POST, TEXAS "OUT WHERE THE WEST IS THE WEST" THURSDAY, JULY 26, 1945 "THE GATEWAY TO THE PLAINS" NUMBER 32

Estimated 80,000 Acres Planted To Grain In County

Garza county farmers have planted approximately 80,000 acres of the county's 112,000 farm acres to grain sorghums, it is estimated by an estimate from the county AAA office.

The estimate includes the acreage, and replanting of cotton acreage damaged by the drought. AAA officials say this spring estimated 50,000 acres would be planted in grain, based on last year's 38,000 acres devoted to cotton. Only a small percent of the acreage "dry planted" and this week's rains reveals that only about 20,000 acres remain in cotton, and 60,000 acres were devoted to feed and 38,000 devoted to grain.

Post Soldiers Receive In States On Queen Elizabeth Sat.

Wood, son of Mrs. Will Wood, arrived in the states today on the giant liner Queen Elizabeth. He wired his mother and his wife, the former Laruth, now of Tahoka, that he will be sent to Fort Bliss before a 30-day furlough. Another Post boy who arrived on the giant ship was Melvin Moore, son of Avery Moore, Sr. It was learned when he would be sent to Fort Bliss, but it was believed to be a home.

Queen Elizabeth Brought Soldiers of the 44th Division to Texas

The Queen Elizabeth brought soldiers of the 44th Division to Texas Friday amid the deep and hearty cheers of the men and women.

44th Division That Is Way Across France to Heart of Hitler's New Empire, and It Was the Blue Insignia of This Unit That Was Planted on the Bank of the Saar River

The 44th Division that is way across France to the heart of Hitler's new empire, and it was the blue insignia of this unit that was planted on the bank of the Saar River in a futile crossing attempt. An opinion that this division's many exploits will fill the pages of history.

Christian Church To Have Pastor First Three Sundays

Services were made last Sunday at the Christian church for the first time in the history of the church. The pastor, Rev. Guy Ament, held his first pastorate service here on that date. He served the Snyder church on Sunday and fourth Sundays.

Altman No. 1 Down Below 6,000 Feet

Last reports on Honolulu Oil Corporation No. 1 Altman, in northwest Garza county, show the test to be down below 6,000 feet. The well is slated to go to 10,000 feet to test for Ellenburger. The drilling was in line and is progressing ahead.

The test is on section 1255, T7 survey.

School Transfer Application Must Be Filed Now

Only a few more days remain in which students may make application for transfers from one school district to another, warns Dean A. Robinson, County School Superintendent. Applications must be filed before August 1.

"There should be approximately 150 applications made in the county this school year, and up to this time only twenty-six have been filed," declared Mr. Robinson.

Calvary Baptist Church To Begin Revival Friday

Post people are reminded that a revival meeting is to begin tomorrow night at the Calvary Baptist church. Services will be conducted twice daily. The morning service will begin at 10:30 o'clock and the night service at 8:30 o'clock. Rev. Huron Polnac of the First Baptist church will conduct the revival and Mrs. Ray Smith will be guest pianist. The pastor will have charge of the singing.

He asks all singers to take part in this revival and in commenting on the meeting the pastor said, "May the Holy Spirit lead us that this shall be a great harvest of souls. We are looking forward to a great revival."

Homer McCrary Is Member of Official Family of U S O

Garza county, which contributes generously to the National War Fund each year, is represented in the official family of the United War Chest of Texas, which directs the annual campaigns "for our own and for our allies."

The local civic leader who serves on the board of directors of the state war chest and helps set policies governing the war fund program in Texas is Homer McCrary.

Board members, who meet annually in Austin, are the guiding directors of all phases of the Texas drive. The board, composed of members represents every county and every strata of Texas citizenship, establishes general policies, acts on acceptance of the state's war fund quota and goal, sets the sum to be budgeted for expenses of the campaign, employs the general manager of the state war chest, passes upon all financial matters and, through the executive committee and several specialized committees, assigns local quotas and directs all other phases of the vast program.

Thus this county, as all other Texas counties, has a definite and emphatic voice in the operation of the war chest program, through its local leaders who are members of the board or of the various important committees.

Altman No. 1 Down Below 6,000 Feet

Last reports on Honolulu Oil Corporation No. 1 Altman, in northwest Garza county, show the test to be down below 6,000 feet. The well is slated to go to 10,000 feet to test for Ellenburger. The drilling was in line and is progressing ahead.

Lieut. and Mrs. Manly Visit In Post

Lieut. Chesly Manly and wife left Post Tuesday morning for Omaha, Nebraska, after visiting here for ten days with Mr. Manly's parents. Mr. and Mrs. J. P. Manly. Lieut. Manly came here from Tucson, Arizona where he was attached to the Army Air Force and reports back to his squadron at Omaha. He expects to be sent to the Pacific within a few weeks. Mrs. Manly will remain in their home in Washington to live while they are in the Pacific.

The Big Three

The Big Three conferees, President Truman, Premier Stalin and Prime Minister Churchill, were reported moving swiftly toward decisive action on the problems of peace in Europe and war in the Pacific at the close of the eighth formal conference on Monday.

A recess in negotiations paused temporarily as Churchill and other British leaders flew back to England for the outcome of the election to discover who shall speak for Britain in the history charting negotiations.

The conference slate was believed to have been swept clean of all preliminary details, paving the way for the three state heads to act on the major economic and military issues at stake.

Early decisions were expected on an overall economic policy for post-war Europe and details of the occupation of Germany.

Crop Acreage In Texas 6 Percent Below Average

A decrease of six per cent in the expected harvest acreage of Texas crops, due mostly to adverse weather conditions for cotton, wheat and corn, was announced last week by the United States Department of Agriculture from Austin. The estimate was released on the basis of July conditions.

Only a fraction of the intended acreage of cotton in the high plains was planted because of drought, and unfavorable spring season hurt corn.

Following are some of the indicated acreage or production:

Cotton—6,400,000 acres, 13 per cent decrease.

Corn—4,128,000 acres compared with 4,973,000 last year.

Wheat—37,881,000 bushels, compared with last year's record crop of 74,746,000 acres.

Grain sorghums—6,656,000 acres compared with last year's 7,157,000, with much of the high plains crop yet to be planted, and subject to revision in accordance with weather developments.

Post Canteen Wins 11-6 In Game Sunday Over Lubbock Team

Playing errorless ball behind the pitching on Harold Childs brought the Post Canteen base ball club a 11 to 6 victory over Lubbock Juniors at Lubbock last Sunday.

The Post nine scored in almost every inning. Malouf was the outstanding player of the day making five put-outs in left field without an error getting Henderson's, Lubbock's third baseman's, hard hitter three times.

Both teams played a snappy game all the way through. The two teams will meet again Sunday afternoon, July 29, on the Post diamond. The game is called for 2:30 p. m.

JUNIOR HAWS NOW WITH 7TH ARMY TANK CORPS

Sgt. A. B. Haws, Jr. has informed his parents, Mr. and Mrs. A. B. Haws, Sr. that he is now a member of the Tank Battalion of the 7th Army and is stationed near Frankfurt, Germany. "Junior" was with Hodge's First Army until Germany fell and was transferred to the 7th soon after that date.

"We are training again—it's the same old thing. We don't know very much about our future setup but have a good idea." Junior has seen some rugged combat duty since being sent overseas.

Mr. and Mrs. A. A. Suits spent several days last week in Fort Worth. They purchased a new 1942 car while there and also visited their charming daughter-in-law in Dallas for a short time before returning to Post.

Abner Outlaw is a guest of her grandparents and friends in Garfield, New Mexico.

Negro Charged In Shooting Of Post Mexican

A charge of murder with malice was filed Monday morning in connection with the fatal shooting Sunday afternoon in the "flats" of Simon Sepulveda, a Post Mexican. The Garza County sheriff swore to the complaint.

Accused, and released on \$1,000 bond Monday afternoon, was David Douglas, a negro man employed on a Lynn county farm.

The shooting occurred, according to several colored witnesses who were questioned by County Attorney Carl Webb and Sheriff Perry Printz who made the arrest, about five o'clock Sunday afternoon at John Smith's place over at the "flats." Gambling and drunkenness contributed to the affray, the sheriff stated. A bullet from a revolver pierced the Mexican's body below the heart and he died shortly after he had been removed to a physician's office.

The body of the Mexican was shipped to Mercedes, Texas for burial.

Pvt. Jack Wright Taking Aviation Engineering Work

Pvt. Jack B. Wright, son of Mr. and Mrs. Will Wright, has begun training as an Aviation Engineer of the Air Forces at Geiger Field, Spokane, Washington, according to word received today from Col. James W. Park, Clark, Commanding officer of that base.

Some of the skilled subjects taught by the AAF Aviation Engineer School are repair and operations of automotive equipment such as tractors and graders used in airport construction, draftsmanship, camouflage technique, carpentry, operation of highway construction equipment which is used in the building of airport landing strips, surveying and knowledge of the operation of weapons.

Upon completion of his training, the new Aviation Engineer soldier will be assigned to an Aviation Engineer unit.

Quotas On Cars Will Be Set Before Certificates Issued

No certificates will be issued for new 1946 cars until distribution makes it possible to establish quotas, according to OPA Rationing Executive William G. Williams.

New 1942 cars were removed from rationing July 18. The eligibility list, need and serviceability tests for the new 1946 models remain unchanged. The procedure for handling applications and issuing certificates through the Lubbock District Office remains the same.

All outstanding certificates for new 1942 cars were invalidated July 18.

Veteran of 38 Months Returns to States

Technician, 5th grade, Jack Boren, of Route 2, Post, has returned to the states. He arrived in Miami, Florida, recently by Air Transport Command plane.

Boren is a member of the Armored Division and has had 38 months of duty in Italy and other Mediterranean countries. He wears five major battle stars.

Men being returned by ATC each month are landing in Miami and then are sent by rail to Camp Blanding, Florida; then to reception centers nearer home for separation furloughs prior to assignments.

CLOSE CITY CHURCH OF CHRIST TO BEGIN REVIVAL MEETING FRIDAY, AUG. 3

The Church of Christ at Close City is announcing their summer revival which is to begin August 3, continuing through August 12. Bro. O. D. Dial will do the preaching and H. L. Arant of Lubbock will direct the singing.

The public is cordially invited to attend each service.

Mrs. Jim Burrus of Floydada and Marvin Cook of California were guests in the home of Mrs. John Faulkner last week.

Bullion Hide Stickers \$9.95 at Mason & Co. —Adv.

School's Of County May Have Lunch Room Projects

The community school lunch agreement between the United States Department of Agriculture and the State Department of Education has been extended through the next school year, Dr. L. A. Woods, Superintendent of Public Instruction, announced.

Latham White, acting regional director, Commodity Credit Corporation's southwest regional office of supply, USDA, co-signed the Texas agreement with Woods.

Local sponsors now can proceed with school lunch plans through the next fiscal year ending June 30, 1946, Woods said, explaining additional information may be received from any of the four CCC-USDA district offices of supply in the state. They are located at Dallas, Austin, Amarillo and Houston.

Under a similar agreement last year, 2,168 Texas schools served noon-day lunches and according to present trends the figure for the coming year will go over the 2,459 mark, he said. The year before, 1,770 schools operated with USDA assistance. Up to June, 1945, USDA reimbursements to cooperating schools under last year's program totaled \$2,918,000.

Provisions Given On Cotton Loan Of Interest To Farmers

Provisions for the government's cotton purchase program for the 1945 cotton crop, designed to stabilize cotton prices, have been made public by the Department of Agriculture. Purchasing agents, as designed by the Commodity Credit Corporation, in general will be local banks and other lending agencies approved under the cotton loan program.

Offers to buy 1945-crop middling 15/16 inch cotton, basis gross weight flat cotton, at Memphis will be made by the department's Commodity Credit Corporation at the following prices in cents per pound for the months indicated:

August 22.15, September 22.20, October 22.25, November 22.30, December 22.30, January 22.40, February 22.45, March 22.50, April 22.55, May 22.60, and June 22.65.

The same premiums and discounts for grades and staple lengths and location differentials as under the 1945 government cotton loan program will be effective under the purchase program.

CONSERVATION EFFORTS TO BE REPORTED SOON

Garza county farmers are reminded this week that practices carried out under the 1945 Agricultural Conservation Program must be reported by August 13, in order to be eligible for payment, warns James A. Boyd, secretary of ACA.

Producers are urgently requested to call by the local Triple A office and report all practices on the farm prior to August 15. The office has mailed out two circular letters concerning the matter but little response is being shown by farmers.

Arno Dalby Convalescing

Arno Dalby, Lubbock trucking operator and former citizen of Post, is reported convalescing nicely today following an emergency appendectomy in New Orleans, Sunday. Mr. Dalby en route to New Orleans on business became ill while aboard a plane and soon after arriving in the city was taken to Town Infirmary. Examination disclosed a ruptured appendix.

Husband of Opal W. Carmichael To Arrive Here

Mrs. Opal Wells Carmichael received a telephone call from her husband, T-4 Merle Carmichael, on Monday afternoon. He was at Camp Patrick, Hampton Roads, Virginia and had just landed in the states. He is a member of the 15th Armored Division and is being sent to Fort Sam Houston. Mrs. Carmichael expects him to arrive in Post on Saturday to begin a well-earned furlough.

Mr. and Mrs. R. E. Cox of Lubbock spent Sunday with Mr. and Mrs. H. E. Cox. They were accompanied home by their children, Don and Janet.

Lions To Rush Street Project To Completion

The city directory and house numbering project fostered by the Lions club received renewed impetus this week with the arrival of the numbers for the house.

The posts which are to support name plates for our city streets are finished and the work of setting them will be started soon.

Information regarding families on residence, names, occupations, etc., which has been particularly secured will be finished and will be incorporated into a city directory.

This project has been going nicely considering the club has raised the money as it went along. No fund had been previously provided. It is sincerely hoped the further work can be accomplished speedily by joint cooperation of all our citizens.

Winners Announced In Baby Contest

Rickey Clary, son of Mr. and Mrs. Iven Clary, and Beverly Ann Gilmore, daughter of Mr. and Mrs. Travis Gilmore, were winners of the baby contest held at the conclusion of the play sponsored by the club last Friday night. War stamps were awarded for prizes.

Approximately \$25 was cleared on the project. This money is to be used in helping to defray expenses for the street project.

Lt. Guy T. Harrison, Former Post Boy Wins Bronze Star

Second Lt. Guy Troy Harrison, whose parents, Mr. and Mrs. T. H. Harrison, now live at Stephenville, has been awarded the Bronze Star Medal for heroic achievement in Germany, last April 8, 1945. He is a member of Company H, 394th Infantry of the 99th Division, and he also wears the Combat Infantryman's Badge.

Lt. Harrison is of a well known family and was reared in the Pleasant Valley community. He graduated from Post High school. Mr. and Mrs. Harrison moved a few years ago to Stephenville.

His citation reads "amid a hail of enemy machine gun fire, Lt. Harrison went about picking suitable positions for his machine gun section. He then personally led them in these positions and directed their fire on the enemy positions, with the result that two enemy machine gun crews were routed and this permitted the infantry to advance. Changing the direction of his section's fire, he placed it on the enemy's route of retreat, allowing the infantry to capture many prisoners."

Lt. Harrison is one of the relatively few men who has been awarded a battlefield commission, having won his last January 25.

MOVES CLEANING PLANT FROM SLATON TO POST

St. Thaxton, who several months ago purchased a cleaning plant at Slaton, this week moved the plant to Post and is setting it up for operation in the building directly west of the First National bank.

Mr. Thaxton plans to have the plant in operation within the next few weeks. The building is being remodeled and made suitable for the business.

Spot Lights \$8.95 at Mason & Co. —Adv.

Applications Filed To Drill Four Wells On Post Estate Land

Applications have been filed by the Lynn Oil Company, New Orleans, to drill four wells on an 80-acre lease in a northwest quarter of section 6, block 5, K. Aycock survey, on the Post Estate land, according to information received here this week. The tests will be made on west side of the paved area in the Garza field.

The projects, according to reports, will drill to around 2,000 feet and will be drilled shortly. The field is spreading over acres 6 and 7, in block 5, K. Aycock survey.

AIRLINE NETWORKS INCREASE

The authorization of 1,244 miles of new routes to the airline networks during the first five months of this year brings the total number of miles of routes over which the domestic airlines are scheduling planes to 84,161, an all-time high.

An old mountaineer once told us he had been shaving himself with a straightedge "for nigh on to five years, and I ain't cut myself nither time."

Your Mutual Minute of Prayer

By THE REVEREND ROBERT NELSON SPENCER Bishop of the Protestant Episcopal Church of West Missouri

Let us pray:

O Sovereign God, in whose reign eternal nothing is ever too early or too late, make our times, as our trust, be in Thine. Make our cause, O God, and judge it and if it be righteous in Thy sight, grant it victory and ensuing peace. Map all who contend for that cause, going in heaps that were made, be sustained by Thy strength which none other can give, and suffer them not—in the perils of war—to fall from Thee. Through Jesus Christ our Lord. Amen.

POSTAL SERVICE BIRTHDAY

The United States Postal Service, as we know it today, came into existence on July 26, 1775, making it 170 years old today.

The first crude Colonial postal system was inaugurated in Massachusetts in 1639; a service for all the colonies was started in 1691 and the next year Andrew Hamilton was appointed Postmaster General of America.

There was a weekly service in summer and a fortnightly service in winter. From 1707 to 1775 the service in America was controlled by the General Post Office in London. Benjamin Franklin was placed in charge and greatly promoted "the efficiency," but because of a controversy with Governor Hutchinson of Mass. He was removed in 1774.

The Continental Congress, in 1775, resolved to have a Post Office system of its own and Franklin was chosen as the Administrator. Later he was succeeded by his son-in-law. In 1794, Congress placed the Postal Service on a systematic basis and, in 1799, it was thoroughly revised.

Until 1845 the cost of mailing a letter ranged from 3 cents to 25 cents, according to distances. That year the charge was dropped to 6 cents for letters not going over 30 miles. Postage then was collected entirely in money, either prepaid or postpaid.

In 1874 stamps were first introduced and six years later stamped envelopes were used but it was not until 1873 that the postal card was introduced.

The individual services of the system came into use at various times: the registration system in 1854; the money order system in 1864; the rural free deliver in 1897; the Postal Savings banks were started in 1910, and the parcels post in 1913.

The complex system by which our correspondence today is handled quickly and expertly is a result of a long process of growth and is another of the systems developed by an enterprising nation for the use of its citizens.

One for the Book

Favorite War Story of FRAZIER HUNT MBS War Front Reporter

NEXT to just plain, ordinary Dog Faces, my pets of all the soldiers in the South and Central Pacific are the guys who run the bulldozers. There's something about those Dozer lads that hits you right where you live. They're tough, and casual, and they chew tobacco—and they don't scare worth a cent. They're just about as thick-skinned as their Dozers are.

I first ran into them in the landing on Kwajalein, in the Marshalls, a little more than a year ago. They'd pushed ashore with their light Dozers in the third or fourth wave, and right away started breaking trails and opening up paths straight inland. Snipers didn't interest them. They had a job to do. It took about three days to break all organized resistance on the quarter-moon shaped island, some two miles long and a quarter-mile wide. Then came several more days of clearing out the last Japs from the rubble, coconut trees and hidden nests.

I watched one of these Dozer guys operating all by himself, up towards the far end of the island. Suddenly a thirt-crazed, fanatical little squirt-eyed jumped out from a pile of rubble, raised his rifle, and took a quick shot at the chap on the Dozer. The bullet zinged, as it hit on the cat's treads. The Dozer operator watched the Nip as he jumped back into his hiding place. Then he swung his Dozer around, like you'd spin a saucer; got himself about three tons of sand in front of his blade, and calmly buried that crazy Jap in a tomb four feet high. As he rolled by, he let loose about two pints of tobacco juice right on the spot where he'd buried him.

Yep! give me a Dozer driver—next to a plain Doughboy

Due to the resistance of the air it takes about 19 seconds for a bomb to reach the earth when dropped from an airplane a mile high.

The Governor of a state is the only one who has the authority to call out the national guard.

Plauen was the first Nazi party center in Saxony.

There will be four eclipses during 1945; two of the sun and two of the moon.

VICTORY IN REVERSE

The Tokyo radio proclaims the great warship and plane attack on the home islands "a tactical defeat" for the Americans. In a limited sense Tokyo is probably correct. There seems little doubt that one of the objectives of the protracted assault has been to bring out the Japanese fleet and air force for battle and destruction. Going the British tactics of the 1940 Blitz one better, Japan has so far held back not part, but all, of its ships and planes, presumably for use at some future hour.

The absence of fire from shore batteries, and the apparently negligible barriers presented by mines and submarines are less easily explained—unless an almost too-obvious explanation, that there simply were none there, is the answer. The cost to Japan has been terrific and promises to continue high.

Tokyo's tactics of inaction make sense only as part of a peculiar but shrewd strategic pattern. Military and naval experts agree that the Japanese still have an air force and a navy which could be damaging, though by no means decisive, if employed at the crucial moment. What might that moment be? Probably the moment of actual invasion. Ships and planes thrown in with suicidal fanaticism against a great convoy of transports and escorts tied to a beach by a landing operation in progress could have more effect than against an unincumbered, swiftly moving task force.

The Japanese are aware that the Allies know this. So the fleet and the psychological warfare along with the last ditch defense of Iwo and Okinawa—the threat and the foretaste of what complete victory over Japan might cost. This is Japan's only real hope: that its enemies will lose heart and find the price too high to pay. —Christian Science Monitor

DOCTORS AND THE HUMAN TOUCH

There is an intangible something in the practice of medicine in the United States by private doctors that will never be found in socialized medical systems where the personal element between doctor and patient is lost.

Commenting on the recent death of two prominent doctors in farm communities in Oregon, the Portland Oregonian said: "The bond of intimacy and dependence that is forged between a community and the family doctor who serves it through the years is a precious thing."

Such a doctor attends the ill of the town and countryside with patience, kindness and skill. When the nation loses one of the truly old-time family physicians it has lost an institution. The ranks of these great Americans grow thinner. Only if you become a "number" under a state controlled medical system will you realize what you have lost in the intimacy of a relationship that could have existed only between Mary and John and the reliable private doctor.

Baking powder, when thrown on a small blaze, will decompose, producing carbon dioxide, and the acid salts will fuse and coat the burning materials and extinguish the fire.

SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQVIST, D. D. of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for July 29

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

GOD'S PROMISE OF A NATION

LESSON TEXT—Genesis 17:1-16. GOLDEN TEXT—I will establish my covenant between me and thee and thy seed after thee in their generations for an everlasting covenant, to be a God unto thee and to thy seed after thee.—Genesis 17:7.

God keeps His promises. It may have appeared that God had forgotten, but He had not, and in our lesson we find Him ready to fulfill His promise.

We need to learn the lesson of patience, of awaiting God's time for the carrying out of His purpose. He is not in any hurry, but He always arrives on time. If we travel life's way with Him, all will be well.

Abram found the fullness of God's blessing because he sought His will for life and service. We find him:

I. Walking in God's Plan (vv. 1, 2).

The place of blessing is not in some cloistered refuge where the circumstances of life and its problems cannot disturb us. It is out in the daily walk with God, in the home, the office, the shop.

What is God's plan for the life of the believer? Just what He told Abram: "Be thou perfect." Nothing less will do, for He is a perfect God. His law is perfect (Ps 19:7). He requires a perfect obedience to the perfect law (James 2:10). This was His standard for Abram, and it can be so less for us.

How shall we attain it? Only in Christ can we meet and fulfill God's plan of perfection.

That means that as followers of the Lord we are to seek His power for the outworking of His grace in our lives. We are not to be content with a Christian life on a low standard or lacking any of the graces which God can give us.

We, too, must recognize that if God is to give us His full measure of blessing, we must walk in accord with His will, walking in the light as He is in the light (1 John 1:7). Much of the failure and impotence of present day spiritual life is explained by the willingness of Christians to live imperfect lives.

II. Talking of God's Purpose (vv. 1-3).

Abram fell on his face in adoration and worship. In reverence and humility, he put himself in the place of subjection and service.

What happened? "God talked with him" (v. 3). This man was ready for a holy conversation with the Lord. His attitude of body was only the outward expression of an attitude of heart which was right. So God and he talked about the purpose of the Lord for Abram's life.

He had been Abram, which means, "exalted father," that is, of a family or a tribe; now he became Abraham, "the father of a multitude."

This is the first of many instances in Scripture where a name was changed by God to mark an important event, or a change of heart. For example, Jacob "the supplanter" became Israel, "a prince with God" (Gen. 32:28); Simon became Peter, "a rock" (Matt. 16:17, 18).

The letter to the church at Pergamos speaks of the one who overcomes in Christ's name as having a new name written which no man knows save he that receives it (Rev. 2:17). The believer on Christ is a changed man, a new creature, whether his name be changed or not. God wants to change men—has He changed you?

The promise is renewed to Abraham. It was to his "seed," that is, his descendants. He took the blessing from God's hand, accepting things that as yet were not, as though they were. God is able to make them come to pass (cf. Rom. 4:18-19).

III. Trusting God's Promise (vv. 2, 10).

Down through the ages every man in the great host to descend from Abraham was to bear the outward token that he belonged to the covenant people. This was to be a symbol of and to lead the recipient into that attitude of heart which would bring outward rite into fulfillment as an inward reality.

Observe that after Abraham, it was always the parent who thus brought the son into the covenant. This speaks of the parental responsibility to bring the little children to the Lord, and it also gives us the precious assurance that God is interested in the children and ready to receive them at the hands of parents, taking them into His own tender care.

Thus down through the generations, Israel was to show their faith in God, their assurance that He would keep His promises to them, and their consequent eagerness that their families should be counted into the covenant with God.

Christ is ready and eager to undertake for our children. His grace is sufficient, not only for us, but also for those who come after us. His promise is to our "children's children" (Ps. 103:17, 18), "of such as keep His covenant." Let us trust Him, and put ourselves and our children in that place of abiding assurance where He may bless us and them.

On the average the sun is a distance of 92,900,000 miles from the earth. The average battleship costs U. S. about \$27,000,000.

Miss Betty Williams has returned from TSCW where she attended summer school the first semester.

Almost half of all U. S. oil is produced in Texas.

Southland News

Mrs. Floy King, Correspondent

The Church of Christ meeting closed Sunday night with four services. Church at 11 a. m.; singing at 3:30 p. m.; church at 8 p. m. with one addition to the church. Miss Betty Ann Jackson was taken to Slaton for baptism after church closed that night.

Remember every one is invited to attend the meeting that begins Wednesday of this week at the Methodist church.

Rev. H. A. Henkal, pastor of the East Side Baptist Church of Lubbock, will have charge of the music at the Baptist Revival which begins in August.

Vernon Armstrong, wife and baby of Lubbock, visited his parents, Rev. and Mrs. E. C. Armstrong, Saturday afternoon. The Vernon Armstrongs accompanied by Mrs. E. C. Armstrong went to Snyder to visit relatives returning Sunday afternoon.

Among those present at the A. F. Davies home Sunday were their daughter, Mrs. A. M. Spikes and baby, and Mrs. Davies' sister, Mrs. Willie Lockwood of Lubbock.

Sgt. and Mrs. Jim Hamaker spent part of last week with her parents, the J. F. Moores, and her sister, Mrs. Peyton Crawford, and family.

Mr. and Mrs. Roy Dopson and children of Ropes spent Sunday with her parents, Rev. and Mrs. O. J. Harmonson. Carolyn Jane stayed over for a few days visit.

Mrs. Annie Landers is home for a few days visit after being employed in Slaton for two weeks.

Grandmother Basinger enjoyed a car ride out in the country Sunday. She wants to go again soon.

Mrs. John Lenke who underwent an operation in the West Texas hospital recently was able to be brought home Saturday night.

Those visiting the I. J. Bartlett Sunday were Mr. and Mrs. Lonnie Bartlett and family of Lubbock, Mr. and Mrs. Lee Bartlett and family, Meadow, and Mr. and Mrs. Trimble and family.

Among these in the Roy Williams home Sunday were Rev. and Mrs. Dial and son and Charlene Wylie of Lubbock.

Those visiting the J. L. Whiteheads through the past week were: on Thursday Mrs. J. D. Hord and son, Sgt. J. D. Hord, Jr., who has just returned from Germany and Mrs. W. W. Davies and son, Carlton and Mrs. Gibbs and daughter, Drew, of New Home, and Friday Mrs. Mary Jane Gray arrived at the Whiteheads to spend her vacation and visit friends at Southland and on Sunday the Vernon Johnson family of Owens spent the day. The Whiteheads received two letters from their son Wayne who is in New Caledonia.

Congratulations to Mr. and Mrs. Gabriel Espinosa on the birth of a daughter, Margarita on July 20th at 8:20 a. m.

Mrs. Nola Brister of Post who is attending school at Lubbock, stopped over with the A. A. Fergusons Saturday afternoon. Lavonne and Jimmy accompanied her to Post to visit their grandparents over the week end.

Mrs. Ora Dickson and daughter, Bobbie, of Barnum Springs, spent Friday and Saturday with the Fergusons and Don Pennell.

Those visiting the I. J. Duffs recently were three of their children, Pauline of Ft. Worth, Margaret of Houston, and Roderick of the Coast Guard who has been stationed in Maryland.

Those visiting the A. Wilkes Sunday were Rev. and Mrs. E. Herber and family, Mr. and Mrs. Otto Klans, Mr. and Mrs. Voigt, Mr. and Mrs. Elmer Gindorf and family and Mr. and Mrs. H. T. Bruedigam and family.

M-Sgt. Charles Sokoll arrived Wednesday from Germany for a 30 day furlough with his parents. He will report to Florida from here.

Those visiting J. P. Hewlett and sons Sunday night were his brother, Raymond Hewlett, of Ropes, Charles Coleman of Wilson is also visiting them.

Sgt. Winifred Hallman left Saturday for the Brooks Hospital at Fort Sam Houston.

Those visiting the Usserys last week were their children, Horace, Mr. Ino Penninger and Bob Ussery of Fresno, Calif., Mrs. Ethel Bond of Berkeley, Calif., Mrs. Vera Kenney of Mercedes, Calif., and Mrs. W. W. Thomas and family of Rails. All have returned to their homes.

Lenz Mae Samples went to Pampa to visit but got a job and called her mother to ask if she could stay and work awhile.

Mr. and Mrs. Edd Martin visited their son, Bill, and family of Lubbock Sunday.

Harvey Ray Stotts, Jr., arrived home Saturday for a few days visit with his parents, the Harvey Stotts, Sr., before leaving for the armed services on Wednesday.

Mrs. Dave Draper and children and Mrs. Joe Childress of Slaton visited the W. W. Gillilands Sunday.

Those attending the barbecue supper at the J. H. Haines' Sunday evening were Mr. and Mrs. Kenneth Davies and family, Mr. and Mrs. Sam Ellis and family, Mr. and Mrs. L. E. Anderson and

HALF COUNTIES HAVE AIRPORTS

Washington—Of the 3,076 counties in the United States, 1,633, or 53 per cent have one or more airports. The 412 urban places of 25,000 and up have 602 airports. Of the 140 metropolitan districts there is an airport for every 80 square miles. There are 438,585 residents per airport for cities of over 500,000 population.

There are 9000 babies a year born in Dallas.

family, Mr. and Mrs. L. B. Mathis and Mrs. Judy Spurlock and Marks.

Marvin Truelock and daughter, Glenda, returned Sunday from a week's fishing trip. They brought a number of fish back.

Mrs. Harvey Stotts accompanied her husband to Colorado Friday.

FASTER, SAFER PLANE LANDINGS

Washington—A series of experiments which will increase the safety factors of flying in instrument weather, especially in zones of traffic saturation around busy airports is now being conducted by the Civil Aeronautics Administration. In these tests the CAA is using 10 carloads of radar equipment loaned them by the Army and Navy.

Two of the main objects of the research are the perfection of a screening device to allow the control tower to visualize the actual position of all aircraft within 25 miles, and a collision warning device, to be installed on the instrument panel of the plane which would give constant visual indication of the relative position of other aircraft within a certain radius.

MORE CIVILIAN SHOES OKAYED BY WPB, OPA

Twenty per cent more shoes will be produced for civilians in October, November and December but there is no assurance that shoe rationing will be liberalized.

Reduced demands for military footwear will permit the hike in civilian shoe production, the WPB announced last Thursday night.

OPA said it could not predict what easing of shoe rationing might be possible nor when another shoe ration stamp would become good. Airplane stamp 4 becomes valid next Wednesday, August 1.

No Slipping . . .

To keep scatter rugs from slipping on a highly-polished floor, put an old rubber ring under each corner, say home economists.

When Defrosting . . .

Simple as it is to defrost a refrigerator, a home economist saves herself needless mopping-up afterward by putting a folded newspaper along each side of the evaporator. This directs drippings into the drip tray and prevents ice from scattering everywhere as it scales off.

WHY "GET UP" AT NIGHTS?

It's not necessary. Raise the pH of the fluid in your bladder with CIT-ROS. Reduces the urge of irregular elimination. Get rid of backache, burning, bearing-down pains. CIT-ROS will do the job safely, relieves back pains quickly, soreness in the back vanishes. \$1.99 at your drug-gist. For sale by

John Stokes Writes Interesting Letter From Germany

Germany, Dearest Mom, Dad, Frank and Joe:

Will drop you a few lines to let you know I am O. K.

We are still in Germany although we have moved back toward France. We are now at Glessen, Germany, about 200 miles from Gera which was the furthest we got in Germany.

Now that the war is over we can tell where we have been and all that, so here is a brief outline of the places we have been.

We left Camp Kilmer, N. Y. April 30th a year ago. After spending 14 days on the ship coming across we landed at Avonmouth, England—down by Bristol on the 19th of April. From there we went by train to Southampton where we stayed in private homes until the 10th of July. We then went to Lidworth for a couple of days. We sailed from Portsmouth the 17th of July for France. After crossing the English Channel (which was fairly smooth) we arrived at our destination on July 18th. We landed on Utah Beach at a small village named St. Germaine, after 3 or 4 days we went into operation at Point Lobey, we stayed there for a week or ten days. From there we moved to Granville and took part in the St. Lo breakthrough.

From Granville we went around the Brest Penn. The army was moving so fast it took us several days to catch up with them. We arrived about 15 miles from Brest on Aug. 18th and stayed there until Brest fell. On Sept. 28th we left by train for Belgium as most of France had already fallen by the time Brest fell. We traveled across France in cattle cars up to Bastone, Belgium. We stayed in operations a week there then moved to a Chateau at Libin. This was a beautiful place. It was a hunting lodge before we took over. We stayed there until Nov. 26. From there we went into Luxembourg and stayed in an Agricultural College. This is where we were when the German breakthrough came. We pulled out of there in a hurry the 18th of Dec. We were fortunate enough to get out with our equipment without being taken prisoners. About five other hospitals didn't get out. We retreated back into Belgium and set up and started operating there Dec. 20. We worked our

QUICKIE QUIZ

Did you know that athletes are at their superlative best between the ages of 27 and 29, a fact ascertained after years of research by Prof. Harvey Lehman of Ohio State University.

But can you answer the question asked by Bert Wheeler, star of "The Fresh Up Show" on MBS, who asks if you can name the President of the United States who at one time was football coach for one of our leading institutions of learning?

Wooden Wilson, football coach at Princeton in 1876.

Sgt. Gomer Custer Gets Bronze Star For Combat Service

With the Fifth Army, Italy—Master Sergeant Gomer Custer recently was awarded the Bronze Star Medal for meritorious service in combat in Italy.

He served on the Fifth Army front in the 91st "Powder River" Division.

The awarded citation related: "Custer, in a position of considerable responsibility as Chief Clerk, and as principal clerk of enlisted pay section in the Division Finance Office, distinguished himself by his unusual abilities and devotion to duty. Working without regard to hours, he has contributed greatly to the successful accomplishment of the basic responsibility of a Division Finance Office, i. e., the prompt and accurate payment of troops. In the performance of these duties, he contributed considerably to the morale of the combat soldiers," concluded the citation.

Wynne Collier Opens New Store In Tahoka

Congratulations to the Wynne Collier Drug Store of Tahoka on its enlargement and remodeling which makes it one of the finest drug stores in the West Texas area.

Wynne Collier, son of Mr. and Mrs. R. H. Collier, was reared in Post and for a time was associated with his father in the store here.

The Tahoka store was established in 1907 by Thomas Bros., uncles of Wynne, and acquired by him in March, 1936. The new store now has a 50-foot front made of plate glass and tile. The fountain has been enlarged, new booths and extra fixtures added to enhance the general appearance.

New show cases, 18 double fluorescent lights, new linoleum also add much to the beauty of the store.

Wynne was recently honored by being made one of the directors of Southwestern United Wholesale Drugists in this five state area. He is also a director of West Texas Retail Drug Association.

The beaver is the largest member of the rodent family.

Revolting Necessity

Signal Corps Photo

BUCHENWALD, GERMANY—Tattooing on dried human skin from the bodies of men who perished here is being examined by Methodist Bishop G. Bromley Oxnam.

In the course of a visitation of chaplains for the Federal Council of Churches of which he is president, the New York Bishop inspected the local horror camp.

Asked his opinion of the publicity given the atrocities Bishop Oxnam called it "a revolting necessity." Skeptical when he came, the Bishop went away convinced.

"It seems essential that the world fully understand that such pagan disregard for human life is the logical outcome of the Nazi doctrine of 'the nothingness of the individual,'" Bishop Oxnam said.

Mrs. H. L. Patty has just returned from Carlstad, N. M. Little Tommy and Anita Patty accompanied her to Post.

Funds for the construction of the Statue of Liberty were contributed by 180 French cities, 40 general councils, many societies and thousands of French people. Contributions totaled \$250,000.

Mrs. James Patty and son visit Mr. and Mrs. June Caffey in Lubbock last week.

Rockefeller Center, in New York City, is the largest privately-owned business and entertainment center in America.

Rheumatic Heart Disease Is First Cause of Death

Austin—Rheumatic heart disease is now the first cause of death among children aged 14 to 18, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease, established. No vaccine such as those that prevent typhoid, diphtheria, smallpox, and whooping cough has yet been developed for its prevention or control. We know, however, some of the danger signals and with the physician's accurate diagnosis some of the damaging results of the disease may be prevented.

Exposure to frequent chills, damp or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to predisposing factors in the appearance of rheumatic fever.

Dr. Geo. W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, elbows, or wrists. The pain usually is felt in one of these joints and spreads to the others. Sometimes a child will get irritable and cross without any signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted once in such a situation, for symptoms may be the beginning of rheumatic fever.

According to Dr. Cox the safeguards against this disease is to have each child examined at least once a year by a physician to have the right kinds of food and plenty of rest. When the case is suspected of being present a doctor should be consulted once, and if he prescribes complete rest, his advice should implicitly followed.

Mrs. Epps of Christoval, accompanied by her daughter, Looney, and a granddaughter recently visited Mrs. J. B. Johnson. Mrs. Epps is an aunt of Mrs. Johnson's and they had not seen each other in quite some time.

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 52
Effective 12:01 am, June 30, 1945

"No carrier shall reserve, assign or allocate seating or sleeping space on a passenger train more than 120 hours in advance of scheduled departure time of such train. No carrier shall issue a ticket for a reserved seat or sleeping space on a passenger train more than 120 hours in advance of scheduled departure of such train, except in the case of tickets for reservations made prior to the effective date of this Order which have not been picked up."

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 53
"On and after 12 o'clock noon, July 15, 1945, no common carrier by railroad or sleeping car company shall operate or transport any railway car containing sleeping space or sleeping accommodations to a point of distance 450 miles or less from the point of origin of such car, such distance being measured by the shortest distance by railroad over which sleeping cars are operated between such points. . . Each common carrier by railroad shall forthwith cancel all reservations for space after 12 o'clock noon on July 15, 1945."

What about Travel now....
under the new Government rulings?

The Government has curtailed civilian travel by ordering the railroads not to make reservations on passenger trains more than five days in advance of departure and by banning sleeping car service on trips of 450 miles or less.

A lot of people are assuming that, with the European war over, the travel situation on trains should have eased up by now.

But they are finding out that it's harder than ever to get space. They're asking themselves, "Why?"

The reason is simply that the railroads are being called upon to repeat a job of moving over 3,000,000 soldiers. But this time it is to be done in 6 to 9 months whereas originally it took more than 2 years to move these men.

The railroads are still operating with the same number of passenger cars that they had when the war started. Building new passenger cars has not been permitted since Pearl Harbor.

Many Pullman cars have been converted into hospital cars, and, of course, more Pullmans and coaches than ever are being withdrawn from civilian service to use in the movement of men to the Pacific.

The great bulk of traffic for the Pacific funneled into 4 railroads to ports of embarkation in California. Santa Fe, with its improved facilities, is carrying a large part of this traffic.

This all adds up to the fact that only a very limited amount of space is left over for civilian travel.

Of course we like to accommodate our friends and make new acquaintances. But you, too, agree that the troops and materials needed to whip Japan must come first.

New cars are now on order. Santa Fe has enough new chair cars on order to seat 3180 people. 16 new lunch counter-diners are also on order. A substantial number of new sleeping cars will be placed in service on the Santa Fe as soon as War Production Board orders permit.

Cpl. Curtis Collins Recent Guest In Home of His Sister

Cpl. Curtis Collins of the Army Air Corps was honor guest July 23 when his sister, Mrs. J. C. Johnson was hostess at a family supper party.

Mexican dishes, favorite food of the corporal, formed the entire meal.

Enjoying the supper and sing song were Mrs. L. H. Collins and daughter Sharon, and Mr. and Mrs. Otho Collins and daughter, Lawanda, all of Lubbock and Mr. and Mrs. Johnson, Linda Carol, and Mrs. J. B. Johnson.

Cpl. Collins has only recently returned from ten months duty in the Philippines. He received a shrapnel wound in the leg after experiencing much heavy fighting. Convalescing from his wound he contracted a tropical disease. He remained in the hospital overseas four months and now is on sick leave from Longview hospital.

Cpl. Collins formerly lived in Post and has many friends here who wish him a speedy recovery from his disease.

Out-Door Party Is Given By Miss Wilma Pirtle

Miss Wilma Pirtle was hostess on Friday night at her home with a lovely yard party. An appetizing and appropriate supper menu was served consisting of barbecue, baked beans, potato salad, pickles, potato chips, tea, ice cream and cookies.

Following the supper a variety of games were enjoyed.

The guest list included Mrs. Inez Harteel, F. E. Gilley, McRee and Lorene Cash and Misses Jackie Thomas, Vera Gollehon, Lucille Meador and Nora Stevens.

County Clerk Ray N. Smith returned Saturday from a week's visit with his parents in Tulsa, Oklahoma.

Lt. and Mrs. Shelley Camp and son, Roger, are visiting Lt. Camp's parents at Howe, Texas, for several days.

Mrs. Olan Horn and daughters, Sally and Molly, have been visiting her parents, Mr. and Mrs. F. B. Cearley

CRIME CLUES

Can You Name This Villain? Many years ago, a Scottish general with designs on his country's throne, had a rare streak of luck when the King arrived at his castle to spend the night. Urged on by his wife, this power-mad soldier up and murdered his majesty, taking over the throne.

A fellow general became suspicious when the murderer encountered three witches in the forest, who prophesied that he would be king, saying that another man's children would later usurp the throne. This forced the killer to do away with this friend. Naturally he was much upset when the dead man's ghost appeared at a dinner table.

Going out of his mind from remorse, his actions became more and more irrational until in a rage he killed the wife and children of still another general who subsequently had risen against him.

But retribution was soon to catch up this purple-clad rogue. In hand-to-hand combat, the power-mad king was killed by the general whose wife and children he had slaughtered, and, at last, the witches' prophecy was fulfilled.

This villain, one of the most famed of all fictional characters, according to Charlotte Manson, "Patay" of Mutual's "Nick Carter," was:

- 1. Uriah Heep
- 2. Macbeth
- 3. Hamlet
- 4. Bluebeard

ANSWER: Macbeth

Mrs. James Patty and son, Jimmy, are visiting Mr. and Mrs. H. L. Patty and family.

People in America, led by the New York World, contributed \$280,000 to pay for the pedestal on which the Statue of Liberty stands.

A \$60,000 a year increase in pay went to Harry S. Truman when he took over the Presidency.

Forty persons can stand inside the head of the Statue of Liberty.

The Statue of Liberty weighs 450,000 pounds or 225 tons.

Local OES Meeting Held; Session Is Called For July 31

The local chapter of the Order of Eastern Star held its regular meeting for the month of July on Tuesday night of last week. Worthy Matron Bernice Shepherd and Worthy Patron Bro. Jesse Young presided.

The regular business of the meeting was postponed until after the initiation ceremony. Mrs. Sybil Cockrum received the degrees of the Order as she was conducted through the impressive initiatory service.

During the informal visit delicious home-made ice cream and angel food cake was served by Ida Cook, Opal Williams and Addie Smith.

Members of the chapter are quite excited over the meeting which has been called for next Tuesday night, July 31. Ten people are candidates to receive the degrees of the Order, the first time such a large number has ever been elected at one time in the Post chapter.

Members are urged not to forget this special meeting date next week. Visitors from other chapters will be heartily welcomed.

—Reporter

Three Soldiers Are Honored With Party In C. W. Morris Home

An ice cream party in honor of Pvt. Harlan James Morris, Pvt. Merion Morgan and Seaman Billy Johnson was held in the home of Mr. and Mrs. W. C. W. Morris on Thursday night, July 12.

Fifty-four friends and relatives of the young men gathered to help make the evening one to remember. After much funnaking and visiting, five large freezers of ice cream were enjoyed by all.

Pvt. Morris was en route to Fort Ord, California from Camp Walters, Texas where he had finished his basic training as an infantryman.

Pvt. Morgan is spending a sixty day leave after several months overseas duty in Europe and Seaman Johnson had five days leave after finishing his "boot" training at San Diego. He reported back there for reassignment.

First Baptist WMS Meet In Regular Business Session

The Blanche Groves and Mattie Hamilton Circles of the First Baptist church met July 23 for their regular monthly business meeting.

Opening prayer was offered by Mrs. Barrow with Mrs. Suits reading the devotional. The minutes were read by Mrs. R. E. Cox. A report was given by the treasurer, Mrs. Jim Williams.

The Blanche Grove Circle has finished a three year study of the book "A Missionary Tour." Mrs. Fry resigned as Sunbeam leader and Mrs. Tommie Anderson was elected to take her place. Mrs. Curtis Davies will be assistant leader. It was voted to give \$5.00 to the Burney Fund.

Mrs. Suits appointed as a nominating committee Mrs. Barrow, Faulkner, and Hughes. Mrs. Manly led the closing prayer. Fourteen members were present.

USE PEACHES GENEROUSLY IN DAILY DIET; LARGEST PEACH CROP IS NOW HERE

The largest peach crop farmers have ever grown in early producing areas is now headed for local markets and housewives are asked to take advantage of the plentiful supply and serve them generously and more often.

The national crop this year will be about 78,000,000 bushels, counting harvest from later producing areas. But since late peaches do not ordinarily show up plentifully in this section, the current crop should be fully used.

The armed forces are getting first call on canned foods and since their needs for fruits are high and all the peaches which can be canned, frozen, dried and preserved at home now is insurance against the day when commercial foods are expected to be in short supply.

Mrs. Jessie Voss and Mr. Charlie Voss have returned from a visit with Knox Pary and family at Bryan, Texas. While she was gone Mrs. Voss visited relatives and friends in Mexico, Waco, Taylor and the new grand-nephews at Temple. She also visited the Wallace Kimbroughs and James Potts, former residents of Post who now live at Bryan.

Shower Honoring Miss Evans Given In Young Home

Miss Nedra Jo Evans was honored Thursday afternoon, July 16, when Mrs. B. E. Young, Carl Clark, N. W. Stone, E. W. Williams and Emma Cash were hostesses for a miscellaneous shower in the Young home.

Miss Evans will be married to Lt. Robert Donnell Foster in a church wedding Friday night.

Calling hours for the party were from 4:30 till 7. Seventy guests registered in the bride's book in charge of Miss Martha Rae Roach.

Mrs. Kenny Cash and John Sutton presided at the refreshment table. A lovely bride figurine was used as a centerpiece on a Quaker lace cloth. Candlelight reflected in the crystal table appointments further enhanced the beauty of the arrangement. Punch was served with cake after the guests had admired the grand display of gifts presented the bride-elect by well wishing friends.

A musical background was furnished by Misses Iris Joy Parker, Mary Helen Robertson, Hazel Cash and Helen Jo Hundley. Selections which were favorites of Miss Evans were played as well as traditional and appropriate love songs. Solos were sung by Misses Parker and Cash and their voices were blended with Miss Robertson's in a lovely rendition of another favorite.

The lovely colors in the dresses of the girls in the house party were complimented by the colors of the summer flowers used for decorations. Flowers worthy of a florist's label were grown by garden enthusiasts here and given for the party. Gladioli and dahlias from the Slaughter and Samson gardens were especially admired. Perennial phlox, zinnias, and snapdragons added their gay colors also.

Preston - Carter Wedding Held In Maryland July 18

Miss Charline Preston, daughter of Mr. and Mrs. J. G. Preston of this city, left July 14th for New York where her fiancée, W. M. (Chunky) Carter, Sic, son of Mr. and Mrs. J. C. Carter also of Post met her. They were married July 18th at 12:00 o'clock in Elkton, Maryland. They are now at home at 428 - 10th Street in Brooklyn, N. Y., where Carter is stationed in the Brooklyn Navy Yard.

INSURE CANNING SUCCESS!

Mr. and Mrs. Vernon Cearley Are Guests of Parents

Mr. and Mrs. Vernon G. Cearley were recent visitors with his parents, Mr. and Mrs. F. B. Cearley. They returned last Monday to Houston.

Vernon received his medical discharge from the Navy on last July 3 at Jacksonville, Florida, after 35 months service. In August of 1942 he enlisted in the Seabees and received his training at Norfolk, Va. He shipped out the following November from San Pedro to Guadalcanal.

In May of 1943 he transferred to the Navy and served as storekeeper 2-c with the Navy Supply Corps on Tulagi. He was moved to New Zealand in January of last year and six weeks later moved on to Emirau Island.

Before returning to civilian life Vernon wore the American Theatre of War ribbon and the Asiatic Pacific ribbon with three battle stars.

PRISCILLA NOTICE

The Priscilla club will meet Friday, July 27, in the J. P. Manly home with Mrs. Emory Stewart as hostess.

Athalie Smith Given Discharge

Athalie Smith, son of Mr. and Mrs. W. M. Smith of this city, has arrived in Post after receiving an honorable discharge from the Army.

Smith, with more than four years of service with the Army, spent thirty-nine months in the Aleutians. He was also in Alaska where he had a part in building the famous Alaskan highway. The soldier claims that he saw the emergency tangle to 75 degrees below zero at several times while in Alaska.

According to Bureau of Standards tests, water will not rot rubber.

Chinese Studying American Industry and Agriculture

Chicago—Nine Chinese technicians in communications who are studying American methods under a lend-lease arrangement, have been assigned to the Santa Fe Railway at Topeka for training. These technicians are among 593 young Chinese who are in this country studying our methods of industry and agriculture. They are all college graduates, speak English and have had two years training in their particular fields. The nine trainees assigned to the Santa Fe are making a specific study of railway equipment and maintenance.

The "House of Seven Gables" is located in Salem, Mass.

Natives Of Marshall Islands Ask To Remain Under United States Control

Marshall Island natives want to become United States Nationals, or be under the protection of this country. Naval Military Government officials have received petitions from Marshallese now living on Majuro, Arno and Aur Atolls, comprising 43 per cent of the population under U. S. control, requesting that the Marshall group become a United States Protectorate.

Many of the petitioners are evacuees to date from the Japanese-held atolls of Wotje, Maloelap, Mille and Jaluit.

Each of several petitions contained the names and fingerprints of the petitioners. The Arno Atoll petition, signed by 350 men and 455 women, stated:

"When this world war is over we request as it is written below.

"1. We ask the United States of America to look over us.

"2. And it should also keep our

customs.

"3. We want the United States as long as we live on the world."

The petition from Majuro Atoll, signed by 1,025 men and women representing, in addition to Majuro, Wotje, Maloelap, Aur, Ailuk, Utrook, Meji, Lekiap and Arno Millie atolls, stated:

"We make this request for when the war is over, and the United States will deliberate about the Marshall Islands. We all agree to this, that America should not give away these islands, (Marshall Islands), to any other nation.

"We have known Americans for 89 years and Americans have lived with us since 1857. They are not new to us.

"We want to ask the United States of America to be our guardian and protector."

Every person on Majuro Atoll signed the petition.

All Railway Cars Go Into Pool For Armed Services

Washington—The armed forces last week got first call on virtually all of the nation's railway passenger cars.

The Office of Defense Transportation has placed all passenger coaches, baggage and express cars in a big pool to be available on demand for the use of the armed services.

The action does not automatically curtail service available to civilians, but sets up the mechanics for making more passenger equipment available for use in the redeployment of troops from Europe to the Pacific. And in the end, the agency emphasized, there will be less equipment for civilian use.

The order, which affects more than 30,000 cars of various kinds, provides that they be used for such purposes as the ODT may direct.

Word was received here this week that Pvt. Joyce Steel is to attend an advanced training school for gun mechanics until October at Fort Sill, Oklahoma. Mrs. Steel and children are making their home here with her parents while Joyce is away.

TWO FORCED LANDINGS OF B-29s NEAR 1,000

Guam—The 21st Bomber Command said July 17 that nearly 2,000 Superfortresses had made emergency landings, sometimes under enemy fire, at Iwo Jima since an advance base was set up there early in April after the conquest of the volcanic island.

(The dispatch did not elaborate, but presumably Japanese planes sometimes pursued the formations to Iwo Jima, which is more than 750 miles south of Tokyo.)

Engineers are completing construction of an airfield on Iwo with runways nearly 10,000 feet longer than those of any other 21st Bomber Command base. Col. John G. Fowler of Newman, Go., commands the base.

Former Post Citizen Gets 15-Year Award

Charlie Walden, former Post citizen who now resides at Tahoka where he is manager of the West Texas Gas Company, was recently honored by the Company through the presentation of a beautiful 15-year service pin.

The emblem, blue and gold, bears in center the "Blue Flame" symbolizing Natural Gas Service, encircled by the name of the Company and number of years served. Mr. Walden received with his pin a letter of appreciation thanking him for his loyalty and his interest in the progress of the company.

Walden before going to Tahoka about six months ago was manager of the local system.

Mrs. Joe Frank Hopper has returned from Grandview where she visited her husband. While there she underwent a tonsillectomy operation.

Miss Odell Safford has returned from a visit with her mother at Leuders. She is now employed at Whittie's Cafe.

Mrs. Neil De Lavon, the former Kitty Fairies, of Lubbock visited Post friends on Thursday.

Botany Interests Brother of Ralph Welch In Alaska

(Editor's Note—A most interesting letter has been received by Ralph Welch from his brother, Chaplain Ross T. Welch, who is stationed in the Aleutians. The detailed description of the botanical features of the country prove very interesting reading.)

The Chaplain has visited his brother and family numerous times.

Dear Ralph and Helen: I've been pretty worried, not having heard from you since Helen came from the hospital. I hope you have gotten along swell, but of course can't help worrying.

The weather—most common topic of conversation—continues unchanged—gray and dripping, seldom getting heavy enough to make a racket even on these tin-roofed huts, but on and on, unceasingly, monotonously. You get to where you pay little attention to the rain itself, but it makes you angry when you know that it is the cause for you not getting your mail.

I wish you could be here some day—if we could have a sunny day now—and we would go walking around here and see all the beautiful flowers. It is perfectly amazing. You can see things growing. There are violets as lovely as you ever saw growing in a hot house—and I thought they grew in the shade of trees; there are beautiful iris on little stubby stems that just barely get out of the tundra; there are acres of lupine (our Texas bluebonnet) which, much as I hate to say it, would put any that I have seen in Texas to shame; there are dozens of other varieties. Some are like nothing I have ever seen.

There is a wirey little plant—green in color—that looks like it started out to be a pine tree and ended up a little bush or vine, and on it the brightest little red flowers which look very much like miniature roses. There are daisies, asters, little yellow flowers with almost black leaves. The marine life is interesting too. Sponges of all sizes and descriptions, anemones (carnivorous plants, animals really I guess, that fasten themselves on the rocks and then start flashing their bright colors around, like some woman of ill repute trying to attract customers, but woe to the bug that falls into their clutches.)

But perhaps you are not interested in a botany lesson—we have to find something to be interested in up here. I can't take too much interest in the beer parties, which seem to be about the only kind they care for up here. Services have been pretty good so far today. I have one more. One of my officers who has never attended a service previously, got caught in a corner a day or two ago and promised to come to services tonight. He came to dinner with his 'blues' on awhile ago—so I guess he really meant it.

All my love,
Your brother,
Ross

QUICKIE QUIZ
for Sports Fans

Did you know that the word "saddle" is of gulf date, but in the had who carried the club for Mary Queen of Scots when she addressed as "ruder" when asking for her trusty saddle?

Corley Bradley, "Tom Mix" on the MBS program, didn't know this. But he has a question for you—What is the one major sport played in the United States of purely American origin?

Bobcat. All other sports are imported from foreign lands.

LIFE'S Little TROUBLES

CAN'T SLEEP

No need to lie in bed—toss—worry and fret because CONSTIPATION or GAS PRES-SURE won't let you sleep. Be sensible—get up—take a dash of ADLER-I-KA

to relieve the pressure of large intestines on nerves and organs of the digestive tract. Adlerika assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Caution, use only as directed.

Get Adlerika from your druggist today.

R. H. COLLIER DRUG CO.

There Are No New Cars "JUST AROUND THE CORNER"

Someday we will be advertising "New Chevrolets for Sale," but that day is far off—months, and perhaps a year or more.

The reason for our advertising now that we have NO NEW CARS is to let motorists know how important it is that they keep their present car fit. DON'T LET DOWN NOW.

We are car-conservation specialists. Drive in any time for service that will prolong the useful life of your car.

Main Line of Power

IN WEST TEXAS AND EASTERN NEW MEXICO

Serving electricity the "high-line" way assures you of an adequate supply of cheap electric power 24 hours a day. From town to town—from factory to factory—from farm to farm, electricity from our power stations, strategically located in the territory we serve, comes to you at a lower cost than ever before.

Cities and towns that receive their electric service the "high-line" way have a definite advantage. With adequate and dependable power, new industries are more attracted; better service for all. Yes, the "high-line" way is the modern way!

New Incendiary Bombs Are 19
Inches Long, Weigh 6 Pounds

The new powerful M-69 incendiary bombs, which are dropped by B-29 Superfortresses with such devastating effect upon the industrial and other targets in Japan, are about 19 inches long and as big around as a baseball bat, weighing about 6 lb. The interior contains a cloth sack filled with jellied gasoline which burns from 8 to 10 minutes at a temperature above 3,000 deg. F.—which is plenty hot for anybody's money.

Mrs. J. R. Key, Correspondent

Morning and night services were held here Sunday conducted by Rev. D. W. Reed of Close City. A unusual large crowd attended.

Mrs. Jimmie Bunger and Cap and Mrs. O. C. Tylor and sons of Lubbock were Sunday guests of Mr. and Mrs. G. R. Evans, Capt. Tylor is to be sent overseas in a few days.

Mr. and Mrs. C. B. Twice and sons are spending their summer vacation in Denver, Colo.

Mr. and Mrs. Chester Dorman and family were week end guests of his brother, Mr. and Mrs. Calvin Dorman of Tahoka.

Mrs. George Evans visited relatives and friends in Plainview and Amarillo.

Miss Helen Jo Henderson of Amarillo visited Mr. and Mrs. George Duckworth and attended the rodeo at Snyder while here.

Mrs. Cecil Smith has been in a Lubbock hospital.

Mr. and Mrs. N. R. Northeast and three children of San Angelo spent the week end with her sister, Mrs. Geo. Evans and Mr. Evans.

Rev. and Mrs. D. W. Reed of Close City spent Sunday with Mr. and Mrs. Ed Eckert.

Mrs. W. T. Parchman is visiting her sister Mrs. Ballard of Rochester.

Several from here attended the rodeo at Snyder last week.

Snyder Rodeo Drew Record Crowds

Scurry County's 9th Annual Rodeo, held at Snyder last week end, drew huge crowds for each performance, according to local citizens who attended the annual event. The rodeo was declared to be one of the finest held in the area this season and was marked by some good riding records.

Many contestants participated in the various events.

Keep-Cool Tips

This is but a refresher course to help you keep cool, calm, collected—and refreshed—on oppressive days and nights.

It's all very simple. Just give your electric fan a modicum of care and use it where it can be most efficient.

One of the best tips on keeping a room comfortable is to place the fan two to five feet above the floor and from six to ten feet from you, or your guests. This achieves direct and quick relief from the stagnant air that makes you feel so hot, sticky and sluggish.

If you prefer an indirect air flow, move the fan to within a foot of a wall, with its stream channeled directly on the surface. This method induces a more gentle circulation, but it is thorough and just as effective, if slower.

On still, humid nights, place the fan, facing outward, on a table in front of an open window. Then open the other windows or doors. The fan will drive out the day's accumulation of inactive air and replace it with fresh, invigorating currents.

Your fan can be used to speed up the drying of clothes, and to prevent mildew, on rainy summer days. Put it at table height, two or three feet from the garments, and direct the air stream between the lines of clothing. Two to four hours' drying time thus may be saved. The fan also will hasten the drying of paints—on linoleums, floors, furniture, etc.

Yearly lubrication is usually all your fan requires. If it won't start, check the cord for a break, and inspect connections to see that they are tight. If no minor trouble is apparent, consult a serviceman. In most cases, a thorough cleaning of the blades will quiet a noisy, vibrating or "walking" fan.

To be sure you are right you must go ahead—and see if you are.

Before You Buy New 1942 Auto, Find One First

New 1942 autos were taken off the ration list last week in anticipation of newer models soon to be in production. Local dealers asserted that sales will be few, however, on cars because cars are few. "Before you can buy one, you have to find one," a local dealer declared.

Dealer interpretations of the effect of the OPA order releasing the new 42's were more plentiful than cars themselves.

"The less said about this the better," observed one dealer. "There are few cars ... in fact, the reason they are taken off rationing is that national stocks of 1942 new cars are almost completely depleted."

One dealer, who didn't want to make a public statement for fear that people would abandon the old models at home and rush out and buy an "off-brand" new car, said dealers will be put on the spot by the OPA release.

"People will crowd into sales rooms to try to buy new cars when there actually are none," he said, "and forget the campaign we now are undertaking to have them preserve the old model until new cars are available."

U. S. OIL OUTPUT AT RECORD HIGH

The United States produced nearly 71 billion gallons of crude oil in 1944, setting a new record for the country. This is approximately 42 million gallons a day higher than the pre-war level.

Worldwide oil requirements of the United Nations today exceed 225 million gallons daily, of which the United States supplies 69 per cent. South America supplies 14 per cent, Russia, 9 percent and the Middle East, 7 per cent.

Stove Rationing To End July 31

Rationing of gas cooking and gas heating stoves will end on next Tuesday, July 31.

Oil cooking, oil heating, combination and oil conversion burners for stoves will remain under rationing.

A substantial increase in production of gas heaters and cooking stoves is scheduled soon, making rationing no longer necessary.

This information was released by the WPB and OPA offices.

The source of the St. Lawrence River is in the State of Minnesota.

NEW OIL PRODUCT SPEEDS PENICILLIN

A new petroleum product, in the form of a yellowish powder made from crude petroleum, is being used to speed up the production of penicillin. A small amount of the substance increases the rate so greatly that some makers have reported tripling of production rates with existing equipment.

The new petroleum powder, named ultrawet, also is used to improve the quality of fire fighting foam and as an ingredient of the all-purpose soap furnished American fighting men all over the world.

Mrs. Ira Greenfield has returned from a week's visit with her husband in Fort Worth. She spent part of last week with Kate Rosser in Hobbs, New Mexico.
