

Voters Of Precinct 2 Will Decide Road Bond Issue Saturday

Qualified voters of Precinct 2 will vote Saturday in an election on a road improvement proposition, which will include the paving of approximately 28 miles in Precinct 2. The election, called by the Garza County Commissioners' Court, after acting on a petition presented by 85 resident property taxpayers voters of the precinct, will determine: "Whether or not the bonds of said Commissioners Precinct No. 2 of Garza County, Texas, shall be issued in an amount not to exceed \$300,000, bearing interest at the rate not to exceed four percentum (4%) per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners' Court, serially or otherwise, in not to exceed twenty (20) years from the date thereof, for the purpose of construction, maintenance and operation of mac-

damized, graveled or paved roads and turnpikes or in aid thereof throughout Commissioners Precinct No. 2 of Garza County, Texas; and whether or not taxes shall be levied annually on all taxable property in Commissioners Precinct No. 2 sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at their maturity." The Commissioners Court held

a public hearing on the proposition June 17, and set the election date as Saturday, July 23. The bond proposal calls for a special 65 cent tax rate on the precinct's four million dollar valuation which will service a 20-year bond issue. The proposed paving includes Main Street west of the courthouse, and all connecting streets between Main Street and the Tahoka Highway, from Madison

Street to and including Taylor Street on the west edge of the city. The proposed project also includes the paving of South Caprock road, the road which leads to the Graham community, from that road, then four miles west, one mile south of Graham to the county line, and north to the Tahoka highway, and other roads. Seven miles of the proposed paving will be paved by the State. This strip will be built under provisions of Senate Bill 287, passed by the 51st legislature.

MR. AND MRS. O. R. COOK

The Eleventh Child Of The O. R. Cooks To Get Degree

Mrs. Lowell Sweeten, who until her marriage Tuesday, was Miss Audrey Joan (Josh) Cook, was the last of 11 children of Mr. and Mrs. O. R. Cook of Route 2, to meet the requirements for a degree from Texas Technological College in Lubbock. Mrs. Sweeten will receive a degree in physical education in the August commencement exercises.

When the second summer term opened at Tech Monday, it was the second time since the college opened in 1925 that one of the children of Mr. and Mrs. Cook was not enrolled as a student.

When the college opened, Cook, who has been a farmer in the Post area for the past 35 years, and his wife decided their children should receive an education right here on the South Plains.

So when Tech's first graduating class received degrees in 1927 the first of the 11 children was among the graduates.

War Claimed Two Sons
Tragedy struck for the next two boys, Paul, who now would be 33, and Tom, 30, who studied agriculture and planned to follow in their father's footsteps, but both were killed in action in World War II. During the war all six of the boys were in the service and all overseas at one time.

Besides the boys being in service, two of the Cook girls, Kathryn, 29, and Johnnie, 27, who majored in home economics at Tech, were in war work, as inspectors in Navy industry work. Kathryn is now Mrs. Albert Rattan of Matador and Johnnie is Mrs. Edd Hughes of Springfield, Colo.

The last of the boys, O. R. Jr., 24, received his degree in agriculture in June of this year and is now living at the Cook home about 12 miles west of Post on the caprock. He drives to O'Donnell where he teaches a veterans farm school.

Polly, 22, next to the youngest of the girls, received her degree in June 1946. She majored in premed work and is now a teacher in the botany department at the college.

Mrs. Cook Recognized
During all these years Mrs. Cook has not gone without recognition. In 1948 she was elected as one of the top five women to compete for the title of all-state mother and she was also named recently as one of the 12 outstanding mothers of the nation in a contest sponsored by the Saturday Evening Post magazine.

An advance troop operations session will be held at Camp Post Aug. 6 and 7. R. A. Moore, a local Scoutmaster, has announced.

Boy Scouts To Hold Swim Meet Sunday

The Llano District of the South Plains Area Boy Scout Council will hold a swimming meet at Camp Post at 3:30 o'clock, Sunday afternoon. First place winners in the contests will be eligible to enter the Council Swimming Meet Aug. 16, at Mackenzie Park in Lubbock. The Post meet was scheduled to be held here July 7, but was postponed because of rain.

Sunday's contests are divided into three sections, for Juniors (20 yards), for intermediates (25 yards), and for seniors (50 yards). Each section will have entries in side stroke, backstroke, breast stroke, free style, plain diving, jack knife diving, swan diving, medley relay and free style relay.

An advance troop operations session will be held at Camp Post Aug. 6 and 7. R. A. Moore, a local Scoutmaster, has announced.

FRANK A. RUNKLES

'Chief' Runkles Assumes Duties As Camp Caretaker

Frank A. Runkles, better known as "Chief" to the thousands of Boy Scouts over the South Plains, assumed his new duties as Camp Ranger at the Council's Camp Post, last Saturday. Mr. and Mrs. Runkles and their children, Don, Wayne, Wanda and Delores, will live on the campsite in the caretaker's home.

"Chief" Runkles has had a long Scouting experience. He is an Eagle Scout with silver palms, holds the Scoutmaster's Key and has the Silver Beaver award. He served as Scoutmaster of the American Legion Troop 8 of Lubbock for 11 years. His troops have gained great acclaim for their interpretations of authentic Indian dances and costumes. His Troop 8 has appeared in nearly every community in the South Plains during the past few years with their Indian dances.

Mr. Runkles has been employed by the McInaney Dairy in Lubbock as route foreman for the last 11 years. The Runkles family are members of the Lubbock College Avenue Baptist Church.

The executive board of the council has restricted the use of Camp Post for the present time to Boy Scouts and Scouting activities only. Registered units of the Boy Scouts of America may use the camp at any time. Each troop planning to use the camp:

Lloyd Moyer To Hold Revival At Graham

A fine of \$50 and costs and a fine of \$75 and costs were paid for driving while intoxicated, and two fines of \$1 and costs were paid for drunkenness. A truck driver was fined \$50 and costs for an overloaded truck.

Post Delegation Is Attending Hearing At Lubbock Today

Attending a special hearing of the Railroad Commission in Lubbock today, at which the Santa Fe Railway is requesting permission to discontinue operation of trains 94 and 95 between Lubbock and Sweetwater, will be a group of Post business men.

According to information given the Post Dispatch, the Santa Fe Railway contends that by handling the Dallas and Fort Worth mail over their own line, via Brownwood, that the trains between Lubbock and Sweetwater can be discontinued without impairing the mail and passenger service to towns from Sweetwater to Lubbock. Under the present set-up Dallas and Fort Worth mail comes to Sweetwater on the T. & P. and train 94 holds over to make connections each morning.

Those attending the hearing are County Judge J. Lee Bowen, Bill Land, Post Chamber of Commerce president, Jess Wright, Post Chamber of Commerce secretary, N. C. Outlaw, Homer McCrary and possibly several others.

Annual Church Meet Is In Progress Here

The West Texas Annual State Convention of the Church of God is being held here today through Sunday, the Rev. M. C. Rains, pastor of the Third Street Church, has announced.

Trustees To Receive Bids For Project

Educational Building Plans Ready For Bidders

Sealed proposals for a general contract for the complete work for the construction of an educational building on property owned by the First Baptist Church will be received by trustees of the Church, through Ira Lee Duckworth, chairman of the board, until 2:00 p. m. Thursday, August 4. It was announced this week by the Rev. T. M. Gillham, pastor of the church.

Drawings and specifications for the proposed building were completed several days ago by Tom W. Bouchier, and are on file in the office of Mr. Duckworth at the First National Bank. Bidders may obtain copies upon application to the Trustees. The proposed structure will cost approximately \$31,000.

The building will be of buff brick, to match the church building, and will be two-story. The first floor plan calls for a four-room nursery, the young adults department, including a large assembly room and five class rooms. The second floor will be made up of the intermediate and young people's departments, with 11 class rooms. The entire building will be air-conditioned. Construction will begin as quickly as possible after the contract is let, the Rev. Mr. Gillham said.

An advertisement for bids will be found on the classified advertising page in this issue of the Post Dispatch.

Funeral Rites For W. R. Gollehon Held At House, N. M.

Funeral rites for W. R. Gollehon were held in House, N. M., Tuesday afternoon. He died at his home there on July 15. Gollehon formerly lived in Garza County, moving to House in 1945. He and his family lived in the Close City community from 1924 until they moved to House.

Immediate survivors are his wife and son, Eugene, both of House; two daughters, Mrs. W. E. Harber of Cisco and Mrs. Roy Mason of Lorenzo.

He is also survived by three brothers: Jim of Post; Louis and Walter of Los Angeles, Calif.; five grandchildren and two great grandchildren.

Large Crowd Sees Exhibit At Bank

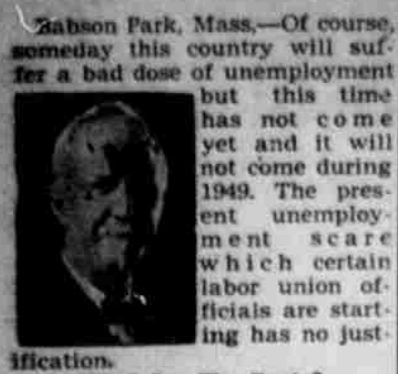

Two hundred eighty-four persons signed the register from 9 a. m. until 3 p. m. yesterday, at the First National Bank when it observed its 40th anniversary. An exhibit of every type of paper currency that has been in use in the United States since 1772 was displayed in fifteen 22-square-inch frames.

The different types of paper currency included were Colonial and Continental notes, obsolete bank notes, Treasury notes of the Republic of Texas, notes of the Confederate States of America, Texas Treasury warrants (Civil War issue), postage and fractional currency, United States notes and Treasury notes, coin notes (payable in coin), silver certificates, Federal Reserve notes, Federal Reserve bank notes and National bank notes.

Framed portraits of the late C. W. Post, the late H. B. Herd and the late W. E. Connel, charter directors of the bank, were displayed.

Educated, Honest Men Need Not Worry About Finding Jobs

What Are The Facts?
Let us assume that the official figures issued last week of 3,788,000 unemployed are correct, although I think these are too large. Well, when I was Assistant Secretary of Labor in 1917-1919, normal unemployment was

then officially stated as 2,500,000. This included the sick and those even temporarily laid off. Yet, in those years the total business of the country was less than half what it is today.
The above facts show that until 5,000,000 are reported as "unemployed," we have nothing to worry about. Remember that since 1917 the total number of employed has jumped from 25,000,000 to 60,000,000 people. Remember that five times as many women are employed today as before World War I. Remember how much less work a carpenter, painter or bricklayer does today than he did thirty years ago. It is a miracle that some of them are now employed at all.
Unemployment Insurance
Is unemployment insurance for

good or evil? I don't know, but I believe that many are now leaving their jobs for vacations this summer and are taking their \$25 per week "unemployment" insurance. I am sure that such insurance encourages unemployment and increases the unemployment figures. Once each month your state publishes what is paid out the previous month to the so-called "unemployed." Much of this money is being taken unfairly, but the people say: "Everyone else is getting it, so why shouldn't I?" Over half of the unemployment money which is being distributed every week in your community comes out of the rest of us. It is one of the chief causes for present high taxes. It is teaching people to be dishonest; and it is

leading to great abuse and corruption the same as did prohibition.
I recently heard of a city where over 100 clerks are busy every day just writing unemployment checks. It is not just the money paid out to unemployed; but the huge cost of looking up the evidence and keeping the books. I am told that it costs over twenty cents for clerkhire in order to pay out one dollar. Someday there will be a big political scandal relative to unemployment insurance. Such insurance has a legitimate use in a real business depression, but no such depression exists today when people drive in shiny new automobiles to collect their insurance on their way to the beach.

Unemployment Outlook
The question is often asked me as to how bad unemployment will become and when it will be at its worst. I have not yet collected sufficient data to give an opinion now. But Doctor Joseph L. Snider, one of the country's greatest authorities on business economics has some ideas on this question.
He is reported to have estimated that the industrial index of the Federal Reserve Board will go off about 25% below the peak of 1948 and that about 8 to 10% of this decline has already taken place leaving only about 15% or more to go. Let us hope he is correct as other authorities believe this industrial index will go off 50% which means we may have 40% more to decline.

How To Look
Let us look forward instead of backward; upward instead of downward; outward instead of inward. Think of the great unfilled orders today for more automobiles, more roads, more houses, more bathrooms and especially more household electrical appliances. This latter demand is especially evident from the budgets which the public utility systems have for the next few years. The electric power companies alone tell me that, unless some catastrophe like war should happen, their output will double during the next ten years. This of itself will require new great power units as well as new wire, poles and millions of new motors and appliances of all kinds. Certainly, this

is no time for those character and education about unemployment. Read the classified ads.

Garza and the World

By EVELYN BOYD

One of these days the voters of Garza County will be called to the polls to decide on proposed amendments to the constitution of the State of Texas. As most amendments are dull and difficult to understand, your humble servant here has spent considerable time reading and studying them and, with the help of some local people who have a better understanding of such things, is herewith presenting in a series of articles an attempt at interpretation and advice. Five of the proposals were discussed in this space last week. Here are some more:

House Joint Resolution No. 15—Proposing an amendment by adding a new section authorizing the legislature to provide for the establishment of health units, and authorizing a tax in support thereof.

More specifically, the proposed section reads: The legislature shall have the authority to provide for the organization of city-county health units and the operation thereof and to authorize counties and cities to provide a tax of not to exceed 20 cents on the \$100 valuation of taxable property in counties and cities for the purpose of financing the said county-city health units; provided that no such tax shall be authorized except by a vote of the people residing in the city or county in which said tax shall apply. The foregoing tax shall be levied only on county valuations.

I'm voting NO on this one. Everybody will admit that we need a health unit here in the form of a hospital. But the above proposal does not mention the word hospital. It does not even define a health unit, but I imagine it means a place where the needy can get physical examinations and minimum treatment free of charge. The maximum local tax of 20 cents on the \$100 tax valuation would bring about \$16,000 a year for the State of Texas to use in the operation of such a place here.

It goes without saying that the health unit would not take the place of a hospital, but it would cost so much money that we would not be able to afford a hospital, in addition.

If we want to vote in favor of the health of Garza County people, let's skip this state proposal and vote funds for a city-county hospital that we citizens of Garza County can operate for the benefit of ourselves.

House Joint Resolution No. 22—Proposing an amendment to provide that the Judge of the District Court shall conduct its proceedings at the county seat of the county in which the case is pending, except as otherwise provided by law.

I can't find any good reason for voting for this proposal, but there is an excellent reason for voting against it: According to County Attorney Joe Moss, 99 per cent of the district court proceedings are not trials. They are merely routine matters, such as removing disabilities of a minor, injunctions, adoptions, etc. As the law now stands, the district judge can attend to these matters of business in any part of the county involved that he desires. Consequently, a lawyer wishing to expedite a legal matter may make an appointment by telephone with the judge, who in this district lives in Lamesa, to meet him at the papers signed. Otherwise, the lawyer and his clients would have to wait until the judge makes an official visit to Post which might not (under the terms of the above proposal) be more than twice a year.

Legal cases at best are dragged out too long. I'm in favor of anything that will speed them up; SO let's vote AGAINST this proposal.

House Joint Resolution No. 32—Proposing an amendment by adding a section providing that the legislature may provide for trials in lunacy cases without a jury.

I'm against this one. I believe that a lunatic has as much right to a trial by jury as anybody. The proposed section reads that the person to be tried may demand a trial by jury, but if he's really crazy he might not be in a position to understand this.

Let's vote against this law and concern ourselves with the repeal of some of our crazy laws, instead of passing more of the same.

House Resolution No. 36—Proposing an amendment to provide for the establishment and creation of hospital districts in the counties and to provide for the support of said districts by a tax on the ad valorem properties situated in said counties.

Minute Editorial

While only the property owners of Precinct 2 will go to the polls Saturday to vote in the \$300,000 paving bond election, the matter is of interest to all of the residents of Garza County who have to drive over the dusty and rough city streets and unpaved country roads. The paving plan was dreamed up and methodically worked out by Commissioner Buck Gossett, who will go down in history as one of the county's most capable men. That Saturday's election will carry a reasonable assured before the petition asking for the paving was ever presented to the Commissioners Court. Buck saw to this by personally contacting the people who would have to pay for the project. Buck also worked closely with city officials and included in his paving program a plan of road maintenance which will make the project a permanent thing. To Buck and all the property owners of Precinct 2 who probably will vote extra taxes for themselves on Saturday, the entire community should be exceedingly grateful.

What Our Contemporaries Are Saying:

BE IN RALLS AUG. 4 AND 5— If you're not "on the corner with your left hand" here Aug. 4-5, you'll be feeling mighty lonesome. Just about the biggest rip-roaring square dance seen in these parts will be staged on an open air pavilion to be constructed at the baseball diamond. The occasion is the annual reunion of the Old Settlers. A half dozen guest callers will be in charge of a floor accommodating 30 squares. Old timers should get quite a bang out of it.

The local doctors and I don't have any information as to what this proposal is all about, but one of the physicians said he didn't imagine it would hurt anything and it might do some good.

I'll try to find out between now and election day what this proposition is all about, and comment on it in this space.

I'll comment on the 10th proposition in next week's Post Dispatch and summarize what has been said on the other nine proposals.

We have a feeling that many a pioneer will be on the platform showing younger squirts a thing or two about square dancing they didn't pick up from the dancing instructor. THE WORLD'S MEANEST—A variation of the meanest man in the world who stole pennies of dead people's eyes was reported in Seminole this week when Foster Bröck, caretaker at the Seminole cemetery, told of recurrent cases of flowers being stolen from graves.
The offense has been recurrent recently, local florists said, and there have been no clues as to identity of the culprits.—The Seminole Sentinel.

SUFFERING HOUSING SHORT-AGE—Despite the fact many housing units have gone up in Snyder during the past six or eight months since the real start of development of the area oil fields, the housing shortage seems to be even more acute

than it was six months ago. People are just coming in a lot faster than housing can be provided. The cry for more apartments and houses is terrific—no doubt much more serious than most of our citizens realize.
In fact, many families whose bread winners are working in the Snyder territory are living at Hermleigh, Dunn, Ira, Colorado City, Sweetwater, Roby, Roton and Post. It is fortunate that these towns are able to share our housing shortage—but it is inconvenient and expensive for the workmen to travel so far to and from their work.—The Scurry County Times.

2% IS A SMALL FIGURE

We were looking over our list of stockholders the other day and discovered something we thought you'd like to know. The largest holder of Southwestern Public Service stock owns less than 2% of the total shares!

To us it is reassuring that so many folks have invested their money to help us progress with the area we serve. It means also that ownership of Public Service is vested in thousands of folks right around here... teachers, ranchers, small businessmen, churches.

In other words, your Public Service Company belongs to the Panhandle-Plains-Pecos Valley. Somehow, that's the way things work best... free enterprise and sound business management... together... for a better way of life.

Technicians Measure Irrigation Wells

Soil Conservation Service technicians this week assisted three district cooperators in measuring the water capacity of their irrigation wells.

Herman Dabb's well at Hackberry, one of the largest wells in the district measured 860 gallons of water per minute; Dalby's well on the farm that A. O. Rosenbaum works at Close City, produced 4437 gallons a minute, and Will Teaff's well also in the Close City community, pumped 185 gallons per minute.

With information on how much water their wells are pumping—how much water their soil will hold in the plant root zone—and how fast the water will soak in the soil—district cooperators can water their land thoroughly and without waste from run-off.

The wells were measured with a Parshall flume. The flume is a box type apparatus, smaller in the middle, with the top open and placed in the ditch just below the well so that the water can run through it. It takes about an hour to measure the capacity of a well. The drawdown of the water level in a well is also needed to determine the maximum pumping efficiency of an irrigation well.

Cotton Allotments May Change Soon

Will Wright, chairman of the Garza County ACA committee, stated that the AAA of 1938 now provides for a cotton marketing quota under certain conditions with a minimum cotton acreage allotment of 27.4 million acres. Acreage planted to cotton in 1948 was approximately 23.4 million acres with a production of 14.6 million bales. The year's average domestic consumption plus exports amounted to 12 million bales.

A bill is now before the congress to change the law so as to provide a minimum allotment of the larger of (a) ten million bales or (b) one million bales less than the estimated domestic consumption, plus export, of cotton for the previous marketing year. A ten million bale allotment would provide an acreage allotment of approximately 22.5 million acres. The bill also provides that whenever the total supply of cotton exceeds the normal supply by more than eight per cent, or whenever the total supply is equal to or greater

than, the normal supply and the price of cotton at the beginning of such marketing year is 90 per cent of parity or less, a national marketing quota must be proclaimed by Oct. 15 and a referendum conducted not later than Nov. 15.

S. C. S. Boys Hold Good Safety Record

Safety Pays—Most of us know the statistical figures on safety apply to the other fellow, but have, here in Post, proof of practicing safety does pay. A nation safety to Jake Webb, maintenance foreman, or the boys down at the Post section of the Texas State Highway Department and their faces lit up with a smile and they give you more reasons than "cat has lives," why people should be careful. Those boys can be proud of their record—4,219 days without a lost time accident. That turns back 10 years to Jan. 1, 1938 when they started keeping records of their lost time accidents.

The Soil Conservation Service boys are a bit proud of their safety record too. Since the formation of the Soil Conservation Service, lost time accidents have been cut from 38 to less than one per million man hours. Now at the Post work unit office remember when an employee suffered a lost time injury.

Letters From The Readers

Dear Editor:

As I write this I am recalling an incident which happened a few months ago. There are too many stray dogs running loose around town. Something should be done about it before someone scatters some more poison around. I hate to think of some little girl or boy losing their only pet. It is not right.

In some parts of the town people can't get a night's rest for a gang of dogs fighting, barking and "raising heck." All you have to do is inquire around and find that this statement is true. I have heard some nasty threats made and thought it might help to mention this to you.

If a person cares about his dog he should see that it is put up for the night and that it will not bother his neighbor or run loose over town.

A Weekly Reader.

Dear Editor:

I am sending bits of news about my family as you asked me to do. I enjoy reading about Ex-Postites very much. I have been reading the Post paper for 32 years and I like it. I think it is the best weekly paper that I have ever read. "More Power" to you and I am proud of you. The paper is getting better all the time.

Sincerely,
Mrs. D. A. Martin
Levelland, Texas.

Dear Editor:

First, I should like to say I miss "Eddie the Editor" more than any department of the paper. I am happy to supply you with the information you asked about my family, even though there isn't much to tell.

Sincerely,
Mrs. Eldora Potter
Slaton, Texas.

Dear Editor:

We enjoy reading your column about the people who have once lived in Post, as well as about the ones who are now living there. In fact, your paper is tops.

Most Sincerely,
J. C. May
Stamford, Texas.

Dear Editor:

I can't tell you how we enjoy reading the Dispatch, particularly those "Bits of News." They are just those little every day things you like to know about your friends.

Sincerely,
The Claude Weathersbees

Ottinger Passes Good Safety Slogans Along

Farming and ranching is one of the most hazardous occupations. Farm accidents in 1948 in the United States cost farm people \$36,000,000 for medical and hospital care. Texas, Louisiana, Arkansas and Oklahoma rank among the highest in accident frequency, Pete Ottinger, of the Soil Conservation office said.

Falls account for one-fourth farm and ranch accidents. Age groups are subject to different types of injuries.

Children under 14 have more accidents due to stepping on or striking against objects. Group 14 to 24 years are most frequently involved in motor accidents. Folks 25 to 44 years exceed others in accidents with machines and hand tools. People 45 to 64 have relatively more accidents handling objects such as heavy equipment. The over 65 year group are most liable to injury from falls.

Over three times as many farm accidents happen to men and boys than to women and girls. Mr. Ottinger suggests the following slogans to combat unsafe farm practices:

"Careful fingers make safe farm hands."

"Cultivate safety and harvest happiness."

"Be careful today and be farming tomorrow."

"Farmers, make your heads your body guards."

"Don't save time, Mr. Farmer, save yourself."

"The head of a match can't think—think for it."

"The time to be careful is now."

"There is a safe way; do it that way."

"The chance-taker is the accident-maker."

"The best safety device is a careful farmer."

"One accident can upset your whole world."

"Can't stop-work—stop farm work accidents."

"Common sense plus application equal safety."

"Plan safety for each operation."

"Time saved at the price of an accident is no bargain."

Bud Bowen of Rotan, son of Mrs. T. O. Bowen, is a patient in a Rotan hospital following a stroke, which he suffered Friday while visiting his wife, a patient in the hospital after undergoing major surgery there last week.

Mrs. O. V. McMahon, accompanied her brother, Raymond Reed, to Three Rivers last Thursday where they visited their parents until Sunday.

Mr. and Mrs. R. D. Travis and daughter, Bettye, returned home Friday after a week's visit in Rochester. Mr. Travis went fishing while there.

Snyder Rodeo Is Now In Progress

The 13th annual Scurry County Rodeo got underway last night with cowhands from all over West Texas attending. The show will run through Saturday night.

New stands have been built on the east side of the arena to take care of an additional 800 spectators, the chutes and starting gates have been revamped and the lighting facilities have been improved.

Bill Lyons of Petrolia is furnishing the stock for the four-night show.

Following the rodeo performance which begins at 8 o'clock each night, is a dance featuring the music of Ida Red and her band.

Bingham Will Attend Coaching School

"Bing" Bingham, Post High School coach, is one of six hundred coaches who have already registered for the annual Texas Coaching School, which opens in Beaumont August 1. The school will last one week.

"Bing" said that he is going primarily for two purposes. The first is in interest of getting "spring training" for football back in the high schools. This practice was stopped to try to build up interest in baseball and track, which is a "fine idea" "Bing" believes, but the spring sand storms in this area are not suitable for these sports. He is also interested in letting a boy play football until he is 19 years of age. He is a believer in the

Millers Move Into Fourth Place Tie With Levelland Refiners Last Sunday

The Post Millers moved into a fourth place tie with the Levelland Refiners in the Oil Belt League standing last Sunday when they walloped the Refiners, 10-3, in a game at Miller's Park, and at the same time Denver City's Gassers had to move over to share the top-place berth with Seagraves, when the Seagraves crew took an 11-10 decision in a thrilling 14-inning affair.

The Denver City-Seagraves game, originally scheduled for seven innings as part of a doubleheader, lasted almost four hours. Because of its length, the scheduled second game was postponed until next Saturday, when it will be played at Seagraves.

In the Post-Levelland game, the Millers took charge in the first inning, when they blasted Dewey Estes from the mound with a six-run spree and then coasted the rest of the way.

Curley Barnett pitched for the locals and gave up nine scattered hits. Mac Shepard paced the batting by poling out two homers to drive in five of the Miller-counters. Jim Boyd highlighted the affair with spectacular base-running in the third frame. With two out, Boyd walked. He then stole second, third and home on the next three pitches to score before the batter could be retired. In another Oil Belt League game Sunday took a 13-7 decision from Tahoka. The Brownfield-Slaton game was not reported.

Millers Journey To Sundown Tonight, Slaton Here Sunday

One away-from-home game and a home game is on the Oil Belt loop card for the Post Millers for this week end. Tonight the local crew will journey to Sundown and Sunday they will take on the Slaton delegation at Miller's Park.

The remainder of the season's schedule includes eight home games and four away-from-home games. A doubleheader affair, carded with Tahoka, will likely be played here, but has not as yet been definitely decided. The schedule follows:

- July 28—Brownfield here.
- July 31—Doubleheader with Tahoka, place of play not yet decided.
- August 4—Seagraves here.
- August 7—Denver City here.
- August 11—Tahoka here.
- August 14—Sundown here.
- August 18—Denver City here.
- August 21—Seagraves here.
- August 25—Levelland here.
- August 28—Levelland here.
- September 4—Slaton here.

Bill Land Attends Rotary Assembly

Bill Land, president of the Post Rotary Club attended the Pandhandle-South Plains area Rotary Assembly at Lubbock Monday along with 101 other Rotary leaders of the 183rd district. The purpose of the assembly was to acquaint leaders with the organization and purposes of Rotary.

Land gave a brief report on the assembly at the Tuesday noon luncheon of the local club, before turning the program over to the Rev. A. B. Cockrell. The Rev. Mr. Cockrell sang a Danish folk song and then discussed "The Case of the Church," pointing out the indifference and careless way in which people support the church.

Lott And Wright Attend Area Scout Meet In Lubbock

John Lott and Jess Wright attended the South Plains Area Boy Scout Council meeting in Lubbock last Wednesday night. Twenty counties were represented at the meeting. Changes in age requirements in the scouting program were explained to the scoutmasters and commissioners.

The national organization has announced that boys may join the Cub scouts when they reach the age of eight instead of nine. Upon reaching the age of 11 they may join the Boy Scouts instead of waiting until they are 12. When Scouts become 14, they automatically will be known as Explorers. Heretofore, upon reaching 15, they could choose between staying with their troop or entering some senior program.

Problems Discussed According to W. R. Postma, council executive, this poses a real problem to the council. In the first place, since many of the Scouts now active in the various troops are 14 years of age and over, all the troops will lose a portion of their members. Some will lose as many as 75 per cent.

Another problem is that many of the boys who to be automatically eliminated into groups to help bring in the younger boys now eligible to join. The council also agreed that boys in the age group to be promoted should be given until the first of the year to finish the last of their Cub or Scout work.

Reason For Change Postma explained that the reason for this national change in the age requirements mainly due to the junior high school system which has spread throughout the country. Most boys are 12 years old when they enter junior high and with increased school and social activities that exist now, there are too many elements competing for the boy's time. The new 11 year minimum age requirements will put the Scout back in grade school and have him established when he reaches junior high school.

Roll Call Slaton Surveys have shown that in this council 95 per cent of the members are in favor of the change, and nationally 72 per cent are in favor, Postma stated.

Another matter discussed was the coming Liberty Roll call to be held the last week in September and the first week in October. This will be individual meetings of the various troops with the boys parents present. Officials of the council will call the roll, inspect the troop, and go over the boys' achievements separately.

Also plans were made for a council wide roundup to be held Oct. 21-22. The camp will be held on the Tech campus. This is the first roundup held since the war, Postma said.

Famous Dancers Of Indian Tribes Will Perform At Pampa

Yes, the Top o' Texas Rodeo and Horse Show Association is giving this country back to the Indians during the annual Top o' Texas Rodeo and Horse Show to be held in Pampa on August 2-3-4-5 and 6.

Arrangements have been completed with the U. S. Indian Reservation Office at Anadarko, Okla., for the appearance of a group of Indians from the United States Indian Reservation to appear in this year's show. There will be three tribes represented in the delegation, the Kiowas, Comanches and Apaches. The oldest Indian, Frank Bosin, is a Kiowa and is 89 years old. George, who is Frank Bosin's son, is a descendant of Toohausan (signer of the Medicine Lodge Treaty). George's wife, Beauty Appermy is a Comanche, a descendant of Chief Quannah Parker. The group of dancers will range in age from 9 to 90.

This group of dancers are nationally famous for their Indian War Dances, and will dance at each night's rodeo performances in full costume and ceremony. The costumes of the Indian girls are buckskin and beads valued up to \$300, and are treasured very highly by them as it is almost impossible to obtain the materials to make these dresses. The war bonnets and head dresses of the men are Eagle feathers and are also very expensive and hard to obtain. They will be equipped with tom-toms or war drums plus the colorful University Hardin-Simmons Cowboy Band in the background.

Mr. R. W. Babb and son, Truett, will leave tomorrow for a visit with relatives in McKinney, Dallas and Fort Worth. Truett will attend a vocational agriculture teachers meeting in Dallas.

Mr. and Mrs. D. V. Stanton and Mr. and Mrs. David Blanton of Lubbock were Sunday guests in the home of Mr. and Mrs. Victor Hudman and children.

Mr. and Mrs. Raymond man and children left last night for a vacation trip to Colorado Springs and other Colorado.

Cook's Children

(Continued From Front Page)

The Cook family are longtime members of the Methodist church.

Mrs. Cook Saturday said that "of course, I believe everyone who possibly can should go to college."

The pioneer Post woman formerly resided in Navarro county before marrying her husband who lived in Ellis County, admitted that it hadn't always been easy to educate 11 children.

"But they all helped themselves and one another," she explained when asked how the family managed, even during the depression and drouth years.

Asked what her philosophy of life was that she left with her children as they left home for an education and lives of their own, and what her philosophy was for others beset by much of the confusion in the world today, she answered:

"Just treat the other person as you would have him treat you—in other words, the Golden Rule."

Her infectious laugh added her unspoken happiness in her family and its accomplishments.

College officials said Saturday that as far as they were able to determine, the record was one of, if not the most unusual such family education stories in Texas Tech's history.

The camp development program of the council is well under way. During the past year a new \$30,000 swimming pool has been built, water lines have been laid to wells on top of the Cap and electricity and refrigeration have been added. The Boy Scouts of the South Plains are on their way to having one of the finest camps in the entire area.
