### SOLDIER OF THE WEEK

Corp. Arlien E. "Hootus" Windham, son of Mr. and Mrs. J. S. Windham is the Soldier of the Week. He is one of the Garza county boys who was in on the invasion of France landing there the 8th of June. "Hootus" is a graduate of Post High school where he was a popular student. He is now with the famous 90th Infantry Division. He services motorized equipment for the division and has been overseas since March 1 and entered the army over two years ago. Camp Burklely was his main training center. In letters to his parents he suggests that they send coffee when they send gifts. "It's about the most welcome gift we get out here. Letters from home top the list of things most wanted and needed though," he said.

### Superior Records Made By 3 Garza 4-H Club Boys

By Wallace Kimbrough, County Agent of Texas A & M College Extension Service

Superior records of achievement in Boys' 4-H Club work have won 1944 State honors for three Garza County boys. The winners and a brief outline of their work is as follows:

Joe Stokes, age 18, son of Mr. and Mrs. J. J. Stokes was one of the winners of the Santa Fe Contest and has been presented with the certificate of merit by officials of the Santa Fe Railway Co. Joe will be one of the 22 delegates to the National 4-H Club Congress in Chicago December 3rd-6th from Texas. Joe had as his demonstrations in 1944; one steer, one brood sow, four top hogs, thirty acres of feed and five acres of cotton. Joe produced more than enough food and feed to be the equivalent of feeding five fighters.

Alvin Davis, age 16, son of Mr. and Mrs. Glenn Davis, entered his record in two of the State contests and placed third in the "National Achievement Contest" on a State level. In the "Food For Victory Contest" his record

★ ★ ★ ★ ★ ★

Whatever your work or home responsibilities—you can still help win the victory and secure the peace, by buying Bonds! Each day of war is a major crisis calling for billions of dollars worth of equipment, ammunition, transportation. The bonds you buy meet the cost of Victory. This is no time to let down—it is the time to speed up your buying—speed up our men's return!

Keep the soldier's rifle ready to fire—keep our tanks rolling further in the invasion penetration!

Garza county's quota in the Sixth War Loan drive is \$270,000.00. Uncle Sam will use this money to speed Victory. Help the Soldiers, Sailors, Marines to quickly

**Finish The Job!**

### Freeze Widespread Over This Area; Rain Totals 1.33 In.

Killing frost and sub-freezing weather struck at Garza county and other areas in this section Sunday night as clearing skies brought relief from a several day siege of damp weather. This was the first extreme frost of the season. However, light frost was reported by many Garza folks earlier.

Rain which began here Thursday night amounted to 1.33 inches. All harvesting of crops over the week end and up through the first of the week was at a standstill over the county. Many rural roads were impassable due to the amount of rainfall.

Frost was reported in Texas as far south as Austin and San Antonio but damage was reported only to tender garden plants. Only the extreme southern tip of New Mexico escaped the cold which tumbled the mercury to a new low of the year in this area. All of the Panhandle and South Plains were under sub-freezing temperatures.

Garza county temperature was recorded as 32 degrees. Other minimum reports in this section were: Lubbock 31, Clarendon 31, Big Springs 34, San Angelo 35, Dalhart reached the lowest figure with 27 degrees. Fort Worth, Dallas and Houston temperatures registered into the 40 mark and Galveston the high with 54.

### New Baptist Pastor

Rev. Huron A. Polnac, new pastor of the First Baptist church who began duties here Sunday. The new pastor came to Post from Loring, Texas. He holds the A. B. degree from Howard Payne College in Brownwood and a degree from Baptist Seminary in Ft. Worth. He moved his family to Post this week.

### Pvt. Ray Warren Receives Bronze Star Award

With The Fifth Army—Italy—Private Ray Warren of Post recently was awarded the Bronze Star for heroic achievement in action while serving with Lt. Gen. Mark W. Clark's Fifth Army in Italy. Warren, a member of a field artillery battalion of the 31st "Wild West" Division demonstrated courage and prompt action in evacuating wounded personnel from a safely under enemy artillery fire. The 22-year-old soldier entered the army in July, 1940.

Ray is the son of Rufus Warren formerly of Post who now resides in Cactus, Texas.

### Thanksgiving Proclamation

I, Walter W. Hyde, mayor of the City of Post, Texas, do declare a holiday on November 30th. This proclamation is in keeping with that issued recently by Cato K. Stevenson, Governor of the State of Texas, in which he declared that November 30th would be observed near Texas as Thanksgiving Day.

—Walter W. Hyde, Mayor

### More Data On Thanksgiving

Federal offices over the state will observe Nov. 23. State departments will close Nov. 30. Banks will observe both Nov. 23 and Nov. 30. As we go to press the business men here seem to be agreed on November 30 as the day on which they will observe Thanksgiving.

### DISPATCH TO OBSERVE THANKSGIVING NOV. 24; PAPER TO BE ISSUED EARLY

The Post Dispatch will observe a holiday on Thanksgiving Day, Nov. 24, along with the majority of other business firms in Post.

The paper will be published a day early in order that the holiday may be observed. Club reports and other persons who have news items they want published are advised to get them in as early as possible. Papers for city and rural delivery will be put into the post office early Thursday morning.

The Dispatch observes Thanksgiving, Christmas Day and July 4th in keeping with the majority of firms in our city.

The rate is five your price in early per head week's paper.

L. W. Dally of Lubbock was attending business in Post Wednesday.

### Union Service To Be Observed Thanksgiving

The Methodist church will be host church to all people who wish this year to observe Thanksgiving in a worshipful manner.

At 10 o'clock Thursday morning, November 24, music appropriate to the day will begin. The Baptist pastor, Rev. Huxon A. Polnac, will deliver the message.

Everyone is invited to attend this prayer and praise service which has been arranged for this Thanksgiving day.

### Son of L. S. Edwards Died in Belgium On November 6th

A telegram from the War Department was received here Wednesday by Mr. and Mrs. L. S. Edwards stating that their son, Pfc. William Erwert Edwards, 26, died in Belgium on November 6. The message notifying them of his death stated that a letter was to follow.

No details were given but the family is assuming that he died as a result of wounds received in battle, possibly Aachen, as soldiers from that area in Germany were received here from him several weeks ago.

He had been overseas a year and had been in the campaigns in France, Belgium and Aachen, Germany.

He was the grandson of Rev. and Mrs. D. W. Reed of the Close City community.

Before entering the army he was employed at Outlaw Motor Company.

### Canvass of County Is Underway In 6th War Loan Drive

A canvass of the entire county was opened Monday in the interest of the Sixth War Loan drive. Called meetings were held and plans set in motion to put the drive over at a rapid pace.

R. J. Edwards is chairman of the city drive.

Rural committeemen from over the county are:

A. K. Dowdell, Julius Furrill, Roy Pennington, F. C. McAnally, J. G. Stewart, Allen Bird, V. E. Howell, J. B. Mataler, Geo. Linsage, J. S. Nichols, John Wallace, Tom Williams, Mrs. Mike Custer, Mrs. W. T. Cook, Mrs. E. W. Curry, Mrs. Ray McNath, Mrs. L. S. Turner, Mrs. L. G. Thuel, Jr., Mrs. Will Teaff, G. W. Bainger, L. Collingsworth, Mrs. Hub Hair, A. Wilke, Imogene Bainger, Barney Walker, Wright Henson, Geo. R. Evans, Mrs. Pearl Nance, W. V. Roy, and Mrs. R. E. Stevens.

### BRIEF BIT OF BUSINESS HITS POST ON MONDAY

A brisk bit of shopping hit Post stores Monday. It was just like a fall Saturday, several merchants declared. Clerks were as busy as those proverbial bees and at the end of the day tallied up a nice sales record. For several weeks business has been speeding up a bit but Monday hit the record for the most profitable day of the fall for several stores. A. B. Hays, Clint Herring and other ready-to-serve merchants were drawing big sights, accompanied by contented shoppers, when the day was over.

The Dispatch got in on a bit of bits business too as "white space" sold at a fast and furious pace for awhile. Merchants are cognizant of the fact that Christmas is just around the corner so are busily engaged in giving directions for ads in the Dispatch. Read their messages and "Buy Early."

Mrs. J. H. Beth and Mrs. Decile Power have just returned from a week's visit in San Antonio with Mrs. Joy McCartney, Mrs. Babe's daughter and Mr. Power's sister. En route home they visited Mrs. Babe's brother and sister at Winters, Texas. A recent visitor in the Beth and Power homes was Mr. McCartney who was en route to Wyoming.

Mr. and Mrs. Berrie C. Henderson are visiting his parents, Mr. and Mrs. P. C. Henderson, latter has been stationed at Camp Elgin the past few months. He is returning to be reassigned to another camp post.

### Committeemen Urge Garza Folks To Buy Bonds Now

The Sixth War Loan drive is on! As never before the Garza county workers' committee is conscious of the need for urgency. T. R. Greenfield, co-chairman of the Garza county, is making an appeal to all patriotic citizens to do their part and more. He pointed out profound thoughts on behalf of the committee which we are quoting in full below:

#### THE 6TH WAR LOAN

The 6th War Loan Drive was launched by our President last Sunday night. We feel sure you are fully aware of the need for this money. We recognize the fact that nearly everyone of us are very busy these days, but we think we should take the time to sell these bonds. Possibly some thought they did not have time to take out to go to the battle fronts of the world, but they did it without complaining. Many have left their farms, good jobs, their wives, sweethearts and their homes to fight our battles for us.

We feel sure that our workers will find time to assist in carrying this bond campaign to a successful conclusion. Therefore, let us all make up our minds to talk bonds, buy bonds, and sell bonds. If we will do this there will be no doubt about the outcome of this drive. Our earnest and diligent work in this campaign will prove to our boys at the front that we are not merely wishing them well, but are doing our part in this war.

Many of our workers have secured their supplies at Greenfield Hardware store... so won't you come in and get yours and help in this drive!

Bond Campaign Committee

#### More Shells Needed Now!

Gen. Ike Eisenhower made an urgent appeal last week for more shells, more ammunition and food for the need for this ammunition now.

"Turn out artillery shells at top speed," he urged in an address that was broadcast to munitions workers.

"Today we are firing ammunition that we would not have used until next February or March if we had been content with slower advances, with less crushing victories, or if we had been ready to sacrifice soldiers to save materials," he said.

In the capture of Aachen, he reported, the 1st Army (to which some of our Garza county boys are attached) used 300,000 rounds of 105-millimeter ammunition in a two-week period "and even so the reduction of that plate was delayed because of shortage of ammunition."

He also urged increased production of signal equipment, winter clothing, engineering materials and medical instruments.

Do your part now by buying bonds our men in service need. Do it today!

Mrs. Stauffer Suffered Fall Sunday

Friends and acquaintances of Mrs. Anna B. Stauffer will be pleased to know that she fell Sunday and fractured a leg bone. She was in her room at the Texas Hotel and was making preparations to come back to Post. She is now in the All Saint's hospital at Ft. Worth.

PRAYER for the Week

Our Father, we adore Thee as the center of all pure spirits, and we pray Thee to make us like unto Thyself.

SALESMEN ON THE WHEEL

There never was a time quite like this in business and industry. Normally every manufacturing establishment has a corps of salesmen who travel to see the trade and solicit orders.

Fig a War Bond Today!

REGULAR MEETINGS TUESDAY 8:30 P. M. JENNEY'S TEA ROOM

SHIRTTAILING THE BOYS AWAY

In case you didn't know it, they have been shirthing the boys on their shirts until they are about as long as a cat's tail rabbit.

The idea is to conserve cloth—although what good 10,000,000 buttoned shirttails would do anybody we don't know.

But that is it may, however, we don't see that anything is saved even if they could put those three inches off of every shirttail to good use.

Well, there you are. Assuming that there are 50,000,000 men left around the country that the draft boards haven't discovered or just didn't give a darn about, and each of them spends half an hour pushing his shirttail back in each day, that makes 25,000,000 man hours wasted daily.

With that amount of labor we could build 25 battleships, 1,725 cowsheds, 23,804 planes, six bowling alleys and 30,000 tanks.

A COMING CAMPAIGN

A "tough, realistic and not at all polite" publicity program designed to show the American people that in crushing Japan we have a stupendous job on our hands.

A FOWL DECREE

Owing to the shortage of fowl in Germany, a stern Nazi decree has just been issued requiring every hen to produce at least 70 eggs per annum.

There is reason to be thankful

that the campaign is over, because now the movie stars can stop reading political scripts.

Sometimes it seems that nobody in this country ever took a course in public stenics.

Investment and development of the Southwest is credited to three Americans, James Ramsey, John Pritch and Robert Fulton.

Found Fight to Return Early to Battle Fronts

Exhausted and Wounded GIs Carry On Beyond All Human Endurance

By Ernie Pyle

(Editor's Note: Pyle recalls some of his experiences while he sat with the doughboys during the Sicily campaign. He is now making a long-awaited visit to New Mexico.

SOMEWHERE IN SICILY.—It was flabbergasting to lie among a tangle of wounded soldiers recently and hear them cuss and beg to be sent right back into the fight.

Of course not all of them do. It depends on the severity of their wounds, and on their individual personalities, just as it would in peacetime.

When I took sick I was with the 4th division, made up largely of men from Oklahoma and west Texas.

The men of Oklahoma are dwelling and self-spoiled. They are not smart-alecks. Something of the purity of the soil seems to be in them.

These wounded men of Oklahoma have got madder about the war than anybody I have seen on this side of the ocean.

It was these men from the farms, ranches and small towns of Oklahoma who poured through my tent with their wounds.

Another fellow, seeing a friend, called out, "I think I'm gonna make her." Meaning he was going to pull through.

Another said, "Have they got beds in the hospital? Lord how I want to go to bed."

Another said, "I'm hungry, but I can't eat anything. I keep getting sick at my stomach."

Another said, as he winced from their probing for a deeply buried piece of shrapnel in his leg, "Go ahead, you're the doc. I can stand it."

Another said, "I'll have to write the old lady tonight and tell her she missed out on that \$10,000 again."

Another, who was put down beside me, said, "Hi, Pop, how you getting along? I call you Pop because you're gray-headed. You don't mind, do you?"

I told him I didn't care what he called me. He was friendly, but you can tell from his forward attitude that he was not from Oklahoma. It turned out he was from New Jersey.

One big blond Oklahoman had eight fresh wounds in the face and the back of his neck. He had a patch on his upper lip which prevented his moving it, and made him talk in a grave, straight-faced manner that was comical.

The doctor explained patiently that if he returned to the front his wounds would get infected and he would be a burden on his company.

Doing men were brought into our tent, but when death rattles silenced the conversation and made all the rest of us grave.

When a man was almost gone the doctors would get a piece of paper over his face. He could breathe through it, but we couldn't see his face.

Tales within five minutes chapters came running. One of these narratives featured the fox loam.

The fox loam was still most noticeable. The chaplain bust down beside him, and we were both surprised to see him.

That statement may lay the eyes of youngsters, but I remember it all right. It was a story of a soldier who had been shot in the back and was lying on the ground.

I've seen that man in my tent and he is still there. He is still there. He is still there.

Gems Of Thought

Faith is the vision of the heart. It sees God in the dark, as in the day.

If the blind put their hand in God's, they find their way thro' the dark more surely than those who see but who have not faith or purpose.

The Scriptures require more than a simple admission and facile acceptance of the truths they present; they require a living faith, that so incorporates their lessons into our lives that these truths become the motive-power of every act.

The ablest men in all the walks of modern life are men of faith. Most of them have much more faith than they themselves realize.

It is men of faith who have saved the world, not men of knowledge.

The Liberty Tree was the name given a large elm in Boston, under which the Sons of Liberty held their meetings during the critical years before the Revolution.

President Lincoln was assassinated by John Wilkes Booth on April 14, 1865. The first attempt on President Lincoln's life occurred while he was enroute to Washington in 1861.

Thomas Jefferson was the first President to wear long trousers. He set the fashion pace by discarding knee breeches.

# HERRING'S

ADVERTISERS GETTING MORE READERS FOR THEIR ADVERTISING DOLLAR

The Post Dispatch is being read by more families in this section than ever before...

Ed Lawrence Robertson reported Tuesday morning at the Dallas recruiting office of the U. S. Navy...

Nazi Underground Is Planned, Visitors Say

STOCKHOLM, SWEDEN.—Travelers from Germany reported that plans are already under way there to fight a secret underground Nazi movement...

The newspaper Handels-Öst-Spartakistisches of Goteborg said it learned that instructions had gone out to loyal party members...

The Christmas tree is said to have been introduced into the British Isles when Albert came to England in 1040 to wed Queen Victoria.

Your BABY

By Lilian S. Strane

How much should your baby weigh? A newborn baby may weigh anywhere from 5 1/2 to 11 pounds...

Do not be concerned about what some other baby of the same age may weigh. Your baby is normal if he gains regularly...

Modern babies are given foods other than milk much earlier than were their mothers. Orange juice, or other source of vitamin C, and cod liver oil, or another form of vitamin D, are both added to baby's menu in the first two weeks.

Mr. and Mrs. Jim Hundley spent last week end in Dallas transacting business.

Hair grows faster during warm weather than cold and faster by day than by night.

TWELVE GIFTS TO EVERY MAN OVERSEAS IN THE AVERAGE

Scots has an average of 12 Christmas packages for every G. I. Joe overseas. More than \$2,000,000 gift parcels have been cleared for shipment to Army and Navy men abroad...

Navy personnel will receive between 20,000,000 and 25,000,000, authorities from the fleet post offices said.

It is interesting to note that two people well known in Post, Miss Catherine Royalty and Houston Hoover, are helping to get those millions of packages to their right destination.

In a recent letter to friends here Miss Royalty said, "We understand that seven train loads of packages have arrived, so you can imagine how busy this place is going to be."

Hoover is the son of Mr. and Mrs. O. H. Hoover of Graham community and was formerly a clerk in the local post office.

Your Home

By Frances Alsworth

GRAND RAPIDS, MICH.—I have just seen a wonderful new furniture idea. This new idea is furniture made up of "units" so that you can have your furniture exactly to fit your personal needs.

For instance, suppose you want a secretary cabinet for your living room. Do you want drawers (narrow or deep) or cupboards (open or with doors) for the bottom part?

I have seen how with these "flexi-units" furniture, all one solid piece, beautifully finished, can be made up exactly as you want it—for your needs—personally, individually for you, just you.

This revolutionary, modern idea has been worked out for dining room and bedrooms, too.

And, if you have just a small home, or live in an apartment, you can start with just a few "units," adding more later, as you move in to a larger place or as your family grows.

Shifting Sands Wipe Out Traces of War in Africa

CAIRO, EGYPT.—Postwar battle-scarred tourists will have little to see, said Lloyd Stratton, president of Associated Frags, Ltd. (British subsidiary of AP), who arrived here recently aboard a parachute troop plane after visiting most of the North African campaign spots.

Shifting sands have obliterated nearly all signs of the warfare which took place in the desert. Only faint traces of tank and artillery tracks remain and they are seen mostly in the scarring of occasional green vegetation.

SUNDAY SCHOOL LESSON

Lesson for November 26

Lesson subject and Scripture texts are listed and suggested by International Council of Religious Education.

THE CHRISTIAN VIEW OF INDUSTRY

LESSON TEXT—Luke 19:13-15; 1 Thessalonians 5:13-15.

GOLDEN TEXT—Let him that stole steal no more: but rather let him labor, working with his hands the thing that is good, that he may have to give to him that needeth.—Ephesians 4:28.

Work is a blessing, and the proper attitude toward it is an important part of the life of a Christian. Industry has found its best and most dependable workers among those who believe in Christ.

Our lesson rightly deals with the individual. Christianity is a personal matter, a life rather than a theory. It deals with the man rather than the mass.

I. We Are Accountable for Opportunity (Luke 19:13).

The king in this parable is Christ, who has now gone away, to return when God is ready for him to set up His kingdom on earth.

Two things stand out in this story. First, the fact that Jesus is coming again. There are many scoffers who deny that blessed truth.

When He comes, He will have many things to accomplish, but—and this is our second fact—one of the most important is that there shall be an accounting with His followers.

When He comes, He will have many things to accomplish, but—and this is our second fact—one of the most important is that there shall be an accounting with His followers.

The basis of His judgment appears in the following verses, where we learn that:

II. We Are to Be Rewarded for Faithfulness (Luke 19:16-20).

When believers stand in the presence of Christ to answer for the deeds done in the flesh (our sins were judged at Calvary), it will not be a question of what church you belong to, or what family name you bear, or how much money you have amassed.

Note that there are three different judgments here, but all on the one ground of faithfulness. The first man represents those who with all diligence and zeal seek to grow spiritually and to serve the Lord with glad abandon.

The second man, with equal opportunity, did accomplish something, but not too much. He represents those who do want to serve the Lord but with no special zeal, no great measure of sacrificial endeavor—just "average" (what an unfortunate standard!) Christians.

The Lord is fair. He does not deprive them of their reward. In the measure that they have been faithful, they too shall find joyous service for Him. But observe that there is no special word of commendation in this case, and there is a limited reward.

The third man represents those who profess to be in fear of God, he seems to demand as much of them and they are not ready to give it. After all, they say, we want to enjoy life. Why should the Lord expect so much of us? Not only do they have all reward, but the Lord must take away even that which He has already given.

III. We Are Commanded to Work (1 Thess. 5:13-15).

From the day that God put Adam in the garden of Eden to care for it, honest work has been the lot of all mankind—yes, and his beast. There is no place in the economy of God for the man of words who is able to work but is not willing to do so.

Apparently there were some in the church at Thessalonica who professed the teaching of the Lord's return, yet said that if Jesus were coming any day they were not to work. They had turned the truth into a lie.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

It is our duty to be at our posts, to do our work, to be faithful in the measure that we are able, and to be ready to give to him that needeth.

### Small Party Held Thursday Night In C. W. Terry Home

A very pleasant evening of entertainment was spent by several couples last Thursday night in the home of Mr. and Mrs. C. W. Terry. After several games of 42, bingo with dominos were played they could very beneficial to Mr. Terry as he won the prize for bingo in addition to high score in the 42 games. A very nice refreshment plate was served. Enjoying the evening with Mr. and Mrs. Terry were Mr. and Mrs. T. R. Hibbs, Mr. and Mrs. D. A. Brown of Canyon, Pte. and Mr. Reese Divens, and Miss Frances Terry.

### Methodist Pastor and Wife Honored With Pounding

Rev. and Mrs. L. A. Smith were happily surprised last Wednesday night by members of their congregation with a pounding. The gifts, a most generous expression of love and esteem for this couple, had been carried to the parsonage while the Smiths were at church. After prayer meeting everyone just went home with the presenter. A short program was presented and Bro. Smith, very feelingly, expressed his appreciation for the honor. This hour of fellowship was thoroughly enjoyed by all present.

### Proposed Projects of High School P-TA Creates Interest

The High School Parent-Teacher meeting was held in the school auditorium on Nov. 18. Mrs. J. E. Parker, president, opened the meeting by introducing Mr. J. H. Ranson, the new superintendent of the schools. Mrs. Ranson asked for cooperation from the organization during a short talk and was assured of this assistance by the chairman. The group voted to cash the war stamps won as an attendance prize at a state convention several years ago and to place the money on deposit. It was further decided to purchase a basketball for the Physical Education classes and to assist the Teen Age Canteen financially when called upon to do so. Mrs. B. M. Robinson, Service Chairman, gave an interesting report upon the progress of the canteen. Much interest was shown over the announcement that Mrs. H. G. Simmet of Plainview, who is a state and district officer will be here for the January meeting to bring a message on the findings of the State Convention. Mrs. Hodge, Publications Chairman, announced that a P-TA bookshelf will be placed in the school library very soon.

### Guandolyn Fowler And Capt. Arnold Married In Hobbs

Capt. Dale L. Arnold, son of Mr. and Mrs. Harry L. Arnold, Bell-sire, Michigan, and Miss Guandolyn Fowler, daughter of Mr. and Mrs. C. B. Fowler, of Post, were married November 2, 1944, at the Hobbs Army-Air Field east chapel. Chaplain Bernard Perry officiated. The bride wore a street length blue velvet dress with Navy accessories. Her flowers were gardenias. Her only attendant was Mrs. Charles V. Montgomery. The best man was Lt. Fred Haswell. Both he and Capt. Arnold are officer students at the AAF Training Command's four engine pilot school at Hobbs Army Air Field, Hobbs, New Mexico. On their wedding trip they will visit Mrs. Arnold's family in Post and Houston, Texas, and Capt. Arnold's parents live in Michigan. Then they plan to go to Florida to make their home for the present. Mrs. Arnold attended East Texas State Teachers College, Commerce, Tex. Capt. Arnold attended Michigan State College, East Lansing, Michigan.

### MERRY MAKERS MEET WITH MRS. L. P. BAKER NOV. 14

On Tuesday, Nov. 14, fifteen members of the Merry Makers club met with Mrs. L. P. Baker with Mrs. Sadie McFabb as co-hostess. There were two visitors, Mrs. Davis Redman and Mrs. Mary Gale Young. The afternoon was spent in embroidering, sewing, and making on red, white and blue blocks. These are to be put together and a spread made for them. Chances will be sold on it and it will be given away at the program to be held in the near future at Close City School. The proceeds of the sale will go to the lunch room. It is planned to have all the names of boys in service from Close City community on the spread. Delicious refreshments consisting of ice cream and cake were served. The next meeting, Nov. 28, will be with Mrs. Ed Gossett with Mrs. Brandon as co-hostess. Mrs. Taylor Cook will have the Christmas party at her home. —Reporter

### Betty Jane Travis Is Active In ACC Mission Study Class

Betty Jane Travis, freshman student in Abilene Christian College, Abilene, is a member of the Mission Study Class, meeting each Wednesday evening, before church services, on the campus of Abilene Christian College. The Mission Study Class is organized for the purpose of establishing the young men and young women in ACC to become better acquainted with the problems of preaching and gospel in the far places. Betty Jane is a 1944 graduate of Post High School, and is the daughter of Mr. and Mrs. R. D. Travis, Jr., of Post. In PHS she was a member of the band, choral club, and press club. In ACC she is majoring in mathematics.

### Graham Club Is Entertained in Home Of Mrs. M. Morris

The Graham Home Demonstration club met Tuesday Nov. 22 in the home of Mrs. Mollie Morris with Mrs. Inez Hartel as hostess. Six members were present. The next meeting will be Nov. 29 and this meeting will take place in the school lunch room. Miss Manley will give a demonstration on powdered milk for the school child. Every parent that has children in school as well as club members, are urged to be present. Mrs. Junita Myers will be hostess at this meeting. Mrs. Morris is invited to attend. —Rep

### Mrs. Tom Bouchier Reviews Book For First Baptist WMS

Both circles of the First Baptist WMS met together Monday, November 20, at the home of Mrs. R. P. Tomlinson for mission study. Mrs. Tom Bouchier gave three chapters of the book "God and Man in Mission." She will finish the book at the meeting next week at the church. The hostess served delicious refreshments of sandwiches, olives, potato chips, cookies, and hot chocolate to the following members: Misses A. A. Suits, W. F. Pierce, J. B. Faulkner, Ira Lee Duckworth, W. L. Davis, E. L. Kirkendall, Z. D. Kemp, L. A. Barrow, Jim Williams, J. P. Manly, Ira Wankley, Raymond Redman, J. A. Boyd, Carl Hughes, Tom Bouchier and R. E. Cox. Both circles will meet Monday, Nov. 27, at the church for their regular monthly business meeting. Each member is asked to bring her gift so Christmas box may be packed for Buckner Orphan's Home. —Reporter

### Young Women of Baptist Church Reorganize YWA

The YWA of the First Baptist church reorganized after it had disbanded for several months waiting for a sponsor. Mrs. Inez Hartel was selected sponsor, with hearty consent of all the YWA girls. The first meeting was called for Monday night, Nov. 19, to elect officers, as follows: pres., Jerry Osborn; vice-pres., Frances Terry; secy-treas., Agnes Windham; program chairman, Edna Jo Pantler; and reporter, Maxine Tucker. Other committees will be appointed at the next meeting. We are extending an invitation to every girl from the ages of 15 to 25 to be present at our next meeting Monday, Nov. 26. We have set our membership goal at 20. Don't disappoint us. —Reporter

### Demonstration Clubs Present Household Tips On Livability

Have you thought about covering your sewing machine with plywood cut to fit the top? Cover and tilt the board with bright nylon and hang a mirror above the machine—you'll have a handy dressing table. Or it may become a reading table placed in a dormer window, or a hall table for the convenience of guests, or may prove a useful workbench in the kitchen. When you are ready to sew, it is not difficult to lift the fitted cover off.

If sitting space in any room is at a premium, why not build a wall seat or bench? It may be made comfortable with padded seat and wall cushions. Bed through boxed or open coil, may be turned into a comfortable daytime seating arrangement. A wooden frame for the springs should be built high enough to enable sitting comfortably and designed so that the springs will fit exactly into it. One or two drawers built into the frame will supply storage space for bedding. Place a mattress on top of the springs and cover the whole with rough-textured cloth in a soft color which blends into the walls. Bed tables or book shelves may be built at each end of the couch for holding reading lamps, books, magazines, and radio.

Labeling your seasonal storage boxes, when you put away articles of clothing and furnishings for the home, will save time when unpacking them the next season.

Many an old wood panel has been destined to make an attractive piece of furniture to be used in the bath for holding purses, gloves and hats, or in the dining room as a server. Often, however, drawers are inlaid on the inside. The solution is painting them with any color and putting ready pasted wallpaper appliques or cut-out motifs from wallpaper or fabric to make an all-over floral design on the painted surface. A coat of shellac or dull varnish makes the surface durable and easy to clean. The wood should be unadorned until it is smooth, sanded, and dried thoroughly, and the cracks should be filled before the painting is done.

## THE FARMER AND HIS TRACTOR

### I. Know Your Tractor

By A. F. Peck  
Managing Editor, *Scientific American*

Today, with farm and other fuel shortages, the tractor is the farmer's best friend. With it he can not only plow and cultivate his fields, but he can plant and fertilize these same fields with the tractor. In between times, "power off the belt" can be put to many uses that will in large measure help to offset the labor shortage. This series of articles will tell of some of the little-known things that can be done with the farm tractor and will also point out how the farmer can keep his tractor operating at top efficiency.

A. F. Peck

As with all machinery, the tractor can deliver its best services only when the user is familiar with it and knows how to take care of it. It is surprising to see recently that many tractor owners assumed that they knew all about their power units and paid little or no attention to the advice offered by the manufacturers. To be sure, a tractor will run—at least for awhile—if you only put gasoline in the tank and oil in the crankcase. But you must remember that the tractor which you have today may have to last you for a good long time. And it can do that only if you care for it in the correct manner.

First, did you really read the instruction book that came with your tractor when you bought it? Are you following carefully the maintenance hints given by the maker? Do you set aside certain regular times for the care of your tractor or do you simply run it as long as necessary and then store it in the barn—or, worst of all, in the open—until the next time you need it?

Second, do you really know how your tractor operates? Do you know

how to get the best efficiency from it? Are you getting the greatest power possible and the greatest mileage? Are you using your tractor for plowing and cultivating, or are you using it to do better and faster than you could do by hand—immense farm chores?

Why not get out your manufacturer's instruction book tonight and give it a good going-over? I'll bet you will find a number of things in it that will help you to make your tractor more valuable to you. Remember, a horse-power of mechanical energy is equal to seven man-power. Thus a 30-horse-power tractor has the capacity to do the work of 210 men. And that's not to be sneezed at when you are wondering how to get along without that extra hired man that you can't get because of the war.

By the way, are you considering buying a new tractor this year? Perhaps you can get one, because there will be about 200,000 of them manufactured between July 1, 1944 and June 30, 1945. And if you can, be sure to order a modern type high-compression model because it will start easier, warm up faster, idle better, and give more power than a low-compression unit. Or, if your old low-compression tractor is still in good condition but needs over-hauling, ask your dealer about installing high-compression pistons or heads. Then, using gasoline as fuel, you will find that your old tractor will do about 30 percent more work than it would with low-compression pistons.

(Number 2 of this series will deal with means of avoiding tractor troubles.)

### Blanket Care . . .

When dust, dirt, soil and lint settle into the mesh of blankets, they fill the air cells and lessen the insulating properties of the blanket. Brushing toward the binding—never crosswise the blanket—with a soft-bristle brush should take place frequently between washings. Soiled bindings may be cleaned by wetting in lukewarm water and rubbing with a thick mild-soap lather. A soft brush may be used gently. Rinse the soap from the binding thoroughly and press the binding when it is almost dry.

Mr. and Mrs. Jess Cearley and daughter, Hesta Sue, of Amarillo visited last weekend in the O. R. Cearley home. Coach Cearley, who taught in Post schools five years, is now head of the physical education department at Amarillo Junior College. Mrs. Cearley is bookkeeper for the Hollywood Dress Shop. Hesta Sue is in the sixth grade at Bivens school. The Cearleys spent Saturday afternoon in Lubbock as he helped officiate the Texas Tech-University of New Mexico football game.

Women are fools to marry . . . but what else can a man marry?

## Soil Conservation District News

Last week's three day rain totaled about an inch and a half. Bud Stevens of the Graham community reported 1.85 inches; Lee Reed of Justiceburg 1.60 inches; Sam Lewis of Pleasant Valley 1.55 inches; C. P. Will of Calgary 1.43 inches; and Bill Norman on the H. J. Bingham farm six miles northwest of Post 1.38 inches. This, with the rain of 3 of 20 inch we received on November 8, has helped the prospects of the small grain crop. It has also helped the pastures, in some of which a good crop of winter weeds was getting started.

This rain brings the total average rainfall of the county up to a little over 17 inches for this year. This is about an inch less than has been recorded at the Spur Experiment Station, and is only about two inches below normal.

The District Supervisors held their regular monthly meeting Thursday, November 16, and approved conservation plans on the following Garza County farms:

J. J. Wells, Conservation Group 68, 155 acres; L. R. Mason, Conservation Group 33, 518 acres.

They also approved the application for assistance from Bill Underwood, who is in Conservation Group 18.

At the meeting Will Wright, Supervisor of Zone 1 of the Duck Creek Soil Conservation District, was elected delegate to the annual State Supervisors' Meeting which will be held at College Station early in December.

The terraces on the George Ramage farm were checked for fills and cuts the past week.

Pvt. Lawrence E. Rylant has returned to Oklahoma after enjoying a 15-day furlough with his mother, Mrs. Virgil Priddy, and other relatives in Post and Lubbock. Rylant is attached to the photographic laboratory at the Ardmore Army Air Field.

Miss Lucile Meadow has been very sick. At the time the paper was printed she had gone to Lubbock for a check-up at the clinic.

It requires approximately nine pounds of wool to make an average man's medium-weight pure wool suit.

Mrs. Bill Woody was one of the happiest persons in the county last Friday when she received word from her husband who is in Germany. She had not heard from Bill in three weeks and on that day he called her anniversary greeting. "When Weldon Swadlow stepped on the porch with a message in his hands I went limp all over, but the joy of hearing Com Bill took away all the fright I had at first."

The five-cent candy bar was introduced during World War I.

## Let Us Give Thanks

Thanksgiving, 1944—many of us cannot pause to give our thanks, but must offer them as we go. For this is a war year, and no time for relaxing our efforts.

We do, however, have much to be thankful for, if we look beyond today. Every day of war brings us nearer Victory, provided we do our part and stop falter. We still have our country and our homes, unmarred by any invader's hand. We still have more of comfort and prosperity than any other nation on earth.

To many, it is true, the war has brought

sacrifice and bereavement. In these we must be upheld by the conviction that they are the steps to peace and a better world. We must resolve to make sure that they have not been in vain.

Let us be thankful for our own great area, for its favorable climate, immense resources, varied agriculture and industrious people. When peace returns it will bring us an opportunity as broad as our landscape. So while we look forward, let us give thanks, with a hope that another year will bring the blessings of Peace all over the world.

# HUNDLEY'S Cleaners and Men's Wear

### TEXAN'S SHARE In The WAR

Capt. Robert Macphail of the Texas National Guard has been awarded the Medal of Honor for his heroic actions while on cargo dropping in the Solomon Islands during his life to save the lives of his men. The Captain Macphail kept the plane supplied with ammunition, a particularly bitter struggle against the Japs on New Guinea.

Would you like to discover the life of a Texan? The life of a Texan is a life of adventure and excitement. The life of a Texan is a life of freedom and independence. The life of a Texan is a life of opportunity and success.

It happened to a Texan. The life of a Texan is a life of adventure and excitement. The life of a Texan is a life of freedom and independence. The life of a Texan is a life of opportunity and success.

It happened to a Texan. The life of a Texan is a life of adventure and excitement. The life of a Texan is a life of freedom and independence. The life of a Texan is a life of opportunity and success.

It happened to a Texan. The life of a Texan is a life of adventure and excitement. The life of a Texan is a life of freedom and independence. The life of a Texan is a life of opportunity and success.

### PLANE TALK

By **Weekend Buzzards**

There can be no doubt that the major portion of people now concerned directly or indirectly with the aviation industry and the Air Forces will retain an exceedingly active interest in aviation.

Predictions concerning private flying, the type of post war planes, when post war planes will be available, the cost of such planes, and how many people will own them, vary greatly. However, one fact seems to be definitely established, and that is that private flying will increase in popularity and be readily accepted.

One needs to only look at the history of business after the automobile was put on the market. New business immediately grew such as gas stations, garages, parking lots, motels, etc. When planes again become available to private fliers there will necessarily have to be the accompanying facilities. It is easy to imagine that one of the first developments will be overnight accommodations, similar to those now offered to motorists at a motel.

Places offering overnight accommodations will be best located near landing facilities, or possibly may afford a landing strip and recreation center of their own. In addition to sleeping quarters, restaurants, etc., it would be a part of the plan to have personnel and equipment available so that the plane could be serviced and the pilot and his passengers could continue their air trip after they were refreshed.

#### November Tire Quota Increased

The November quota of new automobile tires allocated by the War Production Board will be 1,850,000 or 250,000 more than in October, it is announced by the Office of Price Administration and War Production Board. "As near as we can tell, this quota should satisfy normal November replacement needs of eligible 'B' and 'C' ration holders," Max McCullough, Deputy OPA Rationing Administrator said. He pointed out that the ration quota this month makes it "clear that recapping will still be necessary for most motorists if they are to keep their cars in operation." Unfilled "B" and "C" tire applications, needed increases in dealer inventories and a higher production rate are required before "A" ration holders can expect new tires.

Although Thomas Jefferson wrote the Declaration of independence, he had no part in writing our Constitution. He was minister to France at the time.

Seamen wear trousers with unusually wide bottoms in order that they can easily be rolled above the knees when cleaning decks or landing in shallow water.

Brothers, sisters, fathers and mothers are keeping the home-fires burning and the home-front going. That's the Texas way... never to quit until the job is done!

### Tech Homecoming Is Planned For November 25th

Texas Tech men who came back to the campus for Homecoming day, Nov. 22, will see some things for the first time.

They will see a new president of the college, Dr. William M. Whyrburn, who was formally inaugurated Sept. 8.

They will see the first real campus beautification program in the history of the college well under way under the direction of George Long. He was made director of that work during the summer.

For the first time visitors will see the new agriculture building being used by the staff of the Division of Agriculture. It was used for the first two years after completion by the Army pre-flight program.

Exes will also see the colorful Texas Tech Red Raiders in a football game with a Southwest Conference football outfit, the Southern Methodist University Mustangs. The game will be played on Tech field that afternoon.

A complimentary buffet luncheon will be given honoring all visiting ex-students at the Hotel Lubbock from 11:30 to 1 o'clock. Texas, New Mexico & Oklahoma Cowboys and the Lubbock Bus company are hosts. At least 1,000

are expected to attend.

An all-college dance will be given in the college gymnasium at night for visitors. This event is sponsored by La Ventana, college year-book.

### No Rationing On Cigarettes In Spite of Bad Distribution

The shortage of cigarettes experienced throughout the country during the war time conditions and the fact that the armed forces are now smoking a fourth of the country's total production, but no rationing of them is contemplated, the Office of Price Administration states.

The War Food Administration reports that the number of cigarettes being manufactured for civilian and soldier consumption is the greatest in the history of the tobacco industry. Only a negligible amount of tax-free cigarettes is sold abroad for consumption other than by our armed forces.

Black market operations and hoarding are also believed to be the factors contributing to the spotty distribution and civilian shortages.

To J. B. Wilson, news editor of a London newspaper, goes credit for the idea of burying an unknown soldier.

are expected to attend.

An all-college dance will be given in the college gymnasium at night for visitors. This event is sponsored by La Ventana, college year-book.

### Jewell Odean Champions Under All His Friends & Merry Xmas

The Dispatch received a letter from Jewell Odean Cummings who is stationed somewhere in the Southwest. He is sending through the columns of the paper which he receives regularly, "A Merry Christmas" to all his friends here and to the hundreds of Garza county boys who are serving Uncle Sam all over the world.

"I enjoy reading about these fellows in the paper. Some of them I grew up with and some I went to school with. I find great contentment when I'm feeling low to read the home town paper. I can find myself thinking about good old Garza county long after I read the news," Sgt. Cummings said.

The Post boy, son of Mr. and Mrs. R. L. Cummings, Sr., has been overseas thirty-one months. All that time he said he had been fortunate enough to get the paper regularly. "Physically I find myself in good condition. I don't know how I manage it as lots of upsetting things have happened to me. I have two campaigns under my belt, Mukden in the Gilberts and Siapan in the Marianas. The latter was the toughest one in this area. We've really seen some tough action out here."

Odean is attached to the 152nd Engineers (Combat) Battalion. He closed his letter by sending best regards to all the friendly folks

### West Texas Fiddler Named As T. T. Barrett

David M. Warren, Postville, Tex., was one of the three who said the only West Texas fiddler left was in the University of Texas kind of category by Gov. Coke R. Stevenson. He is owner of the Postville newspaper and a chain of other newspapers.

back home. (Best of luck to you Odean and thanks for your nice letter).

Help bring our boys home quicker...

**buy one more War Bond**

than you did before

**6th War Loan**

SANTA FE SYSTEM LINES

**While Our Farm Boys Harvest Japs...**

This is a BIG farm year—  
Now buy BIGGER Bonds!

Here are 4 big reasons for buying the most you can—\$100, \$500, \$1,000 in the big 6th War Loan. War Bonds give you:

1. The best and safest investment in the world.
2. At maturity, \$4.00 for every \$3.00 you lend.
3. The convenience of cash—plus interest in value!
4. Funds to replace and renew worn-out farm equipment, soil fertility, and buildings.
5. Funds for educating your children, a soft egg for your own security, travel, retirement.
6. The increased purchasing power vitally needed to win the Peace.

**THEY still die—will YOU buy?**

**OUR FARMS HARVESTED PEAK PROFITS IN '44 NOW YOU CAN AFFORD TO BUY BIGGER BONDS**

THE hardest part of the whole war effort is still ahead. The easiest part is lending money, but it is just as essential as fighting. Now, more than ever, your dollars are needed to speed Victory in what will probably be the costliest war in history, the conquest of Japan.

The picture above is rare. We don't take many Jap prisoners; they die first. Do you know why Japan fights on so fanatically, even though they know they can't win?

Japan thinks our home-front is too soft to "take it"—that we would rather quit than sacrifice our comfortable life. They are waiting for us to get tired, and give them an easy peace.

Let's give them the real answer, in the 6th War Loan, Now! Buy BIGGER War Bonds! You can afford them. In fact, you can't afford NOT to buy them. Your welfare is linked with the welfare of this country. Help yourself by helping the war effort.

**BUY BIGGER BONDS NOW!**

# We Bomb Cologne - On One Good Engine!

Written exclusively for The Post Dispatch by Sergeant James C. McNally

Editor's note: The subject of this story, Sergeant James C. McNally, 23, is the son of Mrs. and Mr. J. M. McNally, who live in Post. He attended Post High school until 1940, when he was employed by Consolidated Aircraft, San Diego, Calif. Entering the AAF in May, 1943, he attended airplane mechanic's school at Amarillo, Texas, and aerial gunnery school at Kingman, Arizona, where he received his wings in April, 1944. He is at present a top turret gunner and engineer on an Eighth Air Force B-17 Flying Fortress in the 389th Bombardment Group. This group is a part of the famous Third Bombardment Division, which has been cited by the President for its noted historic England-Africa shuttle bombing of the Messerschmitt airplane factories at Regensburg, Germany, in August, 1944.

An Eighth Air Force Bomber Station, England—We were told at "briefing" that our "target for today" was the marshaling yards at Cologne, Germany. Then our briefing officer told us of the importance of this mission. Through those rail yards was passing all the supplies and reinforcements for the city of Aachen, which our ground troops were struggling to encircle. Our job was to demolish their supply lines into the city in order to hasten the fall of Aachen. After all the other information was passed on to us, such as weather to be expected, time under oxygen, back guns at the target, and our route to and from the target, we proceeded to our planes to prepare for take-off.

Everything went as planned until we started our bomb run—then the Nazis started blasting away at us with their back batteries. Not too accurate, but there was one burst that really was addressed to us. It knocked out our No. 1 engine, which the pilot quickly "feathered," and crippled our No. 4 engine so that it was drawing just enough power to keep going. We managed to stay in formation and drop our bombs on the target.

Right after "Bombs Away" our

pilot "feathered" the ailing No. 4 engine and found that before our bombs had dropped, we had suffered another hit. The tip of our No. 1 propeller had been shot off, causing that engine to run roughly. Now we were losing altitude rapidly and our formation was slowly pulling away from us. We had become a "straggler" which means that we might fall prey to the Luftwaffe, which delights in hunting an unescorted Fortress in trouble.

"As there was a solid layer of clouds beneath us, our navigator and radio operator set to work to plot a course that would get us to an airfield in friendly territory, but meanwhile we had to avoid the Nazi ground defenses that were along our route. With all the evasive action that we were forced to take to evade the flak gun, we lost our bearings but finally succeeded in reaching the vicinity of Brussels. Over the interphone came the order from the pilot to prepare for a crash landing. He had spotted an airfield near the city and was going to attempt a landing. So we all jammed into the radio room to brace ourselves for the shock—but none came. He set the giant Fortress down without a jar and out we piled onto Belgian soil to look over our bomber and count over 100 holes from flak—but not a scratch on any crew member.

After two days in Brussels, we

were given a ride back to England, to find out that our ground troops had captured their first German city—Aachen. We had done our part and they had done theirs. That's the kind of cooperation that has been pushing the Nazi back all along the line.

### Public Asked To Help Doctors

The necessity of everyone of us to cooperate with the medical profession in order to keep to a minimum the demands on our physicians is urged. About 1,500 physicians have died on the home front during the first six months of this year. All over the nation our doctors are sacrificing themselves to help do a magnificent job. The day and night work, the extra travel and physical hardships facing doctors responding to the calls of increased numbers of people are overworking them.

## Cast Selected For Senior Class Play Scheduled Soon

Some people achieve greatness; others are born to it; and others have it thrust upon them. Robbie Sawyer wasn't born to it and he never would have achieved it had he not had it thrust upon him. Robbie is the central character in the Senior class play, "Enter the Hero," which is scheduled for sometime in December. Robbie is a quiet, modest little fellow who craves peace above all things and in order to win the consent of his fiancée father for the hand of his daughter, Robbie is forced to pose as a hero, a great athlete. Poor Robbie is forced into swimming and even football, both of which are entirely foreign to him. But his friends decide that all he lacks is confidence and they, at once, begin to brush aside his inferiority complex. Robbie's gradual change from a meek person into a fighting machine will make the audience rock with glee. It is a great part and is played by Robert Cash.

The rest of the cast presented is: Adelaide Meinotte, Robbie's fiancée, played by Wanda Thomas; Lance Davis, his chum, by Ben L. Thomas; Muriel Harrison, Adelaide's chum, Iris Parker; Emma Bumstead, Muriel's spinster aunt, Marian Hodge; Jasper Meinotte, a business man, W. F. Cato; Atlas Usher, an athlete, Rex Everett; Joe Diggs, a lifesaver, Harry Wood; Betty Chatterton, a vacationist, Marian Edwards; and Della Clark, another vacationist, Mary Robertson.

Taken as a whole, it should be one of the most successful class plays given in Post and you are urged to attend.  
—P. H. S.—  
Eighth Grade . . .

The 8th grade had a rummage sale November 11th. They made about eight dollars for their treasury. Eleanor Boyd and Faye Ruth Hamilton worked on the rummage sale.

Benjamin Franklin's abilities ran in many directions. He was a philosopher, a statesman and an inventor.

## Seminole Defeat Post, 5-3

In a thrilling battle at Seminole, the Seminole Indians routed the Post Antelopes 5 to 3. The game, however, was much closer than the score indicated. The Antelopes played bravely and each member of the team lined in a splendid performance.

In the first quarter the Antelopes were much the more aggressive team. The Post eleven had no time in working the ball down to the Indian's 15 yard line. However, the drive bogged down and the Indians took over. The Seminole team was unable to move and the Antelopes roared back down to the 12 yard line before losing the ball on downs. Again the Indians were stopped cold and were forced to punt. In five plays the Antelopes worked the ball down to the Indian 3 yard line before again losing the ball on downs. The quarter ended with no score.

In the second quarter neither team made a serious threat because of the numerous fumbles and bad kicks. The half ended in a scoreless deadlock.

In the third quarter the Indians came out tipping and snorting. With big Jerry Stewart leading their way, the Seminole eleven powered their way to the Antelope 20 yard line, from which point Lindley rifled a pass to Linsford in the end zone for a touchdown. The attempt to run over the extra point failed.

In the fourth quarter, neither team scored, however Seminole threatened twice. Both threats were turned back nevertheless by the Antelope eleven. The deciding factor in the game was the powerful runs made by Stewart and Lindley. Final score stood 5-0.

## South American Liberty Fostered in Colombia

Colombia's first bid for freedom was manifested in 1781, when the comuneros, or "common people" of Santa Fe de Bogota, as the country was then called, revolted against excessive taxation and the abuses of their Spanish overlords. The uprising was soon quelled, but for the first time the peace-loving Colombian people were conscious of their strength as a nation.

Despite this reverse, the revolutionary movement against Spanish domination spread throughout the country as a series of isolated campaigns, waged by patriots separated by the rough terrain and lack of roads. On July 20, 1810, the revolutionary junta of Bogota proclaimed itself the government of Nueva Granada, embracing present-day Colombia, Ecuador, Venezuela and Panama. And at Bogota, on August 7, 1810, Simon Bolivar dealt the Spaniards another devastating blow which resulted in his entering Bogota three days later.

A few months later, on December 17, 1819, the independence of the Republic of Gran Colombia was proclaimed. Two years later a congress met on January 1, 1823, to determine whether the three departments of Cundinamarca, Venezuela and Quito should form a highly centralized nation or a loosely bound federation of states. A year later the infant nation was recognized by the United States.

In 1829 the Department of Venezuela broke away from the union of Gran Colombia and declared itself an independent republic. A year later, the Department of Quito followed suit, as the Republic of Ecuador. Neither of these separations was strenuously opposed by the government in Bogota.

## Canada Land Rich in Resources and Industry

Canada is a bountiful bread-and-fruit basket; figures its gold crop, farm animals, milk, poultry and eggs, and vegetables in millions of dollars; normally ships wheat, meat and cheese to foreign customers. Fishing is a major industry.

Value of manufactured products—newsprint paper, lumber, chemicals, textiles, iron and steel goods, animal and vegetable products—runs into billions of dollars.

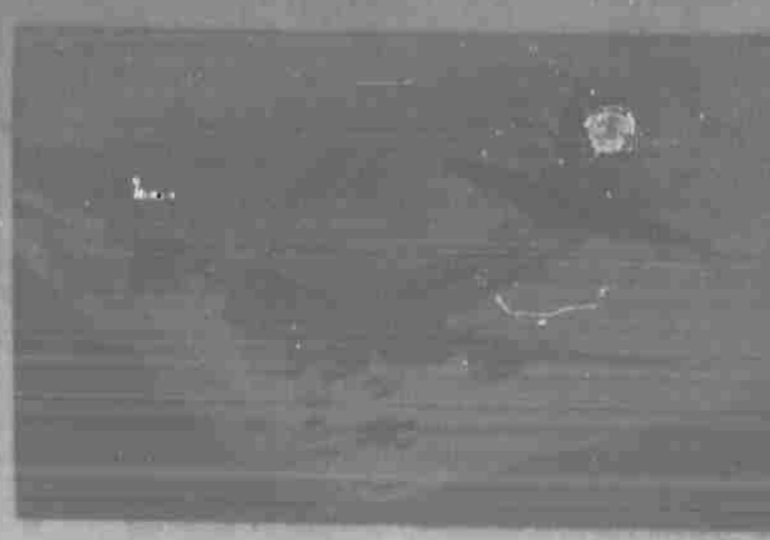

Native fur-bearing animals are the source of stable income. Fur, mink, beaver, muskrat, racoon, martens, and others are raised in farms.

Bigger than the United States (excluding Alaska), Canada runs the full geographic scale. From the rocky coast of Quebec Province, the bayous south of Lake Superior, the prairies and western foothills, to the towering Pacific highlands, Canada boasts in a majestic north-to-south sweep.

Benjamin Franklin was the first postmaster general of the United States.

In a list of persons reported as ruminators, 1881 were men and 276 were women.

## B-29's Hit Rangoon and Singapore

NEW YORK, N. Y.—(Special photo)—India-based B-29 Superfortresses in recent raids on Jap-held Pacific areas, completed raids recently on Rangoon in Burma and Singapore in Sumatra. The latter raid was the longest mission ever flown by military planes in daylight and dockyards and repair facilities and oil refineries were hit with great success. This photo was made from another giant plane of a formation which struck at Formosa and gives some idea of the bombers' undisclosed capacity of the big liners.

## GRADE SCHOOL NEWS

Miss Bonnie McMahon, Reporter

New Books Added To Library

Thirty-one attractive books have been added to our library recently. Some of them are for the primary grades, and others are for the departmental students.

We want to thank the school officials for these interesting and colorful books. We enjoy the library.

Mrs. Nina Wright is very efficient and has done excellent rearranging and cataloging of library books.

Junior Red Cross

The total amount of money received from the Junior Red Cross membership drive was \$23.81, which is a nice donation for our school. The money will be spent to aid orphan children who live overseas. We are happy to know our school had a part in the Junior Red Cross drive.

## An Announcement

To our assembly program visitors we wish to announce that assembly programs will be given each Friday afternoon at 2:30 o'clock since the change in schedule.

Good Deeds Light the Torch of Liberty," Says 4th Grade Students

Mrs. Lillie Kitchen's fourth grade students presented a colorful patriotic play entitled "The Lamp Lighters" during assembly last Friday.

When the curtain opened the center of attraction was the Statue of Liberty with an unlighted torch, and around which students carrying flags of many lands marched. Students representing faith, hope, love, truth, right, justice, courage, perseverance and kindness were the lamp lighters who lighted the torch, and thus gave light by their good deeds.

"To every American heart the Statue of Liberty is dear. She represents all the things for which

**JUSTICEBURG NEWS**

Mrs. J. R. Kay, Correspondent

Mrs. G. O. Ballard of Rochester is visiting her sister Mrs. W. T. Panchman and Mr. Panchman.

Mrs. Add Jones has returned home from the Snyder hospital.

Mr. and Mrs. Edwin Reed of Chertock spent Sunday with his parents Mr. and Mrs. Jeff Reed.

Miss O'Della Morgan underwent a tonsillectomy Saturday in the Young hospital at Houston. She is recovering nicely.

Hardy Amsworth was in Snyder Monday.

**Pretty and Practical**

Let the cold winds blow these changeable days of fall, beautiful Barbara Britton, Paramount star of the current picture "Till We Meet Again," knows the answer for keeping comfortably warm. Ready for relaxation away from movie cameras, she draws her cloth window shades to the sill to seal in warm air. . . . to help the government's vital fuel conservation drive.

The shade-drawing habit is a simple war job that cuts heat loss through window glass by one-third and saves as much as 10 per cent on fuel bills!

**Periscopes Used On Other Vessels Besides Submarines**

Submarines are not the only vessels equipped with periscopes. Steamships frequently have them. They are used by engineers in the boiler room to see whether smoke is going out of the vessel's stack. The kind of smoke is also important. If it is white, the fireman knows there is too much draft. If it is black, too little draft. If there is no smoke, the oil is being burned efficiently.

**OUTSTANDING 4-H CLUB BOYS—**

(Continued From Front Page)

feed to feed 31.5 fighters.

Eugene Ashley, age 13, son of Mr. and Mrs. T. F. Ashley was one of the eight winners in the Victory Garden Contest and won a \$25.00 War Bond. Eugene had as his demonstrations in club work for 1944 the following: one steer, one brood sow and his garden.

These and other Garza county club boys have done a good job in club work this year as the above points out. Few counties have as many State winners. With a little more help and encouragement these boys can do better another year. The boys and girls of today will be citizens of tomorrow and they are the most important crop on anyone's farm. Let's get behind these boys and girls and help them to do better and make better citizens. Now is the time to enroll in the Boys and Girls 4-H club work.

Four Garza county club boys will receive War-Time Certificates of Merit for 1944 on their work as "War Emergency Cotton Insect Pest Reporters." These certificates will be given these boys at their 4-H club meetings this month. These boys each inspected cotton fields in their communities during the summer months and sent reports of the conditions found to Texas A & M College which were used in determining where cotton insect poison was needed.

Garza county club boys receiving these certificates are: Alvin Davis who has served two years at this job, Donald Carpenter, Gene Carpenter and Eugene Ashley having served during 1944.

**New Equipment Installed For Graeber's Grocery-Market**

New equipment for the market department was installed at Graeber's Grocery store early this week. The new equipment is a product of Frigidaire Company and was installed by Homer McCrary of the McCrary Appliance Company.

The market with this new equipment is now able to take care of a much larger supply of market items.

Mr. and Mrs. L. G. Thuett, Mrs. Tol Thomas and Jimmie Thomas went to Hereford last Tuesday to attend the funeral of Mr. Morrison, the brother of Clarence Morrison, who formerly lived in Post. They also visited in the home of Mr. Thuett's brother, Will Thuett, in Vega.

Marvin Pennington, operator of the Gulf Garage who was hurt several months ago by a fall from a horse, is now able to return to work. He is inviting the public through an advertisement in this week's paper to resume business with the Gulf Garage.

Miss Thelma Kromer spent last week end with her parents. Her sister who is at home on a vacation is spending this week with her.

Motor trucks for the Army are built to climb 65 per cent grades, slopes so steep that men cannot climb them on foot.

A 35,000-ton battleship requires 150,000 pounds of rubber—enough to equip 2,000 passenger automobiles complete with spare tires.

**Less Dusty Roads In Prospect As Residual Oil Is Released**

Prospects of less dusty intermediate and county roads next spring and summer are decidedly improved as a result of action by the Petroleum Administration for War in permitting the use of residual fuel oil for road building and maintenance. The permission applies to all parts of the country except the west coast. This action is possible because of current supplies of residual oil. The restrictions were lifted at this time to permit states, counties and local governments to plan year's road programs now.

It takes 35 men three months to paint the Capitol dome at Washington, and requires 4,300 pounds of paint.
