Fire each year burns over forest lands equal in area to New York State.

Sweaters were originally designed for athletes to wear before and after games to prevent cold.

Farmers in 1947 are expected to receive higher prices for eggs than they are getting this year.

Americans eat more cabbage than any other vegetable except potatoes.

Mr. and Mrs. L. W. McCombs left for California Saturday, where they will visit several places of interest.

Mr. and Mrs. O. L. Weakley are spending Thanksgiving Day in Sweetwater, visiting with friends.

Farm Youngsters Taught Value of Good Grooming

FARM mothers teach their daughters from childhood that "pretty is as pretty does," points out the Rural Home editor of nationally-circulated Capper's Farmer. "Getting an early start is as important in learning beauty and grooming lessons as in most other things," she writes. "The little girl who always brushes her teeth after every meal and loves her splash in the tub before bedtime is the one who grows up to have a pretty smile."

"She'll be known for her dainty freshness. And her own children will love her because, she always looks so good and smells so sweet!"

Tooth brushing is a habit with 5-year-old Alice Jane, daughter of Mrs. Doyt Galloway of Van Wert county, Ohio. Mother and daughter enjoy spending a few minutes together each day keeping up their good looks.

Alice Jane knows the right method for brushing to give clean, white teeth and healthy gums. Her own little footstool by the lavatory makes it easy for her to climb up and look in the mirror to watch the brushing.

POST ROTARY CLUB HAS HIGH ATTENDANCE DURING OCTOBER

The Post Rotary club ranked in the high ten among the sixty-two clubs of the 127th district in attendance last month, according to Tuesday's issue of the Branding Iron, the club's weekly publication.

The local club stood at eighth place with percentage of 95.60 for the month. Membership of the sixty-two clubs in the district is 3,373.

Mrs. Dick Qualls, former Post citizen, now of Petersburg, visited friends here last week.

Studies conducted by the U. S. Department of Agriculture show that pure 2-4-D does not harm milk cows.

SISTER KENNY WILL MAKE TEXAS VISIT

Sister Elizabeth Kenny, famous Australian nurse, and exponent of a new and quite successful method of treating infantile paralysis will pay Texas an official visit during

SISTER ELIZABETH KENNY

the first week in December, according to advices received at Austin by George C. Francisco, Jr., of Houston, chairman of the Texas Executive Committee of the Sister Elizabeth Kenny Infantile Paralysis Foundation. A state campaign is now underway to raise the Texas quota of \$150,000 in the annual campaign for funds to keep the Kenny method of treating polio on the upward path.

State headquarters at Austin announced that the tentative schedule for Sister Kenny in Texas would be Dallas, December 4; Houston, December 5; San Antonio, December 6, and Fort Worth, December 7.

BLAIR TEST IN POLAR FIELD BELOW 2,855 FEET

Humble No. 1 Blair, in southwest Kent county, and about one half mile east of the Garza county line, last week and had reached 2,855 feet in lime and was continuing to make hole.

The well is about two miles southwest of the discovery well for Ellenburger production in the Polar field, and is in the southwest quarter of section 44, block 5, H&GN survey.

Orus Parr of Dallas is visiting in the home of his parents, Mr. and Mrs. E. Z. Parr this week.

POST, TEXAS

WEEKEND CAMPS FOR BOY SCOUTS PLANNED

The first of a series of weekend camps for Boy Scouts of the southern districts of the South Plains Council was held at Camp Post last Saturday with a number of troops attending. The encampments are to be held monthly, on next to the last weekend of each month.

A campfire was led Saturday night by Joe Spikes of Lamesa, and an outdoor worship service was held Sunday under the direction of Arzie Kirk. The remainder of the program was under leadership of scoutmasters in attendance.

Included in the districts are the following troops and their leaders: troop 19 of Seagraves, Ted Hicknell, scoutmaster; 22, Seminole, Arzie Kirk, scoutmaster; 77, Denver City, M. Baker, scoutmaster; 22, Lamesa, Joe Spikes, scoutmaster; 74, Brownfield, Ralph Bailey, scoutmaster; 45, Brownfield, K. P. Chartier, scoutmaster; 49, Brownfield, Johnnie Kendrick, scoutmaster; 21, Tahoka, A. R. Mülken, scoutmaster; 16, Post, Frank Eaton, scoutmaster.

Efforts Being Made To Promote Area Softball League

Twelve South Plains towns are being invited to enter teams in a South Plains Softball league for the 1947 season.

Ralph Bumpass, owner of the Blue Bonnet Laundry of Lubbock, is promoting the organization. He proposes to make the league up of teams from the following towns: Plainview, Lubbock, Littlefield, Levelland, O'Donnell, Slaton, Brownfield, Seagraves, Sundown, Tahoka, Southland and Post.

Post softballers are invited to write Mr. Bumpass and present their views on forming the league and entering a team from Post.

Weldon Jobe Accepts Position With Tractor Co.

Weldon Jobe, who before the war and for a short time after his return from the Navy last summer was associated with Greenfield Hardware Company, and later accepted positions in Tahoka and Houston, has moved back to Post, and is now with the Post Truck & Tractor Company. Mr. Jobe is to be in charge of the parts department and mechan-

ANITA DAVIES SENDS IN FIRST LETTER TO SANTA CLAUS

A gentle reminder to the young tots of Garza county that Santa Claus would be interested in reading their Santa Claus letters in the Dispatch was brought to mind Monday when the editor received the first letter of the year.

Anita Davies, oldest daughter of Mr. and Mrs. Harold Davies of Cisco, formerly of Post, was the writer of the letter. She writes for herself and her little sister, Jay.

If our records are correct, Anita was the first on the list last year with her letter to Santa just before she moved to Cisco with her parents.

Letters to Santa will be published in the two editions of the Dispatch just preceding Christmas. So, kiddies, get your letters in the mails early.

Anita's letter follows:

Cisco, Texas
Dear Santa Claus:
Please bring me and my little sister a ditty doll piece. And bring me a baton and bring my little sister a tractor. Bring some dishes and some doll dresses a-piece and bring my little sister a leaf shop.

Range Conditions And Grasses Studied Here By Students

Range land grasses and plants, as well as general range conditions, were studied in Garza and Kent counties Sunday and Monday by twenty-seven senior agricultural students of A. & M. college.

The group, accompanied by Dr. Vernon A. Young, head of the range management division of A. & M., arrived here Saturday night and after inspecting Garza county ranges Sunday, and the Paddies ranch in Kent county Monday, returned to the college Monday afternoon.

The Slaughter U lazy S ranch was the first to be visited in this county Sunday morning. The students studied range grasses on both the plains and breaks sectors of the large ranch. High plains grasses, and the tie-in of cropland with pastures for stock farming were studied by the group when they visited the Bryan Williams stock farm.

Winter pastures which have been deferred for winter use, were shown the group when they visited the Johnie Ray place; and contour farming was shown on Double U pasture land. Scrub-oak range land was studied in the Grassburrr community, and salt grasses were seen in the Clear Fork river land east of Post. The Red Sims ranch provided study of mesquite eradication, and the Paddie's ranch offered study on over-used range land, grazed by sheep, and how range improvement practices are being employed to restore the range.

Accompanying the group on their tour from Post were County Agent Frank Eaton, George Samson, Bud Norton, Robert Gibson and Jack Martin. Martin is a former student of Dr. Young, having been in his agriculture class at the University of Idaho.

And please bring me a new pair of skates. And do not forget the other little children.

Love,
Anita and Joy Davies

Mrs. Bob Warren is visiting in Sweetwater with her sister, Mrs. Maud Gross. Mrs. Gross who is quite well known here had the misfortune of losing her apartment house by fire one day recently. Mrs. Warren accompanied her daughter, Mrs. Tom Gates, and family as far as Sweetwater. The Gates went on to Gorman to spend the Thanksgiving holidays with Mr. Gates' mother.

NEW ARRIVALS

Mr. and Mrs. Billie Baenger of Southland are announcing the arrival of a daughter on Wednesday, Nov. 20, at Mercy hospital in Slaton. The young lady was named Sylvia Ann.

GEORGE SAMSON NAMED COUNTY CHAIRMAN OF BEAUTIFICATION PROJECT

George "Scotchman" Samson has been appointed County chairman of the Texas Roadside Council by the Highway Department.

The department is sponsoring a roadside improvement project for Texas to cover a period of a number of years. As a supplementary project, attention is now being focused on the Living Memorial planting program in honor of war heroes of each county.

Another project now in progress over the State is a clean-up campaign.

The Texas Highway Department will continue its present beautification program on the highway proper but with the work of improvement of properties adjacent to the highways by county committees a complete beautification program will get underway.

Samson is planning to solicit the help of civic clubs and organizations of the county and to set in motion a county-wide beautification campaign at a very early date.

Many towns of the area have already made plans to this effect and are selecting shrubs or trees to be planted as a living memorial to members of the armed forces of World War II.

POST CAGERS TAKE TWO GAMES TUESDAY NIGHT AT WILSON

Post's senior girls' and boys' basketball teams racked up victories last night when they journeyed to Wilson to mix with the Lynn county teams.

The girls, with Alma Outlaw high-pointing with 14 tallies, took Wilson 27-15. Jenniece Fluitt was next high with 5 points.

The boys, with Sonny McCrary high-pointing with 19, won their game, 45-21. Bunning McCrary a close second was Roy Lee Williams with 16 points.

Both the boys' and girls' team will play here Tuesday night against Slaton.

MRS. CEARLEY GUEST REVIEWER AT JUNIOR CULTURE CLUB MEETING

Junior Culture club members met in the home of Thelma Miller at 7:30 Tuesday evening to hear Mrs. John Cearley, guest reviewer, present a resume in poetry that might be called the life of a woman. Mrs. Cearley preceded the reading of the poems by a discussion of the need for poetry today and the qualities and requirements of different types of poetry.

During the business hour the committee on arrangements for the Christmas social gave a report and it was decided that the social be held in the home of Wilma Pirtle sometime during the second week of December.

Wanda Norton, associate member was made a regular member, and Mrs. Burnon Haws and Mrs. Reece Hamblen were elected to fill the two remaining vacancies in club membership.

A sales plate was served by the hostess to the guest reviewer and the following members: Wynona Gossett, Carolyn West, Jo Tracy, Fern Jones, Loren Cash, Doris Eaton, Virginia Carter, Martha Bosch, Jo Martin, Wilma Pirtle, Wanda Norton and Inez Hartel.

FRIENDSHIP W.M.U. MET MONDAY, NOVEMBER 25

The W.M.U. of the Friendship Baptist church met Monday at the church for a Bible study lesson, taught by Mrs. Will Teaff. Eight members were present.

All who can are urged to meet with the group next Monday, December 2, with Mrs. Walter Brown.

SO EASY TO CARVE . . .

Easy Tips On Carving The Thanksgiving Turkey

There is a round of family parties in the offing. No season of the year brings so many members of the family together as Thanksgiving.

Father plays a big part around the festive Thanksgiving board as he carves the Bird. A few tips on carving from the Home Service Department of a current magazine were gathered together to help those who are new at the business of playing host and also to help others who are a bit out of practice.

So Easy to Carve . . .

Arm yourself with a fork and a well sharpened knife. See that the bird is parked, with legs to right, on a large platter. Stand or sit—as you please. Now follow the six steps below:

1. Hold tip of the drumstick nearest you with left hand and with carving knife in right cut down and around between leg and body. A slight twist on the end of drumstick will snap hip joint. Now cut leg from body and place on extra plate.

2. Separate the drumstick from the thigh by holding drumstick upright with the left hand and cutting down through joint. If your bird was well brought up and roasted to a turn the joints will fall apart readily with a light touch of the carving knife.

3. To cut meat from drumstick or from thigh, hold by bone and slice down parallel to bone. Your family's whims and appetites will dictate how much you cut off. Little Roscoe may beg for the whole drumstick—or a good part

of the luscious dark meat.

4. To remove wing, hold fork in left hand and insert firmly into wing. Then cut in just above wing and upward to the joint. As you pull it away from body wing will fall—or fingers if need be. It acts stubborn but firm.

5. Next insert fork at point where the wing was removed to keep bird from sliding and holding the knife horizontally, just above fork through to neck frame. This step isn't a must but does allow the slices of white meat to fall free and handsome when carved.

6. Now for the white meat—hold the bird firm by inserting fork deep into breast across top of breastbone. Start halfway from top and slice meat diagonally, against grain, for each slice start a little higher up. Reverse platter to carve other side.

Jack of All Trades

Before the 18th century, a cabinetmaker was not a cabinetmaker at all but either a carpenter, joiner, or a turner, and sometimes several at once, since it was the custom for the man who built your house also to build your furniture. Out of this latter circumstance developed some of the earlier labor troubles on record during which the rights and duties were definitely, though only temporarily, defined.

THE THANKSGIVING HABIT

Thanksgiving is more than an annual event. It is more than the passing impulse of a moment, when the tide of emotion rises to a flood that wells up and overflows into ecstatic praises. It is more than an institution wrought into the established pattern of the conventions of society. It is all this, but it is more.

Thanksgiving is a spirit that comes to characterize all our living. We are so accustomed to associate praying with asking that it is something like a discovery to note how universal is the note of gratitude and appreciation in the prayers of Scripture, even prayers of petition. "In everything by prayer and supplication with thanksgiving let your requests be known unto God."

All this is a matter of habit. Whether we lift our whole outlook upon life into a frame of discontent and querulous complaint, or whether we feel every day with the lilt of songs of praise and thanksgiving depends on the habits of thinking which we cultivate. We enlist a good deal more cooperation from our neighbors if we form the habit of appreciation rather than that of captious criticism or complaint.

The practice of gratitude to God and appreciation of our neighbors gives to everyday living a tone and quality of grace and loveliness. "Oh give thanks unto the Lord, for He is good and His mercy endureth forever."

Editor's Note—A thoughtful lesson is portrayed in the above Thanksgiving message, written by our late beloved citizen, W. R. Graeber. The message was used last year in the advertising space for the Corner Grocery. As was his custom over a period of many years, Mr. Graeber devoted this space to a Thanksgiving message or prayer.

Let us, like our beloved citizen, make the habit of thanksgiving a daily one instead of an annual one.

"SOAPLESS SOAP"

Most people consider petroleum products as chiefly used for fuel and lubricants. As to volume, this is correct, but as to variety of uses it falls far short of telling the story. In addition to the countless services this product renders mankind, we may soon be using oil to wash our hands and clothes.

The demand for petroleum derivatives in the manufacture of "soapless suds" has been spurred by the natural soap shortage which resulted from the decline in supply of animal and vegetable fats. One of the leading American oil companies has joined with a chemical manufacturing concern in stepping up production of an oil-derived detergent. The product is sold directly to industrial users and reaches established trade outlets for distribution under various trade names.

This is but one more way in which oil is playing a role in the American home and business. Its uses and adaptations seem almost limitless. The great experimental and research laboratories which the industry maintains are finding new and varied applications almost daily. And the consumer gets more and better products.

WHAT OUR CONTEMPORARIES ARE SAYING:

BETTER FOOD AND FEED—Scurry and Borden county property owners are in hearty accord with the 1947 aims of the Texas A. & M. College Extension Service program to improve the quality of food and livestock feed.

Program coming up for next year will place special emphasis on better feed and food for better nutrition to meet the needs of the people.

As we realize in this area, one of the major problems in transition from war to peace-time is the economic production of more and better feed. A surprisingly large number of livestock of all classes are not fully fed.

By January 1 the flow of present livestock to wholesale and retail markets will be played out, and if we maintain our public health we will need quality meats to keep worker-management efficiency at a peak next year. Only by growing and feeding better kinds of feed can we achieve this goal. Texas A. & M. College Extension Service is really "on the beam" when it sets out such objectives that can be met on all fronts.—The Scurry County Times.

MONEY SHOULD BE SECONDARY—A well to do business man in discussing the big problem of making money told me not long ago that he had all the money he would ever need and could retire and have more than enough to live on comfortably for many years, but he said that he felt that he would not be able to enjoy that kind of life that he would live if he should retire and that his greatest pleasure is in making more money.

There is no doubt pleasure in having a considerable amount of money and one would feel pride in being able to accumulate even a fair amount of the stuff but money should be secondary to the pleasure of living for after a comfortable home is bought and one has enough income to keep the outfit going, money will buy little else. At least that is my idea and I hope to try it out some day and quit trying to catch up with those fellows who find such a great pleasure in piling up the dough.—The Slaton Slatonite.

He is a wise man who leaves his wife alone when a line full of clothes comes down in the mud.

Thanksgiving

Dear Friend:

At this Thanksgiving season, all of us have special cause to be grateful, for 1946 has brought the world its first full year of peace.

In addition, each of us has his own reasons for giving thanks—for health, for material well being, for national safety, and for all good things which have happened during the year.

We of this organization are particularly thankful for the opportunity of serving you in your automotive needs. We want to continue to serve you, and to serve you in a way that will merit your lasting friendship and good will, for well-satisfied customers are a major cause for thanksgiving in ours as in all other businesses.

With the most cordial good wishes and with renewed assurances of our desire to serve you faithfully and dependably now and in the future.

Sincerely yours,
 J. P. MANLY

WE'VE BEEN TO SCHOOL

BETTER LIGHT FOR BETTER SIGHT

Several of your Public Service employees have recently completed special courses in lighting engineering conducted by some of the country's foremost illuminating engineers. Right now they're busy passing on what they learned to other Southwestern Public Service employees who could not attend the school.

We want you to enjoy better lighting in your homes and stores. These folks are ready now to tell you how to receive the most benefit from your electric lighting and whatever they recommend will lead to better lighting... and better living electrically for you and your family. Call on one of these lighting specialists now at your nearest Public Service office. This is another no-extra-charge service.

Swing of Southwest Farm Markets

Cattle led the gradual upward swing of prices for sheep, eggs, wheat and barley at southwest markets last week, according to USDA's Production and Marketing Administration. However, cotton took another tumble, turkeys and sorghums dropped sharply and hogs declined. Other products remained about steady.

Last week saw turkeys drop to a level below that of last year at this time as demand continued to drop. Prices ranged from 23 to 25 cents per pound for young toms. Young hens held a stronger position at about 16 cents per pound higher. Demand strengthened for good fat hens at 22 to 25 cents per pound. Fryers moved fairly well at \$7 to 40 cents per pound. Also, eggs went up under increased holiday demand for light supplies. Current receipts were quoted from \$2 to 45 cents per dozen depending on the market.

Cotton dropped below 30 cents per pound at some markets last week for the first time since the mid-October collapse. However, activity increased and demand was strong.

Hog trading was slow last week with most markets registering losses of 25 to 50 cents per hundred pounds for slaughter grades. San Antonio reported about the only gains. Friday's prices for top butchers were \$25 per hundred at San Antonio, Ft. Worth and Oklahoma City; \$24 to \$24.25 at Wichita and \$24 to \$24.50 at Denver.

Steady to stronger prices and moderately active trading ruled southwest cattle markets last week.

However, some eagerness showed up on lower grade beef cows and calves. San Antonio sold common and medium grass steers at \$11 to \$12 per hundred pounds and common and medium cows \$9.75 to \$13. Common and medium steers and yearlings brought \$12 to \$15 at Houston and \$12 to \$18 at Ft. Worth. At Oklahoma City good beef cows reached \$17 and medium and good beef steers and yearlings sold at \$15 to \$22. Common and medium cows realized \$10.50 to \$13.50 at Wichita and \$11 to \$14 at Denver where a few loads of good fed steers sold at \$20 to \$23.50 per hundred.

COTTON INSURANCE OFFERED FARMERS

Federal crop insurance on the 1947 cotton crop is now being offered for sale to every cotton farmer in Texas, State Director B. F. Vance of the Production and Marketing Administration has announced. Insurance contracts will be signed in county ACA offices.

Under the 1947 insurance plan, farmers are being offered a wider choice in the amount of insurance they can buy. Coverage may be made for as low as 40 per cent of the average yield and as high as 75 percent, Vance says.

All-risk insurance, which protects the crop against any unavoidable hazards, goes into effect when cotton is planted and continues until it is ginned. The amount of insurance increases as the crop grows, because more costs have been incurred and the crop is worth more to farmers, Vance explains.

"Demand for all agricultural products promises to continue at high levels and no farmer can afford a crop failure when protection can be bought cheap. Crop insurance will help bridge the financial gap if losses occur," the PMA official states.

James Humphreys and family of Teague, Texas, were guests last week in the home of Mr. and Mrs. J. T. Clisp.

CONOCO FARM PROGRAM HEADED BY MAN WHO STARTED FUTURE FARMERS

One of the founders of the Future Farmers of America and for many years a vocational agricultural specialist, Ross Floyd has been appointed agricultural service manager for Continental Oil Company, it was announced at Ponca City, Okla., the first of the week by Harry J. Kennedy, vice president in charge of marketing.

Floyd will assume active charge of Continental Oil Company's agricultural program, which provides a broad service to those engaged in farm, ranch, livestock, and kindred agricultural pursuits, and which in the future will also stress the promotion of activities of farm youth.

SOCIAL SECURITY REPRESENTATIVE TO VISIT POST DEC. 4

Elliott W. Adams, manager of the Social Security Administration in Lubbock, will be in Post, Wednesday, December 4, 1946 at 2 p. m. at the post office. Those who need to file a claim for Social Security benefits, or need a Social Security account number card are urged to be present on this date.

Brides, divorcees and other workers, who have been employed in stores, offices, factories and similar industrial or commercial work, should advise the Social Security Administration of any change in their names if they are to continue to work in such occupations, Mr. Adams stated today.

"The reporting of such changes and corrections is necessary in order that the Social Security Administration may keep their records under one account number," Mr. Adams said. "It is also important because it means full benefit rights when the worker retires, or in case of death of the wage earner, accurate monthly benefits to his or her eligible survivors."

FEED
MAKING

Feed-making costs hit a new low when you belt up your tractor to a money-saving John Deere Feed Mill. You'll turn out more feed per hour with less power—convert your home-grown crops into more palatable feeds that go farther, require less work in handling, less storage space.

With a complete and modern line of John Deere Hammer Mills and Roughage Mills and Feed Grinders from which to choose, you can get the mill that matches your feed-making requirements and your available power.

For all-around feed making, you can't beat the John Deere No. 114-A or No. 110-A Roughage Mills and Feed Grinders—the four-in-one mills that work as a straight chopper, an ensilage cutter, a combination chopper and hammer mill, or a straight hammer mill.

Big capacity, governor-controlled traveling feed table... lawn-mower type cutterhead that cuts fast and clean... heavy-duty grinding unit... and dust-tight feed collector are outstanding features.

TEXAS TEACHERS TO HOLD CONVENTION AT HOUSTON THIS WEEK

Texas school teachers and administrators, expected to be 10,000 strong, will attend the first convention since before the war of the Texas State Teachers association at Houston Friday and Saturday of this week.

Governor Ellis Arnall of Georgia and Dr. Kenneth McFarland, superintendent of Topeka, Kans., schools will be the main speakers at general sessions.

No members of the Post faculty were planning on attending the convention the first of the week, reported Superintendent G. R. Day Monday.

Mr. and Mrs. Fred Meeks of Springfield, Colo., are spending an extended visit here with her parents, Mr. and Mrs. Ott Nance.

An average of five pounds of cheese was consumed by each civilian in the United States during 1945.

Seminole Grabs 6-A Football Title By 46-13 Win Friday

The Seminole Indians, with an undefeated season in football, took the undisputed district 6-A championship last Friday afternoon when they scored a 46-13 triumph over Seagraves. It was the Indians' tenth straight victory for the season.

Halfback Val Joe Walker ran wild in the crap, scoring three rapid fire touchdowns and passing for another as the Indians wrapped up the championship. He raced to touchdowns for 25, 55 and 50 yards during the first two periods, then tossed a pass to Floyd Lunceford good for a touchdown in the third stanza.

The Indians will play the winners of district 5-A for the bi-district championship. The game will be arranged and announced at an early date.

HUDMAN FURNITURE CO. STAGING ANNIVERSARY SALE TO OPEN FRIDAY

In celebration of their first anniversary in business in Post, Hudman Furniture Company is staging a store-wide sale of furniture and household appliances.

The store was opened here last November by Marvin and Victor Hudman, brothers, and was operated for several months before fire destroyed the warehouse of their store, and damaged their large stock of furniture. The firm staged a five-sale, and disposed of all of their stock, and re-opened the business several weeks later with a brand new stock.

The firm has enjoyed splendid patronage during the first year of operation, and a fine stock of furniture is to be offered at reduced prices during the sale.

Gravestone Services Held For Infant Son of Mr. and Mrs. E. W. Perse

Gravestone services for the still-born child of Mr. and Mrs. Karl W. Perse of Corlsbad, New Mexico, were held here Thursday, November 21, at 3:00 p. m. at the Terrace cemetery, Rev. Hiron A. Poinsie of the local First Baptist church, officiated at the service.

The child was named Carol and was born in Corlsbad on Wednesday, November 20.

Maternal grandmother is Mrs. L. A. Barrow of this city. Funeral arrangements were directed by Mason & Co.

Sophomore Soup

The banquet Friday night was a beautiful and unforgettable event. We were all very pleased with our place cards which were, for the boys, their individual football pictures, and for the girls, the football squad pictures.

Mr. Oullag opened the program and then we had some more speakers, including Homer McCrary, who told of the difficulty in finding the deer and the surprise to both he and the deer when he killed it. The venison was really delicious. Mr. McCrary, Coach Bingham and the football captains also gave some nice talks.

We had a wonderful time and we will never forget the football banquet of '46. Thank you, Booster club.

Everyone is happy today because there will be no school Thursday and Friday which also means a delay in report cards (Another reason for our joy!)

Bobbie Jo: "I can go with any boy I please."

Am: "Why don't you then?"

Bobbie Jo: "Because I don't please any!"

Senior Gab

The weather turning cold Monday morning brought most of the girls to school in slacks and the boys in overcoats. But we didn't know whether it was a hair-up or a train robbery when June T. walked in, in her cowboy boots and britches.

In spite of the cold weather school rolled right along. Thanks goes to Mr. Tucker for having all the rooms nice and cozy when we arrived at this institution of knowledge—PHS. Only I think English IV would have been cozy enough without the fire, since we all had to stand up and recite our weekly poetry. This week's selection was "On His Blindness," by Milton.

The last part of last week we had those horrible old "trial and error" exams—only most of them were error. So seniors you might as well save your apples, because I don't think the teachers are going to give you anything except what you make.

We are happy to see our schoolmate and chum, Jena Barnes, occupying her usual front seat in English class again. Jena was out of school on the sick list the latter part of last week.

We were very happy to come to school Monday morning and find that a new girl had joined our senior class. In case you don't know, boys, she is the cute sandy-haired girl that has been trying to get up and down the crowded halls between periods—she may have a hard time now, but just give her a few weeks. Her name is Billie Richardson, whose former home was in Portales, N. M. We're happy to have you, Billie, and here is wishing you a lot of luck, only I doubt if you need it.

Juniors... Please don't call Gaylon Young naughty—we think him anything but that. And you say that Van is kissable—well, you ought to know.

We wish to express our deepest sympathy to our classmate, Lucenia Carpenter, in the loss of her mother.

Who's Who In The Senior Class

Who is the carefree and never serious boy of the senior class. He is everybody's sweetheart and everybody is his best pal or girl friend. He played on the football team this year and he is also going to come out for basketball—so here's wishing you luck James Serman. I doubt if you recognize that name because he has gone by a nickname all of his high school days.

Last week's who's who was Iris Floyd whose middle name is Connie, not Ebbie.

Mrs. Smith—"Helen, what is your favorite flower?"
Helen W.—"Chrysanthemums."
Mrs. Smith—"Spell chrysanthemums."
Helen W.—"I engaged my mind, Mrs. Smith, I like roses better."

Junior Personality of the Week

The Junior personality of this week is a tiny, brunette girl who has twinkling brown eyes and a mischievous laugh which she uses quite often. She has recently been selected the favorite girl in the Junior class. You know by now, of course, that she is Lorraine Baker.

Sophomore Personality

He has dark wavy hair and brown eyes. He played football this year and last. He has a very

unusual name, therefore we call him by a nickname. He is a very good looking boy and has a nice personality. He is liked by everyone.

Canteen Capers

About the usual number and crowd were present at the canteen Saturday night. Everybody seemed unusually happy for some unknown reason. Maybe it was the Football Banquet the night before that did it.

Monday night everyone was excited about the new juke box that we finally received. With the juke box we also got off with a dozen new records.

Basketball News

Now that we have seen the football season for the school year of 1946-47 come to a close, we see the basketball season opening. The boys are very anxious to get into conference play, which comes in the very near future, but in the meanwhile, they will play a few non-conference games.

Both boys' and girls' teams look very well in practice. The girls have already played several games, and the boys have just started, as they only turned in their football suits on November 18. We can't tell as yet who are probable for high point boys on the team, but they are all going to run a close race for the title. Most of these boys played football before the basketball season opened and therefore we'll have the same coach, Ring Bingham. Mr. Day is coaching the Senior girls basketball and Mr. King, the Junior girls.

Several boys are also coming out for tennis this year. The competition, however, is within the school, so far.

Pitching wasser is also providing to be a popular sport with the boys this year. However, none of them, as yet, are good enough to beat Mr. Tucker.

The basketball season will end in February and we will take up other sports, but for now, let's get behind the teams and help them win that District Championship next February.

FEDERAL COURT OPENED IN LUBBOCK MONDAY

The criminal calendar of the Lubbock division of the northern federal judicial district was disposed of Monday afternoon, without a single case having been contested. The term was convened Monday morning by Judge T. Whitfield Davidson of Dallas. Jurors who were to have reported Tuesday morning were notified to defer their appearance as jurors until 10 o'clock Friday morning.

Thirty of the 60 civil actions on the docket are slated to be tried before juries.

HEAD TEST DRILLING BELOW 1,956 FEET

Drilling at the J. D. Hunter No. 1 Head, 13 miles north of Post, had progressed to below 1,956 feet last week end and was continuing deeper. The test is in section 1142 and is contracted to drill to 3,000 feet.

The test was being run in anhydrite which was topped at 610 feet.

Thanksgiving DAY

Indeed we are Thankful . . . Why shouldn't we be thankful? As a nation we are blessed with a wonderful harvest. Over a billion bushels of golden grain in our elevators, the largest corn crop in our nation's history. The average income of the family on the farm has increased from \$1,100.00 per year to \$4,000.00 in the last ten years. We are enjoying the blessings of peace . . . Millions of our boys have returned to their homes. It is impossible to enumerate all our temporal blessings.

As a nation we are not as good morally as we should be, yet our churches are growing in members and spirituality—for which we give thanks. So on Thanksgiving Day let us assemble in our churches as our Pilgrim Fathers did and render unto God our sincere thanks for all these blessings.

Growth And Improvement Indicated For Neighboring West Texas Towns

News in cities and communities last week according to our regional exchange newspapers, consisted mainly of celebrations, special church services and parties in general for the coming Thanksgiving holiday.

Information was received last Thursday by Sweetwater's city manager, R. C. Hoppe, that the government is ready to turn over to Sweetwater the airport section of Avenger field. A year of activity on the part of the city has been spent in an effort to regain possession of the field, which before the war was operated as a municipal airport. During the war, the field was used as a training field, first for the WASPS and then for military training. The return of the field does not include barracks and other buildings at Avenger field, which will be sought for as a proposed junior college.

The Haskell Free Press announced that the Scout Aid Drive being conducted in Haskell has shown fair results as half of the quota has already been reached. Over-all quota for Haskell county for the combined boys' and girls' work is \$3,000. Scout officials pointed out that most of the money will be used in that immediate vicinity for youth activities during the next year.

It was noted in last week's issue of The Hamlin Herald that the newspaper has a new editor-manager. He is Donald B. Bryant, who has been connected in various capacities with the Mineola Monitor and Wood County Record for nearly five years. Announcement of the change had been made several weeks before by the owner and publisher, Willard Jones.

An extension service has been made by the Hearne Motor Freight Lines, Inc. from Seminole to Odessa, it was announced last week in the Gaines County News. The new service enables the line to give first morning deliveries on all freight originating in the Lubbock and Odessa terminals. General offices of the firm are in Seagraves.

An addition of a new automatically enclosed garbage truck was recently made to the City of Brownfield. The new truck permits a more frequent pickup of garbage and refuse throughout the business and residential areas which will eliminate large accumulations that might constitute serious fire hazards. An announcement was made by the city's Mayor Jordan that garbage and refuse must no longer be burned in the alleys and that the more frequent pickups will make it unnecessary. The city now owns a sizeable fleet of trucks, pickups and cars of various types.

The construction of 26 miles of REA lines south of Crosbyton will get underway January 1. It was also found that lines will be built in the near future to Kalgary and on to the East Plains. It was announced that the line will be extended to the roadside park in Blanco Canyon near Crosbyton where picnickers can secure light by putting the correct amount of change in the slot meters which will be installed. Inspections will be made of the home wiring before connections of the new line are made.

POINTERS GIVEN ON RURAL WIRING

More and more farms are being wired for electricity these days, and if you are one of the many who are looking forward to having electricity, be sure to plan a complete system.

A complete wiring plan is the only sure way to get a dollar's worth of use out of every dollar's worth of power you buy, say farm electrician specialists of the U. S. Department of Agriculture.

Location of the meter pole . . . the central pole from which wires will be strung to each of the farm buildings . . . is the first point to consider. Place the meter pole in a spot that is of equal distance from all the main buildings. Most meter poles are located half way between the barn and the house. Generally, it's best for each building to have its own service entrance directly from the meter pole. Then, no matter how much electrical equipment is in use in one building, you can still use as much power as you need in other buildings.

To help you decide on the size of the wire to use in the service entrances, you'll want to call in an electrician. Wire size will depend on the amount of current you expect to use in the buildings, an electrician will help you figure that if you tell him what equipment you plan to use. Of course you must also provide for the extra equipment that you'll add later.

Inside the buildings, plan to have separate sets of wires for each piece of electrical equipment . . . such as the water pump, water heater, or any large motor. With this plan, you won't overload any one circuit, and you'll be sure of getting the most value from your electricity year in and year out.

District Legion Convention To Be December 1

The annual Fall Convention of the 19th District of the American Legion, Department of Texas, will be held Sunday, December 1, at Colorado City with the formulation of plans for increased membership high on the business agenda.

A. C. Jackson, 19th District Commander, will preside with Oran C. Hooker Post No. 127 of Colorado City as host.

Registration of delegates will begin early Sunday morning at Legion Hall with the first session due to get underway at 9:30 a. m. Sid Lowery, Department Service Officer with headquarters in Lubbock, will represent the Department at the Convention.

The Convention will open with a joint session of the District Legionnaires and the Ladies Auxiliary. On the morning program in addition to Lowery will be Robert Sisson, Lubbock, Regional Manager of the Veterans' Administration; A. Q. Willman, Austin, State Service Officer and George Berry, Lubbock, Fifth Division Commander.

The delegates, besides making plans to increase the District membership will also emphasize Boy's State and the Child Welfare phase of the Legion program. Commander Jackson has announced.

Prior to the Convention opening Saturday night, a dance will be held for all registered delegates at Legion Hall. An "old-fashioned chow line" featuring barbecue will be offered Legionnaires during the noon recess.

MILLS QUALIFIES FOR SCHOLARSHIP

Louis Ray Mills, Post High school 1945 graduate and star footballer, has qualified along with thirteen other Texas Technological college freshman students to receive the Dunlap scholarship award, according to an announcement from the college last Friday.

Mills became a candidate for the award sometime ago when he was chosen for his high scholastic average in high school work. To win the award, \$50 for each of the two semesters, he had to maintain high standards in his college work.

TEACHER TURNOVER IN TEXAS LAST YEAR WAS GREATEST IN HISTORY

Through members in Garza and other counties, the Texas State Teachers Association has just completed a survey among city and county school superintendents to determine conditions in the public school system, the Post Dispatch has been informed.

Replies were received from 1,038 superintendents representing 35,873 teaching positions or about 78 per cent of the total in Texas.

Turn-overs, local schools are advised, for this year are the greatest in history. A total of 9,372 teachers, or more than 25 per cent, were new in their jobs when school opened this fall.

Right now Texas needs at least 9,000 qualified teachers to relieve our over-crowded class rooms, to add to the curriculum of subjects deleted during war years, and to replace sub-standard personnel.

The Texas Teachers Association concludes that salaries of teachers must be raised enough to encourage those now in college to enter teaching as a profession.

THE POST DISPATCH

THURSDAY, NOV. 28, 1946

From where I sit . . . by Joe Marsh

A Lesson In Conservation

We were sitting on Bill Webster's porch the other night, chatting over a glass of beer—when the talk turned to forest preservation, soil erosion, and other things that affect a farming community.

Judge Cunningham speaks up: "It's all right to worry about conserving our natural resources," he says, "but there's a far bigger problem when it comes to conservation—and that's preserving our democratic way of life, our sense of personal freedom, our respect for one another's rights."

From where I sit, the Judge is right. All America's great resources—our abundant natural wealth, are lost the minute we lose the right to work them as free people in a free land!

Whenever you see or hear of an encroachment on our rights—whether it's the right to free speech, or the right to vote as we see fit, or the right to enjoy a friendly glass of beer in licensed, law-abiding places . . . watch out!

Joe Marsh

JOHN AND PAUL DAVIS

Phone 215W

Post, Texas

No woman's touch needed at this clam-bake—all hands are busy as bachelorette Hewlett and her boys busy themselves beating up a

HEWLETT STORY—

(Turn To Back Page, Col. 1) at Lubbock. The only thing to do was admit another boy. This time they would try to find one near John's age.

Mrs. Milam was unable to find a boy about 11 years old, at the time, but she had a 4-year-old named Joe. He was a handsome, good-natured little fellow who took right up with John and his "Dad."

There never had been a woman around the Hewlett household, but Joe presented a new problem. It took more clothes for him than John and his Dad had time to keep laundered. The boys and their father had been doing all the cooking, housework and other domestic chores—even ironing at times. They managed without outside help, however, until school started and somebody had to stay with Joe during the school hours.

The woman who keeps Joe also helps keep him clean.

Hewlett, at times, feels as though he has from half a dozen to a dozen boys instead of three. Wilmet, who works in a cafeteria in Lubbock for his board and "spending money" comes home each weekend from Texas Tech and frequently brings friends. Most of the boys in the neighborhood spend their afternoons and Saturdays with the Hewlett boys.

"Dad" takes the bunch on frequent picnics or, if circumstances

don't permit, gives "picnics" at home. On these occasions, he has to buy pickles by the gallon because "all boys like pickles," particularly on picnics. Hewlett learned to cook when he was quite young and he knows what constitutes a balanced diet. He insists that the boys eat balanced meals. John doesn't care much for vegetables but eats them to please his "Dad." The other boys will "eat anything and plenty of it." With good management they keep their grocery bill to no more than \$50 a month. They have their own cow.

The family also has a giant chow-collie named Elmer, a miniature Boston screwtail named Daisy and a mongrel cat that they call Kitty. The animals seem as well-disciplined as the boys. They will have a Christmas tree, of course, and Joe says Santa Claus has been asked to bring a wagon to John, a football to Wilmet and a whole bunch of things to me. In all probability they will share their Christmas merriment with some of the Milam Orphanage children, as they frequently invite their former playmates to their home in Southland.

PRISONERS CAPTURED—
(Continued From Front Page) filed Tuesday afternoon against the men, who were returned here early Tuesday morning by Sheriff

COMMITTEE NOMINATION

(Continued From Front Page) Bingham, delegate to County convention, John S. Nichols, alternate delegate; Bandy Cash, chairman Community committee, Walter A. Long, vice-chairman, Avery Moore, Jr., first alternate member, and Jack Kennedy, second alternate member.

Voters in all communities may write in the name of any candidate they wish, rather than the name of the candidates placed on the ballot, if they so desire, explained Gibson. He further stated that the election will be held Tuesday, December 10, and that the election places will be open from 8 a. m. to 5 p. m. The ballot boxes will be placed in Basinger Hardware store, Southland, with A. Wilke election chairman for a community; in the Church of Christ building at Graham, with J. P. Maxey serving as election chairman of B community; in the AAA office, Post, with Bandy Cash as election chairman of C community.

Any person who is participating or cooperating in any of the programs developed under any of the said Acts of Congress and administered during the current calendar year through the AAA, including an owner, operator, tenant, or sharecropper, also the wife or husband of any such person, is eligible to vote and will receive a ballot which may be dropped in the ballot box on election day, or mailed to the AAA office before election day, said Gibson.

Percy Printz, but the officer said they could be charged with a number of offenses.

USDA predicts that during the next five years, 160,000 farms per year will become available for sale or rent.
