**New Officers** Of Lions Club Are Installed

Twenty-Eighth Year

Dr. Weston Petty, Lubbock optometrist, was principal speaker and installing officer Tuesday night at the annual installation meeting of the Post Lions Club. held at the school cafeteria.

Those installed as officers for the new club year beginning July 1 included J. A. (Jess) Rogers, president, who accepted the gavel from Phil Trammell, acting president of the club. Trammell had served as president since the resignation a few months ago of Virgil Short.

Others installed by Dr. Petty were H. W. Schmidt, first vice president; Wilf Scarborough, second vice president; Ben Owen, third vice president: Weaver Moreman, secretary; Noah Stone, treasurer; John Perry, tailtwister; E. E. Pierce, Lion tamer, and Walter Crider, Walter Lee Johnson, Earl Wrestler and Joe J. De Armon, directors,

Moreman, Stone, Pierce, Crider and Johnson were re-elected to their offices.

Dr. Petty, a longtime member of Lions International spoke on Lionism in his address preceding the installation. He described the Texas Lions Crippled Children's Camp at Kerrville as one of the biggest projects in the history of the organization, and said it was fitting that this biggest project should be in the big-

#### THE 11 AMENDMENTS . . .

Eighteen weeks remain before November's general election, but it isn't a day too early for Texas voters to start studying the 11 proposed constitutional amendments to be voted on at that time. Most of these proposed amendments are of the almost importance to the average citizen-

Since 1876. Texas has amended its Constitution 110 times. Too often during that time. it probably has been said. "I don't even remember how I voted on the constitutional amendments-or whether I voted on them. I'm sure I don't know what they were about,"

Such an attitude is showing very little interest in the affairs of government it's a voter's own ficult if he doesn't know what the proposed amendments are "all about."

One of the amendments, for example, would boost the ceiling on state spending from 25 to 42 million dollars per year, which would mean generally bigger old age persions and more money for the needy blind and

Other important ones include: Allowing four year terms for precinct, county and distrue elective afficees who now have two year terms; requiring hay service for women; allowing countries at 10,000 population or less to vote on whether they want a fax assessor-

Than's only four of the proposed amendbook Jaycees asking that we help round up a ments. Voters will have ample opportunity to study and weigh the merits of each between now and the isoveral election. They are arrest

This land will extend about 2,000 free plong and main highway, grong angle parking for from 250 to 500 cars.

This ample parking, however, will not be on highway land. The buildings will be 50 feet back of the street line, allowing puriting and safe backing out on private property. The buildings will be iseg and narrow Instead of being 200 feet square as at present, they will have the same area, but will be only 40 feet deep and 2,000 feet along the street, thus allowing for angle parking of over 500 cars. Private Tunnel or Overpass

I foreignst that the two sides of the main highway will be connected by a two-way tunnel or overpass, enabling cars and foot passengers to cross this main highway easily and quickly without accident. Thus, a customer leaving home to travel west, on this main highway, to these four super stores would leave the highway at the right and park anglewise directly in front of any super store under a protective canopy.

The customer would then do her shopping and go out by the checking cash register. walking under the canopy directly to her car. She would then back her car out with no fear of being hit by any car traveling on the main highway, would drive to the tunnel and cross under said main highway. If she wished to stop at one of the super stores on the other side of the street she could do so, or she could

You're Darned Right!

There is a tendency among the less competent type of public official to get the idea that the office he occupies is his own personal affair and that citizens, particularly newspapers, should not get too nosey about what goes on in "his" office. They lose witht of the fact that the people have more than a right to know -they have a duty to keep informed on what their government officials are doing with the money and power entrusted to them. The newspapers and other media represent the only practicial method for most citizens to keep so informed.

No Sale!

Right in front of Granny White's beautiful old house on Maple Avenue there's a brand-new sign: "Antiques, Inquire Within."

Now-don't get excited. Granny explained it all the other night -after we settled down in her parlor, me with my temperate beer, Granny with her tea.

I asked her if she was really going in the antique business. "Oh, no," says Granny, "I wouldn't sell anything. I put that sign up so folks would come in and talkand look around. If they insist on a price, I tell them some outcageous figure! I guess I just like people," she said.

From where I sit Granny can be excused for her little ruse. She may be in her eighties, but her mind is young-and open. She's the kind of person who's made this town so wonderful. Granny not only likes people-but she respects them and their preferences and opinions. Come to think of it, "liking" and "respecting" mean much the same thing, don't they?
