Ray N. Smith Steps Out Of Race For Clerk

Ray N. Smith, district and county clerk in Garza County since 1935, this week announced withdrawal of his candidacy for re-election to the office.

Smith, a resident of the county since 1915, was elected to the office in 1934 and assumed his duties on Jan. 1, 1935.

For a few months after moving to the county in 1915, Smith served as the first telegraph operator at the Santa Fe Railway station at Justiceburg. He came to Post as telegraph operator at the Santa Fe station here later that year, working there until 1922, when he accepted a position at the First National Bank, where he was employed until 1929.

Smith's withdrawal of his candidacy leaves only one candidate in the race for the office—Carl Cederholm, who is now serving as deputy tax assessor-collector. Smith, whose present term does not expire until Jan. 1, 1955, did not announce his plans for the future.

Cox, Camp Win In Trustee Election

S. E. (Shelley) Camp was elected as a new member of the board of trustees of the Post Independent School District, and Robert E. Cox was re-elected in Saturday's balloting, which brought out approximately 200 votes, as compared with a 132-vote total in the 1953 election.

Native Of Germany Is Rotary Speaker
Peter Monasch of Lubbock, a native of Germany, told Post Rotarians at Tuesday's luncheon how he and other members of his family were forced to leave Germany after the Nazis came into power under Hitler.

Monasch, who is in charge of the mail order department at Sears-Roebuck in Lubbock, completed his education after arriving in the United States in 1946. The family was in France for several years after the Nazis took over Germany.

He said his father, who served as a German officer in World War I, was an influential manufacturer before Hitler's rise to power. He said the Nazis forced his father to sell his business for one mark because he had incurred their disfavor by opposing their rise to power.

Monasch said all the family had to go on when they left Germany, the family jewels, which they had managed to keep from the Nazis. Monasch's father is now a member of the Texas Tech faculty.

The speaker and Dave Willis were here from Lubbock as guests of Shelley Camp, who was in charge of the program. Willis, former county attorney of Garza County, introduced the speaker.

'Appreciation Day' Program Discussed
The "Appreciation Day" program was the principal topic of discussion Tuesday at a meeting of the board of directors of the Post Chamber of Commerce.

The group decided to contact both participating and non-participating merchants to determine how they feel about the weekly Appreciation Days, which have been under way for the past 30 weeks.

It was also decided to repaint the Chamber of Commerce road sign one-half mile south of town on the Snyder Highway. The directors also discussed the brochures to be printed and distributed in the near future.

THE WOMEN, GOD LOVE 'EM: In the race to the altar some girls cover more laps than others.

The modern girl's ambition is just what her mother's was—to make some man a good husband.

COME TUESDAY, the major league races will get under way, and various and sundry sports editors are filling the gap between now and then by rating the 16 teams comprising the two leagues—American and National.

Frank Eck, Associated Press newsfeatures sports editor, picks the Yankees to win the American League pennant and the Brooklyn Dodgers to turn the trick in the National. Since these two teams won the pennants in their respective leagues last year, that prediction probably didn't take too much studying on Frank's part. But he goes on from there to list the way he thinks each of the other seven teams will finish in the two leagues.

In the American League, Eck picks Cleveland, Boston, Chicago, Washington, Detroit, Philadelphia and Baltimore to finish in that order. Over in the National League, he lines them up like this: St. Louis, Milwaukee, New York, Philadelphia, Cincinnati, Chicago and Pittsburgh.

The Yankees' chances to win their sixth pennant in a row seem to hinge on whether or not Mickey Mantle's trick knee holds up, and if Cleveland is ousted from the runner-up spot, a veteran pitching staff may be at fault. Just supposing that Mantle's bad knee handicaps him and the Cleveland pitchers suddenly emerge into their second childhood and right there you have a switch in the standings.

On top of Mantle's knee-going bad and something happening to Phil Rizzuto at shortstop, let's suppose that the Cleveland pitchers fail to regain their youth. That'd bring the Red Sox from third up to the top on the theory that Ted Williams can shake off any after effects of a broken collarbone if he can't, and still supposing that the Yankees are riddled and the Cleveland pitchers don't get any younger, that'll bring Chicago up to first place if a rookie pitcher they are counting heavily on should come through. Now, as you can plainly see, there is Eck's prediction shot to pieces as far as the first division is concerned.

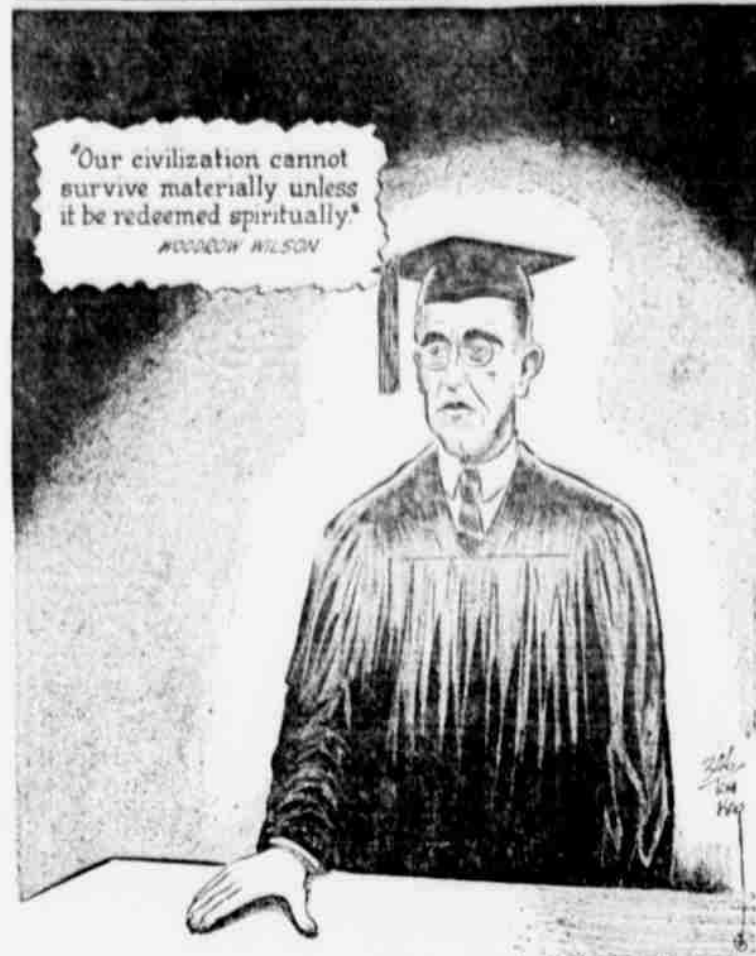

Now, remembering that Mantle and Rizzuto haven't come around, the Cleveland pitchers are still doddering, Williams hasn't completely recovered from his broken collarbone and the White Sox's rookie pitcher does not come through, that puts the Washington Senators up in the top spot, providing they can win a majority of the low scoring games which they figure to play. If they don't, and if the Yankee squad is still riddled, Cleveland's pitchers start appearing on "Life Begins at 80." Williams' collarbone continues to bother him, and Chicago's rookie pitcher is sent back to the minors, the Detroit Tigers have a chance at first place if rookie Frank Boiling makes it at second base and bonus player Al Kaline wins over center field.

If both Boiling and Kaline fail to come through for Detroit, injuries keep Mantle and Rizzuto out of the Yankee line-up, the Cleveland hurlers start using walking canes to get from the bull pen to the pitcher's mound, Williams' collarbone doesn't mend, Chicago's rookie pitcher fails to come through and Washington doesn't win a majority of the low scoring games which they figure to play, that will leave the top spot to the Philadelphia Athletics, providing pitcher Bobby Shantz makes a comeback.

Now that we've gone this far, let's say that Shantz doesn't return to the form which made him a 20-plus game winner in 1952, that the Yankees find themselves forced to get along without Mantle and Rizzuto, that Cleveland's pitchers continue getting older, that Williams does not get to play because of his collarbone, that Chicago has to find some other flinger to fill the place it had counted on the rookie pitcher filling, that the Washington Senators lose, instead of win, a majority of the low scoring games they figure on playing and that Boiling and Kaline fail to come through for Detroit. Do you know where that puts the Baltimore Orioles, whom Eck consigned to last place? It puts them right at the top, providing they don't act like the St. Louis Browns, whom they are by another name.

To reverse the procedure, let's say that the Orioles do act like the Browns, that Shantz has a bad season for Philadelphia, that Boiling and Kaline flub up for Detroit, that Washington loses all those low scoring games, that Chicago's rookie pitcher proves

Our Contemporaries Are Saying

Wouldn't Have A Chance

It looked like and felt like and smelled like rain Friday night, but when the old timers didn't get excited, I didn't either, and it was just as well. But there was a young lady buying groceries out at Foust's the night before who was excited because she'd heard there were tornado warnings for this area. Sid Bell calmed her down by assuring her, "A tornado would be foolish to buck this sandstorm."—Littlefield County Wide News.

Meaning Of Success

The following little thing, entitled "Success," appeared in a recent issue of a bulletin published by the Park Street Methodist Church of Amarillo. He has achieved success who has lived long, laughed often and loved much. Who has gained the trust of pure women, the respect of intelligent men, and the love of little children.

Made America Great

Glad we have a privately-owned hospital, instead of a cooperative or county-owned. Nearly all the latter are having more or less trouble and few, if any, of them are making expenses. Then there is an almost continual racket about who manages them, and who is the head doctor. The latest among the messes is over at Amherst. They have lately named a new board of directors, said to be a compromise board, and hope to get the matter straightened out. Private enterprise is the best, anyway you want to size it up. That is what made America great.—Terry County Herald.

Living Monument

Mrs. Florence Harrington, now of Plainview, who observed her 92nd birthday in January, remembers seeing the late Will Thomason, father of her old friend, Lee Thomason, putting out walnut trees in the Thomason Park south of Hale Center, years ago. She remembers that she warned him that the trees would not grow and that he replied, "Watch and see." Today, the lofty shade trees in the park are a living monument to his pioneer faith.—Hale Center American.

Could Happen Again

The sandstorms may keep our spirits down but they don't seem to have any effect on the price of coffee, which took another jump on the wholesale market this week. Just how long it will be before the increased price gets down to the consumer is not definite, but it's a safe prediction that coffee-drinkers will have to fill their pockets with something bigger than dimes before long. It seems likely that one of these days someone is going to come up with a substitute that will put the coffee growers right out of business. It happened to the butter boys, you know.—The Lorenzo Tribune.

"Where Good Food Is Never Accidental"

Thursday to Thursday

By CHARLES DIDWAY

Rainfall for the first three months of 1954 totals a measly 31 of an inch, making it the driest first-quarter since 1908, when nary a trace of moisture was recorded. . . ELLIS M. MILLS, Garza County's 1954 Cancer Crusade chairman, when asked about his workers for the drive now under way, said they'd be the same ones who helped the Rev. JOE E. BOYD in last year's successful campaign. So if you were a Cancer Crusade worker in 1953, you're being called on again this year. . . we gave F. W. CALLAWAY superintendent of the Southland schools, a long early last week about the trustee candidates there, and learned in the course of our conversation that this year's SHS graduating class will be composed of four members—all boys. They're planning a senior class trip to Florida late this month.

From TOMMIE D. DANIEL, Comanche Trail District Boy Scout executive, comes an invitation to the annual district banquet at Camp Post on Tuesday, April 29. Tommie and other adult Scout workers had a busy time of it over the weekend supervising the annual Camporee at the camp here. We paid a short visit to the scene of activities Saturday morning and watched Post and Slaton scouts compete in fire-building and tent-pitching contests. Among the judges and timers were PAUL SIMPSON of Post, DILLARD DUNN of Southland, CLARENCE VERETT of Ralls and LEROY VOIGT of Southland. . . Chief FRANK RUNKLES of Camp Post was in Saturday to ask us to cancel his classified ad to sell a saddle horse and saddle. Chief Runkles said he'd "sold out" after inserting the ad in Thursday's Dispatch. The camp chief said he wasn't helping in the Camporee because he was too busy getting the Scout swimming pool in shape for a mid-May opening.

Biggest news this week on the entertainment front is that JOHN N. HOPKINS will reopen the Sunset Drive-In Theatre on Thursday of this week. Johnny is an "adopted son" of the Lone Star state, but he's showing that his heart is in the right place by booking "Texas Carnival" as the season's first film at the Sunset. . . in answer to two or three recent inquiries, we're still undecided as to whether we'll enter the Adult Spelling Bee in Lubbock Saturday. After hearing ELLIS MILLS last year's first place winner, say he thought he'd rest on his laurels and not enter again this year, we're of the opinion that we'd be wise to do the same. The word "analogous," which we spelled "analogous," caught us flat-footed in last year's Bee, and our feet might be given flatter this year. Whether or not we decide to enter, we'll be pulling along with other Garza Counties—for young VICTOR HUDMAN to win first place in the student Bee. We think Victor, better known as "Senny," has an excellent chance to win the regional title.

CHARLIE GATES BOY SHAHAN, GERALD BLACKBURN, ALMON MARTIN and all the other members of the Post Municipal Alliance are elated over the fact that of 143 business and professional firms asked to come on board each morning during the coming Millennium Revival. . . all promptly agreed. Now, if attendance at the meetings is as good as the response in the closing request the revival will be an outstanding success. . . outside of their own area, very few people are aware of it, but residents of the Close City community are trying hard to win the current Farmer-Stockman

Accurate Forecast Of Business Conditions Might Follow Measure Of Mass Impatience

BABSON PARK, Mass.—It is said that men of equal experience and intelligence so totally disagree as to the outlook for 1954 I am one of few believe that at least the first half of the year will be fairly good.

Are We As We Think?

Business is partly, but not wholly, a psychological affair. Constructive thinking aids both business health and our physical health. Too many people are optimistic or pessimistic due to their physical condition, to the newspaper headlines, and to what radio commentators say. But these men may guess at their conclusions.

Most people think that stocks go up when there are more buyers than sellers, and go down when there are more sellers than buyers. This is a totally wrong belief, as there can never be a seller without a buyer, nor a buyer without a seller. Stocks go up when people are more impatient to buy than to sell, and stocks go down when people are more impatient to sell than to buy. The same principle applies to general business, real estate sales, and even wages. The impatience to buy, or to sell, determine prices. Impatience to buy, followed by impatience to sell, followed again by impatience to buy, causes Business Cycles.

How To Measure Impatience

No one as yet has discovered how to measure mass impatience. Photographers claim they can do it by photographing and studying the faces of the people on the streets, or in stores, or at public gatherings. Physicians claim they can measure the relative impatience of their "patients" who call upon them. The Dow-Jones theorists think they can determine the relative impatience of people by a study of their charts; but I have never found any chartists who became rich by such a study! Statisticians hope that the mechanical brains being developed by the International Business Machines Corporation, or Remington Rand, or National Cash Register Company will solve the problem. WE SALUTE THE MILL . . .

By proclamation of the Governor, this is Industrial Week in Texas.

In comparison to its population, Garza County should be observing this special week just as diligently as some of the more populous counties in which industry overshadows agriculture and every other endeavor.

In Post, the Post-Tex Mill, Inc., represents the town's largest year-round industrial operation. It has been in Post for more than 30 years and its history parallels that of the town.

The Post Dispatch, joined by the Chamber of Commerce and other groups and individuals, would like to pause this week to give recognition to the mill and its fine staff. This industry provides a sizeable payroll in the community, which is vital to the economic well-being and growth of the town.

We are indeed fortunate in these trying times to boast such an industry as Post-Tex Mill, Inc.

Nowadays if you don't have your own psychiatrist, people think you're crazy.

Most of the luxuries and many of the so-called comforts of life are not only not indispensable, but positive hindrances to the elevation of mankind.—Henry David Thoreau.

community improvement contest. Directing activities in the contest is the Close City Community Club—the 4-C's. Tuesday night of this week, the club presented the play, "Maid of Money," with proceeds going for the benefit of their community program. A first place win or even a high finish in the contest would be a creditable achievement for the Close City community, as well as for the entire county. . . resignation of JACK REX as president of the Post Jaycees automatically elevates vice president JACK LANCASTER to the top man position. Jack is a charter member of the organization and has taken an active role in its program, including service as chairman of the club's reflector lawn sign committee.

We noted with interest last week in an item from our Garza County correspondent, SHIRLEY WATSON, that the school's softball team is made up of both boys and girls. In fact, they're about evenly divided with girls filling the important positions of catcher, pitcher, second baseman, shortstop and right field. . . Post Girl Scouts are getting ready for their annual raffle sales—April 12 and 17. . . several divot diggers around town are talking about games of golf since opening of the Caprock Golf Course March 26.

This weekend's real letter date is Saturday, April 10, marking the formal opening of Caprock Chevrolet, Inc. Owners JOHN LOFT and HOWARD (Phonix) BROWN have lined up an attractive day-long program. . . the Post Magazine Co.'s first public appearance of the season will not be April 16 at Purlbach, as stated in last week's paper, but will be Friday of this week at Spur in the first annual get-together of the West Texas Sheriff's Poses and Riding Clubs Association. The Purlbach parade will mark their second appearance. . . windshield wipers advertising this year's Post Stamp and Botes, May 26-29, bear the reminder, "Y'all Come!"

W. A. LONG

Ladies Aid Society had their rummage sale the other night—and as soon as the doors opened, "Easy" Roberts was inside.

Without a word, he headed straight for the coat counter, picked out a shabby old tweed jacket, and paid for it. "Easy" told me a little later that buying his jacket back was getting to be a regular habit.

"That's been my favorite smoking jacket for years," he said. "And my wife talks me into giving it away regularly. Then I get to thinking how much I like

it and hurry down to buy that jacket back. This is the third time I've done it!"

From where I sit, everyone's entitled to his own likes—whether it's a sports jacket, a baseball team, or the beverage he likes for dinner. For example, the wife likes coffee along with Saturday night spaghetti while I like a glass of beer. We never try to "sell" each other on our personal preferences.

Recipe of the Week
By Mary Lee Taylor
Apple Bavarian Pie

1 pkg. lemon gelatin
2 1/2 cup boiling water
2 eggs, separated
1 cup Pet
1/2 cup sugar
1/4 teaspoon salt

1 1/2 cups graham cracker crumbs
1/2 cup melted butter or margarine
1 1/2 cups drained, sweetened apple sauce, cooked or canned
3/4 teaspoon cinnamon

Dissolve gelatin in boiling water. Let stand. Mix slightly beaten egg yolks, milk, sugar and salt in a saucepan or top part of double boiler. Cook and stir over boiling water until slightly thickened. Remove from heat, then stir in gelatin mixture. Chill until slightly thicker than unbeaten egg whites. Mix crumbs and butter thoroughly. Save 1/2 cup to decorate top of pie. Press rest of crumbs firmly in bottom and up the sides of 9-in. pie pan. Chill until needed. Beat egg whites until stiff, but not dry. Fold into chilled gelatin mixture. Put into crumb-lined pan. Chill until just firm. Cover with a mixture of apple sauce and cinnamon. Sprinkle top with rest of crumb mixture. Keep chilled until ready to serve.
