The Post Dispatch

VOLUME XXI POST, TEXAS "OUT WHERE THE WEST IS THE WEST" THURSDAY, MARCH 13, 1947 "THE GATEWAY TO THE PLAINS" NUMBER 13

Schools To Close Friday For WTSTA Meeting

Two thousand to 2500 teachers attending the West Texas State Teachers Association meeting in Lubbock tomorrow will hear a program on "Education for a New Era."

All 28 of the Post teachers and most of the 50 other Garza County teachers will be among the teachers of 26 West Texas Counties attending the session which will get underway at 1:30 o'clock in the Lubbock Senior High School Auditorium. All the Post and rural schools of the county will be closed all day Friday, Supts. G. R. Day and Dean Robinson have announced.

The first address of the opening session will be by Dr. Henry J. Otto of the University of Texas, on "Elementary Education for a New Era." Following will be a speech by Dr. R. L. Williams, president of the Sweetwater Schools, on "Texas School Administrators' Relationship as a Department in the Texas State Teachers' Association."

Legislative projects, number one item of which concerns raising of teachers' salaries, will be discussed by Dr. Henry Stilwell, Texarkana school superintendent.

Dinner Is Planned
House delegates will meet at 4 o'clock in the school auditorium and, at the same time, sectional meetings of the 17 departments will be held in different rooms of the high school building.

An administrators' dinner will be held at the Hilton Hotel with Floyd Honey, Lubbock Senior High School principal who is in charge of arrangements for the district meeting, presiding. Dr. Williams will be the principal speaker.

The concluding session will begin at 7:30 o'clock with Frank Monroe, superintendent of Midland Schools and president of the association, presiding and Jeff Williams, attorney of Chickasha, Okla., delivering an address on "Collaboration or Disintegration."

Committees To Meet
The sessions will be preceded by meetings of the nominations and resolutions committee. Roy Boyd, Lubbock county school superintendent is chairman of nominations and O. C. Thomas, formerly of Post, Ralls school superintendent, is chairman of resolutions.

In connection with the association meeting also on Friday will be a joint meeting of vocational teachers of agriculture, homemaking, trades and industries and distributive occupations in 28 West Texas counties which will

PASSENGER CAR OWNERS URGED TO BUY LICENSE PLATES BEFORE DEADLINE

Two thirds of the Garza County passenger car owners, as usual, seem to be waiting until the April 1 deadline nears to buy new license plates.

T. H. Tipton, whose job it is to issue the plates in the Sheriff's office, asks the Dispatch to "urge them to come on and buy those plates and avoid the last minute rush."

To date about 400 plates have been sold to the county's 1100 or 1200 passenger car owners. The plates can be installed on the cars now, Tipton says.

be held in the Aggie Memorial Auditorium at Texas Technological College, Miss Esther Sorensen of Lubbock, district supervisor of homemaking education, will preside.

The principal speaker will be W. E. Lowry of Austin, executive director of vocational education in the state.

Lively City Election In Prospect For Post On Tuesday, April 1

Interest in the coming biennial city election Tuesday, April 1, continues to mount as talk passes freely between the town's "side-walk spit and whistle boys," business men, and women of the various sewing circles. Prospects for a lively election have heightened the past week to the extent that the usual order of election ballots has been increased to assure everyone a ballot who chooses to participate in the election.

The spirited campaign has developed over the number of candidates who have entered the races. Usually the ballot offers only enough candidates to fill the offices, and on several occasions last-minute efforts have been made by individuals or groups to live up the election by writing in candidates on the ticket. With a full ticket, and contested races, voters feel they have a choice in choosing their officials and are not merely trekking to the polls as a matter of duty.

The ballot offers a contested mayor's race, with two candidates listed. J. A. Stallings, the present mayor submits his candidacy for re-election, and John T. Herd, who was petitioned by a group of local business men, is a candidate for the city's top office.

In the commissioner's race, the two incumbents, B. L. Sargee and T. R. Greenfield, are candidates for re-election. The same group of business men who petitioned Herd, also submitted two candidates for the commission, Clint Herring and Vachel Anderson. Ira Greenfield's candidacy for a commission post was submitted by members of the local fire department.

The election will be held in the office of the city secretary. Polls will open at 8 a. m. and close at 6 p. m.

ALTHOUGH IT SNOWED ON MARCH 6 IN 1908, ONLY ONE PERSON RECALLS IT

Last Thursday's snow was the first snow to fall here on March 6 in 39 years, observes Ollie L. Weakley.

He remembers very well the day he moved to Post with his parents, Mr. and Mrs. Ira Weakley, from Roby. It was March 6, 1908, and he was 11 years old. The snow that fell that day made the skeleton of a town that Post was then look like the prettiest place Ollie had ever seen.

He had not seen Post look that pretty since, until last Thursday when another March 6 snow blanketed the city.

Five Candidates In School Board Race Vie For Vacancies

Added interest in the Post Independent School District board election was contributed by the present board when it recommended its president, Willard Kirkpatrick, whose term expires this year, and George Tillman as candidates for the two upcoming vacancies, at its meeting Monday night.

Their names have been submitted in the proper manner and will appear on the ballot along with three other names submitted previously in petitions to the board.

John Lott and Dr. B. E. Young were sponsored as candidates in petitions signed by a group of business men. Another group submitted a petition listing Paul Jones as a candidate.

The ballots will be printed after the deadline for entering candidate petitions, March 24.

The election will be held at the City Hall April 5, with the polls open from 8 a. m. until 7 p. m.

With at least five candidates on the ballot, interest in the election is running higher than usual and a large turnout of voters is anticipated. Last year, less than 100 persons voted in the school board election.

Post Gets Off As Usual With 'Mild' Type Of Weather

Fresh winds from the north and northwest, yesterday brought more chills and colds to Garza County; snow to Pampa and Amarillo, a blanket of snow clouds over the rest of the Panhandle, and dust to El Paso and Midland.

West Texas this morning was still very cold and partly cloudy, Post—as usual—being one of the exceptions in having a bit of sunshine.

While West Texans were coping with winds ranging from 22 to 45-mile-per-hour winds yesterday, heavy rains were falling downstate. All of downtown Goose Creek was without electrical power for two hours after and electrical storm struck the tri-cities area of Goose Creek, Pelly and Baytown.

VFW WIVES TO ORGANIZE UNIT AT JOINT MEETING WITH HUSBANDS TONIGHT

Veterans of Foreign War wives will be organized into an auxiliary at 7:30 o'clock tonight at the American Legion Hall at a joint meeting with the men.

Mrs. Ruth McDonald of Lubbock, a state VFW Auxiliary official who is organizing the auxiliaries in this district, will attend the meeting and assist.

All women whose husbands are VFW members are urged to attend, the organization committee has announced.

NEW ARRIVALS

Mr. and Mrs. O. E. (Pokey) Ammons are announcing the arrival of a son weighing 8 lb., 13 oz., born Wednesday in the West Texas Hospital at Lubbock.

Bill Lyons' Rodeo Stock Contracted For Stampede

When this spring's annual Stampede and rodeo is unveiled here in the new rodeo plant, construction of which will get underway next week, the liveliest herd of rodeo stock ever to appear here will go into action, reports Walter S. Duckworth, president of the Post Stampede, Inc. A contract has been made with Bill Lyons of Petrolia, Texas, to furnish the stock.

Lyons' stock will be fresh, wild, and mean, and will come to Post directly from off the range of Lyons' ranch near Petrolia. The early spring show here will provide for better stock, in that the

Spare Stamp No. 11 To Be Good For 10 Pounds Sugar April 1

Spare stamp No. 11 in the OPA family ration book will become good April 1 for 10 pounds of sugar, the Office of Temporary Controls announced this week.

Validation of the 10-pound stamp, the Associated Press reported, will mark a changeover from the five-pound ration procedure for household users. The current stamp, No. 53, good for five pounds, will expire on March 31.

Stamp No. 11 will be good through September 30, but OTC said a second stamp good for 10 pounds will be validated July 1 providing sugar imports meet expectations.

OTC officials said it is possible that still another 10 pounds, bringing the year's total household users to 35, may be made available September 30.

OTC emphasized that new stamps being validated include sugar for both home and canning use. No separate stamps will be issued for canning. Last year household users got 15 pounds of sugar for regular use and 10 for home canning.

Lane, Minor Named Head Officers For Commerce Chamber

John Lane was advanced from vice president to president of the Post Chamber of Commerce at an election held Monday night by the board. James Minor, one of three new members recently elected to the board, was named vice president.

Lane, a cotton ginner and trucking contractor, succeeds Attorney Joe S. Moss who was elected president last year when the Post Chamber of Commerce was reorganized after the long period of wartime inactivity.

The 1947 board will meet again Tuesday night, March 18, at the Chamber of Commerce office to complete plans for the year's work. Several projects were discussed at this week's meeting. The members, besides Lane, Minor and Moss, are Robert Cox, Paul Jones and two who were elected last month, Dr. Glenn Kahler and Clint Herring.

popular rodeo stockman has a full season to play and before his rounds of Texas, New Mexico, and Oklahoma rodeos are completed his stock will begin to wear down. He has enlarged his herd, said Duckworth, and has sufficient stock this season to keep three rodeos going at the same time.

Included in this season's herd will be some of the same big Brahma bulls that spectators, as well as contestants, last season agreed were "plenty tough." Old number 15, the big brown Brahma that broke out into the arena during a couple of shows last season and caused plenty of disturbance, after all contestants refused to try him, will be back for this year's show. Another popular bull, No. 2, (banana ears) the bull riders called him, will be back to spin-off all comers who dare to mount him. Then too, there'll be No. 22 and 40, in the big herd along with some new bulls. The string of saddle broncs will include some of last season's favorites. Honest John, the big bay; Windmill, the spinner; Goodbye Now, a hard

(More On Back Page, Col. 2)

Garza Ranks Fifth In Texas Counties Meeting ARC Quota

Garza County was the fifth chapter in Texas to reach its national goal in the American Red Cross Drive that is in progress over the nation this month, a telegram to Lewis Nense, Garza County campaign chairman, revealed this week.

Although the overall county goal of \$1250 has not yet been reached, the national goal of \$780 was met during the first few days of the drive. Nense said the special gifts committee, of which Ira Lee Duckworth is chairman, was largely responsible for such quick results.

Now that the national goal has been reached, a majority of the money contributed during the remainder of this month will be kept in Garza County. The agreement is that 71.9 per cent of all money contributed, above the \$780, will remain in Garza County. T. L. Jones is president of the Garza County Red Cross Chapter which will make use of the funds.

J. A. Stallings, chairman of publicity for the drive, has announced that every community in the county contributed its assigned quota for the national fund.

MASONS TO SEE OR HEAR ABOUT ALL 187 MEMBERS AT ROLL CALL GATHERING

The Masonic Lodge will have its annual Roll Call meeting at 7:30 o'clock tonight at the Masonic Hall. A special program has been arranged and the regular lodge routine will be observed. Supper will be served.

The purpose of the Roll Call is to have once a year as full attendance as is possible, of the lodge's 187 members. Whereabouts of the 60 members, who are not in the county and are unable to attend, will be reported.

Wacker Store Opening Set For Week End

Store Will Employ Local Help; Offering Fine Stock Of Merchandise

The G. F. Wacker store, which will have its two-day Grand Opening here tomorrow and Saturday will have as wide an assortment of merchandise as the largest five and ten cent stores in Lubbock and will feature items, such as cream chocolates in the bulk or box and assorted party nuts and favors that are not otherwise available in Post.

For the opening, the founder of the 48-store Wacker chain, Mr. and Mrs. G. F. Wacker of Pauls Valley, Okla., and possibly their son-in-law, M. J. Ewert, and Mrs. Ewert will be in Post to make the personal acquaintance of the locally-employed store staff and the first day's customers. Representatives from several Wacker stores elsewhere in Texas also will be here to assist with the opening for several days.

Native Texans, Mr. and Mrs. Wacker started in the merchandising business as employees of a store in Ballinger. A few years later, in 1926, they opened their own store in Hugo, Oklahoma. Their outstanding success enabled them to open Store No. 46 some 21 years later here in Post. The other stores are scattered through Texas, Oklahoma, New Mexico and Louisiana.

Managers are Partners

The stores are operated on a partnership basis, with the local managers owning an interest in their respective stores. It has been their policy to select young men who have started as school boy clerks, training them for management, then placing each in a store as near as possible to his native habitat. The local manager is William S. Land, who was born and reared at Lamesa. Land started with the firm as a school boy.

Land and Bill Edwards of the Big Spring store, who has been here the past several weeks assisting with the pre-opening details, say that Mr. and Mrs. Wacker would rather see one of their employees "get ahead" than to "get ahead" themselves.

Approximately 25 local people will be employed to assist with the opening trade. All permanent staff members will be Post people with the exception of Land. The number of permanent employees will be determined by the amount of business that the store attracts.

The most modern fixtures available were tailor-made in Dallas to fit the completely remodeled building here.

"Dime" Is Obsolete

Included in the merchandise are numerous hard-to-get items such as Kieenex, tea kettles, coffee percolators, electric waffle irons and electric irons.

All appliances are of the popular price type, ranging up to \$5 each. In addition to a full stock of regular ten-cent store items, Wacker will also sell dish sets and wagons and wheel toys.

The "dime store" merchandise will include a complete line of notions, household goods, school supplies, stationery, greeting cards and seasonal party decorations, although "dime" is hardly the word to apply to this merchandise in times like these.

"The Post people have been very hospitable to us," Edwards said last week, "and we are going to cooperate with the Post Chamber of Commerce and, in every other possible way, try to be a good neighbor."

THINGS ARE BAD ALL OVER AND HAVE BEEN FOR 111 YEARS BUT THEY COULD BE WORSE— Bread And Other Commodities Go Up But Butter And Meat Prices Are Down

Local bread consumers will join buyers of bread throughout Texas and the nation today in paying a higher price per loaf. Although the price is being upped two or three cents in many places, J. E. Parker, Post baker, said that only a one-cent increase will go into effect here. Beginning today, the price per loaf will jump from 15 to 16 cents.

The rise in price is the result of an increase in the price of flour caused by a hike in the price of wheat. The Associated Press announced this week that the flour prices followed the wheat prices closely, but bakers did not immediately boost prices since they were still using flour purchased at previous lower figures.

Wheat Need Is Urgent
The AP quoted the bankers as saying there is an urgent need for wheat; that there is nothing resembling an adequate supply at terminals, and that cash grain disappears into commercial channels as rapidly as it arrives.

Lubbock reported that a price increase took place there shortly after Christmas with no new change indicated. The loaf there sells for 14 cents, the AP said.

The price of cash wheat, from which bread is made, this week pushed to more than \$2.80 a bushel, the highest in 30 years, as dealers questioned the nation's ability to deliver enough wheat to meet the needs of war prostrated nations.

"Butter is lower, hogs at Chicago were off 50 cents to \$1.00; lambs were 25 cents lower, and in New York the price of cotton declined as much as \$2.00 a bale this week. Cotton seed oil dropped the permissible limit of two cents a pound."

This condition has been responsible for a continual advance in future prices during the past seven weeks, during which gains of around 50 cents a bushel have been recorded.

Although the higher prices of grain add up to more pennies missing from the housewives' purses, the AP reported a few pleasant signs that are visible to the consumer:

"Butter is lower, hogs at Chicago were off 50 cents to \$1.00; lambs were 25 cents lower, and in New York the price of cotton declined as much as \$2.00 a bale this week. Cotton seed oil dropped the permissible limit of two cents a pound."

Bad News For Motorists

There were indications that automobile driving will be more expensive. Standard Oil Co., of Ohio has announced an increase of one and one half cents a gallon for gasoline, effective this week, and trade circles believed the advance would be general with other companies soon. On top of this, many state legislatures were contemplating an increase in state gasoline taxes.

Standard Oil of Indiana raised crude oil prices 25 cents a barrel in all areas where it purchases. Phillips Petroleum and the Deep Rock Oil Corp. met the advance. Other oil companies were expected to fall in line, the AP said. The price for foreign silver

broke sharply on New York this week, five and three quarters cents an ounce, the sharpest decline since 1920.

In Pittsburgh, the price of open hearth scrap rose \$3.00 a ton to \$38, the highest price since 1917.

In Chicago, the Inland Steel Company announced a \$250 a ton raise in the price of basic pig iron and \$3 a ton increase in malleable pig iron.

Reflects Tense World

New York stock market averages continued on the downgrade. The AP attributed the Wall Street bearishness to the darkening international picture.

While housewives of Post and the nation dug deep in their pockets and reshuffled their grocery

budgets in an effort to meet their monthly debts, Professor Charles W. Watkins of the University of Rochester's mathematics department did some figuring on the national debt, which he calculated to amount to \$250,000,000,000.

He told his congressman, Rep. Keating (R-NY) that:

"To reduce this debt to a third within 25 years, the annual payment will have to be \$11,210,400,000. To pay it off in 25 years, the annual payment will have to be \$12,000,000,000."

The housewives are used to this sort of thing—as were their grandmothers and great grandmothers on a lesser scale. The United States' last debt free year was 1896.

An independent Post girls' basketball team moved into the semi-finals of the Lubbock TAAF women's basketball tournament Tuesday night when they defeated Lorenzo's entry, 23-14.

The local team was scheduled to play Whitarral, a strong tournament championship contender and winner over Lubbock's Hoyt Furniture in first round play, last night in the semi-finals. Results of the game were not available early this morning when the Post Dispatch was being made up for press. Also in last night's semi-finals were the Brownfield All-Stars paired with Plainview. The finalists of last night's games will play-off for the championship tonight.

Billie Windham was high-point winner Tuesday night by pouring 10 points through the hoop. Josh Cook garnered nine points for the locals, and Ruby Smith led the losers with seven.

The local team is comprised of Windham, Cook and Joy Shepherd, forwards; Marian Shepherd, Oleta Richardson and Beltrons and Dowden, guards.

Joe Louis Offered \$200,000 Guarantee

An unprecedented guarantee of \$200,000 will be offered to Joe Louis to defend his heavyweight title in June against southpaw Melita Bettina of Bescon, N. Y. Bettina's manager, Jimmy Grippo, announced in New York yesterday.

Grippo said the guarantee would be provided by Dr. James J. McCormick of Miami, Fla., and Jan Grippo, a Hollywood producer for Monogram pictures who is Jimmy's brother.

U. S. GOLDEN GLOVES TO MEET EUROPEANS

International Golden Gloves competition will be unreeled in Chicago stadium May 23 for the first time since 1940, according to an announcement in Wednesday's daily newspapers.

A team of some of the United States' best Golden Gloves will meet Europe's champions to be determined in an elimination tournament at Dublin, Ireland, May 12 to 17.

In the age group between 25 and 29, 99 per cent of the men in the United States are unmarried; in Erie, 80 per cent of the men in this group are unmarried.

Conditioning for spring football training got underway Monday at the Antelope corral when thirty or more boys checked out track gear and started beating the cinders to whip into shape for football training which will get under full swing April 1.

Track workouts have been running daily, the fifth and sixth periods of school, and each day has seen more and more boys reporting for conditioning. Coach "Bing" Bingham said this morning he had forty-eight boys on his list for football training, and that he hoped to get all of them out for conditioning before next week end, as class schedules were being worked out so that more boys could participate in the workouts.

When football gear is issued April 1, eleven of last season's lettermen are expected to be on hand to check out equipment, and there will be nine boys who participated in most of last season's games, but who failed to letter, out to gain permanent spots on the team. Twenty-four inexperienced boys, some of whom may develop into first string material, are on the Coach's prospective list for tryouts.

The 1947 team will not only begin training with more experienced boys than in years, but will also be supported by more weight than has been seen in the Antelope corral in many moons. Bingham said his only worries were lining up a center and quarterback.

Lettermen To Be Back

The backfield will be built around five last season lettermen, including Shorty Hester, Stanley Bengel, Junior Malouf, Gaylon Young and R. E. Josey. Both of last year's ends, Hugh Ingram and Roy Williams, will be back. Three of last year's guards, Pleasant Hill, Carter White and Buddy Hays, and one tackle, Jimmy Smith, will be on hand for the starting whistle.

Among last year's squabblers, who are expected to report at the opening of the season, will be Barry Ford, W. J. Gass, Kay Kirkpatrick, Chas. McGuire, Ronnie Boucher, George Pierce, Maurice Steltzer, N. B. Teaff and Calvin Storie.

Inexperienced boys who will be issued equipment are: Charles King, John Rains, Buford Finchum, Bobby Claxton, J. G. Cash

Local Scrappers Even Bouts With Tahoka Scrappers

The Post High school mitt team evened bouts last Friday night at the local gymnasium with the hard-fighting Tahoka scrappers, who the week before took a one-sided show from the locals when they invaded the Tahoka ring. In the eleven bouts of last week's card, the locals won five fights and a draw, to square the evening's card all the way-around.

The first four bouts of Friday night's card, with two knockouts, decision on points, and a draw for the visitors, looked as though the Tahokaites would repeat their victory over the local mittmen, but as the bouts continued to unfold the count became a win one, lose one affair.

Results of the bouts were as follows: Bobbie Dorman of Tahoka won a technical knockout over Carrol Light.

Dale Welhoit of Tahoka and Don Brown fought to a draw. Raymond Jenkins of Tahoka out-pointed T. W. Claborn.

Duane Driver of Tahoka won a technical knockout over J. G. Cash.

Lonnie Wall won a decision over Charlie Brookshire of Tahoka.

Jerry Odum took Bobbie Tippet of Tahoka on points.

Charlie Williams out-pointed A. W. McCullough of Tahoka.

Bill Burkhard of Tahoka won over L. W. Evans.

Roy Williams, in the best fight of the evening, won over W. J. Kyle of Tahoka.

Billy Anderson of Tahoka out-pointed Harold Reno.

R. E. Josey decisioned Joe Palmer of Tahoka.

In a special bout, Cal Stevens, the colored boy who has appeared on all the local cards, lost to Cornelius Salvedoir, a Mexican boy who turned out to be quite a scrapper.

Roy Wade, Roy Davis, Herman James, Jimmie Moore, Jerry Odum, Donald Jones, Billy Odum, Mac McCullough, F. M. Reep, Lonnie Walls, Bob Johnson, Neil Ford, Billy Holly, Charles Kiker, Roy Teaff, Harrel Reno, Clifford Smith, Roy Gary and Don Carpenter.

Fire, the first chemical agent of man, is believed by many authorities to have been in use at least 60,000 years.

Post Will Enter Team In Oil Belt League Sunday

Baseball fever is running high this week as talk makes the rounds that Post will be represented and place an entry in the Oil Belt Baseball league at an area meeting of league officials Sunday at Brownfield.

Semi-pro baseball returned to Post last summer when a "cracker-jack" team was produced here and placed in the high bracket of the loop.

This season's league will be comprised of eight teams, and will include besides Post, Seminole, Seagraves, Sundown, Levelland, and O'Donnell. Brownfield, Amherst and Plainview are dickering to enter the loop and two of the towns will be selected to make up the seventh and eighth teams. Tentative plans call for twenty-two game series, with all games scheduled for Sunday play.

The local teams will be sponsored by the Postex Cotton Mills and Post merchants, and represented by a set of directors who will also be connected with the area league. Besides having good baseball material among local players, Post has a fine base ball park which was built last season by the Postex mills, and if a drive for funds, which is now in progress, proves successful seating arrangements for 500 or more fans will be provided before the opening of the season. Plans for the stands have already been drawn, estimate of cost received,

and a part of the construction cost provided.

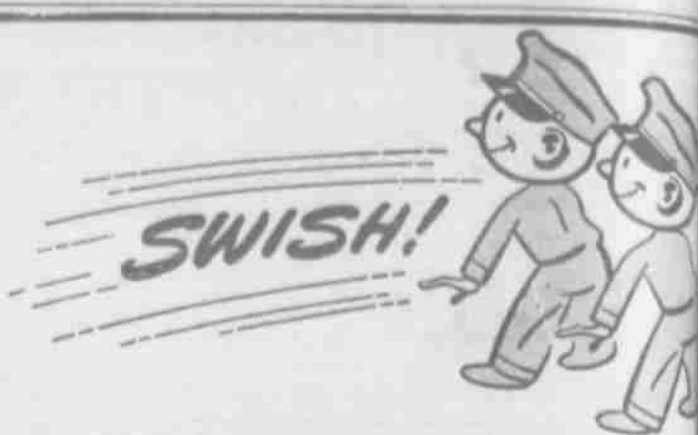

Representing the local club in Sunday's meeting will be Claude Bailey, Oscar Garner and Walter B. Holland, directors, Si Thaxton, manager-secretary, Polly Duren, manager, and J. E. Parker.

League entries will be approved, a schedule arranged, and rules and plans made at Sunday's Brownfield meeting.

Wild turkeys of Colorado were much larger than present day domesticated birds and easily outran a man or fly speed of 50 miles an hour.

If you want to make head in this world and keep what get, you mustn't be too close.

Just as a little garlic in a salad, so does a little improve a man.

Some Answers To Income Questions Are Listed Here

Garza County folk, along with some 50,000,000 other Americans, are facing a March 15 deadline on filing their income tax returns.

Everyone who had an income of \$500 or more in 1946—whether he's a man, woman, child, married or single—must make this final settlement and check-up with the government. A return does not have to be filed for an income of less than \$500.

He must file the return, even though full tax was withheld from his pay checks.

The tax-cutting talk that is heard about in Congress has nothing to do with the situation. The March 15 settle-up date is for last year's taxes.

Those who still owe taxes on their 1946 incomes must pay them in full by March 15 when they file their returns.

The returns must show the amount of the 1946 income, how much tax was withheld, if any, and how much tax is still owed, if any.

About Dependents

If the return shows too much tax was withheld, a refund will be made. Refunds are also made in the cases of less-than-\$500 incomes if returns are filed showing that taxes were withheld.

A \$500 exemption is allowed for each dependent, but it cannot be claimed for anyone with \$500 or more income even though the claimant has contributed to more than half the dependent's support. A dependent whose income was less than \$500 doesn't have to file a return and the person on whom he depends doesn't have to report the dependent's income on his own return.

However, if the dependent had less than \$500 income and tax was withheld, he should file a return in order to get a refund. Any return made by a dependent should be made in the dependent's own name; although the person on whom the dependent depends is responsible for paying any tax that is due if the dependent doesn't pay his own tax.

About Tax-Free Incomes

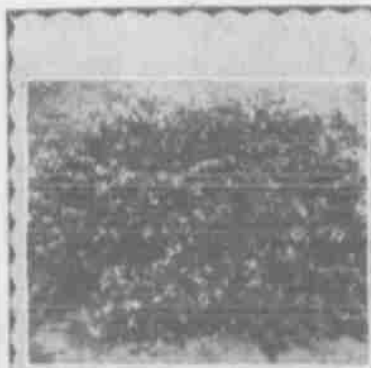

It is different with a wife. If she had any income whatsoever, regardless of how much under \$500, the usual \$500 exemption cannot be claimed for her unless her income is included in a joint return with her husband's.

When a wife's income is \$500 or more, it may save money for a couple if they file separate returns. Some incomes are tax-free, such as:

Disability pensions to war veterans, enlisted men's pay and the first \$1,500 of officers' pay in the armed services, monthly government allowances to families of members of the armed forces, gifts and inheritances, social security benefits, damage or compensation for bodily injury and sickness, and interest on state and local government bonds.

Here are the incomes which must be reported:

Wages, salaries, fees, commissions, bonuses, prizes, tips, bank interest whether withdrawn or

Justiceburg News

Please Send News Not Later Than Monday to MRS. J. R. KEY, Justiceburg Correspondent

Mr. and Mrs. Leonard Reed of Slaton spent Saturday night with his parents Mr. and Mrs. Jeff Reed.

Sunday School and Church Services were held here Sunday with Brother D. W. Reed of Garnolia in charge. Quite a number attended considering the weather conditions that day. Rev. Reed was a dinner guest of Mr. and Mrs. W. T. Parchman, Jr., and daughter, Mrs. M. A. Trice and son, James, visited her parents at Denver City last week.

Mr. and Mrs. Hern Pettigrew and family of Slaton visited his parents, Mr. and Mrs. Claude Pettigrew and other relatives, here one day last week.

Mr. Kit Porter of this community is seriously ill with pneumonia.

Several people of our community are ill with the flu, scarlet fever, and chicken pox.

Mrs. Gladys Briggs was in Snyder one day last week.

Mr. W. L. McAlister was in Lubbock Tuesday.

Dress Lengthening Tips Are Given To Post Dressmakers

College Station, March 13—With style trends running toward longer skirts, home seamstresses busy adding inches to dresses might need some aid with sewing problems.

Ways and means of lengthening skirts, explained by the U. S. Department of Agriculture's clothing specialists are passed on now to Texas housewives by the Texas A and M College Extension Service.

While adding an inch or more to a short skirt is often a simple task, the seamstress sometimes strikes a problem, especially when a facing is required or if the back of the hem is shiny from many pressings.

In case of shiny wool fabric, the clothing specialists tell the seamstress to follow this procedure: Rip the hem and steam-press it on the "wrong side" of the fabric, provided the wool is light-weight or has a raised pattern in the weave. For thick wool, right side pressing may be more effective. To steam press, cover the fabric with a dry wool press cloth, then with a cotton cloth dampened in water. Use a warm iron. If the fabric still shines after pressing, try raising the nap of the wool with a brush or rubber sponge—the kind used for stede.

If shine cannot be removed, the specialists tell housewives to consider lengthening the skirt in other ways. For example—contrast bands may be inserted in the skirt; a yoke may be added; waist seams may be let out; or a belt of some other material may be set into the dress.

If a skirt hem must be let out to its full extent, seam binding or facing material are needed. If the dress fabric is heavy, the seam binding should be turned up so that about one-fourth inch of the dress material is on the underside of the skirt—that is, the fold shouldn't be made along the line where seam binding and dress fabric join, as this would make the skirt edge ripple unattractively. If the dress goods is light-weight, a facing about an inch wide is needed, to give body to the edge of the skirt.

In facing a circular or flared skirt, cutting the facing on the bias is a wise move. If the skirt is straight or pleated, a straight facing is good, or, if this type of skirt is not made straight with the goods, a shaped facing may be best.

When sewing a facing to a skirt edge, an ordinary seam will do, if the skirt is of light weight goods. But with heavier material, it may be best to turn under the edge of the facing and top-stitch it to the skirt edge. Once attached, the facing should be turned up, so that the fold is about one-fourth inch from the edge. Then the facing can be inserted to the skirt, or the edge finished with seam binding and sewed to the underside of the skirt with a catch-stitch or slip stitch.

not, business profits, rents, dividends on stocks, pensions for civilian services rendered in the past, retirement pay—except for disability, which is exempt—for Army and Navy personnel, royalties, and interest on government bonds issued after March 1, 1941.

Britain did not have a woman lawyer until 1922.

Master Salesmanship Is Shown By Cub Scouts In Sale of Stampede Tags

The busiest people in town this week were the little boys of the Cub Scout Pack who have been selling metal automobile tags advertising the Post Stampede for 25 cents each.

Having fallen heirs to 125 of the tags, the boys almost "sold-out" within two days.

Distribution of the limited supply of tags was arranged by the pack's new sponsor, the Post Chamber of Commerce, which arranged for the tags in cooperation with the Post Stampede Association.

Proceeds from the sale will be used to buy wood-working and other equipment needed by the three dens in the pack.

Total books in Veterans Administration general and medical libraries has risen to nearly 750,000 volumes.

When Columbus discovered America the voyage is said to have cost a little more than \$7,000.

Fire losses in the United States during 1944 amounted to \$423,538,000, and largely because of man's carelessness.

Bits Of News

Miss Peggy Sue Robinson is ill this week with the flu.

Mrs. John Lott has received word that her father, Bertram Tizard, is seriously ill at his home in Kansas City, Mo. He has been in poor health since last November.

The grade school is going to have a United States flag at long last. It will be a fringed flag on an eagle-topped gold standard, the gift of the parent-teacher association. The flag has been ordered and is expected to arrive in the near future.

J. W. Gamble of College Station was here this week in a monthly conference with the personnel of the local Production and Marketing Administration office. Gamble, who formerly lived in Lubbock, is the field representative for PMA District 2, covering 16 counties.

Mr. and Mrs. Clayton Forier visited last weekend in Colorado City where his father, C. C. Porter, has been critically ill with pneumonia. They learned this week that the father has been released from the hospital and is convalescing rapidly at his home.

Mr. and Mrs. R. B. Hundley of Waurika, Oklahoma, arrived here Sunday to visit a few days in the home of Mr. and Mrs. R. J. Hundley. Messrs. Hundley are brothers and their wives are sisters.

Jack Hoover and Jimmie Hundley left last Friday night to spend a few days in Corpus Christi.

D. J. Akinson, who during the war served with the Army photographic service, announces elsewhere in this issue of the Post Dispatch, that he has opened a radio repair service at 328 North Broadway in the building occupied by B. & B. Auto Supply. Mr. Akinson is equipped to do all types of radio repair work, he announces.

Mrs. Tom Welborn, who was down from Lubbock Tuesday to visit Mrs. John B. Slaughter on the U. Lazy S Ranch, was all aglow over the log cabin she and Tom are building at Ruidosa, N. M. The cabin will have a 40 by 22 foot living room, three bedrooms and two baths and will have an interior of knotty pine. The house will be finished in April. The Welborns expect to spend the weekends there during the summer and use the cabin in the fall and winter during the hunting and skiing seasons.

Mr. and Mrs. Willard Kirkpatrick, Kay and Jack, and Mr. and Mrs. Dee Coleman will leave Friday for Ft. Worth where they will attend the Fat Stock Show through Sunday.

Mrs. A. Q. Rector and Mrs. Shirley Rector left Saturday for a short visit in Fort Worth, Dallas and Denton. While in Denton they attended the Golden Wedding Anniversary party of close friends. They also spent a part of their time at the Fat Stock Show.

Victor Hudman, accompanied by Bland Tomlinson, manager of the Home Furniture Company of Slaton, transacted business in Ft. Worth and Dallas the first of the week.

Mrs. Jess Cornell and children, Mike and Pat, of Roswell, N. M., are spending the week with her parents, Mr. and Mrs. Lee Davis. Mr. Cornell who is in the bakery business will transact business here this week end and his family will return with him to Roswell.

Mr. and Mrs. W. V. Roy and Mrs. Ollie Weakley were transacting business in Lubbock on Tuesday.

Buddy Williams of Lubbock, accompanied by Erlene Reed, spent Saturday here with his parents, Dr. and Mrs. D. C. Williams.

KFYO GETS PROMISE OF FM STATION BY LAST OF THIS YEAR

A conditional grant for an FM (frequency modulation) broadcasting station to KFYO in Lubbock, subject to approval of engineering details, was announced in Washington Wednesday by the Federal Communications Commission, the Associated Press reported.

The Lubbock Avalanche-Journal this morning quoted DeWitt Landis, KFYO manager, as saying that the FM broadcasts could not begin until late this year, the delay being due to securing approval of "engineering details," awaiting delivery of equipment and construction.

Landis said "the announcement does give persons planning to buy new sets time to make sure sets have an FM band." He cautioned buyers to get radios with the 88 to 108 megacycle band, explaining that the FCC abolished the old FM band about a year ago.

Your reporter asked little Linda Livingston how her mom was after a severe burn she received recently. With a beaming face and broad smile she replied "oh boy, she can wash the dishes again now." From which we gathered that Helen is doing fine and that the daughter doesn't like dish washing.

Several men, including L. R. Mason and sons, Lee and Thomas, Ben Brewster, Amos Gerner, John Ray and Carl Clayborn enjoyed a fishing trip last week. They report a good catch of fish and lots of fun after their return from near Del Rio up the Devils' river.

Miss Ruby Mason recently returned from Denver, Colorado. She and her mother spent last week visiting their sister and daughter and family, Mr. and Mrs. W. C. Maxey and family of Earth. Enroute home they visited Mr. and Mrs. Roy Mason of Levelland.

Mrs. Ida Cook, who has been a patient in the Lubbock Memorial Hospital has returned to her home and is reported to be doing nicely.

The Gordon Carey family attended funeral services for relatives in Snyder Sunday, March 2. The services were conducted for an accident victim of a car wreck near Eagle Pass.

Rev. and Mrs. R. E. Bratton had as their guests over the week end, their sons, Alton, and Austin and families from Monahans.

Miss Georgia Teaff of Lubbock is here at the home of her parents with the flu.

Dee Caffey is on the sick list this week.

Mr. and Mrs. G. R. Johnson and son of Ropesville visited here in the Max Bayer home Sunday.

Mr. and Mrs. Ervin Popham of New Lynn have sold out their farming equipment and will leave in a few days for California. Mrs. Popham is a daughter of Mr. and Mrs. Will Teaff.

Mrs. Belle Carey has returned to her home in Snyder after a visit with her son and family, Mr. and Mrs. Gordon Carey and children.

Verdict in Possession Of Land Case Goes To Vaughn

The jury in a lawsuit filed by Ross Winn and Kirk Slater of the Canyon Valley Community to recover 320 acres of land from Horace Vaughn of the same community returned a verdict in favor of Vaughn in the District Court of Crosby County on March 5.

Vaughn, who claimed he had the land rented for the 1947 crop year, was represented by Attorney Joe S. Moss. Winn and Slater were represented by L. A. Wicks, Ralls attorney, and the case was tried before District Judge Daniel A. Blair of Lubbock.

Rubinoff and His Violin Return To Lubbock Soon

Garza County music lovers, who were unable to go to Lubbock recently for the Rubinoff concert, will have another opportunity to hear the well-known violinist on March 22. Rubinoff and his violin are being brought back for a return engagement at the Lubbock High School auditorium by the Lubbock Junior Chamber of Commerce.

Tickets will go on sale tomorrow at the Woody Tire Company in Lubbock. Prices are \$2.40 for reserved seats and \$1.80 for general admission. Mail orders may be addressed to the Lubbock Jaycees, Box 723, Lubbock.

Civil Service Announces April 22 Exam Deadline

The application deadline for examinations by the U. S. Civil Service Commission for positions of medical officer, food and drug inspector, photostat officer, and microphotographer has been set for April 22, the Lubbock Journal announced today.

Salaries for the various positions run from \$1,756 to \$5,965, with higher rates in the Canal Zone.

The six flaring leaves of the cabbage contain the greatest quantity of the important vitamins B-1, B-2 and C. These are the leaves which are usually stripped from the head before marketing.

More than 12 per cent of this country's population—18,250,000 persons—spent some time as patients in hospitals during the past year.

New Airmail Stamp Will Be Regular Size

For the first time since the original three airmail stamps of 1918 the United States Post Office Department will release a small-sized airmail stamp on March 26, according to a news release Tuesday from Washington.

The new five-cent stamp, the same size as ordinary stamps, will be placed on sale in Washington on that date.

Except for the first three airmail stamps ever issued by the Department, all airmail stamps have been of larger size so that they would easily attract the attention of mail clerks for special handling. The size of the airmail stamp is being reduced so it will fit in vending machines and in booklets. The new stamp will be red and will feature a DC-4 plane in flight.

A sociologist estimates that 31 per cent of all husbands in this country turn over their pay checks to their wives.

Senator Parrish To Oppose 2 Bills

Senator Sterling J. Parrish definitely committed himself Tuesday as being against two bills confronting the legislature.

He said he will be active in fighting the tractor gasoline bill which would abolish tax refund on non-highway gasoline, and the much publicized horse racing bill.

"My father helped the farmers get that gasoline refund when he was a member of the Senate," Parrish said, "and I will do everything humanly possible to help them keep it."

In regard to the horse racing bill, the popular West Texas senator who represents Garza county, explained that he is convinced that a huge majority of the people of Texas are opposed to legalizing pari-mutuel betting and that he is unalterable against the measure that would bring this about.

Thirty-three per cent of the drivers of automobiles in this country are women.

A 1,000-pound cow inhales approximately 7,000 bushels, or three and a half tons, of air a day.

IT'S HARD TO TELL WHO IS HAPPIER, FARMER OR RANCHER, OVER MOISTURE

Snow and rain of the past totalling .45 of an inch of moisture, added a productive season to the good bottom over Garza County.

The Double U Company had a snowfall of 43 of an inch and 22 of an inch of moisture stayed with the soil, a tendency to drain away.

Ranchers of the county say the precipitation at this time is an especial boon to them, as it life to the wild rye, wild filaree and other weeds so needed by the cattle in the son, between dry winter pastures and the grass which gets later in the spring.

Farmers who have small grain, such as wheat, oats, are feeling especially also over the past week's moisture.

The whale, lacking nerves, bolts its dinner and tastes it—but the cow, with 15,000 taste-buds, selects its es with finickiness.

Swing of Southwest Farm Markets

Grain prices spiraled upward, and most other farm markets continued steady to strong last week, according to the Production and Marketing Administration, U. S. Department of Agriculture. Hogs eased back from record prices of recent days.

Eggs and poultry found a firm market last week, as demand remained good. Current receipt eggs averaged around 37 to 38 cents per dozen at San Antonio, Fort Worth, Dallas, and Oklahoma City; 35 at Topeka; 36 at Denver; and 39 at New Orleans.

Spot cotton advanced about \$2.25 per bale. Activity increased in the central exchanges but slackened in farmers' markets. Demand weakened, as offerings increased.

Grains made even more spectacular advances last week than the week before. Wheat led the swing upward, soaring 23 cents per bushel in seven days at Ft. Worth and Galveston. Other grains fol-

FIRE AT FORMER PICKETT HOME RESULTS IN FIFTY PER CENT LOSS TO OWNER

As fate would have it, R. A. Moore was in the First National Bank Monday afternoon discussing the possibility of buying more insurance for the house which he bought several months ago from the Pickett Estate when the fire whistle blew. The smoke from Moore's house, at 506 W. Ninth Street, could be seen from the bank.

Although Post volunteer firemen established a record of having water on the house within 21 seconds after arriving on the scene, Moore suffered a 50 per cent loss on the building, the furnishings and personal property.

To apply on his losses he had a \$4,000 fire insurance policy on the building and a \$1,000 policy on the furniture, Fire Marshal Dick Woods said. He was considering a policy for an additional sum when his home caught on fire.

Cause of the conflagration is undetermined, Woods said. Witnesses were of the opinion that a cigarette could have been the culprit.

The house was occupied by the Moore family and Mr. and Mrs. Lawrence Bilberry. The Moores suffered a loss of personal belongings, but Bilberry said his personal loss was negligible. Their clothing was smoke damaged but not destroyed.

The interior of the house was badly burned, but the walls and part of the roof were saved.

The Santa Fe Company, with

Mrs. Ben Williams' Deeds Known Over World

That the President of the Philippine Republic should be impressed with the altruism of Mrs. Ben Williams was no surprise, to the residents of Post who have taken for granted for some 30-odd years Mrs. Williams' hobby of doing for others both at home and abroad.

Coming to Post as a bride from Corsicana in 1910, Mrs. Williams lost no time in laying the groundwork for today's religious, social and cultural centers. Today's Presbyterians—those who grew up in the church which she helped found here—learned practically all they know about the church and the basic Bible teachings from Mrs. Williams who has taught the primary Sunday School through the years.

Mrs. Williams organized the local chapter of the Order of the Eastern Star, was a charter member of the Culture Club and the Senior Bridge Club and of the Priscilla Club, to name a few of the older organizations still in existence here.

Her personal interest in the

members of all these groups has extended beyond into their families, to the extent that hardly a person in Post has failed to receive a favor from Mrs. Williams in time of need, on holiday occasions or at ordinary times when the conventional person doesn't think of favors.

Wrote To Service Men

Every service man from the Presbyterian Church and every other Garza County service man personally known to Mrs. Williams received individual letters from her during the war. Each letter was full of news regarding the recipient's closest friends, including quotations from letters she received from their service friends in all corners of the world. All received special occasion cards and gifts from her. All eagerly kept up with their end of the correspondence, because Mrs. Williams' newsy letters were essential to their foxhole contentment.

Having followed closely the activities of all children in the local Presbyterian church, through the years, Mrs. Williams has been prepared to make an individual "life history" scrapbook to give to each girl as a wedding gift. No local Presbyterian bride has failed to get such a book, a priceless keepsake.

Making scrapbooks for shut-ins in this county and for missionaries abroad to use in teaching long has been Mrs. Williams' hobby. Almost every Presbyterian missionary in the world has received, at some time or another, something from Mrs. Williams in the name of the local missionary society.

The gifts include items which the missionaries need in their work, and clothing and other essentials which they can pass along to their constituents. In personal correspondence with the missionaries, she keeps the workers informed as to church and general news in the United States.

Made Children's Clothing

Her activities in this respect were begun years ago when Mrs. Williams became Overseas-Missionary Chairman for the Abilene Presbytery. Whenever a missionary expresses a need for anything, the local W.M.S.—through Mrs. Williams—sends it. The most recent response was in regard to a request from China for a toaster.

The Philippine citation was for children's clothing which Mrs. Williams made from shirtings and other waste materials contributed by the Presbyterian W.M.S. members. Similar boxes of clothing have been sent to Germany and Africa since the end of the war, says Mrs. Williams who insists that all the credit should go to the W.M.S.

Her cleverness in adapting used greeting cards, magazine pictures and other "waste materials" in making cheerful or instructional cards and booklets for local shut-ins and children abroad is matched only by her ingenuity at thinking up something "different" for traditional occasions.

A Thanksgiving greeting to an ex-Post resident who is living in the east, for instance, will carry a picture of the recipient's aged mother. Many such greetings she sends anonymously, satisfied in the knowledge that (1) the recipient is happy to get the personalized greeting and (2) is thrilled to just get some mail from home.

Saturday Is Last Day For Entries In Junior Stock Show

Last day for making entries in the South Plains Junior Fat Stock Show is March 15, Dave W. Sherrill, new Lubbock County agent and general superintendent of the exposition, reminded all would be accepted by M. D. Fannin, Fat Stock Show secretary, box 561, Lubbock, Texas.

Dates for the 1947 show are March 24, 25 and 26.

Many exhibitors who have had animals in the various junior fat stock shows throughout the South Plains will have fat pigs, calves, and lambs at the Lubbock exhibition.

Plans are going forward for the free movie and complimentary barbecue for all exhibitors. Bob Humphries, member of the Lubbock Jaycees who are sponsoring the 4-H Club and FFA Boys Parade, will be parade master. He expects to have the best procession in the history of the event.

Doughnut Should Be Halved If Dunked In Coffee

The doughnut is having its day—its week, that is, because manufacturers of this food, in the typical American tradition, have agreed that this is National Donut (their spelling) Week.

Dunking the complete doughnut is regarded as crude and inefficient. The doughnut should be broken in half before dunking. The half should be dunked just long enough to absorb the full flavor of the liquid, but not so long as to get soggy. The proper timing is two and one-half seconds.

The proponents of the Donut Industry say that in 1920, the year automatic doughnut machines were introduced, 25,000,000 dozen were consumed. By 1943, the annual figure had increased to 665,000,000, and during the war, in the European Theater alone, the Red Cross served 10,000,000 daily.

These statistics indicate that the little cake has come a long way since Mrs. Anna Jerusalem opened the first commercial doughnut shop in Lower Manhattan in 1673. History records that Mrs. J. weighed 225 lb., which may or may not speak well for her wares.

Doughnut-Cheese Dessert
Ready-made doughnuts are widely considered an ace-in-the-hole for busy cooks. Split and toasted, they do well with salad at lunch and, with a suitable "crown," dignify dinner by making a presentable dessert. A spoonful of whipped cream in the hole plus a garnish of maraschino cherries or nuts is one such "crown. Another is a combination of apple butter and whipped cream, and still another is a dab or two of vanilla ice cream.

Doughnuts with cheese are a sound combination. Here is a variant on the theme:
Ingredients— 1/4 lb. cream cheese; 4 doughnuts, split lengthwise, and 1/2 cup chopped nuts.
Sandwich cream cheese between halves of doughnuts. Roll as a wheel in the nuts so they adhere to filling. Fill hole with more cheese and top with more nuts. Serves four.

whom Moore is employed, sent down two box cars from Kansas City. The Moore family, which has been staying with Mr. and Mrs. Homer Gordon since the fire, plan to live in the cars on the back of their lots until a new house can be built.

Wool and mohair are of major importance to operators of 40,000,000 acres of range land in Texas.

The most serious problem facing the dairy industry in Texas is the low average production per cow.

From where I sit ... by Joe Marsh

Mystery of the Rocking Chair

Ma Hoskins has a favorite rocking chair that's worn and shabby, with a noisy creak. Pa Hoskins has listened to that squeak for thirty years . . . and he decided to do something about it. So he bought a new rocker, and hid the other in the barn.

Ma allowed as how grateful she was . . . but when Pa missed her one afternoon, he heard a familiar sound that led him to the barn. There was Ma rocking happily in her old chair—squeak . . . squeak.

No need to tell you how Pa felt.

Quick as a wink he hid the new rocker and then brought Ma's old chair back to the house. Now when he hears that squeak, he looks at the mellow glass of beer he's drinking and says to himself: "She's just as entitled to her small pleasures as I am."

From where I sit, that's one of the reasons the Hoskinses are the happiest, oldest-married, peace-fullest folks in our town.

Joe Marsh

SEED GERMINATION TEST CAN SAVE FARMER MONEY

Lubbock, March 13—Seed germination tests to date indicate that seed from red top sunnecane and from sudan grass harvested after frost last fall have a comparatively low germination rate, according to Dr. A. W. Young, head of the plant industry department at Texas Technological College.

Good seed will germinate more than 90 per cent, Dr. Young said, while much of last fall's late maturing crop has a rate of 69 per cent or less.

Farmers should have seed samples tested, either at the state agriculture department's seed testing laboratory in Austin or at a commercial plant, Dr. Young suggested. If the germination rate is low, producers will likely find it more profitable to sell their seed for feeding purposes than to plant extra seeds, he said.

A total of 182,251 Texas families, assisted by the Texas A and M College Extension Service's food preservation program, canned 17,920,850 quarts of fruits, vegetables and meats during 1946.

"Talking Quizzes"

Did you ever experience the thrill of taking a quiz on Monday morning? Since Monday is a day all by itself in the life of a student, you have something fresh to look forward to until you enter the class room. Your teacher then pulls her spectacles down on her nose and announces that a certain "unit" has been completed the week before, and Monday is a lovely day for finding out the knowledge gleaned by each young hopeful in this particular class. At this point your feathers fall and you find that the sun has just gone behind the cloud. Your fresh, new look is replaced by a withered appearance.

Without further ado, the master of the situation, turns her back to you and proceeds to place the quiz in question upon the board in long hand. If you are a student you sit quietly, or other-

Sophomore Soup! Finally, Mr. King got to come back to school after a long period of illness. We're glad to have you back.

The snow and rain seemed to be appreciated by the businessmen and farmers, but to some of the students who were ill, it meant wise, while the pedagogue writes for what seems an endless eternity. With out a warning however, she completes her work and retires to the back of the room. Your eyes swim through question number one, and on to question number two. This swimming continues until the last question has been reached.

You wait patiently or impatiently for your brain to make some response . . . nothing happens. A wondering begins: "Have I lost my power to think?" "Am I paralyzed?" You begin to recite a familiar poem, or a passage from the Bible to reassure yourself that you still have a brain. You may even go so far as to quote the Lord's Prayer if it seems necessary.

Suddenly an idea occurs to you. What has my neighbor written? It is amazing how two or three words from a neighbor's paper will give you new life. With these few words to prime the brain, the knowledge begins to flow and soon your pen must work hard to keep up with your thoughts and taking a quiz on Monday morning is not so bad after all.—Helen Thaxton staying in bed longer.

If you take a look around the Sophomores you will probably see a lot of poets and short story writers. If you don't believe me, ask Miss Harris.

Personality

Last week's personality was Theona Beauchamp.

He is a good looking boy who has black hair and brown eyes. He participates in boxing and wrestling. He has a nice personality and is liked by everyone because of his ever-lasting smile.

Freshman Frolics

Let's hope that this terrible flu epidemic is over for good. Yours truly, for one, can say that it was unbearable.

You know, it really is going to be quiet, and kinda lonesome in fifth period Study Hall now that the Coach has started spring training.

Mrs. Smith, though, can now give a great big sigh of relief.

Ivanhoe, you all know him, has become the main topic in the English I classes. And what a fellow! "Why he's as well known, if not as well liked, as Kilroy."

Sports

The short boxing season has just come to an end, and the boxing team was just getting warmed up. The team lost the first two nights, but won the next two which were the same teams, Slaton and Taboika, here in the gym. The boxing season was short because spring training for football had to get underway. This training started Monday and will last about thirty days. The boys look good and it looks like there'll be a heavier Antelope team next year with more experienced boys. Next fall the boys will play some different teams to those played last fall, as the districts of the area have been rearranged and we hope they show up well when that time comes.

TUMOR-CANCER CLINIC IN FT. WORTH WILL OFFER FREE TREATMENT TO POOR

Offices of the new Fort Worth Tumor Clinic for the free diagnosis and treatment of cancer were opened Monday at the City-County Hospital, the Star-Telegram announced this week. First patients are to be received within three weeks.

Dr. Helen R. Gottschalk of the Bernard Skin and Cancer Hospital in St. Louis has been engaged to organize the clinic, which is the second in the nation to be sponsored by a medical society, and to serve as executive director.

Patients without means will be treated first, the announcement said, but any person suspected of having cancer may be sent to the clinic by a physician for diagnosis, on a consultation basis or for treatment.

Dr. Porter Brown of Fort Worth will serve as clinic director; Dr. May Owen, president of the Tarrant County Medical Society, will be chief pathologist, and Dr. K. R. Hyde of Ft. Worth will be radiologist. The clinic surgeon is yet to be named, the announcement said.

Commercial fertilizer—4-12-4 or 5-10-5—will improve growth of home lawns when applied at the rate of two or three pounds for each 100 square feet of space.

The Production and Marketing Administration is urging farmers to include more forage crops in their plans for 1947 planting.

Attends Chevrolet Meeting

J. P. Manly, manager of the Connell Chevrolet Company of this city, attended a Chevrolet zone meeting in Oklahoma City Tuesday, which was called and conducted by T. H. Keaton, general sales manager of General Motors of Detroit. Mrs. Manly accompanied him as far as Vernon, and the two will return to Post today or tomorrow.

Reduced to its simplest balanced dairy program, plenty of feed for the good cows that can be properly.

The United States religious bodies, with a membership of 62,000.

Wire rope one-strand thick used for airplanes will hold a load of 480.

BIGGER and BETTER

Our town is growing and we will grow with it. As new merchants come in bringing new and more merchandise, our trade territory grows. We will benefit from it and the surrounding territory also benefits from it.

We Congratulate

Church News

By BONNIE CEARLEY

"Jesus said, Now is the Son of Man glorified, and God is glorified in him."
"If God be glorified in him, God shall also glorify him in himself, and shall straightway glorify him."
"Little children, yet a little while I am with you. Ye shall seek me: and as I said unto the Jews, Whither I go, ye cannot come; so now I say to you."
"A new commandment I give unto you, That ye love one another; as I have loved you, that ye also love one another."
"By this shall all men know that ye are my disciples, if ye have love one to another."
John 13:31-35

Local Baptist women last week observed the Annie Armstrong Week of Prayer. On inquiry we learned learned Annie Armstrong was a leader in WMU work during the development of the Southern Baptist Convention. This week is especially dedicated to her memory as WMU groups pray and work for Home Missions.

The 11 o'clock service at the First Presbyterian Church Sunday will be devoted to the rededication of the recently remodeled and reopened church and the ordination of Bryan J. Williams and J. N. Power as deacons.

Herbert Buchanan will preach at the Church of the Nazarene next Wednesday night. Services will begin at 7:15.

Sunday morning Mrs. Norton will give a flannelgraph lesson to the congregation. The subject will be: "The Skyscraper That Was Never Finished."

Mrs. R. A. Moore, secretary of the Methodist Women's Missionary Society, demonstrated her faithful attitude toward her duties when she telephoned the president, Mrs. J. E. Parker, Monday afternoon to say that she would be unable to attend because her house was burning up and apologized because the society's minutes had been destroyed.

Although Mrs. Parker was unable also to attend, because of having to go to Lubbock to get her daughter who was ill with influenza, the meeting was held at the church, with Mrs. T. L. Jones conducting the regular study.

The group planned to give a shower of household gifts for Mrs. Moore and is inviting everyone interested to participate. The gifts should be taken, at any time this week, to Gordon's Flower Shop.

The Board of Directors of the Mother Church, First Church of Christ, Scientist, in Boston, Mass., has announced the resignation of W. Stuart Booth, C.S.B., for eight years a member of the board, and the appointment of Alfred Pittman, C.S.B., to succeed him. Pittman will be succeeded as Publisher Agent for the Trustees Under the Will of Mary Baker Eddy by Hudson C. Burr, C. S., who is resigning from the Board of Trustees of the Christian Science Publishing Society.

One hundred to 150 young people from Slaton, Tahoka, Grassland, New Home, Draw and New Lynn are expected to attend the Methodist young people's sub-district meeting at the First Methodist Church here Monday night, beginning at 7 o'clock.

After a 30-minute get-acquainted session, a business meeting will be held. Sub-district officers will be installed in a service from 8 until 8:30 o'clock.

A recognition service for Royal Ambassadors will be a part of the regular evening's service at the First Baptist Church Sunday, beginning at 7:30 o'clock.

Dr. Truett Walton, dean of Hardin-Simmons University, Abilene, will be the main speaker at the First Baptist WMU banquet honoring high school seniors, faculty members and room mothers at 7:30 o'clock Friday night at the church.

A musical program and clever decorations, featuring the St. Patrick's Day theme, are being arranged.

Post High School students are getting a big bang out of a new fad, the Heart Throb, which is a little gadget to "measure love" now being sold at the local jewelry stores. This unusual lapel pin has a spinning dial which tells whether the wearer's "affections are warm, bold, shy or cold." To get the proper reaction, the girl walks up to the man in her life and "takes a reading," and she knows all—or almost!

Dinner Harmony Discussed When Clubwomen Meet

Mrs. James Minor gave an interesting talk on "Dinner Harmony" at a meeting of the Junior Culture Club Tuesday night in the home of Mrs. O. R. Carter. She discussed various types of crystal, china and silver and their uses in table setting.

During the business session the group voted not to send a delegate to the convention of the Seventh District, Texas Federation of Women's Clubs in Childress next week but planned to send a report.

The group also discussed ways and means of acquiring another ping-pong table and additional games for the Youth Canteen sponsored by the club.

Pineapple ice box cake and coffee were served. Eight members were present, Miss Melba Jo Miller was received as a new member.

Bible study.

Mrs. Huron A. Polnac will teach the Jaxie Short lesson and Mrs. A. W. Boucher will teach the Blanche Grove lesson.

The circles will have mission lessons Thursday afternoon, the Jaxie Short group meeting at 2:30 o'clock with Mrs. Monte Moore and the Blanche Grove group meeting at 3:30 o'clock with Mrs. Kelly Sims.

A great amount of interest is being shown in the advance ticket sales to "The Symphony of the Seasons" which the First Methodist Senior Class will sponsor at the High School Auditorium the night of March 25. From the number of tickets already sold, the class members are convinced that Post people are hungry for some good music and pictorial beauty such as that advertised in the Kodachrome film.

Members of the First Christian church will meet tonight in the Giles Dining Room for a get-together supper to discuss various phases of the church program. Special guests for the meeting will be the Rev. and Mrs. McCord of Brownfield. Rev. McCord will begin a revival meeting at the Christian church here on Easter Sunday. All members of the church are invited to attend the supper and to take part in the informal round-table discussion.

The book of Esther formed the basis of the study lesson when members of the First Christian Women's Council met in the home of the president, Mrs. B. C. Manis, in the last regular meeting. The Rev. Nickerson directed the study hour.

During the business meeting, plans were made for the church supper to be held Thursday night. The meeting was closed by sentence prayers by the fourteen members present.

The next meeting will be held in the home of Mrs. Dorothy Pierce on March 18.

The hostess served delicious refreshments.

Texas Program Is Enjoyed By Women Of Culture Club

The Woman's Culture Club met Wednesday afternoon, March 5, at the home of Mrs. B. E. Young for an enjoyable Texas Day program.

Mrs. A. R. Carr made the romantic stirring growth of Texas towns live again with her interesting narrative and Miss Mabel Harris discussed West Texas writers and writing, emphasizing the cowboy ballads. Mrs. L. W. Kitchen traced the origin and history of West Texas schools.

Refreshments were served at the close of the program.

The club will meet March 19 for a Bible Day program. Hostesses will be Mesdames Lee Davis and W. L. Davis.

Mrs. Will Teaff To Go To District THDA Meet

The Close City Home Demonstration Club met Wednesday, March 5, at the lunch room with eight members present. The following committee chairmen were elected:

Year book, Mrs. W. B. Sanders; recreation, Mrs. Will Teaff; Good Neighbor, Mrs. Jake Mangum, and marketing, Mrs. Lonnie Peel.

Mrs. Teaff was elected delegate to a district Texas Home Demonstration Association meeting.

ANNUAL SENIOR BANQUET SCHEDULED FOR FRIDAY

An annual banquet for Post High School Seniors, faculty members and room mothers will be given by the Women's Missionary Union of the First Baptist Church tomorrow night, beginning at 7:30 o'clock, at the church.

MRS. EDWARD NEFF NAMED HONOREE AT PARTY GIVEN IN IRA DUCKWORTH HOME

Mrs. Edward Neff was honored at a pink and blue shower given last Thursday afternoon, from 4 until 5 o'clock, at the home of Mrs. Ira Lee Duckworth. Hostesses with Mrs. Duckworth were Mrs. Ollie Weakley and Mrs. Ray N. Smith.

The program included piano selections by Mar Margaret Duckworth and an original recording pertaining to the "blessed event."

Spring flowers were used as decorations throughout the house. The refreshment table was decorated with clever decorations appropriate to the occasion. A beautiful array of gifts was on display.

PLEASANT VALLEY CLASS ATTENDS EVENING PARTY

Mr. and Mrs. R. A. Robinson entertained at their home in the Pleasant Valley community recently with a party for members of the Young Adulte Class of their church and their friends.

St. Patrick and Valentine decorations were featured in tallies for four tables of forty-two.

Attending were Messrs. and Mesdames Raymond McGehee, Jack Beckett, S. Kuykendall, D. Altman, Wesley Scott, D. Simms, Miss Sandra Altman, Stanley Simms, Ray Robinson, Mr. and Mrs. T. Riddle of Post and the hosts.

JUSTICEBURG 4-H CLUB TO HEAR POULTRY TALK

The Justiceburg 4-H Club met March 12 with Mrs. R. A. McLaurin and Mrs. J. Lobban. The members finished the aprons they had been making as a club project and enjoyed a songfest. They elected Mary C. Smith as song leader, Janyce Lobban was elected food demonstrator.

The club will meet with Miss Jewell Hipp, county home demonstration agent, on March 24 at 10:30 a. m. to hear a talk by M. L. Braddy of Lubbock, Texas Extension Service poultry specialist.

Parents of members are invited to attend.

Friendship Church Women Meet With Mrs. J. Bush

The Women's Missionary Society of the Friendship Baptist Church at Close City met Monday in the home of Mrs. Jerry Bush for a Royal Service Program. Seven members and two visitors were present.

The hostess served chicken sandwiches, potato chips, hot chocolate and cookies.

The group also met, despite snow-covered roads, last Friday, for an all-day program at the home of Mrs. Curry. The occasion was a Day of Prayer for Home Missions, in which seven members participated.

Needlecraft Club

Mrs. Ida Robinson will be hostess at 3:30 o'clock Friday afternoon for a meeting of the Needlecraft Club at her home.

Approximately 4,000 acres in Illinois land are planted to cotton annually, principally in two counties—Alexander and Polaski.

MRS. KEITH KEMP HONOR GUEST AT SMALL PARTY

Mrs. Keith Kemp was honored Saturday afternoon, Feb. 22, when a group of friends met at the home of Mrs. Dan Altman from four until five o'clock. The hour was spent just visiting. Mrs. Kemp, who has moved to California, was presented with a going away gift from those present and several others who were unable to attend.

The hostess was assisted by Mrs. Wayne Pennington in serving refreshments of tuna salad, wafers, pickles, coffee and coconut macaroons. Those signing the gift card and wishing 'bon voyage' were Zoe Clary, Elvie Carpenter, Lucile Pennington, Thelma Thomas, Wanda West, Sybil Coekrum, Bedie Redman, Pearl Kemp, Jimmie Hudman, Frances Talley, Bonnie Cearley, Lois Holland, Virginia Custer, Eema Cash, Frances McAnally and Billie Altman.

One sure way to make a life-long enemy is to call a guy's bluff.

FIRST CHRISTIAN CHURCH F. B. Nickerson, Minister

The usual services will be held at the Christian Church on the coming Lord's Day. The Bible School meets at 10 a. m. Lord's Supper and Preaching at 11 o'clock. The Sermon subject will be "Halting Between Two Sides." The evening service will be at 7:30 o'clock. Gospel Message at that time. Singing of hymns you love best.

On Thursday night of this week the members and friends of the church will meet at the Giles' Boarding House, 8 o'clock for a Fellowship and Social Meeting. Mr. P. C. McCord, Minister of the Christian Church at Brownfield is to be present and bring the message for the evening. Plans will be laid for the Evangelistic Meeting beginning April 6th, Easter Sunday. Mr. McCord is to hold the meeting. The congregation welcomes you at any of her services.

To remove excess starch from the iron, put salt on newspaper and rub the hot iron over it.

MRS. C. W. WILLIAMS, MOTHER OF MRS. FRED CRAVY, DIES SATURDAY

Friends of Mr. and Mrs. Fred Cravy of San Diego, Calif., were saddened to learn of the death of her mother, Mrs. C. W. Williams, at the Hendrix Hospital in Abilene Saturday night.

On learning of Mrs. Williams' illness, Fred and his wife, the former Margaret Williams who taught home economics in the Post High School for four years before her marriage, rushed from California early last week to be at the mother's bedside. They were accompanied by Mrs. Williams' sister, Mrs. Hubert Deere, and family.

Funeral services were held at 1 o'clock Monday afternoon at Sylvester, where Mrs. Williams and her husband, Dr. C. W. Williams, had made their home for many years. Burial was in the cemetery at Merkel.

The Cravys are expected to visit Fred's parents, Mr. and Mrs. Will Cravy, here en route back to California.

Coral snake venom attacks man's vital nerve centers and is therefore more deadly than rattlesnake venom, which merely destroys his red blood cells.

Ninety-four per cent of the population is afflicted by the common cold at least once a year.

SEWING MACHINE CARE IS SUBJECT FOR CLUB

The Justiceburg Home Demonstration Club met at the school building March 4 with 10 members and Miss Jewell Hipp, county home demonstration agent, present. Mrs. Billie Cantrell and Mona Key were hostesses.

After the business discussion, Miss Hipp demonstrated sewing machine cleaning. Coffee and cookies were served by the hostesses.

The club will meet March 18.

LYONS' RODEO STOCK

(Continued From Front Page) pitcher, Grey Eagle, the big grey horse that has been popular the past ten or twelve years; Mr. Roosevelt, and many other mean horses will perform in this season's rodeo.

Nose-dives and "bitin' the dust" will be the talk when spectators and cowhands mix at the fast-moving Stampede. Tentative dates of this season's rodeo are the last four days of May.

The mama pocket gopher averages two litters of five babies per annum—and when the little ones are thirty-six days old she weans them and tells them to fend for themselves. They do so.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 0.09 miles of installing Steel Jetties (Bank Protection) Yellow-house Fork of Brazos River Bridge 7.6 miles east of Post on Highway U. S. 380, covered by M-296-1-15, in Garza County, will be received at the Highway Department, Austin, until 9:00 A. M., March 28, 1947, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with provisions of said House Bills, the State Highway Commission has ascertained the wage rates prevailing in the locality in which this work is to be done. The Contractor shall pay not less than the prevailing wage rates shown in the proposal for Group 2 for each craft or type of "Laborer," "Workman," or "Mechanic" employed on this project.

Legal holiday work shall be paid for at the regular governing rates. Plans and specifications available at the office of F. C. Stanley, Resident Engineer Lubbock, Texas, and Texas Highway Department, Austin. Usual rights reserved.

WINDOW SHOPPING

(Continued From Front Page)

A City Store Right at Our Door—A preview of what's to be in store for Garza County folks was witnessed by the roving reporter Wednesday when William Land, manager of Post newest store, The Wacker Variety Store, gave us permission to go "shopping."

Setting up a store of this kind and size is no little task and eleven women, Mmes. Theda Bilberry, Lou Ella Bilberry, Clonie Cummings, Frances Echols, Thelma Miller, Irma Lee Swanger, Tol Thomas, W. T. Furr, Ahlene Blyns and Miss Margaret Fleming, have been busy all week "setting up" stock for the opening on Friday morning. Their work has been under the able direction of Mr. Land and a corps of trained Wacker Store men and women.

Hundreds of household items are arranged in the attractively styled streamlined bleached wood counters and shelves. The entire store is modern in design and atmosphere. Packages you carry away will be wrapped in wrappings styled especially for Wacker's Stores in store colors of beige and red.

Among the store managers, assistants and clerks from other Wacker stores in this district who have been here helping to "set-up" the store are Vernon Smith, manager, and Preston Dunbar, Mr. and Mrs. James Bewley, Mildred Bell, Billie Kenon, Dorothy Day and Barbara Alison all of the Big Spring store; Lynn Edwards, manager, Joe Coy Tarter, Maxine Whitehead and Harry Land of the Lamesa store; H. M. Christian, manager of the Spur store; Clyde Bucklew, manager of the Electra store; Ormon Gregory, manager of the Seminole store; J. C. Sewell, manager of the Kermit store; J. B. Levellie and Leo Johnston, managers of the two Odessa stores and John Cearley also of Odessa; Bill Wood, manager of the Crane store and Olen Kirk, manager of the Ennis, New Mexico store.

Bill Edwards, representative of the Wacker Stores with offices in Big Spring, has been here for several weeks. He and a large number of managers and clerks from other Wacker Stores will be here to assist Mr. and Mrs. Land and the Post clerks in giving you a big welcome on Formal Opening Days—Friday and Saturday.

Even though "No Sales" were to be made at the new store before Formal Opening Day, an exception was made by William Land when Mrs. E. F. Parker of Southland made an urgent plea for help in replacing pots, pans, etc., for her home which was destroyed quite recently by fire. "It gave us a great deal of pleasure to help Mrs. Parker out in her emergency and we were pleased that we could list her as our very first customer," Land stated.

Welcome G. F. Wacker Stores!

Although Without An Agent Several Months, 4-H Boys Make Fine Record

One hundred fifty boys enrolled in nine 4-H clubs in Garza County completed 215 projects in 1946, County Agricultural Agent D. F. Eaton has announced.

The projects, covering a variety of subjects, included peanuts, cotton, home gardens, grain sorghums, poultry, dairy cattle, beef cattle and wild life.

Boys who sold livestock received a total of \$4,480, for 28 calves; \$350 for one registered Jersey bull calf; \$1,800 for 60 swine, and \$350 for 1,000 dozen eggs.

Winners of the 1946 swine production contests were a boar belonging to Donald Carpenter and gilts belonging to E. O. Young, Jr., D. C. Taylor, Frank Thompson, Cordell Custer, Gordon Gary, R. E. Josey, Fred Long and Billy West. All the gilts have been bred, and Eaton expects that farrowing will compare favorably with that of the previous year when the eight winning gilts farrowed 54 pigs, 19 gilts and 25 boars of which lived.

Carter Gene White, 14-year-old boy of the Graham Community entered his 800-lb. calf in the Lubbock Junior Livestock Show, winning 12th place in the light calf division. He received 34 cents a pound for the animal after the three per cent shrinkage had been deducted, grossing \$258.40. The calf cost him \$75, plus \$100.20 spent for feed and other expenses. This was considered an unusual record, inasmuch as Garza County was without an agricultural agent for three months during the year.

Eaton took nine boys to the District 4-H Camp at the Lubbock Army Air Field. The county rifle

team, made up of Carter Gene White, Donald Carpenter and R. E. Josey, took second place; and Carter Gene White placed second in competition among the senior boys, winning a trip to the State 4-H Roundup as a member of the district team. Donald Gossett won second place in the junior boys rifle match at the district camp.

Carter Gene White, Donald Carpenter and E. P. Wicker, Jr., went to the State 4-H Roundup.

The Post Chamber of Commerce contributed \$130 for prizes at the countywide 4-H Club Products Show held in October in connection with the county cow-hog-ben show.

One hundred thirty-six boys are now enrolled in 4-H Clubs in Garza County, Eaton said. They are working on 206 different projects for 1947.

OSCAR GARNER BUYS PARTNER'S INTEREST IN LOCAL FIRM

A business transaction was completed Tuesday between Oscar Garner and his cousin, J. L. Garner of Spur, in which the Post man became sole owner of the Garner Appliance Company of this city.

The firm was established here about three years ago by the two Garners with each owning half interest in the business, and with Oscar Garner as manager.

The firm sells household appliances and offers butane service to rural Garza County.

A federal survey showed farm people in the United States had a total buying power of \$14,800,000,000 in 1945.

Federated Clubs Meet In Childress March 18, 19, 20

The annual meeting of the Seventh District, Texas Federation of Women's Clubs, will be held at the Methodist Church in Childress March 18, 19 and 20.

Mrs. Raymond Harrah of Pampa, district president, will conduct the meetings, which will open with a board session on the evening of the 18th. Executive officers of the district, who will assist, include Mrs. D. L. C. Kinard of Memphis, first vice president; Mrs. L. E. Slate of Sudan, second vice president; and Mrs. H. H. Hahn of Pampa, secretary. The Childress women's clubs will be hosts at a dinner for the board on the opening night.

The convention will be officially opened with the 9:30 o'clock session the morning of the 19th. The main speaker will be the Rev. Joe Z. Tower, pastor of the First Methodist Church of Wichita Falls, who will discuss "Mental Hygiene."

The annual Presidents' Luncheon is scheduled for noon the 19th, and a tea will be given by the Childress women at the Woman's Club from 5 o'clock until 6 o'clock. The Seventh District Art Exhibit will be a highlight of the tea.

The annual fine arts program will be given Wednesday night. The program will include Demarest's "Fantasia" presented by Miss Cornelia Maness of Childress, organist, and Mrs. Roy Coffey of Childress, pianist; vocal number by Mrs. Robert Sexauer of Memphis; presentation of best original poems; introduction of the winning vocal quartet, and violin selections by Carlyn Wibrelly, June Wimberley and Barbara Daily, West Texas State Teachers College students, and Glenn Truax, orchestra director at Canyon.

A special feature of the program will be a talk, "Why Do People Write?" by Miss Loula Grace Erdman, member of the WTSTC faculty and recent winner of the Dood-Mead Redbook \$10,000 novel award.

Officers will be elected the morning of the 20th. The three-day session will be concluded at noon that day with the annual Merit Luncheon.

Two Post groups, the Senior and Junior Culture Clubs, are affiliated with the Seventh District. Neither had designated delegates by press time.

GILES CONNELLS ATTEND FUNERAL SERVICES FOR RELATIVES IN FT. WORTH

Garza County relatives and friends of Judge Bruce Young of Fort Worth were grieved to learn of his sudden death last Wednesday night at a hotel in Hot Springs, Arkansas.

The brother-in-law of Giles W. Connell, Judge Young had visited here many times. Mr. and Mrs. Connell, who were in Fort Worth for the Fat Stock Show at the time of his death, attended the funeral Saturday afternoon at the First Christian Church in Fort Worth.

Judge and Mrs. Young had accompanied his brother, Postmaster Henry Young and wife of Ft. Worth to Hot Springs on a vacation trip. His death was caused by a heart attack which was first believed to have been indigestion.

As judge of the 48th district court, Judge Young was Tarrant County's oldest judge in point of service, having been appointed to the bench in 1914. His present term had two years to run. Governor Beauford Jester will appoint his successor.

Survivors include his widow, Mrs. Blanche Young; a daughter, Mrs. Dan Poland of Ardmore, Oklahoma; a son, R. B. Young, Jr., U. S. Attorney for the Northern District of Texas; a stepson and stepdaughter, John Edgar Wallace and Mrs. Harry Parks of Ft. Worth; a sister, Mrs. James Biggs of Wichita Falls, and Postmaster Young.

The acreage of rice harvested in Texas during 1946, which was 412,000 acres, was the largest in the state's history.

Garza Contributes Only Day Football To State's Million Games In Lubbock Gain In Population Will Be Scheduled

Lubbock, March 13—Contract for construction of a new steel and concrete stadium to seat about 15,700 persons at Texas Technological College has been awarded the Old-Midwest Company of Dallas, it has been announced by the Texas Tech Foundation, established by the board of directors to supervise the new structure.

A work order for \$250,000 has been issued by the foundation, and other orders will be forthcoming as quickly as materials are released by the Civilian Production Administration. The contract does not include plumbing and electrical work.

The new stadium will be located northwest of the present playing field and under the contract must be completed by October 1, a few days previous to Tech's opening home football game with West Texas State Teachers College in the fall. Erection of the stands, playing field, dressing rooms and offices, as well as necessary gradings and included.

The stadium will be used for athletic contests of both Texas Tech and Lubbock High School. Lacking release of needed electrical facilities by the CPA, Tech officials are planning to present all 1947 football games during afternoons, eliminating plans for at least two night contests.

The stadium is to be named the Clifford and Audrey Jones Stadium in honor of Dr. Jones.

The survey in the Sunday Fort Worth Star Telegram was a map showing all of Garza County as a part of the West Texas area having the greatest population gain.

Entered at the Post Office at Post, Texas, for transmission through the mails as Second Class Matter, according to an Act of Congress, March 3, 1939.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

INCOME TAX CUTS

Best guess now is that Federal income taxes will be cut about 10 per cent, with, perhaps, larger reductions in low brackets. Chance of a general 20 per cent across-the-board cut is nil.

Important difference of opinion within the Republican leadership is over whether budget surpluses should be used for debt reduction or tax reduction. Senator Taft feels that tax reduction would come first. Senators Morse of Oregon and Knowland of California lead the group which believes debt reduction is the main necessity.

GROWING PAINS

Growing pains are associated with development and expansion. That's what we get every time we seek to improve our lot. We get them, too, when we get dissatisfied with our selves. This means we recognize that we need to correct our way, exercise our will and look ahead.

It seems to us that Post is now having growing pains. It is a healthy condition and one which should make us all rejoice in. Without them we cannot grow.

WHAT OUR CONTEMPORARIES ARE SAYING:

LETTERS TO CONGRESSMEN . . . There was a time, perhaps when "a letter to your congressman" carried some weight. But like many other good things, we've abused the privilege until the men and women we elect to our state and national legislatures treat them much like the rest of us do to the handbills we get through the mail.

Most of us, if we will be honest, will have to admit that we have recruited our signatures to be used on letters or telegrams to congressmen relative to some pending legislation which the congressman knows is of little interest to the signers, but of particular interest to "special interests," which "interests" were responsible for the framing of the letter or telegram.

Most of the men and women we send to congress or the state legislature are willing to listen to a sincere, legitimate plea from their constituents. And there are other means of letting them know how we feel about pending legislation without cluttering up their mail with stereotyped letters, or telegrams.

A lot of people's feelings are hurt when the legislator fails to reply individually to their letter or telegram. It would be humanly impossible for them to make a separate reply to all of the letters they receive from the voters back home.

Don't get mad at your congressman if he does not personally answer your letter. He's got other important business to attend to, which is to your interest and mine.—Nolan County News.

PORTAL TO PORTAL FOR HOUSEWIVES—And while we are at it, we wonder if housewives will ever demand portal to portal pay, as they are tied to the portal most of the time. Now we are not writing this to start anything serious in the households of the area; we just asked a question.—The Terry County Herald.

The United Lutheran Church of New York City is asking for help where help is really needed. They have set aside a week as "Pray for the Press Week" and asked its members to pray for newspaper men every evening at seven. We hope that the good Lutherans won't forget the newspaper women.—Amarillo News-Globe.

The Sandstorm, Amarillo High School paper, said a survey it made revealed that 32 per cent of the high school boys there drink intoxicating liquor. About seven per cent of the girls drink.

Students drink mainly to show off, 58 per cent of them said. Other reasons given include "out for a thrill", "boredom" and "parents' indulgence, why shouldn't we?"

Leading the list of suggestions for combatting juvenile delinquency was the plea for more recreational facilities. The paper said it had contacted 1,440 students in the poll.—Lubbock Journal.

The aim of the poll on drinking taken by Amarillo High School students was to show adults the great need of a youth center.

Many students believe facilities offered through such a place, with lounging chairs, soft lights, a juke box, soft drink stand and snack bar would go a long way toward eliminating drinking and unwholesome partying.

They want a place to go for entertainment where they can have freedom, a place with the atmosphere of a grown-up social club minus the unwholesome influences found in many adult night clubs.—Lubbock Avalanche.

CAPSULE COMMENT . . .

Character is what you are in the dark.

One of the greatest gifts we can bestow on others is a good example.

Real merit of any kind cannot long be concealed. When it is discovered nothing can depreciate it except a man exhibiting it himself. It may not always be rewarded as it ought but it will always be known.

The cheapest of all things is kindness. Its exercise requires the least amount of self-sacrifice and the least trouble.

We have in America the largest public school system on earth, the most expensive college buildings, the most extensive curriculum, but no where is education so blind to its objectives, so indifferent to any specific outcome as in America.

According to men who have been studying the situation, the trouble lies in the aims of the system, which seem to be negative in character. It aims at repression of faults instead of creation of virtues.

Victor Hugo said that to reform a man one must begin with his grandmother.

With all the new folks moving into Post this bit of timely wisdom from the lips of a prominent Postite seems worth printing—quote: Get acquainted with your neighbor, you might like him.

There is a tribe in Africa which limits orators to just what time they can stand on one foot. And they call Africa the "Dark Continent!"

One of the easiest, most worthwhile means of increasing buying power today is the home production of vegetables in a back-yard garden.

Each year in Texas, about 250 people lose their lives in fires on farms or in rural communities. One-third of these people are children under 10 years of age.

Cotton insect infestation Texas last season were the worst in the state's say Extension entomologists Texas A and M College.

...IT STAYS SILENT—LASTS LONGER

You needn't be psychic to discover that one refrigerator is different from all others. Listen to a Servel Gas Refrigerator. You won't hear even a whisper! Look at its freezing system. You won't find a single moving, wearing part! The Servel Gas Refrigerator stays silent, lasts longer because a tiny gas flame takes the place of valves, pistons, pumps. There's no machinery to wear or get noisy. Permanently silent, the Gas Refrigerator brings you wonderful modern conveniences too... Room for frozen foods, for tall bottles... And just the right temperatures for meats and vegetables.

Go and see the new Servel at your dealer's store now. Not enough for everybody, of course, but many arriving every day. And Servel Gas Refrigerators worth waiting for.

SERVEL IS DIFFERENT.
 NO NOISE!
 NO MOVING PARTS TO WEAR!
 LONGER LIFE!

We do not sell Servels ourselves . . . SEE YOUR SERVEL DEALER

West Texas Gas Company

6 SIMPLE STEPS to BETTER LIGHTING

Here are six simple steps you can take to improve the lighting in your home. After you have taken these, you can learn more about good home lighting from the advice of a specialist. Fill in the coupon and mail it, or call your nearest Public Service office. Our specialist can tell you if the lighting is correct in your home or place of business. There is no charge or obligation for this service.

Clean Lamp Bases and Lamp Sockets frequently to get from 30% to 50% more light from the lamps you have.

Avoid Direct Glare from lamp bulbs or bowls, by using shades that are deep enough and big enough.

Place Each Lamp so it puts no glare in the eyes of either person using it.

Tilt Work or reading to the angle that gets rid of reflected glare. Try it, you can see the difference.

Sit Close Enough to the lamp to get all the help it can give your eyes. A difference of a few inches may mean 50% less light.

In most forests of Texas, pines are growing too thickly to develop strong stems and good crowns, which are necessary for healthy timber growth. Timberland owners who thin the saplings by groups and small patches are promoting better farm forests.
 Angora goats in Texas produce about 16,000,000 pounds of mohair each year.
 Fifty five farmers' cooperative marketing associations were organized in Texas last year.

The Week's News in Brief

Mrs. J. A. Stallings took a group of pupils to Tahoka last Thursday night to present a program at a luncheon for Flying Farmers and their wives.

Mr. and Mrs. Royce Durham were weekend guests of Mrs. Durhams parents, Mr. and Mrs. J. A. Stallings.

Remodeling along main street includes enlarging of the shop and modernizing of the parts department at the Outlaw Motor Company.

Mrs. D. C. Morrel has been spending most of her time in Tahoka the past week playing nursemaid to the entire family of her daughter, Mrs. Winston Wharton. Mr. and Mrs. Wharton and daughter, Anne, all had the influenza at once.

Word has been received here of the death of Forrest Kelley of San Antonio, brother-in-law of Mrs. Myrtle Luman and Mrs. Tommie Powell, former Post residents. Kelly was drowned February 26 when a truck he was driving ran off a bridge in San Antonio. His wife, Mrs. Annie Evetts Kelly, has visited in Post many times.

Up and Down Main Street, the Dispatch shopping column, is frequently quoted in Wayne C. Seller's Talk from Texas Towns column in the Ft. Worth Star-Telegram. On Sunday the column quoted the Dispatch column's dissertation taking Schiparelli to task for being 'way behind the times' in her barnyard fashions.

Because of limited hospital facilities at Texas Technological College at Lubbock, influenza-suffering students of nearby towns are being sent home for treatment. Among these are Norma Joy Hudman, whose parents, the Marvin Hudmans went to Lubbock for her last Friday, and Iris Joy Parker, whose parents, the J. E. Parkers, brought her home on Monday.

Billie June Kennedy, who attended the Fat Stock Show in Ft. Worth over the weekend, visited her parents, Mr. and Mrs. L. P. Kennedy, Jr., Sunday night and Monday morning en route to Lubbock where she is a student of Texas Technological College.

'The Symphony of the Seasons' Is Not 'Long-Haired,' Is Liked By Everyone

Nature's two great symphonies—one in sound and one in color—have been combined in the 1600-foot Kodachrome film which Dr. Herbert J. Rinkel, Kansas City physician-photographer, will show here at 8 o'clock Tuesday night, March 25, in the High School auditorium.

Entitled, "The Symphony of the Seasons", the film showing is sponsored by the First Methodist Senior Class to raise funds for providing a child abroad with food each day.

Dr. Rinkel, who spent 10 years filming the flowers of the Southwest and setting his perfect color renditions to the music of the world's most beloved composers, consented to show the film here because of his close friendship with John Lott, a member of the class.

The film, which will run for one hour exactly, is divided into four sections, illustrative of the seasons. The first, Winter, is synchronized with Beethoven's Wind Symphony, Adagio Assai. It shows "a squirrel's nest high in the arms of the maple tree. The robin's nest rotting on the nearby elm bough. Flaming pyracantha on a deep blue sky... Then, heralded by all the trumpets of the sky, the snowstorm descends from on high." Thus, winter begins!

A Galaxy Of Color Unfolds
 For Spring, set to Beethoven's Sixth Symphony Allegro Ma Non Troppo, shows that "winter gives birth to spring amid the melting snow and ice. Streams begin as trickles and grow to turbulent brooks, with interlacing limpid pools that mirror the budding maple trees at whose feet robins search for worms. Then, day by day, the flowers unfold in a galaxy unsurpassed. Not all is sunshine and song, for there are storms—but these, too, have color and animation."

Synchronized with Dvorak's Largo, fifth symphony, the summer portion shows misty morn... dew upon the grass... fishing harvest days and summer flowers. Then, to "Flight of the Bumble Bee" (Rimsky-Korsakow), one sees "a trip to the Wisconsin lakes and a walk through beautiful gardens, where butter-

Seventh Annual Country Dance School Scheduled

Lubbock, March 13—Gals in calico by the dozen, as well as quite a few level-headed lads are expected to be on hand when Texas Technological College stages its seventh annual country dance school March 17 through 21.

Jimmie Clossin of El Paso, nationally known square dance caller, will be in charge of the sessions.

Have You Heard the NEWS

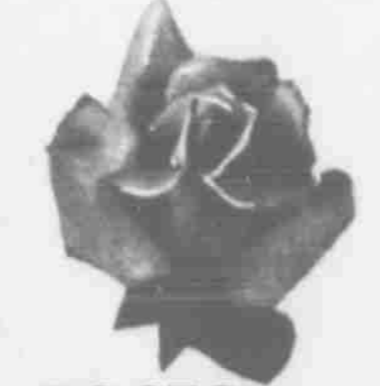

.. about the NEW JOHN DEERE "A" and "B" TRACTORS?

You've never handled tractors like these. You'll never know such performance—how much easier to operate, how much more comfortable a tractor can be until the day you take the wheel of a new John Deere "A" or "B" and put it through its paces.
 Cyclone engines are entirely new, even more efficient. Either all-fuel or gasoline types available. John Deere Hydraulic Power-Trol raises, lowers, adjusts both front and integral equipment at a touch of your hand. New deep-cushion seat, built-in starter and lights, automatic choke—these are just a few of 20 advanced features that make these new John Deere two-cylinder tractors the greatest values ever offered. On display soon at our store. Come in for further information.

Were Your Seven Pounds Of Cheese Well Cooked?

Inspired by a United States Department of Agriculture report that the American people ate seven pounds of cheese per capita in 1946, Miss Jewell Hipp, Garza County home demonstration agent, looked up some rules for cooking cheese:

1. Go easy on the heat. Cheese needs only enough heating to melt and blend with other ingredients in the dish. Cheese should be cooked over water, if possible. A very low heat should be used for cheese cooked in an oven.
2. Add cheese to other ingredients in very small bits rather than in chunks. When grated or shaved thin, the cheese will spread more evenly in a mixture, allow shorter cooking time and prevent lumping.
3. When possible, blend cheese in a smooth sauce before adding a food mixture. A white sauce with cheese melted in it may be

South Plains Short Staple Cotton Can Now Be Spun And Woven In West Texas

Much of the clothing worn by the Japanese and German soldiers and even the "GI" towels on which they wiped their dirty faces were made from the short staple cotton grown right here in Garza County.

As American cotton mills were equipped for spinning only one inch or longer staple cotton, practically all of the short staple products from the vast South Plains cotton country was shipped to those two countries before the war. Only Germany and Japan had mastered the art of spinning the short staple stuff into materials suitable for clothing and towels.

During the war, the South Plains cotton went into the making of munitions, canvas, mattresses and blankets in the United States. As there was plenty of it, Uncle Sam could have used a formula for spinning it into

Garza County Ex-Aggies To Attend Lubbock Meet

A number of Garza County ex-students of Texas A & M College will be in Lubbock tonight to attend a smoker at Hotel Lubbock, beginning at 7:30 o'clock.

They will hear E. E. McQuillon of College Station, secretary of the A & M Ex-Students Association talk, see pictures of the past football season and elect officers for the South Plains A & M Club.

Those who do not have transportation to Lubbock can hitch a ride if they see D. F. Eaton or George Tracy.

DR. CHAS. C. MURRAY, JR.
OPTOMETRIST
2408 Broadway
LUBBOCK
Dial 2-5575

clothing materials and so promised himself he would do something about it as soon as the fighting let up.

Texas Technological College at Lubbock was one of the schools which opened a federal and state subsidized cotton research laboratory early last year, and it was in the Texas Tech laboratory the secret of spinning short staple cotton was discovered.

Recent experiments have proved beyond a doubt that short staple cotton can be spun into terry toweling comparable in strength and looks to that made from one inch or more staple. They also have proved that the present day cotton mills can be adapted to short staple spinning and weaving by only one, inexpensive change; that is merely reducing the size of the four rollers that take the cotton from the carding machine.

Garza Farmers Interested

Now 60 Garza County GI farmers are smug in the knowledge that their future cotton growing efforts can be utilized by the ultimate consumer right here on their native South Plains. Through the cooperation of the Texas Extension Service and the staff of Lewis Nance's Vocational Guidance School, they have been taking field trips to Lubbock to look in on the progress of the research laboratory experiments.

And they have learned how to pick and prepare their cotton for the gin in a manner that will preserve the grade, and at the same time they have learned a few tricks in economy. They have seen, for instance, that use of a mechanical cotton picker reduces the quality by one or two grades but that the money saved more than offsets the loss of grade.

They have learned that picking the cotton while damp lowers the quality by three-fourths to one and a half grades; that tromping it in the trailer lowers it from one to three grades, and they have learned that of all the available mechanical cotton pickers, there is one which greatly excels all the others. The cotton research laboratory will release the name of this picker in the near future, D. F. Eaton, Garza County agricultural agent believes.

Tests Made Near Plainview

The mechanical picker tests were made last fall on the Anderson-Clayton farms near Plainview, Eaton says. The Anderson-Clayton firm is contributing \$50,000 a year to the cotton research project, according to Eaton, in the belief that results of the cotton research will eliminate the errors in cotton sampling and save inestimable sums of money for its own cotton mills in the future.

Heretofore the miller has had the unhappy experience of buying, for instance, two bales of cotton "of the same grade and staple length" only to suffer as much as 15 per cent loss on one bale and, perhaps, only three per cent loss on the other.

The Tech laboratory uses a photo-electric cell to determine the average staple length and the maturity of the fiber in a sample of cotton; an air pressure machine to determine the coarseness, and a weight machine to determine the breaking strength of the fibers. With the information thus gained, the researchers know exactly what a sample of cotton will do on the loom before it starts through the mill.

Having established the fact that thirteen-sixteenths to fifteen-sixteenths staple cotton, such as that grown on the South Plains, can be spun and woven into high quality terry toweling and that even the low grade cotton taken from the ground can be used in this manner, the laboratory is now running tests to adapt the making of draperies and table cloths.

Market Is Unlimited

The researchers believe that within a year or two, terry towels and possibly other materials will be manufactured on the South Plains. To date, no terry toweling is made west of the Mississippi River. They believe the market in the Middle West would be unlimited.

Inasmuch as short staple cotton can be produced cheaper per pound in this area than in any other area of the cotton belt, the Texas Tech research is reassuring to the Garza County farmers who can foresee a continued good market and a possible home consumption for their products.

The Tech textile engineering department predicts that in the next few years, all cotton mills and large cotton buying concerns will have their own laboratories for testing grade and staple length and that cotton will be sold and bought on the basis of length, maturity of fiber and fineness of fiber rather than on the hit or miss, wasteful method that currently results in a 10 per cent loss to millers.

INCREASE YOUR "CREAM" HARVEST with a McCormick-Deering CREAM SEPARATOR

• Don't let a worn-out, inefficient separator reduce your yield of cream. If you do, you're losing out on a big dividend to your herd.

A clean-skimming McCormick-Deering Cream Separator increases your cream checks. It's just like adding an extra cow to your herd—and extra cash to your farm income.

Model S Cream Separators are now available with direct gear electric drive especially designed for heavy duty work. Smooth starting and positive contact are provided by an extended bearing support which holds the drive gear shaft in position.

McCormick-Deering Separators older than Model S can be equipped with belt drive attachments.

See us for complete information on these time and labor saving units.

Why freight rates are going up . . .

Since 1939, railroad employees have had three general pay raises totaling 52 1/2%, and the prices of fuel, materials and supplies have risen 61 1/2%.

But when the war ended in 1945, the railroads were still hauling freight at rates no higher, and in some cases lower, than when the war began.

Without increased revenues, railroads could not meet these costs and also provide improvements in equipment and facilities—improvements that are essential for the low-cost freight and passenger services which are necessary to America's high standard of living.

Under these circumstances—and almost a year after the last major wage increase—the Interstate Commerce Commission recently approved an average increase in freight rates of 17 1/2%.

Of all the price increases in America today, few have been so little and so late as that in the price of railroad transportation.

How important are healthy railroads to a prosperous country?

Only when the railroads are financially healthy can they provide the new equipment, improved road beds, and better terminal facilities needed for still better service to you.

The defense of the nation depends upon the continuance of the efficient transportation which served the nation so well in the last war.

The railroads are among the largest employers of labor. They buy over

100,000 different products. They pay big taxes—taxes which are spent not only for public schools, public health, and police and fire protection, but even for highways, airways, airports and inland waterways.

Railroads are America's lifeline—keeping goods flowing among the 48 states day and night in all weather.

They can continue to do this only if there is a reasonable balance between income and outgo. Like yourself, the railroads must make ends meet!

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

Autobiography Of John A. Lomax Is Of Local Interest

John A. Lomax, the Texan from Bosque County who is famous over the nation for his indefatigable collecting and recording of folk tunes, has another book, "Adventures of a Ballad Hunter," off the press, published by the McMillan Company.
 His "Cowboy Songs and Other Frontier Ballads," published in 1910, is a classic. With his son, Alan Lomax, he has published three other volumes which have contributed to his reputation as the leading authority in the field of U. S. folk music.
 The Fort Worth Star-Telegram describes the new volume as an autobiography which must be listed as one of the most unusual of the year. For it, the author has culled the most exciting and revealing stories of his 40 years of ballad hunting in all but three states.

He tells, for instance, how he took along a small roll of cowboy songs when he went off to college. When he finally dared to show them to his English professor, an authority on Anglo-Saxon grammar, he was informed that frontier literature was cheap, tawdry and worthless. He burned the songs.

Throughout the book, the author gives stanzas or complete stanzas of the most notable songs he discovered. It is said to be an "entirely entertaining" book, illustrated with drawings by Ken Chamberlain.

Lomax, a step-uncle of D. C. Morrell of Post, is personally known throughout the South Plains where he has spent much time tracking down origins of cowboy ballads. His daughter, Mrs. C. C. Mansell, lives at Lubbock.

Annual Statement Of Insurance Co. Reflects Big Gain

While the largest gains in the history of legal reserve life insurance were being made nation-

O. D. CARDWELL, Post Agent last year, Southwestern Life Insurance Company recorded a growth of \$67,345,654 in insurance in force—more than twice the business gain attained during 1945. C. F. O'Donnell of Dallas, president, made the figures known in releasing the Company's 44th annual financial statement to policyowners, which is being published in this issue of The Post Dispatch.

Southwestern Life Insurance Company, he reported, now has a total of \$380,047,004 insurance in force. Assets increased \$14,679,067 during 1946, to a total of \$137,037,582.

More than 190,000 Texas citizens are numbered among the Company's policyowners. As the close of 1903, the first year of the Company's operations, there were 1200 policyowners. Another item of interest noted

M. B. Ripley Takes Job Here With Post Auto Supply

Newcomers to Post are Mr. and Mrs. M. B. Ripley who moved here last week from Brady. Having had special education and practical experience in Chrysler, Dodge and Plymouth service, Ripley will be in charge of the mechanical department of the Post Auto Supply Company.

A careless pedestrian, usually gets hit in the end.

In the report is the modern, fire-proof, four-story annex to the home office building in Dallas, now under construction. The annex is designed to house expanding departments of the Company. Southwestern Life Insurance Company is represented here by O. D. Cardwell.

Halsey's Death Is Mourned By Many Garza County Folk

Garza County friends of Mark Halsey, Lubbock druggist, were grieved to hear of his sudden death last Saturday while on a fishing trip on the Devil's River, near Del Rio. The body was brought to Lubbock Sunday for burial on Monday.

Halsey, who had been in ailing health the past two or three years, died while sleeping. He had left on the fishing trip the preceding Monday with B. J. Boyd of Lubbock.

Survivors include his widow; a son, Hop of Lubbock; two daughters, Mrs. W. C. Reynolds of Lubbock and Miss Joyce Halsey of Los Angeles, Calif.; two brothers, John of Lubbock and Hurley of Luling; and a sister, Mrs. E. I. Hill of Tahoka.

DELINTED COTTON SEED COMES UP QUICKLY AND REQUIRES LESS WATER

College Station, March 13—At least 60 per cent of Childress County farmers believe it pays to plant delinted cotton seed.

County Agricultural Agent V. E. Hafner reports that the Childress County farmers are sold on planting the delinted seed because it comes up so quickly. And only five to six pounds per acre are required for planting in comparison with 16 to 30 pounds of fuzzy seed, the county agent says.

Another point in favor of the delinted seed for West Texas cotton growers is that it requires less moisture for germination, says Hafner. It can also be spaced more evenly in the drill rolls, seed hoppers will hold more seed and don't have to be filled so often.

Delinting equipment installed in the Childress County Farmers Cooperative Gin furnish cotton growers of the county with the clean seed. Present capacity of the delinting plant is 400 pounds per hour, but County Agent Hafner says plans are underway to increase the plants capacity to as much as 800 pounds an hour to meet the increasing demands for delinted seed in the county.

Eighty-seven per cent of all Angora goats in the nation are in Texas.

CONSTIPATION Risky in BAD COLDS

Retained undigested food becomes putrefactive, causes toxemia, which overloads the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxic, putrefactive foods and sluggish mucus, enabling you to most effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all drugstores.

MRS. FLOY KING, Southland Reporter

Rev. Luther Kirk preached at the local Methodist church at 10 a. m. Sunday and he will fill the pulpit at the same time next Sunday.

Rev. Emmett Brooks began his second year of pastoral work here last Sunday. During the past year there has been 69 additions to the church. S. S. Supt. Ray Dick announces that we are entitled to a 1947 S. S. pennant as we have already reached the A standard this year.

The Fred Wileys moved to Slaton Saturday. They spent last week in San Angelo, while there Mr. Wiley suffered an attack of the flu.

Mr. and Mrs. Heywood Basinger left Sunday for Glenn Rose. Mr. Basinger will return soon but Mrs. Basinger will remain there for sometime taking treatments.

Condition Is Serious
Mrs. Arville Ferguson and Mrs. Don Pennell were called to Post Thursday to the bedside of their mother, Mrs. J. P. Howard, who is in a very serious condition.

Rev. Brooks went to Winters the latter part of the week to get his wife and baby who have been visiting the Royce Brooks family there for a few days.

Mr. and Mrs. F. E. Weaver, Mr. and Mrs. Clay Johnson, T. L. Weaver, Wilbur Field and Mrs. R. O. Rankin were called to Spur last Wednesday due to the death of their niece and cousin, Miss Dema Thomason.

Mrs. C. W. Gary, the J. L. Whites and Wayne, and several others have been ill with the flu. Mr. Wilbur Wood and Mrs. Walter Kellum visited Grandmother Wood in Abilene one day last week.

Back To Wlenert
Rev. and Mrs. I. J. Duff spent the week end visiting friends in Wlenert, their former home.

Mrs. Dave Draper and children of Slaton and Mr. Homer Gilliland of Lubbock visited their parents Mr. and Mrs. W. W. Gilliland Sunday.

A letter from Mrs. Dean to Mrs. Walter Kellum indicated that Mr. Dean is doing nicely after an operation in a Corpus Christi hospital.

Mr. and Mrs. Leon King of Levelland spent last week visiting in Slaton and Southland with their parents. Leon was ill with the flu while here.

Mrs. Everett Samples and children accompanied her brother Hansel and family to Lubbock Sunday where they visited relatives.

Many attended the shower for Mrs. Clarence Terry given by Mrs. Clyde King, Mrs. O. J. Harmonson and Mrs. Locklear in the Locklear home last Thursday. Several who unable to attend sent gifts.

Several parents and students attended the P-TA meeting which was held last Thursday afternoon at the High School auditorium. The first graders presented the program also some moving pictures were shown by Mrs. Sam Ellis.

Busy As Bees
Students, faculty members, and women taking the P-TA study course which is being taught by Mrs. Lee Davis of Post, kept the lunch room employees very busy last Wednesday.

Friends and relatives of Mr. R. B. Walden came last week to move her to Plainview. A nice lunch was served at the lunch room.

Mr. and Mrs. C. M. King and boys of Lubbock spent Saturday night with the E. L. Kings.

Sunday visitors in the S. M. Truelock home were Mr. and Mrs. Floyd Vandiver and three sons of New Home, Mrs. Bud Odum, Mrs. Lonnie Carlton, Mrs. Buster Shumann and children of Post, and Mrs. Clarence Terry of Southland.

Mrs. Peyton Crawford who has been a patient in the Slaton Mercy Hospital the past week is home now and doing nicely.

W. M. Weaver went to the hospital last week for a check-up. Mr. and Mrs. W. M. Fletcher of Plainview visited their daughter, Mrs. Marvin Truelock, and family here Wednesday.

Seed improvement and soil improvement, together with good cropping systems, are the basis of successful field crop production.

AUXILIARY TO GI SCHOOL ORGANIZED BY HD AGENT AT SOUTHLAND MEETING

Wives of Southland G.I. Vocational Agriculture students were organized into an auxiliary Wednesday night, March 5, at a joint meeting of the students and the women at the Southland lunch room.

The auxiliary officers are: President, Mrs. James R. Riney; vice-president, Mrs. Richard Perdue; secretary-reporter, Mrs. Norville Denton; treasurer, Mrs. Edmond Wilke.

The auxiliary will meet once each month. The April program will be devoted to facts on gardening. Miss Jewell Hipp, Garza County home demonstration agent, who will instruct the group at each meeting, gave a demonstration in home improvement and clothing at the organization meeting.

Alvis Phillips, teacher, met with the men in separate session. Afterward, in a joint social hour, the teacher's brother, Wallace Phillips of Lubbock, presented a program of card tricks. Other entertainment included card games. Mrs. W. J. Kellum and Mrs. T. S. Kellum served doughnuts and coffee.

Attending were Messrs. and Mesdames T. B. Martin, W. R. Perdue, J. B. Rackler, Denton, Riney, A. V. Stolle, Leroy Vogt, Wilke, Messrs. Phillips, Miss Lottie Burnette, a guest from Lubbock; Miss Mabel Harris, Post High School English teacher; Mrs. Alvis Phillips, Miss Hipp, Ben Becker, Clyde King, C. H. Nelson, Wilfred Nesbitt, M. J. Roper, J. R. Shelton, Virgil Lee Smith, William Howard Smith, E. C. Sta-

W. H. GILES, FATHER OF POST MAN, DIES AT HOME IN OLUSTEE, OKLAHOMA

W. H. Giles, 94-year-old father of H. F. Giles of Post, died at his home in Olustee, Okla., Friday, March 1.

Burial services were held at 4 o'clock the following afternoon at the Olustee Baptist Church with Messrs. J. and Harold Trull.

the Rev. C. F. Brown, pastor, in charge. Burial was in the Olustee Cemetery.

Mr. and Mrs. Giles attended the funeral, along with their daughters, Mrs. Ida Moreau of Post and Mrs. Gene Burr of Post, four sons, H. F. of Post, J. Glustee, Ewell of Ardmore, and Lee of Waxahatchie; 11 children and nine great children.

A native of Georgia, Giles moved to Grimes County, Texas, at the

age of 3. He was married to Miss Ida Lizeta Murray in 1934.

He is survived by two daughters, Mrs. Ida Moreau of Post and Mrs. Gene Burr of Post, four sons, H. F. of Post, J. Glustee, Ewell of Ardmore, and Lee of Waxahatchie; 11 children and nine great children.
