stiff penalties. He also pointed out the danger of disastrous train wrecks resulting from broken signal lights.

Parents of juveniles guilty of such acts of vandalism are warned by the special agent that they may be held liable for their youngsters' actions.

The special agent said two signal lights were shot out at the underpass south of town just before Christmas, and that two signal lights were broken with rocks at Buenos Switch, between Post and Southland, at about the same time.

Signal lights were shot out at Justiceburg last Thursday night. The headlight was shot out on the locomotive as the train passed through Southland.

County Sheriff Carl Rains said this week that his office will give the railway's special agent all the cooperation possible in apprehending the persons guilty of breaking or shooting out the lights.

Classwork Resumed Following Holidays

Classwork was resumed Wednesday morning in the Post schools following the Christmas and New Year's holidays which began Dec. 21.

Glenn Whittenberg, Ellis M. Mills and Jack Lancaster, principals of the high school, junior high school and grade school, respectively, said that although there was the usual opening day rush, everything started off again smoothly following the holiday period.

Twelve new students were enrolled Wednesday—four in high school, two in junior high and six in grade school.

The only faculty or staff absence following the holidays was that of Mrs. Edsel Cross, grade school and luncheon secretary, who was out because of illness.

The first semester of the schools ends on Jan. 18.

ROTARY MEETING SET

The Post Rotary Club will hold its regular weekly luncheon Tuesday for the first time since Dec. 18, having suspended activities during the Christmas and New Year's holidays. Tuesday's program will be a classification talk by Norman Morgan of Morgan's Studio & Camera Shop.

LIONS TO MEET TUESDAY

The first regular meeting of the Post Lions Club since Dec. 18 will be held next Tuesday night in the school lunchroom. The club has not met the last two Tuesdays because of the holidays.

Lower Strawn Discovery Assured South Of Post

Paul C. Teas has assured a rank Lower Strawn discovery at his wildcat operation in west-central Garza County, the No. 1-A J. B. Slaughter Estate, six miles south of Post.

Oil has been recovered on two more drillstem tests at the venture, and deepening was under way at last reports.

Four-hour and 20-minute test at 3,379 to 3,394 feet surfaced gas in five minutes. Recovery was 7,125 feet of oil and 190 feet of mud-cut oil. Subsequent two-hour test at 3,349 to 3,409 feet surfaced gas in 44 minutes. Recovery was 270 feet of oil and 80 feet of mud-cut oil.

The indicated strike is four miles south of production of any kind in the Garza field and about 11 miles northwest of the nearest Strawn production in the South Rucker A field. It was originally scheduled for a 5,500-foot bottom, but amended earlier this month for a 3,500-foot objective.

Exact location is 330 feet from west and 3,576 feet from south lines of Section 31, Block 1, Jasper Hays Survey.

Other oil developments include the announcement that Continental Oil Co. has scheduled an offset to its recent San Andres discovery in west-central Garza. The new operation is designated the No. 2-1204 Blake. It will be drilled as a confirmation effort in the Blake (proposed) field.

Location is 2,310 feet from north and 990 feet from west lines of Section 1204, H&GN Survey, six miles northwest of Post. Proposed rotary depth is 3,700 feet. The discovery well, the No. 1-1204 Blake, finished for a daily potential of 128 barrels of oil.

Also, fair pay indications have been noted in cores pulled at Continental Oil Co.'s No. 1 Citizens National Bank of Lubbock, Permian tester, seven miles north of Post.

Seven Oil Discoveries Are Made In County During '56

There were seven oil discoveries in Garza County during 1956, according to information released this week by the Railroad Commission.

The complete list of the discoveries for 1956, with pool names and producing horizons, follows:

Unnamed—Clarence Wheeler No. 1 Connell Estate, Section 131, Block 5, GH&A Survey, pumped 63.9 barrels of 37 gravity oil, plus 30 per cent water, daily from open hole at 2,520 to 2,580 feet after acid and fracture. (Glorieta).

Garza Glorieta—Alamo Corp. No. 1-G W. A. Gray, Section 1213, TT Survey, pumped 62 barrels of 38 gravity oil, plus 30 barrels of water daily, from open hole at 3,764 to 3,818 feet. (Glorieta).

Unnamed—W. M. and A. P. Fuller No. 1-A-X Fuller, Section 112, Block 5, H&GN Survey, pumped 72 barrels of 37 gravity oil, plus 7.2 per cent water, daily through perforations at 2,415 to 2,421 feet after fracture. (Glorieta).

600-1. (Strawn.) Cross—Ashmun & Hilliard No. 1 Ralph Welch, Section 13, Block 4, K. Aycock Survey, pumped 35

barrels of oil and 50 barrels of water daily through perforations at 3,153 to 3,150 feet after mud See DISCOVERIES, Page 5

Two Injuries Result From Six Accidents

Two persons were hospitalized and extensive property damage resulted Monday from six traffic accidents, five of them in Post and the other about four miles northwest of Justiceburg on U. S. Highway 84.

Those injured were James J. Manning of Lubbock in the wreck near Justiceburg, and Mrs. Jackie Hays in one of the accidents here.

Manning, who suffered a severe facial laceration and a shoulder separation when his automobile overturned Monday night, was transferred Tuesday from Garza Memorial Hospital to the Veterans Hospital at Big Spring.

Mrs. Jackie Hays was treated and dismissed at the hospital here after her automobile struck a parked truck early Monday afternoon on East 8th Street. The automobile crashed into the truck when Mrs. Hays released the steering wheel to clutch at her infant daughter who was falling off the front seat of the car. The baby was not injured. Mrs. Hays received a cut on her forehead when her eyeglasses broke as her head struck the dashboard.

Extensive damages to both automobiles resulted in a collision at the intersection of the Snyder and Tahoka highways between cars driven by Catherine Carter of Post and Johnny McNew of Loop.

In another accident Monday, a truck-trailer tore off the right rear fender of an automobile driven by Doris Glenn Soules, 17, of Post, as she turned off the highway onto the Dairy Mart parking lot, Sheriff Carl Rains said. Both vehicles had been traveling northwest on the highway. Walker Charles Johnson, 23, of Houston, was driver of the truck.

Heavy damage also resulted in a collision Monday between automobiles driven by Mrs. Elmer Cass and Jimmy Short, the sheriff reported.

Estimated 10,450 Bales Cotton Ginned

Although no official figures were available Wednesday, indications were that ginnings from Garza County's 1956 cotton crop would be approximately 10,450 bales—almost 4,000 bales under the 1955 total.

Ginnings prior to Dec. 1 totaled 10,149 bales, according to the Bureau of Census, U. S. Department of Commerce. Ginnings during December are not believed to have gone past the 400 mark.

J. W. (Bill) Mahon, manager of the Graham Cooperative Gin, said Wednesday that they had just completed the season with a total of 2,168 bales. Prior to Dec. 1 they had turned out 2,100 bales, giving them 68 for the month of December. Figures from the other five gins in the county were not available Wednesday.

### Getting Out On The Limb

By EDDIE the editor

**SUDDEN THOUGHT:** Many girls get into the movies by busting in.

They say that ulcers are caused not so much by what you eat as what's eating you.

**IT'S CUSTOMARY** at the end of the year for the wire services, newspapers, journalism classes, etc., to select what they think were the top news stories of the preceding 12 months. I've seen several of these selections within the last few days, and one at hand from the journalism classes of Texas Christian University is a pretty good consensus of the others.

The Middle East situation with all its ramifications—rise of Nasser, invasion of Egypt, action by the United Nations—was voted the outstanding news event of the year by the students. The Hungarian revolt was a close second by a few votes.

Other stories in order of the students' voting:

Third—President Eisenhower's landslide victory.

Fourth—The problems of segregation in the U. S. as schools opened for the first time in some areas with negroes and whites attending the same classes.

Fifth—The sinking of the "Andre Doria" after collision with the "Stockholm" in the fog off the coast of New England.

Sixth—The collision of the TWA and United Airlines over the Grand Canyon, resulting in the death of all passengers and crew members.

Seventh—The death of Babe Didrikson Zaharias, one of America's greatest women athletes, after a long fight with cancer.

Eighth—President Eisenhower's health and announcement that it would not prevent his running for re-election.

Ninth—The beginning of the down-grading of the late Russian Premier Joseph Stalin by the present leaders of Communism; the destruction of his influence in Communist circles.

Tenth—The death march at Paris Island in which six Marine recruits were drowned, followed by the trial of Sgt. McKee.

The marriage of Grace Kelly to Prince Rainier of Monaco, the perfect ball game pitched by Yankee Don Larsen in the World Series and the kidnapping of Peter Wineburg were other news events of the year which drew votes.

Hospitality is the art of making people feel at home when you darn well wish they were.

**THE WOMEN,** bless 'em: One shouldn't try to do two things at one time and this includes women who put on slacks and weight at the same time.

**COMING AS A** useful and well appreciated Christmas gift was a complimentary copy of the new book, "The Press and the Law in Texas" by Dr. G. Norris Davis, University of Texas associate professor of journalism.

Lawyers receiving the new volume are finding in it a clear presentation of the newsman's point of view with regard to the law.

Subjects treated include libel, invasion of privacy, contempt of court, "trial by publicity," access to records, rights to report court and legislative proceedings, disloyalty and treason, obscene publications, regulation of advertising, lotteries and unfair competition.

The constitutional provisions and laws covering each subject are quoted and explained in detail and are followed by discussions of specific cases in which interpretations have been narrowed or amplified. Little-known laws that may some day come into prominence and laws now in force in other states that may eventually be enacted in Texas also are discussed, together with their implication for the newsman.

A great many prominent family trees were started by grafting.

**JOYCE AND IVOR** Enticott, former residents of Post, have built themselves a new house in England and have named it "Garza," after the county in which they lived for a number of years until moving to England several months ago.

Mrs. Enticott writes as follows: "My husband and myself have been receiving your paper, The Post Dispatch, at our old address, 18 Holly Terrace, Chard, England, but since our arrival in this country from Post we have built a new house and have now moved into it. You will no doubt notice we have named the house after the County of Garza, in reminder of the enjoyable time we spent in Post and living with its people. We wish to take this opportunity of wishing its people and town the best of prosperity in the years to come.

"Would you please send the paper now to our new address?"

### THE AMERICAN WAY

Best Idea Yet!

### Our Contemporaries Are Saying . . .

#### Hitchhiker

At first the change in wind is like the breathing of an awakening child and then it is strong and firm like the flow of water in a brook. The wheelless old windmill swings on its decaying tower and the wheel hub points the direction. But the wooden blades are gone and silence smears its grease on the rusting gears. Through the winter nights and cold dawns the old vane responds to the winds but the sucker rod remains motionless and dust gathers in the lead pipe. A lonely beggar on a hill holds up a thumb and vainly tries to hitch a ride on the thundering trucks of time.—"Trail Dust" in Matador Tribune.

#### May Be Deciding Factor

The Russians are living hard; the Americans soft. This may be the deciding factor in the final analysis, when the two do come to a show-down. The American plainsman who rode the hounds of a wagon a hundred miles to get materials with which to build his crude home has a grandson who

can't walk six blocks to town on an errand. On the other hand, the Russians are "living hard," as the saying goes. A softie has little chance against a hardened competitor.—"Views and Comment" in The Floyd County Hesperian.

#### They Don't Care!

Now that the University of Texas has hired a new football coach, the topic of talk down there has probably changed. When newspaper photographers went down to Austin to snapshot the Texas-A&M game, though, they found D. X. Bible sitting alone away up there on the open camera deck of the press box.

One of them shook hands with the University athletic director and asked him what he was doing up there by himself.

"I've tried sitting in the stands," replied Bible. "I've tried sitting in the press box. The only place where people don't keep asking me fool questions is up here with the photographers. They don't care."—"Big D" in The Dallas Morning News.

**THERE IS LITTLE** doubt as this is being written (Saturday) that 1956 will go on record as the driest year in Garza County's history. With only two days of the old year remaining, it'd take a cloudburst to erase the old mark of 8.52 inches recorded in 1951.

**IT SEEMS RATHER** odd that during the driest year in the city's history the longest step was taken toward assuring an adequate water supply for the future. We're referring, of course, to creation of the White River Water Control and Improvement District, development of which certainly ranks as the top local news event of the year.

**BIG PLANS ARE** under way for the Post Chamber of Commerce's annual membership banquet on Jan. 10, program details of which will be found elsewhere in this issue of The Dispatch. The fact that interest in the Chamber of Commerce is on the upgrade is seen in the large percentage of votes cast in the recent mail balloting for directors. A crowd even larger than last year's record-breaker is expected at the forthcoming banquet, according to C. of C. officials.

### YOUR VICTORY OVER POLIO

Through the March of Dimes, which financed Dr. Salk's work on the vaccine against polio, victory over this devastating disease has now been brought within the reach of mankind. Two things more—both possible, both practical—need to be done to finish the job and clinch the victory.

**ONE:** If everybody gives generously to the 1957 March of Dimes, new hope, new usefulness, a new and better life for many of those who have already been stricken by polio will be a possibility of the future.

**TWO:** If everybody between the ages of six months and 35 years gets vaccinated, polio itself would very shortly be a thing of the past.

Even since it began its fight to wipe out this crippling, life-blighting affliction, the March of Dimes has marched a two-way street—to give help to those who needed it and to protect those who didn't.

Today, with victory in sight, joining the March of Dimes means more than ever before, giving and getting.

In this 1957 March of Dimes in Garza County, let's express our gratitude by giving to help those for whom the vaccine is too late. And let's safeguard ourselves by getting vaccinated early. Best time to do both is now.

**THE POST ANTELOPE** boys', girls', and "B" teams open their conference season at home Friday night against Lockney. The Post teams haven't shown much promise of being "world beaters" thus far this season, but they're improving with each game and are certainly crowd pleasers with the brand of basketball being taught them by Coaches Buri McCoy and Jiggs King.

**IF THERE'S A** pot of gold at the end of the rainbow, it's always at the other end.

**WE WERE TALKING** the other day to a fellow who used to teach school but is now engaged in another profession, and the conversation finally got around to the difference, if any, between today's students and those of several years ago.

"There'll always be bright students," the fellow said, "but I often wonder if any of today's teachers ever run across one to compare with a kid in one of my arithmetic classes."

"I'd just told the class that arithmetic is a science of truth," "Figures," I said, "can't lie. For instance, if one man can build a house in 12 days, 12 men can build it in one."

"Yes," interrupted this quick-brained student. "Then 255 will build it in one hour, 17,280 in one minute, and 1,936,800 in one second. And I don't believe believe they could lay one brick in that time."

"Then, while I was still gasping, this smart ready reckoner went on: 'Again, if one ship can cross the Atlantic in six days, six ships can cross it in one day. I don't believe that either; so where is the truth in arithmetic?'"

### OFFERS CONSERVATION PROGRAM OF HUMAN RESOURCES

## High School Driver Education Promising Weapon In War Against Traffic Accidents

Figures released by the Bureau of Public Roads indicate that there are now more than 65 million vehicles registered in this country. This means a net gain, for 1956, of approximately 3-million more vehicles on the roads today than in 1955. And, if the trend continues, we can expect 80-million in 1966 and over a 100-million crowding the roads by 1975.

What do these figures mean to you, as a motorist?

Well for one thing—if you think the traffic accident toll is terrible now, just wait 'till the above predictions become realities. Try to visualize 50,000 to 75,000 vehicle deaths each year.

The overall traffic problem must be attacked on all fronts, with stepped-up engineering, education and enforcement. However, for our purposes here, let's look at what just one of the phases offers as a partial solution and how we stand—that of education.

High school driver education extends one of the most promising weapons in the battle to prevent traffic accidents; it offers a sound conservation program of human resources.

Surveys reveal how young drivers who have received classroom and practice driving instruction have less than half as many accidents and violations as those young drivers who have had no formal training. In Connecticut, for example, the Commissioner of Motor Vehicles reported last November that only one per cent of their trained young drivers were involved in accidents, in the preceding year, compared to nine per cent of non-trained drivers.

Texas, according to records of the Texas Safety Association, falls far behind many states, but some headway is being made. During the 1955-56 school year our secondary schools trained nearly 23,000 youngsters to be better, thus safer drivers in our state. Insurance companies have been quick to see the advantages of such a program and have reduced insurance rates by 10% to those who have completed approved driver training courses.

**Where do the educators stand?** A survey made this past summer by TSA shows that principals and superintendents are overwhelmingly in favor of an expanded driver education program. Generally, they believed it should begin in the ninth grade.

But, many roadblocks prevent the expansion of high school driver education, the most serious of which are the costs to the school, fitting the course into an already crowded curriculum and a shortage of properly trained teachers. These obstacles are emphasized by the fact that in spite of a growing public understanding, only 11.5 per cent of Texas' eligible students receive complete course, one including both classroom and practice driving instruction—the need

is obvious.

As has been indicated, the driver training program has not been without some support. To be more specific, new car dealers have made outstanding contributions to the program by making driver-training cars available to schools on a loan basis or by offering them at greatly reduced rates. They stand ready to do more.

Still others have contributed greatly to the promotion of driver education. The Texas Safety Association under its current President, E. C. McFadden of Dallas, Vice President of Employers Company, and its General Manager, J. O. Musick, Austin, has worked diligently in encouraging driver education programs, in high schools, through seminars in colleges and universities, and public conferences. At present TSA is seeking the support of legislators in making the facilities for driver education available to our secondary schools under the Gilmer-Aiken Bill. Indications so far are favorable.

The Department of Public Safety under the leadership of its director, Colonel Homer Garrison, Jr. has done everything within its bounds to gain an expanded program for our schools. In one such move, Colonel Garrison had this to say.

"It has become apparent that a trained instructor in a schoolroom could improve bad driving habits, or prevent them from being formed in the first place, since the classroom instructor had access to the students at a considerably more impressionable age." He said he believed the lesson could be taught much faster in the classroom by a qualified teacher, than on the highway by a patrolman . . . and at greatly reduced expense to the state.

The Texas Education Agency, National Safety Council, Parent-Teacher Association, universities and colleges, local safety councils, the press and other media have likewise been encouraging driver education.

But, one thing is sadly lacking, that is the active support of Mr. and Mrs. Texas. Until public apathy is abated, the annual accident lists cannot be noticeably shortened. Until we, as individuals, express our opinions to our elected representatives and our school administrators we cannot expect our highways to be safe.

If that sounds pessimistic then let me put it in another way. Let's suppose that you have two children who are now less than two years old—we can call one John and the other Mary. Now, unless some radical adjustment is made in our present traffic control program, you can expect either John or Mary to be killed or seriously injured in a traffic accident before he or she reaches the age of twenty-one. It's up to you.

## PCG Heads To Study Recommendations For Improvement South Plains Cotton

Concrete recommendations of the panel of cotton experts from all phases of the industry, which met in Lubbock in November at a Short Staple Research Conference, have been announced by the Plains Cotton Growers, Inc., Irbly G. Metcalf Jr. of Garza County said this week.

The organization will use these recommendations in formulating a long range and immediate program for improvement of cotton produced and marketed on the South Plains. They will be presented to the directors at the PCG's January meeting.

George W. Pfeiffenberger, executive vice-president of the PCG, explained the recommendations were made in brief form at the conclusion of the research meeting here last November. Since then various chairmen of the panel have worked out details on the recommendations and submitted them to the PCG.

Genetic and breeding recommendations were broken down into fields of cotton improvement

research which needs to be emphasized. These include work on fiber properties, boll types, earliness and disease resistance, and their reaction to environment.

In connection with this phase, Dr. Henry Barker, Washington, D. C., with the U. S. Department of Agriculture, announced that a cotton geneticist will be assigned to work on these problems at the Lubbock Experiment Station as soon as a qualified person is located.

In the plant growth, disease and insect phase, work is to be done in physiology, diseases, insects and applied research with a number of test plots throughout the High Plains.

Production practice recommendations call for work on climate, irrigation, mechanization and soils.

Harvesting and ginning studies will see work done on an expanded basis at the cotton research center at the Lubbock Experiment Station and other work in crop residue disposal, equipment for moisture conservation, planting and cultivation equipment and in such harvesting problems as field cleaning, optimum maturity, quality preservation and machine improvement.

Marketing recommendations call for development through breeding, production and ginning practices of a cotton recognized as a High Plains product that can be promoted by the domestic and export markets through improved and distinctive packaging and identification.

Also mill representatives suggested producers adopt goals to fiber properties a micronaire level of 4.0 to 4.5, a staple of 29-

### Hybrid Sorghums Are Proven Best

Comparisons of yields from hybrid grain sorghums and standard varieties are given by several Texas farmers in the January issue of The Progressive Farmer magazine.

In the article, "Hybrid Sorghums—How're They Doing?", it is explained that for the most part, hybrids produced better under drought conditions than standard varieties.

Durwood Miller in Nueces County harvested 4,800 pounds of Texas 610, 4,196 pounds of Texas 601, and 3,914 pounds of Texas 650 an acre, compared with 4,028 pounds of Martin.

G. L. Williams of Garza County made 3,133 pounds an acre of Texas 601, compared with 2,833 pounds of Combine 7878.

Dick Holland, research director of the DeKalb Research Farm at Lubbock, says that the four DeKalb hybrid grain sorghum varieties averaged 22.2 per cent greater yields than standard varieties in 1956.

Economic recommendations will see studies of the use of water and its resources made along with an economic evaluation of the numerous and various steps involved in producing, harvesting, ginning and marketing cotton.

Cottongseed recommendations call for producers to strive for higher yield with mature cotton and therefore, mature cottonseed. Also producers in conjunction with the cotton ginning industry should make every effort to deliver cleaner and drier cottonseed to the oil mills.

Breeders will be encouraged to continue work for high oil and high protein content in cottonseed varieties and at the same time attempt to lower the gossypol content of cottonseed.

In conclusion the education recommendations call for the PCG to serve as a clearing house for good information and work closely with vocational agriculture and extension personnel in distributing good information.

Pfeiffenberger said directors of the PCG would study these recommendations and announce at a later date an adopted policy.

**Questionnaires On Home Births Mailed To Veterans, Widows**

Annual Income Questionnaires have been mailed to more than 14,000 veterans and widows and children of deceased veterans in the Dallas Veterans Administration Regional Area who are receiving pensions, Scott B. Harrington, manager, announced today.  
 Those in the Dallas area are among 1,200,000 throughout the nation who will receive the questionnaires.  
 Harrington urged those who received the questionnaires from the Dallas Office to fill them in completely and return them immediately to the VA Office, 912 South Erway, Dallas. Those who receive the questionnaires from other VA Offices should return them to the office from which they were received. Unless completed questionnaires are returned to VA within 30 days, pension payments will be stopped, Harrington stressed.  
 Questionnaires are mailed out yearly because disability and death pensions are subject to annual income limitations. The current questionnaires request data on 1956 income and anticipated 1957 income.  
 Pensions are payable to certain eligible veterans of World War I, World War II, and the Korean Conflict period who are permanently and totally disabled from cause not connected with their service in the armed forces, and to certain widows and children of veterans of these wars who die of nonservice-connected causes.  
 In both cases, the annual income of those receiving pension must not exceed \$1,400, without dependents, or \$2,700 with dependents.  
 Only dependents allowed for a living veteran for pension purposes are a wife and minor children, and for a widow, only minor children.  
 For income purposes, payments from VA for disability or death including proceeds of GI insurance need not be reported. However, all other payments, including gifts, employment, commercial life insurance, social security, annuities and retirement benefits must be reported.  
 Those receiving pensions should report immediately any increase in income which would raise their annual income above the statutory limitations.  
 Overpayments are recoverable by the government.

**Outstanding Young Texans Are Named**

The president of the Texas Junior Chamber of Commerce, F. E. Hightower of San Angelo, has announced the selection of the Five Outstanding Young Texans of 1956 by a panel of eminent Texas business and professional men at the state headquarters of the Texas Jaycees in Grand Prairie.

Those selected to receive this high honor from the nominees entered were: George Herbert Walker Bush, 32, a business executive in the oil industry in Midland; Edward J. Drake, 32, an attorney at law in Dallas; Dr. Harry Maurice Shytles, Jr., 35, a physician in Sherman; Bill Southwell, 31, a business executive in the manufacturing industry in San Antonio; and T. D. Tankley, Jr., 31, county agricultural agent in Llano.  
 The banquet honoring the recipients will be held in Abilene on Jan. 12.

**Hospital Births Up, Home Births Down, Statistics Prove**

AUSTIN (Spl.)—In 1956, the ratio of hospital births to home births has more than doubled over the past 15 years, according to Texas State Department of Health statistics.  
 Live birth hospital deliveries increased from 42.4 per cent to 90.1 per cent during the period of Texas' greatest growth.  
 Also, the ratio of 1956 live births to deaths in Texas was well over three to one, while statistics 15 years ago indicate the ratio was only slightly in excess of two births per death.  
 Baby's chance of surviving the first year of life has more than doubled since 1940.  
 Mother, too, has reaped even greater medical benefits. Fifteen years ago, the risk of death at childbirth was nine times greater than it is today.  
 Dr. Henry A. Holle, commissioner of health, announced that the reporting of births and deaths and the percentage completeness of registration to the Vital Statistics Division of the health department, was greater than ever before in Texas history.  
 In addition, Dr. Holle pointed out that the actual records received were more complete and correct than ever before.  
 By contrast, in years gone by, birth records received in the department would often omit the name of the infant. Death records were often incomplete, especially in the early days of state record keeping.  
 Don Carroll, director of the Division of Vital Statistics, gave much credit for the increased accuracy to local registration officials.  
 "Without a doubt, 1956 records show that births are on the increase, death rates on the decrease, and Texans healthier than ever," Carroll said.  
 But just in case the trend should ever reverse itself, the Vital Statistics Division's improved techniques and vigilance will serve early warning.

**Service Clubs To Have Special Days At Show**

FORT WORTH (Spl.)—Service club members over a wide area will attend the Southwestern Exposition and Fat Stock Show on their organization's special day.  
 Edward G. Barry of Little Rock, Ark., first vice-president of Lions' International will be a guest of honor on Lions day, Tuesday, Jan. 29, as will Paul Files of Paris, Kiwanis district governor-elect on Kiwanis day, Thursday, Jan. 31.  
 Junior Chamber of Commerce night will be Friday, Feb. 1. Date of Rotary Day will be announced soon.

**A GOOD WORLD**

TUCSON, Ariz.—Some big boys roughed up 6-year-old Charles Johnson and took \$2.50 he had collected while selling newspapers. Milton Burach of Phoenix heard about the robbery and sent police a \$2.50 check to give to the lad so he'll know "it's a good world after all."

Total cars moved were 29,194 compared with 30,256 for the same week in 1955. Santa Fe handled a total of 33,683 cars in preceding week of this year.

**Alien Registration Is Due By Jan. 31**

Allies living in the Post vicinity are reminded by Postmaster Harold Voss that they are required by federal law to fill out alien registration cards by Jan. 31 or before.  
 The law affects all persons who are not citizens of the United States, whether they are permanent residents of this country who intend to become U. S. citizens or only visitors in the United States on a temporary visa or work permit.  
 The law provides that all aliens in the United States on Jan. 1 of each year must apply for an alien registration card, fill it out and return it to the post office before the end of the month.  
 Conviction of failure to comply with the law carries a \$200 fine or a 30-day jail sentence or both.

**Right-Of-Way About Ready For Widening**

All fences have been moved back along U. S. Highway 84 in Commissioner Precinct 4 to provide right-of-way for the widening of the route into a four-lane divided highway, Commissioner Sid Cross said Tuesday.  
 "With the exception of moving back a few cattle-guards, we are all through with our part of the work and are waiting for the State Highway Department to move in," the commissioner said.  
 All except about four miles of the approximately 20 miles of construction will be in Commissioner Precinct 4, the rest lying in Commissioner Precinct 2, where those who do not fill out the cards also are liable to deportation, Voss said.  
 The cards may be obtained at the post office here.

WTCC MAGAZINE CONDUCTS SURVEY

### Construction Boom Reported In 87 West Texas Cities In 1956

ABILENE (Spl.)—Eighty-seven West Texas cities experienced a construction boom in 1956 that totaled almost \$400 million, according to a survey conducted by "West Texas Today," the monthly publication of the West Texas Chamber of Commerce.

Estimates for 1957 indicate that the boom will continue, and probably surpass that recorded in the 12 months preceding. Results of the survey are published in the December issue of the magazine.

Construction dollars spent in the 87 cities from Nov. 1, 1955, to Nov. 1, 1956, totaled \$385,996,315. More than half of the money was spent for construction of residential dwellings. Residential construction totaled \$202,464,510.

Commercial construction, which totaled almost 80 million dollars, accounted for the second largest portion of each construction dollar. New schools, which cost more than 30 million dollars, ranked third in money spent on construction.

Other major projects which claimed a large percentage of each construction dollar were: sewer and water facilities, 27 million dollars; street construction and paving, 14 million; state and federal buildings, nearly seven million; and city and county buildings, more than five million.

In addition, approximately two million dollars was spent on church construction. Miscellaneous

types of construction accounted for more than 17 million dollars.

In 1957 estimates are based on bond issues for city and county construction and schools, announced plans of businesses and industries, and federal allocations for military and defense spending.

Residential construction is expected to again lead in the total construction dollars spent, although it appears that 1957 dwellings will not constitute as large a percentage as was the case in 1956. Commercial construction will be up considerably, however, as will school construction and federal construction.

Estimates on federal construction, including Air Force and Army installations as well as nuclear ordnance plants, indicate that more than \$55 million will be spent in 1957. This is approximately an 800 per cent increase over 1956.

Considerable increases are also expected in street paving and construction and sewer and water facilities. City, county and state building projects are also expected to be increased in 1957. More than seven million dollars have been set aside for city, county and state buildings in West Texas.

## Well-Kept Farm Records Can Reduce Annual Income Tax

Wise tax management is a part of good farm management, according to County Agent Lewis C. Herron.

But he emphasizes that it must be considered all during the year instead of just from Jan. 1 to tax reporting time.

For little can be done to reduce taxes after the close of the year's business.

Herron says there is a wide variation in a Garza County farmer's annual net income because of variation in production and changes in prices and costs.

This affects the income tax he will have to pay because, generally, the less that his yearly income fluctuates the less tax he will have to pay over a period of years.

Good tax management means managing the farm business in such a way that the amount of taxes paid over a period of years is not greater than the legal minimum.

Since the government expects to receive no more tax than is due, the farmer should use all permissible means to reduce his tax by good management.

The agent says successful tax management is based to a great extent upon complete records kept regularly and carefully during the year. By using good records, a farmer can make a check of income and expenses to determine the approximate taxable income at any given date.

If an unusually high net income is anticipated by a cash basis taxpayer, some sales may be delayed until the next year or deductible expenses may be increased before the end of the year, according to the agent.

On the other hand, it is always advisable to have a net taxable income as large as the amount of exemptions and personal deductions.

"Since depreciation of farm machinery, improvements, and purchased breeding stock are allowable tax deductions," Herron emphasized, "farm records should include a detailed record of all

capital investments."

One means of reducing taxes is to spread the annual net income as evenly as possible over a period of years because the graduated tax rate and personal exemptions cannot be accumulated from one to another. Some other important considerations in good tax management are capital gain provisions, methods of depreciation and the provisions for carrying backward and forward an operating rate of depreciation, depreciation claimed in prior years, date of sale or trade and selling price.

### Progressive Farmer Picks Miss Hatfield 'Woman of Year'

DALLAS (Spl.)—Because she has brought more than a million dollars' worth of beauty to Texas farmsteads, Miss Sadie Hatfield, College Station, has been named "Woman of the Year" by The Progressive Farmer magazine.

As extension specialist in home-stead improvement, she has worked closely with the State Department of Health, Texas Forest Service, Texas Association of Nurserymen and Texas Garden Clubs. Hundreds of beautifully landscaped rural homes stand as testimonials of Sadie Hatfield's service.

Miss Hatfield extends her services further by training and recognizing rural leaders. During 1955, 1,490 leaders gave method demonstrations to 28,914 club members and gave individual help to 18,788. In 1955 the physical accomplishments of this work were valued at \$1,380,549.

To help Texas 4-H'ers learn to identify shrubs and trees and learn their proper use, Miss Hatfield started the shrub identification contest in 1951.

Miss Hatfield has held offices of responsibility in State Garden Club, Texas Folklore Society, Pan-American Roundtable, Brazos County Folklore Society, and Texas Chapter of the Epsilon Sigma Phi, fraternity of extension workers.

### Tractors Outscore Horses And Mules

Tractors now outnumber horses and mules on American farms, the Census Bureau has reported.

The number of horses and mules had shrunk to 4,100,000 in 1954 or about a sixth of the peak total of 25,200,000 in 1920, the 1954 census showed.

In the same 34-year period the number of tractors rose from 246,000 to 4,700,000.

The 1954 count showed there were fewer horses and mules than when the first farm census was taken in 1940. There were 4,300,000 then. The new tabulation showed that more than half of all horses and mules were on farms in the South's 16 states, where 1,100,000 farms averaged two each.

Texas with 244,000 had the greatest number of horses and colts in 1954. North Carolina had 179,000. The famed Missouri mule was down to a mere 22,000, as against Missouri's peak of 289,000 in 1920.

RESULTS OF ROUNDTABLE HERE TO BE REPORTED

### Post To Participate In Meeting On Regional Development At Tech

West Texas citizens will gather Jan. 22-23 at Texas Tech in Lubbock to recommend action for regional development.

Community leaders will report results of local roundtables on eight possibilities for regional improvement, water, mineral resources, agriculture, economic diversification, community revitalization, intergroup relations, housing and use of government and educational agencies.

Sponsoring the assembly are the West Texas Council on Adult Education and the Texas Tech Adult Education Program.

The meeting will begin at noon Tuesday, Jan. 22, with reports from community roundtables. On the next morning, community leaders will discuss the reports and make recommendations for action on both local and regional levels.

In a pre-conference session Tuesday morning, executives of the West Texas Council on Adult Education will hear committee reports on youth and family life problems, schools for tomorrow, problems on older adults, West Texas Heritage, and international relations.

The Council will hold its annual meeting Wednesday afternoon, Jan. 23, following the regional development assembly. Both the assembly and Council meeting will be in the Tech Union Building.

Communities and leaders who already have held roundtables on regional development include: Abilene, Don Wooten; Abertown, Weldon Crow; Andrews, Joe Tidrow; Brownfield, Kenneth Browning; Crosbyton, Mrs. Evelyn Lowry; Earth-Springlake, D. E. Mc-

Carty and Bill Mann; El Paso, Larry Freeman; Hale Center, N. L. Douglas and Lee Dent, Jr.; Lamesa, Walter Buckle.

## FORREST FINANCE PLAN

### REVOLVING CREDIT PLAN "RCP" FOR OPEN CHARGE ACCOUNTS

1. What is Forrest's "Revolving Credit Plan"?  
It is a new service for those who prefer to pay a set amount monthly on purchases from Forrest. It works exactly like a regular charge account except the Customer has a longer time to pay.
2. What may be bought on Forrest's Revolving Credit Plan?  
Any merchandise Forrest sells, providing that the price, plus the balance on the account, does not exceed the balance limit agreed on.
3. When may additional purchases be made?  
At any time... up to the agreed on total balance.
4. What size account is available?  

If you pay each Month	\$10	\$15	\$20	\$25	\$30	\$35	\$40	\$50
You may carry a balance up to	\$80	\$120	\$160	\$200	\$240	\$280	\$320	\$400
5. May more than the scheduled amount be paid at one time?  
Certainly. This will increase the amount that may be added-on.
6. Can the total limit ever be increased?  
Yes, with the approval of the Credit Manager.
7. What happens when the entire balance is paid off?  
The card stays in the file, waiting your next purchase. During this time there is no service charge or payments due.
8. Is there any charge for this service?  
Yes, there is a small charge added each month. It is 1% of the outstanding balance at the statement time. If the outstanding balance is \$90.00, for example, the service charge would be 90c.
9. What is the purpose of the RCP Identification Card?  
The card will allow purchases without having to visit the Credit Department each time you wish to add something to your account.

## Area Educators Work On Formation Of New West Texas School Group

LUBBOCK (Sp.)—Plans for an organization that can "turn opinions about West Texas school operations into facts" will be drawn up by a five-man committee elected by school administrators meeting at Texas Tech.

The school executives authorized the committee to outline tentative organization, financing and program for a West Texas School Study Council.

The Council would give school administrators opportunities for discussion of common problems. It also would provide a center for research on those problems.

Named to the planning committee are Supts. T. A. Roach, An-

draws; Weldon Marcom, Levelland; and Fred Cunningham, Hereford; and Dr. Morris Wallace, Tech education department head.

That committee was authorized to name a fifth member chosen from the Tech faculty.

The committee will report its findings to a meeting of West Texas School administrators Jan. 29 at Tech.

In discussions preceding formation of the planning committee, the school executives agreed that "flying by the seats of their pants" was costing their schools dearly in time, money and efficiency.

"We're more likely to solve our problems with facts than with opin-

ions," Roach pointed out in urging the establishment of a research program.

"We've got to take a long look at West Texas school problems before we can hope to make real progress in eliminating the myriad of everyday problems which are taking so much time," Marcom said.

He added that "Public schools are being challenged to perform at even higher levels by a public that is becoming more and more aware of its schools and their programs."

Cunningham pointed out the need for the schoolmen to pool ideas on problems and turn those ideas over

to personnel who have time for research.

Dr. Wallace presided at the meeting in the Tech Union Building.

If established at Tech, the center would have access to consultant services of such academic departments as education, architecture, engineering, government, sociology, economics and psychology.

The center also could provide other professional resources and services not available to a local school.

## COMPLETE CITIZENS STUDY TO BE MADE

### Proposed Salary Increases For Teachers An Emergency Measure

AUSTIN (Sp.)—The proposed salary increases for Texas public school teachers is an emergency measure to provide teachers for Texas children until more lasting provisions can be worked out, Dana Williams of Gladewater, president of the Texas State Teachers Association, has announced.

A complete citizens study of teacher salaries and school building needs will be made between now and the convening of the 56th Leg-

islature in 1959, he explained.

Although the immediate request calls for an increase in the State minimum pay of \$399, the increased annual increments will provide most Texas teachers with a \$579 pay raise, Williams pointed out.

The plan calls for salary raises of \$90 per year for the first five years of service, compared to \$54 at present. This represents an additional \$180 increase for those teachers with five or more years service.

The program also corrects certain inequities in salaries of principals.

From the conferences of citizens studying salary and building needs will come "realistic recommendations which should provide solutions to these current pressing problems," Williams said.

"Texas school population is increasing at the rate of more than 100,000 per year," he said. "By 1960 an additional 350,000 children will be in our classrooms. Texas will need by that time 43,000 additional teachers to teach the new children and to replace the thousands of experienced teachers who leave the classrooms each year. This situation creates a serious emergency which I believe the Legislature will put among its top problems to be solved at the session convening in January."

"This salary increase request is modest indeed in the light of the increasing cost of living and of the salary increases which have been granted to employes in the various trades and industries of the State and nation," Williams declared.

"It will serve as an emergency measure to keep teachers in classrooms and to permit more successful recruitment among desirable young college graduates," he added.

## WHEN I GROW UP...

Magical words these, "when I grow up"—full of promise, replete with confidence. What youngster hasn't uttered them?

This lad is no different. He looks into the future that will be his when he grows up, and the world is his oyster, intact with pearls.

This month he wants to be a flier. Next month he'll want to be an engineer, spanning bridges across great rivers and wide chasms. The month after that he'll see himself as a surgeon, scalpel poised between skilled fingers. And the month after that—who knows?

For youth is ever changing, ever restless. That's why it is so important that youth's naturally impulsive nature be held fast by an anchor that is good, firm and permanent. They need a faith that will sustain them whether they become doctors, fliers, or engineers. The Church provides this faith, this anchor.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Tax Rates Under FICA And Filing Methods Changed

Tax rates under the Federal Insurance Contributions Act (Social Security) and filing requirements under the Federal Unemployment Tax Act have been changed by recent amendments to the law, according to Howard O. Nichols, administrative officer of the Lubbock office.

New F. I. C. A. rates on wages paid on or after Jan. 1, 1957, will be 2 1/4 per cent each for employers and employees, a total of 4 1/2 per cent, Nichols said.

The changes in the Federal Unemployment Tax Act, he explained, provides that employers who had four or more employees on at least one day of each of 20 calendar weeks during 1956 will be required to file Form 940 by Jan. 31, 1957. The filing of Form 940, Annual Federal Tax Return of Employers, was formerly required of employers who had eight or more employees.

Nichols said that copies of this return have been sent to most of the employers in this district. However, he suggested that employers who have not received this form by Jan. 9, obtain copies from the local Revenue office at Lubbock.

### School Bus Drivers Lauded For Safety

Garza County's 14 school bus drivers are among the 7,500 in the state who have drawn praise from Texas railroads for their driving safety records.

The 7,500 drivers of Texas school buses will chauffeur the student carriers some 82,000,000 miles annually.

Four school buses are operated by the Post district, five by Southland, two by Graham and one each by Close City, Justiceburg and Garfield.

Representatives of Texas railroads adopted a resolution in Austin lauding the diligence and good judgment with which the drivers protect the lives of Texas children.

Pointing out that the school bus drivers' record is seldom accorded the recognition it is due and that it is a wonderful example for other persons using the highways, the resolution set out

that a bus is listed in an accident report only on an average of once in every 410,000 miles. That is a distance equal to 16 times around the world at the equator.

That record has held for the last five years, during which the school buses have traveled 410,000,000 miles in transporting children to and from school.

They annually travel 82,000,000 miles, a distance equal to 3,280 times around the equator.

It was also noted that in more than half of the accidents listed that the bus actually was not involved in the collision; that cars and trucks were hit either behind the school buses or in going around them.

The Texas law requires that when school buses are loading or discharging passengers all vehicles approaching them from either direction come to a full stop.

#### OVEN CHICKEN BAR-B-Q

- 2 Tablespoons flour
- 2 Tablespoons sugar
- 2 Teaspoons salt
- 1/2 Teaspoon pepper
- 2 Teaspoons paprika
- 1/2 cup instant Pot (in dry form)
- 1/2 cup water
- 8-oz. can tomato sauce
- 2 Tablespoons vinegar
- 1 cut-up frying chicken (about 3 lbs.)

Mix in a 1 1/2-quart bowl the flour, sugar, salt, pepper, paprika and instant Pot. Stir in, a little at a time, a mixture of water, tomato sauce and vinegar. Put pieces of chicken into an 8 x 12-in. baking dish. Pour tomato mixture over chicken. Turn pieces until well coated. Turn skin side down. Bake, uncovered, near center of 350 oven (moderate) 30 min. Then turn chicken and bake 30 min. longer, or until drumstick is tender when pierced with a fork. Remove from oven and serve from baking dish. Makes 4 servings.

### Carpenter, Williams On All-Plains Team

Two Post Antelope gridders, Jackie Carpenter and James Williams, were named to the second team on defense in All-South Plains football selections announced Sunday by the Lubbock Avalanche Journal.

Both Carpenter and Williams are senior class members at Post High School. Carpenter was selected at a middle guard spot on the second defensive team and Williams at a halfback position.

Receiving honorable mention in the All-South Plains selections were Noel White, end; Leon Davis, tackle; Sammy Martin, guard; Ray Gary, halfback, and Ronnie Kennedy, fullback. All are seniors except Martin.

### Post Meets Fluvanna In Area Tournament

The Post Antelopes are scheduled to play Fluvanna at 6:45 o'clock this evening in a first round game of the Hermleigh Invitational Basketball Tournament.

Other first round games are Hobbs vs. Divide at 4:15, Coahoma vs. Hermleigh at 9:15 and Roby vs. Ira at 4:15 p. m. Friday.

The Antelopes are also entered in the Jayton Invitational Tournament, which stretches out over two weeks. Coach McCoy's team is to play its first game at 2:15 p. m. Saturday against the winner of a first round game between Aspermont and Roaring Springs. If the Antelopes win, they play again at 9:15 p. m. next Thursday.

Other teams in the Jayton meet are Rotan, Girard, Loraine, Patton Springs, Peacock, Spur, Southland, Jayton and Matador.

### Spur Rites Held For Father Of Post Man

Franklin O. Taylor, 80, father of Jack Taylor of Post, died about 7 p. m. Tuesday at his home in Spur. Funeral services were held at 2:30 p. m. Wednesday at the Spur Church of Christ, with burial following in the Girard Cemetery.

Mr. Taylor, who was born in Erath County, had been a resident of Dickens County since 1898.

Besides the son of Post, he is survived by his wife, nine other sons and one daughter.

### Post Woman's Aunt Is Buried On Wednesday

Mr. and Mrs. Ralph Kirkpatrick were in Lubbock Wednesday to attend funeral services for Mrs. Kirkpatrick's aunt, Mrs. H. G. Brock, 73, who died at 5:30 p. m. Tuesday at St. Mary's Hospital after a lengthy illness.

Mrs. Brock, who was born near Whitewright, had been living in Lubbock with a daughter. She moved to Lubbock from Ralls in 1926.

The funeral services were held in Ford Memorial Chapel of the First Baptist Church, with burial in the City of Lubbock Cemetery.

### Post Guard Makes All-Tourney Team

Barbara Wheatley, guard on the Post High School girls' basketball team, made the all-tournament team selected Saturday night at the conclusion of Crosbyton's invitational "Christmas" tournament.

Playing minus the services of forward Marie Howard, Coach N. R. (Jiggs) King's team lost to Jayton, 47 to 41, Saturday in the consolation final. Louise Gerner hit for 17 points to pace the Post scoring.

The Post team had advanced to the consolation championship game by defeating Crosbyton, 54 to 50, with Marie Howard scoring 30 points for the winners. Patsy Harrington also scored 30 points for the losers.

The Post girls were eliminated from championship play by losing to Floydada, 37-34, in a first round game. Kay Martin, with 14 points, led the Post scoring.

The McAdoo girls defeated Slaton, 47-45, to win the tournament championship.

### F. Z. Beanblossom Texas Agriculture 'Man Of The Year'

DALLAS (Sp.)—For his conspicuous service in poultry marketing, F. Z. Beanblossom, College Station, has been named "Man of the Year in Texas Agriculture" by The Progressive Farmer magazine.

Beanblossom, poultry marketing specialist for the Texas Extension Service, Texas A&M College System, has made big contributions to the poultry industry since he began working in Texas shortly after World War II. Seeing the greatest need was for improvement in poultry marketing, Beanblossom began working with farmers, poultry dealers, hatcherymen, poultry breeders, feed salesmen and processors explaining that "consumers will buy quality products."

One result of his promotional work was in the field of graded eggs. Ten years ago, there were practically no eggs sold in Texas on a graded basis. In 1955, over 10 million dozen were sold on a graded basis and Texas egg producers were paid over 2 million dollars more for their product.

Beanblossom has sold the idea of quality from the farm to the table. He has pushed chicken of tomorrow contests for better broilers, processors for cleanliness and attractiveness of dressed turkeys and broilers, restaurants to serve more eggs and poultry meat, truckers to be more careful in handling, feed men for better feeds, handlers for more efficiency in their operations, etc. But whatever his job, you can be sure of one thing—he's trying to help Texans sell more Texas poultry.

**CHANGE OF HORSEPOWER**

### Forgotten Man' Is Never Remembered By Salvation Army

"The forgotten man" is not forgotten by the Salvation Army, Garza County is a member of the Garza County Chest.

He is in prison, in a hospital, a shut-in at an inmate of a mental hospital, remembered by the members of The Salvation Army.

Remembered throughout the year, not just at the Christmas season. Services to the lonely and for whom Christmas is too long are carried by the Salvation Army of the year.

Army officers visit prisons and hospitals, holding giving counsel where needed; they visit hospitals and homes for the types of care and comfort confined for long time; and they make every effort at Christmas to help in the relief of everyone who has a share in Christmas.

From jail and prison inmates, Salvation Army workers also serve as interpreters in many areas, acting to help in the relief of offenders who have been paroled to another opportunity. Last year over 300 prisoners were paroled by officers in Texas.

Prisoners are often visited, while the families in prison are given help when desired. To see that the families are able to have been begun in the

### VA Questions And Answers

Q. My husband was a World War II veteran who was injured on active duty in March, 1947. He later died of his injury. Would my daughter be eligible for War Orphans schooling?

A. Under the law she would not. The law requires that a World War II veteran's injury or disability must have occurred before Dec. 31, 1946. Your husband incurred his injury after that date.

Q. The effective date of my GI insurance policy was Dec. 31. I understand that my premiums are due on this same date each month. What about those months that don't have 31 days?

A. For the months that do not have 31 days, your premium is due on the last day of the month.

Q. Is every disabled Korea veteran entitled to special vocational rehabilitation training?

A. No. This training is available only to disabled veterans who need it to overcome the handicap of their service-connected disabilities. However, those who don't need vocational rehabilitation training may be eligible for Korean GI Bill training.
