## TO SPONSOR RIFLE CLUB FOR BOYS—

### Rotarians Expand Program Of Youth Service In Post

The Post Rotary Club, which currently is pushing a youth service program as one of its major civic activities, announced this week that it would take over the sponsorship of the Garza County 4-H Rifle Club, which is affiliated with the national Rifle Association, and open the membership to town boys, between the ages of 14 and 18 who are not 4-H Club members.

By taking over the sponsorship and signing a surety bond, the Rotarians made the rifle club qualified to receive a 22 rifle for every five members free of charge from the office of the director of civilian marksmanship of the U. S. War Department. From the same office, the club will receive 400 rounds of 22 long rifle shells per member firing per year.

All boys of the above mentioned ages, who are interested in joining the club, are invited to leave their names, ages and addresses with Garza County Agricultural Agent D. F. Eaton at the court house or Rotary President James Minor, in the Mason and Company store.

### Rye And Vetch Experiment To Interest Class

Twelve Garza County sandy land farmers, who are GI vocational agriculture students of Bob Gibson, accompanied the teacher and D. F. Eaton, county agricultural agent, to Colorado City last Thursday to talk with Mitchell County Agricultural Agent Ted Rounsh, a group of Mitchell farmers and several Soil Conservation technicians on success they have had with rye and vetch as winter pasture and seed crops in the sandy areas. R. K. McCoy, who was agricultural agent here in 1945, was one of the Colorado City Soil Conservation men conferring with the group.

The Garza men, since their return, have decided to experiment with several hundred acres in rye and vetch this year, Eaton said.

### Top Moisture Is Depleted In All Garza Soil

Cotton in both the plains and breaks sections of Garza County is deteriorating and some of it is suffering for lack of moisture, Garza County Agricultural Agent D. F. Eaton said yesterday.

Surface moisture is depleted in all parts of the county, but the subsurface moisture is still in good condition everywhere, he explained.

Grain sorghum crops also are on the downgrade, both young and old.

Rains by this weekend, however, will assure an average grain sorghum crop and better than average cotton, Eaton said.

There are no heavy infestations of cotton insects, but there are quite a few leaf and boll worm millers over the county. These can cause damage, in event of heavy moisture, unless proper steps are taken to poison them, the agent explained. The damage, however, will not be as great as that which could result from lack of rainfall, he said.

### School Boys Go On Two Weeks' Vacation Trip

Coach Bing Bingham and thirty eight Post High School boys left in a school bus Tuesday morning for a two weeks outing at Roaring Springs.

Although many of the boys have hopes of making the 1947 football squad, they will not participate in football training until they return to Post. Their recreation will include swimming, camping, hiking and calisthenics.

Groceries, bedding, an ice box and other gear necessary for the outing were taken to Roaring Springs in a truck Monday night by Kenny Cash and Sherrill Boyd.

### NEW FORD TRACTOR IS ON DISPLAY THIS WEEK AT IMPLEMENT COMPANY

The new Ford tractor, which features 22 new advantages, is now on display at the Garza Tractor and Implement Company and is being explained to anyone interested by the manager, King Bingham.

The public is invited to see the tractor, which features an improved hydraulic system permitting operation of tractor and implement as a single unit with automatic hydraulic control of the equipment.

Other major improvements include an automotive-type steering gear, a fourth forward speed to give a wider range of working speeds, a new drawbar height control mechanism, combination-running boards and step-plates, a seat that can be tilted back, and a hinged radiator grill for easy cleaning of the radiator core.

### New 'Phone Books

## Bandy Cash Shows First Cotton Bale

### Merchants To Offer Plains Bale Prize

Bandy Cash, who farms the W. T. Parchman place in the Justiceburg Community, brought the first 1947 bale of cotton to Post Tuesday morning.

The 605-pound bale had to be ginned at the Planters Gin at Fluvanna, on Monday, because the gin here was not ready to operate. Cash brought in 2,230 lb. of picked cotton and got 1,105 lb. of seed in addition to the 605 lb. of lint. It was graded as strict middling.

The cotton was planted the last week of April, Cash said. He believes his crop will make one-quarter bale per acre in spite of drought and if no rain falls. His first bale, he estimated, is a week or 10 days ahead of any other cotton in his community.

The Post Chamber of Commerce and individual business men made up a \$50-pot as a premium to Cash, whose first bale is one of the earliest in the history of Garza County. Last year's first bale was brought in by Jimmy Bird of the Verbena Community about September 1.

The bale was sold yesterday at Fluvanna for 35 cents a pound and the seed was sold for \$70 a ton. The lint and seed brought a total of \$252.25 and the Planters Company made no charge for ginning, Cash said yesterday.

Cash's first Garza County bale was picked from 25 of the 500 acres which he has planted in cotton.

The Post Chamber of Commerce, which made up the \$50 premium for Cash on Tuesday, announced that a similar premium will be offered for the first bale in the plains area of the county. All merchants who wish to contribute to the first plains bale premium should contact Sherrill Boyd, chamber of commerce secretary, President John Lane said yesterday.

Poultry—Noel White of Garnolia and Allen Maddox of Close City.

No Garza boys will be represented in the Sheep Division, D. F. Eaton, county agricultural agent said.

Attendance certificates will be presented by the Oklahoma Farmer-Stockman magazine, which also presented them last year.

### Garza and Kent Roping Matched

A Garza County versus Kent County matched calf roping contest will be held at the Rodeo Grounds here Saturday night. The program will include five matches between contestants of the two counties and a jack pot roping contest.

Admission prices are 25 and 50 cents.

# Do CHURCH PEOPLE Live Here?

When we view this beautiful little home with its elegant architectural lines, situated in such lovely surroundings—we are compelled to wonder whose home it is.

It has been well said, "It takes a heap of living in a house to make it home." We might add that God is only interested in the kind of living it shelters . . . wholesome living if you please. The Almighty wants all houses to be a shelter in the time of storm—a haven of happiness and a peace where His will is supreme . . . where love abounds and greedy selfishness is not known.

Architects design houses. Builders put them together. But only the church of the living God builds homes. Through its teaching the church challenges humanity to drink of its waters of life and live . . . live the wholesome kind of living which only is pleasing in His sight.

What the church does. The church pictures to humanity the world's greatest designer of living . . . Jesus Christ, the Son of God. "Except the Lord build the house, they labor in vain that build it," Psalms 127:1. Home implies mutual affection, gentleness, meekness, refinement, and a genuine forbearance.

# Know Your Churches...

## FIRST BAPTIST CHURCH

Long before there were any business houses or homes in Post the First Baptist Church was organized. Mesquite trees on a vacant lot on Zetzman's Blacksmith Shop marked the spot where a group of citizens met to form the first religious organization of the town.

Charlie Everett who arrived in Post on June 16, 1907, and who gave the second tent in the townsite, led the group in a "good old Methodist hymn" to open the meeting as called by Rev. J. V. Bilberry and Rev. H. White. Only one business house was under construction at that time. This building now houses Short Hardware and adjacent businesses that part of the block.

A protracted meeting began on August 7, 1907 and continued until August 24, on which date the church was organized with the following charter members: J. B. Cotten, M. C. Cotten, Loretta Cotten, Arlene Cotten, B. F. Wilks, Nannie Wilks, Bertie Wilks, Oran Wilks, Thomas Wilks, Mattie Wilks, Thomas Elkins, Mrs. Thomas Elkins.

At the time of organization Rev. E. H. White was elected pastor and J. B. Cotten, clerk. Rev. White continued as pastor through January 1908. During the remainder of 1908 and 1909 Rev. Bilberry, minister, did the preaching.

From church records we give many interesting facts and figures about the early day history of the church.

Records reveal that on May 7, 1910 Rev. J. M. Rankin was elected pastor and Ira Weakley was elected church clerk. At this time a Sunday School was being conducted in the residence where Mrs. Lee Voss now lives and later in the old court house. On May 21 of that year a Baptist Sunday School was organized. Mrs. C. C. Woods was elected church organist and Miss Florence Babb Sunday School organist.

A salary of \$50.00 a month was paid the pastor at this time.

Rev. Rankin resigned Oct. 1, 1910. The church agreed to pay the pastor \$500.00 for half time. Mrs. Ira Weakley and Mrs. Lee Duckworth agreed to collect the pastor's salary and walked all over town performing this job each month.

Minutes do not record the building of the church but on some date in 1910 the church, which is now the Nazarene church, was built. Records later in the year reveal that the Presbyterians were using the building one Sunday each month and it was voted to allow any and all denominations to use the house when not in use by the Baptists. Until the church was built, union services were conducted with all denominations using rooms in the old court house.

No record of the first Ladies Aid were available but the ladies played a most important part in getting various phases of the church programs under way. In order to save money the women swept the church. They conducted bake sales and rummage sales and engaged in all types of schemes to provide funds to purchase needed equipment for Sunday School classes, etc.

Men of the church, though quite busy with building the town and operating their own places of business, found time to give fine assistance in keeping the lamps of the church in working order. They helped keep the church and grounds in good condition. One member, Mr. D. Hume, made it her special job each fall to clean and polish the stoves. Other members were just as loyal in their efforts to keep the church spic and span order.

Great days of rejoicing among the fast growing membership were Feb. 14, 1914, when the church bought its first piano, on March 3, 1914, when the church was painted, and on July 10, 1916 when the first organ was completed. Members rejoiced too over the fact that in 1916 they were able to pay their pastor a salary of \$83.33 per month.

Steady growth was recorded through the years and in 1936 it was decided it was time to build a new church building. On May 8, 1936 Rev. M. C. Bishop named Marshall Mason, Ira Lee Duckworth and Ira Weakley on a committee to investigate building possibilities.

The lots for the new \$20,000 brick building were donated by the Estate. On July 9, 1939, blue prints were accepted and on Sept. 1, 1939 building and finance committee composed of ten men of the church were given the authority to let the contract.

Dedication of the new church was held on June 7, 1942 with Dr. W. White as guest preacher. A most impressive program was presented by Ollie Weakley giving the church history. This history was compiled by Mrs. Mae Weakley Smith. Bill J. Davis presented special music on occasion and hundreds of visitors were recognized.

It is interesting to note that the church budget has grown from \$1,000 a year to \$13,000 in the forty year period.

Space prevents the editor from revealing many other outstanding facts about the church that grew from a membership of 13 to 500.

## YOUR STATE TAXES DOUBLED

The State Tax Rate This Year Is 72c On \$100 Valuation

Last Year the Rate Was 37c

Who Said, "No New Taxes"?

**VOTE! VOTE! VOTE!**

Saturday, August 23rd

**AGAINST**

An Additional 5c Tax

On Saturday, August 23, an amendment to the constitution of the State of Texas will be voted on to allocate 5c of the authorized 7c Confederate pension tax to finance a building program for State owned colleges other than the University of Texas and Texas A. & M.

### An Additional Tax

"They" say this is not a new tax, but you have not been paying it for many years. It certainly will be an additional tax you have not been paying. If voted by the people of Texas on August 23, it will be added to your 72c State tax, making a total of 77c on the \$100 valuation.

### Small Taxpayers Pay

The veteran, the farmer, the small home owner, the laborer, the small business man, everybody will have to pay this 5c tax in addition to the 72c State tax, if this amendment carries. This State tax is in addition to local taxes—County taxes—School taxes—City taxes—and perhaps others.

### Will Not Provide Buildings

If passed, this 5c additional tax will not provide adequate and sufficient buildings at today's cost of construction. In the next 10 years West Texas State Teachers College at Canyon MIGHT get \$487,200. The College of Mines at El Paso MIGHT get \$423,000. Sul Ross of Alpine MIGHT get \$189,000. Texas Technological College at Lubbock MIGHT get \$1,500,000 in these 10 years.

### An Unnecessary Tax

This is an unnecessary tax. By a division of the so-called Permanent University Fund more buildings can be built at all the State owned colleges than this tax will provide. They also can be built much sooner. And the State University and Texas A. & M. still can get more buildings than they can use.

### 42 Counties Exempt

42 of the State's richest counties pay no ad valorem taxes for State purposes. None of these counties are in West Texas.

W H Y?

Should you pay another unnecessary 5c tax when 42 of the State's 254 counties will not be paying to help our State colleges.

### Help Colleges—Vote Against

You will actually be helping all 14 of our State colleges if you vote against this amendment. All these colleges can and will get more money by regular appropriations if this amendment is defeated than they could get by the passage of this 5c tax amendment. Your vote against the amendment will help instead of hurt these 14 State colleges.

## DON'T BE LED ASTRAY

**Mrs. Horace Barton Didn't Lose Recipes During Sugar Rationing**

With sugar plentiful, everyone good and pie hungry and Miss Jewell Hipp, Garza County Home demonstration agent, collecting the County's most delicious recipes, the Post Dispatch is passing many of them along to its readers. Here are some palatable pies, from the personal cookbook of Mrs. Horace Barton of Barnum Springs.

**Chiffon Pies**  
**Orange:** 1 1-2 t. gelatine; 1-4 cup water; 4 egg yolks; 1-2 cup orange juice; 1 cup sugar; 4 egg whites; 1-2 t. salt. Soak gelatine in 1-2 of the orange juice. Cook egg yolks, water, and half the sugar in a double boiler until of a custard consistency. Add soaked gelatine and stir well, then add the remaining orange juice. Cool. When thickening add egg whites and beat with rest of sugar. Pour into cornflake pastry crust and chill. Do not bake. Lemon: Substitute lemon juice for orange juice in above recipe.

**Crumb Pie Crust**  
 1 cup corn flakes or toasted bread crumbs; 2 to 4 t. butter; 1-4 cup sugar. Roll or grind to fine crumbs. Melt butter, add sugar and mix with crumbs. Press firmly on bottom and sides of pan. Pour in filling and bake. Orange chiffon pie with corn flake crust is chilled, but not baked. Sweet crumbs, such as vanilla wafers or graham crackers do not require sugar. Makes one 9-inch crust.

**Easy Peach Pie**  
 1 1-3 cups (1 can) sweetened condensed milk; 2 t. lemon juice; 2 egg yolks; 1 cup sliced peaches; 2 t. sugar; 1-2 cup cream, whipped. Blend together sweetened condensed milk, lemon juice and egg yolks. Fold in sliced peaches. Pour immediately into 9-inch plate lined with Chocolate Wafer Pie crust. Cover with sweetened whipped cream. Chill before serving.

**Chocolate Wafer Crust**  
 Crush enough chocolate wafers to make 3-4 cup crumbs. Cut enough chocolate wafers into halves to stand around the edge of pie plate. Cover bottom of plate with crumbs and fill in spaces between wafers. Pour in above filling.

**Coffee Sponge Pie**  
 14 graham crackers; 3 t. butter, melted; 1 t. gelatin; 1-4 cup cold water; 3 eggs, separated; 1 cup granulated sugar; 1 cup double strength coffee; 1-4 t. salt; 1 t. lemon juice; 1 t. vanilla; 3-4 cup heavy cream; 1 1-2 t. confection-

er's sugar.  
 Crush graham crackers. Combine with melted butter; press mixture firmly against sides and bottom of 9-inch pie pan. Sprinkle gelatin on top of cold water. Beat egg yolks; add coffee, salt and 1-2 of the granulated sugar. Cook in double boiler until thickened, stirring constantly. Add gelatin, lemon juice and vanilla. Stir until gelatin has dissolved. Chill until just beginning to thicken. Fold in egg whites stiffly beaten with remaining 1-2 cup sugar. Pour into lined pie pan and place in refrigerator for several hours before serving. Top with whipped cream, sweetened with the confectioner's sugar.

**Banana Chiffon Pie**  
 1 1/2 t. granulated gelatin; 2 T. cold water; 3-4 cup mashed banana (2-3 bananas); 1 T. lemon juice; 1-2 t. grated lemon rind; 1-8 t. grated orange rind; 5 T. sugar; 2 egg yolks, beaten; 1-8 t. salt; 2 egg whites; 1 (8 inch) baked pie shell; 3-4 cup cream, whipped and sweetened.

Soften gelatin in cold water. Mix mashed banana and lemon juice; add lemon and orange rind, 3 T. of sugar, egg yolks and salt. Cook over low heat, stirring constantly, until thickened. Remove from heat, add gelatin and stir until dissolved. Cool until slightly thickened. Beat egg whites until stiff enough to form peaks. Then add remaining 2 T. of sugar gradually while continuing to beat. Fold in banana mixture. Spread in baked pie shell. Chill in refrigerator. Top with slightly sweetened whipped cream just before serving.

**Creamy Chocolate Pie**  
 1 envelope gelatin; 6 level T. cocoa or 2 squares chocolate; 1 t. vanilla; 1 cup sugar; 4 eggs; 1-4 t. salt. Soften gelatin in 1-4 cup cold water. Put 1-2 cup cold water in top of double boiler to which add 6 level T. cocoa or 2 squares chocolate. When thoroughly dissolved add 1-2 cup sugar, the egg yolks, slightly beaten, and salt. Cook until custard consistency, stirring constantly. Add softened gelatin to hot custard and stir until dissolved, cool, an add vanilla. When mixture begins to thicken, fold in stiffly beaten egg whites to which the other half-cup sugar has been added. Fill baked pie shell or graham cracker crust and chill. Just before serving, a thin layer of whipped cream may be spread over the pie.

**Apple Cream Pie**  
 2 cups finely chopped, tart apples; 3-4 cup sugar; 2 T. flour; 1 cup sour cream; 1 egg, well beaten; 1-2 t. vanilla flavoring, and 1-8 t. salt.  
 Combine sugar and flour and add cream, with flavoring and salt. Beat until smooth. Add apples. Mix thoroughly. Pour into pastry-lined pie pan. Bake in hot oven (350 F) 45 minutes. Reduce heat to 325 F and bake 20 minutes. Remove from oven. Combine 1-3 cup sugar, 1 t. cinnamon, 1-3 cup flour and 1-4 cup butter. Mix thoroughly. Sprinkle over pie. Return to oven. Bake in cool oven (225 F) 2 minutes.

## The Week's News in Brief

Victor Hudman, like many another father, at times feels wholly inadequate when it comes to explaining the wonders of nature. On his recent vacation, his six-year-old son, Sonny, showed an unexpected amount of interest in the stalagmites and stalactites in Colorado's Cave of the Winds and pinned his father down all the way home, in an effort to find out how they were formed. "It's mineral deposits stacking up that causes the formation," Vic explained. Then Sonny wanted to know what mineral deposits were and how they could form a stalagmite. By way of answering the first part of the question, Vic said "well, you know how boiled water leaves mineral deposits inside a teakettle ..."

Sonny interrupted to say he never had been inside a teakettle. And it dawned on Vic that his son doesn't know what a teakettle is, because he is a war baby and they haven't had a teakettle at their house during his life time.

Jimmie Minor has been recuperating from burns on both feet suffered last Friday when he accidentally walked into some hot ashes behind the home of his grandparents, Mr. and Mrs. Marshall Mason. Pat Morrow, who is working at the First National bank in Fort Worth, will arrive here Saturday for a weekend visit with her aunt, Mrs. Ollie Weakley.

The entire Guy Floyd family has been on vacation, but to different places. While they were gone, another daughter, Alma Jean, visited a cousin, Fay Grayum, in Amarillo. ## Millers Will Make Last Try Sunday For Fourth Team of Shaughnessy

Next Sunday's game here with the Slaton Tigers will be an important affair for the locals as it will be their last chance of slipping into the Oil Belt league Shaughnessy play-off as the fourth team.

The Millers, providing they win Slaton Sunday, will at least be tied with the Tigers for fourth place and may even crowd them out of the spot. As the teams

On the other hand if the Tigers win Sunday's game they will go into the Shaughnessy as fourth team.

According to Manager Polly Duren of the local club, the Shaughnessy will get underway Sunday week with the top team paired with the third team, and the second and fourth team. Levelland, with first place already clinched will play a three-game series with Seagraves and, Saradown, already nailed to second play, will play a three-game series with either Post or Slaton.

The game here Sunday will begin at 3 o'clock at Postex park.

A hand picked group of former Texas Technological College football stars has moved to training camps of professional teams to ready for the fall campaign.

Walter Schlinkman, co-captain of the 1945 season, is back with the Green Bay Packers of the National League, holding a better contract for the 1947 season. He lettered at fullback three years at Tech.

J. R. Calahan, 1940-41 fullback, has returned to the Detroit Lions of the same league for a second season, one in which he hopes a foot injury which sidelined him most of last year won't bother him.

Bill Davis, 1938-39 tackle, is back with the Chicago Cardinals, where he has been since completing college competition.

Ed Robinett, 1945-46 fullback at Tech, has joined the San Diego 49ers of the All-American league, where pro coaches expect him to be a starter. Dick Stander, last year's quarterback at Tech, has been forced to cancel an agreement to play with the Los Angeles Dons because of an injured knee.

James Reed, co-captain of last fall, is training with the College All-Stars in Chicago for the Aug. 25 game against the Chicago Bears. He expects to sign a pro contract while in Chicago.

## Millers Drop Game To Tigers Last Sunday

The Post Millers lost another game last Sunday when they bowed to the Slaton Tigers, 12-9, at Tiger Field. Home runs, one a grand slam, played a big part in Slaton's win.

The locals moved ahead in the eighth when they scored four runs, but Slaton came back to score six in the same frame. Charlie Presley slammed out a homer with the bases loaded, and Clarence Tillery belted two homers and a double to help defeat the Millers. Walter Holland led Post hitting with five bingles in six trips.

## Gossip About Garza Guys And Gals

—by gay nellie

By the date of last week's Post Dispatch there were two bridegrooms-elect named Davis. Our reference to the one who is to be married on his parents' 42nd-wedding anniversary was not Bill J. who took Jo Panter as his bride Saturday night. The one we meant will take Peggy Sue Robinson down the altar on a date to be announced tomorrow.

Lewis Nance and Betty Williams don't seem to be having dates with anyone but each other these days.

Ben Cockrell, son of the Methodist minister and his wife, is making plans to enter McMurry at Abilene this fall.

Carroll Bowen went to Crosbyton Tuesday afternoon and returned with his fiancée, Marcelene Bertram, for a two-day visit in the J. Lee Bowen home. This wedding takes place at the First Baptist Church here on August 24.

One needs a pocket datebook these days to keep up with the weddings and bridal parties.

Guests at the Panter-Davis wedding were thrilled over the beautiful voice of Mary Hayes of Dallas who sang "At Dawning" and "Because." She sings every Sunday morning over KRLL as soloist for the First Baptist Sunday School Class of Dallas.

Sweet and lovable Hazel Louise Cash, who is to be married on August 31 to Robert Gardner, had a woe begone look about her when she returned from Abilene Sunday. She had been down there house-hunting and declared nothing was vacant near McMurry where she and Robert want to live. She will be all smiles again today though as several friends are honoring her with a bridal shower at the home of Mrs. Irene Rodgers.

The youngest employe of the Post Dispatch staff secretly saved his money until he had enough to buy a beautiful necklace from the jeweler across the street. He gave it to Gay Sanders one night last week. And he also took her to the picture show.

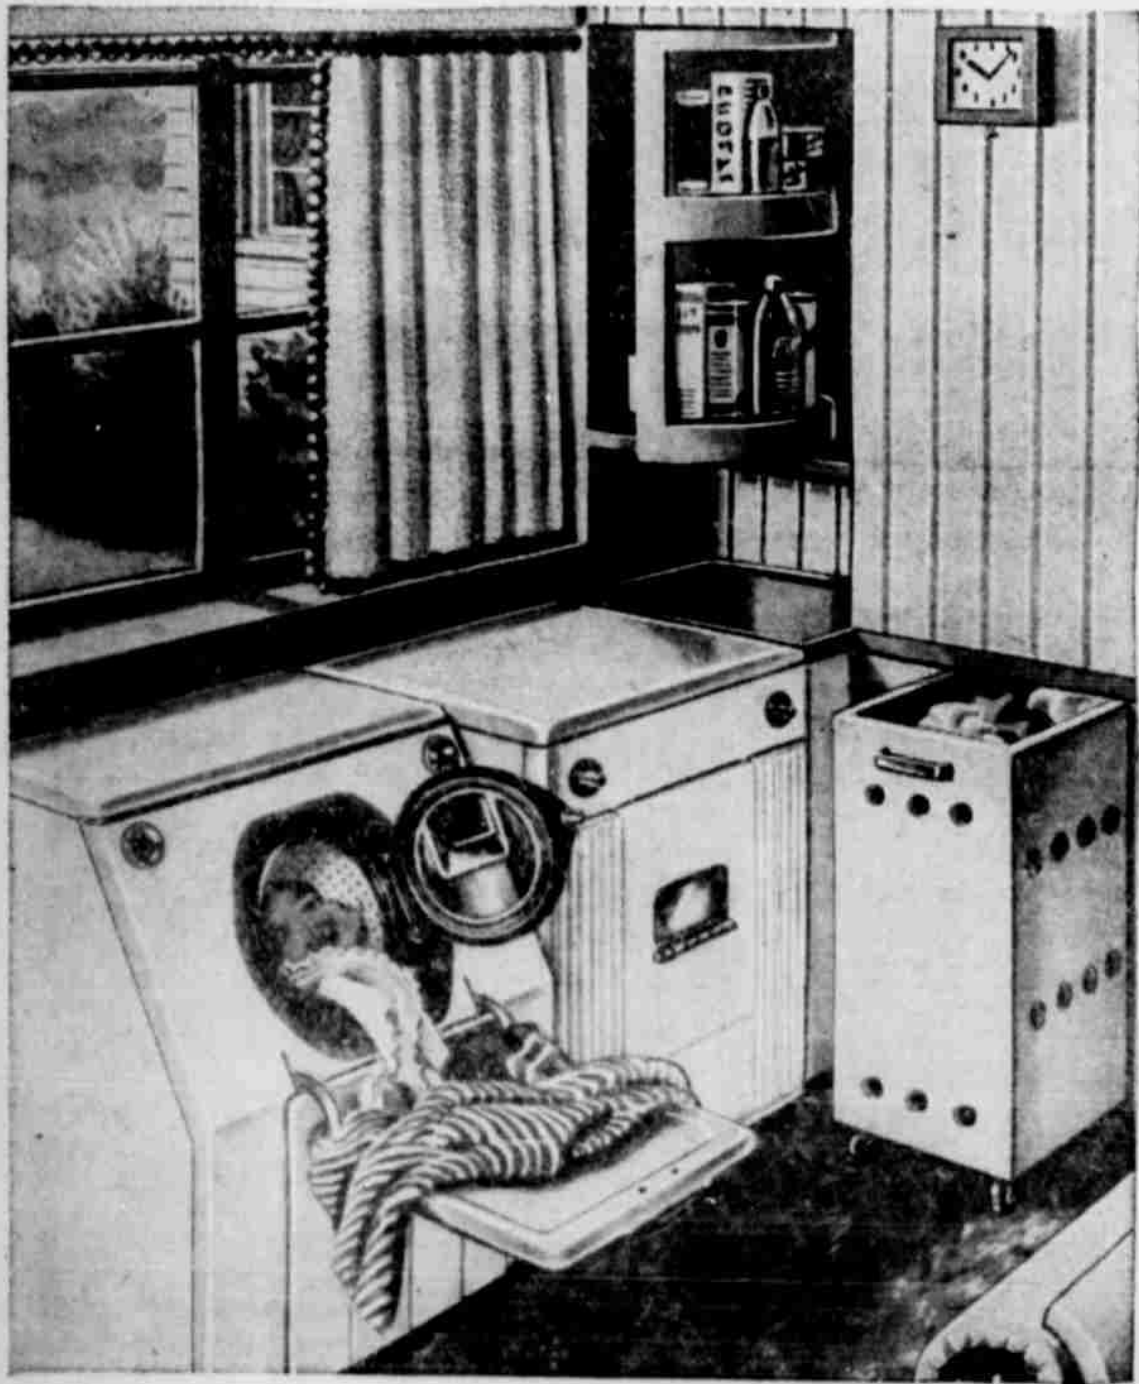

Places and people in Lubbock drew the interest of three young Post boys, namely Bud Everett, Neal Clary and "Son" Clary, Sunday afternoon.

### God Is Light

Ye are all the children of light, and the children of the day; We are not of the night, nor of darkness. 1 Thes. 5:5.

Who only hath immortality, dwelling in the light which no man can approach unto; whom no man hath seen, nor can see: To whom be honour and power everlasting. Amen. 1 Tim. 6:16.

This then is the message which we have heard of him, and declare unto you, that God is light, and in him is no darkness at all. 1 John 1:5.

Wilson, son of Mr and Mrs. Edd Wilson of Dimmitt, was solemnized at 8 o'clock in the evening last Thursday at the home of the bride's parents with Rev. J. E. Peters, Methodist minister, officiating at a double ring service.

The vows were exchanged before an altar of palms and white gladioli with tapers burning in condelabra in the background.

Mrs. R. M. Thomas, sister-in-law of the bride, played a medley of wedding songs and continued with the traditional wedding march.

At a reception that followed, the bride's table was laid with an Italian cutwork linen cloth and held a three-tiered wedding cake, topped by a miniature bridal couple. White asters were arranged as the centerpiece. These flowers and gladioli were placed at vantage points in the home.

When the couple left for a trip to Carlsbad, N. M., the bride wore a brown suit with blue pin stripe, brown accessories and she pinned her orchid corsage to her lapel.

### NEWS NOTES FROM . . . Duck Creek Soil-CONSERVATION DISTRICT OFFICE AT POST

**Henderson Binds Lovegrass**  
Ernest Henderson whose farm is seven miles west and one mile north of Post, this week cut 2 1-2 acres of African weeping lovegrass. Henderson used a broadcast seeder to harvest the lovegrass. It has been shocked and as soon as the stems have cured out he plans to run it through a combine to thresh the seed. He expects to have lovegrass seed for sale for fall planting.

**Fish Application Available**  
Cooperators of the Duck Creek Soil Conservation District who want fish to stock farm ponds can get applications for fish at the District Office.

For most farm ponds, soil technicians recommend a combination of bass and bream. Farm ponds properly stocked and managed can be made to produce as much or more meat per surface acre than surrounding pasture land. Farm ponds properly stocked and managed help develop a coordinated conservation program, where every acre on the farm produces according to its maximum capability.

**For Conservation Plan**  
G. N. Smallwood, whose farm is three miles south and one mile east of Southland, this week made application to the district supervisors for a conservation plan. Smallwood is interested in an irrigation system.

**Squirrels Inhabit Pastures**  
The presence of ground squirrels in a pasture indicates overgrazing of the grass by livestock. Few ground squirrels are found on properly managed range. Approximately 60 per cent of a grass plant must be left to maintain the plant. When only 40 per cent of the plant is used by livestock the plant roots are more extensive and extend deeper into the subsoil. Properly grazed pastures suffer less from drought because grass roots extend deep into moist soil.

## Four-H Results Announced This Week By Eaton

Final results of competition at the District Boys' 4-H Encampment, held last week in Lubbock, were announced this week by D. F. Eaton, Garza County agricultural agent.

Alvin G. Davis of Graham was elected president of all the clubs in 18 counties of District 2, an honor which makes him eligible to become a candidate for the state presidency.

Davis, as was announced last week, was high point man for the district in the rifle contests, with a score of 219; and the Garza County Senior Team, consisting of E. P. Wicker, Jr., J. E. Thomas and Gene Carpenter, with a total score of 501, was the winning district team. Dawson County, with a score of 488, was second and Lynn County with a score of 438 was third.

The boys on the team and Davis will compete with winners of 13 other districts in Texas for state honors at the annual Round-Up for 4-H Club boys and girls at College Station on September 5.

**Juniors Win Third**  
The Post Junior Rifle Team, consisting of Bobby Cowdrey of Graham, Tommy Bird of Verbena and Donald Ford of Barnum Springs won third place with a total score of 419. First place winner was Lynn County, with a score of 451, and second was Castro with a score of 441.

Donald Ford won district first place in horseshoe pitching. The Garza boys were defeated in softball in semi-finals by Crosby County. Terry County defeated Hale County to win the district first place. The Junior Boys will not compete in the state round-up, Eaton said.

In addition to the four senior rifle club boys, Garza County will be represented at the state round-up by Jimmy A. Moore of the Hartford Community and Benny Wilks of Grassburr. The six boys, with Alvin G. Davis as leader, and three Garza County 4-H Club girls and their sponsor will travel to College Station on one of three chartered busses to go from this district. They will leave here early the morning of September 3 and arrive at College Station late that afternoon. They will return here late the afternoon of September 6. Eaton and the Garza home demonstration agent, Miss Jewell Hipp, will go to College Station earlier to assist with arrangements for the state contests.

Transportation to the encampment was by a bus lent by Post High School, Eaton said.

### COLORADO CITY ROUNDUP TO BE HELD SEPT. 3-6

The 12th annual Colorado City Roundup and Rodeo is scheduled for September 3-6 inclusive. The show which will be produced by Earl and Jack Sellers of Del Rio, will have two major contests, a cutting horse event and a Mitchell County calf roping contest.

Added specialty acts will include a sheep dog performance by the Texas champion, Peaky, owned by Volney Snotgrass of Mountain Home, and clowning by Johnnie Miller of Vernon.

GETTING OUT

On The LIMB By EDDIE the EDITOR

I wish there were something the City Commission could or would do about itinerant peddlers, magazine salesmen in particular.

Magazine salesmen wouldn't jrk me so, if they would just come out and state that they have some subscriptions to sell and allow me to take 'em or leave 'em.

I figure I have sense enough to know whether I want a subscription to a magazine as well-known as the Saturday Evening Post or the Reader's Digest, and I certainly haven't time to listen to all this drivel that the current run of salesmen use to trick me into buying a subscription to a magazine I don't want.

And as for buying a magazine subscription just because the salesman is physically handicapped or stranded or working his way through college: Well, I would gladly give him his commission in cash, if he would just shut off the long-winded conversation and go away and let me get back to work and, for goodness sakes, not send me any more magazines.

I stay frustrated, as it is, because I don't have time to read all the interesting-looking literature that clutters up my mailbox now.

Couldn't we have all these characters report to the City Hall or Chamber of Commerce and, for a nominal fee, get a permit to sell subscriptions and miscellaneous other items on a legitimate basis?

The secretary over there could be trained to ask a few leading questions to determine which are deserving salesmen and which are racketeers. This weeding out process could save us a lot of time and wear and tear on our dispositions, as well as our pocket-books.

And, personally, I'm against issuing permits to people who have a lot of inexpensive war surplus goods to sell from trucks within the city limits, in competition with local merchants who can't buy the same goods at that price.

Only itinerant salesmen who have worthwhile merchandise not otherwise available here should be allowed to do retail business in Post.

I mention this at this time, because Post is going to be flooded with fly-by-nighters this fall, if the cotton crop is good. The City Commission should be very strict with them, lest our profits go to Big Dallas' fast-growing underworld and Chicago's gangland, to say nothing of New York's gyp markets.

They will all be sending "salesmen" to the South Plains this fall, because this area of Texas will be one of the most prosperous in the nation.

How wonderful it would be for Garza County, if we could keep a lot of this hard-earned money at home.

And this brings up another type of salesman who hits Post merchants once or twice a month. His racket is to sell them cartoons or some other type of advertising to be run in the Post Dispatch.

This would be fine if it did not cost the merchant an extra 40 per cent, or thereabouts. Why should some New York agency collect a fee on advertising by Post merchants in their own newspaper?

This is the only objection I have to the cartoons, etc., besides the fact that the salesmen take up a lot of my time trying to get me to tell the merchants that I want them to buy the special advertising

CONGRESSMAN EUGENE WORLEY WRITES:

U. S. Committee Reports on Hoof and Mouth Disease

(Editor's Note: In the absence of Roger W. Babson's column this week, the Post Dispatch is presenting some of Texas Congressman Eugene Worley's affirmative findings in Mexico as a member of the Hoof and Mouth Disease Investigating Committee which recently went to Mexico).

conceivably have these results: the immediate loss of slaughtered cattle; expenses necessary to carry out such a program; curtailment in rail and truck transport of livestock; the closing down of packing plants throwing thousands of people out of work; reduced market for feed by farmers in the Middle West; a crippling blow to the dairy, butter and cheese industries; and higher prices for meat and related products.

field. Here are some affirmative observations: Support—The Mexican Government appears to be giving the campaign its complete support. The committee believes that the American people should recognize and understand the high degree of courage it takes for the Mexican Government to support this program. For centuries the ox has been, and remains today, almost the universal draft animal in Mexico.

even though they have no sign of disease. It must be remembered, too, that in Mexico, as in the United States, there is always an opposition political party, ready to make political capital out of any mistakes of the administration—and that as regards the aftosa campaign this party has not been silent.

being made available to farmers as replacements for their oxen. There was considerable indication that Mexican farmers are already "sold" on the advantages of mules over oxen as draft animals and that there is a growing willingness on their part, if not an actual desire, to exchange their plodding oxen for the more agile mules.

Garza and the World

Editor's Note—The author of this column spent part of the war years as an overseas employee of the U. S. Government. Her opinions, based on personal observations and subsequent news developments, do not necessarily reflect the opinions or policies of the Post Dispatch. The column is carried in the interest of applying world news to the situation here at home.

neatly sums up the staunch Republican attitude and, in the main, one side of the entire 1948 issue. Here are highlights of the resolution:

The 1948 political election looms up as a battle of the ages, as far as U. S. politics is concerned. There is more at stake than meets the eye in the current run of congressional investigations. The outcome will determine the position of free enterprise for years to come.

"Indiana needs no guardian and intends to have none. We Hoosiers—like the people of our sister States—were fooled for quite a spell with the magician's trick that a dollar taxed out of our pockets and sent to Washington will be bigger when it comes back to us. We find that it lost weight in its journey to Washington and back.

The conservative Republicans will take strong measures and hold together like glue, once they decide on which of 13 or more presidential candidates they will support. The Democrats will be divided between the slightly left of center Truman followers and the extreme-left Wallace lovers, with the Truman gang having the edge over all concerned, including the united Republicans.

"So we propose henceforward to tax ourselves. We are fed up with subsidies, doles and paternalism. We are no one's stepchild. We have grown up. We serve notice that we will resist Washington, D. C., adopting us.

The action of the 1947 General Assembly of the State of Indiana, in its "resolution against sin," features.

"We respectfully petition and urge Indiana's Congressmen and Senators to vote to fetch our county court house and city halls back from Pennsylvania Avenue. We want government to come back home."

I have never yet thought enough of one of these advertising schemes to sanction it, yet my merchant clients tell me that the salesmen tell them that I do.

"If the U. S. must feed the world to keep peace and economic stability, the U. S. government will have to tax the people and direct a certain amount of production activity. I'd rather have this certain amount of meddling with my private affairs than to have war. But this meddling must be limited.

The women—God love 'em! No wife with self-respect will pay 10 cents for Spanish pearls when she can get them across the street for \$25. When a woman purchases a coat she may be thinking of the texture and the tailoring, but somewhere in the back of her head she is also thinking how that coat will look with the label showing, as she casually throws it over the back of a theatre seat. One gal can spot another gal's coat label at 50 paces. It is the feminine Dun & Bradstreet rating. A man's vanity, after all, is satisfied by the recognition the world gives to his talents and his achievements. But the only way a woman can impress her colleagues is showing what a prosperous alliance she has made. Economics, not love, is the basis of most marriages.

Next year will be most interesting. Speaking of chaotic times: Isn't it surprising what a man can do when he has to, and how little most men will do when they don't have to?

As for the rest of 1947: That widely advertised "repression" seems to have been averted, but merchants will be wise to watch their inventories. Buy for shorter periods of time and go to market more often, if necessary. The extra trips will do you good and save you money in the long run, perhaps. It will be better to be understocked than overstocked, if the economic picture should change suddenly. Besides, it's better psychology. Scarcities keep prices up and demand apparent.

Yet I don't want any more government control than we have under Truman and we could use a lot less. On this score, I'll fight the radicals among the Democrats. If this nation is to survive as a land of liberty, the government cannot go on expanding in fields that are the providence of private citizens.

I like for the merchants to

What Our Contemporaries Are Saying:

REST AT HOME—There is just the chance that a vacation, spent at home, may do you more good than a rush trip to some crowded resort. We have observed the common tendency of holiday seekers to return home from their annual vacation wearier than when they left. The rush and turmoil of many vacation schedules prevents a worker from getting a rest. This he can get by loafing at home.

BUSINESS FOR BOOZERS—Georgetown, S. C., police have posted on the station wall a sign entitled "A Paser for Boozers." It reads: "If you are a married man who absolutely must drink booze, start a saloon in your own home. Be the only customer, and you won't have to buy a license.

This is especially true if the tired business man takes with him the worries and perplexities of his work or has to concern himself with the money to pay the bills which are piling up at home. Somehow, we have gotten the idea in Haskell County that a vacation cannot be a vacation without spending a lot of money on a trip away from home. We have lost sight of the primary purpose of annual holidays which were designated and intended to give the body and mind a period of rest and relaxation from the strain of the working life.—Haskell Free Press.

"Give your wife \$2 to buy a gallon of whiskey. There are 68 glasses in a gallon. Buy your drinks from your wife. When the first gallon is gone your wife will have \$8 to put in the bank, and \$2 to start over in business again.

BAN RAISED—Invoked last Thursday because of two reported cases of polio, the 21-day ban against public gatherings instituted by Dr. H. E. Rosser, the county health officer, and Dr. R. L. Howell, city health officer, was lifted this week.

"The prices in the sign referred to pre-war corn whiskey, policemen said.—The Associated Press.

In a statement Dr. H. E. Rosser, county health officer, says: "To the rural population of Scurry County: "This is to notify you that owing to hearings and published statements of the Snyder City Council we have had to call off the quarantine against polio.

Texas has five state forests; 76 state parks; 500 roadside parks maintained by the State Highway Department for the traveling public. Recently, Texas decided to the U. S. Government 1,000,000 acres in the Big Bend County of Southwest Texas for a National Park. Mexico on the other side of the Rio Grande River, will cooperate by making that part a Mexican National Park.

Betty and Joanne Morgan were taken to a hospital in Abilene. The two girls are still in Abilene hospital and are continuing to show improvement. —Scurry County Times.

When the merchants get in a tight spot, unemployment is on the increase and things begin to happen to my own pocketbook. Personally, I'd rather do without a radio because I can't find one to buy than to do without one because I can't afford to buy it. I'm funny that way.

Old Line, Middle of the Road Democrat Jim Farley is being talked up as Truman's running mate in 1948. He will be a colorful vote-getter and this is something the Democrats will need if Dewey is the Republican choice for President.

And I'd rather owe a \$70 grocery bill each month and have the money to pay it off than to owe a \$20 a month bill and not have the money to pay it. I'm old enough to remember when \$20 was the limit that our monthly budget would stand for groceries, and was it ever hard to put aside!

The volume of production of all U. S. crops this year is expected to be a little over last year's high record, well above the 10 year average, and slightly above the average for U. S. farmers' best years, 1942 to 1946.

**Graham Club Wins Honors At HD  
Dress Revue Picnic On Thursday**

More than 100 people attended the Garza County Home Demonstration Rally and Clothing Revue on the Court House Lawn last Thursday evening. Mrs. Thelbert McBride, vice chairman of the home demonstration council, presided for the program, which opened with a singsong led by Mrs. Wilburn Morris. She introduced County Judge and Mrs. J. Lee Bowen, Commissioner and Mrs. B. F. Evans and other honor guests, then she introduced Mrs. Will Teaff, chairman of the dress revue, who introduced the revue, commentator, Mrs. V. A. Lobban.

Twenty-six dress and 14 aprons were modeled in the revue, music for which was from phonograph records provided by Mason and Company. All seven clubs were represented in the show.

The Graham Club had the largest number of entries and the largest attendance at the rally. The Post Club had the second largest number of entries and the Barnum Springs Club had the third largest.

Judges were Mrs. Jack Burress, Mrs. Gladys Hyde and Mrs. Della Justice. Ribbons were won as follows:

Cotton dresses—Mrs. Dan Cockrum, Post, first; Mrs. Wilburn Morris, Graham, second; Mrs. Otis Pennell, Barnum Springs, third; Mrs. Gertie Reno, Graham, fourth; Mrs. Carl Fluitt, Graham, fifth; Mrs. J. C. Gandy, Graham, sixth.

Cotton sack dresses—Mrs. Jim

Williams, Post, first; Mrs. Lonnie Peel, second; Mrs. Addie Smith, third; Mrs. J. M. Powers, Post, fourth; Mrs. Carl Fluitt, Graham, fifth, and Mrs. Ray Young, Graham, sixth.

Other materials—Mrs. Carl Fluitt, Graham, first; Mrs. Boone Evans, Post, second; Mrs. Ray Young, Graham, third; Mrs. V. A. Lobban, Justiceburg, fourth; Mrs. Thelbert McBride, Graham, fifth; Mrs. Lonnie Peel, Close City, sixth.

Renovated dresses—Mrs. Wilburn Morris, Graham, first.

Cook aprons—Mrs. Thelbert McBride, Graham, first; Mrs. Carl Fluitt, Graham, second; Mrs. Lonnie Peel, Close City, third; Mrs. W. H. Barton, Barnum Springs, fourth; Mrs. J. J. Wells, Cross Roads, fifth; Mrs. S. W. McCrary, Post, sixth.

Fancy aprons—Mrs. Dan Cockrum, Post, first; Mrs. Rene Fluitt, Graham, second; Mrs. Lonnie Peel, Close City, third; Mrs. J. J. Wells, Cross Roads, fourth; Mrs. J. C. Gandy, Graham, fifth; Mrs. J. M. Powers, Post, sixth.

The evening's program included a talk by Judge Bowen describing the home demonstration work in the county and stunts by several clubs. The Graham Club presented a stunt entitled "The Successful Operation," the Close City Club sang "Yankee Doodle" backward (with their backs to the audience); V. A. Lobban, Jr., gave a reading for the Justiceburg Club, and Mrs. Lula Floyd gave a reading for the Post Club.

A picnic supper was served.

**Justiceburg Is  
Fate's Choice  
For Few Weeks**

The Post Dispatch and the people of Justiceburg seem to be heading toward a quiet little feud because most of the Dispatch's errors of late seem to be in regard to Justiceburg folk. Every week it's something.

Last week it was not as bad as a week or two before, when the Dispatch had a Mr. Somebody or other and a Mrs. Somebody With A Different Name off on a trip together. An "s" had been inadvertently left off of the first person's title, or something of the sort.

The worst offense last week was to have Mr. and Mrs. Frank Bryant's are from Tahoka. The ing Mrs. C. B. Trice, when the Bryants are from Tahoka. The Dispatch editor got mixed up because Mr. C. B. Trice at the time was in Topeka, Kans., for treatment at the Santa Fe Hospital.

A check with the copy mailed each week by Mrs. R. J. Key, the Justiceburg correspondent, shows that the errors are entirely the fault of the Post Dispatch office staff members who type Mrs. Key's material.

One of the offenders, Evelyn Boyd, takes a dim view of the possibilities of preventing a recurrence of this apparent discrimination against Justiceburg as, for her, fate takes a hand in a manner that leads from bad to worse. As an example, she tells the story of an experience while working some years ago on the Lubbock Avalanche-Journal.

An error was made in the Sunday paper regarding the place of meeting of the 1928 Luncheon Club which, at the time, met every other Thursday in the homes of the various members.

Evelyn printed a correction of the street address in the Monday afternoon paper. The typesetter got the street number right, but set the name of the hostess wrong. Evelyn corrected it in the Tuesday morning paper. The typesetter got the hostess' name and the street number correct but gave the wrong date for the meeting.

In desperation, Evelyn attempted a fourth correction in the Tuesday afternoon paper. The hostess' name, the address and the date were as correct as could be, but instead of 1928 Luncheon Club, the item said the 1928 Longhorn Club was to meet.

Perhaps in several weeks, Evelyn believes, fate will forget about Justiceburg for awhile and concentrate on something else, as it does consistently in connection with all newspapers everywhere.

**News Briefs:**

The Post Dispatch is taking the blame—and the credit—respectively for the brief dust storm and light shower on Tuesday afternoon. They arrived just as Charlie Benson finished putting a coat of white enamel on the front of the office building.

Mr. and Mrs. Earl Thaxton left yesterday on a two weeks vacation. They went first to El Paso to visit Mr. Thaxton's parents, Mr. and Mrs. G. E. McPherson, formerly of Post, then they planned to go fishing at Hot Springs, N. M.

Mr. and Mrs. Homer McCrary left Tuesday of last week on a vacation trip to New Mexico and returned home this past Tuesday.

Mr. and Mrs. Hiram Sanders and son, Larry, have moved back to Post from Waco. He started Monday as card-room overseer at the Postex Cotton Mills.
