Miracles Come Only From Heaven, Rep. George Mahon Tells Rotarians

"No miracles can come out of Washington, they come only out of Heaven," Rep. George Mahon said Tuesday in giving Post Rotarians a quick look at the nation's fiscal and foreign policies.

Mahon's address at Tuesday's luncheon was one of a series he is making throughout the sprawling 19th Congressional District which he serves.

The congressman said no one liked the idea of boosting the nation's debt ceiling from \$75 billion to \$81 billion, but that it was either that or reduce military spending.

"As chairman of the Appropriations Committee," he said, "I can tell you now that the bill for the Army, Air Force, Navy and Marine Corps will be the biggest of the fiscal year, and it will bear my signature."

He said that the six billion dollar increase in the debt ceiling means that we are going to keep right on "staying out of the black, which we haven't been in since 1947."

"But we have had some tax reductions under the present ad-

ministration and, general speaking, business is getting better. Of course, there are unemployment problems in some sections of the country, and there's the drought, but the overall picture is brighter."

Mahon said he liked Vice President Nixon's summation of the administration's foreign policy—"Our object is peace without surrender and short of total war."

"The world-wide battle today," Mahon said, "is one in which the 'big lie' is trying to override and defeat the 'big truth.'"

He said there is talk of massive retaliation instead of massive appeasement. "But I think," he said, "that we should support the President and not try to tear each other apart on the matter of appeasement."

"In a total war," the speaker said, "we could destroy the Soviet Union, but not Communism. Following a World War III, the field would be more fertile than at any time in the century for the growth of Communism in America and throughout the world. . . . Communism may ex-

tend into the next century, but right will triumph."

Mahon said he considered remarkable the voters' return, after two years, to Democrats in the recent elections. "That shows," he said, "that they are not distrustful of the Democrats even though they voted in a Republican administration two years ago."

"It's good," he said, "to have two strong political parties and I think Congress will cooperate splendidly with the administration during the coming session. I also think Eisenhower and the Republicans have done a good job under the circumstances. . . . when I think Eisenhower is right I'll vote with him and when I think he is wrong I'll vote against him."

At the outset of his talk, Mahon expressed his regret at having been unable to attend the honor barbecue held here last October for George (Scotty) Samson.

"I was told by Charlie Guy, publisher of the Lubbock Avalanche-Journal," he said, "that the Samson barbecue was West Texas at its best. I'm truly sorry I had to miss it."

Mahon was introduced by T. R. Greenfield. At the conclusion of his talk, he was presented a gift of Garza sheets by R. J. (Rube) Jennings, Rotary president and head of the Postex Mill.

POST WOULD BE HEADQUARTERS OF NEW SET-UP

New Soil District Is Proposed Here

Circulation of a petition asking that an election be called on organization of a soil conservation district with Post as the headquarters is scheduled for the near future, according to Giles McCrary, who is secretary and a supervisor of the board of the present Duck Creek Soil Conservation District.

The Post work unit has been a part of the Duck Creek Conservation District since the 1930's. Spur is headquarters for the district.

then would vote the Duck Creek SCD back in.

Under the present set-up, McCrary pointed out, the Post work unit is more or less isolated from the Duck Creek Soil Conservation District proper. It is not a practical set-up for soil conservation cooperators of the Post area, he added.

The new district would be subdivided into five areas, with a supervisor from each area comprising the board. The district would comprise the present area served by the Post work unit, which includes all of Garza County except a small area in the northeast corner and the western part of Kent County.

The new district would make farmers, ranchers, businessmen and other citizens more soil conservation conscious, McCrary explained. The present Soil Conservation Service set-up here would remain the same as at present, but farmers and ranchers would be their own representatives on the board of the new district.

The petition to be circulated here asking that an election be called will be submitted to the state SCS office at Temple, and a representative will be sent to the area to determine if the needs justify formation of the district. If they do, the next step will be setting the date of the election.

Meeting Monday On Chest X-Rays

Committee chairmen will meet at 7 p. m. Monday in the City Hall auditorium for the purpose of reviewing plans for the State Health Department's mass chest x-ray survey here Dec. 1, 2 and 3.

E. R. (Buster) Moreland, general chairman, said the mobile x-ray unit will be in the building formerly occupied by the Pure Food Market on North Avenue I. It will be in operation from noon until 5:30 p. m. the first day and from 8:30 a. m. until 5:30 p. m. the other two days.

The general chairman stresses that the chest x-rays are provided by the State Health Department free of charge and that local physicians are urging 100 per cent participation.

The x-ray reports will be confidential and it will not be necessary to undress. The x-rays will be provided only for those 15 years of age and over.

Committee chairmen appointed by Moreland are: Bobby Pierce, location; Ted R. Hibbs, power and lights; Mrs. Leo Acker, clerical; Mrs. John F. See CHEST X-RAYS, Page 8

City Continues Discussion Of Water Needs

Westward extension of the City of Post's water supply system was discussed Tuesday afternoon at a meeting of engineers and the City Commission.

Tuesday's meeting followed one Monday night at which the extension was discussed by the City Planning Board.

It was brought out at the planning board meeting that \$150,000 in revenue bonds is available to finance such an extension as the one being considered. These bonds are the remainder of a \$600,000 bond issue voted here several years ago for purchase of the present water system.

The City already has a buyer for the \$150,000 remainder of the bond issue, it was reported at the planning board meeting.

Extension of the water supply system has been under discussion for the past few months and is deemed necessary because of a threatened water shortage brought on by greatly increased consumption. The water level in the city's wells has dropped as much as eight feet during the past three years.

Eight PHS Gridders To Play Last Game

Eight seniors on the Post Antelope football squad will be "sued out" for the last time Friday night in a PHS grid uniform when Coach Bing Bingham's team plays at Abilene.

Slated to see football action for the last time in high school are Junior Smith, center; Bowen Stephens, guard; Billy Meeks, tackle; Mack Terry, end; Darrel Roy Norman, halfback; Don Gates, halfback, and Don El Dale, halfback.

Also a candidate for graduation in May is Jimmy Nutton, student manager for the Antelope squad.

Dean Robinson Named Chest Drive Chairman

Dean A. Robinson was named Wednesday as chairman of the Garza County Community Chest fund campaign, which is to get under way Monday, Nov. 29, and continue through Saturday, Dec. 4.

The fund campaign goal will be \$9,739.40, which is the figure set by the Chest's board of directors for the ensuing year's program in which eight fundraising organizations are to participate.

Ted R. Hibbs was named as vice-chairman of the fund campaign committee, other members of which are the Rev. Charles R. Gates, Percy Parsons and Mrs. Thurman Francis.

Other city and community chairmen and workers appointed for the fund drive are as follows:

Union Service Is Set For Nov. 24

Union Thanksgiving services will be held at 7:30 p. m. Wednesday at the First Christian Church, with the Rev. J. R. Brinefield, Assembly of God pastor, delivering the sermon.

Rev. Brinefield's subject will be "Creature or Creation" (Romans 1:2-5).

Larger Gifts — Ira L. Duckworth, chairman; Jess Rogers, R. J. Jennings, E. R. Moreland and James Minor.

City of Post—Lee Bowen, chairman; Lorenzo Alexander, Mrs. Zeta Penney, the Rev. Raul Solis and Bill Thomas.

Southland, Mrs. Hub Haire; Pleasant Valley, Pete Lancaster; Garnolia, Mrs. Thurman Francis; Close City, L. G. Thuet, Jr.; Justiceburg, Mrs. Pearl Nance, chairman, and Mason Justice, associate chairman; Verbena, Mrs. Earl McLendon; Grassburn, Mrs. Tom Gilmore; Barnum Springs, Mrs. Bus Pennell.

A meeting of all finance committee chairmen has been set for 7 p. m. Monday in the basement of the First Methodist Church. At that time, community chest drive, Page 8

Absentee Voting Begins Monday

Absentee voting is to begin here Monday for the 24th Senatorial District special election set for Dec. 11.

Seven men have filed for the state senatorship of the 13-county West Texas district, which includes Garza County. They are seeking election to an office made vacant by the death of Sen. Harley Sadler of Abilene.

Contract Awarded For Stage Scenery

The Dickson Scenic Co. of Houston was awarded contract for installation of stage scenery in the new junior high school building at a Monday night meeting of the Post school board.

The building architects are to decide on the color of the new stage scenery, D. C. Arthur, superintendent of schools, said.

The cost to the school is \$667.50, less 2 per cent for cash. The scenery is to include front curtain and valance, cyclorama sections, headers, and ceiling borders, all of flame-proof material. The \$667.50 covers cost of installation, Arthur said.

Lions Pancake Supper To Be Tuesday Night

Final plans for the Post Lions Club's pancake supper Tuesday, Nov. 23, were made at Tuesday night's meeting of the club.

The supper, being held for the benefit of the club's child welfare program, will be in the school lunch room from 4 p. m. until 9 p. m., and will feature "Aunt Jemima" in person.

Tickets are on sale at 50 cents each and will entitle the purchaser to all the pancakes and bacon or sausage he can eat, and coffee.

Rural school children are assisting in the ticket sales and their schools will be allowed to keep the money for the tickets they sell. All Garza County schools and the Grassland school in Lynn County are participating in the program.

Lions urge rural residents buying tickets to purchase them from their home schools.

Firms assisting the Lions in the pancake supper and the items they are furnishing include: Tennessee Milk, milk for pancake mix and cream for coffee; Piggly Wiggly of Post, coffee; Morton Foods, syrup, and Hunt Packing Co., Lubbock Superior Meat Co., Everett & Reid Packing Co., Pinkney Packing Co. of Amarillo, and Southwest Meat and Provision Co., meat.

Collisions Results In Broken Foot

Miss Jessie Pearce, county home demonstration agent, suffered a broken bone in the instep of her right foot Monday afternoon in another automobile accident at one of the city's many unmarked street intersections.

The accident occurred shortly after 5 o'clock when Miss Pearce's 1953 Dodge and a 1954 Ford driven by K. Stoker, collided at the intersection of West 10th Street and North Avenue Q.

Deputy Sheriff J. W. (Red) Floyd, who investigated the accident, said Miss Pearce was driving west on 10th Street and Stoker was driving north on Avenue Q. The officer reported that no ticket was issued in connection with the accident.

Both automobiles were extensively damaged in the collision.

CALVARY BAPTIST CHURCH PLANS EDUCATIONAL BUILDING

Building Bond Sale Is On

Sale of bonds to finance a \$20,000 building program at the Calvary Baptist Church, including a new educational structure, got under way this week.

A member of the church reported Wednesday that members are meeting at the church each night this week to discuss progress of the program and to offer prayers for its success.

The 60 by 80-foot stucco educational building, on which foundation work already is under way, will be on the first lot north of the one on which the present church stands.

The educational building will

include 18 Sunday School classrooms, four assembly rooms, a kitchen, two rest rooms and a hallway.

The building program also calls for enlargement of the church auditorium.

The building bonds, in denominations of \$50, \$100, \$250 and \$500, are being sold at 5 per cent interest per annum, with the interest payable semi-annually. A group of the bonds will mature every six months for a period of 12 years.

Non-members as well as members of the church are invited to assist the church in its building

program by investing in the bonds. They may be obtained from Jim Hays, building fund treasurer.

Those desiring further information on the bonds are asked to see Hays or the Rev. Shelby Bishop, pastor of the church.

Members of the building committee are Rev. Bishop, Marvin Williams, Pete Crispin, Jim Hays, Lloyd Anthony, Albert Odum, Lyda Odum, Roy Gilmore, Travis Gilmore, R. F. Shedd, Albert Caylor, Bill Hays, Roy James, Pat Henderson, Gordon Flowers and Gilbert Blodgett.

THIRTY SHOPPING DAYS until Christmas!
WITH THEIR WORK ON the Community Chest program at a point where they can begin concentrating on other projects, the board of directors of the Chamber of Commerce are expected to get the ball rolling now on their annual Christmas lighting and decorations program.

OUR APPEAL A FEW WEEKS ago for parakeet stories to use in this column has brought a generous response from readers. One bird fancier wrote, "Here's one for the book." We think so, too, so here 'tis:

Penny, a yellow parakeet which talks a blue streak, was within an inch of becoming a jailbird.

Then friends of Mrs. Gertrude Menge of 4704 Dexter, in Fort Worth, came to the little warbler's rescue by posting a \$70 bond which kept him out of the county clink.

Penny was actually an innocent bystander (or perch sitter) in a dispute between Mrs. Menge and Mr. and Mrs. Edward J. Beran, operators of Ridgley Beauty Salon.

Mrs. Menge, who formerly worked at the beauty shop, took Penny with her when she left. Mrs. Menge said she had a right to do this since Penny was purchased with her tips.

But the Berans contended the bird belonged to the shop and filed suit to get Penny back. Peace Justice R. S. Callaway ordered Deputy Sheriff Hershel Robel to pick up "one (1) yellow (chanteuse) parakeet, one wing clipped, in wire cage" and hold it until the trial unless Mrs. Menge guaranteed its appearance in court by posting a \$70 bond.

Roberts scratched his head. There was only one place to keep Penny, he decided, and that was the county jail. But should it eat regular jail fare, which some prisoners say is "suetricity for the birds," or get special rations?

The bond solved the problem.

Penny, who is expected to do plenty of "singing" in the courtroom, refused to discuss the fate which almost befell it.

A GROUP OF US IN the pressbox at the recent "B" team game between Spur and Post were commenting on the difference in size between the two teams, when one fellow spoke up and said that Post never had fielded big teams in any division. To which Bryan J. Williams replied, "Too many dry years."

AT THE RECENT HEARING on the telephone company's rate increase request, one city official rose from his chair and quietly made his way downstairs from the City Hall auditorium, where the hearing was in progress. In less than five minutes, he was back—refreshed. "I found the best Coke machine in town," he said. "I put in a dime and got back two nickels and a Coke."

AT FRIDAY NIGHTS 4-H Achievement program, Donald and Tommy Young were presented a \$337.28 check in payment for their calf sold at the State Fair of Texas. The brothers started out several months ago with a calf apiece, but when one of the animals died, they decided to form a partnership in raising and exhibiting the other one. They did an excellent job, too.

Famous 'Bank' At Monte Carlo Refuses To Admit Babson Because He Is Statistician

BABSON PARK, Mass.—Last week the Babson Organization celebrated its Fiftieth Anniversary. Famous speakers and about 2,000 clients, friends, and guests were present. Readers have seen references to these addresses in the press, but I have saved my remarks exclusively for this column of my 418 newspaper clients. Here is the story:

Turned Down At Monte Carlo
When I last visited Monte Carlo, Monaco, to look on as a spectator, I was required to give my business card before entering. The only card I had referred to me as a statistician. As a result, I did not get into the gambling casino. I tried a second and third time, but with no better results. I then went to the general offices of the company to find out the reason why I was not admitted. This is what I found:

The French Government had learned that the German Chiefs of Staff, just before the German armies collapsed in 1945, had made marked studies in what is known as Psychological Strategy. It is said that this is what enabled the Germans to nearly break through at the time of the famous "Battle of the Bulge," which was stopped by Montgomery and Patton. The super-mathematicians of Germany had figured out in advance that it would be possible to break through at that time, in view of what the American Generals were thinking and counting upon.

What The French And Russians Are Doing Today
The French are now making great progress in such studies. It was because of these known studies that the "Bank" at Monte Carlo was becoming frightened of statisticians and mathematicians. I now learn that the U. S. Navy and Air Force have taken up these studies, with the help of the Princeton Institute for Advanced Study. In fact, from this Institute, President Eisenhower has just taken the super-mathematician John von Neumann and appointed him to the Atomic Energy Commission.

While these super-mathematicians have been studying how to ascertain in ad-

DECISION IS NEARING . . .

More than four months have elapsed since General Telephone Company of the Southwest made its request for new rates for local telephone service. Following two meetings, one early in September, the other on Nov. 8, the City Commission apparently is no nearer granting the rate increase than it was the day the request was filed.

No indication was given by the City Commission at the conclusion of the Nov. 8 hearing what its decision would be in regard to the rate request, but some action in the matter is bound to be coming soon. Still holding firmly to the opinion that no increase in rates should be granted at this time, this newspaper hopes the City Commission turns down the telephone company's request without even a compromise.

With some decision in the matter forthcoming, now would be a good time for the general public to let the City Commission know how it feels about the proposed rate increase. At the Nov. 8 meeting, the Mayor mentioned that some people had written him letters in which they opposed any advance in telephone rates and that others had stopped him on the street for the same purpose. Like congressmen, the members of a city commission like to know how their constituents feel about such matters. If you are one of those who think you are paying a fair price for the type of service being furnished here by General Telephone Company of the Southwest, then let the City Commission know about it. By the same token, let the City Commission know if you think the telephone company is entitled to a rate boost.

We are of the opinion that the type of service being furnished here by the telephone company does not entitle them to an increase in rates. If they are not, as they say, getting a fair return on their investment in Post, our answer to that is that they ARE getting a fair return for the service they are rendering.

Other towns the size of and much smaller than Post have dial telephone systems. The telephone company argues that such a change-over here would be too expensive. Does that mean that they want greatly increased rates under the present system with no improvement in service? The way we read it, it does.

From the company's headquarters, we've just received a news release telling about the new \$1,000,000 general headquarters building into which it will move Nov. 22. The president of the company is quoted as saying that the building is designed for 100 per cent future expansion. We mention this merely to bring up the thought that the company's request for higher rates in Post might not seem so much out of line if we had the assurance of even a 50 per cent improvement in service. If we had our choice of helping the company pay for a new million dollar building or better local service, we'd take the latter two to one!

THE WOMEN, GOD LOVE 'EM: If a woman wants to learn to drive, don't stand in her way.

The main thing wrong with that dollar that used to buy three times as much as that you didn't have it.

The modernist's prayer seems to be: "Lead us not into temptation, but tell us where it is and we will find it."

SINCE POST IS one of the many towns that has been victimized by professional promoters in the sale of tickets on new automobiles raffled for alleged welfare purposes in the names of veterans and fraternal organizations, we noted with interest that a recent bulletin from the Better Business Bureau of Austin, Inc. exposes these statewide malpractices.

The bulletin says that these activities have not only mulcted hundreds of thousands of dollars from well intentioned benefactors of many so-called "worthy causes," and defamed the names of many respected organizations, but also violate state lottery laws and in some instances involve fraud and swindling.

In the Austin Bureau's files is a 15-page affidavit signed by a former charity racketeer in which this public deception is exposed.

The Attorney General's office has opined that the main remedy to combat this evil appears to be with the various city governments (where ordinances regulating charitable and welfare solicitations are in effect or could be effected), or with the county and district attorneys should fraud or swindling be involved, or violations of lottery law be apparent.

Giveaway - deal racketeering appears to be greatest in small Texas communities, and elsewhere authorities are loath to take action because the projects are usually sponsored by some well known and respected organization. What authorities do not know is that sponsorship by a veteran or fraternal organization often is a gimmick to clothe a racket with an air of decency not found in actual operations.

THE AMERICAN WAY

Regulation in the Public Interest

Our Contemporaries Are Saying

Persistent Rumors

The persistent rumors that President Eisenhower will not seek a second term will probably be accelerated if the Democrats do gain control of the Congress during the last two years of his present term. The President, who is in the habit of "boasting" the job may be unsatisfied with playing second fiddle to a Democratic legislative program which he cannot wholly approve and decide that he will turn the whole thing over to the politicians—"Minute Editorials" in The Lockney Beacon.

There's Another Factor

We spend considerable time in talk of attracting more people to Abernathy to make their homes. That's fine, were for it all the way. But, are we not neglecting another very important factor? We are attempting to rear our children to be just the type of citizens we want to lure here as permanent residents. Why not spend more time, effort and money to make Abernathy a place desirable enough to induce our children to remain here as permanent citizens when they grow up and have homes of their own—"Talk in Print" in Abernathy Weekly Review.

It Is Very Simple

A reader calls attention to a story in the Herald-News last week with a date in the headline different to the date in the story referring to the same event. He seemed considerably puzzled, but I can see no difficulty there. It is very simple. If the date in the headline is right, then the date in the story is wrong. Or, if the date in the story is right, then the date in the headline is wrong. What's difficult about that?—"Pen Feathers" in The Hamilton Herald-News.

What we are talking about is that, after years of discussion, the plunge has finally been made and plans are shaping up for a swimming pool for the city. Well maybe you couldn't plunge in quite yet. Perhaps we had better go back where we started and state that our feet are wet—"Trends" in The Crosbyton Review.

Mother Goose In Texas

Peter, Peter, Pumpkin-eater Had a wife and couldn't keep her. Put her in a pumpkin shell And there he kept her very well.

Origin of the legend of a Mother Goose which kept children out of mischief by telling them stories and rhymes is very old, but the origin of most of the rhymes in the classic has been determined, because they were first used as songs ridiculing public figures, even kings and queens.

The rhymes quoted above were said to have been sung in ridicule of Henry VIII, whose six wives were rather a record number.

Although the rhyme remains in memory of most people in about the same form as quoted, it may have inspired the "trade-out" following:

Peter Simon Surklegg Traded his wife for a duck egg.

The duck egg was rotten So he traded it for cotton.

The cotton was yellow So he traded it for tallow.

Then he traded for a calf, a kettle, a jack, a sleigh, a churn which wouldn't "dicker," which he traded for "dicker," etc. I wonder how much of it readers can recall.

Variants of these or similar rhymes will be recorded in the permanent collection of Mother Goose in Texas, if sent to Ray Wood, Raywood, Texas.

'Bengal Brigade' Is Coming To Tower

The Tower Theater joins Sunday and Monday in the national world premiere showing of "Bengal Brigade," starring Rock Hudson and Arlene Dahl.

The seething violence of India's most turbulent era comes to gallant life on the Technicolor screen in this beautifully mounted heroic adventure.

Opening with a spectacular filming of the last-ditch defense of Malakal Pass, the picture is swept with the history of a revolt-ridden people.

The scope of "Bengal Brigade" is matched by a regiment of sterling performers. Besides Hudson and Dahl, there are Ursula Thiess, Torin Thatcher, Arnold Moss and Daniel O'Herlihy.

Mr. and Mrs. Elmer Hill of Waco flew to Post Saturday to spend the weekend with Mrs. Hill's aunts, Mrs. Gladys Hyde and Miss Nora Stevens.

AN EXPRESSION OF OUR THANKS TO YOU...

As we enter this, our SEVENTH YEAR of business in Post, we pause to thank each of you for the splendid patronage you have given us during our six years of service to this community in the automotive electric business.

During this time we have formed a warm friendship with the people of this community. We have enjoyed, from year to year, an increase in our business and have become to feel that we are substantial in the town.

May we continue to serve you in the years to come, and may our service continue to warrant your patronage.

We are deeply grateful to each of you.

Meeting Tonight On Youth Center

A group of parents working on plans for a youth recreation center here will meet at the Band Hall at 7:30 o'clock tonight for the purpose of setting up an organization for the project.

Dr. B. E. Young, who last week acted as spokesman for the group in requesting the school board to make the band hall available as a youth center, said tonight's meeting will be for the purpose of drawing up rules and regulations, appointing committees, etc.

The school board has agreed to lease the band hall to the group for use as a youth recreation center as soon as the band room in the new junior high school building is ready for use.

Leo Acker and S. E. Camp were appointed as board representatives to meet with the parents in regard to lease terms and other details of the transaction. This meeting will be held as soon as the parents' group completes its organization.

Mr. and Mrs. Jess Greene of Houston are guests of Mr. and Mrs. L. V. Earick this week.

Sunday Rainfall Ups '54 Total To 12.50

Sunday's rainfall, the first measurable amount here in several weeks, totaled .10 of an inch on the gauge kept by County Agent Lewis C. Herron.

The 1954 total to date is about 12.50 inches as compared with last year's 11.27 total.

October, 1954, rains here were way under the 1953 October total of 3.99 inches.

Young Polio Victim Reported Improved

Charles Lyn Baker, 3, who has been in the West Texas Polio Center at Plainview since Oct. 15, is reported improved this week, although still unable to sit up.

The child is the son of Mr. and Mrs. Robert J. Baker of the Close City community. His mother said Tuesday that it still is indefinite as to when Charles Lyn will be able to leave the hospital.

Mr. and Mrs. Thomas Johnson of Lovington, N. M., were Tuesday guests in the home of his parents, Mr. and Mrs. Tom Johnson. She remained for a longer visit.

Teen Girls Return Home Friday From Four Weeks Trip To Japan

Mildred Boren and Miss Carolyn returned home Friday afternoon and spent the day with their husbands and children. B. J. Boren was on leave from base at Pusan, Korea, and Carolyn left here Oct. 14 for Amarillo, Texas, to take a plane, arriving Saturday night. During several hours in Tokyo and arrived at Amarillo Tuesday, Japan-ites they had crossed national Date Line.

at 5 o'clock, but we never understood why, as the stores don't close there until around 8 p. m. We were impressed by the attire of the school children. All the little girls wear navy blue middie dresses and the boys, military uniforms. Many of the women still wear the native dress. Men and women who work in the rice paddies wear coolie hats, full pants with tight legs and wooden shoes. The women pull the wooden plows and the men guide them.

HUMBLE BITS

Howdy Folks: This country is under quite a handicap. It can do anything any other country can do except borrow money from the United States.

The modern version should be "handouts across the sea."

Perhaps our diplomats could learn from Malenkov. He's the one who "no's" best.

When Malenkov agrees, there's more than meets the eye.

A friend of ours advanced the idea that a good way to end secret diplomacy would be to admit women to the diplomatic corps.

It's well known that women can keep a secret with telling effect.

Men or women, a secret usually circulates rapidly.

In that connection, it's no secret that more people are buying our GASOLINE than ever before.

NEW BIGGER PLYMOUTH—Plymouth's completely new 1955 cars are lower, wider and more than 10 inches longer than previous models. With either a PowerFlow Six or Hy-Fire V-8 engine, they are the most powerful cars Plymouth has ever built. They went on display Wednesday at Post Auto Supply.

Bigger, More Powerful Plymouths On Display At Post Auto Supply

Plymouth's bigger and more powerful 1955 model cars went on display Wednesday at Post Auto Supply. Noah Stone, proprietor of the motor firm, invites the public to see the models of the new Plymouth he has on display.

The 1955 Plymouths are entirely new, both in styling and engineering detail. They are lower, longer and wider than previous Plymouth cars.

They are the most powerful cars Plymouth ever built. The 1955 engines are a 117-horsepower PowerFlow six, a 157-horsepower Hy-Fire V-8 and a 167-horsepower Hy-Fire V-8. The latter engine also is available with a four-barrel carburetor and special manifold which increase its horsepower to 177.

Plymouth offers as optional equipment a full range of automatic and power assist devices.

The 1955 line is made up of 12 models, including for the first time four-door versions of the Plymouth Suburban, the all steel body "station wagon" type car which Plymouth pioneered in 1949.

Plymouth's 1955 styling is the creation of a design team headed by Virgil M. Exner, director of styling. It is based on the premise, Exner says, that styling must first be conceived as a unity. Ornamentation is then used to accentuate existing highlights rather than to create new ones.

Among the distinctive features of Plymouth's new styling are a low silhouette, slimness and sleekness of body lines, deeply recessed head lights and tail lights, and an overall appearance of forward motion.

The color styling and fabrics of 1955 models are new. They are also trend-setting, in the confident belief of Plymouth designers who made use of new methods of analyzing color preferences and cycles of color popularity. The 14 new exterior colors in the new models, for example, were chosen in a series of eliminations which started with 90 different colors.

One of the novel features of the interior is the design of the instrument panel, which reflects sport car influence. Instruments are positioned to provide balance and eye-panel. The "Flite-Control" gear selector for Plymouth's Power-Flite transmission is positioned on the instrument panel instead of the conventional mounting on the steering column.

Standard wheelbase of the new models is 115 inches, an increase of one inch.

Another entirely new feature is a compact heating and ventilating unit mounted on the dash. It takes in outside air from the cowl vent at the base of the windshield.

Chairman Urges Bond Purchases

Additional purchases of \$42,500 are needed for Garza County to reach its 1954 Savings Bond quota, according to T. R. Greenfield, county Savings Bond chairman. The goal is \$147,000.

"Buying Savings Bonds is important to every person and each community," Greenfield said. "This is one of the best and easiest ways to save and to build personal, business and community reserves."

"In Savings Bonds your money is absolutely safe and always readily available in case of emergency or for some planned project. New features of both the Series E and H bonds, such as the increased interest rate of three per cent compounded semi-annually, make them more attractive than ever."

"We trust that Garza County citizens will cooperate and buy more bonds during the remainder of this year to help reach the county goal."

Mrs. Jake Heiskill left Tuesday morning for Whippany, N. J., to visit with her daughter, Mrs. Andy Harmatink, and family for several weeks.

PONY SHOW JUDGES

George (Sooty) Samson and Earl Hodges have been named to serve as judges for the second annual Floydada Pony Show, slated for Nov. 26. Both acted as judges for last year's show.

Mr. and Mrs. Sherrill Boyd and Don spent Sunday at Lubbock in the home of his nephew and family, the C. W. Lynns. The

Lynn's son, Cpl. Budge Lynn, was home on leave. He will fly to New York this weekend and will sail Sunday for England, where he will be stationed with the Air Force.

A weekend guest of Mrs. R. W. Babb and Ganel was Miss Betty Bratcher of Plainview. Other Sunday visitors were Truett Babb and Sonny Curtis of Slaton.

LED FOR TOMORROW—As now as its is the "styled for tomorrow" De Soto series introduced for the first time for This all-new four-door model is lower, longer, roomier and has the most powerful engine built by De Soto—the 200 horsepower Firelite hemispherical combustion V-8.

New De Soto 1955 Models Are On Display Here At Post Auto Supply

Auto Supply joined other Plymouth dealers at the nation Wednesday displaying for the first time completely new lines of automobiles for 1955.

are the Firelite series of sedans, Sportsman and convertible coupes, fully new in every detail covered by the new Firehorsepower hemispherical combustion V-8 engine, equally new Firehome with a new Firehome V-8 rated at 185 horsepower. Some models include a sedan, Sportsman hardtop, station wagon, Special and station wagon, light new De Soto models are dimensionally and the longest, lowest, and most powerful in the company (except special purpose version newly designed with a wheelbase of 126 inches. The 1955 models have a length of 217.9 inches;

height has been reduced in the four-door models to 60.6 inches and to 59.9 inches in the hardtop and convertibles; hip room and leg room has been substantially increased in all models, with front seats over 64 inches wide and driver leg room measuring more than 34 inches.

In announcing the new cars today, L. I. Woolson, De Soto president, declared that the 1955 De Sotos contain more styling innovations and engineering advances new to the industry than any new car since the advent of the first De Sotos in 1928.

Among the new exterior features that distinguish the 1955 models, Woolson listed:

"New body lines—slim, clean, taut, expressive of great power and performance.

"Massive grille integrated with bumper.

"Recessed headlamps with a distinct Continental flair.

"Functional air scoop incorporating the De Soto emblem.

"Full wrap-around 'New Horizon' windshield that gives driver complete range of vision at eye level where it is needed.

"Sun Cap visor of heavy chrome.

Javelin-like chrome strip running the full length of the car, accentuating body highlights.

"Semi-flush push-pull door handles.

"Colors — brilliant metallics and soft pastels, 13 solid colors and 42 two-tone combinations. "Tubeless tires."

The De Soto president said that for the first time the new De Soto models with Powerlite transmissions will have a "Flite Control" selector lever mounted on the instrument panel directly in front of the driver.

The frame has been redesigned and is heavier and sturdier than ever before. Rear springs are mounted on the outside of the fully boxed side rails, 5.6 inches wider apart than on previous models. Front tread is nearly inches wider, and the combination of wider tread and spring suspension reduces cornering roll to a minimum.

Windshield wipers are variable-speed electric; blades park off the glass when not in use.

Steering linkage is also completely new with a new symmetrical idler arm design providing nearly constant ratio at all times and making steering virtually unaffected by vertical wheel action.

The brake pedal has been nearly doubled in width and is suspended from above for easier action and readier accessibility from accelerator.

Firelite models have a new four-barrel carburetor which employs two barrels for economical cruising and all four for high speeds or a burst of acceleration. Firehome two-barrel carburetors have been redesigned for maximum efficiency.

Available optionally are: De Soto Powerlite transmission, Full-Time power steering, power brakes, four-way power seat control, electric window lifts, Air-temp air conditioning, search-tuning radio, and power operated antenna.

Announce Birth Of 31st Grandchild

The birth of a grandson last Thursday brought to 52 the number of members of the immediate family of Mr. and Mrs. John W. Sutter, owners of an upholstery shop here.

The new arrival is a boy, born to Mr. and Mrs. Floyd B. Smith of Irving, and is the Sutters' 31st grandchild.

The Sutters have 13 living children. Mr. Sutter, who is 53 years old, says one more grandchild would bring the number in their immediate family up to his age in years.

Students Appear On TV Program

The "Modernaires," Post High School orchestra, and five soloists were presented from 5 until 5:30 o'clock Saturday afternoon on KDUB-TV's Teentime Talent Show.

Bobby Dunlap, the orchestra's announcer, introduced the following numbers:

Jimmy Short, vocal solo, "Sh-Boom"; orchestra, "Blue Tango"; Linda Moreland, vocal solo, "Blue

See it today!..the exciting New 1955 DESOTO

AND NEW POWERFUL V-8 ENGINES: FIRELITE 200 H.P. • A MIGHTY, NEW 185 H.P. FIREHOME

With all its power the accent is on **STYLE!**

Fresh, modern style sets the pace for the longer, lower (barely 5 feet) 1955 De Soto. Style in the gleaming brightness of its new grille—along the clean, taut body lines—in the massive New Horizon full wrap-around windshield. This fresh, vibrant style extends inside, too. Luxury in the feel of new fabrics—hearty vinyls and soft leathers—all blending with the gay interior color schemes. De Soto's "Dual-Cockpit" instrument panel is modern, beautiful. The "Flite Control" gear selector lever is mounted on the dash. And to power this '55 De Soto are two new V-8 engines: 200 horsepower in the new Firelite series and 185 horsepower in the Firehome series—now selling at a new, low price. ATTEND MEETING

Garza County's Agricultural Stabilization and Conservation committee members and Mrs. Inez Hartel, acting ASC office manager, were in Lubbock Wednesday to attend a district meeting on the 1955 Agricultural Conservation Program.

STILL POLITICAL

HOPEWELL, Va.—When Dr. D. Lane Elder declined to seek reelection here after 28 years as mayor and 34 years on city council an erroneous rumor started that he would retire from politics. No, he said, he will continue as a member of the Hopewell Democratic Committee and the committee for the Sixth Virginia Senatorial District. He has headed the Hopewell Committee since 1916.

TRIPLET CALVES

VICI, Okla.—Cliff Kahoe's Jersey cow has Whiteface triplets. Kahoe says the calves, whose father was a Hereford, are becoming family pets. There is a traffic jam at meal time. All three insist on nursing from the same side.

Feed Applications Are Being Processed

Garza County's Farm Home Administration met Wednesday for the purpose of approving applications for grain and hay purchases under the drought disaster relief program. It was the third meeting of the committee since Garza County was designated Oct. 30 as a drought disaster area.

Members of the FHA committee are Will Wright, George Carpenter and George Sartain.

The applications for grain and hay purchases are accepted at the Agricultural Stabilization and Conservation office here and approved at called meetings of the FHA committee.

Cuba produced eight million tons of sugar in 1952, but in 1953 production was limited by the government to 5,700,000 tons, and to 5,400,000 tons in 1954.

"Wait For The Green!" Advice Given To Texas Walkers By Safety Expert

"Wait for the Green." This advice was given to Texas walkers today by R. B. Roaper of Houston, president of the Texas Safety Association, and chief safety engineer for Humble Oil & Refining Company as he announced the November Pedestrian Safety program which is being sponsored in Texas by the Texas Safety Association, the Texas Department of Public Safety and the National Safety Council.

"Too many pedestrians in our state react to traffic lights as if they were something set up to harass the walker rather than to help him," he said.

"Traffic lights are installed to protect pedestrians and motorists," he said, "and the walker who ignores or flaunts them is not asserting his independence, but throwing away his safety."

"This also goes for obedience to traffic officers and all traffic signals. As tax payers, pedestrians and motorists are paying for these traffic safe-guards. In general, they recognize the necessity for them. But when they can get some personal benefit from these safeguards, many citizens don't take advantage of them. That's not exercising good business judgment."

"It's especially important for pedestrians to take advantage of all traffic safeguards during the winter months," Roaper said.

He pointed out that the greater number of hours of darkness and the prevalence of rain cut down on the visibility of motorists and pedestrians. "Another hazard," he said, "is the holiday shopping which begins at this time of year."

Farm Census Is Slowing Down

Progress of the 1954 Census of Agriculture in Garza County and elsewhere is being delayed because farmers have not completed the forms which were sent to them by mail. This word comes from the director of the census to Ira E. Gattis of Tahoka, district supervisor.

Two of the enumerators in Garza County are Byron Haynie and Mrs. Guy Nutt. Names of the others were not immediately available Tuesday.

Failure to complete the census questionnaire slows down the enumerators and greatly reduces the number of farms which can be visited each day, explained Gattis. This makes the work of the enumerators more difficult and materially increases the cost of the undertaking.

The information which farmers are being asked to supply is not only valuable to them in planning future operations but to business men who supply the farm market's needs; agricultural leaders to whom farmers look for guidance and the agencies and organizations which

Army Training School Choices Open To Grads

In an effort to fill its ranks with qualified and career-minded personnel, the U. S. Army continues to authorize enlistment and re-enlistment in a wide choice of initial assignments, according to Sgt. Burton Staats of the Lubbock Army Recruiting Station.

Sgt. Staats listed the following choice of assignments as being available, on a quota basis, to qualified applicants for enlistment in the Regular Army: Adjutant General's Corps, Armor, Army Medical Service, Artillery, Chemical Corps, Corps of Engineers, Finance Corps, Infantry, Military Police Corps, Ordnance Corps, Quartermaster Corps, Signal Corps, Transportation Corps, Regular Army Unassigned, and Airborne Unassigned.

It was pointed out by Sgt. Staats that the Army maintains service schools to train personnel in all of these branches.

"Another unusual incentive the Army is now offering prospective enlistees is the Army Technical School Training Program, which allows high school graduates to actually select the training school of their choice and have their attendance guaranteed before they are required to enlist," Sgt. Staats concluded.

The U. S. Army recruiting Station, located in Room 204, Post Office Building, Lubbock, is open daily, except Sunday, to furnish expert assistance and advice to both men and women interested in a military career.

SHOPPING FOR SPEED

SOUTH HAVEN, Mich.—Mrs. Norman Nelson lost her 1934 model "shopping car" to hot rod racing. Her husband, an ardent hot rod fan, converted the old buggy and she doesn't mind it at all. Mrs. Nelson plans to drive it in the powder puff derby.

service agriculture. Too, says Gattis, the census information on the nation's agricultural resources is of vital importance to the 163 million citizens of the country.

The nation's taxpayers are footing the bill for the census taking job and Gattis points out that anything which a farmer can do to speed up the work will reduce the cost. All farmers who have not completed the census questionnaire should give it immediate attention so it will be ready for the census taker when he visits the farm.

Attend Rites For Victim Of Wreck

Mr. and Mrs. Dew Davis and son, Mr. and Mrs. T. F. Davis and Mr. and Mrs. C. W. Blacklock attended funeral services at Lamesa Tuesday for the Davis men's sister, Mrs. Virginia Ray Smith, 28, who died Sunday night in a Hobbs, N. M., hospital as a result of injuries suffered in an automobile accident at 12:30 a. m. Friday.

The wreck occurred about three miles east of Lovington, N. M., on the Denver City highway. Hershel McDowell, the driver of the car in which Mrs. Smith was riding, was killed instantly in the wreck. Investigating officers said the driver apparently lost control of his car, careened into a ditch and overturned.

Besides the brothers of Post, Mrs. Smith is survived by her husband, H. M. Smith of Odessa, three sisters and two other brothers.

Mr. and Mrs. Dew Davis and son also attended funeral services in Breckenridge Friday afternoon for Mrs. Davis' brother, I. L. Goswick, 67, who died of cancer.

Army To Up Date On Service Releases

Army personnel whose release from active military service would normally take place during the Christmas-New Year period will, with some exceptions, be separated between Dec. 13 and 17 in order that they may spend the holidays at home, the Department of the Army has advised Fourth Army headquarters.

Officers and enlisted men who return from overseas and are scheduled for separation during the holiday season period will be separated as soon after arrival as possible. To preclude overseas returns from reporting for reassignment during the Christmas holiday period, leave for this period has been authorized.

From where I sit... by Joe Marsh

Granny Drives But Won't "Shift"

Saw Grandma Taylor parking her 1924 Franklin out front the other day. Neat as a pin, radiator and hub caps gleaming—the whole car is as shiny as the day she bought it 30 years ago.

Then I stopped and looked again—for there, hanging on the spare tire was a sign: "This car NOT for sale."

Asked Granny what was going on. "Joe," she says, "it's this craze for old cars. Everybody wants to buy my Franklin. But it has served for years and it's not for sale at any price."

From where I sit, it's strictly the new cars for me—but Grandma Taylor, and others, are certainly welcome to their "old faithfuls." It's simply a question of preference. Same with a choice of beverages. For instance, I like a temperate glass of beer with supper. You may prefer coffee. Fine! The important thing is that we respect each other's choice—and "ride along smoothly" together.

comes an all-new General Motors masterpiece PONTIAC FOR '55

The 1955 Pontiac is getting a royal welcome. "It's hot," they're saying, "the hot car of the year." And no wonder! With its Vogue Two-Tone styling and Strato-Streak V-8 engine, Pontiac wraps up more beauty, luxury, size and power than a like amount of money ever bought before. The price is near the lowest, but the car is way out front in everything that makes an automobile great.

The reason lies in the achievement General Motors is now celebrating—the vast experience gained in building 50 million cars. Research experience that uncovers what you want and need. Design experience that creates new trends. Engineering experience producing more dollar-for-dollar quality year after year.

That's the background of this All-New General Motors Masterpiece. Come in, drive it, and find out what it means to you. Let your own eyes tell you that here is the smartest car on the highway. Let your own hands report the new handling perfection brought about by recirculating ball steering and other advancements in the all-new shock-proof chassis. And let the great new Strato-Streak V-8 whisper its tale of getaway, response and compelling power that make driving a brand-new experience.

Then let us tell you about Pontiac's new thrift and reliability—and how little it costs to buy this future-fashioned beauty. Come in soon and get the exciting facts!

Post Invited To Have A 'Day' At Fat Stock Show

Post has been extended a special invitation to have a "day" at the Southwestern Exposition and Fat Stock Show in Fort Worth, Jan. 28 through Feb. 6.

The letter to the Chamber of Commerce was signed by N. R. Watt, president-manager, and Boyce House, publicity director of the exposition. The invitation states:

"The Stock Show seeks to serve the great livestock industry of our great Southwest and the growth of the exposition through the years has been made possible only because of the wonderful support which has been given and we want to express deep appreciation for this.

"Your city is extended a special invitation to have a day. "By having a special day, your city of course will receive worthwhile publicity and, by coming in an organized group and by bringing your band and Cow-girl Sweetheart, you will make a real impression.

"Such delegations add lots of 'color' and do much toward the success of the Stock Show. We are counting on you again and hope to have your acceptance soon."

The Fat Stock Show is marked by the attendance of what is believed to be the largest number of organized delegations of any exposition of any kind in
