ROY HOLLY FINDS READY MARKET FOR BIRDS

### Parakeets Profitable Hobby

species of parrots, are proving profitable hobby for Roy Holly of Post, who was disabled in at cutomobile accident in 1948.

Less than two years ago. Holly obtained 18 of the birds from J. B. Stricklin of Lubbock, coun selor for the Division of Vocational Education and Rehabilita tion of the Texas Education Agency. Today, at his home here. in the south part of town, he has more than 150 laying hens and has found both wholesale and retail markets for the para ceets be raises:

Holly, who has been in a wheel chair since the auto accident. sald he does not believe could have chosen a hobby that would have brought him more enjoyment. Proof of this is seen in the three-compartment aviary he has constructed for the breed ing, rearing and keeping of the birds. Proof is also seen in the way his eyes light up as he shows the parakeets to visitors and describes their habits.

"Mr. Stricklin obtained the birds at his own expense to start me in the parakeet raising business, and I'll always be grateful," Holly said, "I'm trying to build the business up to where I'll be entirely self-supporting. and I enjoy every minute I spend at it." he said. Parakeets are popular, Holly

said, because they are easy to care for, "Even in raising them, there's not too much fuss or bother," he said. "Elaborate nests are not required-just a wooden box with a hole near the top and a shallowed out bowl-like bottom." Since parakeets breed prolifi-

cally, the nests are in constant use. "When the baby birds are about four weeks old, they fly out of the nest to make room for more," said Holly. Some hens have as many as 20 offspring in a year. The eggs—usually from six to nine in

number-begin to hatch about

### Thursday to Thursday

By CHARLES DIDWAY

The sheet of copy paper we fed into our typewriter Friday to write this column on didn't stay blank as long as it usually does while we rack our brain for a starting point. The height of the "duster," called one of the worst since 1934, hit while we were still pondering. We had our starting point after taking the paper from the typewriter, shaking off a pound or two of dust and starting over again.

Although it will be six days gone before this is read, the dust storm probably will still be one of the week's top discussion topicsespecially among housewives, many of whom will be "digging" out from under the sand and dust deposits for days to come, It was a record-breaker and we are one of the many who hopes the record stands for a long, long time. Not many of us are hardy enough to choke through another one.

Congratulations to Mr. and Mrs. J. E. Rogers on the celebration of their 60th wedding anniversary this afternoon at the home of their son. Jess Rogers. Twenty-fifth wedding anniversaries are considered newsworthy: 50th ones are doubly so, and when a 60th one rolls around, it's really an occasion for every-

The Rogerses were married in 1894, which was a long, long time ago-six years before the turn of the present century. To the Rogerses, of course, their marriage was big news, but that was also the year Jacob S. Coxey led-20,000 unemployed from the mid-west into-Washington; the year the Chinese-Japanese war began, and the year of the first public showing of Thomas A. Edison's Kinetoscope.

It was also the year of the first gasoline automobile, a "Panhard," which incorporated many features of the modern car, and the year extensive experiments were carried on with heavier-than-air machines, although the first successful airplane flight wasn't to come until nine years later.

Again, congratulations to Mr and Mrs. Rogers on their Diamond Jubilee!

If organization means anything-and who will argue that it doesn't?-then this year's Southwestern Championship Junior Rodeo should be a humdinger. The Feb. 15 meeting of stockholders was the best-attended of any In the six-year history of the organization and reports were that groundwork was laid for an outstanding event Next Monday, officers and directors of Post Stampede Rodeo, Inc., will meet to set the dates of their show, which usually comes about two and a half months. ahead of the junior rodeo.

On the wall of the office of D. C. Arthur, superintendent of the Post schools, hangs a framed letter commending the school administrators for doing a good job in directing the education of the community's young people. We won't publish the name of the grateful citizen who wrote the letter, but his first name begins with an "L" and his last name. with an "S" and he's in business here.

from the type that achool heads usually re-est to make plans new to visit the schools durreive, he hit upon the idea of framing it and ting Texas Public Schools Week, March 1-6.

#### PUBLIC SCHOOLS WEEK . . .

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of publication education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 100 years ago. In 1854 the first law passed establishing the public school. What about the next

It is a healthy thing in our democratic way of life to have an intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problem of citizenship in the years

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools-schools that are strong in the virtues required for building strong men and women.

We can be assured of this and do our part understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 1 through 6. The Post schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school-if but for a day. Remember it is Centennial Year for Texas Public Schools-"Texas, Public Schools-Democracy in Action.

When a Hollywood couple marries no one ever asks if they had been married before. All they want to know is, how many times-

hanging it in a conspicuous place for all to see. It seems a shame that such letters, not only to schools, but also to other public institutions, are so rare that those receiving them frame them as something special.

Johnny Christopher's "Choralteens" are on the move again. A couple of weeks ago, the high school choir made an assembly appearance at Floydada, and followed it up last week with one at Taboka. Both the choir and Bobby. Robbins' high school hand are looking ahead to the regional music contests-one of the many events which make the last couple of months of the school year a busy period.

In covering the grade school tournament at Southland, where Coach Herman F. Raphelt's team wan second place, and the Rotary sponsored independent tournament here, we've crowded a lot of basketball into the past few days-starting it off by watching Coach Vernon Ray's boys and Coach Jiggs King's girls. close out their scason here against Slaton. It ion't over though since we're planning on seeing most of the games this weekend at the Graham grade school tournament.

SCRATCHPAD SCRAPS: The first week in March will be tell Club Week, and Miss Jessie. Pearce's girls and Lewis Herron's boys plan observances. The annual spring club boys: stock anow will be purt of the observance, although it doesn't come off until March 13. . . the entire community is invited to join in a World Day of Prayer program March 5 at the D. C. said that the letter was so different. First Presbyterian Church ... everyone is ask-

Roger W. Babson Writes This Week:

### The 'Boom' May Not Continue, But Future Still Bright For Families Who Work Hard

BARSON PARK, Mass.-While so many forecasts for 1954 are discouraging. I give four more reasons why I cannot be so fearful as are many economic writers. Take a look at them and have faith in your country and your

More Money And More People

In the first place, people have money to buy. I repeat what I have said before-"top 50% of our families have readily convertible savings amounting to a staggering \$97 bil-"ions." 95% of all families probably have more soney in savings accounts than ever before. It is true that installment debts on cars, refrigerators, and television sets have increased during the past twelve months; but these are now being reduced. Moreover, money invested in these durables cannot be written off as "gone." Homes are always a good investment. So long as one is employed, money invested in a home may be as good a reserve as cash in a bank. In short, potential buying power never was greater.

Second, our swiftly rising populationwith a record four million births in 1953-is creating a vast number of new wants that must be satisfied. Ten years from now we may have forty million more in our population than we did at the end of World War II. Take all the wants and needs of one individual and multiply by forty million and you will get some idea of what a staggering impact the increase in population alone can have on our economy for some time to come, provided it is of good character. Population alone is not enough; people must have good habits, sound faith, and useful intelligence. Liberalized Republican Thinking

Third, the liberalizing of the thinking of our present Administration should help hold our economy high. For example, it has reversed itself on its hard-money policy; credit has been eased. Tax relief for both the individual and business is already under way. This Administration is prepared to go further with higher minimum wages, reasonable aid to the farmer, useful public works projects, and broader social security benefits.

Fourth, the millions of warning words and the current skepticism of the future may

furnish a considerable element of psychological strength. There is little question but what skepticism has kept many a businessman and consumer from overstepping with regard to future commitments. The pessimistic forecasts may themselves prevent real trou-

Comparing 1954 With 1929

During the past few weeks I have been reading the newspaper and magazine articles published in 1928-1929, preceding the last depression. I find very few warnings. Herbert Hoover had just been elected President and he had chosen an able "businessman's" Cabinet. In fact, directly after his election the stock market shot up 20 points. Nearly all the business and financial prophets were then bul-

Hence, people were not then on their guard. Yet, they should have been warned before it was too late. If warning had been given in 1929 as it has now been given, the great 1930-33 declines in building, textiles, clothing, leather, and automobiles would not have been

Recall Your History

After every war, our country has had a letdown. This was true after World War I. Earlier, the same pattern had followed the Spanish-American War. An even more severe reaction set in after the Civil War. Yet, most economists say that it is now nearly ten years since World War II and we have had no readjustment of our continued prosperity.

But, is World War II at an end? Or, may we now be in World War III? What is the economic difference between a "hot war" and a "cold war"? I do not pretend to know all the answers, but I do ask these pertinent questions. After every period of inefficiency, waste, and unrighteousness, there must always be unemployment to punish us for our sins. But has this time come yet? Business and employment for the first half of 1954 could still be at a high level. So-take courage! The "boom" may not continue, but the future is still bright for families who will work hard and use any idle time to study and to build up physical and spiritual health,

### Getting Out On The Limb

by EDDIE the editor

THE WOMEN, GOD LOVE 'EM: A recent survey shows that 4 out of 5 women haters are

It frequently happens that the after dinner speaker who reminds his hearers that he has not anything to say, keeps on talking until his audience is con-

After hearing both sides of some questions we are never satisfied until we hear the truth.

I SEE BY THE papers that the Muleshoe Chamber of Commerce has received 1,000 ideas and suggestions for ways of improving the community. These "tips' came from public spirited citizens during a special clinic, and most of the suggestions will undoubtedly become a part of the Chamber program of work, according to George Hicks, president of the organization.

Cards with suggestions written on them will be analyzed, catalogued and coordinated by the West Texas Chamber of Commerce, officials said. That organization, in turn, will summarize its findings and make suggestions as to what parts of the proposed program of work should be begun immediately. I think the Muleshoe idea,

from the standpoint of community betterment, is a good one, and that very few, if any, other communities would make a mistake by conducting similar clinics. Out of 1,000 ideas and suggestions, some, no doubt, are of a screwballish nature, but there are bound to be a large number of good workable ones. To say the least, it enables the Chamber of Commerce to feel the community's pulse

I also read of a painless way for raising \$78,000 to provide for a new industry in a town-but which could be applied in other towns for any fund-raising purpose. This unique fund drive was started recently in Mauch Chunk. Pa\_ at the suggestion of Joseph Boyle, editor of the Mauch Chunk Times News. The plan calls for 6,000 re-

sidents of the town to kick in a nickel a week for five years -260 weeks-or a total of \$13

Due to the fact that the town lost ground economically when the two railroads that served it curtailed their service, residents now have to travel 30 miles to get employment because of no local industry. Mr. Boyle thought up this plan for starting an industry at home

"I first thought about this nickel a week idea three or four years ago," said Mr. Boyle, "I mentioned it around but nobody seemed interested. As things got worse last Spring. I took it to the Woman's Club

They were for it. We took the buil by the horns and ended up with a Nickel a Week Committee that included every organiza-Well, that just goes to show

nickel still will go a ways in some instances. So will pennies, for that matter. Not long ago there was a brief item in the papers about a man who asked everybody who thought they could spare a penny to give him one to help him back on his feet after a stroke of hard luck. His home town newspaper made the appeal for him and the story got on the press service wires. Pennies poured in-one at a time -and finally amounted to enough to set the man up in a small business.

It wasn't a case of anyone owing the man anything. He just figured that no one would mind parting with a penny. It would not hurt them individually and. collectively, it would help him. If, however, you are figuring on making such a campaign don't do like the fellow who used a three-cent stamp writing all his friends and relatives asking each of them for a penny. You've got to watch your overhead on such promotions.

I never think of a penny without thinking of once reading that if you'll start on the first day of a month by saving a penny and doubling the amount each day, you'll be a multi-millionaire by the end of the month. It sounded so incredible when I read it, that I sat down with penny pencil and a five-cent Big Chief tablet to prove it false.

The way I figured it, the second day I had only three cents and the third day, seven cents. From there it looked like I'd miss the million mark by umpteen thousand dollars. The fourth day I was worth 15 cents and the fifth day, 31 cents-still not enough money to cut much of a figure, even in those long-ago days of low prices and lower

The sixth day I was up to 63 cents, and by the end of the week had \$1.27. The eighth day, I was up to \$2.45, but still didn't see anything to get excited about. On the ninth day, I was worth (on paper) \$5.01, and on

the tenth day, \$10.13, I'll admit that on the 11th day when the figure jumped to \$20.37 things began to get more complicated, but shucks, the month was more than a third

### THE AMERICAN WAY

Hogging The Bench

### Our Contemporaries Are Saying

Like Foolish Virgins

Like the foolish virgins, the elms this year are showing a lack of judgment, Locally, the trees are heavy with buds which seem ready to break into bloom at a moment's breath of warm wind. But consider the brittle chinaberry trees. They are as conservative as a country banker. Warm winters won't fool these seldom are these trees caught with their blooms out by a freeze. No charge for above information -- O'Donnell Index-

A Good Idea

The idea of clearing all solicitors seeking donation or advertising in the name of the churches thru the Chamber of Commerce is a good one. The chamber manager will, in cooperation with the various ministers, be able to screen out the fakes and the fly-by-night salesmen who gyp the businessmen of the town in the name of religion or Christianity. We know one church that was taken in by a slick fan salesman who solicited funds from

gone and I still had most of the pencil and all but a few sheets of the tablet left.

By the time I'd figured past the 12th day, I was up to \$40.-85, and at the end of the 13th day, \$81.91. On the 14th daythe end of the first two weeks -the figure had soared to \$163. 83, but the month was half gone. and a multi-million dollars is a beek of a lot of dollars.

Going into the third week, I came to the end of the 15th day and the figure was \$327.67, soaring to the astronomical figure of \$655.35 by the end of the 16th day. I began to have my doubts after laboriously figuring that at the end of the 17th day my mythical penny had mushroomed to \$1,310.71. But I wouldn't give in, not even at the end of the 18th day, when the total I wrote with the now well-worn pencil showed \$2,621.43.

I won't bore you with all the day-by-day figures, but at the end of the third week, the penny I pretended I started with was worth \$20.971.51-still a long way from a million dollars, let alone a multi-million.

Well, to make a long story short, my make-believe Indian head penny passed the milliondollar mark on the 27th dayhitting \$1,344,177.27, and I no longer was a doubting Thomas.

The following day it zoomed to \$2,688,354.55, and on the last day of the 30-day month I started with, it hit \$10,753,418.23, and I was a multi-millionaire-with no money to buy a new penny pencil and five-cent Big Chief

If it had been a 31-day month, my penny would have multiplied to \$21,506,836.47, which goes to show what a heck of a difference one day can make.

the merchants of the town to purchase fans for this church. This particular church has no fans to this day. We hope that it works out and that these kind of buzzards will have to look elsewhere for their prey.-The Andrews County News. Planning Big Birthday

The Texas public schools are now 100 years old and they're planning a whopping big birthday during the first week of March, Governor Shivers has set that week aside as Public School Week. The schools hit their century mark Jan, 31, but the big celebration of the event was moved up until the first week of March.-The Canyon News,

Clear As Mud A few people-kings, queens

and newspaper editors in particular-have a rather annoying habit of saying "we" when "I" would do just as well, usage, although it may help to bolster their flagging egos. seems to denote that the speaker is expressing the views of some vast, ill-defined body. Such, however, is not the case, "We" usually means just "I," and nothing more. This editor, having long been a party to this crime against clear speech, has decided to cease and desist from this practice. Not yet having attain ed a plural state, from this moment on I will say I when I mean L and will not say we when I mean I and ... oh, well, you get what we-oops-what I mean,-The Lorenzo Tribune.

#### Is It Worth The Cost?

Born of the Sen Sen generation and without a sister, my early social life was extremely limited as was my understand-ing of girls. I don't believe I ever held a girl's hand until I was 13, but the next year I wrote and received notes in school. The shame of it is still humiliating: the brown-eyed blonde girl whose seat was next to mine, stood, at the teacher's command, and read the three-word message I had written and foolishly endorsed. I can still hear some of the laughter in the high-ceiling school room, I wondered then, and many times since, if romance is worth the cost.-Matador Tribune.

#### Whatever That Is

Funny, yes, very funny. Thought that new pharmacist over at the Nelson place was very insistent that we take one of their almanacs. Even handed it to us. But after we had time to look at the thing, and by to figure what the weather would be come Feb. 31, we found the catch. It was in Spanish. Couldn't even read about their medicines, except there was a heck of a lot about Guadalupewhatever that is .- The Terry County Herald.

### Age Is Not Always Index To Condition

AUSTIN (Spl.-Some folks are old at sixty while others are mentally and physically alert at eighty. The number of years one Robert W. Sisson, manager of has lived may not be a true said that the minimum extra tion, Actually, the length of a payment a veteran may make is person's life span is influenced at least the amount of one by the condition of his arteries month's payment, or a flat \$100 | "Premature hardening of the arteries, often due to avoidable "Veterans who make extra infections, improper diet and pospayments may have the extra sibly worry and strain is to a certain extent preventable," deciared Dr. Geo. W. Cox. state health officer.

Many of the problems connected with the hygiene of old age are due to lowered mental power. Therefore, a cheerful and optimistic attitude toward the is essential to their well being.

Old people regard their condiion as far less serious when they can be fully dressed and out of bed. When they can be up, the excretory organs function more satisfactorily. However, when an elderly person complains of being overtired, or

otherwise not physically fit, day of rest in bed is advisable. By providing light and easily digested food and applying warmth to the body of an aged patient, he is often tided over a mild or threatened illness.

Special attention should also be paid to proper clothing, diet and exercise of the elderly. With reasonable attention to certain well defined and easily followed principles of personal hygiene, it is possible to grow old grace CROSBYTON-Steve Matthews, fully. Futhermore it is also pospleasure rather than a burden.

### FFA Chapter, 4-H Clubs Invited To **Enter Candidates In Princess Race**

America chapter and each of the the contestant. county's 4-H clubs are invited to enter a contestant in the South | ter entering a girl in the prin Plains Junior Fat Stock Show princess contest, being sponsored by the Lubbock Chamber of fering an animal in the show Commerce.

As in 1953; the stock show is sponsoring a contest to elect two princesses to reign during the event, W. H. Tinney, chairman of the show, has announced.

"Each 4-H Club and FFA chapter may enter a young lady as an entrant. The final judging will result in the selection of two princesses, one nominated by a 4-H club and the other by an FFA chapter," he explain-

As official hostesses during the show, March 15-16-17, they will be on hand during every judging event to present the ribbons to the boy winners, and they will also appear at the annual barbecue to present awards and checks, Tinney said.

The 4-H contestants will be judged by five FFA chapter presidents and the FFA girls by five 4-H club presidents. The judging is scheduled for 10 a. m. March 13 at the Lubbock Chamber of Commerce office, 902 Texas Av-

Judging will be on the basis of beauty and appearance, and all contestants will wear street dresses for the event, according ed word recently of the death to the official rules.

1. Each contestant must be entered by a 4-H club or FFA chapter. In the case of FFA chapters, since they have already elected "sweethearts," they

#### Name Chairman For Good Posture Week

Dr. L. J. Morrison has been appointed city chairman of the Correct Posture Week Committee for Post.

His appointment was announced by Dr. J. C. Shipman of Abilene, chairman of the Chiropractic Public Health Committee of Texas, which annually sponsors Correct Posture Week in Texas

The week will be observed May 1-7. During this period chiropractors in Texas will stress the importance of good posture and its relationship to good health in the hopes of correct-ing postural faults. This year marks the fifth straight year it has been observed in Texas,

Detailed plans for the observance of Correct Posture Week in the area will be announced later by Dr. Morrison.

"All ages and occupations can be affected by bad posture which can cause illness and disease if not corrected." Dr. Morrison said. "therefore, the Public Health Committee sponsors this week of emphasis on good posture in the interest of good health."

Regional chairman for area is Dr. A. E. Hewitt of Lock-

According to the patrol commander, less than 50 per cent of the cars in the Garza County area have been inspected to date. This means, he said, that car owners who have not yet had their vehicles checked will run the risk of being caught in the last-minute "log jam" at the inspection station if they de lay longer in complying with

The patrol captain said that the men in his command have all received orders to give tickets to persons who operate an auto after April 15 without a current inspection sticker. The order was given, Posey said, as the result of a directive issued at Austin by Homer Garrison, Jr., direc-tor of the Texas Department of Public Safety.

Posey said that Garrison's order was made following definite instructions from the State Public Safety Commission that enforcement of the modified motor vehicle inspection law which was enacted by the last Legis-lature would definitely begin following the April 15 inspection

The patrol captain also pointed out that local and county police officers are empowered to enforce the inspection law.

"Our patrolmen will continue to issue warnings to motorists whose cars do not bear a current inspection sticker through April 15." Posey said in a prepared statement for the press and radio, "After that date offenders will face court action."

Mr. and Mrs. Rogers Curry and children of Plains visited here Friday afternoon with Mr. and Mrs. Charles Didway. They were en route to Rule to visit his mother. Curry is owner and publisher of the Yoakum County Re-

### Drouth Reduces Garza Cotton Acreage Figures By 56,379

1952 and 52.739 acres as compared with 1951, according to figures furnished by the West

The county's 1953 cotton acreage was 19.761 as compared with 76,500 acres in 1952 and 72,500 acres in 1951.

The WTCC Thursday called for it be done. Fielder explained. official recognition of the region's loss of cotton because of the drouth.

cultural Stabilization and Conservation Committee, the regional chamber said that 80 West Texas counties lost 2,016,717 acres in 1953 as compared with 1951 and 1.805,627 acres as com-

"The cotton farmers in these drouth counties certainly have died in a Lubbock not contributed to the surplus of cotton in 1953, and to fail to recognize drouth-lost acres as 'cot a clevated sidewalk ton acres' would doubly penalize the farmer when allotments are SS Representative the statement set for 1955,"

> "The cotton history or record of cotton acres in 1953 in each quotas which may be alloted to at 11 a. m. Thursday, March 4. these counties in any control program which may be alloted

Because of the drouth, Garza; five years," R. M. Fielder of Abi-1627 acres lost in 1953 as com-County lost 56,739 acres of cot- lene, chairman of the WTCC's pared with 1952 acres "is more ton in 1953 as compared with Agriculture Committee, com-

mented. Representatives of the Chamber conferred last week with of that Dawson County alone ficials of the U.S. Department of Agriculture in Washington acres, which is more land than and were assured that the adjustments will be made if the tire State of New Mexico." State committee requests that

In announcing the WTCC action, Fielder said that the organization had been preparing data for the request and had been conferring with representatives of the cotton industry, the State that the "best course of action ASCC. U. S. congressmen, and the Department of Agriculture since August of last year.

Reliable figures on actual cotton plantings in 1953 were not available until recently. The WTCC letter to Claude McCan, The chairman of the State committee, pointed out that the 1.805.

land than is planted in cotton in any other state except Arkansas and Mississippi," and "showed a reduction of 304.184 is planted in cotton in the en-

The trip to Washington last week followed the advice of Representative Clifford Hope of Kansas, chairman of the House Agriculture Committee, who told WTCC representatives in a conference on January 13 at Waco is to get an administrative de cision from the office of the Sec. retary of Agriculture that the losses can be adjusted."

Fielder said that this decision. obtained last week in Washington, clears the way for the State committee to request action by Day and Debra of Plainview and the Department of Agriculture, the Wilton Paynes of Tahoka.

# Is Coming To City

A representative of the Lubbock Social Security office will be in the district courtroom here to offer assistance on matters pertaining to social security.

A special guide sheet to help self-employed persons in correctly reporting their net income for seial security purposes is now ivailable, John G. Hutton, maniger of the Lubbock office, an-

nounced today.
This leaflet, "Helpful Guides on Reporting Your Self-Employment Tax," he said, has been issued by the Social Security Administration to supplement in structions given with the Federal income tax forms.

Pointing out that social security benefits payable to a self-

employed person and his family in his old age, or to his dependents in case of his death based on earnings credited to his social security account, Hutton stressed the importance of correct reporting. "It costs the worker as well as the Government additional time and expense when an incomplete or incorrect return has to be straightened out," he declared. This guide to accurate reporting of self-employment net income is available for the asking at the Lubbock and other social security offices or may be ob-tained from any branch office of the Internal Revenue Service. Hutton urges all self-employed persons whose trade or business is covered by social security to get a copy before making out their 1953 Federal income tax

form. The social security tax of

2½ per cent must be paid at the time the form is filed on or be-

Sgt. E. A. Droskin of Texas Aviation Cadet Selection Team 572 will be at the post office here from 9 a. m. to 4 p. m. Thursday, March 4, for the pur-pose of interviewing and testing young men from Post and vicinity who are interested in the U.S. Air Force aviation cadet program.

Young men who are between the ages of 19 and 26%, single, have a high school education or more, in good physical condition and have the desire to fly, are urged to contact Sgt. Droskin while he is here.

Men who make application here and are found tentatively qualified for training will be sent to Lowry Air Force Base at Denver, Colo., for physical and final mental examinations. All expenses to Denver and return will be paid by the U. S. Air Force. Rooms and meals will also be furnished during his stay in Den-
